PLAINFIELD EVENING NEWS.

Vol. 7, No. 2. PLAINFIELD, N. J., "THE COLORADO OF THE EAST," WEDNESDAY, JUNE 1, 1887. Price Two Cents.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

6 a. m.	53	55	Sun rises	4 31
9 a. m.	57	66	Sun sets	7 34
12 m.	72	74	Moon rises	1 32
3 p. m.	81	84	Moon sets	1 35

JOB PRINTING OF ALL KINDS FROM A CARD TO A POSTER, IN THE BEST STYLES AND AT THE MOST REASONABLE RATES. TELEPHONE CALL NO. 42.

SOTTINGS.

The Directors of the Public Library will hold a meeting at eight o'clock this evening.

—Services appropriate to the month of June will be held in St. Mary's and St. Joseph's Catholic churches Friday evening at eight o'clock.

—Foreman Skelley with a gang of men will leave for Trenton about the middle of this month to overhaul the lines of the electric light company in that city.

—As will be noticed by advertisement elsewhere, Drs. Damon and Gladwin the vitapathic specialists have concluded to remain in Plainfield a little while longer.

—A valuable watch dog belonging to Policeman Flanagan was killed during Decoration Day from injuries received a short time ago, when some person kicked him unmercifully.

—Mr. L. Heyniger has secure a quarter interest in the mill at North Branch. He wanted to be sure to receive pure goods, so he gave the miller 25 cents; hence his quarter interest.

—The memorial service of Garfield League was held in Reform Hall on Monday evening. Rev. D. D. Lore officiated and there was singing by the children of Houghton Division, an auxiliary of the League.

—A curious crowd was gathered in front of the City Hotel on Second street last evening watching the operations of Charles Seibring's new well-boring apparatus. A well will be sunk in front of the hotel for the convenience of the traveling public.

—Winfield Scott Post is still short of funds to meet the expenses incurred by the Memorial day exercises. Contributions came in slowly and the Post is anxious to settle its indebtedness. Small favors in the shape of silver and banknotes will be thankfully received.

—Gen. Drake's Veteran Zouaves, of Elizabeth, will tender a reception to the famous Chicago Zouaves Thursday night. The reception will be a notable one, as all the prominent citizens will be invited, and every preparation will be made to give the visitors a rousing welcome.

—Mme. Alberti, who has so often pleased Plainfield audiences by her fine abilities as an elocutionist, will appear in an elegant program, at Mirror Hall, Somerville, next Thursday evening. Names of the artists and parts will be found in another column, besides the announcement of a special train returning to this city after the entertainment.

—In another column will be found the announcement of special train service, to accomodate those attending the entertainment at Mirror Hall, Somerville, to-morrow evening June 2. Mme. Alberti elocutionist, Miss Maud Morgan harpist, Mrs. Chandler and Mr. Williams, popular soloists of New, ark, are among the features of the evening.

—An important item was omitted from yesterday's report of the physical exercises at Music Hall—the feast of ice cream given to the chorus and other scholars who took part in the exercises. Although last this part was not least in the program, and showed the thoughtfulness of the post and their obliging lady assistants in providing for the comfort of the young people.

—William C. Smith, mason, has received the contract for the erecting of a three story brick factory on East Third street, 22x80 feet. It will be occupied by Morgan C. Bird for manufacturing his newly patented coal-loading machine. Mr. Bird has recently received numerous orders for the machine and *building operations will be pushed rapidly* forward so that he may soon fill them.

—On Saturday evening about five o'clock a steamer struck the temporary draw-bridge over the Newark bay at Elizabethport and damaged it to such and extent as to make it impossible. All trains going east or west were obliged to run over the new "draw" which is not yet completed. All the evening trains arriving at the station in this city were from fifteen minutes to a half an hour late.

—An effort is being made at Westfield to organize a military company to be attached to the Third Regiment if there is room in that regiment, otherwise as a separate company. The organizers are working the matter up quietly but energetically, and nearly thirty young men of Westfield and Cranford are pledged to join the company. A preliminary meeting will probably be held next Tuesday evening.

—Michael Pickat alleges that about 12 o'clock on Saturday night last while he was passing along Union avenue, two men, looking like tramps, confronted him and demanded his money and other valuables. When Michael disclaimed all knowledge of being in possession of such luxuries they threatened to do him bodily harm, whereupon Pickat says he whanged them over the heads with a club and knocked both men down. He then fled for assistance and has not seen the men since.

—The appeal case of Blackford vs. Manning, heard 26th. ult., before Judge Cowenhoven, at New Brunswick, is reported decided in favor of the plaintiff. Nathan Blackford, the plaintiff, resides near New Brooklyn, and three miles from Plainfield where he follows farming. He sued Manning, who is also a dairy farmer, named Albert S. Manning, with breaking down his fences, injuring his corn and grass, and with trespass generally, and sued him for damages. The case was tried before Justice Hayter, of New Brunswick, and a jury of twelve men, and the plaintiff got judgment for $90. The defendant appealed, and the plaintiff again won, the amount of damages however being placed at $40 and costs.

Beginning Our Fourth Year.

Yesterday THE NEWS was three years old. To commemorate the event a double number was issued, containing nearly fifty per cent. more reading matter, of the most interesting character, than has been published in any daily ever published in Plainfield, except THE NEWS. But, pshaw, that is an every day affair with us. The people expect it of us, and they know we won't disappoint them, unless unavoidable. We stop at nothing within reach that will add to the value of THE NEWS *to our readers*, and have the great satisfaction of knowing that our efforts are heartily appreciated. Our telegraphic service is the same as is furnished the first-class afternoon papers of New York, such as the Mail and Express, The Evening Post and The Evening Sun, for which each pays for the franchise alone two hundred dollars per week. It is very difficult for any local paper to obtain the franchise at any price. We have got it, and have control of all the telegraphic service to Plainfield and this section of the State, and we are the only paper to which such service can be sold, by virtue of our purchase. We believe we are also the only paper in the State having exclusive control of the service of the Associated Press Association, in itself something which any wide-awake newspaper man would hold to be of very great value. But all these are only accessions to our local department. THE NEWS, as a local newspaper, has a reputation all over the State, and, as we have before stated, the *New Jersey Editorial Association* have placed it, *in the last annual report*, next to the top of the list of valuable local newspapers. We propose to spare no energy in the future to keep the reputation already won and win fresh laurels. We will try conscientiously to do our part, and we have no fear but that the people of Plainfield will do theirs, and that by another three years our friends will have increased at even a greater rate than in the past three.

You have only to compare THE NEWS with any New York afternoon paper even to fully appreciate it We give

1. All the local and State news, full and complete.

2. All the morning news, just as complete as *the New York morning papers*.

3. All the important afternoon telegraphic news to the hour of going to press, just as complete as is supplied in any New York afternoon paper.

4. Illustrations of all the important events occurring in any part of the world, and most excellent pictures of prominent people, and of the latest fashions.

5. The latest scientific discoveries, and the latest improvements for the farm and garden.

6. All the choicest wit and humor current, with illustrations.

7. And last, but not least, matters of especial interest to women and home.

In the matter of opinions we have always been outspoken for what was deemed just and right, and if there is anything more needed, good reader, please tell us of it and we will try and have it forthwith.

Bicycle Notes.

Messrs. Herbert Stover, John M. Crane and Craig A. Marsh rode to Milburn Monday to witness the road races.

A large number of wheelmen from all parts of Plainfield and vicinity rode from Westfield to Irvington and Milburn Monday afternoon.

Mr. P. W. Bergen, of Bound Brook, last week won the gold medal offered by the Somerville Bicycle club in a 500 mile race. The club offers a gold medal to the winner of a 1,000 mile race.

The Union County wheelmen are offering liberal inducements to their racers and riders —a medal with a bar for each thousand miles ridden, a prize for the one-mile track championship, and a trophy for the fifteen miles road championship.

Capt. A. L. C. Marsh, Jas Sandford, F. L. C. Mackie, Jr., J. M. Wyckoff, Jr., A. McKinney, G. W. Morrison, F. D. Heyniger, W. Milliken, R. Martin, and James Allen Worth, of the Plainfield Bicycle club, started on Saturday last for a trip to Red Bank, Seabright and Long Branch. They rode to Orange Valley and witnessed the road races at the latter place, after which they rode home by way of Springfield and Westfield arriving in Plainfield about 5.30 Monday evening. They had a very good time and will probably get up another trip next month.

Hospital Officers.

The following officers of the Muhlenberg Hospital were elected at the meeting last night:

President—W. R. Potts.
First V. P.—R. K. Case.
Second V. P.—Chas. Schipper.
Secretary—W. R. Cock.
Treasurer—Geo. H. Goddard.
Managing Committee—E. B. Clark, S. K. Case, W. R. Cock, E. W. Errickson, Chas. Schipper.
Finance Committee—W. E. Lowe, John M. Whiton, Samuel Huntington, J. Evarts Tracy, Jno. Jackson.

Mission School Closing Exercises.

The closing exercises of the Warren Mission Industrial School will occur next Saturday afternoon, June 4th, at 4.30 o'clock, in the Methodist church, North Plainfield. A Burlesque entitled the "Peak Sisters," will be one of the features of the program.

Visitors will be most cordially welcomed on this occasion. The school will occupy seats arranged in them behind the platform and the session in the main building will be reserved for guests. All are welcome to attend.

Shot at the Engineer.

On Monday evening last a number of boys were hanging around in the engine room at the Cresceus Fork. The engineer Robert Manning ordered them out, but they objected. He then attempted to forcibly eject them, when one of the gang, it is alleged whipped out a revolver and shot at him. The boys were all more or less under the influence of liquor and were very boisterous. Mr. Binning talks of making a complaint against the young ruffian.

—The young people of the Crescent Avenue church give an entertainment in the church parlors this evening.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Thursday, in New Jersey, eastern New York and eastern Pennsylvania, fair, followed by partly cloudy weather, with slight thermal changes, preceded by rain near the coasts, followed by fair, cool weather.

Thirty-five Thousand Dollar Fire.

HARTFORD, Conn., June 1st.—A fire occurred this morning in the rear of Lambertsteine's block in Collinsville, which was wholly destroyed, together with Barbour Smith's block, three stores, four saloons, two tailor shops, a drug store, a jewelry store and one family was burned out, also the Knights of Pythias Lodge room. Loss $35,000.

The Fortuna Ocean Voyage.

MARBLEHEAD, Mass., June 1.—Owing to the storm the yacht Fortuna did not start this morning on her trip across the Atlantic. Her owner, ex-Com. Hovey and crew were aboard ready to start, but deemed it advisable to postpone sailing until a western wind and good weather prevailed, thus giving the vessel a good start on her long voyage.

The Fortuna, Commodore Wood, arrived last night near the Fortuna, and Ex-Com. Hovey will have a grand send off.

DISQUE HANGED.

The Wife Murderer Pays the Penalty of His Crime.

NEW YORK, June 1.—George H. Disque, the Hoboken wife murderer, paid the death penalty this morning at three minutes past ten. The hanging took place in the west corridor of the County Jail, Jersey City Heights, in the presence of a limited number of witnesses. Rev. *Mr. Meury, his spiritual* adviser and friend, was with Disque all of yesterday, remaining through the night until five o'clock this morning. The greater part of the time was spent in prayer and religious conversation. He partook of a light breakfast at eight o'clock, and after dressing himself in a new suit of black diagonal cloth, he said he was willing and ready to die.

He then wrote a letter in charge of the undertaker, and will be removed to Mount Olivet Crematory, Long Island, where they will be incinerated at noon. This is done at Disque's request. A few days ago he made his will and left all of his effects to the Rev. Mr. Meury. He had made a will previous to this bequeathing his effects to his relatives, but *became angered at them and changed his* mind. To Mr. Meury he has also made his confession, which will not be given for publication until the remains are incinerated. On August 19, 1889, Disque married Maria Madden Sheppard. He stabbed her to death on the 6th of October, 1885. He was tried December 28, 1885, and was defended by Counsellors Garretson, Daly and Puster. He was convicted of murder in the first degree, and sentenced to be hanged March 26, 1886. On March 24 Chancellor granted a writ of error, but the Supreme Court refused a new trial and Disque was resentenced, the day being June 1.

BOUND BROOK.

Edward Hardie, of New York, is visiting in town.

Mr. E. N. Fuller has returned home from a business trip to Iowa.

Mrs. N. M. Williams, of New York, is visiting friends in town.

Mrs. Lyman, of Vermont, is the guest of Mr. and Mrs. C. H. Redfield.

Monday afternoon, a picked nine of the K. of L. defeated John Gaddis' nine at baseball, 44 to 11.

The second monthly payment of the Building Loan Association will be made Wednesday evening.

Mr. Winter, of Plainfield, will enjoy the hot months of summer in a beautiful round bottom cedar boat, he has just launched in the river.

Edward Fellows has secured a patent on a *car coupler, which is considered by railroad* men, to be one of the best of the many ideas patented for that purpose. Lawyer John Frech, of Somerville, was the solicitor.

The same night James T. Terry's house was broken open, and $45 in cash stolen. Burglars attempted to force an entrance into several houses in Bloomington. *Mr. Dunham's*, J. N. Shurts and W. B. Koechlein's houses were all three broken into but nothing was stolen as at each place the occupants were aroused and frightened off the thieves.

The team attached to Randolph stage, which runs between here and New Brunswick, took fright in front of the Central depot Monday morning and ran away. No damage was done except to the tongue of the wagon which was broken. The harness also was badly delapidated before the animals were stopped.

Memorial day passed off very quietly; in the morning Wadsworth Post, G. A. R., of Somerville, escorted by the Excelsior band, decorated the graves of the fallen heros who lie buried in the Union avenue, Methodist and Presbyterian cemeteries. Fully 500 fishermen from different parts of the country and neighboring counties enjoyed the piscatorial sport on the river and canal. A number of bass were caught. About 40 persons from Plainfield alone, started for the dam with rod, line and bait.

—The closing out receiver's sale of furniture at Green's warerooms is advertised elsewhere.

—In the Union County Court, at Elizabeth, yesterday, Judge Van Syckel rendered an opinion in the case of Bonner Lee vs. Nicholas Mooney, parties who reside near Plainfield. Plaintiff sued defendant on a bond in the penal sum of $5,000. The defense filed a plea in which it was alleged that the bond had been satisfied by payment of a collateral mortgage to the person lawfully in possession of it. Plaintiff filed a demurrer to this claiming that no defense was set up in the plea. The Judge sustained the demurrer and overruled the plea with costs. Jackson & Codington appeared for the plaintiff and Vail & Ward of Rahway, for defendants.

PERSONAL.

The members of the Borough Council will hold their regular monthly meeting for June in the parlor of Warren Engine House at eight o'clock Friday evening.

Clarence M. Haviland, of Second street, is *now convalescent from his recent attack of* typhoid fever. He is still very weak and his recovery progresses slowly.

The Social Committee of the Trinity Reformed Young People's Society are: Samuel Samuelson, chairman; Miss Emma King, Miss Susie Van Winkle, Miss Lizzie Dunn, Miss Lillie Force, Miss Emma Gillen.

Mr. F. W. Runyon will spend the summer at his home in Plainfield. He was recently on the staff of the New York Sun, but his *failing health necessitated a change. He will* soon regain his strength in Plainfield.

Mrs. T. B. Green, of East Front street, who has been travelling in a warmer climate with her husband for her health, returned a few days ago quite ill. She was placed in the hands of her physician and is now somewhat recovered.

Charles Sebring, of the City Hotel, who is making some reputation as a progressive citizen, has purchased a $1,500 boring machine, with which he can go, through to China, if he rope will hold out, but with which he proposes to bore for water.

Charles W. Cowton, Past Senior Commander of New York, one of the speakers engaged for the memorial exercises in Music Hall, Monday afternoon, was engaged in the exercises in New York, and arrived too late to deliver his address.

City Judge Ulrich celebrated the second anniversary of his official term yesterday. He was *first elected to fill the unexpired term of* Peter Feyto Good, and received the election for the regular term of three years. He has yet about a year and a half to serve.

Lou DeCamp, formerly of North Plainfield, but now of Virginia, arrived in town Monday evening to spend a few days attending to some unsettled business matters, when he will return. He is engaged in stock raising and speaks highly of Virginia for that purpose.

Florence M. Moncton, of Grove street, North Plainfield, died in the Muhlenberg Hospital this morning. She had been ill about a year and was taken to the hospital about a week ago for further treatment. The funeral will take place on Friday at 10 a. m. Interment at Metuchen.

Miss Ada G. Marsh, sister of Craig A. Marsh, will sail from Germany on Saturday by the Plainfield on the North German Lloyd Steamer "Trave." Miss Marsh has been in Germany three years pursuing her musical studies, and will spend next year in Paris, perfecting under one of the most eminent instructors, Prof. de La Nux.

Several members of the La Favorita Social Club went to Chimney Rock on a picnic on Monday. The following composed the party: Misses K. Manning, M. Sanford, E. Daniels, L. Laing, E. Laing, M. Maver, and Cornwell, the Messrs. J. Kirkner, C. Stover, J. Errickson, W. Sheritt, I. Daniels and Harry Morrison. The young people had a jolly time.

The "Mother Goose" entertainment given by the pupils of Miss Moore's school last night was quite a success. Some members of the Park Avenue Baptist Sunday school assisted in the exercises, and the entertainment was given in the church chapel. The carefully prepared program was nicely carried out and did credit not only to those who arranged it but also to those who assisted in it.

Prof. F. J. Miller, the able senior teacher *of the High School, has accepted a Professor-*ship of Latin in the Peddie Academy, Mass., and will enter upon his duties the first of next season. The Professor has a host of friends in Plainfield who will greatly regret this move, but at the same time join in wishing him the success which will surely attend his efforts. He will have full charge of the Latin department.

The wedding of L. C. R. Dunham and Josie Brokaw took place on the evening of May 25th *at the residence of the bride's parents*, Mr. and Mrs. Caleb Brokaw, Washington street, Somerville. The Rev. Mr. Searles of the Reform church, assisted by the Rev. Mr. Roar of the Baptist church, officiated. The bridesmaid was Miss Lulu Brokaw of Somerville, the groom's best man was John Garretson of Franklin Park. The presents were numerous and costly. The couple are well known in this city.

Mary, infant daughter of Patrick and *Bridget Kelley*, died on Saturday at her parents residence, Third and Richmond streets, and was buried Monday in St. Mary's Cemetery aged one year. Also Annie, infant daughter of John and Rose Neher, on Manning avenue, aged seven days, interment yesterday morning at St. Mary' Cemetery. Also, Edith J., infant daughter of Genoi R. and Anna J. Baker, aged five months and seven days, at 57 William street. Funeral this morning at 11.30 a. m. Interment in Evergreen Cemetery.

The General Synod of the Reformed Church meets at Catskill to-day, where there will come up for discussion the great question as to whether the Dutch Reformed Church shall unite with the Presbyterian or the German Reformed, or shall retain its separate individuality and existence as an organization. The decision, if any is arrived at, is likely to be in favor of the latter course, as any attempt at union would cause a disruption of the church, because there are great property rights in which no one will be willing to finally transferred to any other organization.

Mrs. Omec C. Moore, of East Front street, after suffering with a severe illness, and being sufficiently recovered to enable her to *travel, was induced by her relatives to go to* Washington, D. C., in hopes that she might regain strength. Almost instantly after her arrival in Washington she was prostrated by the greatest suffering. Her friends summoned the best medical assistance, and her case was pronounced a serious one. Since then she has been kept constantly under the influence of morphine. It will be some time before she will be able to return to her home and friends in Plainfield. She is stopping with her relatives, Mrs. D. M. and W. H. Sylvester at Washington, D. C.

A sociable was given last evening by the Young People's Society of Christian Endeavor, of the Trinity Reformed Church, in the church building on Second street. The Young *People's Society of the First Presbyterian* Church, were among the guests. A pleasant evening was enjoyed by all present. A promenade march by twos was the first thing on the programme, and Mr. H. E. Gayle, President of the Trinity Young People's Society, made an address of welcome, which was responded to by Mr. H. H. Manning, President of the First Presbyterian Society. The following programme was then carried out: Reading—Charles Wheeler; Song—Miss N. Mattison; Reading—Miss J. W. Wyckoff; Instrumental Duet—Misses E. King and L. Force; Recitation—Mr. R. Dunn, Mr. E. E. Anthony, Superintendent of the Sunday School, then made a short address, descriptive of the work of the society, and invited all persons to partake of the refreshments supplied. After this a few games were played by the younger people, and the happy company separated, first singing "Blest be the Tie that Binds."

SETHERWOOD.

The Netherwood Hotel raised a handsome American flag on Saturday and welcomed a number of guests.

A handsome large organ has been purchased by the members of the Netherwood Church. We expect to be in position today. It depends upon the railroad.

A petition has been signed by the residents of Netherwood, who attend the church and Sunday School, asking that they have the power to form themselves into a separate parish. Never in the history of the church has there been as successful as at present both in attendance and prosperity.

Decoration Day was greatly spent at Hotel Netherwood. There were several arrivals. A party of sixteen from Westfield dined at the hotel and spent several hours enjoying the breeze on the piazzas and watching the caravan of people driving through Belvidere avenue. *Mr. Miller expects to entertain several* parties during the coming week and we have no doubt he will be quite the thing for people to stop and dine at the hotel. This special feature of the hotel may bring many transient guests from Elizabeth, Rahway, Summit and Morristown and may be induced to take a long dine to enjoy a good dinner.

—Work on the new fire well at South Second street, near the Potter Press Works, began to-day.

—The tramps recently committed to the county jail are kept busy at work breaking stone, a new supply having been purchased by the Freeholders.

—The wife of William Totten, who was recently tried for obstructing Green Brook with garbage, Judge Ulrich suspended sentence yesterday upon the defendant paying the costs of the suit.

—Lawrence Paoli was arraigned before Judge Ulrich this morning on a charge of selling hard cider on Sunday last. The complaint was made on evidence furnished by Frederick Gebhardt. The Italian was held in $100 bail for a hearing on Saturday, William Moore becoming his surety.

—Chuck Rock Hotel was opened Monday and a number of gentlemen went from this city to Bound Brook and other places along the Raritan for a day's fishing. They caught quite a number, and one gentleman affirms that he hooked four fine ones. A party composed of Messrs. Rockefellow, Cook, Stelle, Vanderbeek, Martin and Swain went to Berkley Heights on the Passaic river in carriages and caught six bass. One of the gentlemen asserts that "many" of them weighed as high as ten pounds.

STATE NOTES.

Jessie W. Foster, the embezzling Paterson bookkeeper of Rogerson & Beaumont, plumbers, was arraigned before Justice Potter to make an assignment, was sentenced yesterday in the Court of Quarter Sessions to pay a fine of 100 and costs.

The Hoboken Board of Education submitted to the Hoboken Council, last evening, a protest against the reduction in the school appropriation proposed by the Finance Committee. The Tax Board made the reduction with a view of doing away with the evening schools and abolishing the teaching of German in the public schools.

Peter Mowerson, John Carlough, Peter Finch and Thomas Vaughn, all of Passaic, N. J., Bergen County, went to Mud Pond on Memorial Day on a fishing excursion, and all drank freely. Before very long they were on the pond and Mowerson and Carlough went out in a boat. Soon they were discovered by some of their companions, who were unable to rescue them.

George Disque, who cut his wife's throat in Hoboken in a fit of jealous rage in October, 1885, is to be hanged in the Hudson county jail, on Jersey City Heights, at 10 o'clock this morning. He has requested that his body be *buried beside that of his wife. Her family*, however, object. They evidently intend, it is said, to send his body to a Long Island crematory for incineration.

A. W. Conklin, who was arrested on Monday at Trenton, for falsely representing himself as an agent of the Equitable Life Insurance Company, of New York, and collecting 900 from people here and elsewhere, in giving the company's receipt for the money, was taken to Jersey City by Detective Sergeant Lee P. Pirson & Co., 19 Park Place, N. Y. Will call at residence upon request. 5-26-1m

DRS. DAMON & GLADWIN.

Vitapathic Specialists

who performed so many really wonderful cures by "laying on of hands" at the recent revival meeting held in the tabernacle of this city bank, have at the earnest request of many friends decided to remain a short time longer. Those desiring to consult these specialists can do so free at the City Hotel from nine a. m. to eight p. m. until further notice.

Special Notice.

Dr. Abbie E. Cutter,
HOME AT
Wickets Island, Onset, Mass., opens July 1st. This is one of the most healthy and beautiful summer resorts in this country, for students, invalids or pleasure seekers. High land no mosquitoes, no malaria, no fogs, and the atmosphere is at all times heavily charged with ozone, rendering it a most restful place for both body and brain. Parties going to the home will leave the train at East Wareham and will be taken to the wharf at Onset where the steamer will take them to the Island Home. Excursion tickets to East Wareham good till Nov. 1st, can be obtained at Fall River steamers at New York.

PLAINFIELD EVENING NEWS, WEDNESDAY, JUNE 1, 1887.

WEDNESDAY, JUNE 1, 1887.

DYNAMITE ARGUMENT.

A BOMB MADE OF GAS PIPE THROWN DOWN A MINE.

Fortunately for the Perpetrators No Serious Damage Results—A Report That They Were Coke Strikers—Shots Fired at the Men on Duty.

SCOTTDALE, Pa., June 1.—Coke strikers made an attempt yesterday morning to blow up a coal shaft at Davidson with dynamite with four men were at work. The dynamite was thrown down the shaft and exploded without injuring the men, although the sides of the shaft were damaged. The workmen quickly ran from the mine and were back again in half an hour with more than a dozen shots were fired, but none of them took effect. The executive board of the Miners' association are now in session at Everson considering the matter. It is thought measures will be taken to secure a conference with the operators, and that the strike will be settled in a few days.

The following report of the affair was received from the superintendent of the works by the coke syndicate: "About 2:30 o'clock yesterday morning an attempt was made to blow up the shaft building of the Pittsburg and Cleveland Gas, Coal and Coke company at Davidson station, on the Southwest Pennsylvania railroad, about three-quarters of a mile north of Connellsville. A bomb made of 1¼-inch gas pipe filled with dynamite and plugged up with an oak plug was placed under the building and fired. The bomb was not placed far enough under the building to accomplish the object sought, and no serious damage was done.

"The lamp man, fireman and a watchman were in the building at the time. When the explosion occurred they ran out and were fired upon by the dynamiters. There were three and possibly four men in the party, but no one was recognized. After firing about a dozen shots at the men who were in the building they ran toward Connellsville. The dynamiters are supposed to be strikers, and belong about Connellsville. There can be no reason assigned for the act except pure deviltry, as there was no work being done and no attempt to work, except pumping water out of the mines."

H. C. Frick, one of the owners of the shaft, said that he had not decided upon any action yet, but that arrangements would be made to protect their men and property.

Marine Intelligence.

NEW YORK, June 1.—Arrived, steamers Spain, Liverpool and Queenstown; Werra, Bremen and Southampton; Claribel, Fort Limon; Viking, Saracen; Eleanora, Portland; Rosario, Richmond; Galicia, Key West; Tallahassee, Savannah; Effective, Catania; Benefactor, Wilmington, N. C.; Galileo, Cuba; El Dorado, New Orleans; Ships Nuova Eleonora Madre, Marseilles; Cumberland, London, Barks Journal, Christiansted; Liberty, Genoa; Shetland, Geofgenga; Line Buono, Matanzas; Wm. H. Deitz, Havana; Galeno, Trinidad; Harriet S. Jackson, Cardenas; Antonio d'Abundo, Cartagena. Arrived out, steamers Denmark, from New York, bus passed the Lizard; Wieland, from New York, at Hamburg; State of Nebraska, from New York, at Glasgow.

Burned to Death.

CHICAGO, June 1.—A barn at Kensington was totally destroyed by fire. A carpenter named John Young has been sleeping in the barn, and his charred remains were taken from the ruins of the structure. No one seems to know anything about the man, who is said to have lived by doing odd jobs in the neighborhood.

Preferred Death to Pauperism.

UNION HILL, N. J., June 1.—Charles Sidhof and his wife, each about 80 years old, were found dead in their room yesterday afternoon. They had taken poison rather than go to the poorhouse. Sidhof was formerly a school teacher. Of late the couple had been obliged to live upon the charity of friends.

Dr. McGlynn in Danbury.

DANBURY, June 1.—Dr. McGlynn had a magnificent reception here last night. He was attended from his hotel to the Opera house by the Danbury band and a torchlight of people. The hall could not contain all who desired to hear him. The lecture was well received.

Loss, $200,000.

NEW YORK, June 1.—The Booth & Edgar bonded warehouse was damaged by fire last night to the extent of $50,000, and its contents, including 5,000 bales of cotton and a large amount of other merchandise, were damaged to the extent of $150,000.

An Earthquake at Jamestown.

JAMESTOWN, N. Y., June 1.—A distinct earthquake shock was felt in this city. The shock lasted only a moment and took the form of an underground explosion of great severity. In some portions of the city women ran out of their houses in alarm.

Murder and Pillage in a Church.

GENOA, June 1.—Canon Vallega, in charge of the Cathedral church at Alessio, a seaport, formerly belonging to Genoa, was murdered by unknown persons who entered and pillaged the church. Several men have been arrested on suspicion of complicity in the deed.

CONDENSED NEWS.

Judgments aggregating $106,430 were entered up against Daniel O. Hitner, an extensive manufacturer, of Norristown, Pa. Hitner was engaged extensively in the quarrying of lime and ore mining. His marble yard in Philadelphia passed from his possession by bill of sale last week.

Fire at Keating Summit, Pa., destroyed 4,000,000 feet of lumber owned by E. D. Briggs, of the United Lumber company, of Buffalo. Loss, $35,000. All trains on the Buffalo, New York and Philadelphia railroad were delayed for hours, the flames reaching across the tracks.

A foreigner who had been seen wandering in the streets at Litchfield, Conn., kneeling down and praying in the dust, ended his life by throwing himself in front of an engine.

Two hundred carcasses of horses were taken from the Belt line ruins, in New York. Commissioner John D. Crimmins has taken the work in hand.

A noted swimmer of Richmond, Va., lost his life in the canal basin there on a wager of ten cents.

Mrs. Hattie Pouseyres, on trial for murder in Buffalo, caused a great sensation in court by her repeated interruptions of the district attorney while making his opening address to the jury.

THEY WERE IN THE WAY

A GRANDFATHER DESIRES TO BE MARRIED AGAIN,

And Rids Himself of a Burden by Murdering His Grandsons—He Killed Them While They Slept and Buried Their Bodies in the Garden.

LEBANON, Pa., June 1.—William Showers, a cigarmaker, 59 years old, has been arrested on suspicion of making away with his two little grandsons, the illegitimate offspring of a daughter who is dead. It is alleged that Showers, who is a widower, had a chance to marry privately he would send the children away from his home. He started in a wagon with them, ostensibly for Tower City, but came back, saying the boys had run away from him on the road. Later he told several conflicting stories about the disposition he had made of the little ones. The community has been aghast for the past week at the fate had made of the little ones. First he said he had given the boys in charge of a man who would give them a good home in Texas. Then he reported that he had driven the boys to Tower City and given them into the charge of a farmer. Later he said that while on the way to Tower City he sent the boys back for something he had left near the road, and they had been kidnapped by tramps in the vicinity of Indiantown gap, a dangerous place, where old Joe Reber was murdered for his $50,000 in greenbacks, and will hunt them out.

Showers declared upon his solemn oath that he did not know the whereabouts of the children, and tears streamed down his cheeks as he called upon his maker to witness. Many of the officials who held conversation with him were inclined to believe him. Still the district attorney was not satisfied, and ordered a strict search of Showers' premises.

Late yesterday afternoon the bodies of the boys were found buried in the lot occupied by Showers' house. The bodies were found covered by only two feet of earth. They were six feet apart and about twenty yards from the house. They had been strangled with a small cord, and there were deep indentations in their necks where the string had been tightly twisted four or five times. They were in their nightgowns.

After the discovery Neidlich murderer, to make his work sure, battered in their heads, and then carried the boys out in the night and buried them in the holes that had evidently been prepared for the spot. The greatest excitement prevailed. When confronted with the evidences of his crime the wretched murderer confessed all, saying that his desire to marry Mrs. Sargeant had caused him to put the little boys out of the way, and that he murdered them in their sleep.

The people gathered on the street corners in groups of hundreds last night and vowed vengeance. The jail is strongly guarded, as the authorities fear an attempt may be made to lynch the murderer.

THE OIL FIELD.

The Statement for the Month of May Shows Decreased Production.

BRADFORD, Pa., June 1.—In the New York and Pennsylvania oil regions 145 wells were completed during the month of May, with a total of 3,240 barrels. The dry holes numbered 38. Compared with April there is a decrease of 24 new wells and of 2,989 barrels in the net production. As the close of May the record shows 80 new rigs, 108 old rigs and 162 drilling wells, a total of 350. This represents an increase of 1 new rig and of 4 drilling wells, with a decrease of 26 in the old rigs and a total decrease of 6 from the figures of April 30.

The new wells of Bethold and Washington by 2,000 barrels each inferior to the gushers fired into these two sections in April.

In Bradford and Allegheny show about the usual amount of activity.

Drowned in Mud Pond.

RAMSEY'S, N. Y., June 1.—Four young men of this place went fishing on Mud Pond, a small body of water, yesterday. Two of them, named Brown Carbaugh and Peter Morrison, got into a leaky and cranky boat, while the other two went in the other. When about the latter returned after a time they were unable to find their companions, but saw the boat in which they had embarked floating bottom up. They at first suspected a practical joke, but on the pond being searched by some of the neighboring farmers the corpses of the missing young men were brought to the surface. Carbaugh was unmarried, but Morrison leaves a wife.

The London Times' Charges.

LONDON, June 1.—The Times this morning publishes the third and last of its articles on "Parnellism and Crime." In detailing the history of the Irish-American campaign, it says the Clan-na-Gael is the very soul of the National league. While the latter exists upon the strength of fine speeches, etc., the former manages the real business. "Our sanction," says The Times, "shows that Mr. Parnell, Mr. Sexton and other leaders of the Home Rule party are on intimate terms with the Clan-na-Gael murderers, and their permission or participation in diabolical outrages is a matter of prearrangement."

Four Square Miles of Hail.

NYACK, June 1.—Not until yesterday was the damage caused in Lower Orangetown by the storm of Saturday afternoon and night reported. It was found that places near Tappan hail to the depth of eighteen inches lies on the ground. Crops of wheat, rye, oats and small fruits are badly damaged, and in many instances ruined. Grapes of all kinds, especially in conservatories, were smashed. The hailstones were exceptionally large, and the storm covered an area of a mile in width and four miles in length, the line being sharply drawn, and no hail falling east of the mountain ridge.

Charged with Embezzlement.

BROOKLYN, June 1.—The Kings county grand jury indicted Joseph R. Hunting, a justice of the peace of Westbury, Queens county, on a charge of embezzling $3,000 out of $30,000 entrusted to him by his friend, Frederick Willetts, an aged citizen, who gave the justice power of attorney to transact his business, because he felt his mental powers waning and feared that he could not manage his own property wisely. Mr. Hunting was arrested yesterday and held in $5,000 bail. He alleges that the charges against him are false and malicious. He has stood high in the estimation of the community.

A Volcanic Eruption.

CATANIA, June 1.—A volcanic eruption issued from the principal crater of Mount Etna yesterday morning, and the flow of lava is steadily increasing in violence and volume. The air is filled with smoke, stones, ashes and cinders, and the people residing at the base of the mountains are removing their effects and taking refuge in places more remote from the shower of volcanic matter.

DIFFERING OPINIONS.

The Chicago Bricklayers' Views from both Sides—A Strike May Be Ordered.

CHICAGO, June 1.—The Star (Knight of Labor organ) says: "The trouble between the bricklayers and the master masons is rapidly coming to a close, and the condition, as it stands at present, is this: Combination at the builders' exchange is no longer in existence, the material men and others having deserted. A general meeting was held yesterday afternoon, and nothing but the Downey-Pruyn brigade is left to protect the battered walls of the combine. That Downey will stay out for a long time to come is practically admitted by all; in fact, it is said that Downey will stay out longer than he wishes, as when the trouble is settled he will be compelled to send to Scandwich Island for bricklayers."

After making a desperate effort to secure the support of the material men at the beginning of the lockout the master masons have suddenly come to the conclusion that they have no longer any need of their support. When asked if the material men were still standing by the Masons' association President Downey replied: "What do we care whether they stand by us or not! Let them sell as much and as cheap as they can. Whom are they going to sell to? We control nine-tenths of the work in the city and we won't buy of them. Let the brick yards start up. The lumber masons have no attempts to stop them. Four years ago we had a like trouble, and material was offered to all who wished to buy and none was sold. We beat the bricklayers, and will beat them now."

PHILADELPHIA, June 1.—The Master Masons' association have decided to lock out their union stonecutters to-day and keep them out until they are in a proper frame of mind with the non-union employes. Over 300 men will be affected by the lockout.

A CONDEMNED MURDERESS.

Poor Mrs. Cignarale Constantly Crying for Her Child.

NEW YORK, June 1.—Warden Walsh said that Mrs. Cignarale had eaten but two meals since last Friday, and that she was most miserable. On Monday she had a little talk at the earnest request of Father Anacletus, of Italy, and yesterday Sister Austen persuaded her to eat some poached eggs and toast. The unfortunate woman said that she did not refuse to eat to starve herself and so escape the gallows, but because she had no appetite for food of any kind. It stuck in her throat and choked her.

She constantly cries for her child, and her appeals are most pitiful. The warden said last night that he would see what he could do to have the child brought to her. The child is brought to her from the institution in Eighty-first street.

The prisoner is very weak and growing weaker. Opiates are used constantly to quiet her appeals and cries, that the other prisoners may sleep.

CATHERINE WOLFE'S WILL.

A Clause Appropriating $1,000,000 for a Memorial Chapel.

NEW YORK, June 1.—The will of the late Catherine L. Wolfe was admitted to probate yesterday. There will be no contest. A clause appears in the will which has hitherto been unknown to the public. It devotes $1,000,000 to the purchase of ground in the upper part of the city, and the erection thereon of a chapel in memory of John David Wolfe, the father of the testatrix. The chapel is to belong to Grace church, and be known as the Grace Parish Wolfe Memorial chapel. An alternate clause empowers the executors of the will to devote this $1,000,000 toward the erection of a cathedral, to be known as the Cathedral of St. John the Divine, in case they have reason to think that her general intentions as known to them would be more perfectly carried out by so doing.

The Good Templars.

SARATOGA, June 1.—The Good Templars finished up the work of their convention and adjourned yesterday afternoon to meet in Chicago in May, 1888. Among the committee reports adopted to-day was one of the committee on appeals and decisions to the effect that a vote by a legislator for the licensing of the sale of liquor is a violation of a Good Templar's obligation. A resolution was passed instructing the officers of the Right Worthy Grand Lodge to notify Mrs. President Cleveland of the pleasure and gratification of all Good Templars at the strong and unequivocal indorsement of their order made by her some time since. It was voted to organize missions among the colored children of the south.

Pinkerton Men on Trial for Murder.

JERSEY CITY, June 1.—Patrick Sheehey, Samuel Neff and Mortimer Moriarity, the Pinkerton men charged with killing a boy named Thomas Gallagher during the coal handlers' strike, were put on trial. They are defended by ex-Mayor Collins. The state is represented by Prosecuting Attorney Winfield. Witnesses testified that a number of boys were throwing missiles at the Pinkerton men, who were guarding the Lackawanna railroad property, when the detectives opened fire on the crowd and the shots fell dead. The trial will occupy several days.

Hanged His Old Friend's Son.

JERSEY CITY, N. J., June 1.—Twelve years ago Saloon Keeper Disque died in the arms of his friend, Saloon Keeper Heintze, of Jersey City Heights. Saloon Keeper Heintze has since become sheriff of Hudson county, and this morning he officiated at the hanging of his old friend's son, George, who murdered his wife in their home in Hoboken, during a jealous rage, in October, 1885. The sheriff was not, however, in active charge of the hanging, that disagreeable duty being performed by Deputy Sheriff Van Riper, who has already hanged seventeen men in the state.

"Assisted" Emigrants.

WASHINGTON, June 1.—The state department has submitted to the treasury recent correspondence on the subject of assisted emigration from Ireland to the United States. It appears that Minister West recently reported that the passage of some Irish emigrants had been paid and asking whether such emigrants would be excluded. Secretary Bayard responded that no rule could be laid down applicable to all such cases. While such assistance to pauper emigrants was objectionable, each case would have to be passed upon by the commissioners of immigration upon arrival.

Swallowed Her Teeth and Died.

NEW YORK, June 1.—Mrs. Mary Raynor, aged 45 years, of Newport, L. I., died recently from the effects of swallowing part of a set of false teeth. The teeth lodged in her throat and she called to her husband to give her water, but he did not hear her. Subsequently Dr. Hammond and Dr. Hutchinson were summoned, but the woman died in a few hours in great agony. She was buried yesterday.

Reception to Senator Sherman.

SPRINGFIELD, Ills., June 1.—Senator Sherman arrived at the state capital at 4 o'clock yesterday afternoon. In the evening he was tendered a public reception by Governor and Mrs. Oglesby at the state executive mansion, which was very largely attended.

THE IDOL OF PARIS.

FIFTY THOUSAND PEOPLE SHOUTING FOR BOULANGER.

The Troops Obliged to Clear the Streets. A Strong Force on Guard at the Palace of the Elysee—Making the Night Hideous.

PARIS, June 1.—Fifty thousand people shouting at the top of their lungs "Vive Boulanger! Vive Boulanger!" came swarming into the Place de l'Opera at 9 o'clock last night, causing tremendous excitement and commotion.

The Opera house was magnificently illuminated and covered with flags and trophies bearing the inscriptions, "Patrie" and "Devoir." From the Military club at the corner of the Rue de la Paix an the Avenue de l'Opera, directly opposite the Grand Opera house, three batteries of electric light shone full upon the facade of the latter and its gilded tyres, crowns and statues, setting forth the magnificent buildings in dazzling splendor.

The occasion was the grand military festival organized by the army officers, over which Gen. Boulanger, had he still been minister of war, was to have presided—a duty that now devolved upon his successor, Gen. Ferron. During the whole day the people were very much excited.

The first disturbance came off in front of the chamber of deputies, at the Quai Dorsay, at 6 o'clock last evening, when several hundred students and men in blouses collected, reached down the pavements, tore up the dresses to the army, shouting "Vive Boulanger!" and singing "Marseillaise." The police dispersed the crowd with very little difficulty, and quiet was nearly restored, with significant smiles: "Oh, all right. We shall meet later at the Place de l'Opera. Au revoir."

Expecting that an attempt would be made to disturb the president's slumbers, a strong force of soldiers and police were posted at all approaches to the palace of the Elysee, with the strictest orders to challenge all suspicious persons and prevent rioting.

Late in the evening a gang of several hundred bogus workingmen sloughed down the Champs Elysees, singing, yelling and cheering. They got as far as the Rue Boissy d'Anglas unmolested, but there they came in contact with the troops, who quickly sent them about their business.

After they were dispersed they reformed and marched up and down the Boulevard de la Madeleine, where they made night hideous by shouting Gen. Boulanger's name and singing a war song manufactured for the occasion, with the incoherent refrain of "Grevy dort; Boulanger veille."

The crowd did not seem to contain very dangerous characters. Shopboys and idle 'prentices seemed in the majority, but among them were a strong leaven of well known Communists and scores of frenzied scribes from Socialist newspaper offices, one of whom fluttered the bystanders for a moment by suddenly firing off a toy pistol.

Later.—Fifty policemen have been stationed at the British embassy. The troops and police prevented rioting. The people dispersed early this morning and the city is now quiet. Fears are entertained, however, that demonstrations in favor of Boulanger will take place in the chamber of deputies when it reassembles to-day.

M. Rouvier's statement of his policy, which he read to the chamber of deputies yesterday afternoon, was brief. He urged financial reforms and retrenchment. The new budget would be prepared in accord with the recent vote of the chamber. He would maintain the Goblet cabinet's military bills, and announced the determination of the ministry to resign unless they obtain a majority of the Republican votes in the chamber. He also said that his foreign policy would be firm and pacific. Propositions for the exhibition in 1889 would be actively forwarded.

M. Rouvier was frequently applauded by the members of the center and was often interrupted by members of the left.

A Signature Lacking.

HARRISBURG, Pa., June 1.—The general revenue bill passed by the late legislature fails to possess a law because the president of the senate, Hon. George H. Smith, did not affix his signature. Governor Beaver was about to sign it when he noticed the omission. The error will make it necessary to curtail a large number of appropriations which were based on the estimated increase of revenue under the new law. The omission of President Smith's signature can not as yet be explained. Governor Beaver says no extra session of the legislature will be required.

Frightful Result of a Runaway.

KANSAS CITY, June 1.—A horse attached to a carriage containing three ladies and a gentleman became frightened and ran away on Main street to the river. The carriage came in collision with a freight car, breaking the carriage into splinters and violently hurling its occupants against the front of the car, instantly killing Mrs. Eleanor Randall and fatally injuring Mrs. Charles French and her daughter, Miss Emily French. Charles French was stunned, but escaped without serious injury.

Jealousy Led Him to Shoot Her.

READING, Pa., June 1.—John Matz, 36 years old, shot and severely wounded Annie Gring, at Lovers' park, just before midnight Monday. He then shot himself through the heart and died almost instantly. The woman, who is 35 years old, was married four years ago to a man named Howard Fox, but got a divorce last March. Jealousy was the cause of the shooting. The coroner's jury yesterday rendered a verdict to that effect. The woman will recover.

The English Fortifying Herat.

ST. PETERSBURG, June 1.—Telegrams from Merv confirm the statement that English engineers are actively fortifying Herat. Walls and trenches are being strengthened and redoubts built to resist artillery. The Afghans are displaying hatred of the English, and the ameer has been obliged to appoint military officers to protect the most employed on the works. The aim of the English authorities is to enable a garrison of 10,000 men at Herat to withstand a siege for ninety days.

No One Knows the Train Robbers.

AUSTIN, Tex., June 1.—The six prisoners arrested on the charge of robbing the train at McNeil station, Travis county, were arraigned. Joe Barker, who is held on the circumstantial evidence of his name being found on a scrap of paper picked up where the "work" was divided, intimated that this paper might have been dropped by his brother, who is a fugitive from justice. None of the witnesses could identify any of the prisoners.

Hanlan Wants Revenge.

CHICAGO, June 1.—Hanlan announces that on his return to Canada he will challenge Gaudaur to row again on the same course under exactly similar conditions. The defeated champion expresses himself certain that he can outrow Gaudaur. If the latter consents the match will occur inside of two months.

RHODE ISLAND'S NEW GOVERNOR.

The First Democrat Who Has Held the Position in Thirty-four Years.

NEWPORT, June 1.—The house organized yesterday with Charles R. Gorman, of this city, as speaker, and in the senate Eugene F. Warner, of Coventry, a Republican, and for several years clerk of the senate, was reelected. The senate joined the house after organizing, and Governor Wetmore was appointed a committee to count the ballots cast for general officers. Late in the afternoon John W. Davis, of Pawtucket; Attorney General Gorham A. Pearce, D. D. McGuinness, of Providence, 55, and Joshua M. Addeman, 61 votes. The inauguration of the new state officers took place in the evening. Mr. Davis is the first democratic governor of Rhode Island for thirty-four years.

A FIGHT WITH DESPERADOES,

In Which Two Men Are Killed and Several Wounded.

BROWNSVILLE, Tex., June 1.—At dawn the Rains Cut Off, which has been the refuge of thirty desperate bandits, thieves and smugglers, was raided. Sheriff Brohn, of this county, and Deputy Clanner, of Hidalgo, with fifty rancheros and deputies, drove out the bandits, who met with a warm reception from the outlaws on the south extremity of the Third cavalry, under command of Col. Nieves Hernandez. A sharp fight ensued, in which Col. Hernandez was wounded in the hand, one of his men killed and another wounded. One bandit was killed, several wounded and a number captured, several of whom, well known murderers, were killed on the spot. A large amount of plunder stolen from Brownsville, most of which was returned to its owners.

Two Children Burned to Death.

OSWEGO, N. Y., June 1.—A lamp explosion last night set fire to a small house near the lumber district occupied by Mrs. O'Brion and her four children. Three of the children were burned to an appalling extent before they could be rescued two of them were burned to death. Their bodies were recovered. The third child was badly burned. The father of the family who had once been president of the Longshoremen's union, was drowned in a slip near his house three years ago.

An Ohio Village Partially Destroyed.

CLEVELAND, June 1.—The village of Sycamore, Wyandotte county, was visited by a disastrous fire, about one-third of the business portion of the place being destroyed. It is generally conceded to be the work of an incendiary. The fire spread very slowly, but the village has no fire engine or organized fire department, and was therefore at the mercy of the flames. The total loss will aggregate $30,000.

A Strange Disease.

BLOOMINGTON, Ills., June 1.—A strange disease, communicated by contact, has caused a great deal of havoc among horses in Dewitt county. It is believed to have been communicated from imported French stallions, and is said to be common in France. It was first noticed in Dewitt county two years ago. Forty mares have died from it and many are now ill. Nine stallions are here under treatment.

A Charter Revoked.

PHILADELPHIA, Pa., June 1.—The general executive board, Knights of Labor, has revoked the charters of the National Carpet Weavers' District Assembly No. 130 and its eighteen local assemblies, comprising about 10,000 carpet weavers in New York, Philadelphia, Yonkers and Amsterdam. The action is due to Master Workman John Morrison, of No. 126, having antagonized the board on many points.

They Want a New Trial.

PHILADELPHIA, June 1.—The argument for a new trial of William Herbst, ex-president of the First National bank of Glenrock, Pa., convicted of misapplying the bank's funds, and Jacob S. Herbst, his son, convicted of complicity in the crime, was deferred until the October term of the United States district court. The prisoners will remain in jail meanwhile.

Arson and Murder.

NEW YORK, June 1.—A new and startling aspect has been given to the incendiary fire which destroyed Palmer's cooperage, the Erie freight house and the Chicago Beef company's buildings in Williamsburg on Saturday night. It is believed that not only are Augustus and Townsend Johnson guilty of arson, but that they also murdered Watch man Degay.

The Ameer Again Defeated.

ST. PETERSBURG, June 1.—News has reached Merv from Herat that the Ghilzais have defeated 1,000 of the ameer's regular troops and captured five guns and considerable booty. The people of Herat and those of the adjoining districts are greatly excited over the success of the revolted tribes, and it is said are ready to join the Ghilzais.

Reported Arrest of a Governor.

EAGLE PASS, Tex., June 1.—It is reported that Sabrela Colan, the governor of the state of Coahuila, has been arrested and imprisoned by order of President Diaz pending an investigation into certain charges against him in connection to his alleged inaction regarding the killing of several soldiers by a band of smugglers from Santa Rosa.

Hayda's Statue Unveiled.

VIENNA, June 1.—The ceremony of unveiling the statue of Haydn's took place yesterday in the presence of an immense crowd of people. The spectacle during the the unveiling of the statue, and in touching and eloquent speech presented the work to the city, in the name of its patrons and promoters.

An Important Decision.

HARRISBURG, Pa., June 1.—The supreme court gave an important decision affirming the decrees of lower courts, that mortgages, etc., owned by corporations, are exempt from the state taxes, known as the four mill and the three mill tax, on such mortgages. The decision deprives the state of about $500,000 yearly revenue.

Selling the Franchises.

NEW YORK, June 1.—The first sale of city street railroad franchises at auction under a new law was held yesterday. One cross town franchise sold for $3 per annum, and another for 37 per cent of the gross receipts. Heretofore these franchises, as in the case of the Broadway franchise, have been almost given away.

Dr. McGlynn's Sympathizers to Parade.

NEW YORK, June 1.—Labor organizations and citizens generally have been invited to join in a parade and mass meeting on June 18 as an expression of sympathy for Dr. McGlynn and resentment at the interference of certain church officials with the political freedom of American citizens.

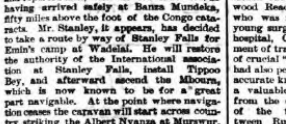
STANLEY AND BUST MAKERS.

A Group of Attempts to Preserve the Explorer in Clay.

The accompanying cut represents a collection of models of busts which have been made

STANLEY BUSTS.

by numerous artists to preserve the form and features of Stanley, the noted explorer and journalist. Advices lately received concerning the progress of Stanley's expedition for the relief of Emin Pasha were dated March 29, and reported him, with his 600 followers, as having arrived safely at Banza Mundeka, fifty miles above the foot of the Congo cataracts. Mr. Stanley, it appears, has decided to take a route by way of Stanley Falls for Emin's camp at Wadelai. He will restore the authority of the International association at Stanley Falls, install Tippoo Tip, and afterward ascend the Aruwimi, which is now known to be for a great part navigable. At the point where navigation ceases the caravan will start across country, striking the Albert Nyanza at Mursvuru, where Stanley intends to form a fortified camp and then send in advance boats to warn Emin of the arrival of the expedition and instruct him whether to Wadelai by Emin's two steamers. The association steamer Stanley, the Livingston mission steamer Henry Read and the trading steamer Florida are



STANLEY'S NATIVE FOLLOWERS.

to wait at Leopoldville to carry the expedition to the upper Congo. The great caravan is said to present an imposing spectacle. Besides the force which Stanley brought from Zanzibar, he is accompanied by a body of Haoussas, a sea coast tribe, who make good soldiers. We give herewith a group of Haoussas, Stanley's native soldiers.

O'BRIEN IN CANADA.

Wild Scenes Accompany the Irish Editor's Tour.

The Hon. William O'Brien, the editor of United Ireland, arrived in New York city on May 9, having for the object of his visit a speech making tour through Canada, denouncing Lord Lansdowne and his eviction of tenants on his Irish estate of Luggacurran.

Mr. O'Brien's arrival in New York was distinguished by a peculiar scene on the steamer Umbria,

by which he sailed, when the committee appointed to meet him went down New York bay for that purpose in a tug. He left for Montreal the same day. There he received an enthusiastic welcome, and spoke to a large audience in the Montreal Opera House in reply to a speech of welcome deliv- HON. WILLIAM O'BRIEN.

ered by Mr. Curran, which was greeted by cheers, intermingled with groans and hisses. He afterward spoke at Albert hall, and the enthusiasm of his hearers was intense.

On the afternoon of the 18th he, in company with Mr. J. A. Mulligan, the president of the Montreal National league, and Secretary Cahill, started from his hotel, the Rossin house, for a short walk, and were greeted with a shower of sticks, stones, rotten eggs and other missiles, and with cries of "Kill him," "Hang him," "To the bay with him," etc. During the disturbance they were all more or less bruised, and Secretary Cahill was seriously though not dangerously injured. He afterward spoke in Ottawa and other important Canadian cities.

The excitement occasioned by his visit to Canada is something unusual in that quiet country, and is calculated to create a hostile feeling between the league and anti-league population.

Superstition of Sea Folks.

The portents and superstitions of sea folk are numberless. Passing clouds presage "light winds and variables;" light clouds in the northwest mean, look out for squalls; a scorching sun brings an easterly wind; when the loons give a short stifled cry, then look out for a nor'east wind; a great storm will surely come up after the "mackerel sky" and other missibbs

Little Laughs.

They were telling big yarns, and one fellow broke up the session by saying: "Well, when I was up at Bombacupe, on the African coast, we always had to sleep with a steel trap over our mouths to prevent the natives from stealing the filling out of our front teeth, and that's a fact, too."—Danville Breeze.

A Detroit lawyer, who wanted to marry every pretty girl he met, was adjudged insane. "The sagacious fool is natural. If the man were crazy he would be after the homely ones.—Baltimore American.

Wife (Sunday morning in Boston—Are you going to hear Joseph Cook preach this morning, dear? Husband—No, I think I'll go and see the Hon. Mike Kelly practice.—New York Sun.

At the opening of the dog show in Madison Square garden, Col. Ochiltree, fiery headed and blandly sarcastic, was in his element. "I like dogs," said he. "The more I know men, the better I like dogs."—New York Tribune.

Squigley—I understand that Bloboon has a political fear in his bonnet.

Dumpsey—One fact! Guess you don't associate with him. There are more than forty hives.—Burlington Free Press.

Any man can go up in a balloon, with proper assistance. It is the coming down in the lake, two miles from shore, that is unique.—New Orleans Picayune.

Temperance Agitator—My friend, did you ever reflect that man is 90 per cent. water.

Boozy Individual—Y—yez, sir. Ain't that enough?—Burlington Free Press.

A Needed Lesson.

Eastern Dame—Yes, this is the first time I have been in Omaha since my daughter married and settled here. I wish you would tell me how she and her husband get along. I can never make anything out from her letters, she is so secretive. I know if she has any troubles she hides them from me.

Omaha Diane—Her husband's a very nice man, indeed.

"I am glad you think so."

"Yes, Clara always was light tempered, you know, but no matter how ugly she gets he always answers pleasantly, and one evening when I was there he brought home some zephyr she had asked for, and it wasn't the right shade at all, and she called him a 'prehistoric brute,' and flung the teapot at him and hit him with the poker and then threw herself down on the floor and kicked and screeched as if she'd take the roof off, and all he said to her was: 'I am afraid you will overexert yourself, my darling.'"

"Well, I guess that taught her a lesson."

"I hope so."

"Yes, poor child, next time she'll know better than to send a man to match zephyrs."—Omaha World.

Parson Jinglejaw's Fish Preserve.

"Parson Jinglejaw, they tell me you're a great fisherman."

"I kno' 'em teh, yes'r."

"Do you catch them by natural or artificial means?"

"Well, as ter dat, when I'se arter dah I 'speck it must be arter fishal."

"Sure enough, yes. But they tell me you're a great sportsman and have a fish pond on your place."

"Hit's so; one'r dose t'ings dat scientific anglars calls fish preserbe, an' dat's ony anudder way fur makin' sartin ob yer game. Yer see, I'se got a little stream of water wha' ban't dat's filled wid water, an' I gibs ebry mem'r ob de Bible class a good depo'tmen' ticket fo' eb'ry sucker or bullhead dey puts in dat bar'l, an' den we has a fishin' 'casion. I lets de water off an' sorts out my victims. Hit's a little differen' f'om cornerin' trouts in a pon' an' starvin' 'em till dey's bom' ter bite at anyt'in' you' frow 'em, but hit's on de same princ'ple."—Yonkers Gazette.

Fortunes Almost Given Away.

Stranger—Say, mister, a man tells me that the lot you has sold me was under water a month ago.

Omaha Real Estate Man—Yes, it's pretty dusty by this time I suppose.

"Dusty! well, yes, but—"

"About June, though, there will probably be another flood and that will get the soil in nice condition again."

"What! Two floods a year?"

"Only two, unfortunately. We are in hopes, though, of getting congress to do something to make the Missouri rise a little oftener. If the bill goes through your lot will be worth $1,000 a front foot. Just hold on to it."—Omaha World.

A Heart Worth Winning.

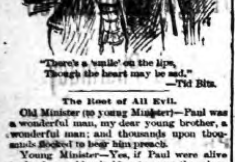
"And do you love me so devotedly, dear," he said, "that you will give up home and friends and all that makes your life bright and happy to become my wife and go with me to the uttermost ends of the world if necessary?"

"Yes, George," she whispered softly, "when I am your wife your thoughts shall be my thoughts, your hopes my hopes, your religion my religion; and if you should want me to go to the uttermost ends of the world with you I will go, ah, so gladly, George. I do so love to travel."—New York Sun.

Just as Effective.

A paralytic young woman, who had been unable to walk for years, was conveyed to a revival meeting one night recently, and during prayer she suddenly arose, gave an ear piercing shout, climbed over three pews, gained the aisle and made a dash for the pulpit. It was another faith cure, as many person in the congregation supposed. She had simply seen a mouse in her pew near her feet. —Norristown Herald.

Poetry Illustrated.



"There's a smile on the lips,
Though the heart may be sad."
—Tid Bits.

The Root of All Evil.

Old Minister to young Mugwump—Paul was a wonderful man; my dear young brother, a wonderful man; and thousands upon thousands flocked to hear him preach.

Young Mugwump—Yes, if Paul were alive to-day he would only have to name the salary he wanted.—N. Y. Sun.

An Oregon Girl's Way.

Miss Carrie Dillon will teach the school up Ram Gulch this spring. Carrie is now developing her muscle with a pair of dumbbells, and proposes to lick any subject in Carter's freckle faced boy if she has to break his back, and horsewhip old Tom if he interferes.—Heppner (Ore.) Gazette.

To the Point.

Self preservation is the first law of nature—but many men don't remember that it is one of which the operation often fails for lack of time—a sort of "Statute of Limitations," as it were, and sometimes very brief limitations too which, however, may be filled with a last and poignant regret for not having secured the protection of wife and children after such death, by taking out an accident policy while yet there was time to do it. Probably no disaster has ever happened since accident insurance was known, that did not give new point to the familiar query "are you insured?" and those of April last, on the Fitchburg Railroad near Greenfield, Mass., of September 1 on the "Nickel Plate" near Silver Creek, N. Y., of February 1887 on the Baltimore and Ohio, near Republic, O., and on the Vermont Central at the White River Bridge, and lastly until the next shall crowd it out) of March on the Boston and Providence at Forest Hills bridge, are pre-eminently instructive. Among the killed in the Fitchburg case, was a well-known Commercial traveler whom the Eastern Agents of the F. & C. Co., had unsuccessfully urged to insure only three days before the accident happened. $50 premium would have given to his widow Ten Thousand Dollars as it did to Mrs. John Wade, widow of the weighmaster of the Chicago Board of Trade, who was killed in November by a Chicago and Alton train at the Stewart avenue crossing. And as fifty cents premium on an accident ticket for two days gave three thousand dollars to Mrs. C. H. Parkhurst of Marion, N. Y., whose husband was one of the 14 killed in the smoking car at Silver Creek. Out of the thirty-seven killed at the White River bridge, only four are known to have been insured—yet how many left wives and children in modest circumstances. And so the story has repeated itself from year to year—so it probably will, to the end of time—yet every such case but adds point to the obvious moral it conveys—that eighteen dollars a year, or six cents a day—will protect you against accidental death to the extent of $5000—besides affording $25 a week indemnity for disabling injuries—under a close A policy of the Fidelity and Casualty Company, which allows travel anywhere from New York to New Zealand, Chicago to Constantinople, and covers against accidents all the way from pins to earthquakes. Call upon Jos. T. Vail, Agent opp. the depot.

6 a. m.	69	56	Sun rises	4 30
2 p. m.	70	65	Sun sets	7 25
10 m	73	66	Moon rises	
3 p. m.	69	71	Moon sets	2 32

JOB PRINTING OF ALL KINDS FROM A CARD TO A POSTER, IN THE BEST STYLES AND AT THE MOST REASONABLE RATES. TELEPHONE CALL NO. 43.

THE CIRCULATION OF THE NEWS IS AS LARGE AS ALL THE OTHER PLAINFIELD PAPERS COMBINED.

JOTTINGS.

—Mme. Alberti will appear at the Mirror Hall in Somerville to-night.

—Jones & Co., the odorless excavating company, have a change in their advertisement.

—Next Sunday will be Trinity Sunday, and will be appropriately observed in the churches in this city.

—On Monday evening next at eight o'clock the city common council will hold their regular June meeting.

—John A. Benner says in an advertisement elsewhere that he has strawberries for ten cents a quart.

—The next District Sunday School Convention, comprising Sussex, Warren, Hunterdon and Somerset counties, will be held in the Presbyterian Church in Flemington June 17.

—A strawberry and ice cream festival will be given on Dr. Nelson's lawn at New Market, under the auspices of the Young People's Union of the First Baptist church on Saturday afternoon and evening.

—On Saturday afternoon at 2.30 o'clock will be given the annual entertainment of the Warren Industrial School, closing the fourteenth year of its work. The exercises will be held in the Mission Chapel, North Plainfield, and seats will be reserved for all visitors who desire to attend.

—The weather proving favorable the game of base ball between the Potter Press Works nine and a nine chosen from the employes of of the oil cloth factory, which was deferred last Saturday on account of the rain will take place on Saturday afternoon next on the grounds of the former club.

—J. F. Nixon, one of the brakemen on the Trenton "peddle" freight, while cutting off cars at Metuchen at three o'clock p. m. yesterday, caught his right arm between the bumpers of the loaded cars and had it smashed. The injured man, who lives at Monmouth Junction, was taken to a Newark hospital.

—Dr. Demarest has presented the New Brunswick Historical Society with some old papers, among which was the draft of a will drawn in 1777 by Hendrick Fisher, a resident on the Bound Brook road, and was a noted man during the Revolution. Another paper was one by Jacob Hardenbergh, the first President of Rutgers (formerly Queen's) College, on public policy.

—The pupils of the North Plainfield public school are desirous of having their closing exercises held this year in Stillman's Music Hall, to avoid the over-crowding usual when smaller halls have been secured. To this end they are preparing a petition to send to Principal Boss and the Board of Trustees. They also propose to help defray the additional expense, each pupil to contribute five cents toward that object. There will probably be fifteen graduates this year, and unusually interesting exercises.

—The credit of the singing at Music Hall on Decoration was due almost wholly to the grammer departments of the High and Franklin Schools, the High school department being scarcely represented. Much care had been taken in training the scholars, reflecting great credit upon those who had the arrangements directly in charge, and upon the singers themselves. They quickly responded to every movement of Prof. Hazell's stick, while the enunciation and pronunciation were very good indeed. The pieces were also selected with great care.

—It has been reported that matters have been fixed to force through the next meeting of Council, the granting of the franchise for a horse car railway. A majority of the Council are on record as opposed to a horse railway. However, they will probably favor any scheme that will not prove a permanent injury to the streets, and will be a permanent benefit to the inhabitants. It would be well, however, for outsiders not to count too much on the thing at present. Council will probably carefully investigate all plans before committing the city to any of them.

—The proposed new Episcopal parish at Netherwood, of which mention was made in yesterday's NEWS, will be known as the "Church of Our Saviour." A petition to be presented to the Bishop was circulated last Sunday and about fifty names secured. Those signers ask that such a parish be formed. The Bishop will submit the petition to the *Standing Committee of the Diocese*, who will bear arguments for and against such a project. The attendance at the union services in the Netherwood chapel has been very good, and the contributions have been liberal. The people now think they can support an Episcopal church.

—The following libelous article is clipped from the Elizabeth Journal: "The 'New Jersey Lilly' blossomed but briefly in Plainfield. In common with several others she attempted to 'elevate the stage,' and with this intent appeared with a company of her own selection at her own native theatre, so to speak, in the midst of friends foredoomed to bear an applaud. But the local critic has said that 'she is neither an actress nor an unusually pretty woman.' She might have survived the first defect, but the last is fatal. Here failure is the more lamentable because it carries down with it the heretofore suspicion that all Plainfield women were unusually pretty." The closing sentence is the libelous part, and unless the editor of the Journal hastily retracts his insinuation there will be "music in the air."

Meeting of Library Board.

A meeting of the Directors of the Public Library and Reading Room was held last evening in the Library building. Members present: Messrs. Male, Baldwin, Tyler, Dumont, Tracy, and Stillman. Absent: Messrs. Babcock, Yates, and Talmage. The minutes of the last meeting were read and approved, after which the following bills were ordered paid:

A. W. Tyler, salary for May	$100 00
A. W. Tyler, incidentals	14 76
E. M. Odam, janitor, salary	35 00
E. L. Adams, salary	25 00
F. M. Derby, books	11 04
Gustav E. Stechert, books	62 90
Houghton, Mifflin & Co., books	6 50
McHaln, Rhode & Co., books	125 88

The reports of the Treasurer and Librarian for the year ending June 1, 1887, were received, placed on file, and the Secretary directed to make therefrom the annual report of the Directors for the year, to be handed to the City Council at its next meeting.

The report of the public librarian, A. W. Tyler, for the month of May, which was read at the Directors' meeting last night, shows that there are now 6,450 volumes in the library; that during May 391 volumes were added by purchase and 21 by gift. The number of card-holders is 741; the amount received from fines was $11.75. The home circulation for the month was 1340, and the number of visitors to the building 1431.

A vote of thanks was extended to Mr. R. L. Livingston, State Senator of this district, for the valuable books recently contributed to the Library.

Three new members of the Board, will, under the rules, be selected by the Mayor and approved at the next meeting of Council, so that they can enter upon their duties by July 1st.

Somerset County Finances.

The annual report of the receipts and expenditures of Somerset county for the year ending May 11, has just been published. Some figures from it may be of interest to the readers of THE NEWS. The report shows that the total amount of money to be raised during the past year was $42,620.76 for State school, and $65,000 for county purposes. Of this amount North Plainfield was to contribute $3,561.15 to the former and $5,431.02 to the latter. The total receipts from all sources were $100,914.08 and the disbursements $102,592.77, leaving a balance in bank of $7,321.30. The court charges during the year were $11,555.89; the cost for keeping tramps $407.05; the county jail expenses $1,026.66; for public buildings and grounds the amount was $1,297.08; the lunacy bills amounted to $8,809.51, and coroners cost the county $310.90; stationary $328.83; advertising and printing, $618.08; elections $475.19; incidentals, $1,370.70. The bridges in North Plainfield cost the county $484.04. The salaries of officers and fees of freeholders amounted to $4,229.06. The interest paid on debt and *temporary loan amounted to* $8,842.83. North Plainfield Public school received $967.75 of the surplus revenue interest, $925.62 of the State apportiation, and $4,778.99 of the apportionment of State school tax. The amount paid to the State Treasurer on the school tax by the county was $42,620.76. Notes amounting to $25,000 have been paid, and the note indebtedness amounts to $70,550.

New Rose Ordered.

At a recent meeting of the Board of Fire Commissioners held in the office of Commissioner McClure the Committee on Repairs and Supplies were authorized to purchase one thousand feet of new diamond rubber hose to be distributed among the various panies of the department. The rubber hose is considered the most serviceable as it is unlikely to rot as quick as the hemp hose now in use. At nearly every fire several lengths of the hemp hose has been burst. The new hose is expected to arrive during this week and its arrival will be a source of great pleasure to the firemen.

More Light on the Subject.

Yesterday the linemen employed by the Electric Light Company, under the direction of Foreman James Skelley, completed the electric light circuit for incandescent lighting, from Crescent avenue along Seventh street to Madison avenue and thence to the station. On the latter thoroughfare about seventy-five lamp posts and lamps were placed in private residences along the line, and these will be ready to light to-morrow. The company is pushing the work as rapidly as possible. New contracts are being signed daily, and a large force of men are kept busy making the necessary connections.

Union County Courts.

In the Union County Court of Quarter Sessions, held at Elizabeth yesterday, John Mai, an Italian, was found guilty of assault and battery on a fellow countryman.

Jacob Carlchuff was also found guilty of assault and battery on Andrew Miller, his sweetheart's step father.

—Carpenters were at work to-day rebuilding the barn on the Berry estate, in the rear of Werner's clothing store, which was recently destroyed by fire. The barn is a frame one and is in close proximity to the Music Hall. The heat from the burning building caused the iron shutters on the Music Hall to warp and it was only by the hardest work on the part of the employes of the building and the firemen that it escaped damage. Residents in its vicinity are greatly opposed to its being rebuilt.

—At a recent meeting of the Middlesex Gun Club a challenge from the Essex Club was received, on condition that the teams be increased to twenty men instead of fifteen, and the match to be shot on the Middlesex grounds. Fifteen birds to each man will be shot at, the losing team to pay for the birds. If the amendment is accepted the match will probably be shot within a week or two. The club also decided to offer a trophy for the best shooting at the monthly matches, and it was decided to hold them the third Saturday in each month. The secretary was instructed to notify the Kingston Gun Club that a return match will be shot with them, at clay pigeons, on Wednesday, June 25.

PERSONAL.

Mr. Isaac Scribner's advertisement of burnt brick will appear to-morrow.

Mr. and Mrs. Lindsay and Mr. and Mrs. C. M. Rutter have gone to Asbury Park for the summer.

Four persons were baptised in the First Baptist church on Sunday morning by Rev. D. J. Yerkes.

George H. Babcock and family, of Eighth street, went to Washington, D. C., on Monday, and will return early next week.

It is reported that Miss Maude Ayers, a well known young lady of this city, had a narrow escape during the burning of the Opera Comique in Paris last week.

At four o'clock p. m. on Wednesday afternoon, June 22, at the residence of the bride's parents, corner of Second and Peace streets, Miss Euphemia Frazee and Charles F. Gullberg will be united in marriage.

Mrs. Mulford is lying dangerously ill at the home of Mr. S. I. Mitchell on East Sixth street. Mr. Mitchell is her son-in-law. David C. Mulford is their only grandson and a boy, and Mrs. D. E. Davis of East Fifth street her daughter and a sister of Mrs. Mitchell.

Dr. E. W. South, who left Plainfield about the first of May, because of his failing health, suddenly became unconscious at his hotel, in Atlantic City, last Thursday evening. He remained in that condition for a short time, but finally recovered and was taken to the residence of his son in Philadelphia. He is reported to be somewhat improved.

Mr. C. W. Tyler, the baritone singer in the Congregational church, will shortly retire from the choir, and Mr. F. W. Runyon will take his place. It is said that Mr. Tyler will soon leave town for his home in New York. During the absence of Elmer Ellsworth Runyon, on his wedding trip, Mr. F. W. Conger will occupy his place as tenor singer.

On Monday last Martin I. Cooley and his son Gifford, of Rockview terrace, visited Greenwood Lake, and captured over fifty fine bass with Gifford's "won the barrel" by landing a black bass weighing 4 1-2 lbs. on a 8 oz. fly rod. Father and son had eight bass weighing 2 lbs. each. Last summer Messrs. Cooley and son made the biggest catch of the season in the St. Lawrence.

Fred. Thorn, the young son of Alexander Thorn, of North Plainfield, still suffers considerably from the painful wound in his arm, caused by a rifle ball on Monday. The lad was riding in a wagon at the time the accident occurred, with the rifle between his knees, when by some means it was discharged and the ball entered the fleshy part of the right arm. The wound is not a serious one.

Ex-City Judge Suydam is making preparations to enjoy a rest from active work during the summer season, and recuperate his health, which has been failing for some time. He will remain near Plainfield for some weeks and will then spend some time at Colorado springs. Mr. Suydam's father is still lying ill at the residence of his son, Bound Brook, and his death is hourly expected. The physicians pronounce his case a remarkable one.

The funeral of Elmira, wife of Councilman John Simpson, took place at two o'clock this afternoon from his residence on East Second street. In the absence of Rev. Mr. Richards, of the Crescent Avenue Presbyterian Church, Rev. Mr. Bliss, a former pastor, officiated. The remains were interred in the Presbyterian Cemetery, North Plainfield. The pall bearers were Messrs. J.R. Van Deventer, Jos. B. Coward, Jas. E. Martin, Wm. McD. Correll, Daniel J. Marshal and Dr. Griffen.

Mr. A. W. Tyler's concluding lecture at the Congregational church to-night will be on "Book-making before the Invention of Printing." Mr. Tyler has made very careful researches into the subjects of his lectures and they are full of information and very instructive. To-night he will read selections from the Egyptian Book of the Dead, Egyptian documents, and give specimens of the blessings for preserving and curses for injuring or removing ancient inscriptions and manuscripts which run back over 500 years B. C.

William F. Arnold now occupies the position of teller and bookkeeper, in the City National Bank. Frank Gardener occupied the position of teller and bookkeeper, up to the death of Mr. Myers. Mr. Arnold was employed as senior bookkeeper at the Produce Exchange Bank, New York City. He is a young man of much promise and is well known in Plainfield church and social circles. His brother Charles, Arnold, who left this city about five years ago for the benefit of his health, is now engaged in the banking business in San Antonio, Texas, and is reported to be much improved.

The reception of Miss Bovee's class in elocution will take place this evening at Assembly Hall, beginning at 7.45. Admission will be by cards of invitation. The vocalists will be Miss Gussie Holmes, Miss Kittie Case, Miss Laura Baker, Miss Nettie Thorn, Miss Anna Petrie and Miss Eleanor Demarest. The members of the advance class are: Misses Ethel Boardman, Lucia Wood, Lilian Fritts, Nettie Thorn, Emma West, Mary Titsworth and Maude Benton. Junior Class—Misses Kitty Thorn, Bessie Blair, Addie Jackson and Aggie Blair. Miss Fay Young will be the accompanist for the gestures of the classes. Miss Etta Gavett will be the piano soloist, and Leo Heininger the violin soloist. The committee of arrangements are Misses Lilian Fritts and Miss Nettie Thorn. The NEWS returns its thanks for cards of invitation.

Jennie, daughter of the late James Vosseller, and Elmer Ellsworth Runyon were married at 7.45 o'clock last evening at the residence of the bride's mother, on Broadway, between Fourth and Fifth streets. Rev. C. L. Goodrich performed the ceremony, which was entirely private, owing to the recent death of the bride's father; only the immediate family of the bride and groom and some very near friends, including A. M. Runyon and wife and Miss Ida Roesp, being present. Judge Wadsworth, the family lawyer, was also present. The couple were married in the large bay window, standing under a handsome floral horseshoe. Messrs. F. W. Runyon and Frank Willits stood up with them. The bride was attired in a dark travelling suit and held a beautiful bouquet of Marechal Neilroses, while the groom was dressed in a plain black suit. After the ceremony a collation was enjoyed, and Mr. and Mrs. Runyon left on the 8.46 train for New York. This morning they proceeded to Rochester, thence to Niagara Falls, returning to Albany. They will stop at Saratoga Springs and then return home, the trip occupying eight days. On their return they will reside with the bride's mother, at her residence for the present. The presents received were very handsome and valuable, many of them being sent by uninvited friends. No cards will be issued, as under the circumstances the family desire the affair to be conducted throughout as quietly and unostentatiously as possible.

The Eleventh's Reunion.

It is expected that about one hundred members of the Eleventh Regiment, New Jersey Volunteers, will be in Plainfield on June 16, the occasion of the reunion. They will arrive here about 10 o'clock and will be escorted to the Music Hall where a address of welcome will be made either by the mayor, or some one representing him. Addresses will then be made by old veterans, among whom will be Gen. Daniel E. Sickles, of New York, Gen. Robert McAllister, of Belvidere, who organized and formerly commanded the regiment, Col. John Schoonover, of Trenton, who was last in command, and others. Gen. DePeyster will be prevented from attending on account of illness. Thomas Morbecker, of Trenton, is the historian of the regiment and personal sketches from nearly every member of the regiment will be published in the history which will be issued next year. After dinner in the basement of the Reform Hall the regiment will assemble in Winfield Scott Post rooms and elect officers for the ensuing year, besides transacting other business. The following Plainfield gentlemen are members of the regiment. William Hand, John Goodwin, T. O. Doane, Richard Vertron, William H. Paine, Henry Mellison, Dr. Abel Titsworth and Augustus Bloodgood. C. A. Oliver of New Brunswick, was captain of the company that was organized at Elizabeth, and of which the Plainfield men became members.

At the Park House.

A reporter for THE NEWS paid a visit to the Park House last evening and was shown through the spacious building by the genial proprietor, Evan Jones. Everything is neat and attractive about the hotel, showing that it is carefully managed. The large parlors and halls have been newly carpeted and furnished, and many new suits of handsome bed room furniture added, while the building throughout has been thoroughly renovated since Mr. Jones resumed charge in March. The large and well-lighted dining room is one of the important features, and the proprietor smilingly pointed out the addition which he had built a few years ago to accommodate the large number of guests. "Why," said Mr. Jones, "during the time when Dr. Bound Brook, his house I was compelled to engage two adjoining cottages to accommodate my guests. I study to please those who come here, and as you know, that is the real secret of the business. Of course we have people of all sorts of dispositions to deal with, but that is to be expected in hotel life. They have their ways, and I always endeavor to comply with any reasonable demands." One of the improvements to be added to the house is a large windmill for pumping water. The supply is at present furnished by means of a steam engine, but it is proposed to have the windmill do most of the work.

Interesting Statistics.

According to the ninth annual report of the Bureau of Statistics, Labors and Industries for New Jersey, the employes in manufacturing centers of the State, Newark, Jersey City, Paterson, Trenton and Camden, have 3,936 industrial establishments, employ 91,937 wage earners of all ages, in which $78,070,378 capitalis invested. To Newark are credited 1,501 establishments, 35,401 employes and $29,981,580 capital. This proportion of products to population is something less than one in five of the total population, while in Jersey City, with over 150,000 inhabitants, only 15,081 of all ages are employed in local industries. Paterson has 460 establishments, 24,193 employes and $15,707, 250 capital. Trenton has 262 separate industrial places and $5,562,100 capital, and 10,630 operatives. Camden boasts of 716 industries, 8,746 employes, and $6,077,994 capital. During the year 1886 the wages paid to employes in Newark footed up to $15,170,606; coal bills, $30,933,220; value of products, $80,454,954. Jersey City only paid $8,216,953 in wages to her workmen and her coal bills were $1,574,576, and turn out goods worth $68,888,198. Paterson expended $8,496,256 in wages, and consverted material worth $18,822,539 into merchandise worth $33,501,825. The excess in value of goods produced, over wages and materials in Newark, was $47,676,894. In Jersey City and Paterson combined the excess is slightly less, being a total of $14,429,-336.

One half of the silk goods manufactured in the United States are the product of New Jersey mills.

A New Road.

Last December an application was made for a new road in Bernards township, to lead from Bernardsville across the side of the mountain to the road leading to Van Doren's mill to Mendham, at a point near the old "Forge Pond." Surveyors were appointed and the road was laid. A caveat being filed by Calvin H. Dunham, the Court appointed six of the Chosen Freeholders to view the proposed road and determine whether or not it should be laid out. The Freeholders met at the hotel of Lewis E. Doty, in Bernardsville, and after viewing the road and hearing evidence of a large number of witnesses, pro and con, and listening to the eloquent and able arguments of the opposing counsel, decided that the road should be opened. Charles A. Reed, Esq., appeared as counsel for the road, and John A. Frech, Esq., against it.

The Freeholders were Director W. E. Jones of North Plainfield, George W. Ballentine of Bedminster, Jerome B. Heidebrant of Bernards, Wm. E. Hayer of Branchburgh, Augustus Wolfe of Somerville, and Arnold M. Freeland of Montgomery.—Somerset Messenger.

—Some of the Plainfield fishermen may find an item of interest in the budget from our Bound Brook correspondent.

—The regular meeting of the Board of Directors of the Y. M. C. A. will be held in the Association Parlor this evening at 8 o'clock.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Friday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair, slightly warmer weather.

Thirty Thousand Dollar Fire.

CHAPPAQUA, N. Y., June 2.—The Chappaqua shoe factory was entirely destroyed by fire last night. Loss $30,000.

Shot His Wife, then Himself.

PATERSON, N. J., June 2.—Theodore Stobler, the man who shot his wife here last night while in a fit of jealousy and then shot himself, died this morning. Mrs. Stobler will probably recover.

The President's Wedding Anniversary.

SARANAC INN, N. Y., June 2.—To-day is the first anniversary of President Cleveland's wedding. Mrs. Cleveland was presented with a bouquet of four-leaf clover. The whole party went to Holt's pond on a fishing trip.

Indicted by the Grand Jury.

BROOKLYN, June 2.—Thomas F. Nevins, Chief Engineer of the Brooklyn Fire Department, was to-day indicted by the grand larceny by the Grand Jury of Kinz's County, upon charges of extorting money from the electric light company. This is one of the results of the Dayton Assembly Investigating Committee's work.

Panic in a Church.

CHIHUAHUA, Mexico, June 2.—A terrible panic prevailed here yesterday in the Cathedic Cathedral, which was caused by a falling cornice. The day being a religious holiday, the church was crowded to overflowing, principally with women and children. At the sight of the smoke the crowd became frantic and an unusual scene of terror ensued. Several children were killed and a number of women were trampled to death at the entrance of the church was pitiful in the extreme. Women and children were lying about groaning in pain while the doctors were doing their utmost to relieve their sufferings. It is not known how many were killed.

Prize Fight in New York.

NEW YORK, June 2.—A prize fight occurred along the Hudson river last night, above this city, between "Johnny" Reagan of Brooklyn and "Jack" Files of Chicago. Fourty-four rounds were fought, occupying two hours and forty five minutes. The Chicago man was knocked out in the last round. The stake money amounted to $1,400. Both men were badly cut up and Files was put to bed on a mattress and took train for New York, and returned to this city. A subscription was started for the defeated man by the victor, who headed the list.

BOUND BROOK.

All the churches will have a celebration on Children's day, June 12th.

Did those fish taste good to the Plainfield gentlemen who were fishing on Monday? A little colored boy fifty cents for a string of cat-fish and eels, after fishing all day with poor luck!

Misses Roundy have begun excavating the cellar for their new Queen Anne cottage on High street. It will be a handsome house and will be built in the improvement style. It will cost about $4,000 when completed. Geo. Stuben is the architect and builder.

The Standard Paint company laid off a number of their employes yesterday, for a few weeks, while a new engine and other machinery is being put up in the main building. The company will soon begin work on another large building.

Wm. B. Koechlein, is training for his great walk against time, from City Hall, New York, to Coney Island on June 17th. Mr. K. is very confident of his ability to make the required distance in the time specified. The time is two hours and ten minutes, square heel and toe.

The situation between the strikers and the Woolen Mill company is unchanged. The mill is now running with about 225 hands. The company strongly object to employ union hands and are slowly filling the vacancies with non-union workers. About two-thirds of the old employes have obtained work at other places, the majority out of town.

—The Reception Committee of the Y. M. C. A. will hold an important meeting at the Association Room this evening at 8 o'clock.

—The committe of the Board of Chosen Freeholders of Union county met yesterday afternoon and accepted plans for the new bridge over Scott avenue, Plainfield, and a resolution was adopted this afternoon at the regular meeting of the Board of Freeholders held at Elizabeth, inviting proposals. The bridge is to be a wooden structure.

Marriages.

CLARK—RICHARDS—At New Market, N. J., June 2d, by Rev. J. A. Cubberley, Mr. Chas. Clark, of New Market to Miss Joanna Richards of Dunellen.

KUNYON—VOSSELLER—In Plainfield June 1st, at the residence of the bride's mother, on Broadway, by the Rev. C. L. Goodrich, Elmer Runyon and Jennie, daughter of the late James S. Vosseller. No cards.

THURSDAY, JUNE 2, 1887.

RUSSIAN ACTIVITY

CAUSES ANXIETY AMONG THE BRITISH OFFICIALS.

Col. Ridgway Called Home to Explain the Why and Wherefore—England Strengthening the Fortifications at Herat and Candahar.

LONDON, June 2.—The recall from St. Petersburg to London of Col. Sir West Ridgway, chief of the British Afghan commission, is understood to have been decided upon for the purpose of receiving from him personally an explanation of those extraordinary activity of Russian troops in Asia, to which the government's attention has been called. For some time past the government has been advised through the agents that Russian military movements on a large scale and of extraordinary frequency were being executed in the disputed portions as well as the already delimited parts of the territory forming the boundary of Afghanistan, but none of the informants has been able to give information in detail. It is given out that Col. Ridgway will return to St. Petersburg after reporting in person to Lord Salisbury, but knowing ones allege that he will proceed to Afghanistan via India instead.

The question of the winter has become very serious. The rebellion against his authority is growing rapidly, and the recent reverses sustained by his forces in their conflicts with the insurgents have aroused the Ameer to the home government, and the Indian government as well, that the time has arrived when the protection of British interests in Afghanistan demands the peremptory and effective military interference of English troops. In this view the fortifications of Herat and Candahar are being strengthened by English engineers, and preparations are making to occupy both of these strongholds as soon as English troops can be pushed forward.

Meanwhile Russia is quietly entrenching herself between the boundary line proposed by England and the one contended for by herself, with no intention of retracing her steps, but of marching steadily forward when the time for a movement arrives.

Finley Hoke Convicted.

PEORIA, Ills., June 2.—The jury in the case of Finley Hoke, extradited from Canada on a charge of forgery, rendered a verdict finding the defendant guilty as charged, and fixing his penalty at five years in the penitentiary. A motion for a new trial was overruled, as was also a motion for an arrest of judgment.

Governor of New Hampshire.

CONCORD, N. H., June 2.—The legislature elected Charles H. Sawyer (Rep.) governor by 178 to 146 votes for Thomas Cogswell (Dem). The vacancies in senatorial districts were also filled. The legislature organized with the choice of officers in harmony with the senatorial candidacy of ex-Secretary Chandler.

The Master Masons Weakening.

CHICAGO, June 2.—The executive committee of the Master Masons' association have prepared a document addressed to the bricklayers' union, declaring the strike to have no reason, and outlining a plan for the settlement of the present labor troubles. The document will be published in a day or two.

Swept Out of Sight.

WHEELING, W. Va., June 2.—A rain and wind storm passed over this city at 3 o'clock yesterday afternoon, doing much damage to property. During the storm a boat containing three persons capsized near the middle of the river, the occupants being swept out of sight almost immediately.

Buried in One Grave.

UNION HILL, N. J., June 2.—The bodies of Charles Seidhorf and of his wife Matilda, who committed suicide rather than go to the poorhouse, each being more than 90 years old, were buried this afternoon by friends in the same grave in the Grove Church cemetery.

A Supreme Court Decision

HARRISBURG, Pa., June 2.—The supreme court has decided that real estate owners on Filbert street, Philadelphia, cannot recover consequential damages from the Pennsylvania Railroad company on account of its elevated structure along that street.

The Carpet Weavers Will Appeal.

PHILADELPHIA, June 2.—District Assembly 126 (carpet weavers) will appeal to the October general assembly of the Knights of Labor at Minneapolis against the action of the general executive board in revoking their charter.

Their Wedding Anniversary.

PROSPECT HOUSE, N. Y., June 2.—To-day is the 33rd anniversary of the president's wedding and it is being celebrated by a little picnic at Hall's Pond. The party took lunch along, and will spend the entire day there.

CONDENSED NEWS.

Maj. George S. Merrill, of Lawrence, was yesterday appointed state insurance commissioner of Massachusetts, vice John K. Tarbox deceased.

The Toledo Cadets received an enthusiastic reception on their return home. A purse of $1,000 was presented to them.

Miss Mary Childers, of Trenton, Ga., at the muzzle of a pistol compelled Miss Magars to retract statements he had circulated against her character. She then published him, and he challenged her to fight. She was on hand at the time appointed, but Magars failed to show up.

The farmers in upper Westchester county, N. Y., are alarmed at the appearance of pleuro-pneumonia among their cattle.

The recent rains in Texas have made the outlook for the cotton crop more favorable.

One of the men arrested for the Texas train robbery asserts that he was offered $1,000 to confess that he was guilty, with the further understanding that if sent to jail he would be released. He can prove an alibi.

A lion, supposed to have escaped from a traveling menagerie, was large in Reddoxy county, Ark. A child recently missed is supposed to have been carried away by the beast.

The projected journey of the Emperor William to Gastein has been abandoned.

While grading for a wood yard at Plaipubahua, Mexico, workmen came upon a vein of silver that runs nearly $40 to the ton.

This is the seventy-ninth day since Capt. Murchison, of Meden, Tenn., has tasted food or drink, and yet he retains his mental faculties. He is a paralytic.

THE COKE STRIKE.

ITS EFFECT ON THE IRON INDUSTRIES OF THE COUNTRY.

Unless a Speedy Settlement of the Trouble is Arrived at Fully 500,000 Men Will Be Idle—The Convention at Cincinnati.

CHICAGO, June 2.—Half a million men will be thrown out of work within the course of a month unless the Connellsville coke strike is speedily settled, and there seems to be little prospect of a settlement of the trouble. No coke is being produced at present in the Connellsville coke regions, and without a supply of this fuel every blast furnace in the United States, with the exception of the few run by natural gas, will be forced to shut down or bank their fires for an indefinite period.

The fallow has already struck Chicago. The first concern to feel it was the Union Steel company, which has banked its fires, throwing out of work 400 men. Having a good supply of iron, the rail mills are still running, but as soon as the pig on hand is exhausted these will close also, and 1,100 more men will be added to the idle list. The Calumet Steel company is the only prominent iron manufacturing company in the city that will not be seriously affected. This company employs only about 100 men in the blast furnace works, and these will be the only ones to be laid off for a while, as the mills will be run with pig iron and do not depend on the blast furnace metal for their material. The Joliet Steel company is fortunate in having a stock of coke on hand, and is therefore in a position to run for a while longer. It is only a question of time, however, should the strike continue, when this company will close and its thousands of employes be thrown out of work.

The worst blow of all to the iron industry of Chicago is the fact that the North Chicago Rolling Mill company will close its works in a week, throwing 5,000 men out of work and leaving their families without income.

"It looks like a very serious affair just now," said Mr. J. S. Parke, general manager of the company. "There is nothing to be done. We cannot run without coke, and we cannot get coke. It is much shut down. We are very sorry to do it. Our relations with our men have been pleasant, business has been very good, and the stoppage of an immense enterprise like ours affects thousands of men. We are only in the same fix, though, that all iron works are that depend on blast furnace metal to run. These places that can run on pig iron may not be so close for a while, but the outlook just now is anything but cheerful. The Virginia coke is not good enough and there is not enough of it to run our works."

J. C. Strobel, of the Keystone Bridge works, who has an office at the Chicago headquarters of the Carnegie Brothers, said: "I think a continuance of the trouble will paralyze the iron business. Of Carnegie, business I only know through Mr. Fleming, but I think they will be obliged to shut down if the trouble continues, notwithstanding the fact that Mr. Carnegie is largely interested in coke production and has an advantage over other companies in that respect. Coke other coke can take the place of the Connellsville article, and when blast furnaces cannot get it they must close, and not only they, but all the immense Pittsburg mills. The outlook is very blue, unless something can be done to settle the strike."

CINCINNATI, June 2.—The miners' convention in session here will be before it for consideration the following resolution, adopted at a miners' meeting at Coal Bluff, Pa., May 23, 1887, where the address of the joint board of arbitration was read:

"Resolved, That we demand of the officers of National District Assembly 135 that they join hands with the National Federation and bring the miners of southern and western Illinois into the field in order to establish the Columbus scale, and that this resolution be given to the press and sent to the general officers of said district."

Master Workman Bailey positively refuses to be a candidate for re-election, and R. W. Price, of Missouri; D. P. Conway, of Pennsylvania, and Robert Lynn, of Kansas, are all talked of to succeed him. Eighteen states and two territories are represented by delegates in the convention. The strike decree will probably be held at Pittsburg, Pa.

It is probable that some time will be devoted to the discussion of the Pennsylvania coke troubles, although the delegates declare that is not one of the objects of the meeting. The sessions of the assembly are held with closed doors. All that can be learned of the proceedings comes through the secretary. Over 60,000 men are represented by the delegates in the convention. The result of their action will interest the entire mining industry.

MRS. KISSANE TALKS.

She Says Gen. Dorr's Persecution is for Blackmailing Purposes.

SAN FRANCISCO, June 2.—The attempt to extradite William Kissane to Arkansas has attracted renewed attention to the famous forger, and his pretty place at Sonoma has been visited by numerous reporters. Kissane has a wife and a grown daughter living on his ranch, and the former told a reporter that were it not for her interception Kissane would never have let Gen. Darr live to make the exposures he did. Darr, she said, had visited the ranch prior to the publication of Kissane's career, and both he and his wife were very friendly, but she became sure that they came only to take an inventory of the colonel's effects.

"It is well for Darr," Mrs. Rogers said, clutching the pistol she usually has by her, "that long ago I have settled with the man who has pursued him like a fiend for no other reason that we can imagine except the desire to extort money. If I had known, she said, and visited the ranch prior to the publication of Kissane's career, and both he and his wife were very friendly, but she became sure that they came only to take an inventory of the colonel's effects.

"It is well for Darr," Mrs. Rogers said, clutching the pistol she usually has by her, "that long ago I have settled with the man who has pursued him like a fiend for no other reason that we can imagine except the desire to extort money. If I had known, Mrs. Kissane says sullenly, and the governor summoned the police. The crank will be taken back to Herkimer.

Mistook His Man.

COLUMBUS, O., June 2.—A few days ago Governor Foraker issued a notary's commission to an applicant named D. S. Gregory, of Cuyahoga county. Yesterday it came to the governor's knowledge that Gregory was a female, and the governor revoked the commission by proclamation. The word "he" was used in all the blanks in the application, but Mr. Foraker was not prepared to meet it, he said, was to find some remedy against the eviction of tenants suffering from unjust rents. Unless that was done the government would have serious work in Ireland the coming winter.

Election of an Episcopal Bishop.

BALTIMORE, June 2.—At the convention of the Episcopal diocese of Easton, held at Chestertown, Md., Rev. John S. Lindsley, of St. John's church, D. C., was elected bishop to succeed the late Bishop Lay. He makes the sixth bishop elected since the death of Bishop Lay in 1885. He was once chaplain of the house of representatives and is 45 years old.

O'Brien En Route for New York.

NEW YORK, June 2.—A committee left at midnight last night for Boston to meet Editor O'Brien and escort him to this city. They left Boston at 11 o'clock this morning, and will arrive here at 6 p. m., after which a reception to Mr. O'Brien and Mr. Kilbride will be held at the Academy of Music.

FOUND DEAD IN AN ALLEY.

A Knife Wound in His Body Indicates the Cause of Death.

NEW YORK, June 2.—The body of Matthew Norwood, colored, 28 years old, was found early yesterday in a pool of blood in the alley adjoining the tenement house at Nos. 224 and 226 West Thirtieth street. Coroner Eidman made an examination of the remains and found a deep gash made by a long bladed knife or razor in the left groin. This wound was the cause of death. Norwood was a whitewasher, and earned good wages. Although he had a wife living at No. 241 West Thirtieth street he is known to have been a frequent visitor of Virginia Kelly, a negress living on the third floor of No. 226, whose window was just above where the man was found.

Tuesday night, the neighbors say, Virginia gave a reception, to which Norwood was not invited; but about midnight he appeared and there was a quarrel in the room, followed by a shriek and a fall. This, however, was of such common occurrence that no notice was taken of it. The young woman and a mulatto, who described himself as Charles C. Johnson, were arrested. Johnson said he was a medical student at Howard university, in Washington. He said he knew nothing of the murder. Norwood was his brother-in-law.

THE FRENCH MINISTRY.

M. Clemenceau Awaiting His Opportunity—Rochefort's Denunciation.

PARIS, June 2.—There having been no session of the chamber of deputies, yesterday, the new ministry breathed free and could predict for themselves a tenure of office extending over a further period of twenty-four hours. They are not to lie upon a bed of roses during the next three days, however, and it would surprise nobody in the Rouvier place their resignations in the hands of President Grevy before Saturday. M. Clemenceau is awaiting an opportunity to strangle the life out of the new government, and it is conceded on all sides that he will not have to wait long. If the cabinet does not fall to pieces through internal confidence, it will certainly come to grief on the budget or the question of the compulsory military service of Senarists.

M. Henri Rochefort denounces the cabinet as having been constructed with a view of placating Germany and demands its immediate resignation.

A PATERSON TRAGEDY.

Theodore Stohler Shoots His Wife and Then Himself.

PATERSON, N. J., June 2.—Theodore Stohler, foreman of the ribbon department in Folsom Bros.' silk mill, on coming home from the mill last evening accused his wife of entertaining two male companions in the house during the afternoon. His wife denied the accusation, and after a few hot words Stohler drew a revolver and shot her, the ball entering her ear. He then rushed into the kitchen and placed the muzzle of the weapon to his own ear and fired, the ball lodging at the base of the brain. Dr. Townsend, who was summoned, says that he will not live.

The woman will recover. Mrs. Stohler is the daughter of the well known proprietor of Harmony hall, 441 Main street, this city. Stohler forbid his wife of mingling with the "riff raff" of the place, but she refused to listen to him.

Roughs Cause a Riot.

HARTSVILLE, Tenn., June 2.—At a circus here Monday twenty-five or thirty Macon county roughs were present, drunk, and with the spending of the day they began fighting. They formed a circle in the center of the tent, and, passing bottles of whisky around, drew knives, sticks and pistols. A dozen police attempted to put a stop to the fun, but in vain. A number were stabbed and bruised, but none fatally hurt. The row was so great that the show was forced to suspend the performance. There seemed to be no cause for the riot except a general drunken desire to fight.

His Dog Found the Body.

NEW YORK, June 2.—The laborers in the search for the body of John Deery, the night watchman in Palmer's cooperage in North Fifth street and Kent avenue, Williamsburg, noticed the dead man's dog scratching at a pile of rubbish. They went to the place and saw a portion of Deery's body. They began at once to remove the bricks and timber that covered it. Crouching near them all the time was the dog, watching every movement. He remained until, after six hours of hard work, the body was dug out. Then he went home with one of the men.

After the Druggists.

TIFFIN, O., June 2.—Capt. Hayes, a detective, who, it is claimed, is in the employ of the Ohio State association, drove down on our drug stores yesterday, and with a decoy captured them all violating the Dow liquor law. At each of the drug stores his decoy got a bottle of whisky, and with this evidence went before a notary, who is a saloon keeper, and swore out warrants for their arrest. Seven druggists were arrested, including a member of the legislature and county auditor. The penalty for the offense is $600 fine.

A Crank from Herkimer.

ALBANY, June 2.—E. C. Dieffenbacker, of Herkimer county, forced his way into the executive chamber yesterday up to Governor Hill's desk, and drawing a letter from his pocket demanded that the governor read it. He read such a disturbance and gesticulated so wildly that the governor became somewhat alarmed lest he should attempt violence. Dieffenbacker told Governor Hill that he was the Utica and Binghamton crank that sane asylums, and the governor summoned the police. The crank will be taken back to Herkimer.

Mistook His Man.

COLUMBUS, O., June 2.—A few days ago Governor Foraker issued a notary's commission to an applicant named D. S. Gregory, of Cuyahoga county. Yesterday it came to the governor's knowledge that Gregory was a female, and the governor revoked the commission by proclamation. The word "he" was used in all the blanks in the application, but Mr. Foraker was not prepared to meet it, he said, was to find some remedy against the eviction of tenants suffering from unjust rents. Unless that was done the government would have serious work in Ireland the coming winter.

Election of an Episcopal Bishop.

BALTIMORE, June 2.—At the convention of the Episcopal diocese of Easton, held at Chestertown, Md., Rev. John S. Lindsley, of St. John's church, D. C., was elected bishop to succeed the late Bishop Lay. He makes the sixth bishop elected since the death of Bishop Lay in 1885. He was once chaplain of the house of representatives and is 45 years old.

O'Brien En Route for New York.

NEW YORK, June 2.—A committee left at midnight last night for Boston to meet Editor O'Brien and escort him to this city. They left Boston at 11 o'clock this morning, and will arrive here at 6 p. m., after which a reception to Mr. O'Brien and Mr. Kilbride will be held at the Academy of Music.

THREATS OF LYNCHING.

AN EXTRA GUARD PLACED OVER MURDERER SHOWERS.

A Belief Now Prevailing That He Murdered His Wife and Daughter—Poisoned Oranges Found in the Deserted House.

LEBANON, Pa., June 2.—The rickety looking jail here was doubly guarded last night. All day mutterings of vengeance were heard on all sides throughout the Lebanon valley. The demand seems to be general that William Showers, aged 60, now in a cell for the murder of his two little grandsons, at Annville, should be taken out and lynched.

The authorities fear that swift and terrible justice will be meted out to the aged fiend. Even the woman, Miss Sargeant, whom he hoped to marry after the little ones were out of the way, says she would be willing to be one of a party to take him out of jail and tear him to pieces for what he has done. She says she saw the old man after the boys had disappeared, and positively refused to keep company for him until he had made clear what had become of the little ones. She also declares that she had all along refused to live with the old widower unless he would send the boys into an orphans' home to be educated. She also denies the story that Showers was to marry her or that her wedding dress had been purchased.

Yesterday the mangled remains of the murdered boys were buried side by side in the old man's family burial lot in the Annville cemetery.

The villagers now remember that Showers' wife and daughter, the latter the mother of these latter victims, suddenly, a short time ago, and on a movement is on foot to have their bodies disinterred for medical analysis. Showers' counsel have ordered the old man to say nothing. He simply declares his innocence. But he fails to explain why he told a half dozen different stories as to what had become of the boys.

Poisoned oranges were found in his deserted house after his arrest, and many believe the little boys were poisoned before they were brained and strangled. If Showers is not lynched in the meantime he will be tried at the September term of the criminal court.

MAKING NEW LAWS.

Signing the Bill Giving the Labor Party Representation.

ALBANY, June 2.—Governor Hill buckled down to hard work yesterday and by his signature to the new laws, brought down the number to date up to 500, against 380 last year. Among the bills signed was Erwin's providing for an election inspector to represent the labor party, appropriating $7,500 for the Sixty-ninth and Fourteenth regiments to act as escorts to the army of the Potomac encampment at Saratoga on the 23d and 24th inst.; Canfora, for five additional health inspectors in New York city, making the total number forty, of whom twenty shall be practicing physicians; Murphy's, to permit persons who have been guilty of misdemeanor to become eligible as members of the police force; also the Murphy bill allowing trout that have been caught in another state to be sold at all times in this state.

Terrific Hailstorm in Mississippi.

COPPERVILLE, Miss., June 2.—Airmount, a town nine miles east of this place, was visited by a terrible hailstorm, lasting an hour. The crops which were unusually promising, were destroyed. The roofs of houses were battered in by the hailstones, which were larger than hens' eggs.

BEAUREGARD, Miss., June 2.—Three very destructive rain and hail storms have passed over this place, doing immense damage to the corn, cotton and vegetable crops, stripping forest trees of their foliage, demolishing fences and doing other damage.

Meetings Limited to Five Persons.

BRUSSELS, June 2.—The senate yesterday, by a vote of 58 to 56, approved the bill imposing import duties on cattle and meat. Conflicts occurred here between parties of Socialists, who were parading the streets, and the police. Numerous arrests have been made. An order has been issued forbidding the assemblage of over five persons in a body. The Mons district is quieter. Men are at work at all the coal mines in the Charleroi district and on both sides of the Meuse.

He Was Highly Respected.

GRAND RAPIDS, June 2.—Probate Judge Lyman D. Follett has been missing several days, and rumor has it that there is a large shortage in his accounts. It is alleged that nearly every estate in the probate court, where the funds passed through Follett's hands, has suffered. It is also said that Follett speculated heavily in wheat in the Chicago pit. The following large amounts are to be presented: Estate of Mary Hoyt, $4,000; estate of Mary Hoyt, $4,000; estate of Mary Hoyt, $4,000;

WOMAN AND HOME.

HOW TO COMFORT THE STRANGER WITHIN THE GATES.

Higher Education of Women—Thrift. Calisthenics for Girls—Obiter Law—A Sneering Phrase—Ventilation—Use of the Fork—Old Maids.

In these days of small houses and high rents many of us cannot afford the luxury of a spare room for visitors, for it is a luxury, as all housekeepers know. An unexpected guest comes late in the evening, perhaps, to remain over night. The consciousness of a room all ready for the stranger's reception lends a cordiality to our greeting that would be palpably absent if the thought where the guest would be put to woo the drowsy god was racking our brain. If the visit should extend over any length of time, it will be much more comfortable for both hostess and guest if there can be a room given over entirely to the visitor. In the morning, when the hostess is busy with the various household duties that claim her attention, the visitor can entertain herself in her own room, either reading or attending to her correspondence or doing some fancy work, which we all think it our duty to take away with us though we generally bring it back in its pristine condition. The busy housewife's mind is thus relieved as to the entertainment of her guest, and she can attend to her domestic cares with a clear conscience.

In the furnishing of this room we can indulge to the fullest extent our love for fancy things. In the rooms that are in use every day this love has often to be restrained, else we would have to sacrifice too much time to it, and unless we did sacrifice the time the effect would be far from pleasing; but in this room the articles are not often disarranged, and as it is not used except when we have company, no time is wasted. Try by all means to fit up the room in the best fashion if you have to strain a point. After you and your friend have been shopping and sight seeing the entire day, and perhaps have an engagement for the evening, how nice it is possible for your guest to lie down for ten or fifteen minutes, it will refresh her exceedingly; but if the bed is all dressed up in pillow shams and sheet shams and spotless counterpane, no matter how longingly she may look at the bed, nor how much her weary limbs may desire the repose, she will hesitate long before she disturbs the bed, and in many a case she will forgo the desired rest. Just think when you are visiting what affection you bestow on a lounge and how much it has added to the enjoyment of your visit. Human nature is the same the world over, and what has added to your comfort and enjoyment when away from home will have the same effect on your guest.

If the size of the room will not permit a lounge, well, then, retire the pillow and sheet shams; throw a nice bright afghan, either knit or crocheted, over the foot of the bed, so that when your friend wants to take her forty winks she can draw it up over her and not disturb the bed. A table with a work basket, well supplied with cotton, needles, thimble and scissors, is also a necessity. The visitor's traveling bag ought to contain these things, but sometimes, in the hurry of packing, they are overlooked, and when it is necessary to repair some damage to the toilet, unless the careful hostess has supplied the omission, the guest often puts to considerable inconvenience. If you have stored anything away in the drawers of the dressing bureau, remove them all and leave the drawers entirely empty of the guest. If you cannot conveniently give her the whole closet, leave at least half the hooks free. No one likes to keep her dresses or wraps or cumbrous articles with which your guest, to do you honor, tries to make herself beautiful, in a trunk or satchel.

A little wicker rocker would also meet with general approval, and would more than repay for its outlay by the homelike look it would give the room. Little half curtains of dotted swiss or scrim edged with lace are pretty for the windows, and long lace curtains are very artistic. Which would be preferable depends on the size and situation of the room. The washstand should be supplied with plenty of towels and at least one Turkish towel. These are so generally used now that they seem almost indispensable. The matchbox also should be seen to and a newspaper for burnt matches supplied. A few books that one can pick up at any time and open anywhere should adorn the table. A little care and forethought is all that is necessary to make a pleasant abiding place to your friend, and you may be sure that it will not be expended in vain. That is one of the things in this world that your friends will take reg. nizance of and will appreciate abroad. Your efforts, too, may be a spur to those who make their visitors "one of the family" in its most disagreeable sense. It is only right to make your guest feel thoroughly at home, though there are times when being regarded as one of the family has its disadvantages.—Brooklyn Citizen.

Thrift of the Fair Sex.

There are no persons for whom the quality or at least the possibility of thrift is so important as in the case of women. Their opportunities of earning money are generally smaller than are those of men, and their chances of losing it unspeakably greater. They may be less liable, on the whole, to have others dependent on them, and yet they are very commonly exposed to even this risk, the person dependent being often he on whom the dependence sits least graciously—the husband or the father. Thrift is the ability to make a little go a great way, and to hold on to that little; and the less there is, the more the thrift is needed.

How often are women led into investing their little all in some uncertain enterprise merely that they may have what some rich neighbor has done the same! "If Mr. Blank puts his money there," they say, "it is surely safe for me." But the difference is that Mr. Blank, having a few thousands to spare, can put past the possibility of risk into United States securities, can afford to amuse himself as he likes with the rest of his money. He can afford to make doubtful investments, whereas if the woman loses her little hoard she has lost absolutely everything, so far as worldly possessions are concerned, for that moment. Forty of loss, the lending of the sisters' little fund to the brothers, so that they can go into business. "Dear David knows so much better than we how to make use of this money; whereas if David knows enough to be trusted with his own money, he ought to know enough to leave that of his sister where his accidental bankruptcy will not molest it.

That part of thrift which consists in making careful bargains belongs more to women than to men. They are more patient in investigation, slower in deliberation, more microscopic in calculation. Of a young couple going to housekeeping the husband will commonly make up his mind to buy the whole house after less of anxious scrutiny than the wife will bestow on the cooking stove alone; and it will sometimes take the sum of her economies to balance a single bold extravagance of his. Her business virtues are more negative than his—the absence of debt, the absence of daring investments—and doubtless the husband is sometimes right in thinking that a bolder policy may in some particular case be right. Some of the corner lots lying from the fact that only ten feet by 10 dazzling (at least in imagination) with larger sums. They are talking about possible profits of thousands, while their wives are debating the question between subsisting at 25 a yard and something at 87½ cents. I remember to have read in the memoirs of some unfortunate man of letters an epistle announcing his utter despair and that he was tired of the joys of their hopeless destitution. He really did not know what was to become of him or them. But the letter was dated at the Fifth Avenue hotel, then the most expensive place of entertainment in New York city.—"T. W. H." in Harper's Bazar.

Calisthenics for Girls.

I noticed two sisters, girls of 15, not long ago, very much alike in face and figure, but noticeably different in the poise of the head and shoulders and in the carriage of the body. One had a willowy gracefulness and suppleness, yet withal that uprightness and dignity so often seen in Indian women, while the other, though not awkward, had a way of carriage conveyed no pleasing impression of perfect grace. And I thought how unfairly had fortune dealt with these two—with but a touch had she added an increase to the charms of one sister. Chance, however, proved to me that nature had had nothing to do with the matter, suddenly, consequent upon some illness, had suggested to the mother to send this daughter, with the child of a German neighbor, to a German turning school, where, certain sessions in the week, was a class of gymnastics for young women and children. The exercise proving the desired medicine for her health she was continued in the class for a number of months, the reason alone—nor was it once thought of to send her well sister with her until it was realized too late what these calisthenics had done for the one.

Curiosity prompted me to accompany the child one day to her class and see for myself. Here I found she could run like a deer and then quickly change to the slow pace known as mowing, and as quickly; jump from a spring board or swing from a trapeze or big iron rings like an acrobat; lead a march like the pretty actress in "The Merry War," and, wonderful to relate, throw a ball like a man—besides many other things—none in themselves particularly desirable accomplishments for young women, but together one well calculated to keep some one set of muscles in the lithe, active body in perfect training.

In a certain city dwells a beautiful woman, the envy of all. To keep the suppleness of her figure she stands one hour daily, fifteen minutes at a time, with hands on her hips before a long mirror, and bending her knees out from each other, sinks slowly down toward the floor as low as possible, then again as slowly uprising; meantime moving her arms in any way to their utmost length, out or up, forward or back. Then when she stands erect, they are ready to be placed on her hips again. Each movement is repeated, every time a little accelerated, until at the end of the thirteen minutes it is done quite quickly and a beautiful color is glowing in her cheeks. She then lies down on a perfectly flat couch, without a pillow, until her breath comes smooth and regular, as it will in the two minutes left in her quarter of an hour. To a friend who asked how she could afford to spend the time she replied: "When you and I shall be 45 I shall for this reason be many more years younger than you than the sum of these hours of exercise." In summer, when playing a good deal of tennis, she cuts down her exercising one-half.—Chicago Herald.

The Higher Education of Women.

There was recently celebrated in Boston the tenth anniversary of the Massachusetts Society for the Higher Education of Women, a society or organization little known to the public, which, according to its last report, appears to have accomplished some significant results. By the name it bears the society, whose general purpose is indicated by the name, has furnished some valuable data bearing upon the questions whether women are desirous of and capable of the higher education, whether they are competent mentally and as to their physical ability to pursue the severer courses of study. All these points, which to many appear to have been fairly settled, are still called in question by those whose standing entitles them to an answer. The Massachusetts society has assisted forty-five young women, seven within the last year, and, of course, has become intimately acquainted with their circumstances and work. As to the c...r of these girls for the most advanced edu...n, a writer, speaking of the many stories of self sacrifice and devotion to the purpose, says:

"This is the rule, not the exception. These girls have earned money in many ways, from the medical student who served as night nurse during the winter months, while pursuing her studies, and as full nurse in the summer vacations, to the girl who for two summers worked at a turning lathe because it was more profitable than teaching in a summer school. They wait at hotel tables and shop counters at the summer resorts; in city shops for the holidays and Saturdays; they teach evening schools out of town after the day's work in college is done, and they wash many dishes in hot and cold to save the pittance of car fares."

The records of these girls, at Boston university, and professional schools, and in after life, have abundantly demonstrated their ability to advance side by side with men. Their physical capacity has been wisely made a matter of special consideration, and the report is, that "college work in itself will not hurt a healthy girl, but the labor by which many girls put themselves through college is often too arduous, and when they are away from home and have but little money they are tempted to take too little nourishment and to wear insufficient clothing." In other words, the disregard for health of those young women sometimes causes them to slight their physical welfare. But when the body as well as the mind is cared for, they are abundantly able to perform the tasks of a college curriculum. The society, realizing the importance of this subject, has aided in equipping a gymnasium for the students of Boston university, and has arranged for sanitary lectures of a practical character.—Frank Leslie's.

Where Woman Is Queen.

In Ohio a married woman's rights are coequal with her husband's. If she owns separate real estate she can sell and convey it without consulting her husband. If she wants to mortgage or lease her farm or house and lot she is at perfect liberty to do so. If she possesses personal property it is her own, and it will pass to her husband only by her consent. The law regarding man and wife has been completely revolutionized by a mere act of simplification. She can buy and sell, sue and be sued in her own name without any husband or "next friend." If she is in debt when she marries, her husband is not bound to pay the indebtedness unless he chooses. The creditor must collect from the real debtor. In other words, the rights of man and wife are made exactly identical. Whatever right the man possesses under the marriage relation, the same right is possessed by the wife without modification or abridgment. According to the law of Ohio to-day, husband and wife are not one person, but two separate and distinct individuals as far as their independent right to acquire and dispose of personal, real and mixed property is concerned. If she calls her next door neighbor an antiquated parallelogram and no better than she, hypothenuse of a right angle triangle, her unfortunate husband is not bound to go into the court and be mulcted in $10,000, more or less, for slander. Some of the most complicated and vexatious litigation which has ever lumbered up the dockets of the Ohio courts, enriched lawyers and impoverished widows and orphans, will be prevented and hereafter rendered impossible by this law.

Like a Woman.

Kate was tying up a bundle to go by express. "That's right," said Ned, who stood by; "tie a granny knot. Just like a woman!"

The bundle being scientifically made up, but Kate had done her best, and her face flushed, as much with temper as exertion.

"I hope it is just like a woman!" she said indignantly. "It's about the shape if you were polite as some women I know you would have tied it up for me, instead of making fun!"

Ned had the grace to be ashamed, and so showed the better boy he sometimes was that phrase. Women, being human, do have their weak points, and even traits which cordially invite ridicule, but he is an unchivalrous knight who is indifferent to one's blandishes. In doing so, however, he usually succeeds chiefly in advertising the shallowness of his own nature.

If a man despise women, he will do well to look closely into his own heart, to see if it be undefiled; but if it still prove impossible for him to honor them, let him cover his sneers as he would his infirmity, for it would be sure the good and great will pass scathing judgment upon them.

The case is not "like a woman!" Like Florence Nightingale, Mary Somerville, George Eliot, Charlotte Bronte, Frances Power Cobbe and Mary Lyon!

Perhaps the list, even when no farther extended, is a goodly one, and we might well relinquish all earthly advantages to be included in it. But there is even a greater consolation—the phrase is a mockery. "Just like our own mother," and even the most shallow must cease to scoff.—Youth's Companion.

Need of Ventilation.

In warm weather, young housekeepers must make a daily journey to the cellar to detect foul air; and they well see that proper ventilation is observed here and throughout the dwelling, at all times. Probably there is no more prolific source of disease than poor ventilation, and merely opening windows to admit air is not by any means all that is implied by proper ventilation. Even a free circulation of air through rooms in which are badly stored sinks slowly down toward the floor as low as possible, then again as slowly uprising; meantime moving her arms in any way to their utmost length, out or up, forward or back. Then when she stands erect, they are ready to be placed on her hips again. Each movement is repeated, every time a little accelerated, until at the end of the thirteen minutes it is done quite quickly and a beautiful color is glowing in her cheeks. She then lies down on a perfectly flat couch, without a pillow, until her breath comes smooth and regular, as it will in the two minutes left in her quarter of an hour. To a friend who asked how she could afford to spend the time she replied: "When you and I shall be 45 I shall for this reason be many more years younger than you than the sum of these hours of exercise." In summer, when playing a good deal of tennis, she cuts down her exercising one-half.—Chicago Herald.

WHAT SHALL WE WEAR?

PLAIN BUT ELEGANT STYLES IN FASHIONABLE STATIONERY.

Mourning Attire for All Conditions and Ages—How a Widow Ought to Dress, Both at Home and Out of Doors—The Popular Lorgnette.

In the accompanying illustrations are given the two important toilets in mourning attire—the widow's out of door and in door costumes.

WIDOW'S OUT DOOR TOILET.

The out of door toilet is made with a plain skirt entirely covered with crape and fulled thickly at the back for the tournure; the waist and veil are also crape; in fact, as a widow wears the deepest and longest mourning of any one, her dress should be composed entirely of crape for the first six months at least, also mantle and bonnet, from which is suspended a crape veil generally thrown back over the bonnet and hanging down the back from one to two yards, the longer being more elegant. Mary Stuart bonnets are a favorite shape for widows, and the cap for in doors also.

WIDOW'S HOUSE TOILET.

The in door dress shown in the illustration is entirely of crape, with a white crape cap, collar and deep cuffs. At first the cap should be made of close crape and entirely white, plain muslin or crape with turndown collar and deep cuffs to match. After the first deep mourning of six or even twelve months the widow's dress may be made of crape imperial, a new material, or for fuller toilet rich, dull, corded crape, deeply trimmed with crape, and so on, the crape lessening until jet ornaments are admitted.

In the mourning costume for a parent the dress is made of black cashmere trimmed with crape and bombazine and wide and fulled chemisette. For father or mother deep crape is worn for six months; plain black for six months, and half mourning for three. The same rule applies to son and daughter.

The longest period of wearing mourning for a grandparent is nine months, the shortest six. For a brother or sister, the longest period of wearing mourning is six months. Complimentary mourning is worn for three months, and consists of black and white first, then grays and then mauve. For general lightening of mourning, velvet may be worn soon after six months. Elderly ladies not unusually retain black, and something approaching widow's bonnet or cap, perpetually. The above models and descriptions are from The Season.

Letters, Notes and Note Paper.

It is astonishing to notice how plain all stationery has become. Not ten years ago every lady had her monogram and her crest on her paper, or a motto, or her initials in facsimile put in one corner in a dash of red or blue or purple. Now she has to find something ragged edged and plain if she wishes her note to be in the fashion. There exists, however, no objection to an initial, or even to a little crest, if it is really one's own. Thick paper and square envelopes, plain white, solid and strong, with a wax seal—these are the best and most fashionable styles—although one occasionally sees on the writing desks of fashionable women letter paper and envelopes of smaller size.

Monograms, if used at all, should be in the center of the paper, but they are quite out of fashion. A dash across one corner, in the writer's hand, is somewhat popular, but nothing is so fashionable as plainness. Deep red or other tinted paper is vulgar, and so is that very ugly paper which is marbled.

Inks are of no avail in letter writing. An epistolary style is as much the outcropping of individual character as is one's conversation and cannot be taught. It should be clear, simple and sensible. Handwriting has grown large and bold; the minute Italian hand seems to be quite out of date. Women practice a big aim at a noble, broad, sweeping English hand.

All letters to strangers and notes of formal character should, as a rule, be written in the third person, and must be answered in the same way. This is a thing very carefully to be observed. If you are asked to dinner informally, answer informally; if formally, answer formally. Let your note follow in style exactly that of the invitation.—Harper's Bazar.

Fashion Notes.

Matched toilets are growing in favor.

Knit gloves have broad stitching on the backs.

Mohairs in wide stripes have made their appearance.

Very high straight collars are seen on the new dresses.

Yellow and red wheels are again seen on milady's carriage.

The sailor styles are represented in many garments for children.

A new idea for black lace dresses is that of using Scotch plaid silk for the underskirt.

Miscellaneous Cards.

Kindling Wood.
12 Barrels for $2,
at Mrs. Demeza's, Water street. Orders left at Mr. P. Casey's, Somerset street, addressed to P. O. Box No. 98, promptly attended to.

LITTLE LAUGHS.

Wife—You haven't been inside of a church since we were married. Husband sorrowfully—No;a barut child dreads the fire.—Omnibus.

Mother—Help! help! Our little Isaac has swallowed a half dollar! Father—Lord, what a fuss! You make as much noise about it as if he had swallowed a $20 gold piece.—Anonymous.

Jones—Is that your umbrella? Smith (cautiously)—Why? Have you lost one!—Pittsburg Dispatch.

After reflection, we have concluded that a plot thickens when the story gets mushy.—Philadelphia Call.

A man in town is so fully in sympathy with the interstate law that he will not even pass a free lunch counter.—Oil City Blizzard.

Somebody claims to have discovered a substance which is "300 times as sweet as sugar." The "substance" is supposed to be about 18 years old and wear a bustle.—Norristown Herald.

At last accounts the cost of the Panama canal had risen to $600,000,000. This is evidently a burning item, or else the ditch is to be silver plated.—Philadelphia Call.

The Judge says: "The girl who marries for money often gets a fool thrown in." Always. That's the only kind of a human that can be married for money.—Pittsburg Dispatch.

A Gem from the French.—Madame to Maid—Francoise, why do you clean my boots with my toothbrush? Maid to Madame—Madame, the fact is, the other brushes are so large and madame's boots are so small.—London Globe.

"*You and Jones don't seem to be as thick as you were.* Does he owe you any money?" "No. He wants to."—Town Topics.

Says a New England woman: "Whenever I git low in my mind I've noticed there ain't nothin' that sets me up like a cup of custard."—Detroit Free Press.

An Irish Brave.

Mrs. Flynn—And what would yez do, Moike, if ther British cum and bombarded Ny York?

Mr. Flynn—Be gobs, I'd jon me ould rigiment.

Mrs. Flynn—And where's the rigiment?

Mr. Flynn—In Oireland.—Judge.

A Better Pet Than the Cat.

A little 6-year-old girl on Capitol avenue had a great affection for the cat. She fondled it, put a cap on its head and called it her "darling baby doll." A few weeks since a real baby sister came to the house "with the doctor" one night. The little girl was delighted. "It's a real baby sister, and a live one, isn't it, mamma?" she said. "Yes, certainly," said the mother. Without saying a word, the little girl went down stairs, found the cat and kicked it out of doors, saying: "Clear out, you old fool, you ain't a live baby, and we don't want you here."—Hartford Times.

Breaking It Gently.

In the days of '49, as we are informed by John Jones, one of the original argonauts, a member of a party of newly arrived miners strayed away from his companions and was destroyed by a grizzly. The friend upon whom it devolved to "break the news gently" to the bereaved parents showed himself equal to the occasion by writing to them the following laconic letter:

"Mr. Hobson: Deer sur, the Klotes has ete yer sun's bed opin."—Omaha World.

Seriously Left, as It Were.

"I congratulate you, Brudder Jones, on yer success."

"I guess you air a little mite too previous."

"Why, Brudder Jones, I was informed dat you was re-elected."

"Dat am a mistake; I regret ter say, on de contrary, Sam'l. I'se been seriously diselected."

To be "seriously diselected" is the fate of a good many candidates.—Youth's Companion.

A Fair Inference.

"Pat, you've been drinkin' again." "Beggin' yer pardon, but I've not, sor." "Pshaw! Your breath convicts you; what would you think if you should come into my room here and be greeted with unmistakable evidences of the fumes of whisky?" "Oi'd think, sor, Oi'd be naighty indecent of ye not to be lavin' the decanther there a gintleman could hilp himself."—Yonkers Gazette.

A Devoted Relative.

The worthy Guilcollard has just lost his mother-in-law.

He had the following touching inscription engraved on her tombstone:

"She lived but for my happiness; in fact, she'd do anything for me. Her death proved it."—French Fun.

A Smart Boy.

Teacher—Who was Alexander Selkirk?

Tommy—He was a civil engineer.

Teacher—Civil engineer?

Tommy—Yes, ma'am; monarch of all he surveyed.—New York Sun.

Thoroughly Qualified for Jury Duty.

Attorney—Now, sir, you say your name is Stanislaus Rosikofsky, and you keep saloon at No. — Cherry street. Do you know defendant, Jacob Sharp?

Subject—No, sir-r.

A.—Have you read anything about this case in the newspapers, or anything about bribery or the city government?

S.—No, sir-r.

A.—Do you read any papers?

S.—No, sir-r.

A.—Do you know anything about this case or any other case of the kind?

S.—No, sir-r.

A.—Do you know anything much about anything?

S.—No, sir-r.

A.—Take your seat in the jury box.

THE CIRCULATION OF THE NEWS IS AS LARGE AS ALL THE OTHER PLAINFIELD PAPERS COMBINED.

JOTTINGS.

—Borough Council meeting to-night.

—Men were engaged to-day stringing wires for incandescent lighting on Front street.

—A. W. Tyler will lead the Berean class at Warren Mission on Sunday afternoon at 2.30 p. m.

—During the month of May, Mr. F. A. Dunham has collected nearly $4,000 delinquent taxes.

—Last evening one of the most beautiful of moonlight nights was transformed about ten o'clock to a decidedly showery one.

—Street Commissioner Angleman with a force of men was engaged this morning scraping the surface of West Front street.

—Some of the persons having driven wells have been notified that they will be expected to pay $10 by Monday, to avoid suit.

—In another column Pope, the dry goods man, call the attention of buyers to some special bargains in dress goods, and etc.

—The grocers of New Brunswick have formed a protective union, prepared blanks and a blacklist to boycott bad customers.

—The Fidelity and Casualty Insurance Co. have something to say in another column which all prudent people may read with profit.

—A cut in the prices of seasonable clothing for men and boys' wear is announced by Schwed Bros, in their advertisement in another column.

—The trial of Richard Faulkner for criminal assault at Elizabethport on Mrs. Maher, who resided in Plainfield, was begun in the Union County Court at Elizabeth yesterday.

—A game of base ball was played on the grounds of the Boulevard yesterday afternoon between the "Stars" and the "Green Coats," resulting in favor of the first named by a score of 17 to 12.

—Doane Van Arsdale, our enterprising shoe merchants were in luck recently in receiving from the Chappaqua shoe factory goods just before the destruction of the factory by fire. Read their new announcement to-day.

—In the borough of North Plainfield there are not less than fifteen miles of streets, and in Plainfield about forty-five miles by actual survey. Including North Plainfield township with the borough there is about twenty-two miles, which includes Johnston's drive.

—Those who have trade dollars and have not redeemed them should attend to the matter of redemption speedily. A little over a month yet remains to have them cashed as deemed. After July 1, 1887, they will not be honored by the government, and all out after that time will be worth only their weight as bullion.

—Some of the members of Masonic order of Plainfield have received invitations to attend the regular communication of Washington lodge, No. 38, F. & A. M., which will take place at Elizabeth to-night at 7.30 o'clock. The Master Mason's degree will be conferred. On this occasion, photographs of the masters, elegantly framed, will be presented to the lodge, and Governor Green, who is a past master, has been selected to make the presentation.

—Frank Dunham, a young man employed in Randolph's grocery store, on West Second street, met with an accident yesterday morning, which will probably inconvenience him for some time. An axe, belonging to a customer, was left standing against the counter in the store, and Mr. Dunham, in passing, accidentally struck it, causing it to fall, striking his foot, inflicting a painful wound. Dr. Tomlinson dressed the wound, and the unfortunate man was to his home.

—The electric light company had a number of incandescent lights on Madison avenue and Seventh street last evening and they were so superior that they will supplant the are lights wherever thick foliage interferes with the proper use of the latter. The company expect by Saturday night to have Seventh street and Crescent avenue all lit up. Each of the incandescent lamps will be of twenty candle power. A new $1,300 machine has been added to the works and will probably be in operation by Saturday or Monday.

—The property occupied by Scheipflin, Baldwin & Tweedy on West Front street covers an area of about 210 square feet. The first of the three buildings of the block they occupy, is owned by Mr. A. B. Dunlap, the second by Mr. Scheipflin, and the third by Mr. Baldwin and the Tweedy estate, while the lot between that and the building of No. 2 Engine company is owned by Mr. Albert Winter of the firm. Mr. Scheipflin's wife is Mr. Winter's sister. The present partnership expires on the 1st of July, and the Tweedy interests will be settled up and a new firm organized.

—There will probably be a serious calamity in this city one of these days in some of the brick buildings built here by Isaac Melbourn, unless prompt action is taken to compel the owners to take them down or properly strengthen them. There are several large buildings in which the cracks in the walls ought to be sufficient warning of the danger. In case there is any loss of life the owners might find themselves indicted for criminal negligence. We urged over a year ago the necessity of having an inspector of buildings and are surprised that our now usually worthy councilmen have not taken action before. There should be no delay.

HOTEL NETHERWOOD.

A Reporter's Impression of this Pretty Resort.

Of course everybody in Plainfield knows how beautifully situated is the Hotel Netherwood, and it would be a waste of time for THE NEWS reporter to tell what his impression of it was as he walked slowly up the broad avenue leading to the house last evening. There is something both picturesque and romantic looking in its location, and as one mounts the broad stone steps and gazes around, he is at once struck with the beautiful scene around him. You have, perhaps, stood on the inland verandahs and noticed the grad. ual slope of the ground on all sides surrounded by pretty and well-kept flower plots. And then there are the trysting places amid clumps of stately trees where lovers meet and leave their friends behind them, and oftener their hearts. All the seaside these tales are told on the sands under huge umbrellas, but at Netherwood Dame Nature has changed all this and a romantic air is thrown about it that only a novelist can penetrate.

Then go with the genial host to the handsome dining-room and gaze out upon the beautiful lawn in the opposite direction. Do you love the beauties of nature? then here you see them set to perfection. A cordial greeting is extended to visitors by the pleasant manager Mr. Miller, who takes delight in pointing out the interesting details of his handsome hotel. Everything is so marvelously clean that even the most fastidious could not take exception to anything. The book-keeper, the clerks, the call boys and the servants are prompt and obliging, and the comforts of the guests are paramount to everything else.

"Here is our new elevator," said Mr. Miller. "It is brand new and I can show you better than tell you how it works." Then up we glide to the topmost floor and the elevator is pronounced a gem. Through the large halls, down the broad staircases and into suite after suite of rooms does the manager guide the visitors. "Everything about the hotel," said he, "may be said to be almost entirely new. I have thoroughly renovated it throughout and the carpets have been cleaned by a steam beater. The linen is new, the silver is new, and in fact we all feel like new mortals. But I tell you it was a big job to clean this place. It nearly used me up but I was determined to have everything strictly first-class." And he has been as good as his word. The handsome, spacious parlors and dining room are among the prominent features of the hotel and furnish strong evidence that the architect evidently understood his business.

"And now how far is it to the depot?" queried the reporter. "Just three minutes walk," was the reply, "and you can travel at a moderate gait, too."

The hotel was formally opened last Saturday and is rapidly filling with guests. Among the recent arrivals are the following:

H J. Roome, wife, three children and maid; Howard Y. Stillman, J. A. Burnett, Theo. D. Weston, wife, child and maid; Wm. B. Turner, wife, two children and maid; Miss Mary N. Turner, Mrs. Geo. Opdyke, Miss Troutt, H. W. Williams and family, Mrs. Roome, Miss Roome, all of New York City. H. L. White, Plainfield, N. J., H. E. Cole, Albany, N. Y.; W. Russel, Detroit, Mich.; H. W. Bowen, W. B. Post, J. C. Atwater and wife, Mrs. E. Atkins and maid, C. Wells and family.

Reception in Assembly Hall.

The hall in the High School building presented a gay appearance last evening, the occasion being the reception tendered to the many friends of Miss Bovee's class in elocution. Pretty flowers decorated the stage and lent additional attraction to the numerous bright faces which greeted the audience. Every seat in the hall was occupied, and there were probably about 250 persons present. The gentlemanly ushers were full dress suits, and their assistants Miss Wallace Servel, Frans Martin, Frank Newman and George H. Craig. The reception was a success throughout, and the precise gestures and distinct enunciations demonstrated the careful training the scholars had received at the hands of their efficient teacher. The gestures by the classes were accompanied on the piano by Miss Fay Young and drew forth rounds of applause. Declamations were given by Misses Addie Jackson, Bessie Blair, Addie Blair, Kittie Thorne, Ethel Boardman, Lucie Wood, Lilian Fritts, Mary Titsworth, Nettie Thorn, Emma West and Maude Benton. They were very creditably done and were applauded to the echo, while bouquets were as plentiful as the roses in June. The chorus was composed of Miss Gussie Holmes, Miss Kittie Case, Miss Laura Baker, Miss Nettie Thorn, Miss Anna Farie and Miss Eleanor Demarest, and after they sang the ball again echoed to the clapping of hands. The selections rendered by Miss Etta Gavett, the piano soloist, were much enjoyed, while Leo Heminger's violin solos were listened to with rapt attention. Miss Bovee gave some readings in her usual happy style, which quite captivated the audience, and manifested her superior abilities as an instructor in elocution. Miss Emma West, Miss Lillian Fritts and Miss Nettie Thorn comprised the committee, and to their painstaking energy much credit is due for the arrangement of the programme and the securing of the musical talent.

An Early Morning Fire.

Mrs. Thomas Keller, of West Second street, was awakened from her slumbers about half-past twelve o'clock this morning by the smell of smoke in her sleeping apartments. She arose and investigated the cause, but could not find out where it came from. After searching fruitlessly for some time she again retired. Shortly afterward she again awakened to find the room full of smoke, and a sofa in the room was in a blaze. She hastily extinguished the fire with a few pails of water, before it gained much headway. Mr. Keller is a fireman and has a district fire alarm call bell in his room, and it is thought that the wires crossed, causing a spark to set the sofa on fire. The opportune discovery of the fire prevented what might have been a serious conflagration. Mr. Keller was absent from home at the time.

PERSONAL.

Mrs. LeBau, of West Second street accompanied by her children has gone on a visit to her parents in Canada.

E. L. Meader, ticket agent at the Grant avenue station, it is said will soon be transferred to the Evona station.

Mrs. F. M. Wheeler, who has been ticket agent at Evona for a long time, will move soon to New Rochelle, N. Y., where she will permanently reside.

Rev. Dr. Lewis being in New England, as delegate to the Seventh-Day Baptist Eastern Association. Rev. Mr. Goodrich of the Congregational church will occupy his pulpit at 10.30 to-morrow.

The funeral of the late Florence Moncton, who died at the Muhlenberg hospital Wednesday morning took place from her late residence on Grove street at ten o'clock this morning. Interment was made in Metuchen.

City Treasurer Titsworth narrowly escaped being run over by a careless driver at the corner of Park and North avenues about half-past five o'clock last evening. The wheel of the vehicle struck his cane knocking it out of his hand and causing him to lose his balance and falling him to the ground, but fortunately he was not injured.

Electrician Wright has been appointed general engineer for the Eastern States for the Westinghouse Company, and will have an office at the company's headquarters in New York, from which place he will direct operations in other localities. He is now superintending the construction of a plant in Trenton, but will reside as usual in Plainfield, as Plainfield has the model plant, and all improvements are to be introduced here first. Mr. Wright has certainly proved himself a very efficient gentleman in his position, and besides winning the deserved recognition of his employers, has made for himself many warm friends in Plainfield.

John H. French the attentive President of the Plainfield Reform Club, it will be remembered sold out his clothing business in Plainfield about a year ago and purchased an interest in a merchant tailoring business in New York. His partner shortly afterwards was taken seriously ill with brain fever, and the sole interest was sold out to Mr. French. The business has not proved satisfactory to Mr. French and he has closed it up, and gone into the wholesale manufacture of youths and children's clothing, having a large building up town for the purpose. His prospects appear much brighter, and his friends are cordial in well wishes for his success.

Another Proposed Factory.

On Saturday, May 21, we mentioned that a Mr. Stebbins, of New York, was looking for a site in Plainfield near the Scott Press works for the Pond Machine Co., who would require at least 250 feet along the railroad, and would give employment to about 600 men. There is nothing new in that matter, but since then a much larger concern have secured a large tract of land along the railroad, beginning on South avenue 175 feet south of Grant avenue, and extending 3,200 feet along South avenue and back to the railroad. The concern will give employment to a much larger force of men, and for them some of our leading citizens are to erect dwellings in that vicinity to accommodate the workmen. The papers making the transfer have been prepared and are ready for signature. They will probably be signed to-day or to-morrow, if no disagreement arises, when particulars, which would now be premature, will be given. The concern is an old established one, and a leading member of the firm is the brother of Mr. Mayall, the President of the Central Railroad Company.

It is related that the Pond Company desire to interest Plainfield capitalists to invest in the company's stock, but the new concern is a wealthy one, and seeks no outside capital. The members are delighted with the advantages offered by Plainfield, and upon arrangements being concluded there will probably be the greatest boom in buildings Plainfield has yet seen. At least that is the present indication.

The Methodist Festival.

There was a large attendance at the strawberry and ice cream festival in the Sunday school room of the Methodist church last evening. Stationed at their respective places were the following ladies: Flower committee; Misses Addie McGee, Edith G. Katline, A. M. Inman; promenade committee, Misses Prembh, Nettie Homan, Clara Stienel; Refreshment committee: Mrs. J. W. Jackson, Mrs. D. S. Roberts, Mrs. Ira Riker, Mrs. R. H. Mabaffe, Mrs. E. Loomis, Mrs. I. W. Pangborn, Mrs. E. Winter, Mrs. Jose Oakley, Mrs. Jacob French. The candy booth containing home-made candy was attended by Misses Carrie Jackson, Nellie Pangborn, L. Van Meter and Lena Pangborn, who did a thriving business while in the refreshment room adjoining. The willing attendants were kept busy all the evening supplying the wants of the large number of people at the tables. The announcement made quite early in the evening that ice cream was all out compelled a large number to hold their tickets until this evening when the festival will be given again, meanwhile the accommodation for refreshments will probably be enlarged in order to make room for the crowd expected this evening. Good music was rendered on the violin, piano, and cornet, and with the gay attire of the young people and picturesque booths made the evening a very enjoyable one.

—The compilation of the school census was completed at noon to-day under the direction of City Assessor Joseph A. Hubbard. His son, William A. H. Hubbard, did the work of it. The total number of names secured will amount to nearly 2,500.

—The need of a new and correct directory of this city and the borough of North Plainfield has for some time been apparent to every citizen. The last directory published cannot be relied on for any definite information, as it was published in 1885, and compiled under the direction of Mr. O. B. Leonard and Wm. C. Hubbard.

—The Union farmers' spring and rye crops are not at all promising. The best of them are those sowed early last fall before the dry weather. Winter set in so quickly that the late sowings were badly frozen and the effect has been to greatly damage them. The late copious rains will help them considerably, but the yield will probably fall considerably short of the average. Many other counties in the State report the same conditions.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Saturday, in New Jersey, eastern New York, and eastern Pennsylvania, and New England, fair, slightly warmer weather, preceded by local rains on the upper New England coast.

"City of Rome" safe.

NEW YORK, June 3.—The statement that the steamer City of Rome was lost is denied. The steamer arrived in Queenstown yesterday.

Murder and Suicide.

PHILADELPHIA, June 3.—Robert Z. Hall shot and killed his wife in this city this morning, and then cut his own throat. He is still living but cannot recover.

Sentenced to be Hanged.

NEW YORK, June 3.—Mrs. Chiara Cignarale, the woman who was recently convicted of killing her husband, was this morning sentenced to be hanged on July 22nd. Since the crime was committed the woman's condition has been pitiful in the extreme.

Elevated Rail Road in Philadelphia.

HARRISBURG, Pa., June 3.—A charter was to-day granted to consolidate the Transit Company of Philadelphia, with a capital stock of $5,000,000. The object of the company is to build a double elevated railroad twenty-six miles long through the principal streets of Philadelphia.

In Honor of O'Brien.

NEW YORK, June 3.—Large numbers of the union workingmen who are going to turn out to-morrow evening to show what they think of Editor O'Brien will wear gray hats.

National flags and banners will be displayed by all the unions, and there will be many transparencies indicative of the sentiment regarding the plucky editor and his cause.

The Crete Revolution.

ATHENS, June 3.—The revolutionary aspect of affairs in the Island of Crete shows no abatement, but rather increases. The Christian inhabitants are very much in earnest in their demands for certain reforms, among which is the demand that the revenues passing through the Custom House shall be subject to the disposition of the native authorities and not of the representative of the Sultan.

As yet nothing has been received from the Government at Constantinople in reply to the demands made upon the Porte some weeks ago, and in the meantime the feeling of discontent is spreading, apparently unnoticed by the local Turkish authorities, who give no heed to the now openly made threats that the refusal of the Sultan to comply with the demands of the Cretans will result in the permanent flying of an independent flag over the island.

Some Crack Shooting.

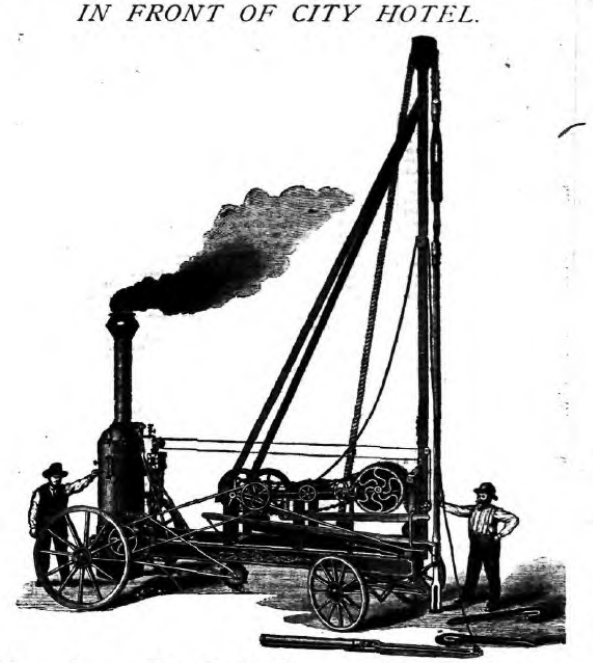
A shooting match at clay pigeons took place at "Dog Tavern" yesterday afternoon between the "Hayseed" and "Buckwheat" teams. The shooting was very fine—so fine in fact, that many of the pigeons were shot at twice in order to reduce them to the required number of minute atoms. The finest shot were No. 6's; anything finer than that was ruled out of order by the umpire. The "Buckwheats" went to the home plate in fine style and the first left-fielder secured a home shot. The score-keeper is still living. When the "Hayseeds" toed the scratch a foul was claimed on a wing shot, but after a heated discussion the umpire decided that clay pigeons are not fowls. This decision will be entered on the minutes of both clubs and stand on record as the only official one of its kind. Several hundred pigeons were shot at, the results being somewhat diversified. One member declared that it was a burning shame to waste so much powder, but he was declared out of order and fined eighty-seven cents for a lecture in which to preserve some of the club specimens. The match was declared a draw and will be shot off as soon as enough funds can be secured to purchase a new box of percussion caps. A reporter stole a pigeon on the score keeper and secured the following valuable statistics: At twenty clay pigeons—Harry McQuailhouster 19, Fred. Fisherman 9, Douglas Cidermill 9; at twenty-five birds—Daniel Tucker 30, Daniel Doctor 13, Charles Lagerbier 20, Andrew Butcher 10, Charles Parker-ton 16, Ernst Statenisland 14, William Shortbills 10, Charles Ashswamp 8, William Committeeman 13; at twelve birds—George P. Lawyer 4. Due notice will be given after the next shoot has occurred.

Mr. Tyler's Lecture.

Mr. A. W. Tyler was greeted last evening, upon the occasion of his third lecture, by a small, but very appreciative audience. He described the great abundance and cheapness of books at Rome at the time of the emperors, and contrasted it with the scarcity and high cost of books during the middle ages when the only copyists were monks and the only materials parchment or vellum. In the former time the work was done by trained slaves, and a large publishing-house (like that of the Seals, who were the publishers of the works of Horace,) could get out an edition of 500 copies of a work equaling in extent the "Enoch Arden" of Tennyson, with its accompanying poems as first printed in 1864, in a single day. The speaker then took up the enormous destruction of books at the capture of Constantinople, the reformation, the French revolution, etc., and gave a hint of the great losses to literature which occurred at those times. He closed by reading a number of interesting selections from the most ancient literatures of Egypt and Chaldea, in time covering the periods from the 17th century B. C. to the 36th.

FREE EXHIBITION

IN FRONT OF CITY HOTEL.



Charles P. Sebring, Contractor,

PLAINFIELD, NEW JERSEY.

—We advertise to-day a new well boring machine, illustrated, which has been at work in front of the City Hotel for several days, making a well six inches in diameter. Charles P. Sebring has purchased the machine and has secured the control of its use in this section. Several wells have been dug at Netherwood by it, and there are some wonderful results obtained. The usual well is two inches in diameter, and is driven by hand, the process being slow and tedious. The improved method gives results impossible to obtain by old-fashioned methods.

—A warrent was issued this afternoon by Justice Austin for the arrest of William E. Brock, of Mountain avenue, North Plainfield, on a charge of assault and battery, preferred by Alvini Taggert. Mr. Brock recently had Paul Taggert and his wife, Alvini, in his employ, and it is alleged that on Sunday last the two men had some words, and Taggert was discharged. On Monday Mr. Brock found Mrs. Taggert washing at his house, and she alleges that when he ordered her to leave the premises and she refused to go, he took hold of and forcibly ejected her. She is in a delicate condition, and claims that in consequence of Mr. Brock's actions she has since been confined to her bed, suffering from nervous prostration. A hearing will probably take place late this afternoon.

—The regular monthly meeting of the Union County Board of Chosen Freeholders was held at Elizabeth yesterday and considerable routine business transacted. The committee appointed to ascertain the need of a new draw bridge across the river at Elizabethport reported that the city solicitor addressed the Board in behalf of the people in reference to the matter, and another consultation will be held in a few days, when definite action will be taken. The committee to whom was referred the petition for a new bridge on Scott avenue in Plainfield, reported the plans as published in THE NEWS, and were authorized to advertise for bids and proceed with the work. Bids will be received until next Tuesday by Mr. Vanderbeek, the chairman, and the lowest responsible bidder will receive the contract. The bridge will be of the iron truss pattern. The Jail Committee reported that another lot of tramps had been received at the jail and put to work breaking stone.

STATE NOTES.

Bein Bros. & Co., piano manufacturers of Newark, have assigned for the benefit of their creditors. Their liabilities are estimated at $12,000 and the assets nearly as much. Several New York creditors have begun suit in the Supreme Court against them.

The Bridgeton Council has passed on third reading the ordinance permitting the West Jersey Railroad to come into the heart of the city. The company's officials say they will go ahead with the extension at once and will spend in the neighborhood of $200,000 on it.

The bodies of Charles Seidhof and his wife, the aged couple who committed suicide in Union Hill on Tuesday by drinking beer poisoned with cyanide of potassium, were quietly buried yesterday morning in Grove cemetery, Union Hill, in the presence of a few persons. The expenses were paid from a fund raised by subscription.

The jury at Morristown, in the case of Patrick Quinn, for the murder of his wife at Scrub Oaks, brought in yesterday afternoon a verdict of murder in the first degree. Counsel for the defendant made application to have the verdict set aside, because the evidence did not show deliberate intent to commit the crime. The motion will be heard next Monday morning.

School Money and Census.

The school census of Somerset county has just been completed and shows the total number of school children to be 7,440, which, with the apportionment of school moneys for the coming year, just completed by Superintendent Ayres, is divided as follows:

Townships	Scholars	Apportionment
Bedminister	565	$3,488.09
Bernards	563	3,483.09
Branchburgh	261	1,573.11
Bridgewater	2,344	12,941.75
Franklin	973	6,023.09
Hillsborough	571	3,339.47
Montgomery	487	2,760.69
North Plainfield	961	5,501.07
Warren	535	2,693.30
Total	7,440	$42,873.08

The apportionment to Somerville is $4,880.-87 to 868 children; to Raritan $4,077.41 to 746 children; and to Bound Brook $1,061.58 to 306 children.—Somerville Unionist Gazette.

Special Notice.

DRS. DAMON & GLADWIN,

Vitapathic Specialists

who performed so many really wonderful cures by "laying on of hands" at hall over the city bank, have at the earnest request of many friends decided to remain a short time longer. Those wishing to consult these specialists can do so free at the City Hotel from nine a. m. to eight p. m. until further notice.

WIGWAM

Oxfords at Doane and Van Arsdale's new shoe store. New and Elegant Assortment of Summer Goods. 22 West Front street.

T. W. MORRISON, EDITOR AND PROPRIETOR.
Is published every afternoon at
No. 7 SOMERSET STREET, PLAINFIELD, N. J.,
And delivered within the City and Borough limits at ten cents per week, or by mail postage prepaid to all parts of the United States, at $5 per year payable in advance.

FRIDAY, JUNE 3, 1887.

A BATCH OF BREVITIES.

CRIMES AND ACCIDENTS REPORTDE BY TELEGRAPH.

Mrs. Penseyres' Chances—To be Tried for Murder—Brockway Pardoned. Three Killed and Two Injured—A Philadelphia Priest Drowned.

Rumors of Bribery.

NEW YORK, June 3.—There was a little breeze yesterday to freshen up the Jake Sharp trial. Rumors have been afloat that efforts had been made to tamper with the jurymen. It was stated that several of them had been approached, and that District Attorney Martine had framed the attempts near enough to intimate friends of Mr. Sharp to warrant some serious proceedings in the near future. These stories had an exciting effect upon the defendant and his counsel, but they could hardly find words sufficiently strong to characterize them as malicious falsehoods.

Murder in the First Degree.

MORRISTOWN, N. J., June 3.—After the arguments of counsel for the defense and prosecution in the Quinn murder trial, the judge made his charge to the jury, and the jury retired at 12:30 o'clock yesterday afternoon. At 5:30 p. m. they brought in a verdict of murder in the first degree. Quinn's counsel had expected to have the verdict set aside on the ground that the evidence does not show deliberate intent. The court will hear the motion for setting aside the verdict and granting a new trial on Monday morning next.

Mrs. Penseyres' Chances.

BUFFALO, June 3.—In the trial of Mrs. Penseyres, the consensus of opinion seems to be that unless the defense prove the prisoner to have been insane at the time that the murder was committed the jury will find a verdict of guilty. Only once before in Erie county has a woman been convicted of murder in the first degree, and in that case the governor commuted the sentence to life imprisonment. In that case the woman was convicted for the brutal murder of her little son.

"Jimmy" Hope's Return.

NEW YORK, June 3.—"Jimmy" Hope, one of the Manhattan bank burglars, arrived last evening from California in charge of two detectives. Hope had just completed a term of imprisonment in California when his extradition to this state was arranged for. He escaped from Auburn prison three years before he had served out his time there, and it is possible that he will complete his unfinished term there before he is tried for the Manhattan bank burglary.

Two Lives Lost.

ERIE, Pa., June 3.—Reports of the finding of wreckage in Northeast Bay and the establish the fate of the sloop yacht Modjeska, of Rochester, N. Y. The owners, William Briggs, son of a Rochester florist, and William Jones, his cousin, were experienced sailors and notwithstanding the warning of the lifesaving crew and other lake men left this port in the face of a storm. They had purchased the boat in Toledo and were trying to reach home for Decoration day.

Children Burned to Death.

COLUMBIA, S. C., June 3.—The wife of Wiley Moore, a colored tenant on the plantation of Col. S. Elmore, near Greenwood, S. C., locked her two children, aged respectively 1 and 2 years, in her house Wednesday morning and went to spend the day with a neighbor about a mile distant. During her absence the house was burned, and the two children perished in the flames.

To be Tried for Murder.

BROOKLYN, June 3.—Augustus and Townsend Johnson, who confessed to the firing of Palmer's cooperage on Saturday night last, are anxious to plead guilty of that crime, but District Attorney Ridgway has secured a postponement of their case in order that the men may be tried for the murder of Watchman Deery, whose body was found in the cooperage.

An Insane Murderer.

BRATTLEBORO, Vt., June 3.—Revilo Howard, aged 55, a well known Jamaica farmer, having sent his wife on an errand, loaded his rifle, and on her return discharged it at her, the ball passing through the door and killing. The cause of the shooting is attributed by the neighbors to insanity. Mrs. Howard, it is thought, is fatally wounded.

Three Killed and Two Injured.

MONTGOMERY, Ala., June 3.—A freight train on the Louisville and Nashville railroad collided with the second section of another freight four miles south of Calera. Rowe, the engineer, and L. Burton (colored), were killed instantly. Three negro tramps, stealing a ride, were injured. One has since died.

A Priest Drowned.

PHILADELPHIA, June 3.—Rev. John Cox, assistant priest of the Church of the Visitation, this city, was drowned by the upsetting of a sailboat. Dr. J. W. Donnelly, who was in the boat with Father Cox, was rescued by a tugboat. Father Cox was 30 years old, and had been a priest for twenty-five years.

Brockway Pardoned.

NEWPORT, R. I., June 3.—Charles C. Brockway, a noted forger, sentenced in October, 1880, for five years and in 1885 for a further term of seven years, was pardoned by the senate. The pardon was granted for good behavior.

CONDENSED NEWS.

At Jamestown, N. Y., Peter Moburg was so badly bitten by a vicious stallion that he may die.

One of the Texas train robbers proves to be a deputy sheriff.

By a panic in a Mexican church, caused by a falling candle setting, several children were killed and many persons seriously injured.

A landslide on the Spitzen mountains, Switzerland, destroyed a number of houses, killed ten persons and wounded a large number.

The Indianapolis street car strike has ended in a victory for the company.

At Clinton, Mo., Adolphus Ward was killed by fire damp in a well.

Mr. Cormack, of the New York Yacht club, who has witnessed all the Thistle's races, says she cannot beat the Mayflower. The Thistle won again yesterday.

Iowa Prohibitionists are raising money to prosecute the murderers of Rev. Mr. Haddock.

APPLAUDING O'BRIEN.

The Monster Meeting at New York Last Night.

MANY LEADING CITIZENS

Unite in Doing Honor to the Distinguished Agitator.

The Academy of Music Full to Overflowing—O'Brien's Arraignment of the Canadian Mobs—His Graceful Tribute to America—Roscoe Conkling's Regrets. Archbishop Corrigan's Letter Evokes Cheers for Dr. McGlynn.

NEW YORK, June 3.—Editor William O'Brien and Denis Kilbride, the evicted tenant of Ballyseedy, arrived at the Grand Central depot at 6 o'clock last evening. They were met by several members of the reception committee and escorted to the Hoffman House, where they were given a hearty welcome.

The reception in their honor at the Academy of Music was one of the grandest and most imposing affairs of the kind ever witnessed in this city. The building was fairly packed from orchestra to the upper gallery. Among the distinguished persons present were Bishop O'Farrell, of Trenton, N. J.; "Richelieu" Robinson, Justice Power, Father Ducey, of St. Leo; Judge Donohue, Patrick Ford, District Attorney Martine, Augustus E. Costello, Thomas Addis Emmet, Commissioner Coleman, Father McGean of St. Peters; Mayor Hewitt, ex-Mayor Grace, Hon. Sunset Cox and many others.

Judge Edward Patterson presided, and in a brief speech reviewed the sufferings of the Irish tenants, and eulogized Mr. O'Brien for his daring tour in Canada. Mr. O'Brien in coming to respond was greeted with rousing cheers, lasting several minutes. He said:

"Every day that I spend in this great republic, I must confess that I am more and more astonished at the extent to which American sympathy has been stirred by the events of the last four weeks in Canada. I tell you candidly I myself felt pained and grieved at the gorgeous praises showered upon me, but I feel that I am only a humble agent. Lansdowne and his admirers in Toronto and Kingston, have been more successful apostles of the Irish cause than we could ever be. Our feeble voices would have only told of Lansdowne's deeds to a New York audience, but Lord Lansdowne's mobs have published that tale the wide world over as loudly as if it were blazoned by the archangel's trumpet. The horrible moments I experienced in Canada will be a bright light in my memory when I remember that the brutalities of Lansdowne's mob have illustrated more fully than 100,000 speeches of mine could have done the cruelties of landlordism. There is not a man here to-night who loves liberty or justice who does not know that the forces we are fighting against are those of landlord rule in Ireland. Here upon the soil of allies and defenders are the forces of darkness and intolerance. Lansdowne has said every thing for himself that he had got to say, but I believe that his most bitter partisans have not stand up in Canada and deny that every charge we have made against him has been practically proved by his own confession. We have convicted him of laying waste a whole strip of country five miles in extent, stripping it bare of its whole population. We have convicted him of that terrible crime which the unarmed rather than abate a farthing of the terrible rack rents which his own arbitrator and every official arbitrator in the country acknowledged to be most unjust and severe.

Mr. O'Brien went on to say that they had convicted Lord Lansdowne by his own agents, and that it was left for the last lights in my memory when I remember that the brutalities of Lansdowne's mob have illustrated more fully than 100,000 speeches of mine could have done the cruelties of landlordism. There is not a man here to-night who loves liberty or justice who does not know that the forces we are fighting against are those of landlord rule in Ireland. Here upon the soil of allies and defenders are the forces of darkness and intolerance. Lansdowne has said everything for himself that he had got to say, but I believe that his most bitter partisans have not stand up in Canada and deny that every charge we have made against him has been practically proved by his own confession. We have convicted him of laying waste a whole strip of country five miles in extent, stripping it bare of its whole population. We have convicted him of that terrible crime which the unarmed rather than abate a farthing of the terrible rack rents which his own arbitrator and every official arbitrator in the country acknowledged to be most unjust and severe.

Mr. O'Brien went on to say that they had convicted Lord Lansdowne by his own agents, and that it was left for the last lights in my memory, to tell Lord Lansdowne to his face and in his own camp of the crime that he had been guilty of. Lord Lansdowne's conduct had been bitterly denounced that he was returned from the free soil of America. He had added to his guilt the instigation of cowardly crime. In Kingston there was a vile cry raised against him, and Lord Lansdowne knew it. Four hundred volunteers, with their side arms on, aided the roughs in their cowardly attempt upon the lives of his party. Mr. O'Brien spoke of the four newspaper correspondents who accompanied him to Canada as the representatives of 60,000,000 free American people, as being the saviors of his life. He was owing to their presence that he and his friend were now against an American soil. Lord Lansdowne, he said, now stands impeached in a small grange preserve, and does not dare face three-fourths of the people whom he is supposed to govern. He is trembling at the result of the election in England, and the conclusion Mr. O'Brien denounced the Tory government of England, and said that the Irish people were becoming more united every day. Nationalists and Protestants were now standing shoulder to shoulder in the cause of justice.

Letters of regret were received from Governor Hill, ex-Governor Hoadly, Abram S. Hewitt, Corrigan, ex-Senator Conkling and many other prominent persons. Mr. Conkling's letter was as follows:

"My DEAR SIR—I have just returned from an absence and am compelled to take the next train for Washington. I have your invitation to attend the reception to Dr. O'Brien. It is hardly to be hoped that I can return in time, but I wish to express my regret that I cannot be present, my admiration of his pluck, not forgetting to record at the same time the contempt justly due to the rude and brutish indignities offered him in Canada. It is a privilege and duty to enable our citizens to pay honor to Mr. O'Brien will be all that it need be to express the sentiment of New York. Cordially, your obedient servant,

Archbishop Corrigan's letter, which expressed sympathy with the evicted tenants and denounced the cruelty of the landlords, was interrupted by frequent applause, hisses, and followed by loud cheers for Dr. McGlynn. There was quite an uproar for a time. Speeches were also made by Mr. Kilbride and Rev. Dr. McGlynn, and resolutions of sympathy with the Irish people and denouncing Lord Lansdowne were adopted.

The Claims Exceed $400,000.

BOSTON, June 3.—George Fred Williams has brought thirty-two suits against the Boston and Providence Railroad company as attorney for persons injured at the recent disaster at Bussey Bridge. The damages claimed in these cases vary from $500 to $50,000, and the aggregate of the claims is over $400,000. All but two of these suits are brought in Suffolk county and are returnable next Monday in the superior court.

Illness of Mrs. Hamilton Fish.

NEW YORK, June 3.—Mrs. Hamilton Fish, who recently celebrated her golden wedding, is lying seriously ill at her home in East Seventeenth street. Dr. Fordyce Barker is in attendance upon her, and regards her condition as alarming.

WILLIAM A. WHEELER.

A Report That the Ex-Vice President is Nearing the End.

MALONE, N. Y., June 3.—Ex-Vice President William A. Wheeler is dying. He is unconscious, and while he may live several days, his death at any moment would not be

WILLIAM A. WHEELER.

unexpected. He is 68 years old and has been an invalid for many months. After his wife's death, early in 1876, he became despondent and seemed to anticipate an early death. As soon as his term at Washington was ended he retired to his home in Malone, withdrawing entirely from public life. He has been suffering from a complication of diseases for over a year, and of late has failed steadily.

THE MEXICAN PENSION BILL.

Increasing the Force in Order to Rush the Claims to Payment.

WASHINGTON, June 3.—Deputy Commissioner of Pensions McLean states that the pension office estimates that under the Mexican pension bill about 30,000 claims will be filed. Congress estimated 40,000. So far 18,100 claims have been filed, of which 3,000 were of soldiers' widows and the remainder by the survivors of the Mexican war themselves. Of the number filed only 2,200 certificates of pension have been issued, owing, as he states, to the lack of clerical force. Beginning, however, with to-morrow the force of the old army and navy division of the pension office, which has cognizance of this class of claims, will be greatly increased by details from other divisions, and from that time it is expected that the force will be able to dispose of cases at the rate of 200 per day, or about 5,000 per month. Most of the claims are from the south, and the age of claimants ranges between 75 and 80 years. One claimant's age is over 100 years. Because of the advanced age of the claimants the pension office is making every exertion in its power to quickly adjudicate these claims.

CAPT. EADS' SUCCESSOR.

Col. Andrews, of Allegheny City, to Take Charge of the Canal.

PITTSBURG, June 3.—Col. James B. Andrews, of Allegheny City, will arrive home from Mexico in three weeks. A meeting of all the stockholders of the Eads Ship railway, at Tehauntepec, will then be called, and the result of that gathering will probably be that Col. Andrews will be chosen as the late Capt. Eads' successor as engineer of the gigantic project. He will be a step of the utmost importance to Pittsburg capitalists. Thirty wealthy gentlemen, iron manufacturers, have $10,000,000 invested in the scheme. To have one of their own number to personally manage their interests, it is thought, will be an impetus to greater faith here in the matter, while the fact that Capt. Eads' close business associate has charge of the work just where he left it will encourage the national feeling as to the accomplishment of the task.

REBUKING A PASTOR.

The Case of the Rev. A. Schaberhorn, of Nyack.

MIDDLETOWN, N. Y., June 3.—The Presbytery of Hudson admin stered a rebuke to the Rev. A. Schaberhorn, pastor of the German Presbyterian church of Nyack, for indulgence in the use of beer and wine and indiscretion in conversing with certain female members of his congregation. Mr. Schaberhorn was present when the sentence, which was: His relation as pastor of the Nyack church was dissolved, but his relation as pastor of the Clarkstown church was continued, the trouble being altogether with the Nyack charge. The testimony at the trial was not made public, but it is understood that the most damaging part of it was to the effect that Mr. Shaberhorn visited saloons in Nyack, Tarrytown and New York, sometimes with parishioners.

THE PACKAGES WERE LOADED,

But Two of Them Contained Only Mineral Wool and Plaited Oakum.

JERSEY CITY, June 3.—An unknown man left two packages at Heydrick's express office yesterday for delivery, one to Inspector Byrnes and the other to the British consul in New York. Driver McGuire was suspicious of the packages and took them to police headquarters, where it was found that the packages were each filled with dynamite.

Another parcel addressed to "the Reverent Capt. Williams, Nineteenth precinct police," was not discovered in time to prevent its transmission, but followed it at the police station house. It was saturated with water and then taxen apart, when it was found to be charged with gun cotton and dynamite.

Inspector Byrnes said the packages sent to Inspector Byrnes and the British consul general were harmless, the substance on the cover of the British consul's package mixed with mineral wool, being strips of plaited oakum, saturated with tallow.

Evangelical Lutherans.

PHILADELPHIA, June 3.—The fourteenth annual session of the Evangelical Lutheran ministerium began here in the Zion Lutheran church. Nearly 300 clergymen and lay delegates are present. The jurisdiction of the ministerium extends over that part of Pennsylvania east of the Susquehanna river, one congregation in New York and a few in New Jersey. Among the matters which will be considered during the session are the appeal of the German side of the house for the privilege of forming a distinctive German conference within the jurisdiction of the synod and a new constitution governing synods and congregations and looking to a very material revolution in the present machinery of church government.

The Miners' Convention.

CINCINNATI, June 3.—The National District assembly No. 135, Knights of Labor, held its second session yesterday. District Master Workman W. H. Bailey, of Shawnee, O., delivered an address on organization at the convention on its work. Among other things he advocated some method of relief for members out of employment through no cause of their own; increase in the number of district executive members from each division; all matters of the district executive board to be placed in the hands of division members; no strike to be ordered without the sanction of two-thirds of all division members; and, lastly, that the district office be removed to a central location.

A DRUNKEN POLICEMAN

SHOOTS THE WELL-KNOWN LIFE SAVER, CAPT. JACK HUSSEY.

A Drunken Quarrel Leads to Harsh Words and Harsher Methods—His Assailant Identified—The Wound a Mortal One.

NEW YORK, June 3.—Capt. Jack Hussey, the hero of Castle Garden and the owner of twenty medals for saving men and women from drowning, was shot and mortally wounded just outside of O. McEvoy's saloon, corner of Jackson and Cherry streets, at 11:30 last night by Policeman Edward Hahn, of the Delancey street station. Both men were pretty well under the influence of liquor. It was Hahn's day off, and he had been on the police-muscle circuit of Manhattan Island. Hussey had been at work all day at Castle Garden and returned to his house, No. 50 Jackson street, opposite McEvoy's place, pretty well fired out.

He lay down for a nap after his supper and got up shortly after 9 o'clock, and in his bare feet and with his 15-year-old daughter strolled out in Jackson street. Hahn was there, and Hussey and he began drinking. Hussey's little daughter left her father in the place. Hahn and Hussey remained in Mr. Geoghegan's place about an hour, and drinks were repeatedly called for and swallowed.

As they drank, Hahn, who was in plain clothes, began to grow ugly and said a number of sharp things to Hussey. Hussey was disposed to be jovial, but at last he left the place, saying that he had got past his quarreling days.

He went back to Jackson street, and Hahn followed him, and continued to say ugly things and dared Hussey to fight him. Hussey went into McEvoy's place at Cherry and Jackson streets, and Hahn followed, applying epithets to him and saying "the old man is no good."

Hussey became angry, and said to Hahn: "Go away; you are only a boy copper."

This enraged Hahn, and he stepped up to Hussey to strike him. Hussey met him half way and said:

"If you don't go away I'll smack you, old man as I am."

By this time they had edged toward the door and, when just outside of it, Hahn pulled out his revolver and said:

"I'll show you whether I am a boy copper."

He fired one shot at Hussey. It did not hit Hussey, and as Hahn turned and walked along Jackson street, toward Grand, Hussey followed. Half-way to the block Hahn turned and fired three more shots at Hussey, one of which struck him in the abdomen and passed through his liver.

Policeman Deevey, of the Delancey street station, ran up, collared Hahn, and took him before Hussey, who was still on his feet. Hussey walked with Deevey and Hahn to his home, at 50 Jackson street, and sent up stairs for his coat. He then walked with the officers to Gouverneur Street hospital, three blocks away. He identified Hahn as the man who shot him, and Deevey took Hahn to the station, where Sergeant Marrett locked him up. Dr. O'Hanlon did not probe Hussey's wound. The doctor said that Hussey would probably die, but that if laparotomy could save him that would be resorted to.

Capt. Hussey is 59 years old, and has saved fifty-two lives by his daring swimming. He has a wife and four children. Hahn has been on the force one year, and was formerly a barkeeper for Patrick Hickey.

A LOVER'S QUARREL

Ends in Tragedy—The Bullet Misses Its Mark and Strikes Another.

WHEELING, W. Va., June 3.—A terrible tragedy, growing out of a quarrel between two lovers, occurred at Glen Dale, on the line of Thomas Berg, a few miles from Parkersburg, last evening. Sherman Law, a wealthy young farmer, was the lover of Lizzie, the eldest daughter of Mr. Berg, and last evening he called to see her. The lovers had a quarrel after being together about an hour, and the younger sister, Mary, was attracted to the room. Lizzie left the house in effect a reconciliation, and Law proposed to his sweetheart. She rejected his offer of marriage, when the quarrel was renewed. In a moment of jealous rage Law drew a revolver and fired at Lizzie. He missed her, the ball striking her sister in the breast. Law is under arrest.

Return of a Kidnapped Boy.

JAMESTOWN, N. Y., June 3.—Four years ago the 12-year-old son of Cass Berry, of Grand Valley, was kidnapped by a colored man and woman and nothing was heard of him until Wednesday, when he suddenly returned to his father's house in Grand Valley. The woman who kidknapped him was a former wife of Cass Berry. The boy was first taken to Milwaukee. After drifting about the east he was taken to Baltimore, where he attended school in Baltimore. Recently he escaped and worked his way to New York, thence to this city. During his four years of absence Berry endeavored, by detectives and otherwise, to find his boy, but without avail.

For Purchasing Bait in Canada.

HALIFAX, June 3.—The case of the American fishing schooner Helen M. Doughty, seized last season for purchasing bait at St. Anns, C. B., came on in the admiralty court yesterday. Capt. Doughty, of the seized vessel, was examined. He admitted having purchased bait, and told how he had been prevented from proceeding to the fishing grounds on account of ice and wind until the supply of bait he brought from Portland Me., had spoiled. Counsel will argue the case to-day.

No Settlement Arrived At.

PITTSBURG, June 3.—A delegation representing the Knights of Labor chosen by the Miners and Mine Laborers' Amalgamated association in the coke region, met with the coke syndicate in this city yesterday. An unsuccessful attempt was made to compromise at 70c. After several hours' discussion the conference adjourned, each side maintaining its original position. The operators assert that all the questions at issue have been disposed of by arbitration and settled by the umpires a award, from which the syndicate will not deviate.

Connecticut's Soldiers' Monument.

NEW HAVEN, Conn., June 3.—Governor Lounsbury and staff, Senator Hawley and many prominent Grand Army men, went to Guilford yesterday to assist at the ceremonies of unveiling the soldiers' and sailors' monument. Senator Hawley delivered the oration.

Reception to John Sherman.

CHICAGO, June 3.—A public reception was given to Senator John Sherman last evening by the Grand Pacific hotel, which was attended by nearly 1,000 people. Senator Sherman left the city to-day for his home in Mansfield, O.

Parnell's Health Improved.

LONDON, June 3.—Mr. Parnell has returned to London, much improved by his short sojourn at the seaside. He has summoned a meeting of his party for Monday to discuss further amendments to the coercion bill.

SHOWERS ACCUSES ANOTHER.

He Says the Two Boys Were Murdered by Three Negroes.

READING, Pa., June 3.—During Wednesday night a crowd of fifty determined men left Annville for Lebanon to lynch William Showers, the murderer of the two Grandchildren, now in jail there. They were joined by 150 more from Lebanon, and marched through the streets for the purpose of storming the jail. Some of the leaders dissuaded them, and after much persuasion induced them to disperse, promising that Showers should receive full justice. Showers insists that the children were murdered by a man known as "Cowboy" Hoffnagle, who was married to Showers' daughter, the mother of the children, after she had given birth to five illegitimate children, with as many fathers. Hoffnagle has recently been in this neighborhood, and Showers says that Hoffnagle kidnapped and murdered them and buried them in the ditch. Hoffnagle has not been arrested.

Later—It is now stated that Showers has made a confession. It is to the effect that the holes in the ditch back of the lot were dug at 9 p. m. on the night of May 16, that the boys were brained in their beds before midnight and carried out and buried. Showers lived alone with the boys. That the old man washed up all evidences of his crime and burned the clothes, and before dawn he drove away unseen to the hills; then he returned. The affair was carefully attended to have delivered the boys for adoption.

THE FREE DELIVERY SYSTEM

Established in Seventy-five Additional Postoffices—Offices Discontinued.

WASHINGTON, June 3.—Superintendent Bates, of the free delivery division, postoffice, has directed the establishment of the free delivery system at the following postoffices in the eastern and middle states:

Connecticut—Ansonia, New Britain, Stamford, Birmingham and Middletown. Maine—Auburn. Massachusetts—Marlborough, Newburyport, Northampton and Waltham. New Hampshire—Concord. New Jersey—Dover. New Jersey—Atlantic City and East Orange. New York—Corning, Hornellsville, Little Falls, Ogdensburg, Owego, Cortland and Amsterdam. Pennsylvania—Bristol, Bellefonte, Norristown, Westchester, Johnson, Warren, Carlisle, Chester and Beaver Falls. The order takes effect in forty-four other offices throughout the country.

The following postoffices are discontinued: Derby, Conn.; West Marlborough Station, Mass.; Brick Church, Grovestead and Wassening, N. J.; Graingers, Camiria, Harrisville and Cooperdale, Pa.; Normal Park, Ill.

THE PRISONER TESTIFIES.

Barclay Peak Takes the Stand in Defense of His Client.

MOUNT HOLLY, June 3.—The evidence for the state in the Peak murder trial is all in. William Anderson, father of the murdered girl, testified that some time before the shooting Peak had denied to him a rumor then current that he was paying attention to Kalis. He had never ordered her not to go with Peak, but had requested that she wouldn't.

Barclay W. Peak took the stand in his own defense. He said he kept company with Katie and visited her home. He had been instructing her to shoot with a revolver on the Sunday before the fatal Monday, and she took the revolver home with her. He did not show her how did he show her that night. He was home all the evening.

"The pistol that has been found is mine, but this is the first time I have seen it since that Sunday night when she took it from me. I never asked her to have me or threatened to kill her if she refused."

AN OFFICIAL INDICTED.

Charges of Grand Larceny Against Fire Chief Nevins.

BROOKLYN, June 3.—Fire Chief Nevins has given bonds in the sum of $5,000 to answer to the indictment of grand larceny brought in against him by the grand jury. The indictment charges Nevins with having obtained through false pretenses the sum of $5,000 from Edward W. Pope, representing the Citizens' Electric Light company. Nevins, it is charged, told Pope that the money was necessary to procure a chief engineer for the office. The chief says that he will be able to disprove the charges. Mr. Nevins has been connected with the fire department for more than twenty years, and has been at the present head of the force for over twelve years. So far he has been the only sufferer by the legislative inquiry of the Bacon committee, and his indictment by the grand jurors may have caused some excitement in Brooklyn.

The Breaking Dykes.

VIENNA, June 3.—By the breaking of the dykes confining the Theiss river fifty miles of Alfold plain have been submerged near Szegedin, causing damage to the extent of $5,000,000. Four thousand men are engaged in strengthening the dykes still intact and repairing those broken, but the water is still rising, and it was thought that the valley of the Berzava canal, in southern Hungary, have overflowed their banks, inundating enormous tracts of country. In the Banat region 300,000 acres are submerged.

Queen Kapiolani in England.

LONDON, June 3.—Queen Kapiolani, of Hawaii, arrived at Liverpool yesterday. She was received with a royal salute, and met at the landing by the mayor, accompanied by a guard of honor and a large force of police, the latter for the purpose of keeping the crowd at a respectful distance, and escorted to the Northern Queens hotel in state, followed by a long procession. Queen Kapiolani will view the sights of Liverpool to-day and tomorrow, and proceed to London on Monday.

Marine Intelligence.

NEW YORK, June 3.—Arrived, steamers Richmond, Newport News; Stamford, Barcona; Old Dominion, Richmond; Broadwater, West Point; Mount Waldo, Frankfort; Ship Larnica, Antwerp. Barks Hudson, Fowey; Lizzie Rose, Mavre; Wollgunde, Fernandina. Arrived yesterday, steamers Saale, New York, at Southampton; Arizona, from New York, at Queenstown; City of Montreal, from New York, at Queenstown.

Charges Against Capt. Williams.

NEW YORK, June 3.—Capt. Williams, of the Nineteenth precinct, will be placed on trial before the police commissioners to-day, or soon thereafter, on charges preferred by Rev. Howard Crosby and others, to the effect that he permits gambling and disorderliness in his precinct.

The Missing Minister at Rigi.

BOSTON, June 3.—The Rev. W. C. Stiles the missing minister from Pittsfield, N. H., sent dispatches from Philadelphia saying he was all right.

First In, But Not a Winner.

LONDON, June 3.—In yesterday's fifty mile race the Thistle came in first, followed by the Irex, Wendur and Neptune. The time allowances, however, made the Wendur the winner, with the Neptune second.

Gladstone to Stump Wales.

LONDON, June 3.—Mr. Gladstone has started for Wales, where he will deliver a series of addresses in favor of home rule for Ireland.

Also Traveller's Life and Accident Insurance Co., of Hartford. Commutation tickets to travellers from 1 to 30 days. Office with H. M. Thorn, opposite depot, Plainfield, N. J.

EASY THING TO ENLIST.

A SCENE OR TWO FROM NEW YORK RECRUITING STATIONS.

Enlisting in the Army Much More Easily Accomplished Than Undone—A Lovelorn Young Man's Despair—Why Men Enlist—The Result.

A little incident drew attention the other day to the recruiting stations where free men are turned into soldiers. Once the word is spoken the man is bound for five years—a very slave to his work. Without Infinite all heaven is powerless to loose his bonds. Sometimes the word is spoken hastily; here and there one resigns himself to this slavery in a moment of despondency, and again a man takes upon himself the burden in a fit of pique. It is somewhat like committing suicide. After the deed you may want to take it all back.

It was so with the young man last week whose father appealed tearfully for the release of the lad. The boy was just of age, and the illusions of youth had not departed—seemed real to him. His story was simple as it was commonplace. There was somebody—a young woman, of course—who, he said, was all the world to him. He told her so. He told her so out in the park, with the afternoon sun shining through the tender young leaves. He did not remember just what she said, but it seemed horribly cruel. It shut out the sunlight. What was the use of living with the daylight blotted out forever? He would go somewhere and end his misery, and bear his name again. He would enlist. And in the name of love he did.

The recruiting officer was glad to snap up a man in such a hurry for the contract, like the youth found enlisting the easiest thing in the world. He answered all the questions without a break. No, he had never been arrested; no, he was not a deserter; and volunteered somewhat bitterly the unnecessary information that he never intended to be. Just a little scratch of the pen and his name was signed to the oath of allegiance. It was the last free act. It was not quite ten minutes from the time he first entered the office. Yet it was long enough to swear himself into five years of service. He no longer had anything to say as to his choice of work, his hours or place of residence. He was an unimportant part of a great machine, whose duty was to obey without knowing why he obeyed.

Three days of it were enough to make him sick of his bargain. Love did not seem such an all important affair. Then he began to realize what he had heard somewhere that the two worst maladies which assail man—love and sea-sickness—are the most short lived. It might as well be very sick and all that to go off and be a soldier bold, but it was deuced uncomfortable. They were going to ship him out to Jefferson Barracks in Missouri. He hated Missouri. He hated being everybody's servant. They kept him in a stuffy little room at No. 174 Hudson street with a lot of men utterly uncongenial. It was too much. Heroics were all right and so was love, but a good dinner once more would outweigh both. He wrote to his father begging him to see the district congressman and secure a release. The father appealed to his congressman and to an influential friend. The papers luckily had not yet been sent to Washington. That is how the story got out.

A few years ago a son of a rich merchant enlisted in somewhat the same hurried way. He stuck it out, though, was put in a cavalry regiment, and after two wards got his father's commission through influence brought to bear in the right direction. But most of the men who enlist thus hastily usually desert, running the risk of two years' imprisonment.

DURING PEACE TIMES.

A visitor at the recruiting stations saw a good deal of the class of men who enlist during peace times the past week. They are a peculiar class. There are four enlisting stations in town. A especial effort is being made to get colored soldiers so as to complete a regiment now forming out west. But colored men, somehow, do not take kindly to the work of a soldier's life, much as they like the tinsel and brass buttons of the job. Besides, there is a strong Anarchistic in the negro that makes him a poor peace soldier. English, Irish and Germans make up the bulk of the enlisted men. The few Americans who sign papers are usually of Irish or German extraction. Americans, a young lieutenant said, are too independent to make good soldiers except when they are kept busy fighting or starving. The strict discipline of camp life galls them, and its laziness brings out all their worst qualities. The American born citizen cannot be lazy and good at the same time. He inherits too much high pressure activity, that is bound to find a vent somewhere.

The early spring always sees the increase of enlistments. Laborers, mechanics and poor fellows out of work are the applicants—especially the latter class. They have been trying hard all winter to get regular employment, and, failing, begin with their new success, they turn to the army as a last resort. So, too, the late emigrant, unable to find the roasted fowls he has heard of flying about the streets, turns to the government and the army for support. Here and there domestic difficulties drive a man to it. A shrewish wife sends many a good man and true from shouldering a pick to shouldering a musket. Laziness and general shiftlessness help a little. It seems an easy way to keep life going to give one's self up to the government in return for food, clothing and a bed. Nearly all barracks have fair libraries, and the willing soldier can always get a rudimentary education from camp school. As far as physical comfort goes a soldier is perhaps better off than the average laborer, though he cannot chose his work or have a home of his own. He must herd with others. But then a soldier always a soldier. Having served for five years the discharged man nearly always reenlists. He is unfitted for anything else.—New York World.

Nearly Fremont and Lincoln in 1856.

"However picturesquely Fremont for the moment loomed up as the standard bearer of the Republican party, the real historical interest centered upon the second act of the Philadelphia convention. It shows us how strangely to human wisdom vibrate the delicately balanced scales of fate; or rather how inscrutable and yet how unerring are the far reaching processes of divine providence. The principal candidate having been selected without reflection or delay, the convention proceeded to a nomination for vice president. On the first informal ballot William L. Dayton, of New Jersey, received 259 votes, and Abraham Lincoln, of Illinois, 110; the remaining votes being scattered among thirteen other names. The dominating thought of the convention being the assertion of principle and not the promotion of men, there was no further contest; and though Mr. Dayton had not received a majority, support his nomination was nevertheless at once made unanimous.

Lowest Human Temperature.

A woman dying from myxedema is reported to have had a temperature ranging from 66 to 76 degs. Fahrenheit, the normal being 98.8. This is probably the lowest recorded human temperature.—Arkansas Traveler.

Proceedings of the Board of Chosen Freeholders of the County of Union.

[OFFICIAL.]

ELIZABETH, N. J., May 10, 1887.

Pursuant to adjournment the board met on Thursday, May 10, 1887, at ten o'clock a. m.

Incidental account—J A Fay, jr., $30.50, F Sheridan, county collector, 50.00.

Lunacy account—D S Roberts, $10.00.

Member's account—W B Oliver, $144.00; John Iseaman, 56.87; J A Halliday, 28.25; William Howard, 27.00; W M Chapman, 30.00; S E Debbie, 35.00; George Wright, 12.90; C W L Martine, 26.00; J C Astell, 6.40; John M Pitcairn, 44.00; Robert Dardis, 56.85; W M Chapman, 22.85.

Public buildings account—Paul T Norton, $129.06.

Salary account—F Sheridan, $1,000.00.

RESOLUTION.

By the director:

Resolved, That the following transfers of moneys be made:

From building account to incidental account, $50.00.

From jail account to incidental account, $40.00.

From jail account to bridge account, $280.00.

From building account to publication account, $75.00.

From election account to stationery account, $40.00.

Court account to bridge account, $50.00.

Which, on motion of Director Chapman, adopted by a unanimous vote.

On motion, it was moved that the board take a recess until 1:30 p. m.

Carried.

The board reassembled at 1:30 p. m.

Present—Director Martine and Freeholders Astell, Chapman, Doly, Debbins, Dardis, Hubbard, Halliday, Howard, Pierson, Pitcairn, Holl, Vanderbeek, Veal, Wright—15.

Absent—Freeholders Iseaman and Oliver—2.

The following bills were presented for supplementary report of receipts and disbursements from May 6 to May 9 inclusive:

On motion, received and placed on file.

COMMITTEE REPORTS.

From committee on jail inspection:

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on jail inspection would report that the amount there has been expended during the past year for all kinds of supplies, salaries, medical attendance and shipping of prisoners to the asylum (this includes tools, salary and cracked stone).

Also that the bills presented have been submitted, shows the details and gives the total cost per day for each prisoner to be 34 9-10 cents (this includes the cracked stone, tools and salary for overseer).

The amount for this the county has received a large amount of cracked stone to use in building and repairing the roads, and for the manufacture of boilers, whitewashing and painting in J ll and Sheriff's house, painting building and janitor to the buildings, this has been worth to the county at least $2,000. This will reduce the cost per day per prisoner about 15 cents per day, or to a net cost of 20 cents per day (for each prisoner).

The number of days served this year has been 19,353, as against 20,704 for the year 1886 for the last four years. During the last year there has been a great falling off in prisoners, the number in for the winter were 122 against 174 in 1886; 210 1885, and 219 in 1884; of the 122 committed this year 31 were sent in with the chiefs as tramps; last year the tramps were 28, in 1885 they were 40, and in 1884 they were 46 (the 28 cells of the old jail have been in constant use.

All of which is respectfully submitted.

W. L. OLIVER,
W. L. MARTINE,
A. VANDERBEEK,
Committee.

Elizabeth, N. J., May 10, 1887.

On motion, received and placed on file.

From committee to settle with sheriff.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee to settle with the sheriff would respectfully report that they have audited bills to the amount of twelve hundred and forty dollars and sixteen cents (12,444.16) the past year.

Of this amount the sheriff has repaid to the county collector the sum of fourteen hundred and forty-seven dollars and 84-100 dollars as prosecutor's fees.

All of which is respectfully submitted.

Elizabeth, N. J. May 10, 1887

S. P. DEBBIE,
JAMES PIERSON,
J. E. ASTFALK,
Committee.

On motion received and placed on file.

From committee on Rahway bridges.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on Rahway bridges begs leave to report that on April 21, 1887, they examined the bridge over Inman avenue in the city of Rahway and found it in a very unsafe condition.

It was, on motion, condemned and the street ordered closed.

They would recommend that as soon as the appropriations are made for the ensuing year, that the present structure be replaced by an iron bridge.

WILLIAM HOWARD,
GEORGE WRIGHT,
W. M. OLIVER,
J. A. HALIDAY,
C. W. L. MARTINE.

On motion, received and placed on file.

From committee on discharge of prisoners.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on discharge of prisoners beg leave to report that they have held the proper meetings during the year for the purpose of releasing prisoners from the jail whenever the same was necessary, and in each case where the warden has recommended an allowance for good behavior, the same has been allowed. Discharged one hundred and thirty-seven.

All of which is respectfully submitted.

JOHN E. ASTFALK,
WILLIAM HOWARD,
ROBERT DARDIS,
Committee.

Elizabeth, May 10, 1887.

On motion, received and placed on file.

From committee on discharge of prisoners.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on discharge of prisoners beg leave to report that they held the proper meetings during the year, for the purpose of releasing prisoners from the jail whenever the same was necessary, and in each case where the warden has recommended an allowance for good behavior, the same has been allowed. Discharged one hundred and thirty-seven.

All of which is respectfully submitted.

JOHN E. ASTFALK,
WILLIAM HOWARD,
ROBERT DARDIS,
Committee.

Elizabeth, May 10, 1887.

On motion, received and placed on file.

From stationary committee.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on stationery would respectfully report that the amount expended during the year on said account is \$1,450.56, which is for stationery, books of record and account books for the court, sheriff, surrogate, jail, county clerk and clerk of the board of chosen freeholders, and for the recording of the deed and mortgage, and other books, so that they are now all in good order.

All of which is respectfully submitted.

JOHN A. HALLIDAY,
S. P. DEBBIE,
J. MARTIN BOLL,
Committee.

Elizabeth, May 10, 1887.

On motion, received and placed on file.

From committee on publication.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on Public Grounds and Buildings would respectfully report that during the past year the amount expended on said account has been $18,448.52. In this account is charged all coal, gas and water; it also includes cost of new steam piping through the buildings, and cost of additions to the jail and alterations, a report of which was made at the time of their completion.

All of which is respectfully submitted.

J. F. HUBBARD,
GEORGE W. DOTY,
Committee.

Elizabeth, N. J., May 10, 1887.

On motion, received and placed on file.

From Lunacy Committee.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your Committee on Lunacy would respectfully report that for maintaining the indigent and paupers insane the county has expended during the last year the sum of $24,587, and have received in return for the few patients a part of their board: the total amount received has been $816.36.

Your committee have visited the asylum, in accordance with the law, and have been shown each of our patients.

There are now one hundred and forty-eight patients in the asylum from this county.

All of which is respectfully submitted.

W. M. CHAPMAN,
A. VANDERBEEK,
Committee.

Elizabeth, May 10, 1887.

On motion, received and placed on file.

From committee on Legal Questions.

To the Honorable the Board of Chosen Freeholders of the County of Union:

Your Committee on Legal Questions would respectfully report that there now pending in the Supreme Court of this State two suits against this board. The first suit is brought by Sheriff Stiles, in an action upon contract; damages claimed \$1,000. Issue joined May 21, 1887. As the declaration has not been filed or served on your committee the particulars of the demand, but it is evidently brought to recover the fees, etc., he claimed to be entitled to under the demand for the jail, and for which no bill for two years ago.

The second is a quo warranto suit, brought by Sheriff Stiles against the Board and Jail Warden, requiring us to show cause why the custody of the jail should not be delivered up to him. To this suit we are required to file a demurrer on or before May 25, so that it may be argued at the June term of the said court.

The Lunacy Commission has a case pending in his hands. He has brought suit against the executors of Esther Hallen, to recover the amount expended by the county in the maintenance of the said pauper. The defendant has filed a plea, and the case will be tried at the next term. The attorney has already prosecuted to a conclusion, securing the pension quarterly paid this patient, so that in future the county will be relieved of this item. The lunacy case similar to the last the matter is in process of settlement by the attorney.

Respectfully submitted,

W. M. CHAPMAN,
J. MARTIN BOLL.

On motion, received and placed on file.

Minority report of Jail Committee on Warden's Bond:

I herewith desire to present a minority report in the matter of warden's bond. As there has, in my opinion, been no legal appointment of warden, I recommend that the bond which has been presented to the board, be withdrawn first being submitted to the Board, according to law, and once recalled and submitted, as usual, for the approval of the Board.

Signed,

A. VANDERBEEK,
Member of Jail Committee.

On motion, received and placed on file.

RESOLUTIONS.

By Freeholder Howard:

Resolved, That the thanks of this Board are due and hereby tendered to the Director for his untiring devotion to the interests of the county, in the discharge of the delicate and important duties of the office, and for his uniform courtesy to the members; and that our associations with him during the connection with this Board will be long and tenderly cherished.

On motion, adopted by a unanimous vote.

By Freeholder Vanderbeek:

Resolved, That the thanks of this Board are due and hereby tendered to the Clerk of the Board for the able, faithful and efficient manner in which he has performed his duties, and for the advice rendered by him to this Board.

On motion, adopted by a unanimous vote.

By Freeholder Pierson:

Resolved, That the thanks of this Board and the citizens are due to our County Attorney, Fred. C. Marsh, Esq., there is due the united thanks of this board for the able, faithful and efficient manner in which he has performed the duties pertaining to his office.

On motion, adopted by a unanimous vote.

By Freeholder Holl:

Resolved, That the thanks of this Board be tendered to John L. Crowell, Clerk of this Board, for the able manner in which he has performed the duties pertaining to the office.

On motion, adopted by a unanimous vote.

By Freeholder Hubbard:

Resolved, That the day of the parting hand to the retiring members, we desire to express to them our regrets that the pleasant associations of the past year must be broken, and also to record our appreciation of their faithful services.

On motion, adopted by a unanimous vote.

The following communication from Freeholder Iseaman was read:

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Having met with a serious accident, of which no doubt you all are aware, and which prevents my being present at this, your final meeting of the outgoing Board, with that kindly interest some of the other members of the county will be pleased to see me present, I desire, therefore, to present herewith to you and every one of you my sincere and heartfelt thanks for your kind forbearance, esteem, confidence and numerous favors you have so unstintedly and willingly extended to me at all times during my official and private intercourse with you, as one of your fellow members. I especially wish to extend my thanks to the Hon. Director, C. W. L. Martine, the Clerk of the Board, and those members who were in the Board at the time I was first elected the senate, some twelve years now past.

I part from you all with the greatest feelings of regret, as a body, as my long intercourse with you has been of the most amicable and friendly that human nature can desire. I shall always entertain the highest feelings of regard and esteem for you all individually, and shall ever remember in my life hereafter the time I was in duty bound, to spend in your midst, as the most sociable and instructive of my life. Being removed from further responsibilities, by the election of my successor, which event I am in the present time half wish for reasons of thanks, as my private matters need all my attention, I am especially thankful now, as I shall be succeeded by a gentleman whom I can recommend as an able business man, and who only differs with me politically, but whom I recommend to the members, whose fortune it is to form the new Board of 1887-88.

I shall always remain,

Yours sincerely,

JOHN ISEMANN.

Cranford, N. J., May 10, 1887.

On motion, received, placed on file, and ordered spread upon the minutes.

Freeholder Hubbard moved that a vote of thanks be tendered to Dr. James S. Green, County Physician, for his efficient services during the past three years.

Which was carried.

Freeholder Hubbard moved that the thanks of the Board be tendered to the attorneys and others, who have interested themselves in the welfare of the prisoners confined in the county jail.

Which was carried.

There being no further business before the Board, Freeholder Debbie moved to adjourn sine die.

Whereupon the Director declared the Board adjourned without day.

JOHN L. CROWELL, Clerk.

The Devil's Due.

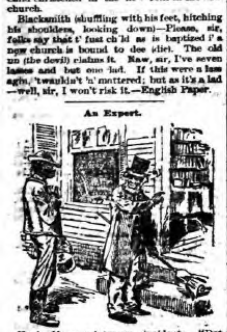
When the writer was a parson in Yorkshire he had in his parish a blacksmith blessed or afflicted—which shall we say?—with seven daughters and not a son. Now, the parish was a newly constituted one, and it had a temporary licensed service room; but in the week before the newly erected church was to be consecrated, the blacksmith's wife presented her husband with a boy—his first boy. Then the blacksmith came to the parson, and the following conversation ensued:

Blacksmith—Please, sir, I've got a little lad at last, praised be, and I want to have him baptized on Sunday.

Parson—Why, Joseph, put it off to Thursday, when the new church will be consecrated; then your little man will be the first child christened in the new font in the new church.

Blacksmith (shuffling with his feet, hitching his shoulders, looking down)—Please, sir, folks say that t' first ch ld as is baptized i' t' new church is bound to die alist. The old un (the devil) claims it. Naw, sir, I've seven lasses and but one lad. If this were a lass agin, t'wunna't ha' muttered; but as it's a lad —well, sir, I won't risk it.—English Paper.

An Expert.



Uncle Moses relates an incident: "Dat smart Alock Pollux were talkin' 'bout de law bein changed. 'No, sah!' sez I. 'Dere ain't no law bin changed 'bout nuttin'. Ain't I bin er fordin' Lyer Harbon's offis gwine on thirty year, en ain't I seen dem same law books on de same shelf all de time? No, sah, sy, ignunt people may think de law done chinge, but dem whar knows, knows better.'"

Little Laughs.

They are talking of starting a "wet" campaign in Atlanta, Ga. They couldn't do better than secure the services of Col. Rainwater, of Bonds, Ala.; Drinkwater, of Denver; Gen. Rosewater, of Omaha, and Capt. Broadwater, of Minnesota.—New York Tribune

"There he goes!" We knew a man once who said it was the height of his ambition to hear the people say of him, "There he goes." One day his ambition was gratified, but he was going to the penitentiary.—Texas Siftings.

Miss Tilton, Theodore's daughter, who has studied painting in Paris, is now living in Chicago with a married sister. She ought to find a fine field for her talents in the west, where they prefer young misses to the old masters.—New York Journal.

Mrs. De Hobson (at the cattle show)—I think it is a delightful institution; but you don't seem to care for fine cattle, John.

Mr. De Hobson (who is somewhat deaf)—Yes, I do, my dear, when they are cooked.—New York Sun.

The poetry of dress contains no finer simile than that used by a London lady correspondent. She describes a girl in a hat that resembles a dishcovered turkey. This must have been the heroine of a barnyard society play. —New York Journal.

Bill Nye is going to move east and Oliver Optic is going west. This is an eye for an eye—or rather, a Nye for an Optic.—Boston Herald.

A tall, lank, red nosed man came into a country store with a large jug, which he placed on the counter with the remark: "I want a gallon of rum—baby's sick."—Boston Gazette.

We never realized fully, until the other day, what an estimable blessing the ocean cable is. A dispatch was received announcing that the pope desires the prosperity of the Catholic church.—Burlington Free Press.

The empress of Russia says she needs a change of scene. She ought to be satisfied, though. The Nihilists change the scene for her quite frequently.—New Haven News.

This conclusion to a conversation was overheard in the horse car the other day: "You don't mean to say that she was a bad woman; I always supposed she was a regular virtuous."—Philadelphia Call.

"Why didn't you stop?" said the fat passenger as he clambered on to the car.

"Ye didn't signal," replied the driver. "I stood on the corner."

"Well, I'm no mind reader," said the driver, lashing his horses.—New York Sun.

His Idea of Legislation.

HARRISBURG, May 14.—It is related of a member of the house that, after observing the proceedings for a couple of weeks this session, he went to the senator from his district one day and said:

"Senator, I want you to make me a bill, will you?"

The senator graciously assented, and then asked: "What do you want the bill for?"

"Why, to read in place, of course," said the member.

"Oh, yes, certainly," returned the senator, "but I mean what do you want the bill about? What do you want it to accomplish by it?"

"I'm not particular," said the representative carelessly, "anything at all will do. I only want to read a bill in place, as all of the other members have done, and I don't care what it is about."

The senator drew him a bill, and he presented it with some show of importance.—Pittsburg Dispatch.

On to Berlin.

Chicago Girl—Oh, I do wish we could get up a war with Germany.

Omaha Girl—Dear me, dear, the Anglo-Saxons and the Germans all come from the same root. You shouldn't dislike Germans.

"Oh, I don't. But I was just thinking how comfortable the Parisians have been since the German war. They can enjoy themselves as much as they wish, while we have to just sacrifice ourselves on the altar of culture."

"Really, I don't see how."

"Why, they can loot and yell all they want at Wagner's music and then call it patriotism."—Omaha World.

Complimenting Grover.

A statesman from Gotham who visited President Cleveland last Saturday morning found him in unusually good spirits. The president furnished the reason for it by saying: "I entertained royalty last night, you know, for the first time in my life. I dined with a queen."

"I thought you always did that nowadays," came the quick rejoinder from one of the visitors, to which the president gracefully smiled a silent acquiescence.—New York Sun.

JOTTINGS.

—The evening service at the Congregational church will hereafter begin at 7.45 instead of 7.30.

—The "Y's" hold a devotional meeting in the Y. M. C. A. rooms on Monday afternoon at four o'clock.

—The schedule of new officers for the Central Railroad, it was expected yesterday would be announced to-day.

—The Girls' Mission Band of the Congregational church are planning to have a lawn party and sale within a week or two.

—Mr. U. H. Crane's on Park avenue is a reliable place to buy hats. Goods are warranted as represented. Read their advertisement.

—Special devotions for the month of June were held in the Catholic churches in this city and the Borough last evening at eight o'clock.

—A number of young folks started this afternoon on a picnic to Seward. They will return late this evening, by "the light of the moon."

—The third annual festival of the Dunham Good Will Choristers will be given in the Warren Mission Chapel in June. It will be duly advertised.

—White & Son call attention to their line of summer novelties. They say their line of satteen dress ginghams and parasols was never better or prices never lower.

—The great demand for brick at Mr. Scribner's kiln, elsewhere advertised, was such this Spring, that it exhausted his supply. He is now delivering brick as formerly.

—The Young Men's meeting at the Y. M. C. A. Hall on Monday evening next at eight o'clock, will be led by Mr. F. J. Miller. All men are most cordially invited. Young converts are especially urged to be present.

—The owners of driven wells in this vicinity will next week be notified by Mr. Green's attorney to pay the royalties due that gentleman. After a reasonable length of time suit will be instituted where payments are not made.

—The Warren Mission School of North Plainfield held its closing exercises this afternoon in the Mission Chapel. An interesting program has been prepared, and the chapel was well filled by friends of the school. This closes the fourteenth year, and the success of the Mission has been most gratifying to the managers who have labored assiduously to make it a success in every particular. The results obtained are very flattering.

—A valuable pet mare, belonging to Mr. E. F. Thorn of Park avenue, died feeling during Thursday night, and was buried yesterday on his grounds at Evona by Jones & Co. Last night the colt also died. Efforts were made to feed the colt with milk from a bottle, without success. Mr. Thorn deeply grieved over his loss, and stated that for the colt alone he would not have taken $1,000. The mare had a pedigree, and was considered an excellent trotter.

—The people of North Plainfield, and others, should take notice that under the provisions of the ordinance passed at the Borough Council meeting last night, no horse, sheep, cow, calf or swine will be allowed to pass through the streets, alleys, highways, or byways of the borough on and after June 20th without being first secured by a halter, rope, or other article, unless in case of purchasers driving cattle to market. This is a long sentence but it means all it says.

The Schlitz Case.

Peter Jacob Schlitz, who figured prominently in a bigamy case here, a short time ago, has, since he left this city with wife No. 1, been living with her sister at Lancaster, Pa. Wife No. 2 has been living with her parents in this city. A few weeks ago Schlitz obtained employment at his trade of upholstering in Philadelphia, and it is alleged that in order to get the money to go to that city he procured all of Wife No. 1's jewelry and pawned it. He worked steady for several weeks keeping the bulk of his wages, with the avowed intention of purchasing furniture, visiting wife No. 1, at Lancaster every Sunday. Two weeks ago matters came to a climax. Wife No. 1 went into his room unexpectedly and found him busy packing his clothes into a travelling bag. She demanded an explanation and he told her that as it was the busy season he would not be able to return for a couple of weeks and wanted a change of clothes. She was satisfied with the explanation and thought no more about the matter until last Saturday night when he failed to return home. It is alleged, upon inquiry, she found that wife No. 2 was missing from Plainfield. She then concluded that they were together and proposes to come to this city and investigate the matter as soon as her health will permit. The papers in the bigamy complaint were sent to Elizabeth, but no action was taken by the Grand Jury.

A Westfield Wedding.

A notable wedding was celebrated at Westfield Wednesday evening. It was the marriage of *Cornelia A. Fairburn, daughter of* Mr. and Mrs. Fairburn, to William J. Alpers. The ceremony was performed at the bride's residence by Rev. Dr. Robert B. Fairburn, uncle of the bride, assisted by Rev. Dr. Thomas Armitage, grandfather of the bride, of the Fifth Avenue Baptist church, of New York. The ushers were J. Allen Worth, Charles W. Masquoid, Robert A. Fairburn Augustus L. Alpers. The bridesmaids were the Misses Kittie and Alice Fairburn. A reception followed the ceremony. Mr. and Mrs. Alpers will make an extended wedding tour to Europe.

THE BOROUGH COUNCIL

FOURTH MEETING LAST EVENING.

The Street Commissioner Dismissed—Ordinance Passed to Prohibit Cattle from Roaming the Streets.

Mayor Cooley occupied his usual seat of honor at the Borough Council meeting last evening. The members present were Messrs. McCutcheon, McGee, Milne, Riker, Slater and Weaver—a full board. After Clerk J. E. Arnold read the minutes of the last meeting, the regular order of business was proceeded with. The license petitions and claims were referred to the proper committees and afterwards allowed. The claims were: J. H. Allen, books, $18.15; George Becker, Salary, $50. The Borough Clerk's report for the month shows as follows:

Balance in hand, last report.....	$114 00
Received from Licenses.....	45 00
Total.....	$159 00

Mr. Milne of the Committee on Streets and Public Health, reported that the Committee had decided not to allow the further appropriation of $300 requested by the Board of Health. Also that during the coming month the streets of the Borough would be scraped and repaired with crushed stone, the cost not to exceed $500. The report was received and ordered filed.

Mr. McGee, of the Committee on supplies and stationery, reported that the necessary books and stationery had been furnished the clerk as per instructions. A lease from Mr. Woodward for the borough lock-up, had on motion been referred to this committee and Mr. McGee moved that it be referred to the Committee on License and Marshal. Mr. McCutcheon seconded the motion and it prevailed.

Mr. Slater moved that warrants be drawn for the claims allowed; adopted. Licenses were granted as follows: Carmen, $2.50—John D. Smith, Wm. H. Totten, Grant Tainor, Levi Bird, Engine No. 2 (two licenses), John Wierenger, Pedlers, $5.00—D. W. King, S. Smolnski, L. C. Bickins, Jacob Bemen, Sewavger, $2.50—R. Worthan Spencer Conway. Hackmen, $2 50—Patrick Lynch.

Mr. Milne offered a resolution that George Conover be appointed Street Commissioner to succeed John Whitlock, the remuneration to be $2 per day for actual services. The roll was called on this resolution and Mr. McGee said he was in favor of the resolution, simply because the committee could not accomplish anything with the present commissioner, and under the circumstances he thought a change was necessary. Mr. McCutcheon qualified his vote by stating that he had found Whitlock honest, industrious and efficient, and he had not known him to be obstinate or unreasonable. But the committee claimed that they could not proceed with their work a deadlock should not prevail in council through his vote. The vote resulted as follows: Yeas—McCutcheon, McGee, Milne. Nays—Riker, Slater, Weaver. The Mayor saw it was necessary for him to cast the deciding vote, and he said he would vote aye, not because he had any criticism to make of Mr. Whitlock, but to assist the committee in proceeding amicably with their work. Mr. Conover was declared elected.

Mr. Milne offered a resolution that all tools owned by the borough and now in possession of Mr. Whitlock be transferred to his successor as soon as possible. Mr. Slater moved to amend, by adding that the clerk furnish a list of the tools, as most of them were purchased new at the present time. Amendment carried.

Mr. McGee offered a resolution that the Committee on Streets and Public Health be authorized to negotiate a loan of $800, to be used on the roads and highways, and that the Borough Clerk be authorized to be authorized to execute a note for that amount, in the name of the Borough Council. Adopted.

An ordinance to amend an ordinance entitled "an ordinance relating to the morals, peace and good order of the Board of North Plainfield," in the Borough Clerk was authorized to execute a note for that amount, in the name of the Borough Council. Adopted.

An ordinance to amend an ordinance entitled "an ordinance relating to the morals, peace and good order of the Board of North Plainfield," in the Borough Clerk was authorized to execute a note for that amount, in the name of the Borough Council. Adopted.

It is section 17, and provides that no horses, sheep, swine or cattle shall be allowed to pass through the streets of the borough without being secured by a halter, or in some other manner. It was modified a little to permit purchasers of cattle to drive their droves of stock through the streets to market where it was necessary.

Dr. Cooley said the people had been bothered considerably by cattle roaming about the streets until it had become a nuisance, and he thought it was time that provision was made for having it abated. He owned cattle himself and he was in favor of this ordinance—in fact, was the father of it. The ordinance was then read by sections and adopted. The committee instructed to have it legally printed and posted. It takes effect June 20.

Mr. Slater moved that the Street Committee be authorized to introduce an ordinance at the next meeting providing for the numbering of buildings in the borough, and marking of streets at their intersection. Adopted.

He also moved that the committee on Laws and Ordinances be requested to report on the road maps and their application to road work. Adopted.

Council then adjourned.

Does Not Deny the Charge.

The case of Lawrence Paoli, the Italian fruit dealer of North avenue, was moved before Judge Clifford this morning by Corporation Counsel Marsh. Paoli had been arrested for violating the third section of the "morals, peace and good order" ordinance, on evidence furnished by Frederick Gibbart, who admitted that he had purchased hard cider in Paoli's place last Sunday. About a dozen witnesses had been subpenaed to testify against him. The defendant's counsel, Gen. Vanatta, moved to quash the warrant on the ground that he proposed to remove the case to the Supreme Court. The City Attorney opposed the motion, but the motion to quash, or cut a writ of certiorari he would consent to a postponement, on payment of the costs of the witnesses. The defendant's counsel insisted that the costs of only two witnesses could be imposed. The City Attorney replied that the ordinance was a new one, out of this court, and the court could decline to grant it, except on such terms as the court saw fit to impose. The defendant could not complain, for if the terms did not please him he could withdraw his application. After further argument Gen. Fay offered to plead guilty one week from to-day, if in the meantime the license to sell fruit in Paoli's store. The City Attorney then said, that as this would save the city the costs of witnesses on the Supreme Court the cost would be a minor matter. Gen. Fay offered to plead guilty one week upon payment of costs of two witnesses, the amount to be decided by the court of the stipulation of defendant to plead guilty if the writ is not granted by the Supreme Court. The court so ordered. Paoli now has a similar case before the Supreme Court awaiting a decision which will determine the validity of the ordinance.

—A man named Dunn was arrested on Somerset street this afternoon by Constable Bauserach, for being drunk. He was escorted to the borough "cooler."

A JOLLY PARTY.

Jerseys Take a Day's Outing at Lake Hopatcong.

Toot! toot! said the locomotive, as its train moved out of the principal one of our four handsome depots yesterday morning, at 9.21, with a merry party on pleasure bent, as they said adieu for the glorious sunny day to the "Queen City of New Jersey." Among the party were gentlemen from Elizabeth, Roselle and Plainfield, and when the train reached Somerville two more gentlemen were taken aboard as ballast, and then off went the party for Schooley's city mountains.

"Westward the star of empire takes it way," likewise scudded the commodious train, over valley and mountain and plain, unfolding scenery oh, so beautiful! and growing more and more so as the journey continued, and we passed hamlet after hamlet, amid the luxuriant foliage. The altitude of likewise varied from 120 feet above sea level at Plainfield, undulating and winding up to High Bridge, so called because it is one hundred feet above the valley below. It is likewise some 300 or more feet above sea level, but as the party is next on getting nearer heaven, they change cars and are introduced on the new train to George Li Briant, the gentlemanly and thoroughly well informed superintendent of the High Bridge branch.

We are now going for the higher country, with a man higher than any of the party, for Mr. Briant is six feet two inches and tarns the scale at 200 pounds. He is likewise high in authority, and the engine speeds on, now easefully, until, excellent! we arrive, in two hours from the time we started, at the most beautiful of lakes, 1,200 feet above sea level and nestled in towering Schooley mountains like a sparkling diamond on a maiden's bosom. This is Lake Hopatcong, an Indian name, meaning beautiful water. In fact we are in a land of Indian names and legends, for the tribes gone by the Delaware and other tribes gathered here to while away the pleasant summer days. Ever so long ago the place was famed for its many gamey fish, and perhaps, as much as to-day, as the land of pure air and good health. In the by-gone days Indian camps on the shore relics are now and then still found.

But the Lake Hopatcong of to-day is even grander than the one upon whose banks the Indians loved to linger, leaving many romantic traditions behind. "Minnesink" near by means from where the waters are gone. The river Musconong is the outlet of the lake to the sea. In 1836, over half a century ago shrewd capitalist saw this gem upon the mountains and empowered by an act of the Legislature raised by a dam the outlet, until *the lake to which was originally but about six* miles long and a mile wide, grew to nine miles long and three miles wide at its widest point. This was ostensibly for the Morris and Essex canal company, but it was intended to be a water supply for Newark and other large cities. It has instead become one of the most popular health-giving mountain air resorts probably in the world, over 30,000 people *visiting it last year, and railroad preparations* are being made on a scale to entertain fully 70,000 people this year.

Alighting from the train beside the wharf while waiting a few moments for the steamer the party beheld a force of about forty skilled workman and laborers making elaborate preparations for the summer excursionists, and occupants of the many pretty cottages *among the cool* beautiful *being* that Lotta the actress, who has made fame and fortune by her unequaled talents. A large restaurant on the border of the lake will have food at popular prices, and there will be swings, merry-go-rounds, and other sports furnished free, while besides the numerous docks for fishing parties, the commodious little steamer is to make ten cent trips all over the lake. These are for people taking a day's outing. But here's the boat, "all aboard," and puff, puff she goes in amoung the coves and numerous log and brush islands. Every one has a jack which Joseph Bonaparte sought to buy, but could not secure as much land as he desired with it. There's a large hawk making off with some luckless fish, and you are sure that a pair of wise old bald eagles make their summer home here and rob the hawks of their prey. There is a wild duck floating in the water, so, it's a loon, which some but a lune would try to shoot. It knows how to dodge the bullet and save its life. There's old fisherman Morris Decker's shanty. Twenty years he's fished here and "raised" a family here who fish, and a lovely daughter, now married and gone West.

The lake reaches a depth of over seventy feet, averaging forty feet, and abounds in fish.

An hour spent upon the lake is a good appetizer. There is the place to appease it in the Hotel Breslin, the large $125,000 hotel overlooking the lake, not only opened this season, with accomodations for 300 to 400 people at $4 per day. Everything is on a grand scale and arranged for first-class people, as the guests are designated. Rooms are already secured almost to late in July, for every body knows that Mr. Breslin is a first-class boniface, and believes in having first-class assistants as one finds from cellar to roof. The hotel is four stories high and has 312 feet frontage. *All the party agreed that* the hotel people certainly know how to get up a custom dinner. Mr. Brockway, who is in charge, is from the Hotel Windsor, New York. Mr. Breslin's, and is fully equal to the reputation he brought with him, and the good the well will do to thirsty wayfarers, when he has passed away, will do him good in life to think of. Mayor Melville says, that if the horses could speak they would say: "Thank you, Uncle Billy." He has ordered a well for Hillside Villa, Mr. E. H. Cook, who superintended the work, seems to know a thing or two about water worth knowing, and knows how to do well work well.

Post Mortem on a Cow.

Otto Arns of Park avenue some two years ago imported two valuable Jersey cows, which he has since pastured on the handsome grounds about his residence. Last Tuesday night one of the cows showed symptoms of great pain, *and moaned piteously. Dr. Forster was* called in and attended the animal throughout the night, without relieving her. It was evident she could not be saved, and Mr. Arns to relieve the animal's suffering acted on the doctor's advice and had her killed last Wednesday. The doctor then had her removed to Jones & Co.'s place in Fanwood township, and held a post mortem on her remains, finding that she was suffering from enteritis, which would have resulted in death had she *not been killed. The disease was supposed to* have been brought on by a cold, which settled in the bowels, producing inflammation, which eventually brought on enteritis.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Sunday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair, warmer weather will probably prevail.

Cardinal Gibbons Reported Dead.

NEW YORK, June 4.—At three o'clock this afternoon the steamship Umbria from Queenstown is sailing up the bay with her flags at half-mast, and it is rumored that Cardinal Gibbons, who is aboard, is dead. The cardinal has been in Europe for several months. He went to Rome for his beretta, as the second American cardinal. He is from Virginia, but presides at Baltimore. He defended the Knights of Labor at Rome.

Ex-Vice Pres. Wheeler Dead.

MALONE, N. Y., June 4—Ex-Vice President Wheeler died this morning at ten o'clock. His was born June 30, 1819. Early in life he was admitted to the bar, and as a lawyer he soon won distinction. His public life began with his election to the State Legislature, of which he was a member in 1850 and 1851. He was a member in 1858 and 1859 of the State Senate, of which he was also president pro tempore. He was president of the State Constitutional Convention of 1867-68. Mr. Wheeler was elected to the Thirty-seventh Congress in 1860 as a Republican, and he also was a member of Congress from March 4, 1863, to March 3, 1875. In 1876 he was elected as Vice President, serving from March 4, 1877, to March 3, 1881. Since the latter date he has held no public office, *but he received a handsome vote when the* Legislature was voting for a United States Senator to occupy the seat made vacant by the resignation of Senator Conkling. Mr. Wheeler has been engaged considerably in the banking business, and has been president of the Ogdensburg and Lake Champlain Railroad.

PERSONAL.

District Deputy Freeman of Plainfield, visited the Eastern Star Lodge of Bound Brook last evening.

The pulpit of the First Presbyterian Church will be occupied by Rev. Dr. Gillespie of Elizabeth to-morrow.

Mr. W. J. Ayres, the agent of the Land Improvement Company, has resided fifty-three years in his present home at West Second street.

Charles Webber, of Tom Green county, Texas, is visiting his brother-in-law, Mr. W. B. Ayers, of Netherwood avenue.

Mr. H.R. Munger of North Plainfield, will conduct the services in Warren Mission tomorrow evening, beginning at 7.30.

Mr. D. DeLancey of Putnam avenue has arrived home from Boston, where he is a sophimore at the Massachusetts Institute of Technology.

Judge L. F. Wadsworth and Mr. Anderson, of Scott's Press Works, are expected to address the Reform Club meeting on Sunday evening.

Rev. C. L. Goodrich occupied the pulpit of the Rev. Dr. Lewis this morning. The latter gentleman is attending the Seventh-day Baptist Eastern Association.

Rev. J. H. Simonson will conduct the services and administer the sacrament at the Trinity Reformed church on Sunday. The new pastor, Rev. Mr. Schenck is expected here about the middle of this month. For the present he will reside with his cousin Mr. J. L. Van Nest, on East Second street.

A musicale will be given by the scholars of Miss Annie Marsh's class at that lady's residence on Madison avenue near Eigth street this afternoon. The program will consist of instrumental music by the scholars and singing by Miss Dorman. About one hundred invited guests will be present. It will be a very recherche affair.

Mr. A. P. Wright, Superintendent of the Electric Light company, entertained a number of gentlemen from New York, Long Island and Philadelphia last evening. These gentlemen came to examine the electric light system here, and the incandescent lights on Central avenue and Seventh streets. Covers were laid for eighteen and a dinner enjoyed at Laing's Hotel.

"Uncle" Billy Moore is delighted with the new well put in by Mr. Sebring's new drilling machine, the invention of Mr. Chas. D. Pierce of New York, a man of remarkable events and practical ability, his inventions having brought him much wealth. Mr. Moore is an old contractor, and owns the City Hotel, Moore's block and other valuable *real estate. He has purchased a large*, handsome pump for the well, which is to be a public improvement. Mr. Moore says he can't take his money with him, and the good the well will do to thirsty wayfarers, when he has passed away, will do him good in life to think of. Mayor Melville says, that if the horses could speak they would say: "Thank you, Uncle Billy." He has ordered a well for Hillside Villa, Mr. E. H. Cook, who superintended the work, seems to know a thing or two about water worth knowing, and knows how to do well work well.

Charles P. Sebring, Contractor,

PLAINFIELD, NEW JERSEY.

Union County Courts.

In the Union County Court of Quarter sessions, at Elizabeth, yesterday Richard Faulkner, jr., a one-legged man, was tried on a charge of committing an assault upon Margaret Maher, a few weeks ago, near the Singer factory. The court room was crowded with curious seekers, eager to hear the details, which were revolting. One witness, Michael Cushing, did not appear, and Judge McCormick issued a bench warrant for his apprehension. Constable Dixon got him and took him to the Court House, but there Cushing slipped away and escaped. Jack Martin, alias "Liverpool Jack," was jointly indicted with Faulkner, but there was no proof that he had participated in the crime, and Judge McCormick directed his acquittal. Faulkner set up the plea that he had given the woman money, which she accepted, Judge McCormick, in charging the jury, said it made no difference how degraded the woman was; she had acknowledged being drunk at the time, and while caution should be used in considering the testimony of a woman who partly admitted her shame, yet if the facts stated it was the duty of the jury to convict. The jury was out three hours and brought in a verdict of guilty, with recommendation to mercy.

There are three other men implicated in the outrage who are still at large, having fled from the city after the case was called in the Grand Jury was investigating the case.

John Zeltman, convicted of assault on his niece, Miss Lizzie Strasp, yesterday retracted his plea of not guilty of assaulting his other niece, Mrs. Emma Dixon, a sister of Miss Strasp, and pleaded guilty.

Dennis J. Fitzgerald, indicted for keeping a disorderly house by selling liquor on Sunday, retracted a plea of not guilty and pleaded non vult.

John Faulkner, a brother of the convicted Richard Faulkner, who was wrongfully indicted for being implicated in the same crime, was discharged on his own recognizance, *there not being the slightest reason for con*necting him with the offense.

Cranford Building Association.

The Cranford Mutual Building and Loan Association was recently organized, and about two hundred shares, at $50 each, have been subscribed for. The number of shares issued by the association shall not exceed 2,000. The officers of the association are as follows: President, Daniel W. Seward; Vice-President, William H. Hughes; Treasurer, Robert B. Herring; Secretary, Kenyon Mossick; Solicitor, E. T. Oldham; Directors, Freeholder George W. Littell, E. T. Oldham, John D. Kane, J. W. Seward, J. D. Easton, George H. Miller, Robert Hoskin, jr., William W. Mendell, John L. Derby, Robert Hoskin, Clarence Seward and W. H. Dyke.

Electric Light for Westfield.

An effort is being made to arrange with the Plainfield Electric Lighting Company to run a wire from Plainfield to Westfield, a distance of five miles. This has never been done before, but the manager of the company is confident that he can furnish the light from the home plant. It is proposed to introduce about six hundred lights. A party of Westfield people will visit the works at Plainfield in the near future.

—Both the Peace street sewer basins were cleaned out yesterday by Messrs. Jones & Co.

At the White Front you will find just what you want in Satteens, Ginghams, Lawns, Parasols, Gauze Underwear, Gloves, Mitts and in fact you will find everything almost that one needs for Summer wear, all sold at White's Popular low prices. J. E. White & Son, of the White Front.

Special Notice.

EDRS. DAMON & GOLDWIN.

Vitapathic Specialists

who performed so many really wonderful cures by "laying on of hands" at hall over the city bank, have at the earnest request of many friends decided to remain a short time longer. Those wishing to consult these specialists can do so free at the City Hotel from nine a. m. to eight p. m. until further notice.

Rutgers Glee Club

will give a grand entertainment on

Friday, June 10th,

at eight o'clock p. m. in the

M. E. CHURCH,

Selections novel and new. The rendition of any one worth the price of admission.

DON'T FAIL TO HEAR THEM.

Admission 25c. Proceeds for the benefit of the new Sunday school room.

GOOD QUALITY

BRICK

I am now prepared to furnish a superior quality of brick. I have doubled the former capacity of my yard and added many improvements.

I wish to say in thank my many customers for their patronage so generously bestowed on me during the past twenty years, and solicit further favors.

Isaac Scribner,

MAPLE AVENUE, NORTH PLAINFIELD.

P.O. BOX 300.

Prices Reduced.

Our stock of Summer Clothing is still complete but on account of the advanced season we have reduced the prices of all seasonable clothing for men and boys wear from 15 to 25 per cent.

Full line of gents' furnishings at lowest prices. Schwed Bros. No. 7 E. Front St.

Special Notice.

Dr. Abbie E. Cutter,

HOME AT

Wickets Island, Onset, Mass., opens July 1st. This is one of the most healthy and beautiful summer resorts in this country, for students, invalids or pleasure seekers. High land no malaria and being surrounded by water, the atmosphere is at all times heavily charged with ozone, rendering it a most restful place for both body and brain. Parties going to the home will leave the train at East Wareham, carriages take them to the wharf at Onset where the steamer will take them to the Island Home. Excursion tickets to East Wareham good till Nov. 1st, can be obtained at Fall River steamers at New York.

Speaial bargains in French Lawns, and Broche Seecuckers at 12 1-2 cts. worth 18c. One lot White French Organdiers in Stripe and Plaids 18c, real value 25c. Many other bargains in Dress Goods, Notions Hosiery and Gloves. POPE'S.

Plainfield Evening News.

T. W. MORRISON, EDITOR AND PROPRIETOR,

Is published every afternoon at

No. 7 SOMERSET STREET, PLAINFIELD, N. J.,

And delivered within the City and Borough limits at ten cents per week, or by mail postpaid to all parts of the United States, at $5 per year payable in advance.

SATURDAY, JUNE 4, 1887.

THE DYING STATESMAN.

EX-VICE-PRESIDENT WHEELER CAN LIVE BUT A SHORT TIME.

The Patient Suffering from Softening of the Brain, with Indications of Approaching Paralysis—Death Has No Terror for Him.

MALONE, N. Y., June 4.—Ex-Vice-President Wheeler is still alive, but unconscious. His physicians report his temperature rising and say they do not think he can live many hours.

The Malone Palladium has the following statement of Mr. Wheeler's critical illness:

"For days and nights he was conscious and rational only at intervals, and for the past two or three days has been in a stupor the greater part of the time. He is suffering from softening of the brain, and there are indications of approaching paralysis. A carbuncle has appeared just above the lip on one side and has become an element of further weakness. It seems impossible that he can rally, and his death at any hour would not be surprising, though he may survive for several days."

"Mr. Wheeler has been slowly failing through the past five or six years until last winter, when the progress of the disease became more rapid, and his physicians and friends began to fear the approach of the end.

"On the night of March 3 he was seized with chills, followed by a sinking spell, and Dr. Gay then began to think that he would die. He afterward rallied, however, but never again regained his former vigor and strength. Mental weakness gradually became apparent, increasing until recently were indications of insanity, and now of helplessness and unconsciousness.

"The hearts of friends are heavy and the community will lose in him one of its most eminent and helpful members, but for Mr. Wheeler himself death has no dread. Insomnia has tortured him, incurable maladies have given him years of agony, and no near relatives remain to him to share his affections or cheer his desolate home. A world of friends will mourn him, but to him the change to be wrought will mean a life of unrest, of pain and utter loneliness."

Brewers Returning to Work.

PHILADELPHIA, June 4.—The brewers and their employes have reached an agreement ending the long strike and boycott. The terms are that the men only are to return to work as fast as room can be made for them, and are to be left free to induce non-union men to join their organization.

Eighteen Days Without Food.

HARTFORD, Conn., June 4.—Two car loads of Texan ponies shipped from Texas to eastern Pennsylvania on the 18th of last month were transshipped to Bangor, Me., were unloaded here. They had been eighteen days on the cars without food, and several of the animals were dead. Those still alive were in a terribly emaciated condition.

The Stove Molders.

PITTSBURG, June 4.—The stove molders strike in this vicinity is at an end, and the seven foundries, employing about 500 molders, will resume operations on Monday. The St. Louis furnaces have been withdrawn. The molders return at their old rate of wages, but refuse to sign any papers.

Mutinous Seamen.

NEW YORK, June 4.—Five of the crew of the bark Ada Gray, bound for Havana, mutinied when the vessel reached the lower bay yesterday. The captain displayed signals of distress, and the police boat went alongside and brought the mutineers to this city.

A Father and Daughter Cleared.

MEMPHIS, Tenn., June 4.—Beulah Moore and her father, J. W. Moore, were acquitted of murder Thursday after the jury had deliberated an hour. Beulah shot down W. H. Allen, her supposed defamer, and her father poured a load of buckshot into his body.

Disappeared from the Steamer.

NEW YORK, June 4.—J. W. Morris, aged 30 years, a saloon passenger on the steamer City of Chester, disappeared shortly after 5:30 yesterday morning and is believed to have jumped overboard. He is supposed to have been a resident of Staten Island.

A Sea Captain Held.

NEW YORK, June 4.—United States Commissioner Shields held Capt. A. Campbell, of the English steamship Circassia, from Scotland, in $5,000 bail on a charge of having carried fifty-nine more steerage passengers than his certificate allowed.

The Fortuna Sails at Last.

MARBLEHEAD, Mass., June 4.—The yacht Fortuna sailed on her transatlantic trip at 12:30 o'clock yesterday. Capt. Newcomb and Commodore Hovey are on board. The weather was clear and a brisk south wind was blowing.

Ex-Governor Moses Pardoned.

BOSTON, June 4.—Franklin J. Moses, who, as governor of South Carolina, at one time occupied a large share of public attention, but who is now an occupant of the Massachusetts state prison, has been pardoned by Governor Ames.

A Vagrant Sold at Auction.

PADUCAH, Ky., June 4.—In the city court Thursday, Mollie Jackson, white, was convicted of vagrancy, and Judge Thomas ordered that she be sold to the highest bidder for thirty days.

CONDENSED NEWS.

Mrs. Patterson, of Kansas City, while out riding, was thrown from her horse, her feet catching in the stirrup. She was dragged a long distance, receiving such injuries that she cannot recover.

Mrs. Cignarale, the Italian woman who killed her husband last October, has been sentenced to be hanged July 22.

In a quarrel about dogs, at Warsaw, Mo., a man named Davidson killed Van Leitou, a neighbor.

The Reformed Presbyterian synod, in session at Newburg, N. Y., adopted resolutions calling upon the government to abolish Sunday mails.

It is said that Charles M. Sterling, a tramp, who was hanged at Youngstown, O., on the charge of killing Lizzie Crombacher, was judicially murdered.

President Cleveland says he knew nothing of his contemplated western trip until informed of it by the newspapers.

Connecticut's railroad commissioners have issued an order forbidding the running of a newspaper train in that state on Sundays.

JEALOUSY AND MURDER

AN ACTOR'S WIFE SHOT AND KILLED BY HER PARAMOUR.

The Victim Had But Recently Recovered from a Wound Inflicted by Her Husband—The Murderer Cuts His Throat and will Probably Die.

PHILADELPHIA, June 4.—Yesterday morning Robert G. Hall, aged 34 years, shot and killed Mrs. Lillian Rivers, aged 30 years, at No. 938 North Tenth street, where she and were living as man and wife under the name of Burton. Mrs. Rivers was the wife of James W. Rivers, an actor known to the profession as James Reynolds. On April 19 Rivers attempted to take her life for keeping company with Hall. He wounded her in the hip and then shot himself in the head and breast. He lay in the hospital for several weeks, but subsequently recovered, and with his son and daughter he left Thursday for Topeka, Kan. Hall is a married man, but had not been very successful in either of those professions. He and Mrs. Rivers have been intimate for some time, but lately have quarreled a great deal.

Thursday evening, after a quarrel, Mrs. Rivers left the house, and remained all night with an acquaintance in Eleventh street. Early yesterday morning she had a warrant issued for Hall's arrest, charging him with assault and battery. Before the warrant was served, however, Hall went to Hall in his room, and the landlady a few minutes later heard pistol shots. A policeman was called, and on going to the room found Mrs. Rivers dead, with two bullet holes in her head and her throat cut from ear to ear. Hall was lying on the floor unconscious, he having cut his throat with a razor. He was taken to the German hospital.

Several letters written by Hall were found in the room, the contents of which showed that the deed was premeditated.

A telegram was received from Rivers, Topeka, Kan., and another, which was unsealed, was directed to Hall's father, John M. P. Hall, 2127 Morgan street, St. Louis. It was dated May 18, and informed his father that by the time the letter reached him his life would have ended by his own hand. Another letter was addressed to the coroner, telling that his father be informed of his death, and requesting that such disposition be made of his body as his father may direct. The letter is dated May 29, and says he has taken leave of himself and wife (Mrs. Rivers) because of the latter's faithlessness, accusing her of intimacy with a man named Arnold. He added:

"I have made Estelle name Robert G. Hall, but, owing to my formerly having been connected with the variety profession, I am more generally known by my professional name of Robert G. Burton. I am 34 years and 9 months old, printer and bookkeeper by occupation, and now reside at 938 North Tenth street. My home proper is St. Louis, Mo."

A marriage contract was also found, which was signed by Robert G. Burton and Lillian M. Rivers, and in it they pledged themselves to marriage, though such had never been consummated by ceremony.

When Hall realized that his efforts to take his life were unavailing, he tore the flesh around the wound with his hands. At the hospital the physicians entertained very little hope of his recovery. He was weak from the loss of blood.

THE EXPELLED CARPET WEAVERS

Will be Taken Into the American Federation of Trades Unions.

PITTSBURG, June 4.—It seems, from an interview with State President George Harris, of the Miners and Mine Laborers' Amalgamated association, who is also first vice-president of the American Federation, in this city, that the carpet weavers, recently of 126, Knights of Labor, which has been suspended by the general executive board, is not to be left out in the cold. Its thousands of members are to be taken care of and received as members by the American Federation of Trades Unions, of which Samuel Gompers, of New York, is president and P. J. McGuire secretary.

Said Mr. Harris: "The will be a meeting of the board of Federation next month either in Philadelphia or New York, when the question of receiving the carpet weavers as members will be considered."

Mr. Harris does not think that such action as intimated above will precipitate a quarrel between the Knights of Labor and the Federation.

A Hasty Marriage.

TROY, N. Y., June 4.—A gentleman named Nugent came to this city yesterday in search of his daughter Mary. She had eloped from New York with a young man named Wagner, of this city. As the young couple were unable to show a marriage certificate the father and his daughter went to police headquarters for advice. An officer was sent to interview the couple. When they saw him approaching they made up their minds to get out of the way. They jumped into a carriage and drove to the residence of the Rev. Dr. Baldwin, where they were married. They then went out of the city. The young woman was engaged to be married to a prominent and wealthy gentleman of New York, and the ceremony was to have taken place in October.

Runaway Horse in a Drug Store.

WILLIMANTIC, Conn., June 4.—Agnes Wood, 16 years old, a daughter of Thomas Wood, a machinist, was fatally injured last night by being run over. Joseph Nichols, a livery stable keeper, while drunk, was riding about the streets, beating his horse unmercifully. Nichols was thrown out and received a fall on the back. The horse ran up Main street, and at a crossing struck two girls, knocking both down. The Wood girl was trampled upon. The horse then ran into Frank M. Wilson's drug store, and the people there rushed terrified into the alley in the rear. There was a wreck of show cases and bottles, but no one was hurt.

Belgium's Striking Miners.

BRUSSELS, June 4.—A despatch from Mons says that a mob of striking miners gathered in front of the house in which the Socialist council is sitting, at Jemappes, and becoming demonstrative refused to disperse when ordered to do so by the gendarmes. The troops charged upon the mob three times before they succeeded in driving them off, and several of the former were injured by stones and clubs in the hands of the rioters. A large number of the mob were wounded by bayonet thrusts, and many were arrested, among them being M. Fannan, a notorious Anarchist leader.

Assaulted by a Negro.

SING SING, June 4.—A school teacher of North Salem, Westchester county, is reported to have been assaulted by a negro in the neighborhood of that village. The place of outrage is said to have occurred in the same place in which a similar outrage took place on June 26, 1886. On that day Miss Sarah E. Slocum, also a school teacher, was assaulted by a negro named Sam Pine. He was indicted by the grand jury at White Plains, but was never captured in this state. He is now serving a sentence in Connecticut for another offense.

NO EXTRA SESSION.

Governor Beaver Deems it an Unnecessary Extravagance.

HARRISBURG, Pa., June 4.—Leading members of the legislature, senators and representatives, irrespective of politics, unite in urging on Governor Beaver the propriety and necessity of calling an extra session for the purpose of re-enacting the general revenue bill, which, as discovered by the governor this week, failed to become a law for the reason that the signature of the president of the senate was not affixed, as required by the constitution. Senators Cooper and Reyburn, Speaker Boyer and Representative Faunce and Foote, of the house, all say an extra session should be called, while Cooper has written a letter to the governor urging such a step. Senator Reyburn says the session need not last more than a week, and would not cost anything, as the senate would defeat a bill making an appropriation for any time. It is doubtful if a quorum could be obtained under such an arrangement. Mr. Faunce says that the cost would not be over $100,000, and that all the members he has seen favor the extra session.

Governor Beaver gives the advocates of an extra session a patient hearing, but remains firm in his determination not to call one. Friends of the governor say the reconvening of the legislature at this time, just on the threshold of his four years' term of office, would be a fatal blunder, and claim that no matter how much good it would do there is so much that is distasteful in the idea that it would be used to reflect on the administration, that they fail to be impressed with careful economy the state can easily get through the next two years with what revenues it will receive under the act of 1885.

TYLER AND BEECHER.

A Letter from Mrs. Tyler Expressing Her Sympathy.

RICHMOND, Va., June 4.—The secretary of the Beecher Memorial association, of Brooklyn, has written to Mrs. ex-President Tyler, of this city, says that a short time before the death of the great preacher he, "in a sermon of rare excellence, delivered before an immense audience, and composed chiefly of children, paid a tender tribute to her husband, the late ex-President Tyler, whose deep interest for the moral and intellectual welfare of his children is so sweetly and beautifully portrayed in his publisher letters. This affecting illustration of Mrs. Tyler's virtues before a northern audience, by one who was politically opposed to him in the past brought tears to the eyes of his hearers." Mrs. Tyler has sent a reply to Mr. King of a memorial letter to Mrs. Beecher, which she received in touching terms by the dear preacher, and expressed her most tender sympathy. Mrs. Tyler's letter will be published in Mr. Beecher memorial shortly to be issued.

CHURCHILL TO THE WORKINGMEN

He Issues a Manifesto Protest Against Extravagance.

LONDON, June 4.—Lord Randolph Churchill, in a manifesto addressed to the workingmen of Paddington, said he believed that the sources of revenue could be so managed as to relieve the fair trader without driving to despair the free trader. The true remedy for depression in trade, in his judgment, was strict economy in public expenditure. The workingmen of England, he said, must not allow Ireland to absorb public attention, but must bring upon the government pressure in the direction of preventing such extravagance as the expenditure of £1,000,000 for new war and admiralty buildings, and £17,000 for decorating Westminster abbey for the jubilee festivities.

Suspected of Poisoning.

SALEM, N. J., June 4.—Sarah Bradshaw, a colored girl, aged 18, was arrested in this city yesterday charged with having killed her grandmother, Deborah Bradshaw, at Millington, Del., on April 16. Sheriff Hutchison, of Kent county, Del., traced her to this city. At a hearing before Mayor Acton the girl told contradictory stories and was committed to await a requisition from Governor Green. The girl left Millington suddenly on the day of her grandmother's death, which fact was looked upon with so much suspicion that an analysis of the dead woman's stomach was made, when it was found that her death ensued from poisoning.

Carried in a Coffin Box.

TROY, N. Y., June 4.—Mrs. Hull, overseer of the poor of the town of Berlin, brought to this city on the Fitchburg train an insane woman, whose name could not be ascertained further than she said it was "Christine." She is about 45 years of age, and had been tramping about Berlin and Stephentown for several days. Thursday afternoon she was struck by the cars on the New York and Montreal road near Berlin and her right leg was broken. The woman was so frantic that it was necessary to put her on her back in a coffin box and nail slats across the top to keep her quiet.

Gladstone in Wales.

LONDON, June 4.—Mr. Gladstone's presence in Wales was made the occasion of a holiday yesterday, which partook of a national character. In doing honor to the distinguished visitor the Tories of Swansea for once forgot that they were Tories and vied with the Home Rulers and anti-church Liberals in the enthusiasm they displayed. Mr. Gladstone's declarations in favor of the disestablishment of the Welsh church are anxiously awaited, and may be depended upon to vastly increase the numerical strength of his following.

Serious Stabbing Affray.

CONWAY, Ark., June 4.—Tom Middleton and Dan Mabey were rivals for the hand of a girl living fifteen miles from here. Saturday night Dan and his brother Albert called Middleton out of a dance, where a spelling bee was going on, accused him of lying and began stabbing him. Several shots were fired, one of which struck Albert, and another mortally wounded Dan Mabey. Albert Mabey was also seriously shot. Dan Mabey has since died, and yesterday Middleton was reported dying. Albert Mabey has disappeared.

Yellow Fever in Florida.

WASHINGTON, June 4.—Surgeon General Hamilton, of the Marine hospital service, says that they look upon the yellow fever in Key West as of a very mild character. They have furnished beds and bedding and some other accommodations to the local authorities, and they cannot do anything else officially until the state authorities apply for assistance. He says that the indications are that the disease was brought to Key West in bedding which was bought in Havana by the family among whom the fever first appeared.

Signing the Laws.

ALBANY, June 4.—Bills were signed by the governor yesterday as follows: Relating to payment of certain premiums to fire departments by foreign insurance companies; providing school houses in Long Island City; authorizing change of name of banks and trust companies; authorizing change of location of banks and bankers; relating to the New York City Homeopathic Medical college; amending the village incorporation act as to duties of trustees.

RESISTING EVICTION.

THE BODYKE TENANTS MAKING IT WARM FOR THE BAILIFFS.

Boiling Water, Cayenne Pepper and Bees as Instruments of Warfare—The Eviction of One Tenant Requires Two Hours of Fighting.

DUBLIN, June 4.—The evictions at Bodyke continue. The tenants are offering all the opposition in their power to the sheriff and his guard of police and troops, and find various means seriously to annoy the officers. In some of the houses from which the occupants have to be evicted cayenne pepper was burned, the fumes of which nearly choked the bailiffs. Boiling water was also thrown from the windows upon the evicting forces. At two houses where evictions were effected collisions occurred between the police and the people, and a number of arrests were made. When the sheriff's force arrived at the house of a tenant named Lyddy and ordered the family to leave, a daughter of Mr. Lyddy threw an iron hoop at the bailiffs and followed the hoop down the door. The hoop missed the bailiff, but struck a police inspector. The girl was arrested. A brother of the girl was also arrested for inciting the crowd to violence against the police. Another daughter of the tenant, who denounced the treatment her family were receiving, was struck by a policeman and felled to the ground. This maddened the crowd, and they advanced for the purpose of attacking the officers. Michael Davitt, who was present at the evictions, pleaded with the people not to use violence, and barely managed to avert a collision.

After the Lyddy family had been evicted the police made an attack upon the house of a man named McGrath, which was strongly fortified. Crowbars were used and a hole was made through the wall. McNamara's wife and children were in the house and cried piteously for aid. Mr. Davitt shouted words of comfort to them. Mr. McNamara was arrested for pelting the bailiffs. The bailiffs smashed the furniture of the house, out of pure malice.

The forces after leaving this house proceeded to that occupied by a tenant named Hussy for the purpose of ejecting him. They were received with a shower of boiling water, stones and bottles, and a swarm of bees was let loose upon them. The assault was defended from within by bailiffs, when the troops threatened to fire. The police also mounted the wall and entered the house, but were repulsed bleeding. The eviction was only effected after a struggle of two hours and a half. The male defenders of the house were arrested.

A meeting of 4,000 persons was afterward held, at which Michael Davitt presided. His advice he gave them to resist eviction by every means, and defied the government to arrest him.

AN ELECTRICAL STORM

Visits Missouri, Striking Several Houses and Causing Fatalities.

KANSAS CITY, Mo., June 4.—A terrific electrical storm passed over this city, lightning striking several houses. It is reported that a tornado swept over Liberty, Mo., but the wires are in such condition that nothing definite can be learned at present.

Lewis Huckel, a farmer, living one mile south of here, was struck by lightning and instantly killed. His house and its contents were consumed by fire.

David Custer sought shelter for himself and horse from the storm under a tree about eight miles east of the city. Lightning struck the tree, instantly killing both horse and rider.

The Powers Decline to Interfere.

ATHENS, June 4.—The powers have declined the invitation of Greece to interpose with Turkey in behalf of the inhabitants of Crete to secure for them the reforms they demand, and the probabilities of a revolt in that island are daily increasing. The excitement prevailing there runs very high, and bands of fighting men are being organized and are alarmingly numerous, needing only good leadership and slight organization to develop them into concerted outbreak against the authorities.

The Work of Lynchers.

LOUISVILLE, June 4.—Later reports from Eckert, Ind., where the Davis boys were lynched for abducting and brutally assaulting Miss Flannegan, say that William Kellem, father-in-law of one of the Davis boys, was lynched. It is also reported that the mob went to the home of Mrs. Emlow, the mother of the Davis boys, and dragged away Andrew Emlow, a younger son of the old woman. His body has not been found and the lynchers will not tell what was done with him.

Those Charges of Bribery.

NEW YORK, June 4.—The trial of Jacob Sharp fairly leaped into intense activity yesterday over the question of attempts to corrupt the jury. District Attorney Martine presented to the court the charge that the jury had been tampered with, which found their way into print the day before. The result was that certain jurors excused under peremptory challenge are to be examined on Monday morning before Justice Barrett and the whole matter investigated.

They Buried the Body in the Garden.

CARLISLE, Pa., June 4.—The police have been digging all day in the garden of David Rhoads, on the line of this place, in search of the body of and illegitimate child of his, by Mary Askew, his sister-in-law. Late yesterday afternoon they found it in a cigar box, buried at a depth of three feet. The neighbors have long suspected foul play. Rhoads and the girl have been arrested. Mrs. Rhoads, the divorced wife, will be an important witness in the case.

Jimmy Hope Off for Auburn.

NEW YORK, June 4.—Jimmy Hope, the famous bank burglar, had a visit from his wife and one of her sons at police headquarters yesterday. At night he was taken to Auburn prison by Detective Sergeants Hickey and Frinck and Keeper Parsons. They took the 9:15 train. Hope did not weaken under the inspector's close questioning, and it is believed that Mr. Byrnes got certain information out of him which he expected to obtain.

A Peaceful Prospect.

BERLIN, June 4.—The Crown Gazette says in view of recent events in France that the future is bright and promising, and full confidence is felt in the maintenance of peace in Europe for the first time since last summer. This aspect of the situation is materially assisted by the existing relations between Germany and Russia, which are those of the most friendly character, and the meeting of the emperors of Germany, Russia and Austria is now probable.

Probability of a Long Strike.

PITTSBURG, June 4.—The failure of the conference between operators and strikers to agree upon a settlement of the coke lockout is regarded as fatal to all hopes of ending the strike. There are 13,000 men out and they are likely to remain idle all summer. Great distress is unavoidable.

HIS WIFE WAS THERE.

An Incident Which Was Not Explained in the Divorce Court.

PUTNAM, Conn., June 4.—A young woman arrived here from Worcester, Mass., a few days ago and registered at the Bugbee house. She had no particular baggage, in a manner led Mr. Linsley, the proprietor, to ask how she happened to be traveling under such circumstances. She was unable to give any explanation, and Mr. Linsley told her she must leave the hotel. While stopping at the Bugbee house the young woman wrote to a Worcester hackman named Harris to come to Putnam to bring her home with some money. Harris' wife happened to get the letter first, and, without a word to her husband, took the train for Putnam. Harris, unsuspicious of his wife's move, followed on the next train.

When he stepped out of the car the young woman who had written to him embraced him warmly. As Harris was still locked in her arms he glanced over the woman's shoulder and saw his wife moving rapidly down the platform with her fist clinched and smashing right and left in the air. She seized Harris by the hair and emphasized what she had to say with the handle of the sunshade. Harris and his wife returned to Worcester in the train and the young woman has disappeared.

ANOTHER COLLISION.

Which Will Doubtless Result in the Death of an Engineer.

KINGSTON, N. Y., June 4.—Freight train No. 119 crashed into the caboose of a construction train at Esopus, eight miles south of this city, on West Shore railroad, yesterday afternoon. The locomotive of the construction train was having its water tank replenished, when the freight train came rounding a bend just in front of it at a high rate of speed. Engineer Erines and his fireman, of the freight train, saw that a collision was inevitable, and after reversing the engine leaped for their lives. Engineer Erines escaped, but the engineer was fatally injured. West Shore officials say the crew of the construction train was at fault, they having neglected to put out the red flag, a danger signal. The engine and tender of the freight were badly wrecked. The road was clear of debris last evening.

"The Wellyang Condemn Coercion."

LONDON, June 4.—A circular has been sent to 1,000 representative members of the Liberal party, calling for the rejection of the government's Irish coercion bill. Sixty-nine per cent. of those who received the circular favored the measure. Of the minority, a large number declared that they would not vote, but refuse to sign petitions against it on the ground that they do not approve, as members of the church, of meddling with politics.

The New Baltic Canal.

BERLIN, June 4.—The cost of the new Baltic canal, begun at Kiel, is estimated at 860,000,000 marks (a mark is worth 24 cents). It will be occupied in completing it. Its value, as a means of putting German naval vessels into the Baltic in event of war, will be inestimable, and its value in time of peace enormous, generally inculculable, since it shortens the voyages of English vessels alone by 338 miles in reaching Baltic ports.

Hogan's Murder Unavenged.

JERSEY CITY, June 4.—The special detective who shot and killed the boy Tommy Hogan in Jersey City during the coal strike troubles will escape punishment. Samuel Neff, Mortimer Moriarty and Patrick Sheehy each proved that he was not the murderer. In fact, the prosecutor only asked for the conviction of Sheehy. The jury was out half an hour when they returned with a verdict of acquittal.

Found Their Parents Dead.

DUBUQUE, Ia., June 4.—Christian Ostaff, aged 63, and his wife, aged 28, both having children by former marriages, were found on their farm in Concord township Thursday morning, became Ostaff refused to buy his wife a pair of shoes. Ostaff crushed his wife's skull with a hatchet, and then shot himself, both being found dead when their children returned from the field.

The Hungarian Floods.

VIENNA, June 4.—The floods prevailing in the south of Hungary show no signs of abatement. Szegedin is crowded with fugitives from the inundated districts, and more flood are coming in hourly. Thus far all the attempts made to repair the broken dykes have been fruitless. Upwards of 100,000 acres of valuable cultivated land have been now inundated and the crops totally destroyed.

Frederick William Improving.

BERLIN, June 4.—The health of the Crown Prince Frederick William is rapidly improving. The foreign growth which has affected his throat is much smaller than it was prior to the operation performed by Dr. Mackenzie, and does not in any way interfere with his breathing. His personal physicians assert that his entire recovery is merely a question of a short time.

A "Holy League."

MILAN, June 4.—Three surveyors were murdered at Valguarnera, Sicily, by agents of an Anarchist league called "the Holy Land League," most of whose members are sulphur miners.

WIGWAM

Oxfords at Doane and Van Arsdale's new shoe store. New and Elegant Assortment of Summer Goods. 22 West Front street.

TESTIMONIAL TO GLADSTONE.

An American Present to the Greatest English Statesman.

In Broadway, N. Y., in Tiffany's window, is a silver bust of Gladstone, the greatest of living English statesmen. This is a tribute to the great Liberal leader from his American admirers. It was suggested last summer, and at once a fund was started and an order given for the work. The fund amounts to over $3,000, and represents nearly 11,000 contributors, the majority of the contributions being in small sums.

Mr. J. H. Whitehouse prepared a design, which, with some modifications, was adopted by the committee in charge. Now, after eight months of careful work, the testimonial is completed.

It is of sterling silver, and is 37 inches high. A rectangular base stands on six feet, and measures 24 inches in length, 22 in depth and 9½ in height. On the corners of this is a cube supporting the pedestal and bust of the "Grand Old Man." At the right of the cube stands a graceful female figure in star spangled robe. In her left arm is the harp of Erin. Her right has been thrown about the base of the bust, scattering shamrock over the pedestal. She represents Irish America paying homage to the man who has fought for the freedom of her kindred over the sea.

The bust of Gladstone is pronounced an excellent likeness. Beneath the bust a little scroll bears the figures "1859-7," the years when the fund was collected and the testimonial presented. The piece is said to illustrate the fine effects of silver etching, an art but little practiced over the sea. The background of all the reliefs is a Celtic scroll. This kind of ornamentation belongs to medieval and prehistoric Ireland. The inscription on the face of the pedestal is: "To William Ewart Gladstone; Testimonial Presented by His American Admirers." In the center are fasces representing Gladstone's ministerial career, around which are the words "Home Rule," in solid block lettering. At the background of these words are the scales of justice in bas relief. The words "Home rule" rest upon the scales on one side and the word "Union" upon the other. About these emblems is an encircling wreath of laurel, typical of ultimate success.

The female figure at the right is nineteen inches high. It is partly balanced on the left by a heavy wreath of laurel in full relief. At the top of the wreath, 12 inches, are the figures "1887," the year of presentation. The unique Celtic scroll, etched with minute care,

THE GLADSTONE TESTIMONIAL.

forms the background of all sides. Over the face of the great statesman's head a branch of palm has been carelessly laid. Upon this rests a shield, which in the completed work bears the coat of arms of the Gladstone family, with the expression Celtic scroll about the margin.

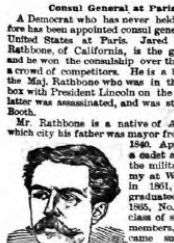
A band of alternate stars and shamrocks in bold relief encircles the lower stratum of the graduated plinth.

In the center is the lamp of wisdom in full relief, symbolizing Mr. Gladstone's ripe intellectual attainments. Diagonally to this, and also in bold relief, is the ax of Havardeen, wielded with such undaunted vigor in lopping off the rumbrous and pernicious growth of English legislation and so sturdily laid to the stubborn roots of political evil and infustice. Above this appears the arms of Christ Church, Oxford, where Gladstone attained the enviable distinction of a "double first" by his proficiency in classics and mathematics. Within a laurel wreath to the right hang again the scales of justice, a tribute to his love of equitable laws and equal rights. In the wreath to the left is engraven a turning heart of silver, symbolizing his sympathy with the oppressed of human kind. On the left side of the base is a bust of Homer in bas relief, representative of his love and devotion to the classics. At bust of Demosthenes on the left side of the base typifies his wonderful eloquence and parliamentary power. On the rear of the base the shamrock, the thistle and the rose are artistically and fraternally grouped, suggestive of the harmony that shall prevail when the home rule struggle has been won. About these emblems clusters of stars cast their rays, emblazoning in solid silver the shining example of equitable government that the great republic of America affords the world.

Consul General at Paris.

A Democrat who has never held office before has been appointed consul general of the United States at Paris. Jared Lawrence Rathbone, of California, is the gentleman, and he won the consulship over the heads of a crowd of competitors. He is a brother of the Maj. Rathbone who was in the theatre box with President Lincoln on the night the latter was assassinated, and was stabbed by Booth.

Mr. Rathbone is a native of Albany, of which city his father was mayor from 1838 to 1840. Appointed as a cadet at large at the military academy at West Point in 1861, he was graduated in June, 1865. No. 44 in a class of sixty-eight members, and became successively second and first lieutenant in the Twelfth infantry. He served in garrison at Richmond, Williamsburg, Norfolk and Fort Monroe, in Virginia, and was adjutant of the First battalion of his regiment. He served as aide de camp on Gen. Schofield's staff nearly four years, first in the department of the Potomac and the first military district, then at the war department, and finally in the division of the Pacific. In 1872 he resigned from the army and took up his residence in San Francisco, where he married Miss Alberton, of Menlo park, and went into various business enterprises. He is president of the Bloodhorse association, of California, one of the directors of the Union club, of San Francisco, and an honorary member of the Union club, of New York.



MAJ. J. L. RATHBONE.

The Reporter's Acquaintances.

Every new acquaintance is worth $1 to a newspaper reporter. He may not be able to find any one who would give him $1 for some of the news he meets, but some day something happens, and then the reporter realizes that it is worth a good deal more than $1 to him to have once made acquaintance with the man who knows all about it.—Chicago Times.

FOR MIND AND MUSCLE.

NEW YORK CITY'S PROPOSED BIG TURNVEREIN.

It Will Not be Ready for Use Until Next Year, and the Corner Stone Will Not be Laid Till August, but the Building is Going Ahead Right Along.

The turnverein has become a well established institution among German-Americans, and every year it becomes more and more popular. There is scarcely a city in the United States to-day but has a German population of any consequence that has not its turnverein. Nor is the turnverein confined to the cities. Many towns and villages, and some localities that are almost entirely rural, support them.

Some who will read this article may not know much about the nature of the turnverein. It is a society for the cultivation of the mind, the muscle and the social nature.

"A turnverein building is a school, a gymnasium, a restaurant, a ball room, a bowling alley, a billiard room, a theatre—in fact, it provides for the whole social life of its members. Old Father Jahn, who flourished in

JUDEN STERNAS.

the first half of this century, founded it. He has ceased to become aggressive, because all that it was possible for him to do was what we enjoy in American freedom. The American turner retains the word section in describing the different functions of the society, but he objects to being spoken of as an Anarchist."

That's the way The New York Sun puts it, with the qualification that the views stated are those of his honor Judge Noerbes, of, the city court of New York, president of the Central Turnverein of New York is not an old institution, in fact it has been formed but a year or two. But it has now 1,500 members, and it is going to build the largest and finest and best appointed turnverein building in America, if not in the world.

The new building will be on Sixty-seventh street, east of Third avenue, on the north side of the street, and work on the foundations has been begun. Block plans of the front, as it will be, may be obtained from the accompanying cut, but it is not possible to print in a newspaper column a picture which shall show the intricate details in the drawing by the architect. It is of the renaissance style of architecture, adapted to modern needs. While the front will be highly ornamented, the ornamentation will not interfere with the massive effect of the four columns. It will be a fireproof building, with iron staircases. The length will be 175 feet, the depth 100 feet, and the main building will be four stories.

In the sub-basement will be the kitchen, laundry and scullery in the rear, and in front four double bowling alleys; on the east side, refrigerators, storerooms, ventilating machinery and boilers.

Next comes the souterain basement, partly under ground. On this floor, in the center of the building, is the new gymnasium hall, 115 feet long and 50 feet wide, and extending upward through two stories. In the rear of the gymnasium will be a swimming bath.

The large swimming bath is a new feature in turnverein halls. It will be supplemented with needle and steam baths, and will be used mainly by children who will go to the turnverein schools. The children will enjoy also the turnverein building will number about 3,000, but the school rooms will not accommodate so many. The school rooms will be on the east side of the gymnasium hall. On the same floor with the gymnasium will be closets for children who use the gymnasium, and also private rooms for teachers.

On the west side of the gymnasium will be restaurants occupying four rooms, including a barroom, also a billiard hall, and an entrance to the bowling alleys in the sub-basement.

PROPOSED CENTRAL TURNVEREIN BUILDING.

Through the main doorway in front of the building the first floor is reached by two broad stairways. On the west side will be a large assembly room with a capacity of 400, and in front a library and reading rooms, committee rooms, directors' rooms, and the archives. On the east side will be school rooms.

On the second floor on the west will be a large dining hall and lodge room and class rooms for the school. Above this is to be a mezzanine floor, which is to be used for additional class rooms.

On the third floor will be a ball room extending through the entire front of the building. It will be 175 feet long and 70 feet wide. Adjoining the ball room will be refreshment rooms. A gallery will extend along the street side and west end of the ball room.

The school will be educational, and elementary instruction will be given in technical studies such as, for boys, modeling, drawing applied to the arts, and, for girls, needle work and general instruction in home duties.

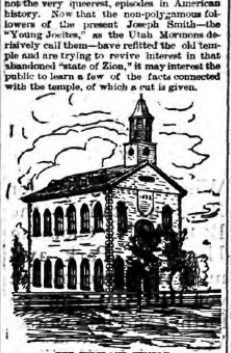
The dramatic section of the verein has given entertainments with great success in Terrace Garden theatre, and it will have room to expand in the new building. There is a singing section, a fencing section and a chess section, and the verein already has a newspaper to chronicle its doings, conducted by Albert Grahn, 1,073 Third avenue. It is supplied without cost to all members.

The building will cost over $500,000. The corner stone will not be laid before September. It will be ready before then, but the celebration is to be deferred until the annual fall jubilee. Meanwhile the building will proceed, and the hole will be left for the corner stone to be slipped in at the proper time. The building will probably not be occupied before next year.

THE MORMON TEMPLE

At Kirtland, O., Regarded with Reverence by Thousands of Persons.

The old Mormon temple at Kirtland, O., stands as a reminder of one of the queerest, if not the very queerest, episodes in American history. Now that the non-polygamous followers of the present Joseph Smith—the "Young Joeites," as the Utah Mormons derisively call them—have refitted the old temple and are trying to revive interest in that abandoned "state of Zion," it may interest the public to learn a few of the facts connected with the temple, of which a cut is given.



THE KIRTLAND TEMPLE.

It is not now in the power of man to invent a new religion. All he can do is to select parts of the old and piece them together. So when Joseph Smith produced his "Golden Bible" in Wayne county, N. Y., in 1827, he simply modeled it after one of the modern church with renewal of the gifts exercised by the ancient apostles, such as prophesying, healing, speaking in unknown tongues, etc. Almost every new "Bible" does still like Mormon Joe's death has witnessed the addition of some new doctrine, "spiritual wifery" in 1840-43, polygamy in 1843 (kept secret till 1852); blood atonement in 1856, and so on. Now the sons of the original prophet, namely, Joseph, William and David Hyrum Smith, repudiate all that old John after 1844, the year their father was killed, deny that he ever taught or practiced polygamy and propose to restore the church to what it was in the beginning, namely, an improved Christian church, with a few extra trifles of an apostolic nature. Unfortunately for this scheme, no two men could be found who agree what "old John" and "young Joe." The former was painfully prolific of revelations. "Young Joe," on the other hand, has "never received" a word from Utah Mormons call him the "dumb prophet."

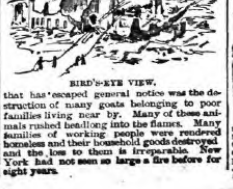
Now, while the prophet was organizing his church in New York, Sidney Rigdon, an apostate Baptist preacher, had collected, near Kirtland, Lake county, Ohio, about five miles from the home of the late President Garfield. Early in 1831 the town was begun; in 1832 it was quite a place. That year also Brigham Young was converted and located there; in 1833 this temple was begun, and in 1836 it was completed and consecrated with frantic performances of various kinds. In the meantime the Mormons had made a settlement in Jackson county, Missouri, where they had a small war with the Gentiles, and whence they were driven into the northern part of that state. At Kirtland they set up a community mill, store and bank; the goods from the store were sold on credit or given in payment for work on the temple, and the notes of the bank were put out so industriously that in the panic of 1837 they sank to six cents on the dollar. Soon after the principal Mormons fled to Missouri, the bank notes became worthless and only a few of the original Rigdonites remained about Kirtland.

Kirtland sank into a quiet country village, Mentor became noted as a seat of learning and the abode of quiet and cultured people. The temple stood unoccupied for years, then it was in succession a wheat warehouse, and for a short time as a pork packing house. But it was a remarkably well built structure and took no harm from these profane uses. Finally, when the Mormon episode was almost forgotten, an agent of the "Young Joeites" quietly bought the building and adjacent lots, and about 1875 the concern was thoroughly cleansed and rather handsomely finished inside; a few of the old visionaries came back, a few new converts, and now there are Mormons enough about Kirtland to maintain a good congregation and "guard the sacred fires," as it were. The style of the building does not follow any order of architecture fully, but nevertheless the temple presents a bold and attractive appearance; the stranger, uninformed of its history, would pause to admire it as an interesting specimen of the quaint and old fashioned country academy. The brick and stone are of the very best quality, and the walls are, for reason, natural consumptions aside, why it should not stand a thousand years.

New York's Latest Fire.

PLAN OF BURNED DISTRICT.

New York's latest big fire was one of the most extraordinary on record. The destruction of nearly 1,300 horses stabled in the buildings of the Belt Line Surface Railroad company, whose buildings were the scene of the fire, was the greatest loss of equine life in history. The accompanying diagram shows the location and extent of the fire, which has been reported at length. A feature



BIRD'S-EYE VIEW.

that has escaped general notice was the destruction of many goods belonging to poor families living near by. Many of these animals rushed headlong into the flames. Many families of working people were rendered homeless and their household goods destroyed and the loss to them is irreparable. New York had not seen so large a fire before for eight years.

May Days.

The baseball now is whizzing and a-swinging in the bat;
The maiden blossoms forth in a forty dollar hat;
The dude doth walk abroad with his legs done up in bagging,
And the dog doth bask in sunlight with his little tail a-wagging;
Spring lamb is on the market, and some grass is on the sod;
Green peas are somewhat cheaper—about $1.10 a pod;
The silence of the city is broken by the sweet,
Melodious sound of "Strr-o-war-bys" from huckster on the street;
And from a manifold of the proud a rich, resounding thwack
Tells tales of carpet beating in the little yard a-back.

Oh, yes!
'Tis May!
—Boston Traveler.

Bob Had Evidently Had a Few Nips of It.

A few days ago Col. Bob Ingersoll sent an old friend a very old jug of rare whiskey. With it were the following lines in the colonel's well known chirography:

"I send you some of the most wonderful whiskey that ever throwed the skeleton from a feast or painted landscapes in the brain of man. It is the mingled souls of wheat and corn. In it you will find the sunshine and the rain that chased each other over the hilly fields, the breath of June, the carol of the lark, the dews of night, the wealth of summer and autumn's rich content, all golden with imprisoned light. Drink it and you will hear the voices of men and maidens singing the "Harvest Home," mingled with the laughter of children. Drink it and you will feel within your blood the star-led dances, the dreamy, tawny dusks of many perfect days. For forty years this liquid joy has been within the happy staves of oak, longing to touch the lips of man."

A Deluded Man.

Woman's Suffrage Man—You have rooms to rent, I believe?

Omaha Landlady—Yes, sir; walk in, sir. I sincerely hope I can suit you. I usually require references, but——

"I can give plenty of them, madam. My name is DeKnight. I have been laboring for ten years in the interest of downtrodden womanhood and am at last seeing the fruits of my labors in such states as Kansas——"

"Noble man! The very gates of heaven will open wide at your approach and all the angelic bands will—will"——

"Yes, madam, I know the gratitude you feel. I think this room will exactly suit my wife."

"Wife?"

"Yes, madam."

"I let rooms to gentlemen only, sir. Catch me having any more women in my house; I've had enough of their petulence and impertinence. Good day, sir."—Omaha World.

A Novel Way of Popping the Question.

A young Aberdonian, bashful, but desperately in love, finding that no notice was taken of his visits to the house of his sweetheart, summoned up sufficient courage to address the fair one thus:

"Jean, I was here on Monday nicht."

"Ay, ye were that," replied she.

"An' I was here on Tuesday nicht."

"Yes ye were."

"And I was here on Wednesday," continued the ardent youth.

"Ay, an' ye were here on Thursday night and a'."

"An' I was here last nicht."

"Weel," she says, "what if ye were?"

"Ah! I am here the nicht again."

"And what mhoot it, even if ye came every nicht?"

"What mhoot it, did ye say? Div ye no begin to smell a rat?"—New York Sun.

Inquisitive, but Not Excessively So.

Blumenthal—Mishter Rosenburg, you talks so much about how you keeps holy dot Chewish Sabbath, dot I vants to ask you a kervesh-tun.

Rosenburg—Vell, vot ish den dot kervesh-tun?

"Suppose dot Sabbath day on you finds dot street in a pig pag full mit terventy tollar gold pieces, vould you deshegrate dot holy day by takin' avay dot moneish?"

"Does yer really vant ter know vat I vould do?"

"I does so."

"Vell, den, next Sabbath, choost you drop you of does pags of gold, and you vill find out."

"I dells you vat I vould like to know, but I vasn't choost vaten oop mit curiosh'ty."—Texas Siftings.

The Law and the Porter.

"See here, porter, I gave you a dollar a few minutes ago, an' you have given me only ten cents change. You can't come that on me. I'm too old a kind of a traveler to be taken in that way."

"Sorry, sah, but the new interstate railroad law, yo' know, sah. We dassen't violate it, yo' know, sah, under penalty."

"How are you violating the interstate law?"

"Don't yo' know, sah? The new law says fo' a sho't haul de railroad am only entitled to sho't haul pay, but fo' a long haul it must charge de long haul price. You rode with me all de way from New York. Dat was a long haul, an' dyar agree I'm gwine ter bring de law down on my po' head by makin' only a sho't haul out'n dat dollah. Sorry, sah, but my o'ders is to suppo't de interstate railroad law to de very lettah."—Chicago Herald.

Young Love's Dream.

Lovely Girl (at a restaurant)—My dear, order what you please for both; I don't feel hungry a bit.

Affianced Young Man—I can't eat a mouthful, my darling.

"Nor I. I haven't eaten anything hardly for weeks. By the way, what was the rest of that house we were looking at?"

"One hundred dollars a month."

"That's just your salary, that won't do."

"No; the other one alongside of it is eighty dollars."

"Let's take that."

"But twenty dollars won't buy coal and pay a girl's wages."

"A girl! Dear me, I forgot all about that. We must get a cheaper house because there must be enough over to buy something for the girl to eat, you know."—Omaha World.

A Shaky Institution.

"That house is mighty shaky," remarked a man on Washington avenue as he pointed to the place of business of a well known wholesale firm. "Did hate to have anything in it."

"What's the matter? Been speculating?"

"Oh, no."

"Trying to do business on too little capital?"

"No, but the building is so old that it trembles all over when a man talks above a whisper."—Minneapolis Journal.

Just Like the Men.

Pretty Kansas Wife—Yes, I voted at the late election, but I shall never do so again. The men crowded around me when I went to vote, and nearly smothered me.

Kansas Old Maid—Law sakes! They all left the polls when I went to vote.—Newman Independent.

A contemporary says of a sick man that "his death is only a question of time." This is a safe assertion.—Pittsburg Dispatch.

Died.

RITTENHOUSE—June 5th, of scarlet fever, Willie H., son of George M. and Francis Rittenhouse, aged two years and two months. Funeral services at six o'clock p. m. Tuesday, at 64 East Sixth street.

Short Items.

—City Council meets to-night.

—A local prototype of the Police Gazette seems anxious to excel in its sensational matters.

—Rutger's Glee Club appear in the M. E. Church next Friday evening. See advertisement.

—Next Sunday being the second Sunday in June, will be observed as Children's Day by all the churches.

—The Ladies' Aid Society of the Dunellen M. E. Church will give a strawberry festival o-morrow evening.

—The members of the Amateur Council will hold their regular meeting for June at eight o'clock this evening.

—The monthly meeting of the W. C. T. U. will be held in Reform Hall, to-morrow, Tuesday, afternoon at three o'clock.

—The New Jersey Baptist Association will hold its annual meeting in the North Baptist Church, Newark, on Wednesday next.

—Theodore Van Nest and John Crawford were arrested on Saturday for being drunk. The former was fined $5 and the latter $10.

—The Westfield Standard is kind enough to say: "The Plainfield News was three years old Tuesday. The NEWS is one of the brightest of the New Jersey dailies."

—A number of children, scholars in the grammer department of the Public school will ramble on the mountains in the vicinity of Watchung's Falls on Saturday next.

—The annual meeting of the New Jersey division of the League of American Wheelmen will be held in Orange on July 4. A fine programme of races will be arranged.

—The members of St. Mary's T. A. B. Society held a special meeting at five o'clock yesterday afternoon, when special business pertaining to the interests of the society was transacted.

—In order to accommodate the large congregation that attend services in St. Mary's church on Sunday hereafter there will be three masses at half-past six, half-past eight and half-past ten o'clock respectively.

—Many of our people who love to drive daily are not aware that the roads in our new cemetery are in good order. The view of the hill is magnificent and our "Greenwood" is attracting more and more visitors daily. Plainfield abounds in beautiful drives and no pleasanter drive can be taken than to the cemetery and through Belvidere avenue in Netherwood Heights.

—Says the New Brunswick Home News: "Some Plainfield people are crazy to have a horse railroad built. They'll wish they hadn't cried so loudly for it if their handsome macadamized roads are as much defaced and damaged as the streets of New Brunswick through which our one-horse railroad passes. The amount of damage done to vehicles of all kinds, not to speak of the provocation to profanity, is incalculable."

—It is a pity unfortunate women cannot be protected by law against scribes whose shameless liasons are matters of common notoriety, and who glory in slandering not only their foolish victims but young women generally, no matter how respectable they may be. We have heard of many acts of meanness of the embecile rake, but the latest evidence of it convinces us that the half has never been told.

—Somerset County has upwards of 2,000 bridges, including culverts. The most important is that at the one at Bound Brook, which connects Bridgewater and Franklin townships. This bridge is 471 feet long, has 24 feet road in the clear, which is about six feet wider than necessary. It has six feet wide walks on each side. It will sustain a weight of 74 pounds to the square foot, with a safety of four pounds extra. There are six iron bridges in the county.

—An important suit has been brought in the New Jersey Court of Chancery by Benjamin S. Peale, a Camden lawyer, on behalf of George W. Pressey, of Rasmuenton, a Burlington county, against Sylvester H. Smith, of Smithville, Burlington county. Mr. Pressey, who claims to be the inventor and patentee of the American Star bicycle, and for a royalty on every machine now in use, Senator Smith is the manufacturer of the Star bicycle, and his works at Smithville are employed almost to several hundred hands. The result is of interest to every owner of a Star bicycle.

—A boy named Cronin and his wife engaged with Mr. W. E. Brock, on Mountain avenue, the man as coachman and gardener and the woman as servant. Soon after Mr. Brock's cow was taken sick from neglect and was given to the veterinary surgeon to keep if he could save her. Mr. Brock satisfied himself that the man was addicted to drink, and Saturday, July 2, after receiving a team to drive and finding the man unfit to do his work he forthwith discharged him and his wife and ordered them off the place. Then the wife who was in a delicate condition, obtained a warrant from Justice Austin, charging assault and battery upon her, but she also been ejected so forcibly that she had since been confined to the bed. The case was heard Saturday and was quickly dismissed. The man is a low sized thick-set German and has a sharp beard. His name is given in the complaint as Paul Taggan, but to Mr. Brock it was given as Paul Fabert. Since getting rid of the man and his wife, Mr. Brock has found a case of empty lagerbeer bottles, besides whisky and brandy bottles in the vacated rooms over his stable.

THE RE ORM CLUB.

A REMARKABLE MEETING.

"Hank" Southard, Rev. Mr. Honeyman, Capt. Ostrom and Pres. French's Speeches.

Last evening, as Reform Hall, after Freeholder Vanderbeek and the excellent choir had concluded the opening hymn, and Rev. Mr. Honeyman had made a prayer, President French announced a new subject, which was that the speaking committee proposed to have speeches from the reformed men themselves, as far as practicable, and introduced as the first speaker

"HANK" SOUTHARD.

Mr. Southard served in the United States Navy during the war, and took part in the capture of New Orleans. It is on record that Admiral Farragut wanted to get a dispatch to a person on the fleet beyond the rebel forts and batteries, and called for a volunteer for the very hazardous undertaking. The Mississippi river was lined with forts and batteries, and the enemy had the river carefully guarded. It seemed certain death to undertake the mission. "Hank" volunteered and boldly carried the dispatch to Farragut's destination. Admiral Farragut was so pleased with the sailor's bravery, that after the battle which resulted in the capture of New Orleans, the Admiral sent for "Hank" and gave him $100 and a furlough. Now such a brave man was the victim of the drink habit and with the money, it is said, went on a prolonged debauch.

When the war ended the habit grew upon him, and he went down lower and lower, until he eventually in a fight stabbed a man and for it served a term in the state prison. In Plainfield he was known as a sot. Four years ago he somehow attended the Mahee and English temperance revival just to see the performance, as he called it. He had a quart bottle of whisky in his pocket. At the meeting some former associates said "Hank" going to sign the pledge? "Yes I will, I will," he replied, and they all went up. A member of the W. C. T. U. put a red ribbon on his breast, and "Hank" in grateful recognition of the act said to her, "I will never disgrace it." Since then a complete change has come over him. With sobriety came self respect. Instead of the saloon receiving his earnings, he married, and money usually wasted in the saloon he has used for the maintenance of his family and home, and has by industry and sobriety prospered, won the respect of all who know him as a thoroughly upright man, whom they could willingly trust with any task he would undertake. He testified last night that he had been loyal to his pledge since he took it four years ago. He had resisted all temptations and stood the test. His simple story brought forth vigorous applause.

REV. MR. HONEYMAN

was the next speaker. He had been called upon at the meeting, and spoke impromptu. He graphically, yet briefly, showed how intemperance had destroyed nation after nation. Drunken Babylon succumbed, notwithstanding its mighty walls, to sober Cyrus. The Greeks had conquered the world until they took to wine and were destroyed. He applied the lesson to-day, showing that we must likewise be destroyed unless the saloon was wiped out entirely.

CAPT. OSTROM

told how on one of his voyages a man at the wheel whom he discovered drunken, drew a sheath knife on him when he ordered him from the wheel. He was promptly put in irons, and it was the intention to hand him over to the American Consul at Liverpool, but before the vessel reached that port he was sobered and pleaded so hard for mercy, and to save his mother the anguish it would cause, that the captain forgave him. Since then he gave him on his promising never to drink again. The man kept his promise, and is now master of a vessel. Instead of a criminal, as he would certainly have become by the drink habit, he is a captain and that he was rehabilitated through and through.

In the remarks of

PRESIDENT FRENCH

he pleaded for the co-operation of the ministers, the W. C. T. U., the Y. M. C. A., and all who wished the principals of the club to triumph. Many had been helped and reformed. He said there was more drinking in Plainfield to-day than has ever been before. That the saloons were growing richer than ever, and that never was it more important for all to unite to save the reformed men from the curse, and help others before. He said that there was no remedy but prohibition, and that he was a prohibitionist first, last, and always.

The meeting was concluded with the benediction by Mr. Honeyman.

Base Ball Notes.

On Saturday afternoon last a nine chosen from the employees of the Scott Press Works defeated a borough nine by a score of 6 to 2.

The game of Saturday, which was played between Fourteenth and Seventh streets, was witnessed by a large crowd. The features were the batting of Gilbert, Morgan, Dunsbee, Wood, Thorn, Vossler. The High School nine was composed of Vossler, Dunsbee, Mumford, Kirkner, West, L. Gilbert, Lovell, Ryder, Krone and Sulten. The score by innings was as follows:

	1	2	3	4	5	6	7	8	9	Total.
Commutors,	1	2	4	1	2	2	1	0	3	—16
High School,	0	4	4	0	8	1	2	2	x	—27

BOUND BROOK.

Builder Somers has received the contract for building J. G. Smith's new house on High street.

Charles Libbey has purchased of L. D. Cook & Co., a lot on Somerset street, east of the Methodist church house.

Col. C. W. Thomas and wife entertained a company of friends at their pretty villa in Bloomington Friday evening.

It is stated that Mr. Messmer has bought an interest in Somerset street, adjoining Charles Pettet's handsome property, and contemplates building a house in a short time.

Mr. and Mrs. Corviell returned from Omaha on Friday after a very enjoyable trip. They stopped at Detroit where they enjoyed the hospitalities of Mr. and Mrs. Mark Parish.

Rev. H. B. McCauley and family moved again recently into the parsonage, which has recently been moved to one of the most desirable sites in town, corner of Mountain and and Union avenues.

FOURTEENTH ANNUAL.

Closing Exercises of the Mission Industrial School.

It has been fourteen years since the Warren Mission Industrial School of North Plainfield was organized, and the large array of bright looking little girls seen on the stage in Mission chapel on Saturday afternoon evidenced the success of this excellent institution. Every seat in the room was occupied, and the interesting programme was much appreciated and thoroughly enjoyed. Mrs. Frank Gardner is the efficient Superintendent, and Miss Emma L. Cadmus the Secretary. The exercises opened with singing by the school, followed by the reading of the 150th Psalm. Next came a prayer and response by the school, and then more singing. The secretary's report was full of interest, and the salient points are here given.

"As in former years" read the report, "our system of work has been subject to repairs, and to-day we come before you as an organized body, auxiliary to and dependent upon the Relief Association. Our attitude toward the Relief is not different from that of former years, but our method of communicating business among ourselves has been systematized and improved. We have adopted a code of laws and by-laws which provide, among other things for a monthly teachers' meeting, also for an annual election of officers, with the exception of a Superintendent and Vice Superintendents, who will be appointed as before by the Relief Association. As strange as it may seem this election of officers is a new feature in our system. Heretofore, the several officers have been called into service by a personal invitation from the Superintendent.

"We have held thirty-three sessions since October 1st, closing only for the holidays on Dec. 25 and Jan. 1. Our classes number thirty-four. The attendance has been better this year than ever before; for while we have the same number enrolled as last year, 235, the average attendance has been 150, last year it was but 135. The increase in the roll of honor pupils, or those who are present four consecutive Saturdays, together with the 299 handkerchiefs awarded for being on the roll three times, goes to prove the increase in regular attendance, which we consider better than a larger roll with an irregular attendance. The smallest number present on a single Saturday was 93; the largest number 192.

"A prize had been offered about Jan. 1st, to any one who would bring in five permanent scholars by April 1st. Although an effort was made none were quite successful in securing the required number. Twenty-five scholars have been present at every session, and even this has been almost the case. One faithful scholar has died during the year. Since the grading of the school last year the system of promotion has been carried on with marked success. The quilt pieced this year by the 'overhanding' classes is to be presented to some poor child, who otherwise might be cold this winter. The simple words brought forth vigorous applause.

REV. MR. HONEYMAN

spoke a few words of encouragement to the faithful workers, and then Miss Emma L. Cadmus read the report of the Secretary. The exercises opened with singing by the school, followed by the reading of the 150th Psalm. Next came a prayer and response by the school, and then more singing. The secretary's report was full of interest, and the salient points are here given.

He said that there was no remedy but prohibition, and that he was a prohibitionist first, last, and always.

The meeting was concluded with the benediction by Mr. Honeyman.

Musicale.

About 130 people were gathered at the residence of Misses Annie O. and Minnie Marsh on Saturday afternoon, on Madison avenue below eight street. The occasion was the musicle by the pupils of these ladies' classes and the treat was much enjoyed by the invited guests. Following is the program:

1 Duett—Lillie and Lizzie Livee
2 Solo—Laura Long
3 Solo—Laura Worthington
4 Duett—Annie Sears and Bessie Cromwell
5 Solo—Julie Brickson
6 Solo—Carrollne Randolph
7 Solo—Jean Erickson
8 Duett—Maggie Long and Lulu Pangborn
9 Solo—Irma Sheppard
10 Vocal Solo—Annie Stats
11 Adagio Mozart No. 7—Edith Leonard
12 Solo—Minnie Hayden
13 "Nun weide du Tyrol," Bendel—Gussie Murray
14 "Thalia"—Edith Gilbert
15 "Les deux Alouettes"—Grace W. Cooley
16 Vocal solo—"The Daily Question," music "Temptation"—Allie Dorman
17 Solo—Jessie Hayden
18 Duett—Bendel—Grace W. Cooley and Emma Dyer.

The exercises occupied about an hour and a half, from 3.30 to five o'clock. Then refreshments were served and dancing and other social pleasures were enjoyed until 7.30.

LATEST DISPATCHES.

THE NEWS controls the service of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Tuesday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, partly cloudy in fair weather, preceded by local rains, with slight thermal changes, followed by slightly cooler, fair weather.

U. S. Judge Dead.

PHILADELPHIA, June 6.—Judge William Butler, of the U. S. Circuit Court, died at his home at Westchester, Pa., this morning after a brief illness.

Thistle Wins Again To-day.

LONDON, June 6.—In the yacht race to-day the Thistle won, making the forty-four miles in five hours and twenty-four minutes, the Genesta eleven minutes behind, and the Irex nineteen minutes behind the Genesta.

A Family Massacre.

MAYSVILLE, Ky., June 6.—John B. Field, since his wife and when two of his sons came to their mothers rescue, he shot them and then went on and cut his own throat this morning.

Struck by Lightning.

GALLIPOLIS, O., June 6.—During a storm last night, John Nell, age 27 years, was struck by lightning and killed. He and his father were lying on the floor at home at Flandersburg, when the lightning came down the chimney, where the bolt separated, one side of it and the other severely burning the father.

PERSONAL.

Mayor J. J. Daly of Rahway, was registered at Laing's Hotel yesterday.

Mr. S. D. Affleck has returned to Plainfield for the Summer, and is a guest at Laing's Hotel.

Dr. Beckwith of the Citizens' Bicycle Club, of New York, and ex-President of the L. A. W. was a guest of the Plainfield Bi. club yesterday.

Mr. F. W. Runyon was in Atlantic City Friday and says that matters at this popular seaside resort are assuming their lively and interesting character. Extensive preparations have been made for this season, which promises to be very successful.

Rev. J. B. Van Meter conducted the service at the M. E. Church Sunday morning. The text for his sermon was taken from the 20th verse, 3rd chapter of "St. Paul's Epistle to the Romans; Just and the Justifier," from which he gave an interesting discourse.

Mr. J. G. Cadmus of North avenue, leaves to-morrow for Roslyn, Long Island, where he will remain until the last of June. He will then go to Belvidere, N. J., and remain there about a month, after which he will spend two months at Sewaren. He will return to Plainfield in the Fall.

During the Summer months, Mrs. Van Nest Talmage will act as Treasurer of the Relief Association, owing to the resignation of Mrs. J. M. Myers. The managers of the Association are again obliged to solicit aid, as funds are necessary to carry on the work during the warm weather.

Willie M., youngest son of George M. and A. Francis Rittenhouse, died at the parents' residence, 64 East Sixth street at eight o'clock yesterday morning of scarlet fever. The child's age was two years, nine months and eleven days. The funeral services will be held at the house to-morrow at six o'clock, p. m. The remains will be interred in the Hillside Cemetery on Wednesday.

Mr. W. E. Brock, who owns a handsome property on Mountain avenue, is a man of many original ideas. He invented the Brock patent flexible fence, so popular among farmers throughout the United States, and from which he derives a large income in royalties. Among other of his unique inventions is a tree box for the protection of trees. Many of these he has in the about his grounds. The peculiar construction of the box gives it great strength and flexibility, while it is also ornamental and very easily put on.

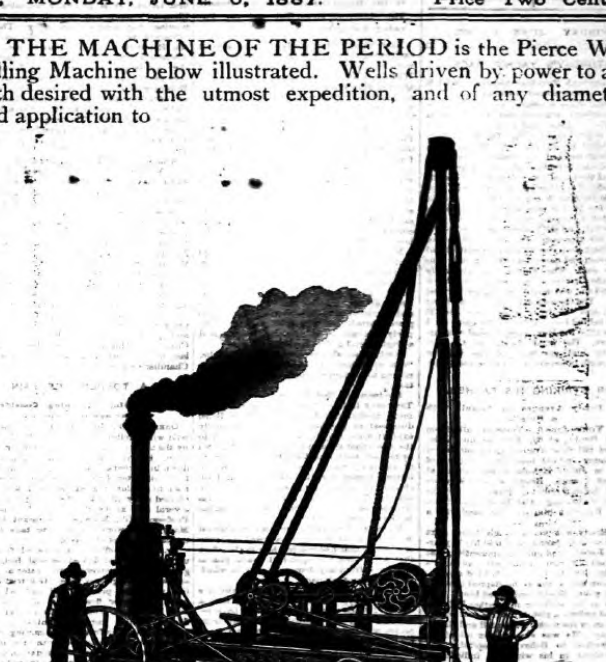
Jessie Thorn of New Market is ninety years of age. He formerly resided in Plainfield. He frequently walks into town and prides himself on it. One day, a few years ago, he met in front of the post office old Mr. Morse, the oldest Mason in New Jersey. Mr. Morse is eighty-six years old, and Mr. Thorn offered to race with him to Scotch Plains, giving Mr. Morse a half-mile start on the three miles. Mr. Morse declined, as he was satisfied the old man could outwalk him. Mr. Thorn is still a jolly old man with no thought of dying.

In the Union County Courts.

Saturday was sentence day in the Union County courts at Elizabeth, and Judge McCormick meted out salutary punishment to a number of criminals. John Kellman, who tried to choke his wife, Lizzie Stroup, and assaulted his other niece, Mrs. Emma Dixon, was sentenced to two years in the State Prison. Thomas Fowler, who was convicted of two charges of burglary, was sentenced to ten years in State Prison. William Metsner, assault with intent to kill, two years in State Prison. William Nally, wife-beating, one year in State Prison.

—A cordial welcome awaits every man as the young men's meeting to be conducted by Mr. F. J. Miller at the Y. M. C. A. rooms this evening at eight o'clock. Young converts are especially urged to be present at the service.

THE MACHINE OF THE PERIOD is the Pierce Well Drilling Machine below illustrated. Wells driven by power to any depth desired with the utmost expedition, and of any diameter. Send application to



Charles P. Sebring, Contractor,
PLAINFIELD, NEW JERSEY.

PLAINFIELD'S INDUSTRY.

The New Factory now Sure for Plainfield—Capital $400,000.

On Saturday, May 21, we referred to prospectors for a factory site here. Last Friday, June 3, we returned to a new company securing 3,100 feet of land along South avenue, beginning 175 feet south of Grant avenue. The first prospectors were the Pond Machine Co. The new company is a reorganization of the same. They filed at the Union County clerk's office at Elizabeth last Friday articles of incorporation. The title of the company is "The Pond Machine Tool Company of New Jersey." Capital stock, $400,000, and the following are the corporators: Henry Gris vold of Orange, N. J.; John R. Maxwell of Brooklyn, N. Y.; James C. Campbell of New York.

Henry F. Manning of Brooklyn; Chas. E. Maxwell of Brooklyn; Charles A. Moore of Brooklyn; Eugene L. Maxwell of Brooklyn.

John R. Maxwell is a brother of the president of the Central Railroad Company, and Austin Corbin, the millionaire railroad magnet, is reported as largely interested in the new enterprise, although his name does not appear among the incorporators. The company are reported with abundant capital, and are already doing an extensive business. Electrician Wright, of this city, speaks in the highest terms of their machines and tools, of which Westinghouse, Kerr & Co., whose general eastern engineer Mr. Wright is, purchased $40,000 worth last month. There is already a great demand for building lots in the vicinity of the factory. Building operations are to be begun at once, and when completed the factory will employ upwards of six hundred persons.

The parties to the sale of the lands were to meet this afternoon in New York and execute the necessary papers for the transfer of the property. It embraces a tract 930 feet wide by 3,100 long or nearly 14 acres. Mr. Maxwell, who is one of the principal stockholders, is reported a relative of Austin Corbin, the President of the Philadelphia and Reading. This is a mistake, but his brother, the President of the Central R. R. of N. J. we are informed, a son-in-law of Austin Corbin.

The actual paid in capital is only nominal, so far as the articles show, but that may be because the company money is invested in their present works in another State, which are to be removed here. The articles also state that the main office is on Liberty street, New York.

Mr. Maxwell, who is spoken of as the president, is looking for a residence in Plainfield, intending to remove here from Brooklyn at the earliest practicable moment.

STATE NOTES.

The Tittle Smith monument will be of granite and will have a life-sized figure of a woman in bas relief. It will be unveiled on Oct. 1.

A track walker, whose name is not known, was run over by the New York and Long Branch road last evening at Matawan and had both legs cut off.

Robert Harriot, of No. 39 North street, Jersey City Heights, left home on Tuesday and has not been heard from since. It is feared that he has committed suicide or met with foul play.

Louis Agostine, of No. 9 River street, Newark, engaged in an altercation with James Tobeschell, a fellow-lodger, Yesterday, in the course of which the latter drew a knife and almost severed the former's arm from his body.

Presented with a Bear.

William Roberts, is an engineer on the D. L. & W. R. R., and a son of "Uncle" Dan Roberts of North avenue. About dusk two weeks ago on his locomotive he started from Stroudsburg, Pa. with a freight train to Scranton, and when on the Pokenoke mountains, twenty-seven miles out on his journey, four black cubs scampered toward the train to escape a fire in the mountain forest, and ran up a tree near by. He stopped his train and captured two of the cubs while other men on the train captured the other two. The captors heard the mother approaching, moaning in the search of the cubs. They quickly got aboard, and hurried off to rescue her, and continued on the journey. One of the cubs Mr. Roberts left at his home at Scranton, and the other he brought to Plainfield yesterday and presented to "Uncle" Billy Moore, the proprietor of the City Hotel. It is quite black, the size of a large cat, and about a month old. It is fed milk from a bottle or from a saucer. It will stand on its hind feet and taking the bottle between its fore feet suck the milk through the rubber nipple with seeming satisfaction. Mr. Moore is very happy over his present, and proposes to take it to a friend in New York.

Prices Reduced.

Our stock of Summer Clothing is still complete but on account of the advanced season we have reduced the prices of all seasonable clothing for men and boys wear from 15 to 25 per cent.

Full line of gents' furnishings at lowest prices. Schwed Bros. No. 7 E. Front St.

Special Notice.

EDRS. DAMONS & GOLADWIN.

Vitapathic Specialists

who performed so many really wonderful cures by "laying on of hands" at hall over the city bank, have at the earnest request of many friends decided to remain a short time longer. Those wishing to consult these specialists can do so free at the City Hotel from nine a. m. to eight p. m. until further notice.

MONDAY, JUNE 6, 1887.

SATURDAY'S YACHT RACE

In England—A Peculiar Contest, Which Determined Nothing.

LONDON, June 6.—Saturday's yacht race was a most extraordinary contest. The Irex at the start had the wind abeam and crossed the line at good speed. The Thistle immediately forged ahead and with the aid of a brisk breeze took the lead and threw the Irex ahead of the foremost of her competitors. The wind then died away, leaving the Thistle becalmed. The other yachts were moved for minutes in the gentle breeze, and the Irex and Thistle far to the windward. The Thistle again got a breeze, which freshened to a strong wind, and she lowered her topsail and hoisted her topmast. The disappearance of her topmast gave rise to a report that it had been broken and carried away, but such was not the case. The Thistle was gradually overhauling her leader when the wind fell again and she was unable to regain her first ground. The Genesta came in first, arriving at 5:46, and the Irex crossed the line 25 seconds behind her. The Thistle came in 5 minutes after the Irex, whose topsail was carried away. The wind throughout the race was fitful and varying and the sky was cloudy, with intervals of thunder and lightning.

FOR STRIKING HIS FATHER.

Young Brady Avenged an Assault with a Bullet.

NEW YORK, June 6.—Yesterday afternoon Patrick Brady, of 607 First avenue, John Ryan, of 606 First avenue, and a number of other young and old men played a game of euchre in Julius Hahn's oyster saloon, at 605 First avenue. Brady is over 50 years old and Ryan is only 21. Ryan accused the old man of cheating. Old Brady called him a liar. Ryan hit him over the head with a bottle.

Old Brady was taken to his house next door by several friends and told his 17-year-old son Joseph, a plumber's apprentice, that Ryan had hit him. Ryan, after an interval's nap in his parents' room at 605 First avenue, went down stairs, and as he stepped into the hallway young Brady confronted him.

"This is for striking my father," he said, and pulling a pistol from his pocket he shot Ryan in the neck. Ryan fell and Brady ran away. He was arrested at midnight. Ryan walked to Bellevue hospital. The bullet lodged in his vertebrae. His case is dangerous wound, and [illegible] statement was [illegible]

[illegible]

The standings of the League and American association clubs to date is as follows:

Marine Intelligence.

NEW YORK, June 6.—Arrived, steamers Alaska, Liverpool and Queenstown; Guyandotte, Richmond; Seneca, Newport News; Colon, Aspinwall; Herman Winter, Boston; La Normandie, Havre; Wilson Sloan, Georgetown, D. C.; Orinoco, Bermuda. Barks Golden Fleece, Barbadoes; Lincluden, Auckland, N. Z.; Filippe, Havana; Ocean Lily, Key West; Albert M. Stanta Cruz; Rosina, Natal. Arrived out, steamer La Bourgogne, from New York, at Havre.

The Bennington Battle Monument.

BENNINGTON, Vt., June 6.—The grand lodge of Masons of Vermont have been asked to lay the corner stone of the Bennington battle monument, on Aug. 16. The annual muster of the First regiment of militia will be held here that week, and it is likely that the Grand Army of the Republic men will, about that time in semi-annual encampment. The procession and ceremonies promise to be both grand and impressive.

The Cardinal's Return.

NEW YORK, June 6.—Cardinal Gibbons, who arrived in this city from Europe on Saturday evening, and who is the guest of Archbishop Corrigan, celebrated high mass at the cathedral on Fifth avenue yesterday morning. He is spending to-day with Maj. Kelley at the latter's residence in Brooklyn, and to-morrow he will leave for Baltimore.

Jumped Through a Car Window.

MADISON, Wis., June 6.—H. Pierick, a prosperous farmer and stock buyer of Dry-bone township, Iowa county, 40 years of age, jumped through the window of a passenger train going at full speed in a suburb of this city, while crazed with liquor, and will probably die from the injuries received. He was on his way home from Milwaukee.

He Stabbed His Uncle.

KINGSTON, N. Y., June 6.—David P. Robinson, aged 28, stabbed his uncle, Jeremiah Robinson, aged 70, with a jack knife yesterday morning. They had been in town, imbibed freely, and were on their way home, a short distance from the city, when they quarreled. The wound is a serious one and may result fatally.

Von Moltke's Daughter Married.

BERLIN, June 6.—The painter, Seubach, was married at Breslau yesterday, to the Countess Magdalene von Moltke, daughter of the famous old field marshal. The latter was one of the witnesses, and proposed the health of the couple at the banquet which followed.

We Don't Want Convicts.

WASHINGTON, June 6.—The secretary of the treasury has issued instructions to the collector at San Francisco to take the necessary steps to prevent the introduction of convict emigrants from New Caledonia, who are alleged to be assisted by the government.

Tragic End of a Dispute.

NEW HAVEN, Conn., June 6.—Herbert R. Dart, aged 17, while watching two men shooting at a target in a gallery, was fatally shot. The men disputed over a shot and one of them threw his weapon upon the counter, when it was discharged, with the result stated.

Death of the "Fighting Parson."

MOUNT VERNON, Ia., June 6.—Gen. Granville Moody, of this city, formerly an eminent Methodist minister of Ohio, and famously known during the war as "The Fighting Parson," died at his country house, near Jefferson, Ia., Saturday night, aged 76.

A Female Burglar.

TOLEDO, O., June 6.—Early yesterday morning two cracksmen, aided by a woman, forced open the ticket office of the Wabash railroad at this place, blew open the safe and robbed it of $300.

O'BRIEN LESS POPULAR

AMONG NEW YORK WORKINGMEN THAN ON SATURDAY LAST.

The Reason is His Refusal to Take Part in the Demonstration in His Honor

The Agitator Denounced and the Paraders Indignant.

NEW YORK, June 6.—Last night saw an excited meeting among the labor men, who were bitter in their denunciation of Bill, or William O'Brien. Seventy-five large Cooper Union, which served the organization in more or less of the trouble, made an exhibition. He said that it had been determined by the committee of arrangements to discuss the Parnell and the Irish Parliamentary party on a false position should have caused a single friend to forsake him.

"Only those who live in trouble," said he, "can appreciate the friends gave for declining to participate in the great demonstration."

The innuendo that County Democracy, Tammany Hall politicians had poisoned mind against the Labor party Mr. O'Brien disclaimed as preposterous. He was equally explicit when dealing a published report to the effect that his action had been influenced by his personal friend, Very Rev. Prior Glynn, of the Augustinian order, who is here collecting money for the erection of an Irish church in Rome, and who succeeded in making Michael Davitt apologize for his criticism of Cardinal Manning's action in the Phoenix park murders.

When Dr. McGlynn's name was mentioned Mr. O'Brien indignantly drew to the teeth of a rumor that had reached him to the effect that Archbishop Ireland had asked him to send for him any demonstration in which Dr. McGlynn took part.

[illegible] violence [illegible] was, a [illegible] "since my return from [illegible] have received a good many threatening letters from people I do not know, telling me that I will be the first if I speak against Land Leaguism. I'll get some lead."

In the concluding portion of his address he [illegible] Mr. O'Brien himself from a [illegible] and had been to [illegible] the restoration of the people's rights to the means of subsistence further [illegible] such actions [illegible] Lord Lansdowne impossible. These remarks were loudly applauded and the name of Mr. O'Brien hissed. "O'Brien," Dr. McGlynn said, "is a landlord at heart, and the only difference between him and Lansdowne is that O'Brien is 10 or 20 per cent. lower than Lansdowne." When O'Brien found he could not [illegible] down to his figure, he went about blackguarding him.

Mr. John McMackin, chairman of Saturday night's mass meeting, also spoke in a similar strain.

Banker Eugene Kelly disclaimed last evening having influenced Mr. O'Brien in his course. He had spoken to him on the subject, but it was after that gentleman had announced his full determination to keep aloof from any entanglements in matters unconnected with the question of Irish agitation. Mr. Kelly applauded Mr. O'Brien's decision, and said that his statement of the reasons for it was complete and convincing. The cry that his action was influenced from outside sources indicated that some of the managers of the demonstration must have had some political purpose in their minds, and were trying to use Mr. O'Brien's popularity to advance their schemes.

At a meeting of the Fifth ward branch of the Irish National League last night Mr. O'Brien's action in refusing to participate in the affair was commended, and the National leagues of Jersey City also adopted resolutions applauding his determination in the matter.

The incident is the talk of the town, and threatens to cause a serious division on the Irish question.

A DOUBLE MURDER.

The Murderer Fears That He Will be Lynched.

MEMPHIS, Tenn., June 6.—Saturday evening at Hunt's mill, Desoto county, fifty miles from here, on the Mississippi river, Sam Haynes and Ben Wilson quarrelled about a woman who had formerly lived with Haynes. They came to blows and fired, and Haynes then crossed to the Arkansas side of the river, where he lay in wait. Some time after dark a skiff in which there was a man and a woman landed near where he was, and he opened fire, shooting the man through the heart and the woman through the head, killing them. After the shooting he discovered that he had killed one Strickland and his wife, and not, as he supposed, Wilson and the woman with him. Haynes was arrested on board a steamer bound for this city, and is now in jail here. He admits the killing, and says he fears he will be lynched when carried to the scene of his crime.

THE FESTIVE DRUMMERS.

Raising a Fund to Test the Protective Tariff of Texas.

HOUSTON, Tex., June 6.—Not long ago drummers from northern, eastern and western firms held a meeting and decided to raise a fund and make a test case in the courts of the state to test the tariff law in Texas. The secretary, J. R. Pace, was authorized to issue circulars and raise a test case fund. About $500 was thus raised to complete the fund. Secretary Pace, who is now here, has received a telegram from J. R. Trask, of the Trask Fish company, St. Louis, telling him to go ahead with the test case. A drummer is now in the county jail here, charged with a violation of the drummer tax law. He will make an application for a writ of habeas corpus. This will be the first step in a fight against the law.

To Test the Sunday Liquor Law.

NEW YORK, June 6.—Capt. Williams, of the Nineteenth police precinct, accompanied by a friend, visited the Fifth Avenue and the St. James hotels and the Gilsey house last night and called for wine, which was furnished at each place. Capt. Williams will swear out warrants against the waiters who served the wine, and thus three test cases will be made as to the legality of the Sunday liquor law.

NEW HAMPSHIRE'S SENATOR.

A New Candidate Taken Up by Democratic Interests.

CONCORD, June 6.—The [illegible] of the legislature last Friday an active canvass of the members who remained in town has been kept up by the Chandler men with a view of making certain his nomination for "the third." It is generally conceded that Chandler will not be the democratic nominee, but there are opinions differ. The supporters of the ex-secretary of the navy say that Republicans will not dare to make any combination with the Democrats, and that they will be put on record if they do not support the regular nominee of the party. The Rollins and Chamberlain organization in more or less of the trouble, made an exhibition. He said that it had been determined by the committee of arrangements to discuss the Parnell and the Irish Parliamentary party on a false position should have caused a single friend to forsake him.

"Only those who live in trouble," said he, "can appreciate the friends gave for declining to participate in the great demonstration."

The innuendo that County Democracy, Tammany Hall politicians had poisoned mind against the Labor party Mr. O'Brien disclaimed as preposterous. He was equally explicit when dealing a published report to the effect that his action had been influenced by his personal friend, Very Rev. Prior Glynn, of the Augustinian order, who is here collecting money for the erection of an Irish church in Rome, and who succeeded in making Michael Davitt apologize for his criticism of Cardinal Manning's action in the Phoenix park murders.

When Dr. McGlynn's name was mentioned Mr. O'Brien indignantly drew to the teeth of a rumor that had reached him to the effect that Archbishop Ireland had asked him to send for him any demonstration in which Dr. McGlynn took part.

[illegible] violence [illegible] was, a [illegible] "since my return from [illegible] have received a good many threatening letters from people I do not know, telling me that I will be the first if I speak against Landlordism. I'll get some lead."

In the concluding portion of his address he [illegible] Mr. O'Brien himself from a [illegible] and had been to [illegible] the restoration of the people's rights to the means of subsistence further [illegible] such actions [illegible] Lord Lansdowne impossible. These remarks were loudly applauded and the name of Mr. O'Brien hissed. "O'Brien," Dr. McGlynn said, "is a landlord at heart, and the only difference between him and Lansdowne is that O'Brien is 10 or 20 per cent. lower than Lansdowne." When O'Brien found he could not [illegible] down to his figure, he went about blackguarding him.

Mr. John McMackin, chairman of Saturday night's mass meeting, also spoke in a similar strain.

Banker Eugene Kelly disclaimed last evening having influenced Mr. O'Brien in his course. He had spoken to him on the subject, but it was after that gentleman had announced his full determination to keep aloof from any entanglements in matters unconnected with the question of Irish agitation. Mr. Kelly applauded Mr. O'Brien's decision, and said that his statement of the reasons for it was complete and convincing. The cry that his action was influenced from outside sources indicated that some of the managers of the demonstration must have had some political purpose in their minds, and were trying to use Mr. O'Brien's popularity to advance their schemes.

At a meeting of the Fifth ward branch of the Irish National League last night Mr. O'Brien's action in refusing to participate in the affair was commended, and the National leagues of Jersey City also adopted resolutions applauding his determination in the matter.

The incident is the talk of the town, and threatens to cause a serious division on the Irish question.

A TORRENT OF RAIN

[illegible]lin, O., Doing Considerable Damage to Property.

OBERLIN, O., June 6.—Oberlin has been [illegible] with [illegible] a flood caused by the terrible rain storm yesterday afternoon. Shortly after noon rain began to pour down in torrents, continuing without cessation until after 6 o'clock. Plumb creek had risen to a [illegible] alarming extent, and the water carried away all of the town bridges and rose several feet above the floors of houses on Professor Hill, Main and Pleasant streets. Many families were compelled to take refuge in the upper stories of their houses.

[illegible] office was loosened from its foundations and fell. The [illegible] covering with water and con[illegible] Gilchrist's lumber [illegible] suffered great [illegible] floor [illegible] and directory, [illegible] lumber yard [illegible] against buildings [illegible] with lumber, logs [illegible] in respect to [illegible]

[illegible] and Professor [illegible], there was nothing [illegible] Trains are blocked up nearly two hours and the 6 o'clock train was compelled to go back. About 800 yards of track was washed away. Nearly all the cellars of the stores are flooded, causing thousands of dollars worth of damage.

A TERRIBLE CALAMITY.

Many Persons Burned and Trampled to Death in a Circus.

BERLIN, June 6.—During a circus performances at Neschen last evening, a storm arose and a portion of the roof of the circus structure was blown off. The resultant lamp hanging from the roof were broken and the blazing petroleum poured down upon the heads of the people below. There were 2,000 spectators, and a fearful panic arose. In the midst of the tumult one of the lightly built walls of the structure fell in, and the whole building immediately collapsed. A large number of persons were burned, many were trampled to death and 300 others were more or less injured.

The Birmingham Explosion.

ALTOONA, Pa., June 6.—Five of the victims of the Birmingham explosion were buried yesterday. Of the injured, Michael Wagner, Hungarian, is said to be dying. Tom and George Hiesto, Hungarians; Cosmo Gnaha, Russian, and Noel Varnura, all more or less hurt, are recovering. The coroner's jury rendered a verdict that "death was caused by an explosion supposed to be caused by the action of the drill on the rock, which drill was in the hands of Messrs. Stewart and Solders, who were endeavoring to take out the tamping, and this caused a spark to explode the powder, which was supposed to have exploded before." Within 400 feet of the scene of the calamity is stored 1,500 kegs of powder and thousands of dynamite cartridges.

Got the Whole Family.

ATLANTA, Ga., June 6.—A young man named Hamby, of Fayette county, eloped last Friday with the daughter of farmer Stames. Mr. Stames and Hamby had previously married four daughters of Stames, although the latter had objected to some of the marriages. When he heard of his last single daughter's elopement he was very angry, but after thinking the matter over he said: "Hang it, if they want the whole family all right, I'll marry the old woman myself." He accordingly rode to the house of Mrs. Hamby, whose husband died recently, proposed, was accepted, and the nuptial knot was soon tied.

Thanking Mr. Gladstone.

LONDON, June 6.—Mr. Gladstone listened to a sermon yesterday morning by Canon Smith in defense of the Established church in Wales. Returning from the church he was met by an immense crowd according a deputation from Cork, bearing an address of thanks and eulogy. Mr. Gladstone excused himself on account of the day from making a speech, but briefly expressed to the sheriff of Cork, who had led the deputation, his appreciation of the honor conferred, and added that the Protestants of Ireland need have no fear of Catholic persecution should Ireland gain her autonomy.

Thanking Mr. Gladstone.

WASHINGTON, June 6.—Gen. Sheridan has appointed the following committee of the Society of the Army of the Cumberland to collect funds with which to erect the statue of Gen. W. H. Lytle, of Ohio, which the society at its last meeting here decided to erect: Gen. Henry M. Cist, Cincinnati, chairman; Gen. Joseph S. F. Fullerton, of St. Louis; Gen. L. P. Bradley, U. S. A.; Col. N. H. Walcutt, Chicago, and Col. W. B. McCreary, Flint, Mich. Gen. Lytle was killed while leading a charge of his brigade at Chickamauga. He was one of the most distinguished officers from Ohio.

Immorality in Herkimer County.

UTICA, June 6.—It has been discovered that three young girls at Little Falls, Herkimer county, have been betrayed to a life of shame, some of them in their village and some in this city. The girls' ages range from 12 to 15 years. Among those who are implicated are some mere boys, the youngest of whom is also under 16 years. Clerk Shepard, of the board of police commissioners, Gustavus Hinman, aged 60, and others, have been arrested, charged with ruining the girls.

Mr. Thomas Wins Over Opposition.

CINCINNATI, June 6.—At a meeting of the musical festival directors Theodore Thomas was chosen to direct the festival again next year. Mr. Thomas, who was present, accepted the appointment. There is a strong feeling against him here among a large element, and his selection will excite opposition. During his residence here Mr. Thomas incurred the enmity of most of the leading musicians, and many persons became prejudiced against him.

Shot by a Jealous Husband.

ST. PAUL, Minn., June 7.—Thomas McCarthy shot Harry Smith, with probably fatal result, in front of the residence of the former in West St. Paul. Smith had been out during the evening with McCarthy's wife, and McCarthy avers he has been showing her altogether too much attention, in spite of frequent warnings to desist. McCarthy was arrested.

KNIGHTS OF THE MASK

AGAIN AT WORK ON THE TEXAS AND PACIFIC RAILROAD.

A Train Filled with Passengers is Boarded by Four Men, who Rob the Express and Mail Cars.

Shot While Kneeling on Blankets, with Outstretched Arms Urging the Wil[illegible]

[illegible] Pays the Usual Penalty.

LITTLE ROCK, Ark., June 6.—A private letter, dated Texas & Pacific railroad, Conway, Indian territory, gives a detailed account of the fatal encounter, by shooting, of two Seminole Indians and Jeremiah and Thomas, at a point on Little River, in the Peninsula country. The latter pleaded guilty to the murder of a companion in a drunken affair in the beginning of the last month. Yesterday, Deputy Marshal Smith, accompanied by a posse, arrested the condemned men in their house, handcuffed and shackled them with the same and then proceeded to the place of execution, a distance of two miles. The prisoners were mounted on their own ponies and were guarded by the posse. Both the condemned men were middle aged men, handsome and stalwart.

The execution occurred on Monday in the presence of about 200 persons, many of whom were natives of the surrounding country. Before the execution the condemned men addressed the audience including a number of women and children. Religious exercises of the Methodist persuasion were conducted by Rev. Hopkins, a native preacher, after which the doomed men knelt. Both then made a brief address, saying in substance that the cause of their present situation was intemperance, and they urged especially the youth to be temperate. The death warrant being read, the men were confronted to a blanket which was spread upon the ground. They knelt upon the blanket and prayed. They knelt, blindfolded and with outstretched arms. Deputies were then selected one to each man, and, taking deliberate aim at the hearts of the condemned, fired simultaneously. The men fell forward on their faces. Only a few convulsive motions followed. The bodies were delivered to friends, who had them interred with considerable ceremony.

URGED TO RESIST EVICTION.

[illegible] Address the Irish [illegible] Society in Dublin.

DUBLIN, June 6.—Michael Davitt addressed a National league meeting in the Bodyke district yesterday. He urged upon the people to offer resistance to the evictions of tenants and to retake possession of their homes after they had been ejected. He declared that it was the duty of the members of the league to aid in every way the victims of such evictions. He announced his intention to hold a meeting next Sunday of 20,000 or 30,000 men for the purpose of rebuilding the houses of tenants who may have been ejected during the past or present year.

Care should be taken, he said, that property and economy and [illegible] be given to the rebuilding of the houses of any family. He suggested that a fund be opened to carry on the plan of campaign "upon which have withheld rents, and he promised to give $1,000 himself.

He suggested that within six months $100,000 would be subscribed in Ireland, and within six months $1,000,000 would be collected throughout the civilized world.

A Prominent Patriot Implicated.

TYRONE CITY, Arizona, June 6.—There is much excitement at Pinal, this county. Some time ago the county treasurer was robbed of several thousand dollars. The grand jury, now sitting, has indicted the suspected thief, and the sheriff has a special train ready to pursue the criminal. A man named Carlos surrendered himself to escape mob violence, and says he will make a full confession. There is some talk of implicating all the guilty parties.

To-day's Election in Chicago.

CHICAGO, June 6.—To-day's election promises to be as remarkable as the one resulting in Mayor Roche's triumph over the red flag candidate, Nelson. The same issue is to some extent involved, but the main question to be settled is whether the voters of Cook county will indorse candidates for the circuit bench who were named by a political machine, instead of by the bar association nominations throughout the city at $5,000 apiece.

A Minister Chastises His Wife.

CINCINNATI, June 6.—Rev. W. H. Boyce, rector of Trinity Episcopal church, was informed that Mrs. Boyce was on terms of intimacy with a prominent member of this city. The minister satisfied himself the charge was true, and chastised his wife severely and drove her from his house. The couple have two children, the eldest 15 years of age. Proceedings for a divorce will at once be instituted.

Jack Hussey Improving.

NEW YORK, June 6.—Capt. Jack Hussey doesn't complain a bit. The only criticism he has to volunteer upon the present pain, is that he was foolish. The life saver is steadily mending, but was a little feverish last night. Dr. O'Hanlon says it will be several days yet before he is out of danger.

CONDENSED NEWS.

The labor parade and mass meeting at New York on Saturday night in honor of Editor O'Brien was a grand affair, fully 15,000 men marching in line. Mr. O'Brien took no part in the affair, owing to the fact that John McMackin, the chairman, presided at the recent lecture of Mr. Tynan (Number One).

The funeral of ex-Vice President William A. Wheeler will be held at the Congregational church in Malone, N. Y., Tuesday. Ex-Presidents Hayes and son will attend.

A fire at the Wakefield factory of T. A. Dean & Co., Fort Richmond, S. I., caused a loss of $80,000.

Francis A. Cox, a prominent Knight of Labor, of Buffalo, has been appointed a deputy factory inspector.

James G. Blaine and family sail for Europe June 8.

In the case of George Wilson (colored), for the murder of Wakefield Gaines, the jury returned a verdict of murder in the first degree.

Four of the eleven Knights of Labor assemblies of Tampa, Fla., have applied for admission to the American Federation of Labor.

By the bursting of a grindstone in the Scranton (Pa.) file works, Harry Sheldon, aged 16, was killed.

Mr. Gladstone's reception in Wales has been very enthusiastic.

Gen. James S. Speed, Lincoln's attorney general, is dying at Louisville.

A farmer near Erie, Pa., surprised a burglar at work, and, after a fight, secured him and turned him over to the police.

Richmond, Va., suffered the agonies of a dry Sunday under a rigid Sabbatarian law.

A negro was taken from the jail at Clarendon, Ark., and hanged to a neighboring tree.

Two gallant little boys named Flaherty rescued a little girl from drowning at Anconia, Conn., at great risk to themselves.

A mother and daughter, separated for eighteen years, met in an affecting manner as prisoners in the house of correction at Milwaukee.

The president passed a quiet Sunday at his mountain resort.

Rev W. C. Stiles has been taken to his home in Plainfield, N. J., but is still suffering from mental aberration.

STEAM ON THE SEAS.

HOW ROBERT FULTON'S IDEAS HAVE BEEN DEVELOPED.

From Hulls' Boat to the Present Swift Ocean Greyhounds—The First Atlantic Steamship—Comparison of Ancient and Modern Progress.

State of Steam Navigation.

The recent collision on the high seas between the Celtic and the Britannic, two steamers of the same line, has caused a deal of discussion. The fact that while it either boat had struck a wooden vessel catastrophies it would have been disastrous to the latter, though the hull like a knife, yet comparatively little damage was done to either of the ships in the accident, brings to mind with great force the immense improvements that have been made and the safeguards that have been devised and put in practice on vessels of this class. And all this brings us to consideration of the evolution of the modern steamship.

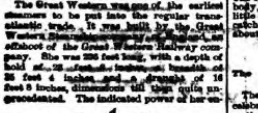
No one now denies for a moment that Robert Fulton was the first man to make commercial use of steam in navigation, nor that immense practical impetus given to it by his genius. Fulton was not the first one to conceive of the idea. In fact it is claimed for Hero that he had a system of robot control that done in that way 130 years B. C.; and Blasco de Garay, at Barcelona in 1543, and later Papin, in Germany, built rude steamboats, though we have no record as to the success of their engines.

In 1787, John Fitch, of Connecticut, set out a prospectus describing his idea of a steamboat, and the picture he printed thereon is still extant. The accompanying cut gives a fair idea of Hulls' boat, and from it we will be surprised that Fulton's boat was not more like it. Hull's boat was to be propelled by oars, which were to be worked by steam, and the picture shows the boat with the oars in position. Hull was not successful in getting anything out of his boat, and finally gave away all the rights.

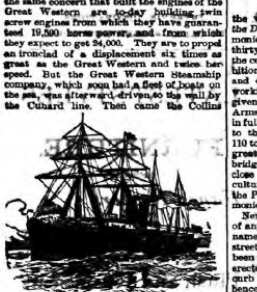
HULL'S BOAT.

The first steamer to cross the Atlantic was the Savannah, which sailed from Savannah, Ga., May 26, 1819, reaching Liverpool in twenty-six days. Her engines were declared to be nearly auxiliary to her sails, and steam was despised a portion of the voyage only. She was a side wheeler, and the wheels were so designed and built that they could be unshipped when steam was failed up on deck when occasion demanded.

The Great Western was one of the earliest steamers to be put into the regular transatlantic trade. It was built by the Great Western Steamship company, of which the offshoot of the Great Western Railway company. She was 236 feet long, with a depth of hold of 23 feet 6 inches and a breadth of 35 feet 4 inches and a draught of 16 feet 8 inches, dimensions till then unprecedented. The indicated power of her engines was 750 horse. An idea of the subsequent development of steam power for steamers may be gathered from the fact that the same concern that built the engines of the Great Western are to-day building twin screw engines from which they have guaranteed 19,500 horse power, and from which they expect to get 24,000. They are to propel an ironclad of a displacement six times as great as the Great Western and twice her speed. But the Great Western Steamship company, which soon had a fleet of boats on the sea, was after ward driven to the wall by the Cunard line. Then came the Collins



THE GREAT WESTERN.



ORIENT LINE STEAMER ORMUTZ.

(American) line, with its magnificent but unprofitable boats and later a host of lines. The history of the Collins line is a most painful one. Starting out with the most brilliant prospects, heavily subsidized by the United States government, with ships built upon the most improved models then afloat and filled with the most expensive conveniences, it was expected that the Collins fleet of steamers would soon monopolize most of the transatlantic passenger traffic. But it was not to be. Not a voyage was sailed by a Collins steamer that was not sailed at a loss, and besides, there soon came disasters at sea of sufficient magnitude to ruin the strongest corporation. Then the subsidies were withdrawn and the Collins line soon collapsed.

Since that time the American flag has floated over few ocean steamers, though efforts are now being made to again place American steamships on the Atlantic. The Pacific Mail steamship line was also short lived, largely because of the old fashioned methods of construction adhered to, for in the meantime side wheels gave place to the screw; the water tight bulkhead, which saved both the Celtic and the Britannic, was devised, ocean steamers were placed on every sea as well as the Atlantic, and there was great development made, especially in the steamers plying between Great Britain and her colonies. We cannot better close this article than by the presentation of a cut of *the Orient* line steamer Ormutz on her homeward voyage from Australia to England. She made her last trip of 11,000 miles in twenty-seven days, the fastest time on record. She is 481 feet long, 37 feet deep and 52 feet broad. Her engines are of 8,500 horse power. She is as near perfection as may be.

Cause of Pneumonia.

Recent observations establish the fact that true pneumonia is due not to the accidental penetration of specific microbes into the system, as is usually supposed, but to the development under favorable conditions of microbic germs permanently present in the system. A chief condition of such development is a sudden chill, which explains the frequent coincidence of lung affections with abrupt changes of temperature.—Nature.

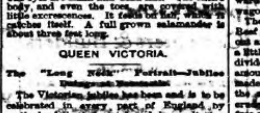
Something About Snakes That is Interesting New York City.

New York city has long greatly stirred up the feelings of the Mikado of Japan, for he has secured two specimens of the gigantic Japanese salamander. Some mischievous newspaper man looked up the natural history of the curious beast, and finding little of interest, wrote a story for modern books, except the fact that it is rare, turned back to the writings of Pliny, a gentleman who lived a great many years ago and made a book of natural history. In this he says the salamander. Pliny believed and wrote that there was no more hurtful creature on the earth than the salamander. Its venom was so intense, according to him, that the very water in which it swam was deadly, and a stream flowing from a pool inhabited by salamanders was to be avoided, according to Pliny, as certain to render the water unfit for use. Apparently the entire ancient world believed this, for almost all of their wits, especially the keepers of the salamanders. Another superstition regarding the salamander established it in the power of living in a burning fire. Pliny said the salamander was so cold that it would put out a fire. Some later writers averred that the salamander could breathe fire. But most would extinguish a flame. After a while one of the animals got away, and there was a most exciting hunt for it, though it was eventually recovered all right and safe.

The facts regarding the salamander are that it is a native of Japan, and is usually found in the mountain districts around all. But it is very fond of water, even in cities. It is still in habits, somber in color and shed a half finished look. The first living specimen came to Europe in 1829, and was 64 inches long. Its last account it was still alive, having passed many years in captivity. The salamander Emperor sent to this city by way from

GREAT JAPANESE SALAMANDER.

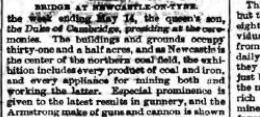
Japan. The head of the salamander is large, flat and toad like, and covered with warts. The eyes are small and beadlike. The entire body, and even the tail, is covered with little excrescences. The color of the skin is dark brown, with a full grown salamander is about three feet long.



QUEEN VICTORIA.

The "Long Nelly" Portrait—Jubilee Medals and Souvenirs.

The Victorian jubilee has been and is to be celebrated in every part of England by methods of the industrial and humanitarian sort, by the opening of new buildings, by unveiling of statues and especially by exhibitions of progress in science and the useful arts. At Newcastle-on-Tyne, the historic city of the north, there has been organized a great exhibition of industrial art, which was opened during the week of May 14, by the queen's son, the Duke of Cambridge, presiding at the ceremonies. The buildings and grounds occupy thirty-one and a half acres, and as Newcastle is the center of the northern coal field, the exhibition includes every product of coal and iron, and every appliance for mining both and working the latter. Especial prominence is given to the Armstrong system of guns, and the Armstrong make of guns and cannon is shown in full, from the small but deadly "Hotchkiss" to the immense piece of ordnance weighing 110 tons. There are also models finished with great nicety of the latest war ships, of iron bridges and locomotives. Soon after the close of this exhibition the Royal Agricultural society's show will open. July 11, the Prince of Wales acting as master of ceremonies.



BRIDGE AT NEWCASTLE-ON-TYNE.

Newcastle possesses most historic interest of any town in the north of England; the names of the city, suburbs and principal streets show the origin of the place to have been in an era of war. The first castle was erected by Robert, duke of Normandy, as a curb to the warlike people across the border; hence the name, the New Castle on the Tyne. The castle now standing, however, was erected in the twelfth century by Henry II. Many of the old buildings remain on the side of the hill, and make a very picturesque scene; the modern city is a place of heavy manufacturing, and where fiery Scot and southern Englishman once contended is now a scene of intense industrial activity. The old castle, the subject of which we do present an engraving, is an object of great interest. Some remnants are left of the old *wall which once defended the citizens against* their northern neighbors; a few of the old towers remain, and in all the old town one may see many reminders of the border war that raged with but occasional interruption for centuries.

Apropos to this exhibition and the jubilee we present a representation of the once famous "long necked portrait" of Queen Victoria in her bridal robes. The original engraving has this curious history: When the steel plate was prepared a proof was taken and sent to the queen; Prince Albert, her husband, objected vehemently to the portrait, because it represented her with a long neck, and she therefore ordered the plates to be destroyed. This was done, but the engraver had in the meantime struck off thirty copies. These were long kept in secret, and when brought out commanded high prices from collectors. Hon. Henry Storrs, the noted attorney, paid $650 for one and brought it to the United States. After his death it was sold to Mr. E. M. Knox, who allowed a copy to be taken and published in The New York Graphic of May 23. It represents the queen as she appeared when dressed for her marriage on Feb. 10, 1840, and is pretty enough, despite the elongated neck which provoked the furtive comment. The fact that the queen completed her sixty-seventh year on May 24 gives additional interest to this curious picture.

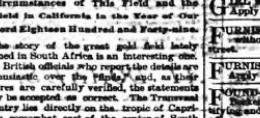
THE "LONG NECK" PORTRAIT.

AFRICAN GOLD FIELDS.

SOMETHING OF THE RICH DISCOVERIES IN THE TRANSVAAL.

Comparisons Between the Scenes and Circumstances of This Field and the Field in California in the Year of Our Lord Eighteen Hundred and Forty-nine.

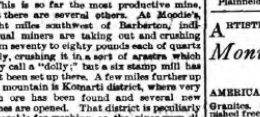
The story of the great gold field lately opened in South Africa is an interesting one. The British officials who report the details are enthusiastic over the finds, and, as their figures are carefully verified, the statements may be accepted as correct. The Transvaal country lies directly on the line of Capricorn, somewhat east of the center of South Africa; the climate of the low lands therefore



FIRES plate, as recommended is at least as warm as that of southern Florida, but the invariable dry air is more refreshing, as in all sultry countries. The travel to Barberton left is chiefly via Durban, which place is reached by rail from 649 miles; to Kimberley, and thence one more of 450 miles by team. In an old Californian old, Barberton is "Pioneer," as Georgetown is marked from St. Joseph, Mo., for the Santa ments. It will excite a smile do learn that the British officials refer to the distances as "reasonable and argue the assumption that a journey of six Delagoa bay, in latitude 26 degrees on the east coast. Many have already taken that route, and the boy lands from the Cape are so salacious that the route is only recommended for winter travel. From Cape Town the route is through a very high and healthful region. The scenes are like those of the California mountains, on a smaller scale. Barberton, the metropolis of the De Kaap gold field, already has 5,000 inhabitants, with three banks and three newspapers; the buildings are of stone. Provisions are high and forced, and the British mail service is regulat. The best government to create for the Transvaal is said by those who know the region route will be very short.

The yield of gold is surprising. The Sheeba Reef gold mining company has already taken out and realized 70 pounds of gold from a little over seven ounces to the ton; and the dividends of the company in less than a year amounted to 80 per cent. Nine tons of gold were made in the report of placer workings; but the machinery for working the ore is expensive, and the tailings from a thousand tons of ore yield the tailings from a thousand tons of free gold. It is the intention to work over these tailings when better machinery is brought in. In California fully one-third of the gold remained in the tailings at the first mines worked, and even where much less was left the Chinese miners have been successful in profitably working over the tailings. The excavation from which the Sheeba Reef company took 700 tons is 100 feet long, 50 feet wide, and 80 feet deep, and the experts all declare it to be a "chimney" or "gold shoot" from the true mine below; so the company is sinking rapidly on the line of "best results," and have struck a very rich boxwork at the bottom of their shaft, 140 feet below the regular workings.

This is so far the most productive mine, but there are several others. At Moodie's, eight miles southwest of Barberton, individual miners are taking out and crushing from ten to twenty pounds each of quartz daily, crushing it in a sort of arastra which they call a "dolly;" but a six stamp mill has just been set up there. A few miles further up the mountain is Kaap gold district, where very rich ore has been found and several new mines are opened. That district is peculiarly favorable for working, as the river runs directly through it and the transport of ore is easy. A little east of that is Swaziland,



MAIN STREET, BARBERTON.

still governed by a native king, who has granted concessions to the miners, and very rich ore has been found. Other districts are The Knight, Wood, Republic, Kimberley, Sheba, Belfast, Caledonia and Victoria. A hundred stampers were running at the beginning of this year, but machinery is coming in so fast that the crushing capacity will be trebled before the close of this year. Considering that these mines were only proved to be of value in 1884, the development has been very rapid. The official report says little of the formation, but the mountain is what our miners would call the "back bone" of South Africa. Ever since the quartz lodes of Australia and California declined in importance, geologists have said that if such fields were *again to be found it would probably be in* "the back bone of Central Africa"—among the very oldest mountains in the world; and though these discoveries are south of that, the formation is probably much the same.

Names of Ships.

Ships have always been objects of more than common solicitude and affection both to their owners and their masters. As one goes along the wharves of a great seaport, and reads the names of the craft lying at their piers, he cannot fail to understand the story which the names of these vessels tell.

From whatever part of the world the ships may have come, their names are, for the most part, feminine. They always have a homely look and a homely sound. The name of the ship most often reminds one of the wife or a daughter in a home where the craft is owned. Ships are christened in a spirit of chivalry and of loyalty. The Sarah Jane and the Martha Ann visit all climes, but who ever saw the Patti or the Langtry afloat?

It is also to be noticed that the names of ships rarely assume the forms of pet names. Sarah Jane does not become "Sadie Jennie," nor does Martha Ann appear as "Mattie" or "Manie." This is owing to the preservation of shipbuilders. It helps to trace the genealogy of ships, for ships have a lineage.—Youth's Companion.

Our western friends tell us that a New Englander in speaking makes a full and proper use of this letter. It is one of the characteristics of his speech, and the chief one by which an experienced man is detected anywhere beyond New York. For instance, they affirm that a Bostonian never says "four o'clock." The nearest approach he makes to this is "fo'r o'clock." It may be that slight differences have been exaggerated, but if we are guilty to the extent our critical friends say we are, yet the origin of the abuse can be lawfully charged upon our English cousins. Their treatment of this letter appears from a conversation which Mr. F. S. Cozzens reports between himself and an English tourist:

"Going over the Rhine, sir?"

"Rather," said I dryly (for I hate bores).

"Aw! now the reader must translate for himself). Fine time you've been h'ave'd'

"Yes," I answered; "is it your first visit also?"

"Aw—no! 'twice bin-a yo'fore; aw-wal fashion. How-ever-'gods, sirs!'—

"In Mayence, and no further this evening."

"Gaw'ng to Hyd'lting?"

"I think so."

"Hyd'lting's good business; do it up in couple of aw'hrs. Gaw'ng to Italy?"

"No" (decidedly no).

"Gaw'ng to south of Fwance?"

"Probably."

"Wal, 'f not gaw's' Italy, and you'll gaw's' south of Fwance—gaw'n' to Nimm!"

"To Nimes! what for?"

"If you don't gaw's' Rhawn it's good business to go so Nim—they've got a ring that's"

"A ring?"

"Yes—same's they got at Rayme, good business that—do it up in two aw'hrs: early Christ'ns y' know, and wild beasts!"

"Oh, you mean the Roman amphitheatre at Nimes—a sort of miniature colosseum."

"Wal, col's'm."

"No, sir; I am not going to Nimes," another look at Rheinbreitstein and its shattered wall.

"Rh'inbreitstein's good business, and that sort of thing—do 't in about two aw'hrs!"

"I do not intend to stop at Rheinbreitstein, and, therefore, intend to make the best use of my time to see the fortress from the river."

"Aw—then y'd better stop at Coblanz, and go t' Wisbad's by th' rail. The Rhine, y' know, 's a tiresome business, and by gaw's! by land, you escape all this sort aw thing."

"But I do not wish to escape all this sort of thing—I want to see the Rhine."

"Aw" with some expressions of surprise. "Gaw'n' to Switz'land!"

"Yes."

"I got Moy for Switz'land!"

"Moy! I beg your pardon."

"Yes, Moy—Moy; got Moy for Switz'land!"

"Moy—why, mamma, I hope so."

"Good gracious, no! Tay Moy."

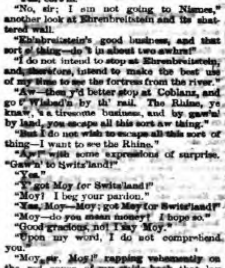
"Upon my word, I do not comprehend, you."

"Moy, sir, Moy!" rapping vehemently on the red cover of my guide book that lay upon the table, "I say Moy for Switz'land."

"Oh, you mean Murray."

"Certainly, sir; didn't I say Moy?"—Youth's Companion.

The Latest Invention Must be Improved.



Young Smiley, who has invited his fiancee of temperance principles) to the theatre, lays in a supply of luscious, convenient rubber grapes, to obviate the necessity of going out between the acts.

But he finds them harder to bite than he expected.—Judge.

Slang in Texas.

Yesterday afternoon a well known gentleman in this city was discussing with a News representative the prevalence of slang in the country.

"Just to show you how almost universal it is becoming we will test it right here. It is raining, and we will stand in this door and to every person of your acquaintance who passes by you will put this question: "Isn't this rain glorious?" and note their answers.

The pair stood in the door, the gentleman, watch in hand, and the first unsuspective person with note book and pencil ready. Thirty-five gentlemen passed by, to whom the query was put. Thirty-one of them replied: "You bet." One said: "I should smile." Two said: "She is getting there with both feet;" and the other remarked: "Go 'long, Lew Jum."

There were others who later went scudding by. One responded: "I should snicker to remark." Another smiled broadly: "Young ducks ain't a circumstance." A third carolled: "Bet your sweet life;" and the fourth lisped bewitchingly: "If anybody asks you, tell 'em you don't know." The gentleman standing with the reporter said: "Well, that do settle it." "And her front name, it was Hannah," sighed the reporter.—Dallas News.

A Heartless Joke.

"I say, Dumley," whispered Featherly Sunday afternoon, as he looked cautiously about, "How would a bottle of ale strike you?"

"Oh, Featherly," responded Dumley, with an earnestness that was pathetic, "if you can put me outside of a bottle or two of ale you need only name your reward."

"Say no more, but come with me," said Featherly.

A moment later he said to the drug clerk: "Two bottles of ginger ale, please."—New York Sun.

JOB PRINTING OF ALL KINDS FROM A CARD TO A BOOKLET, IN THE BEST STYLES AND AT THE MOST REASONABLE RATES. TELEPHONE CALL NO. 42.

THE CIRCULATION OF THE NEWS IS AS LARGE AS ALL THE OTHER PLAINFIELD PAPERS COMBINED.

Died.

RITTENHOUSE—June 5th, of scarlet fever, Willie M., son of George M. and Frances Rittenhouse, aged 7 years and 2 days. Funeral from above address p. m. Tuesday, at 64 East Ninth street.

MEETINGS.

A meeting of the Board of Managers of the Plainfield Fire Department will be held in the City Court room one week from to-night. This will be the regular June meeting.

—The City Clerk has received a letter from the Secretary of State notifying him that Council will be required to furnish the new ballot boxes for the coming election. The cost will probably amount to $300.

—Work on the new well in the vicinity of the Plainfield Press Works is progressing rapidly. The well is about thirteen feet deep and contains one foot of water. The well will probably be dug about six feet deeper.

—The New Jersey Central railroad paid up its arrears of taxes amounting to $250,000 on Wednesday. This makes half a million the company has paid already toward quieting the case started which it has made against the new tax law.

—An alarm of fire was sounded at about 8.45 last night, and the department quickly responded. The boys went out nearly to Grant avenue when they came to the conclusion that it was too far windy to go any further. The fire was on River Brunswick, and the light showed very distinctly here.

—Benjamin Warden, who plays at Scott's Press Works, was running an iron flask into the bake oven yesterday afternoon when it caught in the doorway, and by some means the man's thumb got caught and was completely severed from his hand. The boy was hurried over to Dr. Frith's to have his wound dressed.

—A gentleman who says he knows, informs us that the building we referred to a few days ago as being in an unsafe condition, though built by Isaac Malbourn, he was not to blame for it. He also names a number of other buildings put up by him that are models of good work. We give him the benefit of the words in his behalf.

—The case brought to test the constitutionality of the Plainfield Fire Department taxlaws came up in the Supreme Court at Trenton this morning. Cook, Hardy, Ex. for the prosecution, and Vredenburgh, Attorney-General, for the motion of the Attorney-General, that the cause be set down for argument next week, Wednesday. The court thereupon so ordered.

—The Committee on Streets and Public Health have been authorized to have the streets of the city marked at their intersection. Superintendent Dunham is busily engaged in putting the finishing touches to the bridges and is rapidly pushing to completion, so that by the first of July it is hoped to have everything in shape to meet the requirements of the new postal law, which provides for a free delivery system. Plainfield will then be entered as the first city in the State to adopt the system. The prompt action of the council is commendable.

—Potato bugs are said to be so numerous in the upper and central portions of the State that the farmers are unable to cope with the pest, and, owing to the protracted dry weather, the bugs are ravenous and do much damage to the potato vines. Many of the farmers are now resorting to hand picking the bugs, believing that the liquid poison injures the vegetable. In some potato fields groups of children may be seen creeping along between the rows of potatoes shaking the bugs into tin pans. Then the bugs are scalded. The potato bugs not only eat the vines but burrow into the ground and eat the potatoes.

—An ordinance was passed at the City Council meeting last night, and will soon go into effect, which provides that dogs running the streets must be muzzled. It authorizes the erection of a dog pound and the employment of dog catchers, and handlers of scoops to use a new one in scooping their vocations. The keeper of the pound will receive one-half the fines imposed, and the catchers will get twenty-five cents a cadit. Owners of valuable canines should paste this item on their hats for future reference, while those who possess worthless curs will please pass it over to the next item below.

—The Baptist Association of East New Jersey, meets at the church in Piscataway today. There are twenty-nine churches in Newark, Elizabeth, Plainfield and other places, comprising the association. The churches in this city are well represented. From the First Baptist will be the pastor, Rev. Dr. Yerkes and the clerk, O. B. Leonard, besides the deacons and other lay delegates. The Park avenue church is represented by the pastor, Rev. A. R. Dilts, Jr., and clerk, David M. Runyon, besides the deacons and lay delegates. The Second Church sends its pastor Rev. J. Mitchell, and S. Fisher.

—Councilman Voorhees createdquite a little flutter of excitement in the City Council last night when he protested against the printing of the reports of expert engineer Theodore Herring, who was employed to prepare reports upon the sewerage system and city water supply. Mr. Voorhees alleged that the reports were not based upon actual observation, but had been collated from State geological surveys. He claimed that the reports, which cost the city $300, could have been prepared from like sources for $150. If Mr. Voorhees is in possession of evidence to prove that Mr. Bement did not secure his data from actual observation and personal work in this city and vicinity, he should make such information public and prove it, as a duty to the people.

CITY COMMON COUNCIL.

THE TWELFTH MEETING.

The Dog Ordinance Passed—The Streets to be Marked at their Intersection—Engineer Bement's Report Ordered Printed.

It was nearly half-past eight o'clock last night when Mayor Marsh called the Common Council to order. The meeting was not held in the City Court room, as usual, but in the Council chamber in the fire building. Some of them appeared uneasily in their seats for a few moments, while two or three of the members looked at the clock, laughingly at the chairman as though they expected him to understand their mute appeal, but Mr. Marsh remained inflexible and the meeting proceeded. The members present were Messrs. Bowers, Grey, Cox, Dumont, Dunham, Marsh, Taylor, Voorhees, Wilbur, Warner and Simpson. The minutes of the last regular, special and adjourned meetings were read and approved.

Petitions for curbing were received were read from John A. Kitchen and George W. Ran-

[illegible]

ter in the session. A petition from Benjamin Fox for permission to erect a wooden addition about fifteen feet square to his house on West Fourth street, was referred to the Committee on Fire, Water and Lamps and afterwards allowed.

A petition from residents on Madison avenue asking that a flagstone walk be placed on Fifth street at the junction of Madison avenue, was referred to the Street Committee.

Fellowship Fox, for permission to erect a shed after going through the hands of the regular committees, were ordered paid:

B. Guttman	2 50

A communication was read from City Judge John Ulrich, in which he stated that he still had in his possession the fines collected from June 1, 1886, to June 1, 1887. He wanted bailiffs and he would like to know when the moneys should be paid over. A former resolution had provided for this matter, but it had been so worded that it applied alone to his predecessor. The communication was referred to the Finance Committee.

The clerk read that he had paid $50 received from hackmen and carriage licenses to the City Treasurer. On motion of the Finance Committee, as follows:

Balance on hand, last report	$9,839 71
Received from all sources	3,707 40
Total	13,547 20
Distributed as per orders	4,945 99
Balance in Treasury	9,601 21

Receipitulation:

City Treasurer, State and County	$4,470 68
Poor	2,574 33
Tabrum	2,519 20
General Fund	1,987 27
Total	13,551 21

The report of the trustees of the Poor showed that he had paid out $998.19 to aid the poor. A letter from Secretary of State to Clerk Dunham was read, in which he stated that Council would be required to furnish the new ballot boxes for use at the election. The clerk said that the cost would be about $300. The letter was referred to the Committee on Laws and Ordinances.

Mr. Dumont, from the committee on Fire, Water and Lamps, reported favorably on the reports recently presented to Council by expert engineer Theodore Herring, of Chicago, Mr. Herring of Chicago. He offered a resolution that the reports be published in pamphlet form, the number of copies not to exceed 1,000, and that they be distributed under the direction of the Committee.

Mr. Cox objected to the resolution. He said that in his opinion neither Mr. Bement nor Mr. Herring had made any original research in the matter, but that they had been collated from the State geogical surveys. He claimed that the information could be secured in the town, and he had obtained his information from general sources. He thought a report of that kind could be prepared for $100, and the maps for $50. The resolution was sustained by a vote of seven to two, and the report of the committee accepted.

Mr. Bowers said a petition had been received by the Committee on Fire, Water and Lamps for lamps on Second street between Richmond and Berckman. The committee recommended that one lamp be placed on the street. The report was accepted and the recommendation concurred in.

Mr. Bowers, of the Committee on Laws and Ordinances reported the ordinance relating to the muzzling of dogs and providing for a dog pound and dog catchers. The ordinance was passed to its second reading and passed by sections. It was then ordered to be engrossed and duly advertised.

Mr. Dumont, of the committee on Streets and Public Health, moved that the committee be authorized to proceed with the work of macadamizing the streets, the amount not to exceed $6,500. He said that $4,000 had been expended since the first of January, not including the bills before Council. The committee would be limited to $6,500.

Mr. Dumont also said that he had a communication from Mr. Baker offering to mark the streets at their intersection, and he suggested that Council authorize the work be done. Mr. Bowers said the cost would be about two cents per foot for each street, and moved that the committee be empowered to have the work done. Adopted.

Mr. Cox offered a resolution which stated that inasmuch as the term of Job Male, one of the Directors of the Board of Health, had elapsed, if he the sentiment of Council that the name of no other gentleman would be accepted as his successor and that the mayor be asked to appoint himself as his successor for another term. The resolution was unanimously adopted by a rising vote. The communication from the Mayor was read. It nominated George Babcock and John B. Dumont for the office of Trustees of the Board, and also named Job Male as his own successor. The names were unanimously confirmed.

Mr. Cox offered a resolution that Corporation Counsel be instructed to proceed against any parties who are encroaching upon public property on Ninth street. Adopted.

The report of the Treasurer of the Public Library Fund showed the following:

Balance on hand, last report	$444 90
Received from taxes	2,325 09
Total	2,769 79
Disbursements	2,491 99
Balance	278 80
Special Fund, balance	5,698 26
Rec'd from subscriptions and fines	95 90
Total	5,777 46
Disbursements for books, etc	4,050 67
Balance	$1,724 79

Mr. Cox reported an ordinance to amend sections 10, 13, and 14 of the ordinance respecting the morals, peace and good order of the city, which was received and placed on the table for the present, by request of Mr. Cox. The ordinance authorizing the unexpired opening of Front street from Netherwood avenue to the easterly boundary of the city limits was put upon its final reading and passed.

Mr. Dunham offered a resolution that the City Engineer be instructed to send annual reports, on May 31 and November 30, and that he be instructed to carry $50 over from the report to meet necessary expenses. Adopted.

Mr. Cox then moved to proceed to the election of a member to succeed Mr. Albert, resigned. Mr. Bowers nominated O. T. Waring and Mr. Voorhees presented the name of Archibald C. Gaston. The former received eight votes and the latter one. Mr. Waring was declared elected.

A resolution to macadamize Fifth street from Central to Plainfield avenues, and Plainfield avenue from Fifth to Seventh streets was referred by a vote of seven to two.

Mr. Cox was then called to the chair and Mr. Marsh offered a series of resolutions regretting the sad death of the wife of Comedian Simpson, and extending words of sympathy to the brother member in the hour of affliction. The hope was expressed that he would "find comfort in Him in whose hands all things are." The clerk was instructed to send a copy of the resolutions to the gentleman.

Mr. Leonard said that all parties who had neglected to pay for sewer were connection had been notified to do so, and after much complaint he had got them all connected but except in two instances and these would be settled in a few days.

Council then adjourned. As the next regular meeting falls on the night of the Fourth of July, it was on motion decided to meet on the fifth.

PERSONAL.

Miss Eugenie S. Wilcox is lying dangerously ill at her residence, on Manning avenue, North Plainfield.

Dr. Endicott of Park avenue, who has been spending a few weeks at White Sulphur Springs, returned this morning.

Mr. W. A. French, son of Mr. P. M. French of Somerset street, started last week for St. Paul, Minn., to permanently reside there.

The election of Mr. A. T. Waring to Common Council will be hailed with general satisfaction. He is a man of brains and means.

After a severe attack of inflammatory rheumatism lasting several weeks, Rudolph Titsworth of West Seventh street, is again able to be about.

To-morrow evening at 7.30 o'clock, at the residence of the bride's parents, on West Fifth street, Miss Mary Mullen of this city and James Bailey of New York will be united in marriage by Father Smyth pastor of St. Mary's church.

Daniel J. Marshall of Park avenue, who has resided in Plainfield since 1848, will be 80 years old next July. Despite his age he is still hale and hearty. He retired from business in 1845. He then had a feed and grain store in New York.

Bephia C. Mulford died at the residence of her son-in-law, Mr. S. L. Mitchell, on East Sixth street at 10.30 o'clock this morning, aged 76 years. The remains will be taken to Long Island, on the 12.33 train on Thursday for interment.

Rev. T. J. O'Hanlon, pastor of St. Joseph's Catholic church, North Plainfield, is confined to the house, suffering from an attack of inflammation of the bowels. Father Sullivan, the curate at St. Mary's church, celebrated mass in St. Joseph's church Sunday morning.

At Laing's Hotel.

"We pay much attention," said Mr. Miller, of Laing's Hotel, to a reporter, "to transient boarders, and nearly every troupe that gives entertainments in this city stops here. We set a good table, try to give satisfaction, and our register will show you how much it is appreciated. We have forty-five sleeping rooms, and our dining-room, you will notice, is one of the pleasantest features about the house. It is large, airy, and every one who stops here admires it." Then the reporter was shown the pretty lawn at the rear of the hotel, and carefully kept walks in the town, and he had obtained his information from general sources. He thought a report of that kind could be prepared for $100, and the maps for $50. The resolution was sustained by a vote of seven to two, and the report of the committee accepted.

Mr. Bowers said a petition had been received by the Committee on Fire, Water and Lamps for lamps on Second street between Richmond and Berckman. The committee recommended that one lamp be placed on the street. The report was accepted and the recommendation concurred in.

Mr. Bowers, of the Committee on Laws and Ordinances reported the ordinance relating to the muzzling of dogs and providing for a dog pound and dog catchers. The ordinance was passed to its second reading and passed by sections. It was then ordered to be engrossed and duly advertised.

Mr. Dumont, of the committee on Streets and Public Health, moved that the committee be authorized to proceed with the work of macadamizing the streets, the amount not to exceed $6,500. He said that $4,000 had been expended since the first of January, not including the bills before Council. The committee would be limited to $6,500.

Mr. Dumont also said that he had a communication from Mr. Baker offering to mark the streets at their intersection, and he suggested that Council authorize the work be done. Mr. Bowers said the cost would be about two cents per foot for each street, and moved that the committee be empowered to have the work done. Adopted.

Mr. Cox offered a resolution which stated that inasmuch as the term of Job Male, one of the Directors of the Board of Health and Alderman elected, if he the sentiment of Council that the name of no other gentleman would be accepted as his successor and that the mayor be asked to appoint himself as his successor for another term. The resolution was unanimously adopted by a rising vote. The communication from the Mayor was read. It nominated George Babcock and John B. Dumont for the office of Trustees of the Board, and also named Job Male as his own successor. The names were unanimously confirmed.

Mr. Cox offered a resolution that Corporation Counsel be instructed to proceed against any parties who are encroaching upon public property on Ninth street. Adopted.

The report of the Treasurer of the Public Library Fund showed the following:

Balance on hand, last report	$444 90
Received from taxes	2,325 09
Total	2,769 79
Disbursements	2,491 99

THE NEW FACTORY.

A COPY OF THE PAPERS OF INCORPORATION.

Some Interesting Facts About the Company—The City Surveyor Preparing Grounds for the Buildings.

The Pond Machine Company of New Jersey, who are to locate here, is the present Pond Machine Company of Boston, Mass., and since it has been in business many years, originally under the name of David W. Pond, manufacturer of machinists tools. Under Mr. Pond the business languished, and he was ruled in 1881 as having no credit and no capital. To-day the business of the above company was formed, and capital skilled.

Mr. Pond, Manning & Manning and Moore, the New York selling agents, became stockholders. They had advanced Mr. Pond money from time to time, to help him over hard times, until he finally became so much indebted to them that they had to take the factory. They knew its value to their interests. Mr. Pond's inventive ability, which they introduced, the concern prospered. The works originally on the corner of Worcester and Lee, but the town eventually grew all about them. The buildings became unsafe and were condemned by the City Council. As the company would have to rebuild they concluded to look for another site, nearer New York, and at about that time Mr. Worcester, for building lots, in having grown quite valuable. They visited various towns in New Jersey, and when very favorably urged to locate in Rahway or No city, however, that could compare with Plainfield, a city without a bonded debt, and well governed, and having superior advantages generally, so much so that they at once decided to locate here.

With the money realized from the sale of their property in Worcester, they invest in much needed new machinery, and as they would have been compelled to put up new buildings there, they have only to do the same thing here. They are convinced that the Pond machines, and to New York and Philadelphia, and when their buildings here are completed they have only to transfer their machinery from the old Worcester buildings by cars.

Messrs. Maxwell, Manning & Moore, 111 Liberty street, New York, are rated good for $250,000, and with excellent credit. Charles Potter, Jr., the proprietor of Potter's Press Works, speaks of them as A No. 1 parties. It is thought significant that they hold so little of the stock as individuals, but that those not in the matter (as they hold more as a corporation) it is a family concern, and it is said to have profit to the amount of over half a million dollars. The company is also reported to hold a controlling interest in the Worcester Steel Works, which is a large concern, and the location in Plainfield proves a satisfactory one, the other works may be moved here, Springs, returned this morning. Mr. Pond's son will locate at once.

City Surveyor Dunham is to-day engaged in surveying the property, and building operations will be pushed as rapidly as the work can be rapidly forward. Mr. A. M. Ball of Palmer, Mass., who has made a specialty of this kind of work is to be the architect of the buildings. The Plainfield Land Improvement Company will add numerous improvements in the neighborhood of the new works. Lee place is being opened to South avenue, and Monroe avenue is to be opened. A large lot for a public school building will be donated to the district on South avenue near Clinton.

The articles of incorporation have been filed with the Secretary of State. The deeds have been executed, but the papers were not executed yesterday afternoon, as it was expected they would be. This was owing to the absence of some of the parties. Another meeting was held this afternoon for the same object.

Below is given a true copy of the

PAPERS OF INCORPORATION.

State of New Jersey, Certificate of Incorporation of the Pond Machine Tool Company, a corporation formed, organized and incorporated under the laws of the State of New Jersey, in such case made and provided.

We, the undersigned, Chas. H. Maxwell, James D. Campbell, Henry S. Manning, Charles E. Moore, Jr., and Charles A. Moore, and Eugene L. Maxwell, having associated ourselves into a company for the manufacture and sale of tools and machinery, do make and file this certificate in writing of our organization and set forth:

1. The name assumed to designate said company and to be used in its business and dealing, is "The Pond Machine Tool Company."

2. The place or places in this State or elsewhere where the business of this company is to be conducted are Plainfield, in the County of Union, in which county the principal part of the business of said company within this State is to be transacted, and in which county the manufactory and principal office or place which a portion of its business is to be carried on, to wit: the sale of tools and machinery manufactured by said company.

3. The objects for which this said company is formed are the manufacture and sale of tools and machinery.

4. The total amount of the capital stock of said company is four hundred thousand dollars, divided into four thousand shares of one hundred dollars each.

5. The names and residences of the stockholders and the number of shares held by each, are as follows:

Names	Residences	No. of Shares
Henry Graves	Orange, N. J.	Two
John R. Maxwell	Brooklyn, N. Y.	Two
Jas. D. Campbell	New York, N. Y.	Two
Henry S. Manning	Brooklyn, N. Y.	One
Chas. E. Maxwell	Brooklyn, N. Y.	One
Charles A. Moore	Brooklyn, N. Y.	One
Eugene Maxwell	Brooklyn, N. Y.	One

6. The period at which said company shall commence is the first day of June, 1887, and the period at which it shall terminate is the corresponding date of the year 1987.

In witness whereof we have hereunto subscribed our names this 2nd day of June in the year one thousand eight hundred and eighty-seven.

Henry Graves,	Two shares
John R. Maxwell,	Two shares
J. D. Campbell,	(2) Two
H. S. Manning,	(1) One
Charles E. Maxwell,	(1) One
Charles A. Moore,	(1) One
E. L. Maxwell,	(1) One

State of New York, } ss.
City and County of New York }

Be it remembered that on this second day of June, A. D., eighteen hundred and eighty-seven, before me Archibald C. Weeks a Commissioner of Deeds for the State of New Jersey duly appointed and qualified to take the acknowledgments and proofs of deeds etc., in the State of New York, personally appeared Henry Graves, John R. Maxwell, James D. Campbell, Henry S. Manning, Charles E. Moore, Jr., Charles A. Moore and Eugene L. Maxwell who I am satisfied are the grantors in the within certificate named, and I acknowledged that they signed, sealed and delivered the same as their voluntary act and deed for the uses and purposes therein expressed.

In witness whereof I have hereunto set my hand and official seal at New York City, June 2, A. D., 1887.

ARCHIBALD C. WEEKS,
L. S. Commissioner of Deeds for the State of New Jersey in New York.

A Locomotive Explodes.

CHESTER, Pa., June 7.—The shifting engine on the B. & O. exploded at the depot and killed twelve persons this morning.

Fire at New Brunswick.

NEW BRUNSWICK, June 7.—The tannery and outbuilding of Samuel Redever, on Brown street, were entirely destroyed by fire last night. Loss, $5,000; insured for $1,600.

WESTFIELD.

Some more weddings soon.

Haylor & Moffett have begun their new building on Prospect street.

The "World's" balloon car went Easton the B. & O. express yesterday morning.

The new plank walks on Central avenue and First street need a few more nails to keep the boards down.

Crushed stone from the railroad ballast screening arrived last week and most of our pavement is laid.

These children are more attentive at school at present. Examination is in progress at Public School District, No. 10.

Bucker Co., No. 1, and Empire Engine Co., No. 2, will hold their regular monthly meetings to night at their respective engine houses.

John Ingram has another call for plumbing work at Stroudsburg, Pa. He left with his man on Monday for a while's work.

Last Sunday was Children's Day at the Congregational church. The church was handsomely decorated, and was crowded to overflowing. The ladies in charge spared no pains in making this one of the memorable events in the history of this pretty little church. The programme was very interesting, and the Rev. Mr. Owens made it more so by his interesting address to the little ones, which was liberally illustrated with blackboard.

The Sixty-third Anniversary of the Willow Grove Sunday School was celebrated last Sunday. The Secretary's report showed the school to be in a flourishing condition. Addresses have been broken for a new chapel, which is expected to be completed by next fall. The Rev. W. W. Scott led the prayer, and was followed by Mr. Halliday of Rahway, who will shortly be ordained. Rev. N. H. Graves delivered an interesting address, and after the benediction was pronounced by the Rev. N. W. Cadwell the assemblage dispersed.

Last Thursday evening, Alpharetta, daughter of Mr. and Mrs. Robert Woodruff, was wedded to John H. Crane of Newark. The ceremony was performed at Woodbine Villa, the residence of the bride's parents, and the handsome house was brilliant with lights and beauty, while music mingled with the sweet perfumes of rare exotics transported the happy couple with their many friends to the realms of fairyland. The ceremony was performed by the Rev. W. L. Hoagland of the M. E. church of Newark, assisted by the Rev. Dr. Hall and by Mr. Woodruff. The newly wedded couple left on a late train for their future home in Newark.

Because he was an Infidel.

G. L. Rapp, of Keyport, who has a Government liquor license and who was recently fined $150 and costs for selling liquor to minors, was again arrested on a similar charge. It appears that Rapp, in company with several companions, paid a visit to Rapp's bottling establishment last week. Among the party were two boys, one nineteen years old, who bought several bottles of beer. When Rapp learned that there were minors in the party he ordered them out, but they refused to go. Rapp then sent for Constable Wilding, and had them ejected. This action made Runyon and friends angry, and Runyon made a complaint before Justice Wilkinson charging Rapp with again selling liquor to minors.

At the examination, Runyon admitted that he was an infidel. Justice Wilkinson, of the State, the oath of an infidel cannot be recognized by a court, and Rapp was therefore discharged.

This is the only known instance where a defendant has been dismissed in this county on the ground that the complainant was an infidel.—Shore Press.

Tour to the White Mountains.

The second annual 1,000-Mile Tour given by the Unionist-Gazette, Somerville, N. J., will be this year to Plymouth Rock, Boston and the White Mountains, starting July 23rd, and lasting one week. Low rates are fixed, and the editor of that journal will personally conduct it. It is an enterprise originated for pleasure, not profit, and hence the party will be limited to 100 persons.

In the Union County Courts.

The time of the Union County Court at Elizabeth was taken up yesterday with the trial of Michael Whalen, the Rahway barroom keeper, indicted for keeping a disorderly house. Whalen and his friends claim that the case is a political persecution by Mayor Daly because he refused to support the latter in the late election.

Many witnesses were examined, and the bulk of the testimony was in favor of the saloon-keeper. None of the State's witnesses would swear that they drank liquor or beer in Whalen's place, and some of them admitted that they took cigars or soda, and some said that they drank beer in Whalen's parlor, but that it was not sold to them by the keeper.

The case will be concluded to-day.

STATE NOTES.

Some boys, while playing in Cedar Cliff Park, near Bordentown City found a man in an advanced state of decomposition. It is supposed that the body is that of Eli Sheldon, aged 52 years, who disappeared mysteriously from his home on Willis street April 11th.

A serious affray occurred last night at Camden. "Dory" Johnson was stabbed seven times in the back by Thomas Kessler, a machinist in the employ of the Pennsylvania Railroad. Kessler has been jealous of the attentions which Johnson has been bestowing upon the former's wife, on coming home late last night he found Johnson in the house, and assaulted him. George Kample, a brother-in-law of Kessler, also joined him in the assault. Johnson was armed with a knife, the blade of which, in one instance, penetrated his left lung, causing a probably fatal wound. Kessler was taken into custody.

NEW JERSEY CENTRAL.

Plans of the Reorganization Committee—Success Assured.

The Reorganization Committee of the Central Railroad Company of New Jersey, consisting of Frederick P. Olcott, J. Rogers Maxwell, George F. Baker, John Crosby Brown, and J. Kennedy Tod, made public their plan for the relief of the company last Friday. It provides for the issue of $50,000,000 gold bonds running 100 years and bearing interest at such rates as may be fixed from time to time as the bonds are issued, but not exceeding 5 per cent. These bonds are to be secured by a general mortgage covering all the property of the company, including all the securities representing the control of the constituent companies, and all equipment now subject to special car trust liens. All the security of the old bonds will be preserved, while the new bonds will have the additional protection of all new property. An immediate issue of these bonds at the maximum rate of interest and to an amount necessary to carry out the provisions of the plan has been authorized and the committee announced that they had formed a syndicate which would take at par and accrued interest $12,000,000 of the bonds for a commission of two per cent. The success of the plan is assured by the fact that nearly sixty per cent of the company's indebtedness already agrees to the plan, and by no amendment on the stock, but the reduction in fixed charges by the lower rate of interest will bring them within the net earnings of last year. Economies of management will be secured by the consolidation of many of the constituent companies and by other reduction in expenses, while the new capital expended and improvements authorized are expected to increase largely the gross revenues which were less in 1886 than in 1881. Of the entire issue of $50,000,000 there will be $2,500,000 available for betterments.

The details of the plan provide for subscription at the rate of $1,000 per share for the new bonds to the extent of 10 per cent of their holdings. Holders of the adjustment bonds of 1910 and holders of the 7 per cent bonds of 1910, the consolidation and convertible bonds of 1910, the debenture bonds of $5,166 flat and holders of the stock of the subsidiary companies on specified terms. The transfer books will be closed on June 15 and the privilege to subscribe to the new bonds will expire, except for foreign holders, on June 25.

—The city of Bridgeton, N. J., is likely to have an electric street railway very soon. A movement is now under way to call a public meeting of the citizens to consider the best means of promoting the work. In its location and style the road will greatly resemble Philadelphia. It too has a superb electric light plant. Its citizens are made up chiefly of commuters to Philadelphia.

Cent-a-Word Column.

A PROTESTANT girl wants a situation as nurse or chambermaid and waitress. Call at No. 8 Park avenue.

A SWEDISH Girl wants a situation as chambermaid and waitress. Address E. O. Box 655.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 6.—Money closed at 1 per cent., which was the lowest of the day. The highest rate was 1 per cent. Exchange closed steady; posted rates, 4.86@4.87½; actual rates, 4.85¾@4.85¾ for sixty days and 4.88@4.88½ for demand. Government bonds dull and steady; currency 6s, 103 bid; 4s, coup., 124½ bid; 4½s, reg., 109¾ bid; 4½s, coup., 109¾ bid.

The stock market continued weak without any decline of moment after midday and up to 2 o'clock, when there was some buying to cover and a sharp rally by some of the stocks. Western Union was especially strong, and closed at an advance of ¼@¾ per cent. on the day's offer that some favorable adjustment of telegraph difficulties is pending. The closing figures were irregular, some of the list showing advances of ¼ to 1 per cent., and others declines to a similar extent. St. Paul recovered a fraction of its early decline, but was off finally 1 per cent. to-day.

General Markets.

NEW YORK, June 6.—FLOUR—Closed quiet and unchanged; winter wheat extras, $3.40@3.50; Minnesota extra, $3.40@3.50; city mill extra, $4.70@4.80; Ohio extra, $3.40@3.50; southern very quiet; common to choice extra, $4.40@5.25.

WHEAT—Options were irregular and moderately active, closing firm and ¼@¾c higher. Spot lots closed firm and ¼@½c higher. Spot sales of No. 1 red state, $1; No. 2 do., 99½c; No. 2 red winter, 99½c; No. 3 do., 96½c; ungraded red, 95@99c.; No. 2 red winter, June, 96c. bid; do., July, 89¼c.; do., August, 89¾c.

CORN—Options were dull and irregular, closing steady at about Saturday's prices. Spot lots closed firm and ¼@½c higher. Spot sales of mixed in elevator, 48c.; ungraded mixed, 47½@48c.; No. 2 mixed, June, 47¾c.; do., July, 49¾c. bid; do., August, 50c. bid.

OATS—Options were moderately active and firm, closing at about ½c. advance. Spot lots closed firm and ¼@½c. higher. Spot sales of No. 1 white state, 38c.; No. 2 do., 37½c.; No. 3 mixed, July, 34½c.; do., August, 32c.

RYE—Dull; state, 61@63c.; western, 59@62c.

BARLEY—Nominal.

PORK—Dull; old mess, $12; do., new, $12.50; LARD—Closed quiet; prime steam, $6.27½@6.37½; city, $5.90.

BUTTER—Dull; state choice, 12@18½c.

CHEESE—Dull; state, 7½@10½c.; part skims, 3½@6½c.

EGGS—Dull; state, 10c.; western, 9½@10c.

SUGAR—Raw quiet; fair refining, 4½c. Refined firm on a good demand; cut loaf and crushed, 6-16c.; cubes, 6¾@6 13-16c.; powdered, 5 15-16@6 1-16c.; granulated, 5⅝@5 15-16c.; mould A, 5⅝@5 13-16c.; confectioners' A, 5 11-16c.; nobby A, 5 9-16@5 11-16c.; standard "C" A, 5 7-16c.; white extra C, 5c.; extra C, 4 15-16@5 1-16c.; C, 4 9-16@4 11-16c.; yellow, 4¼@4 7-16c.

Dr. McGlynn Snubbed.

ALBANY, June 7.—Rev. Dr. McGlynn addressed a large audience here last evening. Thomas J. Dowling, master workman of the Knights of Labor, declined to preside at the meeting and declared he would not attend it. Rev. George Muller, of Schenectady, presided.

Dropped Dead on the Way Home.

SPRINGFIELD, Mass., June 7.—Charles Adams, of Philadelphia, who has been visiting at Enfield, died suddenly at the railway station yesterday, just as he was about to take the train for home. Mr. Adams was 75 years old. His death was caused by apoplexy.

Lucky Jack Haverly.

CHICAGO, June 7.—The Mail says that Jack Haverly has bought in a single week about 1,000,000 bushels of June wheat; that the price averaged eighty-three cents, and that Haverly is a winner of about $70,000. The story is vouched for by people on the inside.

Troops Preparing to Move Out.

CAIRO, June 7.—Arrangements are making for a large reduction of the British army of occupation in Egypt, and the movement, which will be gradual, will soon begin. Probably the first troops withdrawn will be taken from the garrison here.

Mr. Blaine Off for Europe.

NEW YORK, June 7.—Mr. Blaine and party went aboard the steamer this last night and are now on their way to Europe. Mr. Blaine spent yesterday in a quiet manner, receiving several distinguished callers at the hotel.

Mr. Parnell on Duty.

LONDON, June 7.—Mr. Parnell made his appearance in the house of commons last evening. He is much improved in health and spirits, and has gained greatly in flesh during the Whitsuntide recess.

The Beecher Monument.

BROOKLYN, June 7.—The common council selected the plaza in front of the city hall as the site for the monument to be erected in memory of Henry Ward Beecher.

Burned to a Crisp.

LIMA, O., June 7.—Mrs. Hattie Arnold, a cook in the Hotel Bowsher, was burned to a crisp by a gasoline explosion. Her home was at Delphos, O.

Death of a Leading Austrian.

VIENNA, June 7.—Herr Clammaritnitz, the leader of the lower house of the reichsrath, is dead.

CONDENSED NEWS.

David Gogolin, a German, who in October last killed a woman named Kuhn, refused to vacate his house or pay rent, was hanged at Pembroke, Ont.

The Charleston, W. Va., coal miners have returned to work on the new mutually payment system, against which they struck.

A picnic party were driven over a precipice in a stage near Cincinnati, and several persons were injured.

The Russian ambassador to Turkey arrives the special envoy of Great Britain of having bribed the grand vizier and other Turkish officials to grant favorable conditions in the treaty about Egypt.

In the preliminary proceedings of the Sharp trial, at New York, Judge Barrett heard the testimony of three jurors who alleged that they had been approached for the purpose of influencing their verdicts. Warrants will be issued for the apprehension of the parties whose names were given.

The evidence for the defense in the trial of Berkeley Peak, on trial for murder at Mount Holly, N. J., tended to establish the possibility that Mary Anderson may have shot herself.

The negro who attempted to assault Mrs. Park, the mother-in-law of Sheriff J. W. B. Robinson, of Monroe county, Ark., was hanged to a tree near the county house.

Art in Boston is said to be getting so high as to shock modest eyes, and the latest freak of some of its devotees has resulted in a prominent photographer's arrest.

Chief Justice Ulysses Mercur, of the supreme court of Pennsylvania, died at the residence of his son, at Wallingford, Pa., from congestion of the lungs.

WORKMEN IN COUNCIL.

THE PRINTERS, STEEL WORKERS AND MINERS CONFERRING

On Matters of Importance to Their Varied Industries—The Probable Attitude of the Catholic Church Towards the Labor Organizations.

The Printers.

BUFFALO, June 7.—At yesterday afternoon's session of the International Typographical union the committee on the report of the executive council was selected. The question of plates was referred to a special committee of five. Another committee to take into consideration the question of loaning or borrowing matter between newspaper offices was appointed. A resolution repealing the law of last year making The Craftsman, the official organ received strong support. President Dunnam, of New York union, protested vigorously against the official organ and assessment business, and thought it was very hard to compel members to compel support of a paper over which the International Typographical union had no control. His remarks were greeted with applause. Mr. Wilkins, of Peoria, followed in the same strain, protesting against having any paper forced upon the unions. The discussion of this question occupied the time of the afternoon session, and at 5 o'clock the convention adjourned until 8:30 this morning. The president's annual address will be read at this session, and all this morning's business. The delegates are now enjoying a drive around the city, and will lunch at the Parade house.

The Miners.

CINCINNATI, June 7.—At the miners' convention yesterday the committees on finance and resolutions, and also the executive board finished their reports, which were approved in full. The finance committee reported a balance to be in a flourishing condition. As what they consider the most important business of the convention has been accomplished, although several days remain, the delegates left for their homes. The election of officers will engage the attention of the convention from now on. In the race for master workman the indications are that the present incumbent, Robert Lynn, of Kansas; Isaiah Phillips and J. D. Costello, of Pennsylvania, most prominently mentioned. It is strongly intimated, however, by delegates that if is by no means certain that a dark horse will not carry off the honor.

Iron and Steel Workers.

PITTSBURG, June 7.—Delegates to the annual convention of the Amalgamated association of Iron and Steel workers, which meets in this city to-day, are arriving with every train. The wage committee is hard at work formulating the scale. The general opinion among the delegates is that the $3.50 scale will receive favorable consideration and be adopted by the convention. It is probable that the question of the reduction of the full furnaces' schedule in the general scale will be brought up at this meeting. There is also talk of bringing in an engineers' scale.

The Church and the Toilers.

NEW YORK, June 7.—Cardinal Gibbons refuses to say anything of his intended action on the labor question. Before giving his views to the public he will call a council of the eleven archbishops of the American Catholic hierarchy, and then declare steps will be taken, which will leave no doubt of the church's attitude. The council will probably be held in Baltimore early in the summer.

Regarding the probable character of the forthcoming pronunciamento, a close companion of the cardinal intimates that the right of laboring men to combine for their common benefit will be conceded, and all such lawful combinations will receive the blessings of the church. But Catholics will be forbidden to take part in boycotts or other infringements of the rights of citizens, and they will be forbidden to join any organization which practices intimidation, whether of a violent or other character. No Catholic will be permitted to become a member of any order which binds its members to secrecy or blind obedience to the dictates of leaders. Secret societies will be permitted, but a Catholic must have no secret which cannot be reached by the confessional, if necessary. It will also be proposed that a closer relation be brought about between the local members of labor organizations and the Catholic clergy. The object of this is to prevent Catholic laboring men from drifting off from the church on account of their associations with Protestants, and to keep them from adopting theories which are antagonistic to the church's dogmas.

From the same source it is also learned that Cardinal Gibbons' position in the McGlynn case is simply this: He likes Dr. McGlynn personally, and does not condemn him for advocating general property in land, for that doctrine has not yet been pronounced heretical by the pope speaking ex-cathedra, but he does blame Dr. McGlynn for meddling against his ecclesiastical superior and dabbling in politics to an extent unbecoming his priestly character.

Machinery Constructors.

PITTSBURG, June 7.—Twenty-five delegates from various parts of the United States were present at the opening session of the machinery constructors' convention in this city yesterday. The delegates represent machinists, blacksmiths, foundry men, pattern makers, boiler makers and their helpers, and are here for the purpose of forming a national trade assembly of the Knights of Labor machinery constructors. The sessions will be conducted with closed doors.

The Stove Molders.

PITTSBURG, June 7.—The stove molders' strike was amicably settled yesterday. The molders in both cities have agreed to remain, and all of the foundries started up again this morning. The new conditions as before the strike was inaugurated.

The Natrona Strike.

PITTSBURG, June 7.—Master Workman George Dovey, of District Assembly 3, Knights of Labor, left for Philadelphia last evening to look after the affairs of the Natrona men before the general executive board.

Caused by Liquor.

LOS ANGELES, Cal., June 7.—Gen. Miles says that the latest Indian outbreak in Arizona is the result of a drunken quarrel, which led to a feud between two bands of Indians in the San Carlos agency. The troops now in pursuit will follow those Indians until they are captured or destroyed. Only one white man is reported killed thus far. These Indians, the general says, are not connected in any way with the Apaches who broke bounds last year, and trouble of this kind is sure to occur as long as the Indians get liquor.

PRINCE ALEXANDER

To be Reinstated as the Throne of Bulgaria.

SOFIA, June 7.—In view of the failure of the ex-king's letter to the powers urging their nomination of a prince of Bulgaria and the early settlement of the Bulgarian question, in effect favorable responses, the regency have decided to convoke the sobranje to the election of Prince Alexander, hoping thereby to smooth the way for the departure from the low ground in the manger policy they have so long pursued regarding the reinstatement of Bulgaria. This action is especially aimed at Russia and will no doubt have the effect of awakening the powers to a realization of the fact that the time has arrived when Russia must acquiesce in the enthronement of a prince of Bulgaria acceptable to the other powers, or by occupying Bulgaria herself, undo the specious plea of suppressing anarchy in that country serve, herself against Austria, Germany, England and, of course, Turkey. The proposal to reinstate Prince Alexander is not put forth as a feeler, but is made in all seriousness, and the scheme will be pressed out unless armed intervention should put an end to it.

LONDON, June 7.—It is stated that Russia has finally determined, in view of the success which is now attending the pressure exerted by the Bulgarian deputies, to negotiate with the powers for the election of a temporary prince of Bulgaria, pending the final settlement of the Bulgarian question, but it is not likely that the powers will accept this proposal.

FIFTY THOUSAND FAMILIES

Ruined and Rendered Homeless Through the Breaking of the Dykes.

VIENNA, June 7.—The distress in the flooded districts of Hungary increases hourly, and the water is rapidly rising. A large number of lives have been lost and 100,000 heads of cattle have been drowned at Szaksz, near Szegedin. The flood has reached the Csanad country, and owing to the low position of the land will probably cover it. The crops will be submerged and destroyed. Csanad is also under water, and the flood in that region shows no sign of abatement. It is estimated that 50,000 persons have been rendered homeless, and are permanently ruined. The gentry are actively engaged in endeavoring to repair the dykes, but as others are unmindful of their own property and refuse to assist in checking up a breach the efforts of the former are rendered of little avail. Thousands have left the flooded districts for their homes. The question of succoring the panicked with their destitute infancy, and must not concern much longer.

Many Charges of Bribery.

NEW YORK, June 7.—It is asserted that a clerk in the district attorney's office has been offered over $1,000 bribe to reveal certain information in connection with the boodle trials. District Attorney Martine, being asked about it, said: "So far as it is applied to the case of Sharp, there is no truth in the statement. Whether such a thing was tried in another boodle case I will neither deny nor affirm."

Assaulting a Nun.

LACROSSE, Wis., June 7.—The convent bell rang an alarm about midnight. Inquiry elicited the information that some unknown brute had gained access to the nun's dormitory and attempted to assault Sister Hermina. She fought bravely until she effected her escape by leaping from the window, falling upon the ground, eighteen feet below. She was not seriously injured. The villain escaped.

An Attack on a Minister.

CHICAGO, June 7.—Four drunken roughs committed a brutal and unprovoked assault on Rev. R. T. Newell at the corner of Dearborn and Jackson streets. They first jostled the minister out of the sidewalk and then struck and kicked him repeatedly and would probably have killed him had not a number of citizens come to his rescue. Three of them were afterward arrested and locked up.

A Fatal Stroke of Lightning.

GALLIPOLIS, O., June 7.—During the storm Sunday evening John W. Neal, aged 37, was struck by lightning and instantly killed. He and his father were sitting at the door of their home at Blandensburg when lightning struck the chimney, demolishing the mantel and clock upon it. Before reaching the floor the bolt separated, one part killing young Neal and the other seriously burning his father.

Masons Oppose Liquor Selling.

ST. LOUIS, June 7.—The adoption of measures by the Masonic Grand Lodge of this state for the expulsion of all members of the order engaged in the liquor business is creating dissensions in the body, opposition coming mainly from the German members, who claim that selling beer is no greater offense than selling rye, and a serious split in the Grand Lodge is not unlikely to occur.

Women at the Polls.

OMAHA, June 7.—The school board election took place yesterday. Three tickets were in the field—Republican, Democratic and Non-Partisan. The Republican ticket was elected. Women were permitted to vote. Schoolma'ams were out in full force and worked like beavers. They had carriages and worked like old time politicians in gathering in votes.

A Wife's Touching Devotion.

ROCHESTER, June 7.—John Peterson, convicted of being an accessory to an assault upon a young woman, was sentenced to five years in Auburn prison. His wife made a scene in the court room by falling on her knees and imploring God to prevent the separation of man and wife and beseeching Judge Morgan to recall the sentence.

Teller Hornblower at Home.

NEW YORK, June 7.—Arthur E. Hornblower, the missing teller of the Hoboken Savings bank, has been found in Bingham ton. He is now at his home in Hoboken. The members of the family refused last night to allow him to be seen or to make any statement. His mind has been temporarily impaired, but he will recover.

Seeking to Prove Insanity.

BUFFALO, June 7.—In the Penseyres murder trial Mr. Laughlin opened for the defense. He claimed that the prisoner, Mrs. Penseyres, was insane, and asserted that the prosecution had failed to prove that she murdered her husband. Medical testimony tending to show the prisoner's insanity was introduced.

Ex-Governor Cleveland Dead.

HARTFORD, June 7.—Ex-Governor Chauncey F. Cleveland died suddenly of apoplexy at his home in Hampton at 2 p. m. yesterday. He was 70 years of age, and his second wife survives him. He was governor from 1842 to 1844. He was an uncle of R. S. Cleveland, the Democratic candidate for governor last year.

Norwich City Election.

NORWICH, Conn., June 7.—The Democrats elected seven and the Republicans five of their nominees at yesterday's city election. The mayor is a Republican and the common council is tied.

A FEARFUL TRAGEDY.

RELIGIOUS DIFFERENCES LEAD TO A SCENE OF HORROR.

Frederick Hermann, an Evangelical Lutheran, Kills His Infant Child, Attempts to Murder His Wife and Cuts His Own Throat.

PITTSBURG, June 7.—Frederick Hermann, aged 35 years, employed as a helper in an iron mill, killed his little daughter, aged 18 months, beat his wife until he thought her dead, and then cut his throat. Hermann, who has been employed for several years, is a member of the Evangelical Lutheran church. His wife is a Catholic. On account of faith they have managed to agree until quite recently. Hermann objected to his wife's objection to the baptizing of the two eldest children in the Evangelical Lutheran faith, but she, a few weeks ago, determined to have Lizzie, the baby, baptized into her church. She took the little one to a priest about two weeks ago, while the father was at the mill, and had the ceremony performed. Hermann was ignorant of this, when, while at work, one of his friends told him of it. When his work was done he went to his home, called his wife to his side, and made her tell him all. She, knowing his temper more than usually affectionate until he asked her if she had had Lizzie baptized into the Catholic church. His wife answered in the affirmative, when he said: "Then it was a question of the death of one of them."

His straw suit went toward the cupboard for a knife, when Mrs. Herman jumped out of the house. He followed her, and felled her on the head with a brick until she became insensible. He then returned to the house and going to the second story bedroom, where his little daughter was sleeping, cut her throat from ear to ear, almost severing the head from the body, killing the little one before his mother. He then went to another room, and, placing the head of his wife on a chair, severed it from her body.

A neighbor, Joseph Kessler, was to the house and met by Hermann, who told him his wife would be dead when he returned. Kessler ran to Thurman. In them he says he was deceived by his wife. He also says he has forgiven her now. A minister is with Hermann, and he says he is ready to die. Thousands of people are congregated around the house, awaiting death, which will result from the blood. Mrs. Hermann is in a critical condition, and may die.

MURDER MOST FOUL.

Five Persons Killed in a Dispute Over a Tree Claim.

HUMBOLDT, Neb., June 7.—A horrible tragedy occurred in Lake Byron, a neighborhood twenty miles south of here, in which Thomas Nelson, a farmer, shot and killed Mrs. Shannon, her son, aged about 15, and her sister Miss Lyman, aged about 20. The shooting occurred in the house of Mrs. Shannon, and was the result of a contest over a tree claim, which neighbors chose to call Mrs. Shannon. Before the shooting Nelson had driven his team and plow to the claim to do some plowing, when they were met by Nelson, armed with a Winchester rifle, revolver and a large knife. Mrs. Shannon and her son, who had a claim adjoining the claim in dispute, were also in the vicinity. They first walked to the claim to see what Nelson was doing, when they were met by Nelson, armed with a Winchester rifle, revolver and a large knife. Mrs. Shannon asked Nelson what he was doing on her claim. Nelson replied: "It is mine." Mrs. Shannon then went to the house and placed the muzzle of a rifle to his temple and fired the head almost to atoms. Some of them looked with people are going to the scene.

The Prohibitionists Active.

ALBANY, June 7.—The executive committee of the Prohibition party met here and decided to hold the Prohibition state convention at Syracuse on Aug. 31 and 32. Arrangements were made to begin a speaking campaign throughout the state immediately after the state convention is held. Ex-Governor St. John, of Kansas, and John B. Finch, of Nebraska, will traverse the state making speeches. Chairman Wheeler says the convention will nominate a full state ticket, and that the party expects to poll 50,000 votes.

They Suspect Their Neighbors.

WICHITA, Kan., June 7.—Two children of Frank Tucker, aged 4 and 8 years, died Sunday night within twenty minutes of each other. They were sick but a few hours and died in the greatest agony, giving every indication of having swallowed poison. The Tuckers and their next door neighbors, the Harrisons, have been bitter enemies. The two children were coming out of Tawnehill's house Sunday, one eating a banana, the other a piece of bread, given by Mrs. Tawnehill.

Monsieur Wilson's Denial.

PARIS, June 7.—Daniel Wilson, son-in-law of President Grevy, of whom it had been said in connection with the proceedings for divorce about to be begun against him by his wife that he had become financially involved through unlucky speculation in the bourse, has published a letter denying his pecuniary embarrassment and declaring that he has participated in no transactions in the bourse that could have given rise to the reports circulated.

Evangelical Lutherans.

PHILADELPHIA, June 7.—The Evangelical Lutheran conference, at its yesterday afternoon session, discussed the subject of the new seminary and finally referred the matter to a committee, who will make a report to-day. Reading was named as the next meeting place of the executive committee. A centennial memorial service was held last night for the Rev. Dr. Henry Muhlenberg, who died in 1787.

Chicago Election.

CHICAGO, June 7.—The election yesterday for the new circuit judges of Cook county resulted in a victory for what is called the Citizen's ticket by a plurality of over 15,000. Not over one-half of the city vote was polled. The judges elected are Messrs. Horton, Waterman, Williamson, Clifford and Grinnell, the last named being the present state's attorney, who is conducting the boodle trials here.

Narrow Escape from a Solid Shot.

PORTSMOUTH, June 7.—A solid eight inch shot, fired from a gun at Fort Point before dark last evening, struck the rocks on the west shore near Target Hill, glanced, and, passing over the east shore near the road to Fishkill, north of Cold Spring. A man driving along the road narrowly escaped being hit by it. The shot has been dug out, and is now on exhibition at Cold Spring.

The New Pontifical Secretary.

ROME, June 7.—Mgr. Rampolla, the newly elected pontifical secretary of state, was received by the pope in private audience. His holiness, after congratulating the secretary on his elevation, requested him to give his attention to the question of the acquisition by the vatican of temporal power over the city of Rome.

Drowned While Bathing.

DAVENPORT, Ia., June 7.—Three boys named Bock and two named Hingle, all of Maquoketa, and none of them over 16 years of age, were drowned while bathing in the Maquoketa, near the city of that name.

O'BRIEN'S ATTITUDE

Meets with Approval and Disapproval in New York.

NEW YORK, June 7.—Mr. William O'Brien spent a busy morning yesterday receiving callers at the Hoffman house. Among those who called were Mayor Edson, Hyman Sonnenschmidt, ex-vice-president of the National league; Dr. William B. Wallace, ex-president of the Irish municipal council of this city; the Rev. Thomas Lynan, Mr. M. P. D'Hanlon, the Rev. Denis F. O'Flynn and John F. Lynch. All were warm in their congratulations to Mr. O'Brien for his previous speeches in favor of evicting tenants, among Mr. O'Brien declared that he had been misquoted in his course by no priest or politician, and that for him to be other than pacific on Saturday night would have been to strike a fatal blow at the Irish cause.

"I confess I have no desire to lunch by affection with Mr. Mowbray," said Mr. O'Brien, "and I don't wish to continue the introview further. I am confident that the judgment of thinking people, in America and abroad, will uphold me."

Many called to congratulate him on the stand he had taken, and letters were received condemning his course. In the afternoon he was the guest of the Lotos club, and speeches were made by Mr. O'Brien, Gen. Howard, Col. Cockerill, Richelieu Robinson and Bill Nye. Mr. Nye said:

"I want to tell Mr. O'Brien that I feel a warm place in my bosom for him, and give to him a recipe which I have with me for taking egg stains out of a dress suit, so that the garment will not know it ever was struck it all. (Laughter.) I have been in the lecture business myself, and I know how to remove those stains. I want to say personally to Mr. O'Brien that I am behind him (laughter) that we welcome Mr. O'Brien and what we're glad he's here alive and that all his limbs are with him."

To-night will be a banquet in honor of Mr. O'Brien at the Hoffman house.

MURDERED FOR MONEY.

The Police on the Track of the Supposed Murderers.

MALONE, N. Y., June 7.—Some lads, while at play on Ramsey street on Saturday night, came upon the corpse of an unknown man in a culvert near the roadway. Coroner Mabbett was notified and empaneled a jury, which revealed a fractured skull and other marks of violence, which proved beyond a doubt that the man had been murdered. The body was identified as that of a man who came to Malone from St. Regis Falls on June 1. He had a draft for $2 cashed at the Third National bank. The register of the Franklin House in St. Regis Falls shows that Wm. Wood from N. Y. Vanderbilt & Sugtenerville, and the deceased $142 in the hotel office when it went to Malone. King, who been with him during the time he was in St. Regis Falls, says that they lived "clean." Nothing more was seen of Vanderman until his body was found in the culvert. King has been in jail in Malone, and is looked upon as a hard character. The police are on his track.

UNDOUBTEDLY INSANE.

Joseph Harrison Fatally Shoots a Relative in Order to "Sic Him Up."

MCKAY, PA., June 7.—A fatal shooting affray occurred in Findley township, about four miles from this place, by which two well to do farmers will lose their lives. Joseph Harrison, aged 45, and Thomas McKay, has been visiting the latter since Saturday. Yesterday morning, as they were walking from the barn to the house, Harrison shot McKay in the back and then ran to the woods. McKay was taken to the house and the neighbors called.

Harrison was found about half a mile from the farm with his throat cut in two places, a bullet hole in his abdomen and one in his mouth. He was conscious and inquired for McKay. He said he only wanted to stir him up. As he had fired the fatal shot and the artist between the men, insanity is the probable cause of the deed.

NEW LAWS FOR NEW YORK.

The Bill Regulating Hours of Labor on Street Railroads Signed.

ALBANY, June 7.—Bills were signed by the governor yesterday as follows: For moral protection of messenger boys; appropriating for manufacturing purposes in state prisons; for preservation of salmon; regulating hours of labor on street and elevated railways; for registry of canal boats; the canal debt sinking fund tax bill; relating to transporting and damages to persons from traction engines on highways; for relief of drafted men; amending the banking law so as to savings bank investments; in relation to railroad corporations; amending the code as to Sabbath breaking; amending the code as to applications for writs of trial; relating to rights of riparian owners of ice.

The Confederate Memorial.

BALTIMORE, June 7.—The memorial, cold, drizzling rain which fell yesterday marred the celebration of Confederate Memorial day. The most interesting event was the unveiling of a noble monument in Loudon Park cemetery, in honor of the late Col. Harry Gilmore, one of the most gallant and intrepid soldiers in the Confederate army. Last night at Ford's theatre Gen. Joseph E. D. R. Hill, of Georgia, lectured on the "Old South." He said the pension bill to Union veterans, passed by the aid of all the southern congressmen, when coupled with the pluck, patience and fortitude of the old south, for they knew what a tough job it was for the 2,000,000 Union soldiers to overcome the 700,000 rebels.

Germany's Crown Prince Again.

LONDON, June 7.—Dr. Mackenzie, the eminent specialist, whose examination of the throat of Crown Prince Frederick William of Prussia led him to declare his patient's trouble in no degree dangerous, and to refute the suggestion that he was afflicted with cancer, started for Berlin to make another examination and perhaps perform another operation. It was understood here that Dr. Mackenzie himself had pronounced the patient in no further need of his services, and his unexpected departure for Berlin has increased the suspicion to almost positive belief that the crown prince is in a critical state.

Philanthropist Corcoran Stricken.

WASHINGTON, June 7.—Hon. W. W. Corcoran, the well known banker, capitalist and philanthropist, was stricken with what was at first supposed to be a serious and perhaps fatal stroke of apoplexy. A slight paralysis of the left arm ensued. Dr. Lincoln, the attending physician, at a late hour last night reported his patient as slightly improved. Mr. Corcoran's chances of recovery are regarded as fair, although his extreme age—he being in his 89th year—causes the gravest apprehensions.

Boodle Rumors at Harrisburg.

HARRISBURG, Pa., June 7.—Representative Foos, of Sioga, one of the most prominent Republicans of the last legislature, says that the people, irrespective of parties, are highly indignant at the delay of the governor to call an extra session of the legislature, so that the blunder in the revenue bill can be remedied. The latest report is that three senators and a clerk were given $75,000 by the various corporations who will profit by the bill's defeat.

SPECIAL SALE of HOLLAND SHADES at the Front St. Paint Store

50c Shades Reduced to 35c.

Also Traveler's Life and Accident Insurance Co., of Hartford. Assets $6,000,000. Insurance from $1 to $5 days. Office with H. Thorn, opposite depot, Plainfield, N. J.

PHYSIOLOGY AND HYGIENE.

Advice from Various Sources About What to Eat and What to Drink.

A French journal warns the drinkers of alcohol against the fact that the liquid finds its point in the carbonated beverage finds its way to the kidneys and eventually produces Bright's disease. The writer also protests against the habit of drinking of cathartic in the stomach. He says: "Water should be drank cool, but not iced. Water should always be swallowed slowly. It is not the stomach which is hurt by too much water, but the throat. If you toss off a drink of water you throw it through your mouth into your stomach, without doing the former any good, while injuring the latter by flooding it with what it does not require."

Sanitary Era, commenting on the above, says that there are grains of truth and sense in this advice, but the universal grain of salt needs to be added sometimes.

An Oculist's Advice.

Keep a shade on your hat, cap or bonnet.

Never read or sew directly in front of the light, window or door.

It is best to let the light fall from above, obliquely over the left shoulder.

Never sleep so that on first wakening the eye shall open on the light of a window.

Never begin to read, write or sew for several minutes after coming from darkness to light.

Do not use the eyesight by light so scant that it requires an effort to discriminate, whether twilight, moonlight or on cloudy days.

Finally, the moment you are instinctively prompted to rub your eyes, that moment stop using them.

A Health Giving Diet.

Indian corn contains a large amount of nitrogen, has more fat than wheat, is easily assimilated, cheap and very nutritious. A doctor of such decisions that a cousin of Indian meal, in the shape of johnny cake, hoe cake or other bread, if well cooked and served by copious draughts of pure cow's milk, to which, if inclined to dyspepsia, a little lime water may be added, will make a life, now a burden, with health to living, and you need no other treatment to retain your nervousness, brighten your vision and give you sweet and peaceful sleep.

Most Holidays for Schools.

A happy feature of the school system in Germany and Switzerland, and one worthy of the consideration of other countries, is what are known as heat holidays. When the temperature reaches a certain height, a holiday is proclaimed and is welcomed with delight by the pupils. Such holidays are provided for by law in both public and private schools. At Berlin, whenever the thermometer indicates 77 degs. in the shade at 10 o'clock in the morning, the school is dismissed.

Carbolic Acid as a Disinfectant.

"Carbolic acid has been much overrated as a disinfectant," says Robena Roose, M. D. "The spores of the micro-organisms discovered to cause of splenic fever have been found to be absolutely unaffected after lying for upwards of three months in a five per cent. solution of carbolic acid in oil. It has been found that vaccine matter mixed with carbolic acid in solution still retains its efficacy."

To Correct Biliousness.

For biliousness a plain diet of bread, milk, oatmeal, vegetables, and fruit with lean meat or fresh fish, is advised by The Medical and Surgical Journal. Exercise in the open air helps. The victim of an acute attack will be righted by: first, abstinence; second, porridge and milk; third, toast, a little meat and ripe fruit, coming thus gradually to the solid food again.

A Cure for a Sallow Complexion.

Buttermilk is now recommended for the cure of the sallowness produced in the complexion by advancing age. It has long been popular for the prevention and cure of freckles and other injuries to the skin caused by wind and sun.

SOCIAL ETIQUETTE.

Manners and Customs Practiced in Polite Society.

Mrs. John Sherwood, in giving some seasonable hints to country and suburban folk about summer hospitalities to guests from a distance, says that as Americans, hostess has yet much to learn in the giving of her invitation. She should send a time card of the train and the route to be taken, as they do in England. Imagine the confusion of an English guest who is invited to Tarrytown or Rockaway, Manamesack or Lenox and not told how to get there! The formal invitation as to time of arrival and departure, should be distinctly added. Also an invitation should specify the persons who are expected; nor should the invited guest take anybody not so specified. Children, horses and dogs should never be added to the party, unless specially invited. If a lady writes to take her maid she should write to her entertainer and ask if it will be convenient. No more baggage should be indulged in than is necessary. One should think of the size of the house and of the service. And perfect delicacy should be observed in coming away at the time designated.

No suburban cottager need fear that his guest will not be happy; he need not hesitate because he has not the room, the luxury, the French cook of his wealthier neighbor. A slavish emulation of those whose position or wealth is different from our own is the most consummate vulgarity. It is the welcome that tells.

A Lady's Visiting Card.

It is in bad taste, as well as contrary to recognized etiquette, for a lady to use on her visiting card any prefix, whether abbreviated or otherwise, indicative of her husband's political honors, religious rank, military or naval position or professional occupation. She does not wish to be received for his sake, but for her own, is the argument of one versed in the etiquette of polite society. Besides, there is no limit arranged for grades. If one lady is to be called "Mrs. Mayor Puff," another, upon the same principle, should be styled "Mrs. Detective Key," or "Mrs. City Sarveyor Spade." Ladies who are not themselves professional never prefix a title to their cards. Nor need they, even when pride is at its fiercest, because custom permits a lady to leave her husband's card with her own upon nearly all occasions, and in many cases the use of his card with hers is a matter of strict etiquette. A lady may be mentioned with the honorable prefix her husband bears, but she should never assume it herself.

Street Etiquette.

One salutation to a person passing on a promenade or drive is all that good usage requires.

People who stop in the street to converse should be careful not to remain in the way of passers-by. We often see the thoughtless and inconsiderate stop directly opposite a crossing.

When two people meet who are really acquainted it is not the man who should necessarily bow first, or the lady—it is simply whichever of them is the first to perceive and recognize the other.

SCIENCE AND PROGRESS.

A RECENT IMPROVEMENT IN TIN CANS FOR PRESERVING FOOD.

Another Adulteration of Butter—An Optical Glass Which is Creating a Sensation in Germany—Experiments on the Heat Conductivity of Metals.

Experiments, which succeed perfectly when properly performed, on the heat conductivity of metals are described as follows in Science: Take a copper ball, about three inches in diameter, and cover it with a piece of muslin or a fine cambric handkerchief.

FIG. 1. HEAT CONDUCTIVITY OF METALS.

Upon the ball thus covered place a glowing coal taken from the fire with a pair of tongs, and then blow on the coal, in order to render it incandescent. The coal will continue to burn brightly without any way burning or damaging the fabric upon which it lies. The reason of this is that the metal being an excellent conductor of heat, and having, at the same time, great calorific capacity, absorbs all the heat developed by the combustion of the coal, and the fabric, taking up scarcely any of the heat, becomes during the entire experiment at a temperature less than that at which it would be harmed.

FIG. 2. HEAT CONDUCTIVITY OF METALS.

This experiment can be performed in a more remarkable manner. Take a cambric handkerchief and cover a gas burner with it. It is indispensable that the tip of the burner shall be of metal. If the cock be turned on and the gas be lighted the latter will burn above the handkerchief without burning it (Fig. 2). In order to succeed in this experiment it is necessary that the handkerchief shall be applied closely to the metal, and that there shall be no wrinkles in it where it covers the tip of the burner. It is well to hold it in position by means of a fine copper wire, as shown in the figure. In these experiments we would recommend our readers to use nothing but very fine cambric, and that which is not of service, so that they will not have to regret the ruination of a good handkerchief in case of want of success.

Strength of Brick Walls.

The question of strength of brick walls is often discussed and differences of opinion expressed. The following is one of the rules given: For first class buildings, with good workmanship, the general average should not exceed a greater number of feet in height than three times its thickness of wall in inches, and the length not to exceed double the height without lateral supports of walls, buttresses, etc., as follows, for safety:

Thickness.	Safe Height.	Length.
8½ inch walls	25 feet.	50 feet.
12 "	40 "	80 "
16 "	55 "	110 "
20 "	90 "	130 "
24 "	75 "	150 "

Where the lengths must exceed these proportions, as in depots, warehouses, etc., thickness should be increased, or lateral braces instituted as frequently as practicable.—Scientific American.

Timber Soaked by Water.

It has been ascertained that timber which has been floated in water for a considerable time is no longer liable to the attack of dry rot. The albumen and salts are slowly dissolved out, thus depriving the fungus of the nutriment needful for its development. A French experimenter has shown that fresh sawdust rots away in a few years in damp earth, whereas sawdust from which the soluble matters have been soaked by water remains unchanged under like circumstances.

Sense and Sex.

A recent writer makes the statement that the senses are not parallel in men and women. The latter possess to greater perfection the sense of touch. The senses of hearing and sight are relatively the same in both sexes, but it is considered that men have the sense more delicately developed than women. The sense of smell was, in the experiment, made doubly as acute in men as in women. No reason is assigned for the distinction.

A New Optical Glass.

The invention of a new optical glass is said to be creating a sensation in the German scientific world. The glass, owing to its great refracting power, promises to be of marked influence in practical optics, inasmuch as it will admit of the production of lenses of short width, such as it has hitherto been impossible to obtain. For microscopic photography it will be of the greatest importance.

Natural Gas.

A Pennsylvania exchange claims that there are in Pittsburg sixty-six natural gas companies managing 107 wells, and supplying gas through over 500 miles of pipe, of which 229 miles are in the city proper. The total area of pipe leading into Pittsburg is given at 1,446,608 square inches, and the total capacity of the lines is estimated at over 250,000,000 cubic feet of gas per day.

A New Adulteration of Butter.

A new adulteration of butter has been invented. By adding gelatine, which absorbs ten times its weight of water, the consistency of the butter is retained and the water adulteration is not noticeable.

ALL AROUND THE HOUSE.

Up Stairs, Down Stairs, in Kitchen and in the Cellar's Palace.

Wicker baskets are useful for many purposes, to begin with one may make something very useful and sufficiently decorative to be admitted to a "house beautiful." Place the bottoms of the two baskets together and fasten with a small screw and nut. This makes an hour glass shaped stand, very convenient for holding the weekly sending or nursery sewing. Paint it any pretty color—white and gold looks well—or if covered with white muslin and trimmed with pockets and ribbons it will be dainty enough for a young lady's use or for a baby basket.

A Pretty Rug.

A gay, pretty rug, in imitation of the Turkish, may be made with bright pieces of wool carpet. Old silk bags, nicely cleaned, make a very good foundation on which to sew the strips of carpet. A nice size for a rug to spread before a lounge is a yard and a half long by three-fourths wide. For a smaller one a good proportion is one yard long by one-half wide. Cut the pieces of carpet on the bias two inches wide and as long as the pieces of carpet will allow. Fringe each edge of the strips one-half inch. Put two of these strips together, one on top of the other, and sew them length-wise of the foundation. Make four strips like this and sew them so closely together on the canvas that it will be entirely covered, and the fringed ends form a thick mat.

Knitted Silk Portieres.

Silk rags for portieres must be woven in a very particular manner, and it is not easy to get this kind of weaving done outside of a large city. Any one, however, can knit handsome portieres or curtains of silk. Cut the silk in strips about half an inch wide and sew together. If you have but little material that is bright and fresh in color, it will pay to dye some of the old stuff, in order that the curtains may not look too somber and faded. After the strips are sewed into balls like carpet rags, get a pair of bone knitting needles about three-quarters of a yard long and as large as your finger, and then knit the plain stitch.

Hardwood Floors.

The beauty of hard wood or stained pine floors depends upon their being kept bright and free from dust; sweeping with a hair broom every morning and washing once a week will secure this. As a time when there is very much dust, a damp cloth must follow the broom. Never wash floor oil cloth without first sweeping it; for a muddy, half cleaned look will be the result.

A Tender Hearted Tyrant.

Some twenty years ago, when John A. Ellsler was manager of the Academy of Music in Cleveland, there was a fuss connected with the stock company in the assembly of heavy villain, while by way of good humor, and considerable fondness for each, they were in friendly, which he never did. We will call him De Budge, which is safer than to give his real name, for he is living yet, we think. At least we will give ourselves the benefit of the doubt.

De Budge was a very tender hearted man when full of his name. He would weep profusely over any fate of 25 cts., no matter how remote it might be from his own time and environment. He used to say that he couldn't hurt a fly, and he couldn't when the barkeeper put it in his lemonade, as he generally did.

One afternoon when in his cups De Budge was discovered weeping as though his heart would break. When asked the cause he said he was thinking how cruel it was to make the Egyptians cross the Red sea in pursuit of the Israelites without first supplying them with life preservers.

You can gather from the above what kind of a heavy villain De Budge was when loaded to the guards.

One night when the play was "William Tell," De Budge was cast for the tyrant, Gessler, as equally heavy but more temperate villain to contend as the hero of Switzerland.

De Budge had been hedging pretty heavily during the afternoon and when he came to his dressing room to dress for the part it was observed that he was "full." However, he managed to pull through very well until they came to the scene where Tell is commanded to shoot the apple from his child's head.

"Prepare, minion!" exclaimed Gessler to Tell. "Make a father murder his own child!"

De Budge's chin began to shiver, but he managed to stammer:

"D——n does he consent!"

Tell—What! his own hand! Murder his child with his own hand!

De Budge's eyes filled with tears, and it was evident to those who knew him that he would soon begin to blubber.

Tell—The hand I've fed from infancy! 'Tis too much for flesh and blood to endure!

"Fraid cat," blubbered De Budge. "Don't shoot, Tell, don't shoot! I know just how you feel."

Then a light seemed to dawn upon him, and he turned to the audience and said:

"Yes, that's the finishing blow to De Budge. He shrieked:

"Yes, Ellsler, Bill—twosplen' boys! I love'm like my own! He's blood. I. Don' sh—, shi-hic-pot, Bill; don' sh-hoot!"

And he stumbled forward, attempting to throw himself into Tell's arms, that he might weep upon his breast.

It is hardly necessary to add that De Budge was seized and dragged off R. U. E. and the curtain rung down P. D. Q.—Texas Siftings.

His Anxiety Explained.

An unpleasant contretemps took place at the opera Tuesday night. A young gentleman, who had made the most desperate sacrifices to take his girl to the glittering show, had his attention attracted by a person immediately behind him, who, every few minutes, persisted in stroking his shoulder. "Gustavus," whispered the lady, "either that man is insane or he wants to abstract your collar button." "If he touches me again," replied the youth, fiercely, "I'll brain him with my binoculars." A minute afterward the offending hand was felt upon his shoulder. The indignant dude stood up, turned around and from the insolent fellow with an awful glance. Then, as he sat down with a complacent expression, as if to say, "I've fixed him now," the wretch hissed in his ear in a stage whisper: "Please, sir, you've got the tails under, and this is the first night that coat has been out." With a hollow groan the hapless boy read the story of his disgrace in his charmer's eyes, and when they buried Adonis alive he would gladly have shared the fate.—San Francisco News Letter.

Quite the Fashion.

Wife—What do you think of the new girl, John?

Husband—Was that her that just left me in?

Wife—Yes!

Husband—Well, she's just a daisy.

Wife (coily)—Think so?

Husband (enthusiastically)—I think so! Why, she has a complexion like a moss rose, and eyes like—like—I don't know what. And her teeth are splendid, too.

Next day when John went home to dinner he was let in by a girl with a complexion like polished ebony, eyes as large as saucers, and teeth like two rows of piano keys.—Boston Courier.

At Coney Island.

Hotel Proprietor—What yer doin' down here?

Guest—I got a little chilled in the surf, and I was directed to the engine room to warm up.

Proprietor—Oh, that. Well, perhaps you'll find the boiler behind you more comfortable than the ice cream freezer.—Tid Bits.

A Remarkable Memory.

"Did you hear that Miss Highkicker has married old Moneybags?" asked a New York gentleman of a friend, as the lady in question —or rather the questionable lady—tripped down the stairs of a fashionable residence.

"No, it isn't possible!"

"Yes, he is married to her. She confessed the whole history of her life to him, including all her flirtations."

"You don't say! What a wonderful memory she must have!"—Texas Siftings.

JOTTINGS.

—The Zephyr Hook and Ladder Company, at a meeting last night, decided to give a picnic early next month.

—The tunnel between Jersey City and New York, to be built by the Pennsylvania railroad, will cost $11,000,000.

—Some of the members of the Middlesex Gun Club will shoot at live birds and clay pigeons on the club grounds at Dunellen to-day.

—The work of wiring Laing's Hotel for incandescent lighting was commenced yesterday, and will be pushed to completion as rapidly as possible.

—An item in a Trenton paper that "the citizens of Plainfield are making every effort to make the coming re-union of the Eleventh Regiment N. J. Volunteers the most successful ever held."

—At the Children's Fair for the benefit of the *Newark Fresh Air Fund*, held on the lawn of Mr. W. H. Van Sicklen, corner Front and Church streets on May 27th, the sum of $81.53 was netted.

—The concert to be given by Rutgers' Glee Club in the M. E. church on Friday evening will be well worth hearing. The club is well known and the singing will be very fine. The receipts will go to the building fund of the church.

—Many of our merchants are anxious to reinaugurate the early closing movement, and they are said to be all in favor of it, with a possible exception. There is some talk of circulating a paper among the citizens to obtain the signatures of those who will agree not to purchase goods of any storekeeper after seven o'clock in the evening.

—A number of the plumbers of this city left on the 8.40 train this morning for New York, to participate in the athletic games which will be held this afternoon at Celtic Park, under the auspices of the New York Journeymen Plumbers Association. There will be running, base ball, tug-of-war, etc. A picnic will conclude the day's sport.

—The managers of the Elizabeth Dime Savings Bank, which has been defunct for several years, are ready to pay the final dividend that unfortunate depositors have been so long clamoring for, and it was announced that it would be paid this morning at 10 o'clock, at the office of the bank. The final payment will be 79 1-2 per cent. which will make a total of 99 1-2 per cent. that the bank has paid since it closed its doors seven years ago. All but 10 per cent. has been paid within the past year.

—John Morris, who was recently employed by F. F. Beals, of East Front street as conchman, is reported to have left the city and that his wife does not know of his whereabouts. A friend of Morris' however, claims that he secured a position in Philadelphia and went to work last Monday, and that he will return in few days to take his wife with him. His wife asserts, however, that he left town without her knowing where he was going, and she has been making inquiries as to his whereabouts.

—Jacob Lorillard, the millionaire, has purchased 330 acres at Union, on Raritan Bay, some two miles east of Keyport, and will erect the largest brick works in the United States, costing over half a million dollars. There are to be three separate plants, one with a capacity of finishing 175,000 bricks an hour, or 150,000 per day. Another plant will turn out 35,000 bricks per hour, or 350,000 per day. Men are to be worked night and day, turning out 1,000,000 finished bricks each day. Mr. Graham of Plainfield is superintending the building of tenement houses, stores, a school house, etc. A large number of double houses are being erected.

The Librarian's Report.

The annual report of Mr. A. W. Tyler, Librarian of the Public Library and Free Reading Room is here given, as presented to the City Council on the evening of last month:

A. W. TYLER, Librarian.

School Census for 1887.

Assessor Hubbard, who has for some time past been busily engaged in compiling the school census for 1887, has completed his work. The number given is as follows:

Total number of males	1977
" " females	1894
Grand Total	3871

The total number in attendance last year was 3,357 showing an increase of 214.

Mrs. James Neilson, owner of the late Horace Greeley, lies very low at her residence at New Brunswick, of pneumonia. She is 79 years old.

THE NEW INDUSTRY.

MORE FACTS ABOUT THE NEW CONCERN.

A Brief History of the Original Pond—The Dimensions and Cost of the Buildings to be Erected at Once.

The Pond Machine Co.'s concern, which is located here, is about forty years old. The founder of it was Lucius W. Pond, whose tools and machinery had a reputation among machinists throughout the country, as far back as 1857, according to a gentleman of this city who knew the concern at that time, and commanded the very best prices. Mr. Pond had an office in Cortlandt street, New York, the manufacturing having been done at Worcester, Mass. During the war the concern grew very large and enjoyed great prosperity, but after the war Mr. Pond failed to realize until too late that there was less demand for war implements, and that there were more concerns whose plants, to be utilized, had to be turned into the manufacture of something else, and consequently many got to manufacture the kind of machinery upon which Mr. Pond had made his reputation. The large concern finally swamped him. In his efforts to save himself from ruin, it is related that he endorsed fictitious names to notes, intending to take them up before they became due, by selling off his machinery at reduced prices. Lathes, which formerly brought $700, were sold for $300. But the unfortunate man was unable even then to meet the notes when they became due. The banks mulcted sought redress and Mr. Pond disappeared. His clothes were left on a vessel to give the impression that he had jumped overboard and committed suicide. But some of his victims suspected that this was a trick. Detectives searched for him, and finally unearthed him in California. This was about 1878. He was tried and convicted and sentenced to many years imprisonment, some say it was seven years. Then Lucius W. Pond, a son of Lucius, took the business and tried to conduct it, but having no capital he had to borrow, securing large advances from selling agents, Maxwell, Manning and Moore, until so deeply indebted to them, as stated yesterday that they to save themselves had to absorb the concern. They proposed to the young Pond, a son of Lucius, took the business and tried to conduct it, but having no capital he had to borrow, securing large advances from selling agents, Maxwell, Manning and Moore, until so deeply indebted to them, as stated yesterday that they to save themselves had to absorb the concern. They proposed to the young Pond, a son of Lucius, to start up the old firm's reputation of his name, which was adopted by the company which succeeded and now controls the business. He is about seventy years old and is not connected with the present concern.

Henry Graves of Orange is the president of the company and Sidney Maxwell, the vice-president, is the president of the Central railroad. A brother of Mr. Maxwell says that the vice-president is not related to Mr. Corbin, as has been reported, by marriage or otherwise; the Maxwells and Corbins are simply old neighbors. Mr. Corbin has three daughters, one is married to a French count, another is married to a merchant out west, and the other is unmarried.

J. Rogers Maxwell, the vice-president, designed, owned and sailed the "Shamrock," the yacht which won the Cup here yesterday, and has thereby created such a stir in yachting circles.

Charles E. Maxwell, the secretary and treasurer of the new company, is secretary of the Passaic Zinc Co.

The papers transferring the land upon which the works are to be located, have not been signed. The delay is because the titles are being searched.

It has probably struck some of our readers as strange, that a company with such a large capital stock, should have so small an amount, $1,000, mentioned as the dividend paid up capital, which is explained thus: the company originally intended to locate at Bridgeport, Conn., but were persuaded to locate on the line of the Jersey Central by Austin Corbin, of the Philadelphia and Reading railroad, and they have never increased the nominal amount of capital to comply with the law.

A member of the Board of Directors says that the stock is about all held by parties outside of New Jersey.

The Pond Machine Co., of Worcester is owned by Mr. H. S. Manning of the firm of Manning, Wilcox & Moore, David W. Jones and a son of the founder, A. C. Stebbins, formerly bookkeeper now business manager. They are down on the list of stockholders as owning $100,000 worth of the stock which is probably paid for by the tools, machinery and fixtures which are turned over to the new company.

The amount of stock held by parties outside of the State, or so to be, is $185,000 which does not include the $100,000 above referred to.

Among the stockholders in this city is Herman Winter, a brother of Albert Winter, one of the firm of Scheifelin, Baldwin & Woody of this city.

Austin Corbin, though largely interested in the concern, is not a shareholder, it is said.

Among the stockholders are George F. Baker and H. E. Pahnestock, President and Vice President of the First National Bank of New York, correspondents of both Plainfield Banks; Dumont Clark, cashier of the American Exchange Bank of New York, and Edward D. Adams of the banking house of Winslow, Lanier & Co.

Messrs. Baker, Pahnestock and Adams are of the Board of Directors of the Central R. R. of N. J.

Mr. J. C. Campbell of the Board of Directors of the Pond Co. is the attorney for Mr. Corbin. He is also secretary of the Indiana, Bloomington & Western R. R., of which Mr. Corbin is President.

Manning, Maxwell and Moore are interested in several large concerns, but the screw company which it was thought would be likely to come here they have no interest in except as selling agents, and say a concern will remain in Worcester, Mass.

The contracts for the new buildings will be given out by June 15th, and the work is to be completed within ninety days, or Oct. 1st.

The main building will be 500 feet long by 93 feet eight inches wide inside measurement, and one story high. The foundry will be 250 feet long by 93 feet wide, the pattern room will be 150 feet long by 65 feet wide, and the blacksmith shop will also be a large building, the exact dimension depending upon the survey. There will besides be an engine house boiler house and wash house. The estimated cost of all the buildings will be $90,000. Besides this the mammoth steam cranes to be used will cost $36,000. There is also to be a complete fire service and system of tanks and *railroad switches in every building.*

The land has been held at $24,000, but the company have secured it at a greatly reduced figure.

The company do not seek Plainfield capital except in this respect, that they would like dwellings put up for their workmen. They now employ about 400 skilled mechanics of the better class, and many of these they will bring with them.

From all we have been able to learn, we think the factory will prove an excellent thing for Plainfield.

The company now only manufacture machinery and tools for machinists, but when they get located here they will manufacture railroad supplies, which will give employment to 300 extra hands, or 600 hands in all, as we have already stated. It will make an increase in our population of about 2000 persons.

Chas. Potter, jr., of Potter Press Works, speaks of Mr. Pond and Mr. Stebbins as very genial gentlemen and men of character. They are both going to reside in Plainfield.

PERSONAL.

State Senator Livingston has gone to the Adirondacks on a two weeks' trip.

Prof. Clinton Burling, of New York, gave a series of readings and recitations at the Crescent Avenue Presbyterian church last evening, under the auspices of the Young People's Association of the church.

The many friends of Mr. L. Brown, formerly a resident of Plainfield, now living in Chicago, will sympathize with him in the loss of his little daughter, Bessie, who died suddenly on Monday with diphtheria.

Frank Dunham, the young man who received such painful injuries about a week ago, by being struck on the foot by a falling axe, is still confined to his home, on West Fifth street, suffering intense pain from the wound.

A party of gentlemen, composed of Ex-Mayor Vandeveer, Alderman Vandervoort, City Judge Ulrich, Dr. Armstrong, W. N. Thorn and Albertus Swalm will enjoy a day's fishing for black bass at Lake Hopatcong tomorrow.

Mr. J. L. Van Neste, 34 East Second street has recently purchased "Tipperary Boy," a remarkable fine thoroughbred sorrel animal, chesnut-brown color, is a stylish driver, and claims a record of 2.35. Mr. Van Neste is not a sporting man but admires a good horse.

Albert Drake, of Seventh street, has grown some extraordinary strawberries this year. In a quart of them sent us nearly every one was about five inches in circumference. Can any one beat that? Mr. Drake takes great pride in producing the finest berries each season.

City Judge Ulrich established a precedent for which he deserves credit when on Monday evening he requested City Council to authorize semi-annual returns of the fines collected by him. It is proper that these moneys should be turned over to the City Treasurer as soon as possible after they are collected, and Judge Ulrich's suggestion was a timely one.

John J. Coard, of East Fifth street has been for years superintendent in the large York establishment of Rogers, Peet & Co. Mrs. Coard, his wife, was formerly a leading teacher in a prominent educational institution, and is considered somewhat of an authority on special subjects of much interest to those before whom she has occasionally lectured.

Fred. Luick, of Linden avenue, and Miss Mary Fitzgerald, of Grove street, were married in the Church of the Holy Cross by Rev. Mr. *Murphy at seven o'clock last evening.* The company went to the newly-furnished house of the groom on Linden avenue, and were visited at 10 o'clock by about 30 members of the Singing and Turning Society. Dancing and sociability were indulged in until a late hour this morning.

The following committees have been appointed to examine the work and decide to whom the prizes shall be awarded at the High School commencement on Thursday evening, June 23: Mathematics—William M. Smith. Gymnasmship—Alex. Gilbert, R. L. Livingston and Rowland Cox; English composition—Rev. C. L. Goodrich, Rev. A. R. Dilts and William D. Murray. Miss Clara Burt will be the valedictorian of the graduating class.

Last ten Days of Dr. Damon.

Dr. Damon, the Vitapathic specialist now at the City Hotel, of whom we have heard so many favorable things during his stay here, announces that he will be obliged to close his engagements in Plainfield Saturday, June 18. Those who have attended his lectures and witnessed his remarkable power in alleviating suffering by magnetic treatment, say, he is indeed a gifted gentleman. He is president of the Connecticut Vitapathic Institute, a regular graduate of two schools of medicine, and is duly registered, so no one need fear of being left to the hands of "quacks." Remember, he cannot prolong his stay beyond the 18th.

STATE NOTES.

Patrick Quinn was sentenced yesterday at Morristown to be hanged on July 29.

The one hundred and 22nd annual session of the Methodist Society, of New Jersey, will be held in the Baldwin Church, Ocean Grove, July 7th. Bishop Andrews will preside. The Rev. J. M. Reilly is secretary.

The convention will open at 4 o'clock on Tuesday afternoon with prayer by the Right Rev. Bishop Scarborough.

MUHLENBERG HOSPITAL.

List of Officers and Statement of the Finances.

At the annual meeting of the Board of Governors of Muhlenberg Hospital, held on the 30th of May, the following officers were elected for the ensuing year: President, W. Rockhill Potts; First Vice-President, Rufus K. Case; Second Vice-President, Charles Schipper; Secretary, William R. Cook; Treasurer, George H. Goddard; Managing Committee, William R. Cock, Charles Schipper, Rufus K. Case, Edward B. Clark, E. E. Erickson; Finance Committee, William E. Lowe, Samuel Huntington, John M. Whiton, James W. Jackson, J. Evarts Tracy.

From the annual report of the Medical Staff, submitted to the board, it appeared that the number of in-door patients treated at the hospital during the year was 83, of whom 10 were treated for more than one disease. Of the cases treated 55 were discharged cured, 22 were discharged improved, 4 not improved, 5 died in the hospital, and 9 remained at the date of this report. There were 29 surgical operations performed in the hospital, and 80 dispensary patients also received treatment. The report of the Treasurer showed the following

RECEIPTS.

Cash on hand June 1, 1886	$827.53
Individual donations	617.91
Hospital Sunday:	
First Baptist Church	$55.00
Grace Church	71.75
Church of the Holy Cross	45.35
Seventh Day Baptist Church	27.35
First Presbyterian Church	18.26
Park Avenue Baptist Church	11.56
Warren Mission	10.96
Crescent Avenue Church	117.87
	358.00
Trinity Reformed Church (towards a new bed)	100.00
Ladies' Auxiliary Board	1,211.00
From patients	1,896.71
Total receipts	$4,011.15

PAYMENTS.

Painting the hospital, inside and outside	$269.00
Alterations and improvements of building	306.31
Building horse-sheds	185.00
Provisions	966.86
Medicines	393.71
Wages	1,124.06
Fuel and other expenses	507.21
Cash on hand June 1, 1887	267.80
Total	$4,011.15

Besides the amount mentioned above, as contributed by the Ladies' Auxiliary Board, the ladies of that board have also expended a considerable amount for furniture and supplies; and many donations of necessary supplies and useful articles have also been received at the hospital from various kind friends.

The Board of Governors are grateful to have been able to keep the hospital building in good repair, and to make in it some much needed improvements. The hospital is fortunate in having the services of Mrs. Walrod as superintendent, whose management has been in a high degree efficient and economical.

Adopting the Daft System.

The final meeting of the Board of Commissioners of Asbury Park, to finish up the street railway matter was had last evening, and the much-discussed franchise was finally awarded to the Seashore Electric Railway Company. After specifying each and every essential in the construction of the line, officials calls for the road to be fully laid by July 20, and in full running order by Aug. 1, under a *daily forfeiture of $300* for each date. The company was required to deposit the sum of $10,000 in the local bank for the forfeiture. The company at first objected to the deposit of the forfeiture money, saying they had already deposited $7,400 with the State Treasurer and $2,000 with the Secretary of the State, and were of the opinion that that was a sufficient guarantee that they meant to live up to their contract. The matter was finally settled by cutting the deposit down from $10,000 to $6,000.

The amount to be paid the town by the company, who represent the Daft System of Electric Railway, is $5,000 per year for a term of twenty years, the company paying full local taxes on all their rolling stock, plant, engines, etc.

It is the intention of the company to extend the road to Ocean Grove, Ocean Beach and Spring Lake this fall.

The Blimm Appeal Case.

The case of the city of Plainfield vs. Jacob Blimm was called on the appeal list at Elizabeth to-day. Action had been brought against Blimm before city Judge Ulrich for violating the thirteenth section of an ordinance to license inns and taverns. Patrick Lynch made the complaint, which was to the effect that intoxicants had been sold and disposed of in Blimm's house on the morning of Jan. 11, between the hours of 12 and 4.30 o'clock. The defense set forth was: first, that no sale was proven, and that there was nothing in the ordinance to prohibit the giving away of liquors; second, there was no proof that liquors referred to were either sold or disposed of; third, that the ordinance in question, where it attempted to punish the men for giving away of liquor, is in incorporative and void, as being in excess of the power conferred upon council by the legislature. Blimm was convicted and fined $10, but the Court held that it was not within its province to decide upon the questions raised, and the case was accordingly repealed. When the case was called this morning the corporation counsel asked to have the case postponed on account of the sickness of one of the witness for the prosecution. The defense concurred in the request, on condition that the city pay the usual costs. The court so ordered. Corporation Counsel Marsh represented the city, and Jackson & Collington the defendant.

The case on appeal of Griffin vs. Tobin was called before Justice Nash yesterday afternoon. After hearing the evidence, judgment was given against the defendant for $19.60 with costs added.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Thursday in New Jersey, eastern New York and eastern Pennsylvania, and in New England, warmer, fair weather, followed by rain in some sections.

Car Float Sunk.

NEW YORK, June 7.—A car float, containing about $15,000 worth of freight for the N. Y. & N. H. R. R. was run into by an unknown vessel to-day and sunk.

To Commute Her Sentence.

ALBANY, June 7.—Lawyer Howe formally applied to Gov. Hill to-day to secure the commutation of the sentence of Mrs. Cignarale to imprisonment for life, and thinks he will succeed.

Henry Bergh's Wife Dead.

UTICA, N. Y., June 8.—The wife of Henry Bergh of New York, the founder of the S. P. C. A. Association, died this morning after a long illness.

Counterfeit Nickels.

CHICAGO, June 8.—A number of counterfeit nickels are in circulation throughout the West, and the Secret Service has been enlisted against them. A number of the coins have *been sent to the mint at Philadelphia*, where their value will be determined and published.

In the Union County Courts.

The trial of Michael Whelan, the Rahway barroom-keeper indicted for keeping a disorderly house, was finished before Judge Ogden in the Union County Courts, after occupying the greater part of two days. He was acquitted. The court room was packed during the trial. The witnesses for the prosecution literally proved themselves accused in court, as none of them could recollect drinking anything stronger than soda or ginger-ale on Sunday in his saloon. According to their testimony, Whelan not only refused to accept pay for his beer or liquor on the Sabbath, but even took his patrons into his private parlors to have a sociable glass of beer.

Councilman McManus, of the committee appointed at the Mayor's request to investigate the charges against Whelan, gave testimony that was considered favorable for the defendant. Politics, apparently, entered largely into the case, Whelan and his friends insisted that his prosecution was a piece of malice on the part of Mayor Daly because the saloon-keeper was identified with the opposition faction. The jury was out nearly two hours.

Whelan was instantly surrounded by his friends, when the result was announced, and escorted off in triumph to the nearest tavern, their city.

BOUND BROOK.

Mr. and Mrs. Charles Powell, the remarkable parents of the boss dyer at the factory, sailed recently for their home in England. They have been visiting their son here in Bound Brook about eight months, and carry away with them some very pleasant memories of their stay.

For a town of its size, Bound Brook, doubtless possesses more attractions in the way of natural beauties of scenery than most towns boast of. We have in our broad shady streets and avenues, well-graded and curbed and numberless delightful drives running to different points of interest in the surrounding country, the river dotted with little pleasure crafts, leading to one of the best fishing resorts in the State, together with these attractions and the conspicuous elevation of the place, Bound Brook people point with pride to the many handsome private residences of its inhabitants; all these point to a great degree the prosperity of the town and welfare of its citizens, but Bound Brook is somewhat backward in the matter of modern improvements, of which a town of its size should appear in due course of time, but we do need a fire department, and that just as soon as it is possible to have one in fact of the case, had been the home of a first-class fire department some years ago it would have been the means of saving much property at least one single fire, to more than pay for 20 fire engines. Take the business portion of Bound Brook. It would be an unfortunate and disastrous calamity if a fire should break out in lower Main or Union row. Bound Brook, if not *checked right in the start, all of East* Main street would have to go including the big Presbyterian church; then again suppose one of the handsome residents on High street between Mountain avenue and Hamilton street should accidentally take fire, what sort of a miracle would present a wholesale destruction of every one of those beautiful houses so closely grouped in that vicinity. Opposite the woolen mills is almost an entire block built up nearly solid, and thickly tenanted. What a fire in this locality would be is too awful to think about. Bloomington, also would become a scene of desolation if the fire fiend once got a fair start over there. Within the limits of the two corporations there are 2500 inhabitants. Can it be possible that in this number there cannot be found enough locally in the face that the generally public spirited people, will not bestir themselves before it is too late, to get this town well equipped with a good fire department? The place requires one; must have a fire department.

WESTFIELD.

The ladies of the Presbyterian church held their annual festival at the lecture room last evening.

The W. C. T. U are holding a series of temperance meetings at the different churches this week.

The Census of School District No. 10 foots up to 540, between the age of five and eighteen, an increase of nine over last year.

Benjamin Woodruff has completed his barn and expects to build a dwelling, a story brick store and dwelling on his lot on Broad street.

The Bucket and Engine Company No. 1, at their regular meeting last night decided to get up some entertainments for July 4th, such as games, races, etc., and appointed Messrs. Ed. Hall and Wm. Hall a committee with power to add to their number, and also to confer with the committee of the other companies if they decided to join in the celebration for a proper observance of our national holiday.

The Seminary Closes.

Miss Kenyon's seminary on Seventh street was thrown open to the public inspection of a large circle of friends on Monday afternoon. It had been deemed best not to hold any commencement exercises. The visitors went through the large building and examined the handiwork of the pupils which was very clever done, reflecting much credit upon the corps of efficient teachers. In the seminary parlors the visitors were the guests of Mr. A. Veniuo's pupils, where one of a series of monthly musicales was given. The program was as follows:

Duo.....Jensen
Misses Pinley and Van Boskerk.
Mazurka.....Chopin
Miss Clark.
Fantasie—minor.....Mosart
Miss Hart.
Polonaise—b flat.....Chopin
Miss Potter.
Consolation.....Liszt
Miss Mossett.
Gavotte.....Bach-St.-Saens
Miss Fairbairn.
Nocturne.....Rubinstein
Miss Erskine.
Sonate Appassionate.....Beethoven
Miss Sandford.

—New Jersey milk is in high favor in New York and Philadelphia, and consumers declare that it is the only milk that can be trusted as being genuinely free from adulteration. State Dairy Commissioner Newton has his deputies at work all over the State watching the principal shipping points. All through South Jersey the condition of the milk was found to be forty per cent. better than last year.

—Only twice in twelve years has the plea of insanity been made by a defendant in the Union County Court. John Zeltman, who was convicted Wednesday of the assault on Miss Strong, and John Murray, the notorious burglar. Murray was also convicted, but after his removal to State Prison was adjudged insane and taken to the Asylum. He escaped and was subsequently arrested for another burglary. He was returned to State Prison for a long term.

—"Uno" is the name of "Uncle Billy" Moore's baby bear, to which we referred last Monday. It seems to be thriving and is quite playful. The City Hotel cat, which is about the same size, tried to become acquainted with it last Sunday, while it was disporting with a bottle of milk on the lawn at the rear of the hotel. The cat assumed a rather suspicious attitude as it approached the bear, advancing very cautiously with ears thrown forward and neck and tail extended, and the latter much swollen. As it drew nearer and nearer it seemed more and more puzzled. The bear busied himself moving about paying no heed to the cat until it got near enough to smell his nose, when it gave him a playful approached the cat, but in an instant the cat's courage oozed out as he turned and bounded away at a rapid speed to a place of concealment leaving the bear to wonder what he was so scared about.

Cent-a-Word Column.

GIRL WANTED to do general housework. Apply at this office. 6-tf

FURNISHED ROOMS to let, with or without board, at No. 9 West Second street. 5-2tdf

FURNISHED rooms for gentlemen only. Apply 54 East Front street. 5-3tf

WEDNESDAY, JUNE 8, 1887.

FAREWELL TO O'BRIEN.

THE BANQUET TO THE IRISH AGITATOR IN NEW YORK.

Many Distinguished Persons Present. Mr. O'Brien's Reference to the Occurrence of Saturday Night—A Purse of $25,000 for the Suffering Ones.

NEW YORK, June 8.—A farewell banquet was given to Editor William O'Brien last evening at the Hoffman house by the United Irish societies of this city and vicinity. Covers were set for 13 guests. Ex-Mayor Grace presided. On his right sat the guest of the evening and on his left the evicted tenant, Dennis Kilbride. Among the distinguished persons present were Governor Green of New Jersey, ex-Governor Leon Abbett, Judge Van Hoesen, Recorder Smyth, Mayor Whitney, of Brooklyn, Mayor Cleveland, of Jersey City, Charles A. Dana, Bishop Farrell, of Trenton, N. J., Rev. Dr. Lloyd Col. W. L. Brown, Maj. Bundy, Eugene Kelly, Rev. John F. Murphy, president of St. Francis college, and Dan Wallace. Letters of regret were read from Governor Hill, Senator Conkling, Attorney General O'Brien, ex-Governor Hendricks, Gen. W. T. Sherman, Abram S. Hewitt and others.

After coffee had been served ex-Mayor Grace, in introducing the guest of the evening, said that he felt gratified at the purpose of paying their respects to a man whose sacrifices on behalf of the cause of the people of Ireland had not only endeared him to the people of his native land, but had created sympathy in the hearts of all Americans.

Mr. O'Brien, in responding, was received with enthusiastic applause. He said that he had had a fair share of difficulties during his mission to America, but he assured them that the principal difficulty to-night was to find words to express his fervent gratitude for the kindness shown him by his hosts. Referring to the episode which had diversified his stay in New York, he would say that a very few gentlemen who were deeply interested in the cause of Ireland had seemed rather disposed to imitate the methods of Lord Lansdowne's friends. He did not regard these men as Irish Nationalists, and he did not believe they were true Americans. He believed American public opinion had already condemned them and to-night he wished to say nothing harsh of the principal figure in that affair Mr. McMackin, but the simple truth was that it was a question of gratifying Mr. McMackin by destroying Mr. Parnell and wrecking the movement which had cost the Irish people so many years of labor and self sacrifice. His action had stricken dumb the hearts of English and Irish alike. When Mr. McMackin talked of the Irish people as ranging themselves with him and the murderers of Phoenix park, the impulse was to be obliged to remind his people that he had stood beside them in many an hour of trial and danger when Mr. McMackin was not there, and would not be again.

After Mr. O'Brien had concluded, toasts were responded to by Charles A. Dana, Bishop Farrell, Rev. T. Lloyd, Governor Green, of New Jersey, and Col. W. L. Brown.

At the close of the banquet Mr. O'Brien was escorted to the Adriatic, which sailed this morning. His escort was the Sixty-ninth regiment, members of the municipal council of the league and a large body of citizens. Before leaving the banquet Eugene Kelly, on behalf of the Irishmen of New York, presented Mr. O'Brien with $25,000 for the Irish people at home.

In Favor of Extending the Suffrage.

PARIS, June 8.—The government of France has instructed French ambassadors and ministers to foreign countries that France cannot agree to the Anglo-Turkish convention respecting Egypt, except as a basis of negotiations. The deputies of the Extreme Left have declared in favor of electing the French senate by universal suffrage.

Disgrace of a Russian General.

ST. PETERSBURG, June 8.—As order has been issued removing Gen. Bogdanovitch from his post in the Russian service, because on his recent visit to Paris he made efforts to promote a Franco-Russian alliance.

THE Death Released.

NEW YORK, June 8.—The two small boys, Sheehan and Eckberger, held by Justice Smith for causing the death of an old fellow, were released yesterday afternoon, the coroner refusing to pass the verdict.

The Czar and Emperors.

LONDON, June 8.—The Standard's Berlin correspondent telegraphs that he is reliably informed that the meeting of the emperors of Russia, Germany and Germany is likely to take place soon.

Some Alterations Necessary.

LONDON, June 8.—It is said that the owner of the Thistle intends to make certain alterations in her rigging, sails, etc., before entering her in competition with American yachts.

CONDENSED NEWS.

Albert Owen, chairman of the Credit Foncier, the American branch of Socialist colony in Mexico, writes a letter denying recent reports of suffering among the party. He asserts that the venture is a success in every particular.

While Joseph Schimmel, of Peoria, Ills., was going to the cemetery with the body of his child, the seventh of his family that has died within a year, the house ran away, the occupants thrown out and the only child in the family fatally injured. Mr. Schimmel had his arm broken and shoulder dislocated.

The grocery of George Mason colored), at Richardville, Ind., was blown to atoms by dynamite. No one was hurt. Race prejudice is supposed to be the cause.

The bills of the government lawyers in the Pan Electric suits are said to be at least $130,000. Judge Lowery charges $300 per day.

Rain is greatly needed in Minnesota and Iowa.

James G. Blaine and family sailed from New York for Europe on the steamer Etna to-day.

Gen. Speed, Lincoln's attorney general, who was thought to be dying at Louisville, is improving.

Henry Meigs, formerly president of the New York Stock Exchange, is dead.

It is asserted that John Davis, who was lynched in Perry county, Ind., for alleged participation in an assault on a child, was entirely innocent. The reported child is a woman of 23.

County Judge Thomas Lemb, of Maverick county, Texs., killed his brother in a dispute over division of property. He was arrested.

Judge William Murray, of the supreme court, died at Elmira, New York.

A FATAL EXPLOSION.

JOSEPH MCANE INSTANTLY KILLED BY A BURSTING BOILER.

A Peculiar Accident to a Baltimore and Ohio Locomotive—A Railroad Station Badly Wrecked—List of the Killed and Injured.

CHESTER, Pa., June 8.—The boiler of a locomotive attached to a south bound freight train on the Philadelphia and Baltimore railroad (Baltimore and Ohio) exploded in front of the passenger station in this city at 8 o'clock yesterday morning, killing one man, seriously injuring several others—one of them fatally—and wrecking the station. The air was filled with flying pieces of iron and timber and scalding water. A number of persons were standing on the station platform and several were badly scalded or cut with flying missiles. One man was instantly killed. John Murphy, aged 21 years, telegraph operator, of this city, was so badly scalded and injured that his death is momentarily expected.

Following is a revised list of the killed and injured:

Joseph W. McCane, 25 years old, dead.

John Murphy, telegraph operator, Second and Kerlin streets, badly scalded and hurt about the head.

A. J. Benjamin, station agent, cut about the face and breast.

Alon Benjamin, son of the station agent, hurt about the feet.

George Schofield, painter, foreman, burned and scalded.

H. L. Blakeley, fireman, No. 620 North Caroline street, Baltimore, scalded on the back.

Lambert Potts, carpenter, Cecil county, Md., shock.

Mrs. William Mellevitt, 50 years old, No. 309 East Twelfth street, shock, not expected to live.

Mrs. James Strahorn, No. 312 East Twelfth street, cut on the head.

William Pauly, Penn street, below Kerlin, side of the face injured.

Rachel Lewis, Sixth street, above Welsh, severe contusions of hip and general shock.

Samuel B. Cary, No. 1314 Penn street, lacerated wound of scalp, bad contusions and shock.

The depot, a handsome new building, which cost $25,000, is badly wrecked.

A number of houses located on the south side of Twelfth street, opposite the depot, were damaged in a more or less by fragments of the wreck. Mrs. William McDevitt, an aged lady who lives at No. 309, was sitting at a front window seeing when the explosion occurred. She shrieked as she was almost blown from her chair, while a shower of broken glass fell around her. A large piece of boiler tube was thrown against the house, and pieces of timber were blown through the transom and in at the windows. Mrs. McDevitt is suffering greatly from shock, and it is feared that she cannot survive.

It is not known that any other number of people had been killed, but as the sufferers were extricated from the ruins of the depot it was seen that though there were many of them wounded the death list would not be very large.

Many narrow loss escapes are reported, the most remarkable being that of E. Dixon, the station master. He was standing near the door and was sitting in the cab. His cap had been blown over his eyes, thus protecting him from the escaped steam and leaving him unhurt.

The dismantled engine was hauled to a siding above Potter street, where it was found that the explosion was what is termed a "side explosion," something that very rarely happens, it is said, most accidents of this kind being caused by the blowing out of the front or rear end of the boiler.

Coroner Leland has taken charge of the remains of Joseph W. McCane, and a searching investigation into the cause of the explosion will be made.

ATLANTIC YACHT CLUB RACES.

The Atlantic Wins First Prize—The Shamrock's Great Performance.

NEW YORK, June 8.—Bay Ridge scored two splendid victories yesterday in the regatta of the Atlantic Yacht club. The rule-o'-club failure of last year, the Atlantic, which never captured a cup before, beat the Fleetwing over the thirty-eight mile course by 16 minutes and 41 seconds, and vanquished Lieut. Hamlet cutter, the Galatea, which tried to take away our cherished cup last June, by 25 minutes and 37 seconds. The feature of the regatta was the wonderful performance of Mr. J. Roger Maxwell's Shamrock, she had been classed with the giants she would, with time allowance, have sailed away from all of them. Even as it was, she knocked out the Galatea by 10 minutes and 56 seconds, and very nearly the Corinthians on the Fleetwing by leaving them 5 minutes and 34 seconds astern at the finish. It is almost a foregone conclusion that she will carry off the trial races, to which yachts of the second class are eligible, and it is not by any means improbable that, with time allowance, she will beat the big four, including the Mayflower. She has not been tested in heavy weather, and her tenderness, very apparent in even the light wind of yesterday, doubtless will prevent her from successfully wrestling with the giants in a gale.

Vice-President Wheeler's Funeral.

MALONE, N. Y., June 8.—The funeral services over the body of ex-Vice-President Wheeler were simple, but impressive. The town was in mourning for its beloved dead, and the sorrow manifested on every hand was plainly sincere. When the cortege had entered the church at Malone, sang Mr. Wheeler's favorite hymn, "Jerusalem, the Golden." Rev. Dr. Lewis, pastor of St. Mark's church, read a scripture selection, and then followed the Rev. Dr. Dix, Baptist church, delivered prayer. After another favorite hymn of the deceased had been rendered, Chancellor Rev. Dr. Richardson announced a fitting eulogy upon the character of his late friend, the text being Revelations xxi, 26. The Twenty-seventh Separate company then escorted the funeral cortege to the cemetery, where the body was laid beside that of Mrs. Wheeler.

Cora Bell Missing.

NEW HAVEN, June 8.—Cora Bell, who came here to testify against Taylor, one of the Ernest murderers, and with whom she had lived in New York, has disappeared. The case against Chamberlain and Taylor may be weakened by her absence, unless the two men choose to stick to the confession made at the time of their arrest. The Bell woman was allowed unusual liberty at the jail. She went for a walk a few days ago, but did not return.

International Typographical Union.

BUFFALO, N. Y., June 8.—The second day's session of the International Typographical union was attended by 152 delegates. The following officers were elected for the ensuing year: President, William Almon Hall, Buffalo; first vice-president, Richard T. Flank, San Francisco; second vice-president, Charles Gamewell, Washington; secretary-treasurer, David M. Pascoe, Philadelphia.

DRIVEN FROM HOME

By the Volcano—The People of Bavispe, Mexico, Living in Tents.

TUCSON, A. T., June 8.—Explorers sent out by Governor Torres, of Sonora, to ascertain the existence of a volcano, as reported near Bavispe, Sonora, have returned. They report an active volcano fourteen miles southeast of Bavispe, in the Sierra Madre mountains. The party could not approach nearer than within four miles of the mountains. The crater was pouring forth immense volumes of smoke, fire and lava. Boiling water issued from the side of the mountain and lava in vast waves slowly poured down the mountain side in the canyons, which are being filled up. The boiling water has destroyed vegetation in the valleys in the vicinity. One peculiar feature of the volcano is its great activity. Bowlders weighing tons are hurled down from the crater.

The explorers say the mass of matter proceeding from the mountain was most terrific —like a number of vast engines at work, accompanied by sounds of thunder. The air was dense with smoke and cinders. The party had great difficulty in approaching within four miles of the mountain owing to the great streams made by the earthquake, and all the roads and trails are totally wiped out. The country is fearfully broken up. The entire surface of the country for a thousand square miles, and not a bird or living thing could be seen within ten miles of the volcano. The town of Bavispe is a complete ruin. The people have all moved out on the high plains and are living in tents, in mortal fear. There has been a constant tremor and continual series of shocks daily since the first earthquake shock. Quite a heavy shock was felt in Tucson.

MILITARY ACTIVITY.

The Situation in Afghanistan Daily Grows More Alarming.

LONDON, June 8.—Dispatches received from India represent the situation in Afghanistan as growing more serious day by day. The ameer, apprehensive of losing his power through the successive defeats his forces have met at the hands of the Ghilzais, and the recent revolt of the Shinwaris against further payment of tribute, is in a pitiable state of physical and mental health, and the Indian government sees in this fact the necessity for propping up the toppling throne or assuming full possession of his dominion. Russia, too, is taking advantage of the situation to fortify herself at Khoja Saleh, which place is within the zone from which she was debarred by the delimitations of the British commissioners, and obviously intends to remain there if she can. The Indian government has sent the czar to disregard British interests in Asia and look after his own by advancing Russian troops from Khoja Saleh, where they are now in force, and occupying Herat in the event of British occupation of Candahar. The Indian government is advised that Russian agents are still intriguing with the governor of Badakshan, the most northeasterly of the ameer's provinces, and in the event of Russia's advance toward Herat there will be nothing left for that official to do but follow the czar's dictates as to his action, since he will be entirely isolated. Military preparations in India are being pushed with all possible rapidity, and an army corps will be en route to Candahar within a short time.

JAMES G. BLAINE.

The Statesman, His Wife and Daughters Now on the Ocean.

NEW YORK, June 8.—Few of the hundreds who thronged the corridors of the Fifth Avenue hotel yesterday with the single aim of seeing James G. Blaine were gratified even with a glimpse of him. It was his last day in the country in many months, and he was very busy. He was up at 6 o'clock and ready to welcome Mrs. Blaine and his daughters, Marguerite and Hattie, who left their Augusta home on Monday evening. His sons, Walker and Emmons, joined the family for breakfast, and shortly after the political friends of Mr. Blaine began to arrive. It was soon quite apparent that if he received all of his visitors he would have no time to arrange the details of his trip abroad. There was a bushel of cards in his room last night.

Mr. Blaine, his wife and daughters took a Fifth Avenue hotel 'bus at 5 o'clock this morning and were on the New York German Lloyd steamship Ems at 7 o'clock.

Mr. Emmons Blaine said that his father would probably be gone until July, 1888. Mr. Blaine has received over 500 invitations from prominent people in the United Kingdom and on the continent to visit them. His last visit to Europe was when he attended the Paris exposition in 1867.

A Financial Stringency Improbable.

WASHINGTON, June 8.—It is an interesting financial fact that the large pension and interest disbursements charged by the treasury bookkeepers to the accounts for May were just nearly equal to those for the same month. In view of this and expenditures soon to be made, treasury officials do not contemplate any financial stringency. After July 1, they say, $10,000,000 of remaining 3 per cent. bonds are to be redeemed. About $7,000,000 interest on 4 per cent. bonds will be paid, besides the expenditures of the increased appropriations incident to the beginning of each new fiscal year. These officers feel justified in predicting that during July and a part of August the Treasury will not be a withdrawal of money from circulation greater than the amount to be paid out.

The Railroad Commissioners.

BUFFALO, June 8.—The state board of railroad commissioners, composed of Chairman John D. Kernan, William E. Rogers and Thomas C. Platt, with Secretary W. C. Hudson and R. C. McEntee, stenographer, met in this city yesterday in pursuance of a resolution of the common council requesting them to meet in this city and inspect the streets crossed by railroads, and to suggest means of devising some relief, either by elevating the tracks or bridging. A large quantity of testimony was heard pro and con, but the meeting was only preliminary, no action was taken. It is estimated that it will cost $5,000,000 to carry out the work as desired by the city. The commissioners went to Tonawanda to-day to look into similar complaints there.

Price of a Chicago Boodler.

CHICAGO, June 8.—Charles R. Abbott, secretary of the Columbus and Hocking Coal and Iron company, swore in the boodle trial that he paid $11,000 to Warden McGarigle to get him a year's contract for furnishing all the county institutions with coal. Afterward Abbott paid McGarigle $300 on account of "special services." Chris Pfeiffer, manufacturer of iron bedsteads, testified he paid $500 to McGarigle to "square" certain members of the board of county commissioners to allow his bill to pass the board.

In Danger of Inundation.

VIENNA, June 8.—A large number of dykes and sluices gave way in the flooded districts of Hungary yesterday, and the water has gained rapidly in depth over the submerged regions. Mako is in imminent danger of complete inundation, the water having already covered the lower portions of the town.

THE CARDINAL AT HOME

THE DISTINGUISHED PRELATE WELCOMED BY THOUSANDS.

His Reception at the Depot by the Mayor and City Officials — Invested with His Official Robes—No Reference to Labor Issues.

BALTIMORE, June 8.—Cardinal Gibbons arrived here yesterday afternoon on the Pennsylvania railroad express which left Jersey City at 10 a. m. He was accompanied to the city hall by the secretary, Rev. P. J. Donahue, and a committee headed by Maj. John D. Kirby. Many distinguished priests were present.

The Baltimore delegation which received him at the depot and accompanied him on the train consisted of Mgr. Elect McManus, the Rev. Dr. Foley, the Rev. Dr. A. Mangien, the Rev. John G. Gatsley and Col. R. A. Jameson. The Rev. Dr. P. A. Chappell and the Rev. J. A. Walker, of Washington, also joined the party.

One of the members of the party accompanying the cardinal said that, while not willing at present to speak on the labor question, he would soon issue an address to Catholics connected with labor organizations advising them to cut loose from the George-McGlynn party.

Long before the arrival of the train the streets leading to the Union station were thronged with people wending their way thither. There was an enthusiastic ovation at the depot and a reception was held in the ladies' waiting room.

The cardinal was received by Mayor Hodges, the members of the city council, judges of the courts and police commissioners, who took the right of line. On the part of the Catholic societies the cardinal was received by Charles A. Bonaparte, the trustee of the cathedral, on behalf of the clergy, who took their positions in the line in the rear of the civic officers. As the head of the line moved the commanding officer of several divisions fell in to make up the procession.

When the head of the column reached the cardinal's palace there was a halt, and the cardinal, with the clergy and guard of honor, entered the building.

There the cardinal was invested with his official robes, and, returning to the street, a procession was formed and moved to the west or main entrance of the cathedral, when there was a formal reception by Mgr. McColgan, and the service for a cardinal's reception was performed for the first time in Baltimore.

Three separate addresses were presented to the cardinal. Mayor Hodges welcomed him on behalf of the city of Baltimore; Charles J. Bonaparte spoke for the Catholic laity, and the welcome on behalf of the clergy was conveyed through Mgr. McColgan, the vicar general.

In his responses to these addresses the cardinal held entirely aloof from the labor issues and other public questions, which it is generally believed called him to Rome. His speeches on those points were studiously non-committal, and his language was confined solely to an expression of gratitude as it gave him to be once more in his own city and among his own people.

At the close of the religious service the cardinal and the clergy returned to the palace, and the procession, which had moved through several of the principal streets, returned to Charles street and was reviewed by the cardinal. The ceremonies throughout were of an imposing character.

A WIFE'S DEVOTION.

Clinging to the Man Who Cut the Throat of Her Infant Daughter.

PITTSBURG, June 8.—Professor Hermann, who bent his wife almost to death and cut the throats of his child and himself, is still living, but his case is considered hopeless. Hermann is confined in the Allegheny jail awaiting $5,000, which he has on deposit, to the German Evangelical Lutheran Orphan asylum at Richmond, Ind., and directing that his two sons be educated at that institution.

Mrs. Hermann did not know of the murder of her child and her husband's condition until yesterday morning. All night she had been lying by and bruised from her husband's murderous assault. But when the time came for the removal of Hermann she broke up and, with many protestations of love, declared that she would not be separated from him. She succumbed to the solicitations of the hospital, watching him as tenderly as if he had been the husband loved in the world, while the body of her murdered child was being prepared for burial by the undertaker.

American Home Missionary Society.

SARATOGA, N. Y., June 8.—The sixty-first anniversary of the American Home Missionary society was called to order at the Methodist church in this city at 7:30 last evening. About 200 delegates were present from various parts of the United States. The annual sermon was delivered by Rev. Frederick A. Noble, D.D., of Chicago. Among those present were Dr. Seelye, ex-president of Amherst college; Mrs. G. M. Lane, of Michigan; Mrs. Dreuding, of the Mayflower. George F. Pentecost, Rev. J. G. Merrill D.D., St. Louis; Rev. Michael Burnham, Springfield, Mass., and many others. The convention will be continued to-day and to-morrow.

The President's Journey Home.

PROSPECT HOUSE, June 8.—The president spent yesterday fishing, and though he caught nothing he enjoyed the tramp through the woods and the sail on the lake. He will try his luck again to-day, and to-morrow the party will start for home, driving out to Paul Smith's, where they will take the special train on which they came up. The train will go over the Vermont Central, reaching Albany early Friday morning. The president and party will take breakfast with Governor Hill at the executive mansion, and after a stay of three hours will leave Albany for Washington, reaching there probably Friday evening. There will be no public reception to the president at Albany.

Is Kalakaua a Boodler?

SAN FRANCISCO, June 8.—The Honolulu Gazette renews its attack on the king for alleged bribery in the opium matter. It prints sixty affidavits from fourteen witnesses to the charge that the king, on Dec. 20, received $20,000 in a basket; that a few days later a check for $10,000 was handed to the king personally; that a few days later $30,000 in gold coin, with a baked pig, were given to the king personally, and that subsequently $15,000 more was deposited and was paid to the king by a Chinaman named Aki. Aki had been promised a license to sell opium, but it was given to another Chinaman.

A Dangerous Burglar Caught.

BOSTON, June 8.—Jesse, alias "Blinky" Lane, one of the most dangerous and successful safe burglars in the east, has been captured here and will be taken to Springfield, where he is suspected of having, in company with Bill Bennett, alias "English Bill," robbed the store of John Kimball and Orrin Lombard. The two burglars mentioned are believed to be the leaders of a gang that has terrorized New England cities for eighteen months past.

THE RUSHING WATERS.

Hooversville, Pa., Submerged, and the People Fleeing to the Hills.

JOHNSTOWN, Pa., June 8.—The operator at Hooversville telegraphed that the town was completely submerged with water and the inhabitants fleeing to the hills; that several large bridges had been washed away and were going down the river in a current running eighteen miles an hour.

About noon yesterday the water at this place rose so rapidly that the larger portion of the borough of Johnstown was under three to four feet of water.

At Hooverstown, a suburb, upward of twenty residences were washed off their foundations. At least 100 families in this borough alone lost everything. The water has subsided so as to allow pedestrians to walk over the upper streets.

In Grubtown, Conemaughborough, Morrirfille, Minersville, Cambria City and Cooperdale the same scene is presented, and it is estimated in the suburbs and this city 300 people are homeless. All telegraphic connections between this city and up river points, where the storm was spent, are cut off.

The town of Bethel, thirteen miles south of here, is reported completely swept away. This village claimed a population of 200 people. The loss is estimated at $150,000 or more.

Yesterday afternoon the carcasses of at least fifty horses, cows, sheep and hogs passed down the river.

PISTOLS AT SCHOOL.

A School Principal's Murderous Assault on the Superintendent.

HENDERSON, Ky., June 8.—Professor E. S. Clark, superintendent of public schools, was shot yesterday by Professor Thomas Posey, principal of the high school. The men had a personal grudge of long standing. Professor Clark had occasion in the afternoon to visit the high school. He made some remark which displeased Professor Posey, and the latter drew a revolver and fired three times at Professor Clark. The room was full of pupils, and much excitement ensued, the screams attracted pupils and teachers from other rooms and a crowd from the streets. One of the bullets took effect in Professor Clark's right arm, another in his left shoulder and the third in his arm. He was carried home. The physician who examined the wounds said that they were not necessarily fatal.

It is said that Professor Posey was envious of Professor Clark, who was his superior, and desired to have him supersedied. Both men have families and are highly connected.

New Laws.

ALBANY, N. Y., June 8.—The governor has signed the following bills: Conveyance of real estate between husband and wife; relating to health and decency in school districts; amending chapter 310 of the laws of 1883 (prescribing bills of documents); for free instruction in industrial drawing in evening schools; relating to Easchester bonds owned by the Westchester Savings institution; amending the charter of Portchester; sobeat bill of Carl Louis Schafer, of Hempstead.

Wicked London.

LONDON, June 8.—Since the revelations made by The Pall Mall Gazette and the passage of the criminal law amendment bill the public have believed traffic in children to be impossible. A case in the police court has, therefore, caused a universal sensation of horror. Edward Procknell and three women were arrested, charged with keeping houses of ill repute and with having procured for their patrons scores of girls from 10 to 14 years of age.

Red Shirt's Opinion of Parliament.

LONDON, June 8.—Red Shirt and Broncho Bill, of the Wild West show, paid a visit to the house of commons at midnight. They were both in full war paint and wore enormous head dresses of feathers. They addressed themselves to Baron de Worms, who asked them what they thought of parliament. Red Shirt answered that he thought a little much of it. Laws, he said, were passed much quicker in his country than in this.

The Iron and Steel Workers.

PITTSBURG, June 8.—At yesterday's sessions of the amalgamated iron and steel workers nothing more than preliminary work was done. The report of the wage committee, to be considered this afternoon, provides for 10 per cent. advance all round, except for nailers, whose scale remains the same, and a change of base to average of price of sleigh, sheet and bar iron.

All Escaped by Jumping.

CINCINNATI, June 8.—A special train, consisting of a baggage car and three coaches, on the Cincinnati, Washington and Baltimore railroad, ran down an open switch at Gest street and rolled down a steep embankment. There were thirteen persons aboard at the time, and all escaped with their lives by jumping. It will require an outlay of $40,000 to repair the damage.

An Elevated Fire.

NEW YORK, June 8.—The lamp in the porter's room on the down town station of the Third avenue "L" road exploded last night, setting fire to the station and causing a damage of about $4,000. During the hour which it took to put out the fire the trains were stopped. It is regarded as a wonder that nobody was injured, as people were on the platform at the time.

Killed by Lightning.

BROWNSVILLE, Tex., June 8.—On Sunday about 4 o'clock in the morning a thunderbolt struck a house at the Chatonee ranch, killing two people and stunning four others. Manuel Portales and his wife were killed outright. Jesus Portales, their child, was stunned, and when brought to were each blind of the right eye. Two boys, sons of Rincones, were stunned.

Seven Hurt in a Vermont Wreck.

SPRINGFIELD, Mass., June 8.—Passenger train No. 34, west from North Adams, leaving there at 7:27 last night, met with an accident at Pownal Station, by which seven persons are reported injured. The last cars of the train contained the Phillips excursion party from Boston. The physicians here have gone to the scene in a special train from North Adams.

Free Delivery of Letters.

WASHINGTON, June 8.—Col. Bates, superintendent of the free delivery system, postoffice, has directed that the free delivery or carrier system be established in the following additional cities, to take effect July 1: Connecticut, Danbury; Maine, Bath; New York, Rome; Rhode Island, Westerly and Woonsocket; Vermont, Brattleboro and Montpelier.

Caught in a Belt.

READING, Pa., June 8.—At the Robesonia Iron company's grist mill Edward Hughes, a boy aged 18, was caught in a belt which he was endeavoring to put on a pulley and hurled around a shaft which made 300 revolutions a minute. His body was most shockingly crushed. He was found dead by a mill hand while still warm.

THE CURIOSITY SHOP.

Peculiarities in Science—Scraps of History, and General Information.

Aerolites have from time to time fallen on the earth for centuries. They are of every variety of size up to 14,000 pounds, the weight of the largest known, one in Brazil. A constant characteristic of these stones is a fused black crust which coats the surface. From its being very thin and the line which separates it from the inner mass well defined. It is considered to be caused by some rapid action of heat suddenly terminated, the heat probably resulting from friction with the atmosphere. Their velocities vary from eighteen to thirty-six miles per second, that of the earth being sixteen miles per second.

It has been noticed that certain meteoric appearances are periodic, and that they are seen in showers. Such showers have appeared on November 12 and 13, 1799, 1833 and 1834. The following are dates on which we should look for meteors: April 20 to 22, July 17, August 10. November 12 to 14, November 27 to 29, December 6 to 12.

It has been supposed that meteors were formed from collisions of the earth beyond the earth's attraction, and after wandering returned; also that they came from volcanoes on the moon. The present theory most in favor is that they belong to a variety of matter floating in space, and liable to come in contact with the earth when within the sphere of its attraction.

Around the Globe.

The distance around the earth at the equator is about 24,000 miles. Traveling around the globe on the equator would be to traverse a greater distance than near the poles, though the latter would be more difficult than the former. The usual route is 29,173 miles. The distance would be from New York to San Francisco, 3,460 miles; San Francisco to Yokahama, 4,764 miles; Yokohama to Hong Kong, 1,630 miles; Hong Kong to Singapore, 1,80 miles; Singapore to Calcutta, 1,6 miles; Calcutta to Bombay, 1,0 miles; Bombay to Aden, 1,664 miles; Aden to Suez, 1,308 miles; Suez to Alexandria, 2 miles; Alexandria to Marseilles, 930 miles; Marseilles to Paris, 300 miles; Paris to Dover, 316 miles; London to Liverpool, 205 miles; Liverpool to New York, 3,000 miles, making the total as given above.

Lafayette's Grant.

There have been numerous inquiries of late as to whether Lafayette accepted a township of land tendered him by the United States government, and if he did accept it, where is the land located. These inquiries have brought out a statement of one who was a deputy surveyor in Florida, who says that after completing the survey in 1825 he returned to Tallahassee, where he met Col. McKee, who had been sent there as the agent of Gen. Lafayette, then on a visit to the United States. Col. McKee was commissioned to select the proffered township, and he chose one adjoining and northwest from Tallahassee. It is presumed that the land has long since been sold off.

Abraham's Bosom.

The expression in Scripture, wherein Lazarus is spoken of as being "in Abraham's bosom," originated not, as is often among the Jews and almost universal in the east. It was the habit of those days to recline at table rather than sit upright, as is the universal custom today. In reclining at the board the second person's head would be near the bosom of the first one, who might be the host or some distinguished man. To be in that position to the bosom was the preferred friend or guest. Thus the term "in one's bosom" became a synonym among the Jews for felicity. While Dives was in torment Lazarus was in Abraham's bosom.

A Munition of War.

Under date of March 22, 1776, three days after Boston was evacuated, Dr. Thatcher's military journal says: "I accompanied several gentlemen to view the British fortifications on Roxbury Neck, where I observed a prodigious number of little military engines, called cat traps or crow feet, scattered over the ground in the vicinity of the works to impede the march of our troops in case of an attack. The implement consists of an iron ball armed with three sharp points about an inch in length, so formed that, which way soever it may fall, one point still lies upward to pierce the feet of horses or men, and is admirably well calculated to obstruct the march of an enemy."

Washington's Inauguration.

The first inauguration of president of the United States did not occur on the 4th of March. Washington's first inauguration and the meeting of congress were set for March 4th, 1789, but a large portion of the house of representatives did not assemble till the 1st of April, nor of the senate till the 6th, and it was not till the 30th that the president was inaugurated.

This dilatory meeting of congress has been referred to as a proof of the stagnation of interest in the new constitution, which was not popular and might probably not have been ratified had it not received Washington's support.

He First Circumnavigated the Globe.

On Sept. 20, 1519, an expedition commanded by a Portuguese named Ferdinand Magellan set out from San Lucar in the ship Victoria. With three vessel of five ships that started he sailed through the straits that bear his name, connecting the Atlantic and Pacific oceans. Magellan was killed in an encounter on the Philippine Islands in 1521. Sebastian del Cano, in the Victoria, sailed round the Cape of Caps of Good Hope, arriving at San Lucar on Sept. 6, 1522, having been around the world and the first to accomplish the feat.

Where Is the Largest Diamond?

The Kohinoor and the Orloff are the two largest diamonds in the world, so far as known. The former belongs to the crown jewels of England, the latter to the imperial crown of Russia. The Kohinoor was the largest of the two, though not considered as fine a diamond, but it has been much reduced in size by cutting. It originally weighed 793 carats and has been reduced to 186 and more lately to 106. The Orloff weighs 193 carats.

Electric Lights.

In the Sydney, Australia, lighthouse is the largest electric light in the world. It has a power of 180,000 candles, and may be seen from ships fifty miles out at sea. The next largest is in the Palais d'Industrie and has a power of 150,000 candles. The largest light in America is 34,000 candle power. It is at San Jose, Cal.

From a Signal to a Fashion.

It is said that the origin of the notch in the collars of coats originated in this way: The French general Moreau, when involved in a conspiracy, appeared in a notched coat as a signal to the other conspirators. His party was adopted the notch, and it soon became a fashion.

A Poetical Enigma.

'Tis true I have both face and hands,
And move before your eyes;
Yet when I go, no body wonders;
And when I stand, I lie.

Answer: The clock.

YOUNG FOLKS' COLUMN.

SINGULAR EFFECTS PRODUCED WITH A MAGNET.

All About a Peculiar Little Rodent from the Island of Borneo Called by Naturalists the Pen Tail on Account of Its Queer Appendage.

One of the most singular of the rodents is this little pen tail from the island of Borneo. He is only about twelve inches long, with a tail nearly three times that length. The tail is covered with coarse scales from the body nearly to the end, when the brush of coarse hair begins. The color is grayish brown. He is a sleepy little fellow, apparently about as lazy as the native people where he lives.

THE PEN TAIL OF BORNEO.

So few specimens of the pen tail have been captured that little is but little known about its habits, except that he is more cleanly than our rats and keeps away from human beings. He is not so pretty or so cheerful as our squirrel, nor so fleet of foot as our graceful little chipmunk.

Zoologists think that the long tail possessed by this little animal is used for the purpose of balancing himself when moving among the branches of the trees. He comes into the homes of the natives occasionally, but is not very often seen. A specimen was caught alive by Professor Jones in Java, and sent home to the "Zoo," as it is called, or the garden of animals, but the little creature died on the way and is now preserved in the Museum of Natural History in London. This picture is from a photograph of that one, taken for Child Culture, which journal explains that the singular appearance presented by the pen tail cannot be fully shown in a black and white picture, because of the color. The long hairs of the tail are white, and the scaly part is jet black, the throat and belly are yellowish, the back mouse color and as sleek as a mole skin.

When this picture was exhibited here to some persons who are quite familiar with animals, it was at once pronounced a fancy sketch of an imaginary animal, but it is a true likeness of poor little "Dart," who started on a journey to see the queen, and was not strong enough to endure the voyage and air, so different from that of his native home.

The Good Queen Bess.

It is a matter of history that Queen Elizabeth, or "Good Queen Bess," as English writers often term her, was the first English queen who wore gloves. These articles, previous to her reign, were unknown in a lady's toilet, although the habit of gloves called gauntlet had been adopted by men. The gloves worn by Queen Elizabeth were unlike the ones in common use to-day, being exceedingly elegant and costly affairs. They were of kid, reaching nearly or quite to the elbow and trimmed with gold braid and fringe. Others were lined with velvet and fastened with gold buttons and jeweled buckles. Others again were of silk, gayly embroidered on the backs and fastened at the wrist with gem set clasps. For many years after their introduction gloves were a costly and expensive, but Queen Bess soon had a pair for every dress, for she was exceedingly vain and delighted to be arrayed in rich and costly apparel.

This excessive love of display and finery gained for Queen Elizabeth much ridicule from her enemies, and it is written down in history that she was one of the vainest women that ever lived. This vanity and love of self brought much unhappiness to the queen, just as it does to every human being, whether great or small, young or old.

Experiments with Magnetism.

An amusing and singular effect may be produced with a magnet as follows: Scatter some iron filings over a piece of paper and hold a magnet underneath it. The instant the contact takes place the filings will raise themselves upright and fall down as soon as the magnet is withdrawn. The effect is particular, and, indeed, very amusing, the diminutive iron particles rising and falling as if by supernatural agency.

AMUSING EXPERIMENTS WITH MAGNETISM.

An experiment to show that the power of magnetic repulsion exists at the poles may be made by placing some iron filings upon a table, and then putting among them a magnetic rod or bar. The filings will immediately adhere to the ends of the bar or rod, but not to the middle or center, where the power of attraction is very little exerted, if at all.

The Right Road.

"I have lost the road to happiness—
Does any one know it, pray?
I was dwelling there when the storm was fair,
But shoreward I wandered away.

"I saw rare treasures in scenes of pleasures,
And ran to pursue them, when, lo!
I had lost the path to happiness
And I knew not whither to go.

"I have lost the way to happiness—
Oh! who will lead me back?"
Turn off from the highway of selfishness
To the right—up duty's track!

Keep straight along and you can't go wrong,
For so it was up from Long.
The safe, last guide of happiness
Can only be found that way.

—Good Cheer.

Marine Intelligence.

NEW YORK, June 8.—Arrived, steamers Italy, Liverpool and Queenstown; Ludwig Holberg, Rio Janeiro; Hermann, Bremen; Eureka, New Orleans; Huizon, New Orleans; City of San Antonio, Port Royal; Register, Wilmington, N. C.; Nacoochee, Savannah; Sleetmore, Portland; Hatfield, Middleborough. Barks Gilead, Santa Cruz; Fitzroy, Mauritius. Arrived out, steamers Noordland, from New York for Antwerp, has passed the Lizard; Furnessia, from New York, at Moville; British Queen, from New York, at Queenstown.

Killed by Lightning.

LEXINGTON, June 8.—Two yearlings by Red Wilkes were killed by lightning on the farm of V. C. Cromwell, in this county. They were valued at $2,000. A filly by Wanderer, out of Ouida, belonging to Mr. D. Hughes, was also killed by lightning at McGrathiana.

Mr. Corcoran No Worse.

WASHINGTON, June 8.—Mr. W. W. Corcoran, who was stricken with paralysis, is resting quietly. The paralysis has not spread to any other part of his system. His mind is perfectly clear, and he takes freely the nourishment allowed by the physicians.

Five Thousand Bidden to a Wedding.

ST. JOSEPH, Mo., June 8.—The wedding of the daughter of Congressman Burns, of this state, will be accompanied by the most elaborate fete ever given west of the Mississippi. The marriage will take place to-night. Five thousand guests have been invited.

War in Afghanistan.

CALCUTTA, June 8.—The troops of the ameer of Afghanistan and the Ghilzais, who are in revolt against the ameer's authority, retain the same positions they have occupied for some time past and are apparently trying to starve each other out.

They Want the Duty Increased.

WASHINGTON, June 8.—Assistant Secretary Maynard listened to arguments by a committee of the Philadelphia Textile association in favor of including the expense of reeling and skeining in estimating the value of imported yarns.

Beaten to Death.

WILMINGTON, Del., June 8.—David M. Pepper, a farmer, subject to spells of insanity, beat to death Samuel Parker, an aged pauper.

To Attend the Jubilee.

BERLIN, June 8.—The Crown Prince Frederick William will start for London next Saturday.

is a wholesome drink when highly charged, cold and flavored with syrups made from ripe fruit.

SODA WATER that is pure, bright and sparkling, cool and delicious, is wholesome. Now to meet the demand for good wholesome soda I have purchased and have in operation a beautiful apparatus which cost $1,000. In this you can have a glass of pure soda, fountain drawn, from glass and silver, sparkling and delicious with all the popular syrups of the day.

BURDETTE.

Odd Bits of His Wit—The Terror of Red Dog.

"Look here! I hain't been raised on beetles myself; I don't eat 'em at home and I ain't goin' to eat 'em when I pay for bean soup."

It was Samuel Standish Winthrop who spoke, turning angrily away from the best table in the only hotel at Red Dog. Samuel Standish Winthrop, the only son of one of the oldest and proudest families of Boston; a graduate of Harvard; brilliant, a poet, artist, an accomplished linguist, a lecturer, and a man who, young as he was, had once read Browning in the original Yandyke Brown. Polished, courtly and refined in speech and manner, the child of the oldest and best culture of this continent was a strange contrast to the rough scene and rougher men around him. There were a few of the inhabitants of Red Dog in the dining room at the time. Most of the boys were in the mines, and Jim Wild, Maj. Coldeck and Judge Lynch had gone out to bury a stranger from Ohio, whom it was found necessary to shoot during the discussion over the relative merits of four and a full, so that, with the exception of a few miners and gamblers lounging at the bar, the room was comparatively deserted. Winthrop raised his voice with that perfect modulation that spoke his university training:

"I say, gardner, bring along a dip net and scoop out those beetles. I take my soup and birds separate."

Rising lazily from the floor in a corner of the room, where he sat in the dust mending a forlorn pair of ancient moccasins, Tarantula Sam, the unkempt, tattered, lazy hostler, waiter and man of all work at the Red Dog hostelry, shuffled up to the table and leaning over the young Bostonian's shoulder, with a deftness born of the mountain and camp easily fished out the obnoxious insect with his finger.

"See, Signor," said the half breed, holding it before him, "you are mistaken; it is not a true beetle; I hardly thought it could be possible in this latitude. Note the vertical elongation of the head, the slender antennæ, the large reniform compound eyes; the shield-like tergal portion of the prothorax, overlapping the head in front and the tergal portion of the mesothorax behind; the increasing length of the strong legs, from the first pair to the last; the elongated, many jointed, setose styles — cerci — at its extremity; all these mark one of the least modified forms of the insects, Blatta orientalis, the common cockroach of commerce."

The half breed paused, with the cockroach held meditatively in his fingers; there was a little movement in the group of idlers, gamblers, teamsters and miners at the bar; Col. Tarbird, the landlord, broke the silence with, "Well, I will be doggone."

Samuel Standish Winthrop had fallen down dead on the floor.

GIVE ME EXCESS OF IT.

"Music," says Carlyle, "is a kind of inarticulate, unfathomable speech, which leads us to the edge of the infinite and lets us for moments gaze into that." I am easily moved "with concord of sweet sounds," I love the "old and antique song more than light airs, and recollected terms of these most brisk and giddy paced times;" but never did I appreciate Carlyle's saying until a few nights since, when I heard Patti sing "Home, Sweet Home." I will give you one stanza myself:

"Mid pleasures and palaces though we may roam,
Be it ever so humble there's no place like home;
A charm from the skies seems to hallow us there,
Which, seek through the world, is not met with elsewhere.
Home! home, Sweet, Sweet home!
There's no place like home;
There's no-he-place-like-home."

PERFECTION.

A friend who was sitting to Micheal Angelo for a revised statue called on the sculptor with his best expression, and some time afterward called again. The sculptor was still sculping, although he was no sculpin. His friend looking at his work said: "You have not been idle since I saw you last, but you look better have been." "By no means," replied the sculptor. "I have retouched this part and polished that; I have softened this feature and brought out this muscle; I—" "You have twisted my upper lip; you have made a great wrinkle across the cheek; you have carved a wart on the nose and set the ear further back, and made one eye crooked," exclaimed the friend. "But these are trifles," said the sculptor, "and trifles make perfection, and perfection is no trifle." But the remarks which his friend made, he started for the rival gallery across the way convinced Michael that it is easier to run a powder mill in Brimstonville than it is to please an unmarried man with his picture.

THE FREE LIST SUSPENDED.

"What is the duty of the hour?" asked the teacher. And the weaver's boy said he didn't know unless it was the tax on watches.—Brooklyn Eagle.

JOTTINGS.

—The first watermelons of the season were displayed at Barkalow & Dunn's grocery store on North avenue yesterday.

—Eugene Munsell & Co. have announced that their Manhattan Stove Works at Elizabeth would resume work this morning.

—Amoskeag Council, Order of American Firemen of this city, will hold their regular June meeting in Gazelle Engine house at eight o'clock this evening.

—There is but one play that can attract large audiences during this warm weather and that is "Uncle Tom's Cabin." It is will be here on Thursday evening the 16th.

—A movement is on foot in Elizabeth to establish another national bank, and a meeting of the business men and merchants has been called, when the necessary capital is expected to be subscribed.

—Werner's Clothing House big announcement appears to-day. In point of enterprise, Mr. Werner seems determined to offer every inducement to keep trade at home, and deserves credit for his grit.

—The Board of Directors of the Hillside Cemetery will hold a meeting in the Public Library building on Monday evening next to determine the opening of the lots and plats them on sale. A formal opening of the grounds will shortly take place.

—The presentation of diplomas to members of the training class for teachers is a new feature this year in the High School. Those who have taken a two years' course of study and practice for teachers and will be awarded diplomas, are Miss Clara Bass and Miss Madge Sutphen.

—At the regular encampment of Winfield Scott Post, No. 73, G. A. R., it was by action ordered that a general invitation be extended to all ex-soldiers residing in the city of Plainfield to unite with the reunion of the 11th N. J. Volunteers to be held in this city on Thursday next.

—The school census of Elizabeth shows as follows: First Ward, 1,886; Second, 1,263; Third, 1,451; Fourth, 498; Fifth, 1,331; Sixth, 566; Seventh, 456; Eighth, 783; total number of children of school age in city, 8,864; number of children in private schools, 2,696; number of school children over last year, 107.

—The suit of Sheriff Stiles vs. the Board of Freeholders, in the matter of the custody of the prisoners and keeping of the County Jail, will be argued in the present term of the Supreme Court, probably on Friday. Hon. John P. Stockton and Hon. George A. Parker will make the argument in behalf of the Sheriff, and County Attorney Ward in behalf of the Board.

—Belle Livingston and Mary Comisky, each of whom was at different times supposed to be the victim of the Railway murder, stopped yesterday evening at the police station there on their way from Summerville, S. C., to Hazel and Bush to visit friends. They afterward visited the photograph parlors and viewed the pictures of the murdered girl, which bore a close resemblance to each of them.

—It is not surprising that some of our local contemporaries have not yet learned that what promises to be one of the largest and most influential concerns in the State has recently been organized" and will locate its works in Plainfield. Numerous New York papers, and nearly every journal in New Jersey have given considerable attention to the matter. The NEWS long ago caused its title and its readers have never failed to receive every thing that bears the slightest semblance of news. The NEWS is alive to the needs of the people, and the manner in which it has placed this important matter before the people—locating the factory—in the plainest its columns carefully—has met with general approval and commendation. It is a matter in which every builder and real estate merchant in the city is deeply interested, and this paper has represented their interests too long not to know the full extent of information they desire. The NEWS never loses an opportunity to encourage public industry of any kind, in which particular it differs from some of its esteemed contemporaries.

Some Union County Finances.

The report of County Collector F. Sheridan will appear in THE NEWS on Saturday. The cash on hand at the last report was $3,908.98 and the receipts, including temporary loans amounting to $117,000, swell the sum total to $440,463.68. The disbursements have been $407,454.00, leaving a balance in hand of $33,009.68, the same as the beginning of last year. The State school appropriation amounts to $84,384.74 and State school tax $64,470.0. Of the temporary loans the First National Bank of Plainfield is represented to the amount of $20,000 and the City National $20,000. The Dunellen trust in the city of Plainfield is credited with paying taxes in full amounting to $44,743.02. The school and State tax of this city amounted to $9,392.63.

Plumbers Visit New York.

About twenty plumbers of this city visited New York yesterday and took part in the athletic games and picnic given at Seltzer's Park, under the auspices of the Journeymen Plumbers Association of New York. The programme included a series of running and jumping contests, sack races, base ball and other athletic sports. The following Plainfield plumbers took part in the sports, but none of them captured any of the prizes offered: Jacob Vogel, over-hand throwing rope; James Deady, one hundred yards dash, and Joseph Duff, John Sands and other Plainfield men engaged in a tug-of-war with a team from New York, and also one from New Haven. The prizes were silver watches and gold medals.

LOCATING THE FACTORY.

ADDITIONAL FACTS GATHERED BY THE NEWS.

More Donations of Property Made by the Land Improvement Company—Building Lots in Great Demand.

The Grant Avenue Station Park, on which the depot is located, begins at Grant avenue and extends southward 300 feet, and westward from South avenue 300 feet. South, adjoining the park, is the property of Mrs. Burke, 175 feet, and next adjoining—that is, 175 feet south of the station property, is 375 south of Grant avenue—the property of the Fond Machine Company begins, and extends nearly three-fourths of a mile to Clinton avenue, having the Evona station at its southerly limit, and the Grant avenue station near its northerly limit.

The company have agreed not to put up any dwellings on the land, which will be more than they will require for their buildings, and in consideration of this, they have secured it at a greatly reduced price. The 2400 feet property originally talked of has been valued at $24,000. They have secured however, as already stated, 3,100 feet, valued at $31,000. And, in consideration of their concessions and the large amount purchased, the property has been sold at a price much below this.

The object in preventing their putting up dwellings is that the Land Improvement Company may dispose of their land for the purpose. Already some of the principal men are buying up all the land they can get hold of, and will begin building operations forthwith, as soon as the work on the factory is begun.

The school property spoken of a few days ago is to be donated by the Land Improvement Company to the School District by unincumbered title. The Fond Company, and one of the inducements for the latter to locate here.

Operating, impressed Mr. Stebbins, the representative of the company, in prospecting, was the superior class of mechanics we have—intelligent, reliable men, many of whom were generally members of some elevating societies, and this is said to have given him full confidence in the people with whom the plant the company should locate in.

We learn that Mr. Stebbins, with Corporation Counsel Marsh, who has had considerable experience in preparing papers for corporations, for object, was on hand as soon as possible the real motive of the company, who are strangers in having so small an amount of capital men, turned as paid into the concern. In reply he said:

"The certificate of incorporation is a formal instrument and contains only what is required. It shall contain: Such statute names about as an amount with which business may be begun. Then an additional amount which may often name this amount when the property to be put with the business has not been ascertained, and then the amount is passed for the full value of the property owned, and for as much more as the shareholders collectively represent, and each shareholder is liable to the corporation and to creditors for the full par value of his stock, owned until it is finally paid up. Many of the wealthiest corporations have begun with the nominal sum of $1,000 in the articles. It is only upon examination that the amount of the output in property and cash was a hundred fold more. In other words the minimum amount was stated to save the trouble or time required to accurately determine the actual amount of property on hand at the date of filing papers."

Our special object in inquiring so closely into the corporate facts is that we may be familiar with the history of the introduction of the New Brunswick Carpet Company into the manufacturing city fifteen years ago. The projectors came from New York with a great flourish of trumpets and were going to turn the old Revolutionary Mill into a "big thing" and as supposed, for the rum they brought upon the town it has never yet recovered. Many of the heavy losers by the remain by the concern having lost $10,000 by the failure of the State Bank caused by it, and several heavy losers by the Panic, to permit a shrinkage of real estate.

We have traced the history of the Pond Company back to its inception, because of the $1,000 circumstance, referred to, arousing several suspicions, first explained by Mr. Marsh. The difference between this company and the one at New Brunswick, which, approving, employment Mr. Vedder and Mr. Noonan, principally women, is that the Pond Company have an established reputation and a financial, but Manning, Maxwell and Moore, who control the concern, are gilt edge, so far as capital and credit are concerned, the capital in their markets and experience putting into the millions.

Manning, Maxwell & Moore own the Passaic Zinc Works, and control all the zinc business in the country. They also own several large manufacturing concerns in Bridgeport, which are conducted under the plaintiff names of their founders however, the firm's name not appearing. In fact they are typical Yankee American merchants, and we would not be surprised in time to see them have the railroad all the way to Round Brook lined with factories before many years.

They are thoroughbreds and make a success of whatever they go into, even to yacht ing the Maxwells have built a yacht, "The Shamrock," which yachtsmen are looking to as a possible rival to "The Thistle," the present Old World wonder. It would be rather exciting to see the Mayflower, Thistle and Shamrock in a race on the Queen's County this year, which, however, has nothing to do with the Pond factory.

The facts before state that all the buildings in Plainfield in the present rush, could not put up by Oct. 1, the new factories described as wanting. The company propose to favor our mechanics all they can, but will have a man who has put up factories of the kind in charge of the work, and, if necessary, bring help with him to have the work completed in time.

Lloyd H. Martin, this afternoon made the first purchase of land for dwellings, securing a lot 50x135 feet, on Liberty street, the place running half way through to Seventh avenue for $1,250.

Others have been endeavoring to buy the point of land at the junction of Second street and North avenue, but the Land Improvement Company propose to donate a portion of it through Mayor Male, to the Muhlenberg Hospital.

The tract donated to the school district is located on the corner of Monroe and South avenues, and embraces 300 feet on the South avenue and 300 on Monroe avenue.

—Michael Wamberligh has made complaint before Justice Nash against Daniel Gill of North avenue, for assault. The trouble grew out of some family difficulty concerning chickens. Mrs. Gill claimed that the fowls of the Wamberligh henhouse interfered with the growth of vegetables in her garden. This grew into a family feud, and Michael and Daniel had several words, which ended, as alleged, that the latter assaulted him, drew a pistol and threatened to let rays of light shine through him nicely. The case is set down for a hearing this evening.

PERSONAL.

Alexander Gilbert will shortly erect a neat residence on Eighth street.

The members of the W. C. T. U. have decided to give an excursion to Asbury Park.

Dr. Charles R. Theirs and Seely Edsall are passing a few days rest at Lake Hopatcong.

Freeholder Shafer has purchased from Isaac Brokaw, the Maria Haley property on Duer street for $1,900.

Mr. C. D. Paul of Carlton avenue is being visited by his daughter, Mrs. George Morton of St. Thomas, Ontario.

Walter Gibson of West Second street has so far recovered from his recent illness as to be able to be around again.

Mrs. Oliver of Peace street will start next week to travel during the summer for pleasure, with her family.

Mr. and Mrs. Captain George W. Phillips of this city, sailed for Europe to-day, where they will spend several months traveling.

Isaac Brokaw, the real estate agent, has sold the Nichols property of Rockview avenue, to Col. Thomas Rafferty of New York for $8,000.

Rev. Mr. Honeyman and wife will spend the summer months at Pine Hill in the Catskill mountains. They will go early next month.

Rev. J. J. Baker, a retired clergyman who has recently made his home in Plainfield was received into the First Baptist church Sunday by the pastor Rev. Dr. Yerkes.

Charles B. Van Winkle, a law student in the office of Corporation Counsel Marsh, is reported to be lying sick at his boarding house on East Second street with symptoms of typhoid fever.

Miss Etta, daughter of Gideon Allen of North Plainfield and Ferdinand Smith will be married next week. Mr. Smith will shortly erect a Queen Anne cottage on West Front street.

Mr. Charles C. McBride, a journalist of considerable training and reputation, has been appointed to the editorial chair of the Elizabeth Journal, until recently filled by the late Peter W. Rouse.

William C. Smith is no myth as a builder. His card appears in the News to-day, and you may learn what he has to say, by carefully reading it. He knows a thing or two about building worth knowing.

George H. Fountain of Sherman avenue has purchased of Isaac W. Brokaw one lot 125 feet front on Grant avenue by 300 feet on Eighth street, the southerly course, and is to have erected thereon an elegant residence.

Dr. Kate C. Bushnell of Evanston, Ill., formerly a medical missionary to China, will address a meeting for ladies only to be held in the parlors of the Congregational church on Tuesday afternoon next under the auspices of the W. C. T. U.

Rev. Mr. Richards is expected to return from his western trip on Friday. After the Presbyterian convention at Utah he extended his trip to Denver, Colorado, where he has been staying a few days. The other delegates returned several days ago.

Gen Daniel E. Sickles of New York, who commanded the corps with which the Eleventh Regiment, New Jersey Volunteers was connected, has written a letter to Capt. William E. Hand, stating that he will be in Plainfield on the 16th to attend the annual reunion of that regiment.

Says the Somerset Messenger: "Richard Merritt of Plainfield, representing the Canton Bridge Co., was here Saturday looking after the delivery of the iron work for the new bridge over the Raritan. The iron and timber are now all on the ground, the south abutment finished and the north nearly so."

The following is clipped from the New York Evening Sun: "The Rev. Dr. E. P. Ketcham, of Plainfield, is not only a popular preacher, but he is one of the best yachtsman in New Jersey. He can be seen during his vacation each summer at the tiller of a pretty yacht in Little Egg Harbor, just off Beach Haven."

Mrs. Dr. C. Ayers is somewhat skilled in artistic needlework and in many other respects. Her home is handsomely decorated with many evidences of her ingenuity, including banners with peacocks in gorgeous plumage worked on them, and fantastic pottery modeled by herself. Mr. Ayers is very proud of his wife's skill generally.

Fred. C. Martin of Duer street has, through real estate agent Jos. T. Vail, of North avenue, purchased a valuable lot on East Fifth street from Mrs. Fannie T. Ketcham for $3,000. The lot is 100x135 feet, and is on the northwesterly side of the street, near Washington street, and adjoins the property of Mr. J. H. Honeyman. It is also opposite the Bethel Mission.

Dr. Davis entertained five homeopathic physicians at his residence on Park avenue last evening. A caterer from Newark did the honors of the occasion and a bountiful repast was enjoyed. These doctors hold monthly meetings for consultation and exchange of opinions. Among those present were Drs. Davis of Bound Brook and Long of New Brunswick.

At the rectory of St. Mary's church at half-past seven o'clock last evening, Miss Mary Mullen, a daughter of Mr. and Mrs. James Mullen of West Fifth street, this city, and James Bailly of New York were united in marriage by the Rev. P. E. Smyth, the pastor of St. Mary's church. Miss Ella, a sister of the bride, acted as bridesmaid and Harry Wilson assumed the duties of "best" man. The bride was becomingly attired in an embroidered white silk. The bridesmaid's dress was of the same material. The groom and groomsman were attired in conventional black. After the ceremony the happy couple were received at the residence of the bride's parents by a large number of their friends, who had assembled from New York and Brooklyn. Supper was served and at its conclusion the company assembled in the parlor and spent the night in dancing and sociability. The bride was the recipient of many costly presents, among them a basket of roses three feet high. Mr. and Mrs. Bailey left on the 5.43 train this morning for New Rochelle, N. Y., where they will spend their honeymoon. Upon their return they will reside in this city for the present.

Mr. and Mrs. Elmer Runyon are expected to return from their wedding trip to-day.

Col. Cook of Tennessee, is to-day the guest of Mr. Schepflin of the firm of Schepflin, Bahrenburg, Tweedy & Co.

A gentlemen from Norway was in Plainfield Tuesday evening inspecting the electric light system. He expressed himself as being much pleased with it.

Professors Denton and D. S. Jacobus, of the Stevens Institute, Hoboken, were at the electric light building last evening making tests of the system. They were guests at Laing's Hotel.

The remains of the late Mrs. Bethia Mulford were taken to Southold, L. I., this morning for interment. A short funeral service was held at the residence of her daughter Mrs. S. I. Mitchell this morning at ten o'clock, Rev. Mr. Van Meter officiating.

Miss Hattie Searle of New York, is spending a few days with Mr. and Mrs. E. M. Daniels on West Eighth street. Persons on the verandas of his residence and talking in an ordinary tone of voice can hear their words echoed back from a small grove of trees some distance away with wonderful clearness, and on account of this Mr. Daniels has very appropriately named his place "Echo Villa."

Ex-city Judge Suydam left town this afternoon for Wernersville, Bucks county, Pa., a small town on the Blue Ridge mountains, a short distance beyond Reading. Mr. Suydam has been in very poor health for some time and will try the water cure in that place. He was recommended to go there by Mr. Collier, whose wife was completely cured by the treatment some years ago. The change will probably be gone for some weeks.

Mrs. Zerurah Cadmus died at her residence at the corner of Fourth and Church streets yesterday at twelve o'clock. She was about seventy years of age and has been a resident of Plainfield for many years. Three children survive her: Mrs. C. B. Cadmus of Gordonville, Va., Mrs. A. W. Johnson of Duer street, North Plainfield, and the youngest daughter, Josie Cadmus, who resided with her mother.

The funeral will take place on Saturday at three o'clock. Interment in Evergreen Cemetery.

THE HIGH SCHOOL.

A Reporter's Pleasant Interview with the Principal.

A reporter for THE NEWS made a very pleasant visit to High School this morning, and enjoyed a few moments chat with the genial and efficient Principal, Miss Julia E. Bailey.

"I come," said the reporter, "to see if you would be good enough to tell me anything further concerning the preparations for the commencement exercises."

"I shall certainly be glad to give you any information I can," replied the pleasant lady, and the reporter was taken to a neat looking office, on the third floor, where the principal continued, with note-book in hand: "I thought at first I could give you the names of the members of the graduating class, but I find that the seniors are just passing their final examinations in mathematics and are in the contest for the Stillman prize. The valedictorian, however, is Miss Clara M. Burt, who is a student in the classical course. She had an honor conferred upon her in classics at the commencement last year. Her competitor was Miss Hannah Bell Reserves, both credit for hard study and scholarship. Hested first in the scientific course. The prizes for history, spelling and languages, you know, are decided in the school and of course the competition is lively. The presentation of diplomas to the members of the training class for teachers is a new feature this year. Misses Madge Sutphen and Clara Bass have each taken a two years' course of study and practice for teachers and will receive diplomas. There will be no class poem this year owing to the absence of Mrs. Ritter.

"The teachers who have been tendered reappointments for the ensuing year are Miss Bulkley, "are Miss Petrie, Miss Niles, Miss Hornby, Miss Runyon, Miss Davis, Miss Pettis, Miss Annie Hyland, Miss Fraue Goldarb, Miss Miller, Miss Dewey, Miss Day, Miss Bullock, Miss Force, Miss Brown, Miss Newman, Miss Waters, Miss Humphrey, Miss Vedder, Miss Noonan, Miss Wood, Miss Clark, Miss Norton, Miss Reeves, Miss Lewis, Miss Stowell, Miss Kitchen, Miss Burt, Miss C. Tickner, Prof. Hazell. Seven new teachers, and possibly eight, will be appointed to our corps. Only one of those will come to the Stillman or High school, to fill the vacancies caused by the resignation of Mr. F. J. Miller, the senior teacher. The gentleman selected for this position is Edwin H. Lewis, also on several Mr. Lewis has had considerable experience in teaching and manifests great ability. He is a graduate of this school and has taken double honors in his finishing course at the university. Mr. Milligi as you already know, has accepted a professorship of Latin in the Worcester Academy, Massachusetts. The other teachers will be distributed among the Washington, Franklin and Bryant schools."

"But," protested the reporter," I do not see your name among the list of those who are favored with a reappointment."

"Well, you see I have occupied this position for about twelve years," was the modest reply, "and I had rather resign from the background to assist the others forward whenever I can. I have an item or two here," she continued, "that will be of more interest to your readers. At the one hundred and thirty-third commencement of Columbia College which occurred on May 23d, Miss Bullock, a graduate of our High School, and who was here prepared for the college course, was the valedictorian of the School of Arts, in the graduating class. He also took the Chandler History prize and the average of the whole average for the whole college course stood between 95 and 100, the latter number being held by Miss Bullock. She was born here, but his family moved to New York when he entered college. William A. Dunning, another graduate of the High School, received the prize lectureship in the School of Political Science."

"You might mention," concluded Miss Bulkley, as the reporter was bowing himself out, "that on the morning of Wednesday the 22nd, about an hour and a half will be spent by the school in a musicale to which all our friends are invited."

A Narrow Escape.

Yesterday afternoon as the Philadelphia express train which passes through this city at 4.45 o'clock was nearing the station the engineer noticed a small boy on the track. He blew a shrill blast from the whistle on the engine, which greatly startled passengers in waiting at the depot. But it had the desired effect of warning the boy of his danger, and he leaped to one side, thereby saving himself from being run over. The train was running at a high rate of speed, and persons who saw it say the boy's escape surprised them.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

The Weather.

For Friday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair weather, southerly winds, nearly stationary temperature.

Yacht Race this Afternoon.

FORT WADSWORTH, June 8.—The New York Yacht Club regatta starting gun was fired at 12.34 this afternoon. But two of the boats got away, until the firing of the handicap gun. The Gertie, the Cinderella and Genevieve, followed by the Atlantic, Priscilla and Galatea, started on the star-board tack, making a short leg for the Long Island shore. At 12.56 the Atlantic was making for Fort Wadsworth. The wind is very light. At one o'clock the Priscilla and Galaten were not far from the staring point, and were standing for Staten Island.

Thieves in Westfield.

Sneak thieves have again made their appearance in Westfield. On Tuesday night they entered the house of Orrin Pierson on Broad street, and stole a lot of clothing and plated ware. The thieves with their booty started for Cranford, as their tracks were plainly visible till the old Cranford road was struck, then they seemed to have gone into the woods. The residence of E. D. Chamberlain, known as "Maplewood," was entered early this morning, it is supposed by the same parties, as the houses were entered in the same manner. A side door with a panel in which had been used, grease spots from which were noticed on one of the carpets. Three coats, a hat, a dozen plated table spoons and forks, a half dozen solid silver spoons, a large accordeon, and a valuable memorandum book which was in one of the coats was also taken. Mr. C. considered this of more value than all the other things taken as it contained several valuable papers. The thieves passed the side-board without examining it and consequently missed a valuable find. The silver spoons taken had belonged to the grandfather of Mrs. Chamberlain and were considered very valuable. They also entered the pantry and helped themselves to milk and other eatables. An old pair of pants belonging to Master Willie were taken and one pair found as far as the fence where they were found this morning. The thieves tried all the windows before they effected their entrance, which was made through the kitchen window, the fastening having been pushed back for the purpose. The family did not hear any noise during the night and were not aware that a robbery had been committed until they came down stairs this morning and found the doors and windows open. Two suspicious looking men were seen about the depot on Tuesday night about twelve o'clock, and it is thought they are connected with the robbery of Orrin Pierson's house. They walked up the track toward Cranford after leaving the depot. Constable Marsh has the matter in hand and will endeavor to trace the thieves.

BOUND BROOK.

Walter Reisse has begun the foundation for his new house on John street.

Mrs. Charles Judd and son, of Pittsburgh, Pa., are visiting friends in town.

Bloomington will be the scene of another wedding the latter part of the month.

The next meeting of the Y. P. S. C. E., of the Methodist and Congregational churches will be held at the latter on Friday, 17th inst.

THURSDAY, JUNE 9, 1887.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 8.—Money closed at 3½ per cent. The lowest rate was 3 and the highest 4%. Exchange closed steady; posted rates, 4 85½@4 87; actual rates, 4 84¾@4 85 for sixty days and 4 87½@4 88¾ for demand. Governments closed firm; currency 6s, 103 bid; 4s, coup., 125¾ bid; 4½s, do., 109¾ bid.

The stock market was weak throughout the afternoon. Dealings were less active, but prices went gradually lower. About the bottom figures of the day were current at the close. There were no especial causes for the decline, except some harrassing by the bears and an entire absence of support. The leaders of the downward movement were St. Paul and Indiana, Canada Pacific, Chicago, St. Louis and Pittsburg preferred. Union Pacific, Louisville and Nashville and Northwestern preferred. The decline in the stocks mentioned ranged from 1¾ to 3¼ per cent. In the r[illegible] decline was only fractional.

General

Dan Rice Married.

SCHULENBURG, Tex., June 9.—Col. Dan Rice, the veteran Cincinnati showman, was married here to-day to Mrs. C. C. Robinson, a wealthy widow and owner of one of the finest cattle ranches in Lavaca county. Mrs. Robinson's daughter and the other members of her family were present to-day at the marriage. The bride is a lady of great benevolence. Her marriage to the aged showman is a matter of much comment.

A Court of Inquiry Ordered.

WASHINGTON, June 9.—The navy department has ordered a court of inquiry to ascertain the circumstances of the death of Lieut. Clark on board the United States steamer Iroquois. The department is perfectly satisfied that Clarke died by his own hand, but the court is ordered because the unfortunate man's father persists in the belief that his son was murdered, claiming that he saw the murder in a dream.

Lawlessness in Kentucky.

LEXINGTON, June 9.—News has just been received here which says John and William, two sons of Logan, who is now confined in jail here, were killed in Rowan county by a posse. Marshal Manner, of Morehead, was also killed at the same time by the Logans, while he was trying to affect their arrest. Thus three more men fall victims to Rowan county lawlessness. The Logans belonged to the Martin faction.

Reich Found Guilty.

NEW YORK, June 9.—The jury in the trial of Adolph Reich, killing his wife returned a verdict of guilty of murder in the first degree, but recommended mercy. Reich admitted on the witness stand that he stabbed his wife in the throat during a struggle which followed his discovery of a man in her room. He claimed, however, that he was at the time in danger of being killed by the woman.

The Stricken Philanthropist.

WASHINGTON, June 9.—The condition of Mr. Corcoran is unchanged. He is surrounded by his relatives, and talks freely of his business interests and his illness. Drs. Hagner and Lincoln both say their patient is doing splendidly, and seem much encouraged by his condition. Many callers were at the house to-day and telegrams and letters from solicitous friends continue to pour in.

Reprimanding the Press.

BERLIN, June 9.—A dispatch from St. Petersburg says the czar is greatly incensed at the tone of the Russian press in commenting on the foreign policy of Russia, and has caused the editors of several leading newspapers to be severely reprimanded. The czar is represented as being extremely anxious for the establishment of friendly relations between Russia and Germany.

A Winged Spy.

PARIS, June 9.—A German carrier pigeon, bearing a note written in the German language, was found at Tours, and the circumstance caused considerable excitement. It is suspected that the bird was released at some point near Tours in expectation that it would cross the German border, and the pigeon and the note will become subjects of military investigation.

Is a Labor Party Needed?

NEW YORK, June 9.—Two thousand persons, four of whom were priests and six were ministers, assembled in Cooper union last night to listen to a debate on this question, "Would a Distinctive Labor Party be of Benefit to this Country?" Gen. Roger A. Pryor presided. He made no decision, in accordance with the agreement made by the debaters.

Indians on the Warpath.

BENSON, A. T., June 9.—Thirty Indians are now stated to be on the warpath, instead of seventeen, as at first reported. Their first victim was a union veteran. It is feared that two white men who were at work at Table mountain, on the Oak Grove Trail, have also fallen victims to the renegades.

Chandler for Senator.

CONCORD, N. H., June 9.—Ex-Senator Rollins has withdrawn as a candidate for the special senatorship, and therefore at the present time is no light William E. Chandler, ex-secretary of the navy, will be undoubtedly elected.

A STRUGGLE FOR LIFE.

MR. BARNUM'S DESPERATE FIGHT WITH A BURGLAR.

The Desperado Armed with a Dagger, Which He Uses with Telling Effect. He is at Length Overpowered and Bound.

DANBURY, Conn., June 9.—Samuel A. Barnum, a retired business man whose residence is on West street, was awakened between 3 and 4 o'clock yesterday morning by a noise in his room. As he opened his eyes he saw that daylight was approaching, and at the same instant he saw a man standing by his bedside. Mr. Barnum threw his arm under his pillow, pretending to feel for a pistol, and said:

"Who are you?"

The intruder raised a dagger over Mr. Barnum's head and said:

"Hush!"

Then the man seized Mr. Barnum's trousers from a chair and made a rush for the door. Mr. Barnum sprang out of bed and grappled with the burglar, who stabbed him twice in the face. They fought the length of a long hallway, tearing up the carpet and streaking the walls with blood. Mr. Barnum got hold of the burglar's throat and threw him. They fell into the bathroom. After a terrific struggle Mr. Barnum managed to get on top of his adversary. The fellow then begged, but Mr. Barnum tightened his grip and tried to strangle him. At this moment the burglar struck a terrific blow into Mr. Barnum's shoulder and twisted it around. Mr. Barnum then shouted for help.

By this time the whole family were in the hall. Mrs. Barnum was screaming and her daughter was frantic with fear. Arnzi, Mr. Barnum's son, rushed to his father's assistance and they disarmed the burglar. Then Mr. Barnum went downstairs and procured a clothes line, and the prisoner was tied hand and foot, carried downstairs and lashed to the stair rails. A surgeon was sent for. Officer Wheeler, Arnzi and Mrs. Barnum watching their prisoner and the daughter trying to stop the bleeding of her father's wounds. He had been stabbed five times—two in the face, one in the shoulder and once in the foot. The point of the dagger was broken off in the scuffle, and to this fact, possibly, Mr. Barnum owes his life. He is still suffering from exhaustion and loss of blood.

The prisoner was taken to police headquarters and locked up. He had entered the house by the kitchen window, removed his shoes and lighted a lamp. The dog, which usually barks at the slightest noise, was found stupified with some drug. The prisoner gave his name as Joshua Jones, of Boston. In his pockets were two empty pocketbooks, two pairs of handsome sleeve buttons, a pair of nippers, a bunch of skeleton keys and Mr. Barnum's watch and chain. He seems to be about 18 years of age, and has very light blue eyes. Detective Wade, who travels with P. T. Barnum's circus, thinks the prisoner is a fellow who has been following the circus and was of a party of thieves who were broken up by the police when the circus was at Pittsfield. If he is, he belongs in Philadelphia. He was bound over to the superior court under $5,000 bonds.

Mr. Barnum retired from business some years ago and is very well known throughout western Connecticut.

DAVITT STILL ADVISING RESISTANCE

When He is Arrested His Wife Will Take His Place.

DUBLIN, June 9.—At Bodyke yesterday two women named Tuohy defied the evicting party attempting to oust them for several hours. As often as the evictors attacked the house they were repulsed by showers of boiling water and slacked lime, but the women were finally compelled to surrender, and were arrested for resisting officers of the law.

Michael Davitt again addressed the people at Bodyke, and in the course of his speech stated that he had received a letter from Mrs. Davitt in which she intimated that if he were arrested she herself would take his place, and speak wherever evictions were being enforced, counselling resistance to the death. For the last eight years, Mr. Davitt said, he had counseled moderation, and had been unpopular with the speeches. Brazen English governors had given the Irish people nothing but kicks and insults for the moderation they had practised, and he had abandoned his policy of moderation for one of resistance. When the Tory blackguards themselves showed moderation he also would return to it.

The Printers' Convention.

BUFFALO, N. Y., June 9.—At yesterday's session of the International Typographical union August Donath, chairman of the Childs-Drexel fund, reported that by contributions of one hour's work on the donor's birthday by printers, the original gift of $10,000 has been swelled to about $14,000, which is on interest at 3 per cent. The trustees asked to be put under $10,000 bonds. A resolution was offered that apprentices be indentured for five years, and limiting the number, and also a resolution commendatory of Dr. McGlynn, which were referred to committees. An effort to have the McGlynn resolution discussed was lost. In the afternoon D. P. Boyer, of Columbus, O., was reelected chief organizer. Three delegates were elected to the American Federation of Labor convention. The next convention will be held in Kansas City the first Monday in June, 1888.

State Labor Bureaus.

MADISON, Wis., June 9.—Representatives of each of the twenty state labor bureaus of the country met here yesterday in national convention and decided upon Indianapolis as the next place of meeting. Carroll D. Wright, of Boston, was elected president; F. A. Flower, Madison, vice-president, and E. R. Hutchins, Des Moines, secretary. President Wright, in the opening address, showing that labor bureaus had increased from one to twenty in eighteen years, and that it was only a matter of time till all states fell into line. He particularly emphasized the wisdom of only absolute truths being given to the public by bureaus, and insisted that labor problems could only be solved by the bureau system. The convention will close to-night.

Vassar College Commencement.

POUGHKEEPSIE, June 9.—The commencement exercises at Vassar college yesterday were largely attended. The graduating class numbered thirty-six. It was announced that the trustees had voted to abolish the preparatory department, and to establish an associate professorship of history, and had granted two new degrees, those of bachelor of philosophy and bachelor of music. An enlargement of the physical laboratory has been provided for. Nearly all of the 300 pupils have left for home.

Lynched for an Attempted Assault.

MANSFIELD, La., June 9.—Two negroes entered the sleeping room of two young ladies, twelve miles southeast of this place, last week for the purpose of assaulting them. Suspicion pointed to two men, who were arrested, and they confessed their guilt. Monday night a mob took one of them, W. L. Washington, and hanged him to a tree.

GRAND LODGE OF MASONS.

List of the Officers Elected for the Ensuing Masonic Year.

NEW YORK, June 9.—The Grand Lodge of Masons, in yesterday afternoon session, declared that the rooms and halls in the temple must not be let to any but masonic organizations.

Representatives of grand lodges of other

FRANK R. LAWRENCE.

states and countries visited the session and were received with due and ancient formalities.

A constitutional amendment, that the payment of fifteen years dues in advance be one of the conditions of conferring a life or perfect membership was referred to the committee on constitution.

The following officers were elected for the ensuing masonic year: Grand master, Frank R. Lawrence; deputy grand master, John W. Vrooman; senior grand warden, James Ten Eyck; junior grand warden, John Hedge; grand treasurer, Washington E. Connor; Grand Secretary Ehler was re-elected.

A YOUTHFUL MURDERER.

Left in Charge of an Infant, He Blows Its Brains Out.

MEMPHIS, Tenn., June 9.—Richard Smith, a 10-year-old negro, murdered a colored baby that was left in his charge at Bartlett, Tenn., nine miles from Memphis. The boy, an orphan, had been living with the parents of the infant. The father gave him a severe flogging on account of other misconduct, and he resolved to be revenged. Being left alone with the baby he took a double barreled shotgun and deliberately fired it at his helpless charge, blowing the brains out. He ejected and lodged in the county jail. The little murderer seems to have no remorse for his crime. He says he intended to kill the child some time or other, but not just then; that he did not know the gun was loaded, and only wanted to "pop a cap and skeer de chile." He says he does not care what they do with him so long as they do not hang him.

A Wife Beater Murdered.

ARKANSAS CITY, Ark., June 9.—Constable Jerry Carter arrived here Tuesday night with a prisoner, one Ralph Brown, who was committed to jail without bail, charged with shooting Alexander Jones in Red Fork township last Saturday. Jones was whipping his wife, when Brown ordered him to stop. Jones did not cease, and Brown emptied both barrels of a shotgun into Jones, putting out both his eyes, severing his tongue and breaking his jaw. Brown was arrested. A large crowd of Jones' friends assembled Sunday night and stated that they intended to lynch Brown. Constable Carter informed his prisoner of the danger, and started for the woods with him from the back door as the mob were entering the front.

Accidently Shot.

NEWARK, N. J., June 9.—Patrick Henry, an old man living on Hudson street, was shot and instantly killed by Daniel Murphy, a Newark police supernumerary, at the home of the latter at 10 o'clock last night. The men were friends and neighbors, and were on the best of terms. Yesterday Chief Tuite told Murphy to get a revolver, and on his way home he borrowed one from a friend. While in the act of cleaning the weapon several men gathered around to have a look. Henry was interested in the pistol, and when it was discharged, the ball entering Henry's left side. He fell to the floor and died at once. He leaves a family. Murphy went to police headquarters and surrendered himself.

Vessels in Collision.

NEW LONDON, Conn., June 9.—The steamer City of Brockton, from Fall River for New York, arrived here yesterday, having in tow the three masted schooner Ida E. Latham, of Greenport. Both vessels were in collision off Faulkland Island in a dense fog at 2 o'clock this morning. The Latham's bowsprit was carried away, her stern started and she has five feet of water in her hold. She is from Perth Amboy for Boston with a cargo of coal. She was taken from the City of Brockton by a tug and placed on the mud flats. The steamer had a small hole made in her upper works on the port side forward of her smokestack. She proceeded to New York.

Precautions Against Contagion.

WASHINGTON, June 9.—No new cases of yellow fever are reported. The treasury department has ordered the revenue marine vessels to co-operate actively with all quarantine officers in preventing the introduction of contagious diseases. If a vessel is found with sickness on board or in a foul condition she will be directed to proceed to the quarantine station and the revenue marine officer will immediately notify the proper quarantine officer. No such case no person will be permitted to board the vessel with all quarantine officers in charge of the quarantine shall have given the usual permit.

Constitutional Prohibition Defeated.

BOSTON, June 9.—The constitutional prohibition amendment was defeated in the house by a vote of 139 to 74, not the necessary two-thirds.

The Pope's Jubilee.

ROME, June 9.—Thus far the sum of $160,000 has been received in the Vatican as offerings in honor of the pope's jubilee.

A FELONIOUS ASSAULT.

One of the Villians Wore the Badge of a Special Officer.

HUDSON, N. Y., June 9.—Chief of Police Snyder is investigating a brutal crime which was committed shortly after the express train from New York reached here on Monday night. One of the passengers was a Miss May Rutherford, who came here to visit friends on Diamond street.

The young woman, who is unusually ladylike and prepossessing in appearance, tells how she was robbed and feloniously assaulted by four men, one of whom wore the badge of a special police officer. She was terribly maltreated by the ruffians. The crime has caused intense excitement and indignation in the town. The police claim to have a trace of the criminals, and hope soon to have them in custody.

OBJECTED TO SEALING.

SHE HAD NO AMBITION TO BECOME WIFE NO. 5.

A Young Lady Convert to Mormonism Escapes from Salt Lake City in Male Attire, in Company with Another of the Same Mind.

NEW YORK, June 9.—A woman about 20 years old was accosted by Policeman Brennan in the Pennsylvania railroad depot in Jersey City yesterday afternoon because she appeared to be in mental distress. She said she had relatives named Griffin in South Eighth street, Williamsburg, and the police man told her how to go to that city. To a reporter she told the following story: Her name is Eleanor Paston. She had just arrived on a train from Salt Lake City. About a month ago she, in company with seventeen other converts, who had been secured in Cornwall, England, were taken to Salt Lake City by Elder Bascom. She and Amelia Clegge, another new convert, were taken under the roof of Elder Bascom. Bascom had three other wives, the principal one of whom was called Hannah. She was a gray haired woman. When the elder announced his intention of sealing to himself the two new converts Hannah became jealous and angry. Both the converts objected to becoming members of the elder's household. So one night they tied together some clothing and lowered themselves out of the window. They ran a short distance and found themselves in an alley near the tabernacle. Here they were discovered by Elder Junius F. Wells, a Mormon, who, Miss Paston says, sides with the perverts. He took the two women to a stable and provided them each with a suit of male attire to aid them in escaping from the city.

On the following morning he took them to the station and put them on the train. While they were standing on the platform Elder Bascom came along and inquired of Elder Wells whether he had seen the two missing women were. Bascom failed to recognize them in their new garb. On the train they related their story to the women passengers, who provided them with suitable clothing, while the gentlemen made up a purse for them. At Omaha Miss Clegge left the train in company with a lady who had promised her a situation, while Eleanor remained on the train until it reached Jersey City.

Miss Paston is of bright intellect. She says she had no idea of the intention of Bascom to marry her until she reached Salt Lake City.

THE BIG WIND

Visits Missouri and Wrecks Everything in Its Narrow Path.

MARSHALL, Mo., June 9.—A tornado visited this county, doing severe damage at Blue Rock. The storm struck the front of Henry Oberdick's residence. The house was entirely lifted from its foundations, turned partially around and collapsed almost a complete wreck several feet from its former resting place. The husband, wife and several children, seeing the storm coming, sought safety in the cellar, while the house was lifted from over them. Oberdick's barn was destroyed, three horses killed, the orchard completely uprooted and twenty acres of wheat partially destroyed. The residence of B. Davidson was unroofed and lifted from its foundation. The frame residence of Jesse Henricks was almost totally destroyed. The storm covered a space of fifty yards wide, and wrecked all fences and trees in its way.

University of Pennsylvania.

PHILADELPHIA, June 9.—The commencement exercises of the University of Pennsylvania were held in the Academy of Music yesterday. The degree of bachelor of arts was conferred on thirty-five; the degree of bachelor of philosophy on twelve; that of bachelor of science on forty-seven, and bachelor of laws on forty-eight; There were also conferred on quite a number the degrees of master of arts, practical chemist, mining engineer, mechanical engineer, civil engineer, veterinary medicine, etc.

Saves a Train from Wreck.

CARLISLE, Pa., June 9.—As a young man named Hiller was walking along the track of the Maryland Western railroad yesterday he found four heavy ties piled across the rails. The 4:30 p. m. west bound express was in sight, and was coming at full speed. He waved up his umbrella and waved it frantically. The engineer saw the signal, put on the air brakes, and stopped the train within a few feet of the ties. The train was crowded at the time, and had it not been stopped a serious accident would have occurred.

Shoemakers' Convention.

BROCKTON, Mass., June 9.—The National Shoemakers' convention yesterday discussed various propositions for lessening the antagonism between labor and capital, and listened to reports upon the condition of the assemblies throughout the country. The committee on the state of the order will today make a report on the differences in labor troubles and other specific difficulties, and suggest some plan of settlement. Committee reports will also be listened to. The convention may not adjourn until to-morrow night.

The Lutheran Ministerium.

PHILADELPHIA, June 9.—The Lutheran ministerium yesterday was presided over by Rev. Dr. George F. Krotel. The committee on catechism reported that the present catechism was still approved. It was resolved to urge pastors to encourage the work of the deaconesses, which is regarded as of great importance. It was announced that the deficiency in the fund of Rev. Herman professorship at Muhlenberg had been covered by subscriptions. The session then adjourned, to meet at Lancaster, Pa., in 1888.

The Flood Still Continues.

VIENNA, June 9.—News of fresh disaster and distress in the flooded districts of Hungary continues to come in. The inhabitants of Lele were rescued from the upper windows of their houses by means of boats and are now camping in the higher places around Mako. At the latter place thousands of men are working at the dykes, but their efforts to stay the overflow of the waters are futile, and unless the flood soon subsides the whole town will be undermined and its buildings destroyed.

Killed His Brother-in-Law.

HANNIBAL, Mo., June 9.—Lincoln Cook, colored, shot his wife through the arm and in the breast. His brother-in-law, Carter Jackson, then knocked the weapon out of his hand, but Cook regained possession of it and shot Jackson, killing him instantly. The murderer then walked to the police station and gave himself up. The wife will recover. Some time ago Cook and his wife parted, and the tragedy was over possession of their child.

Stanley Making Good Progress.

BRUSSELLS, June 9.—Advices from the Congo country state that Mr. Stanley is making good progress on his journey toward the relief of Emin Bey. His expedition passed the confluence of the Congo and Kassi rivers in the early part of May, and expected to reach Bolobo very soon thereafter.

Marine Intelligence.

NEW YORK, April 9.—Arrived, steamers, Chateau Leoville, Bordeaux; Amalfi, Hamburg; Castlegate, Rio Marina; Amethyst, Bluedskiby, Colombo, Galveston; Alsatia, Genoa; State of Indiana, Glasgow; Alpa, Gonaives; Kanawha, Newport News; Edith Golden, Port Maria; Mexico, Havana; City of Washington, Campeache. Arrived out, steamer Rhaetia, from New York, at Hamburg.

A Singer Injured.

INDIANAPOLIS, June 9.—The National Opera company arrived yesterday, and at night sang "Lohengrin" before a large and fashionable audience. "Lohengrin" was announced, but a change was necessitated by an accident to Mr. Candidux.

Drowned in Deep Water.

WILKESBARRE, Pa., June 9.—At an early hour yesterday morning J. B. White, a prominent resident of Wyoming while attempting to ford the Susquehanna river at Forty Fort, got into deep water and was drowned.

Justice Mercur's Funeral.

PHILADELPHIA, June 9.—Chief Justice Mercur's funeral at Wilkesbarred was largely attended by relatives and friends. Special trains were run from this city. The interment will be at Towanda.

Steamship Company Fined.

BOSTON, June 9.—Collector Saltonstall has imposed a fine of $1,000 upon the Cunard Steamship company for permitting an insane woman to land from one of their vessels.

WOMAN AND HOME.

INSTRUCTIONS FOR THOSE WHO DO THEIR OWN PAPER HANGING.

Women Who Write for the Papers. Members of Sorosis—The Boy Escort. Ivy Poisoning—Baby's Eyes—Various Items of General Interest.

The easiest way, of course, is to employ a professional paper hanger; but that largely increases the expense, and if economy must be practiced, one who has a "knack" for doing such things (we would not advise any one else to try it) can very soon become sufficiently expert to paper a room nicely. In selecting a paper, two points with respect to quality should be kept in mind: 1. It is much more difficult to hang a very thin or very thick paper than one of medium weight. If one is going to put it on himself, it is better to pay a few cents a roll more, and be content with a little less than the best, than run the risk of making a bad job of it. 2. Special care should be taken to avoid purchasing a paper with arsenical colors. It is a mistake to suppose that green paper alone contains arsenic. Other colors may have it, and unsmirched wall papers, in spite of the protests of doctors and sanitarians, are still largely sold, to the serious detriment of those who are confined in the same room with them.

The following suggestions are given in The Stockman for the benefit of those who desire to do their own papering. Premising that the old paper, if there is any, should be entirely removed from the walls, for sanitary reasons, it says:

The old paper can easily be removed by taking a common whitewash brush and a bucket of water. Wash the wall all over, and the old paper will soak off and the wall made perfectly clean again; if this is not done there will be ridges where the paper is left on, that will show badly with your new paper, especially if it is a light ground.

Care and attention should be taken in selecting papers for the places they are intended to be put. Light bedrooms with white hangings have a chilly aspect, which should be avoided; also dark ground papers will give rooms that are not fully lighted a somber effect which is depressing. For whatever part of the house it is intended it should give it that cheerful, home like appearance, being evidence of the taste of the occupants.

Having your old paper removed and your new selected, you are ready to begin papering. Take a roll of the paper, and having trimmed the right side of it, hold it up to the wall, arranging it so that the pattern will show evenly at both top and bottom, and then cut off a length. Use this piece as a guide, and match all the rest of it. In cutting the lengths be careful to have them cut perfectly square across, or it will look badly where it meets the wash board.

You now have your paper trimmed and cut ready to apply. Have ready a whitewash brush, a table or board long enough to take the whole piece in one length, and the step ladder on which you can stand and reach the top of the wall. Make a paste of wheat flour, quite thin—not thicker than molasses, and as smooth as possible. Apply this paste to the piece of paper, being very particular to have it touch the edges, the top and bottom well. Take the piece by the top, raise it off the table and support it with your arm, and put it up to the wall, keeping it entirely clear of the wall until you fasten the head of the sheet and see that it hangs square. Hang it properly at first, and then follow it down in the best way, being careful to match the figures so as not to have a white seam showing between the patterns. It is best to cut the paper length wise when you reach a corner, matching the figure as before. If you do not wish to take from the height of a room do not put bordering on the bottom of the wall.

Begin papering in the least showy corner, at the side of mantel or some place not much seen, so when finished if it does not exactly match it will be little seen. This is all there is to be observed in hanging paper, and there is nothing that any one cannot do with a little patience and practice.

Instead of cutting lengths so that they will just reach the surface, it is much better to cut them a little longer than necessary; then, after putting on the paste, turn the lower end over eighteen or twenty inches, so that when laid against the wall it will not stick at the bottom till the upper part is properly hung. When that is accomplished, run the turned up part down, mark it along the top of the surface with the shears, and cut it off at the marked line. By this method inequality in the height of the room or in the base board is allowed for, and the paper always fits neatly along the base board.

A very pretty effect is produced by using roll paper for a border instead of the regular bordering. If too wide for the height of the room it may be cut in two, or, if the figure admits of it, in three strips, finishing where the two papers join with narrow edging. This is a little old fashioned, but if the paper harmonizes with that on the walls it gives a very pleasing effect, and is much cheaper than an equally handsome border.—Boston Budget.

Women Who Write for the Papers.

Mrs. Mary Mapes Dodge, of St. Nicholas, is graceful and well dressed. She talks with great vivacity.

Miss Mary L. Booth, editor of Harper's Bazar, is rather large. Her complexion is dark, and she is a deliberate talker.

Miss Jeannette L. Gilder, the editor of The Critic, is tall, dark and masculine in her dress and gait. She has a brusque way of talking.

Mrs. Martha J. Lamb, editor of The Magazine of American History, is petite, slender and dark. She is a chatty and vivacious talker.

Mrs. Frank Leslie, owner of her late husband's publications, is slight, graceful and dark. She dresses richly and talks with directness and vigor.

Mr. S. S. Conant, who is the temporary editor of Harper's Bazar during Miss Booth's absence, is rather stout and dark in complexion. She is a pleasant talker.

Miss Ellen M. Hutchinson, literary editor of The Tribune, is small in stature, graceful and has a light complexion. Her conversation is rather cynical than otherwise.

Mrs. David G. Croly, "Jennie June," at present editor of Godey's Lady's Book, of Philadelphia, is slight and dark. She is a vivacious talker, and has an engaging and expansive smile.

Mrs. Mary A. Bowman, musical critic of The Sun, is of medium height, and a tasteful dresser. Her complexion is neither light nor dark. She is a charming talker and a delightful singer.

Miss Lizzie M. Champney, contributor of stories to juvenile periodicals, is tall and slender. She has a light complexion, and is a graceful and pleasing talker. Her husband illustrates her stories.

Miss Maldie Morgan, five stock reporter for The Times, is very tall and slender. Her complexion is neither light nor dark. She dresses with great plainness, and is a delightful talker. She speaks French and Italian with a charming Irish accent.

Mrs. Gertrude Garrison, editor of the American Press association, is of medium height, and has a slender, graceful figure. She is inclined to be a blonde in complexion. Her eyes are dark gray. She is decidedly pretty, dresses well, and is probably the best "all around" woman newspaper writer in the profession.

Mrs. Fannie B. Merrill, editor of The Graphic supplement, is of medium height, and inclined to be stout. Her complexion is rosy, her eyes gray and her hair is dark. She is going to put it on himself, it is better to pay a few cents a roll more, and be content with a little less than the best, than run the risk of making a bad job of it. 2. Special care should be taken to avoid purchasing a paper with arsenical colors. It is a mistake to suppose that green paper alone contains arsenic. Other colors may have it, and unsmirched wall papers, in spite of the protests of doctors and sanitarians, are still largely sold, to the serious detriment of those who are confined in the same room with them.

Members of Sorosis.

Mrs. Louise Thomas, the present president of Sorosis, is a fine looking woman, with a superb mass of hair, still unthreaded with gray, that she wisely lets darken about her head. In her youth her hair was so long—far below her knees—and so thick that she was inclined to look upon it as an infliction rather than as an ornament, and an hour every morning had to be given up to the labor of combing and braiding it. She has round features, and a bright, intelligent face, with a slight lisp, but has a very sweet and gentle voice. Her eyes are gray and her complexion clear and pale, and she looks as if she had dressed in a hurry and hadn't had time all day to go back and straighten things out. She has a pretty young daughter, who is beginning to be heard in suffrage councils and who is to be seen at all meetings where the interests of women are at stake. She, unlike her mother, is very fond of dress, and is always quite elaborately and expensively dressed. Isabella Beecher Hooker and Jennie June Croly—who has lately become editor of Godey's Lady's Book—are equally old, old fashioned looking women, who can be easily mistaken for old aunts and indulgent grandmothers. Isabella Hooker wears her hair in white curls about her face and carries a little ancient reticule on her arm. Mary Seymour Howell, who engineered the woman suffrage bill through the assembly last winter, is slim and quiet and speaks very softly. Elizabeth Cady Stanton is coming back here soon from England. She is still very handsome, and was in her younger days a beauty. Her sons inherit it from her —fine, strong looking young fellows whom one sees in the street any day.—New York World.

The Boy as an Escort.

It is a good plan for mother and sister to depend, as it were, on the boy as an escort. Let him help her in and out of the car. Let him have the window seat and pay the fare. Let him carry some of the bundles. He will be delighted to do these things, and feel proud that she can depend on him. A boy likes to be thought manly, and he is no better way can he show his manliness than by taking his father's place as escort of mother or sister. Teach him to lift his hat when meeting a lady friend, whom he or his family are acquainted, without regard to race, color or position, for a true gentleman will lift his hat as readily to a poor woman at the door with whom he has a speaking acquaintance as he will to the highest in the land. He cares not for her position, it is enough for him that she is a woman. Teach him also to lift his hat when passing a gentleman acquaintance with whom there is a lady, although the latter be a stranger to him.

All persons who feel that their family are proud of a courteous boy, and there is no reason why any boy cannot become one if proper attention is paid to his training. If his mind is turned in this channel when young, there will be a great deal he will learn of his own accord by observation.—Boston Budget.

Remedy for Ivy Poisoning.

I have always been extremely susceptible to the poison of poison ivy and oak so as to give me great annoyance, unless it is immediately checked on its first appearance. This, I am happy to say, has been accomplished for me, if properly applied. I make the application by saturating a slice of loaf bread with water, then cover with surface with soda, and apply to the eruption, or to soda next the flesh. When the bread is dried by the animal heat, I drop water on the outer side so as to keep it thoroughly moistened and dissolve the soda surface in contact with the skin. This, you will perceive, is merely a bread poultice; the bread being a vehicle through whose moisture the soda reaches the humor. I find that washing or bathing with soda water, even continuously, will not suffice with me. My skin requires the heat and moisture of the bread in order for the soda to act on and neutralize the poison. I have never had to retain this soda poultice for more than thirty minutes on any affected part. No pain ensues. Formerly I suffered for weeks as the poison would extend all over my body. Now thirty minutes measures the duration of its exhibition.—R. S. Lacey in Popular Science News.

Home for Working Women.

A lady describes a home in a New England manufacturing town which has interested us very much. Eight young women, all workers in straw, hired a house in common, placed in it a widowed sister of one of them as housekeeper, furnished it as best they could and set up a family life, all sharing the expense equally. The experiment has proved very successful. Occasionally they give a modest party, and the house is recognized in the town as part of its social attractions. There is something very pleasant about this departure from the regulation boarding house. Its success would demand rare qualities of mind and heart in the inmates—a union of good temper and good principle not always found in eight individuals of the same household.—New York Ledger.

The Muscles of Baby Eyes.

The two muscles—a set for each eye—act in perfect correlation and enable the organ in an instant of time to cover an infinite range of vision. No fine adjustment of the telescope, no system of lenses and prisms, can accomplish this feat in an instant of time. The utmost caution is therefore imperatively demanded of every person to whom is consigned the care of the young child from infancy to perhaps the third year of life. It is during this time that damage to the muscular appurtenus of the eye may be done. The mother or nurse is eager to have baby see everything from the nursery window or from a baby carriage or car. How many tired backs, nerves and disordered tempers result from this mistake!—Philadelphia Call.

The Love of School Girls.

In the great city the tender and unsullied love of school girls for each other degenerates before they have met a second time after graduation. The years glide by, and now and again they meet, like ships that cross on the high seas. There is a moment's recognition, a little looking back, a little sinking of the heart as each traces the remorseless years in the other's fast aging face; a little reddening of the eyes, a little spasm of pain, to be reminded that what was love is now indifference; a little unspoken prayer, of which the dear language of old is in the object; one passionate regret for the sweet summer of life that can never repeat itself, and then—then the curtain of the past is drawn.—Signor Max in Detroit Free Press.

Women of Genius.

Very few women distinguished in literature have found fame and fortune early in life. George Eliot was 38 when her first story was published; Mrs. Stowe's "Uncle Tom's Cabin" appeared in the 39th year of her life; Elizabeth Barrett's genius matured at 37, and all her best work was done after that event; "H. H." became famous after she was 40 years of age, and Louise Alcott's first really good story was not published until she was 36. Very few, indeed, have sprung into the "seat of the immortals," and all have had long years of discouragement and hard work. Nine parts perseverance and study and one part genius is the average with them.—Chicago Current.

Feminine Physicians.

A circular was recently sent to members of the Massachusetts Medical society asking the following question: "Do you favor the admission of women to the society on the same terms as men?" Eleven hundred and thirty-two replies were received, of which 700 were affirmative and 400 negative, 28 being indifferent. The state membership of the society is 1,353. Answers to other questions show, first, that 350 members have consulted with women physicians; second, that 951 do not object to consulting with women on account of their sex.—Kansas City Times.

New Work for Women.

The Brooklyn normal school for physical training has initiated a new occupation for women, and started what may possibly prove the beginning of a national movement of no little consequence. It is fitting girls by a course of practical work and study to be competent instructors in physical training and take positions, which are rapidly opening to them, as heads of women's gymnasia and teachers of the proper training of the body in girls' schools.—Chicago Tribune.

Singers of Note.

When Patti made her debut, in 1859, she was distinguished in the world of art as the American prima donna. There was no other American singer of note. Then Hid Phillips smiled to fame; Alboni, Thursby, Hauk, Juch, Van Zandt, Nevada, L'Allemand, Engel, Nordica, Dotti, Anita Alameda, Emma Abbott, Hastreiter, Annie Louise Cary entered, but one by one forgotten, Segnin, Davis and half a hundred lesser people who sing on off nights.—Public Opinion.

To Prevent Mustiness.

In a recent issue I find an inquiry how to dispel the nasty smell from a room. I find by experience that there is nothing equal to indirect heating system to make a room smell pure, either furnace heating or indirect steam heating. The pure dry air it furnishes will make ventilation in every part of the room good.—"J. A." in Scientific American.

Miss Marin Parlon.

Miss Marin Parlon has given up her New York cooking school and will spend the next year lecturing, probably in the south. It is one of Miss Parlon's put grievances that women are not more liberal in allowing her to teach male help, but that they insist on fancy dishes, which, in her estimation, are far less important to learn.—Chicago Tribune.

Have Bound Themselves.

Two persons who have chosen each other out of all the species, with a design to be each other's mutual comfort and entertainment, have, in that action, bound themselves to be good humored, affable, discreet, forgiving, patient and joyful, with respect to each other's frailties and imperfections, to the end of their lives.—Addison.

Save the Paper Bags.

Paper bags, in which many articles are sent from the grocery store, should be saved for use when blacking a stove. You can slip the hand into one of these and handle the brush and at the same time the hand will not be soiled, and when through with them they can be dropped into the stove.—Boston Budget.

Cure for a Felon.

A cure for a felon is said to be a poultice made of equal parts of spirits of turpentine, salt and common bar soap, applied as soon as the felon becomes apparent. Renew the poultice once in twelve hours. Remove it occasionally and hold the finger in lye as hot as can be borne.—Boston Budget.

Door mats, as a usual thing, should be large enough for the most extraordinary development for the pedal extremities. Economy in door mats is frequently synonymous by extravagance in the consumption of the carpet.—Brattleboro Household.

To keep iron kettles from rusting when new boil a piece of pork in them and let the solution cool before emptying; or simply grease them with the pork rind and heat it in thoroughly.

Such a large sweet fruit is a complete marriage that it needs a very long summer to ripen it, and then a long winter to mellow and season it.—Theodore Parker.

By rubbing with a damp flannel dipped in the best whiting, the brown discoloration may be taken off cups in which custards have been baked.

Hot water is better than cold for bruises. It relieves pain quickly, and by preventing congestion often keeps off the ugly black and blue mark.

Kid shoes may be kept soft and free from cracks by rubbing them occasionally with pure glycerine.

The sultan of Turkey has established two schools for women at Constantinople.

Cistern water may be purified by charcoal put in a bag and hung in the water.

A morning hand bath in cold salt water is delightfully invigorating.

When choking from any cause get upon all fours and cough.

A Romance of the Period.

First Omaha Dame—And so the wedding of Mr. De Million and Dollie Dumpling has been postponed!

Second Omaha Dame—Yes, they are both sick.

"Well, Mr. De Million isn't quite so young as he used to be, and it don't do for a man of his age to stand at a gate every night until 11 o'clock this weather."

"Oh, that's true. His great grandaughter told me the doctors were afraid he would not be in good health again for some time. He is still suffering from a wound, the result of a kick from a mule during the Mexican war, you know."

"Yes, by the way, what is the matter with Dollie?"

"She has the mumps."—Omaha World.

WHAT SHALL WE WEAR?

A FASHIONABLE MANTLE FOR THE SUMMER SEASON.

The Largnette, Revived Last Winter, Promises to Remain in Favor Another Season at Least—Fashions Here and There—Attractive Hats for Children.

With a view to assisting mothers in the selection of summer hats for their little girls the accompanying picture illustrating three styles is given.

HATS FOR LITTLE GIRLS.

The dark brown hat of straw with pointed crown has its turned up brim bound with brown satin ribbon and lined with velvet of the same color. Brown ribbon three and a quarter inches wide, striped on one side and plain on the other, trims the outside. The dainty hat trimmed is, and of Italian straw, has a crown two and three-quarter inches high and a brim two and five-eighths inches wide. The latter is lined with pink striped silk and the outside is trimmed with white purl edged ribbon and a tuft of feathers. The remaining hat shows a new sailor shape, suitable for little boys as well as little girls. It has a flat brim and is trimmed with blue corded ribbon two and three-quarter inches wide, on the outside of which are patterned small crests of white silk.

The Popular Largnette.

Numbered with noticeable revivals made during the past winter, and likely to remain in fashion for some time to come, is that of largnettes. Every well dressed woman who has any pretensions to style carries her largnette to the opera, the theatre, the concert room as certainly as she carries a fan, a handkerchief or any other necessary accessory to the toilet. The largnette has grown rapidly in favor, doubtless, from the fact of the ease with which it is carried, as well as its furnishing a graceful toy to hold in the hand. Of course, with the rage for these optical instruments, there are largnettes and largnettes, some very plain and substantial ones, looked for only as useful results of the optician's skill; some valuable chiefly for their rich and elaborate handles and frame-works, while there are some that combine perfect fitness as well with the highest skill of the jeweler's art.

Novelties in Ribbons.

Novelties in gauze ribbons are being constantly introduced. Among the newest are those showing the gauze between lines of faille, satin or velvet. Some entirely transparent ribbons have fancy corded edges. Old rose and plumbago, straw color and navy blue, pansy and orange are among the favorite combinations of color in the new fancy ribbons, which have borderings in loops, cords and fanlike tufts.

Long Narrow Pocketbooks.

Lady readers will be interested to learn that the long narrow pocketbooks continue to be the fashionable ones; also that monkey skin is just now asked in leathers for making pocketbooks, chatelaine bags, card cases and the like, though pig skin, crocodile, etc., are still in fashion. The new shades in dress fabrics are represented in the new pocketbooks; hence there is a prevalence of heliotrope and Bismarck hues.

A Summer Mantle.

The summer mantle, a back view of which is here given, affords an excellent idea of the manner in which different materials and shades of contrasting color are used in one garment. This model is of guipure piece lace of steel blue color and velvet of blue. It is beaded with steel beads on the velvet parts, and trimmed with blue silk fringe eight inches deep, and long tassels of steel beads and chenille.

A NEW MANTLE.

This mantle is quite short in the back, with the points ending in square tabs in front.

Fashion Notes.

Very long sticks characterize the new parasols.

Morning caps are worn by matrons, old and young.

There is a craze just at present for ivory miniatures.

Indian cashmere or light fancy cloths are used for demi-season mantles.

Velountine, a soft, rich quality of Surah silk, is a very fashionable silk at the present time.

Mrs. Grundy says that the tailor made woman has enough wives and steels upon her to get up an electric storm.

Pierced handles are out which represent a cat in various attitudes. These are known as the "Bernhardt" handles.

A new size in fashionable note paper and envelopes is perfectly square, of an unusually heavy quality, and the note sheet does not require a fold.

Miscellaneous Cards.

Kindling Wood.
12 Barrels for $2,
at Mrs. Demeus's. Water street. Orders left at Mr. F. Cheny's, Somerset street or addressed to P. O. Box No. 88, promptly attended to.

IT WAS A RARE SPECIMEN.

Colonel Boland's Discourse on the Brontotherians.

"I say," said Col. Boland, as he reached into his vest pocket as if he expected to find a cigar, "that the Territorial School of Mines has secured a fossil skull of a brontotherium for its museum, and that the specimen is very rare and valuable."

"Ya-es, I saw it," replied Judge Persimmon, unconcernedly, as if he wanted to turn the subject.

"Now, I have been in the territory twenty years," continued the colonel, "but the brontotheriums were all gone when I came. What I want to know, Judge, is if you met any of 'em in an early day?"

"I s'pose I did," said Judge Persimmon, as he glanced around at the crowd as if to call on it to witness that he was forced into it. "I struck Dakota in '47 with a little party, and traveled all over before any other white man dared to venture across its boundary. At that time the brontotherium was very plenty. They used to come up within 100 yards of our camp and sit up on their hind legs and whistle at us."

"But I see, judge, that in this specimen the jaw bone is twelve feet long."

"I noticed it," returned the judge, as if slightly hurt. "I was just going to say that they have only got a young one after all. The jaw of a full grown brontotherium was fully twenty feet in length. When they sat down and stuck their noses up and howled they reached up in the air like the steeple on an Episcopal church. It was a great sight to see a row of them around the camp early in the morning. I shot several. After one or two of them fell over the rest would get up and bark a little and trot off, wagging their tails. Their tracks measured six feet wide by ten long. I tossed one in the summer of '58, and it followed me about like a dog."

"Any other curious animals then that are now extinct?"

"Yes, several species. There were the botherations, the thingumbobs, the whatjocallems and the great howling burra whoopers. I notice the school hasn't specimens of any of these yet, and I doubt if they can be procured now. I'll tell you about them all some day when it rains and I haven't anything else to do."—Dakota Bell.

At the Jersey Pigeon Shoot.

Of Course.—Why don't you fire, The trap's empty!

Crank English Shot (who has passed the previous night near the grounds)—I thought there were some more of your blawsted mosquitoes, yer know.—Tid Bits.

Agreeably Surprised.

"My water pipes was all frozen up," he said at the Water office yesterday.

"Not Water pipes don't freeze up in Detroit the last of May."

"Well, no water come for me."

"Let me see! Ah! the water was turned off two days ago because you had not paid your tax."

"Did de vhasn't frozen up?"

"No."

"Und no plumber had to come around?"

"No."

"Vell tenderly but to go under der house und a lamp?"

"No."

"Vhell, dot vas all right, und he may shtay like he vas. I vhas afraid of some troubles mit him."—Detroit Free Press.

Base Envy Withers at Another's Joy.

"Did I understand you to say that this place was the Pittsburg of the south?" queried the tourist as he limped from the train in an Alabama town of 150 inhabitants.

"Yes, sir-ee, sir," promptly replied a man sitting on a pile of railroad ties.

"In what respect?"

"Why, sir, every man, woman and boy in the town smokes from sun up to sun down, and we have a revival every spring as regularly as clock work. Yes, sir, this is the Pittsburg of the south, and don't you forget it!"—Wall Street News.

How to Trim Them.

"Aw, Ethel," remarked Charley to his pretty cousin, "I believe—aw—I'll have the bonnet—aw—trim my whiskers this spring—aw."

"Do, Charley," said his pretty cousin.

"And—aw—Ethel, how would you suggest that I'll have them trimmed?"

"Well," replied the pretty cousin, after sufficient consideration, "I think they would look very sweet trimmed with pink ribbon."—Harper's Bazar.

A Doubtful Compliment.

"I confess," drawled a literary bore, "that I imitate, to some extent, Thackeray's style."

"You do!"

"Yes; but you don't object to it?"

"Object! No, but don't disparage your originality. I'm sure you are not in the least like him."—Detroit Free Press.

A Law Seldom Violated.

Wife (who believes in consistency)—If the old blue laws forbid kissing one's wife and the selling of intoxicating liquors on Sunday, why isn't the former enforced as well as the latter?

Husband—Because it isn't necessary.—Harper's Bazar.

Not Familiar with Horses.

Clara—Oh, my, Estelle! See how fiddler loves his horse; he hugs him so sweet!—Fliegende Blaetter.

A Portrait.

She thinks so much of worldly show
That should an angel shadow to
Arise unto the skies,
A long, white robe she'd quickly don,
And buy a harp to play upon;
Then pay a call to every friend,
And tell them all in waigh her wend
Her way to Paradise.—Chicago Tribune.

THE CIRCULATION OF THE NEWS IS AS LARGE AS ALL THE OTHER PLAINFIELD PAPERS COMBINED.

Died.

CADMUS—In this city, June 8th, Keziah B. widow of the late Abram Cadmus, in the 67th year of her age.
Funeral service at her late residence 33 East Fourth street Saturday afternoon at three o'clock.
Interment in North Plainfield.

JOTTINGS.

—Children's carriage blankets at the Bee Hive, as noticed elsewhere.

—The work of erecting the new Bethel Mission building is well under way.

—The Somerset County Board of Freeholders meet at Somerville next Tuesday.

—The Star base ball club (colored), held their annual ball and cake walk in Cutler's Hall last night which was well attended.

—The base-ball nines connected with the Scott and Potter Press Works will contest in a game of ball to-morrow on the latter club's grounds.

—The Philadelphia express train, due in this city at 8.17 p. m., was a half-hour late last night on account of a freight car derailed at Centreville.

—To day is the last legal day for shad fishing, and those who hereafter choke themselves on the bony delicacy will do so without hope of legal redress.

—Dickenson & Clawson have everything new to say in their advertisement to-day. They are an enterprising firm and always strive to keep ahead in their line.

—Preparations are being made for a road race, from Plainfield to New Brunswick, to take place the latter part of June or early in July, by several members of the Bicycle Club.

—A game of base ball will be played Saturday afternoon, on the Park avenue grounds, between the Commuters, on the 7.59 and 8.01 trains, and some of the members of the Bicycle Club.

—A horse, belonging to Patrick Galbraith, which was left standing at the depot about half-past eight o'clock last evening, became frightened and ran away, but was caught before doing any damage.

—The Plainfield Electric Light Company will give a dinner next month to the members of the Electrical Engineers, comprising prominent electricians from all over the country. They will be served at Laing's Hotel.

—Plainfield property is beginning to "boom." The addition of 2,000 in population, with capital of half a million of dollars, soon to be a part of our city, with all the advantages we possess to-day, will certainly be felt throughout our entire section the coming season.

—A special committee has been appointed by the Railway Commerce Council, consisting of Messrs. Farrell, Belmer and Du Rie, to confer with the managers of the defunct Railway Saving Institution in relation to making a settlement of the principal and interest on $181,000 of water bonds, which the bank holds among its assets. The outlook for a final settlement is favorable.

—The concert to be given by the Rutgers Glee Club at the M. E. Church to-night will be a very entertaining one. The club has gained quite a reputation by its excellent selections and the skillful and effective manner in which they are rendered. In New Brunswick, where the club is best known, it always draws crowded houses, while its entertainments given in Newark and elsewhere have met with great success. The receipts to-night are for the benefit of the building fund of the church.

—Charles Bettman, of Bergen Point, N. J., was found lying on the sidewalk on Park avenue, nearly opposite the residence of Dr. Davis, about seven o'clock last evening, in an *insensible condition. Dr. Davis attended* him and found he was suffering from an epileptic fit. A carriage was summoned and he was taken to the residence of his brother J. M. Bettman of Myrtle avenue, North Plainfield where he died soon after. The sudden death of a brother recently, is said to have affected his mind somewhat.

Mr. L. Heyinger, the enterprising Somerset street merchant, is very unique in his way of doing things. Now he has all the ladies in town looking at his display of articles of especial value in household economy, which he explains with so much bon homme that it is not necessary for one to be told that he was for forty years a New York merchant. Some of his novelties are advertised in another column, but the list of the new things which he bought the other day it would be difficult to describe, so as to be understood, but women are very much interested in them and they sell readily, at the very low prices he puts them at.

—The new German Church building on Craig place, North Plainfield, will be enclosed and under roof this week. A fair idea can already be formed as to its appearance when finished. A member of the church writes the NEWS: "We are often asked: 'When will it be finished, when dedicated?' etc. and to these questions we can only give the answer, as soon as we can raise the needed money. There is money enough in Plainfield, to be sure, and it would be possible to secure the amount on mortgages, but the congregation would hardly be able to pay the interest and the pastor's salary, and cancel the debt also. As we will have to wait until the money is raised in some other way, we cannot say when we shall be able to dedicate the building, but believe that with an earnest effort the time will soon come."

THEY CAUGHT BASS.

A Jolly Party of Fishermen at Lake Hopatcong.

To the Editor of THE NEWS:

LAKE HOPATCONG, June 9.—Fearing that some one might be foolish enough to write you a fish story and and grossly misrepresent our party and its object in coming here for a day's pleasure, I take the liberty to give you some facts of our success with a great flourish of trumpets, and leave you to put the figures according to the facts herein presented, and award the palm where it rightfully belongs.

As you know, there were an even half dozen of us who started from Plainfield at 5.10 a. m. on morning.—Messrs. Vanderbeek, Rockfellow, Ulrich, Thorn, Swain and Armstrong. Confidentially, none of us believe in odd numbers. To secure an abundance of fish it is always best to make up a party of an even number. We may not be superstitious upon any other point, but you know that when a man goes a fishing he always depends largely upon his luck and—the quality and quantity of bait. To avoid going on Friday we made the trip on Thursday, which you can readily see was another thing in our favor. We concluded to start early so that the boys could have no excuse for not furnishing a warm attachment to an empty breakfast. Two of us carried lunch baskets, and the rest looked after the bait, because it is useless to go after black bass without this necessary adjunct, particularly when you are going some distance from home, and are not quite sure about the surroundings. No pains were spared, neither was the bait, to make things as attractive and comfortable as possible for the fish. Local fishermen should make a note of this for future reference. It will be found valuable in case it should prove a long time between bites. As the Governor of North Carolina said to the Governor of South Carolina—

But to proceed with my story.

Had you been here you would have been impressed with the graceful sweep of our arms as we cast the line from us into the shining bosom of this beautiful sheet of water where black bass are presumed to disport themselves and while away the leisure moments awaiting the arrival of Plainfield fishermen. I imagine there were smiles of ghoulish glee illuminating the countenances of every minnow in the lake as our band of sturdy and true fishermen left the banks and sailed slowly forward to battle with the finny tribe of the deep. There might be something poetical found in this closing sentence, but I must hasten before the telegraph office closes.

Well, we fished and fished—that is to say, we waited patiently for the fish. We knew they were there somewhere but they seemed a little backward about catching on, for some reason or other. The Judge suggested that too many of us were fishing on one side of the boat, so we cast lots and fished all around it. Then the Freeholder said he believed there was something the matter with the anchor, and we clewed the main sheets and laid the oars athwart the quarter decks. The exhaust valves of the engines and of the rudder chains had fouled the bowsprit, but the captain denied the allegation, whereupon Mssrs. Thorn, Swain and Armstrong were appointed a special committee to box the compass and request the boatswain to take the party ashore at the island. There we counted noses and speculated upon our luck. By actual count, we had up to this time, eight blue nibbles, two gyrations, bites and a "crab"—with the oars. Then a shower came up and we made for the mainland to hunt for cover.

Round No. 2.—Two nibbles, one small pickerel and another shower, and we again went ashore.

Round No. 3.—Four pickerel, one bass by the Freeholder and another shower. We took the bass ashore and turned it over and gazed upon it from every side. It was a beauty, and I tell you the lucky man was the envy of all of us. We asked him all kinds of questions about the kind of bait he used, how he threw the line out, whether he vacationed on the book, how much of a pull he had to land his prize and a host of other things, but the Freeholder kept his own counsel and willingly gave all the desired information. The bass weighed thirteen ounces.

Meanwhile we had disposed of our lunch and the last had about all been consumed. Then we concluded that we were well satisfied with the day's results, and proceeded to enjoy ourselves otherwise for a short time before returning home. I assure you Lake Hopatcong is a perfect *fishing ground, and I should* take delight in spending the balance of the season right here on the water with a rod and reel in my hand, provided we could all remain together in an even number and meet with like success every day.

Some of the gentlemen suggested that we pack our fish in cotton and put them in our private car cases, so that our Plainfield friends would think a large ice box full of bass would be down by express to-morrow; but that was voted down. I don't see anything about the result to be ashamed of. If we can buy a few fish at a reasonable sum, we'll send you a fine mess.

But here comes our train and I must hurry to send you this in time for to-morrow's issue. Remember, all other accounts are to be squelched.

Truly,
GREAT CATCH.

HIGH BRIDGE JUNCTION, June 9—The Freeholder has lost his bass, notwithstanding that he kept the basket tight between his knees. He has looked high and low and searched every nook and corner in his vest pockets but cannot find it. He looks very blue.
G. C.

RARITAN, June 9—We are all happy again and the Freeholder rejoices. On opening his basket for the ninety-first time the bass was discovered all right. It doubtless had itself under one of the cabin splints in the basket. Everybody laughs and we all feel better.
G. C.

The Claim Settled.

Some weeks ago THE NEWS stated that Mrs. Scheidecker, through lawyer John H. Jackson had filed a petition in the United States Circuit Court and obtained leave to bring suit at law in that court against the receivers of the Philadelphia and Reading rail road company, and had commenced suit therein to recover $3,000 damages for injuries received by her while stepping off a train at the Peace street bridge in this city in August last. Yesterday the company compromised the claim with her counsel, and further proceedings in the suit will be discontinued.

PERSONAL.

Mrs. Samuel Wallace, of West Fifth street, is at Asbury Park for two weeks

Dr. Field and his brother, Richard Field, are registered at the Seaside house, Atlantic city.

Dr. Abraham Coles gives a reception to-day at his beautiful home at Scotch Plains, assisted by his son and daughter.

A telegram has been received from Elmer Runyon, stating that himself and wife will return to Plainfield to-night.

Madame Raffo, wife of the Italian Consul of New York, gave a lunch party at her residence in Netherwood yesterday.

To-morrow morning per steamer "Columbia," Clarence Watson of Crescent avenue will sail for Europe, where he will remain for two or three months.

Walter M. McGee, Treasurer of the Young Men's Christian Association will lead the young men's meeting at Association Hall on Monday evening next at eight o'clock.

A meeting of the High School graduating class was held at the residence of Herbert W. Peck, on West Front street, last evening, to arrange the class day exercises. No exception to be given after the commencement exercises.

Among the recent changes in real estate is that of the residence in Netherwood, of Ex-Councilman Andrew J. Smith, to a celebrated physician in New York, who will occupy the same at an early date. Several parties are after sites on the beautiful hills overlooking our city.

Edwin Lewis, who has been appointed to the position made vacant by the resignation of Mr. F. J. Miller, Senior-Principal of the High School, was last year a reporter on THE NEWS, and is kindly remembered by all the NEWS attaches. He is a genuine gentleman, a concise writer and a thorough scholar.

The many friends of Clarence M. Haviland of East Second street, who has been confined for the past five weeks with a severe attack of typhoid fever, will be glad to hear that he expects to be able to go about some time next week. He has entirely recovered from his illness, but is still very weak.

The Directors of the City National Bank have secured a handsome crayon portrait of the late Joseph M. Myers. It was drawn by Mr. S. E. Flowers, and was suspended in the bank yesterday. They thus perpetuate the memory of the bank's first cashier, an office which he filled with honor for twelve years up to the time of his death.

Governor Green and staff have accepted an invitation to dine with the New Jersey Medical society at Beach Haven, Tuesday, June 14. Colonel Green, of the governor's staff, and the well-known and wealthy manufacturer of medical specialties at Woodbury, has tendered the governor and his associates, for the occasion, the use of his private palace car, and the company will make the trip in it and have a grand time together.

Dr. Thiers and son and Benly Edsall, wife and daughter, returned last evening from a four days' fishing trip to Lake Hopatcong. They had an enjoyable time, and report lots of success at fishing. Master Willie Thiers distinguished himself by hooking one of the largest bass that had been taken from the lake for several days. It weighed four pounds and six ounces, and required considerable exertion to haul it. The youngster was quite proud of his success.

Ex-Councilman John H. French and Councilman Voorhees of this city have formed a copartnership with Charles B. Peck of New York, under the firm name of French, Peck & Voorhees, to manufacture boys' and children's clothing at No. 1 West Third street, near to Broadway, and opposite the Grand Central Hotel, having $30,000 capital. Mr. French attends to the manufacturing, Mr. Peck to the selling, and Mr. Voorhees to looking after the finances, in addition to looking after his handsome drug store here. The concern is already full of orders and expect to do a $75,000 business this year, and double it next. Success to them.

Miss Minnie E., daughter of Mrs. A. E. Chapin, and Morris C. VanArsdale, of the firm of Doane & VanArsdale, the Front street shoe dealers, were married at the residence of the bride's mother corner Fifth and Sycamore streets at eight o'clock last evening by Rev. C. H. Yatman. John Tracy and Charles F. Powlison acted as best men. Numerous immediate relatives of the families were present and witnessed the ceremony. After a bountiful collation the couple left for New York and went from there to Boston this morning. They will return next week. The presents were numerous and costly.

Adam Fritts, who a year or so ago sold out his meat market on West Front street, and purchased a farm on Somerset street, near the Mountain, for stock raising, was married thirteen years ago yesterday, his wife having been a Miss Trust of New York. Adam now weighs 230 pounds, and there are very few more muscular men hereabouts, yet on the 25th day of June, thirteen years ago, he burst a blood vessel, and some of the most noted physicians in New York told him there was no hope for him—that he could not live but a very short time. He sent for the late Dr. Sutley and told him what they had said; "Tell them they are a pack of fools," said the brusque old doctor, and he cured him.

The marriage of Miss Elizabeth Dayton, daughter of Mrs. A. D. Dayton of Tenth street, and R. Henry Depew, grandson of Abram S. See of Crescent avenue, took place in the Grace Episcopal Church Wednesday afternoon at five o'clock, the ceremony being performed by Rev. E. M. Rodman. It was witnessed by many friends of the family, and the floral decorations were very pretty and tasteful. Messrs. F. W. Yates, H. W. Stover and R. Howe were the ushers. The bride entered the church leaning upon the arm of her brother, John B. Drayton. The groom's best man was August Kleincke. The bride was very becomingly dressed in white, relieved by lavender satin, and wore a pretty headdress. The newly wedded couple left for New York on an evening train, and will make a tour of the Niagara Falls and thence to the Thousand Islands. After a week's tour they will return to this city and reside for the present with the bride's mother.

Rev. C. H. Yatman has resigned his position as the Secretary of the Y. M. C. A., at Newark, and will, it is thought, continue his religious revival work in various parts of the country. He announced while conducting the successful series of religious meetings in this city recently that he intended at some future time to go to Africa as a missionary. Henry A. Comens, the Financial Secretary, succeeds him.

Ex-mayor Rockfellow, Freeholder Vanderbeek, City Judge Ulrich, Dr. Armstrong, W. N. Thorn and Albertus Swain returned from their fishing trip to Lake Hopatcong about nine o'clock last evening. They had an enjoyable trip and returned as brown as berries. A member of the party was asked this morning to tell the number of fish caught. He could not have sighted eighteen, but his memory was very poor as to the variety, size and weight. Ex-mayor Rockfellow, he said kept the score card, and that gentleman would be happy to place the public in possession of any information, unless the score card had been lost overboard.

Free Delivery Postal System.

Postmaster Force said to a NEWS reporter this morning that he thought it hardly probable that Plainfield would receive the free delivery system this year. "Postal Inspector Egerton," said he, "visited me some weeks ago and said if we had our buildings and streets all marked by the last of May the system would go into effect here the first of July. The fiscal year of the department ends on June 30, and any new laws, of course, go into effect on the first of July. The inspector said that Plainfield was far from complying with the requirements of this law. Some of the buildings are marked, but nearly all of them are wrong, and a stranger cannot tell anything about the names of the streets. Of course the work is now fairly under way, in the hands of Clerk Leonard, but it will be completed too late for this year. The inspector also stated, that if we got everything in readiness, and anything was left from the appropriation after the other cities which were ready had received their apportionment, we might have the system here by the first of October, but the probabilities are that it will go over for another year. I have written Mr. Egerton, stating that preparations are being pushed rapidly forward in the hope that he might do something for our city, but have not as yet received any reply. He said we would probably need about four letter carriers, but I told him it would require five, and we will probably be allowed that number."

Electric Lights at Westfield.

Many of the prominent citizens of Westfield are desirous of lighting that pretty little town by electricity, and since they can scarcely afford to maintain a plant of their own, it is proposed to connect with the Plainfield plant and transmit the power by wires, a distance of five miles. This evening about thirty-five of the leading citizens will visit Plainfield to make a formal inspection of the system, after which some definite action will be decided upon. Mr. A. P. Wright, the Superintendent of the Electric Light Company, returned from Louisville, Ky., this morning and will this evening entertain his visitors royally. A dinner will be served at Laing's Hotel and Mr. Miller will do the honors of the occasion, in his usual pleasing style. Wires have been run throughout the hotel and the system will be shown to its best advantage. In the centre of the dining room hidden clusters of electric lamps have been arranged and the effect will be decidedly pretty when the lights are turned on.

Interesting Readings.

Plainfield can boast of her literary circles and point with pride to their reputation in educational as well as art. Here is located the Chatauqua Literary Circle, the Male Library and Art Association, large seminaries and schools of learning. In addition are many social clubs and reading classes. The past winter has seen many interesting and enjoyable readings among the Plainfield people. A very pleasant gathering took place Tuesday at the residence of Mrs. Hall of Scotch Plains, to listen to the readings of Miss Julian Ward Howe of Boston. On Wednesday a number of well known ladies gathered in the parlors of Mrs. John Taylor Johnston to hear Mrs. Rugby of New York. This lady is well known in this city having read a week ago at Mr. Edgerton's, of East Front street, and she will also give a third reading at Mrs. Charles Hyde's next week. Another writer it is rumored has also been secured for a series of readings in our city which it is hoped will be largely attended and give great pleasure.

***

Plunged in Newark Bay.

The locomotive and five empty cars of the local freight train on the New Jersey Central which left the Jersey City depot at 7.30 o'clock last evening, jumped off the open drawbridge over Newark Bay into the water a few minutes later. Samuel Emory, the engineer, of Elizabeth, and Edward Dwyer, the fireman, of Jersey City, jumped off before the engine went over. Dwyer was not hurt, but the engineer was injured, breaking his left leg. There was a heavy fog and drizzling rain at the time. The engineer claims he had received the signal to close aboard, but when within a few feet of the draw he saw it was open. He reversed the engine, but too late to avert the accident. The remainder of the train was saved by the derailing of one of the cars. Traffic was delayed on the road for about an hour. The depth of the water at the draw is 33 feet, and the sunken cars extend a few feet above the surface, delaying navigation on the east side of the draw.

Suing for a Divorce.

Augustus Bloodgood of Plainfield, has made application for divorce from his wife Mary Bloodgood, on the ground of adultry, and testimony was taken before Special Master in Chancery, John H. Van Winkle on June 2. The allegation of the petition is that the defendant eloped with Leon Gannalls, a Cuban, in January, 1886, and is now living with him in Cuthbam, Morris County. The petitioner was sworn and testified to his marriage and residence in the State, and when his wife left him. One witness testified to seeing the wife and Gannalls in improper relations at Short Hills in the fall of 1886. Further testimony will be taken next week. Jackson & Codington represent the petitioner, and C. N. Williams of Newark appeared for the defense.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Saturday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair weather, with slight thermal changes.

A Judge Leaves Mysteriously.

HIGHTSTOWN, N. J., June 10.—Judge Applegate of the Mercer County Court left here last night with a large sum of money under very mysterious circumstances. He told some friends that he should never return. People are wondering whether he has fled or committed suicide.

New Jersey Boys Graduates.

ANNAPOLIS, June 10.—Mark L. Brinton and William G. Cook of New Jersey were among the forty-four naval cadets who graduated in the four years course at the Naval academy to-day. The diplomas were conferred by Secretary Whitney.

Earthquake in Turkistan.

LONDON, June 10—A dispatch received here states that the Derusme Palace in Turkistan has been almost entirely destroyed by an earthquake. It is reported that 120 persons were killed and 135 injured, including General Friede and the Governor of Firmireisk. The seismic disturbances continue and the people are fleeing to the open country.

Chinese Raided for Kidnapping.

NEW YORK, June 10.—The houses of Sindoy and Wokeep, agents for Chinese importing houses, were raided to-day by the police, who took both Chinamen and several Chinese girls, about ten years old, to the Tombs, where they were examined this afternoon. It is alleged that the girls were bought in China and were held as prisoners, to continue until of marriageable age, when they were to be sold to the highest bidder. The girls were placed in charge of the Society for the Prevention of Cruelty to Children, and the men were held on a charge of kidnapping.

Hundred Thousand Dollar Fire

PITTSBURGH, June 10.—Shortly before six o'clock the crossing of wires from which the covering had been worn, in the Western Union Telegraph Company's operating room, in the First National Bank Building, caught fire behind the switch-board. Two operators ran for water with fire buckets. When they returned the whole switch-board was ablaze and the fire was working round the room. In the fifth floor the battery cells were stored. These cells were covered with signal oil, about eight barrels of the oil being used in the room. The oil caused the fire to burn with increased fierceness. The hundreds of telegraph wires entering the building were quickly burned. Finally the various floors were flooded by the firemen and the flames extinguished. The direct loss closely approximates $100,000. The Western Union has opened temporary offices in the Germania Bank. The telephone wires are in inextricable confusion.

—Ground was broken yesterday for the new M. E. Church Sunday School building at the rear of the church. The work will be pushed rapidly forward.

—Amoskeag Council, Order of American Firemen of this city, held their regular June meeting in Gazelle Engine house at eight o'clock last evening, and transacted business pertaining only to the interests or the order.

Of Course.

EDITOR EVENING NEWS:—Will you kindly give me a small space in your valuable paper to encourage a little girl who has written a few verses of poetry? At the same time the sentiment, expressed, may be of service to the reader.
H. B. NEWMAN.

Westfield, N. J., June 6, 1887.

IN THE HOUR OF ACTIONS.

In time of doubt and days of trust,
When ought has grown discordant,
The kindest act and truest heart,
Is most of golden truth.
The slur and taunt,
By bitter words most full of spite,
For all the world to hear and judge;
Or, would in muteness sit, be right,
And do no cause a friend to grudge
Along in darkness, knowing not the cause
Of all the trouble, wrought by thought
alone.
No, never, friend, ne'er do so, by all the love
Of heart bound direct to God pick the
bone
If only indeed, there is, again shake hands
In peace depart to meet once more as ever;
How sweet it will be your rest that night in hands
Of dreaming pleasure, lost to world and woe
forever.
A. BIRD.

WESTFIELD.

CYRUS Palmer has returned from his visit to Boston, Mass.

Chauncy Pennington is the latest addition to our wheelmen.

E. Miller & Son are out with a new delivery wagon, one of the finest in town.

The Town Committee gave five dollars reward for the conviction of the parties who are breaking the glass in the street lamps.

Louis Buddell will start for home, from Europe, on the 30th inst per str. Wm. Penn, North German Lloyd. He will be accompanied by his son Ernest, who has been at school on the continent for the past five years.

Charles Smith, son of C. A. Smith the coal and lumber man, sprained his wrist a few evenings ago. He was racing with some of the other boys when he broke one too hard, in consequence of which, he took a "header," landing on his wrist, so that he has to keep it in a sling.

Mr. E. D. Chamberlain of "Maplewood," whose house was robbed yesterday morning, has had a card printed on which he offers a reward for the arrest and conviction of the thieves. It is thought that they were novices at the business, as there was a valuable dinner service in one of the drawers of the sideboard, and two handsome napkin-rings, valued at $60 which were on the top of the side-board, were not taken. They also took an old accordion in preference to a fine violin, for which Mr. Chamberlain offers a liberal reward. Testimony of a cigar was taken out of a meerschaum cigar holder and left, but the holder and several cigars were taken.

WERNER'S
MAMMOTH ONE PRICE
Clothing House

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 9.—MONEY closed at per cent. The last loan was at 2½ and the highest at 2½; commercial drafts posted rates, 4.86½@4.87; actual rates, 4.84¾@4.85 for 60 days and 4.88¾@4.89 for 60 demand. Government closed firm; currency 6s 1.17 bid; 4s coup., 129¾ bid; 4½s, do., 109¾ bid.

There was no increase in the volume of business to-day. The dealings were on even a smaller scale than yesterday, and were confined within a half hour of the close, when a reaction of ¼@½ per cent. took place under a slight selling pressure. Prices had declined about half of its early advance. The closing prices were from ¼ to 1¼ per cent higher than those of last night.

General Markets.

NEW YORK, June 9.—FLOUR—Closed dull and unchanged; winter wheat extra, $4.40@5.75; Minnesota extra, $4.40@5.25; city mill extra, $4.75@5.85; Ohio extra, $4.40@5.10. Southern flour closed steady; common to choice extra, $4.40@5.60.

WHEAT—Options were fairly active and irregular, closing ½@¾c. lower. Spot lots closed weak and 1c. lower. Spot sales of No. 1 red, 96¾c. No. 2 do., 96c.; No. 3 do., 92c.; 2 red winter, 96¾c. No. 2 do., 96c.; ungraded red, 90@96¾c.; No. 2 red winter, June, 96¾c.; do., July, 95¾c.; do., Aug., 93¾c.

CORN—Options were steady and closed, after a moderate amount of trading, at about yesterday's prices. Spot lots closed firm and ½@¾c higher. Spot sales of No. 2 mixed at 64¾c; ungraded mixed, 47@48½c; steamer mixed, 46½c; No. 2 mixed, June, 42¾c bid; do., July, 48¾@48 5-16c.; do., Aug., 49¼@49½c.

OATS—Options were dull and easier, closing ¼@¾c. lower. Spot lots closed firm and slightly higher. Spot sales of No. 2 white at 39c.; No. 2 do., 35@38c.; No. 2 mixed, July, 33@33 3-4c.; do., Aug., 31½@33c.

RYE—Dull; state, 72@73c.; western, 74@76c.

BARLEY—Dull and unchanged.

PORK—Dull; old mess, $15.

LARD—Closed quiet, but steady; cash, $6.95; June, $6.90; July, $6.97.

BUTTER—Firm; state, 12@16c.; western, 10@17½c.

EGGS—Dull, but steady; state, 12c.; western, 10@11½c.

CHEESE—Dull; state factory, 9¼@10¾c.; western factory, 8¼@10c.

SUGAR—Raw; quiet; centrifugal, 96 test, 3 5-16c. Refined quiet; cut loaf and crushed, 6 1-16c.; cubes, 5¾@5 15-16c.; powdered, 5 15-16@6 1-16c.; granulated, 5 13-16@5 15-16c.; confectioners' A, 5 7-16c.; mould A, 5 13-16c.; coffee A standard, 5 5-16c.; coffee off A, 5 3-8c.; white extra C, 5 5-16c.; extra C, 5 3-16@5 5-16c.; C, 4 9-16@4 11-16c.; yellow, 4¼@4 7-16c.

THE PEACH CROP

In Imminent Danger from the Ravages of the Rose Bug.

WILMINGTON, Del., June 10.—The reports that are coming from the lower peninsula and from Kent county, this state, of the ravages of the rose bug have created a feeling of serious apprehension for the financial prosperity of the lower peninsular for the coming year. The pests are described as being about three-eighths of an inch long, with wings. They seem to attack everything, even the forest trees. The peach prospects have been so changed within the past fortnight that no one attempts to make an estimate of baskets. The reports that come from Kent county indicate that instead of a "phenomenal crop," as was anticipated at first, the yield will be fourth-quarter crop. Nothing has been found that will kill the pests, and a feeling of depression pervades the farmers and peach raisers.

FIGHTING THE TRAMPS.

The Police of Duluth Make a Raid on the Nuisances.

DULUTH, Minn., June 10.—The tramp question is assuming serious proportions in this vicinity, and last week the police from Duluth raided several resorts and shanties in the outskirts of the city and fought quite a battle with the rascals, driving them away. Yesterday the band were reported at the Northern Pacific junction, where they made themselves obnoxious and were driven out of town. In the evening they reached the vicinity of Spirit lake and Kingston. Nothing the inhabitants. A farmer named Swanson was attacked and hanged by the neck until he was nearly dead. A report of their last outrages reached the fair to-night, and a special train manned by railway police fully armed went to the scene, but the tramps had fled.

A Pension Swindler.

WASHINGTON, June 10.—The pension office is informed that Roderick McDonald, of Gardiner, Me., was convicted at the late term of the United States circuit court, in Maine, of forgery, in connection with the pension case of Maranda S. Richardson, and was sentenced to imprisonment for one year and to pay a fine of $30. As the indictment is pending against him he will be tried at the expiration of his present term of imprisonment.

United Ireland Urges Patience.

DUBLIN, June 10.—United Ireland, Mr. Parnell's organ, urges the Irish people to further patience. It denounces those men who advocate retaliation for the oppression of the Irish, and says that such a course would undo the work Mr. Parnell had accomplished during a decade of terrible years and the country, Mr. Gladstone was devoting the evening of his life.

Rouvier Must be Supported.

PARIS, June 10.—M. Paul de Cassagnac, in an article in The Autorite, intimates that the members of the right will support the Rouvier ministry, and declares that they must do so, as the alternative is the fall of Boulanger, the return of Gen. Boulanger and the probabilities of a foreign war, which would involve the certainty of Boulanger's military dictatorship.

New Hampshire's State Printer.

CONCORD, June 10.—The joint convention of the legislature resumed its session yesterday afternoon, and refused on roll call to postpone the election of state printer. Balloting then proceeded and resulted in the choice of John B. Clark, of Manchester, the Republican nominee. A. S. Twitchell, of Gorham, was elected commissary general.

The Grant Memorial.

NEW YORK, June 10.—The Grant Monument association, of which ex-Governor Cornell is chairman, have issued a circular inviting designs for a monument or memorial building to be erected at the tomb in Riverside park, and a committee of eminent architects and artists will select the best design from those submitted.

For Admitting Tom Gould.

NEW YORK, June 10.—The State Grand Lodge of Masons adopted a committee report withdrawing the warrant of Prudence lodge and wiping that lodge out of existence on account of its admission of Tom Gould and other notorious people to membership. The officers recently elected were installed with the customary ceremonies.

KENTUCKY OUTLAWRY.

INSIDE HISTORY OF THE ROWAN COUNTY MISGOVERNMENT.

How a Hunted Desperado and Murderer Became a Judge—Only Twenty Voted for Him, But None Dare Vote Against. The Killing of the Logan Boys.

LEXINGTON, Ky., June 10.—Craig Tolliver, of Rowan county, Ky., has been a hunted desperado and murderer for years and seven Warrants have been served against him, indictments found against him, possess of organized four bands of armed outlaws, soldiers went after him and proclaimed martial law in all of Rowan county. But they did not get their man. Cunning, reckless, daredevil, he fled them from ambush, hid away in the mountain fastnesses when the country grew too hot for him, and when matters quieted down again he came forth and lay unharmed and went at his old tricks. Of course a feud was at the bottom of it. John Martin killed Bill Tolliver, Craig's brother, and was of course the natural result that the Tolliver family and their friends set out to kill the surviving members of the Martin family and their friends. Craig shot a few men, and the whole county took sides.

Troops were ordered to Morehead, the county seat of Rowan county, to quell the disturbances that had been caused there by two factions—one under the leadership of Craig Tolliver, and the other marshaled by Cook Humphries, who was looked upon as being every bit as dangerous as Tolliver, and who had been driven from the state on a long trip in the mountains by the State Guard, peace was finally restored by an armistice on the part of the commonwealth, whose attorney agreed to let Craig Tolliver go on condition that the two leaders should leave the state. The principals readily agreed to this, and it was thought that the disorders which had brought the state into such bad repute had come to an end, and the troops were ordered withdrawn. Scarcely had peace been restored when information was received that Tolliver was back at his old haunts.

But he came back in a new character. Tired of being hunted like a dog, he soon evolved the brilliant idea of hunting instead of being hunted. He thought the matter over in his own rude way and figured things out about like this: The only thing he had ever been forced to fear was that intangible something called the law. What was the law? he asked. The judge on the bench was the only personal exponent of it that he knew. So his mind was made up. He would become the law. He would make himself a judge. His friends would vote for him. Where was the man brave enough to ride up to the polls and deposit a ballot against him? And so Craig Tolliver, murderer and desperado, a criminal hiding from justice, was elected a judge of Rowan county.

No further need had he to fear from justice. He was justice himself now. The man whose outbreaks had brought shame and disgrace to the fair soil of that section had turned the tables, and with a high hand prepared to turn prosecutor instead of being prosecuted. It was a dazzling stroke of genius.

The great opportunity of his life was right at hand, and he proceeded to pay off old scores, and pay them off in the name of the law. There are many indictments against Tolliver for serious crimes, yet so terrified was the people that they will be a criminal to hold office and exercise the rights of that office. Since the election of Tolliver to the office of police judge three good citizens have been organized from Morehead. Their lives, their fortunes, their homes, sons, daughters and wives were in danger. In the reports of the elections Tolliver received 26 votes, twenty-six brave, loyal men who were against him were afraid to go to the polls, and a man who cannot sign his name legibly is elected to an office which requires knowledge of the law, equity of judgment and justice in all things.

Immediately after taking possession of his office he began the persecution of his enemies. Wednesday afternoon he issued warrants for the arrest of William Logan, 24 years old, and his brother John, 18, charged with kukluxing. Warrants were placed in the hands of Marshal Mannin to serve. About 6 o'clock Mannin and Tolliver and a posse went to the Logan house to serve the warrants on the two boys. Upon arrival at the Logan homestead Marshal Mannin asked if the boys were at home. The housekeeper answered no, but Mannin, knowing to the contrary, forced his way into the house and upstairs.

Immediately the Logan boys, who were secreted up stairs, opened fire upon Mannin, riddling him with slugs from shotguns and killing him almost instantly. The two boys then attempted to make their escape by getting out by the back way of the house, but the two men who accompanied Mannin were stationed there for the purpose and as soon as the two boys made their appearance the posse opened fire upon them. When the smoke cleared away it was seen that the Logan boys lay dead—killed at the first shot. The two men who formed the posse returned to Morehead, gave themselves up and gave the facts as stated. The Logan boys were buried at the old burying grounds about five miles north of the town of Morehead.

Dr. H. S. Logan, the father of the two dead boys, is confined in the Lexington jail for safe keeping on a charge of conspiring to kill Taylor Young and Judge A. C. Cole, of the circuit court of Rowan county. Dr. Logan, it is said, has stated that the object was to arrest the boys so that they could be placed in the hands of Craig Tolliver, who is police judge, so that Tolliver could wreak his revenge on them. Himself and son, as also of these boys, was one of the parties who was forced to flee from Morehead a few days ago and seek a place of safety. That whole section of th state is wild over the affair, and the end is not yet.

Rosecrans for the Coast Survey.

WASHINGTON, June 10.—The friends of Gen. Rosecrans are still very active in support of his candidacy for the position of superintendent of the coast survey, and they do not relish the current comparison which are made between him and others as to scientific attainments. They maintain that he is entirely competent, and will endeavor to impress this upon the president upon his return. The last statement made at the White House before the president left for the Adirondacks was that no person who possessed the desired qualifications had yet been found who would accept the place. The friends of Gen. Rosecrans point to the fact that he surveyed New Bedford harbor and Taunton river as early as 1848, as indicating that he is possessed of the necessary scientific skill.

An Excursion Steamer Ashore.

BRIDGEPORT, June 10.—The steamer Nonowantuck, which left here at 11:30 o'clock Wednesday night for Fort Jefferson with a large excursion that had come over to see Barnum's circus, ran ashore in the lower harbor owing to the dense fog that prevailed. Her passengers were compelled to remain aboard until 8 o'clock yesterday morning, when they were taken off by the steamer Annis. The disabled boat lies high and dry at low water. Fortunately the weather was calm, otherwise a great loss of life might have followed.

WOMEN DRIVEN INSANE

Through Terror and Hunger—Robbing the Sufferers.

VIENNA, June 10.—Reports from the flooded districts in Hungary show no change in the situation. Disease is everywhere prevalent and the distress of the inhabitants is increasing. The homes of those who have deserted their houses to escape the floods have been plundered by organized marauders, and the people, intent on saving their lives and stopping the overflow of the waters, are powerless to prevent the removal of their property. The cause of cholera is hourly feared. The dykes are giving way as fast as they are repaired, and the men are weeping in their exhaustion and despair. Suicides are frequent. Suicide is appalling. Numbers of them leave committee's suicide, and many women have become insane from terror and hunger. The troops employed on the dykes have taken advantage of the desperate situation of the inhabitants of the town, and 800 of them demanded higher wages, in default of which they threatened to strike work and raise a riot. They were pinched, but will probably be driven off as soon as other men can be got to replace them.

NO ANARCHY FOR ILLINOIS.

The Merritt Anti-Conspiracy Bill Passes the Senate.

SPRINGFIELD, Ills., June 10.—The senate has passed the Merritt anti-conspiracy bill. It now goes to the governor for his approval, which it no doubt will receive. The bill provides that if two or more persons conspire to overthrow the existing order of society or the state next year this affair must be settled as quickly and easily as possible.

Speaker Burbeigh, of the house, believed that it was the duty of the executive and legislature to elect two senators, citing law and historical facts to uphold his position, and declaring that the Republican party had been remiss in its duty in not electing senators in this manner before.

Senator Stearns, of Rindge, said that he should abide by the results of the caucus, but he thought there was serious objection and opposition to electing two senators at this time. The party would go into the next campaign on the defensive, followed by the opposition with stealing a senator, and he for one was opposed to this revolution in New Hampshire politics.

The Hon. O. C. Moore believed that the question should be settled by the party majority, and that if the caucus decided on the election of two senators he should abide by that decision, but he considered it incompressible that two Democrats should unite in a proposition now that he so strongly opposed in 1881. He made a strong point against Marston by quoting from an opinion do given by the then chairman of the judiciary committee and from the speech of Sullowy himself in the debate on the question at that time strongly opposing any such scheme.

The question then recurred on Senator Morrison's motion, and on a rising vote it was rejected by a vote of 84 to 77. A ballot was then taken for a candidate for senator to succeed the late Austin F. Pike, which resulted as follows: Wilde number of votes, 156; necessary to choice, 79: C. H. Burns, 1; P. C. Cheney, 2; J. W. Patterson, 11; Gilman Marston, 34; J. William E. Chandler, 108.

William E. Chandler was declared the nominee, and on motion of Cyrus A. Sullowway the nomination was made unanimous, and the result was greeted with cheers. Mr. Chandler was then brought into the hall, and in accepting the nomination he thanked the members for the honor bestowed upon him. He said if elected he should not only serve the state of New Hampshire, but the Republican party.

This action insures the election of William E. Chandler next Tuesday, as the opposition to him is without leader or organization. The action of ex-Senator Rollins in withdrawing from the canvass, thus opening the way to this result, is a great disappointment to his staunch supporters, and it is believed to have been brought about by the fear that if he helped to defeat Chandler, Chandler would turn his forces against him in his contest to break the lease of the Boston, Concord and Montreal railroad, of which he is president, to the Boston and Maine system. The Democrats are jubilant at the outcome, and believe that it foreshadows a victory for that party in 1888.

Judge Mercur's Successor.

PHILADELPHIA, June 10.—In political circles it is thought that the successor of Judge Mercur will be Judge Williams, of Tioga, Governor Beaver's choice. It is believed, however, that influences will be brought to bear upon the executive to induce him either to postpone any action until after the meeting of the Republican state convention, or to appoint Judge Mitchell, who is favored by all the leading party men of this city.

An Official Charged with Forgery.

CLEVELAND, June 10.—Joseph H. Corbett, assistant city clerk, was arrested last night on a charge of forgery in connection with the will of an aged woman who died a few months ago. He was placed in jail, but released shortly afterward on bail. The affair creates great excitement in political circles. The evidence against the accused man is said to be very strong. Two other men were also arrested in complicity with the same crime.

Marine Intelligence.

NEW YORK, June 10.—Arrived, steamers France, London; Caledonia, Genoa; Otranto, Hull; Cleveland, Key West; Thuringia, Antwerp; Pontiac, Messina; Borgeneren, Barcena. Ships Henry Failing, Manilla; Evesham Abbey, Calcutta. Arrived out, steamers Germanic, from New York, at Queenstown; England, from New York, at Queenstown; Holland, from New York, at Dover; Wisconsin, from New York, at Fastnet; Olbers, from New York, at Liverpool.

Net Ex-Mayor Grace's Brother.

NEW YORK, June 10.—The Michael Grace who is reported to have been killed by Indians in Arizona is not a brother of ex-Mayor Grace, of this city, as was reported. Michael F. Grace, of Peru, the ex-mayor's brother, is now in London, promoting a settlement between the Peruvian government and its bondholders.

Suicide of a Pony.

LEXINGTON, Ky., June 10.—At A. De Long's place, near here, a fine Shetland pony deliberately hanged itself with a rope swing in the yard.

The Gladstone Testimonial.

LONDON, June 10.—The American testimonial to Mr. Gladstone will be placed on exhibition here until the formal presentation is made.

Lansdowne to be Made a Duke.

WINNIPEG, June 10.—A London special says: Lansdowne will be made a duke in connection with the distribution of the jubilee honors.

No Nearer Settlement.

PITTSBURG, June 10.—State Secretary Davis, of the Miners' association, says that the strike looks as far from a settlement as ever.

An English Nobleman Dead.

LONDON, June 10.—Sir George James Pitch Hatton, the Earl of Winchilsea, is dead. He was born on May 31, 1818.

CHANDLER VICTORIOUS

EX-SENATOR ROLLINS WITHDRAWS FROM THE CONTEST.

And the Ex-Secretary is Nominated on the First Ballot — The Nomination Equivalent to an Election—The Democrats Jubilant.

CONCORD, N. H., June 10.—The Republican caucus for the nomination of a candidate for United States senator was held last evening. The first one to the hall, and in a strong speech he seconded the motion, saying that if the Republicans would nominate two senators and stick to them he would agree to abide by the decision of the caucus. He then in eloquent language presented the name of Gen. Gilman Marston, of Exeter, and urged the veterans to stick by the old soldier. The motion was vigorously opposed by Mr. Colby, of Claremont, who took strong constitutional grounds against being bound by such action.

President Currier, of the senate, who has been a strong advocate of the election of two senators, started the caucus by coming squarely out against the scheme, and warned the Republicans that they were going to carry the state next year this affair must be settled as quickly and easily as possible.

Speaker Burleigh, of the house, believed that it was the duty of the caucus and legislature to elect two senators, citing law and historical facts to uphold his position, and declaring that the Republican party had been remiss in its duty in not electing senators in this manner before.

Senator Stearns, of Rindge, said that he should abide by the results of the caucus, but he thought there was serious objection and opposition to electing two senators at this time. The party would go into the next campaign on the defensive, followed by the opposition with stealing a senator, and he for one was opposed to this revolution in New Hampshire politics.

The Hon. O. C. Moore believed that the question should be settled by the party majority, and that if the caucus decided on the election of two senators he should abide by that decision, but he considered it incompressible that two Democrats should unite in a proposition now that he so strongly opposed in 1881. He made a strong point against Marston by quoting from an opinion do given by the then chairman of the judiciary committee and from the speech of Sullowy himself in the debate on the question at that time strongly opposing any such scheme.

The question then recurred on Senator Morrison's motion, and on a rising vote it was rejected by a vote of 84 to 77. A ballot was then taken for a candidate for senator to succeed the late Austin F. Pike, which resulted as follows: Wilde number of votes, 156; necessary to choice, 79: C. H. Burns, 1; P. C. Cheney, 2; J. W. Patterson, 11; Gilman Marston, 34; J. William E. Chandler, 108.

William E. Chandler was declared the nominee, and on motion of Cyrus A. Sullowway the nomination was made unanimous, and the result was greeted with cheers. Mr. Chandler was then brought into the hall, and in accepting the nomination he thanked the members for the honor bestowed upon him. He said if elected he should not only serve the state of New Hampshire, but the Republican party.

This action insures the election of William E. Chandler next Tuesday, as the opposition to him is without leader or organization. The action of ex-Senator Rollins in withdrawing from the canvass, thus opening the way to this result, is a great disappointment to his staunch supporters, and it is believed to have been brought about by the fear that if he helped to defeat Chandler, Chandler would turn his forces against him in his contest to break the lease of the Boston, Concord and Montreal railroad, of which he is president, to the Boston and Maine system. The Democrats are jubilant at the outcome, and believe that it foreshadows a victory for that party in 1888.

Judge Mercur's Successor.

PHILADELPHIA, June 10.—In political circles it is thought that the successor of Judge Mercur will be Judge Williams, of Tioga, Governor Beaver's choice. It is believed, however, that influences will be brought to bear upon the executive to induce him either to postpone any action until after the meeting of the Republican state convention, or to appoint Judge Mitchell, who is favored by all the leading party men of this city.

An English Nobleman Dead.

LONDON, June 10.—Sir George James Pitch Hatton, the Earl of Winchilsea, is dead. He was born on May 31, 1818.

NANTICOKE FLOODED.

THE TOWN IS OVERWHELMED BY A CLOUDBURST.

A Number of Houses Carried from Their Foundations—Injuries to an Invalid Which May Prove Fatal—The Damage Accomplished in Forty Minutes.

WILKESBARRE, Pa., June 10.—The town of Nanticoke was visited by a great rainstorm yesterday afternoon, which did a great deal of damage. A cloud came up from the centre of the borough burst and let down the rain in torrents. In a short time the streets were entirely submerged, in some places the water being three feet deep. Main street, which is a receptacle for all the water from the surrounding hills, was turned into a river. The sewers were unable to carry off the water, and burst. This let the water into the cellars of all the business houses in the street, damaging thousands of dollars' worth of goods. As the rainfall increased the volume of water grew larger, and after passing the mill out of the cellars made its way down Broadway to Arch street. Here it swamped a number of houses and carried them off their foundations.

A dwelling occupied by Evan Morris sank about twenty feet, the earth underneath being washed away. The store in the kitchen was upset and the contents were ruined. Several of the neighbors went to the rescue of the inmates, and succeeded after great difficulty in getting them out safely. Mr. Morris, who is an invalid, sustained injuries which may result in his death. The fire brigade were unable to get to the fire, but the rain soon quenched the flames.

The butcher shop of John Kodiks was wrecked, and all of his stock went out with the flood. The water next entered the mouth of No. 4 slope, but not in sufficient quantity to do much damage. When the large boiler fires of the Susquehanna Coal company were reached the river of water flowed in rapidly and soon reached the fire boxes, put out the fires and caused a total suspension of operations in the mines for the day.

In a swamp in the rear of the armory are about twelve tenement houses occupied by laborers. The water completely hemmed these in on all sides, and entirely submerged the first floors. The terror stricken inmates were given no chance to make their escape, and, fearing death by drowning, they climbed to the roofs, whence they were rescued by parties in boats. All the railroad tracks leading from the coal breakers to the main track of the Pennsylvania railroad were submerged, and in some places the tracks were washed away. It was about 3:30 when the station agent at the Pennsylvania depot happened to look up the track to the west and saw a wall of water sweep down the high embankment on the track. The flagstaff express was about due. He rushed out of his office and up the track just in time to stop the train as it was rounding the curve. The engine was reversed so suddenly that the passengers were thrown from their seats. The wind was piled up on the track for a distance of forty yards, and the track was washed out for 100 feet. Superintendent Watters telegraphed at once for the wrecking train. And this writing all trains north and south are still delayed at the scene of the washout. The damage done to the railroad and coal men will be heavy losers. The loss to property will reach $100,000. The deluge from the skies lasted forty minutes.

His Landlady Suspected.

PROVIDENCE, R. I.—Edward Hammill, who was about moving away from his apartments on the International railroad, was found dead there with a wound in his head. The landlady, Mrs. Moran, with whom he had had trouble, has been arrested pending investigation.

Limiting Whisky Production.

LOUISVILLE, June 10.—A meeting of a majority of the distillers of Kentuck have entered into a contract to shut down after July 1 for one year. Leading distillers say the entire production will probably within the next year will not exceed 25,000 barrels.

Governor Hill's Visitors.

ALBANY, June 10.—The presidential party reached here early this morning, when Governor Hill met and escorted them to the executive mansion. They will leave Albany for Washington at 10:45 p. m.

Anti-Eviction Demonstration.

DUBLIN, June 10.—An immense anti-eviction demonstration will be held in this city to-night, where a temporary structure has been erected to afford shelter to persons evicted from their houses.

Death of an Uncle of Mr. Blaine.

WASHINGTON, Pa., June 10.—Maj. John H. Ewing died at his residence here, aged 90 years. Maj. Ewing was an uncle of James G. Blaine and the oldest citizen of this town.

Opposed to Extending the Suffrage.

PARIS, June 10.—It is definitely announced that the government will oppose M. Laborderie's proposal in regard to election of senators by universal suffrage.

Pennsylvania Republican Convention.

PITTSBURG, June 10.—The Republican state committee have called the state convention for Aug. 17, at Harrisburg.

CONDENSED NEWS.

A Mexican at El Paso, Tex., becoming angered at his wife, threw her backward into the fire and held her there until she was rescued by neighbors. She will probably die.

There is a large party in Dakota who are anxious for the division of the territory into Northern and Southern Dakota.

By the giving way of floors in a Cincinnati fertilizing factory a colored man named Hughes was killed.

It is alleged that there is a system of robbery among employes of the Texas and Pacific railroad similar to that recently discovered on the Gould roads. Arrests have been made at Fort Worth, Tex.

Ex-Judge Thurman is in Boston, as counsel for the government in the Bell telephone suit.

Hermann, who murdered his infant child at Pittsburg because she had been baptized in the Catholic faith, died of his self inflicted injuries.

Four men entered the postoffice at Clio, Tangipahoa parish, La., and brutally beat the postmistress, Mrs. Hudson, and her son. Government officials are investigating.

A struggle between employers and employed in the building trades is *imminent at* Boston.

HON. SAMUEL PASCO.

Portrait of the New Senator from the State of Florida.

Hon Samuel Pasco, the new senator from Florida, has several claims for distinction; one, that he secures to Florida what she has not had since the erratic Senator Jones located at Bagdad, namely, full representation in the senate; another, that he served through the war as a Confederate private and a private only. This is a novelty, the first instance where the private soldier has carried off a congressional prize.

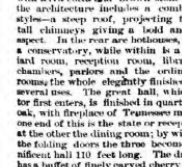
Samuel Pasco is almost 48 years old, and a native of Longboat, England. When he was 10 years old his parents emigrated thence to Canada, and after a short stay there to Massachusetts. He was early noted for scholarship, and was graduated from Harvard college in 1858, going soon after to Tenca college at Waukeenah, Fla. When the war broke out he enlisted in the Third Florida volunteers, and did great deal of fighting, though employed in the intervals as chief of regimental or brigade headquarters. At Jackson, Miss., in 1863, he was promoted from an act of heroism which gained him great applause, rescuing a wounded color bearer and carrying him off the field. At Missionary Ridge he was captured, and remained a prisoner at Camp Morton, Indianapolis, till the close of the war. Returning to Florida as soon as released, he began the practice of law in Monticello, and for ten years devoted himself exclusively to his profession, taking only local action in politics, but in the campaign of 1876 he took a very active part as chairman of the Democratic state executive committee. In 1880 he was a candidate for the Democratic nomination for governor, but withdrew in favor of Governor Bloxham. In 1884 he repeated that movement, this time in favor of Governor Perry, the result being in both instances that he made many warm friends and strengthened his claims upon the party. Curiously enough both these gentlemen were his opponents in the canvass for senator and he again withdrew; but a few days thereafter a stampede, as politicians call it, took place and Mr. Pasco received the unanimous Democratic vote of the legislature, which made him senator till March 4, 1893. His previous legislative experience has been brief but highly honorable. Elected to the state constitutional convention, he was chosen its presiding officer, and having been elected a member of the last legislature, he was made speaker of the house. Both these responsible places he filled with credit, and from the latter he now goes to the United States senate. He has some prominence in various orders, being the grand master of the Masons and past grand master of the Odd Fellows. He is also active in school and social affairs. His own domestic life is described as pleasant. In 1870 he married Miss Jessie Dunham and they have six children. He has two brothers still living in Massachusetts, and a third is teacher of the high school at Jacksonville, Fla.

HON. SAMUEL PASCO.

NEW YORK'S EXECUTIVE MANSION.

The House in Which the Governor of the New York State Will Reside.

The state of New York, during Tilden's administration, adopted the precedent set by the national government in providing a mansion for the executive, purchasing for that purpose an old Knickerbocker residence in the southern part of Albany. Five governors, including Tilden and Cleveland, have already occupied the old mansion, and it possesses some historic interest, but as it is thirty years old and antiquated in style the legislature a year ago appropriated $104,000 for a new residence, to which the present legislature added $37,000, making the total cost $141,000. The work has been pushed rapidly and Governor Hill expects to occupy the new mansion within the month. President Cleveland and his wife, it is expected, will be his guests there on their return from the north woods.



NEW YORK'S EXECUTIVE MANSION.

The rectangular lot includes four acres; the mansion stands near the center, well back from the street and on a slight rise. The lawn is beautifully laid out and has some native shrubbery. The mansion is of brick, with terra cotta and brown stone finish, and the architecture includes a combination of styles—a steep roof, projecting eaves and tall chimneys giving a bold and pleasing aspect. In the rear are hothouses, to the left a conservatory, while within is a large billiard room, reception room, library, guest chambers, parlors and the ordinary living rooms, the whole elegantly finished for their several uses. The great hall, which the visitor first enters, is finished in quartered white oak, with fireplace of Tennessee marble. At one end of this is the state or reception room, at the other the dining room; by withdrawing the folding doors the three become one magnificent hall 110 feet long. The dining room has a buffet of finely carved cherry and furniture of mahogany. The breakfast room, library, sitting room and parlor open upon these, and consequently into the large hall when they are thrown into one. The stairway is of oak, with broad landings and carved balusters. The first and second floors of the old mansion will be removed to the new, *including a large pew glass, which was a noted ornament of the old.* One thousand persons can attend a reception in the new mansion without inconvenience.

The building is to be lighted throughout with electricity furnished from the capitol, with electric bells to each chamber. The large guest chamber is thirty-five feet long and twenty feet wide, furnished in mahogany. The view from the mansion is very fine, the Catskills, Helderbergs and a tremulous stretch of the Hudson being in sight, besides broad stretches of plain and woodland. Not very much "aboveground simplicity" about this establishment, which is much more elegant and comfortable than the White House.

Lost by Emigration.

So far as can be ascertained, there are less than 500,000 native French out of France, whereas there are 4,200,000 English and Irish born subjects residing abroad, and 2,600,000 Germans or birth who have left the fatherland. Even Italy has lost by emigration more than twice as many subjects as France. Foreigners also think well of republican France, for over 1,000,000 Europeans born outside its limits have taken up their abode with them, the number being greater than the combined forces of any two subjects of England, Germany, Russia and Italy.—New Orleans Times-Democrat.

SHIPS BEFORE STEAM.

FROM THE SERPENTS OF THE NILE TO NELSON'S LINE SHIPS.

Incomplete Records Which Leave the Character of the Ships of Antiquity Somewhat in Doubt—The Use of Oars Singly and Combined with Sails.

Primitive man must have very early found out that as wood would float, all he had to do to enjoy a ride on the water was to place himself on a piece of floating wood large enough to sustain his weight. Whoever made this discovery and put it to practical use was the first navigator. It could not have been long before it was discovered that floating logs could be propelled by poling in shallow water and by sculling in greater depths. Then followed, no doubt, the raft, the canoe and more finished craft.

But so far as made any of these discoveries, or as to who first used the oar or the sail, there is no record. It is certain that very early in the world's history mankind navigated the rivers and lakes and the edges of the seas, and as almost all commercial relations were sustained by means of navigation, the sailors of the early ages, as sailors have ever been, were held in high repute as to bravery and hardiness and manliness.

Among the earliest craft of which we have any record are the boats of the river Nile, and our knowledge of them is gained from the representations thereof to be found on Egyptian monuments. A reproduction is here given from which it is apparent that oars, each worked by a single man, were used, but no sails. The steering apparatus was a huge oar fixed in the stern. Many boats of a much larger and warlike character are figured on the old Egyptian monuments, and some of them, especially the war boats, were propelled by oars each manned by two men, some by men in two banks instead of one, etc. Later in Egypt's history sails were also used, but

"A SERPENT OF OLD NILE."

they were of very simple cut. It was centuries, probably, before the galley form of vessel, of which the Nile "serpents" were a primitive form, was abandoned for purposes of war, and the sailing and the fighting boats as late as 1587, when the Englishman, Drake, destroyed so many of them off Cadiz. They were used by the Norsemen as well as on the Mediterranean, but the Norsemen used sails very extensively, too. The only advantage possessed by galleys as fighting boats over sailing vessels was the ability to work against the wind. But this was more than counterbalanced by the unseaworthiness of the galley and the manifest superiority of the sailer when there was a bit of a breeze.

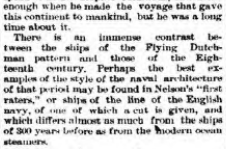
Merchant vessels early established carts save as auxiliaries to their sails, and in the Fifteenth, Sixteenth and Seventeenth centuries great progress was made. The Dutch were a great maritime nation in those days, and an

"A FLYING DUTCHMAN."

example of their style of ships is given. The Spaniards, too, built fine ships both for commercial and fighting purposes, and the ill fated Spanish Armada was the wonder of the age. It was about this time that the English, Ireland bred, began to excel as sailors and ship builders, and they were most influential in the abolition of the clumsy, heavy wooden castles at each end of the ship; a peculiarity of construction to which the Spaniards clung till a comparatively late date.

The cut of the "Flying Dutchman" given with this presents a very fair idea of the better class of ships of this period, though it does not show the wooden castles spoken of in anything like their most extravagant development. They were not handsome ships, judged by the modern standard of maritime taste. But they were not unseaworthy, and were often used for very long voyages. In fact, Christopher Colon, whom we usually speak of as Christopher Columbus, sailed far enough when he made the voyage that gave this continent to mankind, but he was a long time about it.

There is an immense contrast between the ships of the Flying Dutchman pattern and those of the Eighteenth century. Perhaps the best examples of the style of the naval architecture of that period may be found in Nelson's "first raters," or ships of the line of the English navy, of one of which a cut is given, and which differs chiefly in size from the ships of 300 years before as from the modern ocean steamers.



A NELSON "FIRST RATER."

It will be noticed that in the ship of the line there is a decided tendency toward simplification of cordage and an approach toward the beautiful lines of the modern sailing vessel. For say what you will, the handsomest craft that sails the seas over is the full rigged ship. But the full rigged sailing ship is a rarity in these days of steam and iron plates, and what few ship we moderns have are not built on the scale of the old war ships of the Eighteenth century.

In this brief sketch no attention has been paid to the development of sailing vessels in the orient. The evolution of navigation there was quite different from that of the western world and far more picturesque; but it reached its climax much earlier, and the sailors of that part of the world are still using styles of the same pattern as did their forefathers centuries ago.

To Prevent Sick Headache.

Very many attacks of sick headache can be prevented if those who are subjected to them are careful about their diet and largely restrict the same to vegetables and fruits easy of digestion. They must forego meat, cheese, pastry, beer, wine, etc., in fact, neither eat nor drink anything which is stimulating in character and at all likely to tax the digestive organs.—Boston Herald.

"Bike" is now the recognized term for bicycle.

A NAVAL TERROR.

Description of the Proposed New Dynamite Cruiser.

The London Times says that "the most infernal triumph of American ingenuity" is the dynamite gunboat recently contracted for and now being built by William Cramp, of Philadelphia. Four years ago Lieut. Zalinsky was detailed by the government to experiment with a pneumatic gun capable of throwing dynamite. His experiments have proved so successful that a vessel armed with such guns is about to be constructed.

SECTION OF DYNAMITE GUNBOAT.

This vessel is to be 246 feet over all in length, with a beam of 26½ feet and a draught of 7½ feet. She will be built of American steel with a deflecting deck from which ordinary shot will glance off. There will be four boilers to drive the two independent screws. These, with the engines, will be powerful enough to drive the vessel through the water at the rate of twenty knots an hour. The boilers will be placed as far apart as possible with water tight bulkheads between them, so that if in an engagement the portion of the vessel containing one or two of the boilers be blown away she would still float and still have power enough to get home.

The armament will be the unique feature of this craft. It will consist of three steel tubes 30 feet long and twenty feet in length and ten and one-half inches in diameter. These are the guns. From these will be thrown by air pressure projectiles containing 200 pounds of nitro-gelatine each for the distance of a mile and at the rate of one shot in two minutes from each gun. There are to be two reservoirs for the compressed air, from which the air will be led into the gun behind the projectile at a pressure of 5,000 pounds to the square inch if necessary. As the guns will be immovably fixed in their place, the range will be regulated by the elevation of the air allowed to propel the projectile, and the guns can only be fired while the vessel is "head on" to the enemy.

On suggesting to the engineer in charge that the vessel was designed to attack the enemy on the "rollygoat" principle only, he said the guns would throw sixty shells, or 6 tons of high explosive, within a minute, during twenty minutes of the time they are steaming up to the enemy, and the presumption is that in that time has elapsed there will be no enemy left.

An advantage claimed by this pneumatic gun method of firing a torpedo at the enemy is its economy. The torpedoes which are steered by electric wires from a station on shore cost from $75,000 to $150,000 each, and of course are destroyed on being used. Each shot from this dynamite ship containing the same weight of explosive will cost but $200.

On the East Side.

In all cities the east sides of the street are the healthier sides. This is because in winter it is the warmest side of the street, and in summer the coolest.—Globe-Democrat.

Not Much of a Recommend.

Safe Manufacturer—The safe was badly burned!

Mr. Doppenheimer—Yah, it was.

Safe Manufacturer—But the books were not burned!

Mr. Doppenheimer—No, dey was not.

Safe Manufacturer—Ah, that's good! I'll write a statement to that effect for you to sign.

Mr. Doppenheimer—Dot wash all right. But may be I better told you dot dose books was in de safe. De safe wash at my brudder Isaac's dree blocks away.—Philadelphia Call

Proceedings of the Board of Chosen Freeholders of the County of Union.

[OFFICIAL.]

ELIZABETH, N. J., May 11, 1887.

Pursuant to the statute the board of Chosen Freeholders of the county of Union for the year commencing May 11, 1887, convened at the Court house in the city of Elizabeth, N. J., on Wednesday, May 11, 1887, at 11 o'clock in the forenoon.

The oath of office was administered to the members of the board by John L. Crowell, clerk of the old board.

The board was called to order by Clerk Crowell, of the old board, and the following members answered to the roll call:

Clark township—William J. Thompson.
Cranford township—George W. Littell.
Elizabeth city—Joseph Nolte.
" " —P. H. Carmody.
" " —Frank Kleinbans.
" " —Robert Houston.
Fanwood township—George Kyte.
Linden township—William T. West.
New Providence township—P. P. Debbie.
Plainfield city—J. F. Hubbard.
" " —A. Vanderbeek.
Rahway city—William Howard.
" " —George Wright.
Springfield township—J. Martin Roll.
Summit township—John A. Hicks.
Union township—Henry Doty.
Westfield township—James T. Pierson.

The clerk then called the roll of collector was now in order, and called for nominations.

Freeholder Howard nominated Capt. J. F. Hubbard, of Plainfield.

A ballot was taken and Capt Hubbard received 10 votes and was declared elected director of the board.

Mr. Hubbard was escorted to the chair and introduced by County Clerk Crowell.

Mr. Hubbard thanked the board for the honor shown him. He recognized fully the responsibilities of the office, and hoped he would have the co-operation of all the members, and he would try to rule impartially and treat all with uniform courtesy. He did not claim infallibility would be of judgment and not intention.

Freeholder Littell moved that the salary of the clerk be fixed at $300.

Carried.

Mr. Howard nominated Mr. Charles E. Reed of Rahway for clerk.

A ballot being taken Mr. Reed received 12 votes; blank, 2.

Mr. Reed was escorted to his seat by County Clerk Crowell, sworn by Director Hubbard, and returned thanks for the honor conferred.

Freeholder West moved that the salary of collector be fixed at $1,000.

Carried.

Mr. West nominated E. M. Wood of Elizabeth for collector.

A ballot being taken Mr. Wood received 12 votes; blank, 2, and was declared elected.

Freeholder West moved that the salary of county attorney be fixed at $300.

Carried

A Slanderous Joke.

"Going aboard this steamer, sir?" asked the captain of a gentleman who was delaying the boat as she was making ready to leave the wharf in Buffalo.

"That depends. Captain, what is your boat insured for?"

"Sixty thousand dollars, sir."

"Ah! Sixty thousand, and she's worth about $35,000. Captain, you needn't wait on my account. I'll take the railroad."—Wall Street News.

Wanted.

An immediate opening for a talented young man who is at present somewhat embarrassed.—Judge.

Burdette.

Do you know, we get tired to death with the measureless conceit of some people? Some other people, tant is. Now, here is a lawyer of our acquaintance; he is an atheist; for years he has been going round declaring that no man could understand a page of the Bible; that no man could reconcile its conflicting statements of doctrine or history; that it was all a muddle that no living man could make clear. Well, now, we met that same man only last week, and he says he can understand the interstate commerce law. Oh, come off!

A Place of Rest.

"Where shall we go this summer, dear?" asked Mrs. Flyaway. "Well, let's see," replies her husband, "last winter we got malaria in Florida!" "Yes, and the alligators got your pointer dog." "And the preceding summer we got the rheumatism in the mountains!" "We did, and the bears got my little Skye terrier." "And the summer before that we went to the seashore and got bled by the mosquitoes and the landlord!" "Yes." "And the summer before that we went into the country and the children were laid up all summer with ivy poison!" "I remember." "Well, if I felt as strong as I used to, I'd like first rate to take a vacation this summer, but I'm feeling kind of weak and listless, and I'm afraid I couldn't stand it. Let's stay home and rest this year."

Recommended for Promotion.

"You will find the service one of great hardship," said the swimming officer to the recruit who wanted to enlist in the Arctic expedition; "of more suffering than profit." "I'm used to that," replied the recruit; "that's the kind of service I've been trained to." "But your duties will increase little by little, until you will die long two or three men's work." "That's just what I've been doing," was the confident reply. "But you will only get one man's pay, and it isn't very large pay at that." "All right; that's my present salary." "And cold—you have no idea how cold it will be; cold all the time; fearfully, killingly, freezingly cold." "That's right in my line, all of it," said the recruit, with strange enthusiasm. "I've been assistant pastor in a fashionable church in Chicago for two years." He was promptly enrolled and offered command of the expedition.

Another Find in Egypt.

A learned German professor has discovered—at least he says he has—that the ancient Egyptians invented beer long before the time of Moses. Oh, well, that might be. The ancient Egyptians were mean enough to invent anything, and we know they must have had some kind of tipple, for a great many of them were stewed in the time of Moses. The fact that they were beer drinkers is also further attested by their peculiar handwriting. Any intelligent compositor who has had occasion to set up the copy of the reporter whose assignment compelled him to tarry long at the schnetzenfest has recognized a strong family likeness between his manuscript and the hieroglyphics on the obelisks and mummy cases.—Brooklyn Eagle.

What He Did.

An Alabamian who is worth $10,000 today was asked how he got his start when the war closed.

"Do you mean what was the first thing I did?" was the reply.

"Yes."

"Well, I bended across the country for Selma. When I got within ten miles of the town I stopped at a house for dinner. It was a place owned by an old chap who did a heap of blowing to egg the Confederacy on, but had not gone to war himself. He wanted to charge me a dollar greenback for the meal. I offered him $20,000 in Confederate money. He got mad, and I said:

"'Here, old man, is the money you helped to make, and I'm carrying around two bullets shot into me in the war you helped bring on. Now come out here.'

"He came out and I set to and gave him the darnedest licking an old fire eater ever got, and when he he cried 'enough' I threw the money into the fire and walked off. That's the first thing I did after the war, and that's what I date my prosperity from."—Detroit Free Press.

Unprepared.

"Let's see, you're a witness in that case which comes off to-morrow, aren't you?" queried Wigwag.

"Yes," replied Filthy.

"Which side summoned you?"

"I don't know."

"Don't know! Why, man alive, how are you going to testify then?"—Detroit Free Press.

Crime Must Not Go Unpunished.

Kansas Judge (to prisoner)—What was your reason for murdering the man in such a cold blooded way?

Prisoner—Per honor, he pronounced depot "daypo."

Kansas Judge—Ten dollars or thirty days. —New York Sun.

Appearances Against Him.

"Is Smith a man of general intelligence?"

"I have never met him, but I fancy not."

"Why?"

"Because I've seen him occasionally in the jury box in the court of general sessions."—New York Sun.

His Full Share.

"Did you have all your lessons at school to-day, little boy?"

"Yes, sir, and more, too."

"More than all your lessons?"

"Yes, sir—a lickin'!"—Golden Days.

JOTTINGS.

—The Bee Hive are offering inducements to wearers of hercules jean drawers.

—*Children's Day was appropriately observed* in the Seventh Day Baptist Church this morning. Rev. A. H. Lewis preached a sermon fitting the occasion. The floral displays were unusually fine.

—Messrs. F. and W. Stothoff of Flemington, have an advertisement of their well drilling business in another column. They are now working for Mr. W. L. Brown at Netherwood.

—The locomotive that plunged through an open draw into Newark Bay, Thursday night, was hoisted out last evening. The cars will be raised to-day, and navigation resumed through the draw by Sunday.

—The Daisy club (colored) gave their last sociable for the season at the residence of Mrs. William Manning, on West Fourth street, Thursday evening. A bountiful collation was served and a pleasant evening spent.

—Says Mr. Manning: "Every member of the Association should bring some young man with him to the meeting conducted by young men for young men at the rooms on Monday evening next. Leader, Mr. W. M. McGee.

—The new church of the Holy Rosary, at Elizabeth, will be dedicated on Sunday, July 10, with impressive ceremonies. Bishop Wigger will officiate. The dedication will take place in the morning and will be preceded by a solemn high mass.

—A sturgeon measuring eight feet ten inches, and weighing 225 pounds, was caught in the Raritan river near New Brunswick, yesterday, by William Labone and Abe Batterson, two fisherman. The fish, when dressed, weighed 192 pounds and measured six feet eight inches.

—The Rahway Common council at its last meeting appointed a special committee to wait upon the managers of the Rahway Savings Institution, which failed in 1878, and endeavor to make a settlement with them as to the $180,000 worth of water bonds they hold and upon which the city is in default over $75,000 in accrued interest. The bank officials offer to take 35 per cent of the accrued interest and reduce the rate on bonds from seven to five per cent. The matter in this offer has been referred to the Board of Finance, and it is believed that a settlement will be reached.

—State Dairy Commissioner Newton has notified the druggists of Northern New Jersey that he will strictly enforce the State law in regard to the adulteration of drugs. He asks all druggists to forward samples of drugs which they believe are not of full strength and good quality. The law prohibiting the sale of adulterated drugs was passed in 1881, but has since remained almost a dead letter. Gov. Green on April 11 approved an amendment to the act, and the Commissioner and his assistants will see that it is enforced. Any person violating the provisions of the law will be liable to a penalty of $50 for the first offense and $100 for each subsequent offense.

—The Electric Light Company have extended their wires up Somerset street to Rock view and for the purpose of introducing horse by the incandescent system. One circuit of this system has also been placed on Madison avenue and Seventh street for lighting them with twenty-five candle power burners of the Westinhouse pattern, where the foliage is very dense. It is said to give great satisfaction to the residents there, and the company will place them all over the city, providing, of course, they are preferred to the arc lights. The new engine which was recently put in at the company's works is in readiness, and the dynamo will be started up next week. This will be used for the incandescent system only.

—Judge Ulrich received a letter from Gen. Fay, of Elizabeth, counsel for Lawrence Paoli in the action recently brought against him for violating the city ordinance by selling hard cider on Sunday, stating that a writ of certiorari had been granted the case would be taken to the Supreme Court, where the validity of the ordinance will be tested. He said he would serve a copy of the writ on the City Treasurer and file his reasons with Corporation Counsel Marsh. The case was adjourned over from last Saturday with the understanding that should the writ not be obtained Paoli would plead guilty to the charge, under advice of his counsel. Paoli already has a similar case before the Supreme Court.

—A reporter from our North avenue contemporary, following the directions given in THE NEWS a week ago visited the office of Manning, Maxwell & Moore this morning to ascertain if the half a dozen columns of the new Pond factory which has been published in THE NEWS was correct. Upon being assured that it was "substantially correct as to number," he started off with a rush to garble and disguise the facts to come out in the blusher to-day with unblushing effrontery, with the "chestnut" as news, when it has been on every body's tongue for a week. There are many particulars we publish to-day however, not before published, which our neighbor will find convenient for later issues, while we set back and indulge in our usual smiles at the pigmy's puerile efforts.

ANOTHER INDUSTRY.

ANOTHER CHAPTER OF FACTS PRESENTED BY THE NEWS.

A Large Number of New Cottages to be erected at Once. —What a Worcester Paper has to say about the Firm.

Plans were submitted this afternoon by a representative of the Land Improvement company, to Messrs. Manning, Maxwell & Moore of New York, for seventy-five handsome cottages to be put up by the Improvement Company for the employes of the Pond Company, in addition to the buildings about to be put up by others, as above referred to.

The contract for the factory, as we stated in THE NEWS, will be awarded next Wednesday. Yesterday the surveyor, Mr. Ball, and builders for the company were on the ground staking out the locality for the new buildings. A spot for the main building was chosen midway between the Evona and Grant avenue depots.

Mr. Stebbins, who is to be the Vice-President of the Company, as will be hereafter explained, was yesterday visiting Mr. Scribner's brick yard to secure the necessary brick. Other yards have been also visited in other cities. Mr. Stebbins is a short man with small black eyes, and a mustache and full beard. The beard is about three inches long, trimmed square and parted in the middle. He wears a blue cloth suit and a light Derby. He would weigh about 140 lbs. Mr. Manning is a large man and would probably weigh 200 lbs. He has a full, round, jolly face, and wears a close cropped beard, fringing the lower part of his face, and no moustache. Mr. Maxwell is also a large man, weighing about 200 lbs. He wears a moustache and full beard, close trimmed, to a fuller goatee point. He is very fond of a cigar.

The president of the company is Henry Graves of Orange, who is a large stockholder, and the other officers are as published by us on Thursday. These officers are to resign. They hold office, however, until Mr. Pond and Mr. Stebbins can move into Plainfield, when *they will resign in favor of Mr. David Pond* as president, Mr. A. C. Stebbins as vice-president, and Mr. C. E. Maxwell as secretary and treasurer. The laws of New Jersey require that the president shall reside in the State, and the officers, with Mr. Graves as president, simply assume the offices temporarily until Mr. Pond and Mr. Stebbins can remove to Plainfield with their families.

Mr. De Forest, son-in-law of John Taylor Johnston, the ex-president of the Central R. R., and the president of the Land Improvement Company, has been made the attorney for the Pond Company.

Mr. Manning informs us that the people of Chicago offered $500,000 for the company to locate in that Metropolis, but they selected Plainfield because of its nearness to New York. He informs us that his firm, Manning, Maxwell & Moore will be the sole agents for all the products of the Pond Company. We understand that the Pond Company's Sunday School Printing Press company over $50,000 worth of the machinery they now have, and a much larger amount will be purchased. This will be supplied by a gentleman familiar with the Pond works, that when under full operation they will employ between 600 and 700 operatives.

[From the Worcester Daily Spy.]

The Pond Machine Tool Company is to remove to Plainfield, New Jersey, where, with additional capital, Mr. Mary Clarke, who has will continue in the same line of business. The company is the largest machine manufacturing concern in the city, and its loss is a serious matter. In fact, it is astonishing that Worcester should have been for so long a time the home of wealth and liberality, should sit idly by and see a concern, with a reputation second to none in the country for the quantity of work produced, whose record shows careful, able and successful management, and with facilities before it which would be of inestimable value in the development of the industries of the city, with such unfailing prospects for steady and the employment of 600 workmen, with orders ahead sufficient to keep the works in operation for months to come, be crowded out from the city. But the contract has been closed, not however, until after inducements were held out to the company to remain. Already the erection of new shops has been begun, and before next October the removal of the machinery from this city will be accomplished. The *removal will cause but a slight interruption* to business, as work will be continued in this city until the new buildings are in readiness. The present conductors of the business, Messrs. Pond, Finks and Ball, have by their efforts shown rare energy and excellent judgment in the management of the business, which they took up but a few years ago, and thoroughly established, meeting every obligation as it became due, and steadily increasing their field of operations. The proposition to move was decided upon the change with great reluctance, but the inducements were such that they could not refuse. Otherwise, when they found it impossible to secure the necessary additional facilities in the city where the company has made its reputation, and where the development of which it has been an important factor.

STATEMENT OF THE CAUSES.

Judge Thayer, who has been interested in the welfare of the Pond Machine Tool Company from its organization, some six years ago, said yesterday when asked about the causes for the removal: "When Lucius M. Pond failed, some ten or twelve years ago, the concern became badly and heavily encumbered. Joseph P. Hale, the millionaire piano manufacturer of Worcester, is the owner of this city, and an uncle of David W. Pond, induced him to take the property with an incumbrance of $100,000 and the stipulation that Hale should have his own time to pay the debt, and that he should have twenty per cent interest in the profits of the business. Mr. Pond associated with himself Mr. Albert C. Stebbins, and by careful and judicious management succeeded in paying off $60,000 of the incumbrance, besides expending some $50,000 in permanent improvements in the property. Then came the depression of 1881 began. Mr. Hall, owing to unsuccessful railroad speculations, broke down financially and has since died. It became necessary that he should have the money invested in the business which was being conducted by Messrs. Pond and Stebbins, and the amount was raised through the Worcester County Institution for Savings and the Worcester Safe Deposit and Trust Company. The Pond Machine Tool Company was formed at this time with a capital of $100,000, with David W. Pond President and Albert C. Stebbins secretary and treasurer, and the business went on uninterrupted. With its continuation came an increase in the amount and also a change in the character of the business, the company entering extensively in the manufacture of heavy railroad tools, making immense machines which weighed many tons. The increase in the amount and the change in the character of the business made additional accommodations a necessity if the work was to be done advantageously, and last year it became absolutely necessary that additional accommodations should be provided. The company had *sufficient* land, good railroad accommodations and was doing a successful business, but needed $50,000 additional capital. Under the circumstances it was not deemed advisable to incur additional obligations to that amount, and the property was offered to

MORE THAN ONE LOCAL CAPITALIST

at a low price, on condition that the additional facilities for the conduct of the business should be provided, the Pond Machine Tool Company agreeing to take a lease of the property for six years at a rental which would pay six per cent on the investment, all taxes and make all necessary repairs, but for some reason no Worcester capitalist among those before whom the matter was placed could be found willing to make the investment, preferring to loan their money at a lower rate of interest on other securities. It was not long before the condition of affairs became known to Manning, Maxwell & Moore, the great machine firm of New York, and they at once took an interest themselves in the matter, and as a result of the negotiations the present company is to be organized as a new Pond Machine Tool Company with a paid up capital of $400,000 and works at Plainfield, New Jersey, with Mr. David W. Pond as president of the new company. The stockholders are all men of ample means, representing in all $5,000,000, or $4,600,000 more. *Plainfield the new company will have all* the facilities necessary for the business from the beginning, employ about 600 workmen, and manufacture all kinds of iron working and railroad machinery."

The last in Plainfield secured for the business comprises 14 acres, with 3,100 feet abutting on the Central Railroad. The new shop will be 500 feet long and 100 wide, and built of brick, in addition to which there will be a foundry 300 by 82 feet. The company will build 50 houses for the workmen, from plans to be approved by Messrs. Pond and Stebbins, who will also fix the rents. All the workmen in the shop in this city will be given work in the new shop if they wish to remove from the city. Among the stockholders of the new company are J. Roger Maxwell, president of the New Jersey Central Railroad; Austin Corbin, president of the Philadelphia and Reading Railroad; C. D. Adams, president of the First National Bank of New York; Eugene L. Maxwell, E. S. Manning and C. A. Moore of Maxwell, Manning & Moore of New York.

PERSONAL.

Judge Wadsworth and Alexander Titsworth will address the meeting at Reform Hall to-morrow evening.

Charles B. Van Winkle, a law student in the office of Corporation Counsel Marsh, is ill with a mild attack of measles, instead of typhoid fever, as was at first reported.

At the services in the Park avenue Baptist church to-morrow the pastor, Rev. Asa R. Ditts, will preach at 10.30 a. m. and 7.30 p. m. Morning theme: "The Irreparable Past."

Jeremiah Manning of Evona and Mr. Sandford of West Seventh street are making preparations to build twenty-six houses near the proposed new works of the Pond Machine Tool Company.

Justin, the three-weeks old son of Mr. and Mrs. A. L. Kenyon of Manning avenue, North Plainfield, died about half past seven o'clock yesterday afternoon in convulsions. Funeral services to-morrow afternoon at 2.30.

A large company of prominent citizens of Westfield were met at the depot and taken in carriages to Laing's Hotel, to a dinner given by Electric Wright last evening. They injected *the Plainfield plant and returned* highly pleased.

Rev. W. E. Honeyman will occupy the pulpit of the First Presbyterian Church to-morrow, and administer the Sacrament of the Lord's Supper. A preparatory lecture was held in the church last evening and was largely attended.

Right Rev. Theodore B. Lyman, D. D. LL. D., Bishop of the Protestant Episcopal Diocese of North Carolina, will be in Plainfield next week on a short visit to his friend, Rev. J. P. Taylor, rector of Church of "The Heavenly Rest."

Mr. F. Marx has awarded the contract for a handsome residence on East Front street near Watchung avenue. It will cost $5,000 and will be begun at once. Mr. R. V. Saums has the contract for the building and Mr. W. N. Rowe will do the painting. The residence will cost $10,000.

The Washington Park Whist Club met at the residence of Mr. E. J. Waring on Thursday evening. The members have been in receipt of numerous letters which she had received from former employers testifying to her good character nd standing as a servant. She says she is prepared to prove that Clark has no claim on the child.

In the corridor of the cell where John Clarke is confined was found the pretty little girl who is the present cause of the large-sized sensation, and has innocently brought much trouble upon the heads of at least two persons besides herself. John Clarke stood by the cell door and tried to soothe the little one who stood so lovingly as near to him as she could get. "I want my papa," she cried, and the large eyes filled with tears, and when Clarke looked up there was seen to be a striking resemblance between the two. "The only thing is killing me," he said, "The best part of my life has been wrecked because of this innocent little child. I am willing to give the rest of it for her sake. She is my child and I have provided for her since her birth. For four years past I have had the entire care of her and have done my best, to make her life comfortable. She is not responsible for the unfortunate circumstances attending her birth. I know that this woman was married to Alexander Griffin in Ireland, but he deserted her in this country and I had met her, she followed and annoyed me continually. Her husband was injured by an accident in the rail country and our relations became very intimate. I boarded in the same house and four children were born there. The first child died and that of which Griffin was the father. The other three children died and this is the only one living. The woman's husband died in 1880, and I lived with her until April 3, 1883 and then left her taking the child with me. I am sorry that I did not return to obtain means to regain the possession of the little girl, but I should have to abide by the consequence now. I was determined to have her and hope every thing will come out all right."

Judge Ulrich said the penalty for the crime of abduction was a severe one, but he believed the circumstances of John Clarke warranted him in placing Clarke under the small bail which had been fixed. There was a conviction in his mind, he said, that Clarke had some claim upon the child, but the courts would have to determine which parent was legally entitled to the possession of it. John Clarke was on the New York police force for seven years and now keeps a store in that city.

Chief of Police Dodd went to New York this morning to secure bail for Clarke but was unsuccessful and the man was committed to the county jail.

ABDUCTING A CHILD.

John B. Clarke of New York is Arrested in Plainfield.

The corner of Sixth and Division streets was the scene of an exciting occurence yesterday afternoon when John Clarke, of 449 West Fifty-second street New York, attempted to abduct his ten-year-old daughter from the yard of Mrs. Mary Ann Downey. Clarke saw the child in the yard and induced her to follow him a short distance when he placed her in Anglebeaur's wood delivery wagon, which he had hired for the occasion. Mrs. Downey started in hot pursuit of Clarke and assaulted him, hitting him over the head several times in her efforts to release the child.

Chief of Police Dodd's attention was directed to the occurrence, and securing a buggy he started in pursuit. He soon headed Clarke off and arrested him. The man was arraigned before Judge Ulrich last evening, but waived an examination on the charge of abduction preferred by Mrs. Downey. He admitted that the child was an illegitimate off-spring, and said it had been abducted on Thursday from Grammer School No. 28, on West Fourth street, New York, by Mrs. Downey. Four years ago he said, he and Mrs. Downey, who had been living together for a number of years, but who had not been married, separated, and the custody of their child, Isabella, was given to him. He left her in the care of a maid, Mary Clarke, at 502 West Forty-sixth street, New York. Both father and mother have since married and repeated attempts have been made by the mother to obtain possession of the child. All failed until Thursday when she went to Grammer School No. 28, which the child was attending, and succeeded in getting the teacher's permission to take the child and brought her here, whither her father followed yesterday afternoon. He went to Mrs. Downey's residence and saw the child playing in the yard.

Mrs. Downey claimed that the child's right name was Isabella Griffin, and that Clarke had no legal right right to retain her. She is a remarkably bright girl and seemed averse to going with the mother. The scene in the court room was most affecting. The little girl clung to her father and wept pitcously, begging not to be taken from him. The woman also wept slightly and called the child many endearing terms, but to no avail.

Judge Ulrich said that under the circumstances he could not determine which parent had the legal right to retain possession of the girl, that matter would have to be settled by the Court of Chancery. He thereupon held Clarke in $500 bail on charge of abduction, to await the action of the Grand Jury, and Mrs. Downey was held in $50 bail to appear as a witness against him. Mrs. Sullivan became her security. Clark was locked up in default of bail, and the girl was kindly cared for by Mrs. Dodd. Judge Ulrich will make application to the managers of the Children's Home to-day to have the child placed in that institution until it is decided by the court which parent shall have possession of her.

A reporter of THE NEWS saw Mrs. Downey and her husband at the city lock-up to-day, where the woman had gone to visit her child, and she there told the story of her marriage, first with Alexander Griffen and later with Downey. She said she was married in 1864 to Alexander Griffen in Ireland and eight years afterward they came to this country. Clarke, she said, boarded with them in New York and persistently paying her attentions. Her husband died in 1880, and she married Downey in August 1883. Rev. Mr. Courtney of Jersey City tied the ceremony. About four years ago she consented that Mary Clarke, a sister of John Clarke, who lived with them, should take care of the child for the present, but when she afterward went to get it, she alleges that she was married by the Rev. Mr. Courtney, she said, had been weaned from her husband, she could not induce him to accompany her. On two or three other occasions she again made attempts to get the child, but failed, and finally applied to Justice Reed on another occasion. Before securing the child on Thursday she went to a lawyer, named Mr. Lineman, who told her to get possession of it on a writ of habeas corpus, but advised her, to save trouble and expense, by quietly inducing the child to go out of the state with her. This information cost her $3. She went to the Grammar school. No 28, but had no difficulty in finding the teacher as she had been entered by the name of Clark. She then brought her to Plainfield.

Mrs. Mary Ann Downey has lived in Plainfield about fourteen months, and Downey is employed by Mr. Van Deventer in North Plainfield. Mrs. Downing shows the reporter *numerous letters* which she had received from former employers testifying to her good character nd standing as a servant. She says she is prepared to prove that Clark has no claim on the child.

LATEST DISPATCHES.

THE NEWS controls the service of *the American Press Association* and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Sunday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair to cloudy weather, with southerly winds.

Bishop Stevens Dead.

PHILADELPHIA, June 10.—Rt. Rev. William Bacon Stevens, Bishop of the Diocese of Pennsylvania, Protestant Episcopal Church of Pennsylvania, died at his residence this morning at 9.10 o'clock, after a protracted illness.

Mr. Hummer Killed.

NEW BRUNSWICK, June 11.—James Hummer, cousin of Mr. Hummer of the firm of Lutkins & Hummer, Plainfield, and a son of a former overseer of the poor of Piscataway township, in which he resided until about six years ago, was struck by lightning and killed with his two horses while driving them on his farm Thursday morning, according to a dispatch received to-day.

Stabbing Affair Between Colored Men.

NEW BRUNSWICK, June 11.—Justus Van Angien stabbed J. Milford, both colored, during an altercation on the docks this morning, terribly cutting him about the face and breast. Dr. Donohue says Milford will recover. Van Angien escaped.

Large Fire in New York.

NEW YORK, June 11.—Havemeyer's immense Sugar Refineries, in Greenpoint, were destroyed by fire this morning. The loss on buildings, machinery and stock is estimated at $800,000. About 600 men are thrown out of work, and about 175 coopers will only have work enough to employ them two days a week.

They Just Heard of It.

The statement made by THE NEWS on Thursday, that it was not surprising that some of its esteemed contemporaries had not learned that Plainfield was going to go among of the most important and influential concerns in the State, seemed to act like magic. One of our contemporaries has evidently risen from its Rip Van Winkle sleep and gracefully admits that it knows a piece of important news—after the NEWS has called its attention thereto. This is no more than could be expected. THE NEWS knows how to represent the interests of the city, and it takes delight in leading its contemporaries wherever they will follow. Of course THE NEWS first published the information, and its contemporaries "faked" pretty good stories from its columns, barring a few mistakes which could easily have been rectified had they applied at this office for information. But we've got an inkling of the fact some time ago that such a concern was to locate here, but the item was clipped boldly from the NEWS, not as inkling of it written in this office. This looks like enterprise—those who don't know anything about it. Such is journalism. We always say never so crowded but that it finds room for matters which are of public interest, and the people long ago learned that it was the NEWS news in a clear, concise form. And the people appreciate it, as is shown by our constantly increasing circulation. THE NEWS admires competition which increases rather than diminishes its usefulness.

Since the above was put in type we have learned from what source a local contemporary received the information that the Pond Machine Company was to locate its works in Plainfield. We too have received a copy of the Worcester Daily Spy, and while we do not claim to the article, which we reproduce elsewhere, as being a special dispatch or even from Pond or a correspondent, we take pleasure in showing the newspaper enterprise of our contemporary to move in wind than in fact. The additional information contained in the article, taken from the Spy, will be read with much interest.

The Glee Club Concert.

Those who attended the concert of the Rutger's Glee Club of New Brunswick at the M. E. church last evening enjoyed a rare treat. The club is a credit to the usual happy style of this well-known club, and the entertainment was enjoyed by a large and appreciative audience. All the selections were particularly interesting and amusing, and nearly every selection on the program was encored. The solo by Mr. Wilmot was applauded to the echo. He has an excellent voice which betrays careful training with much natural talent. His rare culture that their efficient leader, Loren Bragdon, may well be proud of. This gentleman contributed a goodly supply of excellent musical talent. His rendition of the tenor solo, "The Owl," was thoroughly enjoyed that he was again called out, and gave to the piano imitated the efforts of a prima donna with such effect that the audience was kept in roars of laughter. He was again called upon and this time gave an accurate imitation of the ex-circus comedian, Levy. *The complete control which Mr. Bragdon has* of his voice, and the comparatively easy and masterly manner in which he uses it to best advantage was the subject of much comment. The concert was given under the auspices of the Rev. Mr. Codington's Sunday School class and was a complete success in every particular. The receipts will benefit the building fund of the new Sunday School room.

Awarding the Contract.

Isaac Colthar is the successful bidder to whom was awarded the contract for erecting the new bridge at the intersection of Scott avenue and Second street. His bid was for $591. The Bridge Committee, composed of Mr. A. Vanderbeek, of Plainfield; Mr. Howard, of Bound Brook; Mr. Higgins, of Dunellen; Mr. S. F. Debbie, of New Providence, and Mr. J. Nolte, of Elizabeth, met at the office of City Engineer Ball in Plainfield yesterday afternoon and opened the bids, which were as follows: Wilson Hoffman, $870, Joseph Silloway $746, Charles Schaffer $695, and Colthar $591. Mr. F. M. French became Mr. Colthar's surety that the work would be done according to contract. The bridge will be built at once.

—*The apple crop in South Jersey* promises to be unusually heavy. The peach growers are sanguine of a big year and expect that there will be no Strawberries from the Jersey patches are now in the market and are bringing low prices. The yield this year is enormous. The Hammonton Strawberry and berry-growers of Burlington County, it is said will stop picking, as the price will not warrant the outlay for boxes and crates. The present ruins have brought the berry to rapid maturity. Melons promised to be plenty this season.

NO. 30 *West Front Street.*

ONE PRICE.

WESTFIELD.

—Rev. Mr. Folwell has moved into the new Baptist parsonage on Elm street.

To-morrow will be Children's day at the M. E. Church. There will be no session of the Sunday school in the afternoon. The exercises will be held in the evening.

There does not seem to be any prospects of our storekeepers enjoying the street sprinkler this season. Robert Woodruff, Jr., who did the work last year does not seem ready yet.

Wm. W. Baker of Hillside avenue lost his pocket-book containing papers and his commutation ticket in front of Smith's store coming from New York a couple of evenings ago. *He informed the railroad officials, and put an* advertisement in the New York papers. The next morning he received a pink envelope containing the ticket and scraps of paper found in the pocket-book on the ground or the by whom sent. The letter was mailed in New York.

A vagt-picker was caught in the act of entering the house of James French yesterday afternoon. The lad led Constable Marsh and others a chase for a mile and when he was brought before Justice Jacques, Mr. French would not make out a complaint and consequently the justice was compelled to let the culprit go with a severe reprimand and a caution not to be seen in town again. The thief carried a bag of rubbish and something suitand a pair of rubbers belonging to Mr. St. Claire.

STATE NOTES.

Chief of Police Bailey of Asbury Park was suspended last evening with a solid majority. The presentation was made by citizens as a mark of esteem for his services.

The free postal delivery system will go into effect in the village of East Orange on the first of next month, when the present Grovesend and Brick Church post offices will be abolished. The township will be allowed four carriers.

Vice-Chancellor Van Fleet yesterday morning issued an order directing Receiver Williamson, of the defunct Newark Savings Bank, to receive the $100,000 compromise offered by the old directors. This is to settle a suit now pending, in which the depositors have sued the directors for the misplacement of the funds of the bank, which led to the failure.

The proprietors of the six beer gardens on Coney City Heights waited upon the Police Commissioners yesterday afternoon, and endeavored to have the ordinance in force prohibiting music in the gardens on Sundays, but failed to do so. The commissioners decided, in which the latter agreed to the next Sunday, but they stated that they would listen to any protests that might be presented at their regular meeting on Wednesday.

George Kranshaur, a young German jeweler, residing at 30 Beach street, Newark, committed suicide last night by shooting. He went home a short time since, and told the family that he meant to kill himself. No notice was taken of the remark at the time, and he went to his room. Some time afterward his sister went to the room to call him to supper, and, receiving no answer, went in and found him dead, with a bullet hole in the temple. The family can give no reason for the act.

SATURDAY, JUNE 11, 1887.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 10.—Money closed at 4½ per cent. The lowest rate was 3½ and the highest 5. Exchange is dull; firm; posted rates, 4 85½@4 86 actual rates, 4 82½@4 85 for sixty days and 4 86@4 86½ for demand. Government bonds closed firm; currency 6s, 123 bid; 4s coup., 122½ bid; 4½s, do., 109¾ bid.

The stock market continued extremely dull throughout the afternoon. There appeared to be a general apathy to trade because of the Saturday half holiday. The bears held holiday to operate as a very decided check upon business. Friday, because Saturday is in effect, almost a full holiday. Stocks which on Friday cannot be delivered on the next day, as usual, but must be carried over until Monday. Late this afternoon there was a disposition to realize on the early advance, which resulted in a general reaction from the top figures. The closing figures, as a rule, showed a decline of ¼ per cent. for the day. St. Paul and Duluth was exceptionally strong and closed at an advance of 3 per cent. for the day.

General Markets.

NEW YORK, June 10.—FLOUR—Closed dull and unchanged for low extra; $2.40@3.65; city mill Minnesota extra, $3.40@3.65; city mill extra, $4.10@4.35; Ohio extra, $3.40@3.70. Southern flour closed steady; common to choice extra, $3.40@5.25.

WHEAT—Options were fairly active and irregular, closing ¼c. lower. Spot lots closed weak and ½c. lower. Spot sales of No. 1 red state at $1; No. 2 do., 90c.; No. 3 red winter, 96@97c. Stocks—Wheat, 1,000 bu.; ungraded red, 91@97½c.; No. 2 red winter, June, 97½c.; do., July, 95¾@96c.; do., Aug., 95½c.

CORN—Options were steady and closed, after a moderate amount of trading, at about yesterday's prices. Spot lots closed firm and ½@¾c higher. Sales of No. 2 mixed at 48½c. ungraded mixed, 47¾@48½c.; steamer mixed, 48c.; No. 2 mixed, June, 48¾@ bid; do., July, 48 15-16@48½c.; do., Aug., 48c.

A VERDICT FOR $5,000 DAMAGES

In the Case of Miss Jennie M. Munson Against Thomas L. Benham.

DELHI, N. Y., June 11.—At the June circuit, now in session in this village, before Hon H Boardman Smith presiding, a verdict has just been reached in a suit for exemplary damages, remarkable for the gravity of the offense charged, the high standing of the parties sociially, and other sensational features. The action was brought by Miss Jennie M. Munson, a young lady residing in Franklin and belonging to highly respectable family, against Thomas L. Benham, a wealthy citizen of Utica, for $20,000 damages for alleged physical injuries and mental distress, caused by an assault under aggravated circumstances. The assault occurred in a New York hotel, and the plaintiff alleged permanent injury in the successful defense of her honor.

The defence made a general denial of the alleged assault, and endeavored to impeach the chastity of the plaintiff and establish a case of blackmail against her. The testimony introduced on these points seemed of a vague and hearsay character. The jury listened to the arguments of the senior class Thursday evening. A crowd of undergraduates prowled around the mansion for several hours, peeping in at windows, exploring outbuildings, and even gathering in the cellar in an attempt to steal the supper. This attempt the vigilance of the janitors frustrated. The intruders were driven off the premises, the street was provided with lamps, and ready for the emergency. They next gathered under the windows, singing and hooting most discordantly. A large number of them then broke into his lecture room, which adjoins the dining room. Between these rooms is a strong door. With heavy tenpin balls they battered in the door, and one of the balls was hurled with such force as to crush through the panels and across the next room, where the president's daughter and several guests were sitting. They naturally ceased being hit. Other tenpin balls were thrown into the room.

The authorities are trying to find out who were the offenders, and they promise to make it warm for them if they catch them.

Rain Causes Great Damage.

WHEELING, W. Va., June 11.—The almost continuous heavy storms of the past ten days have done a very large amount of damage in this state, and Ohio railroad travel has been greatly interrupted, bridges washed away, live stock drowned, crops ruined and great uneasiness felt in the valley carried off. No through trains have run on the Ohio River road, south of this city, since Monday, and Thursday five of the passenger trains were blocked at Sistersville. At New Martinsville, yesterday, the Methodist church was wrecked by lightning. So much wet weather in June has not been known for a dozen years.

A Fire in Springfield.

SPRINGFIELD, Mass., June 11.—A fire caught in the paper box shop of Taylor Bros., fourth floor, of Union block, at 11 o'clock Thursday night and gave the firemen a lively fight. The fire was confined to that floor, but the stores on the first floor were flooded. The losses are as follows: Taylor Bros., $5,000; insurance $3,500. Wills & Rafter, printers, loss $8,000, insurance, $4,000; Breck Bros., rubber goods, loss $4,000, insured; Charles Hall, crockery and art furniture, loss $30,000, fully covered by insurance. The damage to the building will not exceed $1,000.

A Minister Expelled for Immorality.

PROVIDENCE, R. I., June 11.—Rev. J. E. Allen of Middletown, Conn., was yesterday expelled from the New England African Methodist Episcopal conference for immoral conduct.

SPUYTEN DUYVIL

THE SCENE OF AN ASSAULT UPON A MARRIED LADY.

Looking for Summer Board, in Response to an Advertisement, She Receives Violent Treatment at the Hands of Young George Levick.

NEW YORK, June 11.—Norman Porter, a dancing master, living at 975 State street, Brooklyn, saw in a New York newspaper on Thursday an advertisement of West Cottage hill, Spuyten Duyvil, where select parties would be given summer boarders. Mrs. Porter, wife, Mrs. Esther B. Porter, set out alone to Spuyten Duyvil, to see whether the place would suit. Mrs. Porter is about 20 years old and is blonde and handsome.

Mrs. Porter arrived at Spuyten Duyvil at noon, and the station agent pointed to the "villa" in response to her inquiry as to the whereabouts. The villa is Spuyten Duyvil hill, and is a handsome two story brick house with balconies. It is surrounded by ornamental and fruit trees and five acres of ground. Walter E. Lewton, who ran away on March 15 last, owing about $1,000,000, and of whom nothing has since been heard, lived there until he ran away. The family is said upon authority that he had sold the place to Mrs. Elizabeth Levick, of this city. Mrs. Levick's lawyers said that Mrs. Levick invested $25,000 in Lewton's private schemes, and that she took the Spuyten Duyvil property for value received.

Mrs. Levick has two sons, George and Walter M. Levick, and they were determined to start a summer boarding house. George Levick remained in charge of the place to show the beauties of the spot to persons who applied for board. When Mrs. Porter rang the bell at the front door of the villa, about noon on Thursday, there were two servant girls in the house with George Levick. The girls were discharged at once by the house. Levick showed Mrs. Porter over the villa, and then, the girls said yesterday, Levick and Mrs. Porter went to see another building on the property. Mrs. Porter did not return. Levick came back about 3 o'clock. There was a heavy shower a little before 2 o'clock.

The station agent at Spuyten Duyvil remembers vesterday that Levick and a lady both wet through and conversing excitedly, were at the station for some time, and got on different cars of the 2:15 p. m. train for New York.

In the evening Mr. and Mrs. Porter arrived at the Kingsbridge police station, and Mrs. Porter told the following story to the sergeant at the desk.

"Levick told me at the villa that there was an 'annex,' another building on the property, where boarders were to be taken for the summer. He said it had been Mrs. Lewton's fruit trees growing, not far from the villa, talking pleasantly as we walked, and pointing out the beautiful view of the Hudson and the Palisades. Then, without warning, he knocked me down and attempted to assault me. He choked me, and I finally struggled free, but not until I had scratched his face with my nails. He insisted on going to the depot with me, and whenever I attempted to open my mouth to speak he talked loudly about the view and the beautiful prospect. Finally I determined to escape, and put on my dry clothing and tell my husband about it. He talked to me on the train and tried to get me to go with another car, but I would not listen to him."

Mrs. Porter's neck showed the marks of the man's fingers and of the finger nails. Mr. Porter, on learning of his wife's adventure, went to police headquarters, and was advised to go to Kingsbridge police station with Mrs. Porter.

The Kingsbridge police sent out detectives to find Levick while Mr. and Mrs. Porter were at the police station. Detective Clapp went to the Levick villa. The two brothers were in the house. Mr. Porter had not arrived from New York city in the evening, and he told the police afterward that he did not know what had happened when Detective Clapp appeared. Then, without waiting, he locked me down and attempted to assault Walter, according to Walter's story:

"Walter went to the door and the detective entered and searched the house, but George had escaped from a back door and jumped from the balcony at the risk of his neck.

The house stands on the brink of the hill, and from the balcony to the ground is a drop on the roof of a passing train fifty feet below. He was seen afterward by Policeman Reed at Kingsbridge on the train which stops there at 3:15 p. m. Reed arrested him. Porter were then at the police station, about 100 yards from the railroad station. The policeman knew Levick well and talked with him, but it was not until he returned to the police station that he learned that Levick was "wanted." The Kingsbridge police believe that Levick came to his mother's house in this city, but they have not yet found him.

W. H. Levick accompanied the officers to the station house and stated that he was shocked to hear of the charge against his brother. He said that two years ago his brother was sunstruck, and that he had not been right in the head since, but that he had never before shown any inclination to indicate the necessity for restraint, or he would have been removed to an asylum.

An Enormous Land Grant.

EL PASO, TEX., June 11.—The huge land grant made by the Mexican government to the Texas Pacific, of New York, Penn., and J. A. Vergas, of San Francisco, turns out to be the largest that was ever made in that republic. It effects a vast parallelogram along the Sierra Madre from the middle of Durango to the United States boundary, a distance of 358 miles long by 126 miles wide. One third of all lands and mines are hereby covered by previous grants which are included in the grant. The consideration is the thorough survey of the country, obviating the grant and the development of the country by railroads. The surveying force of 300 men will be put to work in a few days and $500,000 spent for that object. Settlers will be erected and farms and ranches opened.

Probably Killed by a Bald Knobber.

NORTH SPRINGFIELD, Mo., June 11.—The coroner's inquest as to the death of Robert Meadows, who was shot from the brush while going to a neighbor's house in Taney county, resulted in a verdict that Meadows was killed by Bud Matthews, an alleged member of the Bald Knobber organization that has terrorized people in that part of the state for the past two years. A warrant has been issued for the arrest of Matthews. Meadows's wife swore that she saw Matthews fire the fatal shot.

Fined for Promoting a Foreigner.

BATH, Me., June 11.—The American bark Rose Innes, of Portland, Me., Capt. Marvick, was fined $400 for having John Olsen, a foreigner, in the capacity of second mate. Olsen is a Norwegian and has been in this country but three years and is not naturalized, and was promoted from seaman to second mate in violation of a law which provides that no person not a citizen of the United States can be an officer of an American vessel.

THE PRESIDENT AT HOME.

Mrs. Cleveland Visiting a Lady Friend at Oswego.

NEW YORK, June 11.—The New Jersey Junction railroad, built by the New York Central along the Hudson, at the foot of the Palisades, between 29-ory fifty and Weehawken, and which will hereafter be used as the link between the Pennsylvania and West Shore railroads, has just been completed, and the first through train, bearing four car loads of the "special" which left Albany yesterday morning with President Cleveland and party. The train left Weehawken at 8:30 p. m. and arrived in the Jersey City station of the Pennsylvania railroad at 8:35 p. m. The car was at once attached to the Pennsylvania limited express, which was added to the congressional limited express, which started for Washington at 8:50 p. m.

The President, accompanied by Col. Lamont, Mrs. Lamont, arrived in Washington at 9 o'clock last night. Mrs. Cleveland was not with the party, having separated from it at Albany to go to Oswego, N. Y., and visit her friend, Miss Kingsford, for a week or two. The president is in excellent health, and feels benefitted and invigorated by two weeks of outdoor life in a bracing atmosphere.

The Government and the Vatican.

ROME, June 11.—In the chamber of deputies yesterday the government was interrogated concerning certain rumors of a movement on the part of the government for a reconciliation with the Vatican, and an animated discussion ensued. Signor Crispi, minister of the interior, denied that the government was seeking a reconciliation with the pope, and declared that it was in no way concerned in whatever steps the Vatican might be taking with a view of effecting a religious peace with Italy. Indeed, he said, the government had no objection to offer, and with perfect indifference by the government, but should a reconciliation ever become an accomplished fact, it would never be such as would be in the least detrimental to national rights.

BROKE UP THE MEETING.

The Mayor of a Texas Town Under Arrest for Contempt.

SAN ANTONIO, TEX., June 11.—Upon complaint of Judge W. H. Booker, a leading Prohibitionist, Hon. Byran Callaghan, mayor of this city; Phil Sheridan, chief of police; Alderman Dodge, ex-Alderman Lockwood, Cashier Herff, of the San Antonio National bank and four other prominent persons were arrested and held to bail before the United States commissioner. They are charged with disturbing and breaking up a Prohibition meeting held on ground owned by the government. The meeting was called by the Prohibitionists the use of the public plaza, and the government lot was secured. During the meeting a large party of Anti-Prohibitionists gathered and rolled rocks upon the speakers, and broke up the meeting. Mayor Callaghan denied the jurisdiction of the court when brought before the United States commissioner.

The affidavits embrace three counts, conspiracy, aggravated assault and preventing freedom of speech. The defendants were released on bail ranging from $500 to $2,000, the runs high, and the breech between the Prohibitionists and Anti-Prohibitionists is greatly widened.

He Will be Tried at Once.

WASHINGTON, June 11.—The consul general of the Ottoman States to the state department that Pubia, the American citizen imprisoned at that place, will be tried in the superior court during the present month, the trial being instituted on account of the intercession of this government.

Dr. McGlyan "Completely Isolated."

ROME, June 11.—The Diritto, the organ of the vatican, says that though Dr. McGlyan refuses to submit to the judgment of his superiors, the pope's intervention in his case has had the effect, for McGlyan is now completely isolated.

Anti-Semitic Movement.

VIENNA, June 11.—A strong anti-Semitic movement is gaining ground in Hungary, and the attention of the government is called to its spread. A terrific fight growing out of this state of feeling occurred at Nentra yesterday, in which eight persons were killed and thirty wounded.

Fatal Heat at Charleston.

CHARLESTON, S. C., June 11.—The heat yesterday was intense, the thermometer reaching 96 degrees at 2 o'clock. Charles Dehles, a German driver of a beer wagon, was prostrated and died in three hours from the effects of sunstroke.

Threatened Famine in Persia.

LONDON, June 11.—A famine is imminent in the city of Meshed and throughout the whole province of Khorassan. The Russians are trying to prevent the people from emigrating to the Transcaspian territories.

To Renew the Battle.

LONDON, June 11.—It is stated that Mr. Gladstone intends, after the crimes bill has been read for the third time, to raise the Irish question of the government's Irish policy.

Capt. Murchison Still Alive.

JACKSON, Tenn., June 11.—Capt. William Murchison, the faster, is till living, notwithstanding it is eighty-seven days since he has swallowed food or drink.

Youthful Boycotters.

LONDON, June 11.—Two hundred children at Ballindangan, County Cork, near Mitchellstown, have boycotted the national schools.

CONDENSED NEWS.

Samuel F. Barton, a wealthy cattle dealer at Hanover, N. Y., committed suicide yesterday by shooting.

At Hornellsville, N. Y., fifty young women served pork and beans to 600 veterans and guests of veterans of the Livingston County Grand Army association, and Col. Strang, of Rochester, and Gen. William Ramsey, of Bath, delivered addresses.

The trial of the suit of the Texas and Pacific Railway company against H. B. Epperson at Marshall, Texas, involving a title of twenty-five sections of land that has become very valuable, has resulted in again vesting the right to the land in the Texas and Pacific company.

Barkeley Peak, the alleged murderer of Mary Anderson, seems equally unmoved by what is said for or against him. His lawyers have wound up and Prosecuting Attorney Hendrickson is now getting in the closing words for the state.

Boston is promised rapid transit by means of electric railways.

The crown prince of Germany is reported in no danger from the tumor in his throat.

The yellow fever is abating in Key West and is thought to be under control.

Emperor William of Germany has been suffering from cramps in the stomach and catarrhal inflamation of the eyes.

A long debate took place in the British parliament over the motion to report the coercion bill next Friday.

FOREIGN WAR RUMORS

CRITICAL SITUATION OF AFFAIRS ON THE RUSSIAN FRONTIER.

Col. Sir West Ridgeway's Report to the British Cabinet Council Leads to the Belief that a Conflict Between Russia and England is Imminent.

LONDON, June 11.—The report of Col. Sir West Ridgeway, chief of the British Afghan commission, which was discussed at the cabinet council, shows that the extremely critical situation on the part of the Russian frontier has not been one whit exaggerated by the alarming news brought in from time to time to the Indian government, and urgently forced upon the attention of Lord Salisbury by the British press. Col. Ridgeway's representations, indeed, appear more powerfully to the government's watchfulness of British interests in India than anything yet brought to their notice, and it is difficult to conceive, in the light of the complete and formidable preparations against resistance already made by Russia, how a hostile meeting of British and Russian troops far within the boundary lines laid down by England can be averted. Although the strength of Russian forces on the frontier is much greater than it was at any time during the demonstration made upon the border by the czar's troops two years ago, no sign of relaxation of her military activity in that region is apparent, and the operations are confined to the sections skirting Afghanistan. On the northern frontier of Persia the greatest activity prevails, and large reinforcements and military supplies are being hurried forward with all possible speed. Large forces of men are engaged in extending branches of the operations of the railway which, in Tourkestan, toward Mashed, Persia, and Herat, Afghanistan, and no secrecy is observed in concealing the fact that these are Russia's objects regarding as the central points on the new frontier, as delimitated by Russia herself, and particularly at Zulfikar Pass, Russian troops are being massed, and collisions with the Afghans, which will be the signal for a general forward movement, may be expected any day.

As evidence that Russia's preparations for an active campaign on the Persian and Afghan frontiers are nearly, if not altogether, complete, it is observed that dark hints of war with England on a grand scale are more frequent in the Russian press than formerly, and though nothing is permitted to be published showing the actual extent of the operations Russia has on contemplated, a singular unanimity of belief is expressed that when next English engineers start out in search of the northern boundaries of Afghanistan they will find themselves much farther south than any map of the present day locates them.

Mr. Gladstone is perhaps more fully advised as a result of the dangers attending the present phase of the Afghan question than any other English statesmen, and it cannot now be doubted that his political detour, which has resulted in placing him at the organized plan of determined and long drawn out obstruction to the crimes bill, was made for the purpose of hastening the inevitable crisis with certain European powers, that the Afghan matter might receive the early parliamentary attention its increasingly imperative importance demands.

Meanwhile the relations between Turkey and Russia have changed for the worse, and the two empires are drifting farther apart each day. The recent alliances of the latter with certain European and Asiatic powers have left Russia practically isolated, and the probability that the czar's government will find itself confronted with the necessity of settling the Bulgarian question simultaneously with its operations against England in Afghanistan and Persia is growing into almost absolute certainty. During the last few months Turkey has been very active in stirring the Bulgarian regency into another attempt to enthrone a prince, and the porte's action in sending out circulars to the powers requesting them to suggest a prince whose administration of the government of Bulgaria would be acceptable to them, well knowing that little or no attention would be paid to her request, was taken with a view of showing to the regency the necessity for independent action on their part. As was expected by Turkey, the regency have announced that if the powers do not immediately nominate a prince they will ask the sobranje to elect one of their own choice, and Turkey now regards herself sufficiently independent of Russia to insist upon her recognition as the rightful ruler of Bulgaria.

Dispatches received to-day state that 10,000 Russian troops have been advanced to within six Bokharan farstangs (about twenty-five miles) of Herat, and that another force has occupied Kark, about four farstangs distant from Herat.

Working the Hudson River Towns.

NEWBURGH, June 11.—It is clear that a gang of laborers are working their way up the Hudson. Peekskill was visited on Tuesday night, Highland Falls on Wednesday night, and Thursday night they worked six miles further up to Cornwall. The burglaries are all of the same kind, and it is evident that one gang is doing the work. At Highland Falls on Wednesday the residence house, the Barrel cottage, and the house of M. Farrell were visited. Little booty was taken. At Cornwall the residences of James Cox and Nicholas Chatfield were visited.

Result of a Practical Joke.

WHEELING, W. Va., June 11.—Two live were lost by drowning in Grave creek. The steamers Princess and Elaine were lying at the wharf, and the engineer of the former boat, thinking to play a practical joke on Elias Boley, one of the deck hands, turned on the mud valves of the boilers suddenly, at the same time yelling to Boley to jump. Boley sprang from the deck into the river and was swept away. A small boy named Eugene Fortney, fell off a large stone into deep water and was also drowned.

Six Carpenters Badly Injured.

SCRANTON, Pa., June 11.—Six carpenters employed at the building of the Lackawanna Electric Light company, in this city, were badly injured by the falling of two sets of trusses on which they were working. The trusses were supported by a stringer, which rested on a brick wall of the building. A portion of the brickwork gave way and the trusses, with the men, were precipitated to the basement, a distance of nearly twenty feet. No one was fatally injured.

Germany's Emperor.

VIENNA, June 11.—The bourse was considerably agitated and there was a general flattening of prices, owing to the unfavorable reports concerning the illness of the emperor of Germany, who, it is believed, is in a much more critical condition than the information received from Berlin represents.

A Judge Disappears.

HIGHTSTOWN, N. J., June 11.—Judge Applegate, of the Mercer county court, left home Thursday with a large sum of money, under mysterious circumstances. He told a friend that he would be home on Monday. People are wondering whether he has fled or committed suicide.

He Simulated Fits.

How J. W. Pugsley Kept One of Prison for Eleven Years.

DETROIT, June 11.—The trial of J. W. Pugsley, of Battle Creek, accused of perjury, has been going on for two days. The late Amasa L. Clark, of Battle Creek, held a mortgage of $9,000 at the time of his death upon the farm owned by Pugsley's father. Pugsley, claiming to have heard Clark say that he intended to discharge the mortgage in return for services rendered by Wilte, conceived the idea of forging a receipt and discharge. He took White and one Morey into the plot, but the forgery was discovered, several criminal suits were brought and Morey committed suicide. The Russian frontier has not been one whit exaggerated by the alarming news brought in from time to time to the Indian government, and urgently forced upon the attention of Lord Salisbury by the British press. Col. Ridgeway's representations, indeed, appear more powerfully to the government's watchfulness of British interests in India than anything yet brought to their notice, and it is difficult to conceive, in the light of the complete and formidable preparations against resistance already made by Russia, how a hostile meeting of British and Russian troops far within the boundary lines laid down by England can be averted. Although the strength of Russian forces on the frontier is much greater than it was at any time during the demonstration made upon the border by the czar's troops two years ago, no sign of relaxation of her military activity in that region is apparent, and the operations are confined to the sections skirting Afghanistan. On the northern frontier of Persia the greatest activity prevails, and large reinforcements and military supplies are being hurried forward with all possible speed. Large forces of men are engaged in extending branches of the operations of the railway which, in Tourkestan, toward Mashed, Persia, and Herat, Afghanistan, and no secrecy is observed in concealing the fact that these are Russia's objects regarding as the central points on the new frontier, as delimitated by Russia herself, and particularly at Zulfikar Pass, Russian troops are being massed, and collisions with the Afghans, which will be the signal for a general forward movement, may be expected any day.

As evidence that Russia's preparations for an active campaign on the Persian and Afghan frontiers are nearly, if not altogether, complete, it is observed that dark hints of war with England on a grand scale are more frequent in the Russian press than formerly, and though nothing is permitted to be published showing the actual extent of the operations Russia has on contemplated, a singular unanimity of belief is expressed that when next English engineers start out in search of the northern boundaries of Afghanistan they will find themselves much farther south than any map of the present day locates them.

Mr. Gladstone is perhaps more fully advised as a result of the dangers attending the present phase of the Afghan question than any other English statesmen, and it cannot now be doubted that his political detour, which has resulted in placing him at the organized plan of determined and long drawn out obstruction to the crimes bill, was made for the purpose of hastening the inevitable crisis with certain European powers, that the Afghan matter might receive the early parliamentary attention its increasingly imperative importance demands.

Meanwhile the relations between Turkey and Russia have changed for the worse, and the two empires are drifting farther apart each day. THE COKE STRIKE.

CAUSING CESSATION OF WORK IN MILLS AND FACTORIES.

The Iron Industries Paralyzed Because of Lack of Fuel—Despondency in South Chicago on Account of the Shutdown—No Substitute for Coke.

CHICAGO, June 11.—Thirteen hundred of the 2,100 men employed by the North Chicago rolling mills have already been thrown out of work on account of the coke famine caused by the Connellsville strike. There is still sufficient pig iron to keep the rail mill running until tonight, when that department will also be shut down, and 750 more men will be laid off. It is expected that 150 men will be kept at work making repairs, besides the 150 employed on the docks. Other wise the largest steel rail mill in the country will be deserted by tonight. The stoppage of the mills is the cause of considerable despondency in South Chicago. Of the 13,000 inhabitants there the employes of the mills, with their families, number 6,000, and the wages paid them amounts to over $125,000 per month. The employes are not particularly provident, and their failure to receive regular wages is beginning to cause a considerable hardship upon them unless there be a speedy termination of the strike.

A great many firms in Chicago use coke, and will be subject to much inconvenience for lack of it. Not a carload has been sold here for more than a week. The effect will be severe on the iron industry, but only in some degree will it affect the steel trade. No furnaces where heavy work is done can use anything but Connellsville coke. There is no substitute for it. Where light castings are made, and all the coke factories in Chicago where they now use coke, an effort might be made to run with hard coal, but it would be unsatisfactory. They could run along after a fashion for a while with coal, but it would not last very long.

Was Lena Zorn Murdered?

NEW YORK, June 11.—River since the body of little Lena Zorn was found on the marsh The Sun has been investigating the matter on the belief that the child was murdered. This morning it publishes additional evidence pointing to the fact that the child was foully dealt with, and offers a reward of $500 for the arrest and conviction of her murderer.

Professional Cards.

A. DUNHAM,
Civil Engineer and Surveyor, No. 7 Park Row corner Somerset, will do business in all its branches attended to with promptness. Parties sent to all parts of the country. Residence corner of Fifth and Watchung avenue.

O. L. JENKINS, M. D.

Xmas. Christmas.

The Half Moon's Cruise.

When Henry Hudson, in September, 1609, sailed up the river which bears his name, in the Half Moon, he kept a log book. It is a very curious document. He anchored in New York bay, and some of his men, being incautious enough to leave the ship in a boat, were attacked by the natives and killed. Hudson passed up the river, noting the different points by the way. By his description one may recognize Sleepy Hollow, Dunwell Point, Hudson and other places, which were then in a state of nature. It is singular to remember that when Hudson passed West Point the virgin forest in all its glory stood the buildings of the national military academy. To-day West Point is linked with the history of a great nation.

Hudson sailed up to Albany and returned, at times taking natives on board and entertaining them. One old man he made very drunk. The white man did not seem inclined, however, to risk going on shore. They were once or twice attacked on the way, but their firearms easily drove the natives away. The only loss was Hudson's pillow, which a native managed to steal by climbing up to the stern of the ship.

Æsthetics.

Many people have a vague conception of the meaning of the word "æsthetic," which they would be at a loss to explain. The term was invented about the middle of the last century by Baumgarten, a professor of philosophy in the university of Frankfort-on-the Oder, to denote the science of the beautiful, particularly of art, as the most perfect manifestation of the beautiful. Baumgarten is regarded by the a priori school of æstheticians to be the founder of the philosophy of art. The word æsthetics is from the Greek "æsthanomai" (I feel). Baumgarten used it to denote all sensuous apprehension, indicating not absolute knowledge of things, but such as is conditioned subjectively to help or to play our sensibilities. The term is not thus strictly confined to the limits of the beautiful, though in fact we use it in this partial signification. Baumgarten regarded beauty as the result of the highest and purest æsthetic perception, to the realization of which the finer portion of our nature strives, and to the end which through the whole sphere of art was the work of æsthetic philosophy.

Three Old Towns.

The oldest town in the United States is St. Augustine, the Spaniards having built a fort there in 1565. They were a long while about it, but when it was finished it was a fine work for the time. It took the first Sir Marion, and garrisoned by United States troops.

Jamestown, Va., comes next on the list, having been settled in 1607 by the English, but Jamestown is not now in the same situation as situated within the present limits of James City, Va., on a point of land projecting from the north bank of the James river, thirty-two miles from its mouth. The encroachments of the river have made it an island, and a portion of the site has been swept away. A part of an old church tower and some tombstones about it are the only relics remaining.

Albany is the third oldest city in the country, and the oldest of any importance. It was founded in 1623 by the Dutch, and named in 1664 for the Duke of York and Albany. It was originally surrounded by a stockade.

Does Sound Rise?

It is frequently asserted that sound rises. This is true, but not exactly as one would understand by the expression. Sound travels more rapidly through a dense medium than through a thin one. Its velocity at the sea level is about 1,100 feet per second. In water it will move at the rate of 4,700 feet per second; through a vacuum the rate of about 16,000 feet. In high altitudes, where the air is thin, it not only travels more slowly but decreases in intensity. But when one hears sound through different densities of atmosphere the intensity or volume of the sound depends on the density of the atmosphere where it originates. Thus, one at such elevation of 30,000 feet in a balloon may hear the report of a gun on the surface of the earth—the sound originating in a denser atmosphere—while one directly below could not hear a gun fired from the balloon, because it would originate in a thin atmosphere.

A Monkey and a Dog.

A little incident is told in The Irish Times about a monkey and a dog: A brave, active, intelligent terrier, belonging to a lady, one day discovered a monkey, belonging to an itinerant organ grinder, in the garden within the grounds, and at once made a dash for him. The monkey, who was attired in jacket and hat, awaited the onset in such undisturbed tranquility that the dog halted within a few feet of him to reconnoiter. Both animals took a long, steady stare at each other, but the dog evidently was reversing former opinions, and about to make a spring for the intruder. At this critical juncture the monkey, who had remained perfectly quiet hitherto, raised his paw and gracefully saluted by lifting his hat. The effect was magical. The dog's head and tail dropped and he sneaked off to the house, refusing to leave it until his polite but mysterious guest had departed.

Historic Words.

"I am not worth buying, but such as I am the king of England is not rich enough to buy me."

These words were spoken by Gen. Joseph Reed of Pennsylvania, in 1779. King George III offered him, Reed $10,000 and the most valuable office in America, if he would make an effort to bring about a reconciliation between Great Britain and her rebellious colonies.

Is It Correct?

Can one say correctly, "There are a number of grammatical errors in the book?" By no means. If the errors spoken of were grammatical, they would not be errors in grammatical construction, which is meant.

UNCROWNED QUEENS.

HISTORY OF MARGARET HAUGHERY AT NEW ORLEANS.

Sister Dora of the Cottage Hospital, Walsall, Staffordshire, England—Hannah Dustin, of Boscawen, N. H.—The Monuments Erected to Their Memory.

[Special Correspondence.]

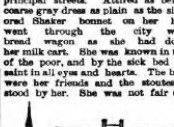
NEW ORLEANS, June 4.

UNCROWNED, not untitled, was Margaret Haughery in woman-hood, as she is commonly termed by the people of New Orleans to a degree that queens might envy; indeed every one called her by her given name, as

is done in speaking of queens. Her title was that of "The Orphans' Friend." She was not cultured nor gifted with what is termed genius or brilliancy. She was unlettered, and left no written records. It was not her mission to write letters and books, much less to preach or teach. In what, then, was her greatness and strength? It was in good works, more impressive and beneficent than pen can present or impart.

Margaret was born in Baltimore, of Irish parentage, Gaffney by name. Left an orphan at an early age, she grew to womanhood as a domestic in the household of a friendly family. Reaching adult years she married Charles Haughery and removed to New Orleans. This was fifty years ago. Her husband soon failed in health, and died while on a trip to Ireland. This bereavement was soon followed by another grief, the child, and Margaret was again alone and homeless. She found employment soon after as a servant in the Julian Poydras Orphan asylum, at that time under the management of the Sisters of Charity.

When the sisters opened another home for friendless children, Margaret accompanied them and took charge of the dairy of the establishment. She trundled a milk cart about the streets, peddled from door to door though many did not buy milk, at each door in her deliveries as regular as a clock. The profits of the business went to the support of the institution, and in 1866, when it reached a condition of independence and comfort largely through her efforts, she engaged in business on her own account by opening a bakery on one of the principal streets. Attired as before in a calico dress, as plain and in similar colored Shaker bonnet on her head, she went through the city with her bread wagon as she had done with her milk cart. She was known in the houses of the poor, and by the sick bed she was a saint in all eyes and hearts. The best people were in her friends and the coarsest heroics stood by her. She was not fair of feature



NEW ORLEANS ORPHANS' HOME.

nor symmetrical in manner. Her face was inexpressive, broad and red, while her hands and feet were large and uncomely. It was not for possessing exterior personal graces that people and the city of her adopted home to erect to her memory the first and only statue to a woman in the United States, and really the first in the world to one other than a sovereign, it was not physical charms, but for her beauty of Christian character, shown in daily deeds of charity; for her unremitting zeal and energy for the cause of the lonely and friendless, that she is remembered among the women who in their day have been—

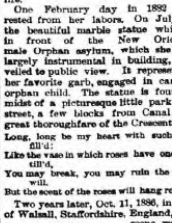
Those starry lights of virtue that diffuse
Through the dark depths of time their vital flame.

Her life was one sweet strain of moral humanity, a gospel preached to every listening ear in tones and acts of kindness and love, in a spirit of ever flowing benevolence, and in the silent teachings of patience and faith under difficulties and suffering. Her place is among "the noble army of martyrs," for no doubt her sacrifices brought burdens which weighed down the closing years of her useful life.

One February day in 1882 Margaret rested from her labors. On July 9, 1884, the beautiful marble statue which stands in front of the New Orleans Female Orphan asylum, which she had been largely instrumental in building, was unveiled to public view. It represents her in her favorite garb, sugar in one hand and orphan child. The statue is found in the midst of a picturesque little park on Camp street, a few blocks from Canal street, the street thoroughfare of the Crescent City.

Long, long be my heart with such memories fill'd!
Like the vase in which roses have once been distill'd—
You may break, you may ruin the vase if you will,
But the scent of the roses will hang round it still.

Two years later, Oct. 11, 1886, in the town of Walsall, Staffordshire, England, a similar



SISTER DORA.

scene was enacted in the city market place by the unveiling of a testimonial in marble to another uncrowned queen, Sister Dora, whose work among the homes of the poor and afflicted, and in the Cottage hospital which she founded, endeared her to all lovers of humanity. Unlike Margaret, she was a woman polished in mind and graceful in person, fit to adorn the highest walks of life, but she gave her time and strength to the alleviation of the weak and distressed. "Scarcely she knew that she was great or fair." When her last hour came she declared that "to a Christian death is only the entrance into life," and her departure was more of the ascent of an angel to the sky than the going down of a mortal to the tomb. On the occasion of unveiling the beautiful life sized image of the devoted woman business was suspended and thousands gathered from the surrounding country to do reverence to one whose memory was so venerated.

Tell us the world, O statue!
Of woman's love and power:
Her might of strength in time of need,
In suffering's darkest hour.

The memorial stone represents her in plain garb, her hands in the act of unrolling a package of healing oint-ments. The statue is said to be a life like representation. It is a little singular that the two foremost countries should almost contemporaneously recognize and honor in this way the true worth of two of the world's many noble, honest and modest women.

The monument at Boscawen, N. H., put up to commemorate the heroism of Hannah Dustin, is hardly a statue, the figure crowning the huge pedestal being an ideal. The act that made Mrs. Dustin's name memorable occurred in 1697, during King William's war. When Haverhill, Mass., was attacked by the Indians she was taken prisoner and driven off, the savages having killed her baby be-

MARGARET HAUGHERY'S MONUMENT.

fore starting. Her captors traveled for several days, when one night Mrs. Dustin received to escape, which project could only be accomplished by killing her Indian masters, which she proceeded to do by slaying ten sleeping savages with their own tomahawks. In the course of her captors she succeeded in reaching home and friends. Her monument records an individual act of desperation. The statues of Margaret and Dora tell the story of each devoted lives, of charities that soothed and healed and blessed, like flowers scattered at the feet of suffering humanity. MOSES FOLSOM.

KAPIOLANI'S REALM.

The Sandwich Islands, and How They Are Prospering.

[Special Correspondence.]

WASHINGTON, June 7.—Queen Kapiolani's visit has brought the Sandwich Islands prominently before the United States, and the following conversation with one of the most prominent residents of Honolulu will be read with interest. The gentleman, who is a large sugar dealer and a close friend of Claus Spreckles, tells me that the Hawaiian Islands are falling off in population, and that there now are on the islands not more than 40,000 souls, which is considerably less than they had when Capt. Cook visited the country 100 years ago.

"The Sandwich Islands," this gentleman continued, "will eventually fall into the hands of the United States. Already she has a large American resident population, and 92 per cent. of her trade is with the United States. Only about one-half of the people are natives, and about one-fourth of the whole population is made up of Chinese coolies. The foreign element increases from year to year, and of these foreigners a large number come from China and Japan.

"Queen Kapiolani's army is composed of 300 infantry and 100 cavalry, and her capital city, Honolulu, has just about 30,000 people. King Kalakaua belongs to the church of England and his government is just about $1,000,000 in debt. He pays interest on this at the rate of from 6 to 12 per cent. and does not lie awake at night thinking about trying to pay the principal. The government has a parliament consisting of the house of nobles whose members are appointed by the king and a house of twenty-eight representatives elected by the people. Voters must be able to read and write, and have the amount of $150, and to have an income of $60 a year.

"Give me some information about the islands," said I.

"The kingdom is by no means a large one. There are twelve of these Sandwich Islands, and the whole of them could be crowded into the State of New Jersey and leave enough room for Rhode Island around the edges. They are high and volcanic in structure, and they have several mountains over 10,000 feet high. They have 2,000,000 acres of grazing land and about 1,000,000 acres devoted to agriculture. Sugar is the principal product, and it is said that Claus Spreckles, the sugar millionaire, practically owns the industry of the island. About three years ago it was charged that Spreckles was trying to get entire possession of the islands and make himself their king, and it was said that Kalakaua owed Spreckles a lot of money for advancements made to him at the time of his coronation. It is against the law of these islands that the crown's lands should be sold, and Spreckles, it is said, induced the king to sell him 40,000 acres, and Spreckles' son, during a visit to Washington not long ago, said that their firm had about 60,000 acres of sugar lands under cultivation. Upon one of these plantations, containing 8,000 acres, 1,500 persons were employed, and these were of every nationality, including 300 whites.

"What kind of a man is Spreckles?"

"He is one of the most remarkable of the rich men of the west. He is a German, who came to this country in 1830 and started a retail grocery in New York city. He went to California soon after the gold fever broke out, and there engaged in the grocery business, preferring it to mining. He made large profits, and invested $40,000 in a brewery in San Francisco. From making beer he turned to making sugar, and he is said to control the entire sugar trade of the Pacific coast. His mills make 600 barrels of sugar daily the year round, and each of the barrels, it is said, will average $50 in value. This makes a business of $8,000 a day, or over $6,000,000 a year, and as Spreckles' profits are said to be 10 a year, he has an income of $6,000 a day. Spreckles is a very popular man in San Francisco. His son is a Republican, and he gives liberally to the campaigns. The old gentleman is of medium height, well built and well dressed. His round head is covered with thick, white hair and he is full of life and vigor. He comes here to Washington very frequently during the congressional sessions, and both he and his son are anxious that no duty be put upon Sandwich Islands sugar.

"It is said that Spreckles and Kalakaua are now not on the best of terms. But Kalakaua is bound to Spreckles in more ways than those of sociability. It is said that Spreckles lent him $1,000,000 in 1884, and young Spreckles once said here that Kalakaua had often jokingly told his father, after following his advice in certain instances, that he believed if Spreckles could see his (Kalakaua's) backbone he would find the initials 'C. S.' stamped upon it." THOMAS J. TODD.

LITTLE LAUGHS.

The way of the transgressor is generally agreed to be hard, but he undoubtedly deserves it all.—Pittsburg Dispatch.

Husband (who has been looking at a house, to wife)—But why don't you like the house? It has two large parlors, a cozy library and drawing room, a beautiful dining room, three bath rooms, *and the kitchen arrangements* are perfect and the rent low. Wife (shaking her head)—Only seventeen closets, John.—New York Sun.

Gingseng—Congratulate me, father; I'm going to be married. Gingseng's Father—Ah, but do you think the lady will be able to support you in the style to which you have been accustomed?—Pittsburg Dispatch.

It is suggested that the plan of executing criminals by electricity will give relations the chance to say that their luckless kinsman was struck by lightning.—Philadelphia Call.

It is generally conceded that women dress to attract the admiration of men, and The Pittsburg Dispatch asks: "But why do men dress?" Well, because they look better that way. They would attract altogether too much attention if they didn't dress.—Norristown Herald.

A Chicago man paid $1,000 for a copy of the Bible. When he reaches the passage treating of swine you will hear from him. He will want his money back with a loud and angry wail.—Minneapolis Tribune.

Women are frightful gossips, we know, but if they were not their husbands would miss a great deal of entertaining information about the neighbors.—Boston Journal of Education.

Representative Beriah Wilkins tells of an Indiana granger who recently called on the president, shook hands with him vigorously and long, looked him over from head to foot, and then remarked: "Wa-al, wa-al! Here I hev ben votin' for presidents nigh onto fifty year, an' I'll be gollhasted if you ain't the first one I ever see! Jes' shake again, will yer?"

Most of the 150 persons killed by the eruption of the new volcanoes in Mexico are found to have died of fright. It is supposed that when the Mexicans saw the lava running down the mountain sides they mistook it for soap.—Detroit Free Press.

A student, being desirous of learning whether there was any truth in the statement that Seneca was addicted to drunkenness, opened an illustrated encyclopedia, and having found the name of the celebrated philosopher, the first object that met his gaze was a woodcut, beneath which were the words "Seneca, after an ancient bust." The ardent investigator, finding his worst fears confirmed, looked no further.—Chicago Herald.

'Twas Ever Thus.

A very little child looked wistfully at an older sister last evening.

"Did Mr. Flancy bring you any candy to-night?" she asked.

"No, Edith."

"Did he bring you any last night?"

"No; I will give you some as soon as he does."

"That's just it," cried the little creature, breaking into tears. "Now that you're engaged to him he doesn't think it worth while to pay you any more attention."—Philadelphia News.

Deceived.

Tramp—"Ain't every day a feller gits such comfortable places as this to take a snooze.

Workman—"Fears to me we've got most all the dirt out of it, it beats so light now.—Tid Bits.

How a Traveler Put It.

"Why, how are you, Billy?" said a traveling man, on meeting an acquaintance in Chicago. "I am indeed surprised to see you here. I thought you were living in St. Louis."

"I was until a short time since."

"Indeed? And how long have you been in Chicago?"

"I was resurrected last January."—Merchant Traveler.

A New Proverb.

Schoolgirls are not altogether devoid of observation. Some of them can also describe in fair English the results of what passes before their eyes. In a class of girls a few days ago the lesson was to state one proverb, from some prominent author. One of the pupils, instead of doing so, ventured an original essay to the following effect:

"The girl that has a dog can never lack friends."—Boston Transcript.

Trying to Reach a Verdict.

Court Officer—A message from the jury room, your honor.

His Honor—What do they want—further explanation of evidence?

Court Officer—No, your honor; they want a fresh box of cigars.—New York Sun.

Seashore Chestnuts.

Next summer they'll "spoon" by the sad sea waves,
And "smash" on the sandy shore;
And they'll speak of rest in the ocean's graves,
Over which the wild billows will roar.

The same old story'll be told once more;
He'll quote poetry, she'll coo like a dove,
They'll speak of this life as a terrible bore
Unless sure of each other's love.

I wouldn't father the lies they'll tell
In their flirting—a wretched old trick;
The "chestnuts" are old, but I never very well,
Will be sure to make the sea sick.
—Goodall's Sun.

EMIN PASHA AND HIS AFRICAN JOURNEYINGS.

New Interest Felt in the Matter Because of Tidings that the Pinsky German Doctor and Traveler is Safe—History of His Life Work.

The news not long ago received that Emin Pasha was safe, at a comparatively recent date, revives interest in his expedition, and that of Henry M. Stanley, who has gone to the rescue.

Dr. Emin (whom the caliph has now honored, though much too late, by giving him the title of pasha, the highest title in his power), is by birth a Silesian, and his real name is Schnitzer. He studied at Paris, Berlin and Vienna, then entered the Egyptian army as physician, and in 1870 was sent from Cairo to Khartoum, who was then governor of the equatorial provinces. Gordon Pasha very soon made Emin Effendi, as his title then was, the chief physician, and employed him in several diplomatic missions. Two of these missions took him to Uganda, that negro country on the southern shore of Lake Victoria Nyanza, the young king of which had ruled of which has lately made for himself such a terrible name through the massacre of the English Bishop Huntington and his fifty companions. At that time an officer of Gordon, contrary to the instructions of the latter, had entered with 300 men to the capital city of Uganda with a pronounced intention to occupy that country. Emin Effendi was sent after him with an order to withdraw, and by the eloquence of his declamation, in which he was so successful that not a shot was fired to disturb the peaceable relations then existing.

Of still greater importance was his success in inducing the king of Unyoro—Gordon's neighbor of Albert Nyanza, the lake into which the Somerset Nile enters from the east—to make a lasting peace, for it would have been an easy matter for this ruler to sweep Gordon and his little troop from the face of the earth. In acknowledgment of these services Gordon in 1878 appointed Emin governor of the Egyptian equatorial provinces, with the rank of bey. It was no sinecure which was thus conferred upon him, and his work was not made the lighter when Gordon went back after resigned his post as general governor of the Soudan.

The slave dealers who had so long been held down with iron rule again raised their heads; discontent showed itself on every hand, and it needed such men as Emin Bey and the Italian Gessi, who had at the same time been appointed governors of the Bahr-El-Ghasan, to bring order out of this general chaos.

In less than two years most of the stations were rebuilt and all, about forty in number, connected by means of a weekly postal service, and the district very thoroughly purified of the slave dealers. And while formerly the equatorial provinces had required four the administration an annual subsidy of £38,000 from the Egyptian treasury, the balance of £8,000. Yet the taxes had not been raised, only strict economy and the abolishment of grave abuses had brought about this result. Good streets had been made, wagons built and oxen inured to the yoke. The people have also taken to cotton and the preparation of soap and the collecting of cotton, rice, indigo and wheat been introduced.

With all this Emin Bey has found time to explore most minutely his dominions and the neighboring countries. In his capacity of governor he investigated the western countries of the Nyanza Nalga, there took new and correct surveys and gathered a great material of an ethnographical and linguistic character.

Again, in the first half of last year he made a second journey to the western shore of the Mwutan, crossed the lake to Kibero, on the eastern shore, and then returned to the Wadelai, a little to the north of this lake on the left shore of the Nile.

It is here that he has now for some time held his headquarters, having changed from Lado, which is further to the south, in hope of being able to communicate from there with the western coast of Africa. However, all the attempts made in this direction came to naught. Only the hostility of the negro population of Uganda, who, through fear of losing his dominion, will in no wise permit the passing through of Europeans.

Nevertheless, about January, 1886, with the Italian, Capt. Casati, was long the guest of Emin Bey, succeeded, by going around the territory of this much feared African potentate, in getting to Bedden, and thence on from there to Cairo by a more western route.

And in this certainly Emin Bey and the Italian explorer would also succeed, but Emin refuses to abandon the men intrusted to him, who have for so long a time stood by him in danger and peril, without wages or clothing, and with such poor fare, to the cruel fate which would certainly be inflicted on the leaderless troops by the slave dealers. He intends to conduct them through the southern country to the coast. At present, however, the way is obstructed. Neither Lenz nor Fischer have been able to make their way to him. What they have not succeeded in accomplishing Stanley, Joseph Thomsen and the Italian, Capt. Massari, are now attempting.

Burnishing the Brass Signs.

The brass sign with brass letters, which has become in recent years such a common decoside ornament on business houses, is a thing of beauty only so long as it is kept bright. When it is neglected and left exposed to the variations of our delightful climate get a chance at it, it speedily becomes anything but attractive to the esthetic eye. It takes more than the occasional appearance of a bright to make the brass sign shine. It takes polishing powder, hard work, patience and persistent rubbing.

Most of the brass signs on Broadway from the Battery to Madison square, which are polished at all, are nowadays polished by one man. He is employed by a sign publisher to scrubbing himself, but he takes a contract to keep each sign constantly burnished for so much a month. He employs four, and sometimes more assistants, and there is usually work enough to keep them more than busy every working day of the year. The original story of this unique occupation has retired from active labor himself, and his interest in the very comfortable profits earned by his assistants.—New York Commercial Advertiser.

The Sultan's Health.

A story is told of the importance with which the condition of the Sultan of Turkey is viewed by his people. A Turkish journal gravely printed one morning: "His majesty is slightly indisposed, having been bitten by a mosquito last night."

A WONDERFUL PRESS.

REFERRING TO THE DAILY JOURNALS OF CHICAGO.

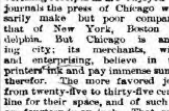
The Splendid Support Given to It by the Merchants of the Place—Comparatively Small Circulation Obtained—Reasons for This—Journalistic History.

[Special Correspondence.]

CHICAGO, May 30.—If there is anything distinctive about the newspaper press of Chicago it is its commercial character. I mean by this the magnificent support given it by commercial Chicago in the way of advertising—a support which enables the newspaper publishers to print journals of much greater excellence than would be warranted by the earnings which come more directly from the readers. There are only five English morning papers in Chicago, the third city of the country, and yet not one has a circulation as high as 50,000 copies daily. In New York, Philadelphia and Boston there are several journals which print nearly 100,000 copies each. Chicago is the center of a vast country, reached by a score of railways, and Chicago has a larger population than Boston; yet the combined circulation of the five English morning papers in the city does not equal that of the two leading papers of Boston, nor that of the two leading papers of New York. An explanation of this is easily found. Chicago is a young, immediately adjacent to this city, outside the suburban district, is but sparsely populated compared with the rural population of New England and the seaboard states. Moreover, the people of thriving western towns and mines rather depend less upon the metropolitan press than the dwellers in towns of like size and similar location as regards the nearest great cities in the east. The provincial press is probably better developed and more enterprising in the west, and in entering to and retaining the home constituency has been largely aided by the splendid service afforded it by The American Press Association, which as a purveyor of news rivals the older press associations, and as a provider of general reading matter is without a rival in the world. The second and greatest cause of Chicago's poor showing in the matter of newspaper circulation is the fact that three-fifths of the population here is of foreign birth or parentage, these people being largely non-readers of English papers. Still another cause worthy of mention in connection with the circulation of the morning press is the large circulation enjoyed by the evening press, one journal, a penny paper, selling since last June 100,000 copies daily. I have had good opportunity for judging the circulation of the papers of Chicago, and my figures run like this for the morning press:

Tribune	45,000
Herald	30,000
News	30,000
Times	20,000
Inter Ocean	17,000

This is a small output, individually and collectively; and had these papers only such advertising revenue as are enjoyed by western journals the press of Chicago would necessarily make but poor comparison with that of New York, Boston or Philadelphia. But Chicago is an advertising city; its merchants, wide awake and enterprising, believe in the use of printers' ink, and immense sums of money therefor. The more favored journals get from twenty-five to thirty-five cents an agate line for their space, and of such lines there are fourteen in an inch. That makes about $75 a column, and reckoning five to fifteen columns sold daily, and from thirty to seventy columns on Sunday, it is easy to see how great must be the revenue of the more pros-

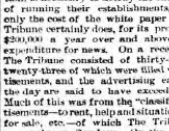


FAC SIMILES OF THE CHICAGO TRIBUNE AND HERALD.

perous journals. Undoubtedly The Tribune, News and Herald earn more money each year than is necessary to defray the entire expense of running their establishments, excepting only the cost of the white paper used. The Tribune certainly does, for its profits exceed $200,000 a year, after paying for all the expenditure for news. On a recent Sunday The Tribune consisted of twenty-four pages, twenty-three of which were filled with advertisements, and the advertising earnings for the day are said to have exceeded $14,000. Much of this was from the "classified" advertisements—to rent, help and situations wanted, for sale, etc.—of which The Tribune has a monopoly on Sundays. On the same Sunday the other morning papers were but little behind The Tribune, one printing twenty-eight pages, another twenty-four and no other twenty. Quite a number of trades firms expend for advertising an average of $1,000 a week, and one merchant has paid for several days in succession as high as $2,000. In the spring, more than $2,000 each Sunday for advertisements in the Chicago papers.

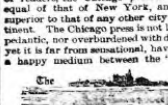
If any one thinks I am dwelling too much upon the financial side of the Chicago press, and saying too little of its news, editorial and literary sides, let them remember that this lavish use of the newspaper columns by home merchants is the chief support of the press of Chicago press, and that it is the revenue thus afforded which enables the publishers to make their papers what they are.

Notwithstanding the disparity in numbers of readers, the Chicago press is at least the equal of that of New York, and certainly superior to that of any other city on the continent. The Chicago press is not literary, nor pedantic, nor overburdened with dignity; and yet it is far from sensational, having reached a happy medium between the "everything



FAC SIMILES OF THE CHICAGO TIMES AND THE DAILY INTER OCEAN.

goes" and "goes like thunder" era of a dozen years ago, and the dull dignity professed by some eastern journals. Chicago papers are well written, though not always by any means. New York or Boston, and are much more discriminative and better balanced than those of the latter city. They are well arranged, is longer offered the eye with typographic monstrosities, nor the moral sensibilities with those things which should not anywhere be printed. It is a singular fact that the leading newspapers of cultured Boston are much more given to sensationalizing than those of Chicago, out here in the rowdy west. As newspapers, pure and simple, the Chicago journals may be said to lead all, not excepting those of New York. To my notion The Chicago Tribune excels any other paper in the United States as a newspaper. Probably it pays more money for telegraphic dispatches than any other, and all the matter which comes pouring in is edited with great care and diligence. As a purveyor of the news of a day—events occurring in all lands and all places reached by a telegraph wire—this paper is without an equal on the continent. "It has the space and the money, too." All great newspapers are great ma-



FAC SIMILES OF THE CHICAGO DAILY NEWS, MAIL AND JOURNAL.

chines; but they are something more than machines—they are living, and consciousness and quick perceptions and vast resources, mental and physical. In this The Tribune is a model. It has a personification, an eagerness, a timeliness, an appreciativeness of opportunity, and enterprise to improve it quickly and well, possessed by but few journals in this country.

What I am saying is not intended so much as praise for The Tribune as it is to describe the Chicago press by using The Tribune, its best example, as an illustration. The Tribune leads, but it has not all the excellence in town, or it would be head and shoulders above everything else in its field; and this it is not. The Herald has a good news paper, but it is too much of a machine. It is too perfunctory, handling well what comes to it in the ordinary course of business, but failing to have a personality and enterprise. It is as much unlike the old Times that Storey printed as it could be. Storey's Times was always turning something up, always showing enterprise. The modern Times does nothing of the sort. Storey used to send men as far as steam and stage coach could carry them if there was any prospect of their finding something good, particularly if it happened to be a rich scandal. It is a fact that The Times once had a professional scandal hunter who looked up everything of that nature, traveling from the Rockies to the Alleghenies in search of subjects for his salacious pen. The famous headlines of The Times have helped make that paper the most notorious in the country, are no more. In their place are seen the most commonplace headings imaginable. It is no secret that The Times is steadily going down hill. It is gradually losing in circulation, partly because of the machine made aspect and partly because of the high price of it. Instead of a dollar a year, The Tribune and Inter Ocean having come down to 3 cents. The Times is under control of the courts, and is likely to remain there evermore. The concern is one of enormous expenses, and is compelled to take advertising at lower rates than any other paper in town. It is still very popular in the country, where its chief strength lies. Under Storey The Times was the leading paper of the city; it was most talked about, had greatest influence and circulation. Now it is in fifth place. Could the famous editor whose name is still carried at the top of the editorial column, thus: "The Chicago Times, by W. P. Storey," look out from the grave upon his paper as it is, he would doubtless make a superhuman effort to rise from the grave and, setting foot in the office, discharge everybody from office boy up to the editor-in-chief. I do not mean to say that the famous old Times is a ruin; it is not quite so bad as that, but unless matters mend it soon will be. Newspapers once prosperous and powerful have undergone a good deal of sickness and hardship and still live; but I should not be surprised if in five or six years the splendid property were to be sold under the sheriff's hammer. There are plenty of bright men on The Times staff, but the absence of its controlling genius has given the dry rot a chance to creep in, and as a consequence the paper is losing its virility and originality. For the first time in its history The Times is now an administration journal. Mrs. Storey, the dead journalist's widow, inherited the controlling interest in the paper, and the remaining heirs are equally determined to keep her out. Meanwhile the paper is really controlled by Lawyer W. C. Goudy, the confidential Cleveland's confidential adviser in Chicago.

After a long struggle The Tribune managed to overcome the hold which The Times and the Herald had on the first paper of Chicago. It was not able to do this until about the time Editor Storey lost his mental grip. The Tribune now owns the bulk of the newspaper properties of the world. It is capitalized at $800,000, and the 200 shares are quoted at $10,000 each. At that rate The Tribune may be said to be worth $2,000,000. One hundred and ten compositors are required to set the type for The Tribune and 150 on Saturday nights. About 100 editors, reporters, etc., are employed in the editorial rooms of the city. The Tribune is owned by the Medill family, and is determined to have Blaine nominated for the presidency next year.

The Chicago Herald is a bright paper of the first class—that is, eight pages and high price. It was founded in 1872 by J. Young Scammon, then a very rich man, raised at $5,000,000. It was started with $5,000 in cash. So much for the man who started a newspaper. But it was not the paper which impoverished him. Previous to 1875, a year of hard times, many mortgages, etc., are responsible for his fortune's disappearance. The Inter Ocean grew out of The Republican, of which Charles A. Dana made a present to Joseph Medill, then a financial failure. Millions of dollars have been swallowed up in it, and even yet it manages to live only from hand to mouth and by dint of much drumming and bustling. It is heavily in debt, but its manager, William Penn Nixon, is a genius, and nobody doubts his ability to pull the paper through.

Undoubtedly the second journal in Chicago in point of influence and popularity is The Herald, a two cent paper, which is only seven years old, but which is a great credit to all of money. Not much money was ever spent on it, either, and its success has been almost phenomenal. It is The New York Sun of the west, lacking the Sun's weaknesses, but also failing to possess many of its prototype's strong features. The strength of The Herald lies in its editorial astuteness, its independence and at the same time its fairness, in its close attention to home news and gossip, its special features of local interest and its model business management. The Sunday edition of The Herald is probably the most popular paper in Chicago. The Herald was started by a coterie of young journalists, who made a success from a professional point of view, but lacked the money to carry their venture long enough to reap the reward. But this is nothing new in the history of newspapers. The Herald excels in the local field, and has a larger circulation in Chicago and immediate suburbs than any other morning paper.

The News is printed both morning and evening. Four years ago it was the work of some young men with a few thousand dollars capital, it is to-day earning a profit of $75,000 a year. The evening edition is the most extensively circulated paper in the city, and but few daily papers in the world excel it in number of copies printed. Each evening The News prints and sells about 115,000 papers. It is indeed a marvelous thing, as many publishers claim, that "everybody in Chicago reads The Evening News." The Morning News is also a successful journal. It is a singular fact that the morning and evening editions of The News, though owned by the same persons, are managed as distinct properties, financially and editorially. There is a complete wall of separation between each issue. The News is managed with energy, and, like The New York World, likes to attract attention by doing odd things in a conspicuous manner. An instance is a two page article, illustrated, on the subject of "Chicago rats," printed not long ago. The rodent re-pretties are here portrayed from every conceivable point of view. The News is also strong on detective work, and its editor is never so happy as when in command of a corps of bloodhound sleuth hounds, running down criminals, elections frauds or official thieves.

Ex-Postmaster General Hatton's Evening Mail is also a bright and newsy afternoon paper in the city, and, after a long struggle, is now able to pay its way. Mr. Hatton has made many friends in Chicago, and has won a great victory in establishing his paper in so short a time. The Mail has a circulation of about 60,000 copies daily. Like The News, it is sold for one cent. The Mail is straight Republican, and anti-Blaine.

The Evening Journal is the remaining English evening paper. It is the oldest paper in the city and caters to the wealthier classes, having a handsome, bright and newsy paper, with the best people of the city. It is sold at two cents.

There is not one straight Democratic paper in the city. The Tribune, Inter Ocean, Mail and Journal are Republican, the News Mugwump and the Herald and Times Independent. Both Herald and Times are newsy. The News, Herald and Tribune print pictures, each having an accomplished artist on its staff. About 800 printers find employment on the English dailies of Chicago, about 300 editors and reporters. The average earnings of the printers is $25 a week, and of the editors and reporters about $30. The two fast mail trains out of this city every morning at 3 o'clock carry about 25,000 copies of the Chicago dailies to the people of Illinois, Iowa and Wisconsin.

WALTER WELLMAN.

PARSON BROWNLOW'S PROPHECY.

His Son Tells How He Predicted the Rebellion.

[Special Correspondence.]

WASHINGTON, May 31.—Col. John Brownlow, the son of Parson Brownlow, the noted fighting parson of the rebellion, is now engaging in the to-day of some of the reminiscences published in Allen Thorndike Rice's book on Lincoln. During the conversation he spoke of the article by the artist Wyatt, who painted Lincoln and his cabinet and who describes a scene in which Mr. Lincoln, looking at a picture of himself over the mantel, spoke substantially as follows: "Parson Brownlow once said I am half negro, and if you look at that picture you might think so."

John Brownlow does not believe that Lincoln made any such remark. He says his father has frequently never said that Lincoln was half negro, for Parson Brownlow had long held a high respect for Lincoln, and he had known no more of him than his public actions to the time this incident is said to have occurred. Said Col. Brownlow: "There was a statement published over the south that Hamlin was half negro, and, to look at that portrait, one might think that he also had negro blood in his veins.

"My father continued Col. Brownlow "foresaw the war years before it occurred. When I was at college in Virginia the election of 1856 took place, and my father wrote me to return to the result. He spoke of the election of Buchanan and said: 'In four years from now we will have another presidential election. The Democratic party will divide and will take one candidate from the north and another from the south. They will be defeated and a Republican will be elected. The southern leaders will then declare that the cotton growing states will secede. I don't think Tennessee will go out of the Union, nor will the other border states. The north will not consent to coercion, but there will have a war of several years' duration.' All of this prophecy came true, and I would give $100 if I had in my possession that letter, the contents of which are photographed on my memory."

THOMAS J. TOND.

A New American Prima Donna.

CLEVELAND, O., May 30.—Miss Amelia Louise Groll, the young singer who is engaged by Carl Rosa to sing in London during the season, is a native of this city. She is scarcely 23 years of age and is a striking type of a blonde. She studied at the Cincinnati College of Music when 17, and at

MISS GROLL.

19 carried off the highest honors of that institution. She traveled for a season in an opera company through the western states in 1883. In 1884 she went to Paris and studied for the stage, at the same time singing in an English church. After a year of hard study she went to Berlin and sang acceptably at both places. During the last carnival at Rome she sang under the management of Zonfondi. She also sang in Bologna with success, the Gazzetta dell' Emilia, of Bologna, praising her voice and execution. Miss Groll has received many flattering offers to visit America, but it is not likely that she will return to the United States for several years. When her season in London expires, she is under contract to go on a South American tour. She will then return to Rome.

Explain This Fact.

New York has Italian restaurants, French restaurants and Russian, Chinese and Spanish restaurants, but there is not an Irish restaurant in all these blessed United States. Some great thinker should arise and explain this remarkable fact, for of course it is significant of something.—Kinderhook Rough Notes.

FISHERS FOR COD.

SECONSETT, A VILLAGE ON THE FURTHER END OF NANTUCKET.

How the Husbands and Fathers and Brothers Go Down to the Sea in Little Boats and Brave the Dangers of the Deep with Stout Hearts.

[Special Correspondence.]

SECONSETT, May 31.—Nantucket is somewhat remote at this time of year; but the fishing villages of Seconsett, at the further end of the island, eight miles from Nantucket town, is remoter. We have now no railway, no stage, no regular mail, no telegraph, no story, no newspaper, no hotel open, no church services on Sunday. Our store is opened for the public convenience on Mondays, Wednesdays and Fridays. Our population numbers about forty souls and a dozen. There are 120 empty summer cottages, all of which will be full of occupants in a few weeks.

Seconsett a few weeks hence will have a population of 500. Its twenty-odd boats will then be now out in the boats yonder cod fishing. You can just see them on the hazy ocean, one man to the boat—mere bits of black outlines on the water. The boat is right dot on it is the fisher. On a calm day that is all the Seconsett wife or maiden sees of husband or lover. They put off at certain times of the tide and in the little boat. Sometimes they are all afloat by 5 in the morning, and a beautiful picture it is to see those dots pulling on the broad sheet of golden radiance cast on the sea by the rising sun. Any man will pull these "dories" on the very edge and sometimes in the very crest of a big wave tumbling on the beach. I have had some boat experience on various seas, but I never saw such skillful handling of a boat by one man in ocean breakers. Watching his chance as he comes in on the crest of a line of breakers, he will put himself in the right place atop a heavy breaker and let it shoot him almost high and dry on the beach. A moment later the next wave, in whose bows, as they were shot forward, projected two or three inches over the bench they were being rolled on by the sea behind them. Consequently there are no records of these tumbling masses of water as are the mammoth seal in the breakers of the Farralone Islands off San Francisco. I have seen them anchor and fish on the edge of the Rip here where, as the long breakers rolled in, they were apparently all out of water one moment and under it the next. Foolish Rip is at certain times of the season a very Gulf Gate, roaring, foaming, seething. Compared to it the East river Hell Gate is a mere wash bowl of meaningless agitation. These dots on the Seconsett, as Race Rip and the "Old Man's Back," dreaded by sailors, and in whose sands lie many a vessel's bones. These sands are about a mile from the shore, and are only indicated now and then by the gleam of white foamy breakers. You see dimly a mast sticking out of water. The natives one morning about a week ago saw that mast gone from where now you see but one. They found out eventually they belonged to a three masted schooner from Bangor, loaded with lime. She strayed on the sands in a fog, and there she has ever been heard of the crew. They went down with her or were capsized in the breakers after taking to their boat. These events are related in summer. These shoals and sands are full of wrecks, some completely buried out of sight and many yards from where the sea is now pounding pebbles into sand.

The fishermen's cottages at Seconsett are maritime constructions on land. Some are over a century old. In cases the builder would not allow himself a window to more than a stern port. A man of Nantucket, who has lived on the sea seven-tenths of his life, can't bear to see daylight streaming through a window as big as a barn door. It looks insecure, and in case of a storm a sea might be slipped through such an expanse of window glass. He would go to work and black out. They came up or drifted in of themselves. As a result they narrow and widen in sudden and eccentric fashions. Since the village has become an unprofitable summer resort, it has been made to regulate them and make them behave themselves in something like town fashion. But the line will struggle like an old fashioned summer boarder. Sometimes the hen coop is at the front—sometimes the house. Then they've stuck names on every little gap between two cottages and called it a "lane" or "court." Every lane is only as wide as the size of a crow, and have yellow bodies and black wings. Forty or fifty years ago a German ship that had about 10,000 canaries on board was wrecked off Canapecky. These canaries, most of 'em, got away, and took to the woods. There were only common crows there before, but the canaries were such a success as bells on a Dago's jacket. They are beautiful birds, and sing bass. Tell you, a big flock of 'em, when they get into a tree in full song, would make a man think the Mighty curious thing to hear, and breaks a man all up the first time he hears it."

The crowd said they should think it would. I asked if a flock of canaries in full song or three times in a trip to Harlem, but when he leans forward in his seat and gazes at himself in the glass I see he is too much.

"It seems to be a disease with some. Many know their weakness, but seem powerless to stop the habit. They make all kinds of pretenses to themselves and others. They will fuss at his collar, another at his shirt stud, and a third will stroke his face and look intently at a pimple. A fourth smooths his hair and a fifth will look at himself from every place. Anything to make the people in the car think that he really cares nothing for his looks, but wants to be respectable—nothing more. Very strangely, few men who are not afflicted with the malady.

"Women, however, do not seem so anxious to see themselves, or if they do they conceal it so very adroitly that no one will get up before a mirror. When she does there's cause for it."—New York Sun.

The Ballet Girl's Ogle.

Those who take the pains to observe the chorus girls in the burlesque and comic operas say that the red eared sex is over. Taking the dance through the season, the small ones of the stage painted their ears bright pink. Their new affectation is called the baby stare. They are sure of nothing beyond the coarse grease and the shy dropper.

The operator of a pair of eyes opens them to their widest, fixes them directly upon a man in the front row and calmly keeps them there so long as circumstances will permit. Neither ogle nor wink is recognized by the cool orbs that employed in the infantile act. They stare and are of nothing beyond the coarse manifestation.—New York Sun.

BURDETTE.

Editorial Jealousy—Sleepy Deacons—Incubator Hatched Chickens.

"Yes," said Mr. Slimwit, as they were walking home, "I do enjoy the theatre; I once wrote a play myself." "Oh, Mr. Slimwit, he exclaimed, with genuine enthusiasm, "did you really, though? And what was it about, and when did you write it, and was it a success, and did I ever see it played?" "I don't know that you ever did," he said, in a slow, conscientious tones. "It was only a short, one act play; it was a play upon the word 'fair.' I rung in something about the fare people had to pay in the street car during fair. I cannot tell a lady what the editor called me, but I can never forget it. And not ten days afterward I saw that very same thing in his paper as original." "I believe all editors are jealous of other writers," said Miss Giddigirl, "because once an wrote an article nominating Mr. Cleveland for president, long, long before anybody else thought of him, and signed it 'Taxpayer'—that's pa's nom de plume; he writes all these articles signed 'Taxpayer'—and after election he went to find it on record, and the editor had had cut the whole copy of that paper out of the file, and said they never published a paper on the 5th of July; and everybody knows it is the 4th of July in the holidays and not the 5th; pa told him so, too, and the editor said if pa didn't get rooms in an icehouse he wouldn't keep through the summer."

"I don't see why you can't keep awake in church," said the pastor. "I am there as long as you are and I don't have to sleep half the time." "No," replied the deacon, "I've just sit down in the pew and let me preach and I'll bet a new organ you couldn't keep your eyes open ten minutes."

"You say you attended Texas for the Prohibition ticket. What peculiarity of your audiences struck you most forcibly?" "Well," said the missionary, "the chunks of clay and mud which they would throw, forcibly, just the eggs stayed by me the longest."

A French scientist, who divines character by a simple inspection of noses, says that "the Italian nose indicates a person who has a strongly colored nose of a uniform shade." This gives us a most accurate estimate of the character of the American tramp, whose noses, however, sometimes vary its uniform shade with season or climate. And yet he has never been accused of being quick. Perhaps it means that he is quick not to work.

"Where have you been all day?" asked Mr. Tret. "Down town," replied his wife. "Gone and taken another day off, eh; financial politics; I've been reducing the surplus." "You don't know anything about it," snarled the old man; "you're just like any woman that ever lived; you've been down town increasing the deficit, that's what you've been doing."

AN INCUBATOR'S OFFSPRING.

I am a lone, lone chicken!
Of artificial hatching;
A pilgrim in a desert wild,
By hapless fortune cruelly reviled,
From all relationships exiled,
To do my own lone catching.

Each patient smiled upon my birth
One day and gaudy morning,
And now the shades of hatred and mirth
To lonely me have little worth;
I am alone in the world.
An orphan without boroing.

Seek I my mother? I would find
A heartless percenator;
Deserted by her sire, rather—
Should children s'er be born to me,
By fate's most pitiless decree
My little brood should be
With never a grandfather.

And when to earth I bid adieu,
To seek a greater,
I will not be alone do,
Who go so join the ancestral crew,
For I will just be gathered to
My incubator. —Brooklyn Eagle.

Men-of-Warmen's Gossip.

"Speakin' of birds," said old Tom Topsail, "I can't say how, exactly, I came to be talkin' about English sparrows. If they was Mexican crow canaries, now, there'd be some sense to it."

Tom stopped, well knowing that he would be asked for an explanation.

"Why," resumed Tom, when the expected question had been asked, "crow canaries are birds that are about the size of a crow, and have the size of a crow, and have yellow bodies and black wings. Forty or fifty years ago a German ship that had about 10,000 canaries on board was wrecked off Canapecky. These canaries, most of 'em, got away, and took to the woods. There were only common crows there before, but the canaries were such a success as bells on a Dago's jacket. They are beautiful birds, and sing bass. Tell you, a big flock of 'em, when they get into a tree in full song, would make a man think the Mighty curious thing to hear, and breaks a man all up the first time he hears it."

The crowd said they should think it would. I asked if a flock of canaries in full song or three times in a trip to Harlem, but when he leans forward in his seat and gazes at himself in the glass I see he is too much.

"It seems to be a disease with some. Many know their weakness, but seem powerless to stop the habit. They make all kinds of pretenses to themselves and others. PATTI'S HOME LIFE.

HOW THE GREAT SINGER WHILES AWAY THE TIME.

The Rather Nomadic Existence Passed In Hotels and Palace Cars—Breakfast, Luncheon, Dinner—Signor Nicolini. "Laila Rookh"—Hostess and Friends.

There has been a great deal written and printed about Mme. Patti's home life, as far as the term can be applied to the rather nomadic existence led by the queen of song. As very few persons, however, have been privileged to note de visu the incidents of a prima donna's daily routine, the published stories have been rather interesting than accurate. The reporters and interviewers that have dealt with the subject at any length have had to depend, in truth, more upon their own imaginations than upon an abundance of facts. During Mme. Patti's sojourn in the United States, which may be taken as a fair specimen of her experience elsewhere, her days have gone by with something akin to conventual monotony.

Awakening toward 8 o'clock in the morning, the songstress takes a cup of coffee before of black coffee on the waiter. The next two hours that go by before luncheon—the French dejeuner a la fourchette—are whiled away with the canaries, the birds, and the dogs, Signor Nicolini appearing at intervals with a bit of gossip, a suggestion, or some startling intelligence apropos of a particularly long run of notes. The billiard room on the same floor is on the table, and Mme. Patti steps into the dining room and claims her share of fish and of one dish of meat, ending up with a bit of fruit. The meal is always served in the usual in its habitual form; the bread laid before her is cut into thin slices and baked until it is as hard as wood. She drives daily from 2 to 4:30 or 5 o'clock, and frequently is married on the carriage rolls through the park or up the road as far as Judge Smith's popular hostelry.

MME. PATTI'S DINNERS.

When Mme. Patti is to sing in the evening, she dines at 6 o'clock in the afternoon; when she is not to perform, dinner is served at 7. One of the singer's peculiarities is her habit to dine with la diva, and formality is avoided as much as possible. The menu is made up in the simplest manner, and woe to the cook if all its component parts are not prepared exactly to the queen's, but to the songstress' and to the tenor's taste. A great feature of Mme. Patti's dinners is the wine. It is thought in all that stage of events at which the pleasing Roman punch is habitually served. At the Windsor this marvelous compound is called "Laila Rookh," and for the benefit of the uninitiated is may be described as resembling the more widely known "Pending nesselrode," minus the fruit contained in the latter delectable concoction.

"Laila Rookh" is the single subject, outside of billiards, upon which Signor Nicolini waxes positively enthusiastic. His admirers will be glad to learn that despite his fat tendency to bilious attacks, his doctors have forbidden him to partake of his favorite delicacy with anything approaching self indulgence. At dinner Signor Nicolini drinks claret, but a oids white wines. As for Mme. Patti, two or three years ago her physician prescribed claret, and she has since been drinking rather impoverished blood. Just now no trace of anæmia are perceptible, and Mme. Patti having wearied of claret is permitted to indulge a little in white wine, but only sparingly. There is no such meal as supper in the Patti household, and by midnight Signor and Mme. Nicolini have retired.

MME. PATTI'S RECEPTIONS AND FRIENDS.

In days set apart for performances Mme. Patti never receives, and does little or no talking. When she is not to sing in the evening she receives visitors between 1 and 3 o'clock in the afternoon, and after dinner a little music of an out of the way sort, i. e., either playing, banjo solos and so on, by artists who can by no means be asked to meet la diva, is enjoyed by the hostess and her friends. The latter are not very numerous, but they are of long standing. Many of them belong well known to the Philadelphia and nearly all are connected with the world of finance. Mme. Patti has, practically, no professional intimates. At distant intervals she is called upon by some artist who has known her abroad, but it cannot be said that any close acquaintance exists between her and her brethren and sisters in art.

Nor does Mmes. Patti cultivate, as do most singers and actors, the society of journalists. Those whom she has known and liked for years are welcomed by their heads, but in an evening conversation with them and others there is no hint of the hostess' profession and no mention of experiences or triumphs—nothing, in brief, which could be utilized ores to supply material for a newspaper articles or for idle gossip. With her guests Mme. Patti prefers to converse in English, which she speaks with a pretty accent, and she and no other England or America. But she drops into French, Italian and German with perfect facility, according to the nationality of the party practicable. Mme. Patti delights to diffuse the belief that Signor Nicolini understands the vernacular, if he does not speak it. This belief, unfortunately, makes no effort to keep up his wife's well meant and innocent deception.—New York Sun.

Vanity of Men Who Travel.

"The mirrors in these cars," said an elevated brakeman, "are sources of much amusement to us. They illustrate the vanity of men. Everybody, of course, looks in the glass once in a while, but we have passengers who seem to be head over heels in love with their countenances. You can excuse a man whose vanity leads him to look at himself one or three times in a trip to Harlem, but when he leans forward in his seat and gazes at himself from every station I get too much.

"I've seen a man who had a pimple, and by the ones in a while, but we have passengers who seem to be head over heels in love with their countenances. You can excuse a man whose vanity leads him to look at himself one or three times in a trip to Harlem, but when he leans forward in his seat and gazes at himself from every station I get too much.

"I've seen to be a disease with some. Many know their weakness, but seem powerless to stop the habit. They make all kinds of pretenses to themselves and others. They will fuss at his collar, another at his shirt stud, and a third will stroke his face and look intently at a pimple. A fourth smooths his hair and a fifth will look at himself from every place. Anything to make the people in the car think that he really cares nothing for his looks, but wants to be respectable—nothing more. Very strangely, few men who are not afflicted with the malady.

1886 and 1887.

REPORT OF

P. SHERIDAN, COUNTY COLLECTOR

OF THE

COUNTY OF UNION,

UP TO

MAY 1st, 1887.

To the Honorable and Board of Chosen Freeholders of the County of Union.

GENTLEMEN: Your committee to settle with the County Collector would respectfully report that they have examined his annual report, which is herewith annexed, and have compared each disbursement with its accompanying voucher, and find the same correct in every particular, his bank book and his warrant of advance made to the sheriff, per resolution of the Board, having been submitted to the committee.

All of which is respectfully submitted.

ROBERT DARDIS,
WILMOT W. CHAPMAN,
JAMES T. PIERSON.

ELIZABETH, N. J., May 2, 1887.

To the Committee to Settle with the County Collector.

GENTLEMEN: I have the honor to submit herewith my annual report of the receipts and disbursements of the county from May 10, 1886, to May 3, 1887.

It was my duty as well as pleasure, on assuming the office of County Collector, in May, 1874, to change the form of these reports. Previous to that time only the *number and amount* of warrants were given; since that time the *number, names, amount and account* have been given of each item paid. As some fault was found last year that the law was not strictly complied with, at the suggestion of the Director and on consultation with the Attorney, I have this year added two columns, viz.: *Amount claimed* and *by whom or what claimed*. These two items, in all previous years, have always appeared on each bill or warrant. This adds very materially to the length and breadth of my report.

My thanks, gentlemen, are due you, as well as all the members of the Board, for the kindly feeling and support given me during the past year.

Respectfully submitted, P. SHERIDAN,
County Collector.

ELIZABETH, May 1, 1887.

INDIAN TERRITORY.

ITS FIVE SO CALLED CIVILIZED NATIONS AND OTHER TRIBES.

The Form of Government Among the Nations—Whites Who Marry Into the Tribes—Renters, Desperadoes, Miners, Negroes and Half Breeds.

There are Indians of all colors in the territory. Some are of the standard Indian color, a rich copper; others are of a brassy shade and these are half breeds, but there are half breeds also whose color is darker than that of a full blooded Indian; in such there is negro blood. Before the war of the rebellion and subsequent to it many of the Indians owned slaves and cotton plantations worked by them. There are some fine cotton plantations to-day near Eufaula, and many of the negroes who work on them and get paid for their labor picked cotton there before and during the war, and other it, too, for their food. Some of the Indian slave owners objected strenuously to giving the colored men their freedom, and are not satisfied yet that they received justice from the commissioners sent by as it seemed to be a matter of no consequence to the freedman. The latter has learned all about his rights since that time and insists upon getting them.

In addition to the five so called civilized nations—the Cherokees, Choctaws, Chickasaws, Seminoles, Creeks—there are a number of remnants of tribes in the territory. In all there are about 65,000. Gov. Perryman, of the Creek nation, is a very intelligent Indian. His complexion is very dark, and he is supposed to have negro blood in his veins. He is of stout build and medium height. He dresses in civilized garb, and has a couple of daughters who are handsome and fashionable looking enough to attract attention anywhere. Gov. Perryman can both read and write. Bushy Head, the principal chief of the Cherokees, has an intelligent half breed. One of his ancestors was white. Gov. McCurtin, of the Choctaws, is tall and rawboned.

FORM OF GOVERNMENT.

Each nation has a government not unlike that of a state. They have a council that might be compared to a state legislature. This council makes the laws. They also govern the governor's approval. The council can pass a bill over his veto by a two-thirds vote. Each nation has a number of schools, and these are reasonably well attended, though wealthy Indians generally send their children to the north for an education. There are two schools at Muskogee, and the Creek nation has an academy at Eufaula. *A railroad station at train time has all the attractions for the Indian*—the male—that it has for whites. Indian women, however, do not rush to see a train come in or go out and show no fear or eagers. Only white women do that, they say. Many of the Indian women who have white blood in them are handsome and clever, and not a few are rich as to white.

The white man who marries an Indian woman of the territory becomes an Indian so far as his rights and privileges are concerned. He can fence in all the land he wants, unless he wants too much. If he shows a disposition to fence in all the unoccupied land in the territory his Indian neighbors will not call upon him and appraise his improvements. They simply cut the fence down. He can, however, fence in a section—640 acres—and no one is allowed to settle on or use the land for a quarter of a mile distant from his fences. White men who marry Indians—the men who marry as a business venture—generally engage in cattle raising, and while they keep themselves in the territory they keep themselves in Texas or Kansas. Not all of them, however, for in addition to the shiftless white Indians there are several of the thrifty, go-ahead kind who make their homes where they have made their money.

Many Indian families bear names not owned by the ancestors who roamed the forest in the time of Christopher Columbus. There are O'Tooles, Flanigans, Shaughnessys and Murphys among the full blooded Indians. These names were given them by the Canadian trappers of the Hudson Bay company, the same men that named the Canadian rivers that runs into the territory through.

LITTLE MANUAL LABOR.

Few of the Indians do manual labor, a fact which accounts for the large number of renters in the territory. All ties used by the railroads that run through the territory are furnished by the Indians, who charge a royalty of ten cents per tie. Everything sold in the territory pays a royalty to the nation in whose territory the sale is made, and the money is spent for school purposes. The uncultivated land belongs to the nations, but not to individuals. Land cannot be sold by a person who desires to leave the territory. Only the improvements on it can be disposed of. All the nations raise cotton and corn except the Cherokees, who are north of the cotton belt.

The desperadoes of adjoining states often make the Indian territory a temporary abiding place. Even if they were allowed to do so these characters wouldn't remain in the territory long. The southwesters desperado grows loose without his whisky, and liquor is not sold or allowed in the territory. When any liquor is found within the limits the jug is broken and a spot here of grass tells the tale. Two bottles of rum were discovered here a few days ago by a marshal. He took the corks out of 10 half gallon jugs and stood the latter on the small end until the contents had leaked out of the animal and vegetable life in the immediate vicinity.

There are more hard characters at McAlister than in any other settlement in the territory. A mine is a favorite locality for men to hide in, and the miners here seldom take much pains to surrender to justice a fugitive who throws himself upon their mercy. The town has a population of 5,000, and a part of the surrounding country is considered in the limits. The miners are about equally divided between Anglish, Irish and Scotch. There are a number of Germans and Swedes and two half breed Indians. The man can make from $4 to $5 per day in the busy season, and live on $10 a month during the dull season, if they care to do so, for they can still all the ground they want. They are not a saving lot, however, and when they make a big month's wages it goes in a short time. They attempt all sorts of dodges to bring men into the territory, but don't often succeed.—N. Y. Times.

COUNTY COLLECTOR,

FROM

MAY 1, 1887, to MAY 10, 1887 (inclusive).

To the Board of Chosen Freeholders of the County of Union.

GENTLEMEN: Your Committee to settle with the County Collector beg leave to report that they have examined the Supplementary Report of the County Collector (which is hereby annexed) from May 3d to May 10th (inclusive), and have found the disbursements, and the cash on hand correct. A certified check is also presented for the balance due the County.

All of which is respectfully submitted.

Committee. {ROBERT DARDIS, WILMOT M. CHAPMAN, JAMES T. PIERSON.

ELIZABETH, May 10th, 1887.

To the Committee, to Settle with the County Collector.

GENTLEMEN: Herewith I present my Supplementary Report of the receipts and disbursements of the County of Union, from May 1st, 1887, to May 10th (inclusive), and submit a certified check on the National State Bank of Elizabeth, for the balance due the County as shown by the Report.

All of which is respectfully submitted.

P. SHERIDAN,
County Collector.

ELIZABETH, May 10, 1887.

A BLIGHTED RACE.

WOMAN'S LOT IN THE PENINSULAR VILLAGES OF MASSACHUSETTS.

Beautiful Creatures at 16 and Old and Haggard at 30—A Life of Continual Suspense and Anxiety—The Only Future Expected.

"If there was ever a blighted race of women," said a gentleman of this city, recently returned from a visit to Cape Cod, "it exists in the peninsular villages of Massachusetts, which depend on the fisheries for the support of their inhabitants. Nowhere else in all New England will one ever see so high an average of female beauty, especially in symmetry of form and freshness of complexion, but it will not take one long to discover that this girlish beauty and freshness, while unusual and unexpected, is also in its duration very brief.

"The change produced in these girls by the lapse of a few years is painful to observe. No matronly graces are to be seen among them after their girlhood days are past. That charming middle stage of womanhood, of ripe blood, between the freshness and buoyancy of the girl of 20 and the woman of 35 or 40, is absent. The heightened color of the cheeks is gone. The eyes are sunken in what seems a constant look of sadness and anxiety. Gray hairs in heads over which a score and a half of years have scarcely passed, and deep lines in faces which should be free from the trace of care for years to come, are rather the rule than the exception. These women, besides suffering from all the inevitable sorrows which fall to the common lot of mankind, in what station she may be placed, have an added intense and perpetual sorrow all their own. Theirs is a life of continual suspense and anxiety, which is almost impossible to be embittered by an overwhelming grief.

"LACK OF MATRONLY BEAUTY.

"The most obtuse observer needs not ask the cause of this lack of complete matronly beauty among the women of these fishing days open with the greatest promise of a superb physical womanhood. The cause suggests itself at once to one who sees the congregations of these people on the beaches and in the quiet streets of the sleepy villages. He will notice occasionally a feeble old man among them, generally supported on the arm of some female companion, but rarely, if ever, carried on her other arm a chubby faced child of lusty lungs. But in these groups, or anywhere around the village, the observer will look in vain for the appearance of mate between the tottering years of these relics of the past and the prattling days of babyhood. It is the fishing season, and there are no men or boys on shore. The smacks are tossing on the treacherous waters of the fishing banks, and their return, if they return at all, is as uncertain as the winds. The whole village forms the great subject of conjecture and suppression among the villagers. Husbands, sons, fathers, brothers and sweethearts are somewhere on the ocean. In what section she may be placed, have an added intense and perpetual sorrow all their own. Theirs is a life of continual suspense and anxiety, which is almost impossible to be embittered by an overwhelming grief.

"LACK OF MATRONLY BEAUTY.

"The most obtuse observer needs not ask the cause of this lack of complete matronly beauty among the women of these fishing days open with the greatest promise of a superb physical womanhood. The cause suggests itself at once to one who sees the congregations of these people on the beaches and in the quiet streets of the sleepy villages. He will notice occasionally a feeble old man among them, generally supported on the arm of some female companion, but rarely, if ever, carried on her other arm a chubby faced child of lusty lungs. But in these groups, or anywhere around the village, the observer will look in vain for the appearance of mate between the tottering years of these relics of the past and the prattling days of babyhood. It is the fishing season, and there are no men or boys on shore. The smacks are tossing on the treacherous waters of the fishing banks, and their return, if they return at all, is as uncertain as the winds. The whole village forms the great subject of conjecture and suppression among the villagers. Husbands, sons, fathers, brothers and sweethearts are somewhere on the ocean. In what section she may be placed, whether steering for still more distant waters, perhaps struggling for life among the waves.

"Fair women hope warm in many an anxious woman's heart; the howling northeaster fills it with doubt and despair. Constantly watching by day, waking in the night to listen to the moaning of the wind, perhaps it may be the roaring of the dreaded tempest or merely the moan of the surf on the beach, is it any wonder that the torture of mind and heart and body which is the ordeal of forty that must follow this perpetual suspense and longing destroy the fountains of youth and beauty in these patient, suffering women, and place on them the marks of age while they are yet young?

"Yet the girls grow up with but one thought of what their future lot will be, with but one object in view, to find a husband of fishermen are based. Go among any group of these bright girls, in any of the villages of the class I am speaking of, and you will find that nine out of ten of them are looking forward to union with some one who will spend his life fishing in the summer and coasting in the winter. The idea that there might be any other future for them than this is to come to them as fishermen's wives, or that the life of a fisherman's wife is anything different from that the natural existence of married life, never seems to occur."—New York Mail and Express.

Catching a Pickpocket.

One time I was in the Erie sheds waiting for a train, when I heard a terrible noise coming from one of the emigrant cars, which apparently was full of women. I stood with the detective, and heard him call up his lieutenant with, "Pat, there is a pickpocket in that car, and you know me, so I will go away with the party of some one of these emigrants. You go in the further end of the car, and when you get in lock the door. I'll goin this way, and we'll have a scrimmage." The instructions were obeyed. Once in the car Mr. M. at once learned that an old German woman had lost her last stiver, which she had in a pocket full of rags. Mr. M. disguised as an emigrant, Mr. M. at once recognised the thief. Placing his hand on the fellow's shoulder, he said: "Give the woman her money." Protestations of innocence followed, when, poking around under the seat, Mr. M. found the missing purse just where the thief had thrown it. Picking it up and handing it to the owner, Mr. M. told her who had stolen it and told her that she and her female companions had no permission to go for the offender and do with him anything they wanted to, that he could kill him, and they did go for him. They pulled his hair, scratched him and gorned him all over with saliva until he looked as if he had been specially prepared for an anacondas swallowing. Thus punished he was released from the car, when he darted for the New York side. There were no arrests, no tedious arraignment before a police court.—Cincinnati Times-Star "Rambler."

The Wife Was Delighted.

"And do you love me, Jack?" said he ever, John" the wife asked of her somewhat testy husband, after they had made up subsequent to what is usually termed a "little spat.

"Why, of course I do, and better."

"Are you sure, darling?"

"Sure! Of course I am. Hang it, don't I tell you so?"

"Yes, but you are not deceiving me?"

"Certainly not. What do you want to aggravate a man for?"

"I'm not aggravating you."

"Yes, you are. And I tell you plainly that I love you madly, and if you ask me that question again I'm blessed if I don't go out and stay out altogether. I love you dearly, and one should be sure of it without your asking me if I love you, when I do to distraction! Get out, you fellow. You are nothing but a darned fool, anyway."

Wife subsides, highly delighted.—Boston Courier.

When a Virginia mountaineer wants a chew of tobacco, this according to one who has been there) is the way he asks for it: "Stranger, gimmee a chaw yer black fat chawin tackaker; that is, if yer chaw. I dunno if yer chaw or no; do yer chaw?"—Washington Critic.

"The handsomest and quickest lady" is the way an eastern Jenkins described one woman.

BILL NYE.

He Makes Trial of His Hand as a Localizer.

ASHEVILLE, N. C.

The following constitutes the items of great interest occurring on the east side among the colored people of Blue Ruin:

Plum Beasley's house caught on fire last Tuesday night. The red devil was caused by a defective flue, for the fire caught in the north wing. This is one of Plum's bon mots, however. He tries to make light of it, but he would not have been much at all worse if white tirch, and when he got a big dose of hickory at the same place last week it was a dark one but didn't notice the difference a bit. Plum says that he don't know how the fire had allowed. In the midst of a pleasant ; ay of conversation gas collected in the wood and caused an explosion, which threw a piece of live coals on the bed. The bed was soon a solid mass of flame. Mr. Beasley is still short two children.

Mr. Granadine Hicks, of Boston, Mass., who has won deserved distinction in advancing the interests of Sir George Pullman, of Chicago, is here visiting his parents, who reside on Upper Hominy. We are glad to see Mr. Hicks, and hope he may live long to visit Blue Ruin and propitiate up and down our streets.

Miss Rosola Cardinan has just been the recipient of a beautiful pair of chaste carbobs from her brother, who is a night watchman in a jewelry store run by a man named Tiffany in New York. Rosola claims that Tiffany makes a right smart of her brother, and sets a heap by him.

Whooping cough and horse distemper are again making fearful ravages among the better class at the foot of Pizen Ivy avenue.

We are pained to learn that the free reading room, established over Amalgamation Brewery store, is closed on account of the high fee. Blue Ruin has clamored for a free temperance reading room and brain retort for ten years, and now a ruction between two of her best known citizens, over the relative merits of a natural pair and a doctored flush, has called down the vengeance of the authorities and shut up what was a credit to the place and a boon to the young men who could come night after night and kind of complicate themselves at. There are two or three men in this place that will bully us now everything we say or do, and they have perforated more outrages on Blue Ruin than we are entitled to put up with.

There was a successful dologs at the creek last Sunday, during which baptism was administered to four grown people and a dude from Sandy Mush. The pastor thinks it will take first rate, though it is still a little to cold.

Sherman Hyatt has a letter last Friday from his son Gladstone, who filed on a homestead near Porcupine, D. T., two years ago. He says they have had another fine time on the prairies of Dakota since there for which Dakota is so justly celebrated. He thinks this one has been even more so than any of the others. He wishes he was back here at Cain Hollow. Where a man can step out doors for half an hour without getting ostracised by the elements. He says they brag a good deal on their ozone there, but he says that it can be overdone. He states that when the ozone in Dakota is feeling pretty well and humping itself and curling up sheet iron roofs and blowing trains off the track, it is time to lie down and retire to himself, with the outer end fastened to the door knob, before it is safe to visit his own ben house. He says that his nearest neighbor is seventeen miles off, and a man might as well buy his own chickens as to fool his money away on seventeen miles of clothesline.

It is a first rate letter, and the old man wonders who Gladstone got to write it for him.

The valuable ecru dog of our distinguished townsman, Mr. Edmund Babbitt, was seriously impaired last Saturday morning by an east bound freight.

He will not wrinkle up his nose at another freight train.

George Wellington, of Hickory, was in town the front end of the week. He has accepted a position in the livery, feed and sale stable at Statesville, in this State, with George.

Gabriel Brand met with a sad mishap a few days since while crossing the French Broad river, by which he lost his leg.

Any one who may find an extra leg below where the accident occurred will confer a favor on Mr. Brant by returning same to No. 00½ Pneumonia street. It may be easily identified by the fact that it is made of an old pickhandle and weighs four pounds.

J. Quincy Burns has written a war article for The Century Magazine, regarding the battle where he was shot. The article he aims to describe the sensations of a man who is ignorant of physical fear and yet yearns to have the matter submitted to a committee of investigation. The cause of his efforts in trying to find a suitable board of arbitration as soon as he saw that the enemy felt hostile and eager for the fray.

The forthcoming number of The Century will be eagerly snapped up by Mr. Burns' friends who are familiar with his pleasing and graphic style of composition. He describes with wonderful power the sense of utter exhaustion which came over him and the feeling of bitter disappointment when he realized that he was to be left out of participating in the battle and too fatigued to make a further search for suitable arbitrators.—Bill Nye in Boston Globe.

Too Much Lamb.

There is a marble lamb on the tombstone of an old Galvestonian, and when an old friend saw it for the first time he exclaimed:

"How appropriate! Was he of a gentle disposition?"

"Whew! I guess not. He would shoot in a minute, but he was never overfed himself on spring lamb and green peas. That's what killed him, I reckon. Too much spring lamb and mint julep will get away with the best of us.—Texas Siftings.

Preparing for the Worst.

Gentleman—You have a nice cure here.

Milliner—Yes; it's very nice since we got it all fixed up for our Easter opening.

Gentleman—I would like to purchase a business of that kind if I could obtain it on reasonable terms.

Milliner—For yourself or a friend?

Gentleman—For myself. I have a wife and six daughters, and it's almost Easter.—Pittsburg Dispatch.

Anticipation.

While the sap is slightly starting,
And the Lenten times departing,
While about the slightest venture is preparing to emerge,
The musings of the maiden
Are with visions laden,
With the swinging of the hammock and the sounding of the surge.

She judges twilight flirting
An amusement most diverting,
With its foolish conversation so incessantly regewed,
With the evening sun descending,
She dedicates to watch the blending
Of the verdure of the landscape with the verdure of the dude.

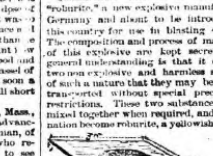
Her fancy dwells with flowers
In the shade of pleasant bowers,
Where the fairy footed summer winds most sportively make sport,
With the verdicles and brambles
Shall suggest romantic rambles
Through the solid Druidic woodland or the pages of Lucilla. —New York Graphic.

SCIENCE AND PROGRESS.

AN AUTOMATIC TOLL COLLECTOR AT TELEPHONES.

A French Scientist Tells How to Descend Into Wells Without Accident from Suffocation—The New Explosive, Roburite, for Use in Blasting.

Considerable interest is manifested in "roburite," a new explosive manufactured in Germany and about to be introduced into this country for use in blasting operations, before the general introduction of manufacture of this explosive are kept secret, but the general understanding is that it consists of two non explosive and harmless substances, of such a nature that they may be stored or transported without special precautions or restrictions. These two substances may be mixed together when required, and in combination become roburite, a yellowish substance.



EXPERIMENT WITH ROBURITE—FIG. 1.

Industries, in an illustrated and descriptive article on the subject of this new explosive, makes the following statements: Intense heat is necessary to explode roburite. In order to prove this the explosive, in recently conducted experiments at Manchester, England, was placed between two plates, which were freely rubbed together and lowered, until a certain quantity thereon upon a fire was consumed without exploding.

EXPERIMENT WITH ROBURITE—FIG. 2.

In order to obtain an idea of the explosive effectiveness of roburite, quantities of the explosive were placed on a plate of the very best steel, at the point marked A in Fig. 1, which shows the state of the plate after the explosion. The plate was 3 feet square, by ¾ inch thick, and a bulge of about 1 foot diameter and 2½ inches deep was caused by the explosion. Twelve ounces of the explosive were then placed at A, Fig. 2, on a cast iron plate, 6 inches thick, and weighing nearly two tons. After the explosion the plate was found to be broken transversely, in the manner shown in the engraving. Unlike dynamite, roburite is said to be in no way affected by varying temperatures, and if duly protected against dampness, it may be kept for years in any climate, without its efficiency becoming in any way impaired. It is also claimed by the manufacturers that roburite has an explosive force greater than dynamite by at least 25 per cent.

In exploding roburite does not produce noxious gases, and, therefore, may be used in coal mines and quarries, as the gases given off by dynamite often necessitate the stoppage of work, in some cases for a considerable time. This new explosive is applicable for use in mines and quarries, and for torpedoes and blasting operations generally.

Descending Into Wells.

M. Grohaut read a paper recently before the Paris Biological society on "The prevention of accidents from suffocation while descending into wells." After referring to the cause of the suffocation, namely, carbonic acid gas and the well known expedient of first lowering an animal into the well, he goes to the following means for ventilation: A stovepipe ten or twelve feet longer than the well is deep is to be secured by wires in the axis of the well; a grate on which is to be placed charcoal is then to be placed around this pipe at the level of the ground, and a second pipe, larger than the first, is then to be placed upon the grate, with the free end at the side, and on the ground, and between the two pipes a fire is to be built. The inner pipe being heated, a current is created, resulting in the ascension of the impure air of the well and its replacement by fresh air from without.

Collecting Toll at Telephones.

An automatic toll taking device has been invented to be attached to telephones at public or pay stations. The apparatus is so arranged that the telephone will not operate until a coin of certain size and weight dropped into a slit in front acts upon a switch, thereby making electrical connection between the transmitter and the line wire. The act of hanging the receiving telephone, after use, in the place provided for it, closes a circuit through a bell and releases the switch lever, thereby breaking the electrical connection and "setting the trap" for the next user.

New Method of Platinizing Metals.

In this new method the metallic object is covered with a mixture of borate of lead, oxide of copper and spirit of turpentine, in admixture to a thickness of from 250 to 330 degrees. This deposit, upon melting, spreads in a uniform layer over the object. Then a second coat is laid on, consisting of borate of lead, oxide of copper and oil of lavender. Next, by means of a brush, the object is covered with a solution of chloride of platinum, which is finally reconverted at a temperature of not more than 200 degrees.

The platinum adheres firmly to the surface and exhibits a brilliant aspect. If the deposit be made upon glass it has been found will have a frosted appearance. Platinizing in this way costs, says Le Genie Civil, about one-tenth the price of nickel plating.

Cowboys' Cure for "Loco" Poisoning.

Dr. Wilcox, of Washington, D. C., says in The Medical Record that the cowboys of Idaho treat animals affected with "loco" poisoning in the manner that the tails of the affected animals. The paralysis is due to congestion of the spinal chord, the posterior parts of the body being first affected. The plants which are chiefly responsible for causing this poisoning are oxytropis lambertii, astragalus mollirimus, and possibly others of the leguminosae. The cowboys call these plants "larkspur," although according to botanists the larkspur is not found in their line of march, nor at the season when loco poisoning occurs.

Imitating Ebony.

Ebony may be imitated on wood by first painting with a 1 per cent. solution of sulphate of copper. When perfectly dry the wood is painted over with a liquid consisting of equal weights of aniline hydro-chloride and spirits of wine. The blue vitriol acts on the aniline and forms nigrosin, a black which cannot be affected by acids or alkalies. A lustre can be added by coating with simple copal varnish.

GIVEN WAY TO THE CABLE.

Horse Cars Going Out of Fashion the World Over.

[Special Correspondence.]

SAN FRANCISCO, March 26.—Nearly all the horse cars in California have given way to the cable cars. And although the inventor of the cable car began his work purely and solely as a matter of sentiment and for the sake of the suffering brute, his achievement in the hands of cold blooded companies has long since passed out of the domain of sentiment and is established among the solid enterprises of the age. Street car stock, which was a drug in the market a few years ago, and by the substitution of cable cars, advanced to par; and the dominion of the work is widening out to all parts of the world. It has taken possession of Australia, New Zealand and Chicago. In this latter place the cable is laid four and five feet deep, so as to be beyond the reach of frosts. It is also to be noted that the cable is heated by steam; and thus the snow is melted.

Chicago is ahead of New York in this, as in a great many other things. And I try to call the attention of folks here to the most humane of all good men to fast horses. Henry Bergh cannot afford to have 10,000 horses delivered on his doorstep, and the public streets of his great city when there is such an opportunity to let them rest or enter upon some higher employment. It was only such money makers as queens who patronized the horse in New York. The horse that Job described had never yet bowed his proud and noble neck to the yoke. He was never known to draw burdens of old time. He was his master in battle, and who was truer than he!

Go to Chicago and see our California cable cars in operation there. They make the line run on the two miles an hour in the less crowded streets. Where the streets are crowded they make only six or eight. Accidents? How often where horses are used? Because your cable never becomes frightened and unmanageable. I have seen as many as sixty persons all comfortably seated, on a single cable car in Chicago. The gripping arm of the cable car stands at the head and in between a double row of people sitting back to back. All this space is taken up by the horse and his driver's board and dash of the old fashioned and cruel way where horses are used. And then the litter and dirt from the thousands of your car horses used daily in a city! And, oh, the cruelty! the cruelty!

Topography of Dakota.

[Special Correspondence.]

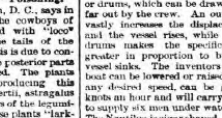
YANKTON, March 26.—A curious feature of the topography of Dakota is to be found in the fact that the course of some of the longest rivers is apparently the result of mere accident. For instance, follow the Missouri from Sioux City to Yankton, a little east of Yankton, we find the rise so gentle that the stream has no perceptible current, and 80 miles north of here it comes so near flowing into the James river that it seems to rise in that body of water. In fact it bends 50 miles west of it, and within canshot east of it. Both run eastward but the James river is 1,000 miles the longer together till they reach latitude 46.30 degs., where the Shyenne again turns east and then north-east to the British line, and the James river is said to be the longest non-navigable stream in the world. At this point its course is still in a wide trough; but some eighty miles north of here the water reach the summit level from which the streams flow in all directions. From that level the slope is gently westward to the fertile valley along the northern boundary of Dakota and Montana. Enthusiastic ranchers describe all that valley as the finest strip of land in America, and though not yet surveyed or open to preemption, it is said that many of the settlers are even to the head of Riviere de Lacs. The universal testimony is that the climate is milder by at least ten degrees than it is 200 miles southward, thus drying winds in March remove the snow so early that farmers sow wheat while the snow is still heavy on the line of the North Pacific.

Another curious variation in the degree of cold at adjacent places on the same parallel. Thus at Duluth the average is at least five degrees warmer than at Jamestown, and 100 or 120 miles northwest of this place it is warmer still, the accepted explanation being that the "Chinook winds" from the Pacific flow through the low passes in the northern section of the mountains and thence carry some of their warmth down along the eastern base of the big coteau. Jamestown is in a sort of trough; but it is colder here than it is either to the east or northwest, and it is the universal statement that one does not suffer here as much as in Chicago. "It's so dry, you know," is the explanation.

The Nautilus.

[Special Correspondence.]

WASHINGTON, April 5.—As fast as one class of torpedo boats is invented to be armored vessels another perfects torpedoes and other destructive engines. Scarcely is a gunboat paraded as invincible when a new torpedo is announced as being on the point of perfection that will cause the gunboat to "walk the plank" and disappear with a gulp. The eyes of England are on us, of course, and decidedly their most wonderful achievements in the line of naval warfare are the product of the past year. An engraving of the Nautilus, a submarine torpedo boat lately completed by Messrs. Fischer & Pearsall, of London, is here presented. The principle of the thing is the invention of Mr. Andrew Campbell, but the practical application of it in this case is due to the ingenuity of Messrs. Healey and C. E. Lyon, who designed this boat.



THE NAUTILUS.

The name gives us a hint of Mr. Campbell's idea. As the nautilus and other deep water creatures rise or sink by expansion or contraction of air, so he designed the torpedo boat to do. In the hull of a water tight vessel are placed metal cylinders or drums, which can be drawn in or projected far out by the crew. As these are drawn in or vastly increases the displacement of water and the vessel rises, while drawing in the drums makes the specific gravity much greater and the vessel sinks. So with the vessel sinks. The inventors claim that their boat can be lowered or raised at will and at any desired speed, can be propelled at ten knots an hour and will carry parts or enough to supply six men under water for three days. The Nautilus is cigar shaped, 60 feet long and 8 feet wide amidships and built of steel three-eighths of an inch thick. The motive power is in storage batteries, working electric engines, which run twin screws without noise. They claim that they can go around a large ship and fasten a torpedo to the bottom of her bottom and at what hour of day or night they wish, and in case of accident undip the ballast weights instantly and come to the surface like a cork. If the experiments now making prove successful it is expected that the British government will at once order several such vessels of various sizes. Full length and cross sections are shown in the cut.

COSTLY STAGE FEVER.

AMATEURS WHO PAY WELL TO APPEAR AMONG PROFESSIONALS.

They Spend Large Sums on Costumes for the Privilege of Speaking Half a Dozen Lines—Drawing Friends to the Play.

In one of the most popular theatrical productions of the season there is an actress who played a minor part—she had barely ten lines to speak—dressed the part very richly. Her costume was a perfect fit, and of rich material; and she wore a profusion of jewelry, not that of a court lady, and the rich dressing was not inappropriate. But I wondered how the manager could afford to furnish so expensive a costume for a minor role. Happening in his office soon afterwards, I asked him how much the dress had cost him.

"Not one cent," he replied. "On the contrary, she pays me $10 every night she appears."

"That is to say she furnishes her own dresses and pays you a salary?"

"Exactly. But I engage the woman who is stage struck, and is therefore willing to pay me for the privilege of appearing on my stage."

"If there were many women like her the manager of a first class theatre would always count on at least one source of income. Even an unsuccessful play wouldn't be wholly unprofitable. But I suppose such women are few in number?"

"Look here," said the manager, opening a book and turning over several pages covered with names, "I could fill a dozen more of these pages with ladies who are willing to act for nothing, and the majority of them so anxious to appear on the stage that they are ready to compensate me for the privilege during the time they appear at my theatre."

"So that if you could fill your cast with those willing to pay you, you could make a small fortune each season?"

WOULD NOT RISK IT.

"Yes; as long as people would come to see them act. But I'm afraid the audiences would be so slim that these rich amateurs would no longer consider it a privilege to play at my theatre."

"Then you wouldn't risk casting any of them for a leading role?"

"Not with all their wealth. But the beauty of this little arrangement is that these people are not over ambitious. Give a woman of this class a character which requires rich dressing and she is satisfied, even if she has but a few lines to speak, or only stands among the super ladies. It is a very easy matter to suit them. Any small theatre, you know, are for court ladies and the like. They have to be expensively dressed. These are what my amateur ladies delight in. I'll give you a case in point. The last play but one had a seven line part which had to be richly dressed. I suppose the costume of the amateur who played it must have cost $2,000 or more, for it was a regular show for her. She wore many thousands of dollars' worth of jewelry. She came to the theatre every night in a private carriage, went on the stage, got off her seven lines and then went home. There was no advantage to me of employing her. She paid me for coaching her in her part a couple of weeks before we put the play on. I was in a regular state of fever while she [illegible] she saved me the expense of buying a costume, and, after all, she did the part better than most of the professionals I could have got for the money."

"But aren't these advantages offset by the trouble of drilling them?"

"Why, they don't give me so much trouble as professionals. They're as pliable as putty. Even when they pay me in good round sums they consider I'm doing them such a favor in allowing them to appear with my company that they are willing to comply with every request and dare not air any notions of their own."

"Are they sometimes to act then the duty offer of their own accord to pay you for the privilege?"

HOW IT COMES ABOUT.

"It usually comes about as it did yesterday. A good looking woman comes to me and says: another. They hesitated and looked at each other as each wanted the other to speak first, and then the mother asked me if I couldn't find room for her daughter to appear in small parts. I told them I was sorry, but my salary list was full. 'Oh, she doesn't want a salary,' exclaimed the mother. 'We're willing to pay for the privilege of having her appear on your stage.' She mentioned a good sum, and I've put it down opposite her name. I think of sending for her for our next production. I'm a firm believer in the plan that we're about putting in rehearsal that ought to be dressed well, so I think she'll suit."

"Will you have other amateurs in the same play?"

"I will have a young fellow, but no other girl. You can't very well employ more than one of these amateur women in a play, because while they are willing to act in a minor role, each wants the best minor role. One of them wouldn't play a seven line part if the other had been cast for a ten liner."

"Do you engage these women by the week?"

"Very often, but not always by any means. As you see, in this book some names have no amounts set opposite them. These are the applicants who are willing to go on for nothing, but don't pay me for letting them act. The others are willing to pay me per week the amounts opposite their names. You might think that those who aren't willing to pay me stand no show of being sent for. But that's not the case. Often some among them may be so pretty as to make it worth while to take them for small parts which don't require handsome dressing. Those which do require fine dressing I give to the women who are able to pay me. I have expensive dresses dresses needed the higher I go on my list, because I think that those who can afford to pay me highest can afford to spend the most money on the stage."

"Do you employ the same amateur to the end of the play's run?"

"Oh, no. Rarely longer than a couple of weeks. I change the cast until I find—Excuse me, that's a message from the box office—that she has drawn all her friends to the play. Then off she goes and another takes her place."—New York Mail and Express.

A Horse's Carefulness.

An old cavalryman says that a horse will never step on a man intentionally. If a man standing order with cavalry that should a man become dismounted he must lie down and be perfectly still. If he does so, the entire company will pass over him and he will not be injured. A horse notices where he is going and is on the lookout for a firm foundation to put his foot on. It is an instinct with him, therefore, to step over a supine man. The injuries caused by a runaway horse are nearly always inflicted by the animal knocking people down and not by his stepping on them.—New York Sun.

A Large Assemblage.

Small Boy (outside of Polo grounds)—How many's on de ground, Jimmy?

Jimmy (cooling his eye at a knot hole)—'Bout four tousand.

Small Boy—Cops an' all?

Jimmy—No, fer cops don't count.—Cincinnati Tribune.—N. Y. Sun.

BILL NYE ON ECONOMY.

A Few Philosophical Remarks on the Various Grades of Barber Shops.

I read a nice essay recently on the habits of a valued exchange on the subject of economy, which greatly interested me. It related to the great expenses which really aggregated from little ones, and dealt with the matter of daily papers, bootblacks, shaving expenses, baths, etc., and showed how millions of the people's money were annually squandered in this way that might be put into sounds laying books. The article set me to thinking, and I resolved to investigate it. I was more especially taken with the idea of extravagance in the matter of shaves and hair dressing shops. You can go to a gorgeous shop and pay fifteen cents and a tip for a shave, or you can go where you can avoid the tip, or you can go to a ten cent shop, or you can get shaved on the Bowery for five cents, or you can ignore the whole business and let the wind blow through your whiskers.

Last week I was thunderstruck when I found how much could be saved by changing from a fifteen cent barber to a five cent barber and keeping it up for a year. Counting the years at a fair estimate I got the number on which I would be apt to shave, I found that by this change I could have at the end of the year $30, with which to buy books or overcoats, barred trousers or any other means of intellectual improvement which I might choose. I could buy one of those expensive books that Mr. De Lanz occasionally gets out, or I could hear Patti or hear a first class Telegraph log for $30. I could also buy myself some more hair or get my teeth filled. I could take a classical course on the banjo or buy an interest in a new silk hat.

But I wanted, more than anything else, to get more books. I wanted a new photograph album most of all. An album with illustrations in it, so that I could sit at table and explain to strangers in low, passionate tones, is never a fading source of pleasure to the thinking mind. When a frontispiece showing the proprietor as he looked with side whiskers, and later, a view where he was photographed with chin whiskers and holding a war time plug hat in his swollen hands; with a picture of the gentleman holding a bible as though it might be a glass bomb, and a front view of a sightless child that makes up for its total absence of eyes by introducing a soul stirring mouth that would make a golden haired hall of North Carolina butter turn white in a single night. With all these little specimens of plastic art, I often think that a photograph album will be a source of entertaining and improving mixed company than any other literary work with which I am familiar.

So I went into a low priced barber shop a few days ago, and gave $20 for the purpose of adding to my library. I soon discovered that in a five cent barber shop you get less consideration and a lower grade of barber and a poorer class of work.

I believe that the man who shaves you for five cents makes his own soap. Possibly he works up some of his fattest patrons that way. At any rate, the soap smells badly and tastes worse than any soap I have ever participated in. At this price of shave one saves financially, but he loses cutaneously.

In the chair I had a good easy chair, and the spittal springs in it occasionally had to come to the surface for more air. I became very much attached to one of these low down chairs, and the sense of security I had to fall about a foot and disturb my intellectual faculties. You can get shaved quicker for five cents than you can for fifteen, but the towels are more clammy and the bay rum is rather more of a chestnut, I judge.

Suffice it to say I am not going to continue the course of economy that I had inaugurated for the year, for I am opposed to the hoarding and accumulation of a surplus. Money is tending too much toward centralization in any way, and I do not want to encourage it.

While I may not be able to secure the books which I contemplated buying with my saving, I can get a great deal of pleasure at the Muse and improve my mind in such ways by actual observation.

We do not get all our education from books. We may read about the many interesting and enobling ideas from other sources than the musty tomes which decorate the shelves of our libraries.

I have got the brainiest men I ever knew, if I may be allowed the temporary use of that term, a scan too who had succeeded in amassing quite a fortune as a result of native shrewdness and an inherent business nature, once admitted to me in a sudden burst of confidence, inspired perhaps by too much wine, that he had never read either of my books. He had, however, been in the habit of shaving once for five years and amassed a fortune. While this is a sad commentary on American galvanized illiteracy, it still shows that a man may be almost criminally ignorant in this country and yet acquire wealth.—Omaha World.

All in a Day's Work.

Fashionable Iowa Dame (in Iowa)—Dearme! It did not occur to me until this moment that you always have wine at dinner at home.

Distinguished Englishman—Do not bother about that, madam.

"Oh, it won't take but a moment. Marie, has the postman come back?"

Marie—Yes, madam.

"Tell him to go right to his room and get sick, then send for the doctor and tell William to take prescription and accomplish to the nearest drug store."—Omaha World.

A Hopeless Case.

Omaha Parson—Do you had taken correct views of this earthly existence you would not now be ill. Look at the Quakers. They are the longest lived people in the world.

Omaha Man—I never thought of that. They multiply slowly.

"Statistics prove it. Now, my friend, let your own reason explain why it is so."

"Well, they don't have to sit in draughty churches three times a week with their hats off."—Omaha World.

What Mrs. Brown Thought.

"Where have you been?" he Mrs. Brown at the theatre of Mr. B., just out between the acts.

"Oh, just out to see a man," replied Brown. "The idea! Is he dead?"

"When did who die?"

"The man you went out to see."

"What are you talking about?"

"Why, you said you went out to breath, it must have been a spirit you saw."—New York Sun.

Nature's Leaves in the Majority.

The Bible contains 3,566,480 letters, 773, 746 words, 31,173 verses, 1,189 chapters and 66 books.—Exchange.

In some families we know of it also contains seventeen recipes for domestic purposes, all the letters the old woman wants to keep, at least eleven pieces of "fugitive poetry" cut from the country paper, the family fine tooth comb and something like a half pack of autumn leaves.—Hoosier State.

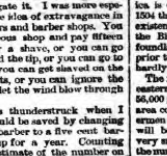
MEN WHO CATCH FISH.

BRIEF HISTORY OF THEIR TRADE IN NEW ENGLAND.

Portraits and Sketches of Three Men who Work Earnestly in Behalf of the Trade—Professor Spencer F. Baird, Capt. F. J. Babson and W. A. Wilcox.

The history of the fisheries of North America is one of peculiar interest. As early as 1504 the Normans and Biscayans knew of the existence of the Newfoundland fishing banks, the Biscayans have a tradition that Newfoundland was visited by their countrymen prior to the time of Columbus, though this is hardly probable.

The mackerel fishing grounds, lying off the eastern coast of the United States, comprise 56,000 geographical square miles. The total annual consumption imported to by American fishermen does not exceed 900 square miles. It will be seen that the inshore area is but a very small percentage of the total area, and the number of fish that may be taken there is a



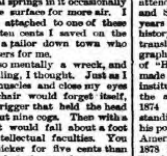
PROFESSOR BAIRD.

much smaller percentage owing to the shoaling of the bottom in the vicinity of the shores. The total product of the inshore mackerel fishery during 1883 did not exceed 8 per cent. of the entire catch, and in other years it has been less than a third was taken inside the three mile limit.

The Fisheries convention, which was held in Gloucester, Mass., recently, had to do not only with the mackerel and cod fisheries, but with whaling and all other sea fishing. The American Fishery union was formed at Gloucester in 1883. The present officers are George Steele, of Gloucester, and its secretary William H. Jordan.

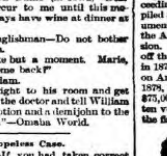
The Hon. Spencer F. Baird, since 1871 United States commissioner of fish and fisheries, an unsalaried office, was also present. He is very popular with fishermen. Professor Baird was born in Reading, Pa., Feb. 3, 1823. As a boy he studied in the Quaker boarding school, kept by Dr. McGraw, at Port Deposit, Md., and at the grammar school at Reading. He entered Dickinson college in 1836, and was graduated at the age of 17. In 1840, when after his graduation he devoted himself to studies in general natural history, in the prosecution of which he took a long pedestrian excursion collecting animals and plants and collecting specimens. His cabinet of natural history specimens a few years later became the nucleus of the Smithsonian institution museum. He read medicine with Dr. Middleton Goldsmith, and attended lectures at the College of Physicians and Surgeons, New York, in 1842. Three years later he was made professor of natural history in Dickinson college. In 1849 he translated and edited the text for the "Iconographie Encyclopaedia," the English version of "Sykes' Kupferwerk." In 1850 he was made assistant secretary of the Smithsonian institution, entering upon his life work at the age of 27. Between that time and 1874 Professor Baird, while ably understanding the arduous duties attendant upon his position, to publish six works upon North American natural history. From 1870 to 1878 he was editor of the Reports of the Bureau of Fisheries. His life has been singular in its devotion to science. This is especially true from the fact that his work is mostly the labor of love.

Captain F. J. Babson was born Feb. 14, 1823. In his early life he was a builder, but found some time to devote to politics, having been three times in the Massachusetts legislature. He served for two years during the civil war, and upon his return from the south was appointed a boarding officer at the port of Gloucester. This position he held for three years and was then appointed collector of the



CAPT. F. J. BABSON.

port by Gen. Grant, holding that position for seventeen years. In 1870 he drew up a memorial, which was largely signed and presented to congress, showing the condition of the fisheries at that time, and the necessity of action, that the Canadians had been guilty of many outrages upon the American fisheries, and asked that a non-intercourse act be passed at once. This memorial was followed by preliminary stages of the business unanimously, and called out Gen. Grant's message asking for non-intercourse legislation. Whaling was also at that time shortly thereafter negotiated, and this stopped all further proceedings at that time. Captain Babson compiled and prepared the large portion of the documentary evidence submitted on behalf of the Americans before the Halifax commission. He made investigations of the fisheries of the Dominion and Newfoundland coasts in 1879 and obtained evidence of the outrages on American fishermen in Fortune bay in 1878, the result of which was the payment of $75,000 damages by England. He has been voluminously for the newspapers upon the fishery question during the last twenty years. Upon the inauguration of the present administration he visited Washington at the request of Secretary Bayard and strongly recommended the American fishery commission. Last winter he represented the Fishery union in Washington successfully opposed the reciprocity scheme of Secretary Bayard and Minister Phelps.



W. A. WILCOX.

W. A. Wilcox is manager of the American fish bureau. He was born at Saratoga Springs, N. Y., passed his boyhood days at Vermont and for several years was engaged in business at Memphis, Tenn., and St. Louis, Mo. During a portion of this time he was engaged in steamboating on the Mississippi and other western rivers. He went to Boston in 1872, and got the first head of the Boston fish bureau, with which institution he remained for twelve years. In 1880 he was called to assume charge of the fisheries as assistant United States fish commissioner, and covered most of the territory from Portland, Me., to New Haver, Conn. He removed to Worcester in 1883, and established the American fish bureau.

Since Mr. Gladstone has chopped down so many trees it is now remarked that he ought to plant some.

Legal Notices.

NOTICE TO THE PUBLIC.—Under and by virtue of the United States Supreme Court in the case of Abram Stebbins against E. F. Greene has given to the parties undersigned, as trustees, to dispose of the property, real estate, goods, chattels, rights, credits, and effects which belonged to the said E. F. Greene, or to which he was entitled on the 2d day of November, A. D. 1886, and which were conveyed, assigned and transferred by the said E. F. Greene to the undersigned, by deed of assignment, bearing date the 2d day of November, A. D. 1886, and duly recorded in the office of the Clerk of Somerset county, New Jersey, on the 3d day of November, A. D. 1886, in Book 59 of Deeds, for Somerset county, on page 1, &c., and has been duly qualified as such trustees by the Court of Chancery of the State of New Jersey, and has given bonds as required by law. All persons having claims against the said E. F. Greene are hereby notified to present the same to the undersigned, duly proven, within six months from the date hereof, or they will be forever barred of any benefit of the said trust estate. All persons indebted to the said E. F. Greene are hereby notified to make immediate payment to the undersigned, or to the Plainfield Savings Institution, at Plainfield, New Jersey, to the credit of the undersigned, trustees. Dated, November 27, 1886.

ABRAM STEBBINS,
JOHN F. RANDOLPH,
Trustees.

Plainfield, N. J., November 27, 1886. 12-6 6m

NOTICE.—Whereas, Default has been made in the payment of the principal and interest of a certain mortgage executed by Theodore Vail administrator assignee of all of Abram Stebbins interest to the undersigned, dated the 2d day of March, and has been sustained in three suits in the U. S. Circuit Court, and I have instructed Mr. Randolph Mansfield, as my Counsel and propose to collect a royalty on every vehicle in the Township (now City) of Plainfield not driven by me, since November 27, 1886.

WILLIAM J. NELSON.

Dated, June 13, 1887. 13-3

JOTTINGS.

—Fourth of July is three weeks from today.

—Crushed stone is being spread upon West Fifth street.

—Crushed stone is badly needed on Somerset street in North Plainfield.

—Two infants were baptized in the Crescent Avenue Church yesterday morning.

—Wash dress fabrics in great variety at Edsall's, at his usual low prices, as elsewhere advertised.

—Plainfield Wheelmen are invited to join the Road Racing Association in the Current number of the L. A. W. Bulletin.

—Children's Day was appropriately celebrated in several of the churches yesterday, and the floral decorations were numerous and handsome.

—At a meeting of the Emerald Benevolent Association held in St. Mary's hall yesterday afternoon, three new candidates were initiated into the Order.

—The regular meeting of the Board of Managers of the Plainfield Fire Department will be held in the City Court room at eight o'clock to-morrow evening.

—A number of bicyclers gathered together under the electric light at Crescent avenue and Somerset on Saturday evening, and amused several bystanders by their antics.

—There promises to be some lively times under the recent driven well decision of the Supreme Court. William J. Nelson gives notice in another column which those interested should read.

—Commencing last evening and continuing every Sunday evening throughout the summer, the gospel and beneficial services will be held in St. Mary's church at eight o'clock, instead of four as heretofore.

—A crowd of men under the influence of liquor disturbed the peace and quietness of the Borough in the vicinity of Manning ave. after midnight Saturday, by quarrelling, fighting, and using profane and indecent language. No arrests were made.

—Thomas Fay, who was arrested yesterday, as elsewhere recorded, called on us to-day to explain the occurrence which caused the trouble. He says he was visited by some friends who were intoxicated and became hilarious. He had them quieted, he says before the police arrived, but the neighbors had complained and all had to suffer.

—An unusually interesting and profitable meeting was held yesterday afternoon at 4 o'clock by the W. C. T. U., in Reform Hall, conducted by Sooly Edsall, and participated in by a large number of Christian workers of the various denominations. A good many requests of a very interesting character were presented, and earnestly remembered in prayer by the President of the W. C. T. U.

—The extra machinery at the electric light station made more electricity than the armature could contain Saturday, and resulted in burning the wires about the armature, and leaving the city in darkness for two or three hours. It will take some days to supply a new armature. Last evening in the Crescent avenue church, which is lighted by electricity, gas had to be resorted to. The pipes were leaky and the smell of gas was so strong before the people assembled that it looked as if there could be no service. The smell was, however, got out by ventilation.

—A disturbance occurred in Cutter's alley near Front street about eleven o'clock last night in which a dozen or fifteen took part. Lewis Bachman and New Brunswick whisky were at the bottom of the racket, and the others were endeavoring to induce Lewis to restrain himself and his Jersey lightning. The neighbors called for the police but Thomas Fahy, who lives in the alley, refused to either let the officers take Beckman out or to send the man out himself. He was thereupon arrested for keeping a disorderly house, and Henry Galle, jr., who interfered with the officers, was also arrested. Both men was captured, and the three men were taken to the station house. This morning Judge Ulrich fined Fahy $10, Galle $10 and Beckman $3.

—We published Wednesday that a number of prominent citizens of Worcester were about *starting a rival company to the Pond Company.* This is reported as one leading reason why the present company is getting out of Worcester. It is proposed to call the rival company the L. W. Pond Company. The company, however, has taken steps to lead them off, by notifying all their New Jersey agents. The Worcester company will be in charge of the father of David Pond, the forthcoming assistant of the New York company, and son of L. W. Pond, who was the founder of the original company. Old Mr. Pond is now about seventy years old, and between father and son there appears to be no very friendly feeling existing. The son's manufacturing company seems to be a very wealthy concern, and to control all the trade of the concern.

Two Defeated Candidates for Mayor Speak on the Same Platform.

Judge Wadsworth, the defeated Democratic candidate for mayor at the last election, was introduced last evening at Reform Hall by President Ryno, as the defeated Democratic candidate, and told, in eloquent words, how they had both passed through the ordeal, and remain true to the pledge they had taken so *close to each other in 1884. The saloons had* when liquor flowed freely and votes were being dragged down by the saloon to their own destruction. He was glad to be able to *testify* as a reformed man to his fidelity to the cause, and was determined to be steadfast to the end. The audience could not restrain the impulse and warmly applauded the speaker for his manly utterances.

He was followed by Judge Harper, who paid eloquent tribute to the fidelity of both Mr. Wadsworth and Mr. Green to the cause, and has been sustained in three suits in the U. S. Circuit Court. I have instructed Mr. Randolph Mansfield, as my Counsel and propose to collect a royalty on every vehicle in the Township (now City) of Plainfield not driven by me, since November 27, 1886.

PERSONAL.

Miss Dot Bigley of New York is visiting at the residence of friends on South Second street.

Rev. T. J. O'Hanlon, has so far recovered from his recent illness as to be able to be around again.

Dr. J. H. Cooley of Manning avenue, North Plainfield, has been elected chairman of the New Jersey Racing Board.

Winfield Freck, ex-cashier of the Somerset County Bank, but now engaged in New York, is visiting relatives in North Plainfield.

Bishop Scarborough will be at Grace church next Sunday and administer the rites of confirmation at the morning service.

Miss Emma Hudson, of Somerset street, who has been on a two weeks visit to relatives in Brooklyn, returned home Saturday.

Mr. C. H. Schermerhorn, the genial Western Union telegraph manager in this city, is confined to his home on North avenue with illness.

Mr. and Mrs. James Bailey returned from their wedding trip, last evening, and will for the present reside with the bride's parents on West Fifth street.

The friends of Miss Eva Porter, daughter of Gen. Fitz John Porter, have observed her presence in this city. She is the guest of Miss Ada G. Marsh.

Miss E. E. Benedict, the agricultural editor of the American Press Association, and of the New York World, is sojourning with her parents in Plainfield for the summer.

On the occasion of the Queen's Jubilee Mr. A. A. Low, manager of the Plainfield Electric Light Company will tender a supper at Laing's Hotel to the English born residents of the city.

Mr. P. P. VanArsdale made the address at the *Children's Day services at North Branch* yesterday afternoon. He was consequently unable to attend the services in the Trinity Reformed church.

The flower garden in front of the residence of Counselman Fred M. Slater of North Plainfield, is conspicuously beautiful on account of the number and variety of roses and *other flowers it contains.*

Wm. M. Sandford of West Seventh street, and Jeremiah Manning of Dunellen avenue, this morning purchased the lot on Spooner *avenue from South avenue to Third street.* They intend to erect ten houses on the lot.

The funeral of Justin, the three-weeks old son of Mr. and Mrs. A. E. Kenney of Manning avenue, North *Plainfield*, took place yesterday afternoon at half-past two o'clock. Interment was made in St. Mary's cemetery.

Mr. C. L. Talliant of Manning avenue, has patented a couch and with it a *desk*, which can be converted into a writing desk or book-holder. He has been working at this couch about six months, and has it now about completed.

John Bailey, son of Col. Jas. C. Bailey, of Somerset street, takes morning drives on a mustang, such as cowboys ride, although it is not known that he is aspiring to become a cowboy, and is practising on one of these wild horses of the plains.

Capt. William Hunt has received a letter *from Gen. Jos. B. Carr, of New York*, stating that he will attend the fifth annual reunion of the Eleventh N. J. Volunteers in this city on Thursday. He will accompany Gen. Carr.

Mr. C. C. Stebbins, the Superintendent and one of the foremen of the Pond Machine Company were in town yesterday, driving about to take in the city, and left very much pleased with it. They returned in the evening to Worcester, Mass.

Mr. G. M. Raybert, of North avenue, is about making some extensive improvement to his brick building. Another story will be added and the front greatly improved, so as to compare favorably with the new building's belonging to Charles Sebring and Geo. D. Morrison.

Mr. R. F.M. Chase is having handsome rustic fences put around his property on *Johnston's drive on the mountain*, and is making other improvements which are making his property there, called Edgewood and consisting of some forty-two acres, the most beautiful spot hereabouts.

Ex-Conductor Edward Meader of Grant avenue, has been appointed Station Agent, to succeed Mrs. Wheeler at the Evona Station. Mr. Meader has been an employe of the Central R. R. latterly as conductor, for twenty years. In 1880 he was paralized from overwork, and prostrated for nearly five years. He is now greatly improved. He will have each evening copies of THE NEWS for such of our subscribers in that section as cannot be reached readily by carrier.

Miss Rachel, eldest daughter of Mr. and Mrs. Samuel Dreier, of West Front street, was married yesterday in her parents' home to Solomon Levy, of New York, a dry goods merchant. The ceremony was according to the orthodox Jewish form, and was celebrated by Rabbi Lite, D. D., of New York in the presence of a large assemblage of relatives and friends from New York, Newark and elsewhere. The Jewish marriage ceremony is exceedingly impressive and beautiful. Four single young men held the canopy, elevated on four poles. The bride is escorted by her mother and the mother of the groom, followed by a company of female relatives and friends, to the rabbi, who stands under the canopy. The groom, escorted by the bride's father and the groom's nearest male relatives, advances under the canopy from an opposite direction. When the couple and the rabbi were beneath the canopy, which typifies heaven, he began the ceremony of Hebrew, which neither bride nor groom at all might understand. Among other things wine is first sipped by the groom from a wine glass handed him by the rabbi, and it is then sipped by the bride, when the groom crushes the glass beneath his feet, while the rabbi explains that as impossible as it is to unite the fragments, so impossible shall it be to separate the man and wife. When the ceremony was finished, the company sat down to a marriage supper, and at nine o'clock last evening the couple started for a trip to Saratoga, Niagara Falls and Washington, to be gone about two weeks. After they return they will settle in New York.

Rev. Mr. Richards' Returns, and Preaches an Eloquent Children's Day Sermon.

Rev. Mr. Richards occupied his accustomed place in the pulpit of the Crescent Avenue Church yesterday, looking none the worse for the wear and tear of his recent flying trip to western trip. It was Children's Day yesterday, and the reverend gentleman, in the morning, selected a fitting text, while the *pretty flowers about the pulpit seemed glad* to lend additional attraction to the interior of the handsome church. His text was from John 6: 9: "There is a lad here which hath five barley loaves, and two small fishes; but what are they among so many?" "I am sure we are all glad," said Mr. Richards, "to come together once more for our children's service, and I am sure you are glad to come home to my friends when I have been away for awhile, but this time it was especially pleasant to think that I was coming back for this particular Sunday. At the General Assembly in Omaha there were plenty of good people, but most of them were old. No one has any right to say anything more than until he can be called at least an elder. Now, that may be very well; and certainly we all want to be respectful to our elders, but we should be sorry to think that all the good people were old and gray headed. So it is pleasant to match that assembly of elders with *this congregation of children*, who are hoping to grow up to take their places as followers of Jesus.

"But the question is, has Jesus any places for us while we are children, or must we wait until we become old and gray headed, too?" The speaker then told of the multitudes who had gathered to hear Christ at the time referred to in the text, and said there was one lad among that assemblage he wished to speak of. "Poor he must have been, for he seems to have been in the habit of eating only the barley loaves, instead of the finer wheat, and anyway such a little fellow as he was, no one could miss him, and there was no chance that the Great Master would take notice of him out of all that great multitude of grown people. Still the boy thought he would go and find some of his barley bread and give him, as the place was a long way off, and he had enough to give a loaf or two away, if any one else was hungry. And do you know, little children, that before the day was over it turned out that that little lad was the most important person of all the company, except the Lord Jesus himself. I think they could have carried any of the apostles, or perhaps all of them, better than that one small boy; for the people were then at church all day, and that church was not in a large part of the country, and as evening came on they all began to grow hungry, and no one had thought to bring anything to eat. Jesus was sorry for the people and told the apostles to feed them, but the poor apostles were perplexed enough to tell Jesus that no one would have been glad that night to exchange *a whole barrel of his best* sermons for a barley loaf. Then this lad, who evidently had noticed this small boy, with his five barley corns and two small fishes and very likely said to himself, 'I'll be glad to give it to him,' and you know the rest of the story—how they all had enough to eat and to spare, and then twelve basketful of fragments were gathered up. All because that small boy was there with his basket of barley loaves and his fish. Matthew, Mark and Luke do not seem to make any mention of this little fellow but John's memory must have been specially good for *little things like this, but even he does not tell* the lad's name.

"Now what do you think of our question whether Jesus has any place for us while we are children, or must we wait until we are old and gray headed like the elders who go to the General Assembly? I think we shall all agree that Jesus has a place for every child who likes to be helpful, and tries to be thoughtful always and faithful about small things, the *little things that make up the life of a child while they are children.* And *sometimes, as it was* in our text, the place is a very important one.

"I spoke about the good men of the General Assembly who did most of the talking—and some of them, I need say, did more than others—but I should not like to have one person there who said nothing; the little page who run the errands. She was a little girl and only twelve years old, but every one noticed that she did her work well, quickly, and noiselessly and never seemed to grow tired. *At other of the sessions* some gentlemen brought in the resolutions of thanks, and a report was read, from the conductor, and the Committee of Arrangements and the good people of Omaha, etc., and as soon as the last one was through, a commissioner jumped to his feet and said: 'I wish to add a resolution of thanks to our faithful little page,' and the assembly heartily agreed with him in that one resolution than in all the others put together."

Then he told of the children whom Bible history told of and said "there is no question that the Lord Jesus has places for all the boys and girls if they like to be helpful and try to be faithful always and thoughtful for others."

"It is said that nowadays it is easier for growing men to get good places in business; and no doubt this is so. But do you know there is a place for you boys and girls to take his supper with him, and some to spare, when every one else forgot, I would engage to find him a place quickly. I might not be a very large place to start with; but if I understand that boy he was not waiting for a large place, and if he could not drive a baker's cart he would carry a few loaves in a basket. I tell you, children, the great trouble in the world is to find people that you can really depend on for little things; for unless people learn to be thoughtful and faithful about little things they are young, they will hardly ever learn it at all."

We must be sure that we are Jesus children now, so that we may grow up to be his men and women. We must learn to please Him and be careful to mind Him in little things, so that after while we may please Him and be *useful in larger things.* And perhaps there will be some little fellow in his room to-day who will stand side by side at last with that one little lad who helped the Lord feed five thousand men beside the women and children.

WESTFIELD.

Miss Ida Martin, formerly of our town, but now a resident of Nashville, Tenn., is on a visit to *friends here.*

Mr. McLaren has once more returned with his family and taken up his residence in his mountain house.

John Daly, now of Philadelphia Pa., is on a visit to his parents. John went to that city a little over three years ago, and had been there since. He expects to remain home for two weeks.

Dr. Benedict, of Salt Lake City, Utah, is on a visit to his brother-in-law, Mr. A. F. Grant, of Westfield avenue. He will soon start on a trip to Paris and the continent.

Some of our young men have sought the fever of their Plainfield friends, they also want to play soldiers, and Col. Rose will come here and tell them what to do and how to do it.

Driving Club Matinee.

There was a fair attendance at the Fair Grounds Saturday afternoon and spectators, owners of horses and drivers were all pleased with the result, as good time was made at all the speed trials, and remarkably so between Copeland and Betsy Bobbet, the first quarter being made in 36 seconds a 2.24 clip, and the mile without a skip in 2.31 3-4. Later in the season, with a fast track and judicious handling, it will not be surprising if these horses step the mile off in 2.25. Plainfield can probable show more good horses (judged by speed) than any city of its size in the state. The driving club promises to be a popular institution and its Saturday afternoon matinees very attractive. Members only are accorded the privilege of the track, though all losers will be welcome as spectators. Following are a list of the races.

FIRST RACE.

S. D. Kelly's bay mare (to wagon)	1	1
Geo. Phillips' br.	2	2
Nate Robins' Doctor "	3	3

Time: 2.51 1-4, 2.52 1-2.

SECOND RACE.

O. T. Waring's Copeland	1	1
A. C. Vail's Betsy Bobbet	2	2

Time: 2.31 3-4, 2.37 1-2.

THIRD RACE.

J. C. Zimmermann's Tom McCrae (wagon)	1	
E. J. Waring's Lady (wagon)	2	

Time: 2.42 1-2.

FOURTH RACE.

M. Quinn's Gray Billy	1	2
J. F. Stell's Bobby	2	1

Time: 2.46, 2.51.

FIFTH RACE. (1-2 mile to wagon.)

E. J. Waring's Ledger	1
Wm. Van Syckle's Segwa	2

Time: 1.20.

Sent to Elizabeth.

John Clarke, the New York man, who was arrested for attempting to kidnap his child, Isabella, on Friday afternoon, was taken to the County Jail at Elizabeth on Saturday evening, in default of $250 bail. Clarke's wife keeps a grocery store at No. 40 West Fifty-second street, and Mrs. Polles Dodd went there on Saturday and endeavored to secure bail for the husband, but he was unsuccessful. Clarke was *greatly prostrated by the turn* affairs had taken. All he cared for, he said, was to get his child back. "It clearly breaks my heart," said he, "to be separated from her like this, but I am sure that right will triumph in the end. I know all about this woman, who claims to be Mrs. Downey, and when this case comes to a trial you will hear some interesting things concerning her." Mrs. Downey still persists in her statement that Clarke is not the father of the child, and that its name is Griffin. Isabella was taken to the Children's Home Saturday afternoon by City Judge Ulrich, where she will be cared for until the Court of Chancery decides which parent is entitled to the possession of her. The case is a complicated one, but the principal facts are that Isabella will be given in the charge of the mother. Much sympathy is expressed for Clark, who feels his position so keenly, and declares the circumstances has disgraced him. When Isabella was taken away Mrs. Downey offered to pay her board, saying she could well afford to do it, and she did not wish her to become a subject of charity.

Base Ball Notes.

The new base ball club, who call themselves the "Actives," expect their new suits this week.

On Saturday afternoon the actives defeated the Oil Cloth Factory nine in a game of base ball by a score of 15 to 19.

The "Bt. boys" defeated the "Commuters" at a game of base ball on the Park avenue grounds Saturday afternoon by a score of 49 to 10.

The game of base ball, between the Scott and Potter Free Works nine, played Saturday afternoon on the latter's grounds, resulting in a victory for the former club by a score of 34 to 7.

Following were the players: Scott Base Club - Collins, Bennie, Dawe, Lee, Frey, Smith, Weaver, Post, Carpenter. Potter Base Ball Club—Buckley, Jas. Evans, Andrews, Duckworth, Babcock, John Evans, Randolph, Newman, Mosher. Annexed is the score by innings.

	1	2	3	4	5	6	7	8	9	Total.
Scott's	5	9	1	0	8	0	2	4	-	—24
Potter's	2	1	0	0	2	0	1	1	0	— 7

Charles Dunham acted as umpire.

A letter was received this morning from Chas. Sandford by his father Wm. M. Sandford, dated San Angelos, Texas, in which he states that he is in good health, and still traveling. He had a pleasant voyage, and soon expects to meet Mr. Rushmore of West Seventh street, who started for Texas some months ago. He's very much pleased with the south.

SCOTCH PLAINS.

Miss Florence L. Young will soon leave for Round Lake to spend a few weeks summering.

The Ladies Helping Hand of the M. E. church will hold a strawberry and ice cream festival on Wednesday evening of this week at Baker and Wendell's Hall on Park avenue. Admission 25 cents, which includes refreshments.

W. L. Brice of the firm of W. L. Brice & Co., Petroleum and Lubricating Oils, 26 Broadway, Newark, N. J., is in town at present visiting friends. Mr. Brice is a rising young business man, and a son of presiding Elder Brice of the Newark Conference.

Children's day was observed last evening at *the Baptist church with appropriate exercises.* The program which had been rendered consisted of "Organ voluntary and anthem by the choir, responsive readings by the school, prayer by Rev. E. F. Fowler of the M. E. church. Several fine recitations interspersed with singing and scripture readings, selections of which will show having charge of them *deserve great credit for their success.* The yearly offering for the educational fund was taken. Amount from school $22.73, congregation $6.90, total $29.63 which will go to make up the amount to be raised this year by the American Baptist Publication Society.

Miss Lizzie Hollingsworth has returned from California much improved in health, having spent more than a year in the delightful climate of the Pacific coast. SUP CED.

LATEST DISPATCHES.

THE NEWS controls the services of *the American Press Association and the* United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Thermometer Record.

The following is the record of the thermometer for the week and for the corresponding date of last year, as kept at Stelle's drug store, corner of Park street and Park avenue.

1887	1886		
6 a. m.	56	63	Sun rises 4 28
12 m.	72	77	Sun sets 7 30
3 p. m.	81	77	Moon rises
9 p. m.	90	80	Moon sets 11 16

Weather Indications.

For Tuesday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, *partly cloudy to fair weather*, with slight thermal changes, followed by local rains near the lakes.

Steamship Arrivals.

NEW YORK, June 13.—The Cunard steamship, Servia, which left Liverpool, June 5th, arrived here this morning.

The Home News Editor Afloat Again.

NEW BRUNSWICK, June 13.—Editor Boyd, who was injured by being thrown from a carriage in New York Decoration Day, by the horse running away, was able to be at his office to-day again for the first time. He is still quite lame from the injuries received.

Committed Suicide.

RED BANK, June 13.—Jane McNell, a domestic employed at William N. Conover's residence at Middletown, near here, committed suicide to-day by taking bed-bug poison. The girl was an American, 22 years old, intelligent and unusually capable. Supposed to have committed suicide on account of a love affair.

Corinthian Yacht Race.

NEW YORK, June 13.—The first annual regetta of the Corinthian Yacht Club is being sailed to-day, and the yachtsmen and their friends are out in force. The course is from Fort Wadsworth to Sandy Hook and around Buoy No. 10. At 11:27:30 the starting whistle was given, and the Galatea and Atlantic crossed the line with the Enchlishman just a length in the rear. The Bedouin was a minute later, with the Cinderella and Stranger. The Atlantic shot to the front, and in a couple of lengths ahead of the Galatea. Soon the Bedouin was abreast of the Galatea and going along finely in the twelve mile breeze, which at two o'clock this afternoon was freshening.

Look Out for Swindlers. Don't Sign the Agreement.

NEW BRUNSWICK, June 13.—Two lightning rod agents have been boarding at the White Hall hotel here. Each wears a high hat and a showy moustache. Both are the same height. They have been working the lightning rod scheme in the farmers in Piscataway Township and are working towards Plainfield and Somerset county. They have played their trick on John Davis who resides two miles outside of New Brunswick, and on Albert Martin, to whom they got an agreement pretending to furnish lightning rods for three dollars. But the agreement in reality requires the payment of larger sums. Mrs. Davis was mulcted out of $80 and Mr. Martin out of $40.

Cent-a-Word-Column.

A NICE riding pony, gentle and sound for sale cheap. Apply to William Ubrahan, blacksmith, Somerset street. 13-3

ANY GIRLS wishing situations can obtain them by applying to Mrs. Randolph's office. Splendid wages and small families.

SPORTING MATTERS.

The Record of Baseball Games and Turf Events.

The race for first class sloops at the Seawanhawka-Corinthian Yacht club regatta Saturday was won by the Aladdin.

Saturday's ball games: At New York—New York, 26; Washington, 2. At Boston—Boston, 11; Philadelphia, 9. At Detroit—Detroit, 7; Indianapolis, 6. At Chicago—Chicago, 6; Pittsburg, 4. At Baltimore—Baltimore, 12; Cleveland, 4. At Philadelphia—Athletic, 8; St. Louis, 4. At New York—Cincinnati, 3; Metropolitan, 2. At Brooklyn—Brooklyn, 14; Louisville, 7. At Wilkesbarre—Wilkesbarre, 22; Johnstown, 7. At Reading—Reading, 6; Williamsport, 5. At Allentown—Allentown, 16; Easton, 2. At Corning, N. Y.—Bradford, 16; Painted Post, 4.

Saturday's winners at the Brooklyn Jockey club races were Maroon, Bay Ridge, Amalgam, Gunrantee, Winona and Tipsy.

The winners at St. Louis on Saturday were Ernest, Little Minch, Blythesome, May Hill and Fair Play.

At the thirteenth annual regatta of the Passaic River Amateur Rowing association, at Newark, N. J., Saturday, distances one mile and half mile, the events and winners were: Pair-oared gig race, won by the Eureka club, Newark; time, 10:29¼. Junior double scull, Schile and Mahoney, of the Metropolitan, New York; time, 9:34. Junior single scull, E. Martin, Palisade club, Yonkers, N. Y.; time, 8:57½. Senior four-oared shell, Cornell University club; time, 8:45½. Junior four-oared shell, Eureka club, Newark; time, 9:15¾. Senior single scull, William Geoghert, Metropolitan club; time, 9:09¾. Senior double scull, Geoghert and Hogan, Metropolitan, New York; time, 9:24. Senior four-oared shell, Potomac club, Washington, D. C.; time, 8:54½. Six-oared gig, Newark Institute race No. 1; time, 10 minutes. Four-oared barge, Activus, Hoboken; time, 9:11½. Eight-oared shell, Dauntless club, New York.

Evan Lewis, the strangler, and Thomas Conners will wrestle at Pittsburg to-night for $1,000 a side.

The six days go as you please match at Omaha, Neb., ended at midnight Saturday, with the following scores: Hart, 400 miles; Harriman, 388; O'Leary, 381; Smith, 349; Grygg, 342; Iliffin, 312; Brenzee, 307; Cunningham, 171.

Sunday's ball game: At Brooklyn—Cincinnati, 7; Brooklyn, 4. At Weehawken, N. J.—Danbury, 11; Monitor, 10.

The Baseball Record.

The standing of the League and American association clubs to date is as follows:

NATIONAL LEAGUE.			AMERICAN ASSOCIATION.		
Clubs.	Won.	Lost.	Clubs.	Won.	Lost.
Boston	21	11	Athletic	21	10
Chicago	19	17	Baltimore	25	13
Detroit	20	16	Brooklyn	23	13
Indianapolis	8	33	Cincinnati	23	22
New York	24	10	Cleveland	20	20
Pittsburg	18	18	Louisville	21	21
Philadelphia	17	19	Metropolitan	9	29
Washington	10	28	St. Louis	34	8

Marine Intelligence.

NEW YORK, June 13.—Arrived, steamers Anchoria, Glasgow and Moville; Europa, Hamburg; Rhynland, Antwerp; Rotterdam, Barrow; Bernard, Para; La Bretagne, Havre; Muriel, Bermuda; Lucy P. Miller, Bangor; Wilkesbarre, Boston; Herman Winter, Boston; Anna C. Barstow, Providence; Ships Arabella, London; Karvo, London; Louis Walsh, Bristol; Barks Elgonbrekt, Hamburg; Marie, Stettin; Calliope, Halifax; Minnehaha, Glasgow; Augustina, Argentina; Bahia; Elizabeth, Hamburg. Arrived out, steamers La Gascogne, from New York for Havre, has passed the Lizard.

Where They Will Rest.

WASHINGTON, June 13.—It is understood that Secretary Bayard will spend the greater portion of his vacation at his home in Delaware. Secretary Fairchild has not decided to take any vacation. Secretary Endicott will spend a portion of his time in Salem home. Secretary Whitney will devote a month to the leading resorts, and Attorney General Garland will spend September at Hominy Hill, Ark.

Three Children Perish.

WINNIPEG, Man., June 13.—The residence of James Edwards, a farmer, living in the township of Menota, South Manitoba, was burned Saturday night, and three children, aged 7, 12 and 14 years, perished in the flames. Mr. Edwards and wife jumped from an upstairs window, taking two other children, or all would have perished.

Driven to Work by Soldiers.

VIENNA, June 13.—Twenty-five thousand square miles of territory in the vicinity of Szegedin is inundated, and disastrous hurricanes occurred at Mako Saturday night, causing the water to dash over the dykes. Several bridges were destroyed. The laborers repairing the dykes, at but were driven back to their work by soldiers.

An Actor Found Drowned.

BOSTON, June 13.—The ten days' mystery caused by the sudden disappearance of George R. Parkes, the actor, has been cleared up. Yesterday his body was found afloat picked up by a boatsail and decomposed badly floating in the harbor near Bird's Island. The corpse was identified as that of the missing actor.

A Tax Collector's Shortage.

WILKESBARRE, Pa., June 13.—M. M. Williams, a well known resident of this county, and tax collector for the borough of Kingston during the past two years, is several hundred dollars short in his accounts. His bondsmen say they will pay the deficiency to-day. If this is done no arrest will be made.

The Pope to the Queen.

LONDON, June 13.—The pope's autograph letter to Queen Victoria, congratulating her upon the jubilee of her reign, expresses the thanks of the church for the queen's action, through the British government, in protecting the Catholic missions in India and upholding their authority.

Killed in a Coal Mine.

WILKESBARRE, Pa., June 13.—John Felix, a native of Poland, aged 28 years, who recently arrived from New York, was killed by a fall of coal at the No. 6 shaft of the Co's. mine at Luzerne. As he had no family or friends in this vicinity, the poor directors will bury him.

Drowned While Bathing.

GREAT BARRINGTON, Mass., June 13.—James Loftus, aged 12 years, and Edward Rogers, aged 15 years, while out in a boat on Lake Mansfield yesterday afternoon, went in bathing, and both were drowned in six feet of water. Their bodies were recovered.

ANARCHY RUNS WILD

A SUNDAY PICNIC INTERRUPTED BY A LIVELY RIOT.

Herr Most's Fiery Language, in Conjunction with Unlimited Beer, Makes the Crowd Ugly Enough to Resist Anything and Everything.

NEW YORK, June 13.—The New York Anarchists opened the season yesterday with a big picnic, any number of crimson flags and kegs of beer, and a row at Oak Orff Park, in Union township, N. J., at the picnic had been reported from Chicago. Its object was to raise money for the defense of the Chicago Anarchists. The advertisement in The Volks-Zeitung yesterday described it as a "grand family outflow of New York workingmen, arranged by forty-six of the most important labor unions of New York," under control of the Central Federated, which had been commissioned to arrange it by the federated trades unions. Target shooting and prize shooting were two of the attractions, with games for children and a lottery. The picnickers started for Jersey early in the day. They flocked from the east side avenues and drifted to the Forty-second street ferry, and crowded the Weehawken hills, on through Guttenberg to the park. Herr Most, with his aids, went over at noon and tramped up the hills and over the dusty road, just as his humble followers had. A contingent of real Anarchists from Chicago went along, and were received with cheers when they reached the park.

The police were aware of the picknickers. A flood of beer had been turned on from the Rock Spring brewery. John Snyder, the owner of the park, contracted for the supply and turned it over to the Anarchists. Rolls and sandwiches to the managers of the picnic.

The park consists of a pretty wood three acres in extent, on the Guttenberg boulevard. The woods run to the brow of the hill and adjoin the grounds of the Monitor Baseball club. Schneider's tavern, a large Turnverein building, and filled it with benches for picnic purposes. It was engaged for the day by the boys rode up Landman's place carrying the flags, as Winfield Scott Schley did when he captured Santiago. Some time since Colthan and Landman had a small business transaction which had been settled except the sum of seventy-five cents, which Landman claimed was still due. No thought of a difficulty existed in the mind of Landman until Saturday evening, when the Colthan boy rode up to

ALL AROUND THE HOUSE.

Up Stairs, Down Stairs, in Kitchen and Parlor, in the Lady's Parlor.

Fir pillows are not only fashionable, but are considered beneficial in the treatment of such ailments as insomnia, nervousness, headache, dizziness, etc. The foliage used for filling them is that of the balsam fir tree. It is rather difficult to distinguish between the balsam fir and other spruce trees, the leaves of the former are flat, two on either side of the branchlets, while those of the latter are scattered irregularly around the stems. The foliage or spills may be collected at any season, as it is richly fragrant. In Sick Room keeping, who also tells how they are made ready for use. The spills and the entire green shoot at the ends of the twigs are plucked while fresh and crisp from the stems; if they are allowed to dry on the branches much of their delicious fragrance is lost. They are spread out in a perfectly dry place, care being taken that no moisture collects on the balsam, which would also ruin the delicate perfume. When the spills are thoroughly dried they are ready for the pillow, which should be made of thin, stout material. The outside slip may be plain or ornamented, according to individual taste. Pongee, silk linen, madras cloth or any of the pretty stuffs now obtainable may be used. A suitable decoration for a fir pillow is an emblematic motto, as "Thy breath, sweet balm, bath power to soothe the tired brow." These mottoes may be embroidered in any suitable stitch. A very effective design is a branch of fir with several leaves done in green and brown chenillies.

Breakfast Parties.

Breakfast parties are in great favor with many people, being less expensive than dinners and just as satisfactory to the guests. They are served at any time from 10 to 12 o'clock. At breakfast parties, with the exception of the silver service being on the table all the time for tea and coffee, the dishes are served in courses precisely as for dinner.

Mrs. Henderson gives, among others, the following tempting bill of fare for a summer breakfast: First course—Melons. Second course—Little fried smelts, perch or trout with sauce Tartare, the dish garnished with shrimps and olives; coffee, tea or chocolate. Third course—Young chickens sauted with cream gravy, surrounded with potatoes a la neige. Fourth course—Poached eggs on anchovy toast. Fifth course—Little fillets of porterhouse steak, with tomatoes a la Mayonnaise. Sixth course—Peaches, quartered, sweetened and half frozen.

A Home Made Table.

The table shown in the cut was designed after a high priced one seen in an art furnishing store by a contributor to The American Agriculturist. As it is so constructed that it can be easily manufactured at home by those who are at all familiar with tools, a description is here given.

ORNAMENTAL TABLE.

It may be made of pine, and stained to imitate cherry or ebony. The stain can be purchased ready for use at any paint store. The top is covered with dark plush, and a broad band of the same is tacked around the edges. This is ornamented with a pattern worked in the couching stitch. It is done in this manner: The design is first stamped on; then two threads of double sephyr are laid on it a short distance at a time, and caught down at regular intervals with floss of different shades. One or more colors of the sephyr can be used, as the taste suggests. A design of circles interwoven into each other is very pretty; this can be carried out nicely with a tea cup and white paint. The tassels are made of the sephyr.

Fruit Sponge.

Strawberries, raspberries or blackberries may be used in the following recipe for a delicious cold dessert. Soak half a package of gelatine two hours in a half cupful of water. Mash a quart of strawberries and add half a cupful of sugar to them. Boil half a cupful of sugar with a cupful of water gently for twenty minutes. Rub the berries through a sieve. Add the gelatine to the boiling syrup and take from the fire immediately; then add the berries. Set the whole in a pan of ice water and beat five minutes. Add the whites of four eggs and beat till the mixture begins to thicken. Put into molds and set away to harden. Serve with cream and sugar.

Sensible House Cleaning.

"I never clean house," is the testimony of a woman of experience. "I used to read a great deal about the benefits of never cleaning house, and about five years ago I determined to leave off my annual tornado, and I accomplished it. My brother, who boards with us, says I must be either very tidy or a very untidy person, he can't decide which. One thing I know, my house is never torn to pieces, and I never go around looking like the wife of Rodger. I take one room to pieces at a time, and sometimes I take only half a room at a time."

Strawberry Short Cake.

Nice strawberry short cake is made with sour milk, as follows: To two teacupfuls of sour milk add a teaspoonful of soda; then three-fourths of a teacupful of butter or lard, partly melted, and enough flour to make a soft dough. Roll it into thin cakes, large enough to fill the pan in which they are baked. When they are baked split them and butter them while hot. Lay half of the cake on a plate, spread with strawberries and sprinkle with sugar; then put on the other half; then more sugar, and so on.

Quaint Menu Holders.

The very quaintest devices characterize some of the menu holders in use on fashionable tables; such as a thin slice of cucumber or lemon, so realistic as to suggest damage to the table cloth, or colored crackers, the reverse side showing the number and nature of dishes to be served. A decorated card or a painted satin ribbon with the menu card laid underneath is the conventional style.

Hot Milk.

People who can not drink cold milk often find it palatable and beneficial when taken as hot as possible. Upon some tired and overworked persons it has an invigorating effect almost equal to a glass of wine. The milk should be fresh and heated as hot as possible without boiling.

SCIENCE AND PROGRESS.

THE MANUFACTURE OF BISULPHITE PULP—PHOTO-CHROMOTYPE.

The Perfection of a Process for the Production of Colored Prints and Chromos.

An Effective but Simple Experiment in Magnetism.

An interesting experiment, which may be performed with quite a small magnet and a common sewing needle, is illustrated and explained as follows in The Scientific American:

EXPERIMENT IN MAGNETISM.

Insert a light thread in the needle, tie and cut off one end, leaving a single thread six or eight inches long. Lay the needle upon a magnet on a table with the poles in front. Magnetize the needle by rubbing it several times, always in one direction, by one pole of the magnet, after each stroke removing the magnet in air are through the air. Take the end of the thread between thumb and finger, and suspend the needle over its attractive pole, allowing the point to come within one-quarter of an inch of the magnet, then, with a circular sweep of the hand, to keep the point in position, draw the point of the needle down toward the other pole. This, if carefully done, will bring the needle to a horizontal position, where it will remain, floating or in suspension as long as the thread is held steadily. The magnetic forces operating to produce this effect appear to be, first, the attraction of the left pole for the point of the needle; second, the repulsion of the right pole for the same point; and third, the attraction of the right pole for the eye of the needle, which is resisted by the thread supporting the needle; the latter also is held from approaching the left pole by the same means. The experiment may be made more effective by covering the magnet with a sheet of paper, thus concealing it.

The Manufacture of Bisulphite Pulp.

The achievements of bisulphite in Germany are said to be a menace to wood-ranchard to the English paper trade, and already to have considerably crippled it. The adaptability of this pulp to the uses of our American manufactures, according to The Paper World, is already proved. Not only has it been imported in considerable quantities from Norway, but the pulp is made on this continent in two mills and finds greedy purchasers. The mill of the Ekman process near Providence, R. I., makes an excellent fiber, and has been in operation for two years. The first mill to begin the manufacture under the Ritter-Kellner-Partington process is at Halifax, and found a ready market for its product from the very start, a large portion of it coming to the United States. A mill now building at Monico, Wis., is to be operated under the same patents, and so is another mill now going up at Saugerties, N. Y., where W. H. Simmons, ex-president of the American Paper Manufacturers' association, is to establish the new industry.

Tin Cans for Preserving Food.

Improvements are constantly being made in tin cans for preserving food. A recent one consists in so forming the lid that it is merely pressed on and the can is hermetically sealed, so that no internal pressure can remove the lid. Water boiled in a tin thus closed has failed to force it off, although the steam pressure has burst the can itself. In one place, however, a hole was made by being placed under a rim formed around the top of the cover, with the shoulder of the tin as a fulcrum, raises the lid with a remarkably small expenditure of power. The principle involved in the device is that of the wedge and lever. The neck of the tin on which the lid fits is formed at a very slight angle from the vertical, and the rim of the lid is made at a corresponding angle, no solder being used to form the joint. By means of this arrangement, therefore, the opening of the can is rendered remarkably clean, quick and simple operation.

Photo-Chromotype.

The perfection of the process termed photochromotype, for the production of colored prints or chromos, is due, it is said, to the house of Auverer & Goschel of Vienna. The copy for reproduction in colors is first photolithographed, and from these impressions the draughtsman works in the colored colors. For instance, upon one sheet the yellow is laid, upon another the red, this being repeated until each tint has been worked in upon its corresponding separate sheet. Negatives are then made for each, and from these zinc printing plates are etched in half tone. The balance of the process is then nothing more than the usual fitting of color stones in chromo-lithography.

Using Water in Journal Boxes.

The foreman in charge of the Edison dynamos, running in St. Louis, has made the discovery that water may be used to advantage in keeping down the temperature of journal boxes and to the exclusion entirely of friction existing oils. A comparison with using oil the pillow blocks exhibit a marked difference when touched by the hand. Formerly they were too hot for anything like continued pressure of the hand, while now they are comparatively cool at all times. The journals also show a greater advantage, the brightness of surface denoting friction having given way to a duller and more nearly natural color of metal.

Heat Rays from the Sun.

A mercurial thermometer held in the sun's rays and not in contact with any other body, says one scientist, will show but little rise in temperature, the radiant heat being reflected from the bright surface of the glass bulb like light from a mirror. But, if the bulb be coated with lampblack or other absorbent of heat a rise in temperature will be indicated at once. So the heat rays from the sun may be passed through a lens of ice and concentrated to a sufficient degree to ignite combustibles placed at the focus without melting the ice of which the lens is formed.

Glossy Ink.

Any common writing ink can be made glossy by adding to it a little gum arabic or white sugar. If the latter be used care must be had not to use too much sugar, else the mixture will be sticky when dry, and if too much of either gum or sugar be used the ink will become too thick to flow well.

The Czar's Effective Forces.

The Invalide Russe, the official journal of the minister of war, gives the effective forces of the czar on Jan. 1, 1886. According to this account the Russian regular army numbered at that time 884,702 soldiers and 30,655 generals and officers. The reserves amounted to 1,600,815 men. The militia of the first call counted 2,160,000 men. And this without counting the Finland regiments.—Chicago Herald.

PHYSIOLOGY AND HYGIENE.

Opinions From Well Known Authorities on Seasonable Subjects.

A very large number of adults form the habit of sleeping in one particular position, such as lying upon their right or left side. A smaller number sleep upon the back. Some sleep with the head greatly extended; more often it is considerably flexed upon the trunk. Many must have the head greatly elevated; others can get on with two pillows very low. According to The Medical Record it has yet to be determined whether any particular harm can come from sleeping in a certain position. Great variety of accommodations undoubtedly exists. A popular belief exists to the effect that the liver, being a heavy organ, tends to press upon the other abdominal viscera when a person lies on the left side. At any rate, more persons, probably, sleep on the right side than on the left, as experience and Nosowitch's statistics show.

Dr. G. Nosovitch believes also that the posture in sleep influences the extension of a bronchitis. He found, for example, that in 253 cases, of whom he had this disorder, in ninety-seven it was left sided, in seventy-two right sided and in sixty sixon both sides. He thinks that the preponderance of bronchitis on the left side is due to the fact that there was a greater expansion of this side during sleep and consequently a greater ingress of cold air, or of the morbific particles causing the disease.

A recent writer has argued strongly for the view that the head should be lower than the feet during sleep, and he claims that more healthful sleep and greater buoyancy in life result from such approximate topsyturvines. The contrary position, with the head and trunk considerably raised, sometimes relieves cramps in the legs. It is well known that some chronic nervous affections, particularly nocturnal epilepsy, and some forms of insomnia are sometimes benefited by sleeping partially erect.

Education and Health in Women.

Among interesting facts bearing on the subject of college education for women, Dr. Lucy M. Hall records in Popular Science Monthly the following: Seeing daily, as I do, young women in college in far better health than young women in society, or living in pampered idleness at home; seeing them healthier as seniors than they were as freshmen; knowing that my records tell me they average a smaller number of excuses because of illness than do those of the men's colleges with which I am able to compare data, and observing financial evidence that women college graduates enjoy a sum total of 90 per cent. better health than the average woman, how can I conclude otherwise than that college life is better or, is not injurious to health or incompatible with the best good of the sex and the race?

Bromine for Ivy Poisoning.

Many people who are susceptible to poisoning from handling the poison oak or poison ivy vine find relief by applying externally a weak solution of table salt or a weak solution of sugar of lead. Bromine, however, is claimed to be a specific, and a correspondent in Science News says that for use it may be dissolved in either olive oil, cocoanoline or glycerine—ten to twenty drops of bromine to an ounce of oil—and should be applied to the affected parts three or four times daily and especially upon retiring. A new solution is required every twenty-four hours on account of the volatility of the bromine.

Unwholesome Milk.

The practice of putting milk warm from the cow directly into tight cans and subjecting it to a warm atmosphere is reprehended by a medical authority. Poisonous properties sufficient to cause unpleasant symptoms are said to be liable to arise from so doing. Cool the milk before canning, and keep at a cool temperature afterward.

SOCIAL ETIQUETTE.

Manners and Customs Practiced in Polite Society.

The ethics of summer hospitality, as discussed by Mrs. John Sherwood, remind us of several points on which our etiquette is very lax. Our American hospitality has generally taken in the formula, "Come when you can, stay as long as you like and don't go away." But country houses are not elastic. Invitations, therefore, from a country house mean very much, and should be answered promptly and the engagement kept, not exactly ignored. Many hostesses complain that their guests say, "We cannot come on Tuesday, but we will come on Saturday."

We are obliged to undo all our ideas of colonial hospitality, when all one's friends and relatives come uninvited. It is taking a great liberty, and the practice has been almost discontinued. Neither should a general invitation ever be acted upon; wait for a special and definite one.

Garden Parties.

Summer days are upon us, and with the warm weather comes the desire to be out of doors as much as possible, and sociable afternoon tea and garden parties provide amusement and entertainment. For a light collation for a garden party, The Art Interchange recommends as all that is necessary, tea, coffee, chocolate whipped cream, and lemonade for the ladies, and vichy and other mineral waters for the gentlemen, with cakes of various kinds, while and brown bread and very thin, sandwiches, wafers and ices. These may all be placed on tables on the lawn, where guests may help themselves and each other. The hostess should pour out the tea comparatively cool at all times. The journals also show a greater advantage, the brightness of surface denoting friction having given way to a duller and more nearly natural color of metal.

A Happy Parisian Custom.

If an engagement makes a very early departure from a dinner party or other entertainment imperative, a guest will mention the fact to the hostess beforehand, and make his departure without leave taking and unobtrusively if possible. Quiet withdrawals that do not suggest the departure of others are one of many pleasant customs taken from Parisian formalities.

DONT GO

to Asbury Park, mountains or any other place,, without first getting your outfit in shoes at Doane & Van Arsdale 22 *West Front Street.*

What is better at this time of the year, than a Werner suitand a boutonniere. Making the flower girl and the wife sought her. As happy as a clam in very high water.

o'er the dash board, blowing bubbles the while the grindstone without it garden the babies wiseye the cyclone and the other young ones on joy together—there refreshment and frumenti, with the new and nut-ous fruit-ades and choice dishes a that belong to the Caucasian, gather in the festive board and, take him to the reservation, rob him while his little life lasts, rob him till he turns his toes up, rob him till he kicks the bucket.

And the Shinnececk is failing, he who greeted Americus Vesputci when he landed, tired and sea sick, with a breath of peace and onions; he who welcomed exiles strangers, with their notions of refinement and their knowledge of the Scriptures and their fondness for Gambrinus—they have conquered his gymnastics and the Shinnececk is busted. —Bill Nye in New York World.

"Landed!"

Tommy (bride's little brother, after the ceremony)—Did it hurt—the hook?

Bridegroom (never did like that boy)—Hurt—the hook? What do you mean, dear?

Tommy—'Cause ma said Lizzy'd fished for yer a long time, but she'd hooked yer at last!—Punch.

The Picnic, the Beautiful Picnic.

Now let us to the woodland ide, where trees their welcome wraps, for spring no longer lingers in old burly winter's lap. In picnic garb we'll ramble forth and sit beneath the trees and have our hides all chopped and hacked with strings of bumble bees. We'll gayly don our linsey-woets and thin seersucker pants, and sit beside the gurgling stream while o'er us crawl the ants. We'll swallow picnic lemonade to moisten down our grub, which people make by soaking one cheap lemon in a tub. The guileless fenion we shall eat, devour the clammy pie, and sit on bowls of custard while a tear bedims our eye. We'll sip the mustard in the sun, the pepper in the tea, and try with all our might to show that we are filled with glee. Then let us to the picnic hie, our baskets in our hands, and homeward come filled up with woe, and leaves and dust and sand.—Atchison (Kan.) Globe.

Had a Boom.

"Has this town ever had a boom?" inquired a Boston man of a native who was looking around a railroad depot in Nebraska.

"I should remark!" was the ready reply. "Help things much?"

"Well, that's a question. We boomed in two groceries, a mile of sidewalk, three eastern writers, a new store and five saloons in one year, and real estate went up 30 per cent."

"Then it must have helped?"

"Yes, but we all got so infernal stuck up that me and another feller are the only two men in town what speak to each other, and seventeen persons backslid from one church alone."—Wall Street News.

French Politics.

Mrs. Bagley—William, are the French an intelligent people?

Bagley—Susan, I am amazed! The French are civilized to the highest degree.

Mrs. B—All the same, they must be stupid. I have noticed that about a dozen French men have been trying to make a cabinet for a week or two and they can't do it. Now my brother in Boston—

Bagley (in anguish)—Great Heavens, Susan, don't let the neighbors know that your brother is a carpenter.—Philadelphia Call.

H'm!

Madame rings furiously for the valet de chambre:

"Antoine," she cries, "this letter has been opened."

"Madame?—"

"I know it was my husband who has done it. Confess or I will discharge you at once."

"It was not monsieur. I confess, madame, that it was myself."

"Oh, well (more gently), that makes a difference. You may go."—Paris Paper.

Get Along with Economy.

"You know, of course," said the old man to the young man, "that my daughter has $100,000 in her own right?"

"Yes, sir, but, great Scott, $100,000 is enough for two! Why, I'm economical to meanness."—New York Sun.

Feminine Diplomacy.

"I can't understand, my dear, why it is that you, who have such an excellent man for a husband, should quarrel with him so often."

"Don't you? Well, it is because he always brings me home a present at night to make up. See?"—French Pun.

An Object Lesson at the Park.

Mr. Hogan—Save me, Eileen; thim's the same kaind av rock Oi seen the mornin' afther Kelly christened!

Mrs. Hogan—John, it's me t'inks the howly mother'll absolute yez from the furnichure yez broke."—Judge.

Got Away Safe.

Banko Skorer—Isn't this Mr. Smith, of Smithville?

Stranger—No; I'm Mr. Keely, of Philadelphia.

Banko Skorer moves off in great haste.—New York Sun.

He, She and It.

She (parrot in one hand, dog in the other)—Yes, I'll send, we've got everything, I believe, so we'll be ready.

He—Why, I gave it to you.

She—I know; and I gave it back to you.

He—Well, by Hercules! I haven't gone and left it in the parlor car.—Exchange.

NOTICE.

To all parties interested in Driven or Drilled Wells, in the Counties of Union and Somerset, excepting the city of Plainfield. This is to certify that Jeremiah VanWinkle, Esq., is the only authorized agent for Hoyt's Iron Clad Driven or Drilled Wells from January 1st, 1888, to Jan. 1st, 1888, all parties in the above Counties who have had the above wells in use during the time mentioned, and such parties who may use of them in the city of Plainfield from Jan. 1888, to Nov. 27, 1888, will receive proper and authorized receipts duly signed by Mr. Green, on payment of the Royalties to the authorized collector J. VanWinkle.

Dated June 14, 1887.

JOHN ULRICH, Attorney for
B. F. Green.

14-6

NOTICE TO THE PUBLIC.

Since the decision of the United States Supreme Court in the Driven Well case Mr. B. F. Greene has given notice to parties using drive wells, that legal proceedings will would be commenced. That the people of Plainfield could be assessed and pay a royalty to the person not entitled there to. I would hereby give notice that Mr. B. F. Green is not entitled all his right, title, and interest, to the township of Plainfield to Abram Sebring, on November 27, 1869, and Theodore Vail administrator assigned all of Abram Sebrings interest to the undersigned, and my title to the same has been sustained in three suits in the U. S. Circuit Court. I have retained Walter L. Reid, as my Counsel and propose to collect a royalty on every well in the Township (not City of Plainfield) dated by me, since November 27, 1869.

WILLIAM J. NELSON.

Dated, June 13, 1887. 13-3

JOTTINGS.

—Fire Board meeting to-night.

—Plainfield avenue is being treated to a coating of crushed stone.

—The work on the new fire well on South Second street is progressing rapidly.

—Ladies and children can keep cool the warmest day by wearing white lawn suits as sold at the Bee Hive.

—The Somerset County Board of Freeholders held their regular monthly meeting in the Town House at Somerville to-day.

—The case to test the validity of the fire-tax ordinance of this city will be argued in the Supreme Court at Trenton to-morrow.

—Men are engaged repairing the dwelling house on Madison avenue between Third and Fourth street, recently destroyed by fire.

—On the spacious and elegant lawn of Mrs. Gen. F. Opdyke on West Seventh street, a lawn party is to be given as elsewhere advertised.

—A runaway horse on West Third street yesterday afternoon succeeded in demolishing the wagon to which he was attached. It was afterwards caught.

—The semi-annual election of officers of the Season Society, Boys' Branch of the Y. M. C. A., will be held at the Association rooms this evening at eight o'clock. Plans in regard to a summer camp will be discussed at the meeting.

—A Norwegian, who was under the influence of liquor, was put off the 2.04 train in this city yesterday afternoon and locked up in the station house to give him a chance to sleep off the effects of his debauch. He could not speak English language. This morning he was discharged.

—The members of St. Mary's T. A. B. Society held their regular June meeting in St. Mary's Hall at eight o'clock last evening. After the transaction of the routine business President John Harding was appointed a delegate to represent the society in the National Convention to be held in Philadelphia in August, and the meeting adjourned.

—Mary Tobin, the young woman from this city, who was arrested at Elizabeth, in company with two other girls Friday night for disorderly conduct, and who was committed to the county Jail for thirty days, in default of twenty dollars, the fine imposed, was released from custody yesterday afternoon, her father paying the fine together with the costs.

—A German living at Fanwood, by mistake Saturday evening boarded the Philadelphia express train due in this city at 8.40 p. m., and not discovering his error jumped off while the train was running at a high rate of speed. In landing his right hand came in contact with the steel rail, severely wrenching it, and he also received painful injuries about the body and face.

—Yesterday afternoon two young men of Plainfield visited Bound Brook for the purpose of "taking in" that village. They entered a saloon to ascertain "what time it was" (?) so they say, when a discussion arose, in which they took a prominent part. They now wear mourning in the region of their eyes and are otherwise pretty well bruised up. They are the lucky sick of Plainfield.

—About a dozen members of Winfield Scott Post, G. A. R., will go to Brooklyn on the 5.35 train this evening to take part in the grand reception tendered to the National Commander, Governor Fairchild of Wisconsin. They will be the guests of Winchester Post. There will be a large parade and the Winfield Scott Post will wear its full uniform in a body. The reception will be held at the armory of the 13th Regiment.

—A coachman named Bernard Kelly, in the employ of Seymour Hait, was kicked by one of Mr. Hait's horse as he was attending to his usual duties on Sunday morning. His injuries were found to be very severe and he was taken to the Muhlenberg Hospital. The beast kicked Kelly twice, first on the right leg which turned him completely around, and again on the left side of his body. No bones were broken and the man is somewhat improved to-day.

—A stranger, who said he was from Worcester, Mass., called on us to-day. He said the Pond Company had their own contractor, who would probably do most of the work in painting up the new buildings. It is also proposed to have a Worcester man come here and start another daily paper, and to call the locality of the new works Pondville. The stranger declined to give his name. He had grey beard and wore a diagonal suit and Derby hat, and was tall.

—Asa Taylor and Howard Thompson were arrested on Friday afternoon for jumping on the cars at the depot, and Justice Nash fined them $2.50 each.

—The reunion of the Eleventh New Jersey Volunteers occurs here on Thursday. The exercises open at Music Hall at ten o'clock. A number of prominent military gentleman will be here and make short addresses.

—At the meeting of the Directors of the Hillside Cemetery held at the Public Library building last evening it was decided to have the cemetery grounds open on the afternoon of Saturday, June 25, from three to five o'clock for the sale of lots.

—A missionary meeting for ladies was held at four o'clock yesterday afternoon in the chapel at Crescent Avenue Church. Mrs. Scribner, of East Front street, presided; Miss Grace Wilder addressed the young people present, and spoke of the missionary work in foreign countries. She illustrated her talk by charts. Her sections among the people were unconverted heathen marked by dark spots. There was a large and interested audience of ladies present. Miss Wilder was born in India, is a young lady and graduate of Mount Holyoke. Her parents have for the past forty years been missionaries in Cawnpore, India, and her brother and a friend are now traveling around the country advancing the missionary cause. They already have 2,250 young men and women, who will accompany them when they return to India, which will probably be in September.

—"Uncle Tom's Cabin" will be produced in Music Hall on Thursday evening by the New York Ideal Dramatic Company. This great moral drama of Harriet Beecher Stowe's is quite aged and has been produced until every one is thoroughly acquainted with it, but it never seems to lose its freshness and always attracts large audiences. William A. Lovilla will take the part of "George Harris," the fugitive slave, and will also act as "Simon Leyrer," the villian. He has played these parts at different times and ought to be fanciful with them. Miss Kate Singleton, of Daily's Theatre, New York, will act as "Aunt Ophelia." W. H. Turner, who was formerly connected with Chanfrau's Octoroon Company, will take the part of "Uncle Tom," and Miss McGregory, who will act as star next season in the same company will be the Quakess. "Lawyer Marks" will be taken by Jaques Martin, a comedian of the Union Square Theatre, New York.

N. S. M.

November Simultaneous Meetings.

This is a movement modelled after the F.S.M., (February Simultaneous Meetings) of the Church Missionary Society of England. It is inaugurated by the Synod of New Jersey of the Presbyterian Church: and looks to a series of meetings (in behalf of Foreign Missions) throughout the entire state during the week Nov. 13-20 inclusive.

Inaugurated by the Presbyterian church it is not designed as a denominational movement. Nor is it to be a movement primarily in the interest of a "Board" or the raising of money. Its central purpose is to place in unique prominence before the people of this State the command of our risen Lord, "Go ye into all the world and preach the Gospel to the whole creation."

The Foreign Missionary movement which, not so long ago, was looked at as "the dream of a dreamer who dreams that he had been dreaming," has become the most conspicuous, significant, and vital practical influence of the century. Napoleon, it is said, changed the whole face of Europe. Foreign missions are changing the face of the world, and that permanently and for good. They who contribute in any way to its support form constituent parts of the gulf stream whose warm, life-giving currents are flowing onward with increasing volume to the healing and beautifying of the world. Those who in any way oppose, are, as Paul declares, "Contrary to" the civilization, commercial prosperity and redemption of "all men."

It is the design of the N. S. M. to bring these facts to the attention of all, even the most indifferent and antagonistic. In other words, by a simultaneous movement widely advertised—all in all, and each for all their are words—looking to God above for help—to blow a trumpet blast for missions here in New Jersey which will ring in the ears of every inhabitant thereof and they will go abroad over the United States and the world, till the whole land shall know that there is such a thing as Missions and be implelled to desire to have part in its advance.

In Plainfield, the 15th of the N. M. propose, under the guidance of a competent State Committee, to hold a series of meetings during the week beginning with Sunday 13th, and ending with Saturday the 19th of Nov. 1887. The general plan of these meetings will be announced at a later date.

We are sure that the people of the State without regard to denominational affinities, will look forward to the issue of the N. S. M. with hopeful interest.

Sheriff vs. Freeholders.

On Friday in the Supreme Court at Trenton arguments were heard in the case of Sheriff George M. Stiles vs. the Board of Chosen Freeholders and Warden Cahill. The question involved is as to the right of the Freeholders and the Warden to the control of the jail.

The arguments were made in the main court, and requests were made for an early decision. All their arguments—looking to God above for help—to blow a trumpet blast for missions here in New Jersey which will ring in the ears of every inhabitant thereof and they will go abroad over the United States and the world, till the whole land shall know that there is such a thing as Missions and be impelled to desire to have part in its advance.

In other counties similar action is being taken. Sheriffs and Solicitor Hutchinson for the Water Board of Washington Township filed a plea in response to Sheriff Worthington's quo warranto demanding possession of the jail.

Robbery on Somerset Street.

During the noon hour yesterday the butcher shop of George Feller, on Somerset street, was robbed of a small sum of money. An entrance was effected by the rear door, and and the lock on the money drawer was wrenched off. Mr. Feller says there was about $3.50 in change in the drawer, which is missing. The safe in the office, the door of which was open, contained about two hundred dollars, but the thief, in his haste to escape, did not notice it, and consequently missed a big haul. This is the second time Mr. Feller's store has been robbed: the first time the thief did not succeed in securing anything but a pocket book, containing a lot of old bills. There is no clue that will enable the authorities to capture the thief.

SOME LOCAL HISTORY.

INTERESTING FACTS GATHERED BY THE NEWS.

Gep's Ancestry.—The Founder of the First Plainfield Band. —Owner of Washington Rock, and Builder of its Macadamized road.

Gershom Frazee, of Two Bridges, which is midway between Plainfield and Rahway, was a revolutionary soldier, whose ancestry were from Scotland and Holland. They located in Amboy in 1668, and afterwards at Woodbridge, Middlesex county. Gershom was a farmer and was engaged plowing one day when he heard firing as if a battle was in progress. He left his plow in the field mounted his horse and hurried to the front. About two miles from this city, where the British and Revolutionary army were engaged in a skirmish. He took part and did splendid service for three years, following the fortunes of the revolutionary army. During his absence he assisted in building a fort on the site now known as Fort Hamilton. His wife to whom he was married in 1750, was a Miss Eunice Lambert, and to them were born four sons and two daughters. These were Abraham, John, Moses, Polly, Easter and Randolph. The children all died unmarried. Abraham, after locating in New York, John in Cincinnati, Ohio, Moses remained on the homestead, dying there. Easter married Rahway Bonnell, of a man named Morris Marsh, and was the mother of Gershom Marsh, of Rahway, and Isaac Marsh, now residing there, and of Rachel, who was married in Plainfield to Benjamin Smith, residing on Second Front street, then owned by Randolph Frazee, and afterwards known as the "Buena Vista" hotel, the Rev. Leah Bonnell, who died here a few a years ago, eighty-six years old, performing the ceremony, she being a member of the Rahway Presbyterian church, on East Front street, of which Mr. Bond was pastor. The couple removed to Rahway where Rachel died shortly after. Polly married Nathaniel Bonnell, of Rahway, and was the mother of Augustus Bonnell, who resided there, but died without issue. Randolph located in Plainfield in 1811. Abraham the oldest son referred to had four children, two sons and two daughters, Hiram, Phineas, Eliza Ann and Phoebe. Phoebe became the wife of Henry Augustus Harding Martin the first tax collector of Plainfield. He was born at Metuchen, Middlesex county, Sept. 8, 1788, and was collector from 1850 to 1874, twenty-four years, Collector Martin died in 1874. The widow still resides residing on West Second street, near the corner of Park avenue, and is the mother of Augustus and James Martin, grocers, on the corner of Park avenue and Second street. She is also the mother of two daughters, Sarah and Catherine. She had also a third son, Augustus is married, James and the two daughters are unmarried, and reside at home, and the younger son is a resident of Newark. Moses, who remained on the old homestead, married Sarah Lee of Two Bridges, and of their six children, three sons and three daughters, the oldest son and the two youngest daughters are still surviving, residing out West.

Randolph Frazee, the youngest of the family of the old soldier referred to, upon locating in Plainfield in 1811, at the age of sixteen years, became apprentiecd to Caleb Freeman, to be taught the hat-making business in the old Freeman factory on East Front street, then in the rear of Sheriff Stiles new building. Randolph, in 1830, was married to Sarah Burrell of Bridgeton, near Rahway, and they took up their residence on Peace street here, then known as "Quaker Road." The couple had ten children, six sons and four daughters, three of the daughters dying in infancy. The survivors were John Lee, Gershom, James L., Augustus M., Abraham, Juliet and Samuel. John died in Plainfield ten years ago, and Abraham here some two years ago. James located in Newark and Juliet married William Morgan, a portrait painter, and they resided in Newark at Green-point, L. I. Gershom, familiarly known as "Gep old 'dier," Augustus and Samuel remained residents of Plainfield. Gep married Sophia Eickman, of Plainfield, two children were born to them, a daughter and Augustus married Nancy B. Southard, of Plainfield, in 1847, and they have had ten children, four only surviving. These are Esther, wife of Alexander Sargent, of Second street, Plainfield, in her twenty-eighth year. Euphemia S., a young woman and Whitney, age 18 years. Samuel married Miss Nellie Stewart, of Newark. They had six children, all but one living at this date. Sarah, the oldest, was married to a prominent citizen, of Ottawa, Canada, where she still resides. Her husband and Edison, the electrician are brothers-in-law. Eliza, the second oldest, is the wife of Anthony Kriger, register of the gas works, Elizabeth, Adelia, the third daughter, is the wife of Charles Wahl, of Orchard place, the baker, to whom she was married about a year ago, and about six months ago became the mother of a thirteen pound boy, whose advent was duly recorded in these columns. The other members of the family, Frank, Carrie, Annie, Ada, Alice and Albert, reside at home.

The wife of John, whose demise occurred ten years ago, died about fifteen years ago. The couple had two daughters. The wife was formerly Miss Nettie Marsh, niece of Gershom Marsh, and the children were Frank E. Marsh, and the daughters went west, where they were both married, one now residing in Chicago and the other in Milwaukee.

Abraham, who died here two years ago had for his wife Amanda Randolph of Greenbrook, and they had five children, all sons. One son died in infancy. Joseph the oldest is a U. S. Government detective in Montreal, the other three, Alexander, Ludlow, and James, are married and located here, Alexander residing on Somerset street, Ludlow on Second street with his mother, and James on North avenue. Alexander has three children, Ludlow none, and James one child.

James, who located in Newark, engaged in the silverplating business, and at the outbreak of the war, had over 300 hands in his employ. The war ruined him, as all his business was south. He owned a fine farm adjoining Elizabethtown of this city, and known as Wells farm. He also owned Washington Rock, and built the hotel which was destroyed by fire a few years ago. He also built the macadamized road from the foot of the mountain to Washington Rock. He resided on Washington Rock in 1860, when the foundation of a grand monument on the rock to be known as the Washington Monument, and which foundation may be still seen there, was laid, but the work was never completed. He married Miss Euphemia Stevens of Newark, and a son Randolph and a daughter Ida were born to them. The wife died and some years afterward James married Miss Nellie Burnett of Madison, N. J., and another boy Howard, and a girl Hattie, were born to them. James, a colonel of the war, was worth $125,000, and after his downfall, located in Columbus, O., where he still resides. Ida, Randolph, is married and resides in Jacksonville, Fla. His daughter, Ida, is the wife of Sidney Hanson, of the proprietors of the Rockaway Wire Mills of Trenton N. J., which made the wire for the Brooklyn Bridge and is a man of much prominence in Trenton. He is also a man of wealth, due to his enterprise and ability. Howard died in Columbus O., and Hattie became the wife of Wm. John Eagleson, who holds a prominent position in the soldiers' home at Dayton O. Capt. Eagleson served through the war of the rebellion, and was disabled from wounds.

In 1816, Randolph Frazee, who had, as stated, returned to, became a few years before, apprenticed to the hatters trade here, bought a clarionet for his own diversion, and, after teaching himself how to play it, he induced others to join him in forming a band. This was in May 1820, and the following is a list of the names of the members of the original organization: Joseph Crowell of Philadelphia, who was engaged to teach the band, Randolph Frazee, James C. Ayres, Jephtha Randolph, Randolph Platt Drake, Isaac Sims, Recompense Potter, Andrew Putman, James Leonard, John Leonard, Nathan Manning, Benjamin Frazee's washing, and Ira Runyon. Jarvis B. Ayres and John L. Laing. Randolph Frazee was elected captain.

Captain Ayres was chosen the first band ever known in Plainfield. At that time there were but four streets here: Front street, then known as Second, Second street, Peace street and Samptown road, now called Plainfield avenue. The population was three hundred souls. The organization was called the Plainfield Reed Band, Randolph Frazee, leader. Of the original members, Jephtha Randolph was the father of Platt Randolph, and their posterity has since become extinct. Andrew Putman was the grandfather of Lewis C. Putnam of West Second street.

George Sims was a bachelor.

Nathan Manning was the father of William Manning of West Third street.

Recompense Potter, familiarly called "Newy Potter," was an uncle of Joseph Martin of Grove street.

John L. Laing was the father of Voorhees Laing of Dunellen.

John L. Frazee was the oldest son of Randolph Frazee, the leader referred to above. Randolph Frazee was at that time twenty-three years old.

James C. Ayres was the father of William Ayres, painter, now of corner of Crescent avenue and Third street, and brother of William C. Ayres of Second street.

Jarvis B. Ayres was the father of William J. Leonard, the present editor of The Times, and city clerk, (?) Mr. Leonard.

John Leonard was a bachelor and a brother of James.

Seattle Runyon was a bachelor.

Thomas Stead resided in the Notch on the mountain and owned the woolen mill near Watchung Station. This mill, later, was ruined by a freshet, the ruins being still visible.

Ira Runyon was the father of undertaker Alexander Runyon, of this city, and now retired.

Platt Drake was the father of T. B. and Newton Drake of this city. T. B., an upholsterer, now residing on Somerset, and Newton, a tailor, is in business in the Boston Clothing House on Park avenue.

Jarvis B. Ayres was a hatter, and married, but trace has been lost of his children, of which he had five or six.

The wife of Mr. Ayres and the foregoing that "Gep old 'dier," is closely connected with the history of Plainfield.

PERSONAL.

Frank Dunham of West Fifth street, has recovered from the recent injuries to his foot caused by the falling of a stone, and he is once more able to attend to business.

Miss Bella O'Reilly, sister of Mrs. Eugene A. Laine, of West Second street, left this city yesterday morning for Clifton Springs, N. Y., where she will spend the summer.

Arthur Chamberlain, of East Fourth street this city, is at present filling the vacancy at the Western Union Telegraph office, caused by the illness of Mr. Schermerhorn, the manager.

Ex-city Judge Suydam was in town this morning and looks somewhat improved since his trip to the Pennsylvania mountains. He will go back again to-day, but will return every few days to look after his business interests.

Councilman J. B. Dumont of East Seventh street is making some extensive improvements to his residence. The short portico has been replaced with a large one extending half way around the east side of the house, two large bay windows have been placed in the same side of the house, the whole house is being painted and when completed will present a very attractive appearance.

An item in this morning's New York World says: "Rev. Father O'Sullivan, who was until a short time ago assistant to Father Smyth at the Church of St. Paul of the Cross, Jersey City Heights, has been appointed assistant to Father E. E. Smyth, of Plainfield. Father O'Sullivan was chaplain of a British regiment under Gordon in the Soudan, and has travelled in all parts of the world. He is still under thirty-five and is one of the most active men in the ministry. Father O'Sullivan says that he was close to Gordon's death, for he saw the body after it had been cut up into little pieces by the natives."

Mrs. T. T. Kinney, wife of the proprietor of the Newark Advertiser; Mrs. Fleming, wife of the lawyer, Col. Fleming; Miss Fannie Parker, the exceedingly talented daughter of Hon. Cortlandt Parker, the distinguished lawyer, and other prominent ladies of Newark, about six months ago established an art school in Newark, and induced artist Julian Scott, of this city, to give them the benefit of his assistance. Mr. Scott has visited the school in a friendly way each week, and the skill he has rendered is being highly spoken of. Miss Parker is also an artist of rare ability, and gives much attention to the school, contributing largely to its success. This charming young lady speaks the French, Italian, German and Russian languages with great fluency and is besides most accomplished in music.

Five gentlemen gathered at the residence of Firman Walker, on Emily street, in North Plainfield, on Sunday, whose ages aggregate 404 years. They were: William Estil, of West Fifth street, 79 years; Firman Walker, of Emily street, 78 years; Fraser Whitehead, of Warfield Division S. of T. is increasing in membership every week, and it now has about fifty members. About twenty applications will be acted upon this week.

The topic for discussion at to-night's meeting of the Citizen Association is: "Borough Taxes and Improvement for Gain." Different members of the association will take part in the debate.

The Entertainment Committee for July Fourth increased their members by adding Wm. S. Welsh, J. J. Wahl, J. M. C. Marsh, Edward Bell and George Lines. The committee will meet to-night at George Lines for the purpose of making all preparations and prepare a programme for festivities.

The Misses Habistons gave a party at the handsome residence of their parents on Broad street last evening. The house was prettily decorated with flowers for the occasion. About twenty couple were present and enjoyed themselves with music and dancing until the "wee sma' hours."

SCOTCH PLAINS.

A number of family friends gathered at the residence of David A. Sayre, Saturday evening, June 11th, to meet Mr. and Mrs. William Clifton Todd, from Brooklyn, N. Y.

Croquet and lawn race caused considerable mirth and fun, and was won by Mrs. Thomas J. Nicholl, of Scotch Plains and Mr. John Miller, of Elizabeth, each taking a prize.

Chandler Elected.

CONCORD, June 14.—Chandler, Republican, was elected in the State Senate to-day by a vote of 15 to 8 to the United States Senate. The house has not yet voted.

LATER.—The House has voted W. E. Chandler for U. S. Senator, giving him 195 votes against 136 for Bingham.

$100,000 for $300,000.

NEWARK, June 14—The Chancellor this morning through Vice-Chancellor VanVleet, authorised Receiver Wilkinson to accept the $100,000 offered by the Directors of the New ark Savings Institution in settlement of the claims for $300,000 of the creditors against them.

To Publish the Laws.

TRENTON, June 14—Governor Green and Comptroller Anderson have designated the papers for the publication of the laws of the State of New Jersey. Among the list are found the following: Times, Frednian and Home News, New Brunswick, Journal, Herald and Call, Newark, Evening News and Constitutionalist, Plainfield, Democrat and Advocate, Rahway.

Meeting of the Bicycle Club.

The regular monthly meeting of the Plainfield Bicycle Club was held last evening in the Club House on Sycamore street. Ralph Opdyke and G. E. Raymond were elected active members. The racing committee proposed a race to be held at three o'clock p. m. on Saturday, June 25, starting from the New Market Hotel, thence to New Brunswick and return, ending at New Brooklyn. Dr. J. H. Cooley requested that a resolution of thanks be conveyed to the Mesonri Bicycle Club at St. Louis in return for their many kindnesss to him while attending at the L. A. W. meet at that place last month. He also requested that the club attend the meet at Orange on July 4th in a body, where the Orange Wheelmen will receive and entertain them. Among the many other races there will be a club championship race at Roseville during the afternoon of July 4th. A motion was made and carried to raise $30. by assessment, ten of which was set aside for a gold medal to be awarded to the winner of the New Brunswick race and the remainder for a club championship gold medal for the winners of the club race. Prizes for the latter race are given power to pay of as much of the mortgage as possible. After transacting several minor matters the meeting was adjourned.

Sons of Temperance.

Perseverance Division, Sons of Temperance, was instituted Saturday night, at Elizabeth, by the grand officers of the order in this State. G. W. Hankinson, of Trenton, officiated, assisted by members from that city and Newark, Metuchen, Westfield, Plainfield, New Brunswick and Elizabeth. Among the grand officers who attended were Messrs. Ford, Ransom, Robbins, Perine, Fowler, Day and Vanemburg. Over three hundred members were present from divisions throughout the State. It was the largest assemblage ever brought together on such an occasion. Plainfield and Father Mathew divisions, of Elizabeth, were strongly represented. The new society starts out with fifty members and under favorable auspices.

Service of Song.

In the Crescent Avenue Church next Sunday evening at 8 o'clock another service of song will be held. The selections for the choir are:

"Chorus and Trio from Athalie," Mendelssohn
"Fountain of Life Eternal," (trio), Campana
"Lord with Glowing Heart," ..... Jahnke
"Light of the Better Morning," (solo) ..Buck
"Draw Nigh to Me Ye Weary," ..... Lasen
Be Thou Faithful unto Death," ..... Mendelssohn
"When Thou Comest," (inflammatus), Rossini

On and after June 26th, during the summer, the Sunday Second Service will be held at 5 p. m.

WESTFIELD.

R. O. Wiltke, of Calicoon, N. Y. State, is visiting his relative, C. F. Wiltke.

Warfield Division S. of T. is increasing in membership every week, and it now has about fifty members. About twenty applications will be acted upon this week.

The topic for discussion at to-night's meeting of the Citizen Association is: "Borough Taxes and Improvement for Gain." Different members of the association will take part in the debate.

The Entertainment Committee for July Fourth increased their members by adding Wm. S. Welsh, J. J. Wahl, J. M. C. Marsh, Edward Bell and George Lines. The committee will meet to-night at George Lines for the purpose of making all preparations and prepare a programme for festivities.

EGGS—Dull; state, 13½@13½c; western, 12½@ 13c.

FACTORY INSPECTORS.

NEW YORK STATE DIVIDED INTO EIGHT INSPECTION DISTRICTS.

The Men Who Are to be the Guardians of Life and Limb in the Hives of Industry—All of the Appointees Are Workingmen.

ALBANY, June 14.—The anti-climax to the factory law of last year, introduced by Senator McMahon, of Buffalo, and signed by Governor Hill on May 25, has occasioned a great deal of work for the labor bureau. For the first time eight deputy inspectors are created by it. The bill was inspired by Factory Inspectors Connolly and Feaney, who framed the amendatory clauses. Improvements of the statute has many to permit of proper supervision by the state. The law of 1886 prohibited the employment of children under the age of 15 in manufacturing establishments, and also made early hours the limit of a week's work for all women under 21 years of age and boys under 18 years of age in such establishments. The new law, besides creating the eight new offices, goes a great deal further. It gives the inspectors power to order the erection of adequate fire escapes, and to prohibit the hiring as an employee of any child under fourteen years, unless parents of the ages of children employed, insists upon automatic contrivances to protect elevator shafts, and authorizes the inspectors to order trap doors over hatchways and well holes, and when, in the opinion of the inspectors it is necessary, corrugated rubber strips must be placed on all stairways to prevent accidents from slipping. Stairways must have balusters, and be closed on the bottom and sides where women are employed, and retiring rooms must be properly screened and separate where persons of both sexes are working.

The law also empowers the factory inspector to order the use of fire buckets, and to assign a deputy inspector to each. It was this clause which caused the commotion, as the friends of nearly every prominent man wanted to obtain him one of the places, and the result was that over 400 persons applied. Yesterday seven men visited the secretary of state's room and took the oath of office. Their names and districts are as follows:

First District—John Jordan, of Brooklyn, a hatter and a member of the Brooklyn Labor union. His district comprises Kings, Queens, Suffolk and Richmond counties.

Second District—George A. McKay, of New York, who resigned the secretaryship of the New York Central Labor union last Sunday to accept the office. The New York county alone comprises his jurisdiction.

Third District—Hiram Blanchard, of Peekskill, an active member of the Iron Moulders' union. The third district is composed of Westchester, Rockland, Orange, Putnam, Dutchess, Ulster, Sullivan, Greene and Columbia counties.

Fourth District—The Hon. James P. Hooley, of Troy, Labor member of the Legislature for 1883-84. He has charge of the factories in Albany, Rensselaer, Schenectady, Saratoga, Washington, Warren, Hamilton, Fulton, Essex, Montgomery and Schoharie counties.

Fifth District—George L. Gustig, of Syracuse, president of the Trades assembly and editor of The Laborer of that city. His district includes Jefferson, Franklin, Lewis, Clinton, St. Lawrence, Oneida, Oswego, Madison and Onondaga counties.

Sixth District—Johnson Beers, of Elmira, accountant, and for many years a prominent Knight of Labor in the southern tier. He will have charge of the factories in Delaware, Otsego, Tioga, Tompkins, Schuyler and Chemung counties.

Seventh District—Appointment not made; composed of Cayuga, Wayne, Seneca, Monroe, Livingston, Ontario, Yates and Steuben counties.

Eighth District—Francis V. Coe, shoemaker and master workman of District No. 46, Knights of Labor, which includes three counties in the western part of the state. His district will also have charge of the factories in Orleans, Niagara, Genesee, Wyoming, Allegany, Cattaraugus, Chautauqua and Erie.

The new officers were taken in a body to Governor Hill and introduced. They are all middle aged, active men, and the governor expressed himself as pleased with their fine appearance. They left for their homes last evening to prepare for their duties.

Evicted Tenants to be Again Evicted.

NEW YORK, June 14.—Among the thousand and odd immigrants landed at Castle Garden yesterday were four families from Belmullett, County Mayo, Ireland. Four of the children were afflicted with staring children made up the four families, and they came here because they had been evicted from their homes in Belmullet and because the poor law authorities paid their passage here. The men told a pitiful story of their sufferings in the old country, and were almost will with joy at reaching America, but Superintendent Jackson had not permit them to legally land, and sent them to Ward's island pending an examination into the payment of their passage by the Irish relief committee. If this is found to be the case they will be sent back.

Accident to a Girl Student of Cornell.

ITHICA, N. Y., June 14.—Miss Mary B. Hill, daughter of N. H. Hill, of Jamestown, a student in the freshman class at Cornell university, met with an accident Sunday, the results of which proved fatal. She was returning from church at noon, and in the vicinity of Cascadilla creek left the narrow place in the path turned to speak to some one behind her. The sixth beneath her gave way, and she fell sixty feet to the bottom of the gorge. In the evening a severe collapse occurred, supposed to be caused by internal hemorrhage, and the patient continued to sink until 2 o'clock yesterday morning, when she passed away.

Excitement Among the Poles.

LA SALLE, Ills., June 14.—Much feeling and excitement has been manifested here for the past two days, growing out of the finding on Saturday of the body of Frank Kasha, a Polander, in a well on Eighth street. She had last been seen in the vicinity where Gustave Miller, a gardener, was at work. Miller was arrested yesterday and immediately transferred to Ottawa, on account of numerous threats made by the Poles to lynch him. The girl's head was fractured by a blow from some blunt instrument. The mayor has ordered the saloons closed in the Polish locality.

The Silverworkers.

NEW YORK, June 14.—All attempts at a settlement of the silverworkers lockout having failed, it is now feared by those who wished to see a peaceful termination of this quarrel that hostilities will be renewed by both sides with greater bitterness than ever before. The trouble began the first week in March. The men claim that a recently discussed to establish a co-operative factory may be put in practical shape in a few days.

THE ATLANTIC WINS AGAIN.

The Race of the Corinthian Yacht Club Yesterday.

NEW YORK, June 14.—In the Corinthian Yacht club regatta yesterday there was a fine breeze between Sandy Hook and Sandy Hook lightship, although there was little wind inside, either at start or finish. The start was postponed nearly an hour, and until the wind came on, when the Atlantic and Galatea went ahead. The Atlantic soon passed the Galatea, and was not afterward headed. The Boston cutter Heron gave the Stranger a close rub in the stiff breeze. The English yawl Cythera, in her first American race, was left behind at the start, but was leading well up to the finish when the race was carried away. The cutter Idlern also lost part of her topmast rigging. Eighteen yachts in the seven classes started. Accompanying the start was the Corinthian Club Culprit Fay beat the Beatrice in the sixth class, the Kangaroo beat the Alex F. in the seventh class, the Stranger had a walkover in the first class, and the Gleam had a walkover in the eighth class. The Atlantic, Galatea and other large boats were becalmed in the lower bay, and finished in the evening. Atlantic, Cinderella, Ulida, Culprit Fay and Gleam won in their classes.

BETWEEN TWO FIRES.

The Servian Minister's Lot is Not a Happy One.

BELGRADE, June 14.—M. Ristics has finally formed a new government, which is constituted as follows: M. Ristics, president and minister of foreign affairs; M. Milochevich, minister of the interior; M. Vasijevics, minister of public worship; M. Vicumovics, minister of justice; M. Mirjics, minister of finance, and Gen. Bojitchevics, minister of war.

It is stated the delay in forming a ministry was due to the knowledge of the Russian objections to Ristics. The constitution that the cabinet will find itself confronted with the duty of settling the question of a divorce between King Milan and Queen Natalie. In view of the certainty that a decision in favor of the queen—the only just one that can be given—will arouse the wrath of the king, while a decision in favor of the king will surely offend Russia, the position of the Servian cabinet minister at this time is very like that of the youthful apple thief on the fence, with a farmer on the one side and the dog on the other.

PRINCE FREDERICK WILLIAM.

Alarming Reports of the Royal Sufferer's Condition.

BERLIN, June 14.—An eminent German specialist writes to The Tagblatt stating his belief that the condition of the crown prince is most serious, and expressing his opinion that the disease will end fatally. It will be necessary to remove the larynx, which operation can only be performed at the cost of the permanent loss of the patient's voice.

London Truth says: The Charlottenburg, an extended article, dwells upon the adverse reports of the condition of the crown prince of Prussia with great emphasis, and asserts that Prince Bismarck considers the death from the malady afflicting him as certain.

Germany's Emperor Improving.

BERLIN, June 14.—The emperor's health is improving rapidly. The irritation of his eyelids, which has been very painful to him, is subsiding, and in other respects the betterment of his condition is quite marked.

The Prize Cattle Fund.

ALBANY, June 14.—Comptroller Alfred C. Chapin has issued notice to the various racing and driving associations in the state notifying them that they are required to report to his department the gross receipts upon each race by them during the year. In accordance with the new pool law these associations will have to pay upon the gross receipts a tax of 5 per cent. The revenue so collected will form a fund which will be annually dispersed for prizes for improving the breed of cattle, sheep and horses at the various county fairs throughout the state.

Mr. Ellis Secures the Children.

TRENTON, N. J., June 14.—Vice-Chancellor Bird granted the petition of the novelist Ellis for divorce from his wife, on the ground of adultery with Mr. Van Camp. Mr. Ellis was awarded the custody of the children. The vice-chancellor, in giving his decision, said: "The testimony against Mrs. Ellis and Van Camp, characterizing the latter as a thief, is considered by the court as the cant of a colossal advertising scheme, and indirectly mention Mr. Joseph Pulitzer, Mr. John H. Sraren, Mr. Erastus Wiman and others as being parties to a plan to advertise themselves and their business at the expense of a vain old man.

Indian Graduates of Carlisle.

CARLISLE, Pa., June 14.—The Carlisle Indian training school sent seventy three pupils to their homes to-day, all of whom have completed the course of the school. They were mostly of the Sioux tribes. The customary annual examination of the institute will be dispensed with on account of the extensive building now in progress. One building is being erected over a hundred feet in length by thirty-six in width. It will be three stories high and will be paid for by contributions made by pupils of the school and by citizens.

Charged with High Treason.

LEIPSIC, June 14.—At the trial of the merchant Stockmann, Dr. Christie Bergens all of the accused pleaded not guilty of the charge of high treason, though they admitted that they had given Bismarck a list of the lawyers. It was read, they claimed, a secret order, but a social organization, whose sole aim was to increase the patriotism and promote the efficiency of French youth. They denied having had any design on the part of the league or of individuals to reconquer the Reichland by force.

Two Men Burned at Rockaway.

FAR ROCKAWAY, L. I., June 14.—A building used for the manufacture of oil gas adjoining the Seaside house at Rockaway Beach was destroyed by fire last evening. The fire caused an explosion of gasoline, and Timothy Brosnan, one of the proprietors of the hotel, and Edward Bailey, a fireman, were badly burned while escaping from the burning building. The hotel narrowly escaped destruction.

Fatal Stabbing Affair.

PROVIDENCE, June 14.—Henry Thornton, aged 18 years, son of the manager of Allen's print works, was stabbed by Joseph T. Chayer, a German, and will probably die. Chayer claims he used the knife in self-defense. Thornton's companions claim that they were set upon by a crowd of roughs and Thornton, in resisting, was stabbed.

ST. ANTHONY'S SHRINE.

YESTERDAY'S FEAST DAY AT THE CHURCH OF THE HOLY NAME.

Seeking Relief from the Ills That Flesh is Heir To—A Description of the Wonderful Chapel and Its Many Religious Relics.

PITTSBURG, June 14.—For years the Church of the Holy Name, on Troy hill, Allegheny, of which the Rev. Mr. Mollinger is the pastor for more than twenty years, has been a place to which the afflicted of all denominations have made pilgrimages. The numberless cures which have been ascribed to the intercession of St. Anthony have caused the fame of the church to spread to every part of the country.

Yesterday was the feast day of the patron saint. For several days hundreds of the afflicted have been arriving on trains and in other conveyances to take part in the observance of the day and to appeal to the saint for relief from their ills. From daylight the roads leading to Troy hill were thronged with people in carriages and on foot, hurrying to the church at least they could, so as to get within the auditorium. It was a pathetic sight, but there was not one among the throng who did not seem buoyed up by the thought that relief from bodily ills was at hand in the old hill overlooking the Allegheny river. It is estimated that between 3,000 and 4,000 persons were present for the high mass, which was sung at 10:30 o'clock. The church has a seating capacity of about 1,000, but by 10 o'clock fully 1,200 were in the building. The members of the congregation attended services also in the afternoon and during the night, and making excellent gallows. To one of these the body of Betters was found hanging yesterday. The work was quietly done in night by the infuriated citizens of Jamestown.

AN OLD-FASHIONED FOURTH.

The City Fathers of Buffalo Appropriate $10,000 for a Celebration.

BUFFALO, June 14.—The common council met yesterday afternoon and proceeded to take up the Fourth of July question. Considerable agitation for an "old fashioned Fourth" has been going on lately, and Fourth in which an exact reproduction of the scenes attended so infelicitly impress upon the youthful mind the fact that on that day something over a century ago the American eagle first spread its pinions and screamed—and the council yesterday yielded so far to public opinion as to appropriate about $10,000 for the occasion. A regular row took place in the afternoon, for which $2,000 has been appropriated for prizes. Hon. George R. Wending has accepted an invitation to deliver the oration of the day, and other features are liberally provided for. An immense crowd of strangers is expected.

The Clemenceau-Foucher "Duel."

PARIS, June 14.—The Paris newspapers ridicule the Clemenceau-Foucher duel unmercifully, many of them going so far as to suggest a prearrangement between the seconds of the combatants. Be that as it may, however, the meeting has added to the prestige of neither gentlemen, and both will be exceedingly lucky if they escape the consequence without loss of influence, for in no country in the world than France can a public man be so quickly and thoroughly crushed by ridicule.

Is It Murder?

READING, Pa., June 14.—The body of Sylvester Fritz, supposed to have been murdered in Maiden Creek township, then thrown into some obscure place, was found in a mine-hole. No marks of violence have been discovered upon the body and investigation is in progress. It is the theory of some persons that he lost his way in the dark, and having wandered in the direction of the mine-hole, he fell in and drowned. An inquest will be held on the body.

Terrible Mine Explosion.

CHATTANOOGA, Tenn., June 14.—A gentleman from South Pittsburg brings the information of a horrible explosion at the Inman mines, near that place, about 4 o'clock yesterday afternoon. While a number of the mines was crowded with miners a box of dynamite exploded with awful results. No definite details could be procured, but it is reported that the mine was blown to pieces and eight or ten others were terribly injured, some of whom will die.

Herr Most Wanted in New Jersey.

NEW YORK, June 14.—Reporter Wiltbarger and the boy Winn, who were injured in the skirmish at the Anarchist picnic in Cedar Grove, N. J., on May 30th, have recovered from the effects of their wounds. County Prosecutor Winfield, of Hudson county, N. J., is trying to get evidence on which to make a requisition on Governor Hill for Herr Most's extradition on the charge of inciting to murder, but has not yet succeeded.

Jay Gould's Great Scheme.

LITTLE ROCK, June 13.—It is reported in Conway County that a company, Kansas and all of his western territory with the Mississippi river at Arkansas City, Ark., by the construction of a railroad from Fort Smith to that place. A railroad is now being graded from Conway are let as far as Gibson, I. T. When completed this will be the shortest and most direct outlet for the traffic of his western territory to the southern seaports.

The Birthday of Our National Emblem.

HARTFORD, Conn., June 14.—This city yesterday celebrated the 110th anniversary of the adoption of the Stars and Stripes as the nation's emblem. Flags were displayed from the principal buildings. At 2 o'clock the statue to Nathan Hale, the martyr Spy, was unveiled at the capitol, Charles Dudley Warner making the address of presentation to the state. Governor Lounsbury replying. The statue is by Richard Gerhardt.

Serious Accidents at a Slight Fire.

BALTIMORE, June 14.—A slight fire occurred at the place of James L. Wiles & Co., on Marsh market space. Henry B. Debring, a fireman, was severely burned by an explosion of gasoline. Thomas Hughes, one of the firm's employes, jumped from a window during the excitement and broke his back, and Charles Nelson, a driver, was badly hurt by falling from engine No. 11 while turning a corner.

Banker Daniel Manning.

NEW YORK, June 14.—Ex-Secretary Manning visited the Western National bank, of which he is president, and assumed active charge of the duties of the office. He was in excellent spirits, and said he had been anxious to get to work. He will go to Albany the last of this week to arrange his private affairs preparatory to a permanent residence in New York city.

Was It Poison?

ERIE, Pa., June 14.—Mr. and Mrs. Isaac Rosenweig and their two sons, Edward and Whitney, were stricken down after eating, in addition to the symptoms above everywhere, Edward lies at the point of death, the others will recover.

A CLERGYMAN'S ANGER.

Beating to Death a Boy Who Had Accidentally Injured Him.

REIDSVILLE, N. C., June 14.—The Rev. George Pittard is pastor of the North Fork Methodist church. He is popular with a large congregation, and teacher in a boys' school during the week. As he was crossing the lawn a few days ago during recess the boys were playing baseball, and a ball thrown by the center fielder struck Mr. Pittard in the face, bruising him severely. The boy at once ran forward, begged pardon, and said the occurrence was entirely accidental. The minister, infuriated by the pain, knocked the boy down, and jumped on him and beating him about until the boys united and drove the preacher away. The lad, who was in a terrible condition, was tenderly carried to the dormitory by his fellow students. The minister called to the boys later and upbraided them for not dragging their schoolmate from him sooner, and said he had no idea what he was doing, that his temper at the time had crazed him. The boy has just died, and Mr. Pittard has fled.

AN OHIO LYNCHING.

Hanged on a Natural Gibbet at the Fair Grounds.

JAMESTOWN, O., June 14.—On Saturday night Peter Betters, a colored man, made a desperate attempt to assault a colored woman, living in Xenia, aged nearly 75 years. He gained entrance to her log cabin by digging a trench from the outside. A desperate struggle ensued, in which the old woman was severely injured. The negro's blood was greatly excited, and the fugitive negro was hunted down. In the fair grounds, where the tornado played such fearful havoc some time ago, he was found, and during the storm, and making excellent gallows. To one of these the body of Betters was found hanging yesterday. The work was quietly done in night by the infuriated citizens of Jamestown.

AN OLD-FASHIONED FOURTH.

The City Fathers of Buffalo Appropriate $10,000 for a Celebration.

BUFFALO, June 14.—The common council met yesterday afternoon and proceeded to take up the Fourth of July question. Considerable agitation for an "old fashioned Fourth" has been going on lately, a Fourth in which an exact reproduction of the scenes attended so infelicitly impress upon the youthful mind the fact that on that day something over a century ago the American eagle first spread its pinions and screamed—and the council yesterday yielded so far to public opinion as to appropriate about $10,000 for the occasion. BARCLAY PEAK GUILTY

OF THE MURDER OF HIS COUSIN, MARY ANDERSON.

Remarkable Exhibition of Nerve by the Condemned Man—A Motion for a New Trial to be Made—An Affecting Scene at the Jail.

MOUNT HOLLY, N. J., June 14.—Nearly two hours were occupied by Judge Parker yesterday in his charge to the jury in the Peak murder trial. The charge was satisfactory to both prosecution and defense. There was a rush for the court house at 2 o'clock, when the ringing of the bell announced that the jury had agreed.

When the jury came into court he scanned their faces with the nearest approach to anxiety he has shown during the trial, and what he saw was by no means calculated to reassure him. An unfavorable verdict was as already indicated by the countenance of the jurors as though it had been printed in ink thereon. Peak's father sat next to his son, but the other members of the family were not present.

There was a moment of breathless suspense in the crowded court room, and then the clerk called upon the jury to rise and look upon the defendant. Peak was likewise directed to stand up and look upon the jury.

"Gentlemen of the jury, have you agreed upon a verdict?"

Foreman Endicott, responding—"We have."

"Do you find Barclay W. Peak guilty or not guilty, as he stands charged upon this indictment?"

"Guilty of murder in the first degree."

For a moment the silence was awful. All eyes were fixed upon the young defendant, who stood calmly awaiting his judges, with one hand lightly resting upon the back of his chair. Not a muscle of his frame quivered nor did he even change color, and people looked on with astonishment at the sublime exhibition of nerve.

Then the jury was polled, each juror responding, "Guilty," when his name was called, and the unconscious questions and answers were an actual relief to those who heard them, so intense had been the strain.

When taken back to his cell in the county jail Peak was visited by his mother and sister and brother. The former threw her arms around Barclay's neck and cried as though her heart would break. Finally her emotion subsided, and she left. Barclay broke down, too, and cried Mrs. Peak told him, referring to his probable fate, that she would not remain long in this world after her boy left it, and the scene was altogether so affecting that Sheriff Emley, who was standing near, cried too

The jury, it is understood, voted upon the case but once after it was submitted by Judge Parker in his charge, and each time was unanimous in its verdict against the defendant. The latter will be closely guarded henceforth to prevent any attempt at suicide or escape.

Judge Parker said he would adjourn the court until June 28, when a motion for a new trial will be made in Peak's behalf. They claim, among other reasons, that the jury has been very lax in its conduct, and that several persons interested in the trial have on various occasions spoken to Foreman Endicott, Mr. Borden and others.

Blown Into Eternity.

OLEAN, N. Y., June 14.—Low Hart, an employe of the Gallagher Torpedo company, was blown into eternity near here yesterday. He was on a wagon loaded with nitro-glycerine shells which exploded with terrific force, demolishing the wagon and the fences in the vicinity, hurling his mangled body several hundred feet. Several people in the vicinity were thrown down by the concussion.

After the Hostiles.

BENSON, A. T., June 14.—A hostile band of Apaches were surprised by Lieut. Johnson's command in the Dragoon mountains. The horses and baggage of the Indians were cap ured. The Apaches scattered among the rocks and will probably try to make their way back to San Carlos. The troops are in hot pursuit, however, and the hostiles will probably be captured.

The Philadelphia Anti-Poverty'ites.

PHILADELPHIA, June 14.—John Russell Young, ex-minister to China, was last night chosen president of the Anti-Poverty society of this city. This gives him a prominent place in the Henry George movement. Mr. W. J. Atkinson resigned the position in Mr. Young's favor.

Began as a Stage Driver.

BROOKLYN, June 14.—Seymour L. Husted, who settled in Brooklyn fifty years ago, beginning life as a stage driver, died yesterday, leaving about $8,000,000. He was president of the Dime Savings bank, and largely interested in insurance, railroad and other corporations.

A Missing Girl Found.

NEW HAVEN, June 14.—The police yesterday found Ellen Gorham, who disappeared last Wednesday, locked up in a room at Birmingham. They accuse John Conners, of Bridgeport, of having procured her abduction. Conners has been arrested.

Our Export Trade.

WASHINGTON, June 14.—The total value of the principal articles of provisions exported from the United States during May past was $5,584,255, against $6,624,386 in May, 1886.

CONDENSED NEWS.

The break in the coffee boom has come and three firms have suspended. Some grades of coffee dropped over three cents a pound.

Miss Mattie Murphy, a Williamsburg school teacher, and the daughter of James Murphy, a foreman of a school commissioner in Brooklyn, was driven from her home by her father on account of a family quarrel.

A number of carpenters have gone on strike in Chicago, but business is said not to be embarrassed thereby. A larger strike of carpenters has occurred at Newburg, N. Y.

A child is said to have vomited a live snake in Cortland.

Dr. Keane, bishop of Richmond, Va., arrived on the Servia, after a six months' visit to Rome on business connected with the new Catholic university. He said he was a mistake to suppose that Dr. McGlynn had been condemned, as the merits of the question on which he had been summoned to Rome had not yet been considered.

Stephen Poole, a colored dock laborer, of Brooklyn, shot and dangerously wounded his wife in a fit of jealousy and then committed suicide.

A careful review of the hop situation in the Mohawk Valley, N. Y., indicates that, barring possible ravages by vermin, one-third of an average crop will be harvested.

The Chicago Socialistic society addressed a petition to the governor asking him to veto the Merritt conspiracy bill.

Frank B. Dobson, the famous banjoist, died in New York.

John W. Lake, serving a five year sentence at Sing Sing, was pardoned by the governor, through the efforts of his 13-year-old son.

of New York, Furnishes Insurance at cost. No assessments. Also Traveller's Life and Accident Insurance Co., of Hartford. Also sells tickets of reliable companies for 20 days. Office with H. M. Thorn, opposite depot, Plainfield, N. J. 7—3 m. fe. 1a.

FARM AND GARDEN.

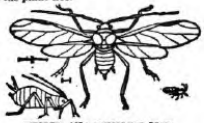
HOW AND WHEN TO PROPAGATE PLANTS BY LAYERS.

The Importance of Long Rows in Field Culture—All About Plant Lice, with Directions for Their Extermination by the Entomologist, Professor Cook.

Perhaps no family of insects is more widely distributed or more generally destructive and better known than plant lice. They are plump, soft, rotund themselves with any single part of a plant. Some work on the roots and sap the vitality of the herb or tree; others draw their nourishment from the stems and twigs and thus blight the plants; still others suck the vitality from bud and foliage. A few work on both roots and leaves. Most cultivated vegetables, grains and trees have their characteristic plant louse enemies.

The first cut represents winged and wingless lice of natural size, also magnified.

Plant lice on outside vegetation pass the winter as little, dark, oblong eggs, usually fastened to the buds. With the *warm days of spring these eggs hatch*, and so rapidly do the lice increase that soon they are counted by millions. Another characteristic feature of plant lice is their sudden disappearance. This welcome riddance is due, Professor A. J. Cook, entomologist of the Michigan Agricultural college, states, to insect enemies of the plant lice.



WINGED AND WINGLESS LICE.

The syphus fly, represented in the second cut, also the little maggot near it, revel amidst the plant lice. The maggot especially seems never satiated, but is constantly banqueting on the lice. The lady bird beetles, especially the larva or grubs (see second cut), also do signal service in the same direction. Many people through ignorance destroy these useful insects. There are several species of the ichneumon family of the genus aphidius, very minute parasites, which also destroy these lice in great numbers.

A remedy suggested by Professor Cook, in a recent bulletin issued, is kerosene and *soap mixture. To make this he uses one-*fourth pound of hard soap, preferably whale oil soap, and one quart of water. This is heated until the soap is dissolved, when one pint of kerosene oil is added and the whole agitated till a permanent emulsion or mixture is formed. The agitation is easily secured by use of a force pump, pumping the liquid with force back into the vessel holding it. He then adds water so that there shall be kerosene in the proportion of one to fifteen.

ENEMIES OF THE PLANT LICE.

On the snowball, where the leaves roll up and protect the lice, it is found that an application of this mixture, in the proportion of one to eight, used just before the plant lice eggs hatch, is astonishingly efficient. This early treatment is also quite necessary in such cases as the snowball, and is to be recommended on the score of economy in case of nursery stock and fruit trees. At an early stage it is less difficult to make thorough application than after the tree or plant is in full foliage.

The liquid must be applied with energy; a gentle sprinkling is not sufficient; it ought to be put on with a good force *pump that will scatter the liquid every-*where.

Propagating by Layers.

A layer, says Mr. A. S. Faller in American Agriculturist, is only a cutting that is allowed to remain attached to the parent plant until it has produced roots through which it may collect sustenance for self support.

LAYERED BRANCH OF A TREE.

Various methods are employed to produce this result, such as ringing, girdling, twisting, tonguing or partly dividing that portion of the stem or branch on which it is desired the roots shall be formed. All these distortions of the stems or branches of the plant layered are for one object—that is, to check the downward flow of sap. Roots then become necessary for supplying sustenance to the cutting, or layer, *and are consequently formed. The* most common method of propagating layers is that of making a tongue on the under side of the branch. The operation is performed thus: Make an incision in the branch or part of the plant to be layered, just below a bud, cutting through the bark and into the branch to the depth of one-quarter to one-half the diameter; then pass the knife upward for an inch or more, according to the size and nature of the plant being layered, splitting the branch lengthwise, forming the tongue as *shown in figure 1, at a. The branch is* then bent down and fastened in its place by means of a hooked peg c, and the soil tied up to a stake, b, as shown in figure 1. That part on which the incision is made is covered with soil or other material that will exclude it from light and air, while at the same time keeping it moist, thus aiding the development of roots. In making layers of certain kinds of small herbaceous plants and slender vines it will not be necessary to use pegs or stakes to hold the layer in place; but with larger plants they are usually needed for keeping the layered branch steady and in one position while the new roots are being emitted.

The proper time for making layers is as variable as is that for making cuttings. But, as a general rule, layers can be made while the parent plant is growing most rapidly, because roots will be produced at such times more readily than at any other, although with several kinds it will make very little difference, as they produce roots freely under almost all conditions and from all parts of the plant. With the larger proportion of both deciduous and evergreen trees and shrubs, layering should not begin until the leaves have *fully expanded and the growth of the* season is fairly under way. If layered earlier, many of the deciduous trees and shrubs will "bleed," as it is termed, from the wounds made on the layered parts, and the sap flowing from these wounds will often corrode and otherwise injure the exposed cells and greatly prevent the production of roots therefrom. Wounds made in the branches of coniferous trees during the winter and early spring months are usually soon healed by the exuding resin, the severed and otherwise exposed cells thereby becoming fully protected, not only against the influence of moisture from without, but also effectually prevent the formation of a callus and production of roots. For this reason, such conifers as pines, spruce, and firs should always be layered in the fall of the year, when the sap is thickest and flowing most rapidly, as during the first growth of spring and early summer. With *some kinds of* hardy deciduous trees and shrubs the autumn is the better season in which to make layers.

Of Interest to Peach Growers.

In a recent circular from Commissioner Henderson, of Georgia, it is made apparent that *in the partial failures of the peach* crop the past winter and spring that those that escape the effects of frost are generally the same in each recurrence of such failure, and it is further stated that peach orchards having fully matured wood from frosts are found here and there throughout the state. In order to call more general attention to this question and to learn from the observation of persons in all parts of the state the cause of these partial exemptions, inquiries were made of the correspondents of the department. These answered in part of interest wherever the peach is cultivated, and are here given in substance:

In the answers received nearly all agree in stating that the fruit least injured is on the high grounds. The direction of the slope of the hill, while it may affect the time of blooming, is not of such little importance compared with that of its attitude above the surrounding country. The topographical positions that prove best for the certain crop may be given as follows:

1. Mountain sides, from the base to the altitude of 800 feet, regardless of the direction of slope. 2. Narrow valleys and coves sheltered by high mountains. 3. Narrow areas skirting the base of high mountains on all sides. 4. Ridges or hills and descending table lands 100 to 500 feet above adjacent valleys. 5. Borders of large streams and lakes. Even in south Georgia, where the country is generally level, the exemption from the higher portions of slopes adjacent to river valleys is quite common, *and has its application not only* to the peach crop, but to all fruits and vegetables subject to injury from late spring frosts.

Large Fields and Long Rows.

Mr. Bonham, secretary of the Ohio state board of agriculture, is a practical farmer and stock breeder, pork making being one of his specialties. To make pork profitably Mr. Bonham grows large quantities of corn to be fed with other food. His corn fields contain twenty-five acres each and are 110 rods long and about one-third that width. The corn is planted in check rows so it can be cultivated both ways. To illustrate the difference in cost of cultivating large and small fields Mr. T. B. Terry, who recently visited Mr. Bonham, tells in The Country Gentleman that one of these twenty-five acre fields can be cultivated the long way *in three days, while the cross cultivation* the short way takes four and a half days. The New England Farmer, commenting on the above, says: "In 1885 the cost of the corn in the field, exclusive of land rent, was $5.20 per acre, or nine cents per bushel. Including the rent of land the cost would be about $13 per acre. And this is the same whether the crop be large or small. If 100 bushels are produced per acre the cost per bushel would consequently be only thirteen cents, while a crop of fifty bushels would cost twenty-six cents per bushel. The average yield through the country being only twenty-six bushels the cost must be about fifty cents per bushel. Large fields and long rows will do much to reduce the cost of this crop."

Dehorning Cattle.

As to dehorning cattle many opinions *are given. Some few breeders think* the practice will injure the prepotency of dairy bulls. Others think dairy cows are so mild and gentle that they will do no injury with their horns. Others cannot bring themselves to think that a hornless Jersey will look like a Jersey. The majority of breeders seem to agree that the horn is nothing but a weapon, of no use to an animal placed out of the reach of fighting, as all dairy cows should be. They would be ready to dehorn their cattle if it could be so arranged that all breeders would do it. The best time to destroy the horn, says Rural New Yorker, is while the animal is a calf. The operation is then no more painful than that of castration. Few stock men breeders would not think of such a thing as sawing the horns off their cows; now they are quite ready to admit that the horns are useless and could be readily and easily disposed of. *The question is, where will the horns* be in five years more at this rate of progression?

To Break a Horse from Turning Around.

Some horses have a habit, when frightened by strange objects which they meet upon the road, of turning around so abruptly as to endanger the occupants of the carriage if a four wheeled vehicle. Colts, when first harnessed, if driven to a certain point and turned around, often insist upon repeating the trick every time they reach that particular spot. They generally turn in the same direction every time. The simplest remedy that we have ever heard for breaking up this habit is to take a light, strong bamboo fishpole, fasten the small end to the ring of the bit upon the side toward which the animal is accustomed to turn. Bring the other end of the pole back into the carriage. When *the youngster attempts* the turning feat, push upon the pole with sufficient force to prevent his carrying out his purpose. This may not work in all cases where the animal is fully grown, and has been addicted to the habit for a long time, but it will break up the habit in the majority of cases when taken in season.—American Cultivator.

YOUNG FOLKS' COLUMN.

HOW THE AGE OF A DEER IS TOLD BY HIS ANTLERS.

A Little Girl Tells What She Knows About the Great American Waterfall. Queen Victoria and the Celebration of the Golden Jubilee.

With the many things that are being said and written about the golden jubilee of Queen Victoria, of England, it may be well for a plain to the younger readers of this column what this jubilee or celebration means.

QUEEN VICTORIA.

It has always been customary to celebrate the birth and coronation days of kings and queens. Sometimes this has been done out of respect to a time honored custom; sometimes because of the people's fondness for ceremony and stately processions, and occasionally because they truly loved the man or woman who ruled over them.

On June 20 Victoria will have reigned as *queen in England fifty years, or half a cen*tury, an unusually long and peaceful reign for any country. It is safe to assume that the celebration of her fiftieth coronation day will be on a grand scale, and that representatives from many countries will participate in it.

The Social Game of "Mummy."

The game "Mummy" bids fair to rival the donkey in popularity, says a writer in Harper's Bazar. Divide the company into two or three parties, according to number; send one division into an adjoining room, where they should be arranged in a semicircle, the larger ones on the lower chairs, to decrease the height, the smaller ones vice versa; carefully envrap each one in a sheet, leaving only the eyes uncovered, but concealing the dress so entirely that it is even a matter of conjecture whether it be a man or a woman. When the wrapping has been arranged each mummy must keep it in place by the hand, and when all are ready the other divisions come in and guess to whom the eyes belong. It gives one a very uncanny feeling to have a pair of questioning eyes peering into one's own, and the disguise is so complete those that are rapped and dressed are not often recognized. When all have had a *guess throw off the sheets and let the other* divisions change places until all have been alternately guessed and mummied. This game may be varied by stretching heavy paper, in which groups of eye slits have been cut, across the door-way. For economy's sake we pasted together the large, almost *perfect sheets that dry goods come wrapped* in, and which the merchants willingly gave us, drew a circle around behind the paper, and threw all the light possible on the eyes that fill these slits in the paper.

A Composition About Niagara.

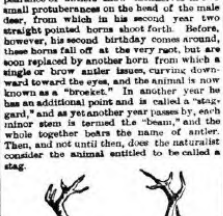
A little girl in The Pearl, not long ago, wrote the following concise and comprehensive composition on Niagara: Among the many wonders of this world is the great cataract of Niagara. It falls 164 feet. A short distance below the falls plies a small steamer, properly named the "Maid of the Mist," which conveys visitors within a few feet of the base of the cataract, where they can view it to their satisfaction, each being enveloped in a rubber suit to protect his clothes from the heavy mist.

In and about Niagara are many places of interest. Among them may be mentioned Table Rock, the Horseshoe falls, the Cave of the Winds, Goat Island, Three Sisters Islands, and last, but not least, the whirlpool rapids. The suspension bridge and the railroad bridge span the chasm that forms the bed of the Niagara river below the falls.

At Lundy's lane, within sound of the roar of this mighty cataract, was fought the bloodiest battle of the war of 1812.

The Antlers of the Stag.

The antlers are to the stag what a strongly marked countenance is to man. They are the badge by which he is known and identified year after year, in mountain and in forest. *When about seven months* old the first appearance of antlers show themselves in two small protuberances on the head of the male deer, from which in his second year two straight pointed horns shoot forth. Before, however, his second birthday comes round, these horns fall off at the very root, but are soon replaced by another horn from which a single or brow antler issues, curving downward toward the eyes, and the animal is now known as a "brocket." In another year he has an additional point and is called a "stagyard," and as yet another year passes by, each minor stem is termed its "beam," and the whole together bears the name of antler. Then, and not until then, does the naturalist consider the animal entitled to be called a stag.



A STAG.

Each year the stag casts his horns, adding one or more sprays, as these are termed, with each change, but the main formation remains the same.

A Curious Experiment.

To gain a semblance of perpetual motion, put a few pieces of camphor gum in a basin of clean water. These pieces of camphor will soon begin a peculiar motion, traversing every part of the surface of the water, but may instantly be stopped by dropping into the water the minutest quantity of an oily substance.

Fools Rush In, Etc.

A big, burly westerner jostled against a tall, well built young man with a light mustache in the Nicollet house yesterday. The young man tried to get out of the other's way, but unfortunately he struck the western man's foot.

"I beg your pardon," said the young man with the light mustache. "Excuse my awkwardness."

"Confound your stupidity," the westerner burst forth. "Why in —— can't you be more careful? I've a good notion to break your head. A man like you ought to be thrashed, and I ought to do it."

The young man merely bowed his head and moved away.

"Who is that fellow?" asked the westerner of Clerk Shaffer.

"That's Pat Killen, who is matched to fight Sullivan," was the reply.

The westerner was not visible the remainder of the day.—St. Paul Globe.

Like a Common Father.

The remarkable fact that Senator Cameron like other "big" men is baby from the jerramblator and carried it into his house in his arms so astonished a Washington correspondent that it forms the burden of his narrative. The spectacle of a great statesman unbending is always impressive, but the correspondent was almost as much astonished as was Mr. Pepys when he called upon the Duke of York, and, as he recorded with awe, found him playing with his children "like a common father."—Boston Transcript.

Didn't Like It.

A farmer said: One thing I don't like about city folks—they be either so stuck up that yer can't reach 'em with a hay stack pole, or so blamed friendly that they forget to pay their board.

DONT GO

to Asbury Park, mountains or any other place,, without first getting your outfit in shoes at Doane & Van Arsdale 22 *West Front Street.*

Good Advice Presented Free to a Young Swell Head.

"If Lord John Buckhorn an' fo de hall to-night had libbed to hev him come for'd," said Brother Gardner as the dust settled down and the members got their feet drawn in.

Lord John, who is a young man and a young member, made his way up the center aisle and as he reached the president's desk the latter continued:

"Brudder Buckhorn, I h'ar dat you an' talkin' 'bout a tower to Yurup, an' you is sayin' you is goine to rent a box in de pos' offis, an' you has bin talkin' considerable 'bout ownin' some pine lands down in Alabama."

"Yes, sah."

"An' you gwine to tower to Yurup?"

"N-no, sah."

"Got yer box in de pos' offis picked out?"

"Not yit, sah."

"An' I speckem pine lands in Alabama an' all in your eye?"

"I-yes, sah."

"I reckon so. You an' a young man, an' you has de swell head an' want-to swell out. You want to be tooken fur a millyonaire, when you dont' ah'm but seben dollars a week and you an wearin' a hat of de style of three y'ars ago. Brudder Buckhorn, I want to spoke a few plain words to you.

"When dat disease called de swell head keeps a grip on a young man arter he has passed his twenty-fo'th birthday, he am purty aartin to eventooally bring up in de lunatic asylum or de pore house.

"De passon who goes aroun' purtendin' to be what he ain't, he's laid out to hoe de hardest kind of a row. He may fool a few ole women an' young children, but de rest of de world will tumble to him fur what he is. Not only dat, but dey will dispise him fur his hypocrisy. Samuel Slim, who airns about fo' dollars a week, he will circulate around an' tell de people dat he was gwine to open a nashunal bank or build an elevator or organize a steamboat line. He might git a dollar's worf of credit at some ole'ner grocery, an' some shoemaker might put a lift on one of his heels an' chalk it down, but in a few weeks Samuel would take a powerful drop, an' when he came down de concussion would jar de buttons off his shirt.

"Spose'n, Brudder Buckhorn, dat Jay Gould should go aroun' claimin' dat he writ de works of Shakspeare, or dat de mayor of Buffalo should hob up an' declar dat he writ 'Paradise Lost?' Can't you h'ar de dull thud with which dey would strike de airth in about ten days?

"Jist sot yerself down some day an' emagine what would hev happened had Horace Greeley claimed that he was George de Fourth, or had John Jacob Astor asserted that he was Capt. Kidd!

"I say to you, Brudder Buckhorn, drap it! Be who you ar' an' what you ar'. If you git up in de week, bel de, would know it. If you drop back to $5, don't lie about it. An' about your disease. It doan' kerry a person off, like gallopin' consumpshun or typhoid fever, but it holds him up to de ridicule an' contempt of all sensible men. It might help you to soak your head in a pail of warm water. If it doan' you would better put yer head between two freight kyars an' let 'em come together on ye. You may now resceme yer seat, an' if the ailment continues to grow on ye I'll look about for some cheap remedy which de club kin apply."—Detroit Free Press.

An Unexpected Suggestion.

"Say, Gaddersby," said Mr. Smith, as he came into the fish store with a lot of tackle in his hand, "I want you to give me some fish to take home with me. Kind o' fix 'em up so that they'll look as if they've been caught to-day, will you?"

"Certainly, sir," said the grocer. "How many?"

"Oh, you'd better give me three or four boss. Make it look d-cent in quantity without appearing to exaggerate, you know."

"Yes, sir. But you'd better take white fish, hadn't you?"

"Why? What makes you think so?"

"Oh, nothing, except that your wife was down here early this morning and said if you dropped in with a fish pole over your shoulder and a generally wa-le-some look, to have you take white fish if possible, as she liked that kind better than any other."

Mr. Smith took white fish.—Merchant Traveler.

Rapid Transit.

Hotel Clerk—Look at my new diamond. It's a darling, ain't it?

Guest—It's a fine stone. May I ask where you got it?

Hotel Clerk—It's one of the French crown jewels that's just been auctioned.

Guest—See here, that auction only began two days ago. From Paris to Omaha is quite a stretch.

Hotel Clerk—Guess everybody knows that. Do you suppose I'd risk such a stone on ship board? No, sir. It came by cable, that stone did.

Guest—Take something with me.—Chicago Times.

A Preliminary Report.

A youngster of the mature age of 10, captain of the Boomer clubs, a baseball nine in an adjoining city, recently received a challenge from a rival club to play, which he accepted. Before the game took place, however, he prepared two reports for the local papers, either one of which could be used on occasion demanded. One set forth in glowing terms a victorious result for the nine. The other merely left a space for his score, with this concluding comment: "The game was lost to the Boomers through bad umpiring." This was taking time by the forelock, indeed.—Boston Gazette.

Of No Interest to Him.

Mrs. Guzzlebumer, the wife of the eminent brewer, was reading the evening paper:

"Vat vas der news mit dot paper?" asked Mr. Guzzlebumer, who drops into English occasionally.

"I see der hop crop was going to be a bad failure this year already," replied the lady.

"Vell," said the eminent brewer, "off you can'd find more interesting news as dot, den I goes to sleeping mit myself quick."

And in five minutes he was snoring.—New York Sun.

It Runs in the Family.

Smith—I hear your son Patrick is about to take the vows of the church. I trust he will bear them well.

O'Rourke—Ah, that he will, no doubt. One of them, especially, will give him no trouble at all.

Smith—And what is that?

O'Rourke—The vow of poverty, sure. Patrick was always brought up that way; not one of our family could ever get a cent ahead. It will come naturally to him, do you see?—Lowell Citizen.

A Change of Station.

"I was not always in this station of life," said the hack driver plaintively as he reached for his fee.

"Indeed?"

"No, sir. At one time I was a well known and promising lawyer."

"Well, how do you feel over your promotion?" was the unfeeling rejoinder.—Merchant Traveler.

Legal Notices.

NOTICE.

To all parties interested in Driven or Drilled Wells, in the Counties of Union and Somerset, excepting the city of Plainfield. This is to certify that I, Jeremiah Dunham, Esq., as the duly authorized collector for Royalties due Mr. D. F. Green on Driven or Drilled Wells from January 1st, 1886, to Jan. 14, 1887, all parties in the above Counties who had the above wells in use, during the time mentioned, and such parties who made use of them in the city of Plainfield from Jan. 14th, 1886, to Nov. 27, 1886, will receive a receipt and authorized receipts will be signed by me on receipt of the Royalties to the authorized collector J. Van Winkle.

Dated June 14, 1887.

JOHN ULRICH, Attorney for
14-6 B. F. Green.

NOTICE TO THE PUBLIC.

Since the decision of the United States Supreme Court in the Driven Well case, Mr. D. F. Greene has given notice to parties using driven wells, to pay a royalty or suit would be commenced, but the people of Plainfield may not be misled and pay a royalty to the person claiming to collect the same, I would serve notice, that Mr. D. F. Green as Township of Plainfield to Abram Sebring, intends on November 27, 1886, and Theodore Vail administrator assigned all of Abram Sebrings interest to the undersigned, and my title to the same has been sustained in three terms in the U.S. Circuit Court. I have retained Walter L. Hetfield, as my counsel to prosecute to collect royalty on every well in the Township (now City) of Plainfield not driven by me, since November 27, 1886.

WILLIAM J. NELSON.
Dated, June 13, 1887. 13-3

JOTTINGS.

—Meteorological records show that last May had the smallest rainfall of any May in thirty-four years.

—A stone flagging has been substituted for the old board walk on the side and back of The Job Male Art Gallery.

—The Trustees of the Hillside Cemetery will be on the grounds on June 20 to exhibit maps and sell lots to those desiring to purchase.

—The Dunham Goodwills are down on the bills for another festival, and Jolly Dunham says, that each chorister essays to make it the best of all.

—Every constable in the State, under the law, is authorized to act as Fish Warden, and it is the duty of every person who has any knowledge of unlawful fishing to inform the officers and have the offenders prosecuted.

—"Uncle Tom's Cabin" will be given at Music Hall to-morrow night accompanied by a company of colored jubilee singers. It will be produced by the Ideal Dramatic Company of New York. This great moral drama never fails to attract large audiences.

—An enterprising Park avenue saloon keeper has a round plate glass mirror in each of two new summer swing doors at the entrances, so that each customer may see entering a respectable-looking man or woman, but there are no mirrors on the inside of the doors to show how the customer looks coming out, or he or she is able to see anything at such a time.

—The boys of the Senior Society of the Boys Branch of the Y. M. C. A., will walk to New Market to-morrow evening. Boys are requested to be in attendance at the room promptly at 7 o'clock. At their meeting last night the following officers were elected: President—F. Closson; Vice-President—H. H. Coward; Secretary—H. L. Maxon; Treasurer—Nelson Van Winkle.

—John Baptiste Kremer, a Frenchman, tried to board a moving coal train on the Central Railroad at Elizabeth yesterday. He missed his grasp and fell between the cars. The wheels passed over one of his legs and mangled it in a shocking manner. He was taken to the City Hospital, where the injured limb was amputated above the knee. Kremer was very weak after the operation, but is expected to live.

—The fifth annual reunion of the "Bloody Eleventh" takes place here to-morrow and the preparations for the reception of the members have about been completed. They will arrive in the morning about ten o'clock and will be escorted to Music Hall, where speeches will be made by General Sickles, Gen. McAllister, Gen. Carr, Lieut. Schoonover and others. Dinner will be served at Reform Hall and the officers of the organization will be elected later in the day. It is expected to make this one of the most successful re-unions ever held. The meeting in Music Hall is open to the public.

—At the regular meeting of the Somerset County Board of Freeholders, held at Somerville yesterday, a number of bills were paid and the usual routine business transacted. A committee was authorized to act in conjunction with a committee of Union County in furnishing planking for the bridge on Washington avenue, North Plainfield. The purchase of two hundred and fifty improved ballot boxes, as required by law, was authorized. The board will meet on Saturday with the Mercer County Board, at the line bridge at Stoutsburg, to consider the advisability of erecting a new one.

—Miss Bulkley, Principal of the Plainfield Public schools, this morning gave a reporter for THE NEWS the following list of the graduates from the High school department: Helena E. Horsar, Lucia N. Wood, Frank J. Hubbard, Augustus Holmes, Mary Titsworth, Abbie M. Nilliot, Lucius L. Gilbert, Eleanor Garthwaite Beal, Clara Maria Burt (valedictorian), and Walter J. Moore. Final preparations are being made by the class this week for the commencement exercises on Thursday, the 23rd. Twelve diplomas will be awarded, ten to the members of the graduating class and two to Miss Madge Sutphen and Miss Clara Bass, who have passed a two years' course of preparation in the training class and are now prepared to act as teachers. The diplomas are of a pretty design and were prepared by Mr. Smith. A very neat cut of the High school and its surroundings adorn the upper part of it. The program of the exercises for commencement day will be arranged in a few days.

THE FIRE BOARD.

The Regular Monthly Meeting Held Last Night.

The regular monthly meeting of the Plainfield Fire Board was held last evening, five members being present. Messrs. Jones, Brower, Knowland, Rogers and McClure. The reading of the minutes was on motion dispensed with. Mr. Rogers reported that the work on the new fire well, near Potter's Press Works, was progressing nicely. When Chairman Jones called for reports from the various companies a gentleman from No. 3 reported that the engine pole was in bad condition and needed attention. He said it was not safe to use the engine in its present condition. Repairs had been made to it but it was little better than before, as he thought it had been broken before it was put on again. Mr. Knowland said the companies made a mistake in not reporting such blunders before the bills were paid. On motion the president was authorized to see that the pole is fixed. No. 3 also reported that a new set of rubber valves and leathern buckets were needed. These were on motion ordered to be provided; but the motion was afterwards amended by referring the matter to Mr. Knowland with power.

A representation from the Exempt Firemen's Association asked if the exempt papers were ready yet, and Mr. Jones replied that the matter would be attended to as soon as possible.

The companies then presented the names of the following new active members for confirmation, and they were elected according to custom: No. 2—Everett Marsh; Alert Hose Co.—Peter A. Emmons; Zephyr Hook and Ladder Co.—B. H. Backman, Max Hanson, Ferdinand Gisentzer, R. R. Fairchild; Warren No. 3—William Rankin; Gazelle No. 1—Theodore Sofield. The first two gentlemen named made their appearance and were asked the stereotyped questions as to their eligibility.

On application of Gazelle No. 1, the name George Dixon was dropped from the roll because a non-resident. Alert Hose Co., reported that Mr. T. S. Burr had resigned because he was unable to do active duty. The resignation was accepted. George Clark of No. 2 also resigned. The names of officers recently elected by Alert Hose Company were confirmed.

The following claims were then presented and ordered paid:

Daniel Hogan, Jr., supplies $13.73
C. W. Krause, salary 50.00
A. M. Griffin, merchandise 18.63
Morgan Bird, coal 32.50
L. A. Rheame, coal 10.00
Charles Seyfold, moving safe 10.00
A. M. Griffin, merchandise 80
A. D. Cook & Bro., printing 22.43
M. Estell, books and stationery 8.18
W. L. Force & Bro., printing, &c 17.59

The gas bills, which had been presented at the last meeting, and had since been reduced fifty per cent. or $7.63 and $8.50 respectively, were ordered paid. The $100 from City Council for rent of the room had been presented, but the treasurer stated that he had already paid $75 for this purpose before the bill had been received, and the balance was allowed to remain as it stood for the present. A bill of $9 from the Gazelle Engine Company, for the use of a horse from October 2, 1885, to December 30, 1886, was read. It charged for 39 runs, made by the horse, at one dollar per run. The bill had been before the board on several previous occasions, and a member moved that it be laid indefinitely on the table. This was amended by Mr. Brower to be laid over until the next meeting. The amendment was adopted.

A communication was received from Mr. W. C. Butler, stating that the fire insurance policies on the apparatus belonging to the department, amounting to $11,000, would expire on the 18th inst. The premium for the next term, he said, would be higher, and he solicited a renewal of the papers. Mr. Knowland thought it was money thrown away, and he said he could not see the necessity for insuring apparatus when five men were there to watch it continually. If the firemen were not able to take care of their own apparatus he thought it ought to burn up. Another member said it did seem like a burlesque. Mr. Jones said that during a fire some years ago an engine came near being destroyed, and then he was sorry that it was not insured. The buildings are now insured for $6,600. It was moved that the matter be tabled, but it was amended so that the premium could be lowered and the board could then take further action.

The board then adjourned, but afterwards reconvened to take action respecting extra precautions for the Fourth of July. A resolution was passed authorizing the President and Chief Engineer to make arrangements for protecting the city from fire at that time. the board then adjourned.

The Driven Well Royalties.

The notice published elsewhere by the attorney of William J. Nelson that the right, title and interest in the driven well patent has been conferred on Abram Sebring in 1869, and on his death assigned by his administrators to him, and cautioning all persons not to pay royalties to any other party or parties, seems to have given out the impression that Mr. B. F. Green was attempting, through his attorney, to collect royalties from the people owning wells in the city of Plainfield. Judge Ulrich, Mr. Green's attorney, said yesterday that no attempt had been or would be made to collect from any parties in the city, except from those parties who had driven wells prior to the time the deed was transferred to Abraham Sebring, and the collections will only be made on those driven between January 14, 1808, to November 27, 1876, at which latter time the right was sold to Sebring. Notice is given elsewhere to that effect.

Mr. Nelson said yesterday that he knew Mr. Green's attorney had made no attempt to collect royalties which he claimed to be due himself, and there was no disposition to make such intimation in the notice published. All he proposed to collect was the money due him during the dates mentioned.

—A querulous correspondent wants to know how we will celebrate the Fourth? Why, with our sleeves rolled up and hard at work as usual, we suppose. We have received no gilt-edge invitations as yet to eat ice cream.

PERSONAL.

William Pierson, of Vine street, North Plainfield, will leave Saturday for Maryland to be absent several days.

Governor Fairchild, of Wisconsin has been invited to attend the reunion of the 11th New Jersey Regiment here to-morrow.

The household of L. B. Woolston, of Duer street, was made happy yesterday afternoon by the appearance of a young daughter.

Miss Maggie Reardon, of No. 74 Park avenue, starts this afternoon to visit friends in Lowell, Mass. She will be gone about a week.

W. F. Herbert, Chas. Beckman and Chas. Denckiow, spent yesterday in fishing at Bound Brook. They succeeded in bringing home a large string of fish.

Messrs. J. G. Miller, B. Frank Corriell, Israel D. Ten Eyck and William D. Sebring went to Mount Pokonoke yesterday on a fishing trip. They will return to-morrow.

W. J. Dealy and family of Harlem, are about to locate in Plainfield. Mr. Dealy is the able and genial manager of the Western Union office in New York city, the most responsible position of it kind in the world.

Bishop W. Mains of Trenton has notified Captain Hand that he will be in Plainfield this afternoon. He is the Secretary of the Eleventh New Jersey. Col. John Schoonover the last commander of the regiment will accompany him.

Mr. Burnett is about to erect a handsome new residence on his property on Madison avenue, near North street. Messrs. Pearson and Gayle have secured the contract for the erection of same. These gentlemen are also remodeling the residence of Theodore Kurshals, on Second street, and erecting a new double house for Gideon Allen on Jackson street.

Commander William Hand, George Moore, William Addis, Robert Walker, Wm. C. Smith, Henry C. Drake and Charles Silvers, of Winfield Scott Post, went to Brooklyn last night to attend the reception tendered National Commander Fairchild, of Wisconsin. They were joined by James M. Atwood, another member of the Post, and then took partin the parade as guests of Winchester Post. The armory of the 13th Regiment, where the reception was held is said to seat nearly 5,000 persons, and the building was filled. Addresses were made by many distinguished military gentlemen. The Plainfield men returned on the midnight train.

Fourth Class—Third Division.

Mabel W. Bonnell, Mabel W. Mitchell, Agnes R. J. Ringley, Grace Van Alstyne, John J. Cahill, Foster Harspoon, Edward McArdle, William Randolph, William H. Shannon.

WESTFIELD.

The Noss family gave a pleasing entertainment at Arcanum Hall last night.

The "Owls" will visit Dunellen to-night for a supper and a good time.

Mrs. F. Bausch, more familiarly known as Halsey French, passed away yesterday morning. He had been suffering with consumption for over fifteen years, and although having serious attacks at times would always rally in a few days. The last attack, however, took him a few weeks. He was in his 47th year.

—The Dunham Choristers are preparing for their annual excursion to take place next July.

Kitchen Garden School.

Yesterday afternoon a novel and most interesting entertainment was enjoyed by the children of the Kitchen Garden School. The girls in the cooking class, a new branch of the work introduced in Plainfield this year, prepared dishes which proved the practicability of the enterprise. At four o'clock the children marched in, wearing their aprons and caps, and in a few minutes were busy paring potatoes, washing beets, breaking eggs, measuring flour and sugar, and one little maid skinned an onion with no hesitation, and as much interest as though her task were a more desirable one.

After vigorous beating and stirring, many peeps into the oven, and faithful watching of the steaming contents of pots and kettles, the following bill of fare was produced:

Tomato Soup,
Warmed-over beef with potato border,
Potato salad and corn bread,
Floating island,
Cocoa.

All this was done with the calmness of experience cooks, and without mishap. In the meantime two long tables had been neatly set by the girls in the Kitchen Garden class. When all was done the children sat down to a delicious course dinner, which was daintily served by the little Misses, who took turns in waiting on the table, every thing being done according to Kitchen Garden rules. This is a growing and important branch of the W. C. T. U. work.

Secretary Vatman's Plans.

The following is taken from the Newark Evening News of Saturday: "The statement published in an afternoon paper yesterday, that Secretary Vatman, of the Y. M. C. A., had resigned to start out as a missionary, created considerable surprise. Mr. Vatman denied the report to-day and stated to a NEWS reporter that no changes would be made in the association for some time. During the past year he has been travelling over the country doing evangelical work largely in connection with Christian Commander Fairchild, of Wisconsin. The Board of Managers of the association these facts were laid by Mr. Yatman before them with the statement that there were twenty-five calls upon him to every one he could answer while engaged in his work here. This general work being imperative, he asked that on November 1 next he be released from duty here so as to do more of the outside work. The whole matter was referred to the Executive Committee, and the secretaryships of the association remain just as they were and will until next fall. Even then Mr. Vatman will hold a nominal relation with the Y. M. C. A. of Newark, possibly as advisory secretary. Mr. Yatman has no idea of doing missionary work at present, but hopes to go to Liberia some time in the future."

The "Fourth."

EDITOR EVENING NEWS:

How will the Fourth be celebrated? Nothing has been done so far by our citizens to prepare for the celebration of Independence Day. We observe many cities and towns throughout the country this year prepare to celebrate the befitting the occasion, recalling old times to inspire in the children of the present time a love for the day that they can appreciate freedom. Will not our City Fathers lead off? The program might consist of ringing of church bells and firing a national salute at sun rise. A procession of our fire companies, bicycle club, societies, Reform club, and other associations at nine o'clock; athletic sports at eleven o'clock. In the afternoon a public meeting could be held in a grove near the city, where patriotic addresses could be delivered. The celebration to end at night with fire works and a general illumination. The expense of such a holiday would not be large, and would attract many visitors to our lovely city, besides paying respect to the memory of our fore-fathers, who made this land a great nation.

A PATRIOT.

BOUND BROOK.

John F. Talmage, of Brooklyn, spent Sunday in town.

The public schools close for summer vacations July 1st.

Rev. J. B. Taylor's familiar face was seen on the street Tuesday. Mr. Taylor is now pastor of the Palisades church, Jersey City.

Eugene Ayres, esq., and wife and Sylvanus Ayres and wife of Wilkesbarre, Pa., spent Children's Day at their mother's home in Bloomington.

Mrs. D. W. C. Mather gave a Gypsy party at Chimney Rock Tuesday afternoon. A select number of invited guests enjoyed the hospitality of the genial and talented hostess.

The Reformed Sunday school decided at the teachers meeting Tuesday night not to join the Union excursion to the seashore this summer, but instead have a grand old-fashioned picnic.

Peter Koechler, jr., launched his new yacht Frankie C. after Mr. Clerc had Tuesday. She is a trim little sloop rigged vessel and fit the stiff breeze on her trial trip she outsailed the latter Carr and Mr. Koechler therefore claimed the honor of being the fastest boat on the river.

Card to the Public.

The surviving veterans of the Eleventh Reg't. N. J. Volunteers, and some of the generals under whose command they served, will be in Music Hall to-morrow (Thursday), from ten to twelve o'clock.

There will be interesting remarks by Generals Sickles, Carr, McAllister, and others. Everybody is invited to come and hear them. This is an opportunity that will never occur again in Plainfield.

Signed
Wm. Hand,
Wm. C. Smith,
T. O. Doane,
Committee of Arrangements.

—If, as one of our leading merchants who has seen the names says, there is a ring at the back of the new paper it would be very interesting to have them for publication, and the amounts they have subscribed to tide it over the campaign. But it is rather laughable at the way the cunning fox has been caught. Instead of affecting THE NEWS, as was intended, we are informed that our esteemed contemporary's daily has only served to knock the life out of his weekly. Hence his tribulation. Too bad, between two stools to come to the ground.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

1887			1886	
6 a. m.	58	58	Sun rises	4 28
9 a. m.	64	61	Sun sets	7 39
3 m.	71	71	Moon rises	
3 p. m.	80	75	Moon sets	1 14

Weather Indications.

For Thursday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, slightly warmer, fair to cloudy weather and southeasterly winds, followed by showers in the northern portions.

IS HE THE MURDERER?

The Rahway Assassin Believed to Have Been Captured.

RAHWAY, N. J., June 15.—The police claim to have arrested the murderer of the unknown girl, who was found lying by the roadside here with her throat cut from ear to ear on the morning of Saturday, March 19.

For months every effort to bring to justice the perpetrator of this foul crime has been unavailing. It seemed as if the mystery surrounding the death would never be solved and the murderer would escape the punishment he so richly deserved.

From time to time the police have claimed to have clues that were important, but they have turned out to be valueless. They now believe they have the right man. He is a German. He was employed by a Mr. Forbes, a farmer living at Hontsville, near Rahway. He left there in March last, about the time of the murder. He went to Illinois.

The police are very reticent about the case and decline to give any detailed information. The above facts, however, have leaked out.

LATER.—The man has been arrested in Illinois. His name is Casper Scrombach.

LATER.—4.25 p. m. Scrombach was arrested in Marion county, Ill. He has confessed the crime.

The Wheat Panic.

NEW YORK, June 15.—The echoes of the wheat panic had by no means died away this morning. A nervous feeling was still pervading New York market, and the local dealers were keeping a close watch upon Chicago. The sudden tumble in the prices for June and July options left several of the prominent bulls in each of the two cities on the verge of failure, in addition to those which went down in yesterday's crash.

Messrs. Cruanes & Co. said: "We have had one of those severe collapses in prices which have occurred from time to time. The outcome of attempts to corner the Chicago wheat market, and of those which have passed into history from it is the case. Another authority made the following statement: "The prices are simply let down to a lower range because of the flood of wheat which was thrown into the market. The support looked for was withheld."

There was a slight recovery, followed by a decline in the New York market this forenoon. At about eleven a. m. reports came of three additional failures in Chicago.

The Fire Tax Case.

TRENTON, June 15.

The Fire Tax case was to-day heard by the Supreme Court at Trenton. The opening argument was made by Craig A. Marsh for the prosecution. The Attorney General next presented argument for the defense, and was followed by Wm. M. Stillman also for the defense. The closing Argument was by Mr. Marsh. Briefs were handed up on both sides. Mr. Johnson, also of counsel for the defense, had prepared a brief which he will print and hand in later. The prosecution will be entitled to reply to this additional brief. The case is concededly a very close case, as well as one of vast importance, involving, as it does, the right of the fire department to assess taxes.

Two Tramps Killed.

JERSEY CITY, June 15.—Buck Ford and James Cavenaugh, two tramps, were run over and killed on the New Jersey Central Railroad at Perth Amboy last night. Both men belonged to a party of tramps who had established themselves in a barn back of the town, and were going after beer when they were struck about midnight while crossing the track. Ford is supposed to be the son of a well-to-do family in Newark, but was cast off on account of his roving disposition.

The Pond Co.'s Works.

At Manning, Maxwell & Moore's, in New York to-day, it was stated that the contracts for the buildings for the Pond Machine Company would probably not be given out for two or three days yet.

Mr. Maxwell was formerly a clerk for Mr. Manning, but about ten years ago was taken in with the firm as a partner.

A prominent civil engineer in this locality, who has confidential business relations with leading members of the Pond Machine Company, says that he was aware last winter of the company's determination to locate elsewhere, and have since made inquiries in many cities for six months past, but none of them compared favorably with Plainfield, which was considered superior and beyond all comparison.

This gentleman also states that the works to be built here are much larger than are required for the present business of the concern, but that it is understood that it is to be made a general railroad supply depot to the manufacture of even locomotives, which is mentioned on the quiet, as the reason why the enormous $20,000 cranes are to be used. The main building, 500 feet long, is one-third the size of the Singer Works now building at Elizabeth, which is 1,500 feet long.

It is reported in New York that a portion of the works will be used for the manufacturing of locomotives, which is the object in having the 80-ton crane.

This morning Messrs. Manning, Maxwell & Moore ordered that of the land recently purchased for the Pond Company, a complete cross section be made. This will take two or three days. The report is then to be forwarded to the Flint Building and Construction Co., of Palmer, Mass., which will have charge of the construction of the works.

SPORTING MATTERS.

The Record of Baseball Games and Turf Events.

Yesterday's ball games: At New York—New York, 5; Philadelphia, 2: At Pittsburg—Detroit, 8; Pittsburg, 4. At Chicago—Chicago, 19; Indianapolis, 1. At Boston—Boston, 6; Washington, 3. At Philadelphia—Cleveland, 6; Athletic, 3. At Baltimore—Baltimore, 15; St. Louis, 12. At New York—Metropolitan, 5; Louisville, 3. At Utica—Newark, 8; Utica, 7. At Brooklyn—Binghamton, 21; Buffalo, 3. At Rochester—Rochester, 12; Scranton, 5. At Syracuse—Stars, 17; Jersey City, 4. At Waterbury—New Haven, 9; Waterbury, 8. At Springfield—Dartmouth, 21; Amherst, 7. At Bridgeport—Bridgeport, 6, Hartford, 3. At Trenton—Cuban Giants, 8; Cincinnati, 5.

Yesterday was the first day of the Jockey club's Gravesend track. First race, seven-eighths of a mile; Saxony first, Markland second, Valentine third; time, 1:29½. Four-and-a-half mile and a half; Hanover first, Dunboyne second, Bronzomarte third; time, 2:43¾. Sixth race, one mile and a sixteenth; Bonz first, Barus second, Florence M. second, Aureole third; time, 1:51.

HARTFORD, Conn., June 15.—The opening day of the Charter Oak races attracted only a light attendance. Five events on the card. Cad first, Grey Light second, Katy Jordan third; time, 2:27¾. 2:19 class, trotting: Kitefoot first, J. H. Thomas second, Billy Button third; time, 2:19¾.

ST. LOUIS, June 15.—Three-quarters of a mile heats; Font first, Biddy Bowling second, Fred Ziebig third; time 1:15¾. Second race, three-quarters of a mile: Hypocrite first, Mirth second, Aberdeen third; time, 1:16¾. Third race, one and three-quarter miles; Volante first, Monte Cristo second Ferncliffe third; time, 3:07. Fourth race, one and one-sixteenth mile; Malaria first, St. Valentine second, Leman third; time, 1:50¾.

NEW HAVEN, June 15.—Sears and Slocum were defeated in the doubles at the New Haven tennis tournament yesterday by F. Beach and Thatcher, of the New Havens. Sears was also defeated in a practice game by Professor Bigbey of Yale. These events caused great surprise and aroused the New Haven club to considerable enthusiasm. Sears is the champion of the United States, and Slocum is one of the crack players of the country.

Marine Intelligence.

NEW YORK, June 15.—Arrived, steamers Fulda, Bremen and Southampton: Victoria, Baracoa; State of Nebraska, Glasgow and Lane; Knickerbocker, New Orleans; Brookwater, Norfolk; State of Texas, Savannah; Cherokee, Jacksonville; George W. Whitney, Boston; Roanoke, Richmond; City Point and Norfolk; Barge Violet, Rouen; Progreso, Tarragona; Adolf, Bremen; Jupiter, Plymouth; Samuel E. Spring, Rajardo. Arrived out, steamers Hammonia, from New York, at Hamburg; Rhyniand, from New York for Antwerp, has passed the Lizard.

Ex-Vice-President Wheeler's Will.

TROY, June 15.—The will of the late William A. Wheeler has been opened at Malone. It gives $5,000 to missions, $5,000 to the foreign missions, $500 to his housekeeper, Betsey Chambers, and a few bequests to various friends. It is rumored that interested parties intend to contest the will.

Robbing a Street Car.

KANSAS CITY, June 15.—Six masked highwaymen boarded a car on the Metropolitan line at Eighteenth and Bell streets, at 11 o'clock at night, and robbed the driver of $18.50. They did the work systematically, and so far no clew has been found to their identity.

Chief Examiner Morrison Dead.

BUFFALO, June 15.—Col. James E. Morrison, of Albany, chief examiner of the state civil service commission, died suddenly of apoplexy, at the residence of Commissioner Henry A. Richmond, in this city, at 10:40 last night.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 15.—Money closed at 5 per cent. The highest rate to-day was 6¼ and the lowest at Exchange closed steady; posted rates, 4.85½@4.87½; actual rates, 4.85½@4.85¾ for sixty days and 4.86¼@4.86¾ for demand. Government bonds closed firm: currency 6s, 123¼ bid; 4s, coup., 125¾ bid; 4½s, do., 109¾ bid.

The course of the market after 12 o'clock was very erratic. A panicky feeling prevailed, the result of rumors of further failures of Chicago wheat firms. There was also a rumor of a threatened bank failure in Chicago. None of these rumors, however, materialized, and in the closing hour there was a somewhat firmer feeling and the market closed at the highest prices of the day. The closing figures were ¼ to ⅜ per cent. below those of yesterday.

General Markets.

NEW YORK, June 15.—FLOUR—Dull and depressed, closing slightly lower for some grades; winter wheat extra, $4.40@5.25; Minnesota extra, $4.40@5.10; city mills extra, $4.90@5.30; Southern flour closed steady; common to choice extra, $4.40@5.25.

WHEAT—Opened weak, lower and irregular at times considerable excitement prevailed. The heavy decline in Chicago, together with the announcement of a failure here and the failure of others, caused a brisk selling here, especially of June and July. Prices broke during the day and closing 1@1½c lower. No. 2 red winter, 93@93¾c; No. 3 red winter, 90@90¾c; No. 2 red state at 96@96¾c; No. 1 do., 98¾c. No. 2 red winter for July, 93¾@94c; do., August, 93@93¾c; No. 3 red winter, June, 89¾c; do., July, 90@90¾c; do., August, 89@89¾c.

CORN—Options were heavy and irregular, but closed at about ½@¾c lower. Spot lots closed heavy and ¼c lower. Spot lots closed dull and trading. Spot sales of No. 2 mixed at 48c; ungraded mixed, 46@47¾c; steamer mixed, 46¾c; No. 2 mixed for July, 46¾c; do., July, 47@47½c; do., Aug., 48@48¾c.

OATS—Options were moderately active and weak, closing ¼@½c lower. Spot lots closed weak after a moderate amount of trading, with a slight decline in some instances. Spot sales of No. 1 white, 34c; No. 2 do., 33¾c; No. 3 do., 33c; No. 1 mixed, 33c; do., July, 33¾@33¾c; do., Aug., 30¾@30¾c.

RYE—Dull and nominal; western, 54@56c; state, 61@63c.

BARLEY—Nominal.

PORK—Quiet and heavy; old mess, $15; new do., $16.

LARD—Closed dull and heavy; cash, $6.80; July $6.90; Aug., $7.

BUTTER—Dull, but steady; western, 10@16c; state, 13@20c.

CHEESE—Dull; state, 9@9¾c; night skims, 3¼@6¾c.

EGGS—Dull and firm; state, 15¼@17c.; western, 15¼@16½c.

A BURSTED CLIQUE.

EXCITING TIMES IN THE CHICAGO BOARD OF TRADE.

Collapse of the Great Wheat Syndicate for Want of Cash—Three Firms Fail and More May Follow—How the Price Came Down.

CHICAGO, June 15.—The 14th of June, 1887, will be as memorable in April, as the grain trade in Chicago as was June 10, 1888, to the provision trade. Yesterday, like the day in June a few years ago, a great bull movement culminated like a bubble, pricked with a pin, and a cloud of two hours values of tangible property were diminished to the extent of $2,000,000 and more, while the shrinkage on speculative options must amount to at least $2,000,000. Four years ago Peter McGeoch had undertaken to corner lard, and he had run up the price from $7 to $14, over night a sudden he found himself short of money with which to carry the great load of margins or to support a dragging market, and in two hours he was sorely in need of help. Such in brief is the history of the great wheat collapse of yesterday.

This bull movement began in March, was plainly visible in April, was unmistakable in character and intention throughout May, and for the first half of June owned 16,000,000 of actual wheat, besides unknown millions on options for July delivery. At noon yesterday the big clique was a hopeless wreck, and its holdings had shrunk in value close to 30 per cent. As with McGeoch four years ago, the speculative load was too heavy, and it lay down and quit.

At this writing three important failures on the regular board have been announced, those of Harris, Upham & Co., the chief agents of the clique, and E. W. Bailey & Co. and Hamill & Brine, neither of whom were known to have any relations with the syndicate. On the other hand, William Sellover and S. Block have thrown up the sponge. Some very heavy houses, like those of Kershaw & Co., Irwin, Green & Co., and others, are known to be on the verge, but the hope is held out that they will be able to take care of all their trades, and pay dollar for dollar what they owe.

The first information of trouble in the wheat deal appeared Monday, when the July "puts" at 85¾c. was broken. That let July down so far that a marginal price for it, which would have kept it at 86¼c., was inevitable. Joe Wiltshire, of Cincinnati, was here on Saturday, Sunday and Monday. Repeated interviews with him failed to bring out this Cincinnatian and his Chicago brokers. At one interview at the Richelieu, Kershaw left apparently so troubled in spirit that those who saw him say he felt that a panic was inevitable. It is said that Leopold Bloom, a scalper, who learned of the sensational character of that interview, sold wheat on the strength of it just after $68,000 on the decline yesterday morning.

The excitement began at the very opening of the board with the break in July. For a while the clique houses were off the market and pretended that the break in July was part of their programme.

"If the crowd wants to sell this wheat down," Kershaw said, "the clique will simply take it at a lower range of prices."

Rosenfeld & Co. actually stood in the pit and bid 85c. for June while only July was 85c. But this show of courage was all to no purpose. One after another the alarming symptoms grew. It was declared, among other things, that there was a "run" on the Fidelity bank at Cincinnati. July kept getting weaker and weaker, until finally Rosenfeld gave up even the attempt to bolster June. Kershaw dropped to 84c., and then the big guns calls began to pour in. This seemed to decide the whole matter. Rosenfeld gave up the struggle. His checks were thrown out at the Chicago Board about 10 o'clock. The failure was announced on the board about noon. July fell to 74c., June to 73¾c.

Instead of a hubbub following the announcement, there was unusual quiet. The market was stunned. There was probably not a firm on the floor that did not know that the announcement meant a loss to it. Rosenfeld & Co. were only one of several houses that were identified with the clique. Inquiry made it plain at once that Irwin, Green & Co. were sound. This fact will probably save the trade millions of money. As to Kershaw & Co.'s standing there was the utmost uncertainty. There is just now tremendous pressure upon them, but at 1 o'clock Mr. Kershaw said:

"To the best of my knowledge I am solvent."

Rosenfeld's liabilities are an unknown quantity. He had on his books, it was said at his office, about 5,000,000 bushels of July wheat, on which there is a profit to shorters now varying from five to fifteen cents. The liabilities would amount to $1,500,000 if there were no margins up, but the impression is that the firm has about $1,000,000 in margins. Frank Johnson, of the firm, said:

"The receipts of wheat were such that the money simply gave out. The managers of the clique made promises which they probably could not fulfill."

Some idea of the collapse in the price of wheat can be guessed from these figures: Actual, the corner in July, sold July 1st last week up to 94¾. It sold as late as yesterday morning at 92¾c. After the failure of M. Rosenfeld & Co. it dropped to 73¼c. The collapse in July was not so serious, for there was some doubt whether there was really to be a corner in July. But July wheat sold one day last week at 87c., and yesterday morning it opened at 83¾c. It sold as low as 73c. and probably lower when the panic was at its height.

Conservative outlook for to-day, a well-posted and highly conservative gentleman said to a correspondent:

"If Kershaw succeeds in getting the money to carry his wheat through, he will be one of the state civil service commission, died suddenly, of apoplexy, at the residence of Commissioner Henry A. Richmond, in this city, at 10:40 last night.

Honoring the Queen at Faneuil Hall.

BOSTON, June 15.—The petition of the Central Labor union and others asking for a revocation of the permission given to British societies to use Faneuil hall for a banquet on the occasion of the queen's jubilee was given a hearing by the mayor and committee yesterday. The petitioners argued that the hall was sacred to liberty, and its use for purposes honoring a queen would be a desecration. Representatives of the British societies maintained that the action of the aldermen in allowing the use of the hall was only proper. Considerable hard feeling was exhibited during the hearing. The committee reserved its decision.

The Young Japanese Acrobats.

NEW YORK, June 15.—Elbridge T. Gerry, of the Society for the Prevention of Cruelty to Children, asked Police Justice Reilly to prevent the performance of acrobatic feats by the boys in the "Japanese Tourists" at the Standard theatre, on the ground that the lads are under 15 years of age. He produced a doctor's testimony, but the theatre people brought doctors who declared that the boys were over 15. Justice Reilly appointed Professor Sheaff umpire, and he will make a careful physiological analysis to ascertain the ages of the young Japs.

FIGHTING FOR LOVE.

Two Lovesick Farmers Fight a Duel with Serious Results.

OTTAWA, O., June 15.—Two wealthy young farmers of Kalida township, John Grochus and Thomas Timberlake, yesterday morning fought a duel with revolvers at twenty-five yards in a grove near the station. At the first discharge Timberlake's pistol missed fire, and Grochus was shot to kill, the ball from his revolver passing through Timberlake's coat and lodging in a tree just beyond. At his juncture the Germans' party dashing in and stopped hostilities, but Timberlake insisted that one more round be fired. After much wrangling this was agreed to, and the two duellists resumed their places. The word was again given, and the sharp report of the revolvers rang out. This time the exchange of shots proved more serious. Grochus was wounded in the lower part of the back and Timberlake received the ball in the region of the stomach. Both men are somewhat seriously wounded, but as they were on neutral ground the wounded men received proper attention. Neither will die.

The cause was a pretty girl, Mary Briny the village belle, for whom both have been paying attentions and with whom both were in love. She received attentions from both and seemed to delight in the bad feeling between them, but finally Grochus won the favored suitor, and this enraged Timberlake into sending Grochus a challenge, which was accepted, and the duel was fought.

Women Fight with Razors.

COLUMBIA, S. C., June 15.—A duel with razors occurred near Woodruff on the public highway. The combatants were two negro women, and the cause was a mutual sweet heart whose entire affections were claimed by both. The battle was hard and furious. The women fought until they were crumbled from exhaustion caused by loss of blood. Both received severe and perhaps fatal wounds. They fought single handed, they were not skillfully manipulated. The principal wounds received were in the face, breast and arms.

MORE MINE VICTIMS.

Two Men Killed and Two Others Perhaps Fatally Injured.

WILKESBARRE, June 15.—The practice of "robbing pillars" in anthracite coal mines caused an accident in the Mill Creek colliery of the Delaware and Hudson canal company, yesterday, by which two men lost their lives and two others were seriously, if not mortally hurt. After a mine or part of a mine is worked out, and prior to its abandonment, in many instances, a force of men is put to work cutting coal from the pillars previously left to support the roof. This has been going on in No. 9 lift of the Mill Creek colliery for some time. Yesterday four Poles were at work in one of the chambers in this lift, when the roof, already weakened by the removal of the pillars, gave way, and a mass of rock and coal weighing more than ten tons fell on the men. Peter Cemmers was instantly killed. Simon Carmesky was so badly hurt that he died in an hour. Mike Fisher and John Paradosky were very badly hurt.

IRON AND STEEL WORKERS

Adopt a Scale Which Demands an Increase of 10 Per Cent.

PITTSBURG, June 15.—At yesterday's session of the Amalgamated Association of Iron and Steel Workers the annual scale was completed. Printed copies of the scale were mailed to each manufacturer to-night, in order to give all an opportunity to consider it and report on or before the joint conference on next Tuesday afternoon. Quite a number of changes have been made in the scale by the convention since it was reported by the wage committee, but as it now stands a 10 per cent. advance is demanded for all the principal works. No change is made in the wages of the nailers. The manufacturers say there will be a fight; that they will not grant an advance in wages. They have made such statements before, but when the time came they signed the scale.

Gen. Miles to Move on the Indians.

TUCSON, A. T., June 15.—Gen. Miles has arrived here and took personal charge of the Indian campaign, as there is every appearance of a prolonged war. Suspicion has long pointed to the Indian settlers in the San Pedro reservation as being abettors of the San Carlos renegades, and it seems now to be an established fact that they are so. They have kept the hostiles informed as to the movements of the troops and have also furnished them with horses to aid them in making their escape from their pursuers.

The Bridegroom Cometh.

LOUISVILLE, June 15.—An officer from York, Pa., has been here in search of Harry Loucks, whom he arrested here Friday, and started with him for Pennsylvania yesterday. Loucks is charged with seduction. He was engaged to marry Miss Cora Mellen, a young lady of high standing in York. The wedding guests assembled before the altar, but Loucks did not make his appearance. He has been pursued since last September, through Alabama and Florida, and was finally traced here and arrested.

The Catholic University.

NEW YORK, June 15.—Bishop Keane, of Richmond, who arrived on the Servia Monday from Rome, says the new Catholic university will undoubtedly be located at Washington, though no mandate has been given to that effect. The bishop took occasion to deny two statements lately made in the press, to the effect that he approved Dr. McGlynn's course, and that he had accused Cardinal Simeoni of condemning Henry George's doctrines after personal reading them. Both statements were untrue.

Pennsylvania Evictions.

PITTSBURG, June 15.—Yesterday afternoon writs were served by Sheriff Gripp on twenty-five of the strikers at the Pennsylvania salt works at Natrona, Pa., ordering them to vacate the company's houses on or before the first Monday in July. If the houses are not vacant at that time the occupants will be forcibly evicted. The strikers denounce the action of the company in compelling them to leave the houses, but with one or two exceptions have promised to move out peaceably.

Robbers Who Would Kill.

BOSTON, June 15.—A man whose name was not ascertained was found early in the morning in the water clinging to the piles of the Craigie bridge, which connects Cambridge with Boston. He told the watchman who rescued him that at about 1:30 a. m., while walking to Cambridge, he was attacked by two men, who, after robbing him of $30, threw him over the rail into the water with the intention of drowning him.

A Theatre Panic.

BROOKLYN, June 15.—Something of a panic occurred at the Brooklyn Museum last night. Three members of Henderson's Jesse James troup came before the curtain and denounced Henderson as a fraud, saying that they could not get their salaries, and would not play. There was a rush for the box office. Women and children were knocked down and trampled upon. The arrival of police prevented further disaster, but many persons were badly bruised.

EUROPEAN INTRIGUING.

GERMANY, ENGLAND AND AUSTRIA IN SECRET CONCLAVE.

A Meeting Which is Believed to Portend an Alliance Between the Three Nations in Opposition to Russia's Aggressions on the Afghanistan Frontier.

LONDON, June 15.—The Austrian and German ambassadors called upon Lord Salisbury at the foreign office and the latter were closeted together for some time. The purpose or result of the interview has not been definitely made public, but the meeting is believed to portend the cohesion of Germany and Austria with England in opposing the aggressions of Russia on the frontier of Afghanistan, and England's joint action with Germany in restraining or thwarting Russia's ill concealed intention of occupying Bulgaria.

The repeated warnings of the English press during the last few days have not been necessary to apprise Lord Salisbury of the fact that both the Bulgarian and Afghan questions have assumed phases rendering their immediate settlement by arbitration, force of arms or an alliance sufficiently strong to induce Russia to substitute discretion for territorial ambition absolutely imperative. The position of Russia on the Afghan frontier after two years of careful, quiet and unrestricted preparation, is much stronger than that of England in any part of the ameer's dominions, and the first step to be taken in that region could not fail to result disastrously to English arms, and firmly establish Russia in possession of the most strongly fortified position in Afghanistan. It will therefore be seen that an alliance of sufficient power to awe the czar into relinquishing his purpose of administering the estate of the ameer in advance of the latter's demise is of great importance to England, at least until she can get ready to contest Russia's claims individually with equal chances of success.

On the other hand, the sudden removal of a pro-Russian ministry in Servia has deprived Austria of any hope of King Milan's assistance in checking Russia's pretensions in the Balkans, and made Bulgaria the battle-ground in the eve of the election of a prince of Bulgaria, to whose accession to the throne Russia will undoubtedly object, doubly welcome. As for Germany's share in the benefits of the alliance, she has everything to gain and nothing to lose. By pas tively interfering to prevent Russia from precipitating war in Afghanistan and leading her influence to a bloodless settlement of the Bulgarian question, she acquires two active allies in suppressing the warlike ebullitions of France until the arrival of the time when it shall seem advantageous to provoke or declare war against her implacable enemy.

LITTLE LENA ZORN.

An Autopsy Reveals That She Was the Victim of Violence.

NEW YORK, June 15.—The body of Lena Zorn, which was found in a marsh in the upper part of the city after the girl had been missing for a week, was exhumed yesterday and a careful autopsy made. It was decided that the child had met with violence, and had afterward been thrown into the pool. Plausible theory is that she was mangled by dogs, whose owners threw her into the marsh to avoid responsibility for the injuries inflicted. The coroners, Messrs. Gunther and Schultze, have offered $5,000 reward for the discovery of the girl's murderers, and have employed a private detective to work the case up. Inquiry by the coroners are also endeavoring to solve the mystery.

Frederick William in London.

LONDON, June 15.—The fusions of the elaborate preparations for the queen's jubilee is the arrival of the Crown Prince Frederick William of Prussia, who overshadows all of the other royal visitors in importance and interest. The conflicting reports as to the gravity of his malady have added greatly to public concern in his movements and vastly increased his popularity, and, next to the queen herself, he will unquestionably be the most conspicuous figure of the celebration.

A Short Cut to Newport.

NEWPORT, June 15.—The bill in the Rhode Island legislature for an act to incorporate the Newport and New York Rapid Transit company, which passed the senate in May, was concurred in by the house. The company proposes to shorten the time of travel between New York and Newport by an hour, by cutting a canal across Conanicut Island, through which a steamer will run from Newport to connect by a new branch road with the Shore line to New York.

An American Murdered in Nicaragua.

WASHINGTON, June 15.—The department of state has received a consular report of the murder of an American widow, Mrs. Lydia J. Thurburn, at the headwaters of Great river, in Nicaragua. The murdered woman was engaged in business on a plantation, and is believed to have come from Cincinnati. The details of the murder are not yet known, but it appears that she had been threatened and prosecuted by a couple of natives for some time.

Many Condemned for a Few.

WASHINGTON, June 15.—Gen. Drum yesterday received the following telegram from Gen. Howard, dated San Francisco, June 13: "Gen. Miles telegraphs that Capt. Pierce reports only sixteen men absent from San Carlos, and that all Indians on the reservation understand that the action of a few reflects upon the whole tribe, and are anxious that the offenders shall be captured. He leaves Los Angeles to-day for Fort Grant."

Drowned in Sight of His Friends.

STRATFORD, Conn., June 15.—George Green, aged 21, was drowned in the Housatonic river yesterday afternoon while returning from a clamming trip. The oar with which he was steering his sailboat broke, and losing his balance he fell overboard. He started to swim ashore, but his heavy rubber coat and wet clothing carried him down before the eyes of a number of his friends on the shore.

The Pensayres Murder Trial.

BUFFALO, June 15.—The testimony in the Pensayres murder trial was practically concluded yesterday, and it is thought the case will reach the jury to-day. Drs. Sloan and Hinkley were on the stand as expert witnesses for the prosecution. They both declared that Mrs. Pensayres was perfectly sane. The details of their testimony did not differ from that of other experts previously given.

Another Missing Child.

BROOKLYN, June 15.—Nellie Gilligan, aged 11, is missing from her mother's home at No. 96 Van Brunt street. Mrs. Mary Gilligan lives in the house, has also disappeared, and Mrs. Gilligan accuses him of having abducted the girl. The police are hunting for Meyer. He was formerly a canal boat captain.

Reception to Commander Fairchild.

BROOKLYN, June 15.—Commander in Chief Fairchild, G. A. R., was received by the Brooklyn posts yesterday. A parade in the afternoon was followed by a banquet in the evening.

PITTSBURG STILL AHEAD.

Gen. Negley's Opinion of the Alabama Iron District.

NEW YORK, June 15.—Gen. James S. Negley has returned from his visit to the new iron district of the south, lying around Birmingham, Ala. The general may claim a sufficient knowledge of iron productions to give his opinions weight. His discoveries lead him to believe that the iron scepter has not passed from Pittsburg, and is not likely to until a greater than Birmingham shall have been found. The ore beds of Birmingham, he says, are not in a cluster, nor is the territory an unbroken bed of ore, with rich surface croppings, as has been the investigators have described. The mines of coal and iron are separated widely, and Pittsburg, he says, is actually nearer its fuel, in miles, time and cost, than the new bonanzas. Moreover, the production of coke is still in a very undeveloped state, and the product of their furnaces is of a very indifferent quality. The location of the mills has been the result of much of the seeming wealth claimed for the district, and its actual status cannot be accurately determined until the inevitable reaction sets in.

THE EMPEROR WILLIAM

Expresses the Opinion That He Will Never Leave His Bed Alive.

BERLIN, June 15.—The emperor for the first time, according to the Post, realizes the conscious of his gravity of the situation, and it was he that prompted the first note of alarm sounded in The Official Gazette of last Friday. Prince Lanar continued with him to sit up yesterday, but the emperor refused to do so, saying that he knew well that he would never leave his bed again. He is affected more by the weakness and the unusual mental change which has frightened most of those about him. The emperor is responsible for his present condition by his perverse energy right and wrong. The current version of the story is correct. It is true that during the naval review the emperor insisted upon remaining upon the deck of the Pomerania despite the wet weather and the remonstrance of his physician, who ordered him to go below. To all entreaties he answered: "It is better that I should remain where I am. The soldiers like to see their emperor, and they do not see him frequently. I insist on staying on deck."

WILL DAVITT BE ARRESTED?

Liberal Papers Comment on the Brutality of Balfour.

LONDON, June 15.—The Conservative papers reiterate the statement that the government intends to arrest Michael Davitt, Mr. Gladstone and others who have been instrumental in protracting the Bodyke evictions by inciting the tenants to armed resistance, but the general public still refuses to believe that the government will venture to prosecute any of them. The Liberal papers are filled with bloodcurdling accounts of the brutality of the police in enforcing evictions, and some of the descriptions of the scenes and the violence of the spectators at Bodyke have been provoked by the unjustifiably inhuman conduct of the constables rather than the speeches of Mr. Davitt and his friends.

Massachusetts Brigands.

WARNHAM, Mass., June 15.—Two men have been arrested here with "holding up" James C. Chase, a contractor, on the cranberry bogs and robbing him of over $500. After robbing him they left him tied to a tree. The men were identified by him by Chase. They are thought to be employes of his, who knew that he would have a large amount of money with him for pay day.

To Go to London.

BOSTON, June 15.—The Ancient and Honorable Artillery company has voted to send a delegation of three members, headed by Capt. Henry Walker, to London to represent the organization at the 350th anniversary of the Ancient and Honorable Artillery company of London, which occurs in 1888. A portion of the delegates will leave the last of this week or the beginning of next.

The Pope and Mr. Parnell.

LONDON, June 15.—The Times' correspondent at Rome says that the pope has no sympathy with the Irish land league campaign, but that no official opinion to show how the church regards the movement has yet been given because the energetic pressure brought to bear by the friends of the Irish bishops holds the normally conservative tendencies of the vatican in check.

To Represent Victoria.

LONDON, June 15.—Prince Albert Victor, eldest son of the Prince of Wales, who has been selected to represent the queen at Dublin on the occasion of her jubilee visit, will go to Ireland on June 27. It is stated that the Order of St. Patrick will be conferred upon him at the thanksgiving services held in St. Patrick's cathedral, Dublin, on the 28th.

Prince Bismarck's Health.

BERLIN, June 15.—The physical condition of Prince Bismarck was much worse yesterday. Acute rheumatic pains prevent his obtaining necessary sleep, and his physicians have advised immediate changes of air and absolute rest, but at present he is unable to travel. There is no doubt that his condition is much more serious than his doctors will admit.

Canadian Reciprocity.

TORONTO, Ont., June 15.—The board of trade of this city discussed resolutions favoring reciprocity between the Dominion and the United States, but denied such reciprocity as would not militate against the trade with England. The discussion was interesting that it will be continued on the evening of the 16th inst.

Over $50,000 Short.

COXSACKIE, N. Y., June 15.—The national bank examiner has found a shortage of over $50,000 in the accounts of Sydney A. Dwight, the aged cashier of the Coxsackie National bank. Dwight's bondsmen will make up the amount. Mr. Dwight declines to make any statement at present. The irregularities seem to have existed for some time back.

Chicago's Hoodle Trial.

CHICAGO, June 15.—The taking of testimony in the hoodle trial was resumed yesterday morning, and when the court began the afternoon session Assistant State Attorney Walker commenced the opening argument for the state, which he concluded this evening until adjournment. It is likely the arguments of counsel will continue two or three days.

An Insane Asylum Horror.

NEW YORK, June 15.—At the inquiry into the circumstances of the death of inmate Farrish, of the Ward's Island Lunatic Asylum, which was held yesterday, it was developed that Farrish was put to bed in the house, has also disappeared, and Mrs. Gilligan accuses him of having abducted the girl. The police are hunting for Meyer. He was formerly a canal boat captain.

Killed by a Falling Building.

ST. PAUL, Minn., June 15.—A frame building at No. 317 Seventh street, used as a saloon, collapsed yesterday. Hans Nelson, a bricklayer, was instantly killed, and five other persons more or less injured.

WHERE IS MOLONEY?

IS THE EX-CLERK OF THE BOODLE ALDERMEN IN NEW YORK?

At all Events, He Has Disappeared from His Accustomed Haunts in Canada, and Mrs. Moloney Refuses to Talk on the Subject.

NEW YORK, June 15.—This morning's Times publishes the following dispatches in double-leaded type:

LACHINE, June 14.—A visit made to-day to Lachine, where "Billy" Moloney has been passing the summer, revealed a fact which may have a startling significance for those aldermen of the board of 1884 who accepted bribes, and more directly for Jacob Sharp, the man accused of bribing them. The man who carried the "boodle" was missing. His family were at his summer residence, but the much sought for and much dreaded "Billy" was not with them.

Not a particle of information could be obtained from Mrs. Moloney, but spurred on by the fact that all the recent sensational rumors in regard to the ex-reading clerk's plans had ended in the prophecy that he would be in New York on Wednesday, The Times' correspondent instituted a vigorous inquiry. Nothing definite was discovered except that Moloney was not to be found in accustomed haunts. Hack drivers and station agents were interrogated in vain. None of them could or would admit knowing anything of the exiles' movements nor in what direction he had gone.

MONTREAL, June 14.—All the hotels were visited here to-night in search for Moloney, but on none of the registers appeared his name or anything to indicate that any reason to suppose had been assumed by him. The fashionable boarding houses were visited one by one. At all of them the answer was the same—nothing had been heard of Moloney. The aid of the police was invoked uselessly. The employes at the railway stations were questioned without result. None of them had seen a man at all answering Moloney's description take any of the southbound trains during the day.

Moloney was not in Montreal, just as he was not at Lachine. This does not prove that he had started for New York. He could have crossed to the mainland at Caughnawaga and, driving to St. Lambert, could have taken the train there. If he did so "Billy" Moloney is in New York to-night. The aldermen here are wildly excited over Moloney's disappearance, but they protest confidence, and say "Billy" will never "squeal."

A Divided Labor Party.

ELMIRA, N. Y., June 15.—A state conference of the United Labor party is being held here to-day. It is the first of the wings of the now divided Labor party, and the conference is to effect a union if possible. The Anti-Monopoly league of New York city is represented by Messrs. Keogh, W. A. A. Carey and A. H. Gallahue.

Lord Aberdeen En Route to New York.

SAN FRANCISCO, June 15.—Lord and Lady Aberdeen left for New York yesterday afternoon. They will stop at Kansas City and go to TEXAS and DAKOTA to visit two brothers who are ranchmen there. They will arrive in New York in time to sail on July 16. Yesterday morning they visited the Chinese quarters.

The Coke Strike.

PITTSBURG, June 15.—The coke operators who have not granted the 10 per cent. advance in wages to their employes have taken no further action in the matter. There is no intimation yet of their giving the advance, but they still maintain the position that they have held since the arbitration.

Mr. Squire Will Go to Europe.

NEW YORK, June 15.—Charles H. Field, a broker, was yesterday accepted as bondsmen of Rollin M. Squire, ex-commissioner of public works, in place of Martin B. Brown, who did not wish to continue in that capacity during Mr. Squire's proposed trip to Europe. Mr. Squire will now make the voyage.

Looking for Men Without Opinions.

NEW YORK, June 15.—There is still one vacancy in the jury in the Sharp bribery case. The panel of 200 men will be exhausted at 4 o'clock yesterday, and court adjourned until to-day, when the number of talesmen summoned in the case will have reached 2,000.

Sarah's Vicious Pet Again.

PHILADELPHIA, June 15.—Robert Dickinson, a private waiter at the Continental hotel, while playing with Sarah Bernhardt's tiger with raw tenderloin steaks, yesterday, had his clothes and breast torn by the animal springing upon him.

CONDENSED NEWS.

John H. Tarbell, of Elkhorn, Wis., who shot his wife while buggy riding, has been sent to prison for twelve years.

John Harrison Noble died at Tiffin, O., aged 61.

Sturgeon fishermen at Bayside, N. J., have captured what is called "a strange monster." It was about 20 feet long, seven feet wide, counting its fangs, and weighed about 500 pounds. It was black as ink, had a head resembling a sea lion's, and was spotted underneath like a leopard.

Jessie D. Brown, the colored woman who murdered her infant child at Westminster, Ind., died in jail.

Gottlieb Esterle, a laborer, was nearly buried in the embankments of a sewer in West One Hundred and Twenty-fourth street, New York. He was rescued after five hours' unremitting efforts on the part of a large force of men.

John Morrison, master workman of the expelled District 126, has made a statement denying recent charges of the general executive board of the Knights of Labor.

Ten thousand dollars worth of gambling instruments, seized during the past eighteen months by the police of Atlanta, Ga., were publicly burned and buried in the principal thoroughfare of that city.

The will of ex-Vice-President William A. Wheeler is to be contested.

A jumper who leaped, head first, from the Susquehanna bridge at Harrisburg is now in hospital, having injured his back.

Arguments in the Bell telephone case were continued at Boston, and Judge Thurman began his plea for the government.

A 12-year-old son of William T. Beall, of Eaton, O., has been arrested on suspicion of killing his mother.

Ex-Secretary Chandler was elected United States senator by the Massachusetts legislature.

The postmaster general has appointed these fourth class postmasters: Mary S. Gates, Northville, Mich.; Mary A. Wood, Nagog, Acton, Mass.; John Piggott, North Parma, N. Y.; D. T. Van Hoesen, Niverville, N. Y.

The committee on printing of the senate has appointed Mr. W. H. Michaels, of Grand Island, Neb., clerk to the committee, to succeed the late Maj. Ben. Perley Poore. Mr. Michaels was until recently editor of The Grand Island Times.

The Mound City street car stables of St. Louis, including 300 mules, were burned yesterday. Loss $50,000.

SEEN IN A HOSPITAL.

SOME REMARKABLE WORK DONE WITH SURGEONS' KNIVES.

A Patient Relates Her Experience—Cutting Out a Cancer—The Temporary Madness of a Patient Causes a Big Sensation.

A woman who was a private patient for several weeks in the leading hospital in New York city consented to tell a reporter some interesting facts in regard to the operations performed. They are remarkable instances of medical skill and daring. The lady was never in a hospital before, and was quite curious to observe the actions of patients, nurses and surgeons. She had an interesting experience with her next door neighbor, who was suffering from dementia. The second night of her stay he jumped out of bed and ran into the ward shouting "Murder!" and "Police!" until half the hospital was aroused and nurses and attendants, orderlies and doctors came rushing to the scene.

As that weird cry of murder rang and echoed through the hallways of comfort the effect was remarkable. An engineer in one of the private rooms, who crushed head and almost senseless, ceased his low moans of pain and listened. He had been brought to the hospital two days before after falling down an elevator shaft and striking on his head, sustaining an injury which upon examination proved to be a compound fracture of the skull. A very skillful operation was performed by the attending surgeons. His brains were entirely removed and broken pieces of the skull removed and the undamaged portions of the brain returned to their place. Even the little 3-month-old babe, brought there with club feet, now straightened with brace and bandage, ceased its wailings of pain and listened, too. A little 3-year-old boy, with a broken leg, who had been moaning all day and waiting for his mother, hushed his cries and, chuckling in his bed clothes, lay with wide open eyes the remainder of the night.

WONDERFUL FEATS OF SURGERY.

"It is astonishing," said the lady, "to witness what is accomplished in difficult surgery at the hospitals, even in these days of scientific discoveries and achievements. If I should tell one-half of what I saw and heard during the three weeks of my stay I would scarcely be believed. After almost cutting people in pieces and putting them together again, and keeping them in bed a couple of weeks, they turn them out cured. And it is done so easily. The simplest remedies possible and system and regularity in every detail are strictly observed. The service is admirable. Only trained and experienced nurses, male and female, are employed, and then the conveniences and paraphernalia are so perfect. The ambulance comes and goes, and brings patient after patient. If their injuries are slight she wounds are dressed, and they are sent away. If serious, they are immediately taken to the operating room and from thence to the wards. No questions are asked, no gossiping is allowed, and one of the nurses said to me, when I thought I was too inquisitive, 'We are here to work and not talk.'

"One day I noticed unusual excitement among the orderlies, and my nurse informed me she could not leave me for a couple of hours in charge of the nurse from the next ward. A middle aged gentleman, suffering from a cancer on his tongue, had entered the hospital to be operated upon. The nervousness of the case caused the flutter of excitement among the nurses. The scent of ether was in the air and we knew the new patient was being conveyed to the operating room. Two hours passed and he did not return. Another hour and the orderlies bore him to his room. The operation had been entirely successful. One of his teeth were extracted and the under jaw had to be sawn apart in sections and turned down over the neck, while about two-thirds of the tongue and roots were excised; then the separated jaw was reunited, the head and face bandaged and two hours after he was sleeping like a babe.

"The service in a first class hospital, it seems to me, is the best medical and surgical skill that science can command. The great benevolence and self denial with which the physicians work in such institutions are to be greatly admired. I want to say to all who are afflicted that to be conveyed to a hospital is by no means to be conveyed to the grave."—New York Mail and Express.

The Noted Cincinnati Editor.

While Richard Smith, of The Cincinnati Commercial Gazette, was walking up and down the corridors of the Fifth Avenue hotel the other day, a Cincinnati man said: "I noticed an inquiry some time recently as to the source of Mr. Smith's title of 'Deacon.' It came from his connection with the First Presbyterian church of Cincinnati. He was only a member of the church, but became very prominent several years ago in the discussion over the question of the removal of the church to Walnut Hills, and thereupon he was dubbed 'Deacon.' The title has stuck to him ever since, especially as it was taken up by Charles A. Dana, of The New York Sun, and reiterated until the whole country came to know it. Dana used to speak also of Mr. Smith as the 'Truly Good,' and that title became a sort of byword in Cincinnati. I remember once that a party of gentlemen were out at Walnut Hills where Mr. Smith lives, when he threw open his house to entertain them. One of the party was a newcomer who had heard Mr. Smith spoken of as the 'Truly Good' so often that he became impressed with the idea that his name was Good, and he proposed a toast to 'Our cordial host, Mr. Good.'"—New York Tribune.

The Progress of Minstrelsy.

Speaking of the progress of minstrelsy, Col. J. H. Haverly said: "When I went into minstrelsy, in 1861, it was the custom of the best shows to carry about eighteen people; now the companies carry as many as fifty persons. A company of that size went to England. At that time minstrelsy depended upon the reproduction of the genuine southern negro, as he then was. We are fast losing that characteristic. It is scarcely the negro is rising from the corn field to a higher plane. Being deprived of the ante-bellum negro, the companies at present are obliged to create new characters, and to give more show to spectacular performances and acts which require a large number of people on the stage. Since the change from the small to the large number it requires a man who is a great artist to entertain an audience alone."—Baltimore American.

Notable Men of Success.

If you observe closely the notable men of success, you will find that they have learned to waste no time in regrets for what cannot be recalled, but devote each moment of their working hours to some duty which they perform with dispatch and then drop for the time completely from their minds.—Chicago Journal.

Take time to think whether you are doing your work in the easiest as well as the most effectual way.

Mix a little sugar with stove blacking and it will give a better polish and not burn off so quickly.

COL. ROBERT KING-HARMAN.

Portrait and Sketch of the New Under Secretary for Ireland.

Everything from Ireland is of interest now, and the appointment of a tolerably liberal Irishman to the important post of under secretary for that kingdom excites much comment in London. Col. Edward Robert King-Harman, the new appointee, whose portrait we present, was in early life a pronounced home ruler, and so continued till the late seldom or never spoken against Gladstone, which gave rise to the new party or faction called Liberal-Conservative; that is, men who are by conviction Whigs or Liberals, but cannot go with Mr. Gladstone in his advocacy of extremely liberal measures for Ireland. The younger division of this party is officially recognized by the appointment of Col. King-Harman as under secretary; the Conservatives, of course, think the appointment eminently fitting, while the radical Home Rulers denounce him as a "traitor," etc.

COL. KING-HARMAN.

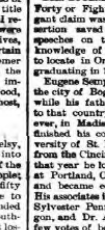
The appointee is son of Col. Laurence King-Harman, was born in 1808, educated at Eton college and married in 1861 to Emma Frances, daughter of Sir William Worsley. He holds many honorary titles and several active offices in Ireland, being lord lieutenant and custos rotuturum of County Roscommon, honorary colonel in the Connaught Rangers, justice of the peace for three counties (as the Irish law custom is) and privy councilor for Ireland. All the same he is now a member of parliament representing the Isle of Thanet, a division of the English county of Kent—a rather odd representation to Americans, who are not familiar with the custom of choosing a member to represent some other district from that in which he lives, though as a matter of strict law the constitution allows it. As the office of under secretary has no salary attached, Col. Harman can still hold his seat as member for Thanet. In his office his duties will be advisory to a great extent, and as he will naturally have much power in determining the Tory policy for his section of Ireland, his political history and the bent of his mind are of some importance.

In his boyhood and school days the great Daniel O'Connell's influence molded the patriotic opinion of Ireland, which was all for "repeal"—that is, for a repeal of the action of 1799-1800, which destroyed the Irish parliament. A little later this movement took on other forms, and was for a time known as the Home Rulers, but the rebellion of 1848 and the subsequent troubles postponed all political reform for a while. In 1858-59 the party of "Young Ireland" arose to agitate for a peaceful reform and restoration of home rule. This party had wonderful success at the elections, but remained without hope by the treachery of several of its chosen leaders and the impetuosity of others. With these liberal movements the King-Harmans sympathized, and when Hon. Isaac Butt organized the "Home Rule League" the present under secretary was among his most enthusiastic supporters. In 1874 this party swept Ireland at the elections. Sixty nationalists and gentlemen were elected there pledged to home rule, and twenty-eight in England. Premier Disraeli followed the election by "warning" the nationalists that home rule Dublin, whereupon Mr. Shaw moved and Col. King-Harman seconded a resolution for an inquiry into the home rule subject. Soon after, however, his seat was declared void, and in 1876 Mr. Disraeli appointed him lord lieutenant of County Roscommon, to the amusement of all observers, and soon after his change of parties was complete.

HON. EUGENE SEMPLE.

Just Appointed Governor of Washington Territory by President Cleveland.

For twenty years the people of the territories have been receiving in conventions that the United States officials among them should be appointed from their own residents, and the Mormons especially have complained that Utah was made "the Botany Bay of worn out politicians." President Cleveland has gratified the last request from Washington territory by appointing as governor the Hon. Eugene Semple, whose name has been spoken in that territory and the adjoining state. The appointment is all the more gratifying because the new governor's father, Gen. James Semple, took an active and prominent part in securing the Oregon country (including what is now Oregon, Washington and Idaho) to the United States. While senator from Illinois in the years the Oregon question was discussed, he was a strong advocate of the course then called in politics "Fifty-four Forty or Fight," and though that extravagant claim was abandoned, the vigorous assertion saved us Oregon. The father's speeches on that subject and his minute knowledge of that country induced the son to locate in Oregon, which he did soon after graduating in 1865.



HON. EUGENE SEMPLE.

Eugene Semple was born June 13, 1840, in the city of Bogota, capital of New Granada, while his father was United States minister to that country. He spent his youth, however, in Madison and Jersey counties, Ills., finished his collegiate education at the University of St. Louis in 1858 and graduated from the Cincinnati Law school in 1863. Late that year he located in the practice of law at Portland, Ore., but in 1870 quit the law and became editor of The Oregon Herald. His association in publishing that journal were Sylvester Pennoyer, now governor of Oregon, and Dr. A. A. Anues, who lacked but a few votes of being elected governor of Minnesota last year. It is scarcely necessary to add that The Herald was a pronounced Democratic paper.

Washington's Negro Population.

The barbers of Washington are almost uniformly colored, and they constitute a diligent, cleanly class. Perhaps the worst information there is about the black boys for newsdealers in the streets. They sell newspapers as their forefathers in Africa would have assailed a caravan. They spy a stranger a block or two away; rush upon him and attempt to dispose of their wares by force. Yet, notwithstanding the large negro population of the city, which may be as high as 50,000 to 60,000, it has its place in this climate, is finding new avocations, and at a recent exhibition of negro products I saw there were school cabinetmakers, wagon-makers, carriage builders, blacksmiths, tailors, etc. From this city go great detachments of colored servants to the summer hotels all over the land. Indeed, the negroes of Washington and Baltimore may be compared to the Swiss, who keep most of the hotels in Europe, and make the best waiters. —Gath's Letter.

THE CHINESE DOCTOR.

A CELESTIAL PHYSICIAN CHATS WITH A ST. LOUIS REPORTER.

The Study of Medicine in the Central Flowery Kingdom—Chinese Theory of Medicine—The Life Giving Spirit—Circulation of the Blood.

Kwong Shang has been practicing medicine now for ten years, and has effected many wonderful cures. He is modest enough to say that the Melican physicians know a good deal about medicine and the ills that flesh is heir to, but not as much as the Chinese doctors, whose diets upon medicine have been followed unvaryingly for the last 8,000 years, and in which now some 400,000,000 of pigtailed people in the world are trusting and abiding faith. He said that there were many government and private colleges in China in which pupils were instructed; that a course in surgery occupied about four years, and in medicine six years. Before entering a medical college there the pupil had to be well versed in the Chinese classics, and he well educated in all things pertaining to religion as well as history, manners and customs. Only the most learned men are allowed to instruct the pupils and to explain the meaning of passages in the books written by sages in long past centuries.

The examination of pupils was not conducted, as it is in this country, by the professors. The preceptor takes before his pupils a man who has an ailment, and they each in turn examine him and determine from his diagnosis which is to be cured. They write out their findings and state the disease, its causes and its cure, which, if it corresponds to the teachings of the books and the professor's understanding of the case, demonstrates that the pupils are competent to practice medicine without the risk of being beheaded as frauds and cheats. The pupil is then given his diploma, a board about half an inch thick, about six inches wide and eighteen inches long, on which appears in brass hieroglyphics the document that the owner is competent to treat for all outside and inside complaints. This diploma is at the same time the medico's sign, and a counterfeit thereof is a counterfeit of a legal form, punishable by the most severe penalties.

THE CELESTIAL THEORY.

According to the celestial theory of medicine, which pertains much of the nature of their theology and philosophy, man is closely associated with and influenced by the external world. For instance, there are five planets, Saturn, Jupiter, Mars, Venus and Mercury, which are supposed to have influence over the five viscera, stomach, liver, heart, lungs and kidneys; that there are five climatic influences, wind, fire, moisture, dry water, corresponding with five colors, yellow, green, red, white and black, and those related again to the five tastes, sweet, sour, bitter, pungent and salt. The combination of the blood and the breath, they hold, constitute life, and the withdrawal of one of these means death. With all this fanciful theory there is also woven into the system in a manner utterly inexplicable the belief in the androgynous nature of all things, that everything is part male and part female. Such a thing as experimenting in medicine is unknown. Dissecting they hold to be inhuman, and vivisection they denounce in unmeasured terms. From this view of these things it is impossible that the Chinese should have any surgery beyond perhaps taking off a mashed limb or cutting out a bullet. They have a form of anesthetic, but not strong as chloroform, but it is seldom used, for, as Kwong Shang said:

"What's the use? Man hurts, put him to sleep. No good. Hurt all the same."

The heart, according to Kwong Shang, is the center of thought, the brain being, in the Chinese physiology, but an inferior part of the man. There is no chemistry employed in a Chinese doctor. Pretty near everything that comes to hand is medicinal in its nature, and the Chinese pharmacopoia is as extensive as their dictionary would be if they had one, for no word will express more than one idea.

The father of Chinese medicine was Shun Nong, and he lived about 8,000 years ago, being a sort of emperor or prince or demigod. Shun Nong was not made like an ordinary mortal. He was transparent, and could see right through himself. Whenever anything went wrong with him he just looked into himself to see what was the matter, and then took his medicine and marked how the dose got to the spot. He noted down all his observations in a book, and from these observations and his deductions therefrom succeeding generations of physicians have never once departed.

CIRCULATION OF THE BLOOD.

The Chinese believe that the blood is running in the veins, but Kwong Shang could not agree with the reporter that the blood was pumped from the heart. He believed that it was the air, a half of the vital principal, which kept it moving all the time. All such things as glands, nerves, ducts, etc., which are so prominent in the western physiology, are utterly unknown to the Chinaman. They are not mentioned in all those things, because of their opposition to the inhuman practice of dissection.

Kwong Shang's theory in treating an ailment is that there are certain channels leading to certain portions of the body, and that medicine placed in the mouth and swallowed goes directly through these channels to the spot. One of his medical books, which he exhibited to the reporter, contained a diagram of a statue called the Brass Man at Pekin, showing these various channels through which medicines passed. The channels run across each other, and through vital parts, with an absolute disregard of intersections and confluency, and the diagram represents a plat of a mining district with the different claims running into each other in the most bewildering fashion. The only method of determining the disease is by examination of the pulse. There are, so said Shung Nong, and so say all his disciples to this day, twelve courses through which the pulses run, and the physician feels the pulse to learn in which the important portions of the body as to their condition. Each wrist has three pulses, and each pulse two forms of development. The Chinese physician occasionally looks at the patient's tongue, but Kwong Shong is certain that no information could be gained as to the state of a patient's lungs by looking at the breast. It is quite a feature of practice to diet patients, and the failure of the patient to stick to the diet generally results in a row.—Globe-Democrat Interview.

The Obstinate Lamp Wick.

Sometimes the lamp wick obstinately refuses to be turned up in an orderly manner. It will soon firmly wedged at one side, while the other runs up in a point, causing weariness and vexation of spirit. To overcome this depravity, take a new wick, draw out a single thread near the selvage and the wick will be found tractable when introduced into the burner. The cog will take it up properly, and it will appear in good form and give an even flame when lighted.—Chicago News.

If you have such a thing as a corn, roll a lemon until soft, cut off a thick slice, bind on at night. It may sometimes require application. It can't be "try, try again," and it will surely cure.

BILL NYE'S BLASTED PASS.

The War Between the Press and the Railways.

HUDSON, Wis., April 4.—I arrived here last week just a little ahead of the biting blasts of the i. c. b. By the i. c. b. I mean to imply the interstate commission bill.

I noticed while en route that the new law had stimulated travel to a wonderful degree. On my way to Dakota, where I was during the winter, I noticed that the sluggish arteries of trade had already begun to palpitate, and crowds of people filled the cars on every train.

I said to myself, congress has at last solved this great question of financial stringency and broken the great dam that held capital captive. On the Piedmont Air line people crushed each other together in a mad attempt to travel. On the Richmond and Danville and R. T., N. and G., as well as the L. and N., humanity crowded day coaches and sleepers till the walls cracked. At Cincinnati I could not get a sleeping car at all, and I had to telegraph twenty-four hours ahead to get one from Chicago. Everywhere, as far as the eye could reach, there seemed to be a wild and restless desire to get somewhere else. Several companies have to put on extra coaches to carry the eager tourists.

I arrived here just in time to witness the last moments of a northwestern race as its spirit took its flight. Had I postponed my journey for a single day I would have been too late.

It was still young. Life was before it. Barely a quarter of the span of its life had been passed when it curled up and expired. It was a cute little thing, with an olive complexion and large, mournful, upper case eyes.

A few weeks ago I noticed that it did not look well. It did not complain of illness or pain, but I thought I detected a condition on its back, and so I hurried home in order to be here in case it should expire. As soon as the conductor looked at it and felt its pulse he said that he could do nothing for it. The interstate commerce law is one of those things that will have to be tried before we can pass upon it, I presume, though some claim that it is going to be very difficult to pass upon it even then. The thought occurred to me just after the gale keeper pushed me back yesterday and told me to go and get my ticket.

I then first realized what it was to be rudely ground under the heel of a cold corporation that is devoid of heart, devoid of soul, devoid of noble thoughts, devoid of refined instincts, *devoid of kind impulses, devoid of milk of* human kindness, devoid of bowels of compassion.

From force of habit I walked up to the gate with a joyous nod and the old password, only to be coldly repulsed by the inhuman bouncer of this heartless soulless, impulseless, milkless and bowelless corporation.

But the railroads will get the worst of it, for I know that travel on some of the lines *has fallen off since April 1st. It can see it* already. I have fallen off myself since the 1st of the month and others will do the same.

That is not all. A friend of mine who runs a paper, and whose pass got the hollow horn on Friday last, says that his columns are now open to those who wish to complain of the management of this road. He states that the first hot box will be duly chronicled, and that he will no longer close his eyes to the wrongs we have heretofore suffered at the hands of this ghastly and heartless vampire that has been sucking the very foundation of our institutions and smearing its long, dark trail with the remnants of our best mule cows, redundantly saying for them the price set at the tail of an unjust and enervating trial by a corrupt, venal and driveling jury.

He says that "the time has come for the press to arise and assert itself," and when the train runs off the track and kills a lot of people who have left exemplary lives, his paper will hereafter tell why and how it was done. Heretofore he has not been sufficient help in the office, he claims, and he frequently ran short of type, but now he is going to give all the perpetrators of the fiendish act that occurs on the road if the paper fails into the relentless maw of a sheriff's sale on the following week.—New York World.

The One He Forgot.

"John, I would like to invite my friend, Mrs. Smalley this evening. Will you be able to be in?" "No, my dear, I *must attend* a meeting of the Knights of Honor to-night." "Well, to-morrow evening?" "I have the Ancient Order of United Workmen, and you know"—— "What about Wednesday evening?" "Oh, the Odd Fellows have that night, and on Thursday I have a meeting of the Chosen Friends to attend; on Friday the Royal Templars; on Saturday there is a special meeting of the Masonic lodge, and I couldn't miss that; and then Sunday—let me see—what is there on Sunday night, my dear?" "The Grand and Ancient Order of Christian Fellowship." "Why, I had forgotten, am I a member of that—let me see—" "But you have forgotten another society, John." "What's that?" "Your wife's."—Boston Record.

A Case for Pasteur.

"Look heah, sah! dars, I done got a quaht bottle of blackberry brandy in dat cubboahd heah, an' I wants to know is it poisoned fo' sho', an' dey ain't enough of dat stuff to waste, an' I don't keer if it's enough to kill a whole passel of boys enough to kill dem. What dat likker all apposed to be, I specs?" "How I know is you got a jug likker? You might got mosh sense dan put anything in dat an cubboahd; ain't you' bilin' full of cockroaches?" "Well, you' ole man done got hold of poison likker, sho. Reh, I jes' must hin down street lightin' wid two policemen who was tyin' him down on a dray."—Texas Siftings.

It Was Put in the Paper.

A friend writing from Boston relates the following anecdote, told her by a head master of one of the schools in that city, as illustrative of the lack of taste that the well known daily paper has upon the popular mind:

"The recitation was in ancient history. The pupil was expatiating upon the topic of the Olympic games. 'A great many people went to see them,' she said, 'because it was put in the paper when they were coming off.' The pupil's mind had confused the issue. 'Did they have newspapers in those days?' 'Why, yes,' was the reply, 'it says so in the book, anyway; it says The Herald proclaimed them.'"—Open Court.

PLAINFIELD EVENING NEWS.

Vol. 7, No. 15. PLAINFIELD, N J., "THE COLORADO OF THE EAST," THURSDAY, JUNE 16, 1887. Price Two Cents.

PLAINFIELD,

the center of a locality famed because of its delightful climate, as the "Colorado of the East," covers about twenty square miles including the borough proper, at about five miles long by four miles wide, at an elevation of over 26 feet above sea level at the railroad station. Heights, sloping to nine hundred feet in the southern portion, lead to the fairer river, the Watchung Mountains on its north, and the westerly boundary of the city is formed by the Green Brook, which, rising at Metuppua Falls, pierces the Watchung Range by a chain of lakes and flows into the Raritan River, terminating its course at Bonhamtown. Plainfield is fully shaded by arches of stately elms, and is lighted by electricity and gas from superior elevated railroad stations, and depots connecting all parts of the city, and on which commutation tickets with New York, twenty times the distance, are sold at less than half the usual daily passenger fare. The commutation rates are $7.25 per month by the year and twelve of honest toil by the entire house from $15 to $100 per month, according to neighborhood. The locality abounds in elegant, comfortable homes, and has the most ample and best protected modern facilities, the finest churches, schools, hotels, theater, halls, public library, art gallery and museum in the State, the largest and grandest driving park and speedway in the world, has the reputation by statistics of being unequaled for healthfulness, and excelled in the average of longevity of its inhabitants, only by New York, the fifth greatest state in population, and the first in wealth. The population is about 14,000, and the advertising columns of the PLAINFIELD EVENING NEWS, the official city journal, and widest local circulation, show the public spirit and enterprise of the people who pour trade and travel this way and are devoted to Plainfield and come all worthy people. Briefly it is a city favored in many of the conditions that are in every way to make it the most attractive city of homes in the country.

THE QUEEN CITY OF NEW JERSEY

JOB PRINTING OF ALL KINDS FROM A CARD TO A POSTER, IN THE BEST STYLES AND AT THE MOST REASONABLE RATES. TELEPHONE CALL NO. 42.

JOTTINGS.

—"Uncle Tom's Cabin" at Music Hall to night.

—The last business meeting of the season of the Y. M. C. A. will be held next Monday.

—The M. E. Sunday school will give its annual excursion to Asbury Park on Friday, July 15.

—The members of the Y. M. C. A. Seniors who will walk to New Market to-night, are requested to be at the rooms at seven o'clock sharp.

—The Philadelphia Base Ball Club went through this city on the 8.17 train last night homeward bound. They had been playing a game with the New York Club.

—Mr. L. Heyinger has rented a store on North avenue, next to the hotel, for a branch of his flour and feed business. It is to be opened next Monday, and will be duly advertised.

—A large attendance was present at the strawberry and ice cream festival held in the parlors of the Seventh-Day Baptist church last evening and an enjoyable time was had by all.

—Says the New Brunswick Freedonian; "Plainfield is about to capture another boom. This time it is the Standard Machine Nut Company. Success to the enterprise and success to our sister city.

—The clothing store of Rudolph Titsworth on Canal street New York was entered by burglars during Saturday evening and robbed of about two hundred dollars in money and a lot of clothing. Mr. Titsworth resides in this city.

—At the last meeting of the new military company the names of nine new members were presented and referred to the recruiting committee. The resignation of Frank Martin, the secretary, was handed in and laid on the table to act upon at the next meeting.

—E. C. Mulford the real estate broker, who has charge of the Onderdonk property, 7th and 8th streets, Central and Madison avenues, states that he has sold to Alexander Gilbert, 150 feet front on Eighth street, corner Central avenue, and is offering other suitable plots for nice improvements, at reasonable prices. The title has passed to Mr. Gilbert, who proposes to make some handsome improvements.

—David P. Williams, Nathan Smith, Mary Smith and Patrick Cullington came in to town yesterday to look after their interests about here during the re-union festivities. Nobody knew where they came from and their destination was very indefinite. They assembled in Cutter's alley yesterday afternoon and proceeded to have a glorious celebration all by themselves. And they were having a merry time of it, too, when the police looked in and carted them all off to the station house, and they passed the night under lock and key. They looked very penitent when arranged before Judge Ulrich this morning, but that gentleman was inexorable and in default of actual cash to meet the fines imposed they were sent to Elizabeth during the following terms: Williams, 15 days; Smith, 40 days; Mrs. Smith, 30 days; Cullington, 30 days.

—There is no better Chief of Police in New Jersey than Chas. Dodd of Plainfield. He is heartily hated and feared by evil-doers generally. It is all the more surprising that a Justice of the Peace, supposed to be an upholder of law and good law officers, should entertain a trivial complaint against him, and issue a warrant for his arrest. There is considerable indignation over it, and no wonder. The chief attributes the action of the justice to malice. We have a better opinion of the justice, and think he has simply committed an error of judgment. The chief has shown his good sense by not allowing the justice to try the case, but leaving it to the Grand Jury, which it is safe to say will throw it out. If the arrest was intended to cast reproach upon the chief it is not a success, and we are sorry Justice Nash, who we think means right generally, should have acted as he has in the matter. The case is a small in a nutshell, and especially so in a Justice of the Peace.

Fire at Evens.

About twenty-five feet of the platform of the Evens station was burned yesterday after noon. A spark from a locomotive caused the fire, which began about half-past one o'clock. It was extinguished by station master Meader, assisted by the neighbors. The depot was saved by their earnest exertions.

THE BLOODY ELEVENTH.

REUNION OF THE SURVIVING NEW JERSEY VOLUNTEERS.

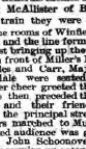
Plainfield Doing Itself Proud in Entertaining the Veterans—Addresses by Eminent ex-Soldiers and Others—Sketches of Soldiers Participating.

RESOLUTIONS CONDEMNING PRESIDENT CLEVELAND.

Pretty flags decorated the front of many stores and dwellings in Plainfield this morning when the surviving members of the Eleventh New Jersey Volunteers arrived here. They came from all sections, until veterans numbers to the number of sixty-eight, besides the distinguished generals and retired. Before ten o'clock the *Plainfield Cornet Band*, attired in handsome uniforms, was at the depot and when Generals Sickles and Carr of New York and McAllister of Belvidere alighted from the train they were heartily greeted. Then to the rooms of Winfield Scott Post they proceeded and the line formed with forty-one of this lost brigade up the line. Next they stopped in front of Miller's Hotel where Generals Sickles and Carr, Major Rafferty and Mayor Male were invited in a carriage. Cheer after cheer greeted the old commanders, who then preceded the members of the regiment and their friends in marching through the principal streets, after which the soldiers marched to Music Hall, where a goodly-sized audience was gathered.

Colonel John Schoonover was unable to attend the reunion on account of sickness.

The gathering was held at the Hall by Hon. Job Male. For our visitors we state that Plainfield was incorporated a city in 1869, and he was its first mayor. It is a worth several millions, and has presented to the city a $50,000 art gallery and library.



Addresses were made by old officers of the regiment, including Gen. Sickles, of New York, who commanded the corps of which the regiment was a part, Gen. Robert McAllister, of Belvidere, and formerly commanded the regiment, and Col. John Schoonover, of Trenton, who was the last in command, and others. Gen. DePeyster, another organization, was prevented from attending because of illness. Thomas Morbecker, of Trenton, is the historian of the regiment.

GEN. DANIEL SICKLES.

The regiment from the time it entered the service, August, 1862, to the close of the war always preserved its good name as faithful soldiers, never flinching from duty.

When the army was consolidated in the spring of 1864, and the Third Army Corps formed up, the regiment became a part of the First Brigade: (the Second Jersey Brigade), First Division, Second Corps. A further consolidation occurred after the battle of Spottsylvania, and the regiment then became of the First Brigade, Third Division, Second Corps, in which organization it continued until the end of its service.

GEN. M'ALLISTER.

The Eleventh regiment was mustered into service for three years, Aug. 16, 1864. It left Trenton for Washington Aug. 25, and on arrival went into camp on Arlington Heights, then was sent to the front, took part in all during the second battle of Bull Run. Its first battle was fought at Chantilly, and from that time it took part in every battle of the army of the Potomac.

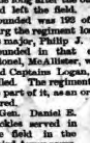
Says the historian: An act of Congress approved July 22d, 1861, authorized the recruiting of troops in anticipation of a call. Under this act, recruiting for the Eleventh was commenced in August, 1862, and the regiment, the President's call for 300,000 more men, on July 7, 1862, between 300 and 400 men had been mustered, and were in Camp Olden at Trenton. On August 18th the regiment was mustered into the U. S. service for three years, being then fully officered and equipped.

It left Camp Perrine for Washington on August the 26th, moving there the following day. It was immediately marched to Arlington Heights, where it went into camp on the 29th day of August. It was marched down to and up the Potomac to the aqueduct, where it crossed to Georgetown, continuing up the river to the chain bridge in recrossing the Virginia side and marched some miles up the Lushing road, where it lay during the second battle of Bull Run. The sound of the unfortunate battle could be plainly heard, though the battle was twenty miles or more away. The regiment continued in the vicinity of Washington and Alexandria, doing guard and fatigue duty until November 16th, when it joined the First Brigade (Gen. Carr's), Second Division (Gen. D. E. Sickles), of the the old Third Army Corps, and proceeded to camp near Falmouth, Va., where it was at Fredericksburg, and from that until the expiration of its term of service, the regiment took part in every battle fought by the Army of the Potamac.

Following in a list of its battles:

Fredericksburg, Dec. 12 and 13, 1862.
Chancellorsville, May 2, 3 and 4, 1863.
Gettysburg, July 2 and 3, 1863.
Wapping Heights, July 14, 1863.
Kelly's Ford, Nov. 7, 1863.
Locust Grove, Nov. 27, 1863.
Mine Run, Nov. 30, 1863.
Wilderness, May 5 to 7, 1864.
Spottsylvania, May 8 to 11, 1864.
Spottsylvania, May 12 to 21, 1864.
North Anna River, May 23 and 24, 1864.
Tolopotomoy Creek, May 30 and 31, 1864.
Cold Harbor, June 1 to 12, 1864.
Berker's Mills, June 1 to 5, 1864.
Petersburg, June 16, 1864.
Deep Bottom, July 27 and 28, 1864.
Mine Explosion, July 30, 1864.
Bank of James, Aug. 14 to 18, 1864.
Strawberry Plains, Aug. 16, 1864.
Fort Sedgwick, Sept. 30, 1864.
Poplar Spring Church, Oct. 2, 1864.
Boydton Plank Road, Oct. 27, 1864.
Fort Morton, Nov. 3, 1864.
Hatchers Run, Nov 27, 1864.
Petersburg Assault, March 25, 1865.
Boydton Plank Road, April 2, 1865.
Amelia Spring, April 5, 1865.
High Bridge, April 6, 1865.
Farmville, April 7, 1865.
Lee's Surrender, April 9, 1865.

Thirty in all. In addition to this it should be remembered that during the nine months' service before Petersburg the regiment was seldom beyond the front line of the army's guns. During its term of service the regiment lost seventy killed in action, twenty-five missing, and thirty-four died of wounds. The deaths from all causes were eleven commissioned officers and 229 enlisted men. It received the name of the "Bloody Eleventh" from its extreme fighting at Chancellorsville long after the other troops of its brigade had left the field. The loss in killed and wounded was 192 of 300 men. At Gettysburg the regiment had 157 out of 230 men. Its major, Philip J. Kearney, was mortally wounded in that engagement, while its colonel, McAllister, was seriously wounded, and Captains Logan, Martin and Ackerson killed. The regiment never lost a color, and no part of it, as an organization, ever surrendered.



GEN. JOHN SCHOONOVER.

Gen. Daniel E. Sickles served in the field in the Third Army corps, which he after ward commanded in 1862 and 1863. His services were so valuable as colonel of the First Excelsior, Subsequently he was assigned to the Excelsior brigade, which was raised and organized by himself at his own expense, afterward reimbursed by the United States. The Excelsior brigade was the second brigade in Hooker's division. It was assigned to the command in the Peninsular campaign.

In September, 1862, Sickles was appointed to the command of the Second division, Second corps, and their friends in marching through the principal streets, after which the soldiers marched to Music Hall, where a goodly-sized audience was gathered.

Colonel John Schoonover was unable to attend the reunion on account of sickness.

The gathering was held at the Hall by Hon. Job Male. For our visitors we state that Plainfield was incorporated a city in 1869, and he was its first mayor. It is a worth several millions, and has presented to the city a $50,000 art gallery and library.

THURSDAY, JUNE 16, 1887.

FOOLHARDY GRAHAM,

In Attempting to Go Through the Rapids, Narrowly Escapes Destruction.

NIAGARA FALLS, June 16.—Carlisle D. Graham nearly lost his life yesterday in the Whirlpool rapids. He had made up his mind to make the trip this time strapped on the outside of a barrel, but there was not money enough in it for him to make the risk. He himself is inside and was towed to the center of the river. At 5:38 the barrel struck the head of the rapids and was half upturned. It was tossed about in the torrent until it seemed that the shaking up would kill the human freight. The voyage occupied six minutes. The cask was swept twice around before Graham heard a pistol shot fired by friends on shore who wanted to rescue him. When on the point of starting for the terrible Devil's rapids he unfasted the manhole. Although exhausted the adventurer crawled out after overturning the barrel, and made a dive into the maelstrom. He was 100 yards from shore and it seemed impossible for him to reach land. The swift current carried him under and he was finally driven by the undertow to the cribwork. Graham heard a pistol shot fired by friends on shore who wanted to rescue him. When on the point of starting for the terrible Devil's rapids he unfasted the manhole. Although exhausted the adventurer crawled out after overturning the barrel, and made a dive into the maelstrom. He was 100 yards from shore and it seemed impossible for him to reach land. The swift current carried him under and he was finally driven by the undertow to the cribwork. Graham and Horne swam to the water and finally got ashore. The cooper was badly injured.

INDIGNANT PROTESTS

Against the Order Compelling the Return of Battle Flags.

COLUMBUS, June 16.—Governor Forker yesterday received a telegram from D. C. Putnam, Springfield, department commander of the Grand Army of the Republic of Ohio, urging him in behalf of the 30,000 comrades of this department, to protest to the authorities at Washington against the return of the rebel flags captured by the soldiers of Ohio. The governor forwarded the telegram to President Cleveland, with words:

"In transmitting this message I desire to comply with its request, and do most earnestly protest against the action which it embodies. Every loyal people of this state will be shocked and indignant beyond anything I can express. I earnestly request you to revoke the order that has given such unqualified offense."

The governor also sent a telegram to Gen. Boynton, at Washington, asking him to take legal advice and use all proper meetings to enjoin the return of the rebel flags which were captured by Ohio troops.

SENATOR SHERMAN

Denies That Mr. Blaine Went to Europe to Look for the Presidency.

CINCINNATI, June 14.—The Enquirer publishes this morning a lengthy interview with Senator Sherman. In reply to a question as to his plans for the summer the senator replied:

"I expect to remain here at home during the summer, being absent only when called away on business, and shall go to Washington in November unless congress should be convened at an earlier date."

"It is said that Mr. Blaine went to Europe to look after his political fences?"

"There is nothing in that of course. He undoubtedly went for rest and recreation. He no doubt needs rest, and it will be beneficial to him. Then, as to his presidency, he is probably less liable to injure his chances abroad."

This was as near as the senator came to saying anything about the presidency. Whatever may be his topics, aspiration and ambition it is a subject that evidently he prefers others should discuss.

Hanged Himself Through Fear.

COVINGTON, Ga., June 16.—Mr. Giles S. Whitter committed suicide by hanging. Mr. Whitter was 65 years of age and the father of a large family. For many years he had run a liquor store. When prohibition began to close in around the country in which he lived he became greatly excited, and vowed that the country was ruined. Ever since he was compelled to close up his store his mind has been affected. Tuesday he took a notion that the Prohibitionists intended to torture him, and at night he got up and expressed his purpose of hiding from his enemies in the barn. Yesterday morning his body was found dangling from a rope, which was attached to one of the joists.

A Peculiar Pies.

BROOKLYN, N. Y., June 16.—Mr. and Mrs. Gilligan, of 562 Washington street, separated some years ago, and Mrs. Gilligan went to live with Jacob Meyer. Gilligan kept their two children. Meyer entered the house in Gilligan's absence and took away the little girl. Gilligan and Meyer arrested for abduction yesterday, but the latter set up the startling plea that he, and not Mr. Gilligan, was the child's father. Mrs. Gilligan appeared in court and said she believed it was true. The justice said that under these circumstances he could not interfere on Mr. Gilligan's behalf, and Meyer departed with the little girl.

The Railway Murder Mystery.

SALEM, Ills., June 16.—A man giving his name as Casper Strumbeck was arrested at Juka, this county, on a confession he had made to John Bowman, a German blacksmith. He says he was a witness to the German telling all about the murder of a young woman near Rahway, N. J., on March 26. He identified a photograph of the girl and said the German had given him a picture. Stumbeck is about 5 feet 2 inches in height, weighs 125 pounds, has blue eyes and heavy auburn hair. He is 23 years old. He came to this country from Germany about five years ago, and to this county on June 6.

Young Beall Tells His Story.

EATON, O., June 16.—The mystery surrounding the Beall murder increases as the coroner's inquest proceeds. It is still in progress, and may occupy another day. The son of the murdered woman, on whom the suspicion rests, was examined. His story is straight, but the coroner could see no manifest signs of guilt. About $13 in money, a note for $150, a silver watch and some jewelry are missing. There is a suspicion that young Beall was prompted by some member of the family to kill his mother. The theory that tramps killed the woman has been exploded.

The Jubilee Begun.

LONDON, June 16.—The jubilee festivities were begun last evening. The Prince of Wales, as Grand Master, presided at a banquet by the Temple benchers. A host of noteabilities were present. The Prince of Wales, Prince Albert Victor, the Duke of Cambridge and the principal guests then proceeded to the jubilee hall at the Reform club, which was attended by nearly 2,000 persons. A jubilee banquet and reception was given at the foreign office last evening.

LABOR IN POLITICS.

CONFERENCE OF THE UNION LABOR PARTY AT ELMIRA.

A Motion to Invite Dr. McGlynn to Attend the Conference is Tabled, After Debate—The Anti-Monopoly Men Distributing Circulars.

ELMIRA, N. Y., June 16.—The state conference of representatives of the United Labor party met at 2 o'clock yesterday afternoon, and was called to order by James Abbott, of Elmira, chairman of the state organization. Mr. Abbott is a brother of Judge N. A. Abbott, the well known railroad general passenger agent. All those present signed an agreement to sever their connection with any other political party. The platform of the recent United Labor convention at Cincinnati was adopted. It favors arbitration to avoid strikes; debounces contract prison labor; advocates the incorporation of agricultural co-operative associations; a graduated income tax; election of United States senators by the people, the prohibition of "Pinkerton" men, etc., and female suffrage.

The state committee was appointed comprising one member from each congressional district.

It was moved that the United Labor party and the Land and Labor parties or organizations be invited to join the Union Labor party. The motion was lost after discussion, in which its opponents argued that the Union Labor party should not recognize the existence of any other party but itself, and that all others should come to it as a matter of course.

A motion was also made that Dr. McGlynn, who is in the city under the auspices of the Land and Labor club, be invited to attend the conference. This led to a debate on the theories of Henry George, which was defended by some of the delegates and opposed by others. The motion was finally tabled.

W. A. A. Carsey, chairman, and J. W. Keogh, secretary of the Anti-Monopoly league, were present, distributing circulars issued by their association, in which the Democratic party was endorsed. They claimed that the conference was arranged for the purpose of disorganizing the United Labor party and breaking up its forthcoming state convention. Much ill feeling was manifested between members of the United Labor party and those present who sympathized with the United Labor party. The business for which the conference was called, the fixing of a date and place for the state convention, was finally left to the executive committee, and the conference adjourned. A full state ticket will be nominated at the convention, which will probably be held at or about the time of the United Labor convention, which meets Aug. 14, at Syracuse.

PREPARING FOR TROUBLE.

The Cleveland Police Furnished with Ammunition.

CLEVELAND, O., June 16.—The strike of the shovelers on the New York, Pennsylvania and Ohio ore docks has assumed a serious aspect. The railway company has made several attempts to bring laborers here to take the places of the strikers, but all of the new comers were peacefully persuaded to go away except some negroes, who have become a bone of contention. A hostile demonstration occurred through the belligerence of a negro who was refused beer in a saloon near the docks. The threatened riot was avoided with some trouble, but when the negroes were brought in from the village of Mantua, where they are kept nights, a mob threatened to assail them, and it was deemed prudent to send the negroes back to Mantua without attempting to set them at labor. The strikers then formed a procession and marched to other ore docks, where the men have no difference with their employers, and prevailed on them to stop work. A meeting of the police commission was hurriedly called and steps were taken to put down disorder. Two thousand rounds of ammunition were distributed among the police of two precincts.

Opposition to the Pacific Mail.

SAN FRANCISCO, June 16.—It is published here to-day to the effect that the Marquis Del Carpo, a Spanish capitalist, owning steamship lines running between Spain and Cuba, will place a line of steamers on the Atlantic and Pacific oceans to run between here and Panama and connect with steamers from Aspinwall for New York. The steamers will run in opposition to the Pacific Mail company, and will begin making weekly trips in September.

Royalty at the Wild West.

LONDON, June 16.—The Princess of Wales and her family visited the Wild West show yesterday, together with a score of foreign royalties, all of whom rode in the Deadwood coach, the Princess being seated on the box by the side of Buffalo Bill, who drove the horses attached to the vehicle. Grand Duke Michael, of Russia, and Prince George, of Wales, afterward rode some of the show horses and tried their marksmanship at shooting, making very respectable scores.

Dr. McGlynn in Elmira.

ELMIRA, N. Y., June 16.—Rev. Thomas K. Beecher presided over the first and labor meeting addressed by Dr. McGlynn last evening. He said that he and all Elmirans were glad to give so earnest a man a hearing. He considered it an honor to introduce Dr. McGlynn and a pleasure to listen to his teachings. Mr. Beecher also spoke in terms of praise of Henry George. There was a large audience and the lecturer was warmly received.

Mobbing a Church.

DUBLIN, June 16.—The windows of a Presbyterian church in Parsonstown, a market town of Kings county, were smashed by persons who subsequently entered the church and destroyed the furniture in the main building and vestry. A meeting of Catholics was held yesterday, over which the parish priest presided, and resolutions were passed pledging those present to use their utmost efforts to bring the miscreants to justice.

A Jersey City Tragedy.

JERSEY CITY, June 16.—Charles Burch, who shot his wife and child here in this city yesterday and then killed himself, was a policeman. His mind was probably deranged. The woman is now lying in the City hospital in a precarious condition with a bullet in her breast. Burch fired three bullets into his own head. The couple were alone in the house at the time of the occurrence.

A Young Woman's Sudden Death.

BRIDGEPORT, Conn., June 16.—Miss May Beers was just stepping out of the train for Norwalk, in company with her brother, when she fell dead. She was apparently in perfect health and was only 20 years of age. Medical Examiner Downs pronounced the cause of death heart disease.

Death at the Dance.

BALTIMORE, June 16.—Tuesday night in the largest dance hall in the city, as the music for a quadrille struck up, Emma Vinton rose to join the dancers. Just as the first figure was called she fell dead.

THE AGONY OVER.

The Jury in the Sharp Trial at Last Completed.

NEW YORK, June 16.—The jury in the Sharp bribery trial was completed late yesterday afternoon. Mr. Sharp was committed to the custody of the sheriff, but was permitted to go to his home under guard of a deputy. Mr. Nicoll began his opening address at 7 o'clock and spoke until 10 o'clock, when court adjourned. He asserted very positively that the prosecution would produce evidence which could not be contradicted to show that Sharp bribed Fullgraff and others. They did not depend on Fullgraff's own testimony alone. They would show that the conspiracy to lay up the aldermen was hatched in the office of Sharp's counsel.

The jury as it now stands is as follows: W. J. Cassell, Jesse O. Schimmell, Jacques Kahn, Alex. T. Clark, Rudolph Wolff, Wm. R. Mead, A. H. Hopping, David Clarkson, Henry N. Fedder, Theo. Kauffield, Samuel Palmer, and Jos. M. Marvin.

Following are the jury statistics: Whole number drawn, 3,100; whole number examined, 1,196; whole number qualified, 94; challenged by the people, 15; challenged by the defense, 20; excused by the court, 7; now in box, 12.

Fatal Fall from a Train.

LOCKPORT, June 16.—Dr. S. C. Bateman, a prominent physician of Alabama Centre, was instantly killed yesterday at Sanborn, ten miles west of here, falling from the platform of a Niagara Falls excursion train on the Central road. The train was pulling from a switch to the main track and the deceased, Dr. Bateman and Dr. Lee were him head first to the ground. He was 65 years of age.

The Royal Arcanum.

BOSTON, June 16.—The Supreme Council of the Royal Arcanum held its final session. It was decided that if the next annual meeting cannot legally be held at Toronto, it shall be held at Milwaukee. The newly elected officers were installed, and Supreme Regent Lindsley made an address upon the aims and duties of the order. Most of the delegates started for their homes.

A Forger Captured.

STERATON, Ills., June 16.—Fred Goerns, the carriage manufacturer of this city, who forged the signatures of Charles Gurney and others to the amount of $40,000 and fled for parts unknown, was arrested in Canada, where he had been working in a carriage factory. An officer left this morning for Omaha to bring him back to answer the charge of forgery.

Bishop Stevens' Funeral.

PHILADELPHIA, June 16.—The services over the remains of the Rev. William Bacon Stevens, bishop of the Protestant Episcopal Diocese of Pennsylvania, were held in Holy Trinity church. They were impressive in their simplicity. The body was laid to rest in the quaint graveyard which surrounds the Church of St. James the Less, in the falls of the Schuylkill.

Marine Intelligence.

NEW YORK, June 15.—Arrived, steamers City of Augusta, Savannah; Plata, Palermo; Ethiopia, Cadiz; Spain, Cadiz; Alsatia, Girgenti; Excelsior, New Orleans; L. D. Baker, Mobile; Neuces, Galveston. Barks Alba, Alexandria; Maggie M., Exmouth; N. B. Morris, Boston. Arrived out, steamer Circassia, from New York, at Moville.

They Propose to Push the Road.

WINNIPEG, Man., June 16.—Premier Norquay has been given to understand by the Dominion government that the construction of the railroad to the boundary will be fought at every step.

A Church Destroyed.

BOSTON, June 16.—St Mary's Episcopal church was gutted by fire yesterday morning. Loss, $10,000. The fire is believed to have been of incendiary origin.

Too Much Pie.

LACONIA, N. H., June 16.—Manuel Noel, French Canadian, aged 50, ate over one pound of raw beefsteak yesterday morning and died in thirty minutes.

A New Hampshire Official.

CONCORD, N. H., June 16.—Darius Merrill, of Concord, has been appointed deputy secretary of state, to succeed Isaac W. Hammond.

Weather Indications.

For Friday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, slightly warmer, fair to partly cloudy weather, preceded by local rains in the northern parts.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 15.—Money closed at 4 per cent. which was the lowest rate. The highest rate was 5. Exchange closed easier at $4.86@4.86¼ actual rates, 4.84½@4.84¾ for sixty days and 4.86¾@4.87 for demand. Bonds closed firm: currency 6s, 123¼ bid; 4s, coup., 120¾ bid; 4½s, do., 109¾ bid.

The stock market continued in a very unsettled state up to 1:30 p. m. The announcement of the failure in Chicago caused a very nervous feeling and some selling by the more timid brokers. The lowest prices were generally touched at the time. From that time to the close there was more support extended to the market, and there was a steady improvement. The market closed strong, ranging ¼ to ¾ higher than they closed last night in many cases.

General Markets.

NEW YORK, June 15.—FLOUR—Closed dull and weak, but not quotably lower. Minnesota extra, $3.30@3.25; Minnesota extra, $4.30@4.10; city mill extra, $4.60@4.75; Ohio extra, $3.30@4.80. Receipts of flour, 24,000 bbls; sales, 5,000 bbls.

WHEAT—Options were irregular and unsettled to-day, reflecting the situation in Chicago. Dealings at times were attended with great excitement. Prices were weak and unsettled. At the lowest point prices were down 1¼ to 2¼ per cent. The close was steady at some recovery from the lowest. Closed weak. Spot sales of No. 2 red state, at 96@96½c. No. 3 do., 93½c. No. 2 red winter, 94c.; No. 3 do., 92½c. No. 1 white, 96½c. No. 2 do., 96½c. No. 1 red, 97¼c. No. 2 do., 93½c.; No. 3 red, 87½c. No. 1 northern spring, 97½c. No. 1 hard, 97½c. Options, No. 2 red, June, 96@96½c.; July, 93@93¾c.; Aug., 87@87½c.; Sept., 87¼c bid.

CORN—Options were moderately active and irregular, closing heavy and depressed at ¼@¾c. lower. Spot sales closed weak and ¼c. lower. Spot sales of No. 2 mixed cash at 49¾c.; ungraded mixed, 46@47½c.; steamer mixed, 49¼c. No. 2 June, 48¾@48¾c.; do., July, 46¾@47½c.; do., Aug., 47¾c.

OATS—Options were irregular and closed at ¼@¾c. lower. Spot sales closed weak and steady and unchanged. Spot sales of No. 1 white state, 39c.; No. 2 do., 37½c.; No. 2 mixed, 33½c. July, do., 30¾@31c. Aug.

RYE—Dull, but steady; western, 54@56c.; state 61@63c.

BARLEY—Dull and unchanged.

PORK—Dull; old mess, $15; new do., $16.

LARD—Closed firm, but quiet; cash, $6.32; July $6.80; Aug., $6.90.

BUTTER—Firm, with fair demand; state, 18@20c.; western, 14@18c.

CHEESE—Dull, but steady; state, 13@20c.; western, 12@13c.

EGGS—Steady and fairly active; state, 16¼@17c.; western, 15¾@16¼c.

SUGAR—Raw nominal. Refined steady; cut loaf and crushed, 6¼c.; cubes, 6 15-16c.; powdered, 6¾@6¼c.; granulated, 5¾c.; mold A, 6¾c.; confectioners' A, 5¾@6c.; coffee A standard, 5¾c.; coffee C, 4 15-16@5 1-16c.; white extra C, 5@5c.; extra C, 5 1-16@5 1-16c.; C, 4¾@4¾c.; yellow, 4¼@4¾c.

KENTUCKY'S OUTLAWS.

AN EX-SHERIFF AND HIS SON FIRED UPON FROM AMBUSH.

A Belief that Craig Tolliver Instigated the Attempt to Murder—A Republican Convention Charges the Democrats with Responsibility for the Disorders.

LEXINGTON, Ky., June 16.—While ex-Sheriff Ramey and his son, of this city, were riding to Morehead they were fired upon by men concealed in the bushes. Both were seriously wounded with buckshot, but it is thought that neither will die. It is believed that Craig Tolliver instigated the attempted murder. Ramey has been a friend of the Logans and has once or twice arrested members of the Tolliver gang. Any stranger who visits Morehead takes his life in his hands. Every newspaper correspondent has been driven out of the town by Tolliver, who threatens to kills any reporter who shows himself there. There is an opinion that bloody times will result from this latest outrage, and the governor of Kentucky will be appealed to. Ramey's only offense, so far as has been learned, is that he went to Morehead to investigate the existing trouble on behalf of the state.

The Republican convention in Mason county Tuesday adopted the following resolution:

"That the present outrageous state of affairs in Rowan county is directly the result of Democratic misrule in that county and state, and we demand that Governor Knott take such measures as will, without a moment's delay, deprive the present officials of the town of Morehead and their henchmen and backers of the power to murder and drive from the county her peaceable and good citizens."

The rule of the desperadoes led by Tolliver is complete, and reputable citizens dare not say a word. Dr. Henry Logan, father of the two boys murdered by Craig Tolliver at Morehead last week, and Morgan McClure, both of whom have been confined in the Lexington jail on trumped up charges of conspiring to kill ex-Judge A. C. Cole and others in Rowan county, were pardoned by the governor. When the news reached Morehead the Tolliver gang were wild with rage and swore that if Logan came back there he would be killed on sight. The victims of the feud up to this time are Solomon Bradley, John Martin, Whit. Peltrey, B. Candell, Sheriff Baumgartner, Marion Keaton, John Davis, Trey Tolliver, a railroad man named Witcher, Will Logan, Ben Ranborne, John Day, Floyd Tolliver, John B. Logan, W. H. Logan and one other.

Governor Knott has taken no action in the matter is anxiously awaited.

Held for Murder.

NEW YORK, June 16.—A coroner's jury yesterday returned a verdict in the case of lunatic Farrish, holding McCue and Cleary, the two Ward's Island keepers, accountable for his death. The attending physicians are censured for meagre details of the cause of death.

Sherman Investing in Washington.

WASHINGTON, June 16.—Senator Sherman who is interested in the Washington coal and coke company, has purchased a large real estate in East Washington, has just purchased about forty building lots in the northeast section of the city and will soon commence improvements on this, his latest purchase.

Forgiving the Train Robbers.

PITTSBURG, June 16.—A number of the train men who were arrested for complicity in the Panhandle robberies have been taken back by the company. They have shown a disposition to do what is right, and the officials intend to give them a trial.

All for Love.

PROVIDENCE, R. I., June 16.—Mrs. Mosde Creighton committed suicide yesterday on account of the young man of the fair. She came here from Attleboro, where she was employed by a jewelry firm. Her family reside at Worcester.

Emperor William's Condition Alarming.

BERLIN, June 16.—The Emperor William had another chill last evening, and has since been growing worse. The doctors are entertained that all of the improvement shown in his condition during the last three days will disappear.

A Domestic Tragedy.

WORCESTER, June 16.—At Southbridge, yesterday, Alphonse Duquette shot his wife in the head and then shot himself through the heart. The wife will recover, but Duquette died instantly. Family troubles were the cause.

Seizure of Opium.

SAN FRANCISCO, June 16.—Customs inspectors seized over 83,000 worth of opium in the possession of George Connor at Oakland yesterday. Connor is supposed to be the chief agent of a ring of Chinese smugglers.

Bismarck Must Take a Rest.

BERLIN, June 16.—Prince Bismark has been advised by his physician, Dr. Schweninger, to take a long and complete rest from his public duties, and warned him of the danger of continuing at his post.

CONDENSED NEWS.

Speaker Carlisle expresses the opinion that Cleveland will be renominated and re-elected, and that Blaine will again be his opponent.

Thomas Forsythe, the colored "Voodoo" doctor recently imprisoned at Chicago for obtaining money under false pretenses, stabbed a fellow prisoner. The victim will recover.

Carlisle D. Graham, who had advertised that he would go through the Whirlpool rapids strapped to a barrel, weakened at the last moment. He took the safer method—inside the barrel.

It is stated that District 49 will support Powderly for re-election.

Eighty thousand people in Asia Minor are on the verge of starvation.

The London police claim to have unearthed a plot to blow up public buildings on the occasion of the queen's jubilee.

At Marquette, Mich., J. C. Ryan and Harry Treloar had their heads and arms blown off while loading a gun.

The circulation in Berlin of The Workingmen's Gazette, published in Chicago, has been prohibited by the police.

A small force of soldiers has had a fight with the band of Guango Romero, killing that famous Cuban bandit.

Don Alcon Walton, a wealthy resident of Rochester, N. Y., has given $50,000 to the University of Rochester, to endow a chair of political economy and history.

The thirty-fifth general assembly of Illinois adjourned sine die last evening. During the session, which has lasted five months, 504 bills have been passed.

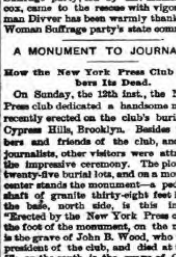
The strike of all building trades in St. Paul, Minn., decided upon by Amalgamated Council of Building Trades last Sunday, went into effect yesterday very quietly.

The Connecticut River Lumber company has started 60,000,000 feet of logs from its booms at Mechanicville Falls, Vt. There are 225 men and fifteen horses employed.

COMMISSIONER OF DEEDS.

A Point Scored for the Woman Suffragists in New York.

The woman suffragists of New York city feel quite sure they have scored a point. A woman of the metropolis has been appointed commissioner of deeds. Miss Minna R. Pollock, whose portrait is given, has the distinction of being the appointee. She is the daughter of Mr. Julius L. Pollock, of Hamburg, Germany, and Mrs. Emily Pollock, of Glasgow, Scotland. She was born at Manchester, England, and was soon taken by her parents to Hamburg and three years later to New York. She received her education at Glasgow and finished by completing it in Vienna, Austria. She is a lady of wide knowledge of the world, having traveled largely in Scotland, England, Germany, Austria, Hungary and the West Indies. For some time she lived in Hayward and at another in Nassau, in the Bahama Islands. She reads, writes, speaks and translates from and into French, German and Spanish. The resolution to appoint her was offered by Alderman Patrick Divver, vice president of the board. The committee on salaries and offices reported against appointing her, claiming that women cannot legally be appointed and Senator Woman Suffrage party, led by Mr. Hamilton Willcox, came to the rescue with vigor. Alderman Divver has been warmly thanked by the Woman Suffrage party's state committee.



MISS MINNA R. POLLOCK.

A MONUMENT TO JOURNALISTS.

How the New York Press Club Remembers Its Dead.

On Sunday, the 12th inst., the New York Press club dedicated a handsome monument recently erected on the club's burial plot at Cypress Hills, Brooklyn. Besides the members and friends of the club, and visiting journalists, over a thousand were attracted by the impressive ceremony. The plot contains twenty-five burial lots, and on a mound in the center stands the monument—a pedestal and shaft of dark shiny eight-sided granite. On the base, north side, is this inscription: "Erected by the New York Press club." At the foot of the monument, on the north side, is the grave of Charles H. Ludlow, the first president of the club, and died at the age of 57; on the south is the grave of Charles H. Pulham, fourth president of the club, whose body was buried but last February from Green wood cemetery. Elsewhere in the plot are the graves and headstones of eleven journalists, not all members of the club, but buried here because their surviving friends desired to honor them as worthy members of the profession in New York. On glancing at the headstones of these graves one is pained to observe how very many of the fallen journalists were. Thus we see the name of Frans Von Aldenhoven, 35 years; Fred-

NEW YORK PRESS CLUB MONUMENT.

erick Bingham, 34 years; William Donnelly and John Campbell, each 33 years, and Horace H. Harrison, 32 years. Vernon A. Brady and James H. Odervain were aged 45 years, and all the rest were quite young or barely in middle life.

The ceremonies of the dedication were very beautiful and impressive, including a dirge by the Amphion Society of Brooklyn, prayer by Dr. John Hall, of the Fifth Avenue Church (N. Y.) Presbyterian church; address by the veteran journalist, Joseph Howard; oration by Chauncey M. Depew, reading of ode by Hugh Farrar McDermott, address by Dr. T. De Witt Talmage and benediction by Dr. William S. Rainsford, of St. George Episcopal church, New York. Mr. McDermott's dedicatory ode was far above the usual range of funereal poetry.

THE YACHT THISTLE.

The Craft with Which the Britishers Hope to Win Back the Cup.

The yacht Thistle has won a lot of British races, and is coming over to contend for the America's cup. She is, therefore, an object of great interest to all who take pleas-

THE THISTLE UNDER SAIL.

ure in racing on the sea, and truth compels the admission that the Thistle seems put up to get licked. She is a "scow," of a modified type the British call clipper model; her waterline length is 85 feet, beam 20.3, and depth 14.1. She has a good stem and contour; her mast is not unusually far forward, and her boom extends 84¼ feet from the mast, or 4¼ feet longer than the boom of the noted Mayflower. It appears, therefore, that she carries more canvas than any craft of her size in the world.

On May 28, in a fifty mile race on the south coast of England, the Thistle beat the noted Lora and Genesta almost out of sight. On the 30th, off shore from Harwich, she was beaten by losing her weather mark in the fog, but the next day she outran her competitors again. On Tuesday she covered the race at the mouth of the Thames over a fifty mile course. The Thistle ran it in six hours, the lora took twenty-three minutes more, and the Genesta twenty-five. It is expected that the Thistle will reach the American coast in September to contend for the cup won by the America, and the race will be one of national and international interest.

Professional Cards.

F. A. DUNHAM,
Civil Engineer and Surveyor, No. 7 Park avenue, Civil Engineering in all its branches attended to with promptness. Parties sent in all parts of the country. Residence corner of Front and Sycamore streets.

O. JENKINS, M. D.
Successor to Dr. Ayres, 36 W. South, 58 Front St. Office hours, Plainfield, N. J. Offices hours 7 to 9 a. m., 1 to 3 and 7 to 9 p. m.

ELECTRIC BATHS.

WOMAN AND HOME.

BE CAREFUL OF THE CHILDREN DURING THE WARM WEATHER.

The Rule of Conjugal Partnership—A Word to Girls—Young Matrons' Talk. A Study of Gypsy Women—Mrs. Langtry's Coiffure—Notes and Items.

Be careful about taking the children out during the warm weather. See that they are properly clad for bending with the weather, not alone their bodies, for most mothers pay attention to these, but take care of their heads. Avoid taking the little ones out when the sun is high and especially at the noon hour, when there is little shade anywhere; but if you will take them out at such times, be sure and have for them a hat that will shade their faces. The broader the brim the better they will be for the children. During the summer the most sensible and most comfortable hat a boy or girl can wear, for best or everyday, is a broad brimmed straw. It is the most suitable and the prettiest hat a child can have, and looks well on any child, either big or little. Most children over one are old enough to attend school are provided with this style of head covering, but the little ones who are at home all the time, going out only occasionally, are those who generally suffer for want of it. When they are taken out for an airing (or a roasting would more properly apply here), it is with the lace bonnet, a fez or a straw from Grandma on their heads.

The mother of these children would be horrified if the little ones went out in the sun bareheaded. They would be positive that the children would be sunstruck; yet they will take them out with such covering as the above on their heads, which is just the least bit better than nothing, during the hottest part of the day and never think of such a thing as remorse. They would not go the shortest distance themselves in the sun without a parasol to shield them. It is astonishing how many women and children of this kind can be seen in the streets of the city on any of the warm days. The women under large lace parasols looking as cool as though they were in the coolest place imaginable, and the child or two with fezes or Tam O'Shanter on the backs of their heads, and the sun beating down on the front, looking hot and uncomfortable, with the perspiration trickling down their faces. The women are, to all appearances, perfectly oblivious of the children's discomfitures, though how they can be so is a mystery to many. The reason would be that they do not give it a thought, or if they did, they would not surely see the children suffer in this way without trying, at least, to remedy it.

The straw Tam O'Shanter hat is one of the prettiest style of hats for very little boys, and any child when dressed neatly looks well in it. It has a jaunty, careless effect when perched on the back of the head, and is a particularly cool affair when worn in the shade, but when worn in the sun it is the most uncomfortable headcovering that can be used. Few women will go out at the noon hour, unless it is actually necessary that they should, with only a small bonnet on their heads, and walk any distance, probably a street car ride without going home with a headache that it will take a good night's rest to relieve. Yet the little ones are made to walk, or half run, for few women accommodate their steps to the children's, under the fiercest sun without a murmur. When they arrive home they are peevish and irritable, and the mother wonders what is the matter with them, never thinking that their children's little heads may throb and ache as much, if not more, than theirs would were they treated in the same manner. Very often a child, after being out with the mother, is feverish and restless during the night, so much so as to alarm the parents. The mother looks around for the cause. "He can't have caught cold; I don't know what can have caused it," she says, puzzled. "I know he wasn't in any draughts, for we kept in the sun most of the time".

It does not occur to either parent that he may be prostrated by the sun. Oh, no; he has a cold, they are certain about that, and they doctor him accordingly. He is dosed and overdosed, when the one thing he requires is rest, and the least little draught, which may be only the opening of a door, may bring on a disease from which it will take him a long time to recover. A little forethought on the part of the mother might have spared the child a great deal of suffering, and both parents a great deal of anxiety and worriment. If some one should suggest to its mother that it was the effect of being so much under the rays of the sun, she would say: "Why, no; that could not be; for the sun never complained while out in the heat; he was well enough until the evening." Just as though any child would complain while in the street. The excitement of the different people and things he meets confuses the little one to such an extent that, no matter how ill he may be, he will not complain, for the excitement subdues him. Once at home, then there is no need for complaint; his actions are enough. It is strange that the mother, who tries in every way to shield the child from every little draught, is the very one who will take him on a noonday jaunt, and would be surprised to think that that would hurt him.—Boston Budget.

The Rule of Conjugal Partnership.

Among the poor, particularly the thrifty and hard working class of people, the head of the household, be she wife or daughter, has much more control in dispensing the daily or weekly wage than women on a higher social plane; men of brawn, when sensible and kindly, practice a more generous rule of conjugal partnership than is usual amongst men of brain, though these latter's earnings are on such a scale of plenty that makes it look below the surface regulations and equipments of the home we fail to discover the false financial relations that exist between husband and wife, in this sense, as to the matter of spending money, and are rarely cognizant of their husbands' true business condition. In this just to the being a man has promised to honor as well as to love?

Women are accused of being "mean," and any one who has ever served on a collecting committee knows how, in forming a list of possible contributors, some offer names to be omitted with the remark, "No use going to her, she never gives," or "She has no money," and yet the husband is often invariably a man of means or ample professional income, who pays extravagant household and personal bills for his family, usually with willing good nature. It is only when money is asked for that a tightening of the purse strings instinctively takes place, and the unblushing query is made, "Why, little woman, what did you do with the $5 I gave you last week?" We have heard such a question put to a beloved wife by a man whose yearly expenses were at least $30,000, and who, the next week, gave the same wife valuable diamond ear rings, and always encouraged her to dress extravagantly and live luxuriously.

Nowhere is a state of economic slavery—and it is widespread—is destructive of the helpmeet relation which should exist between man and wife, and which must exist if the wife is not to suffer many needless and cruel heartburns and mortifications, nay, if character is to escape dwarfing and distortion. A small minded woman who cares for her husband, and is kindly treated by him—well housed, fed, clothed, amused—contentedly accepts a condition of things to which, doubtless, she has been accustomed in the home of her youth, grown less and less capable, generous, and thoughtful of outside claims as the years roll by, and when she wants money for some special purpose, cajoles or deceives to secure it. But the man who assumes the shading and discontent of the nobler creature who, equally caring and being cared for, still in the midst of plenty suffers penury, because powerless to do himself justice before the judgment—in reference to claims she alone can weigh—without appearing before her lord and master first as a suppliant for a definite sum and then as a witness to be cross-examined as to why and how she wants so much cash.—Harper's Bazar.

A Word to Girls.

I often hear girls say: "Oh, I've got a new pattern for knit lace," or "I've learned to make paper flowers." Now, I dare say knit lace will wear longer than woman; that paper flowers, well made, are pretty decorations. These things are all very well enough for play; but how many of you do anything useful?

This does not apply to that large class of country girls who honestly work for their living, and are therefore respectable and respected; a girl who has sold goods all day in a store, tended machines in a factory, made or trimmed bonnets, sewed for a dressmaker, or has knit lace or made paper flowers at their leisure, without remark or criticism from me; they have earned a right to amusement of any harmless kind; but when I see, as I do see often, girls who spend their time walking, driving, doing fancy work, dancing whenever they can, living—if this is living—in and for self indulgent idleness, while their fathers and mothers are working hard to give them this leisure, I want to shake them. Yes, *undignified as it is*, I want really to shake them. I want to shout in their ears:

"Girls, wake up! What are you doing? What did God make you for? Are you good for anything in heaven above or earth beneath?"

And, indeed, what are they good for? I don't think they are of any use at home; they never get up in time for breakfast if they can help it; they never offer to wash the dishes, to sweep, to dust. If they make their own beds it is under protest and complaint; and as for cooking! a Hottentot knows better how to prepare a meal than the nominally Christian girl; and their sewing would not pass muster at an old fashioned dame school. They don't help their mothers in anything, even by loving them, for self indulgence is a dry rot that eats out all the moral affections, and leaves in their place self love, self conceit, impatience with restraint, coldness, and all the repellant traits that this self center throws out from its daily revolutions.

What do they resist? Novels.

Not, there are novels which are part of a liberal education, which breathe life and interest into the dry bones of historic record, or impress great moral truths by vivid illustration; but the sort these girls read are trash, if no worse. They live by such reading in an atmosphere of finery, wire drawn sentiment, ungovernable and therefore bewitching, passion, lofty airs of "high" society, falsehood, perjury, indecency, even crime.

They do not stop to think that Lady Adelina Cunegunda Fitz Roy, in robes of ruby velvet blazing with diamonds, and hiding a broken heart under clouds of Mechlin lace, commits a breach of the laws of God and man that ought to be punished by a prison for life when the "irresistible" passion makes her run away from a kind husband with an old lover! They do not realize that American girls, living in small white houses, cannot have boarders and morning rooms and *libraries* paved with velvet, hung with priceless embroideries, and set about with couches on which they can attitudinize in incredible clothes to receive their lovers; nor that these lovers, being clerks in stores, railroad conductors, grocers, peddlers, dry goods men and there a schoolmaster, or a budding lawyer, would be curiously out of place in such a position.—Rose Terry Cooke.

Young Matrons' Talk.

They were two young matrons, and as the stroller sat in the suburban car they occupied the seat directly in front of him. "Well," said the elder, the directness of whose glance and good facial angle betokened great promptness in arriving at conclusions, "it is my opinion that when a man tends to his own business and makes a success of it he will have no time to attend to his wife's affairs. Hen pecking is much out of business nowadays." "And doesn't your husband do the marketing?" queried the matron with the fair crimps and delicate features. "Good gracious! no. Why should he? He himself confesses he doesn't know a hen from a duck when the feathers are off."

"Well," said the other matron, after a meditative pause, "anyhow, I would always rather Charlie would undertake to quell those horrid rows in the kitchen. I'm afraid of them. But he just listens in silence till they get out of breath sputtering a demand for more money and less work; then he waves his hand majestically and says: 'I don't know anything about what you want; get back into your kitchen.' And they go. They never open their lips again to him. Really, don't you think there is something grand in the way men just walk over things which we women would be walked on and around! Yet, after all, I wish Charlie wouldn't"—here the little lady hesitated—"wouldn't act as if he thought it—because it's not quite the first baby I didn't know how to take care of it. He never interfered so about anything before. But now, when he is starting off in the morning, he begins: 'I wouldn't take baby out if it turns cold; and don't put that wool veil over her eyes again; and you had better try the water in the bath tub before you put her in,' and so on." "Yes, yes, I know," rejoined the elder lady, philosophically; "they all do so until the novelty wears off. To hear a rooster crow, one would think that it was going to keep the hen laying. I stood it as long as I could with Harold, but one day when he was struggling with his overcoat, and leaving numberless charges for baby's food, and flannels, and medicine, and wrappings, I said very sweetly and dutifully, 'You may rest easy, dear, while you are down town at your business. I will take just as good care of baby as though she were my own child.' 'Your own child!' he replied gaspingly. He looked at me a moment; then he saw the point. He kissed me goodby in silence and went off, but he has never since tendered me any gratuitous advice on that subject."—Chicago Journal.

A Study of Gypsy Women.

Physically, the gypsy woman is not always handsome. As a maiden she is always attractive. With advancing age she may lose her round form, her color, her straight almond wringings; but she never loses her glowing eyes, nor is she ever feeble or hesitant in movement to her dying day. Gypsy women have a rule long enough and thick enough I know a score of them past 90, I never saw one of these baldames who had not a vigor and elasticity far superior to those of your American women at 30. Scrawny as she may become, she ever retains a seemingly exhaustless spirit, and a certain personal charm which, while almost indefinable, may perhaps be best suggested as that unconscious physical tribute to the splendid physical correctness of her own life, with which nature ever responds, and invariably logically bestows. What is true of one is true of all in this regard; and the same universality of a kind of untrained but ever certain intuitive intellect also holds good. All things considered, I believe them inherently to be the brightest of women. Their judgment is unerring. They proceed to immediate results. They have a backbone out of every difficulty. They stray, and even gallion to the Gorgio or non-gypsy, she possesses all the virtues of wife, mother, friend, among her own; and in this startling contrast not only her chief interest as a study, but her apparently wondrous power of sorcery and divination.

In patience, loyalty, cheerfulness, she is the peer of the noblest type of woman. In success she is never less thrifty, never less judicious and saving. In adversity she is boundless in resource. Where there is love she is nurse of all curses. In good cheer she is the soul of the feast. Indeed, the gypsy wife and mother is a model for your pretentious women who are coming to regard the world mainly as their debtor because of their mere existence in it, and the entire social system as necessarily slavish to their whim. But to everybody and everything save their own enjoyment she wishes to be known, and truly is, almost as much a witch as the enlightened mind can conceive. In that very seeming and actuality lie all the supposed powers of the gypsy fortune teller. All there is in that power is just what, because you are not so perfect a prophesier in her line as she, you are mystified, you believe to be.—Edgar L. Wakeman's Letter.

How Women Lose Their Height.

Women, especially those of the upper classes, who are not obliged to keep themselves in condition by work, lose after middle age—sometimes earlier—a considerable amount of their height, not by stooping, as men do, but by actual collapse, sinking down—mainly to be attributed to the perishing of the muscles which support the frame in consequence of the habitual and constant pressure of stays and dependence upon the artificial support by them afforded. Every girl who wears stays that press upon those muscles and restrict the free development of the fibers that form them, relieving them from their natural duties of supporting the spine—indeed, is practicing them from so doing—may feel sure she is preparing herself for a dumpy woman. Failure of health among women and the vigor of youth passes away is but too patent and but too commonly caused by this practice. Most women, from long custom of wearing these stays, are really unaware how much they are hampered and restricted. A girl of 20, intended by nature to be one of her finest specimens, gravely assures one that her stays are not tight, being exactly the same size as those she would first put into, not perceiving her condemnation in the fact that she has grown five inches in height and two in shoulder breadth. Her stays are not too tight, because the constant pressure has prevented the natural development of the heart and lung space.—Chicago Tribune.

The Lot of a Matron.

To the woman who begins right the lot of a matron will be a happy one; but the average young woman does not. Her married life begins by being furiously in love, and the very warmth of her emotion causes it to cool very quickly. She begins by imagining that Benedict means all the world to her, and she to him, only to find out that she shares his heart with billiards, race horses and other luxuries. The wise woman recognizes this, and concludes at once that disappointing as his other loves—not to require as much delicate nursing as does a billiard ball, *nor to go* lame in mind or body, as a favorite racer is likely to do. Nor will Benedict know he plans too entirely, and so she will not get to be an old story to him. A man is very human, he likes his wife to be like the French feuilleton, worth having after each chapter. "To be continued in our next." Women are apt to forget this, and only remember that marriage is an episode rather than an event; a very great difference exists between them.—"Bab" in New York Star.

Mrs. Langtry's Coiffure.

It is feared that there will be another madly universal copying of Mrs. Langtry's coiffure. How we suffered before with the "Langtry knot," exposing, by its simplicity, the whole phrenological developments only a Fowler could enjoy! But this style is even worse. Don't women know that a shapely head is almost the rarest of beauties? There should be a poll tax levied upon those who thus offend the public eye.

As to the color of her hair, much of that may be acquired by possessors of what Constance Wolcott says "the national shade of brown." How? Why, by washing it frequently with tepid water into which a few drops of ammonia have been put in. This makes hair very soft and fluffy too. Of course the ammonia—soda has about the same effect—inflames the hair by burning out its life, so it comes high, but we must have it.—Pioneer Press.

"The Washerwoman's Hand."

We have now chiefly in mind the tens of thousands of hands of families who are liable to bring this affliction on themselves.

They do their own washing, and do it, necessarily, in addition to their other work. The exposure to cold water, which prevent women, on washing day, rush from hot to cold, and from cold to hot, without a thought of harm. They go with irritated joints and open pores from the steaming washtub to the ice cold clothes line. Coming back to the kitchen, they scrub the floor and hasten the dinner over the cooking stove. Is it a wonder that multitudes of our choicest wives and mothers suffer from what the doctors call "the washerwoman's hand?"—Youth's Companion.

Expected of a Guest.

If a guest cannot be sure of her own good breeding she had better stay at home, for she must talk when she would sleep, she must eat when she is not hungry, she must give a return for the hospitality she is receiving by being entertained, by appearing happy and amusing; she must show a willingness to be pleased, not an unbecoming grumpiness.—Harper's Bazar.

It always grieves me to see a good cook spoiled by her ambition to be a leader of fashion.—Signor Max.

Mary L. Barr, who is making a success of Scottish dialect stories, did not begin to compose until she was 54.

Mr. Reade used to say that a woman "likes best a ruffian who ill uses her, but with intervals of tenderness."

Helen Campbell will visit England to make social studies of the working women in the east end of London.

The Suicidigenous Center.

It is said that Indiana is the center of the "suicidigenous area" of this country. It is enough to make any Indiana man weak in the knees with suicide to be told that he lives in a "suicidigenous area."—New York Tribune.

WHAT SHALL WE WEAR?

CORDED AND NARROW PLEATED SUITS FOR BOYS' WEAR.

The Tourmure an Important Adjunct to a Lady's Toilette—Bonnets Composed of Flowers—Stylish and at the Same Time Comfortable Traveling Dress.

With the near approach of the hot summer months, which drive the inhabitants of cities and towns to sea shore and mountain, the traveling dress becomes a subject of importance. The illustration shows one of Harper's Bazar models that is suited to a variety of materials.

TRAVELING DRESS.

The model here represented has a plain underskirt of striped gray wool and a long, straight upper skirt of plain gray wool. Of a lighter shade, open on one side, and bordered with a braid band. The short jacket, which is of the same material as the upper skirt, has loose open cutaway fronts, displaying a close buttoned vest of darker gray velvet. The striped underskirt is in straight breadths, and is hung on a foundation skirt of lining, with the front very slightly full and the back gathered. The quantity of material for a dress like the one described is two and three-quarter yards of striped and six yards of plain material, forty-four inches wide, and three-quarters of a yard of velvet.

India Silks.

India silks afford a popular and comfortable material for summer dresses. These silks are out in gay colors, such as scarlet in bold white stripes, blue and yellow, or heliotrope and white and are made up with lace and ribbon trimmings. Other light weight silks are the surahs, Bengalines and Canton crapes, which are light and useful enough as underskirt for lace dresses.

Popular Suits for Boys.

In this advanced age of ready made suits, few parents attempt to make boys' clothing, especially when they come of an age to wear cloth suits. The models shown in the accompanying engravings represent two popular suits with New York lads, and these are made in sizes to accommodate boys from 4 to 11 and 12 years.

SUITS FOR BOYS.

One is known as the corded suit, while the other is called narrow plaited suit. Boys can wear either of these suits until large enough to go into full trousers.

Lace, Grenadine and Silk Mantles.

There are a great variety of dressy mantles for midsummer wear. Some are of lace, some of grenadine or silk, and some of all these materials combined. A striking feature of many of the new mantles is the lavish use of jet in the sprinkling, especially in fringes and ornaments edge with fringes. These are jet fringes so wide as to cover the front of mantles, entirely concealing the foundation material, and there are elaborate garments for the shoulders and back, that have fringes reaching quite to the lower edge of the garment.

Lace elaborate garments are made of heavily beaded grenadine. Black mantles are in the majority, but there are numberless charming wraps in various colors. A shape mantle remain short at the back with long scarf-like tabs in front, and there appears to be a preference for hanging shoulder pieces rather than sleeves.

The Tournure.

Fashion writers who earlier in the season predicted the disappearance of the tournure with summer dresses were mistaken. It remains not only an important adjunct of a lady's toilet, but grows larger rather than smaller. Every effort appears to be made in of some kind, or else has her dress skirt so fashioned with steels and cushions in the back as to produce the pouf-tail effect desired. Many ladies prefer for dresses of light material, bustles to the steels fastened in the dress.

Flower Bonnets.

Bonnets made of flowers are now in order, and the flowers are usually selected with a view to wearing with some special toilet. A white lilac or Marguerite bonnet, for the garden, is decidedly worn with a white cloth or flannel toilet; a pure lilac or violet bonnet with a dress of lilac hue, etc. Other flowers especially favored are the roses, hyacinths or even nasturtiums. The strings are of faille or ribbed ribbon.

Dress Sleeves.

Sleeves to the new dresses are made in various ways this season. The tight sleeve has given place to coat sleeves looser than before worn in a long time. Then there has been a revival of the bishop sleeve, leg of mutton sleeve and sleeves gathered into a loose band at the wrist are sometimes seen.

Dinner Party Toilette.

Ladies go to a dinner party in whatever is considered full toilette for the season, and the gentlemen also. Gloves are removed after the guests are seated at the table, and the need not be replaced during the evening unless there be dancing.

Miscellaneous Card.

Kindling Wood.

LITTLE LAUGHS.

A Vassar instructor is getting the girls to agree not to wear corsets. Stay, lady, stay!—*Lowell Courier.*

The story that a man in Florida has a wart on the back of his neck which he uses for a collar button must be received with some grains of allowance.—Philadelphia Call.

Young Man (to stationer)—I want you to print on these cards, "At Home to Baseball Managers on Wednesdays and Fridays only." Stationer—All right, Mr. Stagg; how are things up at Yale?—New York Sun.

Little Eddie, 3 years old, had an attack of croup one night. The next evening when he heard down to say his prayers his mamma told him he must thank God for making him well. So he said: "I thank thee, O God, for making me well; but my nose goes this way yet."—here he sniffed several times to show that he still had a cold in his head.—New York Tribune.

Jeff Davis is developing such a blooming ignorance of the rebellion that we fear he is about to write some war articles for the magazines.—Pittsburg Chronicle.

Rev. Dr. McGlynn asked, in his Boston lecture, "Where is the hippopotamus?" We don't know what that is, but we know we haven't got it.—Philadelphia Call.

Gordon Cumming likened an African jungle to a forest of fish hooks relieved by an occasional patch of pearlaces.—Philadelphia Call.

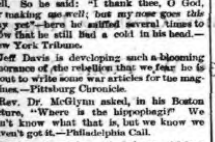
Sometimes a man gives a most expressive definition of a thing without perceiving him self the full significance of his words. He was so with a poor old colored man who came to Wayland seminary saying that no one had been to his part of the country to *"widen out the colored people,"* and so he had come to the seminary for help.—Gospel Age.

An Arkansas paper puts it vocks popularl, and perhaps it's just as well. The people would get rattling, anyhow.—Detroit Free Press.

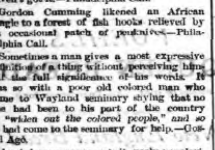
The New Hampshire girl who had a piece of flag root stuck in her windpipe finally managed to hoist it.—New York Commercial Advertiser.

"I religiously use this delightful preparation," says Mrs. Langtry in a cosmetic testimonial. Puts it on when she goes to church, we suppose.—Syracuse Herald.

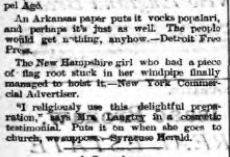
A Conspiracy.



"Hey, Chimmie, you holler yer papers as I run inter him with I roll de bar't up."



"Ve've yer evenin' paper! Full account of der——"



"Och, Gott in Himmel! I bet you I fall on sometings soft dis time!"—Life.

Two Big Blows.

A Dakotan and a Texan visitor in Chicago were disputing about the greatness of their respective districts, and among other things boasted respectively of the force of the winds in their states.

"How fast does a Texas norther blow?" asked the Dakotan at last.

"Why, fast! well, the only thing that will measure it is lightning. When a Texas norther is coming they telegraph ahead, so that people can get under ground, but when it gets under ground that way it will just about run a mile and neck ride with the telegram. How fast's a Dakota blizzard?"

"Oh, you can't measure a blizzard. There's nothing like it. I've seen a blizzard catch a telegraph message right off the wires and carry it on ahead. I never saw but one the speed of which could be measured. There seemed to be something the matter with that one. It went rather slow, only about 1,000,000 miles a second, and we couldn't tell what was the matter with it until it passed by, when we found it was dragging one of those infernal Texas northers along behind."—Chicago Tribune.

The Path for Utterance.

A class in a teaching house celebrated the twenty-fifth anniversary of its connection with the firm. Schmul, the principal, handed him in the morning a closed envelope inscribed: "In memory of this eventful day." The clerk gratefully received the envelope without opening, but on a gracious hint from the head of the firm he broke the cover and found—the check for the money.

"Well, what do you think of it?" inquired Schmul, with a grin.

"We just like you," was the reply.—Pittsburgh Dispatch.

Business is Business.

"Father," he said, as he ceased dusting off some of the garments hanging at the door, "I see did der treasury department has called in all der outstanding threes."

"Yoes, you look at me," replied the father, as he came to the door. "If der treasury calls in some boods we could help it. If you let a man go by dot wants some second hand pants you dare get some outercoat nor no dandruff next winter."—Wall Street News.

JOTTINGS.

—The Public schools of this city will close for the summer on Thursday next.

—Somerset street is receiving a top dressing of stone, which is much needed.

—Fifteen old veterans from New Brunswick took part in the re-union of the 11th Regiment Association yesterday.

—An elegant assortment of seasonable goods are now being showd at Pope's old established dry goods house.

—A shooting match at clay pigeons only, took place on the Middlesex County Gun Club's grounds at Dunellen this afternoon.

—The oil cloth factory's married and unmarried men will contest in a game of base ball on their ground to-morrow afternoon.

—One of Edsall's "old time" special sales will begin to-morrow. A big break in prices is announced. This means lively times at this popular house.

—Two colored boys after a lengthy debate at the corner of Fourth and Union streets at noon to-day finally came to blows. Result: two bloody noses and discolored eyes.

—Public School Commencements, in North Plainfield and this city, occur next Thursday evening, the former in Warren Mission Chapel and the latter in Music Hall.

—Chief of Police Dodd has the names of the boys who tapped the till in George Feller's butcher shop on Somerset street, Monday, and arrests will probably follow.

—The Central Railroad Company has purchased five large passenger engines from the Baldwin Locomotive Works at Philadelphia to be used on the Long Branch Division.

—A party of young folks of this city will leave to-morrow afternoon about two o'clock for Boynton Beach in stages, where they will spend the day, returning about nine o'clock in the evening.

—On Monday last, Harry Campbell went to Norwich, Connecticut, and shot a match with one of that local sportsmen there, and succeeded in defeating him. Fifty blue rock and one hundred clay pigeons were shot.

—Carl Peterson of Peace st., opposite North avenue, has a night-blooming cereus, which will have two flowers in bloom this evening. The plant is to be placed on the lawn adjoining his place, that all who wish may see the interesting sight.

—It is not generally known, but the statutes of this state say, that no more than $2.50 can be legally charged by a lawyer for drawing a deed, no matter what its length may be. Any person charging more than that sum is liable to a fine of $30.

—Yesterday afternoon Policeman Lynch found John Brandon on Park avenue in a drunken condition and he thoughtfully took him to the station house where he spent the night enjoying the hospitality of Chief Dodd. He was given his choice between a $3 fine or ten days in the county jail.

—Next week is commencement week at Rutgers College New Brunswick, and on Tuesday, at 8 p. m., Dr. Talmage will give an address in the Opera House on "Is the World Better or Worse?" Rev. Dr. Van Slyke, of Kingston, N. Y., will address the Alumni on "Shooting Niagara" at noon of Tuesday in Kirkpatrick Chapel.

—On Saturday, June 25th, a picked nine composed of the employees of the Potter and Scott Press Works, in this city expect to go to New Brunswick and contest in a game of ball with the Mystic Base Ball club of that place. The Plainfield "boys" played several games with the Mystics during the past two years and have generally came off victorious.

—The annual reception of the Misses Butler's school was held at their residence last Thursday evening. The pupils were entertained by recitations and games. Prizes were awarded to the Misses Helen Bleecker, Emma Butler, Alice Rushmore and Edith Cooley, also Walter Probasco and Walter Bethell. Afterwards refreshments were served.

—The best homing pigeon journey of the season for speed and distance was flown yesterday from Danville, Va., to the loft of Dr. W. E. Johnson, Keyport N. J. The start was at 6.05 a. m., and the first returns were verified at 3.17 p. m. The air line distance covered was 369.9 miles, and the average speed is at least 1,321 yards per minute. The journey was in competition for the trophy offered for the best average speed for 370 miles or over made previous to July 1. The best record up to yesterday was the 960 yards a minute, made from Jamestown, Pa., to Philadelphia. The next best was 880 yards per minute made from Frederick, Md., to Boston lofts.

—The enterprising alacrity of THE NEWS' unjuitous representative was demonstrated yesterday when this paper published originally, exclusively, only, distinctively and for the first time, to say nothing of the fact that said publication had never been made before by auction bills, reporters, magazines, periodicals, gazetteers or other publications whatsoever, in this or any other borough, town or city, of this or any other State—that is to say, THE NEWS published the only complete account of the re-union of the 11th Regiment Association, from the time the members left the city until they left. And the business proceedings, included some some resolutions which have a warm and significant national bearing too, were also published. But then these things are expected of THE NEWS, and this paper is here to please the public.

The Opdyke Lawn Party.

About three hundred persons attended the lawn party given yesterday from 3 p. m. to 10 p. m. under the auspices of the Girls' Mission Band of the Congregational church on the beautiful lawn of Mr. and Mrs. George F. Opdyke on corner Seventh and Union streets. Special mention should be made of the Misses Kirkner of West Eighth street, whose untiring efforts did much toward making the party a success. The receipts are not yet to be estimated were $130 and the band will probably clear $75 over all expenses.

The party was given for the benefit of the Children's House and Home Missionary Society.

THE HOLMES' ESTATE.

AN ADMINISTRATOR APPOINTED TO-DAY.

The Case in the Somerville Orphan's Court—Another Story About Holmes' Sensational Career.

The affairs of the late John Bute Holmes are now in statu quo, and will so remain for some months to come. Louis M. Codington, of Somerville, was this morning appointed administrator of the estate by Judge Bartine, the Associate Judges concurring in the appointment made. The name of John H. Van Winkle of Plainfield, was first mentioned by J. J. Bergen, of the firm of Gaston & Bergen, counsel for Mrs. Catherine M. Holmes, nee Meadows, but Messrs. C. P. Miller and Pierce, of counsel for the Mrs. Holmes who claims to be Holmes' first wife, objected on the ground that Mr. Van Winkle had been first approached to act as counsel for the younger woman. Other names were suggested among them being those of both gentlemen of the law firm of Jackson & Codington, but objections were raised. The appointment was satisfactory to both parties. Mr. Pierce of New York, is associated with Mr. A. P. Miller, in representing the interest of the elder Mrs. Holmes. This woman was in the court-room this morning, accompanied by her elder daughter, whose name also appears in the application papers for letters of administration to Holmes's estate. She claims to be his oldest daughter, and is a widow. They were accompanied by an elderly woman, who is said to be related to Gen. Husted, and was to act as witness to establish proof of the first marriage.

As Catharine Holmes had her marriage certificate to prove her claim is a just one, and the aged priest who performed the marriage ceremony was there to bear witness to that effect. Father Duranquet belongs in St. Francis, Xaviers' College on 16th street, in New York, and he is willing to certify that he married John Bute Holmes and Miss Catharine M. Meadows at St. James Church on December 16, 1880. He had known Holmes, he said, since 1848, when he was engaged in building the Harlem railroad. He knew him as a wild fellow, and after five years had he was followed and taken to the Chambersburg Hospital, and then he thought he was going to die and sent for him as his spiritual adviser. But he recovered soon after, and he saw no more of him until he appeared before him and asked to be married to Miss Catharine M. Meadows. Holmes then joined his church, and he believed he afterward led a different life.

Among Holme's effects was recently found the following clipping from a New York paper of years ago, which will be offered in evidence at the proper time:

Rev. Dr. Ward have not forgotten John B. Holmes, a former civil engineer and Tammany Hall politician of that section of the city. Holmes is a man of no mean acquirements. Several years ago he was assistant engineer in the construction of the upper portion of the Long Island railroad and previous to his visit to Sing Sing, was a leading spirit in Democratic nominating conventions and Ward Committees. Recently he was a candidate for the position of Alderman from the First Ward. He first came into general notice by a brutal assault on a policeman named Gurney on Greenwich street who soon after died from the effects of the rough treatment received. On the 21st of November, 1877, Holmes was sentenced by Judge Russell to Sing Sing for a term of fifteen years and six months for the crime of forgery in the first degree. The facts concerning these: He had a short time previously married a young English woman, a governess, who was subsequently seduced and enticed from her husband. Just about this period Holmes sold a piece of property, and though his wife had signed the deed, she had not acknowledged the same in a legal form. Before an acknowledgement was taken she was spirited away by her betrayer, and kept concealed and out of the reach of her husband. The latter was eager to consummate the sale just mentioned, and accordingly made diligent search for his wife, even engaging a policeman, with a liberal promise, to hunt for her. The policeman at length ferreted out the lady and demanded $50 for his services: This sum Holmes found impossible to raise at that juncture and the policeman, therefore enabled Holmes to escape. He was the former to close the sale of the property, that he procured a woman to personate Mrs. Holmes, and acknowledge the deed. For this act he was booked for Sing Sing as above stated. About ten days ago Holmes attempted self-destruction by taking laudanum. An one-and-a-half-ounce phial, marked with the label of a druggist in the village of Sing Sing, was found empty in the office of the stove foundry where he was employed as bookkeeper. *The supposition is that some outsider, engaged in the shop, procured the poison and left it.* Strictly, he would-be suicide was found in a stupefied condition, and removed to the hospital, where vigorous remedies soon placed him out of danger. Holmes states that he was driven to the rash act by a sense of his degraded position and the embarrassed state of his pecuniary affairs. When he went to prison, he owned real estate to the value of $30,000; but recently through the carelessness or villianly of somebody, much of it has been sacrificed by foreclosures, and to pay taxes. To add to his misfortunes, his wife has procured a divorce, and married a second time. Before he took laudanum, Holmes addressed letters to several of his friends, complaining that some in whom he had reposed confidence had turned against him after he went to Sing Sing, and in view of all his troubles, he no longer desired to live.

The person incidentally referred to above as "seducing and persuading Holmes's wife to leave him" is said to be the celebrated politician Oakey Hall, who was for many years a prominent leader in New York, and for a time mayor of the city. He never entered any complaint against Holmes for the shooting, but had him arrested on the charge of forging his wife's name. At that time Holmes swore he had never been married before. The elder Mrs. Holmes who now enters a claim for his property, however, alleges that she married him in Ireland in 1836. Holmes said he was born at Mauritius, one of the British possesions near India, on May 23, 1828. According to this he was but eight years old at the time of his alleged marriage.

It will probably be a year before the Holmes estate is settled up and adjusted by the court and Mrs. Catherine will continue in possession until *that time*, unless a foreclosure of one of the heavy mortgages necessitates it. The personal property will not amount to much more than $500, but the maps made by Holmes are said to be worth $30,000.

DUNELLEN.

The closing exercises of the Dunellen Public Schools took place last evening in the Presbyterian Church, Dunellen, a large audience attending. The church was tastefully decorated, and the joyous company formed a very pretty sight, decked in flowers and airy summer attire. The affair was a great success *all the participants doing themselves* great credit. Here is the program:

PART I.

1. Chorus—"Hail to the Festive Day." ..... By School.

The teachers of the school are Prof. Oley, Miss Alice Manning, Miss Imogene Smith and Miss Fannie Smith.

State Medical Society Meeting.

At the 121st anniversary of the State Medical Society, held Tuesday and Wednesday, at which Dr. Francis Delafield, of this city was delivered an Jos. Leidy, of University, Penn., and Prof. D. Hayes Agnew, of same college, were elected honorary members.

Bishop Scarborough opened the session with prayer, and was invited to participate in the exercises of the evening. At a banquet given on Tuesday evening by Mr. Baldwin of the Baldwin Locomotive Works, of Philadelphia, Governor Green, Bishop Scarborough, and others replied to the toasts given by the committee of arrangements.

Dr. Banker of Southern New Jersey was elected delegate to the State Pharmaceutical Society meeting of 1888.

The next meeting is to be held in June, 1888, at Lake Hopatcong.

The following were elected officers for the ensuing year:

President, Charles J. Kipp, M. D., Newark; First Vice President, John W. Ward, M. D., Trenton; Second Vice President, H. Genet Taylor, Camden: Third Vice President, B. A. Watson, Jersey City; Corresponding Secretary, *William Elmer, Jr., M. D., Trenton;* Recording Secretary, William Pierson, M. D., Orange; Treasurer, W. W. L. Phillips, M. D., Trenton; Standing Committee, T. J. Smith, M. D., Bridgeton, E. J. Marsh, M. D., Paterson, and D. C. English, M. D., New Brunswick.

Girls to be Thrown out of Work.

There is great indignation on the part of the girls who work in Henry Rosenbaum's shirt factory at Rahway, over a report that the proprietor wishes to get rid of their services to make room for fifty or more Hebrew emigrants which he has employed.

The society agents have been in town for the past three days renting all the vacant houses for the new hands. The merchants of Rahway are also much excited over the movement, as it will affect their trade by throwing these girls out of work. Some of the real estate agents have been asked to refuse to rent any more houses to these agents, and it is said that they will comply with the request. These agents have paid as high as $18 and $20 a month for houses that no other party would look at for half that figure, just to make accommodations for the new employes. There is general talk to the effect that the new hands will not stay in Rahway very long.

Died From the Kick of a Horse.

Bernard Kelly, employed by Seymour Hait of Union avenue, as coachman, died in Muhlenberg Hospital this morning from the effects of a kick in the stomach by one of Mr. Hait's horses, received while attending the the animal in the stable last Sunday morning. The man was kicked twice, but the kick in the stomach was the fatal one. Deceased was sixty-four years old, married, and the father of two children, both married, being ex-policeman Nicholas Kelly.

—There is to be some trotting on the Fair Grounds track to-morrow afternoon.

THE DRIVEN WELLS.

FURTHER COMPLICATIONS IN THE GREEN PATENT.

It is a Serious Question Whether Wm. J. Nelson has any Right to Collect the same.—A suit now Pending in the Court of Chancery to Decide the Question.

The card recently published by Wm. J. Nelson in THE NEWS, wherein he claims the exclusive right to collect all royalties for driven wells for any person except himself in the city of Plainfield since 1869 has aroused another claimant. Any premature payments of royalties to any one not entitled thereto is subject to the hardship of paying royalties again. The matter is pending in court and the court's decision must be waited for and accepted as final. The matter concerns many of our citizens.

This is the story set forth by a bill of complainant: On the eight day of August, 1879, a bill of complaint was filed in the Court of Chancery of New Jersey by Archibald C. Mallinson, administrator, with the will annexed of William H. Sebring, Sr., deceased, by his solicitor and counsel Ex-chancellor Williamson of Elizabeth, against Theodore Vail. Theodore Vail as administrator of the estate of Abraham Sebring, deceased and William J. Nelson defendants—in which bill of complaint it was alleged that the letters patent for the Green driven well right in the city of Plainfield had been set off to William H. Sebring, Sr., deceased, and belonged to him during his lifetime, and at his decease, *formed a part of the assets of his estate—and* that said Mallinson, as his administrator, became and was in law entitled to the same, and that the pretended assignment of said letters patent to William J. Nelson, was irregularly and clandestinely and fraudulently made. The bill prayed for relief that said assignment to Nelson should be declared void as fraudulently made and that said letters patent should be declared properly to belong to and form a part of the assets of said William H. Sebring, sr., estate, and that his administrator should be declared the true and lawful owner of the same and of all the benefits to be derived therefrom, including all royalties and claims for infringements.

Answers were filed by the different defendants to which the complainant filed replications, and the testimony in the premises was taken on behalf of the complainant in support of his bill, but owing to the fact that overtures of settlement were made on behalf of Nelson, and the question of the validity of the patent was pending and undetermined in the United States Supreme Court, the further taking of testimony was not proceeded with.

A few weeks ago the United States Supreme Court decided the patent valid. This question settled, the parties to it of immense value, and further testimony is at once to be taken in the Chancery suit and it will be brought to a speedy issue. The present ex-Chancellor Williamson is so famous for.

In the meantime and until the decision of this case our citizens would do well to carefully consider the facts here brought to their notice and consult counsel before paying royalties.

We are interested only in seeing that our readers are not mulcted into paying two or three times, or twenty or thirty dollars.

PERSONAL.

Miss Lizzie Darling has returned to this city after a week's stay in Asbury Park.

Mr. H. C. Tilton, Chief of Police of Easton, Pa., attended the re-union of the 11th Regiment yesterday.

Mrs. A. M. Runyon has returned to her home on *Madison avenue after a week's* absence at Atlantic City.

City Treasurer Titsworth has had the flagging in front of his property on West Second street relaid, greatly improving the appearance thereby.

Miss Mary Reville, of short Fourth street, tendered a reception to a number of friends last evening. Refreshments were served, and a good time generally enjoyed.

Gen. Daniel R. Sickles and Gen. McAllister, who were present at the re-union of the "Bloody Eleventh" yesterday, stopped at Laing's Hotel while in this city.

Benjamin Worden, of East Front street, the young man, who had his left thumb cut off by being caught in the machinery in the Scott Press Works, is rapidly recovering from the effects of the injuries.

William Thompson, formerly of Brooklyn, N. Y., who some months ago purchased the Balen estate, corner of Central avenue and Sixth street, and became a resident of Plainfield, has only a few days ago recovered from several weeks' illness. Mr. Thompson and Councilman Bowers are partners in New York, where they are among the leading coffee importers.

The candidates to whom will be administered the rights of confirmation at Grace Church on Sunday by Bishop Scarborough are: Misses Grace Langdon, Lena Hart, Maud Lowrie, Ethel Paul, Miss Merritt and Messrs. Albert Pettis, Thomas Pettis, Fred. Stover, Lawrence VanBuren and Arthur Freeman. The Bishop will conduct religious services in the chapel at Netherwood at 4 o'clock on Sunday afternoon.

The committee of ladies who had charge of the repast tendered to the 11th Regiment Association at Redford Hall yesterday, was composed of Mrs. Robert Walker, Chairman; Mrs. J. C. Drake, Secretary; Mrs. S. Terry and Mrs. A. Corwin. The waiters at the tables were: Mrs. C. Westphal, W. C. Smith, M. M. Morse, W. Addis, *C. Stephens, D. Pangborne*, J. Mackenzie, M. C. Moore, Jr., Moon, S. Mattox, J. B. Atwood, J. Prosher, Tunison, Wright, Huntington, Miss Van Nest, Miss E. Bray and Mrs. William Hand.

Clark Released.

John B. Clark, who was arrested in this city on June 10th, by Chief of Police Dodd, charged with abducting a child, and who was later, on complaint of Mrs. Mary Downey, committed to the County Jail by City Judge Ulrich, to await the action of the Grand Jury in default of $250 bail, was yesterday released by having furnished the necessary bonds.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

THE NEWS HAS NEARLY FOUR TIMES THE CIRCULATION OF ANY OTHER DAILY PUBLISHED IN THIS SECTION.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

	1887	1886		
8 a. m.	55	61	Sun rises	4 28
9 a. m.	64	69	Sun sets	7 33
12 m	76	74	Moon rises	
3 p. m.	87	80	Moon sets	1 42

Weather Indications.

For Saturday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair, slightly warmer weather.

Detective Gregory Arrested.

NEW BRUNSWICK, June 17.—Judge Moore, of Brooklyn, N. Y., is expected to send a requisition here for the arrest of John Gregory, a detective of this city, for falsely obtaining, through false representation, a watch, about $300 in money and other articles of August Younker. Younker recently confessed to robbing Scheider's brewery, near here, and securing these articles, and Gregory is alleged to have secured possession of them on the promise that Scheider would not prosecute Younker if they were returned.

Prominent Doctor Dead.

JERSEY CITY, June 17.—Dr. John Bird died here this morning of blood poison, recently contracted while making a post mortem on the body of an Italian who was killed on the Pennsylvania railroad. Dr. Bird was 4 years old, and was born in Warren County

Fireman Killed.

EASTON, Pa., June 17.—Passenger train No. 145, and a local freight collided on the Schuylkill Valley Railroad this morning. Charles C. Hann, the fireman on the passenger engine was killed and the engineer was seriously injured. Hann leaves a wife and one child.

New York Nine Defeated.

BOSTON, Mass., June 17.—The New York nine was defeated by the Boston's this morning. Score, 19 to 9.

The Fire Tax Case.

[From the Trenton Emporium.]

An argument took place in the Supreme Court yesterday to test the validity of a fire tax ordinance of Plainfield. Mr. C. A. Marsh argued for the plaintiff, and Messrs. Saylam & Stillman and Attorney General Stockton argued for the defendant. The Plainfield Fire Department is an incorporated body, and in 1886 they made their assessments as in former years, and also added an additional assessment of 25 cents on each $100 of all real and personal property. Carrie B. Taylor, the prosecutrix, owns a house and other buildings within the limit of Plainfield and therefore becomes a member of the department. She refused to pay her tax as assessed. Garret P. Smith, who is a constable, was sent to levy on her goods and on possession of enough to cover the amount of tax, which was $21. Suit was brought against the constable and fire department for damage. It was removed to the Supreme Court by a writ of certiorari. The respondents claim that they have a right to tax every one within the limits of the city who are benefitted by the service of the department. Should the court decide for the prosecutrix then they will not be able to collect their assessments and consequently, the department will be valuless.

WESTFIELD.

George Embre has rented the Mackey house on Westfield avenue.

Mr. J. S. Irving has sold his newly finished house on Dudley avenue, to Mr. Martin Alper's the present occupant.

Augustus K. Gale was suddenly taken sick with a hemorrhage a few days ago so that he has been confined to the house ever since, but is improving slowly.

After a long and tedious illness Mrs. Clarkson Munday passed away yesterday evening. She has been able to leave her bed for over several months.

The young men who want to form a military company met at Arcanum Hall last night and effected their organization by electing Wm. J. Bogart Captain; Frank S. Miller, 1st Lieutenant; M. E. Adams of Cranford, 2nd Lieutenant. Col. Rogers was present and instructed them of the necessary steps, and answered questions. Remarks were also made by Mr. Peckham. Mr. Albert A. Dyaks, B. J. Crosby, A. F. Grant and others.

NETHERWOOD.

James Anthony, of Netherwood, sailed for Europe on Saturday.

Mrs. Charles Hyde entertained to-day at Hotel Netherwood a lunch party of the "Front street History Club,"

Mr. and Mrs. Augustus D. Shepard gave a dinner to Mr. and Mrs. Julian Hawthorne, of Scotch Plains, Wednesday evening.

The Rt Rev. John Scarborough, D.D., Bishop of the Diocese of New Jersey, will officiate at the Netherwood Chapel on Sunday afternoon at four o'clock at a vesper service. Dean Rodman has also been invited to be present.

Died.

STIMPSON—In this city, June 16th, Stella M., daughter of Charles and Amelia A. Stimpson, aged 7 years 1 month 3 days.

Funeral services from the residence of her parents 28 West Fifth street, Saturday, 18th, inst at 2.30 o'clock.

Van second, William G. third; time, 2:34¼.

GERMANY ANXIOUS

Regarding the Illness of the Emperor and Prince Bismarck.

LONDON, June 17.—Advices from Berlin represent the prevalence there of a state of gloom cast over the capital by the simultaneous illness of the emperor and Prince Bismarck. The newspapers are very reticent concerning the actual condition of the two foremost figures in Germany, but the general public are not to be deceived. The most serious results, and opinions are expressed that neither will again take active part in conducting the policy of the empire.

The Berlin correspondent of the Times says that precautions against too close inspection by outsiders of the fortifications and military works throughout the empire by ordering additional houses of extra height to be erected around each one.

Marine Intelligence.

NEW YORK, June 17.—Arrived, steamers The Queen, London; Ardencraig, Cardenas; Benefactor, Wilmington, N. C.; Richmond, Newport News and Norfolk; Kanawha, Newport News; Cleopatra, Mantanzas; City of Rome, Liverpool; H. F. Dimock, London; Viking Frya, Barnova. Arrived out, steamer Rma, from New York, at Southampton.

Suit Growing Out of the Wheat Deal.

CINCINNATI, June 17.—The American Exchange National bank has sued Irwin, Greer & Co., grain dealers of Chicago, for $317,963.50 on a bill of exchange in connection with the great deal. The object was to garnishee money in the Fidelity bank here.

Appointments by the President.

WASHINGTON, June 17.—The president has made the following appointments: John G. Nelson, of Minnesota, to be receiver of public moneys at Fergus Falls, Minn.; James Greeley, of Minnesota, to be register of the Land office at Redwood Falls, Minn.

Fell Between the Cars.

SARATOGA, June 17.—Sidney Hayes, of Windsor, who was among the excursionists who left Binghamton yesterday morning, fell between the cars of the train near Cobbleskill, and was instantly killed. Hayes was 30 years of age.

Death of Sinclair Tousey.

NEW YORK, June 17.—Sinclair Tousey, whose name was very widely known in business circles, and who for many years has been the president of the American News company, died yesterday, aged 72.

Another Alleged Plot.

BERLIN, June 17.—A university student from Bingen has been arrested at Warzburg, suspected of implication in a plot to kill the emperor.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 16.—Money closed at 4 per cent. was the highest rate, and the lowest 3½ per cent. Exchange closed steady; posted rates, $4.86½@4.86¾; actual rates, $4.86¼@4.86¾ for sixty days and $4.87½@4.87¾ for demand. Government bonds closed steady; currency 6s, 123¾ bid; 4s, coup., 126¾ bid; 4s, reg., 109¾ bid.

Wheat opened firm, up to 1@1 p. m. for the first month, but after short fluctuations, but after short hours it was some selling, which resulted in a reaction of ½@¾ per cent. by o'clock. The market was dull and featureless in the last hour, and the market closed with values at about where they were at the opening. Advance for the day ranged from ¾ to 1¼ per cent.

General Markets.

NEW YORK, June 16.—FLOUR—Closed dull, but steady; winter wheat, $3.30@3.10; Minnesota do., $3.10@3.50; winter extra, $3.15@3.70; Ohio extra, $3.30@3.5. Southern flour closed dull and weak; common to choice extra, $3.40@3.90.

WHEAT—Spot lots ruled dull and very weak; receipts and unsettled. July and August received the most attention. Fluctuations were confined within no comparatively narrow limits, and although the market closed steady a slight advance for the day, it was closed strong and about ½c higher. Spot sales of No. 2 red store at 89c; No. 2 do., 89½@89¾c; No. 2 red winter, 88c; No. 3 do., 86c; No. 3 red, 86c; No. 2 white, 92¾c; No. 2 red winter, June, 87½c; do., July, 85¾c; do., August, 85¾@86c; do., Dec., 90¾c bid.

CORN—Options were moderately active and irregular, but closed steady at a trifling advance for the day. Spot lots closed firm, but unchanged. Spot sales of No. 2 mixed at 47¾c, which graded mixed, 46¾@47¾c; steamer mixed, 46¾c; No. 2 mixed, June, 46¾@46¾c; do., July, 46¾c; do., August, 46¾c.

OATS—Options were dull and irregular, closing steady at a slight advance. Spot lots closed firm and slightly higher. Spot sales of No. 2 white state, 36c; No. 2 do., 35¾c; No. 2 mixed, 35¼@35½c; do., Sept., 30¾@30¾c.

RYE—Dull; western, 53¾@57c; state, 61@63c.

BARLEY—Dull and nominal.

PORK—Dull; old mess, $9.75; new do., $10.

LARD—Closed firm, but strong; cash, $6.35@6.40; July $6.38, Aug., $6.52.

BUTTER—Firm; state, 18@20c; western, 15@19c.

CHEESE—Dull and weak; state, 8¼@9¾c; western, 8@9c.

THE ORDER RESCINDED.

THE PRESIDENT'S LETTER TO THE SECRETARY OF WAR.

A Further Consideration of the Matter Causes the Executive to Reverse His Opinion Regarding the Return of the Captured Battle Flags.

WASHINGTON, June 16.—The excitement here over the proposed restoration of the rebel war flags is subsiding as rapidly as it fomented. Yesterday after Adj. Gen. Drum's circular letter to the governors, offering the return of the flags became generally known, Grand Army of the Republic men were up in arms and were loud in their denunciation of the proposed restoration.

Gen. Boynton, at the suggestion of Governor Foraker, of Ohio, possessed promptly to take legal proceedings to restrain the secretary of war from returning the flags captured by troops of that state. There was to-be war—in the courts at least—and the president was criticised harshly for approving the restoration of those flags.

Of course the president heard of all this, and with commendable promptness looked into the matter and put an end to the excitement and the threatened legal proceedings and impending war by directing the secretary of war not to restore the flags. Gen. Boynton's legal proceedings, which he intended to open in the courts yesterday afternoon, but which were unavoidably delayed, will now be dropped.

Adjt. Gen. Drum and Secretary Endicott, on whom it is presumed the president depended for a correct knowledge of the law governing the custody and control of these war trophies, have been charged with misleading or misinforming the president about his authority to dispose of them in the manner proposed. Fair minded men applaud the president for his prompt action in the matter, and for averting a legal proceeding and public discussion which would have done more to arouse war animosities and sectional inequalities than the exhibition of these flags for a hundred years.

The following is the text of the president's letter to Secretary Endicott:

EXECUTIVE MANSION,
WASHINGTON, June 16.

"To the secretary of war:

"I have been much pressed with more care than when the subject was orally presented me the action of your department, directing letters to be addressed to the governors of all the states, offering to return, if desired by the loyal states, the Union flags captured in the war of the rebellion by the Confederate forces and afterwards recovered by government troops; and to the Confederate states the flags captured by the Union forces, all of which for many years have been packed in boxes and stored in the cellar and attic of the war department.

"I am of the opinion that the return of these flags in the manner thus contemplated is not authorized by existing law nor justified by an executive act.

"I request, therefore, that no further steps be taken in the matter except to examine and inventory these flags and adopt proper measures to preserve them, if desired by action as to the proper disposition of them should originate with congress. Yours truly,

"GROVER CLEVELAND."

An intimate of the president said this morning that the president sanctioned the return of the flags without giving the subject serious consideration, and upon representation that the matter was not in any way governed by law.

The president's understanding was that the flags had been from time to time returned when applied for, and that no new or important question was involved.

Immediately upon examining the law, however, and learning that there was a large number of Confederate flags invoked and that none of them had ever before been returned, the president immediately decided that his approval of the plan had been "inconsiderate and mistaken."

DISTINGUISHED OPINIONS.

What the Governors of Various States Thought of the Matter.

Previous to the rescinding of the order The New York World obtained telegrams to every governor asking their opinions. This morning it publishes the following:

GOVERNOR LARRABEE, OF IOWA.

"I send herewith a request made upon me as Governor of Iowa by the commander of the Army of the Republic of this state against the proposal return to the south of the war flags captured by the union troops during the rebellion. I add to this request and protest of the surviving union soldiers in Iowa the respectful but equally urgent protest of the loyal citizens of this state, and shall deem it my duty to use all proper endeavors to prevent any such return of battle flags, captured by Iowa troops."

GOVERNOR THAYER, OF NEBRASKA.

"The proposed surrender of the rebel battle flags is an insult to every soldier and to every loyal citizen who was on the side of his country in the late war. When that war closed we did not surrender to the Confederates, and we do not propose to surrender now."

GOVERNOR RUSK, OF WISCONSIN.

"I wish to protest against the return of the flags captured by Union troops to the states from whose military organizations they were captured. If these flags are to be surrendered by the general government, I hope they will be given to the states whose troops captured them."

GOVERNOR GORDON, OF GEORGIA.

"When the proposition first reached me, I regarded it as additional evidence of restored concord and fraternal sentiment. As such my heart responded. Most warmly to the movement, but as a citizen of the northern press and people seek to make it the occasion for renewed estrangement and bitterness, I would prefer to leave the flags where they are. I speak as an individual and not as governor), and without consultation, but I believe this will be found to be the sense and sentiment of the southern people. We are weary of strife and hate. We want peace and good will, and prefer these to a return of even so cherished relics, if their return is to cause a revival of strife."

GOVERNOR SEAY, OF ALABAMA.

"The stalwart forms of those who upheld the standards are asleep in death, or are broken by sickness, and many are by inexorable fate. The tender grace of this hour may not reach the dull, cold ear of death, but it will gladden many an old heart whose blood was once so strong, and it will brighten and rejoice eyes beginning to dim with age. The awful chasm of that bloody time, in which was erected the best blood of our country, reopens for an hour, and the sight of it emanates not the martial specter of Curtius, but the shining figure of the angel of peace. This is such an achievement as none if the quarrels which beset him that gives and him that takes. Indeed, it doth become our union even more than Gettysburg or Appomattox. The broad ensign of the republic floats triumphantly above the dome of the ancient capitol of the Confederacy at Montgomery. An insult to it would awaken a war cry the like of which has not been heard before, and the men who resisted the advance of that standard would sink death beneath its consecrated and its gracious folds. The flags may be shipped to the order of Col. A. B. Garland, adjutant general of the state of Alabama, at Montgomery."

GOVERNOR SCALES, OF NORTH CAROLINA.

"It is the best possible disposition of the flags and gives great satisfaction to us."

GOVERNOR FORAKER, OF OHIO.

"I could state the satisfaction of Jeff Davis and that joining of him and Cleveland in eulogies of Calhoun and secession; I could also keep the peace while Rosser was ordering Sheridan's head and Phil Sheridan's head valley and Henry Watterson was speaking of the dependent pension bill as a liniment to abolish vagabondage by pensioning a 1 t of them, but I refrain from saying anything when the president of the United States went fishing on Decoration day, and made up my mind that the time had come to draw the line when, in defiance of public sentiment, he used the power and the authority to order the rebel flags returned to the seceding states. Not that I have any affection for the dirty rags, but because they represent a principle for which many bled, and no other purpose than public parade and to fire the southern heart with pride for a lost cause that ought never to be recalled except with shame, and the abhorrence of the world. The people of Ohio are not ready to recognize the southern Confederacy, and they do not intend to do so. This state will not surrender any rebel flag."

GOVERNOR LEE, OF VIRGINIA.

"I reply to your telegraph by saying that the action of the government in ordering a return of these battle flags is regarded by me as proof that, in the opinion of the executive, the southern states can preserve the memories of the past and still do their whole duty as citizens of the United States to the present and in the future."

GOVERNOR M'KENEY, OF LOUISIANA.

"I think the southern battle flags should be returned. The sections have been gradually tending towards peace and fraternal relations, and the return of these flags, endeared to the heroic men who surrendered them by many associations of honor and battle, will further strengthen the bonds of the nation. I have asked their return to the various commands in this state, and the occasion will be made one of rejoicing."

GOVERNOR MARTIN, OF KANSAS.

"In the name of 100,000 citizens of Kansas who served in the ranks of the Union army during the war, and in behalf of all the loyal people of the state, I enter an indignant protest against the return of the Confederate flags captured in battle by the soldiers of the republic. I protest against such action as an insult to the memory of dead and a outrage on the surviving comrades. The government accepted the custody of these flags, placed in its charge by the patriotic soldiers of the Union, and to the Confederate, and neither the president of the United States nor any other officer of the government has authority, moral or legal, to surrender them."

Senator Sherman's Views.

MANSFIELD, O., June 16.—Senator Sherman, regarding the rebel flags and the Union soldiers' action in the matter, said: "Those and their sacrifices are their greatest pride and glory. This administration does not appreciate this feeling and cannot understand it. It is the first time in my recollection as to the principles that were defended by the Union army and in sympathy with Confederate ideas. They think it very liberal that the southern soldiers should be moved by the return of rebel flags won in battle, and do not seem to appreciate that the surrender is a mark of regret that the flags were ever won. I doubt if any case in history can be found where such a confession was made by the successful party. If the president's motive his a trifling matter he will be greatly mistaken. The sentiment of patriotism is stronger than party ties."

Protestations from Everywhere.

NEW YORK, June 17.—Grand Army men all over the country held meetings last night, bitterly denouncing the president's action in ordering the return of the battle flags. While they were condemning the order in the most vigorous invective the rescission was being transmitted over the wires. North, south, east and west the veterans united in hostile demonstrations and harsh protests, and had the order not been rescinded there would have been the liveliest kind of a row. The action of the president in taking action in the matter has evoked many expressions of regret that the rescission arrived too late to prevent the outburst of indignation.

They Hadn't Heard of the Rescission.

PLAINFIELD, N. J., June 16.—At the reunion of the Eleventh regiment, New Jersey volunteers, resolutions were adopted protesting against a return of the Confederate flags, which were described as belonging to the Grand Army of the Republic and being merely in the custody of the government. The resolutions also declared that while the restoration of good feeling was desirable, the proposed action would not promote that end. Gen. Sickles and Gen. Carr delivered addresses strongly supporting the resolutions. The proposal to erect a Confederate monument at Gettysburg was also denounced.

POWDERLY AND THE KNIGHTS.

He Says He Will Not Accept a Second Term.

PHILADELPHIA, June 17.—General Master Workman Powderly, of the Knights of Labor, who has just returned from New England, reiterates his announcement that he will not again accept his present post. He said:

"Unanimous or not unanimous, I would not accept the nomination. No one can say that the fear of not being elected has caused me to withdraw, for the election is quite a long way off. I do not like to be nominated simply because of my delicate health and because I do not think I would be able to stand the labor duties another term.

"You can judge my mental strain official duties bring with them. When I was a simple week hand I went to bed after my day's work and enjoyed an unbroken and wholesome sleep. Now I rarely go to bed before 2 o'clock in the morning. Many think that those who do no manual labor do not really work. It is a great mistake.

"And that is what often causes the downfall of co-operation schemes which otherwise would be lasting successes. The workers think that when a man is elected to office that he is really doing the hardest work. While co-operation may and will do much for the order in the way of improving the conditions of wage workers, I strongly feel that if the workingman would leave whisky and other alcoholic stimulants alone his condition would be vastly improved in consequence. Now, mind, I do not say that drink causes all the trouble, but it is a powerful component.

Tolliver, the Terror.

LEXINGTON, Ky., June 17.—Everything was quiet at the Morehead yesterday morning, and no further outrages have occurred. Tolliver and his gang swear that no troops shall be sent to Rowan county, and say that they will shoot every lieutenant that comes. Every eastbound train is watched by them to see if soldiers are aboard. Dr. Logan and McClurg, who were pardoned by the governor, will not go back to Rowan to live, as they are afraid of being killed.

A ROMANTIC MARRIAGE

ENDED BY AN APPEAL TO A DIVORCE COURT.

A Girl Who Was Fairly Won at Poker Dice Elopes with the Loser, and Lives to Regret Her Folly—Run Off While Her Intended Was in the Smoker.

SAN FRANCISCO, June 17.—The divorce of Amy Crocker Ashe and her husband, Dr. Porter Ashe, has produced a sensation in the circles in which they move. The proceedings, having been secret, the fact of the divorce has just leaked out. Nothing is given out as to the ground of complaint or the testimony on which the divorce was granted.

The troubles of Mr. and Mrs. Ashe have become matters of public interest for some time. Their marriage was romantic, even for the Pacific coast. Amy Crocker was a handsome girl, and, being an heiress, she did not lack admirers here or in other parts of the state, who made overtures for the possession of her hand and fortune. Among them were R. Porter Ashe and William Wallace. These youths had just been graduated at the state university, and were fast friends. Neither was jealous of the other's attentions to Miss Crocker, and instead of resorting to the expedient of lading each other in some unpolished way with a few chosen friends and exchanging pistol shots or sword thrusts, they resorted to the novel scheme of shaking dice for the privilege of the bride elect. The scheme was proposed and was accepted, and one pleasant day he and Miss Crocker left Sacramento to be married in this city without announcing their intentions to any of their friends or acquaintances. Wallace accompanied them in the capacity of mutual friend. As the train rolled toward the city the prospective bridegroom wearied of the society of the bride elect and went to the smoking car. This was Ashe's opportunity, and when, upon approaching Oakland, Wallace returned to the coach, he discovered that his fiancee and his mutual friend had left the train at Port Costa, Miss Crocker having decided to change her mind and marry Ashe, notwithstanding the fact that according to the rules observed by all gentlemen who indulge in poker dice she fairly belonged to Wallace. The runaways went to Martinez, where they were united. After the ceremony was duly notified of the stepparental blessings were bestowed upon them, notwithstanding the fact that the marriage was very distasteful to the bride's mother.

As if in this was not a sufficiently romantic beginning of married life, their wedding tour was interrupted by the fearful wrecking of the train on which they rode to in Tehachipa Pass, from which they succeeded in escaping unscathed, although nearly all of their clothing and a quantity of valuable jewelry belonging to Mrs. Ashe were lost. Married life, even in a spacious palace on Van Ness avenue, furnished in luxurious style, did not long have any great attractions for Mr. Ashe, who, having a goodly amount of his wife's income at his command, rapidly developed a taste for fast horses and bulldogs. He also went into politics and secured a nomination for the legislature, but was unsuccessful. His sporting ventures were equally unprofitable, and Mrs. Ashe soon complained of the expense of the stable of dogs which he maintained and on her money, as well as many other of his extravagancies, and a coolness rose up between them which resulted in separation and the commencement of the husband's plan journey to Europe. Mrs. Ashe soon lost Married life, even in a spacious palace on Van Ness avenue, furnished in luxurious style, did not long have any great attractions for Mr. Ashe, who, having a goodly amount of his wife's income at his command, rapidly developed a taste for fast horses and bulldogs. He also went into politics and secured a nomination for the legislature, but was unsuccessful. His sporting ventures were equally unprofitable, and Mrs. Ashe soon complained of the expense of the stable of dogs which he maintained and on her money, as well as many other of his extravagancies, and a coolness rose up between them which resulted in separation and the commencement of the husband's plan journey to Europe. Mrs. Ashe soon lost. He also went into politics and secured a nomination for the legislature, but was unsuccessful. His sporting ventures were equally unprofitable, and Mrs. Ashe soon complained of the expense of the stable of dogs which he maintained and on her money, as well as many other of his extravagancies, and a coolness rose up between them which resulted in separation and the commencement of the husband's plan journey to Europe. Mrs. Ashe soon lost.

A BASEBALL ROW.

Welch of the St. Louis Club, Runs Into a Baltimore Player.

BALTIMORE, June 17.—Oriole park was the scene of wild disorder last evening. The game between St. Louis and Baltimore was a fine one, the latter club playing their half of the ninth inning and St. Louis had one man out and their famous Welch on first. Welch stole second and collided with the second Baseman Greenwood of the Baltimores, who was knocked and stunned, letting the ball drop. The umpire decided not out, and this, together with the knocking down of Greenwood, made the Baltimore players and the audience lose their heads, and they rushed out and protested vehemently against the decision of Umpire McQuaid. Captain Daly turned Chief Wardrdly and brutal' assault of Welch upon Greenwood.

Opinion is divided as to whether Welch maliciously struck Greenwood. It required the combined efforts of twenty-five or thirty policemen that were luckily present to protect Welch. Meantime the umpire, seeing that no playing could be resumed, declared the game a draw. Welch was taken to Waverly, notwithstanding Greenwood's assertion that the collision was accidental, and the infuriated police officers, before Squire Callis, with having assaulted and struck William Greenwood. He was released on $200 bail for a hearing this afternoon.

Preparing for Disasters.

LONDON, June 17.—Colonel Sir Charles Warren, commissioner of the metropolitan police, has ordered ambulances to be stationed at various points along the route of the queen's jubilee procession, and the Order of St. John of Jerusalem, an organization similar to the Red Cross society, will also supply a number of conveyances fitted for conveying injured persons to hospitals. It is also proposed to secure the services of several companies of the Volunteer Medical Staff corps and many policemen who formerly served in the army hospital corps have been detailed for special duty along the route on Tuesday. It is officially explained that these phenominal preparations are made in view of possible accidents, sunstrokes, etc.

Murder in the Second Degree.

BUFFALO, June 17.—When court reassembled at 6 o'clock last evening the jury in the Penalty trial reached a verdict, and slowly filed into their places. Then the customary questions were asked and the verdict handed, guilty of murder in the second degree. It was a surprise to a large majority, who rather expected either an acquittal or a disagreement. The judge deferred sentence until Saturday. The case itself has furnished a means of killing time to some and proved a treat to the curious was at an end. It is not known what course the defense will pursue, but it is believed that there is good ground for a motion for a new trial.

FIGHT WITH MASKED BURGLARS.

Young Anker Fatally Shot and a Robber Loses an Eye.

ALTOONA, Pa., June 17.—Three masked robbers entered the residence of Peter Hawn, in Juniata township yesterday morning, and in the absence of any male members of the family demanded from the ladies what money there was in the house. The ladies refused to hand over the valuables, where upon the robbers proceeded to ransack the premises, and while thus engaged the men returned. George Anker, Hawn's adopted son, shot at one of the men with his rifle, but missed him. The desperado then fired on Anker with his revolver, inflicting a fatal wound in the left breast. After Anker was shot he knocked the robber down and seized his pistol from him and shot out his left eye. The man escaped to the surrounding hills and has not yet been captured. The other robbers returned to the house to search the premises, and while thus engaged the men returned. George Anker, Hawn's adopted son, shot at one of the men with his rifle, but missed him. The desperado then fired on Anker with his revolver, inflicting a fatal wound in the left breast. After Anker was shot he knocked the robber down and seized his pistol from him and shot out his left eye. The man escaped to the surrounding hills and has not yet been captured. The other robbers returned to the house to search the premises, and while thus engaged the men returned. George Anker, Hawn's adopted son, shot at one of the men with his rifle, but missed him. The desperado then fired on Anker with his revolver, inflicting a fatal wound in the left breast. After Anker was shot he knocked the robber down and seized his pistol from him and shot out his left eye. The man escaped to the surrounding hills and has not yet been captured. The other robbers returned to the house to search the premises, and while thus engaged the men returned.

DAKOTA'S FIERCE WIND.

THE DISASTER ACCOMPLISHED AT GRAND FORDS YESTERDAY.

Telegraph Wires Down and Reports Hard to Secure—Two Women Instantly Killed and Many Persons Injured—Over Three Hundred Buildings Destroyed.

GRAND FORKS, Dak., June 17.—About 3 o'clock yesterday afternoon this city and vicinity was visited by the most destructive storm ever known here. Telegraph wires are all down and complete reports are hard to secure. Miss Cora Starbird and Mrs. A. N. Kappan were instantly killed. The injuries as far as known are A. Anderson, A. Reynolds, Robert Anderson and wife and A. J. Lyons, probably fatally. Mrs. Fallet, hip broken. A railroad carpenter, name unknown, and a man in a saloon in East Grand Forks were also injured. About seventy-two buildings were leveled. The North Dakota university was almost totally demolished, causing damage to the extent of $12,000. The Catholic church was completely ruined and the Congregational church badly damaged. The Plain Dealer and Herald building was unroofed. About 300 other buildings were damaged to a more or less extent. An incoming Manitoba train containing a smoking car and a first-class coach was blown off the track and down an embankment, rolling over two or three times. A number of passengers were injured.

The force of the wind was so strong that a heavy building belonging to the Austin Powder company was blown fully half a mile.

INFORMER FULLGRAFF

Testifies that the Bribe Givers Still Owe Him $2,000.

NEW YORK, June 17.—Testimony in the Sharp bribery case began yesterday. Ex-Alderman Fullgraff repeated the story he has told at the previous bribery trials, of a "combine" of thirteen aldermen who agreed to let Sharp's road have the Broadway franchise if $20,000 apiece were given them. Fullgraff was cross-examined by Mr. Bidwell, of counsel for the defendant, got a little mixed as to the amount he actually received as his share of the bribe money. He said he got $10,000. Mr. Bidwell said that on previous trials he swore to receiving $18,000. Fullgraff said that if he so testified it was an error. He finally explained that $8,000 was still due him. The cross-examination yesterday did not prove very interesting, as Fullgraff has told the story so often that it was familiar to all present. Mr. Stickney did not go into it at all. Mr. Bidwell, as also Mr. Shafer, Mr. Graham and other counsel in the former trials, when he was made to confess himself a most abject creature. At 6:30 the court adjourned.

The Cleveland Strike.

CLEVELAND, O., June 17.—At a conference between the committee of the officials of the New York, Pennsylvania and Ohio railroad an unsuccessful effort was made to settle the strike of the ore handlers. The committee stood firm and by advance demanded by the strikers. The mayor assured the officials that he would render all the protection in his power to say new men they might put to work.

Shot Dead from Behind.

LITTLE ROCK, Ark., June 17.—A serious shooting affair occurred at Mt. Dorado, Ark., Wednesday, in which James Baird shot and fatally wounded Dr. Kimball. The doctor and a brother of Baird became involved in a fight, and Dr. Kimball presented a pistol and Dr. Kimball, not being armed, started to get away. James Baird then came up behind the doctor and shot him down.

Death or Free Board.

LONDON, June 17.—Lawrence Donovan, the bridge jumper, arrived at Clifton yesterday, and intends, if he is able to elude the police, to jump from the parapet of the suspension bridge spanning the Avon at that place. The distance from the parapet to the water is 200 feet. It is recorded that twenty-one persons have leaped from this bridge, only one of whom survived.

A Lunatic at Large.

LANCASTER, Pa., June 17.—Edward Beskey aged 33, who has been deranged for some years, became violent yesterday and tried to kill his mother and sister with an ax. He also attacked his father and brother, but fortunately none of them were seriously injured. He was finally overpowered and locked up.

No Evictions During the Jubilee.

LONDON, June 16.—Col. King-Harman, parliamentary under secretary for Ireland, in reply to a question in the house of lords, said the government was powerless to suspend evictions in Ireland, They would be suspended, however, during the period that parliament devoted to the jubilee celebration.

Death of a Prominent Democrat.

POTTSTOWN, Pa., June 17.—J. Wright Apple, ex-clerk of the courts of Montgomery county, and a Democratic politician of prominence, died at Morristown at noon yesterday, aged about 50 years. He resided with his mother and sisters here, and was unmarried.

In Favor of the Veterans.

BOSTON, June 17.—The senate reconsidered its former action and passed the veto bill over the governor's veto, by a vote of 26 to 11.

CONDENSED NEWS.

The Massachusetts legislature refused to raise the governor's salary from $5,000 to $10,000.

The car of all the Russias is a confirmed drunkard, having several times suffered from delirium tremens. His actions while under the influence of liquor are very ludicrous.

Paris is excited by the abduction of a rich and beautiful countess by masked men.

The Bodyke evictions were the subject of a long and acrimonious debate in the house of commons.

Dr. Samuel L. Gilson, a prominent lawyer of Erie county, Pa., was drowned from his boat while fishing.

The Philadelphia council's committee on railroads is largely in favor of an elevated railroad for that city.

Three more cases of yellow fever are reported at Key West.

The discovery of a $500 solitaire diamond ring on the finger of a long entombed skeleton in a vault, near New Brunswick, N. J., has attracted burglars, who have made several attempts to rob the tomb of its treasure.

Samuel Colman sues one Frank, a matrimonial agent, of Brooklyn, to recover $31, paid as a fee to secure a wife. The bride selected broke the agent's contract.

The antecedents and friends of Casper Strumbach, the confessed Rahway, N. J., murderer, have been fully traced. There is evidence for and against. Its truthfulness of his statements.

The body of Miss Caroline Kissele was found washed upon the beach at Clifton, S. I. She had been missing for two weeks.

SOUNDLESS AND SPEECHLESS.

A Visit to a School for Those Who Cannot Hear or Speak.

On the historic grounds of Washington Heights, New York city, stands one of the most progressive institutions of progressive times. It is the New York Institution for the Deaf and Dumb.

In the old "Mansion house," once occupied by President Madison, are gathered about forty little boys who cannot hear a sound, but who are being so trained that the loss of this important sense will not materially affect their future happiness or usefulness. The institution proper stands nearer the bank of the river, and houses about 400 more deaf mutes of both sexes and various ages.

This building, which has been christened Fanwood in honor of President Madison's daughter, stands on the brow of the Hudson, nearly opposite Fort Lee, and commands a beautiful view of the river.

It contains living rooms, school rooms and workshops, all large and airy and well furnished. Everything is so pleasant and genial that the visitor forgets that he is among a class of people who are specially afflicted. There is, of course, the peculiar but not quite so joyous, happy voices usually heard in such a company, but there are plenty of happy faces, and flying fingers seem to answer the purpose of tongues.

Outside of work and study hours the boys play ball, croquet and quoits just as animatedly as if they could hear, or go out boating on the river. Of course the girls have not quite so much freedom, as they are never allowed to go out without a teacher, but they can have very good times in their large, airy study room. Here they gather in groups, and, though there is no chattering and giggling, there is apparently a large amount of girl talk going on upon those swift, silent hands and fingers.

AURAL DEVELOPMENT.

There is a large, attractive library in the building, supplied with about 3,000 volumes, various magazines and papers, besides which the students draw books from the Mercantile library in the city. There is also a pretty little theatre where interesting pantomimic performances are held. One young man is especially apt in this kind of acting. He can represent the death of Junius in most pathetically and the antics of a buffalo in an electrical set pond most amusingly. The stage curtains are the pupils' own handiwork and show no small ability in scene painting.

A wonderful change takes place in the students after they have been in this institution a short time. They come with minds imprisoned. The avenue of communication with the rest of the world closed, they have no language, and only a few ideas which they can make known by signs to their immediate friends. The first thing to be done is to give them a vocabulary and the means of using it.

They are taught three modes of expression, the sign language, the deaf and dumb alphabet and the written word. In a little while they can express their thoughts in writing and begin to gather knowledge from the world of books.

Some cases when brought there seem hopeless. How can a person who never heard a sound nor saw one ray of light be made to know what is going on in the world around him and to understand the thoughts of other people? Yet it is done. There is one young man in the institution now who has been thus liberated from a world of darkness and brought into contact with his fellow beings. He has been taught both the sign language and the deaf and dumb alphabet. By placing his hand upon that of the person speaking to him he readily understands what signs are being made and answers with his other hand. He has also been taught to operate a typewriter. At a recent meeting of the directors of the institution he wrote the following letter on the platform before the audience:

Today is the anniversary of our institution. It is sixty-nine years old. We are thankful to the state and directors for this school. We came here without knowledge. We have since learned much. We have been learning a good trade. We shall be able to support ourselves when we have school. I shall support myself by bottoming chairs. I am both blind and deaf, but I am not unhappy. I try to be a good boy.

EDWARD T. CLINTON.

A series of careful tests had shown that seventy-four of the pupils in attendance at the institution possessed a sensitiveness to and appreciation of voice sounds sufficient to warrant the attempt to develop and cultivate, by means of instrumental aid, their latent hearing, and to render it available to educational purposes. An ear piece and tube, devised by Professor Currier, made it possible for the pupil to hear his own voice as well as that of his teacher, so that the same course as that pursued in teaching the hearing child to attach significance to sounds could be followed. These pupils had been under the charge of Professor Currier, assisted by three lady teachers, and the results, as attested by the examination, were equal to the most sanguine expectations.

One of the most important features of this school is that it does not stop with mental and moral training. It goes on to give a manual training that shall fit each pupil who goes out into the world to earn his bread by "hearing people" in the world's workshops. The boys are taught printing, cabinet making, carpentering, shoemaking, gardening and tailoring; the girls, tailoring, dressmaking, shirtmaking and general sewing.

Some are fitting themselves for teaching. One girl, when asked what she expected to do when she left school, wrote that she thought the noblest work she could choose was teaching the deaf and dumb, and for this she was trying to prepare herself.

Some pupils prefer the more ornamental industries, and these are admitted to the art department, which is becoming the pride of the institution.

When Buying a Dog.

"Don't buy one of these little black and tan dogs until you are sure of its breeding," said a sad eyed man with a wen on his right eye. "Six months ago I bought one of the watch chain critters. He wasn't bigger than a rat, and he didn't weigh more than a pound. I paid ten dollars for him. By and by he began to grow, and in four months he took out of the keg to a barrel. When I sold him for $1.50 a week ago he weighed 56 pounds and was as big as a calf. As I said before, don't buy one of the measly things until you are sure of its breeding."—Chicago Herald.

GLOVES OF THE PAST.

SOME OF THE HISTORIC HAND-WEAR OF KINGS AND QUEENS.

The Language of Gloves in Olden Times. Queen Elizabeth and Her Fondness for Presenting Her Nobles with Gloves—The Gloves of Greece—Gloves of the Period.

Gloves are more aged than table forks. When the dwellers in older worlds were eating with the aid of their fingers they had at least advanced far enough in the matter of personal adornment to have gloves, even embroidered ones, and to be very particular in regard to the quality of them. Of this all accounts of knights of old and even the ladies, "God bless 'em," as the gallant Kentuckian always says, went about in gloves of gorgeous workmanship, which concealed hands not too clean and impeachable finger nails. The nail brush had not yet been invented, and the manicure dwelt nearly 1,000 years in the future. Possibly the gloves would not have been as badly needed if the manicure had been born first, since much of our clothing is designed more for concealing than protecting the body.

They were in vogue in Greece before the Homeric age, for Homer speaks of Laertes wearing gloves to protect his hands while working in the garden. The swells of the middle ages, both male and female, were very particular about their gloves. They were very costly, often ornamented with precious stones, and were worn by lofty dignitaries on grand and ceremonial occasions.

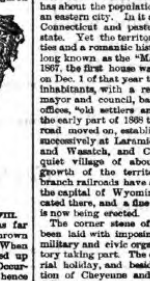
Far back into the centuries, 600 years ago, and perhaps farther, a glove language can be traced. The glove, innocent in itself, figured in affairs of love and blood in a way that has made it the most sentimental adjunct of the toilet, almost rivaling the ring, which has no utility to keep it on a practical plane, and therefore may be accused for taking the lead in sentiment.

TIME OF HENRY VIII.

Very old, older than history, is the custom of giving a glove as a pledge in concluding a contract. And in days of old, when knights were bold," and tolerably bad, we may conclude, as far back as 1345 in England they gave a glove as the throw down as a challenge to mortal combat. When the challenged party accepted he picked up the glove and threw down his own. Occurrences of this kind were very common, hence it behooved every gentleman to see to it that his gloves were a credit to him. Any day they might bring him to glory or the grave.

And in the ceremony of bestowing lands or dignities a glove was used. Deprivation of gloves was a sign of degradation; and the lady fair, as a sign of her favor, gave her faithful knight a glove, which he gallantly wore in his helmet. Queen Elizabeth gave the Earl of Cumberland a glove which he wore on the crest of his hat, surrounded with brilliants. The royal old maiden was very fond of bestowing gloves, a token which was supposed to be flattering and suggestive, and yet made inroads on her constitutional stinginess. It was during Elizabeth's reign that the history of gloves experienced a turning point. The picture here given of a glove of her day represents one of crimson velvet, embroidered with gold and silver. Embroidered gloves were first made in England in 1580. The custom of presenting them to judges at maiden assizes is still continued. As presents for favors of whatever nature they have always been in order. In payment of wagers in which a lady was the winner they have been permissible when nothing else of a useful character would be.

They have not escaped scandal, either. They often figure in affairs not reputable. Books of advice to young gentlewomen of two and three centuries ago contained special caution in regard to the person from whom they accepted gloves. All sorts of insidious evil was supposed to lurk in the fingers of a glove. The same old wiseacres also told the young men that they should expect only "honest and tender affection" from English gentlewomen, and not "sugatyres, toyes or trifles, love scented gloves, amorous potions, perfumed pictures or love sick powders."

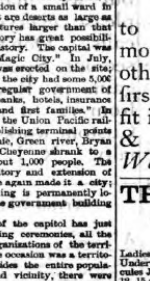


TIME OF ELIZABETH.

But then one must remember that in those good old days, when simplicity and brotherly love had not been extinguished in the minds of mortals, they had a habit of poisoning gloves and sending them to rivals, sweethearts who had jilted them and enemies of high degree.

The glove of the Henry VIII era, here given, is of leather embroidered with silk, gold and seed pearls. If it fitted the hand that owned it, it was an imposing structure, needing for its construction the skin of more than one juvenile little beast, as that notable monarch had a fist that took up considerable space while it was making its mark in history. Here, too, is one of Shakspeare's gloves. The original is now in the possession of Mr. Horace Furness, of Philadelphia. If they could only talk what light they could throw on the great and mysterious William. But they can't, and there's the end of it.

In some parts of Europe, even unto this day, it is the custom to take off gloves when entering the dwelling of a prince or a great man, or else forfeiting them or their price to the servants. And have we not all, occasionally, met the man who thinks it etiquette to say "excuse my glove," when he shakes hands with a lady? He is still living, and looms up at intervals in the city as well as the provinces. Hats a very useful asset of society, but is, on account of etiquette, a little behind and doesn't know it.



SHAKESPEARE'S GLOVE.

The term "glove money" is still in use. It had an ancient origin and originally meant money given to servants to buy gloves. It has also been applied to the money given wives by their husbands to get little trifles with, for which they were not supposed to give any account. "Pin money" has rather supplanted it.

The mitten, which also belongs to the glove family, has figured in certain affairs effectively, though why as a symbol of disfavor I know not. To "get the mitten" has always to the lover meant woe.

Gloves have degenerated since Elizabeth's day—so in length, variety or numbers, but in expansion and elaboration. Having reached a point of usage which makes them as common as shoes, they cannot, perhaps, be done up into the old fashioned sentiment. Lovers still dote upon them and treasure them; but lovers will do almost anything when they are far gone. Poets, too, work them up liberally in verse; but poets also have a heavy margin of license, and may be expected to have their fancies and be spoony and foolish at their will. The story writer, too, finds the glove a useful factor, and frequently imposes heavy burdens upon it, making it the agent of fate in the most daring way.

To come down to the every day view of gloves, nothing adds more to the daintiness of a toilet than past fitting and handsome gloves; but they are expensive in spite of all you can do in the way of economy. An old glove may be brimful of sentimental reminiscence, may be quite in place in a drawer of keepsakes, may be interesting in poetry and cut a figure in fiction, but on the hand it is entirely out of place.

Paris furnishes the bigger part of the world with kid gloves. The only kind that are purely American are the buckskin gloves. Gloversville, in Fulton county, N. Y., is noted for their manufacture. Some kid gloves are also made there.

WYOMING'S NEW CAPITOL.

Cut and Description of a Proposed Territorial State House.

Wyoming covers 97,690 square miles, and had in the census year 20,789 inhabitants. More than two-thirds of the city had over 5,000 inhabitants, with a regular government of mayor and council, banks, hotels, insurance offices, "old settlers and first families." In the early part of 1868 the Union Pacific railroad moved on, establishing terminal points successively at Laramie, Green river, Bryan and Wasatch, and Cheyenne shrunk to a quiet village of about 1,000 people. The growth of the territory and extension of branch railroads have again made it a city; the capital of the territory has been located there, and a fine government building is now being erected.

The corner stone of the capitol has just been laid with imposing ceremonies, all the military and civic organizations of the territory taking part. The occasion was a territorial holiday, and besides the entire population of Cheyenne and vicinity, there were delegations from every town in Wyoming and from the adjacent sections of Colorado and Nebraska. Governor Thomas Moonlight, a prominent part in the occasion, and Judge Joseph M. Carey delivered the oration;

WYOMING'S PROPOSED CAPITOL.

but the ceremonial of the corner stone laying was after the Masonic ritual. The cavity beneath the stone was filled with copies of the territorial papers, photographs of public men and noted places in Wyoming, specimen coins, Indian relics, and many other objects which will be of historic interest when the building is torn down. On the corner stone is this inscription: "Laid by the Grand Lodge, A. F. and A. M. A. L. 5287, A. D. 1887. N. R. Davis, Grand Master."

The capitol is on a slight eminence at the corner of Twenty-fourth street and Capitol avenue, and the structure is completed to the height of the first floor; when finished it will be as large as in our cut. It is built of the Rawlins stone from the western part of the territory, in a style designated by the architect as that of the modified French Renaissance. It will be 250 feet long, east and west, and 156 feet wide; in the center a huge iron tower will rise 152 feet high, and within it the rotunda will be open from floor to dome, lighting all the interior rooms. There will be forty rooms, exclusive of the basement, the largest being the legislative chambers, which will each be 68x70 feet. All these rooms will be finished in cherry, oak and butternut, and the builder expects to have the work so far completed that the legislative session of January next can be held in it.

President Cleveland's Vacations.

PRESIDENT CLEVELAND'S COTTAGE.

President Cleveland has passed three summers' vacation on Saranac lake, in New York, and has just left that retreat for this season. The altitude of Saranac lake above the sea is 1,780 feet, and it is one of the most charming localities in the Adirondack region.

The cottage occupied by the president is near the hotel known as Saranac Inn. The cottage is of logs, and was at one time a hut occupied by guides and hunters. Mr. Cleveland's use it was rebuilt and changed materially. It has six or seven small rooms comfortably arranged. The president has had for a guide a backwoodsman in the very way qualified for the work, David Cronk.

Favorite Foreigners in China.

Says the Rev. Judson Smith, of the American board of Boston: "American missionaries have ever been treated with special consideration by the Chinese authorities. Li Hung Chang, the Chinese statesman, said, 'Have read the Bible, I know all you Christian nations preach the golden rule of "Do unto others as you would be done by," but none of you live up to it. The Americans come nearest to living up to it, however." Thus, despite the treatment Chinamen receive in some parts of the United States, Americans are the favorite foreigners with the Chinese people and government, and our missionaries have received more of their favor than missionaries from other countries."—New York Tribune.

Gen. Meade's grave is marked with a plain white marble headstone bearing the inscription, "He did his work bravely and he is at rest."

Bad Language

Miss Betsy Primme—He really is such an ugly looking devil, you know.
The Vicar—Well, he is!
Hostess (who overhears)—My goodness, gracious me!
They were only discussing the Mephistopheles of a provincial dramatic company.—London Punch.

What the Heathen Gurgle Means.

A pretty woman entered a Chinese wash house on upper Broadway and inquired why her clothes had not been sent home, as usual, on the night before. She only remained three *minutes, but during that time seven other* Chinamen who were slamming and ironing fine linen conversed about her in their native tongue as follows:

Wun Lung—What is it?
Sling Hi—Did it blow in?
Ah Slim—No, it was hoisted in.
Cum Gin—How would you like to mash it?
Ah Toi—Look at the feet of it—Great Buddha!
Hong Fat—Let's drown it in the washtub.
Ai Fip—No, let's save it for soap fat.
Cum Gin—What d'ye s'pose it costs to feed it?
Hong Fat—And to dress it?
Sing Hi—Or to marry it?
Wun Lung—Oh, let it alone, it won't hurt you; it's a good, harmless, innocent, that don't know any better. I say, Foug, let her have her rags and charge 'em to me—she can have everything I've got, except my lottery tickets.—Oakland Tribune.

Lake Sharp's Obtuse Friend.

Although the professor is one of the most genial men I ever knew, he is completely devoid of any sense of humor.

One evening at the professor's rooms a mutual friend told a very funny story. It was so evident that the professor did not see anything funny about it, that I proposed we should try and explain it to him. The mutual friend analyzed it, took it apart, slit by bit, and explained where the point of the yarn was, and to assist him I drew a diagram on a sheet of paper. The professor looked with that intense attention which he gives to any subject that was brought before his notice, and then said, with a sigh:

"Don't you perceive, gentlemen, that the premises are wrong, and consequently the whole *structure falls to pieces?* The story cannot possibly be true."—Detroit Free Press.

The Kindly Landlord.

Landlord—Good morning. Glad to see you trimming the lawn. I have a notion to reduce your rent.

Tenant—That would be appreciated. But I was not trimming the lawn. I was gathering a few plantain leaves. They make fair greens for a poor man.

Landlord—Do you mean to say you are supplying your table from this yard?

Tenant—Just a little.

Landlord—Dear, dear. It grieves me to raise the rent, but you know yourself that no garden truck is mentioned in the lease.—Omaha Herald.

An Unreliable Vessel.

Mrs. DeKagge—John is overrun with business cares just now. By the way, is Mr. DeKagge in business?

Mrs. DeKagge—Why, yes, deeply. He told me that yesterday he bought 1,000 bales of cotton, 1,000 barrels of oil and I don't know how many bushels of wheat.

"He must be doing a large business. Where is his office?"

"He has no store. He says he has the goods on a 'margin'—some sort of vessel, I presume."

"Dear me, I'm so glad."—Philadelphia Call.

This Actually Happened.

First Colored Citizen—Come 'cross yur, Jim.
Second Colored Citizen—Whaffur?
"Got sutin' good."
"What is it?"
"Pollynaris watah."
"Pook, watah!"
"I good, though."
"What's taste like?"
"Like yer foot's asleep."—Atlanta Constitution.

Montana Justice.

Montana Judge—What is he charged with?
Constable—Holdin' that his shootin' iron counted in a flush.
Judge—Drinks for the crowd. Next!
Constable—This here chap calls hisself Mo Cosky Bab, and says 'daypo' an' 'fiber an' ni-ther.
Judge—Two hours ter git outer th' county.—Washington Critic.

Fury and Admiration.

Small Man (furiously)—Who struck my friend? Large Man (contemptuously)—I did; what of it? Small Man (timidly)—Nothing! but (struck with a bright idea) didn't you hit him a daisy punch!—Harvard Lampoon.

That Cruel War.

"So your father was in the war?" said he.
"Yes, he was killed in the battle of Bull Run," she replied.
"Whose business is that?"
"He wasn't shot at all. He broke his neck running down the hill. War is an awful cruel thing, don't you think so?"—New York Mail.

Potato Puffs.

Potato puffs are a favorite family dish. Take cold roast meat of any kind, chop it, season with salt and pepper; boil and mash potatoes and make them into a paste with an egg; roll it out and dust with flour and cut in rounds; put some meat on one-half of each fold over, pinch together and fry to a light brown.

An Attractive Hat Rack.

The rustic hat rack here represented, if carefully made, will look well in the hall of any modest country home.

RUSTIC HAT RACK.

Make a solid base, either of heavy two inch plank or framed of two by three inch scantling. On this firmly nail a box and in the inside put one shelf. Procure a suitable section of a small tree and trim the branches so as to form hooks and pins for the hats and coats. In the top of the box cut a hole to fit the butt of the tree. The stick, to stand firmly, should go through the shelf also and be secured to the heavy wooden base. Bind around the top of the box some dark cloth and carry it up in folds to the base of the tree and tack it firmly to it. On the face of the box can be hung a door or curtain, thus forming a small closet. Pans should be set on each side of the box to catch dripdrips from umbrellas. Try to keep the bark of the tree unstripped, and the effect will be found very pleasing.—The World.

JOTTINGS.

—Doane & VanArsdale have a change in their advertisement to-day.

—The Workers' Training Class will be held as usual at the Y. M. C. A. to-morrow morning at 9 o'clock. Visitors will be welcome.

—A nine composed of employees of the Potter Press Works will contest in a game of base ball on the latter's grounds this afternoon.

—The strawberry and ice cream festival given by the "Earnest Workers," of the Bethel Mission, on Thursday evening, netted $163.

—John Powers, alias "Sailor Jack," was arrested yesterday for drunkenness and disorderly conduct, and this morning was committed to the county jail for sixty days.

—The case of Diamond & Co. vs. Van Nest, on contract, before Justice Nash on Wednesday, was settled in favor of the plaintiff, judgment being given for $47.90 and costs.

—The large advertisement of the Plainfield Gas Light Company will be noticed elsewhere. Housekeepers who desire a cool kitchen in summer and get rid of the handling of coal and ashes will find their gas stoves just suited to their needs.

—While opposing counsel are endeavoring to decide as to who is the lawful owner of the drive well patent in the city of Plainfield, Mr. Green's counsel is collecting royalties in North Plainfield and elsewhere. The territory which belongs to Abraham Sebring includes the city only.

—The one hundred and fifty horse power engine was placed in position in the electric light plant to-day and will be ready to start up to-night. It will furnish power for the ten incandescent machines. Men were engaged all the week making connections and getting things in readiness.

—An influx of Barnegat "skeeters" last night proved very annoying to the people in this city. One gentleman remarked that their breath was heavily laden with sea air, and he felt it to be a sure sign that chaos would only bite this season at ebb tide, while weak fish and visiting relatives at the seashore would be numerous.

—The Dunham Choristers are doing all they can to make their festival at the Warren Mission Chapel next Tuesday and Wednesday evenings a grand success. The orchestra, consisting of ten pieces of music, will, during each evening from eight to eleven o'clock, render a rich programme of music suitable for the occasion. The Choristers will also render several selections of vocal music, consisting of solos, quartettes and full choruses.

—The final examinations at Rutgers College, New Brunswick, will begin next Tuesday. The following boxes were read by the members of the scientific section of the class of '87: B. M. Tremper, "Limes and Cements;" W. J. Brodie, "Natural Gas;" George A. Ballentine, "Beer;" T. W. Challen, "Field work of the United States Coast Survey;" Frederick J. Marsh, "The Poughkeepsie Bridge;" I. L. Winckler, "The Kansas City Bridge." The commencement exercises begin on Tuesday.

—"Ye Younge Olde Folke's Concerte" given in the Park Avenue Church last evening by the Juvenile Society proved quite a success. The opening hymn on the programme was a chorus by the children, and the balance of the exercises consisted of songs, recitations and readings. The concert was given under the direction of Miss Whitfield, and the children acquitted themselves very creditably. After the exercises, which were completed about 9:30, refreshments were served and the young people enjoyed themselves for an hour. The affair was a success, financially and otherwise.

North Plainfield Graduates.

The commencement exercises of the North Plainfield Public School will be held in Warren Mission Chapel on Thursday evening of next week at the same time the exercises in the High School in the city are held. The graduating class numbers fifteen, five young ladies and ten young gentlemen, as follows:

Minnie J. French, Emily S. Thompson, Florence V. Hurlburt, Elizabeth R. Brower, Marie E. Gavin, Charles H. Bonnell, George F. Taggart, Frederick W. Heidsiek, John E. S. Petrie, David H. French, Allen Coddington, John M. Lewis, Frank P. Wilson, Frederick C. Grant, Paul Loiseaux.

An interesting program of the exercises is being prepared and eleven of the graduates will take part. There will be declamations by the boys, essays from the girls, a dumb-bell exercise, a girls' chorus by members of the Grammar Department and boys' chorus from the same department. There will also be a chorus by selected pupils of both sexes from the Grammar Department. The teachers of the school are: C. E. Boss, Principal; Margaret J. Purdue, Vice Principal; Miss M. L. Thomas, Miss E. J. Bainbridge, Miss R. E. Mair, Miss Rose Hodgkiss, Miss Mary Lewis, Miss F. O. Kutilke, Miss L. Kiernan, Miss T. M. Wilson, Miss E. Stremmel, Miss E. R. Gunn. All of these will accept re-appointments and a new teacher will be appointed.

The Child Released.

John Clarke was arrested a week ago for attempting to abduct his child, Isabella, from its mother, Mrs. Downey. Clarke was committed to the Elizabeth jail in default of bail and released on Thursday. The child was committed to the Children's Home by Judge Ulrich until the Court of Chancery should decide which parent was entitled to have charge of it. This morning Mrs. Downey went to the Home accompanied by Constable Moffett and W. E. McClure and asked to have Isabella returned to the mother. Mrs. Downey had a letter from Mrs. Dr. Kimball of East Second street, manager of the Home, desiring that the child should be placed in its mother's charge. The latter was appeared well satisfied with her new home and cried piteously when taken away. She strenuously objected to going with Mrs. Downey but was finally prevailed upon to accompany her. Judge Ulrich did not interfere in the matter. He said that in placing the child to the Home he did what he believed to be the best thing and his duty, and he had no further jurisdiction in the premises.

PERSONAL.

Mrs. James Lancey of Putnam avenue, is about to depart for Ireland for a three months visit at Limavady.

Rev. Cornelius Schenck, the new pastor, will occupy the pulpit of the Trinity Reformed Church to-morrow.

Young Shunk, who graduated recently at West Point at the head of his class, was a Plainfielder who formerly resided on Putnam avenue.

Thomas B. Brown, who was examined yesterday in New York in the trial of Jacob Sharp, the boodler, is a Plainfielder, and one of the consistory of Trinity Reformed church.

At the services to-morrow in the Park Avenue church, the pastor Rev. Asa R. Dilts, will preach at 10.30 a. m., and 7.30 p. m. Morning text "Knowledge puffeth up, but charity edifieth."

Mr. N. P. T. Finch, of this city, expects to entertain the Hon. Henry W. Grady, editor of the Atlantic Constitution, at his house in a few days. Mr. Finch owns stock in that paper and recently came to Plainfield.

Rev. J. H. Hector a colored Methodist preacher of Washington city, will speak at Reform Hall to-morrow evening. He spoke in the hall about two months ago and his bright, witty remarks then attracted much attention.

Mr. and Mrs. Chas. Roesp and children will leave Chicago on June 30th for Plainfield. Mr. Roesp holds a lucrative position as Superintendent of Accounts in the United States Rolling Stock Company of Hegewisch, Ill. Mrs. Roesp will spend the summer east.

Robert Binning, the dynamo engineer at the electric light plant, is becoming very popular among persons who visit the place of his jurisdiction. He is very willing to explain the workings of the machinery. Mr. Binning was formerly the engineer at the Scott Press Works.

The funeral of the late Bernard Kelley of West Fourth street, who died yesterday morning at the Muhlenberg Hospital from the effects of injuries received by being kicked with a horse on Sunday last, will take place from St. Mary's church to-morrow at at two p. m. Interment will be made in St. Mary's cemetery. This morning at nine o'clock High Mass was celebrated.

A number of Plainfield's citizens will to-morrow afternoon attend a special meeting of the National Temperance Society in Chickering Hall, Fifth avenue and Eighteenth street, New York, at two o'clock, to be addressed by the eloquent orator, Canon Wilber Force of Southampton, England. This will be his last address on temperance before starting for England on the 22nd. Rev. Dr. De Witt Talmage will preside at the meeting.

Julian Hawthorne has kindly consented to give a lecture in aid of All Saints Episcopal church, Scotch Plains, on Thursday evening, June 23d, at Seminary Hall, corner of Park avenue and Seventh street. The subject "Writing Novels," is one that can hardly fail to prove interesting in the hands of one who is not only the writer of novels himself, but also the son of one who was in the opinion of many the greatest novelist America has ever produced.

Charles H. Schermerhorn, son of Manager Schermerhorn of the Western Union Telegraph Co.'s office in this city, who is employed by S. R. Bullock & Co. on their water works at Vicksburg, Miss., has written a letter home stating that the weather is no warmer there than here. They are looking for better weather, and upon the first symptoms he and the others are to return home. He is to be the guest next week of the nephew of Jeff. Davis, the nephew residing about ten miles outside of Vicksburg.

At the residence of the bride's father, James F. Smith, on Elm street, at half-past nine o'clock Wednesday evening, Miss Ella M. Smith and C. Wells Craig of Newark, were united in marriage by the Rev. Dr. Yerkes. The ceremony was private, only the family and one or two friends being present. The bride was dressed in cream white albatross, handsomely trimmed with Spanish lace. The groom wore a neat suit of black. Their wedding trip will include Philadelphia, Washington and Baltimore. The happy couple before starting on their trip attended the wedding of the bride's brother, which took place the following afternoon at three o'clock when Ferdinand O. Smith and Miss Etta Allen, daughter of Gideon Allen, of Grandview avenue were married at the residence of her parents in the presence of a large circle of relatives and friends. The bride was attired in peacock-blue satin. Howard Allen and William Smith acted as best men. The presents were numerous and costly. Mr. and Mrs. Smith's trip will include New Haven, Hartford and Boston. They were accompanied as far as Elizabeth by Mr. and Mrs. Craig. Upon their return they will reside in Plainfield. Mr. and Mrs. Craig will reside in Newark.

Miss Gray, of England the World's Secretary of the Women's Christian Temperance Union, is the guest of Mrs. A. A. Hyatt, for the week. Last night a number of friend's gathered at Mr. Powell's residence by special invitation to greet the lady and listen to her interesting descriptions of the work going on abroad. She told of her visit to Zurich in Switzerland, Antwerp in Holland, and wherever she went, she said, in each the Catholic churches were also becoming very much interested in the work. Her account of the manner in which liquor dealers in some parts of Switzerland often secured control of whole villages was particulary interesting. The dealers, she said, did not take pay for the liquor at the time, it was sold to the customers, but they would keep on supplying it until their bills amounted to about as much as their properties were worth. The bills were then presented, duly signed and sealed and the liquor dealers had all the property. Miss Gray said that things are now being changed and the people are learning that temperance pays best. Those countries are much behind England and America. In this matter, but are now progressing rapidly. Miss Gray has been in this country about a month, and came to Plainfield on Friday. She will shortly return to her home.

WHAT PEOPLE SAY.

DRIVEN WELL PATENT.

Mr. Nelson Claims He has the Right to Collect Royalties.

EDITOR EVENING NEWS:—Your issue of last evening would seem to cast a cloud over my clondless right to collect royalties on driven wells in the city of Plainfield. It would seem to me in this free country that when a man pays for a thing it belongs to him. In consideration of this city known Theodore Vail and his reputation for honesty and integrity. As he was the administrator of Abram Sebring, deceased, and this patent right was for sale, he came to me and I purchased the same of him, after his trying to sell it for over two years and could not, for the sum of $100. A deed of assignment was drawn by Suydam & Jackson and executed by Theodore Vail and delivered to me, for which right I paid Theodore Vail. The said Vail accounted with the Orphans Court of the County of Union for the said $100, after legally publishing for any objections to his account, and paid to the heirs of Abram Sebring the $100, being the proceed of said patent right, and he was discharged by said court. Archibald C. Molleson, the administrator of Abram M. Sebring, senior, the father of Abram Sebring, never made any claim whatever for the patent right, and settled his account with the Orphans Court of the County of Union. In the year 1879 I began three suits in the United States Court for the District of New Jersey against J. H. Made, Jeremiah Whiting, Isaac Mathews, Charles P. Sebring, Lemuel E. Hart and Isaiah L. McVoy, and in said suit the defendants maintained that I had no lawful right to said letters patent, but that the right belonged to Charles P. Sebring, the son of William H. Sebring, deceased, and that Charles P. Sebring derived his right by gift from his father, that the most important and only material question in issue in said causes was, my right to said patent right, and Judge Nixon, after hearing the pleadings, proofs and arguments of counsel solemnly adjudged and determined that I had the interest and title in said patent for the Township of Plainfield, and an injunction was issued restraining all of the defendants from using, driving, or selling any driven wells. After these suits, Archibald C. Molleson, was induced after he had received his account, to file a bill in the Court of Chancery of this State, Aug. 9, 1879, to settle the same question which the United States Supreme Court had just previously decided viz.: the ownership of this patent right, to which I filed my answer together with Theodore Vail, as administrator, when Charles P. Sebring was examined before J. B. Coward, Master in Chancery for one half day in 1879, and since then nothing has been done, virtually abandoning the suit, and now at this late day to come in and claim title to the right seems to me to be unreasonable and folly, as I object to collect royalties on the same in the city of Plainfield, since Nov. 27, 1869, not driven by me. W. J. NELSON.

Dated, June 16th, 1887.

The statements above, so far as they refer to my acts, are true.

THEODORE VAIL.

New Parish at Netherwood.

EDITOR EVENING NEWS: Netherwood, a charming suburb of Plainfield, possessing a unique and graceful little chapel which nestles in the most picturesque manner on a fascinating hillside, is in a fair way to be favored with services of a regular kind, all its own.

Formal application has been made to the Rt. Rev. John Scarborough, D.D., Bishop of the Diocese of New Jersey, by the leading citizens of the place, for authority to form a parish, and judging from the great success of the lay services that have been held there during the winter and spring, there would seem to be no doubt about the request being granted, especially as it appears that the congregation and Sunday school have been highly prosperous, both spiritually and materially. The average attendance at the services have run 75, and that contributions sufficient to support a parish. The chapel is supplied with all the requirements of a prosperous parish, and the good people of Netherwood are commendably enthusiastic and hopeful over the prospects. The Bishop will be present at the coming trip will include Philadelphia, Washington and Baltimore. The happy couple before starting on their trip attended the wedding of the bride's brother, which took place the following afternoon at three o'clock when Ferdinand O. Smith and Miss Etta Allen, daughter of Gideon Allen, of Grandview avenue were married at the residence of her parents in the presence of a large circle of relatives and friends. The bride was attired in peacock-blue satin. Howard Allen and William Smith acted as best men. The presents were numerous and costly. Mr. and Mrs. Smith's trip will include New Haven, Hartford and Boston. They were accompanied as far as Elizabeth by Mr. and Mrs. Craig. Upon their return they will reside in Plainfield. Mr. and Mrs. Craig will reside in Newark.

The Pond Machine Company.

It is stated, on the authority of one of the most eminent chemists in the United States, that the decisive influence which induced the Pond people to move their vast establishment to Plainfield was the purity of the water here. The water taken for a test was that found 70 feet below the surface, and which so many of the residents of Plainfield use for house purposes, by means of artesian wells. The Electric Light Company has been using it. Analysis revealed the fact that this water is almost absolutely pure—colorless, tasteless, and so free from foreign matter of all kinds that no perceptible sediment can be detected, even after the water has been standing for a long time. Hence the analysis of the chemist, the life of boilers, etc., inasmuch as it furnishes none, very little, of the incrustation that causes so much trouble and expense all incrustation. It is said that in this one respect alone the Pond people calculate to derive an immense advantage. The company do not intend to employ any Plainfield mechanics from other shops, so as not to interfere on principle in the help of other establishments. They have not yet secured the cross section survey of the land, which will be under way. The plans of the buildings are all ready, but the survey is necessary to determine their exact location.

Messrs. Pond have purchased of Westinghouse, Ker & Co., owners of the electric light company of this city, 6,000 light machines, to light up the new factory of the Pond Company to be erected here. The machine will be manufactured here and be ready as soon as the works are ready for it.

Danellen's New Hotel.

On Wednesday night Mr. Jos. Maier opened the New Park Hotel at Dunellen. Supper was partaken of by about 250 guests, while 50 couple indulged in the merry dance. People were present from all the surrounding towns. Plainfield was represented by Messrs. Harry Werner, James Skelley, W. Bachman, Jos. Beaty, Jacob Blein and Chas. Smith, and New Brunswick by Messrs. Phillips, Bell and Skinner. Mr. John C. Porter and a number of others were present from New York. The house is handsome and commodious and it is said will be an advantage to the place.

AN INTERESTING LETTER.

A Plainfielder Among Rocks of New England.

EDITOR EVENING NEWS:—It does an old boy good to skip out of home and his State for a while and the many contrast other towns and States with his own. Having got cleaned up, house, garden, yard, etc., we concluded to take in a few days in New England, along the shore, dodging inland now and then. We left the first day of June, taking a steamer on the Stonington line from New York to Stonington, Conn., and thence by rail, private conveyance, etc. It was an awful foggy night down the Sound, making it necessary for all crafts to keep up a toot all night with fog horns, lest they run into each other. It made a sleepless night for many; but we having accustomed ourself to such locomotive sounds, thinking that to borrow trouble was to distrust Providence, and we were safely landed at old Stonington, which is of revolutionary memory. Two old cannon and a few balls are to be seen on a point between two streets to remind the visitors of the last engagement with the British and the cost of our liberties But we pass on and cross Pochatuck river and find ourself in Westerly, R. I., the town of our birth, near three score years ago. We, by private conveyance, are taken to Hopkinton, near Potter's Hill, where the Western R. I. Baptist Association held its fifty-first anniversary in the First Hopkinton Church. This church was one of the very first Baptist churches in that denomination, it being organized in 1708. A rather pleasant session was had, and many old and long friends met, as descendants of old stock that formerly emigrated from this church; my father having emigrated Western New York in 1819, when your correspondent was a child. Meeting over we pushed out to the Rocky mountains in size, but Rhode Island is wonderfully adapted to the manufacturing business, its streams being hemmed in between little hills and rocks where dams are easily constructed so that factories are put in on some streams nearly as thickly as bugs in a potato patch. The soil is unusually poor, where there is any, and the rocks are numerous, so that the state could eat all the grain raised in it; yet the people live well and make money, and are as happy as people in other states. Some of their stone quarries are wonderful, and their granite is worked and shipped to all parts of the world, the returns bringing much wealth into the state.

The rockiness of the state is such that many a lot is left to grow up to wood, so that account. It has been said of the farmers, "that they busted themselves during the winter months in drawing their season's wood, and drilling rocks preparatory to setting their bean poles in the spring, as the setting was a slow job for a stiffled stone hand."

As we were riding through the country with a minister who was in the state for the first time, he, looking out at a distance upon a pasture field covered with white rocks and boulders very thickly scattered, said: "There is a wonderfully large flock of sheep over there." When told that they were rocks he was astonished, and, on further inquiry, for many a pasture is so thickly covered with rocks that one can travel over whole acres without stepping on the ground. The writer once said that a western man came to Rhode Island to visit his brother, and found him attending his sheep out to pasture, by taking each sheep by the legs and letting him down between the rocks to secure a few shares of grass." Men cultivate much land that is very rocky, and when they can get soil enough to cover the seed, by the use of new wood, lousy fish and manure, get good crops. The mowing is small, and it used to be said "that when ministers have to work and live on $400 a year they used to come sometimes in plowing here. Thus the origin of the story, when perplexed, "it is enough to make a minister swear." But it was doubtless fortunate that the pilgrims landed among the rocks of Plymouth in New England; for had they landed on the rich prairies of our continent they might have lived easy and become indolent, and reared up a lazy nation, and quite likely New England would not have been settled. But as it was, the settler had to be industrious or starve, which made them vigorous healthy, brave and inventive, making a lardy race to spread out and settle our land with honest and upright people, and that accounts largely for our success as a prosperous and free and independent nation. PLAINFIELDER.

WESTFIELD.

A young heir has come to bless the home of Mr. H. Ropp, of Jerusalem Road.

Our popular young drug clerk, John Doroall, started this morning for a ten days' outing at Spring Lake.

The funeral of Mrs. L. Munday will take place next Sunday afternoon at the Baptist Church at 2 o'clock.

Thomas G. Miller, of Baltimore, Md., is spending a few days with his family at the old homestead on Central avenue.

Beginning with next Monday Temperance Hall will be open every evening for a few weeks. The tables will be supplied with games and reading matter and all young men are invited.

Dr. Chas. A. Kinch, of New York, is in town with his family visiting the old home, and with his children make his house frog with laughter in the great joy of old grandpa, Dr. F. A. Kinch.

The Westfield robbers again made their appearance on last Tuesday night at the Lyon's Farm, near Elizabeth. The farm is rented by Mr. Blinn, an Elizabeth milkman. He had been collecting that day, and as it was after banking hours he took the money home with him. The robbers entered his room and took a gold watch and chain, $300 in money and all of Mr. Blinn's clothes. He was asleep in the room at the time and did not hear the burglars. They are supposed to be the same parties who entered Maplewood a short time ago, as one of them, who was seen, had on Mr. Chamberlain's coat. The plans of the robbers were the same as those adopted in the other robberies, and in a few days they will doubtless be lodged in jail. Mr. Chamberlain found all the clothes taken from "Maplewood" in a Grand street pawn office, and he deserves great credit and the thanks of all the citizens for the manner in which he has run them down.

SCOTCH PLAINS.

The M. E. Sunday school will hold their children's day service in the church at 7.30 p. m. to-morrow. An address will be delivered by the pastor Rev. R. F. Fowler, subject, "Children's Day in Japan."

The strawberry and ice cream festival held by the ladies of the M. E. church was a complete success, a good round sum was realized. A pleasing feature of the evening was the "tin dipper race."

—The Warren Mission Sunday School have fixed the date of their excursion to Ocean Grove. It will occur July 20th.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Peddle's drug store, corner of Front street and Park avenue.

1887			1887	
6 a. m.	55	61	Sun rises	4 28
2 a. m.	69	68	Sun sets	7 33
12 m	77	80	Sun rises	4 28
3 p. m.	78	80	Moon sets	1 42

Weather indications.

For Sunday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, warmer, fair weather, with southerly winds, followed by local rains.

To go After Strumback.

RAHWAY, June 18.—Mayor Daly has made a request of Prosecutor Wilson, of Union county, that he take steps to bring to Elizabeth, Caspar Strumback, who has declared he committed the Rahway murder. In pursuance of this the Prosecutor issued an order directing Chief John Keron to proceed to Illinois and if he is convinced by an examination of the evidence that he has cold enough to get a requisition from the Governor of the State to bring him on. Keron started for Joliet, Ill., to-day. The expenses of bringing Strumback East will be about $200.

The above is published to the effect that Strumback is an imposter and that the Rahway men place no confidence in his story are incorrect. On the contrary the detectives have evidence closely connecting him with the murder of the unknown girl, who was found by the Lehigh last March. They have been working for some time on this evidence, but could not find a trace of Strumback, until he disclosed himself. Since then they have been able to verify much of his confession by people he mentions in Rahway.

She Killed Herself.

NEW YORK, June 18.—Domestic infelicity is the cause assigned for the suicide of Mrs. Pearl Lacy, who shot herself at about two o'clock this morning. Mrs. Lacy, who is a bruneted of twenty-three years, came from Newark, Ohio, on the 1st of this month, and met her intended husband, Edward Lacey, a bartender, by appointment in Newark, N. J., where they were joined in marriage by a local preacher. After a short honeymoon the young couple engaged a furnished room on the first floor of No. 48 S. Washington square, where the shooting occurred. The woman left a note addressed to her husband, because she could not spend every moment of her time in her husband's company.

Boy Shot for Stealing Cherries.

ORANGE, June 18.—William Bolen, aged nineteen years, son of Martin Bolen, was stealing cherries last night in the yard of a house on the valley road, near the Mountain House. Mrs. Martin Bolen gave him a switch. Charles Smith, an umbrella pedlar, who rents the place, came out with a gun, and as Bolen started to run, fired, and shot him. He charged a load of buck shot at him. The shot entered Bolen's right shoulder, neck and face, destroying the right eye entirely and nearly destroying the other. The young man is in a critical condition in the hospital, and Smith, who gave himself up to the South Orange authorities, is held to await the result of his injuries.

Broker Kirkner's bad Messenger.

The New York Sun of yesterday contained the following concerning the Hon. Jacob Kirkner of this city, the popular president of our Board of Education:

Daniel J. Dowling, runner for Jacob Kirkner, one of the moguls among room traders of the Stock Exchange, has disappeared with the proceeds of the sale of shares of Reading stock, and Mr. Kirkner and Dowling's young wife and child are trying to find him. Dowling has run around Wall street with Mr. Kirkner's securities for a number of years, and has been intrusted with millions of money. On Tuesday a batch of securities was given him to be taken to L. von Hoffman & Co., the bankers. Instead of doing so, Mr. Kirkner's cashier gave Dowling the usual memorandum of the character and numbers of the securities. The memorandum was not handed to L. von Hoffman & Co., but one was substituted for it which left out the Reading stock.

It is alleged that Dowling sold the Reading to A. M. Whitlock, Jr., of the Consolidated Stock and Petroleum Exchange, for $2,565, and instructed Mr. Whitlock to buy for him 2,000 shares of Holyoke mining stock. Mr. Whitney did the business in good faith. He paid it cents for the mining stock. Dowling at last accounts had the mining stock and a balance of $200.

By day the laws of Wall street Mr. Kirkner will receive back his Reading and Mr. Whitlock is the loser. Dowling lived in Broad street with his family.

Safe Agents Fall Out.

There was a lively time on North avenue yesterday afternoon, and for an hour and a half the residents thereof were highly entertained by the lively quarrel between agents of safe companies. One represented the Cincinnati Safe and Lock Co. and the other the Delabol Safe Co., and enough surplus wind was exhausted to sail two ships. Each man's safe is said by the other parties, and mentioned incidentally that he had opened every safe the company in this city ever had. Mr. Moore ran afoul of each other in Barkalew & Dunn's store and then the circus commenced. Said the Cincinnati agent: "Everywhere you go my name is Col. 'Bob' Kewin, of Newark, and I have sold safes so long that I can smell an agent a mile off. Every time you see me run I won't allow any blatherskite to run down my safes." Then the air grew almost blue with sulphurous language, and it was time for around so thick and fast that they seemed like one continuous word. They danced like Comanches about their fire, and finally, threatened and swore while a crowd gathered to enjoy the circus. Then they got out on the street where their language could have a larger scope and get more ventilation. Bets flew thick and fast, but there seemed to be no takers on either side. The battle was renewed a second time, and the last scene occupied the entrance of the Barkalew & Dunn's storekeepers declare they would not have missed the fun for a room full of safes.

NOTICE—The Plainfield Gas Light Co. would call the attention of gas consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the gas stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office, cor. Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL Rates *will be made for Gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be* RENTED *at Moderate Rates.*

SPORTING MATTERS.

The Record of Baseball Games and Turf Events.

Yesterday's ball games: At Boston—New York, 6; Boston, 1. At Philadelphia—Washington, 15; Philadelphia, 5. At Indianapolis—Pittsburg, 9; Indianapolis, 4. At Chicago—Detroit, 14; Chicago, 10. At Baltimore—St. Louis, 7; Baltimore, 3. At Philadelphia—Athletic, 8; Cleveland, 2. At Utica and Oneida, 8; Utica Reserves, 7. At Trenton—Cuban Giants, 6; Utica, 1. At Hamilton, Ont.—Hamilton, 12; Binghamton, 9. At New Haven—New Haven, 7; Bridgeport, 3. At New Haven—New Haven, 14; Bridgeport, 3. At Danbury—Waterbury, 8; Danbury, 7. At Bradford—Williamsport, 9; Bradford, 8 (ten innings). At Johnstown—Altoona, 18; Johnstown, 2.

NEW YORK, June 18.—Yesterday was the last day at the Brooklyn Jockey club race track. The sport was fine. There were five furlongs; Mona first, Harry Russell second, Red Buck third; time, 1:01. Second race, one mile; Fitzroy first, Stayvesant second, Oneko third; time, 1:46½. Third race, mile and a sixteenth; Swift first, Dry Monopole second, Favor third; time, 1:56. Fourth race, one and one-eighth mile; Adrian first, Markham second, Nicklas third; time, 2:02. Fifth race, half a mile; Fordham first, Vance second, Recluse third; time, 51½. Sixth race, three quarters of a mile; Miller first, Tipsy second, Commander third; time, 1:17¾.

HARTFORD, Conn., June 18.—The races at Charter Oak Park were continued yesterday. The first race, mile heats, best in five; first, Orange Bud second, White Socks third; time, 2:27½. Second race, 2:34 class; Dan first, Compeer second, Stalotta third; time, 2:26¾.

Marine Intelligence.

NEW YORK, June 18.—Arrived, steamers Saale, Bremen and Southampton; Wieland, Hamburg and Havre; Richmond Hill, Southampton; Ottawa, London; Wyoming, Wieland, Antwerp; Rio Grande, Norfolk; Manhattan, Havana; Nacoochee, Savannah; Amos C. Barstow, Providence; Devonshire, Natal; Providence, Boston; Delaware, Philadelphia; Princessona, Portland; Portia, Halifax; Dalbeattie Progress, Barnes Arthur C. Wade, Saguin; Mathias, Amsterdam. Arrived out, steamers Adriatic, Liverpool; New York, Southampton; Erin, from New York for London, off Dover; Nevada, from New York, at Queenstown.

The Ore Handlers Successful.

CLEVELAND, O., June 18.—The strike of the ore handlers is virtually ended. The Cleveland and Pittsburg Railroad company's men have returned to work. The men demanded by them, and the New York, Pennsylvania and Ohio company, through its contractor, Elijah Smith, has offered the same wages.

The Cyclone in Minnesota.

CROOKSTON, Minn., June 18.—A cyclone passed near here last night, doing great damage to buildings, trees, telegraph lines, etc. Near Fisher's Mrs. Falonski and a 12-year-old son and Mr. Henderson and wife were killed by falling buildings. Seven others were severely injured.

Shot in His Room by a Burglar.

POTTSTOWN, Pa., June 18.—Morris B. Reynier, engaged in the grocery and produce business at Linfield, Pa., was shot in the groin and fatally wounded in his bed early yesterday morning by a burglar whom he discovered in his bedroom, and whom he was trying to intercept.

To Establish a Colony.

SAN FRANCISCO, June 18.—A deal was consummated yesterday afternoon by which Guy Webber, of Cincinnati, representing an eastern syndicate, purchased $2,000,000 worth of land in Sonora, Mexico. The object, it is said, is to establish an American colony.

Dr. Cooke Locked Up in Newark.

NEWARK, June 18.—Dr. Frank V. Cooke, the alleged swindler and bigamist, was brought to Newark yesterday afternoon and locked up in the county jail. He spent the past week in a cell in Jefferson market prison in New York.

Marauders Invade Servia.

VIENNA, June 18.—A body of Albanian marauders invaded the village of Dobinovac, Servia, plundered many houses and killed a number of the villagers who resisted them.

TRADE BULLETIN.

New York Money and Produce Market

NEW YORK, June 17.—MONEY closed at 6 per cent., the highest rate for the day. The lowest was 4½, and the average was 5 per cent. Prime rates, $4.84½@4.86; actual rates, $4.83½@4.84 for sixty days and $4.86@4.86¾ for demand. Government bonds firm; currency, 1½s, 100¼ bid; 4s, coup., 125¾ bid; 4½s, do., 108¾ bid.

The stock market continued dull throughout the afternoon. Prices were not so strong sustained, however, and at the close a majority of the list were decidedly lower than they closed last night. There was nothing in connection with the afternoon dealing worthy of note. St. Paul and Philadelphia & Reading, Lake Shore and Western were the only strong stocks. The former closed 3¼ per cent. higher and the latter 1¼ per cent.

General Markets.

NEW YORK, June 17.—FLOUR—Closed dull; winter wheat extra, $3.30@3.70; Minnesota extra, $3.30@3.70; city mills extra, $3.50@4.80; Ohio extra, $3.80@5.00. Southern flour steady but quiet; common to choice extra, $3.80@5.25.

WHEAT—Spot lots were dull but irregular, prices fluctuated frequently, but the changes were slight. The market closed weak at 84@84¾, decline. Sept. closed weak at 84½@84¾. Spot sales of No. 1 red State at 86@86¾c.; No. 2 do., 83c.; No. 2 red winter, 86½c.; No. 3 do., 80c.; and unsettled. No. 2 red, June, 83½@84c.; do., June, 83¾c.; do., July, 85¾c. bid; do., Aug., 87c. bid.

CORN—Options were fairly active and irregular, closing weak at ½@¾c. decline. Spot lots closed firm. Sept. 44@44½c. higher. Spot sales of No. 2 mixed at 47c., and ungraded mixed at 47@47½c.; No. 3 mixed, July, 46¾c.; do., Aug., 47¾c. bid; do., Sept., 48c. bid; No. 2 do., 48c. bid.

OATS—Options were dull, but firm, and closed at about last night's prices. Spot lots closed dull, but steady and unchanged. Spot sales of No. 1 white State at 38c.; No. 2 do., 37½c.; No. 2 mixed, July, 33½c.; do., Aug., 31c.

RYE—Dull; State at 54½@56c.; State, 61@63c.

BARLEY—Nominal.

PORK—Dull; old mess at $14.75; new do., $15@15.50.

LARD—Quiet and depressed; cash, $8.77½; July, $8.90; Aug., $9.02½.

BUTTER—Dull and weak; State at 13@20c.; western, 10@18c.

CHEESE—Dull; State at 8½@9¼c.; western, 7½@9c.

EGGS—Steady; State at 16½c.; western, 15½@16c.

SUGAR—Raw dull and unchanged; refined firm; cut loaf and crushed at 6¾c.; cubes, 6 13-16c.; powdered, 6 5-16c.; granulated, 6¼c.; coarse do., 6¼c.; confectioners' A, 5¾c.; coffee A, mod. A, 5¾c.; confectioners' A, 5¾c.; coffee A, 5 5-16@5 3-16c.; white extra C, 5 1-16@5 1-16c.; extra C, 4¾@4¾c.; yellow, 4¼@4¾c.

QUEER MISS HOYT.

SHE IS ARRESTED FOR AN ASSAULT UPON HER SERVANT.

She Wanted a Railroad Conductor to Put on a Special Car for Her Accommodation—Tearing Up the Commitment Papers.

NEW YORK, June 18.—Mary Irene Hoyt, the daughter of Millionaire Jesse B. Hoyt, whose will she is now disputing, has again distinguished herself, this time in Englewood, N. J., having assaulted her cook, a negro girl named Kelly, and a constable who attempted to arrest her, and was finally lodged in jail early last evening in Hackensack, having been committed for the Grand Jury in $1,000 bail. She was released next midnight, friends in Englewood coming to her relief.

One month ago Miss Hoyt engaged a neat cottage in Englewood. No attention was paid to her by the neighbors until Thursday night, when she roundly abused the conductor of the 6:42 train, whom she ordered to put on a special train for her accommodation, and subsequently threw her cook out of the house.

On Tuesday last Miss Hoyt began her series of exciting episodes. Accompanied by her cook, Ann Tierney, who has been in her employ four months, she came to this city. What followed is best told in her servant's own words.

"We went to Miss Hoyt's house, No. 454 Lexington avenue, on Wednesday. Miss Hoyt gave me a letter which she said was an advertisement in The World for servant girls. The girls came the next day and she stood on the middle of the stairs and asked each girl her name and age. As she saw I was a good girl, and asked them if they had not been inmates of a disreputable house. She had been drinking heavily. On Monday night in the morning she sent me out for a bottle of brandy, and on Wednesday I bought another bottle of brandy in New York. She drank all of it herself. She remained in bed in New York house all day Wednesday. She finally engaged a laundress and we started home on the 6:42 train for Englewood. When the conductor came along she commenced to swear at him and call him names, because he said he could not get a special car for her. When we got out at the depot at Englewood Miss Hoyt took some of the bundles and started to walk home. On the way up she kept dropping the books and talked so wildly that a crowd of boys followed us to the house. I then told Miss Hoyt that her conduct was disgraceful. She ordered me to leave the house and never come into it again. I told her it was too late; that I couldn't go out at that hour. She then grabbed hold of me, knocked off my hat, my jacket tore my dress, and threw me out of the front hallway, where we were standing.

"I was afraid the woman was crazy and I ran for a policeman. I met Officer Townsend, who accompanied me back to the house. When the officer got there Miss Hoyt seized the Bible and swore an awful oath that she never would go. He struck her, however, and all the way down she tried to get at me, and once when the officer tried to protect me she struck him in the face."

Policeman Townsend corroborated all of the servants' statements. The prisoner was turned over to Colonel Jamieson, the president of the Englewood police board, who, when who accompanied her to the Grand Union hotel, this city, where he housed his charge safely for the night. Yesterday Miss Hoyt was taken to Englewood and was arraigned before Justice Dutton on the charge of assault and battery preferred by her servant. When Miss Hoyt heard the charge she seemed to have all control of her temper, and seizing the commitment papers, which lay on the justice's desk, tore them to pieces. She reviled the justice, her servant and the constables. Justice Dutton held the heiress to millions in $1,000 bail for the grand jury. She was removed to the Hackensack jail.

Miss Hoyt arrived at Hackensack at 8 o'clock. She appeared to be quite overcome with excitement and sobbed bitterly as the officer led her into the jail.

"Oh, spare me, spare me this," she sobbed; "do not lock me up; pray let me go. Oh, horrors, a prison!"

Sheriff Brinckerhoff assured Miss Hoyt that she must remain quiet and that she need have no fears. She was then escorted into the warden's department, where she almost fell on the floor, and he thought that the services of a physician would be necessary to quiet her. The sheriff absolutely refused to allow anybody to see her.

Last night Judge Skinner refused Miss Hoyt's bail from $1,000 to $250, and Christopher Russell, a livery stable keeper of Englewood, became her bondsman. He then drove her to her home in his own light wagon. Miss Hoyt positively refused to see reporters.

The World's Big Balloon.

ST. LOUIS, June 18.—At 4:30 o'clock yesterday afternoon the immense World-Post-Dispatch balloon swung from its moorings and started on its voyage east. In the basket were Albert Bond Lambert, of the closed States signal service; A. E. Moore, aeronaut and builder of the balloon; J. G. Doughty, photographer, and Edward Duffy, a World reporter. This voyage is for the purpose of the signal service, and to enable them to foretell the future state of the weather from the effects of the currents of air in the upper atmosphere upon the weather in the lower. The balloon is the largest ever built, being 150 feet high and 70 feet in diameter, giving ample space for four occupants and all the scientific apparatus and actual necessities.

Three Chicago Fires.

CHICAGO, June 18.—Yesterday afternoon an extensive fire occurred in the lumber district. The fire originated in the rear of the Chicago Lumber company's planing mill which was totally destroyed, involving a loss of $30,000. The flames spread to the yard of Wallace Bros., and from there to the yard of Stratton & Co., with a damage of $8,000. The lumber yard of J. H. Pearson & Co. was also damaged to the extent of about $10,000. All the above property was well insured. The Chicago Iron foundry, on Canal street, near Judd, was entirely gutted by fire last evening. Loss $100,000; insurance, $75,000. Two hundred hands are thrown out of employment. During the progress of the fire a sidewalk containing a number of spectators gave way, injuring six.

Remembering Brattleboro's Heroes.

BRATTLEBORO, Vt., June 18.—A costly granite and bronze monument was dedicated by the citizens yesterday in memory of Brattleboro's dead in the late war. Governor Ormsbee and ex-Governor Holbrook took part, with many distinguished visitors, in the ceremonies. Colonel Palmer, of Weybridge, delivered an address. Resolutions denouncing any attempt to return the Confederate flags were adopted by the military organizations present.

The McGlynn Demonstration.

NEW YORK, June 18.—Mr. McCabe, grand marshal of to-night's parade, announces that Dr. McGlynn will review the procession and speak. Henry George and Judge McGuire, of San Francisco, will also speak.

THE ROBBERS CAPTURED.

The Death of Anker Momentarily Expected and Lynching Threatened.

HUNTINGDON, Pa., June 18.—Armed men and bloodhounds have been scouring the woods all day for the robbers who invaded the homestead of the aged Hawn brothers, and last evening succeeded in tracing the thieves to the cabin of one Jack McKelvey, both of Mapleton, and John Galbraith, of Mount Union—who fled from the woods and returned to their homes, where they were captured last night. Galbraith, the wounded robber, who fatally wounded young George Anker and was himself shot in the eye by his victim, was traced by a trail of blood leading to his home, three miles distant. He has confessed to the shooting and has revealed the name of the third accomplice.

Galbraith's eye is shot out, the ball lodging at the base of his brain. Jack McKelvey, the other captured robber, has also confessed, and as the death of their victim, George Anker, is momentarily expected, strong threats are being made of lynching them. The robbery was planned last Sunday at the house of McKelvey, who has also confessed to having planned the robbery of the Hawns four years ago. In that case the old brothers were so severely beaten that they died afterward. Since that robbery the Hawn brothers transferred their immense wealth to a local bank, fearing another assault.

A NEGRO LYNCHED.

The Mob Battered Down the Jail Door to Get at Their Victim.

LEONARDTOWN, Md., June 18.—This village is excited over the lynching early yesterday morning of a negro named Henry Cross. Hance last month made an unsuccessful attempt to outrage the 18-year-old daughter of Mr. R. Bailey, residing near St. Clements Bay. The negro was frightened off by the girl's screams. Later he was captured and on May 27 was locked up in the Leonardtown jail. At 2 a. m. Jailor Clements was aroused by a knock at the door. He opened the window and saw twenty-five men below. They asked for the keys, and being refused battered in the heavy iron door, when they decapied an hour and a half. The negro Hance was then sought, carried near what is known as the Plank bridge, where he was strung up to a convenient and sturdy oak. His body was found dangling there yesterday morning.

EDITOR O'BRIEN.

An Enthusiastic Reception Tendered Him in Cork.

CORK, June 18.—The city of Cork gave a grand reception to Mr. William O'Brien last evening, when he was, amid the greatest enthusiasm, presented with the freedom of the city. Replying to an address, Mr. O'Brien said that the greatest danger he had experienced while in Canada was not at the hands of the Orangemen, but from the impetuosity of his friends, which kept him in constant fear that something would occur to prejudice the success of the Irish cause and Mr. Gladstone. In expressing gratification at the treatment he had everywhere received in America, Mr. O'Brien said that as long as he remained in Canada he was not at the hands of the Orangemen, but from the imthe Irish beyond the Atlantic would extend their practical sympathy to the cause.

Minister McLane's Demand.

PARIS, June 18.—**United States Minister McLane Demands the Release of Sallière.**—Minister of foreign affairs, the release of Baron Raymond Sallière, who was recently placed 'n confinement in an asylum for the insane. Mr. McLane based his demand upon proofs which he submitted that Sallière in 1866 had formally declared at New York his intention of becoming a naturalized American citizen, and subsequently did so. The minister also gave Sallière the right to exact of foreign governments treatment similar to that enjoyed by a person whose American citizenship was established. The question of Sallière's release will be considered by the cabinet council at its next meeting.

New York's Convicts.

AUBURN, June 18.—Superintendent of State Prisons Lathrop arrived in this city yesterday and immediately proceeded to the office of the superintendent of the state prison. Several hours were spent in examining the agent's accounts. While at the prison the superintendent visited several of the shops, among them Jones & Merwin's hollow-ware shop, whose plant he is negotiating to purchase for the state. To a United Press reporter he stated that he was developing a plan to employ all the convicts in the state. He also stated that 300 convicts would be transferred soon from Sing Sing to Clinton.

Praying for Peace.

WASHINGTON, June 18.—A man with a gray beard, wearing the uniform of the Grand Army, walked up to the south entrance, directly under the window where the president was sitting, and began reading extracts from Gen. Fairchild's Confederate flag speech in New York in a loud voice. Then he knelt down, and spreading a small American flag on the ground in front of him, he uttered a fervent prayer for the preservation of the Union, and that God would direct the president's mind so that the country might be saved from bloodshed. At the conclusion of the prayer he arose and walked out of the grounds.

Connecticut Soldiers' Monument.

NEW HAVEN, June 18.—The monument erected in memory of the Union soldiers and sailors of the late war from old residents of East Rock park yesterday with impressive ceremonies. The exercises included an opening address by Postmaster Timothy Dwight, of Yale, who presided; invocation by the Rev. Dr. Harwood, rector of Trinity church; an oration by the Rev. Dr. Newman Smyth, pastor of the Center church; short addresses from Gen. Samuel E. Merwin, Town Agent Reynolds and Mayor York. National airs were sung by the memorial guard and a large chorus.

A Sad Case of Suicide.

BATAVIA, N. Y., June 18.—Mrs. Harry R. Nettleton, wife of Dr. Nettleton, of Rochester, committed suicide at the residence of her father, Colonel Shattuck, in this village yesterday morning. At about 10 o'clock she was found lying dead in a room with her head nearly severed from her body. A bloody razor was found by her side. She left two notes in reference to her intention to kill herself. It was said that Mrs. Nettleton was laboring under great mental strain.

Electric Light Works Destroyed.

NEWARK, N. J., June 18.—The United States Electric Light works here were destroyed by fire this morning. Loss $200,000. Nearly 150 hands are thrown out of employment. The fire started in the laboratory. Four girls employed in the works narrowly escaped and had to be carried out of the building.

A Veteran's Suit.

NEW YORK, June 18.—Patrick Maguire, a roundsman, recently brought suit to compel the police board to promote him on account of his long service as ex-soldier. Judge Ingraham yesterday decided that ex-soldiers are entitled to preference in appointments, but n,t to promotions.

THE DYNAMITE SCARE.

EVIDENTLY INVENTED BY POLICE FOR REPUTATION.

The Arrest of a Man with a Box of Toy Fireworks Causes a General Quaking of Weak Knees Among the Nobility.

LONDON, June 18.—The arrest of Peter Troy at Queenstown yesterday is thus far the sole confirmation of the dynamite scare so industriously promoted by the police during the last three weeks, but it is sufficient to cause a general quaking of weak knees and to spur the police to the utmost vigilance during the reverance of the jubilee festivities next week. To nobody has this flimsy evidence of an attempt to use explosives on the occasion of the queen's jubilee caused so much surprise as to the police themselves. Their careful and far reaching investigation of the possibilities of dynamite outrages, involving the surveillance of suspected persons in America, France, Germany, and even Italy, at great expense, and often under great difficulty, had almost, if not quite, convinced them that no outrages were contemplated, but the reputation of the London police was at stake. Recollections of the explosions at the Tower of London and the abutments of London bridges, and the important part played by the police in apprehending the perpetrators, have aroused feelings of pique whenever brought to the minds of the Scotland Yard officials, and the accusation of the police something must be done, and nothing better to bring their sagacity and activity into full play and prominent notice could have been more than a box of fireworks—always the easiest thing in the world to create in London—at a time when the eyes of the queen, the royal family and the representatives of royalty abroad were upon them and the lives of those personages supposed to be in danger. Therefore a dynamite scare was organized and duly sprung upon the public, and nothing tangible to link it until the opportune arrival of Troy with a box of fireworks of the most most harmless character. This unexpected, but most welcome, circumstance is eagerly seized upon by the police as corroborating their assertions, and there is joy among them as they greet former doubters of their theory with the inevitable "I told you so."

The real danger to be guarded against during the celebration, and especially on Tuesday, is that many persons may be crushed to death in the enormous crowds of spectators, which the most perfect police arrangements will be powerless to dispose of in such a way as to insure safety at all points. The precautions taken against such casualties are as complete as ingenuity and experience can devise, but even the police and military authorities express doubts that the precaution to Westminster Abbey will be entirely unattended with loss of life by suffocation, sunstroke, trampling or some other cause beyond their power to avert.

The police department of London has issued a circular warning chemists, druggists and other dealers in explosive materials against supplying dynamite or other compounds of similar character and effect to persons unknown to them or of whose intentions they may entertain suspicion. The circular also announces that a reward of £100 will be paid to any person informing the government of the illegal manufacture of explosive compounds in any part of Great Britain. The circular is almost identical with that issued by the government in 1883.

CHARGED WITH FRATRICIDE.

The Finding of a Body in a Well Leads to William Wright's Arrest.

PATTERSON, N. J., June 18.—The decaying body of John Wright, once a well known resident of Stony Road, was found in the bottom of a well on the farm of Henry Welling, in Passaic valley. John and a brother named William left Stony Road on St. Patrick's day, intending, they said, to go to Pennsylvania for work. People suspected, however, that they were only going on a spree, and so were surprised because William returned alone. He told various stories to account for John's absence. He said first that he had been robbed by a party of tramps, and afterwards said that he and John were on a marauding expedition and that a farmer shot at them and killed John. However, there was nothing definite known about the missing man until his body was found. William Wright was arrested yesterday on a charge of murder.

The Reservey of the Sound.

WASHINGTON, June 18.—The United States coast and geodetic survey report that the reservey of Long Island sound has shown that on the rocky ledge over Eaton's Point, with three and a quarter fathoms given as best water, a shoal spot with sixteen feet has been developed where a depth of four fathoms was indicated upon charts, and that 200 yards southeast is a spot with eighteen feet instead of two fathoms. The ledge, the reservey shows, is a continuation of the ledge on which the Execution rocks light station is built. He also stated that 300 convicts would be transferred soon from Sing Sing to Clinton.

Praying for Peace.

WASHINGTON, June 18.—A man with a gray beard, wearing the uniform of the Grand Army, walked up to the south entrance, directly under the window where the president was sitting, and began reading extracts from Gen. Fairchild's Confederate flag speech in New York in a loud voice. Then he knelt down, and spreading a small American flag on the ground in front of him, he uttered a fervent prayer for the preservation of the Union, and that God would direct the president's mind so that the country might be saved from bloodshed. At the conclusion of the prayer he arose and walked out of the grounds.

Connecticut Soldiers' Monument.

NEW HAVEN, June 18.—The monument erected in memory of the Union soldiers and sailors of the late war from old residents of East Rock park yesterday with impressive ceremonies. The exercises included an opening address by Postmaster Timothy Dwight, of Yale, who presided; invocation by the Rev. Dr. Harwood, rector of Trinity church; an oration by the Rev. Dr. Newman Smyth, pastor of the Center church; short addresses from Gen. Samuel E. Merwin, Town Agent Reynolds and Mayor York. National airs were sung by the memorial guard and a large chorus.

Fatal Railroad Collision.

READING, Pa., June 18.—A down freight train came into collision with a passenger train on the Pennsylvania Schuylkill Valley railroad at Port Clinton, Ford, about 9 o'clock yesterday morning, the result of the crash being the killing of Charles De Haven, fireman of the passenger train, and eight persons were more or less injured. The collision was caused by the neglect of the engineer and conductor of the freight train to clear the tracks on schedule time to make way for the passenger train.

The Blue and the Gray.

BOSTON, June 18.—The reception given to the R. E. Lee camp, Confederate veterans, last evening was one of the most elaborate of the year. The hall was profusely decorated, the colors of Massachusetts and Virginia predominating. Many prominent persons were present, including Governor Ames, Senator Hoar, Hon. George D. Wise, Speaker Noyes, Commander Nash, Post Commander Chatfield, others, many of whom responded to toasts.

The Story Denied.

LONDON, June 18.—The Hawaiian consul general denies the truth of the reports that a popular uprising in Honolulu against King Kalakaua is imminent. The trouble, he explains, was caused by a clique of disaffected politicians, who probably started the canards recently in circulation, but as they have no standing or influence there is no likelihood that their agitation will be productive of harm, except to themselves.

Human Remains in the Haymarket Fire.

NEW YORK, June 18.—While workmen were removing the wreckage of the Hay market fire, yesterday, they discovered the badly burned body of an unknown man. The remains were unrecognizable.

A Long Strike Probable.

PROVIDENCE, R. I., June 18.—All the weavers at the Manville mills struck for an increase of ten cents per hundred weight. It is probable that a long fight will ensue.

BURNED ON THE LAKE.

Twenty Persons Dead and Seven Still Missing—The Casualties.

CHARLEVOIX, Mich., June 18.—The steamer Champlain, of the Northern Michigan line, was burned off this place and many lives were lost. She was bound from Chicago to Cheboygan, and caught fire at the mouth of the Grand Traverse bay.

The names of those known to be lost are as follows: Henry Berman, clerk of the boat; Mrs. R. M. Kehoe, Chicago; Capt. Lucas, Petroskey; R. M. McKeel; M. Russell, Jackson, Mich.; Ella Cooper Smith, Charlevoix; Robert Wilkes, Charlevoix; George Wrisley, Charlevoix.

In addition to these two children of Steward Bean were drowned, and a fireman and second cook of Chicago, a gentleman and boy from Milwaukee, bound for Mackinac; a lady and daughter from Frankfort, one waiter and four Indian deck hands also perished.

There are seven not accounted for, the above list of lost comprising only those known to have perished.

The boat burned to the hull. It is impossible to tell the cause of the fire, but it is thought it may have been caused by a lamp exploding. Seven bodies have already been recovered.

FOUR MEN FATALLY INJURED

On Account of Cheap Material Used in a Temporary Trestle.

CINCINNATI, June 18.—A fatal accident occurred on the new Huntington railroad in Newport, Ky., which will probably result in the death of four men. Two cars were being used for hauling dirt out on a trestle in making a fill. The trestle was built of almost any kind of wood at hand. It is declared that portions of the timber were rotten. At 9:30 a. m. the bents began to give, and out on the trestle carrying Sam Lillard, William Cox, John O'Connell and Edwin Lalay, laborers. As the cars approached the end of the trestle it gave way and the cars and men were precipitated thirty feet to the ground with the cars of dirt upon them. All the men are believed to be fatally hurt. Both Lillard's legs were broken. Two of the men were taken to the Good Samaritan hospital; the others were kept in Newport. The scene of the accident is just at the edge of Newport, and a large crowd soon gathered on the hills on its way up the river. P. H. Wilson, the contractor, is blamed for the accident because he did not put better material in the trestle.

THE BATTLE FLAG ORDER.

The Report That it was Issued After a Cabinet Conference Denied.

WASHINGTON, June 18.—A friend of the president, who has conferred with him on the point, said the president would not regard the flag agitation as injurious. The president, according to this authority, does not object to being put in the light of provoking bloody shirt opposition by an effort to obliterate war memories. Politically, this gentleman says, the president does not think anything can be gained by the democrats from Republicans that they are looking to the war issues for political capital, and for the issues of the next campaign. It is officially stated that the order for the return of flag order was issued after a cabinet conference. The matter, it is said, was never mentioned at a cabinet meeting until Thursday.

THREE EMINENT MEN.

Lessons to the Church, the Student and the Bench.

NORTH ADAMS, Mass., June 18.—Ex-President Mark Hopkins, of Williams college, died at Williamstown this morning, aged 85. His death removes from the ranks of educators one of the most belaved of teachers, one of the most eminent of philosophical writers, and one of the men who have been longest active as instructors. He had long been regarded as the foremost philosophic thinker born in this country since the days of Jonathan Edwards.

FALL RIVER, June 18.—The Rev. Dr. Roswell Dwight Hitchcock, who died suddenly on Thursday, was for many years known through his connection with the Union Theological seminary. He was born in East Machias, Me., Aug. 15, 1817. He joined the Sophomore class in Amherst college in 1833, and graduated in 1838.

ATLANTA, Ga., June 18.—Judge O. A. Lochrane died at his home here yesterday morning aged 58. His death was the result of heart disease, which for nearly two years had troubled him to a greater or less degree.

Expecting a Strike of Ironworkers.

PITTSBURG, June 18.—The delegates to the annual convention of the Amalgamated Association of Iron and Steel Workers talk as if they expect a strike next season. While anticipating a refusal of the manufacturers to sign the new scale, the workmen say they will adhere to their prices. The annual convention which will open in this city conference on Tuesday will be brief. There are thirteen firms in this district which make pipe iron. Seven others have an output of wire. Tools on the old Amalgamated scale, for which is based on bar iron. All twenty will refuse to sign the scale.

Violating the Mine Law.

WILKESBARRE, Pa., June 18.—George Kaeufer, foreman for the Florence Coal company's mine, near Pleasant Valley, was arrested yesterday charged with violation of the mine law by employing a boy under 12 to work in a coal breaker picking slate. The boy, Louis Leopard, was caught in the machinery of the breaker and killed in March last. It was shown that the boy had worked in the breaker several months and was only 10 years old. The father of the boy, Joseph Leopard, was also arrested, charged with securing the employment of a boy under 12 years in a breaker.

A Rich Discovery.

SAN ANTONIO, Tex., June 18.—A rich discovery of gold and silver is reported from Bexar county, near the Pauls Saddle mountains. The vein is four feet wide and consists of rich decomposed ore, strained with iron. Traces of an old Mexican mine and furnace are found, and it is thought that these are the lost San Saba mines.

The Baltimore Baseball Row.

WAVERLY, Md., June 18.—Curtis Welch, the St. Louis baseballist, who came into collision with Second Baseman Greenwood, of the Baltimore club, and Umpire Lynch for breaking up the game in great disorder, was tried yesterday afternoon before Squire John Willis. He was then fined $1 and costs, amounting in all to $3.40.

The Redyke Tenants.

DUBLIN, June 18.—Crown Solicitor Murphy has intimated to the tenants at Bodyke that if they will renew their offer to pay Landlord Callaghan the amount he pefused, and he again refuses to accept same, will abandon the prosecution against them and decline to give Callaghan further police assistance.

Mr. Blaine Visits Parliament.

LONDON, June 18.—Hon. James G. Blaine paid a visit to the house of commons last evening, where he attracted a great deal of attention, in spite of the exciting scenes on the floor.

THE BRIBERY TRIAL.

A TELLING BIT OF EVIDENCE AGAINST THE PRISONER.

W. S. Pottle Testifies to an Attempt on the Part of Sharp to Bribe Him to Insert Certain Words in a Bill Passed in 1883.

NEW YORK, June 18.—In the trial of Jacob Sharp for bribery, yesterday, Lawyers Francis M. Shoen and George Bliss testified to Sharp's legal maneuvres to get the Broadway franchise. Daniel Conover, an old friend of Sharp's, was obliged by a writ of attachment to appear as a witness. He testified to Sharp's long standing ambition to secure a road on Broadway. The defence objected, but the court ruled that it was admissible as showing a motive for the alleged bribery of the aldermen. The sensation of the day then came in the shape of an offer by Mr. Nicoll to prove by the next witness, W. S. Pottle, that when witness was engrossing clerk of the state assembly, in 1883, Sharp tried to bribe him to insert the words "Broadway" and "Fifth avenue" in the general railroad act passed that year. The defence made a most strenuous effort to have the evidence ruled out, and a long argument ensued. Judge Gildersleeve finally admitted the evidence, as showing the intent and motive of Sharp to secure his ends by bribery. Pottle testified that while the bill was in his hands for engrossment, Sharp called to him. He went to Sharp's room at the Delevan house. Sharp told him that he wanted the words "Broadway" and "Fifth avenue" inserted in the bill, and that if Pottle would do so he would go down stairs and deposit $5,000 with the hotel clerk, Mr. Baldwin. Pottle refused to insert the words. Sharp then said: "Well, you don't seem to like this proposition very kindly, and I will make you another. If you will go and bring me the original copy of the bill I will give you $8,000." Witness replied that he could not entertain the proposition.

On cross-examination by Mr. Stickney Pottle admitted that words so inserted would be detected at once. He was very severely cross-examined by Mr. Stickney, and would not explain why, as a matter of duty, he did not expose to the legislature the attempt to bribe him. Pottle is now employed in the bureau of engraving and printing at Washington. Mr. Nicoll said he learned of Pottle's story through Mr. Lockwood, a man who was summoned as a juror in this case, but was challenged. The incident caused much excitement in court.

Lewis May, one of the incorporators of the Broadway road, testified that he signed for Uhlman of the consideration, but paid nothing on them and never received them, but that Sharp paid him $16,000 to surrender the privilege of purchase of the shares.

J. D. Sullivan, of P. F. Sharp, also incorporators, gave similar testimony.

The court then adjourned until to-day.

Saw His Daughter Fatally Burned.

LANCASTER, Pa., June 18.—As John Grill, living near Reamstown, this county, was at work in a field he was horrified to see his 10-year-old daughter, Annie, enveloped in flames. She had attempted to build a fire to get supper when her clothing was ignited. When the agonized father was enabled to do so he tore the clothing had been burned from the poor child's body and she sank, fatally burned, in her father's arms.

Mrs. Cleveland at Wells College.

AURORA, June 18.—Mrs. Grover Cleveland arrived at Wells college at 5 o'clock yesterday afternoon, having left Oswego at 12:20, accompanied by her two sisters and former schoolmates, Miss Kingsford, of the latter place, T. P. Kingsford, Miss Alexander, of Bridgeport, O.; Miss Severance, of Cleveland; Mr. and Mrs. Erwin and Mr. and Mrs. D. Higgins, of Oswego. Commencement exercises begin to-morrow.

Fast Flying Homing Pigeons.

KINGSTON, N. Y., June 18.—One of the best pigeon flying trials of this season was those from Danville, Va., to the loft of Dr. F. B. Johnson of this place. The race was at 6:05 a. m., and the first birds came in at 3:17 p. m. The airline distance is 382.9 miles, and the average speed was at least 1.221 per minute. The Kingston county and Hudson birds, weather permitting, will fly to-day from Liberty, Va.

Murder and Suicide.

NEW YORK, June 18.—During a fight between Julius Seeling, a German laborer, aged 28, and his wife, aged 28, of No. 507 East One Hundred and Ninety-sixth street, Julius shot Ellen in the stomach, killing her almost instantly. He then shot himself in the head, arm and leg. He was taken to the Harlem hospital in a dying condition.

CONDENSED NEWS.

Ineffectual efforts were made in the British house of commons to append clause six of the coercion bill. The bill is now in the committee stage, and the report stage was fixed for the 27th inst.

Governor Hill has signed the bill to promote and protect shad fish culture in the waters of New York state.

Grand Army men have cooled down several degrees since the President revoked the order to return the battle flags. It was a manly thing to correct a mistake into which he had been inadvertently led.

All the testimony goes to show that Strumbach, of the Rahway colliery, is a weak minded crank, and that his story has no foundation.

The superintendent of an Indiana insane asylum has been arrested for brutal treatment of the patients.

A murder on the darkened stairways of a Middletown (N. Y.) hotel adds vigor to a scandal in which members of the proprietress is unfortunately involved.

One white man and one negro were legally hanged in Georgia for murder.

The Rhode Island legislature adjourned without having accomplished any business because of the partisan deadlock.

The coroner's jury found that Mrs. Nancy Beall, of Exton, Mo., was murdered by her 12-year-old son.

Numerous cases of sunstroke were reported in New York, Brooklyn and Jersey City yesterday. Some are likely to prove fatal.

The board of visitors of Andover seminary have finished the charges of heresy against Professor Egbert C. Smyth, and declare him removed from his chair. They acquit the other professors accused with Dr. Smyth. The board of trustees sustain the latter, who will retain his chair, and a bitter controversy, including litigation in the courts, is threatened.

Norman McLeod was fatally stabbed with a dirk knife at Minden, Mich., by Nelson Coleman. Both were participants in a dance and quarreled over a dance number.

A. T. Kerr, a Buffalo broker, was arrested for detaining the children of Hugh Canzon, of Toronto, whose wife he had also inveigled away from her home.

Stephen Washburn, of Wilton, near Saratoga, a farmer aged 70 years, on Thursday committed suicide by first cutting his throat and then hanging himself.

ALL AROUND THE HOUSE.

Up Stairs, Down Stairs, in Kitchen and in the Lady's Parlor.

Perfectly plain chair cushions of plush are much in use. They may be finished around the edge with cord and at the corners with tassels, or may be without finish and tied to the chair at the corners with ribbon bows. Favorite colors in these cushions are dark or peacock blue, cardinal, maroon or gold. Crescent shaped cushions for head seats are sometimes to be seen, having scarf stamps behind the chair when not in use. Cashmere is quite a desirable material for cushions that receive much wear.

Very dainty chair backs may be made of dotted muslin or net. A muslin with large round spots far apart is chosen. Around the spots are worked the petals of a large daisy or marguerite in fine orange or yellow silk and a stem is also added. When white muslin is used a lining of colored sateen or colored muslin is necessary to make the chair back effective.

One of Fashion's Last Freaks.

One of the last freaks of fashion, according to The Decorator and Furnisher, is to convert camp stools into drawing room work bags. The material most used for these bags, where expense is no object, is heavy figured silk or satin, with a lining of plain satin of a suitable shade of color. Less expensive ones are made of cretonne or of printed cambric. To make one, open at the top and turn a double drawstring into it, which will require about two yards and a half of narrow satin ribbon. That, with a plain, not a picot edge, is the best to use; it slips more easily. It is well to line the top of the mouth of the bag with plain colored sateen. The legs and frame of the camp stool may either be painted black, red, stained like dark wood, or gilded, according to taste.

An Effective Mantel Lambrequin.

Demorest tells how to make an effective mantel lambrequin, like the one shown in the accompanying figure. The dimensions are dependent on the size of the mantel to be covered. For one of ordinary length the plain piece should be about twelve inches in depth, and reach from one end to the middle of the mantel. The draped piece should be about two inches shorter and about six inches wider, so that when it is draped the bow will be a short distance beyond the middle of the mantel. The top piece is a mat the width of the mantel, and sufficiently long to hang over each end about two inches deeper than the corresponding front piece.

MANTEL LAMBREQUIN.

The simplicity of this model makes it available for any material that can be used for the purpose, rich as well as simple. A very handsome one can be made of plush and satin, the plain piece and sash of satin, and the draped portion of plush, in brown, dark blue, dark green or red, the same color throughout; the difference in the texture of the material will cause an apparent difference in shade. On the satin embroider or applique a spray of flowers in a contrasting color, and have the color of the material and the principal color in the flowers repeated in the fringe at the bow.

Felt, cloth, flannel, colored canton flannel, cretonne, or even chintz, could be made after this design, and simple trimmings used, in keeping with the material selected.

Clarifying Wine.

Properly made wine, that ferments rapidly and thoroughly, soon needs only to be clarified by artificial means. Wine is clarified, however, by adding an ounce of powdered gum arabic to each forty gallons. The gum arabic is dissolved in cold water. The wine is well stirred when this solution is poured in. Whites of eggs are preferred by many winemakers for clarifying. The whites of ten eggs are used to forty gallons. Some wine is taken out of the cask and the whites whipped to a foam with it. This mixture is put back into the cask. The wine is stirred well and the cask bunged tightly. After a week the wine will generally be clear and may be drawn off.

Strawberry Bavarian Cream.

Strawberry Bavarian cream is a most delicious and easily prepared summer dessert, especially convenient in a country home, wife to make when cream is not scarce. Pick over two and a half pounds of strawberries and squeeze them through a colander; to the juice add six ounces of sugar, and when the sugar is dissolved add half a box of gelatine, previously soaked in a little water near the fire for an hour, and stir over the fire till dissolved. Set this on ice and stir until it begins to set, then beat in a pint of whipped cream, put the whole in a mold and garnish with fresh strawberries.

Green Peas Excellently Cooked.

An excellent fashion of cooking new peas is to first boil the pods in a little water, then skim them out and put in the peas and boil till tender. About half an hour is the time required to cook. Before taking them from the fire add a little butter, cream, salt and pepper. The pods are full of sweetness and flavor, which is preserved from waste by this method of cooking. English cooks boil a sprig of mint with peas, a fashion not in favor in this country, where the delicate natural taste of the pea alone is preferred.

An Attractive Salad.

Lettuce, cold boiled potatoes and cold boiled beets, the latter two cut into dice, make a very pretty and appetizing salad. Pile the potato in the center of the salad dish, put the beets around this and arrange the lettuce next the edge of the dish. Serve with French dressing.

A Lining for the Table Cloth.

Table cloths wear much longer if a double faced thick cotton flannel is first spread on the table. It smooths the edges, and is much softer and more agreeable than without it. Many consider it indispensable.

Broiling and Frying.

Broiled fish, broiled ham, broiled chicken, broiled steak and chops, are always satisfactory at a summer dinner. Nothing can be less healthy, or less agreeable to the taste for dinner on a hot day than fried food.

To Cleanse a Lamp Burner.

When a lamp burns poorly boil the metal burner in soda and water. Gummy accumulations from the oil will be removed and the light will burn as brilliantly as ever.

How to Peel Onions.

Onions may be prepared without the usual accompaniment of tears by peeling them with the hands under water.

Proceedings of the Board of Chosen Freeholders of the County of Union.

[OFFICIAL.]

ELIZABETH, N. J., May 18, 1887.

Pursuant to adjournment the board met on Thursday, May 9, 1887, at 2.30 o'clock p. m.

Present—Director Hubbard and Freeholders Carmody, Doty, Debbie, Howard, Houston, Hicks, Vance Meisman, Little, Nolte, Pierson, Roll, Thompson, Vanderbeck, Wright—16.

A temporary chairman was elected.

The minutes of the last meeting were read and the director suggested that the clerk give the full roll-call on all resolutions, where money is appropriated. With this correction the minutes were approved.

The director announced the standing committees as follows:

Committee on collector's bond—Houston, Hicks, Nolte.

Committee on publications—Thompson, Kyte, Carmody.

Committee on discharge of prisoners—Wright, Hicks, Kleinhaus.

Committee to settle with collector—Roll, Littell, Nolte.

Committee to audit accounts—West, Thompson, Debbie.

Committee on lunacy—Pierson, Roll, Doty.

Committee on public grounds and buildings—Howard, Pierson, Doty.

Committee on jail inspection—Vanderbeck, West, Carmody.

Committee on stationery—Hicks, Wright, Nolte.

Committee to settle with sheriff—Kyte, Vanderbeck.

Committee on miscellaneous accounts, insurance and advertising—Littell, Wright, Kleinhaus.

Committee on legal questions—Vanderbeck, Roll, Debbie.

Committee on appropriations—West, Vanderbeck, Howard, Doty, Debbie.

Committee on Elizabeth drawbridges—Houston, Pierson, Howard.

Committee on Rahway drawbridges—Howard, Hicks, Carmody.

COMMUNICATIONS.

From Chas. E. Lehman, agent of the Hall & Wood Bridge Co., asking the board to have a committee inspect their ballot boxes.

Received and ordered placed on file.

From Patrick Sheridan.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—I have the honor herewith to report the receipts of the county since my last report, as follows, which amount I this day hand to the County Collector, E. M. Wood.

RECEIPTS.

May 11, 1887—Cash on hand	$796.40
May 11, 1887—Cash from G. W. Doty	15.00
May 12, 1887—Cash from A. Farley, lunacy	52.00
	$863.40

Received and ordered placed on file.

COMMITTEE REPORTS.

From committee to take collector's bond.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN—Your committee on collector's bond beg leave to report that we herewith submit the collector's bond, which we have approved after making inquiry as to the parties signing it.

All of which is respectfully submitted.

ROBERT C. HOUSTON,
JOHN A. HICKS,
JOSEPH NOLTE,
Committee.

On motion the report of the committee was received and adopted, and the bond was directed to be deposited in the office of the county clerk.

From committee on appropriations:

To the Board of Chosen Freeholders of the County or Union:

GENTLEMEN—Your committee on appropriations beg leave to report that they have examined into the expenditures of the last three years, and would recommend the adoption of the following resolution, which makes the tax levy one hundred and fifty thousand dollars ($150,000) or fourteen thousand less than last year.

All of which is respectfully submitted.

WILLIAM HOWARD,
GEO. W. DOTY,
A. VANDERBEEK,
S. P. DEBBIE,
Committee.

Freeholder Howard moved that the report be received and placed on file.

Which was adopted unanimously.

RESOLUTIONS.

By Freeholder Pierson:

Resolved, That the County Collector be and is hereby instructed to pay the sheriff on account of jury fees, May term, 1887, the sum of twenty-five hundred dollars.

On roll call adopted unanimously.

By Freeholder Howard:

Resolved, That the director and county collector, in their official capacity, be authorized to make temporary loans for county purposes to the amount of one hundred thousand dollars in anticipation of taxes.

On roll call adopted unanimously.

By Freeholder Howard:

Resolved, That a committee of five be appointed to report upon the advisability and probable cost of building an iron bridge over Inman avenue, in the city of Rahway, and report at the next meeting of this board.

On motion it was adopted unanimously.

The director named the following committee: Freeholders Howard, Wright, Roll, Doty and Carmody.

By Freeholder Debbie:

Resolved, That the county collector's report be published in the Elizabeth Herald, Leader, Journal of Elizabeth; Central Times, EVENING NEWS and Constitutionalist, of Plainfield; Advocate and Herald, of Rahway; and the Record, of Summit, at the compensation of one hundred dollars for each of the papers named.

On roll call adopted unanimously.

By Freeholder Nolte:

Resolved, That a committee of five be appointed by the director to examine as to the necessity and probable cost of building a new bridge across the Elizabeth river at Second and Summer streets, in the city of Elizabeth, and report their determination at the next meeting of the board.

On motion of Freeholder Debbie, adopted unanimously.

Director named the following as committee: Freeholders Houston, Thompson, Doty and Vanderbeck.

By Freeholder Debbie:

Resolved, That a committee of five be appointed to confer with a like committee of the County of Somerset, on the advisability of erecting a new line bridge between the two counties, over Green brook, on the road leading from Scotch Plains to Union Village, near the residence of Mr. La Grande, in the township of New Providence, and ascertain the probable cost and report the same to this board.

On motion of Freeholder Pierson, adopted unanimously.

Director named the following committee: Freeholders Debbie, Pierson, Kyte, Littell and Kleinhaus.

By Freeholder Vanderbeck:

Resolved, That a committee of five be appointed to ascertain the necessity and probable cost of a bridge across Cedar Brook, at the intersection of Sixth street and Scott street, Plainfield, and report at the next meeting of the board.

On motion of Freeholder Howard, adopted unanimously.

Director named the following committee: Freeholders Vanderbeck, Howard, Hicks, Debbie and Nolte.

Freeholder Doty moved to adjourn.

Which was carried.

The director declared the board adjourned to Thursday, June 2d, 1887, at 2.30 o'clock p. m.

CHAS. E. REED,
Clerk.

ELIZABETH, N. J., June 2, 1887.

Regular meeting of the Board of Chosen Freeholders of the County of Union, held on Thursday, June 2, 1887, at 2.30 o'clock p. m.

Present—Director Hubbard and Freeholders Carmody, Doty, Debbie, Howard, Houston, Hicks, Kyte, Clarkson, Little, Nolte, Pierson, Roll, Thompson, Vanderbeck, Wright, West.

Absent—none.

The minutes of the last meeting were read and on motion approved.

COMMITTEE REPORTS.

From Committee on Cedar Brook bridge, Plainfield.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN:

Your committee appointed to report as to the necessity and probable cost of a bridge over Cedar Brook at the crossing of Sixth street and Scott avenue, in the city of Plainfield, would respectfully report that the above streets are laid out and several buildings in course of erection, therefore we recommend that your committee be authorized to build a wooden covered bridge, 12 feet span, at a cost not to exceed six hundred dollars.

All of which is respectfully submitted.

A. VANDERBEEK,
WM. HOWARD,
JOHN A. HICKS,
S. P. DEBBIE,
JOS. NOLTE,
Committee.

On motion of Freeholder Debbie, report received and recommendation adopted by a unanimous vote.

From Committee on Inman avenue bridge, Rahway.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN:

Your Committee appointed to find out the probable cost of iron structure on Inman avenue in the city of Rahway, would beg leave to make the following report. Having examined the present structure they find it worthless and would recommend that a new iron bridge of fifty foot span with eighteen foot roadway, be erected at a cost not to exceed $1,000.

All of which is respectfully submitted.

WM. HOWARD,
GEORGE WRIGHT,
GEO. W. DOTY,
J. MARTIN ROLL,
Committee.

On motion of Freeholder Debbie report received and recommendation adopted by a unanimous vote.

The Committee on Summer street bridge, Elizabeth, reported progress.

A committee from the City Council being present they were allowed the privilege of the floor, and explained the object of their visit.

The committee consisted of Council Kohlenberger, Hamm and Baker.

Remarks were made by all of the Council committee, also by Freeholders Debbie, Roll, Kleinhaus, Doty, West, Howard, Houston and Carmody.

Freeholder West moved that the Summer street bridge matter be referred to a committee of the whole.

Which was adopted unanimously.

The Committee on bond with the Sheriff.

To the Board of Chosen Freeholders of the County of Union:

GENTLEMEN: Your committee appointed to settle with the Sheriff to whom was referred the return of the County Clerk of costs and fines paid during the year, beg leave to report:

That they have examined the same and find that all the costs and costs to the amount of one hundred and fifty-five ($155) dollars have been remitted by the Court, and eight hundred and ninety-three one hundredths ($890.93) dollars has been collected by the Sheriff and Warden and been accounted for to the County Collector.

All of which is most respectfully submitted.

GEO. KYTE,
A. VANDERBEEK,
S. P. DEBBIE,
Committee.

On motion, the report was received and placed on file.

RESOLUTIONS.

By Freeholder Houston:

Resolved, That the executor of the Pliess be paid the sum of one hundred and fifty dollars a year for the care and charge of the criminal jail.

On motion of Freeholder Pierson, referred to Legal Committee.

By Freeholder Carmody.

Resolved, That a committee of three be appointed with power to make repairs on bridge over Rahway river on Irving avenue, Elizabeth, N. J., not to exceed $500,000.

On motion of Freeholder Doty, adopted unanimously.

Director named the following committee: Freeholders Carmody, Roll, Doty.

By Freeholder Pierson.

Resolved, That the Union County Standard of Westfield be added to the number of papers to print Collector's report, provided that the County Attorney decide it a legal paper.

On roll call the resolution was adopted.

Freeholder Howard moved that each member of the jury in the Rahway murder case be paid $5 on presentation of a bill approved by the Coroner.

On roll call the motion was adopted.

The following bills, audited and approved, were read and ordered paid by a unanimous vote.

Elizabeth—John W. Van Pelt, bridge account, $29.16.

Rahway—Peter Van Pelt, bridge account, $62.50.

Fanwood—Ernest C. Kieb, bridge account, $4.25.

Fanwood—Augustus D. Shepard, bridge account, $20.91.

Rahway—William H. Hughes, bridge account, $62.50.

New Providence—James Young, bridge account, $30.

PHYSIOLOGY AND HYGIENE.

Care of the Complexion—New Remedy for Sleeplessness—Hot Water Cures.

Women who want to enjoy to the full the pleasures of a summer's vacation in the country and yet hope to look well must be well, will find help in a few precautions. First, the diet must be regular, and a woman must not overtax herself beyond strength while taking exercise or indulging in walks and rides of an evening. If she is to be much in the open air, a wise brimmed hat should be worn. Check is not always sure of an umbrella just when needed, but a hat furnishes an ever ready protection from a too ardent sun. Gloves should not be forgotten. Gnats or mosquitoes generally form an accompaniment of summer excursions, and the hands need protection from them as well as from wind and sun. Bites and stings should never be scratched with the nails. A little diluted ammonia or lunarnedis in a small double corked bottle, such as is used for smelling salts, is carried by many ladies, and often proves a speedy cure for the bites of insects, scratches from thorns and 100 of small mishaps, any one of which may happen to a gay party in search of woodland treasures. Then, too, the bleaching white light of seaside and country, so trying to eyes unused to the glare, should be provided against with a pair of tinted glasses that may be worn whenever needed. Much present comfort and future benefit attend a few such little cares as these.

A Suggestion to the Sleepless.

What is it that disturbs sleep? The popular view that noise is the disturbing cause touches the truth without quite grasping it. It cannot be noise altogether; for the inhabitants of belfry towns have been known to sleep through the roar of bombardment and to waken suddenly when the firing ceased. The rattle of a train in motion will induce sleep, as even those who are ordinarily very poor sleepers often find. The true cause is interruption. A sudden cessation of either continued silence or sound awakens. For sound, providing it be monotonous, has precisely the same effect on the brain as silence. The alarm clock is based on this theory of interruption—it interrupts silence.

Now, suggests The English Medical Journal, might not an equally simple contrivance be made on the same mechanical principles, but with the reverse object, viz.: That of insuring sleep by sound? Its utility to delicate persons especially would be undoubted. Call it the morphiometer or somniferant, or obtrude it the sleep preserver—no name that would truly designate its object, for its real object would not be so much to promote sleep as to insure the sleeper against disturbance. His invaluable side of light developed by placing a bulwark of sound between him and the sudden shocks of extraneous noise. Let your sleep preserver produce the drowsy monotonous buzz of the humming top, not so loud as to be heard in an adjoining room, but loud enough to drown distinct noises when placed close to the bedside or hung over the pillow.

Hot Water Remedies.

In many emergencies hot water is not only easily obtainable, but also the very best remedy that could be used. Hall's Journal of Health enumerates some instances in which it is of great benefit. A strip of flannel or napkin folded lengthwise and dipped in hot water and wrung out, and then applied around the neck of a child that has the croup, will usually be relief in ten minutes. A towel folded several times and dipped in hot water and quickly wrung and applied over the toothache or neuralgia will generally afford prompt relief. This treatment in colic works like magic. There is nothing that so promptly cuts short a congestion of the lungs, sore throat or rheumatism as hot water when applied promptly and thoroughly. Tepid water acts promptly as an emetic, and hot water taken freely half an hour before bed time is the best cathartic possible in the case of constipation, while it has a most soothing effect upon the stomach and bowels. This treatment, continued a few months, with proper attention to diet, will cure any curable case of dyspepsia. Headache almost always yields to the simultaneous application of hot water to the feet and the back of the neck.

A Cut Finger.

When a finger is badly cut it should be tied up and left alone for a day or two; the blood dries on the outside and forms a case within which the injury may heal without any further trouble.

SOCIAL ETIQUETTE.

Manners and Customs Practiced in Polite Society.

People in pretty country or suburban places can hardly devise a happier form of entertaining than the garden party. There may be a little awkwardness at first where people are unused to these parties. Without the accustomed shelter of a house guests may feel a little forlorn and wander dismally about for a time, but a badness of tact soon suggests forming parties for whatever sports or games are provided, and after the first stiffness is over any one can find congenial companionship at home croft.

The garden party proper is held entirely in the open air. The hostess receives upon the lawn, wearing her hat or bonnet, and lady guests always wear bonnets. Upon arriving at the house guests are shown upstairs to lay aside wrap, and brush off dust, if they wish to, and are then shown to where the hostess is receiving.

It is proper for a lady to ask for an invitation for a friend to a party that is to be entirely out of doors, as there will always be plenty of room. Still no lady should take offense if such a request is not granted, as a hostess may have excellent reasons for refusing.

Lawn tennis, croquet, archery and, for those disinclined to active exertion, card tables furnish sources of amusement at these picturesque assemblies. Sometimes a platform for dancing is provided, and a band of music is another pleasant feature of entertainment.

These parties are sometimes conducted on the principle of an afternoon tea. The hostess receives in the house, the guests then wander through the grounds and return to the house for refreshments when fatigued. This is a modification of the garden party which meets with approbation from the timid the elderly and the rheumatic, and is less troublesome to the entertainer than serving refreshments on the lawn.

Where grounds are ample and handsome, the garden party proper, however, is a beautiful and enjoyable affair.

"Sir" and "Madame."

"Sir" and "madame" or "ma'am" are terms by far to frequently used by many persons in this country. In England, under ordinary circumstances, neither "sir" nor "madam" is considered proper, except on the lips of inferiors. A man in speaking to a lady that is a stranger to him should address her as "madam" and never as "miss," if she has reached the age of womanhood.

Familiarity.

As it is not always possible to avoid being either too ceremonious or too familiar, our greatest guide should be to err on the side of familiarity, which, says the truthful old proverb, breeds contempt.

ALL AROUND THE HOUSE.

Up Stairs, Down Stairs, in Kitchen and in the Lady's Parlor.

A cabinet maker recommends a mixture of three parts linseed oil and one part spirits of turpentine as an excellent preparation for cleaning and restoring furniture, especially that which is somewhat marred or scratched. It covers slight scratches, restores the color of the wood and gives a lustrous surface. Apply with a woolen cloth and rub dry with woolen.

A Good Family Dessert.

One of the best family desserts can be made either in city or country of apples and stale bread, says Miss Julia Corson, in Harper's Bazar: Peel ten good sized apples, core and slice them, and stew to a pulp with sugar enough to sweeten; meantime thickly butter the sides and bottom of an oval earthen dish, and press all around them crumbs from the inside of a loaf of bread, having them nearly an inch thick; when the apple is done mix with it a tablespoonful of butter and one egg beaten; put the apple into the dish without disturbing the crumbs; over the surface put an inch thick layer of crumbs dotted with a few bits of butter, and bake the pudding until the crumbs at the sides are brown; turn a platter, just large enough to inclose the dish within its rim, over the pudding dish, quickly turn both upside down, so that the pudding will slip out on the platter, dust it with powdered sugar, and serve it hot.

Devices in Floor Coverings.

Out of a discarded carpet of large size enough that is bright and clean often be cut to make a square or rug for the center of the room; then the floor around can be stained with walnut or cherry stain. This fashion of rug and stained floor is in every way desirable in summer time. It gives a cool, refreshing, artistic appearance to the room; it does away with the dust constantly arising from an old carpet, for the rug can be taken out of the house and beaten clean whenever necessary. Unfortunately some floors are too rough and poor to be stained. In that case take the good parts of the old carpet to cover around the sides of the floor and buy for the center of the room one of the "squares" that come for that purpose.

New and Dainty Pillow Shams.

Among new things in pillow shams are white silk handkerchiefs of small size joined together with antique insertion and trimmed around with antique lace. Cream white, soft pink, pale blue, or yellow handkerchiefs, small in size and laid over a Silesia lining, are just now a pretty fashion in shams for guest chambers. For every day use small linen handkerchiefs joined with Torchon and edged with the same are received with great favor, for they are not only pretty and inexpensive, but they do up charmingly.

An Ornamental Laundry Bag.

A pretty Turkish towel furnishes material for quite an ornamental laundry bag. Get one of the pretty blue and white or pink and white towels. Make this into a bag by joining the sides and running a casing around it about four inches from the top, through which run a ribbon drawstring. Fasten pretty ribbon bows on each side and hang it from the dresser by a loop of ribbon.

Remedy for Red Ants.

A housekeeper says that red ants may be banished from pantry or store rooms by strewing the shelves with a small quantity of cloves, either whole or unground. The former are the more likely to get into food placed upon the shelves. The cloves should be renewed occasionally, as after a time they lose their strength and decay.

Fine Basket Plants.

One of the best of basket plants is oxalis floriboda. It is very easily grown and produces a profusion of bright flowers nearly all the year.

Convenient for Lunch or Tea.

Boned turkey or chicken keeps quite a long time and is therefore a very convenient dish to have in the house for lunch or tea. The simplest way to prepare it is to boil the fowl until the meat separates readily from the bones. Then remove the skin, chop and mix the light and dark meats; season with salt and pepper and any spices you may like to add. Boil down the liquid in which the chicken or turkey was boiled and pour over the meat. Shape it like a loaf of bread, wrap it up tight with a cloth and put under a heavy weight for several hours. Slice thin when serving.

A Tempting Delicacy.

Orange cream prepared in a new and tempting delicacy composed with the juice of six oranges, one-fifth of a pound of white sugar, one pint of boiling water and six eggs. Beat the yolks, add sugar, orange juice and water, and stir over the fire until it thickens. When cool, pour into glasses and on each one put the beaten whites of two eggs beaten and flavored with a little of the juice.

JOTTINGS.

—Men were engaged to-day ceiling the overhead railroad bridge.

—During this week there is only one session of the Public Schools, closing at one o'clock.

—Mr. L. Heyinger's branch flour and feed store, on North avenue, is to be opened to-morrow.

—Bargains are profuse now at Edsall's "special sale," and the wise ones are reaping a rich harvest.

—The dry-goods clerks are making an effort to have the stores close at seven o'clock. Will the people help them?

—The new 1,200 light dynamo, placed in the electric light plant last week was tested Saturday evening and gave entire satisfaction.

—The "Actives" defeated the Crescents in a game of base ball on the Park avenue grounds Saturday afternoon by a score of 24 to 23.

—Invitations are out for the reception of class of '87 at the High School on Thursday evening next from the hours of ten to one.

—The Plainfield Reform Club excursion to Rockaway Beach, affording a splendid sail of forty miles, will occur on Thursday, August 11.

—The members of St. Mary's T. A. B. Society held a special meeting in St. Mary's Hall at half-past five o'clock yesterday afternoon.

—An important meeting of the Devotional Committee of the Y. M. C. A. will be held at the Association rooms this evening immediately at the close of the Young Mens' Meeting.

—In the game of ball between the Potter nine and a Dunellen nine on the latter's grounds Saturday afternoon the Plainfield "boys" came off victorious by a score of 26 to 7.

—About fifty persons were in attendance at the Young Mens Meeting at Y. M. C. A. Hall last week. Mr. R. L. Bonney will lead the meeting to-night. Every young man welcome.

—A runaway horse attached to a buggy came up Front street this morning, and was going in the direction of Dunellen. The animal was caught by Michael Spillane on West Front street.

—The members of the La Favorita Social Club left this city Saturday afternoon in stages for Boynton Beach where they spent several enjoyable hours returning about nine o'clock in the evening.

—A lodger in a Grove street boarding house yesterday accused a fellow-boarder of robbing him of $10, but the accused's affidavit would be proven against the accused so arrests were made. There was a lively time around the boarding house for awhile.

—A young man from beyond New Brunswick drove to Plainfield to see his best girl on East Second street last night. When about seven miles up he undertook to place his team under shelter and in the darkness the vehicle collided with a fence and was so badly damaged that the young man remained in town until noon to day.

—During a festival at the Washingtonville school house on Thursday evening a horse and phaeton belonging to Mr. Vanderbeek were stolen from the place where they had been left standing. On Friday mornig it was found in the yard of David Codington, about three miles beyond Mt. Bethel. No clue could be ascertained as to whom the thief might be.

—Speaking of the re-union of the Eleventh Regiment Association in Plainfield a writer in the New Brunswick Fredonian says: "Much credit is due the regimental and post committees of Plainfield for the thoroughness of their arrangements and the warm welcome lavished upon us. . . . The collation was bountiful, and was the more appetizing from being served by the delicate hands of ladies who are members of Winfield Scott Relief Corps, No. 10."

—The Lumber Trade Journal for June has the following: "If any of our readers are suffering from that terrible malady rheumatism, they will be glad to learn that Rochelle Salts taken in teaspoonful doses dissolved in water about two hours apart, will in eight cases out of ten, effect a cure in forty-eight hours. We have tried it in at least 100 cases among our friends since our first personal experience with it fifteen years ago, and have had the satisfaction of knowing that it was efficacious in at least the proportion stated."

Cat With a Razor.

A cutting affray occurred at the house of a colored man named Perry on Plainfield avenue between Third and Fourth streets Saturday night about twelve o'clock, in which James O'Neill, colored, was severely cut about the face and neck with a razor. The rumpus started over a game of cards in Perry's house. Several colored men were playing poker and a dispute arose over a difference of five cents in the pool. Fields and Fields accused O'Neill of quarrelling about the matter and finally started a fight. The latter avers that Fields is continually raising a row about something and he wanted to squelch him for once. The crowd attempted to separate the men and in the melee that followed Field drew a razor and slashed at O'Neill several times. One pass was directed at his face. He dodged back, but had the left side of his face laid open just below the eye. The next time he was cut in the neck, and the third time Fields struck at him he carved his clothing at a lively rate, but did not draw blood. The men were separated and O'Neill was taken home and his wounds were dressed by Dr. Hedges. The man was in bed this morning when a reporter called at his house on West Fourth street. His wounds are painful, but not serious. Mrs. Perry was aggravated as to the card playing and cutting affray at her house, but pleaded that she knew nothing about the affair, any more than she heard some loud talking after she went to bed Saturday night. This was after twelve o'clock. No arrests have yet been made by the police and O'Neill says that Fields is keeping very shady for fear he will enter a complaint against him.

AMONG THE CHURCHES.

THE NEW PASTOR AT TRINITY REFORMED CHURCH.

His Sermon to His New Charge in The morning—Song Service at The Crescent Avenue—The Bishop at Grace Church.

Rev. Cornelius W. Schenck, the new pastor of the Trinity Reformed church, appeared before his new charge yesterday morning, and was greeted by a large congregation. His sermon was on the relation of the pastor to his people, and the subject was handled in an impressive manner. Mr. Schenck is of medium height and build, and has a fair black wavy hair and moustache. He at once attracts attention because of his earnestness, and he seems to throw his whole soul into the work before him. He speaks distinctly and not too fast, so that every word is understood. His movements are graceful and everything about him betokens careful training, hard study, and the true gentleman.

Mr. Schenck's sermon yesterday morning was taken from the text found in Romans 1, 10-12: "For, I long to see you, that I may impart unto you some spiritual gift, to the end ye may be established in the faith, that I may be comforted together with you by the natural faith both of you and me." Said Mr. Schenck: "In these words you have the impulse of the heart, and the purpose of the life of the great Apostle of the Gentiles. That desire of Paul to be with these people was satisfied, but how strangely. Three or four years after this he entered Rome, but how strange his going. He did not enter as a free ambassador, nor in pomp, but as a prisoner in bondage. But the impulse of love toward those people was too strong to be easily overcome. He desired to go to Rome and he went; and it mattered not to him how he got there. His object was that he might impart to them some spiritual gift, and in the realization of this wish and the accomplishment of this end he found his reward. You see Paul learned this great lesson that we are so slow to acquire. We become good by doing good Paul realized this and we should not forget it.

"Our text gives us the pastor's wish and the pastor's work, and in this I wish to apply particular application to myself, but because it is appropriate. The circumstances attending this occasion you are acquainted with, so that we will pass on and first consider the pastor's work. When Paul said he wanted to see Rome he meant all he said, and so it is with those who are called to the ministry. They have a desire and an intense longing to see those over whom they are to preside. Those of you who were in the late war know how hard it was to suffer enforced absence from the field of strife when brothers in arms were arrayed against the foe. Such a feeling may be said to supply to the pastor. He is the leader; his place is at the head and he is desirous to be in the thickest of the fight with his people about him. Such a desire is easily accounted for in his peculiar position toward the people, and that is the King's wish to serve God desire to be gathered about him. The church is a great family, and all its branches and followers are born of the same Divine Spirit. When one of its children suffers we all suffer; we all share our troubles together. So you let us consider the relation of the pastor to his people. There is a longing both on the part of the pastor and his congregation to know each other, and many conjectures are doubtless indulged in as to what these impressions may be. He is a leader, a shepherd, and his flock are all members of one household. His work is that he may impart to them spiritual knowledge and blessings. We are not here to impart secular knowledge nor to cater to the tastes of any particular people, but to minister to the spiritual needs of all and to preach God's word as we find it. Perhaps you may say it is a large contract, but the secret of a minister's power comes from God. That is where Paul received his power, and we are all instruments in the hands of God. It is no wonder that so many have labored in foreign fields in the face of many difficulties, when it is remembered that He is with them and strengthens them. Moses was weak and Joshua was but a poor mortal, but God was with them. Martin Luther was nothing within himself, yet how much did he accomplish with God's help. John Motts was physically weak, but what a power he became when the spirit of God sustained him. Beloved brethern, this is the secret of our power, and I would that He will increase our capacity and fill us more energy.

"So much for the pastor's wish and work," concluded Mr. Schenck, "and now for his reward. Listen to what the apostle said: 'That is, that I may be comforted together with you by the mutual faith both of you and me.' He who seeks to bless others is himself blessed, and by doing good we ourselves are helped. No doubt there are some here who have attempted some good work which, for some for some reason, failed; but did your heart fail you? Our reward lies in the consciousness that we have tried to do our duty; that we labored earnestly in the cause before us, and for this good rewards be in order to accomplish much work there must be unity in the church—a oneness among it members. The church is a necessity to the pastor and the pastor a necessity to the church. When oppressed with care how thoroughly do you enjoy the companionship of some sympathetic friend, and how much relief does a good talk with such a friend afford you. We place experience against experience and are thereby comforted; but we are prone to speak of Divine faith. Men talk on almost every other subject, but this they seem to shun.

"After our relations toward each other shall have been fully established, it is to be hoped that we may work together in harmony and accomplish much good. Let us take hold of our work earnestly. The demands are great. Life is short and the issues uncertain. Let us as soldiers of King Emanuel close our ranks until we touch shoulder to shoulder and then march steadily onward."

"Blest be the Tie that Binds" was sung in conclusion and the congregation dismissed.

Crescent Ave. Song Service.

The Service of Song at the Crescent Avenue Church last night was thoroughly enjoyed by a large audience. The music was excellent and the singing rendered in that superb manner for which the Crescent Avenue church people are famous. Mr. Richards said in his sermon that it was in no sense a concert, neither sacred nor profane, it was for the purpose of praising God, and he believed that one of the best ways of praising His name was by music and song. The program was as follows:

Organ—Overture to Athalie ..... Mendelssohn.
Heaven and the Starch Display (Athalie) ..... Mendelssohn.
Mrs. J. K. Myers, Miss Alice Holmes, Miss Cam. O. Dunn, and Choir.
Fountain of Love Eternal—Trio ..... Campana.
Mrs. J. K. Myers, Miss Alice Holmes, James S. DuBois.
Lord with Glowing Heart I'd Praise Thee ..... Jahnke.
Male Chorus.
Light of the Better Morning—Solo ..... Buck.
Miss Alice Holmes.
Draw Nigh to Me, Weary ..... Lassen.
Choir.
Sermon—(Psalm 103: 2) by the Pastor
"Bless the Lord ALL His Works."
Be Thou Faithful—Solo ..... Mendelssohn.
James S. DuBois.
When Thou Comest ..... Rosini.
Mrs. J. K. Myers and Choir.
Organ—Priests' March (Athalie) .. Mendelssohn.

SOPRANO.	ALTO.
Mrs. J. K. Myres,	Miss J. L. Demarest,
Miss Alice Holmes,	Mrs. S. R. Struthers,
Miss Annie H. Gilbert,	Miss Clara O. Dunn,
Miss Augusta Holmes,	Miss M. E. Demarest,
Mrs. Prof. Newman,	Miss E. Newman,
Miss M. Lulu Kaufman,	Miss C. Dewey.
Miss Carrie T. Hill.	

TENOR.	BASS.
Mr. S. R. Struthers,	Mr. A. J. Gavett,
Mr. E. R. Ryder,	Mr. C. A. Baynon,
Mr. W. E. Gilbert,	Mr. W. F. Kaufman,
Mr. S. W. Bousall,	Mr. F. E. Newman,
Mr. Chas. W. Beebe,	Mr. Eugene Fuller.
Mr. Jas. S. DuBois.	

Miss Jessie M. Utter, Organist.
Mr. I. C. Pierson, Leader.

"What is the chief end of man?" asked Rev. Mr. Richards in begining his sermon. "I hope all the young people will remember the answer to that first question of our catechism: 'Man's chief end is to glorify God, and to enjoy Him forever.' But the psalmist goes even further than the catechism; the chief end of every created thing is to glorify God, 'Bless the Lord, all His works, in all places of His dominion.'" The reverend gentleman then spoke of serving God with the voice and with music, and that we are taught that man's voice should be specially consecrated to the worship of God. "When we first proposed a service of this kind," said he, "I think there was a general apprehension among you that it might be nothing more than a sacred concert. I heard it called so more than once. A few words of Scripture inserted; perhaps a morsel of prayer, like grace before a good dinner, a minute apology of a sermon, all just to make an apology for holding the concert on Sunday evening. But it was to be a concert for all that, and people were expected to come just to enjoy the music. I know there was some such apprehension and I think it may have been general. I am confident that those who have come to attend those services are ready by this time to sustain me in the statement that this is not a concert, sacred or profane, but a religious service. It would be a service even if no verses of Scripture were read, even if no words of prayer were spoken since the end of the church even if the minute sermon were omitted altogether; for our purpose in coming here and inviting others to come here with us, is first of all to glorify God and only then to enjoy ourselves in the process.

"But good people are shocked sometimes," said Mr. Richards, "by anything that looks like innovation in the manner of Divine worship. They always have been shocked. King David's own wife was shocked when he threw aside his cumbersome royal robe and danced with all his might before the ark of the Lord, as it was carried toward the gates of Jerusalem. But the psalmist would not stifle his impulses of praise because of that woman's unsympathetic opposition. We offer no sort of an apology for holding such a service of praise as this; as if it were something we were a little ashamed of. Far from it; we are just trying to become nearer the chief end of man —to glorify God; and if glorifying God brings enjoyment to us we shall not refuse it."

The Bishop at Grace Church.

Bishop Scarborough made his annual visitation to this parish yesterday. Morning prayer was said at 9.30. The second service commenced at 10.30, with the litany, sermon by the bishop, from the text, found in Acts ix., 6: "Arise, and go into the city, and it shall be told there what thou must do." From these words the preacher drew the necessity of obedience to the heavenly direction. It would have been more agreeable to Saul to have gone and engaged in some work at once, but he was commanded to go into the city of Damascus. There he spent three days in blindness and constrained illness, so far as any active work was concerned. But his mind and heart were no doubt actively employed. Shut out from the world, in stillness and seclusion, we can imagine him taking reviews of his past life, repenting of his sins, imploring pardon, meditating upon God's goodness and forbearance towards him, and forming plans and making resolutions for the future. And at the end of this period of retirement he was, as he said afterwards, obedient to the heavenly vision. The bishop then drew from the deeply interesting scenes of the Saul's conversion the necessity of faith. Through all his subsequent trials and persecutions, which were so many and so grievous, his faith in God, in His word and church, in His blessed promises never failed. Whether shut up in prison or tossed about in the ship, as he was journeying towards Rome, whether the Jews were seeking to kill him, he had an abiding confidence that his God would deliver him and keep him until his work was accomplished.

At the close of the sermon the persons to be confirmed were called to the chancel, when seventeen young men and women came forward to ratify their baptismal vows in the apostolic rite and to receive grace to help them in the battle of life. It was an impressive sight to look upon, these young people, standing before the altar of God's church, which had been adorned with a bountiful crop of pure white flowers, to make their vow of consecration to God and His service. In earnest words the bishop encouraged and exhorted them to go on and continue faithful to the end, that they might obtain the crown of life that fadeth not away. At evening service the bishop preached again from Psalm 106, 15: "He gave them their request; but sent leanness into their soul."

PERSONAL.

William Brown of East Sixth street has accepted a lucrative position at Boston.

Miss Mamie Farley of New York spent yesterday with friends on West Fourth street.

Mr. and Mrs. Charles G. Crawford of East Fifth street, are at the Sea Side House, Atlantic City.

Elias Hodgkiss of this city has purchased the right for New Jersey for a newly patented fountain pen attachment.

Mr. D. F. Curtis has rented Mrs. Hegeman's handsome residence on Sycamore avenue and will take possession July 1st.

Mr. Wm. Day of New York, has rented Major Job Male's new house, corner of Broadway and Carlton avenue, and will take possession July 1st.

Mr. H. H. Baker, who is numbering the houses of this city, states that he is now engaged in the third and Fourth wards, and that the people generally highly approve the action of the Common Council.

The reception to be tendered to Rev. Cornelius W. Schenck, the newly appointed minister of Trinity Reformed church, will be held at the residence of Mr. Hegeman, Sycamore avenue, on Tuesday evening at 7.45.

Charles Leggett has purchased from Edward C. Hilford, the real estate broker, of North avenue, the lot situated on Madison avenue next to Mrs. Mazon's new dwelling and will soon build a handsome residence.

Edwin H. Lewis, the new Vice Principal of the Plainfield Public schools, graduates with the senior class of Alfred University at the commencement this year, which occurs on the 30th inst. There are seventeen graduates.

Dr. E. W. South, who gave up his practice here to Dr. O. L. Jenkins a few months ago on account of ill health, and went to Philadelphia has written a letter to his successor stating that he is improving and is now able to ride a bicycle.

Mr. F. X. Schoonmaker of Putnam and Kensington avenues has been invited by the Board of Trustees of the Job Male Library to give a lecture next Fall on Chinese Art, on which there is probably no better informed man in the country.

Miss Virginia E. Randolph, daughter of ex-Mayor Randolph, Mrs. P. F. VanArsdale, Mrs. F. O. Herring, and Miss Minnie Tomlinson are stopping at "The Kittatinny," Delaware Water Gap. They left this city last Thursday and will return next Thursday.

George W. Hodgkiss, of Chicago, a brother of Elias Hodgkiss of this city, on June 1st purchased the Lumber Trade Journal, the great trade paper of the lumber men in the West. It is published in Chicago, and with Mr. Hodgkiss as the editor, it must grow even more popular than hitherto, as he is an experienced journalist. He was formerly secretary of the Lumberman's Exchange, and has a wide acquaintance among lumbermen.

Mr. L. J. Briggs of Arlington avenue was with his wife and children until last May a resident of Brooklyn. He is in the wholesale dry goods business of the Gloucester Manufacturing Company of Philadelphia, he being in the New York branch of the concern. The family like all people coming to Plainfield, have many friends here. Plainfield is becoming colonized by Brooklyn people, and very good people they are too.

This is something to be proud of. Of the 1,600 paintings sent this year, to the National Academy of Design, but about 500, or less than one-third of the number, were accepted, so rigid was the calling by the examining board. Of the accepted pictures the artists whose paintings adorn over the art gallery a very fair proportion. These artists are Julian Scott, Tait, Daingerfield, Albert Insley, Waters, Cropsey, and G. W. McCord, and the chief place in the gallery is given Mr. Scotts painting, "The Death of Gen. Sedgwick."

A Lively Prisoner.

F. Braender, a mason and builder of 1644, Avenue B, New York, owns a farm in Washington Valley, and a German named John Brandes, sometimes known as "Wild John," had charge of it. Recently Mr. Braender became aware that numerous articles were disappearing which could not be accounted for, and he became suspicious that John was the guilty party. It was finally discovered that he had disposed of a quantity of grain, manure, poultry, and it said that a cow in addition. He was arrested this morning by Marshal Bockner and taken to the borough lockup. The Marshall liberated the prisoner a moment while he unlocked the door, and when he looked around for Grandorf he saw his coat-tails gaily fluttering in the distance. The Marshall quickly gave chase, but John had the lead and he scudded along before the wind with all sail set. He was contemplating travel at a lively rate up the Green brook road when Isaac Squire ran across his bow and took the wind out of his sail. John was a sorry-looking specimen as he sat in the little borough sweat-box this afternoon, with the perspiration streaming from every pore in his body. He said this bom and himself had a little falling out about some money matters. He will doubtless have a hearing before Mayor Cooley to-morrow morning.

Netherwood Chapel.

Bishop Scarborough went by invitation to this chapel yesterdaoon at four o'clock. Evening prayer was said by the Rev. Dean Rodwell, rector of the church. Rector Murphy, of the Holy Cross church and the Bishop preached on the Parable of The Supper. At the close of the service, a conference was held as to the proper methods to be adopted by the congregation for its future development. After a full and free discussion of the matter, it was decided to appoint a committee of five, submitted to the Standing Committees of the Diocese for their decision.

Bicycle Trip.

Frank L. C. Martin left Plainfield Saturday morning at 5.15 o'clock and rode to Princeton passing through Dunellen, Bound Brook, Somerville, Belle Mead, Plainville, Harlingen and Blawenburg arriving in Princeton at 9 o'clock where he met his sister Bessie who is visiting their cousin in Princeton. At four o'clock he started for home by way of Kingston, Franklin Park and New Brunswick reaching Plainfield at 9.30, having ridden 77 miles. He reports the roads as being in splendid condition.

—The Sunday school of the Crescent avenue church will meet in the morning during the warm weather. The evening service will begin at five o'clock. The Lord's supper will be celebrated in the church next Sunday and applications for membership received.

Thermometer Record.

The following is the record of the thermometer for this day as it stood at corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

1887	1886	
6 a. m..... 66	58	Sun rises..... 4 28
9 a. m..... 75	65	Sun sets..... 7 34
12 m..... 82	74	Moon rises.....
3 p. m..... 92	85	Moon sets..... 4 1

Weather Indications.

For Tuesday in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair weather, with slight changes of temperature.

Drowned in the Canal.

NEW BRUNSWICK, June 20.—Joseph Chneider, a wealthy brewer residing here was taken suddenly ill last night with hernia in a dangerous form. His recovery is doubtful. Four physicians are holding a consultation on his case this afternoon.

The Black Orator.

The Rev. Mr. Honeyman opened the Reformed Hall meeting last evening with prayer, and after a hymn, in which the large audience present took part with spirit, led by Freeholder Vanderbeck and a choir of seven voices, Miss Smith at the organ. President French introduced Rev. J. H. Hector, the exceedingly eloquent black orator, whose odd dress held the audience with close attention from beginning to close, frequently provoking laughter at his quaint way with and humor with which he seemed bubbling over, but used with telling effect to strengthen his excellent arguments. At a large meeting at Cooper Institute, New York, a week or so ago, he earned the title of the black orator, and that the long continued applause made it impossible for him to proceed for some moments. He drew a parallel between the races which were decidedly original. He likened the saloons to weeds, which unless buried under, to give the good soil a chance to come to the surface, would not only overrun the soil but would kill all the good corn and wheat, just as the saloons will put good citizens under, unless be good and happy citizens, and just as it ruins homes.

He said, why not license to swear as well as to sell rum? Charge $500 for the privilege of standing on the highways and swearing every day, on condition that the swearing must cease at twelve o'clock at night and on Sundays. There is just about the same sense in it as licensing saloons to destroy our homes. He spoke also very highly of his visits yesterday afternoon to the Sunday School and Sunday School, conducted by Presbyterians and to the Colored Baptist Church. He said he saw a sight that he would never forget. That when he said, were the white ladies sitting beside the black people instructing them in the way to Christ. They were not afraid the black would rub off and soil them, and no one could tell him that those white people were not true Christians.

Mr. French made a few remarks. Mr. Hector made a closing appeal, which secured several signers, and the meeting was concluded with the benediction.

A New Drug Firm.

Papers were signed this morning transferring the drug store of Dr. William H. Voorhees on West Front street to Messrs. Field and Lewis Warren Randolph. The new firm will do business under the firm name of Field & Randolph. Both gentlemen are well known in Plainfield. Mr. Field is a native of Clinton, N. J., where he carried on drug business in the store of Mr. Baker. He was there about six years when he came to Plainfield and has been in Dr. Voorhees's store for about two years. Mr. Randolph is a native of Plainfield and for eleven years past has been employed in the drug store of Mr. H. P. Reynolds. Both young men have a large circle of friends who wish them success in their enterprise. Dr. Voorhees is a member of the firm of French, Peck & Voorhees, manufacturers of children's clothing at No. 1 West Third street, New York, and will devote his attention to that business. This firm was recently organized and is already doing a thriving business. Messrs. Field & Randolph will leave their present positions and formally assume charge of their new business on the first of July.

Popular Sport.

There was a good attendance at the Fair Grounds on Saturday afternoon to witness the trials of speed between horses owned by members of the Driving Club. A number of ladies and many well known gentlemen were present. The trotting was good and all seemed pleased with the entertainment. Following is a list of the races:

FIRST RACE.

"Echo," br. m.	J. Beaven (to wagon), 1.9
"Harold S.," b. g.	J. H. French " 2.1
"Doctor," br. g.	N. Robin " 3.3

Time, 3.05 3-4; 3.05.

SECOND RACE.

"Tom McCrann," b. g.	J. C. Zimmerman (to wagon), 1.1
"Ledger," br. g.	E. J. Waring (to wagon), 2.2

Time, 2.42 1-2; 2.42 1-2.

THIRD RACE.

Time, 2.34 1-4, 2.31 1-2.

FOURTH RACE.

"——," b. m.	S. D. Kelly (to wagon), 1.1
"——," br. m.	T. Pullis " 2.2

Time, 2.47; 2.44 3-4.

Died.

MAHON—In Brooklyn Sunday June 19, Elizabeth Colbert, widow of the late George Mahon.

Funeral services will be held at her late residence 19 Lee avenue Brooklyn, Tuesday afternoon at half-past two o'clock.

Interment at Cypress Hills, Wednesday morning.

NOTICE—The Plainfield Gas Light Co. would call the attention of gas consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the gas stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office, cor. Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL Rates *will be made for Gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be RENTED at Moderate Rates.*

The Plainfield Gas Light Co.

Marine Intelligence.

NEW YORK, June 20.—Arrived—Panama, Havana; La Bourgogne, Dorian, Gibraltar; Montana, Glasgow; Borodo, New Orleans; Ohio, Liverpool; City Point and Norfolk; Ocean, Hermann, Winter, Boston; Cassandra, Kitts; Alaska, Matanzas; Rose Standish, Hall, Baltimore; Sarah Eaton, Barks Lillian, Windsor, N. S.; Zeta, Elba, Port Royal, S. C.; Syria, Port Spain; Ida Bourgeois, Belize; Brownie, Matanzas; G. D. Zeilin, Nassau; Belgium, Nuevitas.

The Guards Under Arms.

COLUMBIA, S. C., June 20.—Col. J. H. Trayham, of the governor's staff, and Adj. Gen. Bonham are still in Laurens in getting the threatened uprising of negroes. The Laurens Guards are under arms awaiting orders from the governor. The trouble is centred eighteen miles from the town of Laurens and considerable alarm in the county are unabated.

To Flee Again to the Mountains.

WASHINGTON, June 20.—President Cleveland is making arrangements for another short vacation in July before he goes west. This time it is said he will go to some place near Washington, probably to the mountains of West Virginia. The plans for the journey are all completed, but the details will be denied the public until the party is ready to start.

Jack Hussey Nearly Well.

NEW YORK, June 20.—At Bauer Market police court a complaint will be made against a dispatch signed by Philip O'Hanlon, M. D., and from Gouverneur hospital, which said that "Jack Hussey's condition was still dangerous." Those who took an interest in the hour last night was answered by the statement that Hussey was doing well and won't in a few days be in a condition to be discharged.

Newark to Honor Fairchild.

NEWARK, N. J., June 20.—The Newark Grand Army posts are making preparations for a great demonstration in honor of Gen. Fairchild, commander in chief of the Grand Army of the Republic will visit this city on Newark next Monday. Invitations to be present have been sent to every post in the state and to some of the leading posts in the country.

Only a Misplaced Switch.

CHICAGO, June 20.—A misplaced switch caused an engine collide with an outbound passenger train on the Chicago, Burlington and Quincy road at Western avenue yesterday. An unknown laborer, riding on the platform of the mail and Engineer Venard received serious injury.

Fatal Fall from a Window.

NEW YORK, June 20.—Robert Anderson, who has been rooming with Charles Hagstrom, at 110 Cherry street, fell from the window of his room to the ground at 8:30 o'clock yesterday morning. He was taken to the Chambers Street hospital, where he lived only two hours.

Affirming the Sentence of Maxwell.

JEFFERSON CITY, Mo., June 20.—It is expected that the supreme court will to-day hand down a decision in the Maxwell murder case, affirming the judgment of the St. Louis court. Maxwell murdered C. A. Preller, an English commercial traveler, at the Southern hotel on April 5, 1885.

Shot Down Like a Dog.

NEWARK, June 20.—Joe Antonio, an Italian laborer, 33 years old, of Clifton avenue, in an altercation with Jievassy Julian, a countryman living on Drift street, fired two bullets into the latter's brain at 9 o'clock last evening, killing him instantly. The murderer escaped.

Killed by a Moving Train.

WILKESBARRE, Pa., June 20.—John Dwyer, a resident of Pittston, aged 30, attempted to jump upon a moving freight train on the Delaware, Lackawanna and Western railroad, but he was thrown under the wheels and instantly killed.

Victims of a Mine Explosion.

WILKESBARRE, Pa., June 20.—Patrick Berrett, one of the victims of the mine explosion in the tunnel shaft at Pittston, died yesterday. Michael Finan, another of the injured, is not expected to live during the night.

An Oil Tank Struck by Lightning.

BRADFORD, June 20.—Tank No. 17 of the Tidewater Pipe Line company, located at Carrville, seventeen miles east of here, was struck by lightning yesterday afternoon and burned. It contained 35,000 barrels of oil.

The Business Section Wiped Out.

BLOOMINGTON, Ill., June 20.—A fire occurred at Washburn, Woodford county, near here Saturday, which left but three business houses standing, on of which is the postoffice. The loss is estimated at $150,000.

An Election Row.

VIENNA, June 20.—At Matterdorf, Hungary, Saturday, during an election the gendarmerie were attacked by Croatian electors. In the conflict, five of the citizens were shot dead. The election was suspended.

A Connecticut Journalist Dead.

HARTFORD, Conn., June 20.—A. S. Hotchkiss, of the Hartford Times, died here yesterday at the age of 69 years.

STILL SPECULATING

AS TO JUSTICE WOODS' SUCCESSOR ON THE SUPREME BENCH.

The Appointee will be a Southern Man at All Events, and Many Mention Secretary Lamar, which Gives Opportunity for More Guessing.

WASHINGTON, June 20.—Speculation as to whom the president will appoint to fill the vacancy on the supreme bench occasioned by the death of Justice Woods, continues to be spasmodically fed by the publication of the wisecracks, at least, to put it mildly, of the would-be prophets. The yet to be utterer of the superb declaration that the reduction of the force and consolidation of the work the position was considered unnecessary. No person has been appointed to his place.

"I should, however, not be entirely frank with you if I did not add that there were grounds for considerable hope that the attorney general to make changes in the navy yards which might possibly have covered Mr. ——'s case. I have held now two years experience in this office, and I long ago came to conclude that the interests of the government would be subserved by an entire change throughout. It is necessary to have an attorney-general who will not only administer justice and a cleaner order of things; and the insidious influence of persons who have been long in the yards creates an unfriendly atmosphere in which nothing new is likely to live. Yours very sincerely,

"W. C. WHITNEY."

A MANIAC MURDERER.

He Kills His Brother-in-Law and Attempts to Hang His Wife.

PLATTSBURG, Mo., June 20.—Charles C. Molow, a maniac who escaped a few days from the State Insane Asylum, committed a series of terrible crimes in this neighborhood Saturday night. He had a brother-in-law, living a few miles from here, were the victims. He appeared Saturday afternoon, and, stealthily entering the house, crushed in the brother-in-law's head with the butt of an iron bar. He then seized his wife, and, drawing a pistol, compelled her to stand a prisoner until he secured a rope. With the pistol pointed at her head, he was then forced to march before her insane husband nearly a mile into a thick patch of timber. He then bound her hand and foot and prepared to hang her. Climbing a tree he fastened the rope to a limb. While he was adjusting it the frightened woman managed to free her limbs and started to escape. She ran and screamed for a mile, with the maniac at her heels, until his ammunition was exhausted. He finally captured her and led her to high bridge, where he placed the rope about her neck, and was about to push her off when a posse arrived. The murder of the brother-in-law had been discovered and an alarm given. Molow fled from Plattsburg, but the bridge with the rope about her neck, and she will die from her injuries.

THE FIRST LADY.

Refreshing Memories of the Old School Days at Aurora.

AURORA, Ill., June 20.—The commencement at Wells college began last evening, when the baccalaureate sermon was delivered at the Presbyterian church by Dr. Frisbee, of Philadelphia. Gov. and Mrs. Grover Cleveland was present, and also attended *divine service* in the morning at the same church, when Dr. Wells, the pastor, preached before the college and the cadets of the Military academy. Mrs. Cleveland is looking in excellent health and is evidently having a very enjoyable time. Her time is spent in riding and driving in the carriage about the grounds of the college, with an occasional ride to and from the depot and dock in the college 'bus.

This afternoon the mistress of the White House will be the guest of Mrs. W. H. Rogart at 5 o'clock tea, at which the trustees, faculty and graduating class will be present. On Monday evening the Cadets society concert will occur in the college parlors. Tuesday afternoon Mrs. Cleveland will attend the drills and reviews of the cadets of the Cayuga Lake Military academy.

The McGlynn Parade.

NEW YORK, June 20.—The McGlynn demonstration on Saturday night was all that its projectors predicted. More than 20,000 persons participated. Resolutions were adopted denouncing the attempts of the church to interfere in politics; expressing confidence in the honesty of purpose and admiration for the fearless advocacy of right on the part of Dr. McGlynn; a determination to effect by lawful means such changes as shall secure to the people equal rights in the soil, etc. Over 200 organizations marched through the streets, and from the time the head of the procession reached the reviewing stand, where sat Dr. McGlynn, who was constantly cheered. As each finish the popular divine, in response to repeated demands, addressed a few words to the crowd.

Out After Hours.

FLUSHING, L. I., June 20.—Much excitement was caused here last night by the ducking of Charles Doscher, a married man, in the fountain of the village fountain, by four men, whom he could not identify in the dark, but who are supposed to be members of a vigilance committee which was formed two years ago with the object of ducking in the fountain any married man found out after 11 o'clock unaccompanied by his wife. Doscher, who was thoroughly drenched, insists that the affair was a joke, seen and prosecute them. A half a dozen other married men have been ducked by members of the organization, under similar circumstances.

Horrible Discovery by a Young Woman.

ERIE, Pa., June 20.—William Barnes, an Englishman, who has been in this country three years, committed suicide Saturday night by hanging himself from the limb of a tree in the grounds of the poor house where he was boarding. The rope was so long that his feet touched the ground. A lady who knew Barnes was walking in the grounds yesterday morning and saw him standing, as she thought, under the tree. She approached, called his name and placed her hand on his shoulder. Moving slightly the body swung round and the distorted features of the dead man confronted her. Barnes has wealthy relatives in England.

Found Drowned at Bridgeport.

BRIDGEPORT, June 20.—Last Monday night about 12 o'clock a man under the influence of liquor was staggering about the docks. A few moments later a splash was heard under the draw of the lower bridge crossing to East Bridgeport. Two or three persons thought the sound was caused by a fish jumping on board. The harbor was dragged, and yesterday the body was found. The drowned man was James Close, an employee of the steamer Rosedale.

A South Carolina Earthquake.

CHARLESTON, S. C., June 20.—A sharp shock of earthquake occurred at Summerville at 4:37 yesterday morning. The roaring sound accompanying the shock was more alarming than has been heard since the great shock of last fall. No disturbance was felt here.

SECRETARY WHITNEY

Says Government Employes should Sympathize with the Administration.

WASHINGTON, June 20.—Recently a prominent citizen of New Jersey had occasion to write to the secretary of the navy on behalf of a friend who had received notification of his dismissal from the navy yard. The reply to the letter was to the effect that the information given by the administration to the civil service laws. The letter in reply to the applicant for the place of the unfortunate employe, is as follows:

"DEAR SIR: Thave your letter of May —, inclosing from Mr. —— relating to his discharge from the —— navy yard. It is the law of Mr. —— is only necessary to say that in the reduction of the force and consolidation of the work the position was considered unnecessary. No person has been appointed to his place.

"I should, however, not be entirely frank with you if I did not add that there were grounds for considerable hope that the attorney general to make changes in the navy yards which might possibly have covered Mr. ——'s case. I have held now two years experience in this office, and I long ago came to conclude that the interests of the government would be subserved by an entire change throughout. It is necessary to have an attorney-general who will not only administer justice and a cleaner order of things; and the insidious influence of persons who have been long in the yards creates an unfriendly atmosphere in which nothing new is likely to live. Yours very sincerely,

"W. C. WHITNEY."

A MANIAC MURDERER.

He Kills His Brother-in-Law and Attempts to Hang His Wife.

PLATTSBURG, Mo., June 20.—Charles C. Molow, a maniac who escaped a few days from the State Insane Asylum, committed a series of terrible crimes in this neighborhood Saturday night. He had a brother-in-law, living a few miles from here, were the victims. He appeared Saturday afternoon, and, stealthily entering the house, crushed in the brother-in-law's head with the butt of an iron bar. He then seized his wife, and, drawing a pistol, compelled her to stand a prisoner until he secured a rope. With the pistol pointed at her head, he was then forced to march before her insane husband nearly a mile into a thick patch of timber. He then bound her hand and foot and prepared to hang her. Climbing a tree he fastened the rope to a limb. While he was adjusting it the frightened woman managed to free her limbs and started to escape. A DECAPITATED BODY

FOUND IN A NEW JERSEY FOREST BY A FARMER'S BOY.

Another Mysterious Crime for the Detectives to Work Upon—The Identity of the Victim—Supposed to Have been a Peddler.

NEWTON, N. J., June 20.—Uncle Joseph McMickle, living on the road from Sparta to Stanhope, is the grandson of Thomas McMickle, who was killed in the woods by Indians. The woods that skirt his farm Saturday. Toward evening he sent a boy to hunt for the cattle. In going through a piece of woods about a quarter of a mile from the house the boy stumbled across the body of a man. It was very much mutilated. The head was cut off and stood about three feet off and ground toward it the body. The boy went back to the house and told Mr. McMickle what he had seen. McMickle at once notified Squire Daniel W. Gobble, of Byram township. The latter at once viewed the body and then went to Andover and telegraphed Coroner Roe and Prosecutor Simonson, of Newton. Coroner Roe, Prosecutor Simonson, Sheriff Kays and Under Sheriff Hedden, of this office and a coroner's jury summoned. After viewing the body the jury held a short investigation and then adjourned to meet at Andover on Saturday next.

All sorts of theories are advanced as to the probable cause of the supposed murder. The man was a tall, fine looking fellow. He was dressed in black clothes, with a cutaway coat. He wore overalls and rubber boots. Under this coat was a cardigan jacket. The pockets contained a pocket-book, razors, two bottles of pills and a bottle of some kind of liquid. The bottles were wrapped in a fragment of newspaper dated July 5, 1886. There were no papers of any kind about the person to identify him. He had a smooth face. The hair was dark, with occasional gray hairs. The body lay prone, with the head drawn down previously starting to spend the day. After taking a walk Wilson went into the surf for a bath, leaving Mrs. Wilson at Kippe & McCann's pavilion. Wilson, who was a powerful swimmer, after spurting in the surf for some time, swam a considerable distance out to sea near Applegate's pier. A little latter George Massey, of this city, who was bathing, heard cries for help and saw Wilson struggling in the water. He at once went to his relief and caught him as he was sinking, but unfortunately Massey was himself seized with cramps in his right hand, and in trying to get another hold missed his grip and Wilson sank out of sight. Two other parties went out in the surf boat, but nothing more was seen of the drowning man. Wilson, who was undoubtedly the victim of a severe attack of cramps, was about 30 years old. He had been married about five months. His widow is the daughter of Richard Bingham, of West Philadelphia. The body has not yet been recovered. Massey, who made a gallant attempt at rescue, has saved six lives from drowning.

Governor Beaver's Economy.

HARRISBURG, Pa., June 20.—Governor Beaver has disposed of all the legislation before him. He approved 275 bills and vetoed absolutely, or in part, eighty-one bills. Under the constitution the governor is empowered to veto items in appropriation bills, about forty of which were partially disapproved. The governor cuts down the appropriations made by the legislature about $2,000,000, to bring the expenditures of the government within the anticipated revenues. Many charitable institutions suffered in consequence. Some of them, which have been accustomed to obtaining state aid, got no money.

Crazed by Opium.

PHILADELPHIA, June 20.—Mrs. Marie Van Slyke-Dotson, a resident of Madison, Wis., was brought here from the bathroom window of the private hospital of Dr. Mitchell on Arch street, and was almost instantly killed. She was 27 years of age, and an unfortunate victim of the opium habit. With the hope of effecting a cure her mother brought her to this city the early part of the week and placed her under the care of Dr. Mitchell. The case was investigated by the coroner, and after hearing several witnesses, the jury returned a verdict in accordance with the facts as above stated.

Killed by His Stepson.

SAVANNAH, Ga., June 20.—Willie Wingard, 16 years old, shot his stepfather, Edward E. Thomas, yesterday. Thomas had been treating his wife cruelly, and she went to the house of her father, William Tant, and told him and her mother of it. Mrs. Tant and Mrs. Wingard, and her son, Edward, visited the house of his stepfather. Entering Thomas' bedroom and finding him asleep on the bed, he fired two shots at him. Thomas died in death in a few moments. Wingard gave himself up.

Jake Sharp in Jail.

NEW YORK, June 20.—Sheriff Grant refused to run the risk of holding Sharp outside of prison bars after the testimony of Pattis had been presented, fearing that the Brilo river would make an attempt to escape, and yesterday he placed him in the Tombs for safe keeping. He was allowed to spend yesterday at his home, accompanied by officers, and last night he was returned again to the prison.

A Fatal Blow with a Hoe.

WHEELING, W. Va., June 20.—At Raleigh Court House Thomas Lemon and Charles Adkins had a dispute about a pair of gloves while hoeing corn. During the struggle Lemon struck Adkins on the head with his hoe, fracturing the skull and inflicting a fatal wound.

OVER THE HORSESHOE FALLS.

The Reasonable Suicide of T. Trigg, of Washington.

NIAGARA FALLS, June 20.—About 4:30 o'clock yesterday afternoon a party of visitors who were viewing the scenery from the Three Sisters Islands observed a middle aged man, elegantly dressed, standing on the third bridge which connects the islands. Looking back a few moments he was seen to mount the railing and spring by the middle. He was not seen leaping from the bridge into the water. The party were at too great a distance to do aught but stand and witness the fatal leap. The body was taken from the water by the Bridge shoe Falls. Hastening back to the bridge the party found the coat and hat, and on the bride railing was a chalk mark evidently made when by the suicide. It was at the spot where he made the leap. From papers found in the pockets of the coat, it was learned that the man was F. Trigg, of Washington, D. C., a guest at the International hotel for three or four few days. The hotel people know nothing about the man except that he had come there a few days ago and registered as stated. The body was brought to this city and taken to reaches Lewiston, eight miles down the river, which will not be for two or three days.

AMATEUR ROAD AGENTS.

Secure but a Fraction of the Wealth Expected.

BALDWIN, Mo., June 20.—The Baldwin and Manchester stage, which runs from here to Barrett's, on the Missouri Pacific, twice a day, was stopped yesterday afternoon while returning about a mile from Barrett's, by three masked men. The men were concealed in the thick undertrush, which skirts the road on both sides of the stage, with its fifteen passengers approached, the robbers advanced with drawn revolvers, and ordered Mr. Bennett, the driver, to stop and the passengers to fall in line.

There is some dispute as to the number of men actually engaged in the robbery, some of the passengers asserting that there were six with drawn revolvers concealed in the underbrush to cause any resistance should be offered. The masks worn were made of red handkerchiefs with holes cut into them, and one man had the sleeve of an undershirt drawn over his head as the only covering. Considering the amount of money and valuables on board, the robbers made a poor haul, as the express only about $400 out of $5,000 in money, watches and jewelry in possession of the passengers.

ALL THREE BETTER.

The Emperor, the Prince and Bismarck Rapidly Recovering.

BERLIN, June 20.—The sick men have concentrated the attention of all. Germany upon themselves to such an extent that during the past week politics and general news have given way to reports about the health of this one or that one of the famous invalids.

The emperor passed the crisis of his illness last week, but not until Thursday did he begin again anything like his regular routine.

Bismarck is better. On Thursday he saw both the emperor and Prince William. His summer rest will, it is said, put his health again beyond the danger point.

At present, according to Professor Virchow and other very eminent authorities, the crown prince is the best off. Dr. Mackenzie is in much better condition than many other persons who have been completely cured of this throat trouble.

Giants at War.

AKRON, O., June 20.—A murder of a giant took place in Peninsula, twelve miles north of here, yesterday. The victim was W. B. Armfield, of Raleigh, N. C., aged 50, who stood six feet five inches and weighed 320 pounds, had been in Peninsula, and his presence was not welcome. He got into a dispute with a saloon keeper, one D. A. Garvey, also a giant, when the latter struck him several blows with a hammer, one blow penetrating the crown of the skull over the left ear. Armfield's hands were also chopped up, his nose was split open and three ribs were broken. The saloon keeper followed Armfield into a blacksmith shop where he did the bloody work. Garvey has been taken into custody.

Murder of a Foundry Watchman.

CLEVELAND, O., June 20.—A mysterious murder was committed here Saturday night. Benjamin Frasse, 60 years old, night watchman at the foundry of E. C. Austin & Co., on Central way, was found yesterday morning lying on a bench near the furnace, with the back of his head crushed in. He was able to breathe, but could give no account of his injuries, and died soon afterward. Frasse was not known to have any enemies, and had no money with him. The watch he had to pay, which he drew Saturday night, was in his pocket undisturbed. The police have a slight clew, upon which they are working.

An Incendiary Clergyman.

SHELBYVILLE, Ind., June 20.—The Bethel Baptist church, ten miles south of here, was burned Saturday night. Rev. Samuel Snapp, Charles Colee, was caught and put in jail. He confessed and swore out an affidavit for the pastor, Rev. William Snapp, as an accessory, alleging that the pastor paid him $50 to burn the church. Colee says Snapp wanted the church burned because some of the members had charged him with adultery with one of his congregation. Colee is 20 years old, unmarried, and a son of John Colee, recently released from the penitentiary.

Both Hands Amputated.

NEWARK, N. J., June 20.—Walter E Alexander, whose hands were crushed in a rolling machine at the Mutual rubber works on Friday, has had both hands amputated at the wrists. The operation was performed on Friday night, but until yesterday the boy thought that only part of his hands had been taken off. The boy's parents are in independent circumstances, and a subscription has been started to procure him a pair of artificial rubber hands, which will cost $100.

Lost in a Pleasure Craft.

CHICAGO, June 20.—At 6 o'clock yesterday evening George W. Baker, W. B. Miller and Edward Clark left the foot of Thirty-fifth street in a small sailboat for a cruise on the lake. A severe thunder storm came up from the northwest swept over the lake, and at that time several pistol shots were heard from the direction the young men had taken. A tug went out in the storm, but returned, but no trace of the boat or its occupants could be found.

Lost in a Duckey Shop.

CHICAGO, June 20.—Sidney Soule, bookkeeper for H. H. Preston & Co., was arraigned, charged with embezzling many thousands of dollars. Soule has been in the employ of the firm for ten years and for the last two years has developed a taste for pocket shop gambling, which required more money than his salary could supply.

An Incipient Riot.

LIVERPOOL, June 20.—A riot growing out of the jubilee celebration occurred yesterday between Orangemen and Socialists. Sticks and stones were used freely. The police dispersed the brawlers and made several arrests. No serious casualties resulted from the affair.

EX-SENATOR VAN WYCK

HIS OPINIONS ON THE PAYMENT OF WIDOWS' PENSIONS.

He Denounces the Expenditures of Millions for War Materials, Rivers and Harbors, Experimental Ships, Etc., While Depriving the War Sufferers.

WASHINGTON, June 20.—Ex-Senator Van Wyck has addressed a letter to the secretary of the interior in which he takes exception to the opposition which is now so apparent to secure the adjudication in a certain class of pension claims. He says: "As to the question when a widow's pension shall commence, allow me to make a suggestion. The practice of the department has been that the pension commences from the date of filing her application. There may be some reason for that ruling, where the husband died obtained a pension in his lifetime and the allowance of his pension was also on the widow's application; but when the pension was allowed and commenced as of the date of the husband's payment to the widow or minor children was only a continuation of the same pension, and there is no reason or justice why the pension should cease if there be any delay in the formal application is not at once made. It is alleged that this construction may take millions out of the treasury. This is been the construction of the law against the allowance or payment of pensions. It can have no force when the ingenuity of statesmen is exercised to devise some plan to take money from the people. I do not say it is honest on sugar; to squander millions on plant and materials for guns; millions for a rate of speed in war ships, which they know can never be used; millions for dredging rivers and harbors; yet when the question of pensions is raised, either in congress or the departments, a certain class become very economical in their political philosophy.

"That economy is wisest which is based on justice. Even an error of judgment will be forgiven by the people if it leans to the side of equity, but I submit that a fair legal construction will continue the pension from the date of the husband's decease, where death was from the cause for which the pension was given."

Rain, Hail and Wind.

WILLIAMSBURG, Pa., June 20.—A severe storm burst upon the city and valley yesterday afternoon and continued until last evening. Rain and hail fell in sheets, doing considerable damage to property and crops in country districts. In the western portion of this city the wind blew with such force as to tear to pieces a very large frame dwelling belonging to Charles Gardner. There was no one in the building at the time it was demolished.

Signing the Pledge.

BINGHAMTON, June 20.—Will J. McConnell, of Geneva, O., held a temperance mass meeting in the opera house here yesterday and in the Methodist Episcopal church in the evening, arousing great enthusiasm and obtaining the signatures of over 400 persons to the pledge. He is the man who created a sensation in Elmira some weeks ago, while engaged in a temperance revival, but is now leading a sober life again.

Bobbing a Blind Pedestrian.

ELMIRA, N. Y., June 20.—Dr. B. N. Mills, who had a power of attorney from Francis Patterson, the blind man, who received a verdict of $13,300 against Jay Gould and the United States government, the largest ever granted, has disappeared, and about $8,000 of the old man's money is also missing. Evidence in the case showed that Mills obtained the pension by bogus affidavits and has defrauded the government.

Over 100 Degrees in the Shade.

COLUMBIA, S. C., Jur., 20.—The heat of the past three days has been unprecedented in this city. The signal service officer here reports 102 degrees on Friday, 103 Saturday and 100½ Sunday in the shade. In many houses and offices in the city the mercury reached 110 degrees. The heat as been as hot for ten years. There is no record of its ever having reached 100. Foliage is scorched as by a fire.

Found Murdered.

BRATTLEBORO, Vt., June 20.—The body of Helen A. Burt was found in her room yesterday. The woman's skirts had been tied over her head and there was a deep cut on her temple. She had been acting as a servant in a family named Sigland. It is said that Sigland had abused and beaten her. The police are looking for Sugland, who does not bear the best of reputations.

Likely to be Hanged if Caught.

CHATTANOOGA, June 20.—William Jones, of Gaines county, Ga., who has just moved to Dayton, Tenn., tried to restrain a young man named Cox, who was about to rush into a fight, and begged him to desist. Cox turned and struck a word driver a knife and enabled Jones to death. The murderer came near being lynched, but escaped on a horse. He will be hanged if caught.

CONDENSED NEWS.

At Valley Forge 30,000 people participated in the celebration of the 109th anniversary of Washington's evacuation of the place prior to the battle of Monmouth.

McGarigle and McDonald, Chicago boodlers, were found guilty and sentenced to three years' imprisonment each. Motion will be made for a new trial.

San Francisco has had several cases of smallpox.

London is so crowded with sightseers that the Queen is anxious for the safety of her palace.

Lesley, the defaulting ex-secretary of the Chesapeake and Delaware Canal company, returned from Canada and was arrested in Philadelphia.

At Stormville, Conn., Joseph Smalley attempted to save his wife from death on the road, and both were run over and killed.

A boy named Skeels was killed by a runaway horse at Hartford.

Benoming, one of the railroad strikers who fired upon a train at Fort Worth, Tex., last summer, has been found guilty of murder.

A Kentuckian named Snyder attempted to kill his runaway wife at Trenton, N. J., but failed, though he stippled a revolver at her at short range.

The Robert E. Lee camp, of Virginia, will hold a reunion at Boston for home, delighted with their reception.

Canon Wilberforce addressed an immense audience on total abstinence at Chickering hall, New York. Six hundred signed the pledge.

Mrs. Fonseye, the Buffalo murderess, has been sentenced to state-prison for life.

One workman plunged a butcher knife into the breast of another at Jersey City yesterday, killing him to take a drink.

A MONUMENT TO NATHAN HALE.

Recently Erected in the City of Hartford, Conn.

"My regret is that I have but one life to give to my country." Those were the words of Capt. Nathan Hale, whose monument has lately been set up at Hartford, Conn. His fame, like that of Col. Elmer Ellsworth, of civil war memory, is due to the fact that he was the first among the noble martyrs of his time. Nathan Hale was but 21 years old when he became a captain in the patriot army, yet he had already graduated from Yale college, and was some distinction as a scholar, and was at the time of his death betrothed to a lovely young woman. All these advantages, and his buoyant life so full of promise, he voluntarily risked by consenting to enter the British lines in search of information. On Sept. 21, 1776, he was making ready to cross in boats from New York to Norwalk to reach the American lines, when he was arrested as a spy; he was tried and condemned as a spy that night, and the next morning was executed at or near the present intersection of East Broadway and Market street. Of course, the artist does not present the shameful scene of his death as a spy; the monument represents him as declaring his last sentiments—erect, with face slightly turned upward and his hands thrown back, expressing at once triumph and resignation.

THE NATHAN HALE'S MEMORY.

The statue is of bronze, fifty feet high, including the plinth, eight feet above the pedestal, which is a four foot cube of Quincy granite. The statue is the work of Karl Gerhardt, of Hartford, and from his plaster model the cast was made at Chicopee, Mass. As there is no portrait of Hale extant, the artist has relied on description, making a heroic figure of the New England type and youthful mold and giving it that air of fire and energy which were Capt. Hale's chief characteristics. When condemned the young patriot calmly answered his rank and mission. The British officers were disposed to treat him with respect, but his jailer, the notorious Cunningham, destroyed the prisoner's letters to his mother, sister and sweetheart, and even succeeded in preventing him from having a Bible and the services of a clergyman. It was then, after all out to execution, that he uttered the memorable words above quoted, words cut in the pedestal of the statue. The artist has succeeded in the expression so perfectly that the feeling of the patriot, but a moment before his death, shows in every line of the statue as well as in the face. Mr. Gerhardt has also completed an equestrian statue in bronze of Israel Putnam, which is to stand in his native town of Brooklyn, Conn.

FROM ALGIERS TO TUNIS.

Scenes on the New Railroad Just Opened.

And now they have a railroad from Algiers to Tunis. The opening thereof was a grand event. The road was opened to the public in December, 1886, but the official inauguration

VIADUCT OVER THE TUCHERNE.

had been postponed until this year. The train left Algiers at 8:15 in the morning. The station was draped with flags, and ornamented with flowers, and made beautiful and gay for the distinguished company which was to pass through it.

Mighty men of commerce, postal and telegraphic officials, parliamentarians, scientists, artists, journalists both French and Algerian were on the train. Several courageous ladies who feared not the fatigue of travel had accepted the official invitation. Luncheons, cheers and speeches greeted the party at the stations, and an eminent committee received them when the journey was ended.

The scenery along this railroad is something appalling in its grandeur, quite the equal of anything in Colorado or Mexico, or the wild railroading in northern Minnesota. The accompanying pictures are from photographs by an Algerian photographer. The first is a view on the left bank of the river Isser, one of the affluents of the river Iser. It is not far from Bouira, is eighty metres long and twenty-five high. The scene is wild and picturesque in the extreme. Its perpendicular hills rise beyond hills, covered with olive trees, but without human habitation. The novelty of the situation can be realized only in a country where man seems never to have penetrated till the Frenchman with something like awe, and is, to say the least, a theme for his romantic pen to dwell upon.

VALLEY OF THE IRON GATE.

The second picture is from the valley of the Iron Gate, a locality quite celebrated in military annals. In 1839 3,000 men, under the orders of Marshal Valée and the Duke of Orleans, took possession of this passage where the Roman legions never came. This is a succession of rocks, at the foot of which runs the little river Mekerdou. The East Algerian company has received of the Government into a great viaduct of fifteen arches of masonry, each one eight metres in width.

THE BAHAMA ISLES.

A LAND OF EARTH FAVORED GREATLY BY THE ELEMENTS.

It Is by Way to Live There That Nobody Works Much, and Our Correspondent Calls It "The Dreamful Land of Shirk"—Nassau's Wreckers.

[Special correspondence.]

NASSAU, N. P., May 21.—The most exciting thing one can do when en route for this place, Cuba is left out of the list, is to watch Islands. When you were at school and at geography you noticed a little group of twinkling islands specks on the map off the coast of Florida, but nobody ever displayed much interest in them. It was making ready to cross in boats from New York to Norwalk to reach the American lines, when he was arrested as a spy; he was tried and condemned as a spy that night, and the next morning was executed at or near the present intersection of East Broadway and Market street. Of course, the artist does not present the shameful scene of his death as a spy; the monument represents him as declaring his last sentiments—erect, with face slightly turned upward and his hands thrown back, expressing at once triumph and resignation.

Children's and Misses' Hats at Nobbers', Macalester and Kokomo, but as gas is found in several other places there is no reason to doubt that much better wells will be developed."

"And the people are enthusiastic about it, I suppose?"

"Oh, wonderfully so. It is the sensation of the day. It must be a very poor town that has not a well going or making the money to bore. In fact, gas is so popular that it is credited with producing all the odd movements underground that we couldn't account for heretofore. The flow of water from the artesian wells is supposed to be from gas pressure. At Clinton, in my native county, they bored about 500 feet and struck salt water and gas both, and the pressure was at one time great enough to force the tools up out of the hole. The gas bubbles up through the water and the bubbles can be set on fire. Now, I could give us these facts: At La Fontaine, Wabash county, the bore went down 900 feet and when but six feet into the Trenton rock began a splendid reservoir of gas. They determined to go deeper, but the drill was far some time forced back by the gas. It was withdrawn; there was a sort of explosion, and water and loose rock flew a hundred feet into the air. They confidently announce that they have the best well in the state. Bloomington sank a drill 2,730 feet and found nothing but salt water, but boasts of having gone deeper than any other town in the state. At Crawfordsville Trenton rock was struck at a depth of 1,467 feet, when the drill was immediately lost—dropped into a cavity, perhaps. At any rate it could not be recovered. The popular confidence was so great that the city had granted the exclusive right to lay pipes and supply private supply families with natural gas. Other towns have granted the franchise to bore and pipe, but in most cases the work is done by corporations or citizens. The local scientists are already in a wordy war over the subject, as each town has no use for a professor who does not think its town is in the belt. Professor Cox, state geologist of Ohio, declares that 90 per cent. of natural gas is merely swamp gas, but as that would involve the awkward conclusion that the supply is very limited—no swamps near, no gas—his views are attacked with some vehemence."

Mr. Cheodle does not venture on a scientific opinion, and only gives the facts known. He is distinguished as one of the very few country editors of Indiana who has received political honors. A native of Vermillion county, Indiana, he made an honorable war record in the Eighteenth Indiana volunteers, and served a long term as country editor before having a chance to serve in congress. It may be, therefore, that he is authority on the subject of natural gas.

J. H. PARKE.

The Romance of an Orphan.

The last "gurl" was from a home. Of her work she knew absolutely nothing, but she could stand a severe examination about the Ten Commandments and the places of punishment. It is not surprising that those in authority do not teach the orphan girls under their care how to cook and scrub, make beds properly and clean a room. Mabel and her mother touched very lightly on the subject of the "home," thinking that the girl might be susceptible about belonging to no one and being nameless in the world. But their delicacy was all thrown away. The girl's mind was filled to the brim with romantic ideas about her birth. How could she tell who her parents were? They might be titled people, who would some day drive up in a magnificent carriage to claim their daughter. These notions absolutely prevented her from doing her work properly. She asked Mabel one day how she could expect her to scrub saucepans when she did not know whose daughter she might be. This young lady had got to be got rid of, as nothing could be made of her. I wonder if all the little orphans in this home indulge in romantic hopes? Girls' Friendly Society, Ernest Hopper, Girls' Friendly Society, David Jones, Park Place, between Putnam avenue and Rockwell.

Miscellaneous Cards.

A POET'S VISION.

Day follows day; years perish; still mine eyes
Are opened on the self same round of space;
Yon fateless forests in their Titan grace,
And the large splendors of those opulent skies.
I watch unwearied the miraculous dyes
Of dawn or sunset; the soft boughs which lace
Round some coy dryad in a lonely place,
Thrilled with low whispering and strange sylvan sighs;
Weary the poet's mind is fresh as dew,
And oft refilled as fountains of the light.
His clear child's soul finds something sweet and new
Even in a weed's heart, the curved leaves of corn,
The spear like grass, the silvery rime of morn,
A cloud rose edged, and fleeting stars at night!
—Paul Hamilton Hayne.

A COSTA RICAN COUP D'ETAT.

How a Political Difficulty Was Solved. An Easily Effected Change.

Dr. Jesus Jimenez may have been a learned man; but he was not a wise man. He had been made president of Costa Rica by the army, and as soon as he got supreme power in the republic, he gave that important body the cold shoulder. It was a mistake. He should have borne it to the front, giving it prominence; wearing it, so to speak, like a rose in his top buttonhole on dress occasions. On the contrary, he treated it contemptuously; sneered at its pettiness and flummery, and degraded its officers. What can a single doctor of medicine do against one entire regiment of infantry and a two gun battery of flying artillery? Nothing, absolutely nothing. His brass mortar and pellets are but trifles against a howitzer and bullets.

But the army was also in an awkward fix. For the army, as I said, had made Dr. Jimenez president by a coup d'etat. A second coup following so soon on the steps of the former would never answer. The army would lose its prestige. Still, something must be done, for the most popular officers and their friends in civil life were being banished in crowds from the republic.

The difficulty was solved by Col. Thomas Guardia. His brother was in command of the one regiment of infantry. It was only necessary, therefore, to get possession of the artillery. So one morning the great gates of the barracks were opened, and two wagon loads of freshly cut grass passed in as usual, and the gates were closed. Whereupon, there suddenly arose the two loads of grass; and fourteen men, led by Don Thomas Guardia, pointed fourteen revolvers at the few half awake soldiers in the patio, and the job was done, killing only one foolish officer, who attempted resistance to "the revolution of the people." A lieutenant with a few men waited on Dr. Jimenez and told him that he could resume the practice of medicine, as the public would not require his services any more at the "palace."

Nothing could have been more satisfactory to Dr. Jimenez. He really didn't want power, and only accepted it because he couldn't see his way out of it. At 9 o'clock he mounted his saddle mule with his alfarjas, and went around among his patients; quietly said to his friends that he was informed that Thomas Guardia was in possession of the supreme government, and that he would be able to give his business better attention than he had during the past few months. Before he returned to his house to breakfast he called at the palace, smiled and nodded toward the guard and sent his card up to the new president.

You will naturally suppose that Don Thomas, on hearing of this sudden appearance of the dethroned ruler in the place where he had reigned but yesterday, summoned his guard, backed on his sword, capped several revolvers, ordered a squad of detectives to usher him in and watch his every motion. He did nothing of the kind for two reasons. There never lived one man of whom Thomas Guardia was afraid, and of all men in the world Dr. Jesus Jimenez was the last man for anybody to be afraid of. Therefore, when they met, the inquiring, somewhat serious look of Don Thomas disappeared before the cordial, pleased smile of Dr. Jimenez; they embraced with the fervor of old friends.—Alfred F. Sears in Overland Monthly.

A Star Route Mail.

In one of the grottoes stood the ruins of a cabin and a "star route" refuge. No possible need had existed for a mail carriage across here, but a few years before any date contractors had found it profitable to institute the route; and a sack holding a half dozen letters and perhaps a few copies of The Congressional Globe was carried back and forth on horseback. One man brought it 150 miles or go from Missoula and delivered it here in the wild woods to a second man, who carried it down to Lake Pend d'Oreille, rowed forty miles across the fir circled water and handed it over to a rider at the western end. This middle man was utterly alone. Not a single soul lived on the route. In the winter he traveled on snow shoes, for months together saw nobody but the carrier who brought him his pouch at each end, and could tell you stories of adventures with wolves and bears, and of wonderful visions of elk, sheep and mountain goats. "Robinson Crusoe led a less secluded life.—Ernest Ingersoll in The American Magazine.

Casts of Distinguished Men.

There are three plaster casts of distinguished men hanging in John Rogers' studio that attract attention—William Lloyd Garrison, the great anti slavery agitator, Henry Ward Beecher and Robert Collyer. The cast of Mr. Beecher's face was taken nearly eighteen years ago, when Mr. Rogers was modeling a group of anti-slavery agitators. Mr. Beecher had been sitting for him at intervals for two or three weeks. One day Mr. Rogers suggested that he might have saved all the sittings by taking a plaster cast of his face, when the great preacher replied: "If it will be of any service you can take the cast now." Mr. Rogers set to work at once and soon finished the cast. I asked him if Mr. Beecher was much annoyed by the operation. "No," said Mr. Rogers. "He told me afterward that he nearly went to sleep." A peculiarity of the cast is its marked resemblance to that of Robert Collyer which hangs beside it. The faces are of the same type, and friends of Mr. Beecher in looking at the two have taken them both for casts of Mr. Beecher.—New York Tribune.

In Texas.

"Did you pass the hat, deacon?"
"Yes."
"What's in it?"
"Well, fer'bility, parson, the linin' is still there. I reckon it'll ever happened, parson. I was [illegible] gettin' religious at last."—The Judge.

JOTTINGS.

—The Y's are arranging for a fair to be held next fall.

—A new summer railroad time-table will take effect next Sunday.

—It is perfectly legal now to catch black bass, but not half as easy as you might think for.

—The State Board of Engineers of the Fire Departments of New Jersey met at Atlantic City to-day in annual convention.

—New Jersey is to get $8,294 out of the annual appropriation of $400,000 made by Congress for the State Militia of the United States.

—Three or four Masonic gentlemen of this city went to Westfield last evening and conferred the third degree upon several candidates.

—In the window of the fruit store of Geo. H. Cook at 231-2 West Front street can be seen a large assortment of fireworks which he is disposing of at reasonable prices.

—The Senior Society of the Boys' Branch will meet this evening at the Y. M. C. A. rooms at eight o'clock to hear the report on Summer camps. Every member is urged to be present.

—President Jones of the Fire Board and the Chief Engineer and assistants will hold a meeting this week to make arrangements to take extra precautions for the prevention of fires on July 4th.

—A company of U. S. Navy men will encamp to-night at Grant avenue. Mr. L. M. Recap has kindly given up the use of his premises to the gentlemen. They arrived at noon to-day and will spend the night on this delightful spot.

—At Short Hills last evening, about seven o'clock, there came a terrific rain storm, drenching all who were caught in it. In Plainfield it sprinkled large drops of rain but not enough to prevent the flagging from absorbing them almost as rapidly as they fell.

—John Goendorf, the German who was yesterday arrested for disposing of his employer's goods in Washington Valley, was given a hearing this morning before Mayor Cooley and committed to jail in default of $500 bail to await the action of the grand jury.

—The first night of the festival under the auspices of the Dunham Choristers takes place at the Warren Mission to-night. Every thing is being done to make the place attractive, and no pains have been spared to make the occasion a success. A good program of instrumental and vocal music has been arranged for each evening from eight till eleven o'clock.

—William Reign was shot at three times yesterday by taking a few cherries from a tree on South avenue near Scott's Press Works. He says the tree stands by the roadside and he stopped to gather some of the fruit when a man named VanAiken ran out of his house near by and opened fire on him with a revolver. After the first shot Reign retreated and VanAiken followed it up with two more. Fortunately none of them took effect.

—Two raw-looking Ger anns made complaint to Judge Ulrich yesterday, that on the 18th, of May they had hired to work a month on the farm of Joseph Cole near Plainfield, but had omitted his employ in the 17th, of June, a few hours before the expiration of their contract and Mr. Cole had refused to pay the money due them. They say the stipulated sum was $18 per month, but Mr. Cole afterwards offered to pay them $5 and $7 respectively. Proceedings will probably be begun to collect the amount claimed to be due.

—Mayor Mole, Mr. Dunham, chairman of the Alms Committee of Council, and Overseer of Poor Nodyne, recently made a tour among some of the families who are assisted by city funds. They visited about fifteen and the Mayor and Mr. Dunham expressed themselves well pleased at the manner in which the affairs were being managed. The families visited were also much pleased at the interest manifested in their welfare. The Mayor also had his eye on the sanitary arrangements and will probably recommend some changes to the Board of Health. Other parts of the city will be visited in a few days.

—The thunder showers which have been nightly visitors for the past two or three evenings, have laid the dust and freshened the foliage, but the thermometer holds its own during the day. The two storms which met on the side of the mountain Monday night received each other rather violently. There was almost continuous flashes of lightning from one to the other, and to the earth. The thunder reverberated like the beat of the long roll, the sound rising and falling as it bounded along the mountain side, making the earth tremble. The vein of the mountain as lit up by the lightning flashes was extremely grand and impressive.

—These incendiary fires are growing very monotonous, to say nothing of the loss of property and danger to life attending them. THE NEWS suggests that the proper authorities offer a reward for the apprehension of the miscreant. Such an step might have private incentives out of a great many citizens who now do little else than attend the conflagrations and talk about what ought to be done. This constant menace to property and even lives should be removed and active measures should be at once adopted to see that it is done. The plans may be urged that this duty devolves upon the police. While this may be true in part, yet the police cannot be supposed to know everthing. They are doing the best they can, but as this matter largely concerns the citizens of Plainfield it is right that the officers should be given every encouragement possible. A reward offered for information leading to the detection and conviction of this fire fiend might be attended with beneficial results. It has been tried before and in many instances proved successful. That some active measure should be adopted at once is patent to all. What shall it be?

THE LIST COMPLETED.

The Y. Annual Meeting—Officers Elected and other Business Transacted.

The regular monthly meeting of the Y's, which was adjourned from the May meeting, was held yesterday afternoon in the Y. M. C. A. rooms, and the following were elected officers for the ensuing year:

President—Miss Hattie P. Burnett.
Vice-president—Miss Julia Ketcham.
Recording Secretary—Miss Grace Yerkes.
Corresponding Secretary—Miss Lilian Dorman.
Treasurer—Miss Nettie French.

CHURCH VICE-PRESIDENTS.

First Baptist—Miss Grace Cooley.
Crescent Avenue—Miss *Maggie Manning.*
First Presbyterian—Miss Beulah Ketchum.
Congregational—Miss May Kirkner.
Seventh-Day Baptist—Miss May Tomlinson.
Park Avenue Baptist—Miss Delia Runyon.
Grace Church—Miss Julia Borden.
Holy Cross—Miss Anna Murphy.
Trinity Reformed—Miss Kitty Glen.
Methodist—Miss Addie McGee.
Hickside Meeting—Miss Maggie Harned.

COMMITTEES.

Hospital—Miss Julia Borden, Miss Lilian Dorman, Miss Nettie French, Miss Ida Spicer, Miss Carrie Kirkner, Miss Madge Sutphen, and Miss Josie Drake.

Auditing and Purchasing—Miss Bertha Taylor, Miss Carrie Lowrie, Miss Kittie Newell.

Devotional—Miss Ida Spicer, Miss Lily Morris, and Miss Grace Yerkes.

Public Meetings—Miss Maggie Manning, Miss Lily Burr, Miss Grace Lewis, Miss May Tomlinson and Miss Nettie French.

Printing—Miss Benton, Miss Gardner and Miss Dalton.

By-laws—Miss Lilian Paul, Miss Lela Butler and Miss Carrie Lowrie.

Literature—Miss Belle Butler, Miss Kitty Kaufman, and Miss Emma McGee.

Miss Paul, Miss Lowrie and Miss Butler of the Entertainment Committee reported that the recent old folk's concert, realized about $375 over expenses.

It was decided to have married men and women privileged to become associate members upon signing the pledge and paying the fee. As some of the Y's have recently married, this resolution was intended to keep them interested in the work, and to be consistent its scope was extended to include their husbands, and married men and women generally.

It was voted to supply Warren Mission with about 100 copies of the "Young Crusader" for the coming year.

After the adoption of sundry by-laws, the meeting was adjourned at 5.45 p. m., till Sept. 20th.

Incendiaries at Work Again.

Another incendiary fire occurred last night, or early this morning, and this time two barns on Sixth street, just below Park avenue were destroyed. The largest barn was owned by Mrs. A. Frazee of No. 21 Irving Place, New York, and the other was the property of John W Murray, of Central avenue, and had been purchased of the Bache estate. The largest was about 40 by 50 feet, and was valued at about $2,000, and the other was 22 by 35 feet, and was probably worth $500. The amount of insurance on the barges, Frank A. Batterson, Metuchen; address to under graduates, Harold Tate, Metuchen; joy orator, W. S. Babcock, Rahway; valedictory, Geo. A. Ballentine, Newark, N. J.; pipe oration, W. J. Brodie, Genesseo, N. Y.; address to president, M. Pumpelly, Kingston, N. Y.; class memorials, H. R. Palmer, New Brunswich; prophest, Frank Sagendorf, Poughkeepsie, N. Y.; class poem, A. Pierce Bailey

SPORTING MATTERS.

The Wrestling Match at Baltimore Given to the Jap. Sorakichi.

Yesterday's ball games: At Cincinnati—Cincinnati, 8; St. Louis, 4. At Cleveland—Cleveland, 11; Louisville, 10. At New York—Metropolitan, 7; Athletic, 5. At Baltimore—Brooklyn, 5; Baltimore, 3. At Milwaukee—Philadelphia, 7; Milwaukee, 5. At Rochester—Buffalo, 12; Rochester, 8. At Jersey City—Syracuse, 5; Jersey City, 4. At Toronto, Ont.—Toronto, 7; Binghampton, 1. At Hamilton, Ont.—Scranton, 2; Hamilton, 1. At Waterbury—Waterbury, 18; New Haven, 7. At Springfield—Springfield, 10; Worcester, 5. At Newark, N. J.—Newark, 6; Utica, 5. At Bridgeport—Bridgeport, 3; Hartford, 2.

BALTIMORE, June 21.—Jake Kilrain, having failed to get a fight with Jem Smith, Sullivan, has forwarded a letter to the editor of The London Sporting Life, signing himself "Champion of America," and challenging Jem Smith.

BALTIMORE, June 21.—The wrestling match last night between Policeman John C. Doyle and Matsuda Sorakichi was awarded to the Jap on the ground of a dispute. The first fall was Graeco-Roman, with jackets. After wrestling two minutes one of the sleeves of the jacket worn by the Jap pulled out. Doyle insisted on getting another jacket, which he said he could procure in ten minutes, but Referee William Muldoon, of New York, ordered the wrestling to go on. Doyle refused, and the match was given to Sorakichi. The audience evinced their disappointment and displeasure at the sudden termination of the match by hissing and shouting.

Marine Intelligence.

NEW YORK, June 21.—Arrived, steamers City of Montreal, Liverpool and Queenstown; Devonian, Liverpool; Rhein, Antwerp; Burgundia, Naples; Glueckauf, Bremen; Commonwealth, Philadelphia; City of Antonio, Port Royal; Stamford, Barmoor; Eleanora, Portland; Regulus, Wilmington, N. C.; Louisiana, New Orleans; Saratoga, Havana; Tallahassee, Savannah; Ship Jumna, Port Spain. Barks R. A. Allen, Matamzas; Ermano, Leghorn; E. Sutton, Mazzanillo; Giovanni, Lisbon; Gran Canaria, Cabarien; Longfellow, Rio Janeiro; Bertha Anderson, Antigua. Arrived out, steamers City of Chester, from New York for Liverpool, has passed Brow Head; Gellert, from New York, at Plymouth; Normandie, from New York, at Havre; City of Nevada, from New York, at Glasgow; Elder, from New York, at Southampton.

Fatalities Follow a Funeral.

LYNCHBURG, Va., June 21.—A terrible accident occurred on the Virginia Midland road, about two miles from Lawyer's depot, near this city, at 7:30 this morning. An unreported freight train coming north came into collision with a head car containing John Martin, his five children, and a Mrs. Sprouse, returning from the funeral of one of his children. Lizzie Martin, 7 years of age, was instantly killed; John Martin, 3 years of age, had his skull crushed; recovery doubtful. Three other children were slightly hurt. Mrs. Sprouse was badly injured about the head.

A New Hampshire Journalist Dead.

MANCHESTER, N. H., June 21.—Mr. John T. Hulme, one of the editorial staff of The Manchester Union, died in this city yesterday. Mr. Hulme was one of the best known newspaper men in the state, having been connected with The Boston Herald as staff correspondent, and also with the editorial force of The Concord People and Patriot, Manchester Mirror and Union. He had a large experience as legislative reporter, having been also engaged at every session of the legislature but once since 1874. He leaves a widow and six children.

From Eating Canned Salmon.

PHILADELPHIA, June 21.—Ellen Stauts, 25 years of age, residing at No. 2106 Hull street, her brother James, and the latter's three children, Mamy, Frank and Edward, Jr., aged respectively 10, 8 and 4 years, were poisoned by eating canned salmon for breakfast, and are all in a dangerous condition from its effects. The father and the two boys and three children eat heartily of the canned fish, and in a very short time afterwards were taken ill. Ellen Stauts will probably die.

The Brattleboro Murder.

BRATTLEBORO, Vt., June 21.—John Sugland, a negro of bad reputation, has been arrested, charged with murdering Helen Burt, whose body was found in the river here Sunday. The public are much excited, and suspect Sugland of other murders that have hitherto remained mysteries.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 20.—MONEY closed at 5 per cent. The highest rate to-day was 7, and the lowest 4. Exchange closed steady; posted rates, $4.84@4.84½; actual rates, $4.83@4.84 for sixty days and $4.85@4.85½ for demand. Governments closed firm; currency 6s, 129¼ bid; 4s, coup., 109¾ bid; 4s, reg., 109¾ bid.

The market was not so strong after midday. Price went gradually higher throughout the afternoon, and the latter part of the day's advance was lost, while in some cases a slight decline from that figure was recorded. Bradstreet's noted: "The closing prices were irregular, but the changes for the day were slight."

General Markets.

NEW YORK, June 20.—FLOUR—Closed steady. Sales, 10,000 bbls. Receipts, 27,700 bbls; good to fancy extra state, $3.90@4.10; choice to fancy extra western, $3.90@4.10; Southern flour closed quiet, and was in fair demand; receipts, 600 bbls; choice extra, $4.40@5.75.

WHEAT—Options were irregular and closed about a cent lower; active trading and sharp fluctuations; to-day's price for June, and 1@1½c. lower for other deliveries. Spot lots closed 3@3½c. lower. Spot sales of No. 2 red winter, 99¾c.; No. 3 do., 97¾c.; No. 2 red winter, 99¾c.; No. 3 do., 97¾c.; No. 2 red winter, June, 84@84½c.; do. July, 86@86½c.; do. Aug., 86@86½c.

CORN—Options were dull and weak, closing at a slight decline. Spot lots closed steady. Spot sales of No. 2 mixed at 47¾c.; ungraded mixed, 47@47½c.; No. 2 mixed, June, 47¾c. bid; do., July, 47¾c.; do., Sept., 48¾c. bid.

OATS—Options were dull and weak, closing 3@3½c. lower. Spot lots closed barely steady and unchanged. Spot sales of No. 1 white state at 33@33½c.; No. 2 do., 30c.; No. 2 mixed, July, 29½@30c.; do. Aug., 29½@30c.

RYE—Dull and nominal: western, 54@56c.; state, 55@56c.

BARLEY—Dull and nominal.

PORK—Dull; old mess $14.50; new do., $15@18.25.

LARD—Closed dull and heavy; cash, $6.65; July, $6.63; Aug., $6.74.

BUTTER—Dull and in the buyer's favor; state, 12@18c.; western, 10@18c.

CHEESE—Dull and weak; state 8½@9½c.; western, 7½@8½c.

EGGS—Dull, but steady; state, 10½c.; western, 10½@11c.

HER GRACIOUS MAJESTY.

The Jubilee of Queen Victoria's Glorious Reign.

FIFTY YEARS A SOVEREIGN.

The Enormous Crowds in the Streets of London.

The Dress in Which the Dusky Kapiolani will be Presented to England's Queen, and Her Unique Present—The Biggest "Gulls" are the Americans. Fifty Dollars for a single Seat.

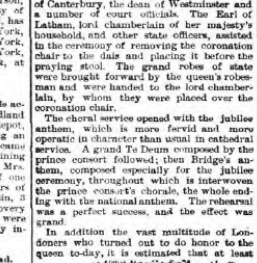
LONDON, June 21.—The exercises attending the celebration of the queen's jubilee were continued yesterday in all the business centers of the country. The corporations by thus forestalling the London order of exercises manifested their desire to present at the services in Westminster abbey. The programmes everywhere were similar in character—thanksgiving services, local reviews of the volunteers, municipal banquets, children's fetes, illuminations, etc. A private rehearsal was held in Westminster abbey yesterday in the presence of the archbishop

QUEEN VICTORIA.

of Canterbury, the dean of Westminster and a number of court officials. The Earl of Lathom, lord chamberlain of her majesty's household, and other state officers, assisted in the ceremony of removing the coronation chair to the dais and placing it before the praying stool. The grand robes of state were brought forward by the queen's robesman and were handed to the lord chamberlain, by whom they were placed over the coronation chair.

The choral service opened with the jubilee anthem, which is more fervid and more operatic in character than usual in cathedral service. A grand Te Deum composed by the prince consort followed; then Bridge's anthem, composed especially for the jubilee ceremony, throughout which is interwoven the prince consort's chorale, the whole ending with the national anthem. The rehearsal was a perfect success, and the effect was grand.

In addition the vast multitude of Londoners who turned out to do honor to the queen to-day, it is estimated that at least



PRESENTATION AT QUEEN VICTORIA'S COURT.

1,000,000 strangers beheld or tried to get a glimpse of the magnificent jubilee cortege from Buckingham palace to Westminster Abbey, and the number of positively unavoidable casualties, the inevitable result of the crowding of balconies, roofs and temporary stagings, and the surging of the uncontrollable tide of persons in the streets, it is impossible to estimate at this hour.

THE ENORMOUS CROWDS

which fill the streets this morning serve to realize the danger of their multiplication by thousands within the next few hours, and the authorities are alert and watchful for every possible means of averting disaster and caring for the injured ones. The Westminster hospital, near Westminster Abbey, has been put in readiness to receive an extraordinary number of patients, and a special auxiliary staff of attendants, physicians and surgeons is within its walls, and are doing all in their power to relieve the distressed ones.

In respect of paying enormous sums for seats, windows and other advantageous positions,

THE BIGGEST "GULLS,"

—the cockney synonym for the American genius "sucker"—are Americans, many of whom paid without a murmur $50 each for single balcony seats, and for the exclusive use of a balcony accommodating twenty persons $1,000.

Queen Kapiolani's present to Queen Victoria, if not so costly as many of the offerings, is in its way one of marvels as some of the specimens of handiwork given by certain tribal sovereigns. The gift consists entirely of feather work of the most unique character, and surpasses in delicacy

VICTORIA AT 7 YEARS.

and beauty of design anything of the kind ever seen here.

KAPOLANI'S JUBILEE GOWN.

The dress in which Queen Kapolani is to be presented to the queen was made in New York. It is azure blue velvet of the very richest quality for the court train and bodice train, being adjustable. The train is four yards long, being lined throughout with light blue moire, finished on the under edge with puffing of moire twelve inches wide, which has the effect of raising it from the floor and giving it a most graceful sweep. The train is three yards in width, disposed in plaits. On the outer edge of the train is a band of peacock feathers twelve inches wide at the end of the train, growing gradually narrower as it reaches the waist, where it is but an inch and a half wide.

The bodice is cut low, with point back and front, and is laced in front with silk cord. The neck is trimmed with duchesse point lace. The corsage is sleeveless, with a band of feathers and duchesse lace. The gorgeous train will be worn over an underdress of light blue moire, with demi-train sixty inches in length, finished with a double ruching of the same over a balayeuse of fine Valenciennes lace. The front and sides of the skirt show wide panels of peacock feathers, a band of the same feathers rounding the skirt.

Her majesty selected to be worn with this costume a pair of Suede gloves in light fawn shade, which reach to the shoulders, and slippers of blue velvet lined with light blue moire.

PRESIDENT CLEVELAND'S CONGRATULATIONS.

Yesterday afternoon the queen received Mr. Phelps, United States minister, at Buckingham palace, for the purpose of allowing him to present President Cleveland's congratulations. Mr. Phelps was accorded a private audience with her majesty. Mr. Phelps was attired in plain evening dress. The queen's demeanor towards him was most cordial. She expressed renewed thanks for the president's congratulations. The private reception of diplomats on such occasions is almost unprecedented, but the American minister was commanded a desire through Lord Salisbury for such an audience, and the queen replied that it would afford her much pleasure to receive him privately for the presentation of the congratulations. The queen received Mr. Phelps in a small room, not one of the state apartments. Only the duke of Connaught and Lord Salisbury were present. Her majesty expressed her sense of the kind feeling always manifested towards her by the American people.

An illuminated address to the queen from British residents in resident in Boston, Mass., was formally delivered to her majesty this afternoon. The address is inclosed in an oak case, and the presentation took place at Buckingham palace.

SOME OF THE GIFTS.

The joint jubilee gift to the queen from all her children and grandchildren is a gold and silver casket, set in gems and studded with precious stones. It was executed in Berlin. It comprises three parts resting on a common base, in the center of which are the British arms bearing the legend: "Her Children and Grandchildren to Our Beloved Mother and Grandmother." The middle portion consists of a vase adorned with the arms and portraits of the queen's children. It is held up by lid surmounted by the royal crown. To the right and left, respectively, are a lion and a unicorn.

The Marchioness of Londonderry presents to the queen a casket containing 150,000 signatures and £3,700 in cash as a jubilee offering from Irish women.

THE VOICE OF THE PRESS.

The leading European newspapers contain articles reviewing Victoria's reign. The German papers are especially warm in their comments, the warm traditional friendship between the queen and Germany undoubtedly awakened in Germany by the queen's sincere affection for the prince consort naturally bringing the people still closer to the hearts of Germans than to others.

The Official Gazette, of Vienna, contains an article on the jubilee of Queen Victoria. It says:

"Millions of voices throughout her world-wide empire will extol the queenly and womanl virtues of Victoria. The day marks a long epoch in the political welfare of her realm. The whole world sympathizes with the festival, for the fame of the queen's blessed rule reaches every quarter of the globe. Every nation, indeed, is cordially shared in by Austria's sovereign. The virtues of Victoria throughout the whole of her life recall those of our own great empress, Maria Theresa. Both queens were endowed with rich gifts, mental and physical. Both ascended the throne in the prime of youth. Both enjoyed the richest and purest domestic happiness, which both deeply deserved. The joy of each was clouded by the death of a beloved husband, for whom each never ceased to mourn. Both went through life showering blessings around, and both were honored by their peoples. The memory of Victoria, like that of Marie Theresa, will be blessed as long as history exists."

The Russian newspapers, commenting on Queen Victoria's jubilee, say the British people's love for the queen is merited by the paternal interest she has manifested in the condition of the masses which have been effected in England during the fifty years of her majesty's rule.

Some of the papers take occasion to express regret that the relations between Russia and England are not better than they are, and hope they will improve and that the two nations will closely approximate.

THE PRAYERS OF CATHOLICS.

Cardinal Manning in a letter published this morning, writes that any Catholics in the British service holding an office requiring his attendance upon the queen during the jubilee ceremonies, may fulfil his duty, but this expression does not extend to others not holding such offices as counselling them to attend against their inclinations. The Catholic churches throughout London celebrated solemn mass of thanksgiving this morning, and said prayers for the queen's welfare. The cardinal is not aware, he says, that the tickets admitting them to the abbey have been returned by Irish clergymen, but he can attest that in regard to everyone who received tickets they are still loyal and loving subjects of the queen.

LACKING ORIGINALITY.

American invention and originality in designs are widely lacking in London illuminations. The mottoes are trite and the flags are displayed and grouped without taste.

That the much talked of many foreign visitors along the processional thoroughfares is an appearance of London being in a state of siege—of Londoners having protected themselves against the supposed dangerous possibilities of felonized Wat Tylers and Jack Cades. Along Piccadilly, St. James, Waterloo place and even in the adjacent side streets parties are busily erecting fastenings and boardings, or, as called here, "hoardings," have been extensively erected.

THE PRINCIPAL EVENTS OF HER REIGN.

The following is a brief review of the principal events of Queen Victoria's reign. Her coronation took place June 28, 1838, and the first parliament she was to begin with China, which ended with the opening of the Celestial empire to foreign trade. In 1840 Rowland Hills penny postage system was inaugurated. In 1840 she witnessed her marriage with Prince Albert, of Saxe-Coburg-Gotha, her first cousin, who was naturalized prior to the union. The first attempt on the queen's life was made a few months afterward by William Oxford. The Prince of Wales was born in the following year, 1841. In 1845 Sir Robert Peel's income tax and new commercial tariff came into force, by which some 1,100 articles of merchandise were freed of import duty. In 1846 the corn laws were repealed and bread placed within the reach of the poor. The first great international exhibition was opened in 1851 by her majesty with great pomp and ceremony.

In 1854 war was declared against Russia, which ended in the fall of Sebastopol in 1855. Hardly had peace been proclaimed when war was declared with Persia and again with China, while a year later the great Indian mutiny broke out, one of the greatest calamities of her reign. As soon as it had been quelled the manner by which the East India trading company had held the great Asiatic dependency for over two centuries was cancelled, and India then became an integral portion of the British empire under the vital rule of the crown. In 1861 the difficulty about the Trent affair was on the eve of bringing on a war between the United States and Great Britain, but the calamity was averted by the personal intervention of the queen. In December, 1861, the Prince Consort died of typhoid fever. In the following year what was known as the great cotton famine, resulting from the American war, caused immense distress in the North of England. In 1863 the Prince of Wales was married to the Princess Alexandra of Denmark. In 1866 the first cable was laid across the Atlantic and messages passed between the two hemispheres.

In 1869 the Irish State church was disestablished by Mr. Gladstone, and a year later what is known as the Irish land bill received the royal assent. In 1872 the Alabama claims were settled by the payment of £3,000,000 from the English government to that of the United States. In 1874 the Ashantee war took place, and in the following year Disraeli made his great coup by purchasing from the khedive of Egypt the controlling shares of the Suez canal, which had been opened in 1869. In 1876 the queen was for the first time proclaimed kaiser-i-hind, or empress of India, just after the termination of the Prince of Wales' visit to that empire. In 1878 an Anglo-Turkish convention added the island of Cyprus to the queen's dominions, and in the same year the famous congress of Berlin took place. The Afghan war was likewise brought to a brilliant termination in the same year by the memorable march to Candahar.

In 1879 the Zulu war occupied the public mind and developed into a series of conflicts in South Africa, in one of which the Prince Imperial of France was killed in ambush by the natives. In 1882 the Egyptian campaign was begun, involving the occupation of the Nile Delta by the British troops. Last year added Burmah to the queen's dominions.

NOTABLE MEN OF HER REIGN.

The queen has outlived most of the notable statesmen and prominent men of her reign. Among their number may be mentioned Sir Robert Peel, the Duke of Wellington, Lord Derby, Lord Palmerston, Lord Beaconsfield, Lord Aberdeen, Lord Clarendon, Lord John Russell, Sir Stafford Northcote, Lord Lindhurst, Charles Dickens, Thackeray, Faraday, Darwin, Cobden and a host of others.

ON THIS SIDE OF THE OCEAN.

Jubilee Festivities in Various Sections of This Country.

NEW YORK CELEBRATES.

NEW YORK, June 21.—The services in honor of the queen's jubilee at the Metropolitan Opera house began promptly at 10 o'clock. About 4,000 tickets were issued. The orchestra of sixty players was led by Conductor Damrosch. The chorus of selected voices came chiefly from the Oratorio society of New York. Handel's Coronation Anthem was the first piece on the programme. It was given by the chorus and orchestra to-day. Dudley Buck, D. D., then took the opening prayer and the chairman, Mr. Winan, made the introductory speech. Ex-Mayor Seth Low, of Brooklyn, spoke, and F. Marion Crawford read a poem. Then the Jubilee Ode, by Robert C. Winthrop, of Boston. The orchestra played Wagner's Kaisermarch, the Coronation March by Meyerbeer and the Jubilee Overture by Weber in the interval. The audience sang "God Save the Queen" at the end of the ceremonies. This afternoon the celebration is being continued by games at Evanston, S. I., and to-night there will be the grandest exhibition of fireworks ever seen in this section.

A MICHIGAN CELEBRATION.

NEGAUNEE, Mich., June 21.—The celebration of the queen's jubilee at this place yesterday was a great success in every particular. People of English birth from all parts of the county were in attendance. The mines in this vicinity suspended operations. A long procession formed and paraded the principal streets. Religious services were held in the morning at the Episcopal church, after which the people repaired to the rink, where the day was spent in speech making, toasts, music and English games of all kinds. The exercises were conducted by Royal Oak Lodge, Sons of St. George.

THE CELEBRATION IN BOSTON.

BOSTON, Mass., June 21.—The aldermen last night refused to rescind the permission to the English people to hold a queen's jubilee banquet in Faneuil hall. The vote was 6 to 6 on granting the petition to rescind, which is thus defeated. A meeting of the Irish societies announced the aldermen for granting the use of the hall to the English and Scotch societies.

Hiding the Children.

ALBANY, N. Y., June 21.—Factory Inspector Connolly has received a letter calling attention to the deplorable conditions existing in the tin can and pail making factory of Guina & Co., at No. 20 Beach street, New York city. The informant says that children (mostly Italians) under age are employed there, who, being totally ignorant of the dangerous work they are called upon to perform, are in consequence impaired bodily. Five out of every ten children have parts of fingers taken off, hands lacerated and are otherwise injured. When the firm are informed that an inspection of their premises is about to be made, they hide the children in large barrels or other convenient places. Mr. Connolly says that he has three times made an inspection of this place. The next inspection promises to reveal the true condition of affairs.

A Dynamiter "Found Drowned."

LONDON, June 21.—A coroner's inquest was held at Birmingham over the body of an unknown man found in the canal, and a verdict was rendered that he committed suicide by drowning, but evidence was adduced to show that he was murdered. The man's throat was cut and his body was found with a pocketbook containing recipes for making explosive compounds, and also entries showing the receipt of money aggregating the sum of £280. The names and addresses of several persons in New York were written on a piece of paper taken from the man's pocket, and on the towpath near the place where the body was discovered was found a razor of American manufacture. The jury gave a verdict of "found drowned."

The body has been identified as that of William Rogers, an engine fitter, who resided in Birmingham.

An Official on Trial.

BROOKLYN, June 21.—The trial of Thomas F. Nevins, chief engineer of the fire department of Brooklyn, on the charge of malfeasance in office, was begun in the King's county court of sessions yesterday before Judge Henry A. Moore and Justices of Sessions Savage and McMahon. Chief Nevins is charged with fraudulently obtaining $4,250 from Henry W. Pope. The money is alleged to have been received by him in May, 1884, after he had made representations to Pope that it was necessary as a bribe to members of the board of aldermen to induce them to grant to the Citizens' Electric Illuminating company a franchise to carry on its business and erect wires and poles in this city.

TO PROTECT HUMAN LIFE.

Governor Hill Signs the Bill Abolishing the Deadly Car Stove.

ALBANY, N. Y., June 21.—The governor yesterday affixed his signature to the bill which prohibits any railroad corporation, after May 1, 1888, from heating its passenger cars, on other than mixed trains, by any stove or furnace kept inside of the cars or suspended therefrom, except in case of an accident or emergency, when their temporary use is permitted. The law also provides that after the same date the floor systems shall be maintained upon every steam railroad bridge, trestle or cattle guard, so constructed as to support a derailed locomotive or car, with guard rails or timbers so constructed as to guide the wheels in case of derailment. After the same date guard posts shall be placed in the prolongation of the line of bridge trusses so that in case of derailment the posts, and not the trusses, shall receive the blow of the derailed locomotive or car. The penalty for violation of any of the provisions of the act is $1,000, with an additional $100 for each day that the violation continues.

GEN. SCOTT'S GRANDSON

Stabbed in a Disorderly House in Richmond, Va.

RICHMOND, June 21.—An affray occurred in a bagnio, between Mr. Winfield Scott, a grandson of the late Gen. Winfield Scott, and E. A. Leavy, a well known gambler, in which Scott's throat was cut and artery severed, and he was also cut about the body. Mr. Scott's injuries are serious, but his physician says he will probably recover. Scott was in the house, which is kept by Nannie Hubbard, a well known courtezan, when Leavy came in, flushed with drink. Being infuriated at Scott's presence, he called the woman outside and began beating her. Scott undertook to defend the woman and knocked Leavy down, whereupon Leavy drew a knife and cut Scott twice and then fled. He has not yet been arrested. Scott is in a critical condition. Leavy's life is quite a wealthy man and is unmarried.

The Defaulting Treasurer.

PHILADELPHIA, June 21.—The published statement that J. A. L. Wilson, the defaulting treasurer of the Delaware and Chesapeake Canal company, had been arrested in this city was an error. He is now under arrest in Toronto, Canada. District Attorney Graham said yesterday he is convinced that there is an excellent case against the prisoner. He has telegraphed to Chief Constable Grassett, of Toronto, that extradition papers will be prepared at once against Wilson covering seven cases of forgery within the laws of both countries, and suggesting nearby $50,000. Application will at once be made at Washington for extradition papers, and an officer will then be sent to Toronto to serve them.

Murdered His Mother.

BROOKLYN, June 21.—John Engberg, a Dane, 30 years of age, last night killed his aged mother last night, and then shot himself. Engberg lived with his mother, Mrs. Frederica Engberg, and two younger children on the third floor of the tenement house No. 1 Adelphia street. He was employed in J. W. Pratt & Son's printing establishment at Gold and Fulton streets, New York, and usually left home for work at 6 o'clock. At 8 o'clock last night he went home, after having been away since Saturday, and when his mother remonstrated with him for his long absence, struck her down on the floor. The quarrel which followed resulted in the double tragedy. Both will probably die.

Buried Alive.

ERIE, Pa., June 21.—The bank of a 50-foot cutting for a gas reservoir in the bluff facing the bay at the foot of Prach street caved in while workmen were at work on the foundation in the excavation. Jacob Gell, Daniel Hanley, John O'Laughlin, James Elsie and Jacob Fehrenbach were buried. A rescue party dug them out in the presence of 5,000 people. Gell, Hanley and O'Loughlin were taken out alive, but senseless, with broken bones. Elsie and Fehrenbach were dead. The whole quarter of the city where the accident occurred is populated with working people, and every man, woman and child crowded to the scene of the disaster.

Connecticut Negotiates a Loan.

HARTFORD, Conn., June 21.—Proposals were opened yesterday for a new 3½ per cent. $1,000,000 loan of the state, due in ten years, and payable earlier, at the option of the state treasurer, the highest numbers being payable first. There was made of $500,000, the lowest numbers, to the Ætna Life Insurance company at 103.27, and second $500,000 to the Williamsburg Savings bank, Brooklyn, N. Y., at 102.55. The total of bids was nearly $7,000,000.

A Five Months' Strike Ended.

WORCESTER, Mass., June 21.—At a mass meeting of the locked out bootmakers yesterday it was decided that all but the lasters and bottomers should return to work on the best terms possible. This practien ly ends the great strike, which has been in progress for five months. The lasters and bottomers will continue the struggle to have the free shop notice torn down.

The Rahway Victim Again Identified.

ST. LOUIS, June 21.—John Rhodmaker, a carpenter of this city, reported to the police that he believed the girl murdered at Rahway, N. J., was that of Mary Rhodmaker, who left his home three years ago and had been employed in Rahway for the past year. Since the murder he has heard nothing from her. Before that tragedy she wrote regularly.

The National Drill Shortage.

WASHINGTON, June 21.—The treasurer of the national drill committee has notified the contributors who originally furnished the funds for the outlay of $15,000 for drills, etc., that there is a shortage of nearly $30,000, needed to meet unpaid bills, and has requested them to pay promptly an assessment of 40 per cent. on the amount originally contributed.

Killed by Electricity.

CHICAGO, June 21.—Charles Mueller, head engineer of the Chicago Arc and Power company, while repairing an electric lamp during a thunder storm, received a shock which threw him backward several feet. When his fellow workmen reached him he was still breathing, but expired in about five minutes without regaining consciousness.

Apologizing to the Children.

LONDON, June 21.—The Crown Prince Frederick William of Prussia reviewed a body of school children at Sydenham yesterday and was by them presented with an address of welcome. He made an apology through one of his attendants for not replying to the address, as he was unable to speak above a whisper.

The Flatonia Train Robbery.

AUSTIN, Tex., June 21.—Three men supposed to have been implicated in the Flatonia train robbery have been arrested in Lavaca county.

Natural Gas in Colorado.

DENVER, Col., June 21.—Natural gas in small quantities has been discovered eighteen miles north of this city. It is expected that a paying field will be developed.

A JERSEY SCANDAL.

THE DUAL EXISTENCE OF A NEW YORK BUSINESS MAN.

Bringing His Mistress to Board in the House with His Family—The Greatest Exhibition of Cheek on Record Causes a Social Breeze.

MORRISTOWN, N. J., June 21.—The dual existence of a young New York business man has just been brought to light here and has caused a social breeze of considerable force six weeks ago a Mr. Robinson, of New York, came to Morristown. He was accompanied by his young and attractive wife and his little son. Board was engaged at a fashionable boarding house on Morris street.

One week ago last Saturday a stylishly dressed and handsome young woman came to Morristown. She, too, went to the same house and engaged board for the summer. She said her name also was Mrs. Robinson, but claimed different initials. She also volunteered the information that her husband and parents were in Europe.

The new arrival rapidly made friends with the first Mrs. Robinson and seemed to take a great interest in the little boy. By persistent questioning Mrs. Robinson No. 2 gradually learned all about the other Mrs. Robinson's wardrobe and jewels, and even got some idea of the money her husband allowed her each week.

After Mrs. Robinson No. 2 came to the house it was noticed that Mr. Robinson's letters did not bear him in the city, and he was home every night.

This made his wife suspicious and she watched him closely. On Thursday morning last she found him talking to the other Mrs. Robinson. She was looking directly at Mrs. Robinson No. 2 and recognized on her a pin as one which Robinson said he found about a year ago in a restaurant in Broome street, near Broadway. She concluded that she had evidence enough against the pair, and without saying a word to her husband about the discovery of which he had made she arose early on Friday morning and went to the home of her relatives, in Brooklyn. After hearing her story, they sent for Robinson, on some pretense. He went to the house, and when confronted with the proofs of his guilt he confessed his error, professed the greatest sorrow and faithfully promised to do right in the future.

The other woman who gave her name as Mrs. Robinson, he said, was in reality Mary, a waitress in her father's restaurant. While lodging in such rooms he met the woman infatuated with her, cultivated her acquaintance and for more than a year past has been maintaining her as his wife, for the past ten days under the same roof with his lawful wife. When he brought his family to Morristown for the summer he engaged board for Mary in Elm street, where she remained until he formed the extraordinarily brazen plan of bringing her also to Morristown.

Mrs. Robinson was nearly crazed with grief when she learned all this, and on Saturday started for the home of Morristown. She met the other woman at the boarding house and accused her of stealing her husband's affections. The woman was astonished at first, but soon assumed an air of bravado and acknowledged her guilt.

The landlady ordered the woman to leave the house within an hour if she desired to avoid arrest, and she left New York on the first train. When at the home of Mrs. Robinson's relatives in Brooklyn Robinson said that he would come to Morristown on Saturday night. He did not do so and has not been seen since.

The Monument to McCullough.

NEWPORT, June 21.—The committee having in charge the execution of a monument to the late John McCullough, the tragedian, visited this city for the purpose of examining the work of W. Clark Noble, the young sculptor, who is modeling a bust of the actor in the character of Virginius. The committee are delighted with the bust, and it will be executed in bronze and will be the first monument to be erected over the remains of McCullough in Mount Moriah cemetery, Philadelphia.

A Contest Imminent.

PITTSBURG, Pa., June 21.—A well attended meeting of boot manufacturers was held in this city yesterday, at which the new wage scale of the Amalgamated Association of Iron and Steel Workers was freely discussed. The manufacturers are exceedingly reticent as to what had been done, but enough was learned to warrant the statement that the manufacturers will vigorously oppose the adoption of the scale as it now stands.

Not the Murderer.

RAHWAY, N. J., June 21.—Detective Keron telegraphed to Mayor Daly yesterday that Casper Stromback is not the man who committed the Rahway murder. The Rahway authorities should now endeavor to work on the way the feathers grow on the chicken that was hatched from an egg found in the murdered girl's basket. They consider it very important, as showing the breed.

Fatal Accident at a Circus.

JAMESTOWN, N. Y., June 21.—On the circus ground near Lake Gorman, of Sugar Grove, was fatally injured. A horse was being shown off and in acting badly knocked down a rifle range made of boards. One of these struck her on the temple side, rendering her unconscious. Internal hemorrhage will probably follow and she will doubtless live but a few hours.

Must Not Be Knights of Labor.

PITTSBURG, Pa., June 21.—At yesterday's session of the Amalgamated Iron and Steel workers' convention a resolution was adopted that "on and after April 1, 1888, no member of this association can also be a member of the Knights of Labor."

Fatal Underground Explosion.

PARIS, June 21.—An explosion of firedamp occurred in a newly constructed railway tunnel at Gap yesterday, killing twelve Italian laborers and wounding thirty-five.

CONDENSED NEWS.

C. B. Barrett, of Pennsylvania, postoffice inspector, has resigned.

"Sheeny" Mike, the burglar, has been granted a new trial at Troy, N. Y., and some of the jury have been chosen.

A lady of Portsmouth, Va., was gored to death by the same bull which killed her husband one year ago.

Job Tobin, a refugee from Salt Lake City, is suing the corporation of that place for $1,000,000.

The affairs of Kershaw, the Chicago wheat operator, are in the hands of a receiver.

Southern Illinois is overrun with crop destroying insects.

Several remarkable Aztec mummies have been exhumed in the Sierra Madre range.

Two gypsy girls were struck by lightning while sitting under a tree at Reading, Pa. Both were fatally injured.

There is a report in circulation that Dr. Gallagher, who was convicted in England for his participation in the attempt to blow up the house of parliament, will be pardoned during the queen's jubilee.

Scraps of Information on a Variety of Subjects of Interest.

The Alexandrian Library, to which refer ence is so often made, was founded by Ptolemy Soter, in the city of Alexandria, in Egypt. It stood in two separate buildings, through one of which the Nile flowed, and contained in the aggregate 700,000 volumes. If correct, this was the largest collection of books that existed in the days of Rome, Greece, India and China. It was contained in the immense edifice or siege of Julius Cæsar, by flames, from this part of the library was entirely consumed. But it was afterwards restored to the collection of Bergamus, which was increased by Mark Antony's conquests, much to the chagrin of the Romans.

The other part of the library, kept in the Temple of Jupiter Serapis, was destroyed in the time of Theodosius the Great. The emperor permitted the destruction of all the heathen temples in the Roman empire. A fanatical Christian mob, led by the Archbishop Theophilus, stormed and destroyed the temple of Jupiter Serapis with most of the literary treasures.

The destruction of this library has been more deplored, perhaps, than any event of ancient times. Our knowledge of ancient history and literature was thus reduced to but a fraction of what it otherwise would have been.

The Rolling of Thunder.

The prolonged roll of thunder is readily explained by comparison with a rapidly moving along a line of troops. Suppose troops to be drawn up on a plain in such numbers as to extend for a mile and ordered by a signal that all could see at once to fire. One standing at the end of the line would hear the report of the musket nearest him instantaneously. He would hear the others succeedingly. Thus a report 550 feet away would come to him in half a second; one 1,100 feet away would come in one second, and he would hear the last report for five or six seconds after the gun had been fired. This would produce a sort of roll which would gradually increase in intensity.

If the line were divided midway between the two ends of the line the reports from both ends would reach him at once, and the sound would be but half as long in reaching him as if he stood at the extremity. If the soldiers formed a circle there would be one sharp explosion. Flashes of lightning may be considered as representing three lines of troops along which the explosions occur at the same time. Consider the variety of distance and position of the listener and we account for the variety of sound in thunder. In mountainous regions the rolling is augmented by reverberations or echoes.

Growth of Cities.

A town will spring up in the United States at the present time and become a city in so more time than formerly was consumed in achieving a population of a few thousand. Minneapolis, Kansas City, Denver, San Francisco, Chicago are examples; the largest of which has grown up in less than half a century. Compare this with the early growth of New York, the largest of all American cities:

Census of 1656	1,000	Census of 1840	312,843
Census of 1756	10,381	Census of 1850	515,547
Census of 1790	60,489	Census of 1860	805,651
Census of 1800	128,708	Census of 1870	942,292
Census of 1810	300,589	Census of 1880	1,206,299

A century was consumed in reaching a population of 10,000, a figure attained in one-tenth the time by Chicago.

The Tramp's Signals.

In Europe, particularly in England, and in some parts of America, the country is covered with beggars and tramps' guide marks. Tramps and thieves and beggars become so familiar with these signals that a mere glance at houses and fences will post them on the temper or availability of the occupant of the place. These signs are made with a piece of colored chalk, or an instrument resembling a button hook. The phrase "too fly" is represented by the letter X. When a tramp sees the mark on a fence or house he passes it by, knowing that he can't dupe the owner.

Peg Tankards.

The drinking horn of ancient times was a curious vessel. King Edgar ordered that pegs be fastened to the drinking horns to fix the draught one should take. A tankard is described as having a row of eight pegs, one above another, inside the vessel, from bottom to top. The tankard held two quarts, and each space, from peg to peg, represented a gill. Whoever drank short of this pin or beyond it was obliged to drink to the next, and so on till the tankard was drained.

The First Barometer.

In Galileo's time it was understood that "nature abhors a vacuum," but only to a height of 32 feet. To ascertain the reason of this he made some experiments. Previous to his death he recommended his pupil Torricelli to continue these experiments, which he did with a column of mercury in a tube, and the experiment resulted in the barometer, which is nothing more than a measure of the weight of the atmosphere.

Humble Pie.

The expression "eat humble pie" arose from the fact that umbles or heart, liver and entrails and the less desirable parts of the deer were formerly made into a dish for the servants. When the lord dined off venison pasty the huntsman and his fellows dined off "umble pie." Hence arose the expression "humble pie," denoting submission.

Early Copper Miners.

There is evidence that the race of mound builders, who once inhabited the continent of North America, and who were succeeded by the Indians, worked the copper mines. It is said by archæologists that this race of men were more numerous and superior to the Indian.

The Earliest Roman Writer.

Livy is the earliest writer in Latin whose works have come down to us, and he lived 750 years after the founding of the city or just before the opening of the Christian era. When the city was burned by the Gauls, 390 B. C., the records of its previous history were burned.

One Day's Labor.

The work performed by the human body in a day in circulating the blood, in breathing and in other processes is equal to that of twenty-two horse power for one minute.

A Russian Name.

Turgenief, the name of the famous Russian novelist, is pronounced with the accent on the second syllable, and the second e has the sound of ye or ie, though short.

Fine Scales.

Scales are now made so delicate that a signature on a piece of paper with a soft lead pencil can be weighed.

Nearest the Pole.

The farthest point reached northward was by Lieut. Brainard, 83 degs. and 24 min. latitude, or 6 degs. and 36 min. from the pole

YOUNG FOLKS' COLUMN.

MATTERS THAT ARE SURE TO INTEREST THE CHILDREN.

How to Make a Rolled Egg Dance Until Cold—Three Famous Birds That Have Had Their Praises Sung in Old Ballads.

How Base Balls Are Made.

Robin Redbreast is a beautiful bird and a favorite alike with young and old. The female birds lay beautiful pale gray, red spotted eggs, twice a year. The young birds may be reared from the nest without difficulty if bread soaked in milk be given to them. The plumage of the cock bird is pleasing though not showy. Robin Redbreast doubtless owes some of his popularity to the fact that he was selected from out the feathered tribe to figure in the ballad of "The Babes in the Wood," whom it will be remembered he did bury beneath the leaves:

"Leaves of all hues, gold, red and green."

THRUSH—BLACKBIRD—REDBREAST.

The blackbird is the "round cock with golden bill" so often mentioned in our ballad poetry. His song is heard very early, reminding us that spring with its pretty primroses is near at hand. Blackbirds are a dusky gentleman of rather solitary habits, and excepting the society of his dark lady bird, cares very little for company. Blackbirds here usually breed in the bread bush in May and lay from four to six eggs of a greenish hue, spotted and streaked with brown.

The thrush is the "sweet mavis" of old English ballad lore and under the latter name is often alluded to by the earlier poets. It begins to sing even sooner than does the blackbird and frequently builds its nest before the foliage has begun to appear. The thrush is not only a handsome bird, but its song is noted for the rich fullness and sweetness of the notes.

Balls That Boys Toss.

The number of base balls made every day at the present time and in the United States is about 10,000. There are four large manufactories—one in New York, one in Philadelphia, one in Bridgeport, Conn., and one in Attica, Ind. The process by which the best quality league ball is made is interesting. All the work is done by hand, machines having been tried repeatedly without permanent success. The centre of a base league ball is of solid rubber. Around this is wound about three ounces of Shaker yarn of the best quality, dampened. Then a covering of horse hide is put on. This completes what is termed the first finish. Then the ball is wound tightly with an ounce of the yarn, which is again wound on once more to make it as it is a uniform smoothness. Over this is put the final covering of carefully selected horse hide. The rubber ball, which forms the center of all base balls, is imported from Germany.—*Golden Days.*

The Cow Down a Child's Standpoint.

Here is a little girl's composition on the cow, as it appeared in Hartford Times: A cow is an animal with four legs on the under side. The tail is longer than the legs, but it is not used to stand on. The cow kills flies with her tail. A cow has big ears, that wiggle on hinges; so does the tail. A cow is bigger than a calf, but not as big as an elephant. She is made so small that she can go into the barn when nobody is looking. Some cows are black and some hook. A dog was hooked once. The name of the dog that worried the cat that killed the rat. Black cows give white milk, so do other cows. Milkmen sell milk to buy their little girls dresses, which they put water in and chalk. Cows chew cuds and each cow finds its own chew. This is all there is about cows.

Eight Riddles Answered.

Feet have they, but they walk not—stoves.
Eyes have they, but they see not—potatoes.
Teeth have they, but they chew not—saws.
Noses have they, but they smell not—teapots.
Mouths have they, but they taste not—rivers.
Hands have they, but they handle not—clocks.
Ears have they, but they hear not—cornstalks.
Tongues have they, but they talk not—wagons.

Grace and the Moon.

Dear little Grace at the window stood,
Watching, that winter night,
The great round moon in the far blue sky,
Where it shone so big and bright,

Till a cloud swept over its shining face,
Then she turned with a little pout:
"I wanted to look at the moon," she said,
"But somebody's blowed it out!"
—Wide Awake.

Coldest Place in the World.

Verchoinask is considered to be the coldest inhabited place in the world, even though its position, surrounded by high wooded mountains, would have induced a Mme. de Bourbolon to have designated it in her poetic way as the Frozen Isehl of Siberia. It is a small collection of native huts and Russian log houses, planted near to, but not on the Yana river. The street—if so it may be called—extends on either side of a narrow sheet of water, a kind of creek formed by the autumn overflow of the Yana, and which in winter forms the frozen promenade or driving place for sleds. It is a dreary place enough. The climate has only four months, and during the other eight of the year it is bitterly cold, the thermometer sometimes indicating 80 degs. below zero and seldom going above 30 degs. below 30. Corn will not grow in the desolate region. Barley and oats have been sown, but have always succumbed to the early frosts. Of vegetables there are only the radish and the turnip, with perhaps an occasional and very precarious crop of potatoes. Cabbages all run to leaf. The ground rarely thaws, even during the hot season, beyond twelve or eighteen inches deep, and in places most exposed to the sun never beyond a yard. Most of the dwellings are Yakut huts, built of low timbers, against a square frame work and covered thickly with mud to keep out the cold.—New York Mail and Express.

Cost of New York Flats.

Many of our readers doubtless have admired the splendid apartment houses called the Navarro flats in New York city, close to the Central park, and between Broadway and Fifth avenue. The Madrid cost $404,567.53; the Lisbon, $307,330.37; Cordova, $438,613.54; Barcelona, $420,967.37; Grenada, $396,695.51, and Toledo, $405,954.05—making a total of $2,722,285.62.—Cor. Detroit Free Press.

THE RHINE.

The Scenes of Romantic Love Yet Linger Round my Sacred Shore,
Where ghostly misses combed of yore
Blond locks in the moonlight,
Where cold swan maidens glided white,
Where elves held carnival by night,
Where the lone Lorelei on the height
Sang death to all who listened.
—Edgar Fawcett.

FACTS ABOUT THE MOSQUITO.

What the Insect Is Good for and the Part It Plays.

"While people think themselves perfectly familiar with this very common insect, they know next to nothing of it," said State Entomologist Lint in the course of a lecture on the mosquito, delivered in Albany the other night. "Mosquito is a Spanish word meaning little fly, and is probably the diminutive of the Spanish mosca, fly. In England mosquitoes are known as gnats. The mosquitoes and associated genera belong to the order of diptera, or two winged flies, and to the family of culicidæ. This family, from the high degree of development of its mouth parts, has been placed by entomologists in the group called clavicellidæ, or tiger beetles, at the head of the coleoptera, and the papilionidæ, the first of the lepidoptera. The principal characteristic of the former is the long and slender beak, or proboscis, nearly half as long as the insect, appearing as a simple organ, but really composed of several pieces peculiarly fitted for the function of piercing their way into the flesh and drawing blood therefrom.

"The effects of the bite varies greatly in different persons. There are those who are scarcely affected by it, and, indeed, are rarely bitten, either by this insect, the bedbug or the flea. I have no explanation to offer for the attractiveness of some persons for these pests and the reverse in others, but it would seem that its might result from some peculiar transudation from the pores. The severe stinging sensation and subsequent inflammation and itching of the bite is believed to be owing to a poisonous fluid injected into the wound through the proboscis at the time of its insertion to affect the blood and cause it to flow more readily. This opinion, advanced by Readmur, has been verified by discovering the fluids or the glands for its secretion corresponding to the poison sac, which secretes the venom injected through the sting of the bee, yet it has been largely accepted as the only feasible explanation of the attendant phenomena.

"All the annoyance, pain, tortures, which the world suffers from the mosquito is solely chargeable upon Mme. Culex. Let us fully admit that the natural taste of Mr. Culex may be equally bloodthirsty, but, alas! poor creature, he has been left without the means of gratifying a sanguinary desire. He is, therefore, compelled to forego the exquisite relish his companion may indulge, and is content with the juices of plants.

"We do know one purpose which the mosquito serves, and one of considerable importance in a sanitary point of view. It serves to purify standing waters, and, to a great extent, to lessen their malarial influences. The natural habitat of the larval mosquito is the stagnant water of our miasmatic swamps. The food of the larva of this genus, from its birth to its maturity, is believed to be decayed vegetable matter."—Boston Herald.

Scene on the Battlefield.

But there were other dangers for the helpless wounded than that of being shot at again while making their slow and painful way to where they could come into the surgeon's hands. It sometimes happened, in a fiery moon, that the grass of the battlefield took fire. Many a soldier on such occasions, suffering the agony of a bruised, broken and mangled body, saw the tortuous death of fire approach without any means of averting it. Towards dusk, during the battle of the Po, in the Wilderness campaign—May 10, 1864, after an unsuccessful assault on the strong position of the Confederates, the ground in front of the Second corps was thickly strewn with the wounded, and loaded muskets abandoned by wounded combatants, both blue and gray, lay everywhere in the dry, yellow grass.

Suddenly the grass took fire, and it became impossible to the wounded that of being shot again while making their slow and painful way to where they could come into the surgeon's hands. It sometimes happened, in a fiery moon, that the grass of the battlefield took fire. Many a soldier on such occasions, suffering the agony of a bruised, broken and mangled body, saw the tortuous death of fire approach without any means of averting it. Suddenly the grass took fire, and it became impossible to the wounded that of being shot at

HOW THEY DO IN DAKOTA.

The Way Jeb Holloway Was Outwitted by a Gentleman from Egypt.

Land speculators do not always have it their own way. Here is a little yarn that may make Commissioner Sparks and Henry George both feel good. Way out in Dakota there are whole counties with only a few hundred bonafide settlers in each, the rest of the land being held by eastern speculators waiting for the "unearned increment" to get ripe. But the honest settler gets there. He has a habit of filling the taxes on land values and going in heavily for internal improvements, roads, bridges, school houses, etc., and the eastern speculator has to grin and bear nine-tenths of the burden.

A cute Yankee named Jeb Holloway had taken up the northeast quarter of the south section, range three, west, of what we will call Skoopenin township in Cleveland county. He erected a ten by twelve turf house, and had the satisfaction of knowing it was the largest (and only) house in town. One day he slipped over to the county seat and urged the county commissioners into appropriating $4,000 to build a four room school house with a cupola, took the contract to build it himself, had his wife appointed schoolmarm at $40 dollars a month to teach his seven tow headed, stub toed boys, and went home. He built the school house, and it was a daisy. One day the business end of a cyclone played hob with Jeu's sod house, and dropped it somewhere in Manitoba. Holloway gathered his family together and camped on the ice cart for two weeks. Then an idea struck him, and he went behind the only tree in fifteen counties and kicked himself. Two hours later his wife was frying sausage in the school house and he was sitting on the front steps in his stocking feet.

He lived there for nearly a year. One day a prairie schooner hove in sight and halted at the school house. An enormous "Egyptian" climbed out and unlimbered

"This yer an inn?"

"Naw."

"Yourn?"

"Naw."

Then the confiding Holloway told him the whole story.

"Hit's the county school'us?" incredulously asked the stranger.

"Uh huh."

"N' you uns don't pay no rent?"

"Naw."

"Hank! oh, Hank!" the stranger shouted, "dis' onhitch them mewels right thar. We uns'll stop yer, I reckon. Now, neighbor, which half of the school'us you take? I ain't pertickler. My quarter section is right yaw."

Holloway looked dubious, but the stranger had eight strappin' big boys, two bulldogs, and looked dangerous, so he meekly succumbed. Then the Egyptian insisted that the school should be kept, and all eight of his boys wanted to go. In ten days Holloway was glad to compromise and divide the teacher's salary, and inside of a month they were both over at the county seat trying to have the school graded and an assistant teacher appointed.—Washington Critic.

Do You Know Who I Am?

I like the fellow who is always asking, or seeming to ask, "Don't you know who I am?" It is human nature to be ashamed of being insignificant, of being unknown. The occupation does not deprive a man of that sense of being of some importance in the world. At the same time, there is notaing a man resents as quickly as being asked, "Don't you know who I am?" Nobody in creation can keep the answer, internally, if he can keep it to himself, of "No, I don't, and I don't care a ——." There was once a very important state official in California who thought that everybody in the state knew him, or ought to know him. He was one day walking through a field, when a bull addressed him in an undertone and made for him with its head down and horns in a position to raise him. He was a state official, a man of dignity and political power and natural pomposity, but he ran. He ran surprisingly well. He ran even better than he did for office, and he got to the fence first. He clambered over out of breath and dignity, and found the owner of the bull calmly contemplating the operation.

"What do you mean, sir?" asked the irate official. "What do you mean by having an infuriated animal like that roaming over the fields?"

"Well, I guess the bull has some right in the field."

"Right! Right! Do you know who I am, sir?"

The farmer shook his head.

"I, sir, I am General ——."

"Why in thunder didn't you tell the bull" —San Francisco Chronicle.

The Lime Kiln Club.

A communication from the secretary of state of Ohio contained the inquiry: "Has the Lime Kiln club ever undertaken to prove that only a certain breed of hogs can be raised in the state of Georgia? If so, what breed is it, and why is this thus?"

"Dooryi' my trip free Gawgia las' fall," said the president as he filed the letter away, "I saw dat one breed of hogs. Dey was known as de Knife Blade breed. Dey war' long, slim, an' purty animals, all legs an' snout, an' de way dey disappeared from de view of a cull'd man would have madeu fox ashamed of de chase. It looks logistical-ferdat de hog an' his looks, an' inside of three days war' perfectly satisfied that he either had to be built dat way, or walk in a pair of wings. Any older breed of hogs would keep him in de cull'd man's pork barr' inside of a week. If I war' gwine down to Gawgia to raise hogs I should lengthen the legs of de present breed about six inches, an', make 'em a leetle thinner in de body, an' calculate on deir bein' able to leap ober a fence or squeeze threw a knothole about fo' seconds too soon to be caught by de hind legs. De water pail will now be emptied of its contents as a precaution again spontaneous combustion, all de alley winders will be firmly nailed down, an' we will go home an' let de country run happy-hazard for a full week."—Detroit Free Press.

She Will Need Rest.

Stay at Home—Going to Newport!

Miss Flighty—Yes, when to Bar Harbor and Narragansett, and possibly to the Catskills.

"You will enjoy yourself immensely, no doubt!"

"Yes, indeed, and by the middle of September I'll be ready to go somewhere and rest."—Philadelphia Call.

A man with a wheelbarrow on the sidewalk is not very popular, but he generally carries everything before him.—Boston Bulletin.

A. S. Titsworth,

LIFE INSURANCE

Insurance secured in any reliable Insurance Company. No oil secret for. The Provident Savings Life Assurance Society of New York, for thrift insurance at cost.

JOTTINGS.

—Members of the Middlesex Gun Club are shooting for sweepstakes at Dunellen to-day.

—John Mills was arrested yesterday afternoon for drunkenness, and fined $3 this morning.

—Fire works in abundance at R. C. Fisher's, 24 West Fourth street. See advertisement.

—Somerset street has been macadamized as far as Jackson avenue, and the work will soon be completed.

—Edsall says he is now offering some of the most desirable bargains at his special sale that he has ever offered.

—The picnic of the Plainfield "Gesang und Turn Verein," will be held at Keller's Grove, North Plainfield, early in July.

—One of the large plate-glass windows in the shoe store of John Keeney, on North avenue, was accidently broken yesterday.

—No prayer meeting will be held in the Congregational church until after the building has been thoroughly cleaned and renovated.

—One thousand feet of new diamond rubber hose was received in this city yesterday afternoon and distributed among the various companies.

—A large number of Plainfield people last night visited the encampment of the United States artillerymen on Mr. Rocap's property at the Grant avenue station. The company left early this morning.

—The work of the High School and Primary Department in writing and illustrating from memory is exceptionally fine and well executive, showing much care and hard work on the part of the pupils.

—The commencement exercises of the Westfield High School will be held in Arcanum Hall in that village this evening. The graduating class comprises twelve scholars. The exercises will be of unusual interest.

—A gentleman remarked last evening that he hoped the time would soon be here when the dog ordinance would go into effect, and a number of worthless curs be taken off the streets or their owners compelled to muzzle them.

—The Plainfield Journeymen Plumbers request us to say that no practical plumber in this locality represents in this city the Master Plumbers' Association of New Jersey. They say those claiming to are not practical plumbers. They claim to feel hurt at being misrepresented.

—An unusually large attendance is expected at the Public school commencements tomorrow evening, and the proceedings will be very interesting. Tickets of invitation have been issued to reserved seats both in North Plainfield and in the city.

—Last night's shower was one of the severest that has visited this locality in years. The rain descended in torrents, while the thunder was one continuous roll and the lightning played incessantly. The streets were covered with a sheet of water, but soon disappeared, however, soon after the rain ceased.

—Theodore Glazier, a fertilizing manufacturer, of Linden Township, who was indicted by the Union County Grand Jury for maintaining a public nuisance was arraigned in court in Elizabeth yesterday. Glazier promised if the sentence was suspended to remove his factory. Prosecutor Wilson accepted the plea and Judge McKmick released Glazier on his own recognizance.

—When the "Y's" gave their recent old folks' concert an extra edition of the pretty programs were printed by order of some of the advertisers for free distribution. About five hundred copies are yet in the hands of the committee who have placed them in the drug store of R. J. Shaw, on Front street, where they can be procured by advertisers and others who desire them.

—Fourteen applications for membership were handed in at the meeting of the new military company, in Crescent rink last evening. As there was not a quorum present the meeting adjourned to meet again next Tuesday evening. The company already has eighteen members, but a membership of fifty-three is required before it can receive accoupterments from the State and become legally organized.

—The Young Men's Christian Association, of Morristown, decided some time ago to start a building fund to collect $30,000 for the purpose of erecting a handsome new building on South street. The young men set to work earnestly and they have succeeded in raising the required sum with the exception of about $400. The plans for the building are now in the hands of the committee and work will soon be begun on the foundations.

—The case of Ubdal vs. Hand was called yesterday before Justice Kite and a twelve men jury at Fanwood. The testimony showed that Charles Ubdal and Vincent Nash, both from Ubdal have been doing business together, and had not had a settlement for some time. Vincent Nash had loaned Ubdal money and accepted his claim against Hand as security, and the Plainfield justice demanded a settlement, claiming a balance due of about $150. The defense urged that the plaintiff was indebted to him to the amount of a few dollars. A verdict of $15.50 was allowed plaintiff.

—It was stated in yesterday's News that Frank Aiken, of South avenue, had fired a pistol at a lad named William Reigh, for stealing cherries from his trees. Mr. Van Aiken called at this office this morning to state that the shot was loaded with only powder, and it had been done to frighten the boy and his companions away. He says that a number of lads in that neighborhood make a regular practice of robbing him of all his fruit and when he undertakes to offer any objections, himself and family are subjected to insults. He lives too far out of town to summon an officer every time these depredations occur, and he undertook to take the law into his own hands. He will cause the arrest of Reigh and some of his companions.

Seminary Commencement.

The annual commencement of Mrs. Dingee's seminary took place at 31 East Fifth street last evening. A happy and expectant company gazed toward the closed doors which separated the two parlors, eagerly awaiting the treat which the well arranged program promised. At eight o'clock the doors slid back, and the waiting guests were rewarded by a glimpse of New England life presented in a short play entitled "The Yankee Girl." This character, Mrs. Greenleaf, had a most admirable representative in the person of Miss Lizzie Maltby. Miss Carrie Switzer, and Master Fred Smith as Mrs. and Mr. Bustle, Miss May Rodman and Master Lim Edsall as Miss and Master Bustle, the Boston relatives, were all excellent. Next in order was a recitation by Miss Mary Collier, after which there was music by Miss Jessie Hanchett.

A very pretty scene was the presentation of the seven different colors of the rainbow by seven of the pupils, each dressed to represent a color, and reciting an appropriate verse in keeping with his or her color. "The Lost Child," rendered by Miss Agnes Rodman, brought the pleased audience back to earth. The next feature of the evening was a tableau in seven acts, representing the "Seven Ages of Life," and was followed by Miss Carrie Switzer's essay on "Westminister Abbey." Miss Lizzie Maltby's essay on "Catherine Parr" was of equal merit. Following these were the presentation of diplomas by the Rev. E. M. Rodman. The diplomas were made of white satin, the pen, and were very pretty in design and execution. Succeeding this came an address by Mr. Rodman, in which he expressed his thanks to the pupils of the school for their kindness in giving the school his name. He was unable to understand, he said, why it had not been called the "Dingee Seminary," instead of the "Rodman Seminary," because of the good work which had been done by Mrs. Dingee. In conclusion, he called attention to the fact that the graduates had finished their course of study on the day of the Queen's Jubilee. In speaking of Victoria's life, a Christian woman and a Christian queen, Mr. Rodman remarked that every woman might be a queen, and every man a king.

After the awarding of prizes, the pupils and their friends remained to take part in the reception which consisted of music, dancing and refreshments.

Union County Branch S. C. A. A.

A meeting of the Executive Committee of the Union County Branch of the State Charities' Aid Association will be held in the Lecture Room of Grand and Murray streets, Elizabeth, to-morrow afternoon at four o'clock. The object of this association is to visit, inspect and examine, on behalf of the State Association every charitable, penal and reformatory institution in the County of Union, supported by public money, with a view to the general, mental and physical improvement of their inmates; and to induce the adoption by the community of such measures, in the organization and administration of both public and private charity, as may tend to the elevation of the unfortunate classes of the community. Under an order of Justice B. Van Syckel, of the Supreme Court of New Jersey, the members of this association are permitted to visit all public institutions, and recommend such legislation as may be deemed necessary. Among the members of the various committees are the following prominent people: On Poor Laws—Craig A. Marsh; Elevation of Poor in their Homes—Mrs. G. W. Ferry; Out-Door Relief—Mr. P. Reynolds, Miss Isabel Tweedy, Mrs. J. K. Myers; Correspondence—Mrs. H. L. Pierson, Mrs. Craig A. Marsh; Reading Matter for County Institutions—Miss Mary Haviland. A rule of the Executive Committee reads as follows: "Visitors and committees of the associations shall respect the rules and regulations of the several establishments visited by them, and shall make no complaints to any person employed at the institutions or frequenting them, with. Each visitor shall keep a note-book and write down the specific facts relating to any abuse or mismanagement, together with the evidence thereof, and all the details necessary to prove the matter coming to their knowledge, and no information shall not be made public, but shall be for the perusal of the executive committee only."

The Lightning's Work.

During the storm last night, the tower on St. Mary's Roman Catholic church, at the corner of Sixth and Liberty streets was struck by lightning, and the frame work on one of the window on the front of the tower was badly shattered. The damage to the edifice is slight.

A large tree in front of the residence of Mr. W. P. Scott on West Seventh street, near Plainfield avenue, was also struck by lightning and split from the top to the bottom.

A report was current on the streets to-day that a dwelling house at New Brooklyn was struck by lightning last night.

The house of Justice Nash on Park Place, near Putnam avenue, was struck by lightning about three o'clock this morning. The bolt first struck the roof, shattering the slate and then tore off some of the clap-boards from the side of the house. It then went thirty-six feet, without injuring anything to the rear of the house and splintered some of the rafters. The damage was not very serious.

The barns and other out buildings belonging to William Stryker, situated about two and a half miles southeast of Bound Brook on the New Brunswick road, were entirely destroyed by fire about two o'clock this morning. The buildings were struck by lightning. The horses and farming implements were saved. Another fire is reported to have occurred beyond Bound Brook at about the same hour, but the particulars could not be learned.

SCOTCH PLAINS.

A movement has been inaugurated in Scotch Plains for the establishment of a public library and free reading room. A friend of the project has donated $100 and others have signified a desire to make liberal donations. The library rooms will be located in Excelsior Hall.

—Warrants are out for the arrest of two young lads belonging in the "Boulevard." Complaint was made against them for disorderly conduct, and when they learned of the fact they hastily decamped.

Reception to the New Pastor.

The reception tendered the Rev. Cornelius Schenck, the new pastor of Trinity Reformed church, at the residence of Mr. B. A. Hageman on Sycamore street, last evening, was a very pleasant affair. Not only members of the church, but many friends of other denominations were there to wish the newcomer success in his new field. Mr. Schenck greatly admires the hospitable treatment he has received on all sides, and says he has been made to feel perfectly at home since his first came here. He is very much in love with the city, and greatly admires both its natural beauty and the additional attractions in handsome dwellings and pretty streets. Mr. and Mrs. Hageman placed their house at the disposal of their guests and made the evening a very pleasant one. The visitors were served with refreshments before leaving. Rev. Mr. Schenck is not only a native of New Jersey but also of Somerset county and it was peculiarly appropriate that his first reception should occur in his native county, even if the church edifice is in an adjoining one. Mr. Schenck is very cordial and pleasant in his manners, and greets all in that sincere, earnest way that at once wins the hearts of those who approach him. He evidently has the material in him that will make a good pastor and his last Sunday's pulpit efforts were deservedly acceptable. The Trinity Reformed church is to be congratulated on the acquisition of such a man. Among the clergy present last evening were Rev. Dr. Yerkes, and wife, Rev. Mr. Simonson, Rev. W. R. Bonnell and wife, Rev. A. R. Dilts and Rev. Mr. Koechli. There was a very pretty display of flowers and Mr. and Mrs. Hageman spared neither time, labor nor expense to make the entertainment a success, and everything passed off so gradully that everybody was delighted.

Alumni Day at Rutgers.

Yesterday was Alumni Day at Rutgers College, New Brunswick. The Rev. T. De Witt Talmage addressed the literary societies in the afternoon. The annual election of Alumni heard Dr. Vanslyck's address, was addressed by Gov. Green, President ex-officio of the Faculty, and held a banquet at which Editor Ward, of the Independent; President Truman J. Backus, of Packer Institute; the Rev. Dr. D. D. Demarest, Professor of Theology in the Reformed Seminary, and others spoke. The following officers were elected:

President—Garret D. W. Vroom, '62; Vice-Presidents—William S. Banta, '44; C. T. Wilson, '56; Wm. J. B. Hoagland, '59; Richard Wynkoop, '62; F. T. Peckman, '78; Secretary—John S. Voorhees, '76; Treasurer—J. S. Gutman, '80; Executive Committee—Robert Voorhees, '41; Orator Secundus—William H. Vredenburgh, '59; Necrologist—Irving S. Ribble, '79. By ballot Gen. Theodore Runyon was elected Trustee.

The Trustees met, Gov. Green presiding, and elected to move toward the erection of a college dormitory. The college was reported to never being in a more prosperous condition.

During the evening the cornerstone of the new Chapin Library and the Delta Phi Fraternity was laid by the Rev. W. H. Teneyck, D. D., '48.

The contest for the Junior oratory prize was held during the evening. The contestants were: Phsithesosphian—Edwin "M. Alden, "Co-operation;" Alpha Mayhaen, "Education and our Nation's Hope;" William B. Tompkins, "John Brown;" Oscar M. Voorhees, "Political Power of America." Philoclean—Ferdinand S. Wilson, "The Relation of the College and the University;" Charles W. Dayton, "Music;" Sherman G. Pitt, Centenary of our Constitution;" William J. Lansley, "The Waldenses."

Important Appeal Cases.

Among the Plainfield cases of importance before the present term of the Court of Errors and Appeals is the canal celebre, known as the Casino Skating Rink case. The chancellor on February 1st of this year decided the cause in plaintiff's favor, and defendant now appeals from the decision. Craig A. Marsh has presented Millard R.'Jones, the plaintiff, and Judge McCarty represents the defendants Dennis & Woglom. The amount involved is $10,000, and costs reaching toward $1,000 more.

Another case of interest to the citizens of the Borough, also before the court, is the Carey cartman's license case. The Supreme Court decided that the Borough had no right to require a license from Councilman Carey, on the ground that he resided in the city of Plainfield and there had his place of business and was there duly licensed. From this decision against the Borough, an appeal was taken by Jackson & Codington.

High School Musical.

A musical review of the songs of the past term was given at the high school this morning, beginning at nine o'clock. The parts were exceedingly well rendered by the school, and much enjoyed by the numerous visitors. The programme is appended.

America	Tablet 139

—There was a goodly attendance at the festival in Warren Mission Chapel last evening given by the Dunham Choristers. The program as printed in yesterday's News was successfully carried out. The orchestra consisting of twelve pieces led by Prof. Bartow, of Bound Brook, rendered excellent music and much credit is due them for their splendid training. The choral music given by the choristers was listened to and much appreciated by the audience. Mention is made of the solos by M. M. Dunham, C. H. Farley and Wm. Rankin. Mr. Dunham then gave notice that the choristers was now ready for business and were glad to extend to so many on this warm evening, and yet it was a good evening for their business, providing those present took hold in the purchased of the many good things on hand for sale at reasonable prices. Those present did respond to the choristers and their assistants were very busy the whole evening attending to the wants of the people. An entire change in the programme is published to-day for this evening.

PERSONAL.

Prof. Hazen, the aeronaut who managed the New York World's balloon trip from St. Louis, is a cousin of R. J. Shaw, the Front street druggist.

Dr. Edward Rushmore of Park avenue, is a delegate to the vention of the International Hahnemannian Association now in session at the Ocean Hotel, Long Branch.

Mr. L. Heyniger has placed his son, Frank, in charge of his new branch store on North avenue, where he is to keep flour and feed and cockeware novelties. The store is now opened for business.

Walter Sheritt, of Grandview avenue is employed in a hardware establishment at Elizabeth. He had been ill for over a week with measles, and returned to his business in Elizabeth yesterday.

Gen. Eli Long, of North Plainfield, will on Tuesday next go to his pleasant summer villa at Bluff Point, Yates county, N. Y., for the season. The General owns an extensive vineyard at that place and enjoys spending his summers there.

The funeral of the late Mrs. Ruth E. Smith, who died at her residence, 110 East Second street yesterday morning, will take place from her late residence to-morrow afternoon at five o'clock. Interment will be made at Tarrytown, N. Y.

Dr. Lowrie has recently been making extensive improvements to his dwelling on Park avenue. The carpenters have about completed their work and the painters and paper hangers are now completing the job. It is a decided improvement to the property.

We were favored with a visit this morning from John Bogert, Managing Editor of the New York Sun. Mr. Bogert is about to locate in Plainfield for the summer, with his wife and children. He has been on the Sun for the past seventeen years, and there is no more talented newspaper man in the country.

Mr. A. P. Wright, manager of the electric light works, addressed a public meeting of citizens at Westfield last evening on the practicability of lighting the town by electricity. The matter was referred to the committee, who will confer with Mr. Wright and make a report in about a week. It is believed that the system will soon be introduced at Westfield.

Mrs. Mary Silleck, widow of the late Chas. M. Silleck, died at her residence in Brooklyn on Monday of consumption, and will be buried in the Presbyterian cemetery, North Plainfield, to-morrow morning at 10:30 o'clock. Mrs. Silleck formerly resided in Plainfield near the Park House, and one year ago to-day she buried her daughter Louisa, who also died of consumption. Mr. Silleck died about three years ago.

Councilman M. M. Dunham, of Union street, the jovial leader of the Dunham Good-Will Choristers, has several old steel engravings and prints hanging on the walls of his home, representing "Daniel Webster's first speech before Congress," and "the first prayer in Congress." He also has among many other relics a tall old-fashioned clock of solid mahogany, the works of which are said to be unexcelled for fine, and specimens of inlaid wood-work of Indian manufacture.

Miss Euphemia Frazee, daughter of Augustus M. Frazee, was married to Charles E. Gullberg of Jersey City this afternoon at four o'clock by Rev. W. M. Day of Elizabeth, former pastor of the M. E. church here. The ceremony took place at the home of the bride's parents, corner of Pacific and Second streets, and a reception is to take place at seven o'clock to-night. The couple start on the 8.40 train on their wedding trip, and intend to visit Albany and Saratoga, returning Saturday evening. The groom is a jeweler, and has a store in Jersey City. He has also a government position. The couple will reside in Jersey city. The bride has received a very large collection of valuable wedding presents, indicating hosts of thoughtful friends. She is one of the young women referred to in THE NEWS a few days ago, in an account of the Frazees, her ancestors, who were traced back as residents of this vicinity for the past 250 years, and who have been prominently identified with its growth.

STATE NOTES.

Jacob Erhardt, aged 80 years, of Hamburg Place road, Newark, was instantly killed by a train on the Delaware and New York railroad near his home at 6 o'clock last night. He was deaf.

Michael H. Murray, the president of the Newark Liquor Dealers' Association, who was recently convicted of the continuous sale of liquor on Sundays, was fined $500 yesterday, and Edward Lahman, convicted of the same offense, was fined $250.

It is believed in Rahway that John Rhadacker, of Linden, who claims that his daughter Mary was the victim of the murder at Rahway and that she worked there for a long time, must be mistaken. A diligent search throughout the town failed to find any one who ever heard of such a person as Mary Rhadacker.

The Seventeenth Annual Convention of the New Jersey State Dental Society will be held at the Coleman House, Asbury Park, commencing July 5th, and continuing three or four days. Other States will be represented. Manufactures, druggists, and inventors are invited to place upon exhibition all goods likely to be of interest to the profession.

Ex-Mayor James A. Bradly, of Asbury Park, fired a hot bombshell at the colored people of that place yesterday by publishing a set of rules in a local paper excluding them from the pavilions, walks, etc., at his popular resort. The colored folks say that they will pay no attention to Mr. Bradley's orders, and he has called upon the police to see them carried out.

The Joint Board on the Pollution of the Passaic River, which is maintained by Jersey City and Newark, adopted a resolution on Monday evening declaring that the water of that river is dangerous for drinking purposes, and recommending that it be condemned. For some time past various private companies have been endeavoring to get a contract to supply Newark and Jersey City with water, and the resolution is believed to be one development of the scheme.

—The thunder storm this morning broke down poles of the telephone company between Plainfield and New Brunswick, preventing communication between these two cities.

—It is said that the hall which is to be erected on Somerset street in North Plainfield, opposite the Warren Engine house, by the Gesang and Turn Verein Association, will be an elaborate affair, and that the operations will be begun about the first of August.

LATEST DISPATCHES.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

1887	1886		
6 a. m.	70	58	Sun rises 4 29
9 a. m.	76	66	Sun sets 7 34
12 m.	81	75	Moon rises
3 p. m.	83	72	Moon sets 8 38

Weather Indications.

For Thursday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, partly cloudy to fair weather, preceded by local showers near the coast north of Cape May.

Illness of Mrs. Blaine.

CHICAGO, June 22.—A special London dispatch to the News says:—The illness of Mrs. Blaine may alter the junketing plans of the ex-Senator. She suffered her first prostration Sunday. Mrs. Blaine took to bed and, being considerably worse Monday, Dr. Verndon was summoned. She arose a few moments yesterday and viewed the monarchical pageant as it passed the Metropole Hotel on its way to Westminister. Unable to endure the waiting for the Queen's cortege, however, she was led back to her couch. None but the most intimate friends have secured an audience with her and all social invitations have been disregarded. Dr. Verndon declines to describe the nature or seriousness of Mrs. Blaine's malady.

Rockets and Flames.

LEAVENWORTH, Kan., June 22.—Fire broke out yesterday in the basement of Heimers & Parmlee's retail furniture house, the flames spreading in every direction. The large stock of fireworks in the store of A. Belga commenced to explode, and firemen were driven away by whizzing rockets, etc. The fire gained rapid headway, and Pate & Ferguson's furniture store, Cranston's furnishing establishment, Heimes & Parmlee's two buildings and the Metropolitan restaurant were burned. The losses are estimated at from $200,000 to $350,000; insurance, $120,000.

"Held Up."

PORT HURON, Mich., June 22.—Five men boarded the 11.15 a. m. east bound Grand trunk train at Port Patriot yesterday and "held up" the passengers. Several of the latter lost what money they had, one man losing $160. Three men have been arrested on suspicion, and are now in jail here. The robbery was done very quietly, and only those knew it who were awakened by the robbers.

Died.

SMITH—This morning, at her late residence, 110 East Second street, Ruth E. Smith, in the seventy-third year of her age.

Funeral services will take place to-morrow afternoon at five o'clock from her late residence, 110 East Second street. Interment at Tarrytown, N. Y. 21-2*

VOEHL'S QUEEN BREAD

Should be tried. Ask Your Grocer for it.

And also try his unequaled

New England Bread

Some of the latter is genuine except bearing the label. Also a variety of cake made of the best materials. Thanking for past favors, I solicit the continued patronage of our friends.

H. A. VOEHL.

NOTICE—The Plainfield Gas Light Co. would call the attention of gas consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the gas stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office, cor. Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL Rates *will be made for Gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be RENTED at Moderate Rates.*

The Plainfield Gas Light Co.

Ships Republic, Higie; Minnie Swan, Rotterdam. Barks Jacob, Bremen; Maud Scammell, Mazanilla. Arrived out, steamers Gellert, from New York, at Queenstown; Westernland, from New York for Antwerp, has passed the Scilly Islands.

The Actress' Murderer.

PHILADELPHIA, June 22.—Robert G. Hall, charged with the murder of Sophie E. Smith, alias Harvey, on the night of June, was arraigned late yesterday afternoon before Judge Willson. Hall entered a plea of not guilty. The case will be called for trial next Monday.

They Reject Henry Most.

NEW YORK, June 22.—Delegates from the Bohemian, Russian, French, English and five of the German sections of the Socialistic Workingmen's party, at a meeting held in this city refused to enlist Henry Most, the Anarchist, as a member of that organization.

Donovan's Jubilee Spoiled.

LONDON, June 22.—Larry Donovan, the jumper, was prevented by the police from jumping off the Clifton suspension bridge yesterday, and was taken into custody, charged with attempting suicide.

A Steamer Overdue.

QUEENSTOWN, June 22.—Considerable anxiety is felt for the safety of the steamship British Princess, from Philadelphia, which is overdue here.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 21.—Money closed at 6 per cent. The highest rate to-day was 7, and the lowest 4. Exchange was steady; posted rates, $4.86½@4.86, actual rates, $4.85¾@4.84 for sixty days and $4.85@4.85¼ for demand. Government bonds were steady; posted rates, 4s, coup., 125½ bid; 4½s, do., 109¾ bid.

The decline at midday ranged from ¼ to 1¾ per cent in New York and New England, Pacific Mail, Louisville and Nashville, Lackawanna and Lake Shore were made the objects of a special attack. The bears, however, found the market active, fully one-fifth of the whole morning's business having been done in that stock. The entire stock market continued weak up to within a half hour of the close, when there was either a rally in every line, this caused a rally of ¼ to 1¼ per cent from the lowest figures of the day. The closing prices were, however, a fraction or more lower than the best of yesterday. Reading was a notable exception, closing its per cent higher. The decline in the others ranged from ¼ to ⅝ per cent.

General Markets.

NEW YORK, June 21—FLOUR—Closed steady; winter wheat extras, $3.30@3.75; Minnesota extras, $3.50@3.75; patents, $4.25@4.50; Southern flour closed dull and weak; Southern bakers' extra, $3.30@3.65.

WHEAT—Options were only moderately active, while prices were very weak, and June sold down from 80c to 87, and the other months in sympathy. Export sales were made in the close. Spot sales closed ⅛ to be lower. Spot sales of No. 1 red state at 90½@91c; No. 2 do. 89½@90; No. 2 red winter, 89½@90; No. 3 do. ungraded red, 87½@88c; No. 2 red winter, June, 89½c; do., July, 88¼@88½c; do., Aug., 87½@88c.

CORN—Options were dull and weak, closing ½@¾c lower. Spot sales were weak and 1@c lower. Spot sales of No. 2 mixed at 47½c; ungraded mixed, 46¾@47½c; No. 2 mixed, June, 46¾c; do., July, 46¾c; bid; do., Aug., 47¾c bid.

OATS—Options were a shade lower and dull, closing ¼@⅜c lower. Spot sales were dull. Spot sales of No. 1 white state at 38½@39c; No. 2 do., 37½c; No. 2 mixed, July, 33¾@33½c; do., June, 36½c; do., July, 35½c.

RYE—Dull, western, 54@56c; state, 61@63c.

BARLEY—Nominal.

POEK—Dull, old mess, $14.50@14.75.

LARD—Closed dull and heavy; cash, $6.60; July, $6.63@6.67½; Aug., $6.76@6.68.

BUTTER—Dull; state, 12@18c; western creamery, 10@18½c.

CHEESE—Dull; state 8½@9c; western, 7½@8½c.

EGGS—Dull; state, 16c; western, 16½@15c.

THE GRAND JUBILEE.

ECHOES FROM GREAT BRITAIN'S GRANDEST CELEBRATION.

One of the Greatest Pageants of Modern Times—Cheered by Millions of Loyal Subjects—A Dazzling Scene at Westminster Abbey.

LONDON, June 22.—The jubilee demonstration was a stupendous success. Vast multitudes, numbering over 1,000,000 people, are estimated, participated in the magnificent pageant in England's city. With perfection of order, and single incident occurred to mar the harmony of the great demonstration. The scene presented by the long lines of streets, what with draped pavilions, endless floral vistas, innumerable gayeties of flag, banner and trophy blended into masses of decorations, and the ever moving and immeasurable sea of faces, has been one of dazzling brilliancy and marvelous animation.

The impression left in the minds of those who saw the pageant is that whatever boundless wealth, military pomp and illustrious rank could do to create and heighten the effect of a state's show of loyalty, obtained to the affection of a people for their sovereign, was done for yesterday's demonstration, and the result surpasses any thing of the kind ever seen in Europe, in modern times at least.

A day of glorious sunshine, an atmosphere of rare purity for those latitudes, and a sky of the deepest blue favored the gala spectacle. The people who camped out all night or who had risen early yesterday morning in order to secure places on the line of march passed a pleasant time, and the result surpassing many of the kind ever seen in Europe, in modern times at least.

The impression left in the minds of those who saw the pageant is that whatever boundless wealth, military pomp and illustrious rank could do to create and heighten the effect of a state's show of loyalty, obtained to the affection of a people for their sovereign, was done for yesterday's demonstration, and the result surpassing many of the kind ever seen in Europe, in modern times at least.

The jubilee illuminations at night were splendid, and were viewed by immense crowds.

HOSTILE BOSTONIANS.

The Police Prevent Injury to the Queen's Jubilee Celebrators.

BOSTON, June 22.—Faneuil Hall square was the scene of excitement last night. Early in the evening crowds of men and boys began to arrive, and in a short time the square was almost filled with people. A body of police, numbering 100, under the command of Deputy Superintendent Burrill, had hard work to keep the walks clear. The only arrests made were in the cases of a few drunken men.

By 8 o'clock the crowd had increased so as to interfere with the holders of tickets gaining admission to the banqueting hall, and the police were called on. After these tickets were roped off and cleared after some vigorous clubbing by the police, who had been reenforced by a squad of mounted officers. No one was allowed to enter Faneuil Hall square unless he held a ticket. A boy was trampled upon by an officer's horse during the charge on the crowd, and it is said the lad has died from the injuries.

The crowd in Dock square was addressed by one or two speakers, and some one suggested that the hall be burned, but the sentiment was not favorable. The crowd broke from the confusion and shouting incident to every large crowd, there was no disturbance. As the police escorted the late arrivals through the dense crowd they were loudly hissed, but the disapproval of the mob went no further.

LOST ON THE LAKE.

Eight Persons Drowned by the Sinking of a Steam Barge.

CLEVELAND, June 22.—The steam barge F. H. Walters, a 197 ton vessel, owned by Capt. Brother Hughes, of this city, struck in a storm off Black River, O., Monday evening, and eight lives were lost. The vessel left Marblehead in the afternoon at 5 o'clock, and when off Black River the captain's wife, who was on board, begged the master to put in at Lorain, as the threatening weather alarmed her. The vessel was headed toward the harbor, but the wind was blowing about that she was struck by a terrific squall. The wind bore the barge round and round, the hold filled with water and in a half minute she sank. The captain, mate and two of the captain's sons saved themselves by clinging to floating fenders. Yesterday morning about 3 o'clock the cries of the shipwrecked attracted the attention of the lookout on the steamer Pears, bound to Cleveland from Detroit. A lifeboat was lowered and the shipwrecked mariners were brought to Cleveland. They lost all.

Mrs. I. G. Gillespie, wife of the master; Alphos and Jennie Gillespie, the master's children; Engineer Peter Grimes, of Cleveland; Deck Hand Brennan John Wheelman Gust. Shaffer, of Sandusky, O.; Deck Hand Peter Powley, of Lighthouse Station, O.; Stewardess Kate Powley, wife of Peter.

The Wells College Exercises.

AURORA, N. Y., June 22.—The class day exercises of Wells college Saturday morning were marked by an innovation in the matter of dress of the graduates. The five girls who will receive their diplomas to-day filed in this morning clad in white dresses with mortar board caps and gowns, and the usual tassel, the adopted costume in the English universities. Mrs. Cleveland, it is understood, suggested the change. In the morning Mrs. Cleveland will address the class of Military academy boys. In the afternoon, at 3 o'clock, she attended the Alumni meeting and at 5 o'clock a tea at the residence of H. H. Sampson, at which the graduating class were also entertained. This evening at the concert, Mrs. Cleveland will visit her uncle at Seneca Falls to-morrow.

The Kerr-Cameron Case Settled.

BUFFALO, N. Y., June 22.—The Kerr-Cameron case was settled yesterday afternoon without bringing the matter into court. According to the terms of the settlement Mr. Cameron is given possession of the children, with the understanding that Mrs. Cameron may see them whenever she so desires. Mr. Cameron will undertake all responsibility resulting from the education of the children, etc. He left for Canada with them. The children were brought here on a habeas corpus, and the parting scene was affecting in the extreme. Mr. Kerr was discharged in the police court, and his bondsmen released.

To Suppress Lawlessness.

AUSTIN, Tex., June 22.—Governor Ross has issued a proclamation offering a reward of $1,000 for the arrest and conviction of any person who after this date engages in the robbery of a train. For the arrest and conviction of every person participating with a band in the commission of a train robbery, $500 is offered, and for the conviction of persons taking part in a conspiracy to rob or destroy property, $250 is offered. Governor Ross also calls upon the sheriffs to do their full duty by promptly arresting law breakers, and he will help them out with all the means at his command.

The Time Extended.

WASHINGTON, June 22.—The department of state is informed by Minister Cheney at Madrid, that the commercial arrangements between Spain and the United States, by which the privilege of treatment of American and Spanish vessels was secured in the ports of Cuba and Porto Rico, is extended until the 31st of December next. The announcement is made that the queen regent of Denmark, the king of Belgium, the king of Saxony, the king of the Hellenes, the crown prince of Austria, the crown prince of Portugal, the queen of the Belgians, the crown prince of Greece, Prince George of Greece, the crown princess of Austria and the grand duke of Mecklenburg Strelitz. These royalties were well received by the people. These two processions helped to keep the way to the abbey open, and exercised the pent up enthusiasm of the vast multitudes along the way awaiting impatiently to see and cheer the queen.

The police reports show that fifty persons were admitted to Charing Cross hospital during the day. The majority of them had fainted in consequence of the great crush. One man was killed by a horse. Several patients were also admitted to Westminster hospital who were suffering from prostration, caused by the heat, crowding and excitement.

Mr. Phelps drove to Westminster Abbey in a landau. His black coat was in conspicuous contrast with the brilliant uniforms of his brother diplomats.

The horse ridden by the Marquis of Lorne was restive while the procession was moving along and threw the marquis. He managed to alight on his feet. Guns were fighted simultaneously on all the principal peaks from Cornwall to the remotest part of Crithness, forming a connected chain of signals over the whole country.

In all the European capitals there was great rejoicing over the queen's jubilee day.

During the passage of the procession in this city a child was killed.

The jubilee illuminations at night were splendid, and were viewed by immense crowds.

The police reports show that fifty persons

THE HEROIC LIFE SAVER

DIES FROM THE WOUND INFLICTED BY A LAWLESS POLICEMAN.

He Was Believed to be Recovering, and His Assailant Was Expecting to be Released on Bail—Capt. Hussey's Many Rescues.

NEW YORK, June 22.—Capt. Jack Hussey died at 3:14 o'clock yesterday afternoon in Gouverneur hospital, of peritonitis, following the wound made by Policeman Hahn's bullet on the night of June 5. The news was a surprise and shock to the veteran life saver's friends, who had come to believe that his recovery was only a matter of time. The unprovoked policeman in his cell in the Essex Market prison was expecting daily a certificate that the wounded man was out of danger. He wanted to get out on bail.

The ball fired at close range by the officer had penetrated the bowels, and the inflammation to be successfully kept down should have been checked in its early stages. Peritonitis is one of the well known characteristics in hospital life. The flowers and fruits sent him by all sorts of people were shared with his fellow patients. He was called the hero of the Lusitania and very charitable in his expressions about his assailant. Only a few days ago he said to his friend, the Post Geoghegan, who was visiting him:

"What good would it do me to prosecute him. Let him fall into some one else's hands. He is a poor, foolish cop. But they ought to have him off the force, and that is all I ask."

The change in his condition began at 11 o'clock on Monday night, when he began to vomit in a manner that indicated intestinal inflammation. By 2 o'clock he was so much worse that his stomach would not even retain milk and lime water. Chopped ice and brandy were given him, and morphine was administered, for he began to suffer severe pains. About 7 o'clock yesterday morning his temperature ran up with surprising suddenness to 104. He said to the doctors:

"I think I am getting pretty bad, what do you think?"

They told him they thought so, too. He relapsed into a semi-comatose condition, and passed from that to death. The doctors had said that he at no time believed that he was going to die. His wife and his son Cornelius were at the bedside when he died, and Father Lee administered the last rites.

The autopsy showed that the peritoneum had been inflamed, not at the point of injury, but where pus had collected in the abdominal cavity, and abscesses had arisen. This condition was unsuspected, the wound itself being in so good condition. The doctors also found indications of the first stage of pneumonia in the lungs and a well developed Bright's disease in the kidneys.

The scalp was found very adherent to the skull, owing to a severe wound of old battles, and the skull was three-fifths of an inch thick. The captain was five feet nine inches in height, sixty inches around the chest, and weighed about 220 pounds.

While the family were awaiting the arrival of the body at the house, Jackson street became crowded with friends and neighbors, and soon after 5 o'clock Father Lee, of Jackson street, had arranged the remains a wake began, which will last until the funeral. This will be on Friday, but the hour is not yet named. It will be from the house to the cemetery from the house, though a public funeral may first be held in St. Rose's church, in Cannon street.

Hussey was shot about 11 o'clock on the night of June 2, in front of McEvoy's saloon, at Cherry and Jackson streets. He had been drinking with Policeman Edward Hahn after the latter's return from the police parade. Hussey and his friends declared that the shooting was unprovoked. The officer's defense will be an attempt to show that he believed that Hussey was about to attack him. At the Essex market prison last evening the keeper said that Hahn could not be seen, and that he did not know of Hussey's death.

Jack Hussey was born in Newmarthna, County Cork, Ireland, June 24, 1858. He came to this country at the age of 23, and worked as a railroad laborer and had carpenter. He was celebrated for his many daring rescues of human life in the waters of the North and East rivers. His work about the docks for many years as a longshoreman and as keeper of the baggage gate at Castle Garden gave him the opportunities, and his unfailing pluck and splendid strength enabled him to grasp them.

His first rescue was that of the young woman who afterward became his wife, and who survives him. It was in a shipwreck on Lake Erie in 1885. The passengers were being got into small boats when she fell overboard. He jumped in and got her out. That was the style of all his rescues. He always went in after them. If he could reach a person to help him out he did not call that a rescue. His record of lives saved is variously given between thirty-six and forty-one. He had medals for most of them. Jack could not read, but the inscriptions on the medals, when read to him, enabled him to remember the circumstances.

Looks Like a Murder.

NEWBURG, N. Y., June 22.—The body of a stranger was found floating in the harbor at Sherman's dock yesterday. Later disclosures reveal the fact that he came from New York on the Ramsdell transportation boat, and that he had been employed in New York as a brewery. On the way up he was robbed of his money. At 10 o'clock this morning he started out from a boarding house here with a revolver and a new watch. His comrade is missing. There are no signs of his being drowned. His clothing is marked "J. D. R." He is a large man, weighing 300 pounds.

Killed in British Columbia.

WASHINGTON, June 22.—The consul of the United States at Victoria, B. C., has furnished the department of state with a list of Americans killed in the colliery explosion at Nanaimo. Their address and former residence are as follows: Peter Stevens, Iowa; Robert Buffinton, Washington Territory; John C. Fallen, Michigan; James Mclean, Indiana; Frank Tully, California; William Morrow and W. H. Stephenson, Missouri; William Lucey, Jr., W. L. Cochrane and Michael Lyons, Wisconsin.

Professor Hitchcock's Funeral.

FALL RIVER, Mass., June 22.—The funeral services over the late Professor Roswell D. Hitchcock, D. D., at the First Congregational church, were attended by a distinguished audience. Rev. W. W. Adams, of the church, conducted the services, and Rev. Dr. Hastings, of New York, offered prayer. Among those present were President Seelye, of Amherst, members of Union College faculty and other leading educators and clergymen. The interment was at Oak Grove cemetery.

She Will Not Be Prosecuted.

ANGELICA, N. Y., June 22.—Considerable effort has been made to have Mrs. Lucy Sweet Barber, whom the Federal authorities declined to prosecute for voting, punished by the state authorities. The woman suffrage party's state committee have interfered in her behalf and have succeeded in convincing the grand jury that there is no ground for an indictment, inasmuch as the law does not prohibit a woman from voting.

CINCINNATI BANK OFFICIALS

Arrested and Placed Under Heavy Bonds for Fraudulent Practices.

CINCINNATI, June 22.—Yesterday afternoon United States Marshal Thorp arrested E. L. Harper, vice-president of the Fidelity bank; Ammi Baldwin, cashier, and B. J. Hopkins, assistant cashier of the same bank, under section 5,209, revised statutes. The warrants were sworn out by Bank Examiner Eugene Powell.

Harper is charged with having issued, without authority of the directors of the bank, certain certificates of deposit amounting to $700,000; Baldwin with signing a check upon the Chemical National bank for $50,000 on June 9, without the knowledge of the directors, and Hopkins with having issued certificates to the amount of $300,000. They waived examination and were bound over to the United States grand jury. Harper gave bond for $75,000, with H. B. Morehead, Adam Wagner, Eugene Zimmerman, C. H. Chatfield and William Woods as sureties. Baldwin gave bond for $10,000 bond each, with the same sureties. The waiving examination is regarded, as a virtual acknowledgement of their guilt. The arrest is made under the authority of the United States under which Fish and Ward, of the defunct New York Marine bank, were sent to prison. Suit in attachment was brought against the Fidelity bank by the Union National bank, of Cleveland, to recover $67,-131.44 for monies paid to and for the use of defendants. It was charged that the debt was fraudulently and criminally contracted.

EXPLOSION OF FIREDAMP

In a Colliery, Resulting in Fatal Injuries to Five Persons.

SCRANTON, Pa., June 22.—A terrific explosion of fire damp occurred yesterday afternoon in the Holden colliery, at Taylorville, a short distance from this city, and five men were so badly burned that most of them will die. The victims are: Watkin Morgan, aged 53, married, five children; David Reese, aged 39, widower, seven children; John Bevan, aged 35, married, three children; Philip Mulderig, aged 46, single; Isaac Aston, aged 32, single.

Ashton is so severely burned about the head and body that his recovery is considered impossible. Morgan, in addition to being frightfully burned, is injured internally by the force of the shock and cannot recover, and Mulderig is suffering from severe bruises all over the body caused by the fearful manner in which he was thrown about.

As soon as the gas had spent its force the injured men, who presented a shocking picture, were taken out of the death trap. They were then removed to their homes.

PINNED TO THE GROUND.

A Heartrending Accident at a Celebration of the Jubilee.

GODERICH, Ont., June 22.—A heartrending and tragic accident occurred here yesterday while the royal salute was being fired in honor of the queen's jubilee. A premature discharge occurred while Gunners Oliver Frankland and Richard Parker and Master were loading cannon. The two former were blown aside and the ramrod, struck James Coutts, who was standing in front of the gun, passed clear through his body in the region of the heart and pinning him to the ground. Death was instantaneous. The rod on withdrawal displayed a horrible spectacle. The awe stricken spectators who witnessed the sad affair. Parker's injuries are very serious, the discharge having struck him in the face and body. His eyes are said to be entirely destroyed, but the doctors think that that calamity can be averted. The father of the deceased was among the spectators.

Jealousy and a Revolver in Maine.

ROCKLAND, Me., June 22.—A. J. Robinson, a stableman, waylaid and shot Augustus Black, a rival, with a revolver last night. He is now at the point of death, and his would be murderer is under arrest. Robinson and Carter were both in love with the same girl, and Black is said to have been calling several evenings at the girl's home. Monday night was Robinson's, but he found his rival there before him. He waited for Carter, with the result noted.

Exorbitant Pension Fees Forbidden.

WASHINGTON, June 22.—Pension Commissioner Black has decided to exercise the authority vested in him by law and to restrict the legal fee in cases of attorneys for prosecuting claims for pensions. The law allows a fee of $25 where a contract is made, if the pension commissioners shall approve it. Gen. Black thinks that a $10 fee is ample in these cases, and will hereafter allow nothing the fee in each case to that amount.

Blesting in Cork.

DUBLIN, June 22.—A fight occurred in this city yesterday between Loyalists and Nationalists, on account of the latter marching with a revolving flag carrying a symbol. Later in the evening the office of The Constitution, a Conservative newspaper, was attacked and the windows smashed. The police dispersed the mobs in each instance. In several towns in Ireland the Nationalists hoisted black flags, which were at once torn down by the police.

Skulls Broken with an Ax.

NEW YORK, June 22.—John Kelly, an ice cart driver, and Mary Kirwin, his married sister, had their skulls fractured last night with an ax by a man carrying a bundle named James Berdon. The wounded pair were taken to St. Vincent's hospital. The surgeons say that Kelly may survive his injury, but that he will, unless she submits to proper treatment, will die.

Warden of Auburn Prison.

AUBURN, N. Y., June 22.—Charles F. Durston, of this city, has been appointed warden of Auburn state prison vice John Lansbaugh, removed. Mr. Durston is a lawyer and leader of the Hill faction of the democracy. He was agent and warden in 1876.

The 2-Year-Old Record Broken.

ELMIRA, N. Y., June 22.—At the Driving park in this city yesterday afternoon Congressman Flood's 2-year-old Nellie Mayo made a mile in 2:28, the fastest time ever made in the world by a 2-year-old on a half mile track.

Anti-Poverty for the Farmers.

LOWVILLE, N. Y., June 22.—The Rev. Dr. McGlynn and Henry George have been engaged to deliver addresses before the Lewis County Agricultural Fair society, which will be held on the 13th, 14th, 15th and 16th of September.

No Five-Inch Trout After This.

ALBANY, June 22.—Governor Hill yesterday signed several amendments to the game laws, the principal one prohibiting the taking of trout less than six inches long.

A RAILROAD COLLISION

WHICH IS MARKED BY WONDERFUL ESCAPES FROM DEATH.

A Locomotive Crashes Into the Smoking Car of Another Train—Imprisoned Passengers Crying for Help—One Man Killed and Many Injured.

BALTIMORE, June 22.—A frightful accident occurred on the Philadelphia, Wilmington and Baltimore road at 5:58 o'clock last evening at Havre de Grace, just as the passenger train for the bridge which spans the Susquehanna river. The congressional limited express, bound north from Washington and Baltimore, and train No. 41, the New York and Washington express, which leaves Philadelphia at 4:30, coming south, collided with terrific force, killing one man outright and wounding several others.

The Philadelphia, Wilmington and Baltimore railroad from Baltimore to Philadelphia is one stretch of double track, except the mile of bridge across the Susquehanna between Havre de Grace and Perryville, which is only a single track. It was right at the intersection on the frogs at the Havre de Grace end of the bridge where the collision occurred. The limited was ten minutes late leaving Baltimore, and when she reached Havre de Grace was under full head of steam and rushing along trying to make up the lost time. She consisted of engine, baggage car, two Pullmans, a smoker and two coaches. No. 41 had just reached the south end of the bridge and was pulling into the station. The engine, two engines and baggage car cleared the frog safely, when the limited came rushing along and bolted into the forward parlor car, the pilot of the engine striking the side of the car over on its side, the side backward momentum of which knocked the second Pullman on its side also. The engine then ran plumb into the smoking car, which was full, and the pilot rested nearly in the center of the car. All this happened in a twinkling.

Then came a terrible scene. The crash was heard all over the town and the people flocked to the scene. The imprisoned people, of whom there were fortunately not many, in the parlor cars were crying for help—aid from those on the outside. The smoking car was the wounded in the smoker, together with the rushing steam from the locomotive in the interior of the smoker, were sights and sounds never to be forgotten.

The villagers did everything possible for the relief of the injured, bringing ice, liquor, bandages, lint, etc., for their use and comfort. Last to be taken from the smoking car who were injured got out easily, egress at the rear not being cut off.

The casualties as far as names could be ascertained are as follows:

Alexander Gautram, of Washington, scalded to death by the escaping steam. He was seated about three seats from the front door in the car.

James Pinham, of Minneapolis, left clavicle and left forearm and three ribs broken. He was taken to the Altamount hotel, Baltimore.

B. N. Baker, president of the Baltimore Storage and Lighter company, thigh broken.

F. S. Pier, a traveling salesman, of New York, left leg broken and injured.

George J. McCaffrey, Baltimore, hurt in head and breast.

The fireman of the limited had his head and neck badly cut.

T. A. Bland, of Washington, D. C., head scalded.

A. Bruce, New York, head and arm cut.

J. M. Wharton, Baltimore, skull fractured.

J. H. McCormack, Brooklyn, N. Y., badly scalded.

A. L. Wood, Camden, N. J., seriously hurt about head.

Rev. Hobart Smith, Baltimore, leg and hand badly cut.

The body of Gautram was turned over to the coroner, who will hold an inquest to-day.

The operator at Havre de Grace had the danger signal displayed for the limited, the engineer of which explains that he could not get the air brakes to work. The tracks were torn up and strewn with wreckage for a considerable distance. The engine of the limited is badly smashed and the front half of the smoking car is. The other was knocked into match wood. The southbound passengers were transferred to the cars belonging to the limited at 7:40 p. m. and brought to Baltimore.

CONDENSED NEWS.

Daniel Pratt, the "great American traveler," died in Boston and was buried at the public expense.

Amesbury, Mass., is having a lively liquor war. While arresting a man who was disposing of whiskey from the liquor drive were set upon by a mob, who rescued the prisoner and then smashed the windows in the house of a Prohibitionist clergyman. The crowd was finally dispersed by the reading of the riot act.

The little son of E. S. McDonald, the convicted Chicago boodler, fell from a window of the convict's cell and received his injuries from which he died. The father could not be permitted to see his dying boy, owing to the absence of the sheriff.

Chief Engineer Weeks, of the Brooklyn fire department, charged with grand larceny, was acquitted.

Judge Allen, of New York, dismissed the suit of Mrs. Deems against her husband, young Dr. Deems, for divorce. Before this, however, Mrs. Deems' counsel had proposed to the counsel of Dr. Deems that both parties should live with him. Dr. Deems refused to do. Judge Allen set down the counter suit of Dr. Deems against his wife for July 5.

The coroner's jury investigating the mysterious death of the child Lena Zorn, at New York, decided that she wandered into the marsh and was drowned.

Vengeance of a Sicilian who shot and killed Jose Antoni, at 27 Drift street, Newark, N. J., was arrested at Paterson.

The New York state fair will be held at Rochester Sept. 8 to 14, inclusive. Entries close to-day.

The government commissioners to investigate the Pacific railroads are examining the Union Pacific officials at Omaha. Some very peculiar methods in the management of the federal department have been revealed.

During a desperate fight between a negro desperado and a police officer at New Orleans, the latter was desperately wounded and the former killed.

Two lawyers fought a disgraceful knock down and drag out fight in Judge Speed's courtroom, Detroit, and were fined by the angry judge.

A fire at Leavenworth, Kan., destroyed property estimated at $400,000.

The loyal sons of Great Britain celebrated the queen's jubilee in New York by speeches and music in the Metropolitan Opera house in the morning, games at Erastina, S. I., in the afternoon and a grand display of fireworks at St. George, S. I., in the evening.

Speeches denunciatory of the queen and of the British rule were made at the Cooper Institute, which was crowded to suffocation. Resolutions were adopted protesting against the desecration of America's soil by those who observed the jubilee.

CALIFORNIA JOURNALISM.

Scenes and Incidents of the Old Days of Pacific Coast Editing.

[Special Correspondence.]

NEW YORK, March 20.—One serious feature of California country editing twenty years ago was the occasional necessity of "returning with thanks" the manuscript of some embryo statesman, who had lived in grave to an extent sufficient to cover a whole side of the paper, just where the country was and where it was going unless his pamphlet was administered in time to prevent it from destruction. We dared not use waste baskets in those days. They would have proved fatal. The Hon. Bardwell Slote, of the mining region, who had spent days and nights in preparing his paper, deemed that paper a part of himself, and to treat it as waste paper was to treat him as waste paper. There was a similar danger from occasional lady who, like the rest of us, thought she could write, and who certainly could write a great many words. It's very easy in these days of cities, where the editor can so easily fence himself out and place so many bars and officials betwixt himself and the contributor dying to contribute, to apply the waste basket; but in your smaller villages where everybody knows everybody else and everybody is a subscriber or advertiser, deeming also that their subscription or "ad" is the mainstay of your paper and the editor's office is a place to which every subscriber or advertiser can repair without hindrance—why, there the waste basket must be used with the utmost caution and discretion.

The gaping city papers' waste basket, the grave of so much thought and sentiment, written with so much pride of authorship and enthusiasm, waited for in vain with so much anxiety, is as yet an unwritten but worthy theme for the poet or poetess.

In my experience of a line of life, I too have more than once been struck by the lady who has herself been struck and overwhelmed by an avalanche of poetry. And I know not but in the hurry and flurry of editorial turbulence, political or otherwise, I have been the means of keeping some fine poetical sentiment from ever seeing the light, and in so doing I have saved the reputation and the career of more than one gifted poetess. If so, I must suffer for it, because, through the unerring and inevitable law of nature, not one jot or tittle of which shall fail, all sin must at last be visited on the sinner.

Another terror lay in the visit to the office of the howling miner from some far off camp or guich on his semi-annual spree. Every man, living as he did a life of semi-savagery, was both callous and reckless even of the feelings of others and unconsciousness of the larger and rather more civilized camp. Come to the editor's office he would, lucky that he didn't try to ride in on horseback and insist on taking out all hands and treating at the nearest bar. There was danger in refusing and danger in accepting. If it was refused he might want to fight. If it was accepted he might keep on treating till the printers were in a condition not to distinguish I's from Q's, and printers are almost as liable to give way under pressure of temptation as other people. I have great respect for printers.

They "never drink behind the bar"—principally because they never succeed in getting behind it. There is a certain class of people who believe that every writer must be a printer. Yet there have been good writers who were not printers. Yet again there are good printers who are neither good or bad writers. There is more glory in being a good printer than in being a poor writer. Many of the best printers I knew in California were good gamblers. When I say a "good gambler," I mean a gambler skilled in his calling. A man may be a good burglar without being a moral burglar.

The more peaceful side of the "up country" California newspaper office was its open doors and open windows from March till November; its out of door senate, gathered in the early evening in tipped back chairs by the front door, composed of the party leaders and party lights, discussing with the editor the situation; its incomings of miners from outlying flats and gulches, forlorn in spectacles of quartz silver or copper for the editor's inspection, which specimens were brought from time to time are collected in winrows on the window sills and piles on the floor. If the editor could "see a prospect," he had his warm friends who could, and who on staking out a new claim did not forget to put his name on the list of shareholders, and sometimes did not forget to go after him for the monthly assessments, because so many prospectively rich California miners yielded manfully out of the pockets of the shareholders, and it makes so much difference, especially to an editor's feelings, whether the bullion developed by the mine comes out of his safe or the rock for which the sawyer promised $100 per ton on paper, but which in rock yields only 100 cents.

PRENTICE MULFORD.

ROBERT GARRETT.

Portrait of the Youngest Railroad President in the Country.

[Special Correspondence.]

BALTIMORE, Md., March 20.—For some time now the attention of the railroad world has been centered upon Robert Garrett, the head executive of the Baltimore and Ohio, and the youngest president of a great railroad line in this country. Mr. Garrett has been attracting a great deal of interest for several months. He gave the grandest ball of the season at an expenditure of $30,000 in the finest mansion in the state of Maryland—a house that cost a cool half million. He took a party of friends in private cars to the Montreal carnival and spliced while there the biggest and most costly residence in the city. And now he figures as the central figure in the biggest railroad deal that the world has ever known. He is only 40 years old and he has all the pleasure that a high position and a fortune of $15,000,000 can give him. He believes in life. He always dresses in the latest style, has suits of clothes and canes and hats and shoes and neckwear galore, and he has a fresh bunch of violets as regularly as his breakfast. Everybody knows him in Baltimore, and it is a curiosity to see him promenading the fashionable streets. He is kept bowing almost continually. He has a smile that is worth a fortune. It charms the ladies, puzzles the men and baffles the reporters, and it abides with him always, adding youthfulness to his face and gladness to his heart.

ROBERT GARRETT.

John W. Garrett was to the Baltimore and Ohio what Scott was to the Pennsylvania road, what Vanderbilt was to the New York Central. His eldest son was Robert. Robert was a gay boy at a Princeton college, and it was not thought that he would ever do anything brilliant in a business way. But just here was where public opinion was wrong. He pitched into work and became one of the boldest, bravest working railroad men in the country. At the death of his father he became president of the great corporation. His management of that trust is recent history, and the story of the greatest deal of modern times is, of course, well known. Mr. Garrett's district is Miss Gamble, is the richest unmarried lady in the country.

PASSING AN OUTPOST.

A FEDERAL SCOUT CAUGHT BY THE CONFEDERATES.

Making Slow Progress on Hands and Knees—Attacked by an Enraged Mother. In a Scrape—Caught by the Enemy. Libby Prison.

While Sheridan and Early fought each other in the neighborhood of Winchester there were times when the respective pickets traded tobacco and newspapers, and other times when they shot to kill each other. I was preparing for duty up to twenty-four hours before the battle opened, and the reason I did not assist in driving Early beyond Winchester was due to a singular cause. The wily Confederate chieftain knew that we contemplated some movement, and there was an aggressive spirit all around the front. Scouts were moving up to our lines after information, and it was quite clear that he did not intend to be caught napping.

Two days before the battle, I being then with the infantry on the right front, three of us were detailed or ordered to push forward beyond the outposts in the direction of where the Confederates were supposed to be throwing up intrenchments. We took different directions from the start, but all had the cover of the woods. The Confederate outpost was not more than musket shot from my point of departure, and I was four or five miles in the afternoon. I was to go as near as possible—pass the outpost if I could. It was probable that Confederate scouts were thick enough along the front, and I figured that my chances for securing information were not half as good as my chances for being knocked over or made prisoner.

Before I was a dozen throw from the Union outpost I was on my hands and knees and carefully making my way forward. I did not care to run for the outpost, for he would have a permanent place, and the Confederate scouts would be moving here and there, and they were as crafty as Indians. I got along much better than I anticipated, however. I crept within sixty feet of the outpost, who was leaning on his gun and smoking his pipe, and I had passed him by 200 feet, and was about to rise and run for it when, as I turned the end of it, I came full upon a sow with five or six pigs. All were lying down and seemingly asleep except one little pig. They were less than two weeks old, and probably belonged to some farmer who had a guard about his premises. The guard had probably been withdrawn that day, or had become negligent and allowed the pigs to wander away. The old one had rooted over a large space of ground before she lay down, and the little ones were covered with mud from snout to tail.

The instant I turned the log the single wakeful pig saw me and raised a clatter which started the rest up, and then I was in a scrape. The little ones would have run away, but the old one didn't propose to put up with the intrusion. She bristled up and rushed around and made such a noise that I knew the whole line of the Confederate outpost would be attracted. I drew back behind the log, but my apparent cowardice enraged the hog, and she came to her legs on her feet and seize a club to prevent her attacking me. Had she left me then I might have got out of the trouble, but she would not go. She kept bunching the pigs vigorously that I had to stand on the defensive, and I was on the log and waving the club at her when half a dozen Confederates came running up through the woods and I was made prisoner. It was just enough to be captured, but they guyed me unmercifully about the way of it, and I was only too glad when I was sent back to their main line to be packed off to Libby prison.—Detroit Free Press.

Art Students in Paris.

Wherever art students do congregate there you may always hear wonderful stories of saving the sou. Over their cafe noir and cigarette, inevitable conclusion to their simple dinner, they discuss with equal ease the latest masterpiece of Bonnat or Bougreau and the newest thing in cheap restaurants. In the same breath they mourn as lost an extra sou given in pourboire and the missing arms of the Venus de Milo. One young sculptor tells how he beats up his clay, while another explains how he beats down his cobbler. A long legged painter, whose twinkling eye gives the lie to his solemn face, literally hints at attending evening school through the winter for the sake of saving his own fuel; whereupon a kindred spirit announces that he has made out a thirty night programme of evening calls with the same pious end in view.

Naturally a goodly portion of that indefinable something that the French call blague leavens the seriousness of those speeches, but, chaff aside, there are doubtless grains of truth left, the proverbial true words spoken in jest. It may be that he who to-day seems merriest to-morrow will be found "his head with tears." Twere ill to consider, too curiously to consider, all the economies of student life; they are by no means confined to shelter, food and clothing, the mere necessities of existence. For it is not the necessities, but the unnecessities that count; it is not the expected expense, but the unexpected, that confounds us. Bills for bed and board meet us square in the face; it is our dentist's bills, our photograph collections, our little suppers, our 'bus and train fares, our New Year's bonbons to femme, concierge and garcon that come up behind and stab us in the dark. It is often hard for the artist of large ambitions and small means to draw the line between his needs and his tastes. —Boston Herald.

A Lawyer Earning His Fees.

"I was a criminal lawyer in this city for six years," said a well known member of the bar, "and had a very large business, making a good deal of money. But I would not go back to criminal practice for five times what I am making at the present time. A criminal lawyer cannot call his soul his own, nor a minute of his time. He has to handle all sorts of bad characters in all sorts of ways and advise with or defend them in all sorts of scrapes. If these gentry confined their attentions to the day time and paid their visits only at one's office they could be endured. But they don't. They are after you at all hours of the night. They drag you out of bed, away from your meals, call you out of church. I've been routed out of my sleep three times in a night to find bail for crook clients—of men who had been 'pinched.'

"Aside from the unpleasant feeling that one has that he is selling his brain, body and talents to social outcasts, and the distasteful ness of these low associates which rapidly grows on one, there is the more practical objection that you have to take pay in all sorts of booty—watches which you know have been stolen, diamonds that have been sneaked and money that has been purloined by, in the pockets of its rightful owners. Let those have the criminal business that like it or need it. I want no more of it in mine."—Chicago Herald.

In Nevada the Indians eat the flesh of the rabbits they capture, make robes of the skins and receive a bounty on the scalps.

French and German government agents are visiting all the fairs in the north of England, and making large purchases of horses suitable for military purposes.

TUNISIAN JUSTICE.

An Expeditious Method, but a Little Bit Too Severe on the Unknown.

A certain Capt. Baculard left Marseilles for China, but, being buffeted by the winds, he made for the harbor of Tunis to await better weather. On landing in the port came on board. Capt. Baculard represented that he was freighted for Canton, that he had nothing to do with Tunis and that he had only run in there in a hurry. But the collector succeeded in demonstrating to him that he must pay the harbor dues. Capt. Baculard did so, but repaired instantly to the palace of the bey and demanded justice in person.

"Good Frank," said the bey, "I am your friend—God is great. What do you want?"

"Highness," answered Capt. Baculard, "your custom house has robbed me. I have had to pay unjustly."

"Excellent individual," answered the bey, "in this country when we have the money we keep it. The first object in life is a difficulty. To give back a thing is unknown in Africa."

"But shall I not have justice?"

"Certainly—every one has justice in Tunis. Will you live it in French or Tunis fashion?"

"Highness, I have had a lawsuit or two in France. Justice in French fashion—heaven forbid!"

"But I don't press it upon you," observed the bey. "If you choose the French I will speak to your consul. He loves justice, good man. There are always applied to him years ago for immunity, and they will get it next year, I think, for he loves justice."

"French justice! Never! Give me the Tunis one, if you please."

"So be it then. God is great," said the bey. "What is your cargo?"

"Marseilles soap and 20,000 cotton caps."

"Go on your way and be tranquil."

The bey summoned the vizier.

"Vizier," said he, "there is no God but God, and Mahomet is his prophet. We love justice —we love the Franks. Proclaim that every Jew who appears to-morrow out of doors without a cotton cap will have a little transaction to settle with me."

There were some thousands of Jews in Tunis, and there was not a single cotton cap. They all made their wills, when they learned through an officer of custom that Capt. Baculard had lots of the desired articles. That was enough—Capt Baculard sold the invoice at eight shillings a cap. He rushed to the palace and prostrated in his thanks.

"Not so fast," said the bey; "I am not done yet. Call my vizier."

The vizier appeared.

"Vizier," said the bey, "that every Jew who keeps a cotton cap another hour will have a trouble with you. God is great, and I am a Rissaut descendant of Mahomet."

The vizier made a grand salaam and retired.

When Capt. Baculard returned to his ship he found a crowd of Jews already awaiting him, caps in hand. He purchased the articles at a penny apiece.—French Paper.

She Got There.

A Detroiter with an office up four pairs of stairs on Griswold street was inquired after by a lady yesterday at the elevator, and the boy asked:

"Give you a book agent, madam?"

"No, sir!"

"Come about some charity?"

"No, sir!"

"Want his influence in temperance or politics?"

"No, sir!"

"He is very particular whom he sees, madame. Will you give me your name?"

"I am his wife, sir!"

"Oh-hi! you are! Well, please wait here until I go up and ask him if he will see you. You can't have much privacy. It was bad enough to be captured, but they guyed me unmercifully about the way of it, and I was only too glad when I was sent back to their main line to be packed off to Libby prison.—Detroit Free Press.

COL. OCHILTREE.

The Quiet Way in Which He Laid Out a Wandering Arkansas Minstrel.

The Hon. Thomas Pfaffharmonic Ochiltree, perhaps better known in his native jungles as the Lone Star Truth Embroiderer, still holds the champion belt. A deep conspiracy was recently laid to get it away from him. The contestant was powerfully backed up by friends who knew him at home and could testify that not even a carious jury would believe him except when he was talking in his sleep. He was a mild looking gentleman, with well eyes and no front teeth, walking on crutches and has only one arm and a game leg, but he was all there when it came to plain and fancy story telling. He was from Arkansas, and had graduated with honors in the Twisters' academy and his backers were sanguine. It was resolved not to give Ochiltree any warning or time for preparation. The Arkansas champion was suddenly sprung on him one evening at the Hoffman, when Thomas seemed out of trim.

The conversation was artfully turned on frontier playfulness. Thomas closed one eye thoughtfully. One man said he had seen Billy the Kid shoot two men in succession through the pockets of his clothes at a measured distance of seventy yards. Thomas' head drooped and he emitted a feeble snore. Another told a gory anecdote of Broncho Sam, who kept three cemeteries going in a one horse town. Thomas was profoundly asleep. The Arkansas champion cleared his throat, fixed one eye on Thomas and the other on the bourgeois, and thus filling his soul with a double vision of beauty began. He had just dined with a friend named Ridgely—Walter Ridgely. Walter was deacon of the Methodist church at Texarkana and secretary of the Young Men's Christian Association. (Here Mr. Ochiltree opened one eye.) He was one of the meekest and longest suffering men in Arkansas. (Here he opened the other eye.) One day Ridgely was crossing a river. A drummer was on the ferry. The drummer got into an argument with the ferryman and agreed to leave the matter to Ridgely. Ridgely accepted the position of mediator and shot both ferrymen dead. He thought that was the best way of settling the question. The ferrymen each had a brother. After the double funeral, at which Ridgely officiated and offered up a touching prayer, the brothers slipped out of the cemetery and hid in the bush at a turn in the road. Ridgely approached on his old roan mare singing "Over the Shining River." Both fired. Ridgely dropped. The brothers ran up. They thought him dead. Just as they bent over him he raised up, winked at each and shot both their heads off. Then he mounted the old roan mare and trotted in to lead the singing.

As the Arkansas champion finished this simple little tale Tom nodded once or twice and then began:

"Well," he said, sleepily, "that reminds me of Bill Schilling, of Laredo. Bill was the quietest man in the town and that quiet you couldn't think. In the fall of '69 or the spring of '70—I never seem to keep track—I had just got back from my visit to the czar at St. Petersburg. Aleck and I were chums, you know. In '69 Bill Schilling was runnin' a hasher shop in Laredo. I was advising my fellow men at the Laredo bank, but Bill, he sold a razor was good enough for him. Well, one day I was in at Schilling's gettin' my stubble mowed, 'n Bill was talkin' to me about my salvation, 'n then the chatter turned on a stump tailed bull pup Bill had, 'n Bill was tellin' me how in five time that dog would scratch a hole in the ground 'n throw away, 'n by ten to each one. Well, as he was talkin' 'n Bill shavin' easy, for my skin's tenderer 'n a monkey's, Bill ketches sight of two men comin' by.

"'Excuse me, kurnel,' said he. 'Certainly, William,' said I. Then he slipped behind the door and ketched up a shot gun 'n—plunk!—ghunk!—he dropped 'em like frogs. I glanced around, because my skin is so tender I was afraid to have Bill get nervous, but he says, still smilin', 'Beg pardon, kurnel,' said he says, 'Nor at all, William,' 'n he says, 'As I was sayin', kurnel, that bull pup, when he gets a buck flea right on the tip of his tail'—and then he finished the story and gave me the cleanest shave I ever had in my life except last winter when I went down—to—Wall—s-t-r-e-e-t. A town marshal came in and nabbed him just as he was duckin' me with hay rum from the Rio Grande."

The colonel's eye had gradually closed during this narrative. His head sunk gently on his breast and he was fast asleep. The Arkansas champion gazed a minute or two in silence. Then he drew from an inside pocket a gold medal he had won in the Interstate contest last year, laid it reverently beside the colonel and fled.—New York World.

A Wrecked Life.

Omaha Widow—I should greatly like to meet your wife, Mr. De Sweet.

Mr. De Sweet—I have no wife.

"I can sympathize with you. You too have lost—"

"I never was married."

"Oh! You are engaged though, I presume, and—"

"I have never been engaged, madam."

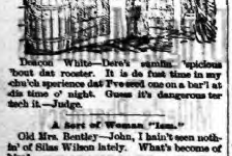
"Ah! I begin to understand. Some sad romance of the past has left its mark upon your heart as deep as—"

"No, no. I have never been in love. I would not tie myself down to a woman if she were sent down from heaven to me."

"Sir!" A woman's flashed. "Oh! What could have so perverted your nature! What has happened to"—

"I am a dry goods clerk."—Omaha World.

Second Thoughts Are Best.



Deacon White—Dere's sumfin 'spicious 'bout dat rooster. It is de fust time in my chu'ch experience dat I've used one on a bar'l at dis time of night. Guess it's dangerous ter tech it.—Judge.

A Sort of Woman "Jess."

Old Mr. Bently—John, I hain't seen nothin' of Silas Wilson lately. What's become of him?

Old Mr. Bently—I dunno. The last time I heard of him he was running around after an "Jess."

Old Mrs. Bently—What! one of them women with short hair!—Judge.

Seasonable Symptoms.

Patient—Doctor, I've got a sore throat and a pain in my chest, and my head aches as if it would split.

Doctor—You needn't pay any attention to these symptoms, as they indicate a normal condition. If during the present abominable weather a man feels perfectly well he is not healthy—but I can cure you.—Texas Siftings.

Kansas City "Real estate."

The young men will make things buzz when they come into the possession of the money of the millionaire who grew rich by a rise in real estate, and still continues to pluck up rusty nails and put them in his vest pockets. Gorgeous entertainments will be in order. Let me tell you how the average young man "does." I heard of one clerk in a large establishment who made $300 about a year ago in real estate. This was too much for his equilibrium. He immediately invited all the people at his boarding house to a banquet and spent all in one evening. He has since made $30,000 and conceived a brilliant idea, which he put into execution lately. He invited almost every body he knew, 127 in number, to a grand theatre party. For those who lived outside of Kansas City, as Columbia, Independence and Leavenworth, he chartered special cars, had carriages meet them at the depot and paid for their lodgings at the hotel. To cap the climax he gave the whole party an elegant banquet at a hotel after the performance, for which he paid fifteen dollars a plate. He is the Monte Cristo of Kansas City.—St. Louis Spectator.

Slavery in Brazil.

The emancipation of the slaves in Brazil was commenced in 1871, when the number registered in the empire was 1,450,000. A registration completed on the 30th of March this year shows not more than half this number of slaves, although in the fifteen years the black population has largely increased. In the cities the decrease has been more rapid than in the country. In Rio Janeiro in 1873, there were 50,000 slaves registered; in June, 1885, there were but 20,000, and on the 1st of April, 1887, only 7,468. In the other cities of Brazil about the same proportion holds good.

Even in the coffee districts, in which there was the greatest opposition to emancipation and the number of slaves greatest, the returns indicate that despite the large number of slaves imported from the northern provinces of the empire, the new registration will show a decrease of fully one-half since 1873. We have therefore some reliable data upon which to found the estimate that the slaves in Brazil do not now exceed 700,000, none of whom are under 15 or over 60 years of age.—New Orleans Times-Democrat.

JOTTINGS.

—The woodcock season opens July 1st.

—Ladies and children's white lawn suits at the Bee Hive.

—Zephyr Rook and Ladder company will hold a picnic early in July.

—The petit jurors for the May term of court averaged nineteen days service.

—The public schools of this city and the Borough closed at noon to-day for the summer vacation.

—Devotions for the month of June will be held in St. Mary's church at eight o'clock to-morrow evening.

—Warren Engine Co., took their apparatus out for a "wash" last evening and located on the Rose street well.

—The storm of the past two days has considerably damaged the telephone and telegraph wires in this vicinity.

—The Sunday school of the Trinity Reformed church will have its Children's Day exercises on Sunday afternoon.

—The July meeting night of the City Common Council will fall on July 4th. The council will probably meet and adjourn.

—The directors of the Somerset Agricultural Society met last Saturday to arrange the premium list for the coming fair.

—The New Brunswick road race of the "Bi club" is postponed indefinitely on account of the inclement weather making the roads too heavy.

—The Scott base ball club are ready to contest in a game of ball with any amateur nine in this vicinity. They have not lost one game since their organization.

—A nine composed of employees of the Potter and Scott Press Works expect to go to New Brunswick Saturday and contest in a game of ball with the Mystic club of that place.

—On Monday evening last some small boys were playing with lighted candles in the rear of Laine's barber shop on North avenue, when they accidentally set fire to some outbuildings. Mr. Laine discovered the fire and extinguished it before it gained much headway.

—About thirty Texas Mustangs were unloaded at the freight house depot last night, and taken to pastures at Dunham Corner. In driving them the drover undertook to drive the horses out of the cars, and two of them fell down between the car and the platform. It took nearly two hours to rescue them, when it was found that one animal was quite seriously injured.

—Notwithstanding the rain storm last night the friends of the Dunham Choristers attended Warren Mission Festival in large numbers, and Mr. Dunham and his choristers were made happy. Success attends the efforts of this band of praiseworthy young men. The program as published yesterday was carried out, and the audience accorded the efforts of the choristers repeatedly. We congratulate the Choristers on their success.

—Detective Keros, of Elizabeth, who went to Illinois to investigate the case of Stromback, who claimed to be the murderer of the unknown Rahway girl, arrived home yesterday. He had a long interview with Mr. Stromback, and came to the conclusion that he was a crank. Stromback could not describe the surroundings of the spot where the murder took place. He claimed to have worked at No. 117 Chrystie street, New York.

In the Union County Courts.

There was a brief session of the court of Special Sessions this morning, Judge McCormick presided, with Associates Hyer and Harper.

In the Orphans' branch the question of the fees of the stenographer in the will case of the late E. G. Brown was finally adjusted, and a record of the settlement ordered. The amount the stenographer is to be paid is between $1,000 and $1,500. An application for the fees of the proctor for the executors was made and the argument postponed for one week.

In the criminal branch, on motion of Prosecutor Wilson the following cases were disposed of:

John Sloan, of Rahway, charged with larceny of $1 from his mother, pleaded guilty, and sentence was suspended.

Alexander Paterson, pleaded guilty to stealing a keg of beer, and was sentenced to the County Jail for a term of ten days.

Samuel French, the negro who a few weeks ago visited a number of grocery stores and left orders for goods to be delivered to false addresses and who stole a can of lobster and a bag of tobacco from Oliver F. Darling's, pleaded guilty. He was sentenced to 30 days in the County Jail, and was promised a confinement in the State Prison if he was ever convicted again of a like offense.

William Messing, a boy who while employed on the farm of Dennis C. Crane, in Linden, removed the reeds from an organ belonging to Rev. Adam Chambers, a brother-in-law of Mr. Crane, was arraigned and pleaded guilty. When the reeds were missed, a search warrant was obtained and they were found in Messing's satchel. The boy was very penitent this morning, and Rev. Mr. Chambers, the complainant, went his half in the sum of $300.

Mayor Cooley as Defendant.

To-morrow Mayor Cooley and Marshal Becker will appear in Justice Wadsworth's court to answer in an action brought against them by Robert Simpson, for an alleged tort. The action is brought to recover damages for the seizure and detention against his will of a horse and wagon belonging to Mr. Simpson. The latter was obliged to employ counsel and bring a replevin suit in the higher courts to recover possession of his property, but the sheriff going on the following day to the premises to serve the papers, Marshal Becker met him and stated that by order of Mayor Cooley, he had just returned the property of Mr. Simpson. $200 expenses are claimed.

Craig A. Marsh will represent the plaintiff, and Snydam & Stillman and Jackson & Codington, will represent the defendants.

Commencement at Westfield.

Notwithstanding the inclemency of the weather, the graduates of the Westfield High school were greeted last night by one of the largest and most appreciative audiences that *ever assembled in Arcanum Hall.*

At eight o'clock the pretty little hall was crowded to overflowing, and the unfortunate ones who delayed their coming on account of the rain could not get inside the door. The hall had been handsomely decorated for the occasion by the scholars and their many friends, and the sweet perfumes of flowers prevaded this whole building.

There were twelve graduates in the class, nine young ladies and three young gentlemen, one of the largest ever turned out at this popular and well conducted school. The names of the graduates are: Edith May Sayers, Gertrude Asbury, Sadie J. Brown, Katherine C. Fairbairn, Josie F. English, Anna E. Gilby, Mary June Whittaker, Lizzie A. Pierson, Minnie F. Pierson, William F. Hathaway, John C. Hall, John W. Sanson.

Edith May Sayers was the valedictorian of the class her essay entitled "Small Beginnings" is deserving of special mention.

At five minutes past eight o'clock the Rev. Mr. Cadwell opened the exercises with a short prayer, after which the following interesting program was admirably carried out.

PROGRAMME.

Prayer.

Chorus, "Welcome" .....

Essay, (Salutatory) "Life".....Emma M. Anthony

Address by Hon. Mr. Folmer and .....

..... Dr. J. R. Harrison

Chorus, "Beautiful Sons of the Spring" .....

Awarding Diplomas .....

Chorus, "Westfield School" .....

Benediction.

Doxology.

The music, both instrumental and vocal, was rendered in good style and received great applause and numerous encores were given. The class poem, by Miss Anna E. Gilbert, was well written and was one of the features of the evening. The address, by the Rev. Mr. Folwell, was interesting and contained numerous good points for the graduates, in the commencement of their new era. Dr. Harrison in his address said, "You are now about to commence a new career, and it lies with you to say whether it shall be one of brightness or one of gloom. To-night some of you will leave behind you the happiest days of your life, but with you will ever remain the recollection of your school days, and in the busiest moment of your life, perhaps, some incident of those bright days will crop out and will either bring a feeling of regret or one of sweet relief for the happy times that will never come again."

After the benediction the audience again became aware that they were nothing more than earthly beings, and putting on their gossamers and sweetest smiles betook themselves through rain and darkness to their homes.

After the Postmaster.

There have been numerous complaints for months back about the postmaster here. We suppose, if he had been a Republican, he would have been removed long ago. Postmaster Cock, Republican of, New Brunswick, was removed, as we understand, for much less cause. We were shown a city letter recently which had been kept in the office a month, and we can personally testify to innumerable cases of letters being placed in wrong letter boxes, and not received for a considerable time after they were due. A leading citizen of Plainfield called on us a few days ago and informed us that the paper in which the postmaster is interested had been put in his post office box repeatedly, until it had to peremptorily forbid it, and he understands that the government property is being thus used to boost the postmaster's private business. We know a man who was sent to State prison for about five years for using U. S. mail bags for his private business, and suppose the same law will hold good against those who misuse the post office. Complaints have been made to the government by prominent Democrats here against the postmaster for other reasons, and a few months ago these complaints had become so numerous that the government sent a detective here to investigate them. We understand that by the adroitness of some of the old employes, who feared that they would lose their positions, the detective was baffled and was unable to secure some of the most important evidence he sought. He did, however, secure some evidence. Some leading Democrats in the State have taken the matter in hand to secure a change, and have the office filled by some one less odious to even the Democratic branch of the party. The name of a successor has been asked for, and those of Jasper G. Cadmus, Joseph G. Miller and R. H. Brower have been submitted, as men who would be acceptable to the party and not disgrace the office. No doubt the great mass of the Democrats would hail with pleasure any relief from the incumbus, to whom is attributed the overwhelming defeat of the party since his attempt to run the affairs of a city, the respectable Democrats at the outset from a sense of public duty, and have refrained since for fear defeat. It might be charged that the encumbent had not received fair treatment. There can be no such story now. The Democrats everywhere are now demanding a change, and if civil service reform meant anything, we presume the removal would have been made long ago.

The Closing Exercises.

A number of former graduates and friends were gathered at the High School this morning to witness the closing preparations for the commencement exercises to-night. The exercises consisted of singing, by the pupils and recitations of Miss Bulkley, the principal, to the members of the graduating class. One of the prizes awarded was for a collection of leaves of trees and shrubs and descriptive selections accompanying them from standard authors. There were eleven competitors, but William Collins secured the prize. The work he had performed was wonderful and elicited many words of praise for his patient labor. Master Corell is a carrier of THE NEWS.

Exempt Firemen's Meeting.

The annual meeting of the Exempt Firemen's Association was held in Franklin Hall, Jersey City yesterday. R. N. Stiles of Morristown was president and H. H. Brown of Newark, *A. Saltzman of Plainfield, and J.* H. Rosanka of Morristown, as a Committee on Credentials reported the following delegates:

Jersey City—W. D. Garretson, Thomas Leather, F. F. Budden, Martin Rothe.

Morristown—R. M. Stiles, J. R. Romaine, B. C. Guerin, C. H. Green, D. F. Losier.

Passaic—Hugh McCleary, F. C. Coogan, Ernst Hoffman.

Newark—H. H. Brown, A. R. Cook, F. R. Ross, Wm. Reckl, J. P. Hverson.

New Brunswick—J. N. Terrell, D. Way, J. Schultze, Wm. Morris, Isaac Halstead.

Newton—M. L. Woolfora, A. D. Ryerson, R. F. Goodman.

Paterson—J. H. McKiernan, J. W. Benson, A. McKay, Geo. Kemp, J. J. M. Ring.

Plainfield—T. J. Gillis, A. Saltzman, A. D. Jennings, H. M. Sherwin, D. J. Carney.

Hoboken—John Green, J. L. Meyer, R. Russ.

Phillipsburg—A. J. Clifton.

Orange—W. Bantz, A. A. Robinson, Alfred Personette.

A constitution and by-laws, in the prospectus of which the objects of the society were set forth, were adopted by sections. It was declared that the objects of the association were the promotion and encouragement of a fraternal feeling among the various exempt Firemen's associations throughout the State; the compilation of records of the past relative to the associations, and a keeping of a correct record of the future of the same; the aiding and assisting, by moral and financial support, of all indigent and disabled exempt firemen and their widows and children. Furthermore, the constitution provided for the appointment of an executive and standing committee of seven members each, one from each of the seven Congressional districts in the State.

Officers for the ensuing year were elected as follows: Richard M. Stripes of Morristown, President; John McKiernan of Paterson, and J. N. Terrell of New Brunswick, Vice-Presidents; Chas. H. Green, of Morristown, Secretary; Thomas Leuter of Jersey City, Treasurer. Executive Committee: William Exall, Newark, Chairman; A. Saltzman, Plainfield; D. J. Kearney, North Plainfield; J. N. Benson, Paterson; L. E. Meyer, Hoboken.

The next annual meeting will be held in Newark on the second Wednesday in May.

Exercises at Rutgers.

The last and greatest day of Rutgers College commencement occurred yesterday, and to-day the graduates are departing for their homes. After the exercises the following degrees were conferred:

Master of Arts—Peter Stryker, Beekman, Matthew Lynn Bruce, William Paterson Prince, Benjamin Dickinson, Levi D. Edwards, Charles Edward Pattison, Charles Buchanan Scott, James A. Norris and John A. Thompson.

Master of Science—John Edward Hill, John William McKelvy and Franklin Stoddard Griffith.

Bachelor of Arts—W. S. Bishop, S. DuBois Demarest, A. B. Herman, W. P. Merrill, H. F. Pelton, Jr., Frank Tails, J. Calleo, H. A. Smith, B. A. Tremper and J. L. Winckler.

Honorary Degrees—Doctor of Laws—The Rev. John N. H. Andrew, D. D., of London, England. Doctor of Divinity—The Rev. John W. Strodes, of Yadkin, India; the Rev. Charles W. Fritts, of Fishkill on the Hudson. Master of Arts—Professor Charles G. Steckets, principal of Hasbrouck Institute, Jersey City.

President Gates in his address to the graduating class, after referring to the "perplexities" men of the twentieth century," said: "The college sends you out to-day to be from this time on leaders of men. You are to be workers in a world where the highest law is 'each one for others and for all,' not each for himself alone."

The prizes awarded to successful competitors were as follows—General prizes—Philip Sherry, the Van Vechten prize of $50 for an essay on foreign missions and T. W. Hallian the VanDoren prize for an essay on Christian union.

Senior prizes—Compositions, A. Wynkoop, $30; natural science, W. P. Merrill, $20; mathematics, I. L. Winckler, books; moral philosophy, W. P. Merril; best mathematical thesis, I. L. Winckler, books; best metaphysical thesis, H. A. Smith, books; extemporaneous debate, first, W. P. Merrill, $30; extemporaneous debate, second, while F. S. Mayham received honorable mention.

Sophomore prizes—Declamation, first, G. B. Thompson, gold medal; declamation, second, W. W. Hallock and M. J. Thompson, a silver medal each; literature, M. J. Thompson, $30; modern history, first, W. C. Stebbins, $30; modern history, second, W. C. Stebbins, $15.

Freshman prize—Quick prize, H. Goff.

In the evening the president and Mrs. Gates gave a reception, which was followed by a dance given by the graduating class.

BOUND BROOK.

The lightning of Tuesday night did some destructive work in the vicinity of Bound Brook. The large barn on George Nevius' farm, near Millstone, was struck by lightning and entirely consumed, together with two horses and a quantity of farm machinery.

A telegram from New Hampshire, announced the sudden death of Mrs. Henry Boyer, nee Lizzie Mack, well known in Bound Brook. A few days ago the house in which Mr. and Mrs. Dyer lived was destroyed by fire and all their household goods were consumed and they narrowly escaped with their lives. Mrs. B never recovered from the shock caused by the terrible ordeal. Her remains will be brought to Bound Brook for burial.

STATE NOTES.

The Jersey City Board of Aldermen ask the Board of Finance to appropriate $81,150 for their use during the coming fiscal year.

Patrick Carroll, who is jointly indicted with Peter Costello and Thomas Loftus for the murder of Mary Coppinger on Grand street, Jersey City, on Monday morning early in May, was placed on trial in Judge Knapp's court yesterday. His counsel entered Leon Abbett, had made application for a separate trial for him. It is understood that the two jointly indicted with him are to turn State's evidence against.

WESTFIELD.

Mrs. Mary L. Long died on Tuesday evening, June 21st, after months of illness, aged 59 years.

Dr. Benedict, of Salt Lake City, sailed for Europe on Tuesday per steamer Wyoming.

The Owls will participate in a clam-bake to-morrow at Echo Lake. Charles Courtney will preside as master of ceremonies.

PERSONAL.

Dr. Field is now in Brooklyn and is reported to be somewhat improved.

On June 13th Mr. Libus Pennington was married to Miss Mamie Soules, at the residence of Rev. Mr. Van Meter.

Father Smyth, the pastor of St. Mary's church in this city is on his annual retreat at Seton Hall college, Newark.

Principal C. R. Boss of North Plainfield was present at the N. J. Council of Education as Newark Saturday. He was one of the organizers of the Council.

The Misses Breen of Elizabeth, who were present at the wedding of Miss Euphemia Frazee, last evening, formerly resided on East Second street, this city.

Rev. W. R. Richards of this city and Thomas F. Harrison, assistant Superintendent of the New York City Public schools will deliver an address at the High school commencement exercises in Music Hall to-night.

Daniel Adams is President, Harry Brokaw Vice-President, Mrs. William B. Vail Treasurer, and Miss Gussie Lewis Secretary of a new lawn tennis club organized in North Plainfield to be known as the "Hit or Miss" club.

The Misses Emma and Addie McGee, Miss Potter and Miss Titsworth of Plainfield sailed early yesterday morning in the "City of Rome" for Europe. They will be gone about four months, visiting places of interest on the continent.

"Mechanics," a Philadelphia monthly magazine for practical men, contains a finely engraved portrait of George H. Babcock of this city, the newly elected president of the American Society of Mechanical Engineers, which has a membership of over 700 of the most eminent mechanical engineers in the country.

A quiet wedding was celebrated on Wednesday, June 22d, at the residence of the bride's mother, West Second street, by May Louise DeForest and Charles Henry Fransaco. The most valued of the gifts was a most beautifully illustrated family bible, from the bride's Sunday school teacher, Miss Wm. White. The youthful pair have gone to New Providence. Rev. Dr. Yerkes officiated.

Miss Bulkley was indignant this morning at the underhand means employed by our North avenue contemporary to obtain information of the Commencement exercises prematurely. She is accustomed to deal with people of honor and when that tribe gave her their word of honor (!) respecting matter not to be published until a specified time, she did not think that she was dealing with people who do not know what the word means. It is the same want of principle that has made them beneath the contempt of all who know them, and especially of the respectable Democrats whom they profess to serve.

At Perth Amboy, yesterday, the Rev. Prescott Evarts, son of United States Senator William M. Evarts, and assistant rector of the Church of the Holy Communion, corner Second street and Smith, of New York city, New York was married to Miss Emily Charlotte Potter Conover, daughter of Richard B. Conover. The ceremony took place at St. Stephen's Episcopal church, and was performed by Rev. Dr. Colt, principal of St. Paul's School, Concord, N. H., assisted by the Rev. W. M. Taylor, pastor of the Tabernacle, Sixth avenue. Bishop Scarborough also took part in the ceremony. The bridesmaids were Miss Caroline and Miss Alice Conover, sisters of the bride; Miss Mary Evarts, the only unmarried sister of the groom; Miss Mamie Conover a cousin of the bride; Miss Paullain, Miss Emily Parker, Miss Higinson and Miss Baker. The ushers were Alfred Baker, J. W. Sutherland, Clayton Johns of Boston, Garden M. Lane of Cambridge; Maxwell Evarts and Thomas Conover.

A reception was tendered to Mr. and Mrs. Charles Guilberg at the residence of the bride's parents, Mr. and Mrs. A. M. Frazee, corner Second and Peace streets last evening. About half-past eight o'clock the Plainfield cornet band serenaded the happy couple. Refreshments were served and the evening was spent in dancing and other pastimes. Among those present were Mr. and Mrs. Wm. Runkle, of Flemington; Mrs. Rowland and daughter and Mr. and Mrs. Thompson, of Junction; Mr. and Mrs. A. J. Gregor and family, Mrs. Thompson and the Misses Mattic and Nellie Breen, of Elizabeth; Mrs. Manning and daughter of Jersey City; Miss Mary A. Gulick and niece Miss Lizzie Drake, John Perssall and T. Cohen, of Jersey City; Mr. and Mrs. B. F. Moore, Mrs. Force and daughters, Mr. and Mrs. John Rowland and daughter Gracie, Mr. and Mrs. J. J. Keaney, Mrs. Prescott and daughter, James Mullen and family, Mr. and Mrs. James Baily, Mrs. Sturtevant and daughter, S. Frazee and family, Miss Addie Weaver, Miss Rickert, Miss Dock, Mr. A. Sargeant and family, Jacob Vechi and sister, Miss Lizzie Van Wiligaren, Miss Almira Southard, H. Southard and others of this city. Miss Mamie Runkle of Flemington was the bride's maid, and Messrs. J. J. Perssall and L. D. Brower the ushers. The presents were numerous and costly, among them being a piano, the gift of the groom's parents, a gold crescent circled with eight diamonds, and a gold watch, the gift of the groom. The happy couple left on the 6.32 a. m. train this morning for Albany, N. Y., on their wedding tour. Upon their return they will reside in Jersey City.

Dragged Beer.

The New York Herald of yesterday says: "Dr. R. H. Bartley, chemist to the Brooklyn Health Department has recently made some discoveries which it will not be pleasant for beer bibbers to contemplate. His examination of different kinds of bottled beer, including some of the best known, shows that they contain salicylic acid. The Medical Record states that the amount of this acid required to preserve beer is about twelve or fifteen grains per gallon, and it adds that 'salicylic acid, if taken continuously, tends to injure digestion and irritate the kidneys.' The employment of this drug in the preservation of different articles of food and drink has increased so much in Paris that the French government has already twice taken action in the matter."

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

1887	1886		
6 a. m.....	66	66	Sun rises..... 4 29
9 a. m.....	70	62	Sun sets..... 7 35
12 m	70	63	Moon rises.....
3 p. m.....	73	61	Moon sets..... 9 27

Weather Indications.

For Friday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, slightly warmer, fair weather, preceded by local rains on the New England coast.

Mining Catastrophe.

NANTICOKE, June 23.—A terrible mining accident has just occurred here. It is reported that four men are killed and five are injured. The loss, however, may be far greater. The damage to the mine is very heavy.

Sailing Yacht and Steamer in Collision.

OSHOSH, Wis., June 23.—Congressman Clark's yacht Theresa collided in Fox River yesterday with the steamer R. M. Hutchinson, and Myron Cook, of the yacht, was drowned.

A Tramp's Wounded Feelings.

NEBRASKA CITY, Neb., June 23.—A tramp named John Gallagher has brought suit against the Chicago, Burlington and Quincy Railroad Company for $5,000 for failing to sustain charges brought against him of attempted train wrecking, on account of which charges he laid in jail six months.

The Horrible Story Denied.

NEW BRUNSWICK, June 23.—The story in the New York papers this morning about an actress being horribly treated in this city is untrue. A drunken woman was found in the streets and arrested last night and the balance of the story is manufactured.

The story to which the above telegram refers is the following.

Attack on an Actress.

NEW BRUNSWICK, N. J., June 23.—Belle Girard, of Philadelphia, came here on Friday and put up at the City hotel. Last night she was found unconscious in an old hack in a back alleyway. Restoratives were applied. She was left by a fast crowd and her husband is Elias Patterson, of Philadelphia, who was notified. The city physician, P. H. Shannon, who is attending her, says that she has been horribly treated.

A Boy Murderer.

NEW YORK, June 23.—Moses Speights, aged sixteen years, a prisoner in the House of Refuge, on Randall's Island was taken before Coroner Nugent this morning, charged with the murder of Night Watchman William Edgar Cole at night. Cole was struck in the back of the head by Speight with a base ball bat, and expired from the effects of his injuries in the Harlem Hospital at nine o'clock this morning. Speight said that he and a number of other boys had plotted to escape, but after he struck the blow the others became frightened and would not leave their cells. Coroner Nugent committed the murderer to the Tombs.

G. A. R. Thanks.

The following card of thanks has been prepared for publication: At the final meeting of the joint memorial detail of Post 73, G. A. R. a unanimous vote of thanks was extended the following named who aided us financially and otherwise to properly observe Memorial day: F. E. Hadley, Jr., Wm. Hadley, City Council. C. Bogart, R. L. Burnett, A. D. Cook and Bro., C. S. Guion, D. Lowitz, J. K. Myers, Comrade C. W. Harden, J. A. Hubbard, Hon. Job Male, J. P. Laire, J. S. Statts, Alex. French, L. M. Vandyck, E. R. Pope, R. L. Sufford, W. L. Force, R. Mac Donald, Central N. J. Times, J. W. Jackson, L. Mosher, C. Parse, John Johnson, W. A. Woodruff, W. E. Jones, Seymour Marsh, W. R. Potts, H. P. Reynolds, H. J. Stover, G. NOTICE—The Plainfield Gas Light Co. would call the attention of gas consumers in this city to the marked *improvements* recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the gas stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office, cor. Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL Rates *will be made for Gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be* RENTED *at Moderate Rates.*

The Plainfield Gas Light Co.

THURSDAY, JUNE 23, 1887.

A SIGN OF THE TIMES.

A VIGOROUS NEWSPAPER ARTICLE ON THE JUBILEE.

"The Sovereign Who Does Not Rule, but is Ruled"—The Royal Forms of a Century Ago Inconsistent with the Democracy of To-day.

LONDON, June 23.—The Pall Mall Gazette in a long pessimistic leader on the jubilee, its effects and its lessons, waxes indignant over the absurdity of continuing the rigidity of royal etiquette and observing the pretentious forms of a century ago in the face of the rising democracy and the fact that the conditions which generations ago made those things seem necessary or desirable have passed away, happily never to return. The functions of the queen, The Gazette contends, are positively farcical, and the spectacle of millions of Englishmen bowing themselves hoarse over the completion of the fiftieth year of the reign of a sovereign who does not rule, but is ruled, nauseating.

While Queen Victoria lives the monarchy will in all probability linger as a picturesque institution possessing a certain degree of usefulness of a low order, but the days of the traditional pomp, glory and grandiose display hitherto tolerated by conservatism and patriotic people are rapidly drawing to a close, and new forms and observances commensurate to the altered condition of the social and political situation of the country must of necessity soon be adopted.

The house of commons, too, is in a sickening condition of collapse through similar causes, and the Tory government themselves, the exponents of the divinity of sovereign and the exaltation of useless formality and display over the sober simplicity demanded by the present needs of living, have done more within the last three months to pull the walls down upon their own heads than the machinery of progress has accomplished within the last five years in bringing England to a realization of the necessity for a change. With all the enthusiasm, real and simulated, which prevailed throughout Great Britain, the Pall Mall Gazette has no doubt that a general election held to-morrow would show that the electors are by a large majority in favor of so reconstructing the government as to make a repetition of such scenes impossible. More and more the people are coming to believe that Demos is king and the day is not far distant when he will prove it practically.

The Gazette's article has created a sensation and aroused much indignant comment among the Tory element, but the number of persons who agree with its views is very large, and the knowledge of this fact undeniably accounts for much of the denunciation the Conservatives indulge in.

Grasshoppers Destroying the Crops.

ST. PAUL, Minn., June 23.—Reports from Otterteil county, Minnesota, say that grasshoppers are devastating grain fields, and farmers are threatened with entire destruction of their crops. A Perham correspondent says that within a radius of four miles of that town 5,000 acres of grain and garden crops have been destroyed.

Chicago's Boodlers.

CHICAGO, June 23.—The next boodler trial in the criminal court of this city will be presided over by Judge Jamieson. It will begin on Monday next, and will include all the Commissioners, ex-commissioners and other county officials, some thirteen in all, who were indicted for conspiracy to defraud Cook county.

Exultant Collegians.

HANOVER, N. H., June 23.—L. C. White, of Windsor, Vt., has been chosen president of the Dartmouth Baseball club. The students had a celebration last night over the result yesterday of the Harvard-Williams game. This gives Dartmouth the flag.

Italy's Prime Minister at Death's Door.

ROME, June 23.—Prime Minister Depretis is dangerously ill, and his physicians entertain slight hopes of his recovery.

CONDENSED NEWS.

An attempt was made by a gang of nine men to pull down the figures of the lion and the unicorn, which decorate the front of the old state house in Boston.

The Old Colony steamer Providence, from New York for Fall River, went ashore on Dyer's Island half an hour after disposing of her Newport passengers. Her passengers were transferred, and after being got off several hours later without serious damage.

Congressman Bourke Cockran, of New York, addressed a letter to Postmaster Pearson asking the return of wrapping envelopes which he claims had been deliberately suppressed. The postmaster denies the allegation.

The wife of James G. Blaine is seriously ill at her hotel in London.

M. C. McDonald, the gambler, whose brother was convicted in the Chicago boodle trial, has decided to withdraw from politics.

A case of hydrophobia in Bayonne by the local physicians is causing intense excitement at Haverstraw, N. Y.

The queen rose early yesterday, took a ride, paid visits and received the usual court and numerous presents, among which was one of $375,000, subscribed by 3,000,000 women.

It is reported that the Russian and French ambassadors at Constantinople have notified the porte that if the Egyptian convention is ratified war would ensue. Ratification has been refused.

Two of a gang of robbers operating on the Grand Trunk railroad at Port Huron were captured after a vigorous fight by the police of that town.

At the Sharp trial in New York, Mr. George E. Bright, of the law firm of Robinson, Bertine & Bright, gave important testimony regarding the preparation and passage of resolutions affecting the Broadway surface road by the board of aldermen. Ex-Alderman Miller testified that he had received $5,000 from De Lacey and returned it afterward.

A man named Anderson took two young women boarding on Lake Kearney, Neb., and all were drowned by the capsizing of the boat.

The Pennsylvania board of pardons considered the case of William J. McMeen, the Juniata county wife murderer, under sentence of death, and commuted his sentence to life imprisonment.

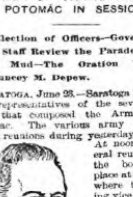
At Middletown, N. Y., Mrs. Elizabeth Byrnes received a judgment of $5,000 against the Erie railroad, for the killing of her husband, who was a brakeman on the road.

REUNION OF VETERANS.

THE MEN OF THE ARMY OF THE POTOMAC IN SESSION.

The Election of Officers—Governor Hill and Staff Review the Parade Through the Mud—The Oration by Hon. Chauncey M. Depew.

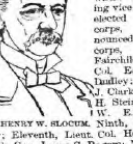
SARATOGA, June 23.—Saratoga is crowded with representatives of the several army corps that composed the Army of the Potomac. The various army corps had special reunions during yesterday morning. At noon the general reunion of all the bodies took place at the Casino, where the following vice presidents, elected by the corps, were announced: First corps, Gen. L. Fairchild; Second, Col. Edward A. Hadley; Third, A. J. Clark; Fifth, J. H. Steiner; Sixth, W. E. Pinto;



GEN. HENRY W. SLOCUM, Sixth. John S. Costar; Eleventh, Lieut. Col. Henry Root; Twelfth, Gen. James C. Rogers; Nineteenth, Gen. A. W. Greeley; Cavalry, H. T. Bartlett; Signal, Capt. R. S. Williams, Jr. There were about 1,000 persons present, including Gens. McMahon, Sharpe, Slocum, Sickles, Carr, Barnum, Farnsworth and Fairchild, Col. Fred Grant, Senator Warner Miller, Lieut. Greeley and Chaplain Chervy.

Gen. J. C. Robinson, of New York, was elected president; Lieut. Col. Samuel Truesdell, of New York, treasurer; Col. H. C. King, of New York, recording secretary, and Gen. George H. Sharpe, of New York, corresponding secretary.

Several resolutions were offered on the matter of the return of the captured flags, but



they were laid on the table. Resolutions were presented by Gen D. E. Sickles LIEUT. GOV. JONES.

that the next annual meeting be held at Gettysburg on July 1, 2 and 3, 1888, and that the survivers of the Army of Northern Virginia be invited to meet with the society. These were adopted after a rousing speech in favor of the last by Corp. Tanner.

Governor Hill and his staff arrived at 10 a. m. and were met at the depot by the Saratoga troop of cavalry, many citizens and escorted to the Windsor, where the governor is the guest of Judge Henry Hilton. The Tower hall, principal hotels and boarding houses and many private residences along the line of march have been profusely decorated, and a large arch spans Broadway between the postoffice building and the United States hotel.

The storm which came up at 2 o'clock continued until after 3, delaying the formation of the procession until 3:30. The procession was formed with Major-Gen. S. G. Burbridge as chief marshal, and moved with the Sixty-ninth regiment in front, with the Fourteenth Brooklyn regiment and the Saratoga Citizens' corps followed by veterans, to Woodlawn park, where Governor Hill and staff, Gen. Sherman and Gen. D. E. Sickles were on the stand and reviewed it. The procession then returned to Monument square and disbanded.

In the evening the Hon. Chauncey M. Depew delivered the oration before a large audience at the Casino. He said in part:

"In the Army of the Potomac the state of New York has the deepest and most tender recollections. This corps was 60,000 strong, more men to its ranks than they ever mustered at any one time. The grand total of the mighty host enlisted from this state under its banners was 480,000, and from every one of your battlefields the cords of grief are stretched to all the cities, villages and hamlets within our borders.

"We are living in these times with careful calculations and rigid estimates of the value of the services of the men who fought this war. The man who at a compensation of $13 a month left behind them prospects for promotion in their professions, wealth in their business and competence from their industries, and for four years marched under blazing suns, slept upon the ground, breathed the miasma of the swamps, were racked with the fevers of the jungle, and amid shot and shell and saber thrusts kept their colors aloft and bore them to the capital in triumph, secured for the 60,000,000 of people of this republic and their descendants those unequaled civil and religious rights and business opportunities which make this land the one country in the world where people of all nationalities are seeking homes and from which no man ever voluntarily emigrates. In 1860 the developed and assessable property of the United States was valued at $16,000,000,000, the vast aggregate of whose sum was destroyed by the civil war, and yet so prodigious has been the growth of wealth under the conditions created by the national victory and the settlement of those questions that in this month of June, 1887, the estimate surpasses the imperial figure of $60,000,000,000, and the growth is at the rate of nearly $7,000,000 a day. Our wealth approximates one-half of that of all Europe.

"These unparalleled results can be protected and continued only by the spirit expressed by your sacrifices and inspiring your victories—the spirit of patriotism. This is a republic, and neither mammon nor anarchy shall be king. The American asks only for a fair field and an equal chance. He believes that every man is entitled for himself and his children to the full enjoyment of all he honestly earns. But he will seek and find the means for eradicating conditions which hopelessly handicap him from the start. In this contest he does not want the assistance of the red flag, and he regards with equal hostility those who march under that banner and those who furnish argument and excuse for its existence.

"The cradle of anarchy and riot number no Americans. The leaders coldly proclaim that they can come here, not to enjoy the blessings of our liberty and to reform our institutions, but to destroy our laws, to cut our and dethrone our laws, to cut our and divide our property. Dissatisfied ... furnishes the opportunity to preach these doctrines and make to try their tactics. Their recruiting officers are active in every city in Europe, and for once despotic governments give their aid to the movement by securing and shipping to America the most dangerous elements of their populations. We do not wish to prohibit emigration, but our laws should be rigidly enforced, so that we may at least have some voice in the selection of our guests. We cannot afford to become the dumping ground of the world for its vicious or ignorant or worthless or diseased.

"I have unlimited faith in the absorbent properties of American communities, and the solvent powers of American liberty. Let us take care of the Moors, the Spics and the Schwabs; and the press, the platform, the school, the church, and the English language will make honest citizens of their followers and their descendants. Every man who leads a temperate and industrious life, and organizes himself into a self-governing society of one, has secured his independence and individual prosperity, and becomes a champion of order and a bulwark of law.

"To the Army of the Potomac belongs the unique distinction of being its own hero. It fought more battles and lost more in killed and wounded than all the others. It had its blood, but it had no army incompetent officers the art of war and political tacticians the folly of their plans, but it was always the same invincible and undismayed army of the Potomac. The verdict of history is already made up as to the value of its services, its sacrifices and its victories, but perhaps not yet upon its commander. From intermediate discussions we rise to the contemplation of two grand facts, standing like monuments at the beginning and close of its career. Some of the elements existence to the masterly organizing abilities of McClellan and ended the war under the superb generalship of Grant.

"Every corps of the Potomac was composed of thinking bayonets. Behind each musket was a man who knew for what he was fighting. He understood the plan of campaign, and with unerring and keen accuracy criticised up his commander. The one soldier in whom he never lost confidence was himself. This army operated so near the capitol that communications and supplies were easy its movements, changed its officers, and criticised its failure to conquer upon lines blue pencilled on Washington maps. It suffered for two years and more, unrebuked when it was encouraged by little praise, but never murmured. It saw all its corps and division commanders sign a petition to the president to remove the general, and then dismissed him but heroically marched to certain disaster at his order. It saw its general demand the resignation or court martial of its corps and division officers, and yet, though indignant, undismayed, it charged under his successor in a chaos of conflicting demands.

"At last this immortal army of Cromwellian ironsides, of Viking mercenary, and the blood of Brian Boru, had at its head a great captain who had never lost a battle, and whom President Lincoln had freed from political meddling and the interference of the civil authorities. Every morning for thirty days came the orders to storm the works in front, and every evening for thirty nights the survivors moved to the command, 'By the right flank, forward march,' and at the end of that fateful month, with 60,000 comrades dead or wounded in the Wilderness, the Army of the Potomac once more, after four years, saw the spires of Richmond. Inflexible of purpose, insensible to suffering, inured to fatigue and reckless of danger, it rained blow on blow upon its heroic but staggering foe, and the world gained a new and better and and freer and more enduring republic than it had ever known in the surrender at Appomattox. When Lincoln and Grant and Sherman, firmly holding behind them the vengeful passions of the civil war, put out their victorious hands to the south and said: 'We are brothers,' this generous and patriotic army joined in the glad acclaim and welcome with shouts of 'Amen.'"

The veterans of the Seventh regiment returned to New York at 6 p. m., and the Fourteenth and Sixty-ninth at midnight.

THE FIDELITY BANK SWINDLE.

The Full Board of Directors to be Placed Under Arrest.

CINCINNATI, June 23.—The real condition of the Fidelity National bank is much worse than was at first supposed. Last evening E. S. Harper, vice-president; Amos Baldwin, cashier, and Ben E. Hopkins, assistant cashier of the Fidelity National bank, were re-arrested, the two former at the bank and Hopkins at the office of Judge Stallo and D. Jones. The charge upon which they were arrested this time is that they conspired to defraud in issuing large drafts to the amount of $60,000 for the interests of the Chicago wheat deal and in making false returns to the United States comptroller of the currency.

The who appeared before United States Commissioner Hooper, waived examination and were bound over to the grand jury. Harper's bail under this arrest was fixed at $15,000 and that of Baldwin and Hopkins at $5,000 each.

Still another arrest is staring them in the face. They were directors of the bank, and everything is ready for the arrest of every director of the bank for neglect of duty in not discovering and arresting this gigantic fraud. Some of these arrests are prepared, and are waiting for the order from Washington to put them into force. These arrests will include the venerable president, Mr. Briggs Swift, and all the directors.

The Supreme Grand Lodge.

CHICAGO, June 23.—About fifty present and past grand master masons of the United States met here last night to form plans for what will be known as a supreme grand lodge, that will have final authority over the highest lodge now existing. This is something entirely new in the executive department of the master masons, and the new organization will be composed only of past and present grand commanders. At yesterday's session Illinois, Wyoming, Washington, Oregon and Montana were represented. At noon this session was adjourned, and the delegates marched under blazing suns, slept upon the ground, breathed the miasma of the swamps, were racked with the fevers of the jungle, and amid shot and shell and saber thrusts kept their colors aloft and bore them to the capital in triumph, secured for the 60,000,000 of people of this republic and their descendants those unequaled civil and religious rights and business opportunities which make this land the one country in the world where people of all nationalities are seeking homes and from which no man ever voluntarily emigrates. In 1860 the developed and assessable property of the United States was valued at $16,000,000,000, the vast aggregate of whose sum was destroyed by the civil war, and yet so prodigious has been the growth of wealth under the conditions created by the national victory and the settlement of those questions that in this month of June, 1887, the estimate surpasses the imperial figure of $60,000,000,000, and the growth is at the rate of nearly $7,000,000 a day. Our wealth approximates one-half of that of all Europe.

"These unparalleled results can be protected and continued only by the spirit expressed by your sacrifices and inspiring your victories—the spirit of patriotism. This is a republic, and neither mammon nor anarchy shall be king. The American asks only for a fair field and an equal chance. He believes that every man is entitled for himself and his children to the full enjoyment of all he honestly earns. But he will seek and find the means for eradicating conditions which hopelessly handicap him from the start. In this contest he does not want the assistance of the red flag, and he regards with equal hostility those who march under that banner and those who furnish argument and excuse for its existence.

"The cradle of anarchy and riot number no Americans. The leaders coldly proclaim that they can come here, not to enjoy the blessings of our liberty and to reform our institutions, but to destroy our laws, to cut our and dethrone our laws, to cut our and divide our property. Dissatisfied ... furnishes the opportunity to preach these doctrines and make to try their tactics. Their recruiting officers are active in every city in Europe, and for once despotic governments give their aid to the movement by securing and shipping to America the most dangerous elements of their populations. We do not wish to prohibit emigration, but our laws should be rigidly enforced, so that we may at least have some voice in the selection of our guests. We cannot afford to become the dumping ground of the world for its vicious or ignorant or worthless or diseased.

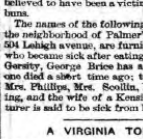
"I have unlimited faith in the absorbent properties of American communities, and the solvent powers of American liberty. Let us take care of the Moors, the Spics and the Schwabs; and the press, the platform, the school, the church, and the English language

VICTORIA MEMORIALS.

COINS ISSUED TO CELEBRATE THE YEAR OF JUBILEE.

Description of the Jubilee Medal—The First Parliament Opened by the Queen—Presentation at Court—The Festivities in India.

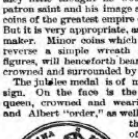
Queen Victoria's jubilee day is past. On the 21st of June her majesty completed the fiftieth year of her reign. On that day the British mint began the issue of coins designed to commemorate the occasion, and perhaps to furnish a guide to the numismatist of the future foretold by Macaulay, when a New Zealandy philosopher shall sit on the ruins of London bridge and muse on the decline and fall of the British empire." The first change is in the sovereign, the gold coin corresponding to the pound sterling, and worth $4.86.3 in American money. The face represents the present crown



JUBILEE MEDAL. (Reverse.)

appurtenances, while the reverse retains the design of St. George and the dragon, as fixed in the reign of George IV after the design of Pistrucci. This is also the reverse of the double sovereign and crown piece. When the early Christians condemned George on account for misappropriating their funds, they little thought he would become their patron saint and his image adorn the largest coins of the greatest empire of modern times. But it is very appropriate, as he was a money maker. Minor coins which now bear on the reverse a simple wreath surrounding the figures, will henceforth bear the royal arms, crowned and surrounded by the garter.

The jubilee medal is of more elaborate design. On the face is the portrait of the queen, crowned and wearing the Victoria and Albert "order," as well as the badge of the Imperial order of the crown of India—the whole designed by the artist Boehm. On the reverse is a very ornate design by Sir Frederic Leighton, containing nine figures. On the throne is Britannia, in her right hand the sword of



JUBILEE MEDAL. (Obverse.)

justice and in her left the symbol of a ruler extending around each side of the world. The lions pass from behind the throne and the minor carvings at its foot also typify British power. In front and a little to Britannia's right reclines Mercury, the classical god of commerce. He was also the god of thieves, but that was only Greek and Roman satire and does not count in the medal. He holds up a cup heaped with gold, symbolizing the wealth commerce has brought to England. Opposite him sits the genius of electricity and steam. Below are five shields typifying the five great divisions of the earth and the British possessions in them. On each side of the throne are the classical

THE QUEEN'S FIRST PARLIAMENT.

divinities which personify the sources of England's greatness. On one side Industry and Agriculture, on the other Science, Literature and Art. Over Britannia's head the winged figures represent the year 1887 (advancing) and the year 1837 (with averted face). Each holds a wreath, and in the arc measured by their outlook are the letters V. R. I. for Victoria Regina (et) Imperatrix—"Victoria, Queen and Empress." On the other side the inscription appears in full around the bust of the queen, on some of the issues, while on others the full inscription is "Victoria Dei Gratia Britanniarum Regina Fidei Defensor." The issue of the medals, of the old coins, is improved and of a new coin, the double florin began June 21.

We also present a cut showing the scene on the occasion of the first opening of parliament in her reign.

Her coronation did not take place till a year after—on the 28th of June, 1838. In various parts of the British empire, especially in India, the jubilee festivities have already been in progress for some time, and it is an odd instance of the contradictions in human nature that the Hindoos excluded their women entirely from any part in the performances, and only allowed a few to be present under protest, and in secluded positions, though celebrating the reign of a woman ruler. The festivities at various points in India are held at different dates, thus allowing the attendance of the queen's special representatives at the successive ceremonies.

Stranger Than Fiction.

Something occurred in a South Side avenue house the other night that in fiction would not be considered singular, but which in actual life indeed seems strange. A man was awakened by sounds in his room. He was soon satisfied there was a man in the room, and sitting up in bed he cried out:

"Who's there?"

"Oh, lie still, you ——— ———," replied a gruff voice.

The man was startled when he found there was a robber in the house, but he was more startled when he recognized the thief's voice.

"Jere, is that you?" he asked.

The reply was the glare of a dark lantern upon him. At another moment the gas was lighted, the thief was sitting on the edge of the bed, and two schoolmates of years ago were talking over old times.—Chicago Tribune.

In a Sunday School.

The other Sunday a teacher in a Maine Sunday school had been telling her class about Moses, dwelling at length upon his character, and desiring to test their attention and memory she asked, "What kind of a child was Moses?" All was silent for a moment, when one little fellow answered up: "He was a boy, ma'am."—Bangor Commercial.

DEADLY TEA BUNS.

Chromate of Lead Used to Impart a Rich Yellow Hue.

PHILADELPHIA, June 23.—Permission was asked from the board of health by the coroner to exhume the bodies of eleven supposed victims of Baker Palmer's tea buns. This includes Palmer's own wife and six children, the death of whom in such rapid succession created a sensation in the upper part of the city three years ago. The request of the coroner was granted, and yesterday afternoon the four bodies of William Diehely's children were exhumed and portions of the viscers removed for examination. The mortality in this family led to the examination of Palmer's tea buns, which resulted in the discovery by a chemist of two grains of chromate of lead in one of the buns, used for the purpose of imparting a rich yellow hue.

Two weeks ago Mrs. Hamlin, living on Fifth street, above Lehigh avenue, died, and she is believed to have been a victim of the poisoned buns.

The names of the following persons, sick in the neighborhood of Palmer's bakery, at No. 504 Lehigh avenue, are furnished as of those who became sick after eating the buns: John Greeley, George Hay and his child sick and one died a short time ago; two daughters of Mrs. Phillips, Mrs. Scollin, Miss Kate Eelling, and the wife of a Kensington manufacturer is said to be sick from bad poison.

A VIRGINIA TORNADO

Which Tore Trees Up by the Roots and Laid Houses Low.

PETERSBURG, Va., June 23.—Nottoway and Amelia counties, in this state, have just been visited by a tornado which has brought great destruction in its path. The area over which it passed extended from the Appomattox river to Nottoway river and covered a distance of some twenty miles or more. Such a tornado has not been known in Southside Virginia for many years and the damage done by the wind will prove a severe loss to the farmers. Houses, barns and stables were lifted from their foundations and the timbers sent flying in every direction. Fences all along the line of the storm were leveled to the ground. Trees which had withstood the storms of more than a quarter of a century were literally torn up by the roots, while others had been broken and twisted in every conceivable shape. Orchard trees were almost ruined, and the heavy rainfall which accompanied the storm washed the crops badly.

Intelligence has just been received of a disastrous wind storm in Dinwiddie county, where trees were uprooted and barns and fencing blown down. In this county there is also a heavy fall of hail, which cut the crops to pieces and did considerable damage to growing vegetation.

A FURIOUS STORM

Visits Delaware—Three Persons Killed by Falling Trees.

WILMINGTON, Del., June 23.—This city and the country within a radius of ten miles was swept by a storm of almost unprecedented fury for this section, which came last night and left fatal results. The weather was oppressively sultry, and about midnight there was much lightning, but no thunder. An hour later the lightning was most vivid, and the whistling of the wind announced the coming of the storm, which blew with terrific force. Rain fell in torrents, accompanied with hail; trees were uprooted, houses unroofed and lives lost.

At Bancroft's Banks, a suburb of Wilmington, three persons were killed and two injured by falling trees. The killed are: Mrs. George Doran, aged 5 years; Frank Doran, aged 2 years; Mrs. James Noble, aged 48 years. The wounded are: George Doran, seriously hurt; Joseph Doran, child of above, badly hurt.

Mrs. Cleveland a College Trustee.

AURORA, N. Y., June 23.—Mrs. Frances Folsom Cleveland was yesterday chosen a trustee of Wells college at Aurora. To bring this about it was necessary to first pass a resolution increasing the board to 24, and Miss Helen F. Smith was also chosen to fill another vacancy in the board. Miss Smith is the lady principal of the college. Mrs. Cleveland presented diplomas to five graduates at yesterday's exercises.

A Soldier's Suicide.

NEW YORK, June 23.—The Roman method of suicide, by falling on one's sword, was imitated by Sergt. James Coghlan, of the Fifth artillery, at Fort Hamilton. Placing the butt of his rifle on the floor of his room, he threw himself against the bayonet with such force that the steel penetrated his body. The blade just missed his heart, and he will die. The cause of the deed is unlearned.

The Chicago Express Train Wrecked.

OAKLAND, Md., June 23.—The Chicago express over the Baltimore and Ohio road, due here at 10:40 a. m., was wrecked at Snowy Creek, about eight miles west of this town, yesterday morning. A young tramp, who was stealing a ride, was impaled on the rear bumper of the mail car and instantly killed, and three passengers and three postal clerks were slightly injured.

Accused by Lizzie Sullivan.

SOMERVILLE, N. J., June 23.—Morris Hannon, a farm hand, was arrested here at the instance of Lizzie Sullivan, a handsome 13 years old, committed on last Thursday. The girl was deterred from giving information before by fear. She is said to have returned to her father's house in Hillsborough and found her alone.

Gambling Leads to Suicide.

ST. PAUL, June 23.—E. H. Debour, traveling agent for a New York silver and plated warehouse, shot himself in a private boarding house here on Sunday. Debour came to St. Paul about four weeks ago and took apartments at the house referred to. He visited the Turf Exchange and lost heavily on goods purchased, and also by betting on the outside.

A Conflagration from a Spark.

WILMINGTON, Del., June 23.—The fierce and destructive fire caused by sparks from a locomotive occurred here yesterday afternoon. The Chicago and Alton depot and freight house, the Delaware railroad, the old city hotel and a number of small buildings were destroyed. Loss estimated at $50,000, with but little insurance.

Train Robbery in Michigan.

PORT HURON, Mich., June 23.—Five men boarded a Grand Trunk train at Fort Gratiot, Mich., going east, and "held up" the passengers. Several persons lost what money they had. One old man lost $100. Three men have been arrested and are now in jail here, and more arrests will probably follow.

The Iron Workers' Conference.

PITTSBURG, June 23.—The joint committee of iron manufacturers and the Amalgamated association met at 3 o'clock yesterday afternoon. Several hours were taken up in discussing the wages question. No propositions were made by either side and no conclusions were reached. The committee meets again on Friday morning. It is thought that the conversation will finish its business and adjourn to-day.

ROWAN COUNTY'S WAR.

CRAIG TOLLIVER'S DESPERATE BATTLE AGAINST FEARFUL ODDS.

A Hundred and Sixty Men, Armed with Winchesters, Fail to Take the Desperado Alive—He and His Three Allies Fall, Pierced with Bullets.

MOREHEAD, Ky., June 23.—About 8:30 o'clock yesterday morning determined men to the number of 160, all armed with Winchester repeating rifles, came into Morehead under charge of Sheriff Hogge, to serve a warrant on Craig Tolliver, charging him with false swearing in issuing warrants for the arrest of the Logan boys, killed several weeks ago. As one of the sheriff's posse was crossing the railroad, near the water tank, about fifty yards east of the Rainos Cottage hotel, and before any attempt had been made to serve the warrant, Craig Tolliver, who was near the hotel, saw him and fired at him. The man dodged behind a pile of lumber, and Tolliver and his two cousins, Bud and Jay Tolliver, and Hiram Cooper went into the hotel and barricaded the doors and windows.

Then the posse came up under cover of the brush and fired into the hotel, and immediately opened fire on the building. The house was soon surrounded, but at something of a distance. None of the sheriff's men cared to go within rifle shot of the deadly guns the Tollivers knew so well how to use.

After firing had been kept up for probably three-quarters of an hour the Tolliver men began to fall back to the hotel and across the railroad to another hotel on the opposite side. While making this foolhardy attempt the leader of the gang, which has been such a terror to Rowan county, fell dead, pierced by four balls from the Winchesters of the ambushed posse, two of the bullets going through his head and two through his breast.

The others got to the opposite house and fought the posse for some time, but finding the place less secure than they had expected they made an attempt to escape the railroad to their old position. In this they were unsuccessful, for all three of them fell, riddled with rifle balls.

After ascertaining that no more resistance would be offered the posse picked up the dead men and placed them on the floor of the porch of the Cottage hotel. The investigation which followed by one of the sheriff's posse was wounded, and that was Dr. Brown, who received an ugly flesh wound in the thigh. The fighting was kept up for two hours.

During the firing the utmost consternation prevailed among the women and children, who ran from their houses and rushed to the depot, hoping thereby to escape the bullets.

The passenger train which is due here at 1 o'clock was delayed for two and a half hours on account of the shooting, as the fight began just as the engineer whistled for Morehead. The sheriff sent a detail of men to stop the train, but the engineer, hearing the rapid firing, brought the train to a standstill before reaching the outskirts of the town. After the fight had ceased the train was ordered to run his train into the depot, when it was immediately boarded by a number of the sheriff's men, armed with their Winchesters. Among the number was Dr. Alstatt, while many of the men had business outside. The posse, however, carefully searched the train for one of the Tolliver gang they thought had escaped.

Cosby Tolliver was captured just as he had wounded Bud Mannin, one of the posse, in the leg with a pistol ball from a big pistol he was shooting. He had also been wounded slightly in the side.

Catesby Tolliver, a boy, and brother of Craig, had a hole shot through the leg of his pants.

The posse was composed of the best men in Rowan county. They appeared to be hard working farmers, and were all sober, earnest looking men. Everybody in Morehead seems glad the Tollivers are exterminated, and people will now breathe freer.

Telegrams were sent to Lexington for four coffins and four suits of clothes in which to bury the dead men.

Last night Morehead was under guard—every street and every corner—while the vigilant sheriff kept a detail of men at the gates to the town. The whisky shop of Craig Tolliver was entirely demolished, the liquids poured out on the ground and the furniture and fixtures broken. The dead bodies of the outlaws now over in Rowan county, but it has cost the state many thousands of dollars.

During the Tolliver-Martin feud, which was founded over a parlor organ in them three years, the following men have been killed: Solomon Bradley, John Martin, Whit Tetrey, Jo Call, Sheriff Bascom Baumgardin, Marion Keaton, John Davis, C. Davis, Hiram Tolliver, John B. Logan, W. H. Logan and one other, beside the four men killed to-day.

Important Will Case Decision.

MIDDLETOWN, N. Y., June 23.—Roswell C. Coleman, the surrogate of Orange county, has decided in the case of the contest over the will of Anna Horton, late of the town of Walkill, that the will offered for probate is void because she made a subsequent will which was destroyed by accident. The destroying of the second will, the surrogate decides, did not revive the former will, as is the universal impression, and therefore she died intestate.

Eloped and Took a Horse and Buggy.

BUFFALO, June 23.—Henry W. Huddleston and his wife, of Cleveland, were arrested at the Brunswick house yesterday on the charge of stealing a horse and buggy from a livery stand Friday. The couple came from Cleveland last week and drove to this city with his companion, whose maiden name was Lucy Clark, and whom he married at Painesville, O., on his way here. He is supposed to be a runaway matcb.

Death of an Albany Official.

ALBANY, June 23.—Fire Commissioner Lyman died at his home in this city last night. He was 55 years of age, and had been a commissioner about four years.

A Century and a Half Old.

WORCESTER, MASS., June 23.—The 150th anniversary of the settlement of Worcester was celebrated by the townspeople yesterday with appropriate ceremonies.

WOMAN AND HOME.

DEADLY FASCINATION OF THE SWEET TEMPERED AND CLEVER UGLY.

Putting Away Winter Clothing—Care of the Baby—Feminine Toilet—Little Midget—Training of Children—Belles in Green—Notes and Hints.

If I did not know girls better; if, in fact, I had not been years ago a girl myself, I should assume that every woman would find only two sorts or rows of pretty girls on their knees with thoughts on the litany and the book of common prayer. Girls are human, thank heaven, very human, and it does my heart good to have this last confidential talk on clothes.

First, by way of moral, let me speak of a reflection I have made or rather been making this morning. Luckily enough, the captain of the French mail steamer did not see fit to mistake North Carolina for New Jersey or Long Island for his pier. As a consequence, there has come to hand a very precious, long looked for budget of magazines, French, and French to the very last gasp. They are not fashion magazines in any sense of the word, but there is due attention to womanskind. A French magazine, like a Frenchman himself, would be ill at ease far from femininity.

Women, old and young; belles, beautiful and ugly, adorn these pages as they do our own private life. And the thing that struck me particularly, and that I am now using for my moral is, How a Frenchman delights in an ugly woman."

Delighting is not necessarily loving or making love to. It is a much more subtle and delicate form of admiration than making love, this delighting; much more.

The Frenchman paints the ugly woman's picture and studies before he in rapt admiration. He designs her gowns, her wraps and her hats, and walks around her with his hand on his heart. It is his ambition in a way that does it. He studies her and grows her her being. Then, like many another creature, he lets her rest.

What has this to do with fashions? Everything. Pretty women, as a rule, can look out for themselves—and do. As whatever they wear looks well on them, and they are free to follow their own sweet will, it follows that they do not pay very much attention advice. Perhaps the ugly woman does not yearn for it either, but even so, she gets it. Sometimes she needs it.

The advice that I mean, is not a complete "Book for Ugly Girls," but a general awakening to the possibilities of one's self, and a determination to foster those possibilities to the utmost. Good skin; perfect skin. Good hair; immaculate hair. Good eyes; clear, healthy, happy eyes. Good mouth; clean teeth and a happy curl to the corner. Good figure; high shoulders. Best dressmaker; gowns and trust to luck for the craze to last.

Oh, an ugly woman is to be envied rather than pitied if she knows which side her bread is side. In the first place, other women won't get jealous of her, same as they do of pretty women, without rhyme or reason. In the second place, she will be free from her extra care for herself, with a blunt thought, perhaps unflattering—"Poor thing, she needs it all." And last, but not least, if she be human, and most of us are, every pretty triumph will be balm to her soul, doubly sweet because of the disadvantages of the case.

Another thing, there is a deadly fascination about a sweet tempered and clever ugly woman. You are continually growing cool, with the idea that at last she no longer pleases you, then growing hot when doubly brilliant flashes of declination, like Macaulay's flashes of silence, prove utterly irresistible.

Oh, no! do not pity the ugly woman provided she is wise. Those that love her love her twice as well as a merely pretty woman is ever loved, and she knows it. They appreciate the cleverness which can triumph over everything, and so does she.

But when we find an ugly woman who has, as it were, left all hope behind, what are we to do?

It is unpromising situation, is it not? And nothing is to be done except talk! Talk is like the proverbial rain to these ugly ducks. It may, however, like that, set them awhile later to pluming themselves.

The one great obstacle in the way of a would be missionary is the natural shyness of this young woman, who has been snubbed hooted at by her brothers, and excused and apologized for by the feminine members of her household, is not to be overwhelmed with conceit; in fact, she is apt to be anything else, from painfully bashful to right down bad tempered.

Here then will come in well a good dose of my usual panaces—common sense. Common sense will do more toward making one's life and lot agreeable than anything else.

Tell an ugly girl that the more she sulks and wrinkles her forehead and draws down the corners of her mouth the uglier she will become—naturally. Tell her the more she elaborates her complexion with red and white the more the world will think she has to. Tell her the more she goes about lank and dishevelled the more palpable will be the difference between her and a girl whose features and clothes are equally regular. Teach her that all the world is not alike, and that while she herself admires a certain pretty woman, there is every possibility that there are plenty of people to whom she, if she would, might seem perfection.

Raise her ideas of herself by any means. Fib to her if necessary, but in some way or another give her a little comfort and a little common sense. Then she will be happy, and will repay your trouble by blossoming out like the rose.—San Francisco Chronicle.

Putting Away Winter Clothing.

The labor of putting away winter clothing becomes harder each year to the average city housekeeper, for moths gather thickly in the closets, trunks and chests in small houses, and especially in the flats and apartments which are the homes of so many. The dear old garrets of our childhood with their lavender scented chests are no more, even the airy old wardrobes that could be opened to the air and sunshine have given place to dark and stuffy little pantries, and short trunks are used instead of the long oaken chests which permitted a gown or coat to rest in whole length and not to be doubled up and badly crossed thereby.

This is the best season for sorting clothes closets for the summer. Every article should be removed from them and the walls either whitewashed or kalsomined and turpentine rubbed into the wood work. No carpet should be left on the floor, for it breeds moths very quickly. If there are two or three shelves these should be covered with newspapers and the winter clothing placed upon them also wrapped in newspapers, the printer's ink being poisonous to the destructive little insect.

All the woolen clothing should be put out on the clothes line in the sunshine for a couple of hours and whipped free of dust, all the pockets turned inside out and well brushed with a whisk broom. Then into each pocket put a small piece of camphor. The dress skirts should be turned inside out, folded as neatly as possible, placed in a pile with a paper between each one, then wrapped in paper and pinned so as to leave no smallest opening for the entrance of the moth. The overcoats should be folded lengthwise. It is very bad policy to fold them crosswise, as a crease or two in this position will mark them almost beyond help. Put a piece of news paper in each sleeve, lay the coat on a flat bed or table, and fold it fourfold so that the edges will come even with the center seam place the sleeves over each breast, taking care that the shoulders are not wrinkled. Vests are easily folded, but trousers are more difficult, and the lady of the house or housekeeper has many men in her household she would do well to take a few lessons in folding from a tailor.

Clothing packed into a trunk should be well sprinkled with camphor. If the trunk is old, a new lining of newspapers will often act as a preventive against moths.

Furs and woolen rugs should provide themselves with two or three long oaken chests. These will be made at reasonable prices by any carpenter, and as they may be placed under the beds or elsewhere, they need not take up as much room as the ordinary trunk. —New York Journal.

Little Midget's Clinging Fingers.

Mrs. Blanchard was entertaining some friends in the parlor one evening when she heard a small voice she knew so well saying: "Please mamma, let me down." Then she saw a little figure standing in the doorway in white gown, with tangled curls and bright eyes, too bright for 10 o'clock at night, thought Mrs. Blanchard, who saw in the room before her, the refuge that had never failed her—mother's arms. "Mamma, dear," pleaded the little night owl, "I have just learned today how to tell you I love you in such a beautiful new way. Please, may I show you? *I'm so afraid I'll forget by morning.*" *Midget took up her* dimpled fingers, and with everybody do just as I do," she said, gleefully. "Hold your thumbs together so, now the next fingers the same way, but the next to that you must hold straight up in the air. Hold her clasped in this position, the palms together, the thumbs tightly touching, also the forefingers, but the second fingers folded in so that her two nails touch each other, then bend the knuckles touched, then the third and fourth fingers met at the tips as the thumbs and forefingers did.

"Now," said Midget, in great delight, "how far can you go from nurse?" and she parted the thumbs as far as they would go. "Now how far from cook?" and the forefingers were parted to their utmost glee as she carefully explained: "You must skip the folded fingers and go to the next. Now, how far can you go from your dear, sweet mamma?" and Midget's triumph. And odd it was that those queer little third fingers would not separate, and the more you tried the more they clung, not only Midget's clinging fingers, but papa's strong ones and Judge Mill's wrinkled ones. And as long as the second fingers are held in bondage the third ones will not separate. Try it.—*Christian* Weekly.

A Foe of Belles in Green.

A protest should be raised against the vivid and unspeakably hideous shade of yellow-green that is so largely used in new costumes. And that shade of the feminine wearers resemble colossal south African carrots. Any kind of green, even the palest and most delicate hue, can only be worn by women of a certain type. For instance, who have skins like ivory and reddish golden hair. But when it comes to the startling emerald tints that compose the latest gowns a word of rumonstrance is out of place. The color itself is extremely beautiful on grass plot and lilac bush, but it is, nevertheless, horribly ugly when put into material at so much a yard. There is no living to whom it is becoming. Then there is something else that appears to need modification—sleeves. The leg of mutton sleeve is both picturesque and pretty on a slim, youthful figure. But is that any reason why every other fat woman one meets, young or old, as the case might be, should appear with enormous puffs standing out on her shoulders like incipient wings? And then what is the meaning of those strange looking patches that appear at the tops of so many arms—manuscript ornaments, neither a puff nor a slash, nor yet exactly an insertion, but a sort of timid compromise in which all three have a share? It does seem a pity that with *so much good taste in every way, and so varied* an assortment of exquisite fabrics from which to choose in the shops, we should be compelled to see these monstrosities—the production of green figures, lumpy, bepatched and, what is more, bebustled.—Philadelphia Press.

Don't Train Children to Be Fussy.

A signal advantage in the treatment of young children or infants is the fact that they do not remember or imagine. More than half the difficulty in treating the diseases of grown people lies in the formation of theories by the patient which a physician labors in vain to break down, and finally humors. It would be well for mothers to remember this simple truth. When a child has recovered from a cold he does not carry the memory of it to make him sneeze and shiver for several weeks. We know by the thermometer that it is several degrees colder, and forthwith pile on more clothing, stir up the fires and feel cold to the marrow of our bones. A child is happy unconsciously, plays on, and unless the change be severe catches no cold. So a little wet that has penetrated a person's boots appears to some a sure token of a bad cold, but if properly attended to should make no more difference than a wet hand. Be careful how you give young children fussy ideas which belong to their weary, heavy laden elders. They should be trained not to feel a slight degree of cold, not to mind a cloud of dust coming into their eyes, or a slight bump or scratch any more than as a mere incident. A grumbling child is a pitiful object, and the habit once formed is ineradicable.—Herald of Health.

Italian Versus American Women.

I like to see the straight figures of a number of Italian women and girls whom I met from time to time in my walks about town. The other day a small procession of these people passed me, each bearing on her head a large bundle, and most of them having something in their hands. In their simple dress, their graceful movements, arranged with an eye to effect in form and color, they made a very picturesque appearance, and much of this was due to their erect bearing. When I see the stooping shoulders of so many of our young women, and even young men, it seems to me that it would be well for them to profit by the example of these picturesque foreigners. Perhaps it would be too much to expect the sons and daughters of our wealthy people to exchange the delights of driving dog carts for the less easy satisfaction of shouldering market baskets, but I am inclined to think that as a matter of health and good looks the latter would be the better for them.—Boston Post.

Secret of the Feminine Toilet.

A reporter visiting Castle garden the other day saw an Italian woman pull a big piece of white chalk from her pocket, and, with the aid of a small hand glass, rub the chalk several times along the part in her jet black hair. It was a new wrinkle, he thought, and subsequent inquiry among the regular officers of the garden showed that they, too, were in ignorance of the innovation. Later three Italian maidens who were sitting in a group of a dozen or more of their countrywomen thrust their hands into capacious pockets and produced three sticks of chalk. As many rocky looking glasses were brought out and then with great care the newly arrived foreigners set to work to whiten the part that divided their shiny locks at the center of their heads. The operation continued for fully ten minutes before they were satisfied that the furrow was immaculate whiteness. Then they resumed the chalk and looking glasses to their pockets and settled down to admire one another.

"It is a custom," said the famous Castle garden boothiack, "that is followed by only a small number of the Italian people. It corresponds to the cheek painting of American women. The Italians chalk the part in their hair to give it a noticeable whiteness. It shows their glistening black by direct hair to better advantage, and, according to a number of prominent Italian physicians, preserves and hastens the growth. But few American women know of the use. They suppose when they hear of it there will be a regular corner in the chalk market."—New York Mail and Express.

Care of the Baby.

I think babies have stood enough abuse. They've little and all that sort of thing and babies are to be no more. But nevertheless I contumesly that does not belong to them. Why do people speak of a bouncing baby! A baby usually at the age to which this term is applied is about as far from bouncing as it can well be. It is the incarnation of limpness.

"Isn't it a bouncing boy?" asks the nurse ecstatically.

And just at that moment the little innocent lump of human dough is lying with its thumb in its mouth and its tongue in the middle of its side issue. A squalling baby has been the destroyer of all romance of connubial bliss. This effect is not produced by the baby, but by the baby's squalling. And the mother may suffer, but still allow the poor little thing to stand all the blame. It's a shame. I may object to a baby that wakes up the house in the middle of the night with crying, but the baby crying is not a patch on the mother soothing it. That simply drives you out of doors, or makes you walk about with the floor and a kind of a rough sound, you may look out for the father, whose attempts to quiet the child would wake the seven sleepers. If they'd only let the child cry, it would soon get tired and go to sleep; but they keep soothing it until it gets wild staring wide awake and howls for hours. Leave the baby alone long enough to apologize in the morning in behalf of the baby for the noise you've made yourself.—San Francisco Chronicle.

Pleasant Homes in Summer Dress.

It has grown to be the fashion to make a complete change of furniture, drapings, and the like, and to put our homes in summer apparel, to take up carpets that entirely cover the floor, and replace with rugs. This very much helps to keep the rooms cool in hot weather, besides making them attractive to the eye. Then, regarding matting, one has only to walk through almost any large furnishing warehouse in town to see for how small a sum a floor can be laid with novel and artistic covering. The winter carpet has the satisfaction of wear, and will last longer. One need not be extravagant to furnish rooms in good taste for the heated term, as, with the use of a few bottles of stain, the floors can be covered with a tint of gold, bronze or enamel will completely transform the appearance of the quaint old fashioned chairs relegated to the attic. The heavy looking curtains may be replaced by airy ones of Madras, artlace, or simple Nottingham or scrim. Cushions, foot stools and divans can be covered with dainty cretonne gay with flowers, designs, and the greatest needful expense of a summer room to look most inviting for the entire season would be the purchase of a goodly number of low broad easy chairs and rockers of rattan and willow, to be scattered freely in every available nook and corner.

One Hour Each Day.

Every woman, no matter how situated, if able to leave her bed, ought to get one hour, if not more, of exercise out each day, walking if possible. And in the winter season every living room should have a strong draught of fresh air blowing through it for five minutes two or three times a day, even if the weather is below zero. Nervousness, headaches and ills would disappear as if by magic if these rules were followed, and instead of an army of helpless invalids, swelling the plethoric purses of specialists, we should have active, vigorous women, a comfort to themselves and a blessing to their families, and all by the exercise of a little common sense, which, after all, is a twin sister to wisdom.—Arkansaw Traveler.

Starch for Burns.

Take a little starch or arrow root, and merely moisten it with cold water, and lay it on the injured part. This must be done immediately, so as to prevent the action of the air upon the skin. However, it may be applied some hours afterward with good effects.

I learned this when a resident of France. It may already be known here, but I have met with none among my acquaintances who seem to be heard of it.

The old remedy, raw meat, is not always at hand, and some children have an insurmountable repugnance to let it be applied.—Journal of Chemistry.

Save Your Steps.

Have the articles most in use conveniently near. Don't have the pots and kettles and other cooking utensils, generally used daily, in a closet in another room or at the farther corner of the kitchen, away from the stove, where, when they are wanted for use, you have just so many steps to take before you get them, and just so many or more to take when you are putting them back. Have a small closet near the stove or sink, where all these articles can be kept.—Boston Budget.

Treatment of a Boil.

A well known physician says that a boil should not be allowed to progress if it can be stopped at the outset, as the system is more likely to be poisoned than relieved by the gathering matter. The boil should be painted with iodine, and will not amount to anything if taken in the first stage.—Boston Budget.

Every one admires bravery, but many a big, burly man is afraid of the woman who trembles at the sight of a mouse.—Philadelphia Herald.

In boiling meat for soup use cold water to extract the juices, but if the meat is wanted for itself alone plunge into boiling water at once.

A little linseed oil brushed over faded green blinds will, if they are not too far gone, make them look almost as good as new.

Do not use coal oil lamps in bedrooms with wick turned down low. They produce asthma, heart disease, throat disease, etc.

By dipping fish for an instant in boiling water much of the difficulty in removing the scales will be overcome.

Salt sprinkled over anything that is burning or set on the stove will prevent any disagreeable odor.

Professional Cards.

F. A. DUNHAM,
Civil Engineer and Surveyor. No. 7 Park avenue. Civil Engineering in all its branches executed with promptness and accuracy. Office at all parts of the country. Residence corner of Fifth and Sycamore streets.

Things One Would Rather Have Left Unsaid.

She—Not I can't give you another dance. But I'll introduce you to the prettiest girl in the room!

He—But I don't want to dance with the prettiest girl in the room. I want to dance with you.—Punch.

The Lincolnian Club.

The secretary of the state board of health of Illinois wanted to know what progress, if any, the colored people of Michigan were making in sanitary matters. Brother Gardner said he would like a general discussion of the subject, and Sir Isaac Walpole arose to remark that he was making progress. Up to a year ago he didn't know that seven persons and a dog sleeping in an 8x10 room with all the windows down and the doors closed was injurious to the human system. He supposed the feeling of languor was brought on by non-circumiation of blood in the feet.

Whalebone Hawker had also progressed. He had now learned the difference betwen the smell of gunpowder and sewer gas and the lives of his thirteen children were no longer in peril.

Pickles Smith used to wash his feet once in six months. Now he felt conscience stricken if a week passed over his head that he didn't heat up a boiler of water and soak up his pedals. His five dogs used to sleep in the house. Now they either made their beds in the doorway or stood up against the woodshed door.

Judge Chewso had slept in a room with six other persons, a barrel of soft soap, three dogs, an old codfish and a limburger cheese, but he had progressed. He used to wake up in the morning and charge politicians with seeking to poison the air, but now he realized that it was his ignorance of sanitary precautions.

Several other members spoke in the same strain, and related vivid personal experiences, and the president finally said:

"De Secretary will answer to de effeck dat we ar' improvin' in sanitary matters in de rapidest manner, an' dat de time am purty nigh at hand when a black pusson sleepin' in de garret of a house doorin' de hot nights of July an' August will worry probably remove de feather bed an' dispense wid about fo' comforters."—Detroit Free Press.

Filial Scruples.

On the avenue—"Know him?"

"Who?"

"Old chap in the queah clothes that just passed."

"Of cawse I do."

"Go you a big fiver I can guess who he is inside of faw guesses."

"Go you."

"Father?"

"Naw."

"Bootmakaw?"

"Naw."

"Hatmakaw?"

"Naw."

"The dayvil; then he must be the haws doain'."

"He isn't."

"Who the dooce is he, then?"

"He's my fathaw."

"Oh, the dayvil. You awtn't to take advantage of a fellaw like that; how the dooce was I to know he was youah fawthaw?"

"Cuss me if I know; fact is, I don't know the governor meself, in public, when he's got his cussed wigwaw togs on; a fellaw can't afawd to be find sewiminate, don't chew know."—Town Topics.

Poetry and Prose.

She—What a lovely summer afternoon. How resplendent the bright orb of day hangs in the blue vault above.

He—Yaas, nice day for a feller to get his hair cut.—Texas Siftings.

Plantation Philosophy.

I'bleve dat ef I wuz on enr race hoss an' had two hoses de start, debt would jump on ar cow an' obertake me. I doan' un'erstan' how it is dat some folks dat ain't got half de sense nar nigh de jedgment dat I is ken run right erbout 'em, wukkin' de craf' an' threat mergan' less allus got its hed eye on my crap. I natter 'low dat it wan' 'cep' I was too honest, but nemer. I kotch mergan' wukkin' dat I had Mr. Sloan-Sos farm, wisout stoppin' to think what would 'come o' Mr. Sloan-Sos chillun, I'se sorter comin' by de Sloan-sos dat ef I goes ter de 'pothecar fo' sumfin he 'low my honesty dat takes me dar. You'll fin' dat honesty 'mung well-to-do folks des 'pen' wid 'mung people dey hev ter hi' transkshon' wi' sumf.—Arkansas Traveler.

A Pleasant Feature.

"I am afraid, madam," said a gentleman who was looking for country board, "that the house is too near the station to be pleasant."

"It is a little noisy," assented the landlady, "but from the front veranda one has such a fine view of people who miss the trains."—New York Sun.

An Enemy He Has Made.

"The first mosquito of the season visited me last night," observed the snake editor, "and I made him my enemy."

"How was that?" asked the horse editor.

"Well, he landed on my hand, and I mashed him, and now he is dead against me."—Pittsburg Chronicle-Telegraph.

A Fatal Delay.

Young Man (to magistrate)—I want a marriage license.

Magistrate—What's the young lady's name?

Young Man—Miss Lulu Smith.

Magistrate—You're too slow, my boy. I wrote that name in a license this morning for young Brown.—New York Sun.

The all Wool **$10** Suits have been reduced to **$7** at Werners Clothing House.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept by Stelle & Drake, corner of Front street and Park avenue.

	1887	1886	
6 a. m.	70	60	Sun rises..... 4 29
8 a. m.	70	62	Sun sets..... 7 35
12 m	76	65	Moon rises.....
5 p. m.	73	68	Moon sets..... 9 27

Weather Indications.

For Saturday, in New Jersey, eastern New York and eastern Pennsylvania, good to New England, occasional rain, followed by fair weather, southwest winds, nearly stationary temperature.

Excitement in New York.—Jay Gould's Rumored Death.

NEW YORK, June 24.—A report that Jay Gould died to-day caused elevated railroad stock to fall thirty-six and a half points. New York banks are supposed to have sustained heavy losses. There is great excitement in Wall street. Other stocks are going down at a lively rate. The report of Jay Gould's death is denied this afternoon. Money on call rose to 25 per cent.

A Mysterious Death.

RAHWAY, June 24—Last night Warren Brown, a farmer residing here drove from Scwaren to Woodbridge. This morning his dead body was found under his buggy in the Woodbridge Creek and it is supposed that he drove off the bridge during the storm. His horse is still living.

A Large Fire at Elizabeth.

ELIZABETH, N. J., June 24.—This morning at three o'clock fire broke out in the Atlantic Rubber Co's. Works at this place and they were totally destroyed. It is supposed to be of incendiary origin. Loss $25,000. It is the first time in a number of years that a general alarm was sounded.

A Collision this Forenoon.

CARRINGTON, Ohio, June 24—The B. and O. fast flying passenger train dashed into the rear of a freight train standing on the main track here. The passenger locomotive was demolished, six freight cars were knocked to splinters, several people were hurt, none fatally, damage $30,000.

L. L. F. Appleby Dead.

SPOTTSWOOD, June 25.—L. L. F. Appleby, a thrifty and prominent resident here, died this morning at nine o'clock, aged 62 years, and leaves a wife and two children. Deceased was a son of Gen. Appleby, and was born at Old Bridge, Middlesex Co., in 1824.

Steamship Arrivals.

NEW YORK, June 25.—The White Star steamer Germanic arrived here this morning.

QUEENSTOWN, June 25. — The Brittanic arrived here this morning.

JOTTINGS.

—Edsall publishes another list of attractive bargains at his great special sale now in progress.

—The G. A. R. Post leave here by special train Monday at 6.45 p. m. to go to the reception of the National Commander Lucius Fairchild.

—James Emmons was arrested last night for drunkenness and Judge Ulrich this morning fined him $10, the usual fine in such cases.

—The hearing of arguments for a new trial in the case of Charles Graeder of Somerset street, found guilty at the last term of court of keeping a disorderly house, was postponed until July 29.

—The case of John Glentner who who was committed to Somerville jail last Wednesday by Mayor Cooley for threatening to use up for hearing in the Somerset Court to-day and was postponed for a week.

—The question of removing the Postmaster, we understand, is now under consideration at the Post Office Department at Washington, upon complaints of prominent Plainfield people. There are a few politicians on this side who may prevent what so many others have desired.

—Mayor Cooley's given name is Justus. The summons in Mr. Wimpenny's case against him has the name spelled Justin. Unless Mayor Cooley objects to the error in the spelling, the suit will proceed forthwith on its merits. Otherwise it will be necessary to issue a new summons.

PERSONAL.

Charles H. Hand of Broadway has removed to Tenth street.

Miss Ella Moffett, of Orchard Place is on a two weeks' visit to her friend, Miss Lillie Holman of Livingston avenue, New Brunswick.

Miss Annie L. Runyon of Wilmington, Del., is visiting her grandparents, Mr. and Mrs. F. Whitehead on West Front street.

Principal Charles E. Bass, of the North Plainfield Public School, was last evening presented by the school, with a large, picture entitled "A Basket of Flowers."

Mrs. D. W. S. Lynch, who has been visiting her parents Mr. and Mrs. F. Whitehead on West Front street, has returned to Philadelphia somewhat improved in health.

Dr. Edward Rushmore, of this city, was yesterday re-elected a member of the Board of Censors of the International Hahnemanian Association, which has been in convention at Long Branch.

Miss M. J. Perdue, the talented and popular teacher of the graduating class of the North Plainfield Public School, was presented last evening, with an Album by the school, containing the portraits of the scholars of her class.

Miss Julia E. Bulkley starts for an extended tour through Europe on Wednesday per the steamer Germanic. She will stop at London for a few days and will then start for Rome, visiting Brandon, Paris and cross the Alps mountains.

COMMENCEMENTS.

PLAINFIELD HIGH SCHOOL CLOSING EXERCISES.—THE CLASS OF '87 LANDED ON THE SEA OF LIFE.

Its Motto: "Nothing Great is Lightly Won."

A FULL HOUSE, EXCELLENT PROGRAM—PRETTY FLOWERS, PRETTY GRADUATES, FITTING ADDRESSES, ETC.

The drenching rain did not prevent a large audience, probably 1000 people, from attending Music Hall last evening to honor by their presence, the commencement graduates of the Plainfield High School. The audience began to arrive an hour before the time for the exercises to begin.

There was a large floral design on each side of the stage and Janitor Mattox had displayed his usual taste in the arrangement of the scenery and the handsome rattan furniture.

The band which was engaged to furnish the music, failed to put in an appearance so that the exercises had to be conducted without the music deemed such a necessary adjunct, but the audience did not seem to miss her debut.

At precisely eight o'clock, the President of the Board of Education, Hon. Jacob Kirkner, advancing from the wings at the left of the stage was followed by Rev. Dr. Richards and Judge Harper and Wadsworth, the latter two being members of the Board. Rev. Dr. Hurlbut, another member, was absent.

At the same time Miss Julia E. Bulkley, the principal of the Plainfield public schools followed by the graduates of the retiring Vice Principal and the graduates to the number of ten, whose names are given later on, advanced from the wings on the right of the stage.

The two files met on the stage and occupied the seats provided for them.

Mr. Kirkner advanced and clearly and briefly introduced Miss Lucius L. Gilbert, her name being the first in the class. Richards read the Invocation.

Miss Helena S. Horan was the next introduced. Her essay was "Moving Onward." She reviewed the career of the scholar to and beyond the last days of school.

"The Carnival of Flowers," a fairy sort of a tale, was the essay read by Miss Augusta Holmes, who was greeted with applause on being introduced, and still more heartily when she had concluded.

President Kirkner came in for a large share of applause at the neat rebuke he gave the small boy in the gallery for whistling. He also complimented the class upon the music. Judge Harper, he said, thereupon informed him of delayed trains being the probable cause.

Mr. Kirkner then introduced Walter J. Moore, who gave an essay on "Our Unknown Benefactors," referring to what the various factors were the inventors of the alphabet, the steam engine, materials of glass, gunpowder, and the art of printing, showing how these and many others had ministered to our comforts and how much we owe to our unknown benefactors in these lines.

The next essay was by Miss Abbie M. Wilson, whose subject was a "Forgotten Virgil." Miss Kirkner said she attributed many of the most exquisite poetic descriptions to be found in our literature, and gave example after example.

Miss Lucia N. Wood read an essay entitled "Three Heroines." Miss Dutton, who slaughtered twelve Indians and rescued herself and children from captivity. She told of the brave and merciful deeds of the women of the revolution, and of our civil war. The women of to-day, she said, have the right to decide in fulfilling the promise of their foremothers.

The next essay was "Bas Reliefs" by Frank J. Hubbard. He told of their value in personating our history, giving the symbolical as baseless, representing the primary idea, and applied the lesson, rejoicing that over all floated the stars and stripes personifying the land of Miss.

Miss Eleanor G. Beal was next introduced and read an essay on Symbols which we give in full:

SYMBOLS, MISS BEAL.

It is in and through symbols that man consciously or unconsciously lives, moves and has his being; those ages, moreover are accounted the noblest which can best represent symbolically the highest idea of humanity and applied the lesson, rejoicing that over all floated the stars and stripes personifying the land of Miss."

Miss Eleanor G. Beal was next introduced and read an essay on Symbols which we give in full:

SYMBOLS, MISS BEAL.

It is in and through symbols that man consciously or unconsciously lives, moves and has his being; those ages, moreover are accounted the noblest which can best represent symbolically the highest idea of humanity and applied the lesson, rejoicing that over all floated the stars and stripes personifying the land of Miss.

FRIDAY, JUNE 24, 1887.

PERJURY IN SYRACUSE.

THE DENISON ALLEGED PERJURY CASE CAUSING MUCH COMMENT.

The Standard Calls the Grand Jurymen's Charges "An Attack" and "A Slander" and Thinks it Was Prompted by Base Motives.

SYRACUSE, N. Y., June 24.—The Denison alleged perjury case was agitating the town yesterday, and affidavits, charges and counter charges are flying as thick as Jem Carney's blows on Mike Mindar, in the ring that Tynan the alleged Vanderbuma. Howard S. White, who lives in the costliest stone palaces in this part of the state, and is Mr. Denison's next door neighbor, and who is to be Denison's defense in his paper, The Standard, yesterday morning. The Standard calls the publication of the grand jurymen's affidavits an "attack," a "slander," and thinks that it was prompted by spite or enmity. This has had the effect of a larger ventilation of Mr. Denison's testimony before the grand jury, and of adding to the excitement. To-day and the affidavits came to be made. After the last March grand jury indicted Sait Superintendent Kennikanaug and Mark Madison for perjury, a motion was made before Justice Kennedy to quash the indictment. For Lucius S. Denison, according to the affidavits of the grand jurymen, had republished the testimony that he was reported to have given before that body. To prevent the indictment being quashed the district attorney had to be present and a member of the grand jury make an affidavit as to what Denison had testified to before that body. That affidavit was used on the motion to quash, and the motion was denied. The result of calling in question the veracity of the grand jurors who swore to this affidavit has been that to-day other members of the grand jury have made affidavits swearing that Denison testified before that body as the original affidavit said that he did, and as Mr. Denison swore on the trial that he did testify. The issue now between Mr. Denison and the grand jurors is so serious, and so many ugly rumors have been at large for weeks, that it is probable that public opinion will compel a grand jury to find a presentment whether Mr. Denison committed perjury. A member of the grand jury, who voted against Kennikanaug, is quoted as denying the statements in the affidavits of some of his fellow members in regard to Mr. Denison's testimony.

YELLOW FEVER IN KEY WEST.

One Man Says the Reports Are Greatly Exaggerated.

WASHINGTON, June 24.—Mr. J. B. Brown, postmaster at Key West, at present in Washington, states that the reports about yellow fever at Key West are greatly exaggerated and unjust. He says that the thirty cases that appeared in Key West prior to his departure on June 7th originated within 300 yards of the first cases.

"The government," continued Mr. Brown, "is willing to spend $50 or $60 a day in paying nurses providing other attendance and accommodations for the patients. What I want them to do is to use a portion of this fund to remove from Key West the unacclimated people who have not yet become affected, but are liable. There are not more than 150 persons there who are liable to become affected. Of Key Westerners and people who have lived long enough there to be acclimated are not at all in danger. Yellow fever does not approach them. I did not get sick myself, although I was there. Has any fine hospital service would adopt my suggestion."

Mr. Brown says that he believes the sensational reports are spread by naval officers who do not like to be in southern latitudes during the summer.

Master Plumbers in Chicago.

CHICAGO, June 24.—The National Association of Master Plumbers closed their convention here. John Byrnes, of New York, was elected president for the ensuing year; John Trainor, of Baltimore, vice-president; Mortimer J. Lyons, of Brooklyn, treasurer, and Enoch Remick, of Philadelphia, financial secretary. It was decided to hold the next annual convention at Boston.

Defaulter Leslie.

PHILADELPHIA, June 24.—Leslie, the defaulting treasurer of the Chesapeake and Delaware Canal company, after a hearing was held a prisoner in default of $50,000 bail. He and his cousin Wilson, now under arrest in Canada, embezzled $600,000 from the company.

Washington Items.

WASHINGTON, June 24.—Assistant Secretary Maynard has gone to his home in New York state for two weeks' vacation.

Surgeon General Hamilton, of the Marine hospital service, has ordered Past Assistant Surgeon Gutteras to Key West for temporary duty.

The revenues of the present month will exceed $1,000,000 per day, and the expenditures will be small.

Secretary Whitney will go to New York to-day. While in New York the secretary will probably inspect the new cruiser Chicago, and he will also investigate the recent accident to the floating derrick. He will also have a conference with Commodore Oberend in which matters of interest to marines connected with the New York navy yard.

CONDENSED NEWS.

In his oration at the unveiling of a soldiers' monument at Syracuse, N. Y., Senator Hiscock protested against the return of the rebel battle flags.

Cake, wine and milk were partaken of by burglars who raided the Gammell villa at Newport and got away with the silver without disturbing the household.

The jury in the trial of Cora Lee at Springfield, Mo., charged with the murder of Mrs. Sarah Graham, failed to agree on a verdict.

Michael S. Kurtz, tried at Troy for complicity in a diamond robbery, was acquitted.

Matthew Gurnee, a resident of Haverstraw, N. Y., died from hydrophobia, caused by a bite from a mad dog.

It was Jacob Sharp's twenty-third day on trial and the lawyers in the case celebrated it with several warm "set-tos." Judge Barrett ruled that Sharp's testimony before the senate investigating committee was admissible.

Purchases of New York real estate amounting to over $2,000,000, by William S. Maddock during the month, appear to have been made for the Equitable Life Assurance society, which is rapidly disposing of its country property and securing city realty.

FROM OVER THE SEA.

EUROPEAN AFFAIRS RAPIDLY ASSUMING A VERY SERIOUS ASPECT.

Lord Salisbury in a Quandary—Perplexing Egyptian and Irish Questions—The Countess Mercedes and M. Mielvaque Having a Hard Time.

LONDON, June 24.—The cohesion of France and Russia in opposing the nullification of England's treaty with Turkey regarding future administration of Egyptian affairs is rapidly assuming a menacing aspect and the cabinet is much perturbed thereat. As far as the public knows, the situation in respect of Russia and France's opposition, England's obstinate adherence to her original position and Turkey's wavering between signing the convention deferring to Russia's protests has undergone no change; but the hurriedly summoned cabinet meeting of yesterday, at which were present ministers who had foreign engagements entered into weeks ago in order to attend, implies that the government is in receipt of information of a grave character. Hardly anything than Turkey alleged refuse to do would cause such manifest haste and anxiety in assembling the grave ministers of state, even had the question of Egypt's postponement as England and Turkey are concerned, until after the feast of Bairam, which begins to-day, and the public will not remain satisfied that the meeting called for the council did not arise from the government's conviction that war between Russia and France on the one side, and Turkey and inevitably England on the other is made inevitable by recent and decisive action on the part of the former allied powers.

This much, however, is known. Sir Henry Drummond Wolff, brought to the diplomatic sapolery the treaty was brought about, fearing that the cabinet he represents may at the last moment fail to support him, has demanded an immediate solution of the questions he has submitted, and Lord Salisbury is in a quandary. Egypt and Ireland are the two bums of his dilemma. In dealing with the former the latter is necessary for him to temporize, but in managing the former so as to secure the best possible results, or, indeed, from the present outlook, any good results at all, he is seeking to gain all the time he can and induce all the other parties concerned to commit themselves before showing his own hand. The impatience of Special Commissioner Wolff and the determined attitude of Russia and France, however, are pressing him closely, and a definite declaration of England's intentions in the premises cannot be much longer delayed.

The Countess Mercedes Campos and her lover, M. Mielvaque, whose discount Delatour Garboeuf, are having a hard time to get married. Having placed themselves beyond the fear of police interference, they had reason to believe that the intention of the registrar at Dover for a special license would be granted, but to their dismay they were informed that the latter days' residence in England was necessary before the issue of the coveted document, and they are left a prey to the apprehension that in the interval complications may arise to separate them finally.

It has been ascertained that Mielvaque, whose employment as clerk in the French chamber of deputies ceased with the principely salary of $750 a year, left creditors in Paris whose aggregate claims amount to $10,000. Instead of being a scion of French nobility, he has been discovered to be the son of a bailiff in the department of Correge.

The jubilee festivities and rejoicing are lagering off, and many of the prominent visitors are leaving for their homes. The Archduke Rudolph, crown prince of Austria, left yesterday, and the departure of several others of the visiting royalties are announced for to-day.

M. Dreyfris'bill created quite a flurry in the French chamber of deputies yesterday, and its debate will doubtless evoke some very fiery and intemperate speeches. The bill is aimed solely at Germans, which goes without saying, and is designed to effect the immediate wholesale expulsion of Germans from France upon the slightest of pretexts. The measure is so obviously a provocative of German retaliation that it is doubtful if the government will countenance it, and it is certain to be rejected on a division.

A Desperate Character at Large.

NEWARK, June 24.—James, alias "Silver" Downing, the notorious criminal, escaped from the state lunatic asylum, at Morris Plains, June 10, and has since been at large. After getting away from his keepers he came to this city and spent several days here. He was seen by a number of old comrades, and to several of them he repeated his threat to kill Detective McManus on sight. Silver Downing, although young in years, is one of the most desperate criminals in this country as well as one of the most subtle that this state has produced. He was jailed for theft when a mere boy, but he secured release by feigning illness. In 1880 he was sentenced to state prison for five years for larceny. He twice tried to escape, and in one instance nearly killed Keeper Hahn. At Trenton he convinced the authorities that he was insane, and they removed him to the asylum.

They Want to Catch the Thief.

NEW YORK, June 24.—A circular printed in English, and dated May 30, has been received in this city from the Vienna police authorities, offering a reward of 1,000 florins for information that will lead to the capture of Zalenski or Zaleski Philemon, calling himself also Zaleski de Jelita, a clerk in the Vienna police who fled on May 26 after outbezzling twenty money letters or parcels containing a total amount of 151,537 florins. For the recovery of the stolen money a reward of 10 per cent. of the amount found is offered. Zalenski had been a non-commissioned officer in the Austrian army, and is a native of Galicia, about 32 years of age. A full description of him is given in the circular, with three portraits. He had often expressed the intention of going either to America or Roumania.

Rudolph Waives Examination.

CHICAGO, June 24.—Anton C. J. Rudolph, the city bookkeeper of the Continental National bank, who, it is alleged, committed forgeries for $8,000 and swindled the bank out of $7,000 in cash, which he sank in the wheat deal on the board of trade last week, came before Justice Lyon yesterday for a hearing. Since his confinement Rudolph's cheeks have become sunken and he looks like a man almost dying. When asked to waive my examination," he announced to the court. "Very well," said the magistrate, "let it be $6,000 to the grand jury."

The Derby Road and Mayor York.

NEW HAVEN, June 24.—The seventh offer was made for the Derby railroad to Mayor York. He will not disclose the details until the committee now considering the Derby road matter have passed upon it.

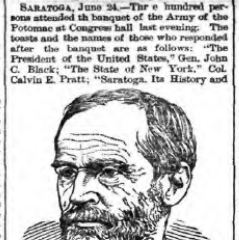
The Race Postponed.

NEW LONDON, Conn., June 24.—The Harvard-Columbia university race has been postponed until Monday afternoon.

THE ARMY OF THE POTOMAC.

Three Hundred People Attend the Banquet at Saratoga.

SARATOGA, June 24.—Three hundred persons attended the banquet of the Army of the Potomac at Congress hall last evening. The toasts and the names of those who responded after the banquet are as follows: "The President of the United States," Gen. John C. Black; "The State of New York," Col. Calvin E. Pratt; "Saratoga, Its History and



GEN. SHERMAN.

Its People," Professor Nathan Smith Shepard; "The Army of the Potomac," Gen. Henry W. Slocum; "Our Sister Societies and Brothers in Arms," Gen. W. T. Sherman; "The Army and Navy," Gen. Whipple; "Our Sisters, Wives and Mother-in-Law," Gen. George B. Sharpe; "The Volunteers," Gen. D. E. Sickles; "The Army of the James," Corp. J. Tanner; "The Press," D. F. Ritchie; "The New President," Gen. J. C. Robinson; "The Veteran Dead, State of New York," Gen. Butterfield; "The Orator of the Day," C. M. Depew. Wallace Bruce responded to the "Poet of the Occasion," with a poem, entitled "The Silent Soldier," based on this incident:

"It is said that when Gen. Grant was dying a ray of sunlight through the half closed shutters fell from full upon Lincoln's picture, leaving the general's portrait, which hung beside it, in deep shadow. After lingering for a moment upon the brave and unmurmured president, it passed at the instant of death and played upon the portrait of the general.

ABANDONED BY THE KNIGHTS.

The Lasters' Union Must Fight Their Battle Alone.

BOSTON, June 24.—The Knights of Labor have abandoned the Lasters' union in their fight for a recognition of organized labor in Worcester county shoe manufactories, and the lasters will continue the struggle alone. The lockout has been in force six months and thousands of lasters have been involved. Up to a week ago the antipathy between the Lasters' union and the Knights seemed to have been buried, and the action of the latter in ordering their men back to work raised a storm of indignation in the camp of the trades unionists. They have published an address to the working people of the country, in which the Knights of Labor are censured in strong terms for their action in giving up the fight and abandoning the "outside brethren" and all the shoe cranks which has an assembly in the Knightly order. The address says that it would be futile for working people to look for protection from an organization which finds it necessary to defend its right to exist. The union will do all it can to help its abandoned brethren, and is confidant of crowning its long fight with a victory.

CHAIL ROARK'S TRIAL.

The Cowboy Express Robber Arraigned in Utica.

UTICA, N. Y., June 24.—The trial of Chail Roark, the alleged West Shore express robber, was continued before Judge Kennedy. G. W. Post, of this city, testified to finding pieces of storm bills on the day following the robbery. Assistant Chief of Police Dagwell testified that he discovered footsteps near the scene of the robbery, as if made by a person stepping off a train and then going to where the torn bills were found. Several other minor witnesses were called. In the afternoon Frank J. Miller, of Suspension Bridge, testified that he sold Roark at that place, and when he asked him if he had a revolver Roark said, "Yes, and a good one." said he had hunted on the plains and had killed 5,000 buffaloes in two years; he said that was west in 1875 and 1876. It is expected that the prosecution will close today.

Ancient Order of United Workmen.

MILWAUKEE, June 24.—The following officers were elected for the ensuing year of the A. O. U. W.: Supreme master workman, William A. Jordan, of Oakland, Cal.; supreme foreman, C. M. Masters, Sparta, Wis.; supreme overseer, William R. Graham, of Cedar Falls, Ia.; supreme recorder, M. W. Sheeks, of Des Moines, Ia.; supreme receiver, J. H. Lenhart, of Meadville, Pa.; supreme guide, John A. Child, Portland, Ore.; supreme watchman, William M. Butts, Baltimore; supreme trustee, examiner, Hugh Doherty, of Boston, Mass. Messrs. Lenhart, Sackett and Doherty were reelected. The committee on laws and supervision reported a revised constitution and bylaws for the good of the order, which were made a special order for to-day.

Many Degrees Conferred.

BRUNSWICK, Me., June 24.—Yesterday was commencement day at Bowdoin college. Degree of A. M. was conferred on six members of '84, one of '37, one of '57 and one of '81. Honorary degree of L. L. D. was conferred on Professor John Avery and Dr. Cordyon Bonney, of New York. Honorary degree of A. M. was conferred on Crosby S. Noyes, of Washington, D. C.; Hon. Lewis Cass Aldrich, of Bangor. Honorary degree of D. D. was conferred on Rev. Crosby W. Wheeler, Rev. Stephen L. Newman and Rev. Charles M. Dills, of Portland. Degree of M. D. was conferred upon seventy graduates and several others in recognition of bequests, etc.

The Crown Prince in Good Health.

LONDON, June 24.—The Lancet, the organ of the highest medical authority in England, says the general health of the Crown Prince Frederick William is excellent. Concerning his special ailment, the paper says the appearance of the larynx is quite satisfactory. There is no ulceration, but the ventricular bands are slightly relaxed. A solution of perchloride of iron has been applied to the affected parts on several occasions, and it is probable that more of the growth will be removed early next week.

National Banks Authorized.

WASHINGTON, June 24.—The comptroller of the currency authorized the following national banks to commence business: The Preston National bank, of Detroit, capital $500,000; the Minneapolis National bank, Kan., capital, $60,000; the German National bank, of Hastings, Neb., capital, $50,000; the First National bank, of Ottumwa, Ia., capital, $200,000; the American National bank, of Birmingham, Ala., capital, $250,000

GRIM DEATH IN A MINE.

THREE MEN KILLED AT NANTICOKE BY AN EXPLOSION.

Others Are Apt to Die at Any Time. Great Excitement at the Scene of the Disaster—Names of the Dead and Injured.

WILKESBARRE, Pa., June 24.—Another awful mine accident occurred at Nanticoke yesterday. Three men were killed instantly, another has since died, a fifth is at death's door and two sixth is likely to die. The entire town is excited because of the disaster. Since the fatal 18th of December, 1885, when twenty-six men and boys were imprisoned by a cave and whose bodies still lie mouldering in the "Arsenal chamber," no serious accident occurred in Nanticoke until this one, and though the death rate is less the excitement is fully as great as on the memorable occasion two and a half years ago. The accident was caused by an explosion of gas, in what manner no one will in all probability ever know. All the men at work before six men were engaged in the mine, and in the morning all were brought out by their comrades, three dead, and the other five so badly injured that their lives were despaired of. The names of those who were instantly killed are John McMadamin, aged 40, leaves a wife and three small children, resided on Green street; James Kelcey, aged 24, single, also a resident of Green street; Lotey Vinoski, a laborer working for Keeley, aged 28 and unmarried. The fatally injured are Sam Tolliver, aged 50, age 18; Barney Leszkoski, a door tender, age 7; John Leszkoski, age 19, a door tender. Another man, Norman Thomas, was also badly burned, but will recover. The probabilities are that all the injured, with the exception of Thomas, will die. One of them, Joseph Lessegs, died at noon. The others are unconscious and are liable to die at any moment. It is impossible to tell just how the accident occurred. The men were during the night driving a gangway in No. 4 slope. At a few minutes before 3 o'clock the men rested and sat on the tool chest for the purpose of partaking of a lunch. The fire boss, John Williams, passed through a few minutes previously and reported everything all right. At 3 o'clock Joe Lessegs, the driver boy, passed by with a car and a mule. The explosion followed immediately. All the men who were on the tool chest were killed instantly. The driver boy was stunned and the mule which he was driving was killed. The boy fell under the mule, in which position he was found an hour later. He died at noon as stated.

The supposition is that the workmen had fired a blast blown in mining parlance as a "blower," and that the gas from this spread throughout the chamber, and coming in contact with the naked lamp of the car driver who was passing, was ignited with deadly effect. The clothing was burned off their bodies and all the victims were so disfigured that recognition was almost impossible. The stable boss, Thomas J. Johnson, who was half a mile away at the time, heard the explosion and hurried to the fatal chamber. He found the three dead and the others lying and groaning in the agony of death. After the bodies were brought out. By this time a great crowd had gathered at the mouth of the slope. It was a sad scene when the bodies were brought to the surface. Men and women and little children wrung their hands in agony and moaned pitifully as the ghastly form of Lotey Vinoski was borne from the mine. Coroner Mahon was notified by Mine Inspector Williams to hold an inquest, and went to Nanticoke this morning to-day or to-morrow. Until the inquest is held it is probable that the real cause of the disaster will be fully explained.

M'GLYNN IN BUFFALO.

An Interview with the Famous New York Priest.

BUFFALO, June 24.—Dr. McGlynn, who lectured in this city last night, in answer to a question as to whether he intended going to Rome, said: "I really have nothing I wish to say on that question. The fact of publishing certain authority that I would be excommunicated if I did not appear before July 2. Of course I could not get there by that time, and I have not thought of doing so. Indeed, I deny the authority of those people who summoned me to Rome. The only order promulgated which it was said called me to Rome was sent out by the secretary of Archbishop Corrigan. I have never made anything of that nature public. I have been asked about going to Rome on personal affairs before the public, and I do not wish to do so now. I am lecturing because I have leisure to do so, and in making allusions to ecclesiastical affairs I do so only in answer to questions sent to me as to why I don't obey the pope and so on."

Dr. McGlynn said the anti-poverty movement was growing rapidly. The subject of his lecture was "The Cross of the New Crusade."

Many Traveling Newspaper Men.

CRESSON SPRINGS, Pa., June 24.—Over 100 journalists, accompanied by their wives and other friends from the cities of Washington, Baltimore and Philadelphia, arrived at the Mountain house. The entire party numbers over 200. During their stay here they will be the guests of the Pennsylvania Railroad company. Accompanying the party and in charge of it are Passenger Agents George W. Boyd, of Philadelphia; R. A. Parke, of Washington, and R. E. Boyd, of Baltimore. The newspaper men are associated with the leading papers of the cities whence they come. Representatives of the United Press and New York Associated Press are also of the party. The journalistic party will return Saturday night.

Suicide of a Newspaper Man.

BUFFALO, June 24.—Wednesday night Capt. Charles R. Morse, a newspaper reporter, and at present a canvasser for the city directory, registered at the St. John's house, on Swan street, and was given a room. At 11:30 o'clock the next morning he was found on the bed dead. Two bottles of chloral were found on the table, the greater part of which he had taken. A number of letters were found in the pockets of which he wrote the address, "The Woman of Death, 23 Palmer block, Rochester." Capt. Morse was a veteran of the war, was about 35 years of age, and had held positions on various newspapers in Buffalo and Rochester.

She Receives a Large Fortune.

NEW YORK, June 24.—Surrogate Rollins has decided that the woman known as Duffy Ross is entitled to the $40,000 left by the late Mrs. Georgiana Geoghegan, a notorious Bowery dance house. Her right to the property was contested by Geoghegan's sister, but Duffy showed that, though never formally married to Geoghegan, they lived together as man and wife, and this establishes her status under the laws of this state.

Mrs. Cleveland in Aurora.

AURORA, N. Y., June 24.—Mrs. Cleveland did not move from Aurora yesterday, going neither to Seneca Falls nor to Geneva, as it had been reported she would do. She was out for a drive in the morning and in the afternoon rested quietly.

AFFAIRS OF THE BROKEN BANK.

E. L. Harper Under Guard and J. W. Wilshire Arrested.

CINCINNATI, June 24.—Comptroller of the Currency Trenholm arrived here from Washington and has taken personal charge of the investigation of the affairs of the Fidelity National bank. The comptroller of the currency has stirred up considerable of a Fidelity building. Some grossly fraudulent transaction was discovered, more outrageous than anything previously found, which warranted placing E. L. Harper under restraint, and in consequence ever since he has been held a prisoner in the safe deposit vault. The guard at the top of the stairway is under orders not to permit him to come out. His lunch was brought to him, which he ate down stairs. About 9:15 Marshal Urner, accompanied by Commissioner Hooper, entered the bank and proceeded to the private office, where they consulted with the comptroller for a few minutes and came out, and soon after arrested J. W. Wilshire and brought him in. Wilshire is a prominent operative and is very much cast down. He disclaims any knowledge of the financial condition at the Fidelity. It is learned that Wilshire had under his control about $1,000,000 of other securities amounting to over $1,000,000, and the owners were anxious in regard to them.

THE SITUATION IN MOREHEAD.

The Town Breathes Easier After the Shooting Festivities.

MOREHEAD, Ky., June 24.—The United Press correspondent arrived here after the fight and found matters comparatively quiet, though rumors innumerable of attacking the friends of the dead outlaw, Tolliver, to wreak revenge either by a direct onslaught or by first applying the torch, were heard on every side. As the day wore on, Monday, such darkness shut out the scenes of the morning, the excitement increased, and it was feared that before dawn Morehead's street would again run with blood. But such might be added flames. The town is heavily patrolled by the sheriff's posse. Citizens were warned to keep in doors, and lights were put out. The sheriff's party numbered 150 men when the attack was first made. He refuses to be interviewed, but it is understood he acted under special orders from Governor Knott. Every one inquires for news that Craig Tolliver is dead, and predict that unless his relatives and friends in the adjoining county of Elliott seek revenge, and this is possible, the worst is over.

THE SALE OF POSTAGE STAMPS.

The Largest Increase Was in the City of Rochester, N. Y.

WASHINGTON, June 24.—A statement prepared by the postoffice department of the total the sale of postage stamps, stamped envelopes and postal cards for the month of May, at the seventy-six first class postoffices, aggregates $1,753,095, which is an increase of $135,533, or 9.86 per cent. Fifteen of the seventy-six offices show a decrease. Rochester, N. Y., shows the greatest increase, 79.38 per cent.; New York shows an increase of 21.05 per cent.; Philadelphia, 7.81 per cent.; Brooklyn, 25.29 per cent.; Baltimore, 27.03 per cent.; Boston, 7.96 per cent.; Chicago, 12.42 per cent.; St. Louis, 16.39 per cent.; Cincinnati, 13.18 per cent.; St. Paul, 33.87 per cent.; Minneapolis, 19.16 per cent.; New Orleans, 13.89 per cent.; Pittsburg, 14.43 per cent. Washington shows a decrease of .62 per cent.

Amalgamated Association's Convention.

PITTSBURG, June 24.—Yesterday's session of the Amalgamated association convention was occupied by the reading of the report of the committee on ways and means and consideration of the application of the colored puddlers from Evereon mills for admission. An effort was made to exclude the colored workmen and excited prolonged and vigorous discussion. Such action was found to be unconstitutional, and it was determined to readmit the applicants on payment of $1,300 the for "black sheeping," $800 to be paid down and $400 in four years. The Everson puddlers think their penalty rather severe, but will probably accept the terms.

Picknicking Druggists.

THOUSAND ISLANDS, N. Y., June 24.—The State Pharmaceutical association selected C. H. Haskins, of Rochester, as the association's candidate for Regent. The appointment to fill the vacancy on the state board of pharmacy. C. Z. Otis, C. H. Butler, W. L. Dubois, S. A. Newman, A. Sager, J. H. Eaton, C. W. Holmes, C. S. Chapman and F. S. Norton were named as also suitable persons for the position. Next year's meeting place will be at Saratoga. The newly elected officers were installed. The association also had to Alexandria bay, and after a brief session, upon returning, the association adjourned sine die.

A Foul Murder Unearthed.

AUBURN, N. Y., June 24.—The body of an unknown man about 50 years old, was found floating in shallow water, about six feet from shore, in Owasco lake, near this city, about 5 o'clock yesterday afternoon, by a farmer who was watering his horses. In the side of the head were two bullet holes and another hole or wound. The face was also badly disfigured. About the body, just above the waist, a rope was securely tied, and the free end showed indications of having been fastened to a weight. The body is supposed to have been in the water since March or April.

Texas Train Robbers Arrested.

SAN ANTONIO, Tex., June 24.—Officers arrested George Shoaff, a well known gambler, formerly marshal of Luling, on a charge of being the train robber leader. Capt. Dan Roberts has also arrested with three men, John Clark, August Smith and E. Otheo, arrested near La Grange, and suspected of being implicated in the Flatonia train robbery. It is reported that the officers found the camping place of seven of the robbers and obtained clews which make them confident of capturing the whole gang.

Cork's Mayor Suspended.

CORK, June 24.—In consequence of the mayor of Cork having hoisted a black flag on the occasion of the queen's jubilee and exhibited most conspicuous discrimination in favor of the rebels in the matter of disputes, and riotous acts growing out of the celebration of that event, he has been suspended by Dividual Magistrate Flanagan. The new mayor has ordered a resident paid magistrate to try prisoners until further notice, giving to him that power exclusively.

Postmasters Appointed.

WASHINGTON, June 24.—The president to-day appointed the following named postmasters: James Sinclair, of Connersville, Ind.; John D. Wood at California, Me.

The Printing for New York State.

ALBANY, June 23.—The state officers charged with awarding the state printing contract for the ensuing two years have awarded it to the Troy Press company as the lowest bidders.

Appointed by the President.

WASHINGTON, June 24.—The president has appointed James Sinclair, of Connersville, Ind., to be United States commissioner for the district of Alaska.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 24.—Money closed at 5 per cent. The highest rate to-day was 6 and the lowest 5. Exchange closed steady; posted rates, $4.84½@4.86; actual rates, $4.83½@4.83¾ for sixty days and $4.86¾@4.86¾ for demand. Governments closed firm: currency 6s, 1895, 126½ asked; coup., 1895, 128½ bid; 4½s, do., 109¾ bid. The stock market this morning was active and weak. The effects of the bank failure in Cincinnati was the principal cause of the weakness in the market. But the depressing conditions of the affairs of that institution and rumors of financial complications in Chicago caused a vigorous selling of stocks on the part of the bear element, who took advantage of the occasion to raid some of the leaders and prices went rapidly down. The rate for call loans was advanced to 7 per cent., which aided the depression. At one time a semi-panicky feeling prevailed and stocks of all descriptions were unloaded without stint. The bottom figures of the morning were touched about midday. At that hour the decline ranged from ¼ to ¾ per cent. The worst stocks on the list were New York and New England, Richmond and West Point, Jersey Central and Reading. Immediately after 1 o'clock there was a rally, and at 12:30 prices had recovered ¾ to 1 per cent. This was due to a positive denial of serious losses by the officers of the bank of American Exchange in Chicago and public assurances by other Chicago banks that they would stand by it in case of a run. The sales up to midday aggregated to 212,000 shares. The market became weak again after 12:30, and in the hour to 1:30 prices went down with a rush. Some of the leaders declined from 2 to 4 per cent. This was followed by a rally of ¼ to 1⅝ per cent., which was wholly lost in the final half hour of business. The closing prices were generally at or near the lowest point of the day. The transactions were from ¾ to 3⅜ per cent. The weakest stocks were: New York Air Brake, New England, Canada Southern, Consolidated Gas, St. Paul, Northwestern Union, Oregon, Transcontinental and Omaha.

General Markets.

NEW YORK, June 23.—FLOUR—Closed steady and unchanged; winter wheat extra, $3.10@3.65; Minnesota do. $3.10@3.65; city mill extra, $4.40@4.55; Ohio extra, $3.20@5. Southern flour closed steady; commos to choice extra, $3.30@5.

WHEAT—Options were irregular. In the early dealings prices were weak under the lead of June and July. The former declined ¾ and the latter 1¼c. The close was steady at a slight recovery. Spot lots closed steady and unchanged. Spot sales of No. 2 red state, 93c.; No. 2 do., 88c.; No. 3 red winter, 86¼c.; No. 3 do., 83c.; and ungraded red, 84@88c.; No. 2 red winter, June, 89¼@89¾c.; do. July, 84@84¼c.; do. Aug., 84¾c.@84 12-16c.

CORN—Options were dull and irregular, closing firm at a trifle above the latest. Spot lots closed firm and unchanged. Spot sales of No. 2 mixed at 47c.; and ungraded mixed, 46¾@47c.; No. 2 mixed, July, 46¾c.; do., Aug., 47¼c.; do., Sept., 48¾c.

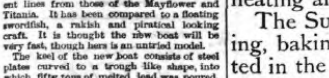
GEN. PAINE'S NEW YACHT.

A Craft Which It Is Hoped Will Be Able to Beat the Thistle.

The new steel yacht built for Gen. Paine at Wilmington, Del., is attracting much attention, and The New York World has just secured illustrations of the boat as here reproduced. This yacht is built on entirely different lines from those of the Mayflower and Titania. She has a very noticeable ballast to regulate her trim.



THE BOW.

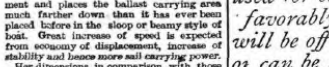
Her center board is 30 feet, with a drop of about twenty feet, so the yacht will draw about thirty feet with it down.

Though the Atlantic's bow lines were called straight, these lines of Gen. Paine's boat are straighter. To the eye the lines are as sharp as the letter V. Abaft the shoulders, however, she has more curve of beam than any of the other yachts. But the inward curve begins far below the water line. This method affords great beam at and for several feet below the water line, and gives the aggregate displacement and places the ballast carrying area much farther down than it has ever been placed before in the sloop or beamy style of boat. Gen. Paine claims for speed is expected from economy of displacement, increase of stability and hence more sail carrying power.

Her dimensions in comparison with those of the other big sloops is shown by the following table:

	New sloop.	May-flower.	Puri-tan.	Atlan-tic.	Pris-cilla.
Length over all	107.0	100.9	95.0	95.1	95.0
On water line	86.0	85.0	81.1	84.0	85.0
Extreme beam	23.2	23.3	22.7	23.2	25.3
Extreme draught	10.0	9.5	8.2	9.3	8.0
Outside ballast, tons	50.0	37.0	37.0	45.0	45.0
Inside ballast	20.0	11.0	13.0	5.0	45.0
Displacement	—	115.0	98.2	108.0	114.0
Sail area	—	—	7370.0	8712.0	7391.0
Area midship sec	—	82.0	82.0	102.0	86.5

The frames are strips of steel five-sixteenths of an inch thick, are angular, and measure 3 by 2½ inches, placed at the distance of twenty-one inches from center to center. The reverse frames measure 2¾ by 2¼ inches, and are of quarter inch metal. The plates are of steel, and were made to order at Pittsburg. The boat's spars were made in Boston, where she will be rigged. Her sails are in process of making in New York. The length of her spars and her sail area have not yet been made public.

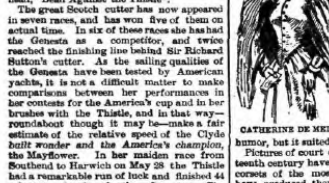


THE STERN.

And now for a race with the Thistle!

And, by the way, there is much less fear of the Thistle on the part of American yachtsmen, now that her qualities are somewhat known, than there was some time ago. Read what The New York Tribune says under the head, "Dead Against the Thistle":

The great Scotch cutter has now appeared in seven races, and has won five of them on actual time. In six of these races she has had the Genesta as a competitor, and twice reached the finishing line behind Sir Richard Sutton's cutter. As the sailing qualities of the Genesta have been tested by American yachts, it is not a difficult matter to make comparisons between her performances in her contests for the America's cup and in her brushes with the Thistle, and in that way—roundabout though it may be—make a fair estimate of the relative speed of the Clyde built wonder and the America's champion, the Mayflower. In her maiden race from Southend to Harwich on May 28 the Thistle had a remarkable run of luck and finished 44 minutes ahead of the Genesta. The forty-five mile race of Harwich on May 30 was another fluke, the fog being so dense that the yachts were unable to find the turning buoys. The Thistle was defeated on this occasion, the Genesta getting home 17 minutes ahead of her and the Irex 1 beating both. The first fair trial the cup challenger had was on May 31 from Harwich to Southend, and then she finished first and beat the Genesta ten minutes. The day was a splendid one for sailing, the wind blowing steadily from the east and the sea being smooth. It was one of the fastest races ever sailed over the course, the winning boat covering the forty-five miles in 8h. 31m. and 19s. On the next day the same easterly wind and generally favorable conditions prevailed and the Thistle led the racing fleet over the Thames fifty mile course, from Lower Hope to Mouse lightship and return, in this time finishing twenty-five minutes before the Genesta. Sir Richard Sutton's boat was called back for crossing the line before the starting gun was fired for the run over the Thames course on June 2 and stayed out of the race, but she was on hand June 4, when the course was from the Nore to Dover, and beat the Thistle 4m. 5s. sec. In her last race, over a forty-four mile triangular course off Dover on June 6, the Scotch flyer again made a good showing and finished 10 minutes 40 seconds ahead of the Genesta. There



GEN. PAINE'S YACHT.

was a brisk whole sail breeze and everything was favorable for a good test. Of the six races in which the Genesta participated only four can be regarded as affording a fair opportunity for comparing the speed of the boats. In one of these the Thistle beat the Genesta 10 minutes in another 35 minutes, and in another 10 minutes 49 seconds, while in the Genesta beat the Thistle 4 minutes 54 seconds. In these four races then, the Thistle proved herself to be on an average 10 minutes 11 seconds faster than the Genesta. Even if the races of May 29 and 30 be excluded, which would be manifestly unfair for purposes of comparison, the average speed of the Scotch cutter is over 11 minutes 17 seconds greater than that of the English one. A fair idea of the difference between the speed of the Puritan and Mayflower may be obtained from the time made by them in the trial races of 1886. In the first of these contests Gen. Paine's handsome craft covered the course 3 minutes 37 seconds quicker than the Puritan, and in the second 5 minutes 44 seconds quicker, and altogether showed herself to be 4 minutes 40 seconds faster on the average. If, then, the Puritan is 9 minutes 28 seconds faster than the Genesta, and the Mayflower is 4 minutes 40 seconds faster than the Puritan, it is the easiest sort of mathematics to add these figures together and thereby show that the Mayflower is 14 minutes 8 seconds faster than the Genesta, which has already been shown to be only 10 minutes 11 seconds slower than the Thistle. If this reasoning is approximately correct, last year's successful America's cup defender is nearly 4 minutes faster than this year's challenger, and may safely be relied upon to save it again.

NOTICE—The Plainfield Gas Light Co. would call the attention of gas consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the gas stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office, cor. Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL Rates *will be made for Gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be RENTED at Moderate Rates.*

Plainfield Gas Light Co.

ABOUT WOMEN'S WAISTS.

WHAT THEY WERE LIKE IN THE MIDDLE AGES.

When the Corset Came in—Fashions as They Were in Days of Old, When Knights Were Bold and Barons Held Their Sway.

In the matter of waists ladies have always gotten some trouble to improve on nature. Yet their efforts have never been rewarded with success. Nature is a jealous as well as exceedingly clever dame, who resents suggestions of this lays on penalties when she is meddled with.

Tight lacing took its rise back of us four or five centuries at least. The beginning of this evil is not known, but there is no tracing it to its source. In the fifteenth century they wrote about a pair of bodies, which probably accounts for the word "bodice." In the six-

CATHERINE DE MEDICIS.

teenth century said bodies took the shape represented by the accompanying picture of Catherine de Medicis. If some of us had been on hand would we not have said: "Take any shape but that!" Then, as now, male willings expended their humor upon these "whalebone prisons." In the light of the present it was very clumsy humor, but it suited the times, no doubt.

Pictures of court dames made in the Fifteenth century have waists so small that only corsets of the most unyielding type could have produced them. And one artist was kind enough to leave us this picture of a woman in the act of lacing a garment similar to the corset. It is no worse, not so bad as what can be seen in real life to this day at an English wonder pallister. Fashionable English women cannot fasten their gowns without the aid of a long handled button hook. After they are fastened there is no such thing as breathing "below the belt."

It may be a surprise to some of "the young, the gay, the fair, in pleasure's reckless train," to know that something like the Jersey of to-day was in use by the upper class in the Eleventh, Twelfth and Thirteenth centuries, and is of eastern origin. It was called the "bliaus," was long and tight fitting and was of elastic material. It covered the waist and extended over the abdomen, and was figured in a honeycomb pattern. It revealed the figure perfectly, and no corset was worn beneath it. Hence, from the word "bliaus," our word "blouse" evidently originated.

A book compiled in 1371 reveals the fact that women then painted their faces, bleached their hair with wine, pulled out hairs to make their foreheads high and went into the vain and frivolous in costuming to great lengths. One woman is favorably mentioned in the book because she had eighty gowns. In those days great ladies bowed to tailors. One is spoken of as having said that she was better pleased to bow to a tailor than to a lord.

The Normans introduced the corset into England. It can be traced back to the Twelfth century. A caricaturist represented the Devil as a fashionable lady, making the corset conspicuous by putting it on the outside of his clothes. Sidero was also valled in the mediæval ages, as we might expect, since intellect was then in a decline. Mediæval romances drip with allusions to the small waists of ladies, who, according to the ideal of the day, must have "eyen gray as goshawk, and bodies and middles small." A knight, too, if he filled the requirements of society, must be slender about his body. Aldermen with swelling abdomens would have cut no figure in those days.

GIRDLED.

Girdles were conspicuous adjuncts of the toilets of the Middle Ages, and were often made of the costliest materials. Gold and precious stones ornamented them when they belonged to persons of high rank. Girdles are "in" now. Tea gowns have ribbon ones, and they are strung on every possible gown. Bernhardt's Roman costumes in "Theodora" have given them popularity. Girdles were worn low in the Twelfth century. The form of the girdle indicated the subjugation of woman. It it encircled the waist and had a piece depending therefrom, it signified that the wearer was bound to a man who had the right to lead her about at will.

In the earlier Middle Ages they never pinched their waists. During the Eighth and Ninth centuries they wore loosely fitting robes which concealed the figure. In the lower Roman empire the classic costume prevailed.

Classic waists were never small. And today, among some of the more intellectual women, there is a tendency to return to the "big classic waist" and abjure the corset altogether. Poets are to blame for keeping up the interest in slim waists. They are always rhyming about them. Even Tennyson in "The Miller's Daughter" says:

> And I would be the girdle
> Round her dainty, dainty waist.

American Medical Students Abroad.

There are comparatively few American students of medicine now in Paris. Those who come are usually physicians bearing the diploma of some American medical college, who attend the lectures and visit the hospitals for one season, and then go to Vienna or Berlin, or to both cities, taking them in succession. As students and graduated physicians there are in all several thousand Americans every year at the famous institutes of Germany and Austria. I do not know why it is that the field of doctors is setting away from this city, while the number of students in art and in medicine augments rapidly each year. The opportunities for studying medicine are certainly ample. Lectures are free and the hospitals are open to the students of every nation.—Paris Cor. San Francisco Chronicle.

LARGE SUPPLY of *FIRE CRACERS,* TORPEDOES, MINES, ROCKETS, FLAGS, LANTERNS, etc., for the Fourth of July at R. C. FISHER'S, 21 West Fourth street, opp. Public School

HERE is a list of a few of the many BARGAINS now on sale at *EDSALL'S* **SPECIAL SALES**

The Modern Queen of Hearts.

In the dark ages at his ease
Man helped himself to all degrees
Of learned distinction.
Nor dreamed that woman e'er could master
Ho Hasse, Vir Oil, or Zo Rooster
Without extinction.

But all is changed. In Greek and Latin,
By hives which learned drones have sat in,
Queen bees sip honey.
By classic streams they Homer spout,
And no male don can drive them out
For love or money.

But to our tale. Minerva Dryde
Was of our college halls the pride,
She thought in Greek.
In Sanscrit she could write a play.
The calculus she solved all day
Ere she could speak.

The dons of Cambridge owned that she
Could wax 'em on philosophies;
And as for science,
Old fossils who could bones compare,
But who had lost in thought their hair,
Sought an alliance.

The fair Minerva, Queen of Hearts,
One day was cajoled Master of Arts.
She knew them all—
Logic, divinity and law,
Zoology, doxology; but, pshaw!
She beat old Sol.

Now many suitors sought to win
Minerva with their vapid chin
And polished cheek.
She bowed not on the Appian Way
To any man who could not say
"Veni" in Greek.

For she was lovelier than the dawn,
And lithe of figure as a fawn.
Out of his mind
One fellow wrote a song;
His quantities, poor wretch, were wrong.
She cut him blind.

But, ah! a lovely youth there came,
A very Hyrtl, and his name
Was, with a ball,
Played by the Greeks in Athens when
The gods were young. Of all the men
He had the call.

A champion he, whose mighty bat
Had laid full many a Rooster flat.
His fifty was true
When at a rival head, Rudolph,
With eye unerring, as in golf,
The ball drove.

One eve he came. Torn were his clothes,
And on a patch he wore his nose,
Arm in a sling.
"Minerva," cried the youth, with glee,
"We've busted 'em. Hoorah!" and she
Said "Ting-a-ling."

She was the belle. Ah, it was sweet.
She bade him kneel down at her feet,
And crowned him then.
"My best and bravest, See of Arts,
The Master gives thee here." No darts.
He jaest penan—pen.

—New York Journal.

California Snakes.

The eastern boom. I mean the boom made by eastern people with money, has started up some of the old dead industries of California. With the easy progress of civilization the good old industry of lying had almost died out. It got discouraged, and so many wonderful things had been imposed elsewhere that it was hard for the Californian imagination to meet the necessities. It was easier to give up lying to strangers altogether, for even the most untraveled customer could ring the bell on the California guide or stage driver. These gentry are now awakening from their lethargy and beginning to make the Yosemite and other trips lively. A friend of mine from the east has just come back from the Yosemite and he relates his experience. The stage driver found out that he was seriously afraid of snakes and immediately proceeded to make his hair stand on end.

"Venomous reptiles! You bet. I don't know what reptiles is, but there snakes, you can just bet your life, is venomous. Why, one day I was ascendin' down here drivin' a wagon, when I catches sight of a snake in the brush, all ready for a spring. My hosses starts an' I whips 'em up fast to clear the snake, don't you see, afore he could spring. He makes one clear spring, the snake does, an' he misses it a rod.

"That was lucky—but you—you"—

"Lucky! You bet your life it was lucky. He hits the hind hoss of the right rail, but he struck his fangs clean through the wagon."

"You don't say!"

"I do say, and maybe you won't believe it; but it's a fact. He struck his fangs clean through that wagon, an' it swelled up so bad that we had to leave it by the wayside and take the horses home."—San Francisco Chronicle.

Around the Mahogany.

"Yes," said Miss Breezy, of Chicago, "it is a pleasure to dine at the Walushes. Mrs. Walush is naturally hospitable, and aside from the general excellence everything is served in a way that is positively delightful to a person of cultured tastes. And her soups are delicious. Why, do you know," went on the young lady, "that last evening I was served to soup three times, and could easily have gone one more."—New York Sun.

Dogs Cruelly Treated.

Mr. Brown, who is reading a newspaper—"Bergh ought to be down in Texas. There is a fine field for him there.

Mrs. Brown—Are the poor brutes treated so badly in Texas?

"They are. Just think of putting poor bloodhounds on the track of negroes who have assaulted women and children."—Texas Siftings.

JOTTINGS.

—A new crosswalk was laid yesterday at the corner of Park avenue and Sixth street.

—This afternoon the Directors of the Hillside cemetery are on the grounds disposing of plots.

—Some of Plainfield's residents celebrated the Queen's Jubilee by illuminating their residence.

—The question, "How shall we celebrate the Fourth of July?" might be both timely and pertinent.

—Mayor Cooley, of the Borough, says that Mr. Simpson has not as yet brought any suit for damages against him.

—The types made us say yesterday "Landed" for "Launched on the Sea of Life," referring to the class of '87.

—The recent thunder storms which visited this and other localities, raised havoc with many of the electric light globes.

—Edsall's great "special sale" will continue all of next week, with numerous additional bargains from day to day.

—A beautiful crayon portrait of Henry Ward Beecher, by Artist Flower, is on exhibition in the window of Werner's clothing house.

—The Bicycle club base ball nine left town this afternoon on the 1.30 train for Somerville to have a game of baseball with the Somerville club.

—Many persons were noticed admiring the new moon last evening and hoping that it meant a little fine weather, which, after the repeated rain storms, will be quite acceptable.

—Field & Randolph, the new drug firm who have lately purchased the business of Wm. H. Voorhees, have an announcement in to-day's paper. They mean to deserve a large patronage.

—We begin to-day the publication of the laws of the State of New Jersey, passed by the last Legislature, THE NEWS being one of the 100 papers in the State designated to publish the same.

—Wheat is lower to-day than for the past twenty-five years, and the cause of the cheapness is that the speculators in it have come to deserved grief. May our country never want cheap bread.

—A special invitation is extended by the W. C. T. U. to all Christian workers of whatever denomination to be present to-morrow afternoon at their four o'clock Gospel meeting in Reform Hall, and assist in making it interesting, by giving short volunteer addresses and and prayers. All are welcome.

—The hearing in the case of Robert Simpson vs. Mayor Cooley and Marshall Becker, in which plaintiff sues for an alleged tort, and which was to have come up for trial before Justice Wadsworth yesterday, was postponed for one week on account of a mistake in spelling the Mayor's name in the summons.

—Commander William Hand issued an order to Winfield Scott Post yesterday to attend the Fairchild reception at Newark Monday evening. The post will leave this city on the 6.45 train with the band. The order is countersigned by Robert Walker and requests all soldiers to attend.

—Marshall Becker of North Plainfield rises at about four o'clock in the morning, and hunts in the customary rendezvous of tramps before they are up, and takes pleasure in hunting them out of the locality, very unceremoniously. As a consequence, the tramps this season give the borough a wide berth.

—White Engine No. 2 was at work on the well on the corner of Third and Liberty streets about 8:45 o'clock last evening, two large dogs, the property of the neighborhood, became engaged in a most vicious fight which lasted about ten minutes. It took the united efforts of half a dozen persons to separate them. The occurrence created considerable excitement while it lasted.

—Engine Co., No. 3, took their apparatus out for a "wash" last evening and to try the new fire well on South Second street, between Plainfield and Grant avenues. The trial proved satisfactory and the well will probably be accepted by the Fire Board at its next meeting, which takes place the Second Tuesday in July. The experiment dragged the pumps of the engine with ease, and the steamer was located on the well at the corner of Third and Liberty streets for the purpose of washing it out. After considerable trouble the engine was again put in good working order.

Thirsting for their Gore.

EDITOR EVENING NEWS:—I noticed in last night's issue an item stating that the Scott Base ball nine are ready to vanquish any club hereabouts. We have challenged them, and are willing to meet them at any time, but they do not seem to be ready to play, when we challenge them. I hope now, when they see this printed they will come to centre at once. From the secretary of the Active B. B. C., of Plainfield, CHAS. A. CASE.

WESTFIELD.

Chas. F. Conant has gone with his family to Monticello.

At the last meeting of the Town Committee the clerk was instructed to issue the usual precautionary call notifying each owner of dogs by postal card not to allow their dogs to run at large without being properly muzzled.

Harriett Manning, Mr. and Mrs. Tattival, Mr. and Mrs. Quackenbush, and Samuel Hall have all gone to Spring Lake for ten days.

The Committee to solicit subscriptions for our Fourth of July celebration has engaged a Band for the day, and arranged for games in the forenoon, and an oration and fireworks at night.

The "Owls" were compelled to postpone their clam-bake to be held until next Monday on account of the condition of the grounds.

LIST OF GRADUATES

Of the High School for the Past Eighteen years and the Boards of Education.

Appended will be found a correct list of the graduates of the High School from the year 1870 to 1887, including the names of the principals and class motioes. The names of the members of the Board of Education are also given in convenient form for reference. This publication is not a garbled one, but has been carefully prepared and revised by competent persons. The valedictorians of the various years are marked with a star (*):

The Pond Works Begun.

Several car loads of timber arrived Thursday for the new works of the Pond Machine Company.

The railroad company is putting in a frog and switch from the south track, running upon the land of the Pond Machine Company.

Stakes were driven to-day for sites of the new buildings.

The question has been raised about the delay of the Pond Company in receiving the title to the land recently purchased of the Land Improvement Company. Persons buying are inquiring if their investment is secure. The Potter Press Works, the Scott Press Works and the Oil Cloth Works are on land purchased of the Land Improvement Company, and there is much other valuable property here which would be effected if the titles were not secure. There is no Supreme Court decision on the subject that we are aware of, but there is an opinion from three of the most eminent lawyers in the State, upon which the Land Improvement Company can be understood, to guarantee the titles to all property sold by it. We have secured a copy of the opinion, which was given some years ago, and as it is of much interest to every owner of property in this section, we give it in full below:

Opinion by Hon. B. Williamson. Ex Chancellor of the State of New Jersey, relative to a certain mortgage given by the Central Railroad Company of New Jersey."

The mortgage made by "The Central Railroad Company of New Jersey, to Moses Taylor and John C. Green, trustees, bearing date the 15th day of December, 1868, to secure five millions of dollars and interest, in addition to the personalty, the road-way, depots and real estate appurtenant thereto, and which by the charter the company is authorized to mortgage.

The mortgage does not in its terms or by implication cover any other lands. It does not embrace the land by description or otherwise which The Central Railroad Company was authorized by an Act of the Legislature of the State, approved April 9, 1867, to convey to The Central New Jersey Land Improvement Company, and which under said Act has been so conveyed.

The mortgage expressly declares that it is executed under and by virtue of the 15th section of the charter. It describes the real estate in the following manner:

"The railroad of the said parties of the first part from the Delaware River, in the County of Hudson, to the Delaware River, in the County of Warren, in the State of New Jersey, constructed and to be constructed, and any and every branch and branches thereof, constructed and to be constructed, together with all and singular, the railway, rails, bridges, fences, depots, wharves, fixtures, buildings and appendages and appurtenances owned or hereafter to be acquired by the said parties of the first part; also all railways, depots or stations, with the buildings and fixtures thereon, erected or to be erected, together with . . . and all and every the description in general terms of the personal property and the franchises, &c.)

A cursory reading of the mortgage has induced a mistake by observing the words "and all other property." But a more careful observation will show that this language refers to the personal property in the description of which it is used.

The five million mortgage does not embrace any of the lands conveyed to the Land Improvement Company. It has been examined in reference to this question by some of the ablest lawyers in New York and New Jersey, and the views above expressed have been adopted and titles passed without hesitation.

B. WILLIAMSON.

November 23, 1872.

In addition to the foregoing is the following:

OPINION RELATIVE TO THE MORTGAGE GIVEN BY THE CENTRAL RAILROAD COMPANY OF NEW JERSEY.

We have examined the mortgage given by The Central Railroad Company of New Jersey to Moses Taylor and John C. Green, as trustees, to secure the bonds of the company to the amount of five millions of dollars, and dated December 15th, 1868; and are of opinion that the mortgage covers the railroad, its depots, its rolling stock and the franchise, and all property, real or personal, now owned or hereafter to be acquired in any way, appurtenant to the railroad.

And our opinion further is that the words "all other property" used in the description of the mortgage, means "all other (railroad) property;" and that the surplus lands conveyed by The Central Railroad Company to the Central New Jersey Land Improvement Company, as well as those surplus lands which are still held by The Central Railroad Company, and which are entirely disconnected with the railroad, are not covered by the mortgage.

We have given our opinion more fully which is filed with the company.

FRED. T. FRELINGHUYSEN,
A. O. ZABRISKIE,
B. WILLIAMSON.

May 10th, 1873.

PERSONAL.

Harry A. Smith, of Somerville, received the Liebig prize for the best Chemical Thesis at Rutgers.

Charles Moore, accompanied by his mother and sister spent yesterday with friends on Madison avenue.

Dr. Abraham Coles of Scotch Plains, was "at home" this afternoon to receive a large circle of friends.

Mr. J. W. DeGraff, of Plainfield, is mentioned in the recent patent reports as securing a patent for a packing and elbow box.

Mrs. Horace Kimball, of East Second street, started this afternoon for a three weeks sojourn at the Seashore House, East Gloucester, Mass.

Miss Ida Angleman and Miss Julia Taylor, of West Second Street, started to-day for Asbury Park, where they will spend a couple of weeks.

Rev. J. P. Searle of Somerville sails for Egypt per steamer Arizona on the 29th inst. His friends presented him with a purse amounting to $542.

Willie, the youngest son of Michael and and Sarah Pickett of West Fifth street, died last evening after a short illness, aged one year and three months.

The funeral service of Mrs. Ruth E. Smith took place from her late residence 110 East Second street at five o'clock Thursday afternoon. Interment was made in Tarrytown, N. Y.

The grounds about the residence of John Allen on Somerset street are being enclosed with a new fence, the old one having become weak.

The Reception Committee of the Y. M. C. A. will hold a short but important meeting at rooms on Monday evening at nine o'clock. Members are urged to be present.

Joseph A. Robinson will lead the young men's meetings at the Y. M. C. A. rooms Monday evening at eight o'clock. Topic: "Behold the goodness of God." Rom. xi-22. All men invited.

George Voehl, of Somerset street, is doing quite a business in the sale of Voehl's Queen Bread. George was married January 1st, 1885, and has a daughter which will be eight months old next month.

Mr. and Mrs. F. H. Miller, of Broadway, arrived home yesterday afternoon from Wildesbarre, Pa. Mr. Miller starts for an extended trip through the South West. He expects to be gone until the first of August.

Morgan C. Bird has met with so much success with his invention for screening and loading coal that he has sold his coal yard to devote his entire time to supplying the demand. The purchaser of the yard is Mr. C. H. Rugg of Easton, Pa., whose advertisement will appear Monday.

School trustee, George F. Brown of North Plainfield, has taken his wife to Asbury Park to give her the benefit of treatment by a specialist in rheumatic cases. She has been a helpless cripple for the past few months with rheumatism. Mr. Brown remains there with her and hopes to bring her back cured.

John F. Wilson, who is the chief of one of the departments of the Lehigh and Wilkesbarre Coal company, in New York was brought to his home in North Plainfield quite ill yesterday, and a physician was summoned. The rumor about town that he was dying of a stroke of paralysis his friends will be glad to known is untrue. He is a sufferer from indigestion, and was suddenly prostrated yesterday in New York. It is thought that he will be around again within a few days.

The Rev. A. V. V. Raymond, formerly of Trinity Reformed Church of this city, and now of Albany, has been honored by his Alma Mater with the degree D. D. We are sure that one of the doctor's old college friends, who resides here, in sending the following congratulatory telegram, expressed the sentiments of all here who knew Mr. Raymond, and who, it might be asked in Philadelphia, did not know him? The telegram read: "Hearty congratulations to you upon your merited preferment, and to Old Union upon this sign of restored consciousness.

Mr. L. Heyniger, the proprietor of the large Mount Saint Mary Convent on Somerset street and the other on North avenue, at one time followed the printing business, being employed in a large New York concern. He was about sixteen years of age at the time and "kicked" an old press which had some time previous been gilded and was on exhibition in New York during the French Centennial held at that place. The trade was not to his liking so he gave it up and after spending some time at the machinist's trade he one day wearied of that and went to work in a woolen manufactory. He has been in the latter business since.

Twenty-four Hours too Late.

The Board of Education engaged an orchestra from Capps's Seventh Regiment Band to furnish the musical portion of the program at the commencement exercises in Music Hall, Thursday evening. The band failed to appear and their absence could not be accounted for. It was thought they had mistaken the date. So it proved. Last evening, an orchestra composed of eight pieces arrived on the 7.40 train, and were on Park avenue en route for the Music Hall, when they were stopped by Policeman Mariner and informed of their blunder. They returned to New York on the 8.42 train disgusted.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

	1887	1886		
9 a. m.	66	60	Sun rises	4 29
9 a. m.	70	62	Sun sets	7 35
12 m	76	68	Moon rises	
3 p. m.	73	63	Moon sets	9 27

Weather Indications.

For Sunday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair weather, followed by partly cloudy conditions in the two first sections.

A Minister's Wife's Terrible Tragedy.

EDINBURGH, June 25.—A terrible tragedy occurred at a place called Firth, near Grange Mount. The wife of Rev. Dr. Leckie, a Presbyterian minister, successively cut the throats of three children and then her own, in a fit of insanity. All are dead.

Traffic Stopped.

HOBOKEN, June 25.—The Lake Shore railroad drawbridge, over English Creek, two miles this side of Hackensack, was broken down in some way this morning, so that traffic was stopped. Incoming passengers were transferred by Little Ferry to New York via the Susquehanna and Weehawken R. R.

How is this for High?

Alfred Streuli, the son-in-law of Mr. Honegger, who is now traveling in Europe with his mother and daughter, takes care of the handsome Honnegger villa on Hillside avenue, and from the piazza can overlook Plainfield, so high is it. The place is about 275 feet above sea level. Mr. Streuli is to have put on the highest point of the land a flag pole from traffic was stopped. Incoming passengers were transferred by Little Ferry to New York via the Susquehanna and Weehawken R. R.

How is this for High?

Alfred Streuli, the son-in-law of Mr. Honegger, who is now traveling in Europe with his mother and daughter, takes care of the handsome Honnegger villa on Hillside avenue, and from the piazza can overlook Plainfield, so high is it. The place is about 275 feet above sea level. Mr. Streuli is to have put on the highest point of the land a flag pole from which the stars and stripes may joyfully wave a welcome home to the travelers. Yesterday the pole arrived in two sections, one seventy-five feet long and weighing over three tons, and the other being twenty-eight feet long, making the whole pole 103 feet. The pole is to be set eight feet in the ground, with two feet of cement at every side of it. This will require twenty barrels of cement.

To raise such a long pole a trench is to be dug twenty feet long and sloping down eight feet deep by the hole. The pole will be rolled into this and inclined thereby on an angle that it is thought will facilitate its raising to an upright position. Another way suggested is to put a short pole upright in the ditch, fastening a rope about one-third way up the large pole, and putting the rope over the top of the short pole, preferably provided with a pulley. A number of men, hauling on the rope over this bridge, may easily thus pull the pole upright. In other than experienced hands the task might be attended with some danger.

The Hawthorne Lecture.

Despite the cold water thrown from above on the undertaking on Thursday evening, Julian Hawthorne's lecture in aid of the Scotch Plains P. E. church was a decided success. The hall was well filled. The audience showed close attention evidently enjoying the lecture. On able discussion of different schools of novel writing was followed by an interesting account of the various ways in which the author Hawthorne came to embody his favorite conception of a successful search after the elixir of life, and the effect which the use of such an elixir would have in its possessors.

After the lecture was ended many went forward to thank Mr. Hawthorne for the pleasure he had afforded them. Just how much was realized is not yet known. Thanks were given Mr. Hawthorne, and also the Plainfield ladies, who contributed to the success of the lecture. The church treasury will be increased largely thereby.

The Women's Relief Corps.

The following invitation has been received by the Women's Relief Corps of this city.

NEW BRUNSWICK, June 23, 1887.

Mrs. Sarah A. Mattocks and members of Corps:—You are requested to meet in Newark N. J., on Monday, June 27, 1887, at one o'clock p. m. to attend the reception of the W. R. C. and Sons of Veterans under the Fairchild at same time and place as that of the G. A. R. of N. J.

All wear badges, and committee will meet members at depot and conduct them to head quarters. By Command of

ANNE J. WITTIER,
Department President.

At a regular meeting held last evening the invitation was accepted.

—Postmaster Force feels that we have treated him unfairly in charging, upon information from prominent citizens, that he was using the mails for advancing his private business, in having his paper put in the post office boxes without orders, apparently with a view of getting subscribers. We believe he has done so, but rather than treat him unfairly we unqualifiedly retract the whole article, so that it cannot be charged that we have placed a stumbling block in his way, if the office is conducted right. We do not think the postmaster has a right to use the office, but may be mistaken.

—Complaint has been made by the residents of West Fourth street and warrants have been issued for the arrest of the notorious Margart Dunsworth on the charge of drunkenness and disorderly conduct in that vicinity.

NOTICE—The Plainfield Gas Light Co. would call attention of the Gas Consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the Gas Stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office corner of Fourth and Washington Sts.

Persons desiring to test the capacity of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL RATES will be made for gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be rented at moderate rates. PLAINFIELD GAS LIGHT COMPANY.

—A picked nine from the employes of the *Scott and Potter Press Works left this city* for New Brunswick at one o'clock to-day to play a game of base ball with the Mystic club of that place.

Col. E. H. Ropes and his staff met at the regimental headquarters of the Third regiment on Wednesday evening. The first lieutenant of the new company recently organized at Fairfield was there and was instructed by the colonel as to his work and the form of enlistment. The new company has 76 men on the roll, and they are said to be of the right stuff, and will, when they become a part of the gallant Third, give a good account of themselves. General Plume will soon issue an order uniting the new organization with the Third regiment.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 24.—Money closed at 6 per cent. The highest rate was 7-16 per cent. per diem. In addition to the legal rate. The lowest rate was 6. Exchange closed steady; posted rates 4.84½@4.85; actual rates, 4.83¾@4.83¾ for sixty days and 4.84¾@4.85 for demand. Government bonds closed steady; currency 6s, 125¾ bid; 4s, coup., 124¾ bid; 4s, coup., 125¾ bid.

There was great excitement during the forenoon, owing to reports of the death of Jay Gould, and prices fell sharply in all the Gould securities. The lowest prices of the morning were touched at 11:30 o'clock. Ten minutes before 12 o'clock, however, it was realized that there was, in fact, no real cause for the decline but manipulation; that Mr. Gould was not dead, as reported, but very much alive, and that there was no bad news from any quarter, but, on the contrary, an improvement in general confidence as far as the recent flurries in Cincinnati and Chicago were concerned, there was a sharp rally in prices. By 12:30 prices were up to 4 per cent. from the lowest point. The sales up to midday amounted to 396,000 shares. The market was generally quiet midday. The larger brokers supported the list and prices steadily recovered to the close, when they showed a net recovery of ¼ to ⅞ per cent. from the lowest point, the latter in Manhattan The day passed without any failures occurring, except one small failure announced after midday, whose inability to meet his margins was announced on the Consolidated Exchange.

General Markets.

NEW YORK, June 24.—FLOUR—Closed steady; winter wheat, low grades, $2.75@3.10; fair to fancy, $3.40@4.35. Southern flour closed dull and heavy; common to choice extra, $3.30@5.

WHEAT—Spot lots were firm and the market was strong and advanced 3@c in the early dealings, during the first few months without practice. Before noon, however, the feeling became weaker, due to the panic on Wall street. June fell off 1½c from the highest point. The market closed weak at the bottom rates. Spot sales closed steady and unchanged. Spot sales—No. 2 red winter, 94½c; No. 3 do., 90c; ungraded red, 89@93c; No. 2 red winter, June, 89@89¾c bid; July, 84@84¾c; August, 84¾@85c.

CORN—Options were dull and weak, closing steady at a slight advance. Spot lots closed steady and unchanged. Spot sales—No. 2 mixed at 67c; *ungraded mixed*, 66¼@67½c; No. 2 mixed, July, 59¾c; do., Aug., 57¾c; bid; do., Sept., 59¾c bid.

OATS—Options were quiet and steady at unchanged prices. Spot lots closed firm and slightly higher. Spot sales of No. 2 white, state at 39c; No. 3 do., 37½c; No. 2 mixed, June, 36½c; do., July, 36¾@37c; do., Aug., 34¾@35c.

RYE—Dull; western, 54@56c; state, 60 @60c.

BARLEY—Nominal.

PORK—Dull; old mess, $14.50@14.75.

LARD—Closed quiet and weak; cash, $6.70; July, $6.68; Aug., $6.78.

BUTTER—Dull; western creamery, 10@18c; state, 15@20c.

CHEESE—Firm; state factory, 8@9½c; western, 7@8c.

EGGS—Dull and heavy; state, 10¼@10¾c; western, 10@10½c.

SUGAR.

BEARS MAKE A RAID.

A DAY OF EXCITEMENT ON NEW YORK'S STOCK EXCHANGE.

Reports of the Death of Jay Gould Circulated to Affect Prices—The Market Rushes Down, but the Decline is Soon Recovered.

NEW YORK, June 25.—Dullness has been the conspicuous feature of the Stock Exchange markets for some weeks past. It was yesterday the speculative community got a vigorous shaking down. The sellers of stocks appear to have been in the majority since the big Chicago wheat clique went to smash and some of its members started for the penitentiary. On Thursday the selling was increased by the reports from Chicago about the troubles of the American Exchange National bank, of that city. Yesterday stocks were at one time pitched overboard because it was very hard to get enough money to carry them.

According to the street reports, and there appears to be some basis for them, Mr. Jay Gould called in yesterday morning all of the money he controlled and his wide partner, the Hon. Russell Sage, also called in a good many of his loans. By some singular coincidence both of these capitalists who control more money than any one else in this country—seemed to have immediate use for all they could get together yesterday. The *money market, already in a condition of* unhealthy activity, felt the operations very quickly, and there was a general marking of up rates upon call loans. The rates for money were stiff from the opening, and before noon 6 per cent. and 7 per cent. commission became the current rate. This is equal to nearly 100 per cent. a year.

Still, the upward strength of the money market did not seem to affect prices much; but a break of 4@5 per cent. in the price of Manhattan railway stock did not break things. The point is that a stock seemed to let go after almost 10,000 shares had changed hands at the same price at which it had opened—156¾. This is the way Mr. Cyrus W. Field's pet stock in the Wall street clique left 156¾, 156¾, 156¾, 156¾, 156, 149½, 130, 125, 120, 130, 115, 125, 120 and 115.

There were only 500 shares dealt in under 120. Until the end 40,000 lots of from 100 to 300 shares that could have been sold at 150@.

Right after Manhattan came Missouri Pacific, one of Mr. Jay Gould's pet stocks, which dropped from 68 to 62, and on the news of Missouri Pacific fell Western Union, another Gould favorite, from 75¾ to 67¾.

Breaks like these seemed to discourage holders of stocks all around, and everybody began to let go in lively fashion. Richmond Terminal dropped a matter of 7¾ per cent., to 26; New England 6 per cent., to 45¾, and others in proportion. Before noon the market looked very panicky, but no one gave any sign of being badly hurt, while the higher rate for money seemed to bring some of that idle capital down to market.

The exchange took the matter very placidly, though it made some of the older boys fly around pretty lively, and this is the first time of late that some of them have had *much to do.*

The market recovered so easily from the afternoon break that the theory about tenderness lag. When they got through, the activity died out, and the market was comparatively dull again until the last hour. The final dealings showed a little more life, but the closing was weak.

Wall street's favorite theory about yesterday's decline, so far as it can be learned, is that it was engineered by Mr. Gould as a preliminary to a great deal in telegraph matters. The part Mr. Gould, who was down town at his office, 195 Broadway, said that there was nothing specially new in the telegraph situation. He said that the panic was a senseless one, and that the stocks were cheap. He denied that he had had a falling out with any one, especially with Mr. Field. Mr. Gould added that though some stocks were cheap enough to buy, and that he had bought a good many himself.

Mr. Gould also denied that he was dead, or even seriously hurt. The street was full of that rumor early in the day. Another of his denials was addressed to Senator Kiernan's business agency, and read as follows:

"The bulletin you are putting out that my Manhattan stock is a loss is a malicious falsehood. Not a share of my Manhattan is in loans or has had my name on the back nor do I owe a dollar on the world. You should promptly contradict. Yours truly,

"JAY GOULD."

The frequenters of the bucket shops, who simply bet on the legal rate. The highest rate was 6. Exchange closed steady; posted rates 4.84½@4.85 for demand and 4.83¾@4.83¾ for sixty days and 4.84¾@4.85 for demand. Government bonds closed steady; currency 6s, 125¾ bid; 4s, coup., 124¾ bid; 4s, coup., 125¾ bid.

There was great excitement during the forenoon, owing to reports of the death of Jay Gould, and prices fell sharply in all the Gould securities. The lowest prices of the morning were touched at 11:30 o'clock. Ten minutes before 12 o'clock, however, it was realized that there was, in fact, no real cause for the decline but manipulation; that Mr. Gould was not dead, as reported, but very much alive, and that there was no bad news from any quarter, but, on the contrary, an improvement in general confidence as far as the recent flurries in Cincinnati and Chicago were concerned, there was a sharp rally in prices. By 12:30 prices were up to 4 per cent. from the lowest point. The sales up to midday amounted to 396,000 shares. The market was generally quiet midday. The larger brokers supported the list and prices steadily recovered to the close, when they showed a net recovery of ¼ to ⅞ per cent. from the lowest point, the latter in Manhattan The day passed without any failures occurring, except one small failure announced after midday, whose inability to meet his margins was announced on the Consolidated Exchange.

General Markets.

NEW YORK, June 24.—FLOUR—Closed steady; winter wheat, low grades, $2.75@3.10; fair to fancy, $3.40@4.35. Southern flour closed dull and heavy; common to choice extra, $3.30@5.

WHEAT—Spot lots were firm and the market was strong and advanced 3@c in the early dealings, during the first few months without practice. Before noon, however, the feeling became weaker, due to the panic on Wall street. June fell off 1½c from the highest point. The market closed weak at the bottom rates. Spot sales closed steady and unchanged. Spot sales—No. 2 red winter at $1.00; No. 3 do., 96c; ungraded red, 89@93c; No. 2 red winter, June, 89@89¾c bid; July, 84@84¾c; August, 84¾@85c.

CORN—Options were dull and weak, closing steady at a slight advance. Spot lots closed steady and unchanged. Spot sales—No. 2 mixed at 67c; *ungraded mixed*, 66¼@67½c; No. 2 mixed, July, 59¾c; do., Aug., 57¾c; bid; do., Sept., 59¾c bid.

OATS—Options were quiet and steady at unchanged prices. Spot lots closed firm and slightly higher. Spot sales of No. 2 white, state at 39c; No. 3 do., 37½c; No. 2 mixed, June, 36½c; do., July, 36¾@37c; do., Aug., 34¾@35c.

RYE—Dull; western, 54@56c; state, 60 @60c.

BARLEY—Nominal.

PORK—Dull; old mess, $14.50@14.75.

LARD—Closed quiet and weak; cash, $6.70; July, $6.68; Aug., $6.78.

BUTTER—Dull; western creamery, 10@18c; state, 15@20c.

CHEESE—Firm; state factory, 8@9½c; western, 7@8c.

EGGS—Dull and heavy; state, 10¼@10¾c; western, 10@10½c.

A REBELLION FEARED.

Volunteers Ordered to be in Readiness for Active Service.

WINNIPEG, June 25.—Secret orders have been issued to local volunteer battalions to hold themselves in readiness for active service. This is believed to be a ruse on the part of the Dominion government to send volunteers out west under the pretense that another uprising among the Indians is feared, *so that the government can easily carry out* their evident intention of preventing Manitoba from building the proposed road to the boundary.

It is said to be the government's intention to send in to Winnipeg the mounted police in the absence of volunteers, and so coerce the province into submission.

Many citizens are discussing the situation, and means are being devised to meet the government and checkmate its scheme. If the militia are called out in force, Government House and Fort Osborn will be razed and a big riot will follow. The people are ready to go to any extremity against the Dominion government attempting forcible resistance to the scheme so dear to every Manitoban's heart. As the contractors commence work next week, something must give way, and an interesting time is expected.

HIS FAMILY PENNILESS.

Michael O'Brien's Disgraceful Desertion of Wife and Children.

ELMIRA, N. Y., June 25.—The village of Blossburg, Tioga county, Pa., is stirred up by a sensation that has not the tongues of the most of the people of the county to wagging. For some time Michael O'Brien has been in the coffee and spice store in the borough and done a thriving business. Recently it was noticed that he had been paying much attention to a handsome woman, and the fact becoming known to his wife a scene was enacted that led to the flight of O'Brien. A few days ago he quietly disposed of his stock and other things as he could sell for cash, and with $5,000 in his pocket fled. His flight was precipitated by his wife bringing an action against him for support. While the papers were being made out O'Brien took his departure on foot, and was soon out of reach of the officers who started in pursuit of him. It is thought he has also left Blossburg, and it is presumed is now with him. O'Brien left his wife and two small children in Blossburg penniless.

THE BLACK DIAMONDS.

Amount of Coal Production in the United States for a Year.

WASHINGTON, June 25.—The United States Geological Survey furnishes the following statistics of the production of coal in the United States in 1886: The total production, exclusive of that consumed at the mines, was 107,662,909 short tons, valuated at $147,-113,755 at the mines. These may be divided into Pennsylvania anthracite, 30,690,475 tons, *and all other coals, including bituminous,* brown coal, lignite and small lots of anthracite mined outside of Pennsylvania and Colorado, 70,985,734 tons. The mine consumption at the individual mines varies from nothing to 8 per cent of the total product. The total *short tons: total value, $154,600,176.* The total production of all kinds of coal shows a net gain of 1,786,881 short tons, compared with 1885, but a loss in spot value of $4,419,460.

Mrs. Cleveland Starts for Washington.

AURORA, N. Y., June 25.—The unpretentious quay at Aurora was black with people at 1 p. m. yesterday, when the steamer Frontenac made a landing. Mrs. Cleveland in her traveling dress of gray, with straw hat slightly at the side, was in waiting at the wharf with Mrs. H. A. Morgan, Miss Severance, Miss Kingsford, Miss Alexander and Gilder. The party went aboard the boat, and Mrs. Cleveland and her friends waved their handkerchiefs until the steamer had passed around the bend. As Cayuga the less one, and that the stocks were cheap. He denied that he had had a falling out with any one, especially with Mr. Field. Mr. Gould added that though some stocks were cheap enough to buy, and that he had bought a good many himself.

Mr. Gould also denied that he was dead, or even seriously hurt. The street was full of that rumor early in the day. Another of his denials was addressed to Senator Kiernan's business agency, and read as follows:

"The bulletin you are putting out that my Manhattan stock is a loss is a malicious falsehood. Not a share of my Manhattan is in loans or has had my name on the back nor do I owe a dollar on the world. You should promptly contradict. Yours truly,

"JAY GOULD."

The frequenters of the bucket shops, who simply bet on the legal rate. The highest rate was 6. Exchange closed steady; posted rates 4.84½@4.85 for demand and 4.83¾@4.83¾ for sixty days and 4.84¾@4.85 for demand. Government bonds closed steady; currency 6s, 125¾ bid; 4s, coup., 124¾ bid; 4s, coup., 125¾ bid.

There was great excitement during the forenoon, owing to reports of the death of Jay Gould, and prices fell sharply in all the Gould securities. The lowest prices of the morning were touched at 11:30 o'clock. Ten minutes before 12 o'clock, however, it was realized that there was, in fact, no real cause for the decline but manipulation; that Mr. Gould was not dead, as reported, but very much alive, and that there was no bad news from any quarter, but, on the contrary, an improvement in general confidence as far as the recent flurries in Cincinnati and Chicago were concerned, there was a sharp rally in prices. By 12:30 prices were up to 4 per cent. from the lowest point. The sales up to midday amounted to 396,000 shares. The market was generally quiet midday. The larger brokers supported the list and prices steadily recovered to the close, when they showed a net recovery of ¼ to ⅞ per cent. from the lowest point, the latter in Manhattan The day passed without any failures occurring, except one small failure announced after midday, whose inability to meet his margins was announced on the Consolidated Exchange.

General Markets.

NEW YORK, June 24.—FLOUR—Closed steady; winter wheat, low grades, $2.75@3.10; fair to fancy, $3.40@4.35. Southern flour closed dull and heavy; common to choice extra, $3.30@5.

WHEAT—Spot lots were firm and the market was strong and advanced 3@c in the early dealings, during the first few months without practice. Before noon, however, the feeling became weaker, due to the panic on Wall street. June fell off 1½c from the highest point. The market closed weak at the bottom rates. Spot sales closed steady and unchanged. Spot sales—No. 2 red winter at $1.00; No. 3 do., 96c; ungraded red, 89@93c; No. 2 red winter, June, 89@89¾c bid; July, 84@84¾c; August, 84¾@85c.

CORN—Options were dull and weak, closing steady at a slight advance. Spot lots closed steady and unchanged. Spot sales—No. 2 mixed at 67c; *ungraded mixed*, 66¼@67½c; No. 2 mixed, July, 59¾c; do., Aug., 57¾c; bid; do., Sept., 59¾c bid.

OATS—Options were quiet and steady at unchanged prices. Spot lots closed firm and slightly higher. Spot sales of No. 2 white, state at 39c; No. 3 do., 37½c; No. 2 mixed, June, 36½c; do., July, 36¾@37c; do., Aug., 34¾@35c.

McGLYNN'S ATTITUDE.

HIS REPLY TO THE STRICTURES OF BISHOP RYAN, OF BUFFALO.

The Bishop Says that Dr. McGlynn Has Left the Church, Which the Latter Emphatically Denies — He Reasserts His Opinions.

BUFFALO, June 25.—Rev. Father McGlynn left at 8:35 last night for Chicago, having spent the day greeting friends at the Tifft House.

The statement made Thursday by the doctor, in which he practically declared that he was a Martin Luther, although he did not use the expression, created considerable comment. Bishop Ryan said that it places him outside the pale of the church, indicating that the edict of excommunication will surely be issued. Said the Bishop:

"Father McGlynn by his utterances has placed himself outside the pale of the church. He has started where all heretics have started from Luther to Henry VIII., by attempting the authority of the head of the church, which has divine authority. Dr. McGlynn's idea of bringing in Galileo is absurd, for that misapprehension was corrected *centuries ago.*

"That Dr. McGlynn would have been insulted or snubbed at Rome is absurd. Were his doctrines not widely at variance with church principles he would have been allowed to preach them. His statements about Cardinal Simeoni are false. Dr. McGlynn was too proud to bend to the church's authority. He was not disappointed that an embassy to Washington could or would debase the church. Bishop Ryan denied that the pope was opposed to home rule for Ireland. The pope, he said, was thoroughly in sympathy with all that was natural in the movement for Ireland's relief. The bishop also denied that the church had been devoted to politics and disregarded the spiritual welfare of its children. Dr. McGlynn's theories never had or could have a practical realization. They were opposed to the church and to society.

Dr. McGlynn was seen afterward at the Tifft house and the nature of Bishop Ryan's comments was imparted to him. He denied that he was outside the pale of the church, and he had never resisted the church's authority within the legalized sphere. Said he: "I have not started out to reform the church of God nor even Rome. As in my interview with you before, am I so presumptuous as to hope to do much toward reforming the ecclesiastical machine, which so sadly needs reforming that it is simply folly to deny it. In the religious revolution of the *sixteenth century the cry was for a reformation* of the church at its head, the pope and his Roman court. In spite of the council of Trent abuses grew and finally culminated in the terrible French revolution. As to Galileo, he was condemned to prison and forced to retract a scientific truth. This was done by the organization of which the pope is chairman ex-officio."

Dr. McGlynn continued: "The bishop should not imply, as he seems to do, that I was invited to a conference in Rome. I was ordered to condemn the doctrines I was teaching before starting for Rome, or my failure to do so would have been an additional offense to be punished in Rome.

"As regards papal delegates to various nations the British might remember that as long ago as the 17th century Cardinal Bernard found proper to caution the pope to choose legates who would not accept presents, which is of course but a mild word for bribes, and would not form a party as they went. Archbishop Walsh's appointment to Dublin justified what I have already said. It was extorted from the pope by threats of schism, when he was about to appoint somebody else to please the queen.

"Does Bishop Ryan forget Cardinal Simeoni's letter against the Parnell testimonial fund, and the calumnies which it contained against the Irish patriots, and its brutal prohibition to Irish bishops and priests to favor that fund?

"To obey our Saviour must we obey every whim and caprice of the pope, especially in matters of which he is grossly ignorant? The present pope actually said to bishops from New York and Massachusetts that he supposed they must have come by the Isthmus of Panama.

"The religion of Italy has been characterized by the politics of the pope and particularly to his temporal power, and in coquetting with the cabinets of England, Russia and Prussia, he is perhaps, to sacrifice precious rights and liberties of the people and clergy of those countries to his diplomacy, and all with the utterly foolish hope that at this late day the pope's temporal power can be restored.

"I have as good a right to assert that Bishop Ryan, in condemning our economic theories, is condemning what he does not understand as he has to say that they are idiotic and impracticable. The inquisition said worse of Galileo's ideal theories. The time will come when the church will not be found fighting our theories, for the same reason that the machine is no longer fighting Galileo's theories. It is poor comfort for people who have been, and are, suffering from the present international development and for national liberty, to know that the ecclesiastical machine which is now repressing, calumniating and condemning will, after these good things are achieved in spite of it, be willing enough in a hundred years from now to sing to deems for which it shall be well paid."

ROME, June 25.—It is semi-officially stated that the days of grace permitted by the pope in the case of Dr. McGlynn's summons to Rome have expired and that McGlynn's formal excommunication from the church will now be promulgated.

Refused to Work with Huns.

PHILADELPHIA, June 25.—The employes of the Atlantic Oil Refinery at Point Breeze, to the number of 625, struck work yesterday morning owing to the employment of six or eight Hungarians. Trouble has been brewing for some time, the company refusing all demands made upon them by the men. When the foreigners appeared this morning about 100 men immediately left the works. Shortly after a delegation from those that remained waited upon the officials and demanded the discharge of the Hungarians and the reinstatement of their companions. This being refused the entire force walked out.

Threw the Child into the Sea.

ATLANTIC CITY, N. J., June 25.—About nightnight of Thursday a woman who was standing on the board walk near Ohio avenue was seen to kiss a child and then throw it into the surf, after which she fled rapidly down the walk. Some men who had observed the action gave chase, but she turned and presented a revolver, threatening to shoot them. Under cover of the threat she escaped, the pursuers lacking nerve to follow her. The life guard was notified, and searched two hours for the body of the child, without success. The police are investigating the matter.

A Connecticut Murderer Arrested.

ALBANY, N. Y., June 25.—Philip Palldoris, who murdered his brother at Bridgeport, Conn., Tuesday, arrived here last night by boat. He was arrested by detectives, and confessed.

A Brooklyn Physician

Murdered While About to Enter His Carriage After a Professional Call.

BROOKLYN, June 25.—Dr. Edward H. Duggan, one of the best known physicians in the city, was shot and almost instantly killed when about to enter his carriage after visiting a patient at Taylor and Keap streets yesterday afternoon. His murderer, who is a tall well built young fellow of German extraction, gives his name as George Weidler, aged 25. Weidler had laid in wait for the doctor, conversing with the coachman while the doctor was inside. When Dr. Duggan came out Weidler walked up to him and began a conversation. There was nothing unusual in their language until the doctor started for his carriage, when Weidler, with an oath, drew a revolver and fired. The wound was not a serious one, and Duggan started to run. When about the middle of the street, Weidler, who was almost at his heels, fired again, the ball entering the brain. As his victim fell Weidler fired the third time. He made no attempt to escape, and appeared unconcerned. As the police station he would say nothing further than that the tragedy was the result of family troubles. Dr. Duggan was 50 years of age, and one of the most respected physicians in the city.

Weidler is married and has a wife and two children, by whom he lives sickly and was attended by Dr. Duggan, who also owned the house in which they lived. Mrs. Weidler could not assign any reason for the deed.

On Sunday last Weidler drew a number of Havana and Louisiana lottery tickets, together with $153.40, were found in Weidler's pockets. *He still refuses to explain why* he committed the murder.

ARCHBISHOP CORRIGAN ON LABOR.

He Says the Workers Must Look to the Church for Instruction.

NEW YORK, June 25.—Archbishop Corrigan was present at the graduating exercises of Manhattan college (R. C.) yesterday afternoon in the Academy of Music, and commenting upon the papers read by the graduates, he was pleased to say he had not treated of the labor question. He said the improvement in the condition of the poorer classes had been brought about by the assistance of the labor organizations. The labor question was one so complicated as to defy final solution unless certain fixed principles were followed as beacon lights. So great has been the advance in the condition of the poor that, instead of being oppressed, they were now, so far as they followed certain agitators, endeavoring to oppress the rich. In discussing the question he said that from day to day the church must be looked to for light and instruction. "Look to the infallible teacher for guidance," concluded the archbishop. "As long as we keep near Him and under the shadow of His mantle we are safe from error."

A PATHETIC SUICIDE.

That His Family May Get an Insurance, He Takes His Own Life.

BOSTON, June 25.—Thomas Bartley, of Cambridge, committed suicide in order that his destitute family might get the benefit of $2,000 insurance on his life. He was a machinist and had been for some time out of work. He was a member of the Knights of Honor, and was despondent over his failure to obtain employment and took a dose of rough on rats and then cut his throat with a razor. The following letter was found in his room:

"MY DEAR WIFE—I die that you may live. *I have no work any more. I am crazy.* Look out for Lily. God bless you both. You will get $4,000, and I hope you will take care of it. T. BARTLEY."

According to the laws governing the Knights of Honor and similar bodies the suicide of a member invalidates the *insurance. The "Lily" referred to is* the only child left of several.

An Indian Atrocity.

ST. LOUIS, June 25.—A message from Bluff City, Utah, says that a party of five Navajo Indians visited the trading post of A. M. Burton and Kellet Bowden. One of the Indians lassoed him and threw him to the floor, two others seized his legs and arms while a fourth shot him five times in the head. They then robbed the store and departed without molesting the wife or family of the murdered man, who had taken refuge in the room adjoining the store.

An Officer Murdered in Philadelphia.

PHILADELPHIA, June 25.—Policeman George Jackson Thursday night attempted to arrest James Alias "Lodge" McGilvey, for disorderly conduct at York and Beach streets, when Luke Feeny, one of McGilvey's companions, struck the officer on the head with a heavy cobblestone. Jackson fell senseless and the men escaped. At midnight Jackson died. Feeny, McGlynn and Robert Taylor were arrested. They are noted toughs.

Two Days Ahead.

LONDON, June 25.—The yacht Genesta was sighted off the Needles yesterday, for the nearly two days ahead of the other boats in the jubilee race. The Genesta was proceeding under closely reefed sails. There was a rough sea and a strong wind was blowing. The yacht Selene passed Clare Island, off county Mayo, Ireland, yesterday. She was leading the Gwendoline and Aline, which also passed the island.

Enormous Cost of a Strike.

CHICAGO, June 25.—It is difficult to estimate with accuracy the full extent of the financial loss resulting from the strike which the bricklayers declared off Thursday night. A careful estimate places the loss in wages to striking and locked out employes in the vicinity of Chicago alone foots up nearly $2,500,000. It would be difficult to figure the loss or business not directly a sufferer from this protracted strike.

Another Humane Society.

NEW YORK, June 25.—Chester A. Arthur, son of the late ex-president, is among the incorporators of the Society for the Prevention of Cruelty to Sailors, articles of which were filed yesterday. August Belmont, Hamilton Fish, Elbridge T. Gerry, Cyrus W. Field, Cornelius N. Bliss, Henry Clews, Henry Sturgis, Edward Schell, William B. Dinsmore, John T. Agnew and R. A. Elmer are the other incorporators.

Vetoed by Governor Mill.

ALBANY, June 25.—Governor Hill yesterday evening filed with the clerk of the supplementary supply bill appropriating $6,000 to pay for the services of counsel to the committee on taxation and retrenchment of the senate, fees and witnesses, and expenses, traveling expenses and stationery therefor during the years 1886 and 1887 to the close of the present session of the legislature.

Asking Clemency for Cigarals.

NEW YORK, June 25.—The jurors who convicted Chauncy Cigarale of the murder of her husband have all signed a petition to Governor Hill to commute the woman's sentence to life imprisonment, instead of hanging. She is believed to be dying of consumption.

Veteran Policemen Retired.

NEW YORK, June 25.—The police commissioners yesterday retired seventy-one policemen of all grades who are over 60 years old, and have served twenty years on the force.

PATTERSON'S PENSION.

HOW THE BLIND MAN'S CLAIM WAS WORKED THROUGH.

Dr. Mills and Others Charged with Using the Afflicted Soldier as a Decoy for the Purpose of Defrauding the United States Government.

WASHINGTON, June 25.—Dr. Robert N. Mills, who is wanted in Elmira, N. Y., for complicity in the "Blind" Patterson pension, whereby the government was swindled out of $13,393, was brought to this city yesterday, having been arrested by pension officers in Virginia. Jerry Laidlow, who is alleged to have made a false affidavit in the case, was arrested at the same time. Both men will be taken to Elmira as soon as the proper papers arrive.

At the pension office this is regarded as one of the biggest and most clever jobs ever worked through that bureau. Every detail in the case was complete and perfect, and after extra care in examining the papers, because of the large sum involved, by no less than five different men, the case was finally passed.

It was then that the conspirators, suspicious of Patterson, asked that Mills be appointed guardian for the pensioner, and Deputy Commissioner McLean approved the pension agent to pay Patterson the money in person, as blindness did not constitute such an infirmity in the law as to require a guardian. Pollard in this, the conspirators found other but more violent means to secure most of Patterson's money. Having done so they split out over the $13,000 in its proper distribution, and one of the "affidavit" men who failed to get his proper share gave the whole fraud away to the officials in New York.

The police department in this city received a telegram on the 17th instant, asking that Mills be arrested. Detectives Carter and Malone undertook that Dr. Mills had been at the St. James hotel that morning, but had left on the southern train. Surmising that *he was on his way to his former home in* Greene county, they gave the information to the pension office. One of the special agents of that office, Mr. Jacobs, left here Wednesday afternoon and found that Mills' wife and John Laidlow had joined Mills the day after his arrival in Greene county, and that they were all at the house of a sister of Mills, fourteen miles from Orange courthouse, Orange county. At the request of Sheriff Ricketts, of Orange county, the arrest of Dr. Mills, Mrs. Mills and Laidlow was effected.

Mr. Jacobs, with the sheriff and Mr. Wallace, arrived in this city with the prisoners, and they were taken to the sixth precinct station and the two men were locked up. There was found on Mrs. Mills' person $650, and it was ascertained that Dr. Mills had paid off a mortgage of $1,700 on his hotel in New York, and had bought a farm for his sister in Greene county, Va.

Mrs. Mills declares that she knew nothing of Dr. Mills' connection with the case, and did not know there was any suspicion of wrong about it till she read the statements in the papers after her husband's arrest.

Dr. Mills does not deny his connection with *the case, but asserts that as far as he was* concerned in the case there was no fraud about it, and that he will satisfactorily explain everything, and adds that he is anxious for a speedy and full investigation.

A Corry Man Kills Himself.

ERIE, Pa., June 25.—*Charles Williams*, of Corry, blew out his brains Thursday night on his wife's grave. In his left hand was a note, saying: "I here end a worthless life." The suicide was to have been married again at the very hour he took his life to Miss Bessie Prentiss. News of the tragedy was taken to the bride-elect at the very last minute the wedding, where the bride was anxiously awaiting his coming. All the people directly interested are wealthy. Young Williams has been ill for several months past. His friends say he was being coerced into a distasteful marriage.

The Cincinnati Bank Failure.

CINCINNATI, June 25.—Yesterday passed without any startling local occurrence except the failure of Lewis Kennedy & Co. The Fidelity bank officials, Harper and Hopkins, remain in jail, but occupy special apartments on the plea of convenience, because of the constant stream of visitors. No further arrests were made and, now as the investigation of interest developed in the investigation now being made by the government officials. Mr. Snyder, the bank examiner of New York, arrived in the city *last night and was* appointed receiver of the Fidelity National bank this morning.

A Youthful Absconder.

PHILADELPHIA, June 25.—The police were yesterday notified that Albert Fricker, aged 17, employed in the law office of Jacob G. Heft, had absconded with $500 of his employer's money. He was given a check for the amount two weeks ago to deposit at the bank. Instead of so doing he got the check cashed, and soon afterward sent a note to Mr. Francis saying he was sick. Mr. Francis' suspicion was not aroused until Thursday, when he visited the boy's house and found he had disappeared the day after receiving the money.

CONDENSED NEWS.

Matthew Gurnee, who was bitten by a dog at Haverstraw, May 25, died of hydrophobia. Seven cases from Iowa indicate a successful corn crop.

At a Chicago fire, Mr. Thomas Henabery rushed into the burning building and saved the life of his child, narrowly escaping death himself.

J. B. Wiswell, cashier of the Bank of America, of Philadelphia, was killed yesterday morning while attempting to board a moving train at Wayne Junction.

The burning of the steamer Champlain on Lake Michigan brings forward for heroism Captain Thomas Hall, of Port Huron; Mary Wakefield, of Charlevoix, Mich. She swam ashore, bearing a child passenger with her, refusing assistance on the ground that others needed it and help not.

At the Sharp trial in New York evidence was given showing unusual delay in entering the $500,000 bond transaction on the books of the Seventh Avenue Railroad company, and that there was a mistake after the original entry. Ex-Alderman Pearson described Sharp as actively engaged in arranging for the historic secret meeting of the board of aldermen.

A famous tragedy was revived by Daniel McFarland, the slayer of Albert D. Richardson, seeking shelter in a police station. He is comparatively harmless and thinks that his days are nearly ended.

A Brooklyn jury played poker while considering their case, and a court officer broke in upon and scolded them. They had the officer suspended, but they may be investigated themselves. They did not agree upon their verdict.

George W. Ford has brought a suit for $20,000 against the New York Hospital society for alleged inuman treatment during his confinement as a lunatic in the Bloomingdale Lunatic asylum.

PHYSIOLOGY AND HYGIENE.

Faith and Mind Cures and Other Subjects of Popular Consideration.

Faith cures and mind cures are at present a subject of popular consideration, and every day instances of the potency of this means of treatment are announced. Physicians, while recognizing the influence which may be exerted *through the mind upon the body* in many cases, regard these cures as a new indication of the unscientific. Among clergymen who have investigated the subject is the Rev. E. C. Ray, of Hyde Park, Ills., who is reported to have arrived at the following conclusions: Apparent cures are often followed by a relapse, temporary improvement by permanent decline. From reported cases of cure we must deduct many of unreported relapses. It is not in human nature when a wonderful cure has been published abroad to follow it up with an account of a relapse coming afterward. Mistaken diagnosis accounts for many supposed cures. Physicians often, patients more often, mistake the nature of a disease. Temporary swellings are often called malignant tumors or cancers by unscrupulous doctors get their reputations); hysteria simulates almost every other disease, so as to deceive even the most elect of doctors; dyspepsia produces spasm; cases of heart disease or other deadly illness. There can be no question that a large proportion of faith cures and mind cures, and a considerable proportion of cases under ordinary medical treatment are cases of mistaken diagnosis, the disease being less serious in its nature than was supposed.

Mistaken prognosis accounts for many cases; mistake as to what would be the outcome of the case if no curative methods were employed. It is a truth seldom recognized by patients, though well known to physicians, that in most cases not hopelessly fatal from the start, there is from the start a strong tendency toward recovery. Dr. Austin Flint, Sr., than whom perhaps no other physician has lived in this land, always urged upon his students the truth that not drugs, but the healing power of nature, is the means of recovery. The true physician and nurse seldom attempt more than gently and humbly to assist nature in her curative processes. The benefit of medicine is often not in its direct action upon disease or upon the body, but its action upon the mind and through that upon the nervous system and whole body, stimulating faith, hope, expectation of recovery, good cheer, which are probably nature's mightiest remedial agencies.

Sea Sickness.

At this season of the year, when so many travelers brave the agonies of sea sickness, any treatment that claims to be satisfactory is of great interest. To The Lancet is attributed the statement that a surgeon to the Peninsular and Oriental Navigation company, after trying all the ordinary remedies—such as bromide of sodium, cocaine, nitrate of amyl, etc.—is lauding the *following method*, based on the treatment of chloroform sickness, most satisfactorily. A tumbler of tepid water is first administered to the patient. This, of course, is generally quickly rejected, but soothes the stomach. Then a warm mustard and linseed poultice, in the proportion of one part of mustard to two of linseed, is applied to the epigastric region, and the following draught, given a quarter of an hour after the tepid water: Chloral hydrate, twenty grains; simple syrup, one drachm; water, to an ounce. This he repeated our correspondent begins de novo with the tepid water and repeats the draught. After the draught has been taken and retained, the patient is ordered to lie in his berth, and sleep usually follows. On waking the swimming in the head and nausea have disappeared, and he is able to go on deck.

How to Make a Bandage.

Bandages for surgical purposes are easily made. Cut an old sheet into strips about two inches wide. To join the strips, lay the ends over each other so that there will be one raw edge on each side of the bandage, then sew them together so as to form a flat joining with no hard ridge. Roll up the bandage as compactly as possible, keeping the edges even. When rolled, turn the end to form a point, fasten it with a pin, pull off the ravelings from the edges and the bandage is ready for use.

Cure for a Remedy for Warts.

A correspondent in The Scientific American tells how he got rid of quite a number of warts upon his hands. Place the thumb upon the wart and press it against the bone. Move the wart back and forth upon the bone until the roots become irritated or sore, when the wart will soon disappear.

SOCIAL ETIQUETTE.

Manners and Customs Practiced in Polite Society.

There is really very little extra work in being absolutely methodical in every day living, and with this habit there ceases to be any anxiety in entertaining, says one well versed in fashionable dinner giving. There is nothing more distressing at a dinner company than to see a hostess ill at ease or to detect an interchange of nervous glances between her and her servants. A host and hostess seem insensibly to control the feelings of all guests, it matters not how many there may be. In well appointed houses a word is not spoken at dinner between the hostess and attendants. In every day living, if one has nothing for dinner but soup, bake and lettuce, put them on the table in style; serve them in three courses, and one will imagine it a much better dinner than if carelessly served. The above rule is prescribed for every day living. It is well that this simple ceremony should be daily observed for many reasons. The dishes themselves taste better; moreover the cook is more particular to have each article well cooked, and each dish is in its perfection.

The Phrasing of Formal Notes.

In writing formal notes of invitation or reply a number of people appear to consider it elegant to use the French construction of sentences. For instance, they make a point of writing "Madame Mary Jane Brown," instead of "Mrs. Brown's invitation;" "4th May," instead of "May 4th," and the like. In writing the French language the French construction of sentences would seem eminently proper; and when one writes in English it is quite as desirable that the rules of that language be observed.

Fashionable Favors for the German.

Among pretty things that fashion decrees to be appropriate favors for the German are balls of violets, large leghorn hats trimmed with flowers, sachets of *orris* powder, *fans*, either to be used as fans or hand screens, or else decorated with bags to serve as "bold alls" to hang on the walls. Beside these The Art Interchange enumerates old pieces of china and glass, scarf pins, bracelets and like trifles of jewelry, boxes filled with bon bons and fancy pin cakes. The best Japanese shops keep many things suitable for favors.

Good Sense and Good Breeding.

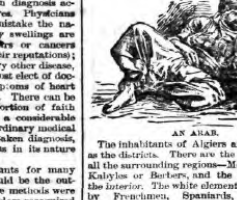
Good sense must, in many cases, determine what is good breeding; because the same thing that would be civil at one time and to one person may be quite otherwise at another time and to another person.

YOUNG FOLKS' COLUMN.

THE CITY OF ALGIERS AND ITS MOTLEY INHABITANTS.

Sea Lions from Alaska That Entertain Visitors in Central Park—Some of the Legends Told About the Bright Lived Kingfisher.

The city of Algiers, in far away Africa, is divided into two distinct towns. The French district with boulevards and modern buildings, and the Arab district with its queer, narrow streets and beautiful doorways through which glimpses may be obtained of Moorish courts, picturesque fountains, crowded bazars and other characteristic details of Oriental life.



AN ARAB.

The inhabitants of Algiers are as distinct as the districts. There are the natives from all the surrounding regions—Moors or Arabs, Kabyles or Berbers, and the negroes from the interior. The white element is represented by French officials, Maltese, Portuguese, Italians and Jews. The cut shows the figure of an Arab reading the Koran. He is half reclining on a divan with a turban on his head and dressed, as were his forefathers, in baggy trousers and loose burnouse hanging in graceful folds from his shoulders.

Birds in Japan.

In Japan the birds are regarded as sacred, and never under any pretense are they permitted to be destroyed. During the stay of Commodore Perry in that country a few of his officers started on a gunning excursion. No sooner did the people observe the cruel slaughtering of their favorites than a number of them waited upon the commodore and remonstrated against the conduct of the officers. There was no more bird shooting in Japan by the officers of that fleet; and when the treaty between the two countries was concluded, one express condition of it was that the birds should be protected. What a commentary on the inhuman practice of our people who indiscriminately shoot every thing in the form of a bird which has the misfortune to come within the range of their murderous weapons.

On the top of tombstones in Japan a small cavity or trough is chiseled which the priests *every morning fill with fresh water for the* birds. Enlightened America, Mr. Bergh, president of the Society for the Prevention of Cruelty to Animals, thinks, should imitate these customs of this heathen Japanese, if not by providing water for the feathered warblers, at least by protecting them from vagabonds who uselessly destroy them or rob their nests.

Alaska Visitors in Central Park.

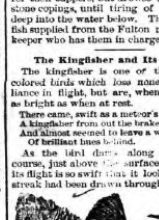
The sea lions in Central park which occupy the little tank in front of the lion house, and entertain visitors by occasionally rearing their heads above the water and giving utterance to terrific roars, came from Alaska by boat to San Francisco, From San Francisco they were transferred to New York in a great refrigerator car. There are eight of these sea lions, five cows and three bulls. When at home in the cold north the sea lions devote a large portion of the day to catching fish. In Central park they do not have to go a-fishing for their supper, but are hardly upon the scene cooping until tiring of this they dive deep into the water below. They are fed on fish supplied from the Fulton market by the keeper who has them in charge.

The Kingfisher and Its Legends.

The kingfisher is one of the few bright colored birds which lose none of *their bril*liance in flight, but are, when on the wing, as bright as when at rest.

There came, swift as a meteor's shining flame,
A kingfisher down out the brake,
And almost seemed to leave a wake
Of brilliant hues behind.

As the bird darts along its horizontal course, just above the surface of the water, its flight is so swift that it looks as if a blue streak had been drawn through the air.



THE KINGFISHER.

The bird lives almost entirely upon fish, as its name implies, and a correspondent in Golden Days describes its manner of catching them. Selecting some object which overhangs the water, it takes its perch upon it, and with its big beak sunken on its breast, awaits the approach of its prey. Suddenly, it may be seen to drop from the perch into the water, and to emerge with a fish in its beak. Returning to the perch, it bangs the fish against it, throws it up in the air, catches it with its head downward, and swallows it.

Many readers will remember the graceful legend of Alcyone, the daughter of Neptune and the wife of Ceyx, who, for love of her drowned husband, plunged into the sea and was changed into a kingfisher together with him. Around this legend cluster many others, numbered with which is the one about the kingfisher, building on the seashore a fragile nest and then launching it upon the waves. Such a delicate structure would be shattered by the slightest storm, it was thought that from seven days before the winter solstice to seven days after it, the weather was perfectly calm. This period was known as the "halcyon days"—a term familiar to all.

Work Done With a Bee's Sting.

The bee's sting, says Naturalist Clark, is by no means made for stinging only, but is used in doing the most civil work, capping the comb and infusing the formic acid, by means of which honey receives its keeping qualities. The sting is really a sheath in several pieces, and with which the bee finishes off and caps the cells when they are filled brimful of honey. This explains why honey extracted before it is capped over does not keep well. The formic acid has not been injected into it.

The Humorous Egg.

Numbered with easy chemical experiments is the following: In a quill place a small quantity of quicksilver, and, having fastened it well in, insert the quill through the end of a newly boiled egg, which egg, being placed on the table, will dance about till cold.

THE CURIOSITY SHOP.

Political, Scientific and General Information on Matters Familiar.

The word acre is from the Latin ager, Greek agros, field. The Greek acker means both field and a measure of land. Most nations have some measure nearly corresponding, such as what one plow could plow in a day. The English statute acre consists of 4,840 square yards. The chain with which land is measured is twenty-two yards long and a square chain will contain twenty-two by twenty-two or 484 yards, so that ten square chains make an acre. The Scotch acre is larger than the English, and the Irish is larger than the Scotch.

The following table shows the values of other measures compared with the English acre:

English acre	1.
Scotch	1.27
Irish	1.62
Austria, joch	1.42
Baden, morgen	1.28
Belgium, hectare	2.47
Denmark, tonde	5.50
France { lowland, 100 ares	2.47
{ argent, common	.99
Hamburg, morgen	0.38
Hanover	.64
Holland	2.19
Naples, moggia	.93
Poland, morgen	1.25
Portugal, geira	1.43
Prussia, 1 little morgen	.63
" morgen	1.63
Russia, decistena	2.69
Sardinia, giornate	.96
Saxony, morgen	1.88
Spain, fanegada	1.09
Sweden, tunland	1.13
Switzerland, faux	1.32
Geneva, arpent	1.37
Turcany, tscatastra	1.39
United States, acre	1.
Wurtemburg, morgen	2.40
Bornea, bouw or square fathom	.66
Greek, plethron, ancient	.23

The German morgen is becoming obsolete, as Germany has adopted the French metrical system.

Cloture.

The word is French, and means the putting an end to debate and proceeding to a vote upon a question before a deliberative body. The common use of the word in English politics arose in this way: In the autumn of 1882 Mr. Gladstone brought forward a proposition to amend the rules of procedure, so that "when it shall appear to the Speaker or to the chairman of ways and means in a committee of the whole house, during any debate, that the subject has been adequately discussed, and that it is the evident sense of the house, or of the committee, that the question be now put, he may so inform the house or committee." On such information a motion may be made that the question be now put, and if this in the whole house is supported by more than 299 members, or in case of only forty in opposition, it is supported by over 100 members, that ends the debate and the question is carried. The rule was approved, and several other somewhat stringent rules were *adopted at the same time, Mr. Glad*stone declaring that the question of necessity, to avoid the delay of public business by a factious minority. It is the first of these rules that became known by the name of cloture.

The Distance of Planets.

The following table gives the distance from the sun of the planets:

	Miles.
Mercury	36,000,000
Venus	68,000,000
Earth	91,000,000
Mars	145,000,000
Asteroids	250,000,000
Jupiter	475,000,000
Saturn	900,000,000
Uranus	1,822,000,000
Neptune	2,853,000,000

It will be seen that the furthest planet from the sun is Neptune, and the nearest, Mercury. The one is invisible to the naked eye from its remoteness, the other from its contiguity. The largest is Jupiter, the smallest, Mercury, whose diameter is but a fourth larger than the moon, while the diameter of Jupiter measures 92,000 miles, the earth's being 8,000. Those having satellites are Jupiter, 4; Saturn, 8; Uranus, 4; Neptune, 1. Venus and the earth are very near alike in size. Mars is smaller, having a diameter of *about one-half of either of the other two*, or one-sixth their bulk.

What is a Sonnet?

A sonnet is a poem of fourteen lines. It has been claimed that the limit to this number was originally because the sonnet was a song and sung to the accompaniment of the lyre, which had fourteen strings. It is more probable that this limitation was accidental, or an arbitrary rule which has been superseded by custom. The "legitimate" sonnet is a poem of fourteen ten syllabled lines of with double rhymes, eleven syllabled), iambic pentameter lines, of which the first, fourth, fifth and eighth rhyme together; the second, third, sixth and seventh rhyme together; the ninth, eleventh and thirteenth rhyme together, and the tenth, twelfth and fourteenth rhyme together, so that there are two rhymes in the first eight lines—octave, and two rhymes in the last six lines—the sestet. Some critics consider if there are three rhymes in the sestet the sonnet is still legitimate. The "legitimate" sonnet was invented about 1250 by Fra Guittone d'Arezzo.

French Chamber of Deputies.

The sittings occupied by deputies in France indicate their politics, and one can grade the conservatism or radicalism of a member by his seat. On the right of the president of the chamber sit the Anti Republican, composed of the Bonapartists and the Legitimists; they compose the Right, and the Extreme Right is composed of the radical Bonapartists and Legitimists. The center is occupied by the Moderates; according as a deputy sits just to the right or the left of the central aisle does he belong to the Right or the Left Center. To the left of the president are the Republicans, the radicals being seated at the extreme left.

"Straws Afloat."

Dandy Young Man (in restaurant)—Ah, waiter, a dish of strawberries and cream.
Waiter (turning to fruit counter)—One dish of straws afloat.—Chicago Herald.

LITTLE LAUGHS.

The law cannot make a man moral, but it can make him dreadfully uncomfortable when he is immoral.—McKinney (Texas) Mercury.

"What is the chief peculiarity of the Canadian climate?" asked a school examiner. "It is beneficial to bank cashiers," said the bright boy of the class, "but very deadly to reformers."—Judge.

An exchange mentions the fact of a citizen dying at the green old age of 93 years. A man who is green at the age of 93 years ought to die.—Newman Independent.

Silk is grown in twenty states, while men who buy it groan in every state.—Portland Advertiser.

Unbridled speculation in coffee has sent the price up, and another pang is added to the cup of the unfortunate boarding house sufferer.—Boston Globe.

Landlady—Would you like to have a cup of coffee, Mr. Simpkins? It is nice and fresh. Mr. S.—Yes, madam, when I am through with my steak. Business first, you know.—Kentucky State Journal.

"Suppose I shall see you at your father's funeral today?" said a friend to a young man of the period. "Naw; should like to be there, but I'll be busy in court, opening succession and leasing off mother in a will contest. See you later if I succeed."—New Orleans Picayune.

This life but little joy doth hold
For him who is the prey—
Tooorth he have lands and stocks and gold—
Or grim dyspepsia!
—Boston Courier.

The tramp usually has as elaborate bill of air.—Whitehall Times.

The tramp takes great pleasure in calling money "soap," in person, because it is seldom found in his hands.—Yonkers Statesman.

"Well," said an old tramp, wiping the perspiration from his brow with the back of his hand, "I wish somebody would explain why so much water comes out of my pores. I never absorb any."—Norristown Herald.

A temperance paper asks: "Go into one of our gin palaces and what do you find?" Any brand of spiritus frumenti you may call for, and all out of the same bottle.—Oil City Blizzard.

"Soap is selling pretty well, isn't it?" asked Maxfield Bean of a Tom's Hollow grocer. "Yes, first rate—what made you ask?" "Because you always look as if you never had any on hand."—Melrose Journal.

Not a Catastrophe.

We deserve great credit for not calling this catastrophe.—Texas Siftings.

A Home Made Slur on Dakota.

"Seen a man go along here lately?" asked a Dakota conductor, leaning off the platform as the train passed a farmer at work near the track.

"Yes."

"Red whiskered man?

"Yes."

"Grip in each hand?"

"Believe so."

"When did he pass?"

"About ten minutes ago—he's just round the curve." "He's walkin' middling fast, though."

"That's just the trouble, but I'll catch him or run every wheel off the engine! I've no objection to his walking if he's in a hurry, but he wants to put up his fare first, and you bet he'll have to if we catch him! Hi, there, Bill, pass the fireman some more of those dry express packages!"—Dakota Bell.

A Man Advantage.

"I think I've got rather the meanest husband in Detroit," exclaimed a little woman on the car the other day.

Her friend asked her to explain, and she continued:

"I found that he was smoking fifty cents' worth of cigars per day, and I got him to agree to give me as much pin money per week as the cigars cost. He stuck to it one week."

"And then what?"

"He bought him a clay pipe and a pound of ten cent smoking tobacco, and my income is cut down to two cents a week!"—Detroit Free Press.

The Doctor's Half Stone.

St. Paul, Minn., had a remarkable hailstone a few days ago, and a correspondent says to illustrate more forcibly the size of the stones and the competition to secure the mammoth, the doctor's son, who in the height of the shower rushed to his ice chest and hacked out a two pound chunk from a cake therein, leaving clipping off the chip reposes with a hatchet, which he picked from a window into the yard of an excited neighbor, is apropos. As the huge specimen fell upon the turf, the doctor's family rushed out from his piazza, and at the imminent risk of perforation of his bald caput captured the monster, and hurrying to his study made a plaster cast of its prize, not for a moment doubting its genuineness.—Philadelphia Call.

Each Took Half.

"Do you understand about notes of hand?" asked one of the market whitewashers of a standkeeper the other day.

"I think I do."

"Well, I had a feller's note for $20. It ain't due till the 1st of July, but he came to me and paid me half of it."

"And you indorsed the amount on the back of the note?"

"I did, hey! Was dat de way to do?"

"Of course. How did you do?"

"Chalked on it 'see an' gin him half'!"—Detroit Free Press.

A German Compliment.

A crooked compliment was paid a German young lady, who said:

"Now, Herr Lieutenant, if you don't at once cease your attentions I shall have to hold both my ears shut."

"My adorable Fraulein," answered the officer, "your pretty little hands are far too small for that."—Chambers' Journal.

An Important Change.

The ancient Romans used to recline at the table while partaking of a banquet. Couches have since been used. The modern Roman assumes the American custom of retiring until after the banquet—and then it is under, not at the table.—Rochester Herald.

The all Wool **$10** Suits have been reduced to **$7** at Werners Clothing House.

Died.

STOUT—In this city June 26th Miss Ann Elisa Stout. Funeral services from the residence of Joseph J. Randolph, 13th street, near West Second, on Tuesday afternoon at 4 o'clock. Friends and relatives are invited without further notice.

JOTTINGS.

—The Reception Committee of the Y.M.C.A., will hold a short meeting at the Association Rooms at nine o'clock.

—The cooler weather of the past few days has checked the contemplated exodus to the mountains and sea-shore.

—A horse belonging to Mr. Mowrey, of Mountain Ave., got loose this morning and ran away, but was caught before any damage was done.

—Young Men's Meeting is to be held in the Y.M.C.A. Hall, this evening at eight o'clock. Leader, Joseph A. Robinson, Topic, "Behold the Goodness of God." Rom. XI. 22.

—The Crescents succeded in defeating Judge Wadsworth's nine in a game of ball on the Park avenue grounds Saturday afternoon by a score 25 to 19.

—On Saturday afternoon next a nine chosen from the employees of the foundry at Scott press works will cross bats with the Crescent factory nine on Saturday afternoon next.

—About eight o'clock Saturday evening a number of small boys on West Second street started a false alarm of fire. No. 2, Steamer and hose cart were stopped at the corner of Park and North avenues.

—A nine composed of the employees of the the Porter and Scott Press Works went to New-Brunswick Saturday afternoon and crossed bats with the Mystics of that place being defeated by a score of 29 to 11.

—Many persons noticed and commented about the extremely large drop of rain in the sudden shower yesterday afternoon—some of them looking as large as a 25 cent piece, and the sun shining on the drops made them look like a shower of glittering diamonds.

—A coffin containing the bones of a child was dug up in the rear of the Methodist church by one of the workmen engaged in digging the cellar for the new Sunday school building, but the mystery was explained later by somebody citizens who say that the place was once the site of a grave-yard.

—The Y.M.C.A., "Seniors," are requested to be present at the Meeting to be held at 7:45 o'clock sharp, at the Y.M.C.A. Rooms tomorrow evening. Plans in regard to the Summer Camps will be submitted. Mr. Dudley has said that he must know at the latest by Wednesday of this week, just how many boys will go into camp.

—A large number of gentlemen will visit Plainfield to-night to inspect its electric light plant. There will be visitors from Springfield, Mass., Alena, Montana, and others from Staten Island. The object of the visit is to see the system in working order with a view to get this company to introduce plants at Springfield and Alena. The gentlemen will be entertained as the guests of Mr. A. P. Right.

—The Somerset County authorities have been trying to get hold of George Sydham, who is in jail at Elizabeth awaiting trial for breaking and entering Town Committman George Manley's stable at Summit. They have a warrant for him on a charge of stealing a horse at Mr. Bethel, on May 16. Thursday they got Prosecutor Keasbey's consent to take him, provided Mr. Manley is willing, as their courts convene before the Union County courts.

At Reform Hall.

The Sunday night services at Reform Hall an always interesting but especially so last night. The veteran, A. Vanderbeek, and his delightful choir gave their choicest Gospel Temperance songs, and the Rev. Wm. D. Bridges delivered a worthy address. Mr. Bridges is a pleasant as well as powerful speaker and his ringing utterance leave no room to doubt his meaning.

The speaker predicted that the contest now going on between the traffickers in strong drink and their opponents would end in a contest of blood. Already the promoters of the traffic were banded together and recently from Chicago $50,000 was appropriated for use in Texas to defeat the temperance movement there. After Texas comes the fight in Kentucky and money will be poured out like water to debauch the public mind, when money fails then fight. It would be a fight to blood.

Mr. Bridges has earnest convictions on the temperance question, and evidently believes the day not distant when the liquor traffic will be abolished.

President French followed with well chosen remarks and potent quotations from the recent speech of Canon Wilberforce at Chickering Hall, N. Y.

Time Table Changes.

There is an alteration in the time table to go into effect on Sunday, July 3. The stops made by the Express Train at Elizabeth will have been added for New York, the 7.30 to New-ark has been discontinued, and in the trains from Newark the following changes have been made: 2.45 p. m. changed to 2.40, 5.30 to 5.35, 9.30 to 9.40, 12.20 to 12.14 Sunday night to 12.30. The 5.02 for Somerville has been changed to 5.16, the 7.32 from Somerville has been dropped and a 7.35 train added.

The 5.02 p. m. train from Easton and Phillipsburg is changed to 5.16, and the 6.10 from Easton to 6.46.

The 11.45 a. m. for Long Branch and Ocean Grove has been changed to 9.32 a. m., 1.21 p. m., 3.25 p. m., and 3.54 p. m., have been added, the 3.44 changed to 3.25, and a 3.30 p. m. Sunday train has been added.

The 6.02 p. m. for Philadelphia and Trenton has been changed to the 6.12, and the 8.16 added. From Trenton the 6.10 is dropped, and the 4.22 changed to 4.15.

Trying a New Fake.

Saturday evening about five o'clock the editor of THE NEWS was requested to give bonds before Justice Nash in the sum of $500 to await the action of the Grand Jury on complaint of Postmaster Force, charging him with criminal libel in the publication of an article, which, the postmaster says charges him with boosting his private business at the expense of the government. With ex-Councilman Cutter, one of the most popular of our Democratic citizens, as surety, bonds were promptly furnished and the editor was permitted to go his way by the grace of the court.

The article referred to related to the visit of a government detective here about a month ago in answer to numerous complaints both as to the postmaster's frequent condition and about the management or mismanagement of the office. The names of other persons suitable for the office, we personally know have been asked for, and it was understood that the postmaster's removal had been decided upon, in favor of some Democrat who would not be obnoxious to most of the respectable Democrats here, and the public generally.

We believe we but expressed the general feeling in opposing the nomination of the present incumbent for reasons for which the public were familiar before the editor of THE NEWS ever came to Plainfield, and from an honest conviction that the nomination would not be a good one. Outside influence, however prevailed, but when the nomination was made we published the following:

(From THE NEWS, March 24, 1886.)

We understand, that to be postmaster, Force is still meeting with difficulty to secure the necessary bondsmen. We opposed the nomination purely from motives of public welfare but think he has been chastened somewhat by the storm which has been brought upon us, and upon respectable people generally in our midst. We believe in giving him a fair chance, and if he does right treating him accordingly in the interests of fair play.

Within the seven months of the present regime we have had almost continual trouble about our mail matter. Letters and papers sent us and by us have not been received. Letters and papers belonging to others having no connection with us have been put into our box. We judge much of the mail to us has gone wrong in the same manner. We have had other trouble with the office which we think might have been averted with proper attention. We had no such trouble when Mr. Pope was postmaster. We complained repeatedly at the office privately, exceding in matter in the beginning, and never alluded to it publicly. Only a few days ago our last complaint was made. We think our whole course showed anything but an unkind spirit.

We had nothing to do with the complaints others were making, directly or indirectly, and had no information of them until we learned of the detective's visit here recently and understood that charges of mismanagement and of repeated drunkenness had been made, and that one large concern had had even more trouble than we had.

We related the facts in Thursday's NEWS when no good could be served by further withholding them, and also alluded to information that led us to believe the private business of the postmaster was being boosted at the government expense, and with a view of trying to injure THE NEWS, which incidentally was never so prosperous as at present, except in regard to internal misfortunes elsewhere alluded to.

On Friday a friend informed us that the postmaster charged us with unfairness in stating that the office was used to boost his private business. Rather than be unfair we retracted on Saturday anything that might appear that way. After THE NEWS was published the warrants referred to were issued. We suspect the real motive is to throw dust in the eyes of the authorities at Washington.

Time will show whether this new move will avail. *Life* is too short to be bothered with petty squabbles, but if it is desired to force a quarrel on us not of our seeking, we must be excused if in self defense we strike back.

Our neighbor must remember that "when the gods wish to destroy they first make mad."

Somerset County Board.

The Somerset County Board of Freeholders met on Tuesday at the iron bridge, at Bound Brook, and after an inspection of its condition repaired to Gaddis' hotel where all present members responding to the roll-call. A motion to replank the bridge having been lost it was decided, on motion of Mr. Wyckoff, to replank one-third of the way with three inch Georgia pine, repair the remainder and give the structure a coat of paint. The committee was pointed for this work are Messrs. Skillman, Wyckoff and Bolmer Messrs. Wyckoff, Skillman and Kirch were appointed a committee to prepare specifications and advertise for proposals for a brick arch bridge on Hamilton street, Bound Brook, and report the proposals at the next regular meeting of the board.

On Wednesday the board met at the bridge above Chimney Rock, known as the Upper Bridge, and ordered that a new bridge of the same size and style as the old one be built, and a stone arch bridge at Quaker Bridge. The committee who have the work in hand are Messrs. Wyckoff, Kirch and Helderbrandt.

Still Another Factory.

A large rubber company of Newark has had representatives quietly prospecting about Plainfield, during the past two weeks, with a view of locating here. They have visited Dunellen and Bound Brook. They are very much pleased with Plainfield, and should they decide to locate here will bring 300 or 400 more employees to the place. They are very uncommunicative and are working very quietly, possibly fearing there may be some objection to them, and that they might not succeed in getting the property they have in view. South of the Pond property is said to be their preference.

—A man named McNeil, an employe of the carpet factory in this city, was taken suddenly ill with the cramps at the station in this city, this morning. He was removed in No. 2's truck to his boarding-house on West Second Street, and medical aid was summoned.

A Meeting of Literary Friends.

Invitations reading "Dr. Abraham Coles and Dr. J. Ackerman Coles, at home, Saturday, June 25, from 4 to 8 o'clock p. m., Scotch Plains (Fanwood), N. J., to meet some literary friends, were sent out last week. At the appointed hour a special car brought a large company of friends from Newark and another company from New York; and among guests from Plainfield were ex-Mayor Randolph, one of the proprietors of The Times; Rev. Dr. Patton, editor of the Baptist Weekly of New York, and T. W. Morrison, editor of THE NEWS. The genial prince of writers, Julian Hawthorne, was also there, with about 175 others of as delightful people as are seldom seen together, and they were all most hospitably entertained, which goes without the saying when the Coles' family are hosts. The genial old doctor is a gentleman of the old school with all its courtly manners, combined with a fine scholastic mind and advanced modern ideas. Although in his seventy-third year he is as affable and nimble as a carefully preserved youth of fifty. After general introductions and refreshments a pleasant hour was spent in chatting. The friends rambled about the elegant country mansion of Dr. Coles, visited his extensive library and viewed his autograph album. Therein were letters from old distinguished friends. Among the collection appear the names of John Bright, the most distinguished English statesman of the present age, except perhaps Gladstone, Lady Jane Franklin, Lonrfellow, Oliver Wendell Holmes, Julian Hawthorne, the elder, Stedman, the banker poet, and other notables, scholars of fame who have met and admired. "Dixie" was translated by Dr. Coles from the Latin many years ago, and upon which he achieved a word-wide fame as among the ablest of Latin scholars. Stedman pronounces some of his translations unexcelled, if even equalled.

In the museum a pet Mannosets jumped about in a cage, peering curiously at visitors. These animals, the smallest of the ape family, were first brought prominently to notice by Mrs. Cleveland, who, if we remember correctly, had one presented to her by the Brazilian minister, who had it brought specially from Brazil for her. Down the easy stairs one is led to a side room, in which is a megaleocope, which is somewhat of an enlarged graphoscope, in which is shown a few of the doctor's extensive collection of illuminated views, among the collection being St. Peter at Rome, the Tuileries and other similar world-famed edifices.

The Coles' domicile is about 500 feet east of the mountain, which rises abruptly 542 feet above sea level. His grounds cover an area of seventeen acres, and are the fruit of the rare curiosities the doctor has collected from all parts of the world during the twenty-five years he has had the property. A labyrinth, patterned precisely but on a smaller scale like the one at Hampton Court, England: Japanese tries of several peculiar shades of green, finishing on each to a yellowish shade; a tent five, whose branches start about ten feet from the ground and grow downward, forming a bower, beneath which seats are arranged, and one is completely screened from view; a maiden's hair fern tree, all from Japan; long vistas bowers being among a few of the attractions. Then there is a park containing about half a dozen deer. Two of the number, a weak or two ago, became mothers, one giving births to twins. One of the twins died soon after birth, being too feeble to live, but the other spotted beauty is safe. The fawns are always spotted at birth and for several years after, and all mothers of this species are accustomed to give birth to twins every other year.

Well, this is but a glimpse of a half-hour's visit to one of Plainfield's most beautiful homes. As the guests would tell the cabmen places to the trains and the guests are bidding adieus to the elder doctor and his pleasing daughter, Mrs. Coles, and son, the younger doctor, one is led involuntarily to remark, what charming hosts and grand scenes.

The Pond Works Begun.

The contract for the new buildings of the Pond Machine Company, located here, have been awarded to Mr. A. T. Wing, of Palmer, Mass., and Mr. A. E. Chandler, of New London, Conn., who, with his son, Willie M. Chandler and a few principal assistants, arrived here on Friday. The place for the main building was staked out, as we stated Saturday, and to-day ground was broken and the work started. The contractors say they are not restricted to complete the work within ninety days, but to push it as fast as circumstances will permit. They propose to hire workmen of this locality if they can get them. If not, to obtain them from other localities.

Mr. A. C. Stebbins, who is to be the vice-president of the company, was expected today to decide upon the height of the walls. The building is to be one story high, but the height of the story was to be decided according to the topography of the land. The length will be 500 feet, the width ninety-three feet eight inches, inside measurement, as we stated some weeks ago.

New streets are being laid out in the vicinity, and the grain where the main building is to stand has been mowed down.

Died by the Roadside.

James Higgins, a laborer formerly employed by Patrick Traynor, died suddenly on Spring street in Westfield on Saturday evening. He had been on a spree all the week and had taken no food or nourishment, and on Saturday was taken with delerium tremens and died. About four o'clock one of the residents of Spring street noticed him lying in the middle of the road eating dirt, and had him removed to the side-walk under the shade of some trees, where he laid for an hour; he then tried to stand upright but being unable to do so he crawled on his hands and knees for about twenty feet where he fell on his face and died. Dr. Wescott the County Physician was summoned and after viewing the body gave permission to remove it to Connolly's undertaking establishment. There was no autopsy held as the doctor thought it was unnecessary. It is thought that he died from drinking, whisky having burned his insides out. The deceased was 65 years old, and has been a resident of Westfield for the past twenty years. He is said to have relatives in Morristown.

A Fearful Runaway.

Mr. Irving, of Westfield, is the possessor of a fine team of horses, with which he started on a drive to this city yesterday. He was accompanied by his little boy Frank. When opposite Netherwood depot, he dismounted from the carriage to fix the reins, and while so engaged the horses took fright at two dogs which dashed out of the bushes bordering the road and ran away, throwing Mr. Irving to the ground. He clung to the reins and was dragged along the ground for some distance, severely bruising his right wrist. The lines were dragged from his hands, and the horses, carriage, and boy were soon out of sight. The horses dashed down South avenue and turned into Richmond street, heading toward Front, the little boy meanwhile clinging to the wagon. As they swung around the corner the front wheel of the carriage struck a lamp-post which sent the wagon across the street, where it again collided, this time with the telegraph pole on the corner of Third street, the shock tearing off the seat and top of the buggy. The boy getting caught in the buggy-top was dragged out also, falling on the buggy top, which broke his fall, and undoubtedly saved his life. He landed in the ditch alongside of the road, where he lay unhurt, except for a slight scratch on his cheek, but so frightened as to be powerless. The horses dragged the dismantled wagon a few feet further, when the whiffletree being broken, they became freed of the carriage, dashed on down Richmond street, for about a block beyond Front, where they were stopped by a citizen. Frank fell, the other animal falling over him, and in the confusion which ensued, they were easily captured by a gentleman going by, who led them to Frank Day's stable on North avenue. The boy meanwhile was hurriedly carried into a house on the corner of Third and Richmond streets, owned by Mr. Hedinglner, and of the Public schools on East Sixth street. Mr. Pope hurriedly sent for a doctor, but the boy was found to be uninjured. Mr Irving soon after arrived, having met a friend on his way here, and was exceedingly thankful to find his son unhurt. Later he hired a buggy from Mr. Day, and drove to Westfield, returning with one of his own carriages in tow, to which he harnessed his horses and drove off. The wrecked carriage is still standing on Richmond street. Mr. Irving is an uncle of Mrs. Kinney, wife of Mr. A. I. Smalley of North Plainfield.

To-day Mr. Irving sent a wagon from Westfield and had the wreck loaded on it. It is reported that his arm has been broken by the accident.

PERSONAL.

"Wade Whipple" and wife, of Evona, have gone for a week's pleasure to Albany, N.Y.

Joseph S. Powlison and wife, of Grandview Avenue, are spending several days at Pluckamin, N.J.

Moore Coddington and family of Mount Horeb, have recently located on Somerset St., near Summit Avenue.

Policeman McCue has so far recovered from his recent attack of rheumatism as to be able to be around again.

William B. Smith, of East Fourth street started Friday for Taunton, Mass., where he will spend a couple of weeks.

Robert Berth, an employe of the Electric Light Co., in this city left Saturday for Lake George to do some work on the plant there.

Prof. Alfred A. Titsworth, of Fifth St., is taking a much needed rest since the closing of the term and commencement exercises at Rutgers.

Charles Stewart, of Easton, Pa., is 83 years of age, as fact tall and at one time recently weighed 320 pounds. He is at present staying with his son-in-law, Mr. E. L. Meader, station-master at Evona.

The funeral of Willie, the thirteen months old son of Michael and Sarah Pickett, who died Friday night, took place from the parent's residence, West Fifth street at three o'clock yesterday afternoon. Interment was made in St. Mary's cemetery.

A few months ago when a siege of measles and fevers were here as well as in the country generally three of our best employes were taken sick one dying later on. Another most valuable employe, whom we had taught all the mysteries of the trade, was induced to go elsewhere, and used the knowledge thus obtained against his former employer, and efforts were made to entice others of our employes, our would-be destroyer stooping even to tamper with our engineer. While struggling along in our suddenly crippled condition, and thriving hard to obtain outside aid, we secured Mr. S. H. Sherman, a talented journalist from New Brunswick as reporter. His work gave general satisfaction, and in the few months he has been here he has made many warm friends. This apparently made our North avenue neighbor all the more envious, and it appears they labored especially to thwart the thoroughly honorable and gentlemanly stranger. Thursday he had a severe hemorrhage, due to walk up Park avenue, but he had to be carried into undertaker Runyon's, and from thence to the City Hotel. Dr. Hedges was summoned and stopped the bleeding of the lungs temporarily. Mr. Sherman's physician orders him to do no further work for some time, and to seek a change of climate, which he has decided to do.

—The Smalley Brothers have a meat market on Somerset street, in the rear of the dwelling house. One of the firm, Mr. A. I. Smalley, was delivering orders about the city with his spirited pet bay mare. About five o'clock he returned to the store and went in, noticing nothing unusual about the animal. When, a few moments later he came out, he was surprised to see the horse in a foam in spots. Suspecting something must be the matter, he acted on the advice of his brother and drove the animal to her stable, a few blocks nearer the mountain, and quickly removed her harness, meanwhile sending a messenger for Dr. Forster, who arrived as the horse was dying, and within about two hours after the attack the mare was dead, dying in a sitting posture. The doctor pronouncing it a case of cerebro-spinal-meningetis. Mr. Smalley would not have parted with the mare for $300, having been much attached to her.

—Edsall reports a large increase in his sales since the enlargement of his attractive store. We are glad to see such important improvements sustained in our beautiful growing city. Keep on brothers.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the United Press, and is the only paper published in this section that possesses a Telegraphic News Franchise.

Weather Indications.

For Tuesday, in New Jersey, eastern New York and eastern Pennsylvania, and in New England, fair to partly cloudy, slightly warmer weather, followed by local rains

An $18,000 Fine.

NEW YORK, June 27.—Charles Keffonjou, of New Jersey, silk manufacturer, will have to pay the U. S. Treasury a heavy penalty for importing 16 French silk-weavers. This morning the Commissioner of Emigration turned the case over to Collector McGlone, who demanded $1,000 for each person.

Election Cheats Convicted.

BALTIMORE, Md., June 27.—Judge Phelps sentenced the convicted election judges and clerks to-day to the highest penalties of the law. Owens, Waters, Brandon, Sonner and Burns each got three years in jail. Hampden, of the 18th ward, got two years and was fined $1,000. Heidinglner, of the 18th ward, jumped his bail.

Sharp Very Ghastly and Tottering in Court.

NEW YORK, June 27. Jacob Sharp flatly tottered into Court this morning. He had to be almost carried up the main stairway. He passed a very bad night. At half-past nine Mr. Nicoll resumed his reading of Sharp's testimony before the Senate Investigating Committee. At 11.26 Lawyer Parsons began the opening for the defence.

The Hussey Inquest.

NEW YORK, June 27th,—At the inquest held to-day, of Capt. Jack Hussey, life saver, testimony showed that Hussey was drinking in a saloon with a policeman. They quarrelled because Hussey swallowed his drink before the policeman had taken his. The Jury found that death was caused by a pistol-shot from a pistol in the hands of policeman Hahn, who is now locked up.

Lovers' Threats Cut.

NEW YORK, June 27th,—This morning about three o'clock, Alberto Brunwick, aged 27, had his throat cut by Maggie McGovern, aged 23, to whom he was engaged to be married, but afterwards broke the engagement. She was found in the hall of his boarding house, No. 669 Third Ave., as he was returning home at three o'clock in the morning. She then cut her own throat. Both are now at Bellevue Hospital.

Trotting at the Fair Grounds.

The trotting at the Fair Grounds Saturday afternoon was very interesting and exciting. The following is a correct list of the races:

FIRST RACE.

"Gypsy," br. m. Geo. A. Phillips..... 1.1
"Nellie C.," br. m. John Stelle..... 2.2
"——," b. m. S. D. Kelly..... 3.3
Time, 2.44 1-2; 2.40 1-4.

SECOND RACE.

"Sagwa," ch. g. Wm. VanSickll..... 1.2
"Care Not," ch. g. John B. Osborn..... 2.3
Time, 2.45; 2.38 1-2.

THIRD RACE. (Unfinished.)

"Ledger," br. g. E. J. Waring (to wagon). 2.2.2
"Jim," b. g. John B. Osborn. " 2.1.3
"Tom McCrann," b. g. J. C. Zimmerman (to wagon). 3.3.1.
Time, 2.42 1-2; 2.45; 2.41.

Location of Lots at Hillside Cemetery.

The sale of lots at Hillside Cemetery already exceeds $10,000. On Saturday the trustees were on the ground and a large number of lots were located and assigned to the various purchasers. In fact the formal opening of the cemetery occurred on Saturday. The lots are 19, 26 and 39 feet deep with as many feet front as one may desire up to a square. The prices range from twenty-five to fifty cents per square foot; thus the cost of a lot 19 feet square at the lowest rate, is about ninety dollars. One-half of the money received from sales goes to pay for the land, the remainder goes into the "Cemetery fund" and used for beautifying the grounds, paying the watchman and keeping the property in good condition. The catacombs will now accommodate forty-eight bodies. The chapel is not yet built.

—The four o'clock meeting, conducted by Sealy Edsall in Reform Hall yesterday under the auspices of the W. C. T. U., was well attended and the exercises were of the usual interest and enthusiasm. Hon. Chauncy Shaffer was among the number of interesting speakers, and the Dunham Christsters added much to their spiritual uplifting.

—A match game of ball was played at Somerville on Saturday afternoon, between the West End club of that thrifty town and the Plainfield Bicycle Club of this city. The game was well contested and resulted in a score of 6 to 9 in favor of the West End Club. The Plainfield boys speak in the highest terms of the pleasures of the trip and the royal entertainment given them.

—Yesterday was children's day at Trinity Reformed Church, services having been postponed from June 19th. There was a large attendance both in the morning and evening. Subject for the morning's discourse was from John 3 chap., and the parenthesis found in the 9th verse,—"But the servants who drew the water knew." The discourse was intensely practical and listened to with profound attention throughout, and will long be remembered by all who were privileged to hear the preacher. Evening discourse was the old old story, found in 1st Timothy, 1st, 15th,—"Christ Jesus came into the world to save sinners," and was very forcibly presented. The appeal at the close of the sermon was particularly grand and impressive.

NOTICE—The Plainfield Gas Light Co. would call attention of the Gas Consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

THE SUPERIORITY of the Gas Stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office corner of Fourth and Washington Sts.

Persons desiring to test the economy of the above cooking articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL RATES will be made for gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be rented at moderate rates. PLAINFIELD GAS LIGHT COMPANY.

Legal Notices.

ASSIGNEE'S NOTICE TO CREDITORS.

Notice is hereby given to the creditors of Frank O. Green, of the City of Plainfield, Union county, New Jersey, that all claims against said Green must be exhibited to the subscriber his assignee at his office on the west corner of Park avenue and Second street, Plainfield, New Jersey under oath or affirmation on or before the thirteenth day of July next being three months from the day of the assignment or be forever barred from coming in for a dividend of the estate; and such creditors are further notified that a list of the claims against the said Frank O. Green will be filed with the clerk of the County of Somerset, Place of the County of Union at the expiration of said three months when exceptions thereto may be filed by any person interested.

Dated May twenty-fourth, eighteen hundred and eighty-seven.

Conick, Boston. Ships Baun, Boston; B. F. Cheney, Montevideo; Hosneso, Aracaju. Arrived our, ship Wm. Brewster, from New York, at Havre; Servia, New York, for Liverpool, at Queenstown.

Michigan's Oil and Gas Crop.

DETROIT, June 27.—Detroit manufacturers are much interested in the discovery of oil and natural gas at Port Huron has led to several firms considering the advisability of removing their manufacturing plants there to reap the benefit of the cheap fuel. An estimate is being prepared of the cost of piping oil from the Ohio field.

Dr. McGlynn in Chicago.

CHICAGO, June 27.—Dr. McGlynn attended high mass at the Cathedral of the Holy Name yesterday, and at the conclusion of the services held a meeting on the side-walk in front of the church. In the afternoon he was tendered a reception at the Grand Pacific by the Land and Labor club No. 1, and for an hour eulogized the intrinsic qualities of Henry George.

The Sultan Will Not Sign.

LONDON, June 27.—The time within which the Anglo-Turkish convention in regard to Egypt must be signed or become inoperative expires to-day. It is understood that the sultan will decline to sign the document, and that Sir Henry Drummond Wolff, the English envoy, will thereupon start personally to London for further instructions.

Preserving Ancient Rome.

ROME, June 27.—A bill was introduced in the Chamber to-day providing for the preservation of the remaining traces of ancient Rome in the vicinity of the Forum, the Baths, etc., by means of an archæological promenade, at a cost of $8,000,000.

Won by the Genesta.

LONDON, June 27.—At 4 o'clock this morning the Genesta was reported two miles off Dover in the English channel, Belgium. This makes the Genesta the winning yacht in the jubilee race around the United Kingdom, from Soutmead to Dover.

Tapping Uncle Sam's Till.

CLEVELAND, June 27.—The safe in the Wilbur, Gill & Co. bank was robbed on Saturday night and between $300 and $400 were taken. There is no clew to the burglars.

Death of a Connecticut Publisher.

HARTFORD, Conn., June 27.—Henry L. Hall, publisher of the Willimantic Journal, died in that city yesterday morning. He was 50 years old.

A Leading Hartford Physician Dead.

HARTFORD, Conn., June 27.—Dr. John A. Steven, a leading physician, died Saturday night of malignant erysipelas. He was in his 46th year.

A Duellist Excommunicated.

BERLIN, June 27.—The archbishop of Cologne has excommunicated Baron Salemacher for having challenged Baron Schorlemer to a duel.

To Return to Her Old Theatre.

PARIS, June 27.—It is asserted that upon her return to France Mme. Bernhardt will be readmitted to membership in the Theatre Francais.

Interesting to Hudson Navigators.

POUGHKEEPSIE, June 27.—By order of the bridge company, during the construction of the Poughkeepsie bridge red lights only will be displayed on piles and cribs, and white lights only on barges. There will be a red light on each corner of each pier during construction, and the position occupied by scaffolding will be indicated by a line of red lights.

A Philadelphian's Suit for $75,000.

KANSAS CITY, June 27.—George T. Lewis, of Philadelphia, has filed a suit in the United States circuit court against the Lone Elm Mining and Smelting company for $75,000 on a note given as collateral security for a deed of trust for lands to which the defendants at the time of delivery had no legal title.

ASSEMBLY FORTY-NINE

SHAKES OFF THE GRIP OF THE NOTORIOUS HOME CLUB.

George W. Dunne Chosen to Succeed Quinn in the Executive Board—The Policy of War on Brother Knights Will be Abandoned.

NEW YORK, June 27.—The Home club was routed at the meeting of District Assembly 49 in Pythagoras hall yesterday, and, while Master Workman James E. Quinn was not deposed, as it was intended he should be, he is simply a master workman now, and that is all. He will preside at the meetings of the district assembly every Sunday and retain his salary of $1,500 a year, but the control of the policy of the assembly and the direction of affairs between sessions was taken out of his hands. The Home club was hit a staggering blow between the eyes by the delegates to the assembly, who are weary of the club and opposed to its rule or ruin policy in and out of the order.

The meeting was lively. Quinn deposed a week ago from his place of chairman of the board of arbitration and strikes, was the leader of the majority at yesterday's session. The last time Quinn presided Master Workman Drury and Thomas B. McGuire were its leading spirits. James E. Quinn and Timothy P. Quinn were its high priests. Hugh Carey, the treasurer of District Assembly 49, its expounder of law, and E. E. Kunze, the district recording secretary. George W. Dunne and Paul Mayer were humbler elements. Dunne and Kunze were installed some weeks ago, and Mayer sided with them. The revolt promised to be open rebellion just before Victor Drury went to preside at the opening of the new Knights of Labor Hall in Brooklyn, its expounder of law, and E. E. Kunze, the district recording secretary. George W. Dunne and Paul Mayer were humbler elements. Dunne and Kunze were installed some weeks ago, and Mayer sided with them. The revolt promised to be open rebellion just before Victor Drury went to preside at the opening of the new Knights of Labor Hall in Brooklyn, its April, and, with Drury away and T. B. McGuire flying about the country in railway trains as a member of the general executive board, the remaining master workman of the Home club found that they could do nothing.

When Drury returned the rebellion came to a head. He refused, it is said, to sit in the same room with Dunne and Kunze, who, he said, were traitors. Then it was that at a meeting of the Home club the threat was made that Dunne and Kunze would be deposed from their offices.

"Try and depose me and there'll be some lively times," Dunne said. He left the room, and Hall Rakus.

The Home club does not meet in Pythagoras hall, but secretly in the houses of members. When Dunne and Kunze had gone some of those who were left behind suggested Dunne might be counselled, and Paul Mayer said that Dunne was a good man, whom he was not ready to throw overboard. The two Quinns were asked to do the counselling, and they reported at the next meeting of the Home club that it was no use. Dunne would have to be removed from his place as chairman of the board of arbitration and strikes. Kunze must be retained at his post of district recording secretary for some time yet.

Dunne was deposed Sunday a week ago, and he promptly filed charges against James E. Quinn. The tedious work of trying to remove Quinn as master workman was not to Dunne's liking. He insisted upon the policy prevailing at yesterday's meeting. Yesterday he first asked the district assembly, which is made up of delegates from several local assemblies, to consider altogether the present board of arbitration and strikes, in the chairmanship of which John J. McKenna has succeeded him. Dunne said that the board was a Home club one, and tended largely to increase the dignity and importance of the master workman. He then denounced the Home club as antagonizing their fellow workmen in other district assemblies in labor unions, and in business concerns, until they had begun war upon everybody that they could not control. The board of arbitration and strikes, he said, aided this policy. It helped settle workingmen's difficulties in such a way that the results should be to the detriment of everybody that were not in sympathy with the rulers of 49. It drove away the best men in the order of the Knights of Labor, and to-day men were saying that they would very little for an organization that was run by a gang. Dunne said also that the grip of the Home club was not alone on the district, but on every other district in sympathy with it.

Other delegates made speeches denouncing the present leaders of the district assembly. A vote was then taken on the question of action and strikes was abolished. It was impossible to get the vote.

Mr. Dunne had said in his speech that executive committees were found to be good enough for other district assemblies. "Why not appoint an executive committee?" he asked. In the past 49 had got along very well with an advisory committee.

It was then voted to have an executive committee of five. George W. Dunne was elected chairman, and E. E. Kunze, James P. Archibald, James Raleigh and W. J. Malone are the others. This committee is to transact all business for the district assembly when the assembly itself is not in session, and it is the controlling power. At any rate, it will be the controlling power, with Dunne as chairman.

James E. Quinn and Timothy Putnam Quinn were in Pythagoras hall last night. A Knight of Labor said to them:

"You are locked out at the district meeting this afternoon. How did that happen?"

Mr. Quinn would not talk about it. Delegates said that the master workman felt his defeat sorely. One of the new management said:

"Forty-nine will alter its course to everybody now. It will not be wanting to fight and down everybody that does not think as it does. In fact, it will be very conservative, and all other district assemblies with which it is allied will be conservative."

The effect of this resolution, which was effected at a largely attended meeting, and which, it is said, has the support of a majority of all the delegates to the district assembly, may have a great effect in the next session of the general assembly. Knights said last night that they believed that District Assembly 126 of carpet workers would now undoubtedly be reinstated at Minneapolis, and that it would be followed by an action of the general executive board in repelling them.

Free Concerts by Telephone.

NEW ORLEANS, June 27.—Once every week the band of the Continental guards gives a concert in Lafayette square, Frank T. Howson, a generous and wealthy citizen, paying the expenses. On music nights the square is crowded with women and children. Not to be outdone, the manager of the telephone company has fixed instruments over the music platform, and when the band plays he switches on his instruments, so that the music is heard not only in hundreds of city residences, but on plantations up and down the river and hundred of miles in the interior.

He is Ready to Die.

CANTON, O., June 27.—Conrad Doll, who killed his wife and stepson at North Industry, O., last Friday, had a preliminary examination late Saturday night and pleaded guilty to a double charge of murder. He was bound over for trial. He says he is ready to die.

THE ANTI-POVERTY MEETING.

Magic in the Name of the "Isolated Priest."

NEW YORK, June 27.—Fully 5,000 persons attended the Anti-Poverty society's meeting at the Academy of Music last night. Abner C. Thomas, a well known lawyer, presided, and in opening the meeting said that probably before the meeting began an important matter, relating to their absent friend (Dr. McGlynn) would have taken place. (Cries of "We will stand by him!") The name of Dr. McGlynn was received with uproarious applause.

Henry George was received with great cheering. He said that behind Dr. McGlynn was a powerful, a mighty sentiment that was rising to an overwhelming wave. Let him be excommunicated, and this wave will rise still higher. The only people who were embarrassed by the excommunication with the idea that Dr. McGlynn was following in the footsteps of Martin Luther were the disciples of Luther themselves. Dr. McGlynn, he said, believed that poverty was the result of human injustice and not of divine decree, and that it can be abolished.

After concluding his address Mr. George answered a number of questions put to him by the audience upon the objects of the Anti-Poverty society and upon the land taxation question.

Two Young Men Drowned.

PHILADELPHIA, June 27.—A sailboat was capsized on the Delaware river, opposite South Camden, during a severe storm, and two of its occupants were drowned. Their names were John Duffy and John Shaffer, aged, respectively, 23 and 20 years. The third member of the party had a narrow escape. The three men belonged in this city.

A SUICIDE PREVENTED.

A Pretty Widow Who Wanted to Meet Death in the Cataract.

NIAGARA FALLS, N. Y., June 27.—Pretty Mrs. Austin Whitley, a widow, was locked up here yesterday in police headquarters on the charge of attempted suicide. She is the daughter of an English clergyman and came to America a year ago. She was last in Toronto and came here to work in a hotel. She soon became acquainted with a man who was engaged to marry her, but he did not show up. Friday a stranger came to see her, and then she has been very despondent. Saturday afternoon she told Charles Hanna, of the Casino, and others, that she was going to end her existence in the cataract.

"You can't swim it," they said.

"Oh, God! I mean what I say," replied the girl. She tried to make him a present of her watch and gave her wardrobe to another girl in the house. Then she slyly started for Goat Island to leap into the roaring torrent. She was followed and arrested just as she had thrown her satchel into the river. At the station house a revolver was taken away from her. She had talked sensibly on all other subjects except that she did not want to live.

Driven Out by Hunger.

AUBURN, N. Y., June 27.—Clarence Tisar, a noted horse thief serving a sentence in the prison here, escaped by sawing three bars away Wednesday morning. Yesterday morning he came out of his hiding place and acknowledged that he found it impossible to get over the wall, owing to the vigilance of the guards, who have been on duty each night since Tisar's disappearance. He had had nothing to eat but a small piece of bread which he had in his pocket when he went into voluntary retirement. He was nearly famished and ate ravenously when given his dinner. He had concealed himself in a "blind" chimney in one of the shops. This is the second time he worked the "stowaway" game. On the previous occasion he got over the walls and was some time afterward recaptured.

The School a Menace to Royalty.

LONDON, June 27.—Canon Dr. Parkar, in the course of his sermon yesterday, referred to the interest shown by Americans in the queen and said he was astonished at its extent as shown during the jubilee week. At a dinner of one American having offered $2,500 for a ticket of admission to the services in Westminster Abbey. The people of America, he said, had to state such an ambition as that power, but they had enthroned education, liberty, independence, the spirit of progress and energy. President Cleveland, America's ex-king, had written him a friendly letter. He had not felt that there was any difference of rank between the president and the preacher. The same results as in America were being brought out here. Every school board was a menace to kinghood.

Passing the Examination.

WASHINGTON, June 27.—It now appears that out of thirty-eight clerks of the quartermaster general's office examined thirty-five passed for promotion. Of these, it is said, nearly all owed their good fortune to markings by the chief clerk for efficiency in office work. As many as five persons in this examination, it is understood, handed in the arithmetical questions without having answered one of them. The first subject, "Cheap Dictation," as it is called, floored some very competent clerks completely. The vacancies in the quartermaster general's offices to be made on June 30 are two $1,800 clerks, one $1,600, two $1,400, four $1,200 and four copyists. There are also five agents to be dropped, but those are in the classified service.

An Italian Knight.

WASHINGTON, June 27.—Dr. Reynolds, an examiner in the pension office, has been knighted by the king of Italy, receiving at the hands of Baron Fava, the Italian minister, the cross of the Royal Order of the Crown of Italy, of which order he was made a chevalier of the second rank. The minister stated to him that he would receive his patent, from the king, as soon as his name was inscribed in the golden book of the kingdom. Dr. Reynolds is a citizen of Wisconsin, and served in the war from that state. He is a graduate of Rush Medical college. For his contributions to scientific literature, especially his researches in relation to the aborigines of the Potomac and Shenandoah valleys.

Mr. Corcoran Greatly Improved.

WASHINGTON, June 27.—Dr. A. Y. P. Garnett has returned to this city from Deer Park. He said that he had left W. W. Corcoran very much better in health, and that the venerable philanthropist realized that his brief stay at Deer Park had been of great benefit to him. Saturday Dr. Garnett and Mr. Corcoran went for a drive, which he greatly enjoyed. He also took a short walk with the doctor and bore the fatigue remarkably well. Dr. Garnett says that Mr. Corcoran's physicians have decided to go over the mountains to Deer Park unless his presence should be required there. Mr. Corcoran's return to Washington is indefinite.

Battling with Smugglers.

EAGLE PASS, TEX., June 27.—Intelligence has been received here of a sanguinary conflict fifteen miles below Piedras Negras, in Mexico, between a party of river guards and a band of smugglers. Two of the guards have been killed. At last accounts the smugglers were engaged in a desultory skirmish with the re-enforced guards.

Escape of a Condemned Murderer.

SPRINGFIELD, Mo., June 27.—C. Carter, a condemned murderer, who was to have been executed at Mount Vernon, next Friday, killed his guard and escaped from jail. Carter was convicted at the last term of the Lawrence county circuit court for killing C. K. Crockett. It was one of the most revolting crimes ever committed in the county.

A THOUSAND HOGS

BURNED TO DEATH IN A FIRE AT CHICAGO.

A Million and a Quarter of Dollars Gone Up in Smoke—Tons of Roast Pork—A Fireman Receives Fatal Injuries from a Falling Wall.

CHICAGO, June 27.—Shortly before 5 o'clock yesterday morning fire broke out in the large packing house of the Chicago Packing and Provision company at the Union stock yards. It was already under great headway when discovered, and rapidly spread. A room across from the packing house to a large storage house in which were 3,000 live hogs and 18,000 barrels of mess pork, the latter belonging to Armour & Co. Before the fire gained much headway in the storage house 2,000 of the hogs were driven out and about 800 barrels of pork saved; the rest of the hogs and pork were consumed. The entire fire department fought the flames with energy and persistency, but the packing company's buildings were entirely destroyed. A storage house owned by Armour & Co. was something what damaged. The plant of the Chicago Packing and Provision company was valued at $300,000. The company had just closed its season and was beginning to prepare for the fall trade, and in consequence had comparatively little stock on hand. Its loss is estimated at about $700,000.

The fire started in a room which was blowing when the fire started was probably the only circumstance that saved the entire stock yards from destruction. No person seems to know the origin of the fire. Several men saw the blaze simultaneously as it went through the roof of the tank house. The engineer was driven to rapidly eat their way directly across the main building, but the fire department was quickly at the scene, the fire had gained a volume that no amount of water could reduce. Huge sweeping circles of flames were driving resistlessly with a roar that could be heard for blocks. Twenty engines and every reservoir in the yards were soon brought into play. All efforts of the firemen and hundreds of stock yard employes were bent toward keeping the conflagration confined to the works of the Chicago company.

It was at this juncture, while one little squad of firemen was standing in a freight car playing on the burning tank room, that the tanks exploded. A heavy beam slashed through the roof of the car, smashing Fireman Hanks' ankle and knocking Lieut. Ennis unconscious. Soon afterward the walls of the warehouse tumbled, disclosing great heaps of mess pork. P. D. Armour immediately set 600 men to work removing the meat. Charred barrels of it were rolled out and carted away. The little army tramped over huge piles of loose pork and carried big chunks of it on the railroad tracks, where it was thrown in heaps. Occasionally one of the workmen would drop a ten pound roast in a pool of water and splash his employers with a mixture of grease and mud. Carts and trucks were loaded from these heaps like garbage wagons from the gutter. Mr. Armour, who is a director in the company, ruefully watched the mass of pork and cinders being cleared away, while his manager, Mr. Cudahy, stood on an elevation of mess pork and superintended the work.

In the debris were carcasses of hogs roasted whole. The charred bodies, shriveled into shapeless masses of cinders, were mingled with blocks of pork, blackened beams and incinerated barrels. After the flames had consumed most of the buildings the fire still held sway in the great mounds of burning meat. Smoke thick as that from a funeral pyre rolled over the stock pens and drove into the eyes of the firemen. Falling walls filled the air with particles of brick dust, blinding and choking the men. They were at times compelled to leave their hose and plunge their heads into buckets of water. Then they sat in turns, with handkerchiefs dipped in water on their swollen eyelids, or bathed their blistered cheeks with dirty water.

Perhaps the most exciting scene of the day was presented when the men who were attempting to drive through the covered ruffways to save the hogs in the upper stories were driven by the flames to desist. Below were scores of workmen rolling out barrels of pork. Down on the crowd pellmell leaped dozens of affrighted animals that had jumped from the windows or sprang through the open hatchways. The men who had braved the flames fled from the falling hogs, and at a distance watched for glimpses of the squealing brutes that, crazed with pain, were rushing madly about in their tall prison of fire. About 300 barrels of pork were saved before the hogs commenced jumping.

During the excitement the firemen gave their attention to saving the short ribs in the curing room. While a number of the men were inside the main building, one of the division walls fell, inflicting injuries upon Fireman Murphy from which he died last night, and seriously injuring J. A. Soafer, W. Tate, Capt. Smith and Thomas Hilliard. Mr. Arthour valued his 17,000 barrels of pork at $300,000. He said that with the salvage and insurance he would come out even. He was unable to give the amount of insurance. The plant of the Chicago Packing and Provision company was valued at $300,000 and the stock at $700,000. A large portion of the stock in store belonged to other parties, and the loss will be sustained by them. About half of the Chicago Packing and Provision company's 2,000 employes will be thrown out of work.

Serious Charge Against a Preacher.

PHILADELPHIA, June 27.—Rev. Reynolds Robinson, aged 23, who has been sick for several past, has confessed that Rev. Dr. Thomas B. Miller, a local Methodist preacher, had performed a criminal operation upon her which has resulted in peritonitis. She is in a critical condition, and in her ante-mortem statement charges Miller with the crime. Miller is about 45 years old, and has figured in similar cases before, but evaded conviction. He was dean of the notorious bogus medical college managed by Dr. Buchanan, about six years ago, but managed to escape the fate of his chief. His license as a preacher was revoked at that time, but he has been connected with the church in an itinerant capacity. He has been arrested.

The President's Western Trip.

WASHINGTON, June 27.—The president, in conversation with a friend in reference to his contemplated western trip, said that he had about given up the idea of being present at St. Louis during the encampment of the Grand Army. He understood that the weather is very hot there during September, and he thought of deferring his visit until October, when the exposition would be in full operation. From there he will go to Kansas City and take a trip through to St. Paul and Minneapolis, returning to Washington by way of Chicago.

Selling the Franchises.

ST. LOUIS, June 27.—The proposition to sell city franchises to the highest bidder has taken shape, and an ordinance incorporating the suggestion was Friday night introduced in the municipal assembly. During the last three years there has been a number of contests by conflicting corporations for valuable franchises, and it is now proposed to sell how valuable these privileges are and allow the city to reap the benefit.

FOUND IN THE CANAL.

The Dead Body of John Walker, Who Was Murdered and Robbed.

TROY, June 27.—Yesterday afternoon the body of John Walker was found in the canal near Crampton & Belden's sash factory on Green Island. He had been robbed and murdered. His pockets were turned inside out, one arm was broken, his head was almost cleft in two, evidently with an ax, and there were other injuries on his body. Walker left Jay Gould's yacht at Waterford on Thursday with several hundred dollars in his pockets, driving some autos to sell along the canal. He disposed of all of the animals except two. He was last seen alive in West Troy on Thursday night. As he did not put in an appearance at his home on Friday Mrs. Walker induced a search to be made, and the body was found near the Dyke in Cohoes at about noon. The levels were drawn off between Cohoes and Waterford Saturday at the request of the searching party, and the body was found.

A DELAWARE CONSTABLE,

While Attempting to Serve a Writ, is Shot with His Own Revolver.

LAUREL, Del., June 27.—Constable Joseph T. Hastings, of Little Creek Hundred, lies in a dangerously wounded condition at his home, and, although he is suffering intense pain, he is conscious and rational. He was shot by Charles Ellis, a farmer living near Laurel, and will probably die of her injuries.

Another woman, who appeared at an upper window with a child in her arms, seemed undecided what to do after the fire broke out, was surrounded by a gust of flame, fell backward and was not seen again. Her charred remains, with those of her two children, were afterward found in the ruins.

The firemen rescued many persons by means of ladders, and were very active and efficient, but the flames spread so quickly and the number of inmates was so great, that it was impossible to prevent many from seeking to save themselves before the firemen could come to their rescue.

HE EVADED THE LAW,

And Was Fatally Stabbed by a Young Tough Whom He Served with Liquor.

NEW YORK, June 27.—Peter McCoy, a saloon keeper at 51 Elm street, evaded the excise law yesterday, and as a result is dying at the Hamilton Grange hospital. He allowed three young toughs to his saloon in the afternoon, and after they were seven with drinks a quarrel arose as to who should pay for the last. McCoy and his barkeeper finally put the men out of the saloon. A short time afterward McCoy went out, and was at once attacked by the men, one of whom, Hennery Rice, of 99 Elm street, plunged his jackknife eight times into McCoy's body. A number of spectators attempted to capture Rice, but he kept them at bay with his knife and escaped, but was afterward caught by a policeman. Rice has made an ante mortem statement and identified Rice as his assailant.

CHURCH AND STATE.

Were the Catholics Prohibited from Attending the Jubilee Services?

LONDON, June 27.—The Rome and Vatican's Rome dispatch says: The pope has ordered a delay in the departure of Mgr. Persico for Ireland.

A dispatch from Rome to The Germania, of Berlin, says that Mgr. Persico's mission to Ireland is due to the pope's desire, after declining to interfere in Irish affairs, to give England a proof of his good will.

The same dispatch says the absence of English Catholics from the jubilee services in Westminster Abbey was due to their attendance being prohibited by the pope's command.

The German ambassadors at the quirinal and the vatican had an important meeting to-day on the reconciliation question.

The Church and the Knights.

PHILADELPHIA, June 27.—It has been made known by a prelate that the holy see has not decided the question of the Knights of Labor. When Cardinal Gibbons went to Rome he found the case of the Knights had been prejudiced by the McGlynn-George excitement, which was then a dangerous symptom of the effects of the Knights' teaching. By the utmost exertion and with the strongest support of Archbishop Ireland, Cardinal Gibbons secured what may be called a stay of proceedings, until Rome should have obtained the full sense of the American Episcopate on the question. It is now stated there may be friction between the Knights and the church, but all indications are that the unanimity of the American bishops in favoring the order, and a policy of non-interference will not fail.

Two Horse Thieves Killed.

LITTLE ROCK, June 27.—A fight is reported from Choctaw Nation between a sheriff's posse and a band of horse thieves, in which two of the latter were killed and three wounded. The officers received serious injury. The posse has been chasing these thieves for several days. When they were finally overtaken they refused to surrender, and a battle resulted. Three of the gang escaped by getting into the underbrush.

Jacob Sharp Seriously Ill.

NEW YORK, June 27.—Jacob Sharp was taken seriously ill yesterday afternoon in Ludlow street jail, and was unable to appear in court to-day. A severe attack of diabetes with which he has long been affected has become suddenly worse. Mrs. Sharp and Mrs. Selmes, daughter of the prisoner, were permitted to remain with him last night. The attack of illness is supposed to be due to the effect of prison life upon an enfeebled constitution.

CONDENSED NEWS.

John M. Matthews, a patrolman recently dismissed from the New York police force because of over 100 offenses on his record, is suspected of "lying out" Private Watchman Morrow, who was a witness against him.

Wine was sold in all the hotels in New York on Sunday under the decision of the supreme court, general term. The bars also did a thriving trade.

An insurance agent at Bristol, Vt., having committed a number of forgeries, has sought safety in flight.

The Louisville Southern Railroad company has made a mortgage for $2,500,000 to the Louisville Safety Vault and Trust company. The funds will be used to complete the road.

Stephen Dyer, the local celebrity who outdid Blondin in daring feats at Niagara Falls, disappeared early Saturday evening, and later in the night his mangled body was found at the bottom of an abyss. He had been on a spree.

Eugene Belcher, a 16-year-old son of A. W. Belcher, superintendent of the foundry of the Vorhis Manufacturing company, was drowned while bathing at Kingston Point. He was a bright, promising lad.

The family of William Park had a narrow escape from death at Park Ridge, N. J., at the hands of an insane relative.

Queen Victoria publishes a letter of thanks to her loyal subjects for the magnificent reception given her on the occasion of her jubilee.

A TENEMENT ON FIRE

IN LONDON, ACCOMPANIED BY A FRIGHTFUL PANIC.

Aroused from Their Slumbers to Face Death in the Flames—Egress by the Stairways Being Cut Off, Many Jump from the Windows.

LONDON, June 27.—A fire in a tenement house west of Oxford street early yesterday morning caused a panic among the inmates, who, roused suddenly from their slumbers, made frantic efforts to escape from the building. Egress by means of the stairways being cut off, many unfortunates jumped from windows and were terribly injured.

Some frightful scenes were witnessed. A youth who leaped from the top story of the building was instantly killed, his body being mangled in a shocking manner. Hardly had his corpse being raised from the pavement when the crowd were horrified to see a woman, who proved to be the lad's mother, spring from the the same window. She struck a railing, rebounded and fell upon the heads of the people beneath, who were packed together so closely that they could neither escape themselves nor help to break the force of her fall. By not striking the pavement directly, however, she escaped instant death. She was taken to the hospital and will probably die of her injuries.

Another woman, who appeared at an upper window with a child in her arms, seemed undecided what to do after the fire broke out, was surrounded by a gust of flame, fell backward and was not seen again. Her charred remains, with those of her two children, were afterward found in the ruins.

The firemen rescued many persons by means of ladders, and were very active and efficient, but the flames spread so quickly and the number of inmates was so great, that it was impossible to prevent many from seeking to save themselves before the firemen could come to their rescue.

KEEP COOL.

Parasols, Sun Shades and Fans, also all the styles of Summer Goods—an Elegant assortment at

POPE'S.

WHAT SHALL WE WEAR?

A PETTICOAT WITH TOURNURE FOR LITTLE GIRLS.

A Description of Some of the Finger Rings Worn by Both Sexes—An Attractive Summer Wrap—A Checked Cloth Costume for Country Wear.

The costume in the illustration is made of green and brown checked cloth and is suitable for country wear. The collar, pockets and cuffs are of light brown cloth, trimmed with a cord of both colors. The pointed fronts of the drapery have two long crossway ends joined in a double knot behind. The basque of the bodice is slashed at the back and the sides. The brown straw hat is trimmed with green and brown feathers.

NETTED MANTLE. CLOTH COSTUME.

The remaining figure shows a small netted mantle, very light and well adapted to the warmer days of summer. A bead passementerie trimming, a fringe of gimlets, and bead loops on the back, fronts and sleeves, lace on the top and bottom, and bows skillfully placed here and there, make the whole into a very elegant little wrap. The small open work straw bonnet in the illustration is trimmed with copper red ribbons, embroidered crape and a ruching of cock's feathers.

The Fashions in Finger Rings.

In finger rings the shanks for the most part continue small, and in many cases quite plain, though one not occasionally a ring with double shank, one of which may be in rope pattern, while another is in plain circlet. The two stone ring, in which appears a diamond and colored gem, is fashionable, and is preferred by many to the cluster and marquise rings, though the two last mentioned are as popular at the present time as any dealer could wish. A beautiful ring seen was an opal of oval shape surrounded by three clustered rows of small diamonds. The most remarkable fact to be recorded concerning finger rings is the freedom with which they are worn by men. The English style of rings, in which the stones are sunk in the gold, lead to favor though other fashions prevail.—Jeweler's Circular.

The New Waterproof Garments.

Since manufacturers have succeeded in rendering various materials waterproof the once unattractive waterproof wrap or circular has changed from its dark chrysalis shape to a pretty spring butterfly. Thus this hitherto merely useful garment is now made in wool and silk of every fashionable pattern and color, and is as elegant as well as practical addition to a lady's wardrobe.

Lace Suits.

Lace will be extensively used as the warm weather comes on, both in black and white for entire suits. Nothing is more beautiful or makes a more airy, graceful costume, and the Spanish and Chantilly all-over skirting is now so low priced that almost any one can afford a dress of one or the other.

Tournure Petticoat for Girls.

With the present bouffant style of drapery even little girls wear quite full skirts, and these require a petticoat with more than usual fulness at the back to wear underneath.

PETTICOAT FOR LITTLE GIRLS.

Our illustration gives an excellent model with a tournure back. The top is seven and one-half inches long, and set over the gathered skirt, which is one yard twelve inches wide. Three box plaited flounces, each nine and one-half inches deep, of coarse cotton material sewn with rows of cord, are set on to imitate a tournure. All the models in this issue are furnished by The Semon.

Gowns and Bonnets for Elderly Ladies.

Elderly ladies wear cottage shaped bonnets of smooth Milan straw, trimmed with loops and ends of gros grain ribbon, set in plaited fans of fine lace. Dresses are made mostly of black lace, with clusters of flowers for garniture. Real lace veils with borders are being revived for elderly ladies.

Canes and Umbrellas for Men.

Very large canes are covered with large heads of buckhorn or of silver, the silver ones being often made in the summer pattern. Umbrellas for men's use have thick sticks with heads similar to those seen on canes. There is a mixture of ivory heads and handles in large quaint designs.

Fashion Notes.

The blending of conflicting colors continues to be a marked feature of the season.

Velvet and silk skirts are fashionably draped with woolen materials; the tendency is to shape light shades over dark ones.

Upholsterers claim that the reign of plush is on the decline, and predict a revolution in furniture materials before another winter comes and goes.

Tulle, lace and gauze are used for very dressy bonnets, being shirred or frilled on a wire frame and trimmed with small flowers and green leaves.

Balayeuses for the protection of the inside of the skirt are again very fashionable. These are for practical use, not for ornament, and on no account must one be visible below the edge of the skirt.

A Mild Western Lie.

In early days in the territory, when there was prairie everywhere, we have seen the wind get started a little under a corner of a county and keep working in till pretty soon it peeled the whole thing off and rolled it away.—Dakota Bell.

ALL AROUND THE HOUSE.

A Few Facts of Interest Regarding Window Gardens.

Window gardens are growing more than ever in favor with flower lovers who have no space and little time to devote to a flower garden. Beside they add greatly to the attractiveness of a house, and are being appreciated and utilized as an inexpensive and convenient method of decoration. The prime requisites for a window garden are good drainage for the box, a suitable soil and plenty of vines. The box may be of wood, plain or ornamental, or of wire lined with moss. The soil should be such as used in potting plants for sitting rooms. Vines, such a multitude that one can hardly go amiss in selecting them. For the center plants of the box any favorites that will thrive in the open border will do well. Of ferns a few may be included to taste for flowers the window garden is the easiest.

The Best Way to Freshen Salt Fish.

Salted fish is a wholesome food, much used by country folk during the hot summer months. An objection to it arises from the length of time required to freshen, so it will be palatable and not create thirst. A country housewife says that soaking over night in sour milk is the best way to freshen salmon, mackerel and salted halibut. Lay the skin side down, and put in enough of the sour milk to entirely cover the fish. When used rinse thoroughly in cold water till the water is clear, then boil a trifle. Too much boiling makes the fish hard. Turn off the water and cook in cream or white sauce, or broil on the gridiron. Salt pork also is much better freshened over night in sour milk.

Dainty Summer Curtains.

Dainty curtains for summer rooms are made of deep cream colored cheese cloth with cross stripes of dull pink and golden olive silk forced over, or where antique insertion or applied over the cheese cloth. A valance for the top of the curtains is composed of two bands of velvet with cheese cloth showing between. At the lower edge of deep fringed balls or tassels of crewel and silk may be used as a finish. Along the inner edge and bottom is an edging of antique lace.

Napkins and Doilies.

Very pretty fruit napkins are made of fine white linen; make each one half a yard square. Fringe out the four edges an inch and a half deep and whip the fringe to prevent its fraying. Dorcas contributes the cut in which may be seen illustrations of both fruit napkins and finger doilies, and given the following directions for decorating and finishing the same.

FRUIT NAPKINS AND FINGER BOWL DOILIES.

Make a row of fine drawn work just above the fringe on the fruit napkins, and feather stitch work with red silk is used for embroidering the napkin. A border of strawberries may then be embroidered just above the feather stitching, and in the space left in the middle of the napkin a quotation from Shakespeare embroidered in clear, delicate lettering. A different fruit may be used for each napkin, also different colored silk. In some instances the fruit may be scattered over the napkin instead of being used only as a border.

Finger bowl doilies are also made in the same way, but are smaller—seven inches by seven. These also are fringed with the drawn work and embroidered just above the fringe. Starting across the doily, the Shakespeare quotations are faintly traced, first with pencil, going over the lines afterward with a fine camel's hair brush and India ink. Any pretty lettering will answer that can be worked to show the words plainly.

The wash silks, which are fast colors, must be used for such work, as they will retain their color when washed, although perhaps it is still safer to dip them in alum water. One thread of the floselle will be sufficiently heavy for such delicate lettering, and a row of feather stitching is worked with it also, above the drawn work.

Gold, cardinal, blue and olive are pretty colors and a doily worked with olive silk and waving clover leaves intermingled with the letters is a very pretty design. One color only should be used for each doily.

The words for the quotations are: "Now good digestion wait on appetite, and health on both," and "Health and fair time of day, joy and good wishes."

An Appetizing Breakfast Dish.

The trimmings of cold boiled or roasted ham may be utilized in a very appetizing breakfast dish of ham and eggs on toast. Chop the ham fine and spread it upon delicate slices of buttered toast, and place in the oven for three or four minutes. Beat up six eggs with half a cupful of milk; add a little pepper and salt. Put this in a saucepan over the fire, add two ounces of butter and stir till it begins to thicken. Take it off the fire, stir for a moment, then spread on the ham and serve immediately.

A Dusty Carpet.

Constant sweeping is what wears out carpets. A carpet often looks dusty so soon after it has been swept that you know it does not really need sweeping again. In that case, wet a cloth or sponge and wipe off the dust. A few drops of ammonia in the water will brighten the colors.

Household Helps.

Egg stains on silver can be taken off with table salt and a wet rag.

Finger marks may be removed from varnished furniture by the use of a little sweet oil upon a soft cloth.

To clean nickel on stoves, wet soda with ammonia, apply with an old tooth brush and rub off with a woolen cloth.

Tea or coffee stains will come out at once if they are taken immediately and held over a pail while boiling water is poured upon them.

To avoid having fat left in soups, it is safer to allow them to get perfectly cold, when the fat can be easily skimmed off. Just enough can be heated each time the soup is served.

When using stale bread for puddings or stuffing, always soak it in a cold liquid. Bread that has been soaked in cold milk or water is light and crumbly, whereas that soaked in hot liquids is heavy.

A New York correspondent of an out of town paper makes the startling statement that there are 800,000 adults in the city who are not members of any church.

LIFE IN A SHOOTING BOX.

THE ENGLISHMAN'S FONDNESS FOR HIS DOG AND GUN.

A Shooting Box in the Highlands—An After-Breakfast Start for the Moors—The Noonday Return—A Picnic Under Picturesque Circumstances.

Next to his home and rights the Englishman holds dearest his dog and gun. The national fondness for hunting and shooting has become proverbial. Many plots may threaten the throne; the Egyptian question may rear its grim and sphinx-like front in the halls of Westminster; the abolition of the lords may be imminent, but none of these, not even the awful and omnipresent "Deceased Wife's Sisters' Bill" can even keep in town the fortunate Briton who owns a shooting box, or has a friend who owns a shooting box. Do not allow your imagination to picture this euphoniously named residence, situated amongst the hills, as a tiny box, 6x8, in which the patient Britannic sits waiting for the whirr of partridge wings. Imagine instead an artistic, modern dwelling, with nineteenth century improvements, or possibly an old farmhouse, with bow windows and wings added, cosily furnished, and looking like a roll-worn old lady in silk and velvet.

IN A HIGHLAND SHOOTING BOX.

It was my good fortune one summer to spend a few weeks in a Highland shooting box of the latter description. The rambling old stone house in which we stayed stood in a narrow, green valley, which lay between two heathery hills. In front of the house rippled over the pebbles and moss, one of those clear little "burns," for which Scotland is noted. In the deep pools of these burns, the trout, or the fish play, with as much delight as do the "bairns" in its shallows.

But to come back to the shooting box. In its hands a row of small unpainted rooms, which are occupied as sleeping apartments by the "gillies" and male servants of the establishment. Also a wealthy member of parliament, has invited several friends to accompany him, so there is a congenial and merry party of five or six gentlemen, four ladies, and several little children.

When the days are fine, as they usually are during August and September, the gentlemen immediately after breakfast start for the moors accompanied by the "gillies" whose task it is to carry the game bags and "start up" the game. The ladies spend the forenoon in writing letters, sketching, reading, or sewing. Generally the gentlemen return at noon, but frequently the ladies and children, in simple flannel dresses and thick shoes, walk out to meet them in some picturesque spot, and there have a picnic, which would be perfect were it not for the accompaniments in swallow-tailed coats and white cravats, known as butler and footman. These solemnly stalk around the festal damask, and are as agreeable as the "death's head" at an Egyptian feast.

After lunch the party spend the afternoon in telling stories, chatting, talking politics, etc., until the pony phaetons arrive to take them driving. About 5 o'clock they reach home and then the ladies have to dress for 8 o'clock dinner. This is the event of the day. Here and only here does the British matron of good taste, while in the mountains or at the seashore, display her silks and jewelry. To wear for morning shopping or on the street bracelets, necklaces, and showy watch chains is considered outre, and stamps the wearer as a shoddy parvenu. But, at home or abroad, an evening dinner party allows the fullest liberty in this respect.

THE UPPER STRATUM AND THE LOWER.

After the dinner, which commonly lasts about an hour and a half, the ladies withdraw to the drawing-room, while the gentlemen, after drinking their wine, follow them. Then come music, reading, and conversation until 11, at which time the butler and footman appear, bearing trays with tiny cups of tea and coffee and sweet crackers. About 10 o'clock the host rings for candles and the company disperse for the night. Occasionally an evening is given to private theatricals or to a literary entertainment gotten up by the children. One 14-year-old damsel recited without mistake "The Lady of the Lake," and received for it $15. The gentlemen would offer the children prizes for the best essay and the competition was both keen and amusing.

Yet even more interesting than this upper stratum and its doings was that of the lower. Here opportunity offered itself to study two distinct types of Scottish character, the one, smooth, oily, servile, and inquisitive; the other, strong, intelligent, independent, reserved, and full of self-respect. The first was represented in "auld Jennet," who "took care o' the big house when the gentry was awa." Jennet in her "linsey goon," white match, and apron would make believe that she had but one aim in life, and that was to serve her employers, but a close observer who noticed the keen gray eyes and vain attempt to look genuine, the simper which was meant for a smile, and the ever flattering word to her employers said to himself, "That's a selfish, deceitful auld body," and so it proved.

We gladly turn, however, to number two, the most common type in Scotland. The embodiment of this class was seen in a gillie and his sister, who lived in a three-roomed cottage near by. The gillie, a tall, broad-shouldered Scotchman, and in kilt and plaid, with frank, blue eyes and tawny beard, looked every inch a Highland chieftain. His sister, resembling him much, could almost match his six feet two. Their reserve and lack of demonstrativeness were a constant puzzle to me. I happened to be in the room when their brother, a theological student and the pride of the family, came home from Aberdeen. His sister had not seen him for a year and instead of rushing into his arms and welcoming him with kisses she reached out her hand and gave him a vigorous shake, said: "How's a' wi' ye?" I knew that her love for and pride in him were limitless, yet both would have blushed and been half ashamed had either one offered any ocular demonstration.—*Cleveland Leader*

Cotton Batting Versus Fruit Jars.

Vick believes that the day of patent fruit jars are ended, since the testimony is so satisfactory in favor of tying cotton batting over the mouth of the jar containing the fruit. The fruit is cooked, and then poured hot into the jars, which are at once covered with white paper, and over that a layer of cotton batting, just as it comes off the roll, and tied down securely with cotton twine. The philosophy of it is that the cotton prevents the entrance of bacteria, which are the cause of all ferments.

Dutch Cream Toast

Dutch cream toast is a most appetizing dish for breakfast or lunch, beside being convenient for utilizing the remnants of a cold boiled ham. Remove all the fat and dry the ham in the oven till it will grate like cheese. Make delicate, thin slices of toast, butter them and spread with grated ham. Make a sauce with the yolks of two eggs, a gill and a half of cream or milk with a bit of butter added; heat and stir it; pour boiling hot over the toast and serve.

Cousin' Thro' the Rye.

It is disputed whether the poet Burns meant that Jennie was found when coming through the tall growing rye grain or through the little stream of that name on the northwest of Ayrshire. The latter of these two suppositions seems absurd. At any rate there is nothing especially captivating in the idea of a girl being kissed when wading a stream, but whether the picture called up is a long association, we do see something very pretty in a young girl advancing through a field of waving grain and greeted in the same fashion by her lover.

Bliss Carman.

The name Bliss Carman was originally applied to the code drawn up in 1650 for Connecticut. It was given them in derision of their strictness. The word blue was also applied, as it often is now, to Presbyterians, perhaps because of the blue mantle spread over the preaching tub some of the ministers used.

Professional Cards.

F. A. DUNHAM,
Civil Engineer and Surveyor, No. 7 Park Place, Plainfield. Orders in all its branches attended to with promptness. Parties sent to all parts of the country. Residence corner of Fifth and Sycamore streets.

O. L. JENKINS, M. D.
Has removed to No. 16 W. South, 58 Front St near Peace street, Plainfield, N. J. Office hours 7 to 9 a. m., 1 to 3 and 7 to 9 p. m.

A Truly Self Made Lady.

"You seem to be much attached to your wife," said the governor of Arkansaw addressing an old negro who had just paid a tribute to the ruler of his household.

"I is, sah, powerful. But lady is one among ar thousand, an' does you know dat she's self made lady?"

"A self made lady?"

"Yes sah, she's a self made lady. When we frust maird, she was a sort o' helpless critter. Been raised roun' de house 'mong de white folks, an' didn't gin much o' promise dat she would eber 'mount ter much, an' I wuz sorter slow 'bout mairn her, I wuz, 'cas I'se pretty much o'er bizness man mersef. An' frust it was erbout as much as she could do ter draw ar bucket o' water, but 'stead o' flingin' stumblin' blocks in her way, I 'couraged her, I did."

"How? By drawing the water yourself?" the governor asked.

"Oh, no, sah; by gittin' ar smaller bucket dat she could han'le. Ef I had ar drawed de water myself she never would ar been ar self made lady. She'd er tied er rel han'kerchuk 'round her head an' sung or lonesome song in de back yard, an' I does think, sah, dat de song o' er 'oman dat has dun gin up hope is de lonesomest thing in de worl'. Yas, sah, I got de lady er smaller bucket, an' ter show her how fur I was from throwin' stumblin' blocks in de lady's way, I growed de w'ole'se. I let it run erlong dis way erwhile, an' den I put on de big bucket."

"Then she went right along, I suppose?"

"Er-xcept ez er gin, sah. An' ergin, at frust she made er mighty lot out at choppin' wood. She didn't take kindly ter de ax, but I wa'n't de man ter fling stumblin' blocks in de way o' mer own wife."

"You relieved her of that laborious duty, then, I suppose?"

"Yas, sah, I 'listed her mightily. I got her er ax dat wa'n't nigh so heahy. Den she dun powerful well; 'pruved so fas' dat it wa'n't long till she could han'le de heahy ax monstrous fine. But yer outer see dat lady now, gubbner. She ken fetch in er log o' wood es well es any pusson, an' out in fiel' she ken make er mighty powerful tired 'fore de sun goes down. Oh, yas, she's er self made lady, but I 'knowledges dat she wouldn' be sich er fine pusson if I had acted mean an' flung stumblin' blocks in her way."—Arkansaw Traveler.

Vividly Recalling the Incident.

They were over in the camp last evening, talking about military matters and war and so on, and the talk drifted around to personal bravery, and finally some one brought up the subject of presence of mind in danger.

"That reminds me," said the colonel, "of an incident that happened when I was but a lad. I was running the cows' nesting. One day I discovered a nest in the very top of a lofty bull pine, fully 100 feet high. Up I swarmed. In the nest were four young crows and one egg. It was the work of a minute to wring the young crows' necks and throw them out. Then placing the egg in my mouth for convenience, I commenced my journey down. It seems but yesterday," said the colonel softly. "I looked up; the beautiful blue sky was above me, and the crows, whose nest I had despoiled, were hovering in short circles, uttering angry cries. Suddenly, without an instant's warning, the limb on which I was resting broke and I fell—ninety feet from the top! I struck a crotch five times in that one moment!" The colonel's voice trembled. He brushed his hand across his eyes.

"What you fell ninety feet, colonel?" exclaimed a by-stander.

The colonel gazed on him compassionately. "No, you young ignoramus. I was ninety feet from the top when I fell; consequently I fell about ten feet. But the fact I got broke that egg. Bah! I can taste it yet."

The colonel gazed around suggestively, and he got something to take the taste out of his mouth. And they all had some.—Washington Critic.

Growth of a Uniform.

Col. Ingersoll was at a dinner the other day where a New Yorker, who has a wide reputation as an after dinner speaker, was somewhat disappointing to the guests. Col. Ingersoll had a neighbor at the table who leaned over and said: "Colonel, how in the world did Blank come to have such a reputation as an after dinner speaker? It does not seem warranted by what he has done tonight." "That reminds me," said the colonel, "of a Georgian who came up to Illinois after the war and wanted to sell his uniform. He asked around at several places, 'Do you want to buy a uniform?' Finally some one asked him what style of uniform it was, when he said, 'It was a private's uniform in Georgia, but I reckon it must do for a colonel in Illinois.'"—New York Tribune.

A Bright St. Paul Youth.

A well known St. Paul artist has a 5-year-old boy who is given to cute sayings. Yesterday, viewing a picture of Liberty Enlightening the World, he asked who it was—the big lady. "Liberty," was the reply. "Oh, yes," he responded, "I know—Liberty, Annie's wife." Not bad, that. The other day he was telling a rather tall yarn to a gentleman, who interrupted him with "Do you know George Washington?" "Oh," said the youngster, "Well, he was a very good man, who could not tell a lie." "What was the matter?" was the quick retort; "couldn't he tell?"—Pioneer Press.

All in the Family.

"I deeply regret it, sir, but, honor and my altered circumstances compel me to release your daughter from her engagement. I cannot enter as my family a beggar. In the recent death of his uncle cut stock I lost my entire fortune."

"Not another word, my boy; not another word. I got it."—San Francisco Examiner.

Equestrians, Take Notice

This is the metamorphosis a box of matches in the coat tail pocket may produce—from a graceful rider to a slow gore on two sticks.—Judy.

For the Summer.

"Haven't seen your brother for the last week or two. Is he away?"

"Yes; Bill has gone off for the summer."

"Long Branch?"

"No, not quite. I guess the judge meant the work house when he said ninety days."—Detroit Free Press.

Died.

MORSE—At North Plainfield on Monday, June 27th, Geneva M., daughter of Edward C. and Mary Morse, in the ninth year of her age.

Relatives and friends of the family are respectfully invited to attend the funeral services, from the residence of her parents, North Plainfield, on Wednesday, 29th, inst. at 4 o'clock p. m.

Special Notices.

MEMBERS OF Winfield Scott Relief Corps No. 10 Auxiliary to the G. A. R. You are requested to meet at Auditorium on Wednesday, June 29, '87, at 3.30 p. m. for the purpose of attending the funeral of Geneva, daughter of Mr. and Mrs. E. C. Morse.

By order of
Sarah A. Mattox, Pres.

JOTTINGS.

—The muzzling of dogs has commenced—and none too soon.

—If you want to buy ladies' white suits, go to the Bee Hive.

—The plumbers of this city expect to go to New Haven, Conn., on July Fourth to take part in some athletic games there.

—All hardware and stove stores, excepting J. A. Peebles', will close at 7 o'clock p. m., beginning last night. J. A. Peebles will begin next Monday.

—The new Brooklyn and Roselle Railway takes in the dwelling of Mr. Theodore Folsom and cuts through the farm of Mr. James E. Goodman.

—Barkalow & Dunn, the North avenue grocers, have added a large stock of imported and domestic cigars to their business which they are retailing at popular prices.

—The first layer of fine crushed stone is now being put on Somerset street. There will be still another layer of finer stone, followed by stone dust put on before the macadamizing will be finished.

—All ex-union soldiers of the rebellion, in addition to exemption from taxation to the *extent of $500, are exempt from paying* a local school tax, by virtue of an act passed by the last legislature.

—Hemlock Engine Co., No. 1, took their apparatus out for a "wash" last evening and located it on the fire well on Second street, near Park avenue. The workings of the machinery proved satisfactory.

—The Trinity and First Presbyterian Sunday Schools will have their annual excursion early in August. Following are the names of the committee from Trinity School: H. E. Gale, Wm. Hardy, Elias Bird and E. E. Anthony.

—Two boys, named respectively Donovan and Galbert, were arraigned before Justice Nash Saturday afternoon charged by Halsey Compton with stealing strawberries. The matter was amicably adjusted by the parents.

—The Y. M. C. A. "Seniors" should remember *that the hour of the meeting is 7.45 o'clock* sharp. Mr. Dudley has said that he must know at the latest by Wednesday of this week just how many of the young men will go into camp.

—Riders of bicycles, tricycles, velocipedes and all such instruments of propulsion, between sundown and sunrise on the public streets of New York city, must hereafter carry lights of sufficient illuminating power to be visible at a distance of 200 feet.

—A man named "Tug" Wilson and another named Jones engaged in a fight in the vicinity of the Potter Press Works Saturday evening. The latter was arrested, and yesterday morning paid a five dollar fine into the city treasury, this being the amount imposed by city Judge Ulrich.

—Yesterday afternoon as a little girl, apparently about four years old, was getting off the 3.51 train at our main depot she missed her footing *and fell from the second step* of the car to the depot platform, striking on her face. Fortunately the train was stopped and she escaped serious injury, but was much frightened.

—Mr. Pratt, a cousin of Frank Green, has given notice that he wishes possession of the store, corner of Park avenue and Second street, by June 15th. It will be remembered that Mr. Green assigned his lease of the store to Mr. Pratt when he was his clerk at the time of his failure. After securing possession goods will be sold on consignment until Mr. Green can get his stock clear from his business misfortunes to resume in a regular way.

—Now that the season for vacations is arriving, and people want a change of air, the question is where to go. Those who like the light, bracing mountain air, come to Plainfield. But Plainfielders have it all the year round, so that a season by the sea is beneficial. A popular seaside location with Plainfielders is Mrs. L. Price, of Ocean Grove, who this season has the Surf avenue House, and also has an advertisement in another column, by which she makes known her desire for Plainfield patronage. The house is large and commodious.

—Reports from all parts of New Jersey show that there is a fearful mortality among the chickens. In parts of Warren, Hunterdon, Union, Mercer and Burlington counties chickens were dying off daily on *account of* the parasitic worms known as syngamus. For several years the various local agricultural boards have been making inquiry as to the origin and habits of these worms, which collect in masses from the lower part of the trachea to its middle. The earth worms that are considered a choice morsel of food by the barn-yard fowls contain the embryos of the syngamus or tape worms. The earth worms are destroyed by being sprinkled with common *salt. A number of calves, sheep and* grouse have died within the last six months, and their death was found to be from parasites in the throat. It has now been settled that the earth worm was the cause.

—Fifth street, from Central to Plainfield avenues, is being macadamized.

—Justice Nash issued a large number of warrants for the collection of fire taxes today.

—Impure water and bad drainage is causing spinal meningitis among the horses in Jersey City. Many have died.

—John Deady and John Barry appeared before City Judge Ulrich yesterday and pleaded guilty to a charge of disorderly conduct in the "Boulevard" one evening last week. Sentence was suspended.

—The dry goods and grent's furnishing goods dealers, have all agreed to close their stores at 7 p.m., Monday and Saturday excepted, commencing Tuesday July 5th, and continuing through July and August.

—Newark has succeeded in securing a tenant fare to New York. The question now is, whether the low fares will increase business by bringing in more residents, or decrease it by carrying purchasers to New York.

—The clerks say that the early closing movement is meeting with *great* success and encouragement. With two or three exceptions, merchants are heartily in favor of allowing the clerks to have the summer evenings to themselves.

—The Boy's Branch of the Y. M. C. A. have made preparations for a picnic to Boynton Beach, to-morrow, July 1st. They will go in stages, and expect a large number will avail themselves of the cheap trip, as much pleasure is promised.

—The peach growers of Hunterdon, Warren and Sussex counties feel greatly encouraged over flattering prospects of a good yield. The orchards look healthy and for the most part the trees are filled with green fruit. In many orchards it is noticed as a strange fact that the trees on the North side are loaded with fruit, while those on the south side are almost, if not entirely, bare of p aches.

—It is reported that an earthquake shock was distinctly heard in this city at 8.30 o'clock this morning. Mrs. Ann Collier, of East Sixth street, heard reports which she thought were caused by rock-blasting. In North Plainfield the shock was more severe. Mr. A. P Smalley says he felt the jarring distinctly, and that it disturbed his tools on some shelves. People living up stairs were down thinking something heavy had fallen. Other residents of North Plainfield had similar experiences.

Was it a Hopeless Case?

That is what a correspondent wants to know concerning a young lady whom he saw acting strangely on one of the public thoroughfares last evening. He says she possessed many interesting points and several large bundles, and taken altogether it was a sight not soon to be forgotten not so much perhaps because she was a good-looking young lady and carrying the aforesaid bundles, as from the fact that she was deeply engrossed in dissecting a baby, to the utter disregard of gaping people and the safety of the bundles mentioned. The correspondent inclined his left ear just a little forward and caught the following words murmured softly: "He loves me—a little—a great deal—passionately—not at all," and the correspondent affirms that when the "last sentence fell from her rosy lips, there issued a groan, and she grabbed her bundles in a tighter grasp, and hastened her gait in the direction of Morristown." Thus do even the little daisies fulfil their mission.

Bi. Club Notes.

The Union County wheelmen will have a parade at Westfield on the morning of July 4th, and will afterwards ride to Orange and take part in the races.

Chief Consul J. H. Cooley has something to say about the future of the League, and its *work in the State for wheelmen*, also some few St. Louis incidents that were decidedly personal, and made excellent Consul Brown wince not a little.—L. A. W. Bulleton.

The new club house of the Union County wheelmen at Westfield is completed, and the work of interior decorating and furnishing is being pushed forward rapidly. The formal house-warming will not occur until fall.

Sunday's Programme.

We give the programme of the exercises at Trinity Reformed church which was crowded ont yesterday:

CHILDREN'S DAY PROGRAMME.

Recitation, "New Year Morning" ..Miss Daft
Recitation, "Voices Under the Ground"
.....Miss Emma Weihmann
Singing "The Children's Day" ..School
Recitation, "My Resolution" ..Herbert Martin
Recitation, "Always Lowly" .....
.....Miss Edith Tunison
Singing, "Under the Banner" ..School
Recitation, "Spring's Gentle Voices"
.....Misses Arnold, Beerbeck, Glen, Kresting
Recitation ..Master Willie Bartley
Secretary's Report by the Superintendent.
Recitation, "The Children's Time Table"
.....Miss Sallie Addis
Remarks ..By the Pastor

Inspected the Electric Lights.

A number of gentlemen from Springfield, Mass., Atlantic City and Staten Island arrived in this city in a parlor car attached to the 8.17 train last night for the purpose of seeing the electric light system in this city in working order, with a view of getting the company to introduce plants in Springfield and Alena. The gentlemen were just at the station by A. P. Wright, the genial manager of the company here and handsomely entertained during their stay. They left for New York on a late train and appeared well pleased with the system of lighting.

Suspicious.

Between nine and ten o'clock Sunday evening, a wild-looking man, apparently a German, made his appearance at the Electric light plant on Madison Avenue, and acted in an excited manner. He appeared to be looking for some person and stared wildly at every passer-by. He loitered around for about a half-hour and then took his departure without disclosing his identity. While he was hanging around the building he held his hands behind his back, and it is said he was leaving the premises noticed that he had a revolver in both hands. His strange actions cannot be accounted for.

A Record for Rain.

Last Wednesday was a "soaker." Thursday *was still more of a "soaker."* The consequence is that the month of June, 1887, can proudly take her position, young as she is, at the head of all rainy Junes than far recorded in the musty annals of the Signal Service Office. The rainfall for Wednesday was 2.12 inches and for Thursday 1.81 inches, for two days making a total of 3.93 inches, and raising the record of the month thus far to 7.51 inches. the next highest June rainfall being that of 4871, which was 7.17 inches. Evidently the pluviary attachments of the climate are not getting out of order. The rainstorm was however, unaccompanied by wind in this neighborhood. It extended throughout the coast and as far inland as Pittsburg and the east of Tennessee, although the remarkably heavy fall has not extended much north on the coast or south of Baltimore. The storm is moving northward.

Last there be any tendency to give June the championship in the production of rainwater it may be mentioned that she has not yet approached the "record," which is held by September, 1882. The rainfall that month was 14.51 inches, one day, the 23d alone giving the remarkable depth of 6.17 inches. This has not been surpassed by anything since the first record of rainfall made by Noah, at least so far as known to the weather observer. It is gratifying to note that, with the excess of moisture, the heat has much lessened.

Increasing the Salaries.

In accordance with the postal laws which regulate the salaries of postmasters according to the amount of business transacted in their offices, the salaries of the New Jersey postmasters have been recently readjusted, and for the most part increased. The amount of postal business in any community may be taken as an approximately accurate measure of the prosperity and We Jersey may therefore be considered as advancing with the rest of the Union and taking front rank in the procession. The salaries have been increased one hundred dollars each in twenty-eight cities and towns, two hundred dollars in three, three hundred dollars in one and seven hundred dollars in one. Only two offices in the State have been reduced—Wechawken and Bridgeton. Elizabeth is increased from $2,600 to $3,700, Plainfield from $2,500 to $2,600, Summit from $1,400 to $1,600, Westfield from $1,100 to $1,200, while Rahway remains at its old figures. Union county has therefore two thousand dollars to

Plainfield Evening News.

Is published every afternoon at

No. 7 SOMERSET STREET, PLAINFIELD, N. J.,

And delivered within the City and Borough limits at ten cents per week, or by mail postpaid to all parts of the United States, at $5 per year payable in advance.

TUESDAY, JUNE 28, 1887.

LAWLESSNESS IN LOUISIANA.

A Fight with Officers, in Which Eight Men Are Killed.

GIRARD, La., June 28.—A riot occurred at Oak Ridge at about 5:30 yesterday morning, in which one white man and six negroes were killed and several white men dangerously wounded. Parties arriving here give the following particulars of the affair:

Sheriff Bolton, of this parish, living near Oak Ridge indictments against a white girl. He was arrested, and when the deputies were making the arrest another, G. W. Higginbotham, was instantly killed, and Town Marshall John Conger, and Constables Gardner and Bekee were dangerously wounded. In addition to the above, Jerry Baldwin and one of his sons and four other negroes were killed. Great excitement prevails at Oak Ridge, and further trouble is apprehended. A courier from Oak Ridge reports everything quiet. Twenty men from Bastrop have arrived there. Town Marshal John Conger, who received seven bullet wounds, died at 3 p. m. yesterday.

THE TOLLIVERS AGAIN.

They Propose to Retake Morehead and Hang the Town.

FLEMINGSBURG, Ky., June 28.—The war in Rowan county is by no means ended. The escaped Tolliver's are in the county, and their home, rapidly recovering its large following, and are now preparing to retake Morehead, kill every man they can who took part in the recent killing of Craig Tolliver and three of his followers, and burn the town. Cal Tolliver, a brother of Craig, is at the head of the movement. Cal and a cousin, also named Tolliver, were arrested in Elliott county on Monday, on a warrant from Rowan county and placed in jail at Martinsburg. That night a mob of forty or fifty Tolliver ites broke down the jail door and released the prisoners. There is intense excitement throughout Rowan county in anticipation of the proposed row. John Rogers, one of the Tolliver men who had made a narrow escape at Morehead last Monday, was arrested at Mount Sterling. He is charged with murder.

The Missing Children Found.

NEW YORK, June 28.—Minetta and Fred die Nelson, the children who mysteriously disappeared from the home of their foster mother, Mrs. Hunn, Saturday, have been found. They had hired a room with a lady on Madison street, who on seeing an account of their disappearance in the papers had the lodgers were and gave them up. They say they left home for four their father, whom they had seen in the vicinity, would kidnap them.

The Trial of Murderer Hall.

PHILADELPHIA, June 28.—Messrs. Dubois and Scoday, the lawyers appointed by the court to defend Robert G. Hall, charged with the murder of Sophie E. Smith, alias Lillian Rivers, appeared in the court this morning and absolutely impossible and impracticable for them to proceed with the trial this term. Judge Wilson consented finally to postpone the case until Thursday next, when the case will finally be put on trial.

Bills that Are Not Laws.

ALBANY, N. Y., June 28.—The governor to-day filed with the secretary of state a list of over 100 bills not signed by him which, therefore, will not become laws. The ground taken by the governor in most cases for not signing is that the bills are special legislation. The governor also filed his approval of assembly bill No. 1200, entitled "an act in relation to electrical conductors in the city of New York."

The Pennsylvania Elections.

PITTSBURG, June 28.—Nine additional writs of election, issued in the first instance of the Pennsylvania Salt Manufacturing company, of Na rona, by common pleas court No. 2, were placed in the hands of Sheriff Gray to-day. This makes a thirty days' writs so far placed in the hands of the sheriff, twenty-five of which have been served.

Cows Don't Belong in the House.

WASHINGTON, June 28.—Some one returning to this country from Europe wanted to import one cow out of duty as household effects, but the treasury has decided that cows cannot be embraced in the category of "household effects," and, therefore, are not entitled to free entry on the ground that they are to be kept for personal use.

The Bankers Still in Jail.

CINCINNATI, June 28.—Harper and Hopkins, the Fidelity bank officials, are still confined in the county jail. They will not attempt to give bond until the excitement dies out, as it might lead to further arrests and incur more fines to overcome. Baldwin is in poor health, and home confinement, w.s. anxiety, tells on him.

In Favor of Returning to Work.

CUNNINTOWN, Pa., June 28.—At a meeting of the employes of the Fairchance Furnace company this evening, a vote was taken by ballot, and 110 men voted to resume work at the old wages, thirty-four voting to remain out. There are over 150 ovens at these works, and the break is considered an important one.

Jack Hussey's Murderer.

NEW YORK, June 28.—Coroner Eidman held an inquest at 10 o'clock yesterday morning in the case of Jack Hussey, who was shot on the night of June 2 by Officer Edward Hahn, of the Twelfth precinct, and died at Gouverneur hospital last Tuesday. The inquest showed that the murder was entirely unprovoked.

A New Coal Field.

EAST AURORA, N. Y., June 28.—Drillers who were securing a durable location at Sheldon Centre for putting down a test well, found a bed of coal near the surface, on the farm of J. Zehler, while digging into the side of the bank. The quantity and quality of the coal has not been learned.

Pinkerton's Thugs on Guard.

PITTSBURG, Pa., June 28.—The report that Pinkerton thugs would be employed to guard the coke works in the Connellsville region is officially confirmed. No arrangements have yet been made to import new workmen.

Shipping Commissioners.

WASHINGTON, June 28.—The secretary of the treasury has appointed James P. Freeman as shipping commissioner at Providence, R. I., and Wellington Titus to the same position at Waldoboro, Me.

FRANCE AND RUSSIA.

CAUSE OF THE FORMER'S ACTIVITY IN THE TURKISH MATTER.

A Belief That France is Acting in the Affair Simply as a Catspaw for Russia—European Plotting and Counterplotting.

LONDON, June 28.—The temporizing attitude of England in the matter of signing the Anglo-Turk treaty, in the negotiation of which the sultan's representatives display so much eagerness and enthusiasm, is the latest topic of discussion in political circles and among the general public as well. The belief is now gaining ground, receiving confirmatory evidence from constant accessions of information, that Russia and not France, is equally trustworthy, that France is acting in the affair simply as a catspaw for Russia.

Really, France's interests in Egypt are greater than those of Russia, but Russia's interests in Bulgaria and India are more vital than those of France, and from France's association with her in protesting against England's policy of control over the land of the Pharoahs Russia expects to secure a formidable ally in the prosecution of her Asiatic schemes and Bulgarian intrigues. Thus the combined opposition of those two powers to the Egyptian treaty may be regarded not so much a protest against the status of Egypt while the treaty provides for the entire abolition of a policy of coercion on the part of Russia against England in India.

That this view of the situation has forced itself upon the government is now apparent, obvious from the fact that Lord Salisbury held a prolonged conference with Sir Evelyn Baring, British diplomatic agent in Egypt, yesterday, extending the visit from the premier expressions of opinion almost identical with the foregoing. Lord Salisbury doubts the sincerity of France, but is convinced of the futility of her adopting the discourse other than the one she has taken, owing to the fact that France's isolation from the continental powers has made Russia's friendship necessary to her, and the knowledge that it can be acquired and maintained only through concerted action in matters suggested and conducted by Russia.

It is therefore apparent that Lord Salisbury sees nothing to be gained by insisting upon the ratification of the treaty, and would rather than not, as matters have shaped themselves, see Sir Henry Drummond Wolff's mission turn out a failure. The Egyptian matter can wait, but the question of Russia's supremacy on the Afghan frontier admits of no delay. Neither can England afford to place herself in a position offering to Russia the slightest pretext for aggression or retaliation, nor can she just now allow the sultan to get into trouble which England would have to help her out of. England has, in her history, gained a great many substantial victories by the exercise of patience, a virtue of which she possesses an abundance, and she can more profitably leave the Egyptian question for future decision, while prosecuting the settlement of more vital matters, than to continue a murder of insisting upon the possession of the Egyptian shadow, the Indian substance meanwhile drifting into the hands of her rival. Should the sultan, in this view of the situation it would not be rash to predict that the sultan's signature will not be appended to the treaty for a long time to come.

CAIRO, June 28.—It is stated that Ghazi Ahmed Mukhtar Pasha, the sultan's special envoy to Egypt in the work of investigating the affairs of the country, and on whose joint report with Sir Henry Drummond Wolff the new treaty was based, has received information that the sultan will not ratify the agreement.

Private advices from Constantinople say that the sultan was induced to sign the Anglo-Turkish treaty upon the representations of the British government that the agreement had been passed in the appending of the Turkish signatures to the instrument.

THE IRON WORKERS.

Both Sides Determined to Maintain Their Positions.

PITTSBURG, Pa., June 28.—At yesterday's session of the conference committees of iron manufacturers and the Amalgamated Association of Iron and Steel Workers it was agreed that the workmen's committee should prepare its ultimatum and present it to Joseph D. Weeks to-day. The manufacturers will meet on Thursday morning to consider this ultimatum and will make their reply at a conference in the afternoon.

Both sides are on an equal determination not to yield, and both appear to think that to-morrow's conference will settle the question whether there is to be a strike or not.

The puddlers' scale will expire Thursday, and if an agreement should not be reached on that day the mills will be shut down on Friday and a strike will practically have begun.

It is said that the ultimatum of the workmen will be the revised scales as proposed originally, with some liberal concessions on the extras in order to carry through the general settlement.

A Mysterious Shooting Affair.

NEW ALBANY, Ind., June 28.—Bessie Aldridge, aged 18, residing in Jeffersonville, was shot through the brain while seated in her parlor at 10 o'clock Sunday night and died yesterday morning at 5 o'clock. George Hicks, her suitor, to whom she was to have been married in two months, was the only person present when the deed was committed. Jekel claims he was on a lounge asleep, and that only a few moments before Bessie had asked him for his revolver, saying she wanted it to remember him by. He claimed giving it to her, and soon dropped asleep. The report of the pistol awakened him, he says, when he saw Bessie's head fall back on the floor, meanwhile calling to her parents. The pistol was lying on the floor when they entered. The affair is shrouded in great mystery, and a rigid investigation will be had.

Gen. Fairchild at Newark.

NEWARK, N. J., June 28.—Ex-Governor Fairchild, commander in chief of the Grand Army of the Republic, arrived in this city yesterday morning. A great company of Grand Army of the Republic posts, under the auspices of Admiral Post No. 71, The public buildings were draped with flags and bunting. A public reception was tendered Gen. Fairchild at the headquarters of the Lincoln post, lighted up with Chinese lanterns. In the evening the general was given a dinner by the local government authorities, Mayor Haynes presiding. After the dinner there was a grand parade by the Grand Army of the Republic posts, Gen. Fairchild reviewing them at the city hall. The general and staff returned to New York at the end of the exercises.

An Adopted Son's Ungratefulness.

NEWPORT, R. I., June 28.—William C. Swinburne has been arrested, charged with robbing the house of his adopted father, Assemblyman and ex-Mayor Swinburne, of valuable plate the night before. Mr. Swinburne is much broken down by the disgrace of his protege. The boy has been a source of much trouble to him, though he has lavished money and care upon him.

THE RAILROADS AND THE LANDS.

The Corporations Believe They Have Been Greatly Abused.

WASHINGTON, D. C., June 28.—All of the land grant railroads of the country have returned answers to Secretary Lamar's order, requiring them to show cause why the several orders of withdrawal from settlement of the lands within their indemnity limits should not be revoked, and the lands thrown open to settlement.

With but few exceptions the roads in reply state that if they but their due they would receive more land. In the case now here, on appeal from the decision of the secretary of the interior, the St. Paul, Minneapolis and Manitoba Railroad Company state that it now has a case pending in the supreme court of the United States, which will, when decided, determine the status of that road before the law in regard to its land grant. The Northern Pacific Railroad state that they have earned 1,000,000 acres more land than they have received.

A WISCONSIN TOWN

Visited by a Disastrous Fire—Loss Over $100,000.

CHIPPEWA FALLS, WIS., June 28.—A large fire is raging at Marshfield, on the Wisconsin Central road. An engine has been sent from this place. The fire originated in the lumber yard of W. H. Upham, and spread with remarkable rapidity, destroying the entire plant of Upham, consisting of extensive lumber yards, saw mills, planing mills, warehouses and smaller buildings. All attempts to master the flames proved vain, and soon a conflagration of continually growing dimensions was the result. The principal portion of the town. The depot of the Wisconsin Central railroad was destroyed, along with the water tank and many cars. The round house escaped. The loss will of course other than the one she has taken, owing to the fact that France's isolation from the continental powers has made Russia's friendship necessary to her, and the knowledge that it can be acquired and maintained only through concerted action in matters suggested and conducted by Russia.

It is therefore apparent that Lord Salisbury sees nothing to be gained by insisting upon the ratification of the treaty, and would rather than not, as matters have shaped themselves, see Sir Henry Drummond Wolff's mission turn out a failure. The Egyptian matter can wait, but the question of Russia's supremacy on the Afghan frontier admits of no delay. Neither can England afford to place herself in a position offering to Russia the slightest pretext for aggression or retaliation, nor can she just now allow the sultan to get into trouble which England would have to help her out of. England has, in her history, gained a great many substantial victories by the exercise of patience, a virtue of which she possesses an abundance, and she can more profitably leave the Egyptian question for future decision, while prosecuting the settlement of more vital matters, than to continue a murder of insisting upon the possession of the Egyptian shadow, the Indian substance meanwhile drifting into the hands of her rival. Should the sultan, in this view of the situation it would not be rash to predict that the sultan's signature will not be appended to the treaty for a long time to come.

CAIRO, June 28.—It is stated that Ghazi Ahmed Mukhtar Pasha, the sultan's special envoy to Egypt in the work of investigating the affairs of the country, and on whose joint report with Sir Henry Drummond Wolff the new treaty was based, has received information that the sultan will not ratify the agreement.

Private advices from Constantinople say that the sultan was induced to sign the Anglo-Turkish treaty upon the representations of the British government that the agreement had been passed in the appending of the Turkish signatures to the instrument.

THE IRON WORKERS.

Both Sides Determined to Maintain Their Positions.

PITTSBURG, Pa., June 28.—At yesterday's session of the conference committees of iron manufacturers and the Amalgamated Association of Iron and Steel Workers it was agreed that the workmen's committee should prepare its ultimatum and present it to Joseph D. Weeks to-day. The manufacturers will meet on Thursday morning to consider this ultimatum and will make their reply at a conference in the afternoon.

The puddlers' scale will expire Thursday, and if an agreement should not be reached on that day the mills will be shut down on Friday and a strike will practically have begun.

It is said that the ultimatum of the workmen will be the revised scales as proposed originally, with some liberal concessions on the extras in order to carry through the general settlement.

Escape of a Life Prisoner.

HARTFORD, Conn., June 28.—Oscar Graves, a life prisoner, who was convicted of murder in the second degree, in 1879, for the killing of station agent Bebe, of Burnside, escaped from the State prison, at Wethersfield, late yesterday afternoon. With a gang of men he was painting a barn outside the prison walls and this morning he could not be found. He was near the banks of the Connecticut. This is the second life prisoner who has escaped from this keeper, and the third since Warden Chamberlain took charge of the prison only five years ago. Warden Chamberlain, with a number of men, is searching for Graves, with little chance of success, as he had been allowed to discard his prison suit.

Victorious Strikers.

CLEVELAND, June 28.—The trouble between the New York, Pennsylvania and Ohio Railroad company and the ore handlers has been satisfactorily adjusted, and work was resumed yesterday morning. The strike commenced on May 9, when 250 men threw down their shovels and refused to work longer unless given $2 per day instead of $1.75 as they had been receiving. Since that time and up to this morning work on the docks has been practically suspended. The men are now getting their $2 per day and feel satisfied. The various vessel owners who are engaged in the ore trade have been notified of the end of the strike, and a number of vessels is expected to arrive in a day or two.

An Abduction Stopped by a Bullet.

HENDERSON, Ky., June 28.—Four miles from Dekoven, Union county, two farmers, W. T. Hart and J. C. Pickett, became indebted to a saloon keeper, when Hart shot and fatally wounded Pickett. It is learned that Pickett, who is a married man, was attempting to abduct one of Hart's daughters. After being shot he crawled into a buggy with the young lady, driving away rapidly, Hart following. Pickett being closely pressed left the buggy and took to the woods, but soon fell from exhaustion caused by the loss of blood. He was picked up and carried to the house of a neighbor, and is now in a dying condition.

A Despondent Sculptor.

NEW YORK, June 28.—Rupert Schmid, the sculptor, disappeared from his home in this city on June 20, and a day or two later sent a letter to his wife from Staten Island that he was tired of life. He has not been heard from since, and Mrs. Schmid thinks he has killed himself. He was despondent on account of the rejection of his design for the monument to the murdered girl Tilly Smith, at Hackettstown. He was a native of Bavaria, and 33 years of age. He had executed several well known works, including a bust of Pope Leo XIII and Thomas A. Edison.

Imported Workers Must Go.

NEW YORK, June 28.—Collector Magone has decided that the eighteen French silk weavers who landed at Castle Garden Sunday, and were to work for Mr. Chaffanjon, of Jersey City, must be sent back to France, under the statute against importation of laborers under contract. Mr. Chaffanjon will apply for an injunction.

HARVARD VS. COLUMBIA

THE GREAT FOUR-MILE RACE BETWEEN THE RIVAL COLLEGES.

Harvard Wins the Contest, and Both Teams Beat the Best Record Hitherto Made by College Oarsmen—An Exciting Contest.

NEW LONDON, Conn., June 28.—The four mile race between the Harvard and Columbia eights on the Thames yesterday afternoon, requiring them to show cause why the several orders of withdrawal from settlement of the lands within their indemnity limits should not be revoked, and the lands thrown open to settlement.

With but few exceptions the roads in reply state that if they but their due they would receive more land. In the case now here, on appeal from the decision of the secretary of the interior, the St. Paul, Minneapolis and Manitoba Railroad Company state that it now has a case pending in the supreme court of the United States, which will, when decided, determine the status of that road before the law in regard to its land grant. The Northern Pacific Railroad state that they have earned 1,000,000 acres more land than they have received.

He had executed several well known works, including a bust of Pope Leo XIII and Thomas A. Edison.

Imported Workers Must Go.

NEW YORK, June 28.—Collector Magone has decided that the eighteen French silk weavers who landed at Castle Garden Sunday, and were to work for Mr. Chaffanjon, of Jersey City, must be sent back to France, under the statute against importation of laborers under contract. Mr. Chaffanjon will apply for an injunction.

HARVARD VS. COLUMBIA

THE GREAT FOUR-MILE RACE BETWEEN THE RIVAL COLLEGES.

Harvard Wins the Contest, and Both Teams Beat the Best Record Hitherto Made by College Oarsmen—An Exciting Contest.

NEW LONDON, Conn., June 28.—The four mile race between the Harvard and Columbia eights on the Thames yesterday afternoon, requiring them to show cause why the several orders of withdrawal from settlement of the lands within their indemnity limits should not be revoked, and the lands thrown open to settlement.

With but few exceptions the roads in reply state that if they but their due they would receive more land. In the case now here, on appeal from the decision of the secretary of the interior, the St. Paul, Minneapolis and Manitoba Railroad Company state that it now has a case pending in the supreme court of the United States, which will, when decided, determine the status of that road before the law in regard to its land grant. The Northern Pacific Railroad state that they have earned 1,000,000 acres more land than they have received.

A WISCONSIN TOWN

Visited by a Disastrous Fire—Loss Over $100,000.

CHIPPEWA FALLS, WIS., June 28.—A large fire is raging at Marshfield, on the Wisconsin Central road. An engine has been sent from this place. The fire originated in the lumber yard of W. H. Upham, and spread with remarkable rapidity, destroying the entire plant of Upham, consisting of extensive lumber yards, saw mills, planing mills, warehouses and smaller buildings. All attempts to master the flames proved vain, and soon a conflagration of continually growing dimensions was the result. The principal portion of the town. The depot of the Wisconsin Central railroad was destroyed, along with the water tank and many cars. The round house escaped. The loss will of course other than the one she has taken, owing to the fact that France's isolation from the continental powers has made Russia's friendship necessary to her, and the knowledge that it can be acquired and maintained only through concerted action in matters suggested and conducted by Russia.

It is therefore apparent that Lord Salisbury sees nothing to be gained by insisting upon the ratification of the treaty, and would rather than not, as matters have shaped themselves, see Sir Henry Drummond Wolff's mission turn out a failure. The Egyptian matter can wait, but the question of Russia's supremacy on the Afghan frontier admits of no delay. Neither can England afford to place herself in a position offering to Russia the slightest pretext for aggression or retaliation, nor can she just now allow the sultan to get into trouble which England would have to help her out of. England has, in her history, gained a great many substantial victories by the exercise of patience, a virtue of which she possesses an abundance, and she can more profitably leave the Egyptian question for future decision, while prosecuting the settlement of more vital matters, than to continue a murder of insisting upon the possession of the Egyptian shadow, the Indian substance meanwhile drifting into the hands of her rival. Should the sultan, in this view of the situation it would not be rash to predict that the sultan's signature will not be appended to the treaty for a long time to come.

CAIRO, June 28.—It is stated that Ghazi Ahmed Mukhtar Pasha, the sultan's special envoy to Egypt in the work of investigating the affairs of the country, and on whose joint report with Sir Henry Drummond Wolff the new treaty was based, has received information that the sultan will not ratify the agreement.

Private advices from Constantinople say that the sultan was induced to sign the Anglo-Turkish treaty upon the representations of the British government that the agreement had been passed in the appending of the Turkish signatures to the instrument.

THE IRON WORKERS.

Both Sides Determined to Maintain Their Positions.

PITTSBURG, Pa., June 28.—At yesterday's session of the conference committees of iron manufacturers and the Amalgamated Association of Iron and Steel Workers it was agreed that the workmen's committee should prepare its ultimatum and present it to Joseph D. Weeks to-day. The manufacturers will meet on Thursday morning to consider this ultimatum and will make their reply at a conference in the afternoon.

Both sides are on an equal determination not to yield, and both appear to think that to-morrow's conference will settle the question whether there is to be a strike or not.

The puddlers' scale will expire Thursday, and if an agreement should not be reached on that day the mills will be shut down on Friday and a strike will practically have begun.

It is said that the ultimatum of the workmen will be the revised scales as proposed originally, with some liberal concessions on the extras in order to carry through the general settlement.

Escape of a Life Prisoner.

HARTFORD, Conn., June 28.—Oscar Graves, a life prisoner, who was convicted of murder in the second degree, in 1879, for the killing of station agent Bebe, of Burnside, escaped from the State prison, at Wethersfield, late yesterday afternoon. With a gang of men he was painting a barn outside the prison walls and this morning he could not be found. He was near the banks of the Connecticut. This is the second life prisoner who has escaped from this keeper, and the third since Warden Chamberlain took charge of the prison only five years ago. Warden Chamberlain, with a number of men, is searching for Graves, with little chance of success, as he had been allowed to discard his prison suit.

Victorious Strikers.

CLEVELAND, June 28.—The trouble between the New York, Pennsylvania and Ohio Railroad company and the ore handlers has been satisfactorily adjusted, and work was resumed yesterday morning. The strike commenced on May 9, when 250 men threw down their shovels and refused to work longer unless given $2 per day instead of $1.75 as they had been receiving. Since that time and up to this morning work on the docks has been practically suspended. The men are now getting their $2 per day and feel satisfied. The various vessel owners who are engaged in the ore trade have been notified of the end of the strike, and a number of vessels is expected to arrive in a day or two.

An Abduction Stopped by a Bullet.

HENDERSON, Ky., June 28.—Four miles from Dekoven, Union county, two farmers, W. T. Hart and J. C. Pickett, became indebted to a saloon keeper, when Hart shot and fatally wounded Pickett. It is learned that Pickett, who is a married man, was attempting to abduct one of Hart's daughters. After being shot he crawled into a buggy with the young lady, driving away rapidly, Hart following. Pickett being closely pressed left the buggy and took to the woods, but soon fell from exhaustion caused by the loss of blood. He was picked up and carried to the house of a neighbor, and is now in a dying condition.

A Despondent Sculptor.

NEW YORK, June 28.—Rupert Schmid, the sculptor, disappeared from his home in this city on June 20, and a day or two later sent a letter to his wife from Staten Island that he was tired of life. He has not been heard from since, and Mrs. Schmid thinks he has killed himself. He was despondent on account of the rejection of his design for the monument to the murdered girl Tilly Smith, at Hackettstown. He was a native of Bavaria, and 33 years of age. He had executed several well known works, including a bust of Pope Leo XIII and Thomas A. Edison.

Imported Workers Must Go.

NEW YORK, June 28.—Collector Magone has decided that the eighteen French silk weavers who landed at Castle Garden Sunday, and were to work for Mr. Chaffanjon, of Jersey City, must be sent back to France, under the statute against importation of laborers under contract. Mr. Chaffanjon will apply for an injunction.

SPORTING MATTERS.

The Record of Baseball Games and Turf Events.

Ball games yesterday: At Detroit—Morning game, Detroit, 9; New York, 0; afternoon game, New York, 11; Detroit, 4. At Indianapolis—Philadelphia, 10; Indianapolis, 8. At Chicago—Boston, 17; Chicago, 11. At Pittsburg—Pittsburg, 9; Washington, 4. At New York—Baltimore, 6; Metropolitan, 3. At Cincinnati—Louisville, 12; Cincinnati, 11. At Union—Union, 9; Rochester, 6. At Syracuse—Stars, 13; Buffalo, 0. At Danbury—Hartford, 8; Danbury, 7. At New Haven—New Haven, 10; Waterbury, 3. At Newport—Toronto, 12; Lockports 4. At Hoboken—Cuban Giants, 3. Gorhams, 5.

DETROIT, Mich., June 28.—Yesterday's morning game between Detroit and New York was characterized by the former club. The Detroits made two runs in the second inning and four in the third. Then Gore, saying he was ill, suddenly dropped out of center field. It looked as if he was feigning, and the crowd hooted and yelled when the New Yorks went to put in a new man. It appeared to be an attempt to get Tiernan into the box to relieve the pitching Mickey Welch, and then give Tiernan the benefit of his regular catcher, Brown. Umpire Valentine refused to allow the substitution that he was injured and insisted upon his remaining in the position in the field. This Captain Ward would not permit him to do, but offered to put O'Brien in the box instead of substitute Brown as catcher. This the umpire would not consent to. Gore would not go into the game again, and after waiting the usual time the umpire declared the game forfeited to the Detroits by a score of 9 to 0, much to the disgust of the 1,700 spectators, who hissed the New Yorkers as they left the field. The actual score was: Detroit, 6; New York, 0.

NEW YORK, June 28.—There was a fine attendance at Sheepshead yesterday. Weather and track fine. First race, three-fourths of a mile; Ovid first, Ieiat second, Pat Crocles third; time, 1:15¼. Second race, one mile and an eighth; Firenzi first, Lady Primrose second, Jay third; time, 1:56. Third race, three fourths of a mile; Twilight first, Mercury second, Fordham third; time, 1:16¾. Fourth race, one mile and an eighth; Farinaldi first, Rose second, Tele Don third; time, 1:54½. Fifth race, one mile and a half; Exile first, Greenfield second, Ten Strike third; time, 2:34½. Sixth race, one mile and a quarter, over hurdles; Sam Brown first, Value second; others fell; time, 2:20.

NEW YORK, June 28.—There was a good attendance at Brighton Beach yesterday. First race, three-quarters of a mile; Lizzie first, Bankrupt second, Keokuk third; time, 1:14½. Second race, one mile and an eighth; Frolic first, The Owl second, Standiford Keller third; time, 1:56¾. Third race, suburban renewal, one mile and a quarter; Rich men first, Elkwood second, Biscuit third; time, 2:07¾. Fourth race, seven-eighths of a mile; Armsteel first, Judge Duke second, Susie Forbes third; time, 1:28½. Fifth race, one mile and a quarter; Le Logos first, Barnum second, Luke Arnold third; time, 2:08¾. Sixth race, a mile and a quarter, over hurdles; Harry Mann first, Jack second, Tallyrand third; time, 2:34.

LONDON, June 28.—At Aberdeen Park yesterday, Keen, the American bicycle racer, cyclist, made the best time on record for one-quarter of a mile against time, riding the distance in 37 1-5 seconds. Woodside tried, but failed to lower the record for five miles.

NEW YORK, June 28.—Richard K. Fox received notice by cable from London yesterday that Charles Rigby, champion pugilist of England, had accepted Jake Kilrain's challenge to fight for the championship of the world, and would sign articles as soon as they are received.

BERLIN, June 28.—The North German Derby, run at Hamburg yesterday, was won by Rothschild's Zeupon.

In the Essex regatta yesterday the Franklin crew won the emperor's challenge cup for four oared outriggers, and in the Berlin regatta the Berliner Ruder club won a similar cup, under the same conditions.

Cornell's Prosperity.

SYRACUSE, N. Y., June 28.—A. S. Barnes, of New York, will, it is announced, soon present a $40,000 building for the students' Christian Association of Cornell university. The university sold on Saturday the pine timber on 25,000 acres of land in Wisconsin for more than $500,000.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 28.—Money closed at 6 per cent. The lowest rate was 5 and the highest 5-16 of 1 per cent per diem, in addition to the legal interest. Exchange closed steady; posted rates, $4.84@4.84½; actual rates, $4.83½@4.83¾ for sixty days and $4.85@4.85 for demand. Governments closed firm; currency 6s, 103½ bid; 4s, coup., 125½ bid; 4½s, do., 109½ bid.

The stock was feverish, irregular and weak throughout the afternoon. The last attempt to sell caused a break in the entire list. There was no effort given to the support. Soon after the failure was announced shortly after 1 o'clock, that of C. W. Kohlsaat. The failure attracted but little attention, the street discounting it as an advance of 1½ per cent. The afternoon's dealings were on a smaller scale than those of the morning hours.

General Markets.

NEW YORK, June 27.—FLOUR—Closed steady at unchanged prices; winter wheat extra, $3.90@4.80; city mill extra, $4.90@5.00; superfine flour closed dull; common to choice extra, $3.30@5.

WHEAT—Options were moderately active and irregular, closing weak. Strong cables and an advanced 1 cent in the early dealings, while the later months were weak and declined ½@¾c. Subsequently the buoyancy returned, but was lost, and the market closed barely steady at a fractional ½@¾c net lower. Spot sales of No. 2 red winter, 89@89½c; No. 3 do., 87c; No. 2 red winter, June, 89@89½c; do., July, 84½@85½c; do., Aug., 84½@85½c.

CORN—Options were dull and featureless, closing heavy at ½@¾c lower. Spot sales of No. 2 mixed at 46¾c; ungraded mixed, 46@47c; No. 2 mixed, July, 46 7-16c; do., Aug., 47c; do., Sept., 48c.

OATS—Options were firm, but closed without decided change. Spot sales closed steady at ¼c changed. Spot sales of No. 1 white state at 32½c; No. 2 do., 32½c; No. 2 mixed, June, 32½c; do., July, 32½c.

RYE—Quiet; western, 54@56½c; state, 60@62c.

BARLEY—Nominal.

PORK—Dull and heavy; old and new mess, $14.50@15.25.

LARD—Closed firm, but quiet; cash, $6.77½; July, $6.70; Aug., $6.81.

BUTTER—Dull; western creamery extra, 17@19c; imitation do., 10@12c.

CHEESE—Dull, but firm; western flat, 7¼@8c; creamery do., fair part skims, 6½@7½c.

EGGS—Firm; eastern firsts, 10½@11c; western firsts, 10½c.

SUGAR—Raw dull; fair refining, 4 7-16c. Refined quiet; cut loaf and crushed, 6¾c; cubes, 6 1-16c; powdered, 5 13-16@5¾c; granulated, 5 15-16c; mold A, 5 15-16c; confectioners' A, 5 13-16c; coffee standard, 5¾c; coffee off A, 5 5-16c; white extra C, 5½c; extra C, 4 13-16@5c; C, 4¾@4¾c; yellow, 4¾@4¾c.

KALAKAUA'S CHANCES.

PROSPECT THAT THE BOODLE KING WILL BE DETHRONED.

The Hawaiian Consul at San Francisco Reports the Shipment of Arms for the Hostiles, and Bloodshed May be Expected at any Time.

SAN FRANCISCO, June 28.—A letter received from the Mexican minister at Honolulu by Gen. Salomon says the outlook on the Sandwich islands is very serious, and that reports of bloodshed may be expected by the next steamer. He says a revolution is in progress and the overthrow of Kalakaua certain.

The United States man-of-war Adams, which left Callao for this port May 16, by way of the Sandwich Islands, has been ordered to remain there until further orders. Seven officers an eleven seamen were ordered from Mare Island on Saturday's steamer to augment her crew, and it is expected that fifty more men will be ordered forward. Twenty French seamen have been ordered hence to the islands by today's steamer for the French man-of-war now at Honolulu. An English man-of-war at Victoria has been ordered to proceed to Honolulu, and it is reported that a revenue

DEALERS IN PETROLEUM.

The New York Consolidated Stock and Petroleum Exchange.

The rapid growth of New York city's business has created a new organization known as the Consolidated Stock and Petroleum exchange, which is erecting a magnificent structure at the corner of Exchange place and Broadway, and bids fair to soon rival the old and noted stock exchange. The new body now has 2,403 members, and seats worth $900 six months ago are now held at $1,500, with a rising tendency. In 1886 the building company was organized and the managers promise to have the building ready for occupancy next fall. It has a frontage on Broadway of 90 feet 11 inches, on Exchange place of 123 feet 4 inches and on New street of 87 feet 7 inches. It has a basement story of 15 feet, a main story of 36 feet for the exchange, and above that four stories for offices, of which there are to be 120, to be reached both by elevators and large stairways, without going through the exchange. All the offices and rooms will be lighted from an interior courtyard, and will be handsomely furnished in hard wood, the interiors of light colors. There will be a fine restaurant in the basement and all the rooms will be heated by steam.

The new exchange is the result of a consolidation. The New York Mining Stock exchange was organized in 1875 and has successively absorbed the National Petroleum exchange, the Miscellaneous Security board, the American Mining board and the New York Petroleum and Stock board—the result being the present powerful Consolidated Stock and Petroleum exchange. It has all the dash and vigor of a young and growing body, and on several recent days more shares of Standing stock were traded in on the Consolidated than on the old stock exchange. But the growth of business will

THE NEW EXCHANGE BUILDING.

soon justify the existence and insure the continued activity of both. At present the membership of the new organization consumbers that of the stock exchange by some 400.

His Hat Full of Eggs.

"Have you heard of the latest novelty in hats?" inquired a man of his companion, as they were each quaffing a mug of brown stout.

"No, what is it?" was the response.

"Well, it is a hat worn by a man who serves morning papers on a suburban route. A number of his customers, nearly all of whom keep chickens, have noticed for several weeks past that their eggs had acquired a habit of disappearing each morning, after the paper was deposited on the sill of the kitchen window. Suspicion fell upon the dispenser of the product of the press, and a watch was set, although no one could imagine where he could stow the eggs. The denouement was startling in its novelty.

"On the side of his hat, which was a stiff one, he had a panel that worked by a spring. He would pull the latter, the panel would slide back, in would drop the egg or eggs, and back would spring the panel. By this method he managed to carry home every day a dozen or more eggs. At last fashion and utility have joined hands."—Philadelphia Call.

Death of W. E. Sheridan.

The actor, W. E. Sheridan, who died in Australia a short time ago, was perhaps best known as a star in the role of Louis XI, though he was noted as one of the most versatile geniuses of the profession, and supported John T. Raymond as a comedian; did high comedy with Mrs. Dean Hayne, and was at various times leading man for stars as diverse as Lucille Western, Charlotte Thompson and Adele Belgarde. He began his starring career in Halifax in 1879. His first Australia visit was begun in 1882. He married Louise Davenport. In 1880, when he went to England with "The Danites," Mamie Sheridan accompanied him, though not to play. Among her victims of the Metis, which sunk in Long Island sound, was the girl born to Sarah Hayes, Sheridan's first wife, a Boston girl. Mamie Sheridan was also at one time his wife.

W. E. SHERIDAN.

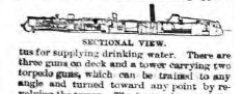
Sheridan, in "The Duke's Motto," was also very successful, and critics say some of his best work was as the dialect Italian in "Our Boarding House," which he first undertook with Robson and Crane in New York.

Another Destroyer.

The British have still another torpedo boat launched, a boat supposed to unite in the highest degree the qualities of speed and destructiveness. It is known as the Falke (the name of a class, not of one boat), and has made the extraordinary speed of twenty-six and one-half miles an hour, carrying a load of fifteen tons, and maintaining that speed

FALKE TORPEDO BOAT.

for two hours. The boat is 135 feet long, with fourteen feet breadth of beam, and its steering capacities are so perfect that it went around a circle with a diameter of 100 yards. The boiler is capable of developing 1,600 horse power, and there are six engines—one for driving the boat, two for compressing the air for the torpedoes, one for the dynamo that gives the electric light, one for forcing air, and one to be run with the distilling appara-



SECTIONAL VIEW.

tus for supplying drinking water. There are three guns on deck and a tower carrying two torpedo guns, which can be trained to any angle and turned toward any point by revolving the tower. The forward part of the boat is thoroughly protected by a "turtle back," within which are good quarters for the crew. Altogether the Falke type adds some very formidable units to the fleet of scientific destroyers now afloat.

EARLY LOCOMOTIVES.

DAVID MATTHEW, WHO RAN THE FIRST ONE IN NEW YORK.

He Is Still Living, and Resides in California—His Life on the Rail and the Quaint Drawings He Has Made of the Old Engines.

When a person com[es] to the country is fairly gridironed wi[th] railroad tracks; that the locomotive stands nearly any point in [the] country; that it is [ea]sy to take him to almost any point in the [co]ntinent can be [re]ached in less than a week; he can scarcely realize that the passenger locomotive is [a] little over sixty years old; that only two generations have enjoyed the facilities it affords, and that only the locomotive of a few years ago can be depicted as the evolution of the locomotive. These sketches have been photographed, and show every style, from the first crude specimens to the magnificent iron horse of today. The sketches are interspersed with quaint descriptive matter, written at San Francisco, Cal., July, 1885," as Mr. Matthew says, "for the boys by their father, David Matthew, who ran the De Witt Clinton, drawing the first passenger train in New York state, Aug. 9, 1831, Mohawk and Hudson railroad."

DAVID MATTHEW.

The history, as written by Mr. Matthew, commences as follows:

See the pioneer railways, with their locomotive engines drawing their trains, the fathers, inventors, on them. See their names and the places that they were first invented and introduced.

"First in world—Wales, patent 1802. Richard Travithick, February, 1804. Train ten ton bar iron. Merthyr Tydvill railway, South Wales, 1804. (Drawing of train.)

THE TOM THUMB.

Second in world—Wylam T. Hackworth and T. Waters, 1811. Twelve ton patent, 1813. Killingworth railway, 1814. (Drawing of train with luntsmen and hounds.)

Third in world—Wylam, Timothy Hackworth and J. Foster, 1812. Two cylinder locomotives, train sixteen cars coal, a chaldron coal in each. A number locomotives built at Wylam railway. This established locomotives. Wylam and Lamington railway, 1812.

Fourth in world—J. Blenkinsop patent, 1811. Rack rail and engine. Middleton, near Leeds. Messrs. Fenton, Wood, Murry & Jackson, builders, Leeds. A number locomotives built at Middleton railway and Leeds railway and Kenten and Fawdown Colliery railway, 1812 and 1813. Aug. 12, 1812. They considered for many years to be one of the principal curiosities of the day.

Mr. Matthew then sketches the Stonebridge Lion, crossing the west branch of the Lackawaxen river, on the Delaware and Hudson Canal company's road, Honesdale, Pa. Of it he says: "Stonebridge Lion. R. Allen, all alone, crossing river, Aug. 8, 1829; short run of a few miles, and then abandoned; no further use of locomotive on railroad; locomotive housed for many years."

Next comes the locomotive Tom Thumb, which ran for a short distance on the road of the Baltimore and Ohio railroad, Aug 28, 1830.

Mr. Matthew appends these remarks:

Peter Cooper, locomotive and party at Relay house, on Baltimore and Ohio railroad, Aug. 28, 1830. Peter abandons locomotive engine, and hoists run the road with horse mill, on Baltimore and Ohio railroad, 31.

He then gives "The first passenger train hauled on a railroad in America, Charleston and Hamburg railroad, S. C. The locomotive Best Friend, speed thirty to thirty-five miles an hour, November 1, 1830, J. D. Petsch, M. M., N. W. Darrell, engineer. June 17, 1831, exploded boiler. Nov. 3, wheels gave out."

His picture bears in addition this inscription: "Drew this picture on 50th anniversary of setting out of Best Friend by me at West Point foundry (where she was built)."

The "Best Friend" and "West Point," also run on the Central and Hudson River railroad.

Here the first engines made in America. They were built, the first for E. L. Miller, and the second for H. Allen, at the West Point foundry shops, New York city.

BROTHER JONATHAN.

Mr. Matthew then gives a sketch of the train first run by him on the Mohawk and Hudson River railroad, Aug. 9, 1831. This is the one with which the public was made familiar at the centennial by the sketch of locomotive and four coaches, in one of which Thurlow Weed is to be seen. Each of the party wore a high hat, and the engine wore the first cab ever used on a train. David Matthew, engineer; John Hampson, acting fireman.

The next sketch is of the first train drawn by an English built engine in America, Mohawk and Hudson River railroad, September, 1831. John Hampson, engineer; John Green, fireman. It is labeled "Second cab," and has a big barrel on the tender for water.

Then comes Mr. Matthew's special pride, the first engine to run on tracks, the Brother Jonathan, American built engine, Mohawk and Hudson River railroad, August, 1832.

Upon this sketch Mr. Matthew inscribes these words: "Built in West Point Foundry Works in 1832. David Matthew, engineer; Abner Mills, fireman." [Note.—November, 1882. I ran the Brother Jonathan over the M. and H. R. R., from Dead West Plain to dead East Plain, fourteen miles, in thirteen minutes. No one was killed. Forty-five seconds. There was some fly in her. Drawn at Stonebridge, June, 1885, by the old boy. See last cab.]

The next sketch gives the Hudson river at Albany, with a packet boat bringing the locomotives for the railroad, which is traced up the inclined plane west.

The draughtsman then depicts Schenectady as the birthplace of many improvements in railroads and locomotives, and the head of West Plain, one mile from that city, as the spot where the first English built engine was put on track and drew a train of cars on the American continent. That locomotive was called Robert Fulton and was afterward changed to John Bull, while she was Americanized by putting forward trucks under her.

The improvements mentioned are: Circular engine house; large granite turn-table; hot water reservoir, increasing locomotive capacity; system of fitting wheels and axles to gauges and putting them on by pressure without keys; Bell sands. "Best pioneer hand cars, first used by the inventor and his apprentices to run to trust brooks and hunting grounds on the line of the railroad; then adopted for the purpose of running dispatches before the day of telegraphs, and for the use of road bands. See housing of locomotives, steam connections for pumps to protect them from freezing, and to make water from snow. See locomotive snow plows with side wings, and series of scrapers and spring poles to clean track of snow and ice."

"See note on snow plow. Not until 1836 was a snow plow constructed and successfully introduced on the Utica and Schenectady railroad. A drawing of it was procured and taken to Austria by the chief engineer of the Vienna railroad in the spring of 1837. A full description of it was sent to the Russian and Prussian governments by Chevalier Van Gousmer, the engineer of the St. Petersburg railroad. A model was prepared at the order of Col. Melenkoff, of the Russian Engineer Corps, and one was ordered by the king of Prussia through the minister at Washington, and one for the emperor of Austria by one of the professors in Union college at Schenectady. All of which were forwarded by David Matthew, the inventor and interdisner and chiefe locomotive engineer and machineus of the Utica and Schenectady railroad."

THE BEST FRIEND.

Next follows the pioneer cowcatcher for night protection and pioneer night trains. The cowcatcher protected the "light engines, not heavy enough to encounter stock in the Mohawk valley, once the great hunting ground of the Mohawk chiefs, now passed away."

The last invention of the old man was made in 1840, and was a curiously constructed smoke pipe and arrangement of the cylinders.

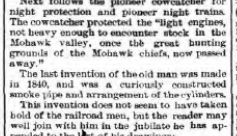
This invention does not seem to have taken hold of the railroad men, but the reader may well join with him in the jubilee he has appended to the list of his drawings:

"What I have see is one of the greatest wonders of this world, the first application of steam to the locomotive engine on the American continent, May, 1829. I crossed the continent 1869, and I have seen and helped to build, barnis and trail it, the locomotive to the flying cars, when it was a colt, weight 3-4 tons, and see it and cares running and flying over valles, hills, mounting, rivers and through mountains from ocean to ocean, and where it can be see nearly everywhere this A. D. 1884. All in the short period of fifty-five years."

THE NEW HAVEN MONUMENT.

A Grand Memorial of Connecticut's Fallen Boys in Blue.

On the 17th instant the people of Connecticut dedicated what is doubtless the finest soldiers and sailors' monument in the United States, and is certainly located on the most commanding point—namely, the summit of East Rock, an almost perpendicular cliff of red brown trap, rising 500 feet above the plain on which New Haven stands. From the summit is a fine view of a large extent of country, including the city of New Haven and much



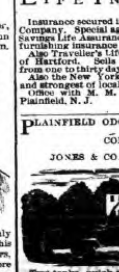
THE NEW HAVEN MONUMENT.

of the shore, of the sound and Long Island. The city was beautifully decked for the occasion, and besides the state officials a large crowd was in attendance. In the parade were all the prominent military organizations of the state, with Masons, Odd Fellows, Knights and many other orders, including German societies and the Fratellanza, an Italian brotherhood.

The monument rises 110 feet from its base to the apex of the Angel of Peace on the summit; the shaft alone is 75 feet high and the base 17, the latter consisting of uniform blocks of rough faced granite. At the four corners of this base are four bronze statues, 9 feet high, representing History, Victory, Patriotism and Prosperity. The statue topping the shaft is 11 feet high. On the "drum" at the foot of the shaft are four beautiful sculptures in relief, representing scenes in the four great wars in which the United States has been engaged; and around the top of the base, below the "drum," are the names of the principal battles. The Angel of Peace on the summit is entirely the work of the artist Doyle, who also designed the monument. The tall shaft is but 10 feet in diameter at the base and tapers slightly to the apex. The dedication was an occasion of much interest and patriotic display.

Master Workman John Morrison.

District Assembly 126, Knights of Labor, has its headquarters in New York. John Morrison is its national master workman. Through the nine-



JOHN MORRISON.

teen local assemblies this central organization has about 23,000 carpet weavers. Mr. Morrison has been one of the principal factors in keeping the independence of 126, recently suspended because of differences with District Assembly 49. He is a tuchman by trade, a loom fixer or tuner. He has always been keenly interested in labor matters, and joined his first union, the Amalgamated Engineers, Machinists and Blacksmiths' association, more than ten years ago. He now holds membership in seven organizations, and takes deep interest in the Labor party in politics. He joined the Knights of Labor about ten years ago and has held many offices in the order.

Mistook Him for a Burglar.

RUTHERFORD, N. J., June 23.—This town is excited over the shooting of J. P. Brunsen, early Sunday morning by his brother-in-law, James Petrie, who mistook him for a burglar. The victim is now lying at the point of death. Drs. Tygert, Rice and Terhune have probed as far as deemed safe without finding the ball, which entered the right shoulder and took a downward course. It was reported last evening that Brunsen had died. Though the death is hourly expected, and his recovery is declared by the three attending physicians to be impossible, he is still living.

A Common Termination of Irish Names.

A very large number of Irish names end with "agh." Agh generally means field in Irish. Thus: Cavanagh means hollow field; Curragh, race field. It is not improbable that these names were originally given to people who dwelt in or near localities which were indicated by the name.

WANTED NO "MEJUM" IN HIS.

The Sage Conclusion of a Minnesota Parent Who Objected.

"I don't want no spiritoolism in mine," said a red headed man with long hair, as he sat down in a saloon on Washington avenue. "There may be something in it, but I know all about it that I want to know," and he leaned back in his chair and looked solemnly at a companion.

"What's the matter with it?" asked the other.

"Gimme a little rye," said the red nosed man; "them's the only spurrits I want anything to do with," he continued, as the glass was set before him. "They're good enough for me."

"What's the matter with spiritualism?" repeated the companion.

"I ain't a sayin' nothin' 'gainst spiritoolism," he answered, guardedly, "but I don't want any of it; I have had a little experience, and that settled me. My wife 'Mandy went to some of their meetin's and they kinder affected her. One of their hangry lookin' cusses come 'round to the house one day, and told 'Mandy she'd make a mejum like him if she'd take some lessons for $25. He gave a test, and called on 'Mandy's dead brother to show up. He come and they had a talk. He told 'Mandy that when she was a mejum she could call up any spernet she wanted to. That's what settled me. I didn't wait for nothin' more. I didn't argy with 'Mandy, 'cause I knew it was no use. I watched my chance and got that cuss out in the medder and told him to git. He said he wouldn't. I just took and pounded him till he was black an' blue. He didn't vent another minit, but set out for the station like a 4-year-old runnin' away."

"Kinder pulverized him, did you?" remarked the listener.

"You bet, an' I did him up in brown with red dressin'."

"But wot make you kick on spiritualism?" asked the companion for the third time.

"I ain't sayin' anything 'gainst spiritoolism," reiterated the red nose man, "but I don't want 'Mandy to be no mejum. Now I don't want to run down 'Mandy. She's the best housekeeper in our county. There ain't no dirt 'round our house, and her butter an' bread is famous. But 'Mandy has her peculiarities, and they're kinder unpleasant at times. That's no fault finder, but still I can't make up my mind that I want them peccoliarities 'round me all the time. Now 'Mandy's strong and the chances are she'll live longer'n I will. Now, if she was a mejum she could call my sperrit to her every time. I wouldn't have no peace in the other world at all. She'd keep me right by her an' I wouldn't have a chance to go visitin' in the next world," and he sighed gently.

Just then a harsh sound was wafted into the saloon. It evidently emanated from a female, and it sounded like a man filing a saw. The red nosed man rose with a wild look in his eye. He glanced at the back door and then looked toward the street. It was only a big colored woman disputing with the small boy. A mighty sigh or spasm of relief shook his frame.

"I—I thought it was Mandy," he said. "I left her at the hotel."—Minneapolis Tribune.

Identified Him.

A Bismarck woman was inquiring about the wreck. She had expected her husband on the train that was thrown from the bridge. The conductor did not know of a man of her name on the train, but said a man who was talking about "the blessed corpse" just before the accident occurred was killed.

"How did he talk, enthusiastically or indifferently?"

"Enthusiastically—very."

"Oh, indeed. What were his last words?"

"Well, as I remember, the car was lying on top of him, and he was in an argument with another passenger, who was also about squeezed out. The last words he said were: 'I tell you, my friend, if you say that Bismarck won't have another railroad—this year—you are—a—liar.' Then turning his eyes on the man who escaped, he said: 'If you want that lot you'd better close the deal quick. There will be two more roads in Bismarck this year; electric lights have been secured, water works will be'—but he died before the sentence was finished."

"Ah, yes, he is he," the woman murmured in a heart broken tone; "but did he make the sale? and do you really think we will have another railroad this year?"—Bismarck Tribune.

Telegraphy in Dakota.

A man from the East was visiting a friend in a Dakota town. One day he came into his friend's office and said:

"I got a telegram about a half hour ago and have been studying on it ever since, but can't make anything out of it. I'm afraid some of my family are sick."

"Is it the first one they brought to you?" asked his friend.

"Yes."

"Oh, well, it isn't intended for you then—they never strike it right the first time. Let me see it."

He took it and read as follows:

Sperta, Dak., 18—. Hon. Del clad by 12 hurrel bro quadrient route annorrwh.

Cumdow & C.

"That's it," continued the friend, "this is intended for Graham the lawyer. It means for him to go ahead and buy some land for $4,350, and that the man who wants it will be here to-morrow. That's easy to read compared with most of them. Let's go over and give it to Graham and then hunt up your message—it has probably been delivered around town some where."—Dakota Bell.

A Straight Bribe.

"Say, are you acquainted around here?" he asked of a kid on Michigan avenue.

"Yes, sir."

"I want to find the Civilized Cornice works."

"Never heard of 'em."

"But it's an old concern, and I was told to come to this corner. There's a big sign on the roof."

"Oh, you mean Galvanized Cornice works. It's right around that corner."

"Bah, did I say civilized?"

"Yes, sir."

"And the proper word is galvanized?"

"That's it."

"Here—come here. Here's a dime for you, and I see just how much school you've passed. I'm going to run for supervisor this fall on the strength of being a self-made man, who got his education by the light of a corncob candle, and I don't want the infernal opposition to get hold of the fact that the candle went out on me too soon."—Detroit Free Press.

An Appropriate Name.

"John, did you ever observe the fondness of Dr. Blank and his wife for each other?"

"I hadn't noticed it specially. What makes you think so?"

"Why, Mrs. Blank always called the doctor her duck."

"Ah, yes! That's because he is a quack."—Newman Independent.

A Source of Sin.

"Don't you know," she said to Bobby, who was impaling a fly on the point of a pin, "that it is wicked to catch flies?"

"Is it wickeder to make 'em, or do the Giants do," responded Bobby, who is something of a baseball expert.—New York Sun.

Died.

MOORE—On Tuesday, June 28, Mrs. Nancy Moore, widow of the late James Moore.

Funeral from the residence of her son, David M. Moore, 30 East Fifth street, Plainfield, N. J., on Thursday, 30th inst., at 3 o'clock P. M.

Interment Friday at Cypress Hills.

JOTTINGS.

—It required only three tops of powder to make the earthquake of yesterday morning.

—Plainfield "Cuban Joints" (colored) beat the "over the brook fellows" this morning by a score of 12 to 4.

—The Borough Council will hold its regular July meeting in the Council Chamber at eight o'clock on Friday evening.

—We will have a choice bit of news on Thursday which we are under obligations not to disclose before that time.

—Welsh wisdom: three things it is unwise to boast of: the flavor of thy ale, the beauty of thy wife and the contents of thy purse.

—The persons referred to a few days ago as detectives, looking after the post office, should have been referred to as inspectors and agents.

—The Women's Relief Corps, No. 10, auxiliary to the G. A. R., left this city for Newark on the 12:33 p. m. train Monday, and not the 6.45 train as reported.

—Installation ceremonies at *Trinity Reformed* church to-morrow night. Thus another highly talented minister will be added to Plainfield's galaxy of gospel preachers.

—In the game of base ball, on the Park Avenue grounds yesterday afternoon, between the High School nine and the Stars (colored), the former came off victorious by a score of 24 to 14.

—Commencement exercises of the Newark Normal School, occurs to-night in the Young Men's Christian Association hall on Clinton street. The graduating class numbers fifty-three young ladies.

—The United States circuit court has granted a mandamus, commanding the city of Elizabeth to levy a tax, sufficient to meet *the judgment of George* T. and Edward H. Bonner, for about $17,000.

—Contemporaries insist that the sparrow which has driven out all our song birds is English, you know. The truth is he is a German by birth and the first installment of his pets came to this country a few days landed at Hoboken to kill the worms that destroyed the shade trees. From Hoboken the sparrow *has gone all over the country and multiplied* beyond endurance.

—The Fire Board is taking extra precautions against accidents on the Fourth. Public sentiment is opposed to the suppression of the time-honored custom of celebrating the Nation's great day by fire crackers, rockets and the other many devices for "making a racket." The institution of the Fourth means Liberty and Independence, so give the people the fullest liberty on that day consistent with the public good.

—Last evening Policeman McCue found Charles Williams, on East Second street amusing himself with some beer kegs, and took him to the station house, where he spent the night. This morning he was arraigned before City Judge Ulrich, who sent him to the county jail for 60 days. Charles will not burn his fingers with fire-crackers on July 4th, but will be out in time to cast a vote at the fall election.

—Frank Voorhees, a lineman employed by Foreman Skelley of the Electric Light Company, left this city Saturday night for the purpose, he said, of visiting Newark. As he did not return to work Monday, Mr. Skelley thought there was something wrong and upon investigation found that he had left an unpaid board bill amounting to $16.50, which Mr. Skelley will loose as he became responsible for his board upon giving him employment.

—The Plainfield Bicycle Club will go in a body to Orange next Monday to attend the meet of the New Jersey Division of the L. A. W., to be held at that place. There will be wheelmen from all parts of the State present, and will be entertained by the Orange Wanderers. There will be several "runs" in the morning. Dinner will be served at one of the clubs and all will ride to Roseville in the afternoon to witness and engage in the races to take place there.

—The schools are closed. A long and well-earned vacation is to be (we hope) enjoyed by teachers and pupils. While the teachers, and the hundreds of children so long under their charge, are elated at the freedom from school labors, the parents are correspondingly depressed. This is wrong; make the vacation one of joy and happiness. Arrange fishing parties, mountain excursions and other pleasures for the little ones. They need recreation and change after the long confinement and drill in the school-room.

—The Westfield Standard says that if the citizens of Scotch Plains will stir themselves and secure subscribers to use the electric lights in their stores and dwellings and on the streets, to make it an inducement for the Plainfield company to run their Westfield lines through Scotch Plains, instead of Netherwood, that village can get the benefit of the incandescent Electric light at a rate no more expensive than kerosene oil. But they must be quick *and not let no time be lost* or they will probably be built and in working order before Sept. 1.

—We are permitted to publish the following from a private letter to a resident of this city: "New Emporia, Kansas, June 24.—On a steady up grade of 8,000 feet. We are running coal mines, stone quarries, dug-outs, log cabins, as well as thriving towns, but the latter do look very new, as in fact they are, as well as everything else out here. The country is glorious; miles upon miles of corn and wheat, many beautiful horses and cattle run over the fields as we approach them. I am enjoying every minute of the trip."

M. A. B.

Ye "Plainfield Editors' War."

The Plainfield correspondent of the New York World committed some trifling inaccuracies in his account yesterday of the little circus in which the Postmaster seems to have made himself chief clown. According to the account, the editor of THE NEWS was always the aggressor. The fact is that he was always the defender, and the defence has been so successful that the big baby had to squeal like a stuck pig. He is now awfully mad, represented that the fact is advised to take the course he did by s right Democratic legal lights as Charles Plainfield, of Jersey City, who has many fr here, and Prosecutor Wilson, about before he got renominated we said stry things urging his nomination afte ing from his friends here of both parties that was a good public official, a capital fe d an able lawyer. But one story is very sometimes until the other one is told ets at look at the other side.

When the editor of RE NEWS first came to Plainfield from ew ars three years ago. he was a total stra Both his would be competitors were n known here as the *town pump. He r all* that it *would* take some months to ge sinted, and to help along the newspa enterprise, until he would get it on a pa basis, he temporarily started at the s another line of business, which we s in operation a few weeks before the pu ng up of the machinery of the new p establishment could be completed. learning that he was interested in the *other* business of Postmaster peared two weeks or so before THE NEWS was issued an extensively libelous article in the paper of which the Postmaster was the responsible head, insinuating that the products were the worst kind of adulterations. A retraction was demanded in the next number of the Constitutionalist and a sort of one made, rights of action being, however, reserved in the demand.

The next week or so a slur was cast upon the people of Plainfield, the paper stating that a stranger (meaning Mr. Morrison, the editor of THE NEWS) thought he discovered what those who had lived here all their lives and knew the people had not—that a daily paper would pay. This meant that the people of Plainfield were such sleepy old fogies that they would not support any enterprise. Had not two dailies, one after another, been started here and failed? In the very first number of THE NEWS we defended the people of Plainfield from the slander, and stated that, on the contrary, Plainfield was the most enterprising, as well as the most beautiful town of its size in the country. Our confidence in the people was best shown in the risks we willingly took, and we have proved that we were right. Those very people have made THE NEWS the most successful paper in the State, population considered.

Slurs on THE NEWS appeared in almost every succeeding issue of the postmaster's paper, but we were too busy getting things in order to bother with them. A month after we got started the Constitutionalist suddenly had been discovered in a house of assignation when he was supposed to be on duty. We did this under threats intended to intimidate us. Common Council tried the policeman and he was suspended. Our manly mouthed contemporary made no allusion to him. A few days later the abolition of THE NEWS and his family were asleep in their home, it was set on fire, with evidently murderous intent, the fire having been started below the staircase, and under the rooms in which the family were asleep. They were rescued by the timely discovery of the fire, and the fire extinguished. Our contemporary insinuated that we had exaggerated the affair, and we presume would have gloated secretly had the whole family been consumed. Editors are human like other mortals, and are generally honorable gentlemen. They may express each other's opinions on public questions unmercifully, but can rise above petty business rivalry when a fellow's life is endangered. Only a cowardly brute would try to malign one under such circumstances, and a cowardly brute did it.

Our cotemporary next published fulsome praise of a bloated gin mill drummer alighting in Plainfield and slighted the W. C. T. U. We reproached it for the first, and defended the noble women from the cowardly slurs on them.

Next came the Potwodomies, an organization which we understand was actually founded by the Postmaster, and intended to help along his brother's saloon. Respectable men were inveigled into the saloon and upon initiation had to get every one present drunk, and select a new fellow, by which they were know to each other. The Postmaster's was the "cunning fox." We exposed it and defended the respectable men who became so ashamed of associating with such a vile crew that they would not for considerable have their families know more for forgot themselves, and we have played with that "cunning fox" ever since as a cat would play with a mouse. Isn't that so, all you who know?

Miss Bulkley, the beloved principal of our Public schools, one summer afternoon, discovered two able-bodied men surreptitiously circulating filthy pictures among the pupils at play, and bravely attacked them with her tongue and with righteous fury and indignation drove them away from the place, God bless her. Our cotemporary, instead of praising unstintedly, actually attacked her. In defending her we indignantly styled her assailant a cowardly cur, and would have considered that he had but got his deserts if he he had been tarred and feathered and ridden out of town on a rail.

The next attack was on the "Y's," the Young Women's Christian Temperance Union. Of course we defended our lovely girls, and used language which, under other circumstances, might have seemed harsh. Were we not justified in defending our people? That's what we are here for.

Next was an assault on the Plainfield Bi. Club. They were so ably defended in our colums by Capt. Dave Runyon, that our contemporary gave up the attack, after being as effectually sat upon, mangled, mashed, dissected and riddled as any one could well be and survive. But why continue! You, reader, know all about it. Our aggressor has simply taken the editor of THE NEWS for a fool, and the people of Plainfield for a pack of fools. It sometimes pays to to be taken for a fool. But if the other fellow comes out of the fracas like a sing-ed-cat, he should not complain. When an editor takes up his pen to attack another and is worsted, it is a confession of weakness when he rushes into law, especially when the other fellow has a full hand. He who seeks equity must do equity. That's law, and a wholesome one it is. An editor has nothing to fear so long as he is actuated by pure motives, never by malice, does his duty to the public, and fearlessly fights for right against wrong. That's our business.

The editor of THE NEWS is the youngest of the editors, who are proprietors of newspapers here, but thinks he is old enough to hoe his own row and keep strong enough to keep the others from treading down his corn. He has never, except when backed by facts, referred unpleasantly to the other fellow. He may have spoken harmless fun occasionally, as for instance the following from THE NEWS of September 11, 1884:

They say we never speak when we pass by,
"Billy" and I.
And it makes us sigh,
Not "Billy," but I—
For "Billy,"

For the weather is hot and people are dry,
And who can tell what "Billy" and I
Might do at a time below as we'd pass by,
And then some one might tell a lie
About "Billy" and I
Most silly,

We don't know which one is "Billy" nor which one is his brother,
And as both frown alike we think each is the other.
There's no fraternal shake
For fear of mistake,
Not of "Billy," but I
Or "Billy,"

So each wanders and wonders, "Billy" and I,
Why we don't speak as we pass by,
For I know the poor fellow's heart is breaking,
He said so last week, when by good folks shaken,
Not because he and I are not "a aiken,"
But because "Billy" will try
To sweet at good works
And I in return
To cheer "Billy."

Now, ladies and gentlemen of the jury, what is your verdict?

Don't Want a Rubber Factory.

We do not think a rubber factory will be any benefit to *Plainfield* and believe that it is the feeling of the people generally that such a thing will do more harm than good. It will probably bring a class of cheap labor, for the employes of such factories are usually poorly paid. That class of labor is often the same who would probably cost more for police to keep them orderly than the city would ever make by having them here. Plainfield does not aspire to become known as a "factory town." It is perhaps unsurpassed in many respects along the railroad for machinery manufactories, and such things in such localities are desirable. Machinists, and such employes generally as are found in both pressworks establishments here, are desirable. This class of mechanics are self respecting and intelligent, and we cannot have too many of them. They are usually thrifty, devoted to their homes, and, in a word, are the salt of the earth. They take good care of their families, and are not usually to be found frequenters of saloons. As that is the class which the Food Products company will bring here. Our people look upon that concern with favor, but upon the rubber factory with disfavor.

Shot in the Leg.

About seven o'clock last evening Edward Staats (colored), John Deady and two other companions were sitting on the Liberty street railroad bridge, conversing together, when, Staats says, suddenly and without any provocation whatever, Deady whipped out a revolver, cocked it, drew a bead and commenced *snapping at the trigger, the weapon being* pointed at him. He says further that Deady snapped the trigger six or seven times before the cartridge exploded, and when it did the ball took effect in his right leg, just under the knee-cap. Staats was taken to his home on West Third street, and Dr. Tomlinson summoned, who probed for the ball but was unable to dislodge it. Staats says that when *the revolver missed fire so many time he did* not think it was loaded, and for that reason did not get out of the way. The wound, although not necessarily dangerous, is very painful, and it will be several weeks before he will be able to walk again. Staats will make a complaint.

Election of Officers.

Howell Division, No. 97, S. of T., held their regular weekly meeting in their room, on East Front street, last evening. After the transaction of routine business the quarterly election took place and resulted as follows:

W. P.—Louis F. Wadsworth.
W. A.—Mrs. Clun.
R. S.—N. W. Pike.
Assistant R. S.—Frederick Walker.
Treasurer—John E. Naylor.
Chaplain—Samuel Allen.
Con.—C. F. Stephens.
Assistant Con.—A. E. Chickering.
I. S.—Mrs. Samuel Allen.
O. S.—Mr. Fisher.

Another Boiler.

The new one *hundred* horse-power boiler, which arrived in this city a few days ago for the Electric Light Company, was taken to the plant on Madison avenue yesterday afternoon on a truck drawn by four horses. When the heavily loaded truck arrived on the thoroughfare, between Third and Fourth streets, the weight of the boiler caused the wheels of the truck to sink in the soft earth to the depth of *six inches, and the horses were unable to* budge it. After an hour's hard work and with the aid of two more horses and several jack-screws the boiler was finally landed at its destination, and will be put in position immediately. The company now have four large boilers in the plant.

—While the question of early closing and *Saturday half-holidays is being urged in be*half of clerks, bookkeepers and others, why not extend a helping-hand to the bartenders Surely these are over-worked people.

PERSONAL.

Mr. Stimpson is having a house erected on Sixth street, near Union.

Mr. and Mrs. Jasper G. Cadmus have returned to this city from their trip to Roslyn, L. I.

Mr. and Mrs. Frank Church of Craig Place will spend the months of July at the Wyatt House, Asbury Park.

Miss Lizzie Knapp, of West Sixth street, started to-day for New York State to be absent during the summer.

Mr. and Mrs. P. M. Demarest of Craig Place, will start for Asbury Park on Saturday, to be gone about ten days.

Mrs. Thompson, of Readington, this State, is spending the day with her sister Mrs. Nevius, of the Children's Home.

Charles Acker, an inside wireman for the Electric Light Company, will leave this city on Friday for Sheepshead Bay to "wire" a steam yacht.

Miss Julia E. Bolley, principal of the city public schools, Miss Florence Rushmore and Miss Alice Lansing start for a European pleasure trip to-day.

Mrs. John R. Marsh and grand-daughter, Miss Reinette Marsh, of Scotch Plains, left yesterday for a visit to Greenwood Lake.

Mrs. R. C. Fisher's residence, on West Fourth street, is being remodeled. A bay window and portico is being put in and other improvements are being made.

The appearance of the house on the Boise estate, corner of Fifth street and Park avenue, is being improved by the addition of a large kitchen. Other alterations are also being made.

Mrs. F. B. Needham and daughter of New York, returned home yesterday, after a short visit to her son, Mr. H. E. Needham of Jackson avenue. Her grandson who was with her will remain some time longer.

Mr. and Mrs. P. M. Demarest entertained their new pastor, the Rev. Cornelius Schenck, at ten last evening at their home on Craig *Place. A few friends* were invited and a delightful social gathering was the result.

Mary Emma, the seven year old daughter of John H. Park of Westfield died last evening after a short illness of pneumonia. Deceased was a niece to the late John Bannon, who up to a few months before his death was a compositor on THE NEWS.

Mrs. Nancy Moore, widow of the late John Moore, died at the residence of her son, David Moore, on West Fifth street, yesterday afternoon. The funeral will take place from her late residence to-morrow afternoon at five o'clock. Interment at Cyprus Hills, Friday.

Mr. J. Henry Manning, the popular Superintendent of the Y. M. C. A. on East Front street, started Monday morning to attend the the Dwight L. Moody Christian training school at Fairfield, Mass. The school closes on the 19th of July. Mr. Manning had not decided whether he would return in time for the opening of Mr. Yatman's training class at Ocean Grove, which commences next Sunday, *or wait* till the end of *Mr.* Moody's class term next month.

General Passenger Agent Baldwin is determined this year to refuse all applications for excursions where beer or liquor of any kind is to be sold. Judge of our astonishment yesterday in New York, upon learning that he had refused boat privileges to an excursion intended to go from this city—this temper*ance city of Plainfield, because the privilege* to sell beer was desired. We are glad to say truthfully that such things bring excursions into disrepute, and that no one has any right to expose women and children to annoyance, if not danger, consequent upon having beer sold. Out of a lot of excursions we ride since the pleasure of the women and children on such occasions. We do not know the proposed excursion objected to, but do know that Mr. Baldwin's decision will be heartily approved by our people at least.

A Fine Fig Tree.

The store window of Sheriff George M. Stiles on East Front street is called the tropical window, on account of the beautiful fig tree he has there, around the base of which he has put young cotton plants. The tree is twenty years old. For three years it took the $10 premium offered for the finest fig tree at Waverly Fair.

Last year the tree bore two crops of figs, yielding about 800 each time. This year it was transplanted into a larger tub, and will only bear one crop in consequence. The crop will be due within a few weeks. The Sheriff is proud of his tree, and says he would not take $50 for it. It is clipped close every year. This keeps it very small, but makes it thrifty and strong. It throws out sprouts every year. These are cut off the main root and put in pots. A sprout in the tub with the tree, is now only about eight inches high, yet it is five years old.

New Postal Treaty.

The President has just signed a postal treaty whereby the United States and Mexico agree to an exchange of postal facilities intended to make the two countries more accessible through the mails. It takes effect on July 1. Under the treaty each country is to collect its own postage, and no accounts are to be kept between the two countries. It is expected that the exchange by merchants of merchandise parcels will be greatly extended. Dutiable articles which can be sent in parcels by mail can be sent by simply paying the duty then in addition to the price.

A Suit to Dispossess.

The suit of James Bley, executor, vs. Martin Geoghan, a landlord and tenant case, in *which the plaintiff seeks to obtain possession* of the premises occupied by defendant, came up for trial before Justice Hetfield and the following jury at ten o'clock this morning: Foreman, William H. Warner, Samuel Lockwood, W. E. Ayres, C. B. Crane, Abram Angleman, A. Saltzman, E. T. Barnes, Isaac Dunn, Isaac Smalley, Nathan Guttman, John Ross and A. D. Holmes. A number of witnesses testified for each of the parties.

—The Village of New Market will celebrate the glorious Fourth in a becoming manner.

Weather Indications.

For Thursday, in New Jersey, eastern New York, and eastern Pennsylvania, and in New England, slightly warmer, local to rartly cloudy weather, followed by local

Strike at the Delamater Works.

NEW YORK, June 29.—The mechanics employed in the Delamater Iron Works went on a strike to-day, because three machinists on planers who refused to work on gaspiping and were discharged would not be reinstated.

Four Men Killed.

MARQUETTE, Mich., June 29.—Four Englishmen, named William Kello, William Pengilly, James Vanderstone and Paul Hastings, were instantly killed in the Vulcan Mine at Norway this morning by the train car breaking, falling down the shaft and striking them.

Discussing Wages.

PITTSBURG, Pa., June 29.—The iron manufacturers met to-day to discuss the amended wage scale of the Amalgamated Association. The scale was found to be unsatisfactory. The manufactures demanded rather concessions. It is thought the *mem* will strike first.

Found Hanging to a Tree.

WOODBRIDGE, N. J., June 29.—The body of a man was found hanging to a tree in the woods between Woodbridge and South Amboy. Investigation showed that the man had undoubtedly committed suicide. Dr. Rice, the county physician, was sent for and made an investigation. The body was recognized as that of a man of weak mind, residing five miles south of Woodbridge.

A Valuable Horse Injured.

NEW BRUNSWICK, June 29.—A valuable horse belonging to Elmer Oran was badly injured a few days ago while driving on the street. The horse was thought to be recovering but was worse to-day. Veterinary Surgeon Higgins found the neck of a bottle imbedded seven inches in the flesh. The horse had stepped on a ketchup bottle, which exploded it.

A $50,000 Fire.

WEST STEWARDSTOWN, N. H., June 29.—A fire was discovered at 4.30 this morning, which destroyed a large building owned by E. C. Parker, a large furniture establishment, a stable and a large lot of lumber and lumber shop. The fire extended to the block of W. A. Lindsay, containing a harness shop, millinery store and a large lot of lumber. Damage upwards of $50,000. Insurance light. The business part of the town was saved only by tremendous efforts of the firemen.

Shot in Her Room.

NEW YORK, June 29—A shooting affray which bids fair to end in murder occured at No. 2 James street this morning. The victim, a young woman of doubtful reputation, is now lying in the Chambers street Hospital with three gunshot wounds in her back.

Andrew Matron, who is steward of the yacht Mischief, came to this city last night and met Hattie Deveer, with whom he had become acquainted on a former occasion. Both drank heavily, and at a late hour retired to the woman's apartments in the house where the shooting occurred.

Pistol shots were heard in the Deveer woman's room, and Matron was called while knocked for admittance, and Matron opened the door. Matron held a small pistol in his right hand and was standing over Hattie Deveer, who was lying on the floor in a pool of blood.

Cemetery vs. Graveyard.

Situated almost in the heart of the city are six burrying places. The First Baptist and Methodist burrying ground is located on Plainfield avenue, between Second and Third; on Ninth street and Arlington avenue; Catholic, between North avenue and Second street; Presbyterian, on Chatham street, over the brook; The Friends, corner of Peace and East Third streets.

The question is naturally asked, "What is to become of these grave-yards?" Will the mouldered and mouldering remains be re-interred at the cemetery and the now sacred ground used for the common purposes of a rich and growing city? Again the question meets us, "Will people stay burying in the old grounds," and shall we be compelled to meet with quarantine in our towns?

The answer is, "there is no law by which these burying places can be removed without the consent of the individuals owning the lots. The laws of the State recognize graveyards as sacred property. But in many instances individuals own lots where friends and kindred are buried. In the event a church society should resolve to remove their dead to the cemetery, the passing of a vol. of Britannica, Encyclopedia, Dickens works and other books, one set of R. W. furniture extension table, buffet carpet, in dinning room cutlery, crockery, etc., tables, furniture in kitchen, carpets, bed, bedding, pictures, bureaus, rocks, stands and other property. All of the above being on the premises at 16 East Sixth street, in the city of Plainfield, N. J. 27-4

FOURTH OF JULY GOODS.

FLAGS, LANTERNS, ETC.

Fishing Tackle, Hammocks, Croquet, Tennis, and other means of enjoying a holiday.

A. W. RAND,

24 WEST FRONT STREET.

NOTICE—The Plainfield Gas Light Co. would call attention of the Gas Consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

The SUPERIORITY of the Gas Stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York and Brooklyn, and remains unquestioned.

We invite inspection of these stoves at our office corner of Fourth and Washington Sts.

Persons desiring to test the certainty of the stoves can bring articles to be cooked; and *gas will be furnished for such tests* FREE OF CHARGE.

SPECIAL RATES will be made for gas used for cooking so that the cost will compare favorably with the use of coal. The stoves will be offered to our consumers AT COST, or can be rented at moderate rates. PLAINFIELD GAS LIGHT COMPANY.

SPORTING MATTERS.

The Record of Baseball Games and Turf Events.

Ball games yesterday: At Pittsburg—Pittsburg, 8; Washington, 0. At Detroit—Detroit, 7; New York, 4. At Indianapolis—Philadelphia, 3; Indianapolis, 0. At Chicago—Chicago, 19; Boston, 6. At St. Louis—St. Louis, 6; Louisville, 0. At Baltimore—Baltimore, 9; Metropolitan, 1. At Brooklyn—Brooklyn, 10; Athletic, 4. At Cleveland—Cleveland, 12; Cincinnati, 6. At Utica—Buffalo, 7; Utica, 6. At Syracuse—Rochester, 3; Stars, 8. At Elmira—Elmira, 6; Lockport, 4. At Binghamton—Binghamton, 5; Harrisburg, 3. At Jersey City—Jersey City, 6; Binghamton, 3. At New Haven—New Haven, 9; Waterbury, 2. At Hartford—Hartford, 9; Danbury, 5. At New Haven—Yale, 6; Harvard, 8.

NEW YORK, June 29.—Events at Sheepshead bay yesterday: First race, seven furlongs; Bunch first, Jacob H. second, Harry Russell third; time, 1:28½. Second race, three quarters of a mile; My Own first, Sunnybrook second, Fanita third; time, 1:16½. Third race, one mile; Hindoo first, Alcantara second, Florence Al. third; time, 1:46½. Fourth race, the Beacon stakes, nine and three-quarters; Dunboyne first, Oneko second, Hanover third; time, 2:07½. Fifth race, one and a quarter miles; Tolu first, Orion II. second, Lottery third; time, 2:09 . Sixth race, one mile and a half, on turf; Monitor first, Himalaya second, Bombast third; time, 2:43.

NEW YORK, June 29.—John Kilrain has gone for the fight with Kilrain never to return. Kilrain and his backer Fox, after an agreement to the fight was arranged in England at once.

NEW YORK, June 29.—Jack Ashall has issued a challenge to anyone to fight him. Hessler, published in the Herald this morning says: I have only one word to say in answer to all the challenges published in the morning papers. That is, that I will fight Carney for 1,000 pounds, to weigh in seven hours before the fight, for all the money he can get, or weigh at the ring side the day of the fight. All his conditions for him have been not only unfair, but impudent offers. If he means fight he will accept my challenge. He need not wait until October.

CHICAGO, June 29.—Yesterday's races at Washington park: First race, one mile and a sixteenth, Rosalind first, Procrastinator second, Spalding third; time, 1.49. Second race, one mile; Miss Motley first, Lucy Johnson second, Innocence third; time, 1.46½. Third race, one mile; Glen Fisher first; Belle Taw second, Drumstick third; time, 1.46. Fourth race, the Oakwood handicap, one and one-eighth of a mile; Estrella first, Potential second, Egmont third; time, 1.54½. Fifth race, mile heats; Modesty first, Kirkland second, Ira E. Bride third; time, 1.44½. Sixth race, short course, Liverpool; Edith Golding, Tommie first, Wellington second, P. Line third; time, 3.50.

Marine Intelligence.

NEW YORK, June 29.—Arrived, steamers El Monte, New Orleans; Hudson, New Orleans; Benefactor, Indianola; Alaska, St. Thames, Trinidad; Clintonia, Antwerp; Haswarden, Middleborough; Lampasas, Galveston; Werra, Bremen; City of Newcastle, Palermo; England, Liverpool; Edith Golding, Port Maria; Gen. Whitney, Boston; Baltimore Iglesias, Havana; Roanoke, Richmond, City Point and Norfolk; Wisconsin, Liverpool, Sarka Mandalena, Alicante; Emilie, Amsterdam, Rotterdam. Arrived out, steamers City of Richmond, from New York, off Brow Head; Aurania, from New York, at Rotterdam; Lessing, from New York, at Hamburg; State of Indiana, from New York, at Glasgow.

Ohio Prohibitionists.

DELAWARE, O., June 29.—The Prohibitionists began a three days' state convention in this city yesterday. Every prominent Prohibitionist center in the nation is present. Owing to the recent labor agitation the Prohibition platform will be framed with a hope of labor endorsement and support of the ticket. A full state ticket will be nominated.

TRADE BULLETIN.

New York Money and Produce Market Quotations.

NEW YORK, June 28.—Money closed at 3 per cent. The lowest rate was 2, and the highest 1-16 of 1 per cent per diem and legal interest. Exchange closed dull and weak; posted rates, $4.83@4.83½; actual rates, $4.82½@4.83 for sixty days and $4.84@4.84½ for demand. Government bonds firm; currency 6s, 125¾ bid; 4s, coup., 125¾ bid; 4½s, do, 109¾ bid.

There was decided change in the temper of speculation at the opening. It closed, however, steady buying to cover throughout the afternoon, and prices went up almost as rapidly as they had fallen in the early morning. Manhattan also advanced rapidly and closed within one point of the price at which it closed last night. For a majority of the list the highest prices were made at the close, showing an advance of ¼@1 per cent. It was stated that the warring interest in the market had arranged a truce; that Gould, Sage and Field had come to an agreement, and that Gould, Garrett and Mackey had arranged for ending the telegraph war, and also for the withdrawal of all opposition to the so called Baltimore and Ohio deal. This statement was generally credited, and the rapid recovery of the afternoon was attributed to it.

General Markets.

NEW YORK, June 28.—FLOUR—Closed dull at slightly lower values for some brands. Winter wheat extra, $3.15@5; Minnesota do., $3.25@4.70; city mill extra, $4.40@4.80. Southern flour closed steady at unchanged values. Rye flour quiet.

WHEAT—Options were irregular and fairly active. June and July were weak. The farmer movement of late has better spirit, and it continued heavy receipts. The other months were higher during the morning, but they also took much of it back in the day and post prices at bottom figures were current at the close. Spot sales of No. 2 red winter, 89¾c; No. 3 do., 89c; No. 2 red winter, July, 89¾c, bid; do., Aug., 89¾c bid; do., Sept., 89¾c bid.

CORN—Options were unsettled. June and July were weak and 3@c lower in the early dealings, while the other months were firm and ½@¾c higher. During the afternoon the market was dull and prices were at about the early figures. Spot sales closed ¼@¾c higher. Spot sales of No. 2 mixed at 49¾c; ungraded mixed, 49@49¾c; No. 2 mixed, July, 49¾c; do., Aug., 49¾c bid; do., Sept., 49¾c bid.

OATS—Options were moderately active and firm, closing ¼@¾c higher. Spot sales of closed strong and ¼@¾c higher. Spot sales of No. 1 white state at 33½c; No. 2 do., 37½c; No. 2 mixed, June, 33½c; July, 34½c; Aug., 35½c.

RYE—Dull; western, 54@56c; state, 60@63c.

BARLEY—Nominal.

PORK—Dull; old mess, $14.50@14.75; new, $15@15.50.

LARD—Closed quiet and firm; cash, $6.77½; July, $6.75; Aug., $6.85.

BUTTER—Firm; state, 15@20c; western, 10@16c.

EGGS—Firm; state, 15½@16c; western 14½@15½c.

CHEESE—Dull, but firm; western factory, 6½@7½c; state, 8@9c.

BLOWN TO ATOMS

BY AN EXPLOSION IN THE LAFLIN POWDER WORKS.

The Bodies of Three Men Scattered Over the Fields, and the Remains Picked Up in Sections—The Cause of the Disaster Unknown.

PATERSON, June 29.—The people of Wasaic were terribly startled about 9 o'clock yesterday morning by two terrific explosions at the works of the Laflin Powder company at Wayne station, on the line of the New York and Greenwood Lake railroad. The first explosion occurred in the glaze house or drying room, but what caused it it is impossible to tell.

The killed are: August Karouse, powder man, 23 years old, blown to atoms; Charles Steer, powder man, 45 years old, blown to atoms; James Case, powder man, 35 years old, supposed to be blown to atoms.

The injured are: James Young, engineer, badly bruised on head and back; James H. Gardener, foreman, struck on head by flying timber, not seriously hurt; George Cramp, cut around head and back by flying glass.

The remains of the dead were scattered over the fields, some fragments being found more than 1,000 feet from the mill. Scores of people were busy for several hours collecting the remains, which will be interred Thursday morning. Karouse leaves a widow and three children, and Steer leaves a widow and child. Case was single man. The injured will be taken care of by the Laflin company. The loss of the company is about $10,000.

The building known as the glaze house was a one story frame structure, seventy five feet in length by forty in width. It was used for drying gunpowder and washing at the time. Karouse, Steer and Case were preparing material for starting up in the afternoon. The powder in being subjected to this process is loaded into large revolving barrels or cylinders, and there were five of these in the room. The powder is conveyed into the room on a truck with brass wheels, which runs over a track especially prepared, so as to avoid the emission of the slightest spark. The men had completed the charging of one barrel, and just after the first truck load for the second cylinder had been wheeled into the drying room that the first explosion came. Some men who were near the mill at the time say the concussion of the building heave up, and the next moment they were rent asunder and scattered in all directions. The concussion shattered all the glass in every department of the mills and in the main office a substantial lock was knocked off a door. All the people in the neighborhood were more or less stunned, and they had scarcely time to recover from the shock when the second explosion came, almost as violent as the first. Some of the fragments of the building fell in the dry house

FARM AND GARDEN.

MATTERS OF GENERAL INTEREST TO AGRICULTURISTS.

The Workings of Underground Drains Explained—The Management of Balky Horses—Some Interesting Facts About the Concord Grape and Its Originator.

The cut here given represents the originator of the Concord grape at work in his vineyard. In introducing the Concord grape in 1849, Mr. E. W. Bull, of Concord, Mass., did his country a great service, as is attested by the fact that today the Concord is "the grape for the million," being more generally cultivated than any one other variety.

THE CONCORD GRAPE AND ITS ORIGINATOR.

The grapes generally cultivated at the time the Concord was introduced were the Isabella, and in some few localities the Catawba. The grape, owing to rot, mildew, etc., was considered a very uncertain fruit, and not until the advent of the Concord was it proven that grapes could be grown in the northern states. While not up to the present standard as to quality, the Concord comes more nearly to thriving everywhere and under all conditions than any other variety, a fact that explains its popularity.

The American Agriculturist, for which the above cut was originally drawn, says that a peculiarity of the Concord is that the farther west it is grown from the place of its origin the better it is. As many readers already know, the Concord was a chance seedling of a wild grape found by Mr. Bull in his New England home. Being of superior quality he sowed the seeds of this, and one of the seedlings proving to be of promise, he christened it Concord, in honor of his home, and proceeded to cultivate it.

Important Points in Potato Culture.

After many years of experimenting, a correspondent of Live Stock Journal gives utterance to the following conclusions: 1st. Whole potatoes will produce a crop a week or ten days earlier than those which are divided. 2d. Small potatoes will produce as good, if not better, results than large ones. 3d. The seed end is the better one to plant because it starts with more vigor and produces more and larger potatoes. 4th. A large piece is better on ordinary soil than small pieces or eyes. 5th. Potatoes with sprouts long enough to break off in planting are not so good as those with eyes advanced just enough to indicate vigor. 6th. The forms named, as a rule, be changed by planting in any particular form. 7th. Two distinct varieties won't mix in the same hill. 8th. The more we investigate the scab the less we know about it.

A Device for Driving Poles.

To drive a stake or a short pole into the ground by striking the top with a heavy hammer or sledge is an easy matter, but when the pole is a long one other means must be employed. Long poles, such as hop poles for instance, are generally set by the tedious process of making a hole with a crowbar and forcing the pole in as one best can. An improved process is the following: Take a block of hard wood about a foot long and five inches square at top and bottom; hollow out one side of it a little, so as to fit against the pole; bevel off the other side, to make the block very thin at the bottom, i. e., wedge shaped, and drive a staple in this side. Holding the block against the pole, wind a trace chain around both and hook it on. Then strike with sledge or ax upon the block. The pole will be driven firmly into the ground.

HOW UNDERGROUND DRAINS ACT.

Of Interest to Silk Growers.

In a recent circular Commissioner Colman calls attention to the fact that at the last session of congress additional appropriations for continuing the work of the national department for the establishment of silk culture in the United States were made. Under the provision of this act will be continued the experiments in silk reeling in Washington, and the department will purchase the cocoons necessary therefor on terms specified in a circular, a copy of which will be forwarded on written application to any silk grower interested. This circular contains in addition to directions for shipping cocoons, etc., advice about the stifling of cocoons, a subject on which amateurs are sadly ignorant. Address "The Commissioner of Agriculture, Washington, D. C."

Of Interest to Wool Growers.

On the subject of washing wool The Wool Journal says more than nine-tenths of the domestic clip now comes to market unwashed. The quotations are mostly made for unwashed wool. Shrinkages are more accurately estimated on wool in its natural state than when it has been washed. There is no uniform standard among growers as to how much or how little it shall be washed. So it happens that a mixture of lots out of washed wool (so called), collected in any of the sections where the old practice of sheep washing still prevails, varies so widely in condition that anything like a correct estimate of the shrinkage of the entire lot is impossible. It is little better than guessing to buy such a lot at a stated price per pound. The wool washed wool generally sells the half washed lots.

Six Ways to Treat Balky Horses.

The following different ways of treating balky horses have been recommended by various horsemen as efficacious, in their experience, with balky animals: First—Put the horse in the cart, examine him carefully, first on one side and then the other; if you can get him a handful of grass give it to him. Then jump into the wagon and give the word to go, and he will generally obey. Second—Taking the horse out of the shafts and turning him around in a circle until he is giddy will generally start him. Third—Another way to cure a balky horse is to place your hand over his nose and shut off his wind until he wants to go. Fourth—Then, again, take a couple of turns of stout twine around the fore legs, just below the knee, tight enough for the horse to feel it; tie in a bow knot; at the first click he will probably go dancing off. After going a short distance you can get out and remove the string to prevent injury to the tendons. Fifth—Again, you can try the following: Take hold of the tail of the horse between the hind legs and tie it by a cord to the saddle girth. Sixth—Tie a string around the horse's ear, close to the head; this will divert his attention and start him.

Soft Soap Wash for Trees.

Professor Lazenby, of Columbus, O., approves of soft soap wash for trees. He says: "I am acquainted with an orchard of fifteen apple trees, now 26 years old, that has been regularly and systematically treated to a wash of soft soap about May 20 and again June 20 each year. Less than half a dozen trees have been found in this orchard, and they are still in a thrifty, vigorous condition. In neighboring orchards, where this precaution has not been taken, all trees have been killed by borers, while many of the remain are so much injured as to be worthless. Lye is sometimes used in the place of soap, but the latter is as much better and more effective. It can be readily applied with an old broom. Besides making the tree obnoxious to the borer, the soap keeps the bark in a healthy condition. This remedy may be applied to all trees or shrubs liable to be attacked."

One Way of Feeding Skim Milk.

Eastern dairymen have found it a good plan to feed fresh skimmed milk and buttermilk together to cows. This is considered a good way of utilizing the skimmed milk, only, to render it effective, the skimmed milk must not be too old

Under Drains.

Water has a tendency to seek the lowest level and to do so by the most direct route available. Rain falling on a hill of corn, midway between two rows of the, does not go in both directions, but in a diagonal direction, along the line A in the illustration, to the tile.

The tile, exposed in Prairie Farmer, has no attraction for water, which obeys the law of gravitation, and goes downward, as shown by the vertical dotted lines. Suppose that the soil represented in the engraving held water to the surface, previous to applying tiles, and that the tiles are sixty feet apart. The water filling the tube and between the rows of the will gradually seep toward the tiles, enter at openings between them, and flow off. The excess of water will thus flow off to the level of the water in the tiles, except that there will be a rise of the water line toward the center between the drains. This water line is represented by the curved line B, and the difference between the soil above and below the line B is that the interspaces above are filled with air, while below they are filled with water. In other words, the surface of the wet subsoil, or the plane between the water logged and arable part of the soil, is at B. Rain water, melted snow, etc., which enters this drained soils percolates directly downward, and raises the level of the water line. The water escapes into the tiles by flowing in a horizontal direction. That nearest the tiles flows in just as water runs over the edge of a dish.

There is a notion in the mission that water enters the tiles from the top, while in fact it enters mainly from the sides and bottom, since only that which enters the soil immediately over the tiles goes downward into the tiles, the rest all flowing in laterally. It is claimed that where the tile is entirely submerged, most of the water enters from below the middle. When only a moderate rain falls, the water level will be only slightly raised, and the volume of water flowing through the tiles only slightly increased. But when a heavy rainfall continues for some days, the porous subsoil above the tiles becomes filled to a higher point, and the volume of water increases. If the tiles are small in proportion to the water they must carry away, the water fills up above them, and when running full they cannot keep the dry subsoil open. In many cases where the tiles are small the porous earth is filled entirely to the surface, and several days are required after the rain ceases to allow the drains to reduce it. Three or four feet of porous earth will hold a great amount of water, and drink up a heavy rain like a sponge, and let it out sidewise into the drains at its leisure.

Facts Farmers Ought to Know.

Thorough weeding is a most important point in onion culture.

The earlier fruit is thin the more profitable the operation.

Sheep multiply fast and returns come from them quickly. The owner of a well managed flock has wool to sell in the latter part of spring, lambs in midsummer and mutton at other times of year, besides sufficient for his own table.

A little more care for the ornamental trees would add greatly to the beauty and value of the farm homestead.

The and planted with early peas and beans may be made to carry a late crop of squash or of cucumber pickles.

Ear corn may, cured green, gives color and flavor to butter.

No Fourth for Him.

A small scion of a Cass avenue family went to church one day last Sunday and heard the minister make a stirring appeal for funds to build a new church.

The next day his mother overheard a dialogue in which her youngster was the first speaker.

"Whi'cher goin' to buy Fourth of July, Jimmy?"

"Oh, lemmins, an' ice cream, an' firecrackers. Whatcher?"

"Nawthin', ain't goin' to have enny Fourth; goin' to save me money and buy a church."—Detroit Free Press.

In Thomas county, Kan., all the townships are named after soldiers of the British Kansas regiment killed at Black Jack, during the battle at which Gen. Thomas won his greatest fame.

Wendell Phillips on Nihilism.

In Russia there is no press, no debate, no explanation of what government does, no remonstrance allowed, no agitation of public issues. Dead silence, that which reigns at the summit of Mont Blanc, freezes the whole empire, long ago described as "a despotism tempered by assassination." Meanwhile, such despotism has unsettled the brains of the ruling race, as unbridled power doubtless made some of the twelve Cæsars insane—a malignant disease, that now lives and controls of 100,000,000 of men. The young girl whispers in her mother's ear, under a veiled roof, her pity for a brother knouted and dragged half dead into exile for his opinions. The man of a week she is stripped naked and flogged to death in the public square. No inquiry, no explanation, no trial, no protest; one dead, blind, brainless law of the tyrant. Where is there ground for any hope of peaceful change, the fulcrum upon which you can plant any possible lever?

Macaulay's terrible picture of poor human nature would be fulsome flattery if men could keep still under such oppression. Not not its such a land dynamite and the dagger are the necessary and proper institutions. Faneuil hall and The Daily Advertiser. Anything that will make the madman quake in his lockmember and rouse his victims to reckless and desperate resistance. This is the only view an American, the child of 1620 and 1776, can take of nihilism. Any other unsettles the principles of our civilization.—Harvard College address, June 30, 1881.

Grips of the Brooklyn Bridge.

The pressure exerted on the grips of the Brooklyn bridge cable road is very great. The weight of each car is 31,000 pounds, and the average weight of the passengers 13,500 pounds, making all together 44,500 pounds, over twenty-two tons.—Boston Budget.

EDSALL'S GREAT SPECIAL SALE!

Will continue all THIS week.

New Bargains added Every Day.

☞ This is a splendid opportunity to buy new, fresh and desirable goods at Popular low prices at the coolest and most attractive store in this part of the State.

Come in whether you wish to buy or not, and see the new styles and very low figures we are selling at.

R. J. PERKINS,

29 PARK AVENUE.

Corporation Notice.

Notice is hereby given that the following ordinance has been introduced before the Common Council, read the second time, ordered engrossed preparatory to its third reading, and that it is the intention of the Council to adopt the same.

OLIVER B. LEONARD, City Clerk.
Plainfield, N. J., June 6, 1887.

AN ORDINANCE

Concerning Dogs.

The Inhabitants of the City of Plainfield, by their Common Council, do enact as follows:

SECTION 1. That no dog, not in charge of its keeper, shall be permitted to run at large within the city of Plainfield, unless a good and sufficient muzzle shall be placed over the mouth of such dog in such manner as to render biting impossible; and any person who shall permit or suffer any dog owned or harbored by him to run at large contrary to the provisions of this ordinance, shall, upon conviction thereof, be punished by a fine not exceeding ten dollars for each offense.

SEC. 2. That there shall be established for the purpose of impounding dogs not muzzled as provided in section 1st hereof, found running at large, a dog pound, to be in charge of a pound-master to be specially appointed. Two suitable persons shall also be specially appointed whose duty it shall be to seize and impound all dogs not muzzled as required by section first, which shall be found running at large in the streets of said city. Said persons so appointed shall wear a shield as the badge of office, said shield to be provided by the city clerk, and shall be entitled to receive as compensation for his services the sum of twenty-five cents for each dog delivered by him to the pound-master. Should any person appointed as aforesaid seize or impound any dog other than such as are not muzzled as required in section first, he shall upon conviction be punished by a fine not exceeding five dollars, or imprisonment not exceeding five days, either or both.

SEC. 3. That all dogs delivered to the pound-master shall be subject to a charge of twenty-five cents per day or fraction of a day for their keep while in charge of the pound-master, and a penalty of one dollar to be paid by the owner of the dog to the pound-master for its redemption in addition to the charge for keep. The pound-master shall receive as compensation for his services one-half of the penalties paid him and shall be entitled to the charges for keep before mentioned. All dogs unclaimed by their owners after the expiration of four days after their being impounded shall be put to death by said pound-master in the most merciful and humane manner possible.

SEC. 4. That all ordinances inconsistent herewith be and the same are hereby repealed.

AN ORDINANCE

To macadamize, by spreading stone, Front street from Netherwood avenue to the easterly boundary of the city at Terrell road.

The inhabitants of the city of Plainfield by their Common Council do enact as follows:

SECTION 1. That Front street between Netherwood avenue and the easterly boundary of the city for the width of sixty feet, that is to say, for the width of eight feet on either side of the centre line of said Front street as now in public use, be macadamized by spreading crushed stone for the average depth of four inches, said crushed stone to be of good quality, to be thoroughly laid and compacted and properly rolled, so that when completed the surface shall be smooth and even. All of said work and macadamizing to be done under the supervision of the Street Commissioner.

Adopted June 6, 1887.
Approved June 6, 1887.

JOB MALE, Mayor.
Attest:—O. B. LEONARD, City Clerk.

BURDETTE.

How Poets of Different States Make Their Rhymes.

Mr. J. H. Williams, of Norristown, complains that a southern poetess rhymes "corn" and "gone." Well, that's correct; that's a good rhyme where the poem was written and the author can't be responsible for the vagaries of pronunciation all over America. In the land of the cypress and myrtle, where they say "coan" and "goan," what is the matter with making them rhyme? Now in the empire of Arkansas if a poet should write,

He asked you to give him a kiss, did he?
it would trouble his New England collaborator to end the next line of the couplet with "yesterday," but he of Arkansas goes calmly and correctly on with,

No longer than jist yistiddy.

So, also, the poet dawn in Varmaount can rhyme "kiss" with "horse" and "calf" with "cough." Moreover, any poet in the republic outside of Pennsylvania, inditing an ode to a well known railway in that state, would make "reading" rhyme with "bleeding," but the people who live on the line of the road would use "bedding." (They do, too; the old fashioned Pennsylvania Dutch kind, one feather bed to sleep on, and three to cover with.) You see the poet, dear Williams, rhymes by ear and not by sight.

THE OLD AND THE NEW.

"Alas," mournfully exclaims a Boston clergyman, "the old fashioned way of making love has passed away with our fathers." In behalf of the young people of this generation, we return thanks for this blessing. The old fashioned way of making love, as we understand it, must have been a dreary affair. A man began, if he catch the rat, by making love to his father-in-law, whom he hated, and his mother-in-law, whom he greatly feared. He called his sweetheart "Respected miss," and once in a while got a chance to touch her finger tips icily in a dance as he teetered past her like a stork on stilts, for in such manner of [illegible] grace and frosty merriment, children, did your grandsires dance (pronounced dawnce). And for all this—what Horace Greeley would call "Arctic circle of frigidity"—my son, your grandfather loved your grandmother—soft and fragrant be the "old fashioned rose" that bloom above her—no better, I wot, than you do the girl you feed on indigestible caramels and corn starch ice cream, while you fill her ears with the most idiotic chatter that ever drove a sensible man mad. Out! Out with you! Out of my sight and hearing! By Venus' glove, if ever again I hear you talk to a girl as I overheard you talk to Kitty last night, I'll brain you with something soft, if I knew where to hit you. After all, may it not be that our fathers were not such half baked fools as their sons? I will read over a few of my own old love letters and see.

THE COMMENCEMENT IS OVER.

The country, and incidentally the universe, is safe for another year. We have been in great peril, but our danger has been pointed out, and not only so, but the way to safety has at the same time been so clearly indicated that the wayfaring man, though a Mugwump, need not err therein. An abyss of frightful depth has appeared above us, overshadowing all this fair land with the deadly blight of its malarial breath in accents that chilled the heart with the Upas like touch of its basilisk glance. But school from sea to shore. But we have saved us, my boy; you and your fellows have snatched us from this living grave, whose hungry breadcrust dashed their blinding eyes and wreathed their cherry flames in lurid tongues about our feet. You it is who in this month of leafy June have told us of "The Perils of the Republic" "The Lofty Position and Duty of the Republic" "The Decay of Patriotism" "Work and Worship" "The Restoration of Manhood" "The Lost Opportunity" "The Decline of Science" "The Labor Agitation" "The Weaknesses of a Republican Form of Government" "Statics and Dynamics" "The Destiny of the Republic" "Socialism" "Corruption in Politics" "The Labor Problem and its Solution" "Modern Free Thought" "The Liberal Movement of the Nineteenth Century" "The Influence of Wealth" "Our Country's Future" "Popular Government" "Civil Reform" "The Outlook of the Age" "Modern Agitation a Blessing" "Our Country's Destiny" "What we want" "Are we Retrograding" "Are we ready to die for the principles we profess" "Is our civilization a success" "Is our civilization a failure" "Our Country" "Our Future" "Our Duty" "Our Mission" "Our Privileges" "Our Responsibilities" "Our Dangers" "Our Hopes" "Our Fears" "Our Trials" "Our Triumphs" "Our Defeats" "Our Victories" "Our Glory" "Our Shame" "Our Pride" "Our Humiliation" "Our Degradation" "Our Elevation" "Our Depression" "Our Exaltation" "Our Prosperity" "Our Adversity" "Our Joy" "Our Sorrow" "Our Laughter" "Our Tears" "Our Smiles" "Our Frowns" "Our Kisses" "Our Embraces" "Our Caresses" "Our Love" "Our Hate" "Our Friendship" "Our Enmity" "Our Peace" "Our War" "Our Victory" "Our Defeat" "Our Success" "Our Failure" "Our Life" "Our Death" "Our Resurrection" "Our Immortality" "Our Destiny" "Our Future" "Our Past" "Our Present" "Our Everything" "Our Nothing" "Our All" "Our Naught" "Our Heaven" "Our Hell" "Our Purgatory" "Our Limbo" "Our Paradise" "Our Elysium" "Our Tartarus" "Our Olympus" "Our Parnassus" "Our Helicon" "Our Pegasus" "Our Muse" "Our Inspiration" "Our Genius" "Our Talent" "Our Ability" "Our Capacity" "Our Power" "Our Weakness" "Our Strength" "Our Courage" "Our Cowardice" "Our Bravery" "Our Fear" "Our Hope" "Our Despair" "Our Faith" "Our Doubt" "Our Belief" "Our Unbelief" "Our Knowledge" "Our Ignorance" "Our Wisdom" "Our Folly" "Our Sense" "Our Nonsense" "Our Reason" "Our Unreason" "Our Sanity" "Our Insanity" "Our Mind" "Our Soul" "Our Body" "Our Spirit" "Our Flesh" "Our Bones" "Our Blood" "Our Nerves" "Our Muscles" "Our Sinews" "Our Heart" "Our Liver" "Our Lungs" "Our Stomach" "Our Bowels" "Our Kidneys" "Our Brain" "Our Head" "Our Hair" "Our Eyes" "Our Ears" "Our Nose" "Our Mouth" "Our Teeth" "Our Tongue" "Our Throat" "Our Neck" "Our Shoulders" "Our Arms" "Our Hands" "Our Fingers" "Our Nails" "Our Chest" "Our Back" "Our Sides" "Our Abdomen" "Our Thighs" "Our Legs" "Our Feet" "Our Toes" "Our Toenails" "Our Skin" "Our Complexion" "Our Beauty" "Our Ugliness" "Our Deformity" "Our Symmetry" "Our Proportions" "Our Dimensions" "Our Weight" "Our Height" "Our Size" "Our Shape" "Our Figure" "Our Form" "Our Face" "Our Features" "Our Expression" "Our Countenance" "Our Appearance" "Our Manners" "Our Habits" "Our Customs" "Our Usages" "Our Practices" "Our Methods" "Our Ways" "Our Means" "Our Ends" "Our Aims" "Our Objects" "Our Purposes" "Our Intentions" "Our Motives" "Our Thoughts" "Our Feelings" "Our Emotions" "Our Passions" "Our Appetites" "Our Desires" "Our Wishes" "Our Hopes" "Our Fears" "Our Doubts" "Our Beliefs" "Our Unbeliefs" "Our Knowledge" "Our Ignorance" "Our Wisdom" "Our Folly" "Our Sense" "Our Nonsense" "Our Reason" "Our Unreason" "Our Sanity" "Our Insanity" "Our Mind" "Our Soul" "Our Body" "Our Spirit" "Our Flesh" "Our Bones" "Our Blood" "Our Nerves" "Our Muscles" "Our Sinews" "Our Heart" "Our Liver" "Our Lungs" "Our Stomach" "Our Bowels" "Our Kidneys" "Our Brain" "Our Head" "Our Hair" "Our Eyes" "Our Ears" "Our Nose" "Our Mouth" "Our Teeth" "Our Tongue" "Our Throat" "Our Neck" "Our Shoulders" "Our Arms" "Our Hands" "Our Fingers" "Our Nails" "Our Chest" "Our Back" "Our Sides" "Our Abdomen" "Our Thighs" "Our Legs" "Our Feet" "Our Toes" "Our Toenails" "Our Skin" "Our Complexion" "Our Beauty" "Our Ugliness" "Our Deformity" "Our Symmetry" "Our Proportions" "Our Dimensions" "Our Weight" "Our Height" "Our Size" "Our Shape" "Our Figure" "Our Form" "Our Face" "Our Features" "Our Expression" "Our Countenance" "Our Appearance" "Our Manners" "Our Habits" "Our Customs" "Our Usages" "Our Practices" "Our Methods" "Our Ways" "Our Means" "Our Ends" "Our Aims" "Our Objects" "Our Purposes" "Our Intentions" "Our Motives" "Our Thoughts" "Our Feelings" "Our Emotions" "Our Passions" "Our Appetites" "Our Desires" "Our Wishes"

JOTTINGS.

—Next regular council meeting will be Tuesday, July 5.

—Installation at Trinity Reformed church to-night. Music at 7.15.

—Choice, full-ripe musk-melons are in the market and in plentiful supply.

—The regular Thursday night meeting of the Reform Club will take place this evening.

—The Sunday school connected with St. Mary's church has closed for the usual summer vacation.

—Men were engaged to-day putting in position the new boiler at the Electric Light plant on Madison avenue.

—The thermometer these days is trying hard to get up to 100 degrees. It got up to 94 at three o'clock yesterday.

—The Crescents of this city and the Actives of the Borough, will cross bats on the Park avenue grounds, on the morning of July 4th.

—Programs are out for a musical and literary entertainment at Somerville on July 4th for the benefit of the Catholic church.

—Fourth of July celebrations seem to have gravitated towards the small towns of late years; and very old fashioned exercises are the rage.

—James House, who got the contract to paint Dr. Long's residence, on Park avenue, has the work nearly completed, and it is very creditable to him.

—Mr. Geisser, of Somerset street, purchased one of the Egyptian sacred cows sold at the auction, of the personal property of the late John B. Holmes yesterday.

—A man got knocked down for saying, "Is *this hot enough for you?*" He wasn't the fellow who wore the India-rubber overcoat or an advertisement either.

—Yesterday an old lady, though well preserved and evidently in the enjoyment of every faculty, called on Collier for a crystal to her watch, claiming that it was broken by the earthquake.

—The boys are a little "too previous" in commemorating the Fourth of July and a word of caution may save them trouble. To sell or use fireworks before the Fourth is punishable by law.

—Internal revenue receipts at Somerville last week amounted to $12,262.02. The office will be closed June 30th, the order consolidating that with the Newark district taking effect then.

—The city of Plainfield will have to take care of itself for the next ten days, and without the assistance of Policeman Lynch for he has departed—not for Canada—but on his annual vacation.

—People say that the white flag floating over Shaw's drug store to-day was Billy's flag of truce. We thought it was a weather signal. But, we don't object. This hot weather people should be good natured.

—The stores as well as the small boy, are preparing for the celebration of the "glorious Fourth,"—judging from the appearance of the various show windows. Scan our advertising columns and then give them a call.

—In the appeal case of Damnastadt vs. Mrs. Hopkins, a former proprietor of the Park House, tried in Elizabeth yesterday morning, resulted in a verdict of $100 for the plaintiff. W. R. Coddington appeared for the plaintiff.

—In the trial of James Bley, executor, vs. Martin Dougherty, a suit to recover possession of the premises 74 East Fourth street, which was tried before Justice Hetfield yesterday, the jury rendered a verdict for the defendant.

—Robert Jackson of West Fourth street, while engaged in polishing a box for a double revolution lithograph press at the Potter Press works, on Friday afternoon, got caught in the various show windows. Scan our advertising columns and then give them a call.

—In the appeal case of Damnastadt vs. Mrs. Hopkins, a former proprietor of the Park House, tried in Elizabeth yesterday morning, resulted in a verdict of $100 for the plaintiff. W. R. Coddington appeared for the plaintiff.

—In the trial of James Bley, executor, vs. Martin Dougherty, a suit to recover possession of the premises 74 East Fourth street, which was tried before Justice Hetfield yesterday, the jury rendered a verdict for the defendant.

—Robert Jackson of West Fourth street, while engaged in polishing a box for a double revolution lithograph press at the Potter Press works, on Friday afternoon, got caught in the various show windows, and after July 1, the price of a fifty-trip ticket on the Central Railroad, good until used, between Elizabeth and New York, will be $18.50, a reduction of $2.50. Station Agent Dowdell, at Elizabeth, yesterday received notice from H. P. Baldwin, General Passenger Agent, to this effect.

—The name, by words of the Singer Company at Elizabethport, will shut down for one week on next Saturday night to make much-needed repairs and alterations to machinery, thus giving the 3,000 employes a short summer vacation. Work will be resumed on July 11, and the hands will be paid next Saturday instead of Monday.

—*Tony Rost, an employee of the paper mill* at Scotch Plains, was arrested by Constable Hand on Tuesday afternoon, on a warrant issued by Justice Nash on complaint of Philip Blank, charged with threatening his (Blank's) life. The justice committed the prisoner to the county jail to await the action of the grand jury.

Mr. J. G. Cadmus, who left town for the summer, recently returned very suddenly, as it became noised about before THE NEWS published it that his name had been given with that of others recommended to succeed the present encumbent in the post office. Mr. Cadmus was last year strongly urged to accept the nomination for Mayor, but he considered that no more worthy man than Mayor Male could be found and declined to run against him.

HOLMES' EFFECTS SOLD.

The Sale Yesterday in Washington Valley—$50,000 Maps Sell for $190—Full Particulars of the Sale.

Yesterday afternoon, between two and three o'clock, the sale of the personal property of the late John Bute Holmes was begun in Washington Valley, on the premises owned and occupied by him at the time of death. The sale was ordered by the administrator, Deputy Sheriff Coddington of Somerville.

There were between 150 and 200 people present, and there was some lively bidding. On some of the goods exceedingly high prices and on others ridiculously low prices were obtained.

The last widow of deceased, Mrs. Margaret Holmes, was present with her counsel, James Bergen, of Somerville, and her spiritual adviser, Father O'Hanlon, who was present to assist in proceedings, if interests.

The first wife, as not present, but was represented by counsel, A. Pierce of New York.

The nonsense other wives were not present or represented by counsel.

The greatest excitement was when the Holmes maps were offered for sale. It appears Andrew Lutkins, of the firm of Lutkins & Hummer, Bankers, and ex-Assemblyman John Vetterlein, of Front street, had made private inquiries some days before the sale and learned that the maps were really as valuable as they had been represented to be. Some of them were from original surveys of New York city and were original maps.

They had quietly arranged to attend the auction and bid for these in a way not to excite suspicion and get them at as low a price as posed in.

Father O'Hanlon was there for a like purpose in the interest of the widow. After numerous sales of articles of household furniture had been sold and the maps were put up by lots. The maps were contained in some half a dozen boxes. Two of these were put up in the sale. Father O'Hanlon, supposing he was bidding on all the maps, started with a bid of $100.

Then Lutkins, who likewise supposed he was bidding on the most valuable maps, bid $150, and Father O'Hanlon, Mr. Vetterlein, Mr. Lutkins and others kept bidding against each other until the price had reached $300, when *Father O'Hanlon advanced it $50, evidently with the hope of scaring off the others.* They did on, however, amid great excitement, until the maps were knocked off to Father O'Hanlon, who had bid $500.

When, however, it was learned that the sale only included two boxes of maps, and those not the most valuable ones, Father O'Hanlon refused to take them, demanding the whole lot.

The matter was settled by the auctioneer, Mr. Hope of Raritan, declaring the sale off, and putting up the maps in one lot, including some at the printers in New York, and all maps found anywhere belonging to Holmes at the time of his death.

Messrs. Lutkins and Vetterlein refused to bid on them a second time, and Father O'Hanlon secured the maps for a bid of $190, covering no other bid. These maps were valued *by Holmes and other competent judges at* between $8,000 and $10,000.

The Egyptian bull and cow, which included some of the fancy stock on the premises, were sold separately. The bull broke loose in the yard near by, and baffled all efforts to capture him for the sale. So he was sold, the buyer to take his chances, and brought $7.50. A cow bought by Nicholas Geiser, of South avenue. The cow was bought for Peter Williams & Baldwin, of Warrenville, for $11. No one seemed to care to bid on either of them.

An Egyptian heifer, coming on last September, brought $28.50, and was bought by a farmer from over the mountain whose name could not be ascertained. A pet parrot brought $2.50? The pea fowl, stock and hens, brought $25 each. These were exceedingly beautiful. Councilman Carey bought a piano for $15.

The sale continued until dusk, and the entire sell, and it is estimated that they realized $700, while, included the maps, crops, house-hold furniture and the horses and other stock, and also the gold watch and chain. The watch brought $25.50, and the chain $12.50. The only remaining property is the real estate, mortgaged to more than its value, which is from $3,000 to $4,000.

The administrator will use the proceeds to *settle up the debts, and and, if there is any* thing left, it will be held subject to the decision of the Orphans' Court, as to who of the many claimants is Holmes' widow.

The "widows" will probably conclude that the residue is worth fighting for. The last widow has got the plum.

The last widow will remain in possession of the farm for the present, until the mortgagees foreclose. She bid for enough furniture to *serve her,* and as no one would bid against, she got many pieces at her own price. She has a remarkably beautiful face, is exceedingly lady-like in all her actions, and is only nineteen. She graduated from the public schools at Albany, N. Y., only about a year ago, and was married Holmes only about six months before his death. It is her present intention to remove to Plainfield in the Fall, permanently reside here, and give music lessons.

Her mother and father live at the Holmes homestead with her, and they will probably continue to live with her. The maps, from which it is expected a large sum will be realized, will be sent to Plainfield.

John Brwind bought the entire crops of the estate for $37.

The Fire Taxes.

The Plainfield Fire Department is now presenting bills for fire taxes under date of June 10, 1887. The assessment is twenty-eight cents on the hundred dollars. The Board of Appeals will be in session at the city court room on July 20th from 2 to 6 o'clock p. m. The following notice is given:

Taxes remaining unpaid on the 14th day of September, 1887, will be returned to Justices of the Peace for Union and Somerset counties, and interest at 12 per cent. per annum added, with legal costs for collection.

In case of non-resident owners, the tenants in possession shall in the same manner as the owner, be liable for, and they are hereby required to pay the taxes so assessed upon the property occupied by them, and they are hereby authorized to deduct such payment from the rent which they may have contracted to pay the owners of said property; and in case of the non-occupancy of any building, the assessment shall remain as a lien upon it, and the future occupiers shall be liable for all arrearages of assessment upon said building.—Section 10 of Incorporation Act.

On the War Path.

During yesterday afternoon two young men named James and John Deady, who were apparently under the influence of liquor created considerable excitement on West Third street by their unlawful conduct. Quarreling and fighting seemed to be their favorite pastime. It is said that during their escapades they assaulted a woman named Edmundson in a brutal manner; and in various other ways by their conduct, made themselves obnoxious to the respectable residents of the thoroughfare. *It is now reported,* that fearing arrest they have decamped for parts unknown.

Have You Got a Long Nose? A Rambling Chat by a Lot of Newspaper Men on Men, Dogs, Bears, Lions, Bulldogs and Popular Pallacies.

Plainfield has some of the brightest journalists in the country, who make their homes among us though associated with New York enterprises. Among the brightest of these are editor Walter P. Phillips and editor F. X. Schoonmaker. Tuesday in a chat with a NEWS man, a gentleman aside remarked: "An evening with both of them together is the richest kind of a treat." Mr. Phillips has a handsome home on Broadway and Mr. Schoonmaker likewise on Putnam avenue. Each has a salary of from $15,000 to $20,000 a year. Mr. Phillips is the general manager of the United Press, and Mr. Schoonmaker has charge of the cable news of the Associated Press. They are also members of the Board of Directors of their respective corporations, which control all the telegraphic news of the country. Through Mr. Phillips kindness we secured the franchise for all the telegraphic news to Plainfield.

Tuesday a party, of which Mr. Schoonmaker made one, met on the train and the conversation turned on popular fallacies. "Now," said he, "people are prone to associate courage with men who resemble the bulldog, that is, a person with a heavy jaw and a short nose. But the bull terrier is just the reverse. He has a long nose and an ordinary jaw. Yet he will down a bulldog every time though the bulldog is twice his size, has the most powerful grip and don't know how to let go. The grip of the bulldog and the bull terrier he might crush him, but the terrier is too agile, tough and though his grip is not as strong he has more nerve. Now a German scientist has followed this up, and shows that the more nerve there is the more there is of all the world who show the finest courage. What higher type of courage has the world ever seen, than that of Jesus Christ? *In this respect alone the world has never seen* anything equal to him. He was a Jew, and the Jew of to-day is probably of the same type of face as he was in the time of Christ. Christ, therefore, doubtless had a long nose. Napoleon once said, 'Give me a man with a long nose has a long head. Now, where will you find a shrewder people than the Jews of the pure type? In fact this was the bull dog style in that animal the result of breeding. It was *found in older times that this breed of dogs* had the most powerful jaws, and they were used for bull-baiting. The dog always caught the bull by the nose. The bull having a short nose and long jaw that the dog could not breath, and was so tenacious of his grip that he would hold on until he caused the bull's death. So the dogs of this species with abnormally short noses were bred, until now the bull dog can hold the bull by the nose and *have space before his nose for breathing pur* poses. This is why it is called a bull dog, and not because it has the courage of a bull.

Look at the courage of the martyrs, who went deliberately to execution. Yet they had no fear of death.

Then it don't follow that a pointed nose like the fox denotes slyness. Mr. Davis is one of the most successful men in the country. He is a genius. He is not the Davis who resides in *Plainfield, although the latter is also a very* clever man, and was formerly in connection with the United Press. Mr. Davis was sent down years ago to have telegraphic wires built across the Isthmus of Panama. There were frequently nearly a thousand miles between habitations. He got out of money, and to raise more, sent down and purchased bonds, and took them over the country as a menagerie. He got into Peru and had struck a fever. There he began to make some money. *He had* hand bills circulated for miles around, announcing a fight between a lion and a bull. The crowds fairly poured in. He had his large bear chained loosely to a stake. When the bull was brought in the animal lowered his head made a rush for the bear, which rolled over on his back, and got himself just in the position for the bull to get his entrails out, and was killed. The audience was going *to mob the Americans, considering the thing* a swindle, when they found it could do to go away with their lives, to say nothing of losing their bear. They had had a hard struggle to keep the animal back. The bear reached Lima, nearly destitute. Then they sent out hand bills announcing a fight between a lioness and a bull. It was a sharp one. The bull was like the bear or fox. Yet note how shy she was in the fight. There was an immense audience. *It was Sunday; the being the day* on which such things occur. When the bull rushed towards the lioness she crouched low to the ground that he could not get a fair blow at her, and just before he reached her she sprang upward and landed crosswise on his back and gave him a blow on the back of the neck, breaking his vertebra and killing him instantly. Five hundred dollars in gold the lioness in precisely the same manner. These *animals had been captives all their lives, yet* instinctively knew how to strike the proper blow. The lioness has not a jaw or nose like a bull dog. But to come back to men. There's John A. Sullivan with the face of the type of traditional prize-fighter. He is a fine looking man with a long nose. One of his most terrific blows is like that of the lioness at the back of the neck. His jaw is not abnormally developed. Just at this point the boat reached *the slip and the interesting chat closed.*

Reduction in Railroad Fares.

Considerable reduction in fares are to be made on the Central Railroad, dating from the 1st of July.

This company was originally among the most liberal and enterprising roads running out of New York, and now upon possession of its property, it proposes to resume the old policy which did so much to popularise it and to build up its business.

The towns in Eastern New Jersey have not grown much for years past, the tide of population flowing to New York, having set largely toward the upper part of the city.

Now that the elevated railroads have apparently reached their full capacity, the time is considered auspicious for a renewal of the movement into New Jersey, and the reduction of fares comes in time to suggest and to stimulate that movement. We give below the old rates and the new rates for comparison:

Stations	Trip	Excur.	50 ride	Per ride
	old new	old new	Trip	
Fanwood	.65	.55	1.00	.75
Netherwood	.70	.60	1.10	.85
Plainfield	.70	.60	1.10	1.00
Grant avenue	.75	.60	1.15	1.05
Evons	.75	.60	1.15	1.10
Dunellen	.80	.70	1.30	1.15
Bound Brook	.95	.80	1.40	1.30
Finderne	1.00	.90	1.50	1.40
Somerville	1.05	.90	1.60	1.50
				28.00

36.25 32 1-2
45.17.25 35 1-2
1.00 18.50 36
1.05 18.75 37 1-2
1.10 19.50 39
1.15 20.50 41
1.30 24.25 48 1-2
1.50 28.00 56

With the 50 trip tickets there are no stop over privileges, but the books are good in the hands of the bearer for one or more persons as long as they have tickets in the book, and *with it a round trip will cost 72 cents instead* of as at present $1.10.

The excursion rate to Lake Hopatcong has been reduced from $2.80 to $2.50.

The new Schedule will go into effect July 1st.

—The jury in the case of Patrick Carroll of Jersey City, a barkeeper, who was tried for the murder of Gustave Lippeigen, a Musician on May 7, rendered a verdict yesterday of murder in the second degree.

PERSONAL.

Mr. and Mrs. Lockwood and family, of West Seventh street, start on Saturday for Long Island, to spend the summer at that place.

Miss Townsend and Miss Mabel Townsend, of Long Island are visiting their brother Samuel Townsend, of Washington Park, North Plainfield.

The funeral of the late Genie Morse, who died Monday from rheumatism around the heart, took place from the residence of her parents yesterday afternoon.

City Judge Ulrich and Messrs. George W. Moore and H. C. Drake, left this city on the 8.40 train this morning to be present at the dedication of the new G. A. R. statue at Gettysburg, to-morrow.

It will please the many friends of George H. Headley, of Seventh street, to learn that he has very much improved from the effect of *a stroke of paralysis with which he was pros*trated a month or two ago.

Telegraph Manager Schermerhorn, at the main depot here, who has been prostrated for the past two weeks with sciatic rheumatism is still confined much of the time to his bed. Himself and wife propose trying the effect of a change of air, and if possible, will start Saturday for Philadelphia.

Mr. S. A. Haines of Netherwood, will address the Reform Club meeting on Sunday evening. Mr. Haines has just returned from the West, where he has been in attendance at the great gathering of commercial travelers, who have started a grand temperance movement among themselves, with a view of getting the commercial travelers all over the country to sign the total abstinence pledge. This movement on the part of the 4,000 men or more who are continually traveling from place to place, is considered a most important one for the cause of temperance, and Mr. Haines will relate his experience while at St. *Louis, on Sunday evening.*

Condemned a Remarkable Case.

The daughter of Charles M. Wilson, of West Fifth St., was taken ill seven weeks ago last Sunday. After two weeks a prominent physician, who was called, pronounced it a fever of a typhoid character, but it baffled his skill. The girl's temperature varies from 90 to 105 degrees, she has been unable to take any special amount of food for nearly five weeks. At times it has seemed that she must pass away within the next twenty-four hours, all hope being given up, but she still lives. Her body had become bloated during her illness. This during the bloated condition largely disappeared, leaving her almost a skeleton. Her lungs are very much affected, and fears that they may fill and thus end the struggle. Her friends seemed clear this morning, but there is little hope of her recovery. It is spoken of in the neighborhood as doubtful and singular case. The girl is fourteen years old. She is a favorite and sympathy of the community. Mr. Wilson is a carpenter, and depends upon his daily's labor for the support of his large family.

Installation at Trinity Reformed Church.

According to the rites and usages of this church its new pastor will be formally installed this evening and the installation services, which always are solemn and impressive, will be particularly so to night. The musicial part of the services will commence at precisely 7.15. The following selections have been made subject to charge.

MUSICAL PROGRAM.

"Grand Offertorre de Concerte," Eugene Thayer
"Be Thou Faithful unto Death." Mendelssohn
"Send out Thy Light," Gallinett.
Soprano solo—Mrs. D. H. Jeffery.
"The Young Soldier," D. H. Jeffery.
"My Faith Looks Up to Thee," Bassford
Duets—Mr. and Mrs. Jeffery.
"On These Rich Living Souls," Creation.
Trio—Mr. and Mrs. Jefferey, and Mr. T. Brown.
"Grand Offertorio de Noel," Eugene Thayer.
Organ Solo—Mr. A. L. Titsworth.

Quarter Sessions.

Judge Bartine, Thompson and Jameson took action in a number of criminal matters.

The hearing of arguments for a new trial in the case of Charles Ornecler of North Plainfield, found guilty at the last term of court of keeping a disorderly house, was postponed until July 29.

The case of John Grondofer, who was committed on Wednesday by mayor Cooley of North Plainfield, was continued in default of bail.

The case of John Grondofer, who was committed on Wednesday by mayor Cooley of North Plainfield, was continued. The charge is larceny. As the State did not have its witnesses on hand the matter went over.

The case of Theodore Hope, of Raritan, an Italian who committed an atrocious assault on James Tierney a few years ago, was called. Hope was indicted in September, 1884, and has since been a fugitive from justice in Italy. He returned to this country a short time ago and surrendered himself to the authorities. A hearing was ordered for Friday.

Justice Austin's Court.

On Monday evening a hearing in the case of Mrs. John Richter, who applied to the Overseer of the Township of North Plainfield for relief, claiming to be stringent circumstances, took place before Justice Austin, and it was decided that she would have applied to the city of Plainfield and not the township. It appears that she was married in this city, had always resided here up to the time of being deserted by her husband, about six months ago, and then she removed to North Plainfield, where she has since resided. Application will probably be made to the Overseer of the Poor in this city.

A Robbery on Grove Street.

The house of Louis R. Blackford on Grove street, near Linden avenue, North Plainfield, was entered by burglars and robbed of about thirty dollars in money, about half-past ten o'clock yesterday morning, while the family were absent. Mr Blackford thinks it is the work of some boys, as other articles of value which were in the house at the time were not molested. The thieves escaped and left no clew as to their identity.

Election of Officers.

At a meeting of the I. O. O. F., No. 44, held in the lodge room Monday evening the following officers were elected for the term of six months:

V. G.—Louis Blackford;
N. G.—Charles Tallman,
R. S.—R. C. Morse.

The other officers of the lodge are elected for one year and their terms have not yet expired.

LATEST DISPATCHES.

THE NEWS controls the services of the American Press Association and the *United Press, and is the only paper pub*lished in this section that possesses a Telegraphic News Franchise.

Thermometer Record.

The following is the record of the thermometer for this day and for the corresponding date of last year, as kept at Stelle's drug store, corner of Front street and Park avenue.

1887	1886		
6 a. m.....	68	63	Sun rises..... 4 32
9 a. m.....	77	69	Sun sets..... 7 37
12 m	86	76	Moon rises.....
3 p. m.....	98	84	Moon sets..... 1 09

Weather Indications.

For Friday, in New Jersey, eastern New York, and eastern Pennsylvania, and in New England, fair to partly cloudy weather, with slight thermal changes, followed by local rains.

False Report.

WOODBRIDGE, N. J.—June 30—The report that a man named William Gallop was murdered here yesterday is false, Judge Newton examined the body and reported that he died of cramps.

Suicide Buried.

WOODBRIDGE, N.J., June 30.—The body of the man who committed suicide by hanging himself yesterday, was buried this morning. His name was Allison.

Four Men Sentenced.

LONDON, June 30—The captain and three sailors of the ship Lady Douglas have just been sentenced to death for the murder of a Malay sailor. Defence put in a plea that the *Malay was a fanatic and was constantly* menacing the ship's crew.

Express Robber Sentenced.

UTICA, N. Y., June 30—Sapil Rourke, the express robber, was to-day sentenced to twenty years hard labor in the Auburn penitentiary. Appeals of mercy were made to the court, but no attention was paid to them.

Prize Fight.

BOSTON, MASS., June 30—James Mullise, of Brooklyn, and James Kearny, of England, to-day signed contracts for a fight with skintight gloves for a purse of $2,500, to be fought with three hundred miles of Boston between October first and sixth.

Boy Killed.

PATERSON, N. J., June 30—Last night a twelve year old boy named Frank Honken, residing on Putnam street, was killed at Warren street crossing, by an Erie railroad train. The body was thrown high in the air and fell again on the locomotive, and rolled off about one hundred yards from the spot where struck.

North Plainfield Public School Graduates.

The following is a list of the graduates of the North Plainfield Public School from 1884 to 1887. Previous to 1884 no record of graduates was kept.

1884

PRINCIPAL—CHAS. E. BOSS.

Ella M. Cory,	Clarence L. Murphy,
Capitola M. Conover,	William O. Worth,
Robert C. Rand,	William H. Wilcox,

1885

PRINCIPAL—CHAS. E. BOSS.

M. Emma Cory,	Elston M. French,
Lillian M. Bird,	F. Coriell Bolice,
Jennie D. Crowley,	Alfred A. Oblitz,
Matilda E. Hudson,	M. Tillie Young,
	Sarah E. Mackey.

1886

PRINCIPAL—CHAS. E. BOSS.

Lillian A. Force,	Lydia Colton,
Alice Nolan,	Emma F. Gillem,
Adelaide B. Storm,	Almeda C. Garrison,
Lizzie D. De Camp,	Alice G. Woodland,
David Bodine,	Anna Hull,
Frank R. Searles,	Fannie S. Mattison,
Charles J. Wemuss,	Lillie M. Steiner,
Percy L. Worth,	Leonard A. Lounz,
George W. Bird,	Clara L. Steiner,
	Eli Long, Jr.

1887

PRINCIPAL—CHAS. E. BOSS.

Minnie A. French,	Frederick W. Biddleoff,
Emily S. Higbee Gordon,	Ida B. C. Petrie,
Florence V. Hurlburt,	David H. French,
Elizabeth H. Brewer,	Howard A. Coddington,
Marie E. Gavin,	John M. Lewis,
Alfred B. Thorn,	Frank P. Wilson,
George P. Taggart,	Frederick C. Grant,
	Paul D. Lotzeaux.

BOARD OF TRUSTEES.

1882—Wm. E. Jones, F. H. Gardner, Theo French.
1883—H. K. Carroll, F. H. Gardner, Theo. French.
1884—H. K. Carroll, F. H. Gardner, James McGee.
1885—Same Board.
1886—Same Board.
1887—H. K. Carroll, Geo. F. Brown, James McGee.

A Tennis Tournament.

Commencing to-morrow afternoon at 3.30 o'clock the Plainfield Lawn Tennis Club, on its grounds corner of Central avenue and Eighth street, will commence a series of Lawn Tennis Tournaments. The prizes offered will consist of tennis goods and it is expected that the games will be very exciting. Four games will take place on July 4th and 9th. The following are a list of the players entered:

PLAINFIELD—SINGLES:

Henry P. Talmadge, William D. Murray, James R. Joy, Jule Erickson, Louis E. Walz, H. W. Beebe, Fred W. Walz, G. Harry Squires, James P. Murray, William B. Post, Rogers Ramsay, David Wetherspoon, Harry Murray, Samuel St. J. McCutchen, Augustus Van Deventer, Russel Jacobus, A. Willis Anderson.

PLAINFIELD—DOUBLES:

J. P. Murray and L. E. Walz; S. St. J. McCutchen and A. Van Deventer; F. Walz and H. W. Beebe; R. Jacobus and D. Wetherspoon; W. D. Murray and partner; J. Joy and partner.

ELIZABETH—SINGLES:

L. W. Glazebrook, J. C. Elliott, Jas. S. Green, Jr., J. Cook, J. Ramsey, S. W. Smith, W. F. Brandegee.

ELIZABETH—DOUBLES:

J. S. Green, Jr., and W. F. Brandegee; L. W. Glazebrook and S. W. Smith; J. C. Elliott and partner; J. Cook and partner; J. Ramsey and partner.

NOTICE—The Plainfield Gas Light Co. would call attention of the Gas Consumers in this city to the marked improvements recently made in the construction of gas stoves for heating and cooking.

THE SUPERIORITY of the Gas Stove for roasting, baking and broiling has been demonstrated in the cooking schools of New York, and remains unquestioned.

We invite inspection of these stoves at our office corner of Fourth and Washington Sts.

Parties desiring to test the cleanliness of the stoves can bring articles to be cooked; and gas will be furnished for such tests FREE OF CHARGE.

SPECIAL RATES will be made for gas used for cooking so that the cost will compare favorably with the use of coal. The stove will be delivered AT COST, or can be rented at moderate rates. PLAINFIELD GAS LIGHT COMPANY.

BOUND BROOK.

Miss Linda Kershaw has arrived house from Texas.

There will be a boat race and a tub race on the river Monday, July 4.

Prof. Bartow has resigned his place as organist in the Congregational church.

Mrs. Charles Brooks has returned from a visit to her father in Pennsylvania.

Mrs. E. D. VanDerenter of New York and her granddaughter, Miss Helen Page, have been visiting friends here.

Mrs. *Henry Byor,* nee *Mack,* died suddenly in New Hainspeace last week. Her remains were brought here for burial.

James Link prides himself on his poultry. He has some fine Muscovey ducks, tiger and carrier pigeons, and Polish chicks.

Mrs. John W. Reed and son are visiting in Hunterdon county. Mrs. R. is a daughter of Lewis R. Runkle, the Runkle mine of the Hunterdon Democrat.

There was a rough and tumble fight on the base ball grounds Saturday afternoon. The affray was between new and old mill hands. No one was seriously hurt.

Peter Koehler, Jr., of Bloomington has launched a little sloop that he has named 'Frankie C.," in honor of Mrs. Cleveland.

And delivered within the City and Suburbs at 12 cents per week, or by mail prepaid to all parts of the United States, at $6 per year payable in advance.

THURSDAY, JUNE 30, 1887.

JUDGE COMSTOCK'S ILLNESS.

His Physicians Say That His Recovery Cannot be Expected.

SARATOGA, Springs, N. Y., June 30.—Judge George F. Comstock, of Syracuse, who was attacked with vertigo on Saturday last at the Windsor hotel, does not improve, and his condition is regarded as grave. The apprehensions of his wife and son, who joined him here on Tuesday. On Tuesday the judge persisted in leaving his room against the wishes of his attendant, but he was unable to be about yesterday. On Saturday last he called upon Chief Judge Ruger, of the court of appeals, in the latter's cottage, and spent several minutes in conference with the judge. It was noticed and privately spoken of between Judges Ruger and Andrews that Judge Comstock's mind was not just right. He soon after left the cottage and repaired to his hotel. At 4 a. m. the next day Judge Comstock was found in his bath helpless and almost unconscious. It is presumed that he had been there but a few minutes. His wife and son were then sent for, and although he has rallied somewhat his mind is seriously impaired. His attendant physicians say that his malady is a severe and culminating form of kidney disease, and as the judge is 75 years of age his recovery cannot be expected. A trained nurse was sent for last night to assume his care.

A GLYCERINE FACTORY

Blown Up with a Terrible Report, Causing Death and Destruction.

FINDLAY, O., June 30.—Yesterday afternoon, at about 5 o'clock, the McCoy glycerine factory, situated on the Carlin farm, about four miles west of the city, was blown up with a terrific report, jarring the whole city. The factory building was a frame structure about 30 by 40 feet in dimensions, built in the woods, and was blown to pieces, leaving nothing but a few small pieces of boards scattered far away from the site of the building. The ground on which the building stood is torn up in a frightful manner, leaving a hole eighteen feet deep. A portable engine was thrown over and broken, while the iron acid drums were scattered about at some distance from where the building stood. Four tramps were seen hanging around the building a short time before the explosion, and as shoes and parts of clothing are scattered around the men are believed to have been blown to atoms. The cause of the explosion is unknown.

Youthful Voyagers.

NEW YORK, June 30.—On the steamer Wisconsin, which arrived to-day, were two children, William Lawless, aged 12 years, and Lila sister Kadie, aged 10. They come from county Kilkenny, Ireland, and want to go to their father who has been in this country ten years. The little wanderers say their father is in Boston, but do not know his address further than that. The Castle Garden authorities will hold the children until they learn of his whereabouts.

A Firecracker and a Boy.

JAMESTOWN, N. Y., June 30.—A boy lighted a firecracker in the confectionery store of H. Kelly, on Main street, yesterday. Exploding, it ignited a quantity of fireworks piled in the window. These exploded and the store took fire. Before the flames were extinguished the building and three others adjoining were damaged so that they will have to be rebuilt. The total loss will be $5,000, with a small insurance.

Alumni Dinner at New Haven.

NEW HAVEN, June 30.—The Yale alumni dinner at Alumni hall yesterday was participated in by a larger number than usual. President Dwight presided, and Governor Lounsbury and J. Randolph Tucker were among the speakers. The John A. Porter prize of $50 was awarded to E. M. Chapman, of Saybrook, Conn., with special mention of Leonard M. Daggett, of New Haven, for excellence in composition.

A Murder in New York.

NEW YORK, June 30.—Hattie Darser, a young woman of somewhat doubtful reputation, was shot and fatally injured yesterday by Andrew Matson, a steward on board the yacht Westmoreland, which lay at a dock in this street, to which the couple had retired last night. Matson was arrested and held at the Jefferson Market police court to await the result of the woman's injuries. He refuses to give any reason for the act.

Wants $1,000 Damages.

LONDON, June 30.—Mr. William M. Murphy, member of parliament for St. Patrick's, has caused the issuance of a summons for Capt. Hayden, of the royal navy, commander of her majesty's ship Shannon, for trespass, in having sent a boat's crew on board his yacht in Bantry bay and forcibly seizing a green signal flag flying at the yacht's masthead. Mr. Murphy lays his damages at £1,000.

"Fired" with a Good Character.

MIDDLETOWN, Conn., June 30.—Wesleyan alumni, by a vote of 100 to 1, adopted a resolution highly complimentary to the sterling worth of President Beach, the association believes that the well being of the college requires the retention of the present. The trustees are considering the matter. M. A. Knapp, of Syracuse, N. Y., and George L. Ingraham, of Brooklyn, N. Y., were elected trustees.

"Butted" to Death.

COLUMBIA, S. C., June 30.—Jack Dillard and Scott Logan, two railroad employes, quarreled in the depot here yesterday afternoon, when finally Logan struck Dillard by the ears and, holding his antagonist against the side of a car, butted him several times between the eyes. Logan, when released, crawled under a car, and was found dead soon afterward died of concussion of the brain.

A Monument to Mark Hopkins.

SPRINGFIELD, Mass., June 30.—At the Williams college alumni annual dinner last night, resolutions of eulogy of the late President Mark Hopkins were adopted, and steps were taken to secure the erection of a fitting monument to the deceased. David Dudley Field, of New York; Hiram L. Lewis, of Chicago, and others were appointed a committee to carry out this resolution.

Whisky Was the Cause.

PHILADELPHIA, June 30.—Thomas O'Connor, who, on the 23d of May, while out boating on the Delaware with a number of friends, started a fight which resulted in the boat being upset and five persons drowned, yesterday pleaded guilty to five bills of indictment charging him with involuntary manslaughter in causing the death of Catherine, Thomas and Annie Abermuller Murphy, Margaret Raney and Dennis Crimmins. Nearly all the members of the party had been drinking. Sentence was deferred.

KING OF THE BOODLERS.

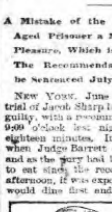
The Great Bribery Trial in New York Ended.

FOUND GUILTY AS INDICTED

The Verdict Arrived at in Eighteen Minutes.

A Mistake of the Foreman Gives the Aged Prisoner a Momentary Thrill of Pleasure, Which is Quickly Dispelled. The Recommendation to Mercy—To be Sentenced July 13.

NEW YORK, June 30.—The jury in the trial of Jacob Sharp brought in a verdict of guilty, with a recommendation to mercy, at 9:09 o'clock last night, after being out eighteen minutes. It was just 9:11 o'clock when Judge Barrett concluded his charge, and as the jury had been without anything to eat since the recess hour, early in the afternoon, it was expected by all that they would dine first and deliberate upon their verdict afterward. Facing full retirement in close proximity, the crowd of curiosity seekers, who had sat in the jury room and the supreme court and sat alone in the gloom, the burly officers of the court, deputy sheriffs hovering like avenging spirits about him. Every now and then one of his lawyers bustled in, whispered a word of encouragement in his ear and then disappeared again.



JACOB SHARP.

Mr. Sharp sat stolid and immovable. His fat, wrinkled hands resting upon the crooked ivory handle of his cane, his chin pressing upon his hands, and his eyes as devoid of lustre as they were of expression, staring straight in front of him, and seeing nothing.

"He is weak in mind and body," said Judge Nelson pityingly.

ATTENTIVE RELATIVES.

His grandson, George Sharp, sat beside him, his smooth boyish face bearing marks of fatigue and sorrow. All day long he had stuck to Mr. Sharp, busily fanning him. Judge Barrett sent his stenographer off in a carriage and then retired to his private room. About the entrance to the big court room, on the southwest corner of the building, where the jury were deliberating, was a cordon of court officers jealously guarding the room from all intruders. Mr. Martine and his assistants were over in the district attorney's office trying and discussing, awaiting the result of the trial with assurance.

At 9:05 o'clock word was conveyed to one of the court officers that the jury had agreed. A messenger was in hot haste to notify Judge Barrett and the lawyers, and a minute later the big court house was a scene of wild confusion. Lights blazed out in gloomy corners, there was the patter of hurrying feet, and the court of oyer and terminer woke into busy life in the twinkling of an eye.

At 9:08 o'clock Judge Barrett took his seat on the bench, the lawyers came hurrying in with Mr. Sharp, and one minute later the jury filed in solemnly in single file and dropped into their seats as the jury box. There was a moment of dead silence.

Mr. Sharp sat in his arm chair by the side of his counsel's table. He dropped into his old position, with his hands upon his cane, his head thrust forward and his watery eyes fixed in a dazed way upon the jury. On his right sat his grandson, on his left sat Mr. Stickney, with his fiercely curling mustache and wrinkled face, while opposite to him were Lawyers Nelson, Mitchell, Parsons and Caufield. Right in front of the jury were Messrs. Martine, Semple and Nicoll. Over against the wall were Inspector Byrnes and Billy Ricketts. A few women were scattered about, lending touches of color to the gloomy scene.

GUILTY AS INDICTED.

Clerk Welsh rose in his seat. "Gentlemen of the jury, have you agreed upon a verdict?" he asked.

"We have, sir," replied Foreman Canfield, rising.

Clerk Welsh—How say you, gentlemen of the jury, is the prisoner at the bar guilty or not guilty of the crime charged against him?

Mr. Sharp's head began forward Canfield, while every man in the room pricked up his ears and leaned forward eagerly. Every eye was turned upon Mr. Sharp, who seemed to be the most indifferent person present. Then Foreman Canfield corrected himself in a second.

"I mean, your Honor," he said, hastily, "that we find him guilty as charged in the indictment."

There seemed to be a sigh of relief at this. There was a bustle that was instantly rapped into silence by the court officers.

"Rise, Jacob Sharp," ordered Clerk Welsh. Mr. Sharp scrambled feebly to his feet and stood leaning heavily upon his cane.

"How old are you?" asked Clerk Welsh.

Mr. Sharp lifted his eyes stolidly to the clerk and said as though he were in a dream:

"I'll be 70 the 6th of next month."

Then he dropped back into his seat.

"And your residence?" asked the clerk.

"No. 128 West Twenty-third street," replied Mr. Sharp in the same wandering way. Young George Sharp leaned over and talked encouragingly to his grandfather. Mr. Stickney sprang to his feet and said:

"What time will your honor give us to prepare our case for a motion——"

Clerk Welsh interrupted him by asking each juror separately if his verdict was guilty. Foreman Canfield climbed around among the jury, and when he returned to his seat he said to Judge Barrett:

RECOMMENDED TO MERCY.

"We recommend the defendant to mercy."

Again Mr. Stickney tried to have a time set for the hearing of his motion for a new trial, but Judge Barrett turned to the jury and thanked them for their services.

"Gentlemen," he said, "it is with a profound sense of the value of your services that I relieve you from further duty. No more arduous duty could be imposed upon you. Never before has a more impartial and intelligent jury sat in my court. I am not in the habit of flattering a jury, but I am constrained to say this. I thank you most heartily for the valuable services you have rendered. You have done your whole duty and brought a verdict that was demanded by the evidence."

"I would like to, in the name of the jury," Foreman Canfield said, "thank you for the consideration we have met with and for the kind attentions of the officers who have been with us for so many days."

The jury disappeared in a clatter of hurrying feet, and then all the lawyers surrounded Judge Barrett and a long and animated conversation ensued. It was agreed that Mr. Sharp would be sentenced on the 13th of next month, which would give his lawyers a chance to prepare their bill of exceptions. They will also make a motion for a new trial on that day.

"Last evening there was a report," Mr. Parsons said to the judge, "that Mr. Sharp was at the point of death. All we have is the opinion of Dr. Loomis, Mr. Sharp's consulting physician, who says that any change in his condition might be attended with great danger and perhaps fatal results. In view of this we ask that he be not removed from Ludlow street jail."

Mr. Stickney—Will the defendant remain in the hands of the sheriff, your honor?

Judge Barrett—I suppose so. I will see if there is any law which gives the court any discretion. I know he cannot be bailed.

After some further consultation in which all joined, Judge Barrett said:

"I shall take the responsibility and continue to confine him where he is."

Mr. Nicoll wanted Judge Barrett to make an order to have Mr. Sharp examined by some competent physician appointed by the court. This was not decided upon, but it may be done.

Sheriff Grant, Under Sheriff Sexton, and Deputy Sheriffs Burke and Curran, surrounded Mr. Sharp and led him tenderly down the steep stairs and into the waiting carriage. Mr. Stickney hung at after them, and Mr. Sharp was whirled off in a carriage to Ludlow street jail.

OPINIONS ON THE VERDICT.

Judge Barrett—It was a perfectly just verdict, and is founded upon conclusive and irrefragible proof. The jury was a competent one. The lesson is a wholesome one, and it is a good thing for the city that this result has been obtained. The maximum punishment for the offense is ten years in state prison and $5,000 fine. Oh, yes; I consider the trial just as big as the trial of William M. Tweed and the result just as satisfactory.

Mr. Martine and Mr. Nicoll—The verdict is the logical result of the evidence. We were absolutely sure of a conviction. The result could not have been otherwise.

Lawyers Nelson and Mitchell (of the defense)—This does not end the case. We have been agreeably surprised in the past two days. We have hopes still of relieving our client, and shall leave no stone unturned to aid him.

Foreman Canfield—There is very little to say about the verdict. Only we came together, a few moments after our retirement, for our vote, I got twenty-four slips of paper, and wrote "Guilty" on twelve slips and "Not guilty" on the rest, and gave two slips to each juror, and then held out my hat, and they dropped their ballots in it. It was a unanimous vote of "Guilty." There was no preliminary discussion between the jurors whatever, excepting as to the propriety of recommending the defendant to clemency. After the verdict was announced I asked Judge Barrett whether it would be proper to make such a recommendation, and he acquiesced immediately. Mr. Martine came up to me and thanked me personally, and the other jurors, through me, for the recommendation. That is the whole story of the verdict. My mistake on the announcement was a slip of the tongue due to excitement that a man naturally would labor under in such a very serious situation. The jury all appreciated the fairness of Judge Barrett's charge. He is a good man.

The other jurors said the same in effect as Foreman Canfield. They all thought the judge's charge fair. Capt. Billy Ricketts took them back to the deliberation hotel after they had announced their verdict, and they there had a farewell dinner.

THE PRISONER DECLARES HIS INNOCENCE.

As he alighted in front of Ludlow street jail Sharp shook himself together and spoke the first words that had passed his lips since his whispered consultation with his lawyers after the verdict. The words were these:

"I am innocent. It is for you to say if you here that I never paid a penny to the aldermen, nor did anything in the shape of bribing them."

The reaction from the terrible strain of the past few weeks and the terrible excitement of the day now began to show itself. The old man Jacob Sharp Burke and Curran seized his arms and bore him quickly up the steps. Keeper Hubert Casey, who is on special inside duty, swung the door open, and as it closed behind Sharp they began to watch outside the prison during Sharp's stay there, drove back the curious crowd that had pressed up the steps.

Inside Keeper Casey received Sharp immediately to his room, which was formerly occupied by Boss Tweed. The party that entered was a silent one. The officers spoke little, and Sharp, who had evidently rapped into silence by the court officers.

"Rise, Jacob Sharp," ordered Clerk Welsh. Mr. Sharp scrambled feebly to his feet and stood leaning heavily upon his cane.

"How old are you?" asked Clerk Welsh.

Mr. Sharp lifted his eyes stolidly to the clerk and said as though he were in a dream:

"I'll be 70 the 6th of next month."

Then he dropped back into his seat.

"And your residence?" asked the clerk.

"No. 128 West Twenty-third street," replied Mr. Sharp in the same wandering way. Young George Sharp leaned over and talked encouragingly to his grandfather. Mr. Stickney sprang to his feet and said:

"What time will your honor give us to prepare our case for a motion——"

Clerk Welsh interrupted him by asking each juror separately if his verdict was guilty. Foreman Canfield climbed around among the jury, and when he returned to his seat he said to Judge Barrett:

RECOMMENDED TO MERCY.

"We recommend the defendant to mercy."

Again Mr. Stickney tried to have a time set for the hearing of his motion for a new trial, but Judge Barrett turned to the jury and thanked them for their services.

"Gentlemen," he said, "it is with a profound sense of the value of your services that I relieve you from further duty. No more arduous duty could be imposed upon you. Never before has a more impartial and intelligent jury sat in my court. I am not in the habit of flattering a jury, but I am constrained to say this. I thank you most heartily for the valuable services you have rendered. You have done your whole duty and brought a verdict that was demanded by the evidence."

"I would like to, in the name of the jury," Foreman Canfield said, "thank you for the consideration we have met with and for the kind attentions of the officers who have been with us for so many days."

and immediately the Broadway road filled its articles of incorporation. Mr. Sharp was one of the incorporators. There was circumstantial evidence from which a jury might infer that when Sharp labored for the passage of the general railroad act he had in view the scheme of a Broadway surface road. Here Mr. Phelps testifies directly that Sharp told him that that was his object.

After reviewing the evidence in detail, Judge Barrett said: "If you find that Fullgraff was bribed and that $500,000 was raised by Kerr and Foshay with the knowledge of Sharp, and you come to the conclusion that that sum was not raised for the purpose which appear on the books of the road, and that that sum really went to the corruption of the board of aldermen, you must find him guilty. If you believe that Kerr and Foshay did this and concealed it from Mr. Sharp because of their own interest, still notwithstanding the great benefits which Mr. Sharp was to reap from it, and Mr. Sharp was ignorant, then you must acquit him. There is abundant evidence to draw your conclusions from."

AMICABLY ADJUSTED.

The Threatened Strike of Iron Workers Averted.

PITTSBURG, June 30.—The iron manufacturers and wage committee of the Amalgamated Association of Iron and Steel Workers met in conference this afternoon and made very satisfactory progress toward a settlement of the wage scale question. The manufacturers at once accepted the proposed 10 per cent. advance and immediately set about discussing the extras. After a four hours' session the scale was satisfactorily adjusted, decision being left covering the time for rolling pipe iron on sheet mills, and adjourned until to-day. The only possible hitch that can occur now will be on the new scale for pull turners. It is fully expected that this matter will be settled at present, but a strike will be avoided by the manufacturers signing the scale leaving the roll turners out until their interests can be more thoroughly investigated. There will be no interruption of work at the iron mills at present.

Elevated Roads Exempt.

NEW YORK, June 30.—The corporation counsel has given an opinion that the state law requiring street railway franchises to be sold at auction to the highest bidder does not apply to elevated railway franchises. It was probably intended to include them, but if so, it was not properly drawn, as under the rapid transit act there can be no competition for elevated railway franchises, for but one company can bid, namely, the one created by the rapid transit commission to operate a road on a route fixed by the commission. This defect, unless remodled, will deprive the city of a considerable item of income which it would otherwise receive.

Bubear Defeats Ten Eyck.

WORCESTER, Mass., June 30.—George Bubear, champion oarsman of England, beat James A. Ten Eyck 13 seconds in a three-mile race on Lake Quinsigamond yesterday for $500 a side. Bubear's time was 20:16 1-5. Ten Eyck weighed 135 pounds and Bubear 162. Bubear broke his sliding seat soon after starting, and this put him at a slight disadvantage, but kept at work and soon overtook Ten Eyck, who had got ahead on the start. There was little betting on the race, but a large crowd was present, including many sporting men. Bubear won easily, the last half of the race being mere play for him.

The Winning Thistle.

GLASGOW, June 30.—The Mudhook regatta was sailed in the Clyde yesterday, comprising a course of 40 miles for yachts of £30, between the Thistle and the Lex. There was scarcely any wind until near the finish of the first round, when the commodore stopped the race and awarded the victory to the Thistle, which was then 18 minutes and 19 seconds ahead of her competitor. It is understood that the American schooner Fortuna will compete with the Thistle and the Lex in the Largs regatta, which will be sailed on July 6, and will challenge the Irex for the Brenton's Reef cup.

The Case Against Kissane.

SAN FRANCISCO, June 30.—In the circuit court yesterday the demurrer of William Kissane, alias W. K. Rogers, to the suit of the Chemical National bank of New York was filed. The defendant claims that the present action is barred by the statute of limitation. Accompanying the demurrer is a statement that Kissane was in the state of New York in the month of March, 1887, during the accruing of the alleged cause of action, and that no action at law was instituted.

Chief Mountpleasant's Successor.

BUFFALO, N. Y., June 30.—The election of a chief to succeed John Montpleasant, the venerable ruler of the Bear clan of the Tuscarora Indians, took place yesterday. His successor is Thomas Williams, 34 years old, of the same clan as his predecessor. The nomination of Mr. Williams was made by the female descendants of Chief Montpleasant, and the election was conducted with the usual ceremonies of the Six Nations. The proceedings were very interesting.

A Belgian Forger Arrested.

NEW YORK, June 30.—Albion De Schampelaere, who committed forgeries and thefts amounting to $10,000 in Belgium a year ago, was arrested in this city. He has been working here as a gluemaker by the name of John Marcus. He is said to have attempted to derived no benefit from his forgeries, as he used the proceeds in his business, which was unsuccessful and ended in bankruptcy, resulting in the forger's exposure and flight to this country.

Field's Narrow Escape.

NEW YORK, June 30.—It was freely stated yesterday that Cyrus W. Field had narrowly escaped bankruptcy. His losses on Manhattan elevated stock amount to $1,000,000 to $2,500,000. It is also understood that Mr. Field yesterday parted with 20,000 shares of Manhattan in addition to the 50,000 shares sold to Mr. Gould Tuesday. Mr. Gould took the 20,000 shares, and it is stated that Mr. Field is no longer a holder of Manhattan.

A Widow's Rights.

BOSTON, June 30.—The supreme court, in the case of Annie Staigg vs. George Atkinson, executive, has decided that Mrs. Staigg, the widow of M. Staigg, the well known artist of Newport, who died in 1881, is entitled to a widow's dower of one-third in the estate of her husband, although she had been bequeathed the sum of $10,000.

Drunkenness as a Defense.

JERSEY CITY, June 30.—Patrick Carroll, charged with the murder of Lippelgon, the German musician, was found guilty of murder in the second degree yesterday afternoon. Orrell's defense was that he was drunk on the night of the murder, and that he had no recollection of what occurred. Sentence was deferred.

A Colored Lecturer Drowned.

AUBURN, N. Y., June 30.—J. W. H. Parnell, a young colored man, of Auburn, who had been lecturing throughout the state on "The Colored Races in America," was drowned in the Hudson river, near Hudson, yesterday.

McGLYNN AND GIBBONS.

THE VATICAN WANTS A REPRESENTATIVE AT THE CAPITAL.

At Least So Says Dr. McGlynn, and He Charges the Cardinal with Treating the Matter Evasively—Will the Priest Become a Knight?

NEW YORK, June 30.—The Rev. Dr. McGlynn arrived from Chicago yesterday. He talked last night in regard to his statement at Buffalo that it was the desire of the pope to establish diplomatic relations with this country and have an ambassador at Washington. Dwelling particularly upon the statement made by Cardinal Gibbons, that the pope has not expressed and does not entertain any intention of sending a nuncio to this country, he said:

"Cardinal Gibbons' statement is not an explicit denial of mine, but is a carefully prepared evasion of what I said. I am morally certain that, while making this apparent denial, Cardinal Gibbons is as well aware as I am of the facts upon which my statement was based; and I further assert that these facts fully justify my statement. It was easy enough to deny any intention of sending a nuncio to this country without contradicting me, since I purposely avoided the use of the technical word nuncio, knowing well, as I did, that the papal representative would be designated by some other name. I purposely used the word ambassador in its generic sense. I think the best that I can do is to state the facts exactly as I got them and let them speak for themselves.

"A bishop who is very intimate with Cardinal Gibbons, and who must have received his facts either from Cardinal Gibbons himself or from one who could not have failed to tell the cardinal what he told the bishop, told me, perhaps a year ago, that the Roman ecclesiastical authorities were anxious to have a diplomatic representative accredited to, and received by the government at Washington, and that Bishop Dwenger, of Fort Wayne, Ind., who had but recently arrived from Rome, had undertaken to sound the authorities in Washington and had done so, and had sent back word to Rome that nothing could be done with the present cabinet.

"The bishop also stated to me that Bishop Dwenger's expected reward for this diplomatic service was the archbishopric of St. Louis, when the venerable octogenarian incumbent, Kendrick, should have shuffled off this mortal coil."

As to a published statement of "a gentleman residing in Washington, well informed upon Catholic affairs," Dr. McGlynn added:

"This gentleman is either deceived or deceiving when he says that the return of Bishop Devenger and one or two others to have here, for convenience, some one to act as a medium of communication with the bishops and the clergy."

"Surely Bishop Devenger's visit to Washington and his sounding of the cabinet could have had nothing to do with this purely ecclesiastical appointment. The Washington gentleman shows that this very question of a papal representative at Washington has been discussed, and I must have been, if the gentleman is correct, very misinformed, since he tells us that the American hierarchy is against any change in the present plan of government, and particularly against the establishment of a nuncio. He tells us, too, and also that Cardinal Gibbons is opposed to it strongly, as are the other leading prelates of the country, including Archbishop Corrigan, who expressed unfavorable opinion to it when in Rome more than a dozen years ago. All this is no proof against the assertion that the Roman authorities did desire such representation, but it is in keeping with the desire of the Roman machine to make places for its Italian hangers on, of which desire an archbishop of one of our most important cities informed me in conversation with me three years ago. It was about the time that the Roman authorities had as good as appointed one Sepolcri, an Italian Augustinian friar, to a bishopric, knowing, I believe, a word of English, to preside over the Council of Baltimore. It was a matter of common talk that several of the American archbishops were then assembled in Rome had to browbeat the cardinal advisers of the pope into withdrawing the name by conferring upon divisions of national prejudice and susceptibilities to be aroused and by refusing to be responsible for the consequences.

"Again, it is in keeping with what is going on to-day in the attempt to establish papal diplomatic relations with England, and in the dispatch of two Italians to investigate Catholic Ireland and report to their Italian master."

Dr. McGlynn said as to the statement that he was about to join the Knights of Labor:

"At the present time the Assembly is in Chicago Secretary Turnbull said: 'Dr. McGlynn, you are too good a man to have outside our order.' There was a good deal of pleasantry going on, and I left it largely with a definite way, that I would consider the subject when I got back to New York. The other matter about running against Mr. Powderly was not introduced before Dr. McGlynn was asked whether he had anything to say about his expected excommunication by the Pope.

"No. I never yet said that I had received any communication from the Pope. I do not care to discuss the matter now."

A Fight in a Church.

KNOXVILLE, Tenn., June 30.—News comes from Stony Gap church, Hancock county, of a fatal shooting there Tuesday. Will Hobbs, a member of an outlaw gang that has killed several men during the past two months, was in attendance at the meeting with a pistol buckled around him. Deputy Sheriff Green tried to arrest Hobbs and a fierce fight ensued, in which both men were killed and a number of persons wounded.

CONDENSED NEWS.

Emperor William will leave for Ems next Wednesday and go thence to Gastein, where he will remain for a month or six weeks.

England refuses to accede to the porte's modifications of the Anglo-Turkish treaty. It is reported that France's protest has irritated the sultan, and that he will ratify the convention.

Several persons accused of belong to secret societies in St. Petersburg and of other crimes, under sentence of death, have had their sentences commuted to imprisonment.

Disclosures now make it quite evident that the sculptor Schmid has sought relief from his troubles in the waters of New York harbor.

A severe earthquake shock occurred in Guayaquil, Ecuador, causing much damage. The families of fifteen strikers at the Pennsylvania salt works, Natrona, were evicted by the sheriff.

Ex-Governor Morrill, of Maine, is slowly sinking at his home in Augusta. The physicians say he may survive twenty-four hours.

The Ohio Prohibition convention has organized. H. Deane, of Cleveland, is the leading candidate for governor.

David Armstrong's bond as receiver of the Fidelity National bank of Cincinnati has been accepted, and he is now in charge of the defunct institution.

Serious Injuries from a Blast.

MEDINA, N. Y., June 30.—Earl Bowen, 11 years of age, while picking charges in a tree 200 feet from the Howell quarries, was struck upon his head by a large stone hurled into the air by a blast. He fell senseless from the tree with his skull crushed. The injury is very serious if not fatal, but few hopes are entertained of his recovery.

Ex-Governor Rose Dead.

PHILADELPHIA, June 30.—Ex-Governor W. H. Rose, of Delaware, died yesterday at the home of his daughter in this city.

Wrecked Seamen Landed.

NEW YORK, June 30.—Capt. Burdge and eight seamen of the schooner Joseph Raymore arrived here on the steamship Italia. The schooner, while on a voyage from Georgetown, S. C., for New York, was wrecked. The men suffered greatly for two days, when they were taken off the wreck by a steamer of not fatal, which afterward transferred them to the Italia.

A Merchant's Downfall.

ROCHESTER, N. Y., June 30.—Frank Tulley, formerly a prominent stove merchant in this city, was yesterday sentenced to Auburn State prison for three years and three months on two indictments for forgery, to which he pleaded guilty on Monday.

Proposals for Big Guns.

WASHINGTON, June 30.—The Secretary of the Navy has invited proposals for three heavy six-inch breech-loading rifled cannon, to-day of discharging projectiles weighing 100 pounds each, with a muzzle velocity of not less than 2,000 feet per second.

EDSALL'S GREAT SPECIAL SALE!

YARD SOUTH SECOND STREET.

AN ORDINANCE
To macadamize, by spreading stone, Front street from the west avenue to the easterly boundary of the city of Terrell road.
The inhabitants of the city of Plainfield by their Common Council do enact as follows:
SECTION 1. That Front street between Netherwood avenue and the easterly boundary of the city for the width of eight feet on either side of the center line of said Front street, as now in public use, be macadamized by spreading crushed stone for the average depth of four inches, said crushed stone to be of good quality, to be thoroughly laid and compacted and properly rolled, so that when completed the surface shall be smooth and even. All of said work and macadamizing is to be done under the supervision of the Street Commissioner.
Adopted June 6, 1887.
Approved June 6, 1887.
JOB MALE, Mayor.
Attest:—O. B. LEONARD, City Clerk.

WOMAN AND HOME.

A WIFE REVIVES A HUSBAND WHO WAS "CLEAN DISCOURAGED."

Discipline of Children—A Wise Mother's Secret of Educating Them—Plenty of Closet Room—A Young Man's Fate. Hints on Carving.

"It's the last time I am going to try! Luck is age and me, and I'll just give up." There is no use of trying to do anything when the odds are against you."

It was John Harris who was doing the talking. His wife was sewing buttons on the children's clothes as they had gone to bed. As she left the last button, she had no opportunity to [illegible] off, she had no opportunity to [illegible] husband, even if she had the inclination.

Mr. Harris resumed:

"I'm clean discouraged, that's what I am! Course I don't think of myself"—Mrs. Harris sighed—"I buried a little, and one button and rolled under the table—"it's you children I'm worried about"—another button rolled away—"and if it wasn't for the [illegible] Mary, I'd—"

The child not finish what he was saying, as then Mrs. Harris coughed and all the buttons flew out of her mouth.

"Is that such a bad failure?" she asked tly. She was darning the children's rags no [illegible], having sewed on all the fugitive buttons.

"You don't be worse. When a man's mental as all the money out of the business, and drips to a foreign country, every by bounds him to death as if he had been bounded, all the creditors are clamoring their money, not because they need it, but because I haven't got it. It's no use, Mary; I'm a ruined man, and I'm going to find a way out of it all."

"How?" asked Mrs. Harris, calmly, although the long, slender needle she was using trembled and vibrated in her hand.

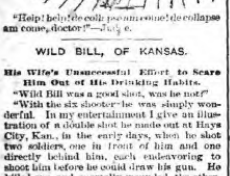
"There are more ways than one," he answered significantly. "I shall not live to see you want or to be a burden on you and the children. There is no dishonor attached to my name, now. We have lived within our means and tried honestly to succeed. It was rash, I suppose, to embark all in one venture and lose it."

"You have not lost all," suggested his wife, "you have health, wife and children and an unblemished character."

"Pshaw!" replied Mr. Harris, careless

Relapse and Collapse.

Doctor—The only thing I fear is that the patient might have a relapse.



"Help! help! he's collapsing! he's collapse am come, doctor!"—Judge.

WILD BILL, OF KANSAS.

His Wife's Unsuccessful Effort to Scare Him Out of His Drinking Habits.

"Wild Bill was a good shot, was he not?"

"With the six shooter he was simply wonderful. In my entertainment I give an illustration of a double shot he made out at Hays City, Kan., in the early days, when he shot two soldiers, one in front of him and one directly behind him, each endeavoring to shoot him before he could draw his gun. He killed one and mortally wounded the other, and the two reports of his revolver seemed almost as one. The marvelous feat was the talk of the country for a long time. In fact, when I came by there a few days ago, one of the old residents who witnessed the killing mentioned it to me, and said he could scarcely believe it even after seeing it. Bill never missed his mark. I have seen him take a pistol in each hand and fire with right and left, pistol at a can thrown in the air, hitting it with both bullets. By the way, I heard a very funny story told of Bill some time ago. If you remember, he married Mrs. Agnes Lake, widow of Lake, the circus man. Bill fairly worshiped, his wife, but despite his great love for her she never could induce him to quit drinking. He would come home full of bad whisky, and one day Mrs. Hickok said to him:

"'Bill, if you don't quit this drinking pretty soon you will certainly go to some one's yard.'

"'Monkeys!' said he. 'What do you mean, little one?'

"'Why, you know, when people back east drink too much of the kind of whisky they get back there they see snakes, but this awful stuff out here makes them see monkeys.'

"Bill laughed at her, and did not give the matter a second thought, little dreaming that she had 'put on a job' to break him of his intemperate habits. There was a tame monkey in the town—Cheyenne, I believe it was—and Mrs. Hickok had induced its owner to loan it to her for a night. Bill came home that night comfortably drunk, and after he had gone to sleep his wife secured the monkey and chained it to the foot of the bed. Then turning down the light a little, she too retired and awaited results. Bill woke up in the night burning with thirst, and raised up into a sitting posture, intending to get out of bed and get a drink of water. There, perched up on the footboard, was the monkey, staring him in the face with those grimaces. He rubbed his bleared eyes, looked again, and a horrible suspicion came into his befuddled brain. Had his wife told him the truth? Did he really have 'em? Finally, he sprang out on the floor, seized his six shooter, which lay on a table near, leveled it at the creature and said:

"'Now, old man, if you are a monkey you are in a bad fix; if you ain't a monkey I'm in a bad fix.' At the same instant he fired, and the monkey fell over in the agonies of death. His wife, who had been watching the workings of her scheme, sprang up in bed with a scream, and Bill, turning to her with a broad smile of the most intense self-satisfaction, said:

"'Little woman, congratulate me, for I have just had a wonderful escape. I ain't as drunk as I thought I was, and the pet's a monkey lyin' there on the floor that'll never intrude itself into the domestic felicity of another happy family or make a gentleman drunk he's got the jimjams."—Kansas City Times.

Plantation Philosophy.

In one respect a dog is mighty like a man. De man's sense he's got de bigger rascli he is.

"Once I was er bigger provider dat I has played enny wile de night befo' git up an' beg de sinners ter come up ter de bench, I gits so full o' laugh dat I wants ter holler right dar.

In de work of dis heah life, 'couragement ornaments fer de man is er celebrity. I doan' keer how much sense er man has got, ef he has ter work under de lack o' 'couragement, he ain't gwine ter do his best.—Arkansaw Traveler.

She Knew What He Needed.

It was one of the genus tramps. He knocked at the door of a house, and when a kindly looking woman opened it he said:

"Madam, I am very hungry. I have had nothing for a week back."

"Why, my poor soul," said the good woman, "wait a moment, and I'll find something for you."

And she gave him a porous plaster, and closed the door before he had finished thanking her.—Chicago Sunday Natisonal.

Easily Identified.

Omaha Man—You gave a tramp something to eat yesterday, didn't you?

Younge Wife—Yes, poor fellow.

"Gave him some of your sponge cake, didn't you?"

"Why, yes, and did. Why?"

"Nothing. The paper says the body of a man who had evidently died in great agony was found in the willows this morning."—Omaha World.

Very Plain When You Know.

When you ask a Georgia man how far it is to the next plantation, and he answers that it is "a peek and a right smart screech," he is supposed to mean that it is as far as you can see from where you stand and then as much farther as a strong voice can be heard.—Albany Argus.

If He Was Embarrassed What Was She?

An embarrassed young man who had just been married by a clergyman of this city, not knowing how to express his gratitude in handing over a small fee, said, "I hope to give you more the next time."—Newburyport News.

The all Wool **$10** Suits have been reduced to **$7** at Werners Clothing House.

30 W. Front St.

VOEHL'S

QUEEN BREAD

Should be tried. Ask Your Grocer for it.

And also try his unequaled

New England Bread

None of the latter is genuine except bearing the label. Also a variety of cake made of the best material. Thankful for past favors we solicit the continued patronage of our friends.
